Chapter 7151 New Moon Martial Artist Relay

It wasn't convenient to talk during the journey, after all, so Ling lingfa didn't want to continue talking to Lin Yi.

The group continued to speed up. Because of their great momentum, they also scared away some of the darkness spirit beasts that were acting alone, avoiding unnecessary battles.

They rested for a bit along the way, and when the sky was getting dark, they arrived at their planned lodging spot, another martial artist rest station called Yuexin.

"I've already made arrangements for this place, but Ling lingfa wasn't included. If you didn't make a reservation, you might not have an empty room for you to stay in!"

Black wildflower smiled at Lin Yi and the others as he got off his horse, "Little brother Sima, will you be staying in a single room today? It's more comfortable to sleep alone. "

"I'm fine with anything, no problem!"

Lin Yi shrugged nonchalantly, and someone came out of the station to welcome him.

"Boss Kurosaki, long time no see, what a rare guest! When I received your letter this morning, everything has been arranged properly. We're just waiting for you to come!"

This was a slightly chubby middle-aged man. When he spoke, his face was full of smiles, and he gave off an easily approachable feeling.

Black wildflower smiled and nodded, "thank you for your hard work, shopkeeper Wang!" Is your boss not here?"

"Yup! Our boss went out on a mission the day before yesterday. If he knew that boss Kurosaki was back, he would definitely put down his mission and wait for you to come over and treat you well. It's a pity to miss it!"

Shopkeeper Wang nodded with a smile. ""But our boss might be back in a day or two, so we should be able to meet him on the return trip! I'll remind boss to push aside all other matters and wait for boss kurosao to return. "

"That's not necessary. Tell your boss to do whatever he needs to do and not worry about me! We'll have plenty of opportunities to meet and chat anyway!"

Black wildflower smiled and waved his hand, then asked, ""Other than the room I reserved, are there any other empty rooms? We brought more people than we planned. "

"There aren't many empty rooms today. I don't know what's going on, but there are a lot of people staying over today ... But boss Kurosaki has spoken, so we have to have some even if we don't have any. I'll immediately arrange for a few rooms, but the conditions may be worse, so I'll have to trouble everyone!"

Shopkeeper Wang gave black wildflower a lot of face. After he finished speaking, he ordered the staff to make room for themselves. Those were the rooms where the staff of the courier station lived. They were relatively simple, but the place was big enough to accommodate several people.

"It's okay. It's good enough that they have a place to stay. There's no room for them to be picky. Right, Ling lingfa?"

Black wildflower waved his fan and smiled at the man in gray.

The gray-robed man spread his hands and said, "boss hei ye is right. It's good enough that we have a place to stay. I don't dare to be picky." Speaking of which, boss hei ye is really thoughtful, being able to book a room in advance. In comparison, our team is too lacking!"

"Women are more attentive, and I'm a person who does this business, so I'm naturally more sensitive to this. I don't deserve your praise."

Black wildflower said humbly, then called everyone in. "Please come in, shopkeeper Wang will have someone take you to your rooms!"

After a slight pause, black wildflower solemnly instructed shopkeeper Wang, ""Shopkeeper Wang, this young master Sima and these three friends are distinguished guests. The four best single rooms that I reserved are for them. Don't make a mistake!"

"I understand, I understand. Don't worry, boss Kurosaki. I'll definitely do the right thing!"

Shopkeeper Wang quickly patted his chest and promised. He then called for people to take black wildflower and the others 'Black Spirit Ferghana horses away to take care of them.

Black wildflower's men went to find their own rooms and didn't need the courier to lead the way. They seemed to be very familiar with this month's new warrior courier station.

"Young master, I can sleep with little Xue, but can you give my room to Ling Ling?"

Wu yucao probably felt that Lin Yi and Ling lingfa were acting weird and that they might really have known each other before. Out of her protectiveness for Lin Yi, she wanted to let his friend live more comfortably.

Unfortunately, the gray-robed man was never Lin Yi's friend. He didn't care if the guy was going to sleep in the shop or the woodshed-it was good enough that he had a place to sleep!

"Don't worry about him. You should sleep more comfortably. He has rough skin and thick flesh. One look and I can tell that he's a rough man. If there's no room, he can make do with a bed on the floor in the aisle!"

Lin Yi glanced at The Man in Grey and smiled casually, "Compared to you, what is this guy? Even a single strand of your hair is more precious than his!"

Wu yucao immediately felt a sweet taste in her heart, but she didn't dare to show it, so she could only reply with an "Oh" as if nothing happened.

The man in gray rolled his eyes at Lin Yi's words-he didn't look like a tough guy at all! She clearly had delicate skin and tender flesh, and her body was delicate and precious, okay? You can't be blind!

But the war of words wasn't over yet, and the man in gray couldn't be bothered with Lin Yi. He hmped and left with the waiter.

Everyone returned to their rooms to settle down, while black wildflower continued to arrange their meals. After the sky was completely dark, everyone gathered for dinner!

Of course, black wildflower and Lin Yi ate alone in a room. As for the gray-robed man, neither of them wanted to bring him along.

One of black wildflower's men knocked on the door halfway through the meal. He didn't avoid Lin Yi and the others and reported directly, "Ling Ling's message said that some people were talking about the mission. The people around them seemed to be paying more attention to them and took a few more glances."

"Good job. Keep watching ... Don't let them discover our movements."

Black wildflower praised him and then sent him away.

"Sister hei ye, your underling is not bad, he's quite alert!"

Lin Yi smiled, but he was thinking about the meaning of this simple information. "Does he think that those people are also interested in the dark green demonic Valley?"

"It's most likely so! Sister told them to pay more attention along the way to see if anyone interested in the dark green demonic Valley appeared. "

Black wildflower put down the wine glass in his hand and gently waved his fan. ""The warrior's Guild is spread all over the sub island's major cities. Our mission isn't only limited to Luling city, so it's very likely that we'll encounter competitors from other cities. The earlier we can find them, the more prepared we will be!"

"Sister hei ye, didn't you say that before the mission is completed, the teams that accepted the mission can not attack each other?"

Lin Yi scratched his chin and raised an eyebrow. "Could it be that after we leave the city, we can ignore this rule?"

"You can say that. For the truly important mission, the less people compete, the better. It'll be too late to compete after finding the mission target, and there may be uncontrollable accidents. So, before that, it's better to get rid of the opponent first and then slowly complete the mission. That's the choice most people would make."

Black wildflower's smile was sweet, but the words he said were extremely cold. "This mission is very important. If there are obstacles in our way, we should clear them as soon as possible! Besides, we don't know who the people from other cities are. If we really want to kill them, it won't be a problem. "

Chapter 7152 A Midnight Visitor

Lin Yi nodded-it made sense now. They were all teams that took the same mission in Luling city, and there would be some disclosure of information between them. The other cities didn't care.

"In that case, it's very likely that there are one or more teams here with the same mission target as us. That's why the relay station is full!"

Lin Yi thought back to the tense situation in the room and understood, "Speaking of which, is this new martial artist relay the only way to the dark green demonic Valley? Otherwise, it wouldn't have attracted so many people. "

"It's a must go path ... It's both right and wrong because there are other paths that lead to the Azure sky Valley. However, in this direction, it's true that we have to pass through here. "

Black wildflower didn't even think about it. She had already studied these things deeply, so she naturally said, ""Little brother Sima, be more alert tonight. There might be a sneak attack!"

No one could guarantee your safety in the warrior's station. It was only a place to guard against night attacks from the spirit beasts of darkness.

The relay station would not interfere with the fights between the people staying in the inn, just like black wildflower's own relay station. He would even look forward to a fight so that he could get more compensation.

However, the rooms in the courier station were relatively strong, and it was not easy to break them without a sound. Therefore, it was difficult to carry out a sneak attack. Without a life-and-death feud, ordinary people would not attack the guest rooms.

