

Bodyguard 7051

Chapter 7051 Activate The Array!

Hmph, wait for me to teleport away first, and you'll all be crying!

With that in mind, Wang Ba said, ""Master, hurry up and activate the teleportation array. Let's see if it's really repaired."

"Lin Yi bro, why don't we try it?"

Han Jing Jing looked at Lin Yi, her eyes asking for his opinion.

"Okay, Jingjing, you can start! I hope everything goes well!"

Lin Yi nodded and gave han Jingjing an encouraging look.

Han Jing Jing clenched her fist and waved it, then immediately began to operate the technology of the teleportation array.

The system's operations were smooth, and the combination of technology and the spell was extremely compatible. The entire spell shone brightly, and in just a dozen seconds, a door of light that could allow two people to walk side by side was formed.

"I've succeeded!"

Han Jing Jing let out a small cheer before frowning. ""Something's wrong! Lin Yi bro, there's something wrong with this teleportation formation-it can teleport to two destinations, but one of them was closed off by the other side, just like the metal disc from before!"

Lin Yi and Ding Yi looked at each other, both guessing that the one that was turned off was the backup transit station!

"Jing Jing, what about the last teleportation target? Are there any problems?"

Lin Yi asked. He had to go to the backup transit station, but he had to repair his body first to ensure that he could live on well, so he just needed to go to the valley!

"Hmm ... There doesn't seem to be any problems at the moment. It's just that there might be some dangers during the teleportation process ... Because it's a little different from the original one, although we've repaired it, it's not 100% restored!"

Han Jingjing's brows furrowed slightly, and she was a little uncertain. "Lin Yi bro, why don't we do some more tests to make sure it's safe?"

Wang BA's ears quivered a few times. Was teleportation dangerous? Then, should I snatch it or not?

If they rushed to the teleportation point and something went wrong, wouldn't they become Lin Yi's scapegoat?

Bah! I don't want to be Lin Yi's scapegoat! Letting this brat Scout the path for yours truly is the right thing to do!

It was decided then-as long as Lin Yi and little bastard were fine, it wouldn't be too late to teleport then!

Wang Ba thought to himself and became more confident. He was still a little nervous just now because he wanted to get the first move.

Lin Yi rubbed his chin and turned to the man."Chairman ding, are you sure this is the teleportation array to the Azure sky Valley?"

There was no problem with taking the risk, but it had to be worth the risk. If they were not going to the blue sky Valley or a backup transfer station, but some random trap or something, wouldn't it be too much of a waste?

So Lin Yi had to double-check, he couldn't be careless!

"In the information I received, it was mentioned that central is going to the Azure sky Valley to investigate something, and this is where the crack leading to the Azure sky Valley is located. So, one of the two transmission channels must lead to the Azure sky Valley!"

Ding one pondered for a while, then nodded and said, ""The other one is probably a backup transfer station. It's just that we can't be sure which one is closed. Young hero Lin, you can only take a gamble and see where you can go!"

"If it's really as Chairman ding said, these two destinations are actually not bad. It's not considered a loss no matter where we go!"

Lin Yi's lips curled up as he slowly walked towards the teleportation formation. "Since it's a sure-win business, why not take a gamble?"

"But Lin Yi bro, there's still danger in this formation ..."

Han Jing Jing panicked and grabbed Lin Yi's arm, "Let's wait a little longer, okay? Wait for Jingjing to ensure that there won't be any problems during the teleportation process ..."

"Miss han, with all due respect, this teleportation array was originally something that was destroyed and abandoned by the center. Since it has been repaired and is trying to connect the two target locations, I'm afraid the other party has already known about it!"

Ding Yi smiled and said in a nonchalant tone, ""If we drag this on for too long, it's very likely that the other dimensional gateway will also be closed. Then, we won't even have the chance to take the risk!"

Han Jingjing was slightly stunned. This was not impossible. In fact, it was quite possible!

Lin Yi bro's condition wasn't good to begin with, and if he lost the chance to go to the valley, it might be even more dangerous than taking the risk of teleporting!

"Jing Jing, don't worry. It'll be fine!" He said.

Lin Yi patted the back of Jingjing's hand, consoling her, "It's not like you don't know my abilities. A little danger is nothing!"

"Lin Yi bro ..."

Han Jingjing didn't know what to say. She paused for a moment before saying softly, "I'll quietly wait here for you to come back!"

"Ha ... That's good. I'm relieved to leave this place to Jingjing. As for the island, Wangba can keep an eye on it. You can go back and take a look occasionally."

Lin Yi thought about it and didn't object. The wormhole was important, but the teleportation formation couldn't be lost, either.

Han Jingjing was the only one who could react in time to whatever tricks central had up their sleeves ... She couldn't possibly go to the Azure sky Valley and end up being trapped there!

"Yes, I know what to do. I won't let anyone from central cause any trouble!"

Han Jingjing's heart was a little heavy, but she showed a relaxed and confident expression on her face. ""Jing Jing isn't that strong, but she's got a lot of tricks up her sleeve. Lin Yi bro, come back as soon as you can, there's no problem!"

"I'm assured when you do things!"

Lin Yi nodded with a smile and took out a storage bag for her. "Here are some cultivation resources. Take this opportunity to cultivate. Although you have many methods and trump cards, your own strength is also very important."

"Good! Jing Jing will definitely work hard to cultivate ..."

Han Jing Jing took the storage bag and nodded vigorously. ""When Lin Yi bro comes back, he'll be able to see an even stronger Jing Jing!"

As the two spoke, Wang Ba started panicking-what was this little bastard Lin Yi doing? get into the formation!

The earlier you go in, the better I'll be able to see if you're dead or not! Then, he would decide if he wanted to go or not!

Fortunately, Lin Yi didn't make Wangba wait too long. After talking to Han Jingjing, he greeted Ding Yi and entered the teleportation formation.

The teleportation formation lit up with a bright light, and everyone's vision went white. Lin Yi had already disappeared, and as for whether he passed through the tunnel safely, they had no idea!

Wang Ba was a little dumbfounded. What was the result that he wanted to see?

Lin Yi, the little bastard, was Dead or Alive, and he didn't know if he should stay or leave.

"Master, is boss Lin Yi alright? Can we tell?"

Wangba pretended to care for Lin Yi, "He should be in the Azure sky Valley by now, right?"

Chapter 7052 Darkness Magical Beasts 'Base Camp

"I don't know either ... After the teleportation was activated, the system shut down automatically! The next teleportation can not be performed in a short period of time, and the teleportation process can not be monitored and the result of the teleportation can not be obtained!"

Han Jingjing frowned, her expression serious. This was within her expectations, but it didn't reduce her worry for Lin Yi, "I hope ... Lin Yi bro's fine ..."

Wang Ba wanted to cry but had no tears. If he had known this would happen, he would have given it a shot just now!

If Lin Yi got the purple mist evil Lotus first, what would I have to do?

He could only pray that Lin Yi and little rascal would be dead in the middle of the transfer ... No! That little bastard's spiritual awareness imprint was still there!

Lin Yi, the little bastard, was still alive!

F * ck! The teleportation was a success!

Wang Ba was really regretful this time. He had confirmed something that Han Jing Jing couldn't be sure of with his spirit sense mark. He really couldn't tell whether he was happy or sad.

"Master, how about we activate it again and let me go help boss Lin Yi? There's strength in numbers, it's always better to have a helper!"

Now that Wang Ba knew that Lin Yi wasn't dead, he wanted to encourage Han Jing Jing to activate it again. She said that they couldn't teleport in a short time, but it shouldn't be too long.

"No, this teleportation formation has been repaired, but it can't be used too often. Lin Yi bro will need it to come back! I need to properly maintain this teleportation formation!"

