

Bodyguard 7241

Chapter 7241

"It's a Black Spirit golden bamboo snake. This type of darkness spirit beast is very rare, and it can be considered a darkness spirit beast that accompanies the golden light undying bamboo! It's The Guardian of the Golden undying bamboo, and it usually uses the aura of the Golden undying bamboo to cultivate and grow. When the Golden undying bamboo matures, it can directly devour the Golden undying bamboo, and there's a chance that it'll evolve into a wyrmdragon, a peak expert among the darkness magical beasts!"

The demonic thing explained the snake's background to Lin Yi. He had some missing memories, but anything that he could remember was explained in an organized manner, "You're quite lucky, kid. The Black Spirit golden bamboo snake's strength is closely related to the golden light undying bamboo. The golden light undying bamboo is still young, so the Black Spirit golden bamboo snake is only at the Golden core stage. If it grows a little bit, you might not be its match!"

"Ha ... You said that I'm lucky, so of course I'm not!"

Lin Yi was in a good mood-he was just about to level up his body when he came across something as good as the Golden indestructible bamboo. It'd be a blessing if he said so."Senior ghost, what are the Black Spirit golden bamboo snake's weaknesses?"

"Do I still need to say this? Hit where it hurts, the whole world knows about this weakness, right?"

The ghastly thing laughed mockingly, then said seriously,""Aside from its seven-inch body, the Black Spirit golden bamboo snake's entire body is as tough as steel. Even your demonic devouring sword might not be able to break through its defenses. After all, it's a spirit Beast of Darkness that grows on the golden light undying bamboo. The golden light undying bamboo is known for its indestructibility, so you can imagine how tough it is."

After a slight pause, the ghastly thing continued,""However, the Black Spirit golden bamboo snake's primordial spirit should be weaker. After all, its body is extremely strong, so its primordial spirit can't be as powerful. Most of its energy should be focused on its body!"

Lin Yi understood immediately. The Black Spirit golden bamboo snake was a dark spirit beast after all. It focused on its body, so it would definitely let go of its essence spirit.

But this made things much easier. Lin Yi's strongest point right now was his soul, and if he used his full strength, it was enough to threaten the life of an original infant stage cultivator. What was a little snake to him?

"If that's the case, then kill it!"

Lin Yi's lips curled up into a smile as he walked towards the rock. His connection with the ghostly thing only lasted for an instant in the outside world, so he walked over immediately after seeing the Golden undying bamboo.

In the Black Spirit golden bamboo snake's eyes, this reckless human had his eyes on its treasure and wanted to take the Golden indestructible bamboo!

This stupid human is dead for sure!

So when Lin Yi got close to the rock, the Black Spirit golden bamboo snake shot out from the crack like lightning!

It was like a sharp dagger, instantly arriving in front of Lin Yi. Its target was his neck, and as long as it hit, it would definitely kill him in one shot!

Unfortunately, Lin Yi had been paying attention to the Black Spirit golden bamboo snake's movements. How could he be hit?

Lin Yi said he was going to kill the Black Spirit golden bamboo snake, but if it didn't move, he wouldn't do it himself.

After all, it was fine as long as he could get the golden light undying bamboo. A small snake was not important, and it did not matter whether he killed it or not.

Since the Black Spirit golden bamboo snake was looking for death, Lin Yi had nothing to say. It was hiding in the crack, and killing it would take some effort, but since it came out, things were much easier!

He sent out his divine sense, and the Black Spirit golden bamboo snake's tiny head immediately tilted back, its forward momentum coming to a halt.

Lin Yi pulled out his sword at the same time, and the demonic blade turned into a black light, lightly cutting through the snake's body, bringing up a small drop of blood.

If it was a golden core stage master like Wu yucao, it would be almost impossible for her to defeat the Black Spirit golden bamboo snake. But under Lin Yi's hands, the Black Spirit golden bamboo snake couldn't even resist and was cut in two!

Lin Yi sheathed his sword and put the Black Spirit golden bamboo snake's body into the Jade space.

Although this thing was small, it had been absorbing the aura of the Golden undying bamboo and was somewhat useful. He could clean it up later and make snake soup!

"Senior ghost, how do I use the golden light undying bamboo?"

After killing the Black Spirit golden bamboo snake, Lin Yi was going to collect the golden light undying bamboo."Are there any taboos that I should pay attention to?"

As for the Golden undying bamboo, Lin Yi had only heard about it from the ghastly thing, so he didn't dare to make a move yet. He needed the ghastly thing's opinion.

"Pull out the golden light inextinguishable bamboo and place it in your palm. It'll be more troublesome since you don't have true Qi."

The ghastly thing pondered for a moment and said,""If you have true Qi, you can refine it directly with your true Qi. Now, you can only spend more effort and use your blood to refine it!"

"With blood? Pour it on it?"

Lin Yi scratched his head. It was indeed troublesome without pure energy. He thought he'd have to chew the bamboo and eat it, but now he knew that he'd have to use blood to refine it.

"No need. Make a small cut on your palm and let the blood ooze out. It'll be fine once it touches the golden light undying bamboo."