"In that case, would it be better for the two of you to live together?"

Lin Yi turned to Wu yucao and Ling Hanxue. "If something really happens, you guys can look out for each other."

Wu yucao was happy inside, thinking that this was Lin Yi's concern for her. She smiled, "If young noble feels that it's better for the two of us to stay together, then Let's Stay Together. Can you give the empty rooms to Ling Ling?"

"Why would we give it to him? we wouldn't let him stay even if we locked him up ... We can even set up a diversion. If a sneak attack really happens, we'll more or less be prepared."

There was no way Lin Yi would make the man in gray feel comfortable, so Wu yucao nodded obediently. She started to understand that even if Lin Yi and Ling lingfa knew each other before, the two were definitely not friends!

After the meal, everyone returned to their rooms.

Wu yucao wanted Chen Zhisheng to live with Lin Yi so they could look after each other, but Lin Yi rejected her.

Of course, Chen Zhisheng didn't want to be with Lin Yi.

She was a little convinced by Lin Yi now, and wasn't as hostile as before, but it was still best to avoid being alone with him.

After Lin Yi returned to his room, he left a small gap between the door and windows, not completely sealing them. This was for the convenience of listening in on the movements outside, and if he found anything, he could act at once.

As for himself, he wasn't worried about being ambushed. After all, the special characteristics of a primordial spirit body could guarantee that he wouldn't be easily killed by a sneak attack.

Lin Yi was lying on the bed with his eyes closed, but his mind was focused on the corridor outside. Wu yucao and Chen Zhisheng's rooms were on his left and right, and he could help if there was any trouble.

After lying down for about an hour, there really was some slight noise outside!

Lin Yi was surprised-he'd made preparations, but he didn't think that someone would really come.

Their target was clear-they didn't go to Wu yucao's and Ling Hanxue's rooms, nor Chen Zhisheng's room. They were here for Lin Yi!

The door that was not closed was pushed open gently, and the person outside the door flashed in silently.

"Ha ... I was wondering where this little thief came from. It's you!"

Lin Yi's eyes snapped open as he held onto the sword's hilt. He laughed as he stood up."Sneaking in at midnight, are you up to no good?"

The person wasn't a stranger-it was Lin Yi's old friend, the grey-robed man, who was now called Ling lingfa.

"What do you mean by sneaky? I came in so openly, which eye of yours saw that I was sneaky at all?"

Ling lingfa rolled his eyes and said in disdain,""Do you think you can detect me sneaking in?"

Fine, Ling lingfa actually thought that no matter how sneaky he was, Lin Yi would be able to find him!

This was the conclusion he had come to from their past fights, especially now that his strength had greatly declined.

Because of this, Ling lingfa decided to be more open and made some noise to let Lin Yi notice.

"You didn't even knock on the door and just came in by yourself. I really don't know where you got the face to say that you didn't sneak in!"

Lin Yi laughed coldly as he waved his hand, "Enough with the nonsense, what do you want to do by coming to me at this time?"

"Before we get to business, I have to tell you that your door wasn't even closed. I thought you knew I would come, so you left the door open on purpose."

Ling lingfa shrugged his shoulders to show that he was innocent.

Lin Yi wanted to spit in the guy's face-if he was going to open the door, it should be for pretty girls, not for a guy like him.

Ling lingfa saw the unkind look on Lin Yi's face and quickly raised his hand. "Alright, alright, let's get straight to the point and get to the point!"

"You talk too much nonsense. If you have something to say, say it quickly. After you're done, get lost!"

Lin Yi didn't have much patience for the man and looked at him in disgust. "You'd better talk about something I'm interested in. Otherwise, you might as well not talk!"

"Okay, okay, let's not beat around the bush. Tell me, how did you get into this Island?"

Ling lingfa didn't want to waste any more time with Lin Yi and started to plan the conversation. "We're still allies. Is there a problem with sharing some information?"

"Before you ask questions, shouldn't you first tell me how you came in?"

Lin Yi replied with a cold smile, "As an ally, you wouldn't hide such a small thing, would you?"

"Of course I came here through our Central's means. You know what kind of technology our central has, so it's easy to come in. Do you still have any doubts about this?"

Ling lingfa replied perfunctorily with a straight face. It seemed like he had said a lot, but in reality, not a single word was useful!

It was all fake, and the most critical details were nowhere to be found.

"It's because I came in through our technology that I'm curious how you got here. Other than our methods, there shouldn't be any way to enter and exit this place as we please!"

Lin Yi's heart skipped a beat as he asked casually, "Did you come here for the mission objective? Will you leave immediately after you get it?"

It didn't matter if the man was here for the mission-Lin Yi only cared if he could leave as he pleased!

"Haha, you just said that you should answer the question before asking it ... That's what you mean, right? So don't you think you should tell me how you got in first?"

The Man in Grey laughed, pointing at himself and Lin Yi. "We're allies after all. I can't always answer your questions, right?"

Chapter 7153 Expressing Sincerity

"You're right. I'll tell you then. I walked and accidentally walked into this place. It's really inexplicable. Do you know what's going on?"

Lin Yi shrugged and looked at Ling lingfa with a face full of sincerity. "With your broad vision and profound knowledge, you should be able to explain it to me, right?"

"....."

Ling lingfa's speechless eyes met with Lin Yi's innocent eyes, and they stared at each other for a while before he spoke up. "Alright, I'm not sure what's going on either!"

Ling lingfa didn't take Lin Yi's words seriously, and he knew that Lin Yi was just spouting nonsense.

"No matter what, we're still partners in the same boat and genuine allies. Let's not talk about the past. This time, Let's cooperate properly. As long as we sincerely work together, it will definitely be a win-win outcome!"

The man in gray probably felt that Lin Yi was up to no good, so he came over to emphasize this. "If we each have our own ulterior motives and trip each other up, the only result will be that both sides will suffer. This is meaningless to us. Do you think I'm right?"

"You're right ... But why are you saying these things now? Do you think I'm going to do something to you?"

Lin Yi didn't even know how to deal with the man himself, so the man's worry seemed a little ridiculous. "And then, do you think you can influence me by coming over and saying a few words?"

The grey-robed Ling lingfa fell silent-Lin Yi wasn't someone who could be dismissed with a few words, of course. He took out a purple-gold Card and handed it to Lin Yi.

"To show my sincerity, I'll give you a top VIP card of the central business Association. All you have to do is show this top VIP card, and all your purchases in the central business Association will be free of charge!"

The man in gray knew that Lin Yi didn't care about the central Chamber of Commerce at all, so he pretended to be generous.

Free things also depended on whether they were useful or not. No matter how free trash was, not many people would be willing to pick it up, and Lin Yi was obviously not one of them.

As such, the VIP card was only a decoration to Lin Yi, and had no use for it.

It didn't matter if Lin Yi bought a lot of stuff-the grey-robed man didn't think it was a big loss to give Lin Yi the entire Chamber of Commerce.

Lin Yi was a little surprised, not knowing what the man was thinking. Was he really just trying to get on his good side for the mission?

Lin Yi took the purple-gold VIP card and looked at it casually. It wasn't useful to him, but in this special environment, the gray-robed man had put in a lot of money!

If Lin Yi didn't steal from the vault of the arena, this VIP card would be quite useful.

"No matter what, I hope that we will have a pleasant cooperation this time!"

Ling lingfa smiled faintly as Lin Yi accepted the card. "I'm here today to talk to you in private. There's nothing special. You can continue to rest. See you tomorrow!"

"Then see you tomorrow!"

Lin Yi nodded slightly and sent Ling Ling out of the room. He couldn't understand why this guy came all the way here. Was it really that simple?

But Ling lingfa really did leave just like that, not saying anything else. Lin Yi could only lie back down on his bed and continue his nap.