Han Jing Jing did not hesitate to reject Wang Ba, before ordering, ""Wangba, go back to the island base and guard it. This is Lin Yi bro's order, you can't make any mistakes!"

Wang Ba wanted to object, but when he saw han Jingjing's serious and stern eyes, he immediately nodded and agreed.

After spending so much time with han Jingjing, he understood this seemingly cute little girl very well. Once han Jingjing revealed such an expression, it meant that there was no doubt.

If he continued to babble, han Jingjing might just use the primordial spirit control hub to deal with him. So, Wang Ba did not dare to say anything and left Half Moon Lake.

After the small interlude, Lin Yi had already appeared from the teleportation formation.

The teleportation formation was in a crevice in a rock. Its location was quite hidden, and it was almost impossible for people who didn't know to find it.

Squeezing his way out of the cracks in the vines, Lin Yi realized that he was in a strange forest.

There was no sign of life in this forest. There was no green at all. There were black plants everywhere, no matter if it was trees or leaves. There was no exception.

There was a faint black mist everywhere he looked, and it was filled with poison. If Lin Yi wasn't an essence spirit, he might've been poisoned to death.

A normal person would've been killed in an instant if they'd stepped in there. Lin Yi was curious-could Central's people have been wiped out already?

Other than the black mist, Lin Yi also found a Black Swamp.

The ground looked normal, but there were many plants on it. However, one or two bubbles would burst occasionally, which was enough to show that the ground was a bottomless swamp that devoured everything!

Stepping on it would be no less dangerous than the poisonous black fog.

At first glance, he could already tell how dangerous this place was. How many more dangers were there that he had not seen?

Lin Yi was surprised, and couldn't help but wonder if this really was the valley. Or was it a trap set by the center?

However, it didn't seem right for central to go to such great lengths to set up a trap to trap him ...

Thinking about the description of the valley from the water lily, Lin Yi felt that maybe he was right to come!

The Azure sky Valley was a poisonous Valley filled with poisonous fog and all kinds of poisonous things, which was very similar to the current environment.

The only thing wrong was that this forest was a Little Big and didn't look like a poison Valley.

Perhaps the Azure sky Valley existed in a corner of this forest. What he needed to do now was to find the right location!

Lin Yi had a plan in mind and immediately released his spirit sense. There was strong interference here, but it was much stronger than what he could see with his eyes.

Although Lin Yi's yuan spirit was immune to poison, it was hard to walk on the ground. He decided to fly in the air as a Yuan spirit. It was easier to move and observe the situation.

As far as he could see, whether it was with his eyes or with his spiritual sense, there was only a Black Forest and endless poisonous fog. For the time being, he had not found the valley that he had expected.

Lin Yi had no choice but to leave a spirit sense mark below and fly slowly in a direction, hoping to find something.

He didn't fly far before the Jade space suddenly alerted him. Lin Yi was shocked and his essence spirit acted on instinct, teleporting and avoiding a dense cluster of spirit sense rain needles!

"Divine hidden demon eyes?!"

Lin Yi shivered. This familiar attack was the signature skill of the dark Beast that controlled Chu Jiawang. He didn't expect to see it again here.

Lin Yi followed the direction of the attack and found the source of the attack. It was a Black Squirrel-like beast, but its two little eyes were shining with a strange light.

"Hehehe, I didn't expect to meet a human primordial spirit who could recognize me. It would be a pity to kill you ..."

The black Squirrel grinned, its expression extremely human. At the same time, it spoke clearly in the human language, ""Your reaction is not bad. Why don't you surrender and be my follower? I'll reluctantly accept you. What do you think?"

"I don't think you're that good to be my underling. Killing you is the best choice!"

Lin Yi laughed coldly. He didn't have a good impression of the divine hidden demon eyes. The black Squirrel in front of him was most likely a living being that had been parasitized, not the true body of the divine hidden demon eyes. He didn't want to waste time and attacked immediately.

The divine sense pill fire vortex!

This was the only spiritual sense attack Lin Yi could use against the divine hidden demon eyes!

The soul-snatching hand and the like were unable to break through the primordial spirit defense of the divine hidden demon eyes, so he sent out three spiritual awareness elixir fire vortexes at once, completely surrounding the black Squirrel, aiming to kill it in one blow!

It wasn't the same one controlling chigawain this time, but Lin Yi's killing intent towards it didn't decrease.

After shooting out three consciousness pill fire vortexes, he began to condense a super pill fire missile in his hand, preparing for the last one. Regardless of whether it was useful or not, he had to block the black squirrel's possible escape route.

The black Squirrel let out a sharp scream. Its body was like lightning, and in a flash, it passed through the siege of the three spiritual elixir fire vortexes. Although it had suffered some damage, it had at least escaped.

Chapter 7053 Not The Blue Sky Valley?

Lin Yi's heart skipped a beat. The demon Eye in front of him was a small beast, but it seemed to be stronger than the one in the abandoned land!

If Lin Yi's spirit was as strong as it was now in the abandoned land, he would've killed the demonic eye that was controlling Chu Jiawang!

However, the divine hidden demon eyes in front of him was only a little embarrassed, and he avoided the siege of three spiritual awareness pill fire vortexes with light injuries. He really couldn't be underestimated.

"Good boy! You've really angered me! I didn't expect to encounter such a powerful human primordial spirit here. If I don't give you a good beating, I won't live up to the name of the divine hidden demon eyes!"

The black Squirrel grinned evilly as it finished speaking. It had already rushed to Lin Yi's side, and the storm needles descended again!

Lin Yi didn't dare to be careless and used all his strength to deal with the divine hidden demon eyes. Both sides attacked and defended, and it was hard to tell who was on the other side!

"Something's wrong! How did a human primordial spirit like you appear here?"

The black Squirrel with the demon eyes retreated after a while and stopped on a black branch, looking at Lin Yi suspiciously, ""This place has never had a human primordial spirit. You ... Did you come from the outside?"

At this point, the black squirrel's two small eyes suddenly burst with a shocking excitement. ""There's no mistake! You're a primordial spirit that came in from the outside! Speak! How did you get in?"

Lin Yi frowned-didn't this mean that he'd never met anyone else before? Could it be that the people from central had never been here before?

Or did the people in the center come here before, but they were killed by the poisonous fog and the swamp, so they were not discovered by the divine hidden demon eyes?

"You don't want to tell me? It didn't matter! When I deal with primordial spirits, I've never been afraid of my opponents!"

The black Squirrel didn't have much patience-Lin Yi's mumbling made it impatient, and it let out a strange screech after speaking.

Lin Yi raised his guard a little, thinking that it was some sort of Sound Attack or something that could affect the spirit.

However, he immediately realized that he had been overthinking it. The shrieking sound did not have any offensive power at all, and was just a signal!

With a sharp screech, a type of fist-sized black spider appeared from all directions, quickly surrounding Lin Yi. Even the swamp below had this type of Spider, and they quickly moved their eight long legs, moving like the wind over the swamp to approach Lin Yi.

"It's the dark night God-hunting Spider!"

The ghastly thing's serious voice sounded in Lin Yi's consciousness, ""It's a type of darkness demon beast. It likes to hunt and devour primordial spirits. It's quite brutal, but its reproductive ability isn't that strong. Compared to the corpse demon bees and sun-devouring rats, it's not that strong. "

Lin Yi's mouth twitched. Competing with the sun-swallowing corpse demon bee's reproductive ability? It was already very terrifying to be even a little close to it!

Judging from the number of midnight divine Hunter spiders that had gathered from all directions, there were at least a thousand of them. It was indeed not comparable to the sun devouring rat tide or the corpse demon Hornet, but it was still an extremely terrifying force!