The night passed by peacefully. Nothing happened in the relay station, not even the friction between unrelated people. It was very peaceful.

Lin Yi looked out the window at the light of dawn, thinking that black wildflower's men were probably too nervous. No one was actually interested in their mission ... Perhaps they were only interested in the dark green Valley.

"Let's go!"

After eating breakfast and getting some water and food, Lin Yi gave the order, and the group left the station in high spirits.

"Little brother Sima, did you rest well last night?"

Black wildflower urged his Black Spirit Ferghana horse to keep up with Lin Yi and turned to him with a smile, "I didn't sleep well last night. I was afraid that someone would come back and attack me. If I had known earlier, I would have stayed with little brother Sima. That way, I would have been more at ease."

The words were a little ambiguous, and Lin Yi didn't know how to respond.

"Boss Kurosaki, you must be joking. Your experts are doing their best to protect you, what's there to not be able to sleep well?"

"Of course, our young master has us to protect him," Wu yucao said with a cold expression. "Boss hei ye, you don't have to worry."

She was on Lin Yi's other side, so she could hear black wildflower's words. She suddenly felt a little unhappy, so she instinctively said some strange things.

"Little sister Wu, are you misunderstanding something? I didn't say that you can't protect little brother Sima, nor did I say that my subordinates can't protect me! What I mean is that if I'm by little brother Sima's side, I'll feel more secure!"

Who knew what black wildflower was thinking, but he started chatting with Wu yucao through Lin Yi's gap, "Look at how things are right now. I'm by little brother Sima's side, and my heart feels so at ease. It's

as if with little brother Sima around, even if the sky falls, there won't be any danger. Little sister of the Wu family, you actually feel the same way, right?"

Wu yucao blushed and subconsciously glanced at Lin Yi.

To be honest, black wildflower's words had hit the nail on the head, but she just didn't dare to say it.

"You ... What nonsense are you talking about? I'm here to protect the young master. As long as the young master feels safe by my side, it's fine!"

Wu yucao's face turned even redder after she finished speaking. What the hell were they saying?

If she could swallow the words she had said, Wu yucao would definitely swallow them back immediately and reorganize her words.

Lin Yi felt that something was off about Wu yucao, but he couldn't quite put his finger on what was different!

"Do you feel uncomfortable anywhere? Or did you not sleep well last night?"

Lin Yi looked at Wu yucao for a while longer before expressing his concern, "If you're not feeling well, you have to tell me!"

"No... No... Thank you for your concern, young master!"

Wu yucao felt her face getting hotter and hotter. She quickly lowered her head and cursed herself in her heart. It was not like her past self at all!

In the past, Wu yucao was a valiant and straightforward hero among women. How could she have so many complicated thoughts?

However, no matter how clear he was in his heart, there was no way to avoid it when it came to it.

Although Ling Hanxue was a little carefree, she was still a girl after all. She would have some suspicions in her heart. She immediately urged her horse forward and reached out to Pat Wu yucao.

"You didn't sleep well last night. Why don't you come and ride with me and take a nap on the horse?" he asked.

Of course, Ling Hanxue did not really want Wu yucao to doze off. If the two of them rode together, it would be more convenient to whisper, and there was no need to be afraid of being overheard.

Chapter 7154 Discovered Abnormality

"No, I'm fine!"

Wu yucao quickly shook her head, too embarrassed to continue riding alongside Lin Yi.

The road wasn't very wide to begin with, and it was a little too narrow for three horses to ride side by side. Wu yucao pulled on the reins a little and slowed down a little, letting Lin Yi and black wildflower lead the way.

However, seeing Lin Yi and black wildflower's silhouettes from behind made Wu yucao's heart ache.

"Little brother Sima, I really didn't sleep well last night. Although I wasn't ambushed, I was wondering if the enemy was preparing to ambush us on the way?"

Black wildflower turned around and glanced at Wu yucao. He didn't continue talking about her and instead changed the topic. "In the Yuexin relay station, it'll be a bit troublesome to launch a sneak attack, and it'll be difficult to clean up the loose ends, so the possibility of them ambushing us along the way is higher."

If it were black wildflower herself, she would most likely make the same choice, so putting herself in his shoes, she believed that if there was such a potential opponent, an ambush would be the most suitable way to deal with them.

"Hehe ... Sister hei ye, do you think so too? In fact, I also have such a consideration. If there really is a team that has accepted the same mission and wants to eliminate the opponent in advance, an ambush along the way is obviously the best choice!"

Lin Yi took out a map as he spoke-it was the basic layout of the sub Island that came with the equipment. "There's a place called the broken soul Stream not far from the tsunaga relay station. Sister hei ye, you know about it, right?"

Black wildflower didn't look at the map in Lin Yi's hand and nodded, "I know this place. There are cliffs on both sides, and it's difficult for even a monkey to cross. There's a small stream in the middle. The water isn't deep, and you can walk, but the bottom of the stream is extremely slippery, making it difficult to maintain balance. If you want to pass through from there, you have to be careful, or you'll easily fall into the stream."

"That's right. I've read a simple description of the stream. It's the best place for an ambush. If I were to make the arrangements, I'd first arrange for people to be on the cliffs on both sides. I'd prepare enough stones and push them down when someone passes through it, forming the first wave of killing and chaos."

Lin Yi hadn't seen the valley in person, but he had a rough idea of what it looked like. "Then, we'll find a place to set up an ambush in the valley and arrange for archers to carry out the second wave of long-range attacks. By this time, most of the ambushed targets will have been crippled."

"The remaining 20% will also be surrounded and annihilated in the chaos because it's difficult to stand on the stream and move quickly. Is that what little brother Sima thinks?"

Black wildflower was still smiling, but there was a hint of solemnity in his smile. "Then how should we break out of this situation? After all, the stream of broken souls isn't far away, we'll reach it in a few minutes. "

"I've been thinking about this question. Even if you didn't ask, I would have said it. "

Lin Yi put away the map and turned to wave at Ling lingfa, "Ling lingfa, I have something to discuss with you!"

Ling lingfa squeezed his horse's belly with his legs and shook the reins to catch up. ""What is it?"

"We might be ambushed next, so we need to make some preparations. According to the agreement, you and your people must listen to my command. Is that okay?"

Lin Yi smiled at Ling lingfa, but his eyes were sharp. He'd come to say those things last night, but today he'd be able to tell if he was sincere or not.

"Of course, no problem! We'll do whatever you say!"

Ling lingfa nodded without hesitation. ""Do you want us to Scout the way or be bait?"

"Since you don't have any problems, then just follow my arrangements!"

Lin Yi's eyes softened a lot as he gestured for black wildflower and Ling lingfa to come closer and started whispering.

They were still about seven to eight minutes away from the stream, but there were four black Spirit Ferghana horses left. Lin Yi, Ling Hanxue, black wildflower, and Ling lingfa's archers left the group silently.

At this time, the sky was drizzling, so the remaining people put on raincoats and covered their faces. The four black Spirit Ferghana horses that were empty were also carried by some equipment. It looked like they were originally used to carry things.

The speed of the entire team was neither fast nor slow. When they arrived at the broken soul Stream, they did not enter it directly, but took a short break at the periphery.

After waiting for a while, two of Ling lingfa's subordinates rode their Black Spirit Ferghana horses into the stream of broken souls to act as Scouts.

When encountering a dangerous terrain, it was the choice of every team to send out Scouts to investigate. This was not surprising.

While waiting for the scouts to return and report, the rest of the people surrounded the Black Spirit Ferghana horses and sat down to rest.

After waiting for more than half an hour, one of the two Scouts rushed back and reported that he had not found anything unusual. The other was on guard at the other end of the stream. Thus, everyone mounted their horses and set off!

"Boss hei ye, do you really think that Sima Yi is reliable? If anything goes wrong, we'll all be annihilated!"

Ling lingfa and black wildflower walked at the front of the group. They looked straight ahead and whispered, ""The scouts didn't find the ambush, but that doesn't mean there's no ambush. The other party must have a way to hide from the scouts."

"Ling lingfa, if you're afraid, you can bring your men back first. We won't be so enthusiastic as to keep someone like you!"

Black wildflower covered his mouth with a fan and chuckled softly. ""Since I've said that I'll listen to little brother Sima's arrangements, I won't have any doubts about him. Even if he wants to use us as bait, I'm willing to do so!"

Ling lingfa pursed his lips and thought to himself, 'no one would believe your nonsense!'

If you didn't have the confidence to protect yourself, why would you listen to Lin Yi's orders and risk your life?

"Since you're so confident, that's great! In fact, your guess might not be correct. Who said that there would be an ambush? Maybe there's no ambush at all?"

Ling lingfa seemed to be optimistic, and black wildflower agreed with him. However, he was worried about whether Lin Yi was doing well.

After leaving the group, Lin Yi took Ling Hanxue and the other two archers and split into two groups. He and Ling Hanxue chose a cliff, while the other two archers went around the other side of the cliff.

According to Lin Yi's calculations, if there was really an ambush, there would be preparations on the cliff, but there wouldn't be many people left. One or two would be enough since the main battlefield was below.

Therefore, just in case, the cliffs on both sides of the stream had to be safe!

Other than that, the character images were updated in the v.x. Chu Mengyao, Chen Yushu, Tang Yun, Tian Gang, Bing Tang, Xue Li ...

Chapter 7155 Successfully Completed

It did not matter even if there were no enemies above. Having an Archer on the cliff was just like having a sniper occupying the high ground in the secular world. It had a very important tactical significance!

Black wildflower and the others had been waiting outside the stream for more than half an hour. Rather than waiting for the scout's report, it was more like they were waiting for Lin Yi's group to complete their strategic detour!

At this time, Lin Yi and Ling Hanxue had already climbed to the top of the cliff. They were three to four hundred meters away from the bottom.

Ordinary people's vision might be affected, but in the eyes of Foundation Stage martial artists, it was not much different from thirty or forty meters high, especially for Masters with excellent archery skills.

"Sister Xue, do you see that? there's a pile of rocks over there. It must be man-made. Our enemy should be hiding behind the pile of rocks!"

Lin Yi and Ling Hanxue hid behind a rock at the edge of the cliff, carefully observing the situation on the side of the cliff near the stream. "If I'm not wrong, there should be one or two enemies here, and they are also experts in long-range weapons."

"I think so too. After pushing all the rocks down, they can take advantage of the chaos to shoot arrows and reap our heads. If they are not archery experts, they might not be able to shoot accurately from such a high altitude!"

Ling Hanxue nodded slightly and spoke to Lin Yi in the same soft voice, ""In addition, we can't ignore the situation on the opposite cliff. Once we make a move here, the other side will likely discover us!"

The distance between the two cliffs was about thirty meters. To be honest, this distance was really nothing. Almost all Foundation Stage cultivators could easily jump over it.

Removing the nails from the top of the cliff required secrecy, and they couldn't let the ambush below notice. They had to worry about the enemies on both sides of the cliff, which was why Lin Yi sent people up from the other direction.

"There's no hurry. When our archers on the other side make the first move, the enemies on this side will definitely want to rescue them when they discover it. That moment will be the best time to kill them. Sister Xue, are you confident that you can do it?"

"Of course I'm confident. There's no problem with such a small matter. But how do we know when the other two will make their move?"

Ling Hanxue was very confident, but she was still a little suspicious. Lin Yi didn't make any secret signs with the other two before, only telling them to do as they saw fit when they went up, and to attack as soon as they found an opportunity.

In terms of time, they couldn't delay for too long, because if black wildflower and the others entered the ambush circle, and the higher-ups hadn't taken care of them yet, they would really jump into the pit without hesitation!

"Don't worry. As long as they make a move, we'll know!"

Lin Yi smiled mysteriously. Of course, he wouldn't tell Ling Hanxue that the situation on both sides of the cliff was under his control.

The consumption of his spirit was small, and Lin Yi didn't want to use it normally, but the situation was different now, so he endured it.

After all, the range of detection was very small, only a few dozen meters. An ordinary collision of spiritual awareness was enough to support this level of detection for one or two days!

While the two of them were talking, the two archers on the other side had already climbed to the top. They were in a better position and could see half of the two enemies' bodies.

After carefully observing for a while, the two of them looked at each other and confirmed that there were only two enemies. They nodded to each other and assigned their respective targets with their eyes.

The two bows of different styles were pulled to their full strings at the same time. After a slight pause, the two arrows flew toward their respective targets.

With the sound of the bowstring, the two archers trembled at the same time, one falling forward and the other backward.

The two men did not stop after shooting the arrows. They kept their bows and rushed forward in tacit understanding. They pulled the two corpses back by a hair's breadth to prevent them from falling into the broken soul Stream, which would cause the ambush below to be launched in advance.

However, their actions were inevitably seen by the people lying in ambush on the opposite cliff. The two people on the opposite side were shocked and instinctively straightened their bodies, drawing their bows and preparing to shoot them.

"Now!"

Lin Yi shouted in a low voice, and his body flashed like a ghost. Ling Hanxue also jumped up, and in mid-air, she got a high view and could finally see the two enemies who had just started to draw their bows.

Two arrows flew out from Ling Hanxue's bow at the same time. To her, shooting two arrows at once was not a difficult skill. Moreover, the distance was so close that Ling Hanxue felt that she could hit her opponent with her eyes closed.

In fact, the two men had only pulled their bowstrings half a second before their bodies trembled. The last thing they saw was the tip of an arrow sticking out of their throats ... And then there was no more!

"Well done!"

Lin Yi even had the time to praise them before gently placing the two bodies on the ground. He also took back the bows and arrows that had slipped from their hands. If he left them there, they would fall straight down!

After doing all this, Lin Yi still had time to turn around and pull Ling Hanxue back.

The top of the cliff wasn't easy to stand on, and the rare gaps were all used for stones. The uneven ground made it easy for her to sprain her foot, and Lin Yi didn't want Ling Hanxue to fall off the cliff.

... Then wouldn't she be a girl who lost her footing?

Lin Yi chuckled to himself, thinking that he was a little boring to come up with such a boring joke. He shook his head and gave a thumbs up to the cliff opposite them, indicating that they did a good job!

"If we get rid of the ambush above, will things go smoothly down there?"

Ling Hanxue pulled back her arrow and wiped the blood off the corpse's clothes. She then looked down, but she did not find anything. "Zhong da, where do you think they will be hiding? Why can't the scouts find it?"

"I've never been to the stream of broken souls before, so I'm not very clear on where we can set up an ambush. However, judging from the area that we can attack from here, there are only a few places. "

Lin Yi looked down as well, but didn't find anything. "Black wildflower is more familiar with this, so I've left it entirely to her to determine the enemy's possible hiding location. But it doesn't matter, it's best if she can find it correctly, if she can't ... Then so be it!"

With the control of the high points on both sides of the cliff, the ambush below could not cause fatal damage to black wildflower and the others unless they had more than three times the strength.

Once the enemy was exposed, the attacks from the cliffs on both sides would be their unavoidable nightmare. At that time, they would be the ones in chaos!

With that, Lin Yi made a hand gesture to the opposite cliff, and one of the shooters let out a loud Eagle cry-it was the signal they agreed on, indicating that the mission was completed.

Chapter 7156 Melee

This kind of Eagle cry was not uncommon in the forest, so the occasional cry would not attract the attention of the enemy at all.

The only thing he had to worry about was that before he could complete the control of the high ground, it would be embarrassing if he heard a real Eagle cry ...