Especially since these little things liked to hunt and devour spirits-they were Lin Yi's natural enemies in his current state!

"What weakness do you have? Are you afraid of fire?"

Lin Yi just wanted to know how to kill them-it'd be best if he didn't use too much energy, or his essence spirit would be unstable again.

"Flames are indeed the bane of the midnight Godhunter Spider, especially worldly spiritual flames like the icy blaze fire ... But you'd better be careful when you use it here!"

The ghastly thing said with uncertainty, ""The continuous appearance of the divine hidden demon eyes and the Darknight God-hunting Spider ... I feel like this place is more dangerous!"

"Senior ghost, you mean ... There are other darkness magical beasts here?"

Lin Yi's heart shivered. If that was the case, then things would be troublesome!

"This old man thinks it's very likely! Maybe this is the darkness magical beast's base camp ..."

The damn thing's guess wasn't without a reason-Lin Yi understood it in an instant.

For example, the sudden change in attitude of the divine hidden demon eyes, forcing Lin Yi to come in from the outside world-was he trying to find the teleportation channel to leave this place?

"Catch this kid! Be careful, don't hurt his primordial spirit!"

The demonic eyes commanded loudly, and the dark night God-hunting spiders spread out, spitting out webs in an attempt to capture Lin Yi alive.

"Be careful. Don't touch the midnight God-hunting spider's web. The web has the power to weaken the soul. If you touch it, your strength will be greatly reduced, and it's hard to guarantee that you can escape."

The damn thing warned Lin Yi in a low voice, "Hurry up and leave. Don't get tangled up with these dark night God-hunting spiders. If more darkness magical beasts come, we won't be able to escape even if we want to!"

Lin Yi thought so too. Spirit only made him immune to physical attacks, but he couldn't ignore the Darknight God-hunting spider's web. If he was trapped, he might really be captured alive.

However, it was impossible for him to escape now. The faint black light spread out and formed a net around Lin Yi. Even if his spirit was illusory, he couldn't get out.

"Senior ghost, we have no choice but to burn it. I hope it really works and won't attract other darkness magical beasts!"

As Lin Yi spoke, he waved his hand and sent out a wave of icy fire. The icy fire landed on the spider web, freezing the black web instantly and turning it to ashes.

"Of course it's useful! The Darknight God-hunting spider's web is a natural restraint on the primordial spirit, but it has an extremely low resistance to fire. Let alone icy blaze fire, even ordinary pill fire can be very effective. "

The damn thing explained, "Don't just focus on guarding against the midnight God-hunting Spider. That divine hidden demon eyes can't be underestimated either. Be careful not to get ambushed by it!"

Lin Yi replied and his spirit went through the tunnel, leaving the place.

The demonic eyes screeched again, following closely behind Lin Yi. The spiders also turned around, not giving up on chasing.

Lin Yi formed his Yuan spirit and activated his lightning escape technique. As lightning flashed, the distance between the two of them was quickly widened. Although the darkness demon beasts were known for their speed, there was still a huge gap between them and Lin Yi's lightning escape technique.

In an instant, Lin Yi escaped from the demon eyes and the Darknight God-hunting Spider, but he still couldn't relax ... Because in a short time, he saw a few different types of dark beasts!

This place was really the darkness magical beast's base camp?

Then why didn't they leave? If this place was really the Azure sky Valley, there would at least be a passage that opened once every 700 years for them to leave. Why would they need the black-armored void wind beast to open up a passage?

That's right, Lin Yi remembered the black-scaled wind beast in the abandoned land-this was probably where it wanted to connect to!

Could it be that after all this, this place was really not the Azure sky Valley?

Chapter 7054 Terrifying Opponent

Lin Yi had some suspicions, but he couldn't confirm them. He could only keep flying and hope to find the purple mist evil Lotus.

The lightning escape technique was too fast, and Lin Yi was lost in his thoughts. He accidentally bumped into a black light film, but of course, there was nothing wrong before he hit it, so Lin Yi didn't notice it.

After the collision, there was almost no obstruction, and Lin Yi went straight through the light film without any danger.

"A concealment array! Didn't senior ghost discover the concealment array here?"

Lin Yi was a little surprised-he'd been careless, but why didn't this Grandmaster notice anything?

"It's a little strange. Be careful!"

The demonic thing's tone carried a hint of caution. This formation was able to hide from him, so it was naturally something extremely advanced, but it wasn't without Lin Yi's speed. However, he was more concerned about what the formation was hiding!

Lin Yi replied casually and carefully extended his spirit sense out. The scenery inside the formation wasn't much different from the outside-it was all black forests, fog, swamps, and so on. The only difference might be the cave in the swamp not far ahead!

It wasn't exactly a cave-it looked like a Whirlpool in the swamp, but Lin Yi couldn't see what was inside with his spirit sense.

It wasn't impossible to say that this was a bottomless hole. Lin Yi maintained his vigilance as he walked to the edge of the cave. He observed the cave carefully as he kept his guard up.

What was inside?

I can't see it clearly, I can't sense it!

There was only a faint, strange aura rising from it!

"Shall we go in and take a look?"

The ghastly thing opened its mouth and seemed to be a little curious. However, it then said, "Forget it. You need to find the purple mist sinful Lotus as soon as possible. Don't waste your time in such a meaningless place."

"Senior ghost, what if this place isn't a meaningless place?"

Lin Yi looked at the Black Vortex on the ground, wanting to go down and take a look. "What if the purple mist sinful Lotus is down there?"

The demonic thing didn't know what to say-he wasn't sure if the Lotus would appear in a place like this, so he couldn't argue with Lin Yi.

"Think about it carefully. If something unexpected happens, can you still take it?"

After a short while, the ghost said something and then fell silent.

Lin Yi nodded and made up his mind. His spirit carefully approached the black Whirlpool. The Jade space didn't send out any alarm so far, at least he was sure there wasn't any fatal danger.

Only after the essence spirit was sucked into the whirlpool did Lin Yi feel the strong pulling force. It didn't cause him any harm, so he didn't resist and let the force pull him in.

Lin Yi's vision turned black as he felt like he was moving at high speed. A few seconds later, he felt like he was in another space, but the darkness was getting thicker and thicker. He couldn't see anything with his naked eye.

He spread out his spirit sense, but found nothing. Lin Yi floated in the air, not daring to move. The Jade space didn't alert him, but that didn't mean there was no danger.

Lin Yi flicked his finger and shot out a ball of fire. The light cut through the darkness and flew a few dozen meters away, dimming and disappearing in the process.

This darkness ... Was actually devouring the light!

Lin Yi's refinement fire was powerful, but it was devoured in an instant!

With this probe, something seemed to be moving restlessly in the thick darkness.

"Lin Yi, listen to me-let's see if we can go back the way we came!"

The ghostly thing's tone was solemn as it said, ""Something doesn't feel right!"

"Senior ghost, what did you see?"

Lin Yi still didn't receive any warning from the Jade space, so he didn't really care about the ghostly thing's caution, "What kind of Darkness Elemental beast is it?"

"It's possible ... I can't say for sure. Try to see if you can get out first."

The ghostly thing continued to urge him, and the speed of its speech had already increased a little. "Hurry up!"

Lin Yi blinked-this was a rare sight, but it was an emergency!

Out of his trust in the ghostly thing, Lin Yi didn't object to Wanwan's request. He didn't think it was really dangerous, but he still flew up and wanted to leave through the entrance.

But in the pitch-black environment, there was no longer the whirlpool tunnel he entered from. Lin Yi flew up and only felt an extremely soft and tough membrane. Even in his essence spirit state, he couldn't go through it.

Not only that, his spirit felt a little weak when it touched the soft barrier-it was clearly something that countered the spirit. Lin Yi didn't dare to be careless and stopped testing.