Fortunately, such a funny situation did not occur. After black wildflower received the signal, he revealed a confident smile.

"Ling lingfa, little brother Sima has already completed his mission. Next, it's time for us to show off!"

Black wildflower turned his head slightly and gestured to the team members behind him. "Let's see if the things you've provided are useful!"

"I didn't expect there to be an ambush. That kid's luck is pretty good. He was right!"

Ling lingfa's lips twitched, thinking that Lin Yi was just lucky."But he's really good at picking. He found a job that's easy to do. We'll do all the dirty and tiring work!"

"Ling lingfa, what you're saying is wrong. Little brother Sima has already made the most detailed arrangements. Furthermore, I'm more familiar with this broken soul Stream, which is why I'm in charge of finding the enemy's ambush points. What's the point of saying these things now?"

Black wildflower laughed coldly, thinking that Ling lingfa was trying to drive a wedge between him and Lin Yi so that he could benefit from it. He didn't give Ling lingfa any face at all when he was protecting Lin Yi.

Of course, this was also for Wu yucao and Chen Zhisheng to see-at least Lin Yi knew how protective she was of him.

In fact, black wildflower already had a deep understanding of Lin Yi's wisdom at the martial artist's courier station, so he had no doubts about Lin Yi's decision.

"Alright, alright, I'm just saying it casually. Boss Kurosaki, why are you so serious?"

Ling lingfa laughed and quickly changed the topic,""Actually, the equipment I provide is perfect for finding the enemy's ambush point, but you still have to be careful when using it."

Black wildflower pursed his lips and ignored Ling lingfa. Instead, he ordered his men to throw oval-shaped iron balls at the possible ambush spots!

That's right, these iron lumps are the grenades of the secular world!

However, they were all from the 1970s and 1980s, so the central Chamber of Commerce didn't sell them to the public. Ling lingfa brought them out, thinking that they might be useful, but she didn't expect them to really be used!

The loud rumbling of explosions continued to ring out, and several positions on both sides of the stream were attacked by grenades. Finally, two camouflaged rocks were blown apart, revealing dozens of dumbfounded ambush teams.

Ling lingfa's mouth twitched. What happened to using it carefully? Aren't you afraid of causing a landslide by throwing grenades everywhere?

When the time comes, we don't know if the enemy will die, but you guys will definitely die!

Fortunately, these were all things from the last century. If they were replaced with the latest high-explosive grenades, a large area of landslides would definitely appear on the cliffs on both sides, and the broken soul Stream might even be buried!

"Brothers, we've been discovered. Kill!"

Most of the cultivators who had been lying in ambush were covered in dust, and many of them had been injured in the explosion. Those who had reacted quickly immediately shouted and raised their weapons, rushing out.

The brave will win when we meet on a narrow road!

Since the ambush had failed, they could only fight head-on! Anyway, there was still a backup plan!

After someone took the lead, the people behind immediately followed, shouting and shouting as they rushed towards black wildflower and the others. Black wildflower and Ling lingfa did not immediately launch a charge to counterattack, but calmly watched the opponent's charge.

Then, countless millstone-sized rocks fell from the sky like a meteor shower. Lin Yi and the two men had pushed the rocks prepared by each other down the cliff.

The area where the rocks fell was supposed to be an ambush for black wildflower and the others. Now that black wildflower and the others had not entered the ambush circle, and those who were charging were in the attack range, the long-awaited back-up moves were directly thrown at their own faces.

The damage caused by the rain of stones was even more powerful than the grenade. The people who were lying in ambush were immediately thrown off their feet, and many more were dead or injured.

Chaos was inevitable!

Some of them wanted to continue charging forward quickly and only fight for their lives after getting out of this area. Some of them wanted to return to their original ambush spot, where they could avoid the rain of stones from the sky.

As a result, before black wildflower and the others could do anything, many of the other side's people had already bumped into each other and were smashed by the falling rocks!

Some people waved their weapons and tried to hit the falling rocks, but the impact of these millstone-sized rocks falling from 300 to 400 meters in the air had exceeded the limit of what they could withstand!

Anyone who did this was like a Mantis trying to stop a chariot, either dead or crippled!

Ling Hanxue didn't wait for Lin Yi's signal. Her left foot stepped on a protruding rock at the edge of the cliff, and a quiver of arrows was placed on her right hand. This was the loot she got from the enemy, and the quality was far from the arrows she bought.

However, she didn't need high-quality arrows to shoot down from such a high place. The most important thing was that if her arrows were damaged and lost, she would be heartbroken for a long time. So, these consumables were enough.

The bowstring of Ling Hanxue's longbow vibrated continuously. After a round of rapid shooting, there were more than ten corpses under the ground. However, some of the corpses had a few arrows stuck in them. Because the two archers on the opposite cliff were also shooting freely, everyone would sometimes choose the same target, so the unlucky ones who were chosen would be hit by a few arrows at the same time!

The ambush plan had been executed perfectly, but the identity of the Hunter and the prey had completely changed!

The attack from the sky caused enough chaos, and at the same time, it also harvested most of the heads. Black wildflower saw the opportunity and immediately led his men to kill, instantly ending the battle!

"Ling lingfa, did you see that? this is the easiest and most effortless task! Do you think that little brother Sima would still leave the dirty work to our people?"

Black wildflower sat on his Black Spirit Ferghana horse, proudly looking at the corpses floating in the stream. This place had really become a river of blood, but black wildflower felt extremely comfortable.

"Isn't cleaning up the battlefield dirty and tiring? Or should we just leave the corpses here?"

Ling lingfa snorted. He didn't really care. It was an enemy's corpse anyway. It didn't matter if it was soaked in the stream.

But black wildflower and his men had already begun to collect the spoils of war, and the corpses were also picked up and thrown to the place where they had originally laid in ambush.

It was not certain whether they would be buried in the end, but at least they could keep the stream flowing, so that it would be more difficult to move forward later.

"I think these are all small matters! Forget it, what's the point of telling you this?"

Black wildflower shook his head with a smile and decided to ignore Ling lingfa.

Chapter 7157

After a while, Lin Yi, Ling Hanxue, and the other two archers returned to the valley. Lin Yi got on his Black Spirit Ferghana horse and cupped his hands at the people who had already assembled.

"Everyone has worked hard! Everyone did well today! As long as we continue to maintain this, this young lord believes that no one can be our match!"

Lin Yi loudly praised everyone's performance. This was the battle to establish his authority. After this battle, whether these people were sincere or not, they would subconsciously follow his orders.

"Young master Sima is mighty!"

When someone started shouting, everyone immediately followed suit. Although there were only ten to twenty people, it was still a bit more majestic!

"Brother Sima, there were a total of thirty to forty people who ambushed us this time. It should be a joint battle between four teams. After this battle, we might not have many opponents!"

Black wildflower laughed happily. It turned out that the partner she chose was indeed powerful. Not only was he strong, but he was also very intelligent. From what he had observed so far, he should be a person who valued friendship.

Therefore, there was a high chance that he could complete the mission and escape unscathed. In this way, black wildflower would have more confidence in completing his wish.

"Maybe. I don't know how many teams have taken the task of the dark green demonic Valley. Maybe there are more in front and more in the back. We still can't take it lightly and must maintain enough vigilance!"

Lin Yi smiled and shook his head, not too optimistic, "But sister Sima, you did a good job commanding the troops down there. You found the enemy's ambush point almost immediately, and the final annihilation battle was also pretty good. We didn't suffer any casualties on our side. It's really an amazing record!"

"Little brother Sima must be joking. Big sister was only finishing up. Everything was within little brother Sima's plan. You're the one who really makes big sister admire you!"

Black wildflower's eyes curved into crescents as he smiled. He couldn't help but wonder if it was possible to maintain a long-term friendly relationship with Lin Yi. Even if she entered a sect in the future, she would need such a strong person as her support.