"Senior ghost, can you confirm this? What is it?"

Lin Yi raised his guard, trying to get more information from this thing.

"It's hard to say ... If it's really that kind of darkness magical beast, we'll be in big trouble!"

The ghostly thing was silent for a moment, then continued,""Let's try using the icy blaze fire on the palm first. "

Lin Yi opened up his palm, and an ice-colored flame appeared in his palm. The cold air slowly spread out, tearing open a lonely space in the darkness.

The darkness seemed to have a life of its own, slowly but firmly beginning its counterattack. It eroded the light of the icy blaze bit by bit.

However, the icy blaze fire was still a spiritual fire of the world, after all. Its strength was incomparable to Lin Yi's alchemy fire. Even if the light was swallowed, it would use more light to fight back.

"What ... What's going on?"

Lin Yi felt a chill down his spine-the Jade space still didn't give him any warning, but he was sure that this wasn't a good place!

"Light devouring flying ants ... This is probably the nest of the light devouring flying ants!"

The ghastly thing's voice was filled with bitterness. It was obvious that the result was the one he did not want to see the most. "Be careful, don't alert the light devouring flying ant colony. With your current small body, I'm afraid you can't withstand a single charge from the colony!"

"Are the light devouring flying ants very terrifying?"

Lin Yi was shocked. He'd never heard of the light devouring flying ant before, but the thing was so serious. It wasn't simple.

"The light devouring flying ants are an extremely special existence among the darkness magical beasts. They are like black holes in the universe, consuming all energy, including light energy! After they devour energy, they will fall into a deep sleep in the darkness. The darkness they create will automatically devour light and all energy and matter, turning them into their nutrients. "

The ghostly thing quickly explained the characteristics of the light devouring flying ants to Lin Yi. Before facing them, he had to at least let Lin Yi know about his opponent.

Chapter 7055 Light God Crystal

"Therefore, the light devouring flying ants can also devour essence souls. If you get entangled with them, you might be devoured quickly!"

Lin Yi didn't know what to say-he was just looking for the purple mist evil Lotus, how did it become a feast?

Fortunately, the light devouring flying ant should be in a deep sleep right now. Otherwise, it would have been finished, right?

"Senior ghost, if I use the icy blaze fire now, won't I attract the attention of the light devouring flying ants?"

Lin Yi looked at the ice-colored fire in his palm and wondered if he should put it out immediately.

"It will indeed attract the attention of the light devouring flying ants, but you have no other choice now. Among the light devouring flying ants, only the heaven and earth Spirit Fire can protect you for a period of time."

The demonic thing sighed helplessly. "The pill fire just now has probably already attracted the attention of a small number of vigilant light devouring flying ants. If you don't use the icy blaze fire, you might be ambushed at any time."

"We can't continue like this. We have to find a way out!"

Lin Yi calmed himself down and started thinking of a way to leave. "...Is it possible for the icy blaze fire to burn open the membrane above?"

If he could open up an opening, he should be able to leave, right?

"It's possible, but it might not be effective soon. The most important point is that once the icy blaze starts to destroy the light devouring flying ants 'nest, the entire colony will be alarmed. It's hard to say if you'll be faster to escape or be eaten."

The demonic thing said as it merged its spirit sense with Lin Yi and activated the spatial scale.

Layers and layers of spatial scales extended out, finally allowing Lin Yi's spirit sea to sketch out the environment he was in.

The entire space was huge, at least tens of thousands of square meters. Lin Yi was floating at the top, about fifty to sixty meters above the bottom.

Perhaps it was because of this that the light devouring flying ant colony was not alarmed.

The ground at the bottom was covered with fist-sized light devouring flying ants and a field of their eggs. A rough estimate put the number of light devouring flying ants in the millions, not counting the unhatched eggs!

Once all the eggs hatched, the entire colony would probably be in the millions!

Lin Yi's scalp went numb as he couldn't help but take in a cold breath. If this scale of light devouring flying ants appeared in the world, the entire world would probably fall into eternal darkness.

"Senior ghost, why don't we take advantage of the fact that the light devouring flying ant colony is still sleeping and completely kill them?"

Lin Yi's eyes flashed with ruthlessness as he calculated if he could use the Super alchemy fire missiles to wipe out the entire swarm of flying ants.

Although the area was a little large, there was still a chance! Especially if he used the icy blaze fire to complement it, it should be a fatal threat to the light devouring flying ant.

"Do you want to die? With such a large area, you can't control it perfectly. Let's not talk about whether you can guarantee that you can cover it all, just the turbulence in your primordial spirit might take your life!"

The demonic thing immediately objected. Lin Yi's current condition was too bad, and if a small portion of the light devouring flying ants retaliated, Lin Yi wouldn't even have the chance to escape!

"Don't worry. The only thing we can do now is to find the Queen of the light devouring flying ants. If we can control the Queen, we might be able to escape the nest. It will be much easier to escape then."

The demonic thing thought for a moment and gave a more reliable suggestion.

Lin Yi thought that it was a good idea. If it didn't work, he could kill the queen ant and create some chaos.

The problem was, where was the Queen ant? Before he got close, would he be attacked by the light devouring flying ants that were responsible for guarding?

Lin Yi didn't know where the light devouring flying ants were because the spatial scale could sense that they were all motionless. Who knew if they were really sleeping or pretending to be asleep?

"The Queen of the light devouring flying ants is responsible for laying eggs, right? Were these millions of eggs laid by a single queen ant? You're so fertile ..."

Lin Yi suddenly thought of this question while he was looking for the Queen ant. He couldn't help but complain, "Don't tell me the entire ant colony was born from a single queen ant?"

"There's nothing strange about it, right? It's only natural for a queen ant to develop an entire colony. "

The damn thing replied, leaving Lin Yi speechless. If that was the case, would all the light devouring flying ants go into a riot if he held the ant queen hostage?

No, no, no, this result should be certain! Lin Yi suspected that even if he let the Queen ant go, he'd still have a chance to escape. Being chased by the entire colony of ants was the normal outcome, right?

Unfortunately, there was no other way now. Lin Yi thought about it for a while and threw that thought away. He focused on finding the queen ant.

"Lin Yi kid, there's something I forgot to tell you-there might be some good stuff in the nest of the light devouring flying ant queen!"

The ghastly thing suddenly laughed and said mysteriously, ""The ant queen will secrete a type of black liquid that condenses into a crystal. It's called the light God crystal ... Hmm, although it's called the light God crystal, it's actually a black crystal without any light. It can even devour the light around it."

"What's the use of these radiant God crystals? Senior ghost, you mean you want me to get some light God crystals?"

Lin Yi wasn't too concerned about that. His attention was still on the ant queen.

"What do you mean by conveniently getting some ... Even if it's not convenient, I have to get some! This is really good stuff!"

"Do you know that a single drop of the Black Sea soul-consolidating liquid can amplify the effects of the divine light crystal by a dozen times or even several dozen times?" the ghastly thing chuckled.

"It's that powerful?"

Lin Yi was surprised-this light God crystal wasn't anything good, was it? That was a peerless treasure!

Right now, his primordial spirit was being maintained by the Black Sea soul condensing liquid. If he could obtain the light God crystal, he could at least guarantee that he wouldn't be in danger of collapsing for a short period of time!

But Lin Yi was a little suspicious,"Senior ghost, don't tell me you're kidnapping the Queen ant for the light God crystal?"

"Bah! Am I that kind of person? He said it was convenient! The best way to leave now is to kidnap the ant queen!"

The ghostly thing spoke righteously and immediately suggested, ""The Queen ant is most likely in the center of the egg. Be careful and fly over to take a look."