Lin Yi smiled and waved his hand. He looked at Wu yucao and asked, "Are you hurt? You didn't look too good just now, are you feeling better now?"

Wu yucao was taken aback, not expecting Lin Yi to suddenly turn to her while talking to black wildflower.

"No... No! I'm fine, there's nothing wrong with me just now!"

Wu yucao quickly shook her head and waved her hands, but she was a little angry at herself for not being able to live up to expectations. Why was she so nervous now? It was really like seeing a living ghost!

But when Wu yucao remembered Lin Yi saying he was interested in her last time, her heart started beating faster, and her face started to heat up.

However, when she thought about the difference between her status and Lin Yi's, she felt as if a bucket of cold water had been poured on her head. What a cold bucket!

The more outstanding and powerful Lin Yi was, the further Wu yucao felt she was from Lin Yi.

This was no longer just a difference in status, but a difference in all aspects!

And so Wu yucao couldn't help but think, how could she be worthy of Lin Yi at all?

Perhaps, being able to silently protect him by his side was already the greatest happiness?

The sad thing was that his strength was not worth mentioning at all, and more often than not, he had to rely on him to protect him ... Was he really qualified to stay by his side?

Even if she was just standing at the side and watching him ...

"Are you really okay? Why do you look so pale?"

Lin Yi looked at Wu yucao suspiciously and touched her forehead, "I don't have a fever! Why is it red for a moment and then white for another?"

Wu yucao didn't know whether to laugh or cry, and the little thoughts in her heart instantly disappeared without a trace. "Alright, I'm really fine! I just happened to recall something!"

Lin Yi was the leader of the team now, and Wu yucao felt that he had to maintain his dignity, so she stepped back and stopped Lin Yi from caring about her. It didn't seem like a leader's attitude!

"It's good that you are fine! You pay more attention to yourself!"

Lin Yi shrugged before waving his hand, "Alright, let's continue! Only by completing the mission as soon as possible can we prevent such a thing from happening again!"

Black wildflower and Ling lingfa didn't think much of it.

The interception before the mission began was actually just child's play. Only after the mission was truly completed would the competition be considered to have entered a state of white heat!

Danger lurked everywhere, both inside and outside the team.

This time, Lin Yi had killed about four joint teams that accepted the mission, and he didn't meet any other teams along the way.

Perhaps they were gone, or perhaps they had been killed by the joint team. None of that mattered.

The most important thing was that they finally reached the outer area of the valley before dark!

"Little brother Sima, it's going to be dark soon. Let's find a place to set up camp first?"

Looking at the entrance of the valley, which was filled with a faint poisonous mist, black wildflower made his suggestion, ""At night, the strength of the dark spirit beasts will increase greatly, and we will be affected. It will be very dangerous to enter the dark green demonic Valley! Why don't we recuperate and wait until tomorrow to enter the valley?"

"Sister hei ye is very thoughtful, then let's find a place to set up camp!"

Lin Yi nodded, "Take a look around and see if there are any suitable places to set up camp. Pay attention to those positions that are easy to defend but hard to attack, so as to avoid being sneak attacked by the spirit beasts of darkness at night!"

The three Scouts replied in unison and spread out to search the area. Lin Yi and the others got off their horses and rested.

After a short while, the three of them returned one after another, but only the last one found a good place.

"There's a gentle slope about five to six miles away from here. There's a natural cave on the slope that can accommodate all of us. The space inside is large enough for even the Black Spirit Ferghana horse to enter."

The last scout had a slight smile on his face. It was great to be able to find such a place!

At least in the cave, they would not be surrounded and attacked by the dark spirit beasts. As long as the people on night duty guarded the cave entrance, they could basically guarantee a night without worry!

"Alright, let's go and take a look. If it's really suitable, we'll stay there for the night!"

Lin Yi decided immediately, and everyone got on their horses. A distance of five to six miles wasn't a problem for a Black Spirit Ferghana horse, and they would be there in no time.

As expected, the cave was extremely spacious-it was a little wet, but it didn't affect their room at all!

"Sister hei ye, let's settle down here tonight, but this place isn't too far from the dark green demonic Valley. We still need to strengthen the security at night to avoid unnecessary losses!"

Lin Yi was satisfied with the cave, and left the security to black wildflower.

On the 19th of this month, there will be a big explosion. Stay tuned!

Chapter 7158

The team started to get busy. Some of them cleaned up the cave, some of them prepared food, and some of them were on guard. Soon, the sky was completely dark.

After dinner, Lin Yi made an excuse that he wanted to go out for a walk and observe the surrounding terrain, shaking off the group and leaving the cave alone.

Lin Yi actually wanted to enter the valley First.

He was a primordial spirit, so he wouldn't be affected by the poisonous mist in the valley. If he could find the purple mist sinful Lotus first, it would be for the best.

In addition, he also had to confirm the danger of the dark green demonic Valley and whether it was suitable for Wu yucao and the other two to enter.

If the danger level was too high, Lin Yi would have to find an excuse to keep the three outside after dawn.

If the level of danger was within an acceptable range, then it would not matter. Bringing them along to take the risk would increase their chances of breaking through.

However, the grey-robed Ling lingfa caught up to Lin Yi as soon as he left.

"Where are you going? Why don't we go together?"

Ling lingfa greeted Lin Yi with a smile. "With me following you, the others shouldn't be worried about you, right?"

"With you following me, others will worry about me, right?"

Lin Yi chuckled and waved his hand, "Are you okay? If you don't have anything to do, go play by yourself, don't follow me!"

"It doesn't matter. But I'm going this way. If you don't want to go with me, don't go this way!"

Ling lingfa took two steps forward and walked towards the Green Valley. He turned around and smiled at Lin Yi, "This time I'll go first. If you come over, then you'll be following me!"

Lin Yi's mouth twitched, knowing that Ling lingfa had seen through his plan.

But Lin Yi didn't understand-he was a primordial spirit, so he wasn't afraid of most of the dangers in the valley, but why did Ling lingfa have to?

This guy didn't bring any equipment with him!

If it was the previous gray-robed man, with his unfathomable strength, he would naturally not be afraid of the trifling dangers in the dark green demonic Valley. However, the current Ling lingfa was no longer the original gray-robed man, and his strength had long been reduced to less than one percent ...

He was still much stronger than Lin Yi, but he shouldn't be able to ignore the dangers of the dark green Valley!

"Are you sure you want to go to the dark green demonic Valley?"

Lin Yi furrowed his brows and looked at Ling lingfa with scrutiny. "I do hope to see you in bad luck, but if something really happens to you, it will affect the morale!"

"That's right. It's better for us to be honest with each other. In fact, I'm also very curious. You want to go to the dark green demonic Valley. Why aren't you worried about the dangers inside?"

Ling lingfa smiled at Lin Yi playfully before shrugging his shoulders. "I know you won't tell me. We're all the same, so let's not waste time. If you want to see, hurry up!"

Lin Yi's lips curled up. He knew that it was impossible for him to shake Ling lingfa off and go on his own, so he nodded. "Alright, to be honest, I'm looking forward to seeing your unlucky face!"

"Same to you. I'll be very happy if you're unlucky!"

Ling lingfa chuckled and led the way to the dark green demonic Valley. Lin Yi didn't say anything else and followed closely behind.

The two of them were quite fast, not inferior to the Black Spirit Ferghana horse in terms of short distance, and they covered five to six miles in a flash.

Although it was somewhat unclear in the dark night, the fog at the entrance of the dark green demonic Valley still seemed somewhat dense.

However, this atmosphere did not give off the feeling of being surrounded by immortal Qi. Instead, it was extremely eerie!

Ling lingfa didn't stop there and went straight into the mist. Lin Yi was a little suspicious-could it be that the gray-robed man was in the same state as him?

Despite his confusion, Lin Yi didn't stop either. He followed Ling lingfa into the mist.

The entrance of the valley was about two to three hundred meters of mountain road. Because of the fog, the surrounding environment could not be clearly seen.

The mist was much thinner after they passed the mountain path, and the night didn't seem to be as thick as outside. Lin Yi's vision was much clearer.

Lin Yi sniffed. There was a faint sweet smell in the air. If he was right, this was the poison in the dark green Valley, a poison that was tens of times stronger than the fog on the mountain path!

If Wu yucaao and the others breathed in even a trace of it, they would probably die in the blink of an eye!

"Lin Yi ... No, I should call you Sima Yi. Come and take a look, is this a teleportation formation?"

Ling lingfa stopped in front of a mountain wall and called Lin Yi over, ""You're an array master, see if you can repair this broken array. "

Lin Yi blinked. There was a teleportation formation here?

If it was true, could they get out of here through this teleportation array?

In a flash, Lin Yi was already beside Ling lingfa. He looked up and saw the remains of a formation.

"It's too heavily damaged, so it's hard to identify what formation it is. "

Lin Yi said to Ling lingfa, but he was already summoning ghostly things in his heart. "Senior ghost, take a look at this formation. Is it a teleportation formation? Can it be repaired?"

When the demonic thing heard about the teleportation formation, it was immediately interested. However, after looking at it, even he could not be sure.

"It looks like a teleportation formation, but it's not quite the same as the ones this old man knows of ..."

The ghastly thing pondered for a while and then said, "It's a type that I've never seen before. If it's intact, I can analyze it using the reverse engineering method. Unfortunately, the degree of damage is a little high, and it's definitely not something that can be repaired in a short period of time ... Even if I spend a long time researching it, I might not be able to repair it!"

What he meant was that even if he studied it, it might be useless. Whether or not he could find the purple mist sinful Lotus, he didn't have time to waste here!

Lin Yi was speechless-if even that thing said that, it seemed unrealistic to think that they could leave through the teleportation formation!

Therefore, he could only put it aside for now. If he really had no other way in the future, he would come back here and study it properly.

"I can't do anything about it. Your Center has also done a lot of research on formations. You can even integrate technology into it. This is quite an amazing achievement. Don't you understand anything?"

Lin Yi turned to Ling lingfa and spread his hands to show that there was nothing he could do. "If you have any skills, don't hide them, my ally!"

"I definitely don't know formations as well as you do. If you can't do anything, what can I do? Forget it, since that's the case, let's not waste any more time here!"

Ling lingfa's lips twitched. He didn't have high hopes for Lin Yi, and he was just testing him. "Are you going to act alone or come with me? An ally!"

On the 19th of this month, there will be a big explosion. Stay tuned!

Chapter 7159

Lin Yi wanted to act alone, but that was before Ling lingfa came. Since this guy had already entered the valley, he couldn't let him leave his sight!

"Ha ... Let's move together! After all, the dark green demonic Valley at night is much more dangerous. If I act alone, wouldn't it be a pity that I can't see your unlucky appearance?"

Lin Yi chuckled, his face saying "I'm sure you're in trouble. ""Don't worry. When you're down on your luck, I won't interfere. At most, I'll just laugh at you. "

"What an unparalleled good ally! If that's the case, I won't miss clapping for you when you're down on your luck!"

Ling lingfa was not to be outdone and retorted mercilessly. The two of them mocked each other for a while and then tacitly stopped hurting each other.

This was because a common enemy had appeared!

If they continued to hurt each other, they might all be killed in the end!

As the two were talking, seven or eight black hyena-like animals silently surrounded Lin Yi and Ling lingfa, their green eyes emitting a gloomy light in the dark.

"How is it? Do you want half each or do you want to go alone?"

After Ling lingfa had a good look at the black hyenas, he smiled and said, ""They're all beasts that aren't worth mentioning. How about I let you play with them?"

"I'm not interested. If you want to move your muscles, then go!"

Lin Yi was also very relaxed. Looking at the black hyenas, they didn't seem to have the ability to cause any harm to the yuan spirit body.

The poisonous mist around their bodies was thicker, so they should be more poisonous.

Lin Yi didn't care how many poisonous hyenas came at him, since poison didn't work on him.

"How about this, let's have a competition to see who can kill more. The winner will have the priority to pick the spoils of war that we found together. Of course, whoever finds it first can take it. Are you interested?"

Ling lingfa didn't seem to care about the hyenas that were slowly closing in on him as he continued to smile and talk to Lin Yi.

"Interesting! Then let's do this!"

Lin Yi rubbed his chin and nodded, "They're making their move!"

Before he could finish his sentence, the two of them had already charged forward at the same time. The hyena pack was startled, and hesitantly launched an attack on the two of them.

Lin Yi had already unsheathed the demonic devour sword, the black light disappearing without a trace in the dark.

The same black hyena jumped in the air, and Lin Yi easily cut off its head-it didn't even have time to scream before it was split in two!

In the blink of an eye, Lin Yi's demonic sword had already killed four hyenas. Under the might of this Supreme-grade sword, killing them was no different from chopping vegetables.

After that, Lin Yi took a look at Ling lingfa's side. He didn't expect Ling lingfa to have taken care of the last hyena as well, so he clapped his hands together.

"What a coincidence. There are only eight hyenas. We have four each, so we're evenly matched!"

Lin Yi shrugged and put the sword back into its sheath."It seems like I'll have to determine if my target is odd or even before the next competition."

"It's indeed not a coincidence, but it doesn't matter. It's just a game anyway. It's not a big deal!"

Ling lingfa waved his hand nonchalantly and kicked a hyena's corpse away.""Speaking of which, these hyenas aren't that strong. Their strongest point should be the poison in their bodies. Without anti-poison equipment, just smelling the poison around their bodies is enough to kill you, not to mention what will happen if you get bitten by them."

Lin Yi glanced at Ling lingfa, suspicious of his immunity to poison. However, Lin Yi couldn't tell if he was a primordial spirit too.

He didn't know if it was because Ling lingfa's disguise was too good, or if Lin Yi's eyes weren't sharp enough anymore due to his strength dropping.

"Let's go in and take a look!"

Lin Yi didn't reply and walked into the valley First. The black hyenas were only the outer creatures at the entrance, and he wouldn't know if there were stronger and more special creatures inside until he saw them.

Ling lingfa chuckled as he followed Lin Yi. Neither of them noticed that the hyena's body was rotting quickly and seeping into the ground.

After a short while, all the hyena corpses had completely disappeared. Whether it was their fur, bones, or flesh, there was not a single trace left behind. It was as if they had never been there.

On the other side, Lin Yi and Ling lingfa continued on their way, but they didn't go too far before they saw a gentle slope.

It was more accurate to say that it was a terrace field, because there were layers of open land on the gentle slope, and there seemed to be slight ripples in the water.

Lin Yi's heart skipped a beat when he saw the fields-there were two plants at the top!

Ling lingfa's eyes were as sharp as Lin Yi 's, and he noticed something as well. The two of them started moving at the same time, and without even saying a word, they were both running at their top speed.

Lin Yi's super limit butterfly microsteps was pushed to its limit, but he was only one or two steps faster than Ling lingfa. It was obviously impossible for him to put the two plants into his bag!

"Ha ... It belongs to whoever found it first. I found it first and arrived here first, so it should be considered mine, right?"

Lin Yi didn't say anything and stood in front of the two plants. He smiled at Ling lingfa because the two plants were very similar to the description of the purple mist evil Lotus.

Three round leaves supported the snow-white stem, and on top of it was a White Lotus flower that had already bloomed ... Although the colors did not match, the appearance and characteristics were the same.

"We agreed to split it evenly. Isn't it bad that you want to keep it all to yourself?"