Among the densely packed light devouring flying ant eggs, there were also many light devouring flying ants. Most of them were guards protecting the flying ant eggs, while some were hatchling flying ants that had just hatched!

Lin Yi held the icy flame and slowly flew towards the center of the eggs. He could already feel the killing intent, and it was obvious that some of the light devouring flying ants had their eyes on him, planning an attack.

Chapter 7056 Capturing Bandits And King

Because of the icy fire, the light devouring flying ants didn't launch a sneak attack right away, but Lin Yi didn't have much time left. After all, he'd already attracted attention, and more light devouring flying ants might wake up.

For this kind of race, a small sacrifice was nothing. Lin Yi knew this very well-just like the sun-swallowing rats and the corpse demon bees, they had an absolute number of people and didn't care about the lives of a small number of their own kind!

No matter what, Lin Yi arrived at the center of the eggs after 10 seconds. It was indeed different. There was a small hill, which might be where the Queen ant was.

When Lin Yi got close to the hill, the darkness around him started to rumble!

Immediately, hundreds and thousands of light devouring flying ants rose into the air and surrounded Lin Yi from all directions.

The only sound that could be heard was the resonance produced by the light devouring flying ants 'flapping wings!

Lin Yi was now sure that he'd found the right place!

In order to protect the light devouring flying ant queen, the light devouring flying ants that acted as guards had gone crazy!

The icy blaze glowed brightly, forming a protective layer around Lin Yi. The light devouring flying ants that were charging at him were instantly turned into ice blocks before turning into ashes.

However, the light devouring flying ants that followed behind took advantage of their companions 'defense to reveal their sharp fangs and rapidly gnaw at the invisible flames and light.

In the blink of an eye, the icy blaze's protective layer was weakened by 70 - 80%. Although most of the light devouring flying ants that had devoured the icy blaze had been burned to ashes, this loss did not stop them. Instead, it stimulated them to become even crazier.

Lin Yi's heart went cold. He knew that he couldn't delay any longer. He immediately turned into a lightning arc and wrapped himself in icy blaze fire. He rushed down like a meteor towards the hill!

More and more light devouring flying ants woke up from their deep sleep, bringing with them endless darkness as they tried to stop Lin Yi's advance.

Even if Lin Yi used his lightning escape technique, he couldn't get close to the ant Queen's position in this situation.

Lin Yi gritted his teeth and started to form the Super alchemy bomb. He didn't want to alert too many light devouring flying ants before, but now that he was at the end of the line, he couldn't care less about the size of the explosion!

The icy blaze's defense could still hold on for a while. It was a Spirit Fire, after all, and even if the light devouring flying ant was willing to pay a huge price, it wouldn't be able to break through the icy blaze's defense in a short time. This gave Lin Yi some time and space to move.

If he didn't have something like the icy blaze that could counter the light devouring flying ants, Lin Yi probably wouldn't have the chance to form a super alchemy bomb and would be torn to pieces by the flying ants!

No, it was impossible for there to be any fragments. In the midst of the light devouring flying ants, there would probably be nothing left in an instant!

Soon, the Super alchemy bomb was formed, and Lin Yi didn't wait for the power to be maximized before detonating it.

The flames produced by the explosion engulfed hundreds of light devouring flying ants, both in terms of width and depth, it was quite impressive.

Lin Yi's heart wasn't flustered, and he was abnormally calm. Although the light devouring flying ants that weren't affected were already devouring the Super alchemy bomb, he still opened up a gap!

A lightning arc instantly pierced through this fleeting gap. A small number of light devouring flying ants that tried to block it were immediately frozen and burned by the icy-flame on the surface of the lightning arc, failing to achieve their desired effect.

They're here!

Under the light of the icy blaze, Lin Yi could already see the shape of the hill.

The pitch-black round shell was like a crystal under the light of the fire. However, it did not reflect the light. Instead, it seemed to be vaguely devouring the light. If it was an ordinary person, even if they had the icy flame, they would not be able to see the appearance of this shell.

"Break it! The Queen ant is inside!"

The ghostly thing shouted in a deep voice. This was a critical moment, and success or failure depended on this one move!

Lin Yi didn't have time to answer and swung his fist, wrapped in Ice and Fire, at the black shell with all his might.

It wasn't that Lin Yi didn't want to use a more powerful skill, but he didn't know how strong the shell was. If he accidentally killed the Queen ant inside, it would be a big problem!

A few thousand light devouring flying ants were already enough to tire Lin Yi out, if it was a few hundred or a million ... He probably wouldn't even have the chance to see that many before he was done for!

The fist, covered in ice-colored flames, slammed into the black shell. The flames spread in all directions, and some of them were directly swallowed by the shell, while some of them caused damage to the shell.

Lin Yi was a bit nervous, not knowing what the result of this punch would be. He was ready for a second attack ... Or maybe there wouldn't be a second attack. If the Queen ant was killed just like that, he would have nothing to say!

It was more important to quickly think of a way to escape!

Fortunately, the black shell did not collapse. The defense of the Queen ant was not a piece of cake!

The icy blaze's heat and cold air were very harmful to the black shell. The moment the fist touched it, it started to freeze and burn. When Lin Yi pulled back his fist, the black shell started to crack!

Lin Yi didn't hesitate and punched the black shell again. The cracks increased in speed and when the light devouring flying ants pounced over, his hand had already passed through the biggest crack and entered the black shell.

There was!

The fist came into contact with a moving object, and Lin Yi and the ghost activated their spatial scales to see what was going on inside.

A light devouring flying ant that was a little bigger than Lin Yi was moving its clumsy body uneasily. Lin Yi's palm was open, just enough to grab its neck below its head.

In fact, the ant Queen's Qi was very strong. It was at least in the early stage of the shattered Sea realm. Lin Yi was also shocked, but he couldn't back down now. He had to fight it.

He didn't expect the ant queen to be controlled so easily with just a simple grab. Lin Yi couldn't believe it ... That simple?

But Lin Yi didn't have time to think about it. He grabbed the Queen's neck and pulled it out. The black shell shattered and some even cut the Queen's body.

Obviously, although the light devouring flying ant queen was at the sea Rift stage, she was completely weak and couldn't even withstand a single blow!

"If you want to die, then continue to attack!"

Lin Yi raised the light devouring flying ant queen and scanned the surrounding darkness coldly. The buzzing stopped immediately!

A Dark Demon beast of this level was no less intelligent than a human, so Lin Yi believed that they would understand what he said!

After the Queen was controlled, all the light devouring flying ants stopped attacking, and Lin Yi relaxed!

Chapter 7057 Destroying The Tunnel

There were still some light God crystals in the black shell, but Lin Yi put them away into the Jade space while they were talking.

As long as he could escape the light devouring flying ant's nest, he would at least have a great harvest of light God crystals!

"Very good, it seems like we don't have too many differences!"

Lin Yi put away the light God crystals and started negotiating with the light devouring flying ant, "I just entered your territory by mistake. I don't have any ill intentions. I captured your queen ant for self-protection. As long as you let me go, I promise that your queen ant will not be in danger!"

The Queen ant didn't seem to be in too much of a panic when Lin Yi was carrying her.

"Human, do you think you can threaten my race by holding me hostage?"

A low and feminine voice sounded beside Lin Yi. The Queen turned her head slightly and stared at Lin Yi with her huge cold eyes, ""Although there will only be one queen ant in our tribe, it doesn't mean that the Queen ant won't die. When the old queen ant dies, a new queen ant will be born ..."

"So you're trying to say that you're willing to die for your race without any hesitation?"

Lin Yi's heart sank, but his face was full of disdain. "Even ants covet their lives. You light devouring flying ants are considered distant relatives of ants, right? You're a dignified queen ant. Are you really prepared to sacrifice yourself? You should know that none of you had to die!"

The light devouring flying ants did come in waves, unafraid of death, but that was to protect the Queen. Lin Yi didn't think that the Queen would be like those small fries.

The Queen went silent for a while. For the life and death of its race, it could sacrifice itself, but as Lin Yi said, if compromise could bring peace, it didn't need to court death!

"As long as you let me go, we'll mind our own business! After this, you can kill me to vent your anger, as you wish!"

Lin Yi felt the queen's heart wavering, so he continued, "You must feel that I have offended you. Are you willing to be offended by me until you die? Even if your race can kill me to avenge you after you die, what's the point if you can't see?"

The Queen ant felt that what he said made sense. "This detestable human must die!" However, wouldn't it be happier to see him die with her own eyes?

"Queen ant, don't you think our deal is worth it? Do you think it's not worth it to use your life to exchange for a chance for me to leave?"

Lin Yi continued.

"Human, what you said makes a lot of sense. Although I understand that you must have other plans, as you said, my life is more precious than yours, so I agree to your trade request!"

The ant queen raised her head arrogantly, but Lin Yi squeezed it a little harder, and she lowered her head again involuntarily. She was a little angry, "Impudent! If you treat me like this again, the deal is off!"

Lin Yi grinned-she was acting tough, but if she was, she wouldn't even consider the deal!

It was more in line with the image of a strong queen ant to directly fight to the death after being threatened by others. Since it had agreed to the deal, it could only mean that it was afraid of death deep down!

"Alright, cut the crap. Let me leave your nest. I'll release you when I leave!"

Lin Yi smiled and ignored the Queen's protest. He lifted her up and floated in the air, ""Tell your race to back off. Don't think I can't see them. They're too close!"

The Queen ant was secretly angry, but when it thought that it would be able to escape immediately and then hunt down this damn human, it could only swallow its anger.

A soft hiss came from the Queen's mouth, and the surrounding light devouring flying ants began to retreat. Lin Yi's spirit sense could monitor all this, and he relaxed a lot.

As long as he pulled away, it shouldn't be a problem for him to shake off the light devouring flying ant colony's revenge attack with his speed once he exited the passageway!

"Let's go! Follow this path!"

The Queen said coldly. As it spoke, a faintly glowing passage appeared in the air. "The end is the exit to leave our race!"

"Straightforward! Don't worry, I'll keep my promise!"

Lin Yi said as he flew through the tunnel with the Queen ant. He wasn't worried that it was a trap. After all, the light devouring flying ants were strong enough to deal with him without using such a method.

Anyway, with the Queen ant in his hand, even if he died, he could drag the Queen ant with him as a cushion!

Without the light devouring flying ants blocking him, Lin Yi's speed was as fast as lightning. He quickly passed through the tunnel and arrived at the edge of the light devouring flying ant nest.

There was a small hole rotating open, big enough for Lin Yi to pass through.

"This is the place. You can leave if you go through here!"

"Can you let me go now?" the Queen ant asked coldly.

As long as it was out of Lin Yi's control, the ant queen swore that she would order her light devouring flying ants to tear this human into pieces! He was devoured alive!

Lin Yi didn't know how deep the Queen's hatred was, but he could guess it. He didn't care, as long as he could leave the nest!

"Queen ant, I haven't left yet. Why are you in such a hurry? I'll let you come back immediately after we get out!"

Lin Yi's lips curled up. Before he could finish his sentence, he had already rushed into the rotating hole with the Queen ant, not giving it a chance to argue.

If there was any danger, they would die together!

The anticipated danger didn't appear, and the ant queen didn't play any tricks. Lin Yi passed through the exit easily and happily, and the view in front of him suddenly brightened up ... Fine, it was only a little bit brighter.

After all, the environment outside was still shrouded in black fog. Although it wasn't as dark as the light devouring flying ant nest, it still affected one's vision.

"Is that enough? What other tricks do you have up your sleeve?"

The Queen ant swallowed her anger and said with hatred, ""Now that you're sure I'm not lying to you, do you have any other excuses?"

"No, I didn't! How could there be an excuse? I've always been a man of my word. If I say I'll let you go, I'll definitely let you go! Forget it, you can go back!"

Lin Yi shrugged and threw it into the tunnel. "Hey, I've already kept my promise and let you go! If you still want to deal with me today, then hurry up!"

With that, Lin Yi formed two more super alchemy fire missiles and threw them out before the Queen could react!

Even if these two super alchemy fire missiles were unable to annihilate all the light devouring flying ants, the hole they had created would have no problem slowing down the other party's pursuit.

Lin Yi's attack wasn't aimed at the Queen ant, but at the tunnel, destroying the already unstable tunnel!

Chapter 7058 The Queen Ant Is Dead

Lin Yi let out a breath of relief, slowing down the pursuit of the light devouring flying ants.

After some thought, Lin Yi prepared to leave. The light devouring flying ants weren't easy to deal with. He had to run as far away as possible now. If he waited for them to come out, it was hard to say if he could escape.

"No way ... You can get out of here?!"

Lin Yi was about to run away when he suddenly found another tunnel in front of him. The light devouring flying ants were swarming out of the tunnel, followed by thick darkness!

Two super alchemy bombs were formed instantly, and Lin Yi felt that he could still save himself. As long as he destroyed the tunnel as soon as possible, a few dozen or even a hundred light devouring flying ants wouldn't be much of a threat.

However, before Lin Yi's super pill fire bomb could be used, two more tunnels appeared on his left and right!

Countless light devouring flying ants appeared almost instantly, charging at Lin Yi like a tornado.

There were berserk light devouring flying ants everywhere!

Lin Yi was in his Yuan spirit form, but he still felt his scalp go numb!

He put the two immature super alchemy bombs together, not caring about the effect it would have-he turned and ran.

The lightning arcs flashed and left the explosion range in an instant. The moment Lin Yi left, the light and heat from the explosion were swallowed by darkness as if it had never been there.

Boundless darkness began to spread, following closely behind the flickering lightning arc. Its speed was not slow in the slightest!

Lin Yi scratched his head. Didn't he just catch the Queen ant for a while? why did he let her go? Was there a need to pursue him so relentlessly?

Unfortunately, he was unable to communicate with the berserk light devouring flying ants. He could only continue to activate his lightning escape technique and escape with all his might!

After a while, Lin Yi suddenly felt like he was going in circles in a specific area-he wasn't really that far away, and the evidence was the light devouring flying ant's tail in front of him ...

If he continued to speed up, Lin Yi would be able to charge into the light devouring flying ants.

In addition, the darkness was also becoming denser. It was very likely that after a few blinks, the entire world would lose light. When that happened, this place would become the nest of the light devouring flying ants again!

Go all out!

Lin Yi gritted his teeth and fired the Super alchemy fire missile at the back of the light devouring flying ants. The icy fire also followed with a huge explosion!

The ice-colored fire burned a large area of the light devouring flying ants, but more of them came from all directions, surrounding Lin Yi.

Helplessly, Lin Yi could only continue to use super alchemy bombs and icy fire to create a fire hell to stop the light devouring flying ants from approaching and protect himself from being devoured.

The only hope now was that the light devouring flying ant was unwilling to suffer too great of a loss and would leave of its own accord!

But this kind of hope was more like an extravagant hope. With the light devouring flying ants' fearlessness, they wouldn't stop until they killed Lin Yi!

This time, he was really done for!

Lin Yi smiled bitterly as he defended himself!

He had come to look for the purple mist sinful Lotus, but he hadn't even seen a single strand of it before he was inexplicably eaten by these light devouring flying ants. What terrible luck!

"Eh ... What's going on?"