Ling lingfa was blocked by Lin Yi, so he couldn't see the baby's face. He smiled lightly,""I saw that there were two of them. It's just right for us to each take one. We don't have to hurt our relationship. Do you really want me to fall out with you and have a big fight? If that's the case, maybe none of us will get it!"

If the two of them were to really fight, it was hard to say if they wouldn't get involved and completely destroy the two plants behind Lin Yi.

After all, that kind of delicate thing could not withstand even a little disturbance!

Lin Yi was hesitating. If he had more, he wouldn't mind giving some to Ling lingfa. The problem was that there were only two, one for him and one for the ghostly thing. Wouldn't it be insufficient for Ling lingfa?

However, what if Ling lingfa really wanted to fight to the death?

"No... Lin Yi, move away first, maybe that's not what I want, let me take a closer look!"

Ling lingfa suddenly frowned and signaled for Lin Yi to move to the side. Seeing that Lin Yi wasn't moving, he decided to take two steps to the side.

On the 19th of this month, there will be a big explosion. Stay tuned!

Chapter 7160

He even moved to the side to make it clear that he wouldn't take the chance to steal it, in case Lin Yi misunderstood.

Lin Yi blinked, but didn't stop Ling lingfa. He turned around to take a closer look.

From its appearance, it was indeed the purple mist sinful Lotus ... But he didn't see any purple mist!

And so, Lin Yi raised his hand to guard against Ling lingfa as he used his fingernail to lightly scratch the snow White stem. Immediately, a wisp of faint mist came out-it wasn't very clear in the dark, and he couldn't be sure if it was purple mist, but it was most likely the case.

"Hehe, so it's the purple mist Snow Lotus! This thing is useless to me, so you can take it!"

Ling lingfa shook his head with a smile. "I knew it! I knew it! It's not going to be easy!"

"Purple mist Snow Lotus?"

Lin Yi frowned. The name of this thing was very similar to the purple mist evil Lotus. Was there a connection?

Lin Yi was still a little excited at first, but he calmed down instantly and communicated with the ghost in his heart.

"Senior ghost, do you know about the purple mist Snow Lotus?"

"I know, it's a weaker version of the purple mist Lotus. If I have to make an analogy, it's like the difference between a radish and a ginseng. Although a radish has the name of small ginseng, it will never become a real ginseng. However, the purple mist Snow Lotus has the chance to evolve into the purple mist Lotus, but it will take a very long time."

The damn thing wasn't in the mood, and dismissed Lin Yi after a few words. "Go and talk to this guy. He seems to know quite a lot. You can ask him to reduce the suspicion."

Lin Yi's mouth twitched. Senior ghost had become lazy, too-he didn't even finish his sentence!

"Don't you know about the purple mist Snow Lotus?"

Ling lingfa looked at Lin Yi teasingly. "Although this thing is quite precious, you don't have to protect it like it's a treasure."

"I'm not too sure. If you're interested, you can help me explain it."

Lin Yi shrugged his shoulders and decided to listen to the ghost's words.

"Alright, since we're allies, I'll tell you some basic knowledge. Let's put it this way, if the purple mist Snow Lotus is of the ordinary Grade, then the purple mist sinful Lotus is of the immortal grade. The two have similar functions, but in terms of effect, the immortal grade purple mist sinful Lotus is ten thousand times stronger!"

Ling lingfa lifted his chin, signaling for Lin Yi to look at the two purple mist snow lotuses. "See that? The White stem and the lotus flower were the characteristics of ordinary items. Only when they evolved into immortal items would they be true treasures! However, if it really finished evolving, I'm afraid it might not stay here anymore. "

"What do you mean? After evolving into the purple mist sinful Lotus, will it grow legs and run away?"

Lin Yi smiled coldly, but he was a little disappointed.

According to Ling lingfa, it might be possible to use the purple mist Snow Lotus to reconstruct his body, but the effect would be ten thousand times worse!

What use would such a body have?

If the purple mist sinful Lotus was a peerless genius with heaven-defying potential after its body was reconstructed, then the purple mist Snow Lotus was probably an ordinary person among ordinary people.

"Maybe he can really run away!"

Ling lingfa smiled noncommittally. ""Do you want it? Although it's only a purple mist Snow Lotus, it's still quite valuable. It's good to use to complete a mission. "

With that, Lin Yi understood that Ling lingfa didn't even want to complete the warrior Guild's mission-he just wanted to find the purple mist evil Lotus.

As expected, he was their biggest competitor!

"If you don't want it, I'll keep it. It's a harvest, after all!"

Lin Yi didn't mind-even if he didn't need it to rebuild his body, he'd just hand it over to the black wildflower. Once he found the real purple mist evil Lotus, the black wildflower wouldn't have anything to do with it.

With that, Lin Yi reached out and picked up the purple mist Snow Lotus.

There was a small lotus seed head under the round leaves, and the two were about the same size. Lin Yi wasn't picky and put it away.

Ling lingfa wasn't interested in the purple mist Snow Lotus at all-he'd been looking around when Lin Yi was picking it, as if he wanted to see if he could find the real one.

However, in the next moment, Ling lingfa's expression suddenly turned extremely ugly. Without even saying a word, he immediately flew towards the entrance of the valley.

Lin Yi was confused at first, but his face changed as well-he felt an invisible dark force coming from the valley!

Even if it did not hit him directly, his primordial spirit body was already shaking!

If he was hit by this dark force, he couldn't guarantee that his soul wouldn't be destroyed!

So as soon as Ling lingfa left, Lin Yi followed behind, even faster than Ling lingfa. The two of them rushed into the mountain path as if their butts were on fire, not daring to take a break.

That was why neither of them noticed that the hyena corpses they had killed earlier had disappeared ...

Lin Yi and Ling lingfa only managed to calm down a little after breaking out of the poisonous mist, and the terrifying dark impact was no longer pressing down on them.

"What is that thing? A terrifying creature from the dark green demonic Valley?"

Lin Yi turned around and looked at the entrance behind him, his face still full of fear. "With such a powerful creature, it's too dangerous to enter the valley!"

"Maybe it's a creature that only appears at night. It's said that the sub-Island is a hundred times more dangerous at night than during the day. This is not a groundless statement!"

Ling lingfa also had a look of lingering fear on his face. He let out a long sigh and said, ""It seems that it's not a good idea to go in at night to explore the way. I'm going back to sleep. If you want to continue, then please go ahead!"

Lin Yi's mouth twitched. He dared to explore the dark green Valley at night because his Yuan spirit body was immune to poison and physical attacks from the dark spirit beasts!

However, the invisible impact and pressure just now had caused his primordial spirit to have the illusion that it was shaking. This was clearly an existence that was enough to threaten his life. If he still wanted to go in, he would really be courting death!

But then again ... Ling lingfa was in the same situation, and he was so focused on finding the purple mist sinful Lotus. Could it be that he was also in the primordial spirit body?

Why did Ling lingfa turn into a primordial spirit? Could it be that his physical body was also destroyed?

Or was it that when he was transported to the sub-Island, his physical body suffered irreversible damage and he had no choice but to exist in the form of a primordial spirit?

Lin Yi suddenly felt a headache. If something really happened to Ling lingfa, would he still have to follow Ling lingfa after he found the purple mist evil Lotus and rebuilt his body?

What if he lost his body after teleporting out and returned to the sub Island again?

Is it fun?

Lin Yi shrugged his shoulders casually. "Forget it, I've also gained something, which is better than you getting nothing. I'll go back and take a nap first. We'll talk about it tomorrow!"

Ling lingfa laughed out loud and did not say anything else. He led the way to the cave where they had set up camp.

Along the way, they didn't encounter any spirit beasts of darkness, and they soon returned to the cave. There were people guarding the entrance, so they weren't afraid of being attacked by spirit beasts of darkness.