Lin Yi thought that he was dead for sure, but he suddenly realized that the Super pill fire bomb's flames weren't being devoured anymore. At the very edge, the light devouring flying ants were still in chaos.

"Uh ... If I'm not wrong, you're probably in luck!"

The ghastly thing said with uncertainty, ""The light devouring flying ant colony is in chaos. The biggest possibility is that The Queen Is Dead!"

"How did the Queen ant die? Could it be that I killed him in the tunnel?"

Lin Yi was stunned. He couldn't believe it. The initial attack was only to destroy the tunnel. The Queen ant wasn't the target.

Could it be that he was so lucky that the Queen ant was affected when the passage broke?

"It's very likely that after the Queen ant died, the light devouring flying ants didn't know about it at first and just attacked you according to their inertia. Now, the news has most likely spread, so the ants have fallen into chaos!"

The more the ghost said, the more reasonable it felt. It laughed strangely and said, ""You're really lucky, kid. You can kill the queen ant so easily!"

"Senior ghost, is it a good thing to kill the queen ant? You were already being chased by the ants, and now you're even more determined to fight to the death, right?"

Lin Yi's lips twitched, thinking that it was better to think of a way to escape. "We should be able to escape in the chaos, right? I just don't know where to run!"

As he spoke, Lin Yi's spirit sense noticed that the chaos in the light devouring flying ants was getting worse. To be more precise, the ants were starting to fight among themselves, attacking each other.

"What's going on? Why are they hitting themselves?"

Lin Yi even gave up on the thought of running away, "Don't tell me that the light devouring flying ants have to commit suicide to be buried with the Queen ant?"

If he had known that it would have such an effect, he would have killed the Queen ant in the nest! Why go through the trouble of kidnapping?

"Hahahaha, you've got a big hole in your brain. You actually want to be buried with him!"

The ghastly thing laughed a few times and was in an extremely good mood. "If this old man's guess is correct, the light devouring flying ants are producing a new queen ant!"

"Without the Queen, the entire colony will lose its leader and core. Therefore, they immediately want to give birth to a new queen. The way to give birth to a new queen is by the colony devouring each other and finally transforming, using an entire clan to feed the Queen!"

"This old master originally thought that this kind of thing would at least have to wait until after killing an enemy like you, but I didn't expect that the ants couldn't wait a moment longer and have already begun the process of devouring each other!"

With the explanation, Lin Yi finally understood what had happened to the light devouring flying ants. He was a little speechless ...

He had just thought that he was extremely unlucky, but he didn't expect that his luck would return so beautifully!

He really didn't know what to say!

Speaking of which, wasn't it too much of a joke for the light devouring flying ants to directly abandon him, the great enemy who killed the Queen ant, or to ignore him?

He could have killed him if he had put in more effort!

"Maybe they're afraid that if they continue to attack you, they'll cause too many losses to the ant colony, and in the end, there won't be enough to give birth to new queen ants. After all, there are more unhatched eggs in the ant nest!"

The damn thing made a reasonable guess, and Lin Yi agreed with it!

"Senior ghost, why don't we do something big? How about we take this opportunity to wipe out the light devouring flying ants once they're almost done with their infighting?"

Lin Yi rubbed his chin, deep in thought.

Chapter 7059 Another Flying Saucer

Lin Yi was still thinking about how to escape, but now the tables had turned. He was looking for a chance to kill the light devouring flying ants.

"Good idea. You can try if you want to die."

The damn thing didn't even try to hide its mockery, "It's no problem dealing with the light devouring flying ants, but are you sure you won't be surrounded by other darkness magical beasts?"

To be exact, now that they had left the light devouring flying ant's nest, there was indeed a possibility that other darkness beasts would appear in the surroundings, such as the divine hidden demon eyes and those spiders ...

Although he had obtained quite a few light God crystals and didn't need to worry about his primordial Spirit's condition for the time being, doing so would indeed be very risky!

However, the opportunity to annihilate the entire light devouring flying ant colony did not come by every day. If he missed this opportunity, he probably would not have such a good opportunity in the future!

Lin Yi hesitated and decided to give up on the tempting idea. The light devouring flying ants weren't eating each other very quickly, and he didn't know how long it would take for a new queen ant to appear. He didn't have time to waste.

The longer he stayed here, the higher the chance of being surrounded by the other dark beasts. He decided to leave this place now!

Just as he made up his mind, a ray of light suddenly streaked across the dark sky, and a disc-shaped object suddenly stopped in the air.

Lin Yi wouldn't have noticed it if it weren't for the trail of fire it left behind.

A flying saucer?

The center!

Lin Yi didn't expect to see the flying saucer in the center here!

Although han Jingjing's disc was also a replica of the central disc, the outer appearance was still different. Lin Yi could tell that the one above was the central disc.

As soon as the flying saucer arrived, it shot out a beam of black light, which swept back and forth in the darkness. Because the colors were similar, the light wave's existence could hardly be felt.

He didn't know what the black light was for, but Lin Yi's instinct told him that central was collecting the light devouring flying ant's genes!

It wasn't like this hadn't happened before, and Lin Yi had suffered losses before. Of course, he'd come up with this guess immediately!

Without hesitation, Lin Yi raised his hand and shot out a super pill fire missile. This was an attack he'd prepared earlier, and he didn't use it on the light devouring flying ants. It was perfect for the flying saucer in the center.

With enough time, this super pill fire missile was at the limit of Lin Yi's control. The speed was no joke.

In the blink of an eye, the Super pill fire missile hit the target. With a loud boom, the entire flying saucer was pierced through and exploded.

Lin Yi's jaw dropped. Was this flying saucer ... So fragile?

The flying saucer was destroyed so easily-Lin Yi was a little surprised. He'd prepared a whole bunch of ultimate skills, but he didn't even need to use them-it was a soul attack!

It was a waste of feelings!

In that instant, a figure shot out from the flying saucer and charged at Lin Yi like a meteor.

This person was completely wrapped in something similar to a biochemical suit. He looked a little like a biochemical warrior in movies. Perhaps he was afraid of the poisonous fog here, so he was fully armed.

Lin Yi didn't hold back and released all the attacks he'd prepared-he needed someone to vent his anger on.

Amidst the continuous explosions, the man in the hazmat suit passed through all the attacks without a care and arrived in front of Lin Yi.

As for the surrounding light devouring flying ants, they didn't pay any attention to the battle and continued to immerse themselves in the pleasure of hurting each other.

"Lin Yi! Do you want to die? They're actually attacking our ships again!"

An angry voice came from the hazmat suit. It was muffled, but Lin Yi found it familiar.

He seemed to be an old acquaintance!

"Ha ... So it's an old friend. How would I know who you are if you didn't even tell me?"

Lin Yi glanced at the helmet-he wouldn't be able to recognize the voice if he didn't hear it. "And what did you say again? He really wanted to condemn someone, but there was no excuse! I'm fighting to the death here, and you've appeared in the battle area without a sound. Who knows if you're here to sneak attack me? Can't I make the first move?"

The man in the grey bamboo hat was at a loss for words, but he immediately thought of an excuse. "On Sky Class Island, the only people with flying saucers are on your side or ours. Don't tell me you're going to attack your own people! So you attacked my flying saucer on purpose! We're allies, how do you know I'm not here to help you?"

"You're here to support me? Don't ask me if I believe it or not, just tell me if you believe it or not!"

Lin Yi laughed in disdain. "Plus, is this Sky Class Island? We're the only ones with flying saucers on Sky Class Island, can you guarantee that other places have them too?"

The man in the grey hat was once again left speechless. He felt suffocated-this really wasn't Sky Class Island!

She seemed to be at a disadvantage in arguments with Lin Yi recently!

"Forget it, I'm a magnanimous person and don't want to argue with you!"

The man with the grey bamboo hat waved his hand and put on a magnanimous look. He then changed the topic, "Why are you here? And why aren't they afraid of the poison here?"

"Don't you know why I'm here?"

Lin Yi's heart skipped a beat as he looked at the man on purpose, as if he had everything under control.

They were able to come here by relying on the technological transmission array that central had left on the North Island. Did central really not notice it at all?

Or did the man with the grey bamboo hat appear here to monitor him?

"Why would I ask you if I knew what I was doing?"

The man in the grey bamboo hat snorted and said impatiently, ""Can't we have a good chat? just answer whatever I ask you!"

"No problem, but you have to answer whatever I ask. We've been going back and forth!"

Lin Yi's lips curled up as he continued, "To show my sincerity, I'll answer your question first. You should know that I'm a doctor, and I've done some research on Poison resistance and antidotes. This little poison can't do anything to me!"

The man in the grey hat chuckled, as if he didn't believe Lin Yi's words at all!

Lin Yi was known as a miracle doctor in the common world, and the man in the grey hat knew that. However, it was still a joke if Lin Yi's medical skills were so good that he could ignore the poison!

Lin Yi didn't care if the man believed him or not. He asked directly after giving his answer, "It's your turn to answer the question. Why are you here? Or what are you doing here?"

"This is a new dimension that we have discovered. We are here for regular patrols. Is there a problem?"

The man in the grey bamboo hat chuckled and continued,""So I'm very curious, how did you get here?"

Chapter 7060 Central's Scheme

Lin Yi looked deeply at the grey bamboo hat in the biochemical suit and suddenly smiled, "It's all thanks to the teleportation formation in your Center that we were able to come here!"

The man in the grey hat paused, evidently not expecting Lin Yi to say something like that. He only laughed dryly after a while.

"So you've discovered the teleportation formation on the North Island! Not bad, not bad, to be able to repair that abandoned teleportation formation, you're quite powerful!"

"Who said it's the teleportation formation on the North Island?"

Lin Yi asked casually, testing the man's reaction. "The North Island isn't the only one with a teleportation formation in your Center!"

"Hahaha, you don't have to waste your time. The only teleportation formation that can come here is the Half Moon Lake in the North Island!"

The man with the grey hat did not fall for it. He laughed and waved his hand. "Forget it, it doesn't matter how you came here. I just want to see how you leave this place ... Maybe you'll die Here!"

"Thank you for your concern. I hope you don't die in the place you've opened up!"

Lin Yi replied with a faint smile, but he was thinking about the man's words.

It seemed that central actually knew that he could come here, and even secretly let him do as he pleased!

"You're thinking too much. I've patrolled this place more than once or twice. Nothing will happen to me even if you die!"

The man in the gray bamboo hat raised his head arrogantly. Although his expression could not be seen clearly due to the helmet, one could imagine the pride on his face.

You were collecting the light devouring flying ant's genes just now, right?"

"Are you angry that I messed you up?" Lin Yi said, not thinking much of it.

"Are you going to compensate me for my flying saucer?"

The man in the grey hat paused for a moment before he sneered, "But I also know that you've always liked to act shamelessly, so it's not quite possible to get compensation from you!"

The man in the grey bamboo hat did not answer directly but tore the question away. There was indeed a problem!

Lin Yi squinted his eyes as he had more guesses!

Perhaps the teleportation array in the North Island was really left behind by central on purpose for him to use!

If he wanted to destroy it, he could have destroyed it more thoroughly, not leaving even a trace of it behind.

However, the teleportation formation in the center was not severely damaged. It seemed to have been specially left for Han Jing Jing to repair.

In order to not raise any suspicions, central had really put in a lot of effort!

So, central probably sent him here on purpose, but what was their purpose?

Lin Yi's eyes swept across the light devouring flying ants that were still in chaos, and he realized that perhaps wangliang wanted him to mess with the dark Demon beasts.

In such a special environment, it would not be easy to collect the genes of darkness magical beasts, and the effect would be much better if he was used as cannon fodder.

For example, in the light devouring flying ant's nest, the person in the center might be able to enter, but it was almost impossible to come out. If he had not held the ant queen hostage, he would have long been reduced to nothing!

Central couldn't do anything to darkness magical beasts like the light devouring flying ants, so it was completely reasonable for them to deliberately lure him here. Anyway, they would benefit from his life or death!

What a good scheme!

Lin Yi's mind went over the whole thing like lightning-he wasn't 100% sure, but his instincts told him that he was pretty close!

"You still have the nerve to talk about the UFO's compensation, didn't you already make it clear?"

Lin Yi was deep in thought, but he didn't really care. "If you want to collect the light devouring flying ant's genes, this is a good opportunity. Hurry up!"

"You don't have to worry about it!"

"Forget it," the man in the grey bamboo hat snorted. "We're allies, and we're old friends. I won't hold it against you for the loss of the flying saucer."

"Since we're old friends, it's no fun for you to hide. At least let me see your true appearance."

Lin Yi said as he reached for the hood of the hat. "If we meet on the road in the future, we won't be strangers!"

The man in the grey hat was shocked and quickly dodged, barely avoiding Lin Yi's palm.

"Lin Yi, what are you doing? There's poisonous fog everywhere. If I'm exposed to the air, I'll die immediately from the poison!"

The man with the grey bamboo hat assumed a defensive stance and angrily shouted in a low voice, "If you do this again, don't blame me for being impolite!"

"Why are you so stingy? I'm just looking at your face! How could it be so easy to be poisoned to death? Don't forget that you still have a miracle doctor by your side, you won't die!"

Lin Yi shrugged nonchalantly and attacked again, "Don't worry, just one look will do!"

With the man in the gray hat's strength, no matter how strong the poison was, he wouldn't die immediately, so what he said was complete nonsense.

Of course, if he could really poison the man to death, Lin Yi wouldn't mind doing it. As for the miracle doctor treatment, it was just a talk-it didn't exist!

The man with the gray bamboo hat barely dodged a few times, as if he had some qualms. He had no intention of retaliating and only defended with all his strength. However, he was surrounded by the light devouring flying ants. Although he was in chaos, if he entered, he might be drawn into the internal battle of the light devouring flying ants and be finished!

Therefore, the man with the gray bamboo hat was soon a little overwhelmed. When he saw that he could not do it, he simply raised his hand and released another airship, which flew up like lightning.

"Lin Yi, I can't be bothered with you, you're on your own now!"

After boarding the airship, the man with the grey bamboo hat looked down from above and sneered, ""If you continue to attack me, I'll take it as an all-out war!"

His words were calm, but the threat in his heart was undisguisable!

The so-called all-out war meant that central would go all out and deal with everyone related to Lin Yi!

With Lin Yi's current state, he couldn't even protect himself-he really couldn't protect anyone!

"Are you threatening me?"

Lin Yi's eyes turned cold as he glared at the man."Do you want to try?"

To be honest, Lin Yi was a little scared that central would attack the people around him without a care.

But at this time, he absolutely couldn't back down, and even more so couldn't let the grey bamboo hat man see the panic in his heart.

Once the man with the gray bamboo hat saw through him, perhaps what he had said casually would become a real action!

"If you want to try, then come and attack me!"

The man with the grey bamboo hat did not back down at all. He coldly said, "You attack and you'll know the consequences!"

The man paused, his eyes meeting Lin Yi's for a dozen seconds before continuing, "Forget it, I'm busy and don't have time to waste with you. I'll take my leave first. See you again!"

After waving his hand casually, the man didn't wait for Lin Yi's reply. He took the airship and left the place, collecting some light devouring flying ant genes.