"Of course!" The demonic thing explained with a smile, "by doing so, you can let the Golden everlasting bamboo fuse with the power of your bloodline, and its essence will be fused into your blood. Then, it will temper your body on its own! As long as you can absorb all of it, your body's strength will have a qualitative leap, and your future potential will also be better!"

"So that's how it is! It's quite simple!"

Lin Yi nodded slightly and reached for the bamboo, "I'll keep it first. I'll refine it after the assessment!"

"No way!"

"No!" The ghastly thing quickly said, "once the Golden indestructible bamboo is moved, it must be refined immediately. Or rather, it can only be refined when it is pulled out!"

Lin Yi's outstretched hand paused as he asked, "Senior ghost, what do you mean by that?"

"I mean it literally! If the golden light undying bamboo is not refined immediately, it will quickly become extremely hard and can no longer be refined. It can only be used as a material for artifact refining. After all, the golden light undying bamboo's undying nature is quite impressive when used for artifact refining!"

The ghastly thing seemed to be quite clear about this, and it said unhurriedly, ""You have the demonic devouring sword in your hand now. If you find a master blacksmith and fuse the inextinguishable golden bamboo with it, the demonic devouring sword's quality will definitely increase again. The problem is that your body is more important right now. This old man feels that using the inextinguishable golden bamboo to refine a weapon is a waste!"

"Of course I won't use the golden light undying bamboo to refine a tool ... So if I want to pull out the golden light undying bamboo, I can only refine it immediately, right?"

Lin Yi was in a difficult position. Refining the golden light undying bamboo was no problem, but there was only one day in the arena. If he missed the chance to leave the arena because of the bamboo, wouldn't he be eliminated?

Chapter 7242

"Senior ghost, how long would it take to refine the golden light undying bamboo?"

Lin Yi thought about it. He couldn't let the Golden undying bamboo go, so he had to estimate the time before making a decision. If it really didn't work ... He'd refine half first?

"It's hard to say, but I don't think it'll take a day. "

The damn thing knew what Lin Yi was worried about. "To be more precise, you should be able to complete the refining in 12 to 12 hours."

That was still acceptable-even if he used twelve hours, he still had at least ten hours to find the exit. As long as he could find the exit, nothing else mattered!

"There's no time to waste, let's start now!"

Lin Yi didn't say anything and reached out to grab the golden light undying bamboo. He pulled hard, but the golden light undying bamboo didn't move at all!

He pulled harder, but there was still no movement!

Lin Yi's strength was less than one-hundredth of his peak strength, but he was still very strong. He had no problem lifting the rock under the Golden indestructible bamboo with one hand, but he couldn't even pull it out!

"Senior ghost, what is the meaning of this? Is there any other trick?"

Lin Yi knew something was wrong, so he stopped pulling and asked the ghost, ""Are you going to dig it out? Or is there some other method?"

"I've never heard of this ... The golden light undying bamboo can't be pulled out?"

The ghastly thing was also a little puzzled. After a moment of silence, it said, ""Why don't you make a cut on your palm first and try to let some blood flow out? since blood is needed to refine it, maybe it'll be needed when you pull it out!"

Lin Yi's mouth twitched. He thought that this thing knew everything about the Golden undying bamboo, but there was something it didn't know?

Although this method didn't sound too reliable, there was no other way now. He would give it a try!

Lin Yi didn't think too much about it and cut his palm before reaching out to hold the Golden undying bamboo. As expected, there was a different feeling when his blood came in contact with the Golden undying bamboo!

But before Lin Yi could pull it out, a mysterious feeling came from the bamboo, entering the wound through his blood and quickly spreading throughout his body.

He's already starting to refine it?

Lin Yi blinked, understanding the situation.

It turned out that the golden light undying bamboo didn't need to be plucked, or rather, it couldn't be plucked at all. It could only be refined like this!

It was no wonder that no one from the sword spring sect had taken the golden light undying bamboo away before. One of the reasons was that they were not strong enough to defeat the Black Spirit golden bamboo snake. The other reason was probably that they did not know the way to refine it and could not take it away. They could only leave it here!

No matter what, Lin Yi had already started refining and couldn't give up halfway. He sat on the rock and focused on refining the golden light undying bamboo.

10 to 18 hours passed quickly. On the mountain wall outside, the names of nearly 50 people had turned gray, which meant that almost half of the people had been eliminated!

The remaining people were also re-ranked according to the number of kills.

At this moment, the person in first place was surprisingly Al fan of Zhulu city. He had already killed five people, which was a full 10% of the people who had been eliminated!

In the top ten, the others all had at least two kills as well, but Lin Yi's side didn't have one. Only black wildflower had one kill and was ranked 15th, while Lin Yi was ranked 18th with one kill. It was clear that they were going according to the order, and there was no tie.

"Your movements are so slow! It's been so long and only half of them have been eliminated!"

Elder Xu frowned slightly and looked at the name list on the rock wall with a dissatisfied expression. ""Regarding the clues to the trial arena's exit, have you made arrangements?"

A disciple at the side replied respectfully, ""Elder, I've already made the arrangements. They should have already discovered it by now, right?"

"If it had already been discovered, then it should have been even more intense. Why is it so lukewarm?"

Elder Xu's words weren't easy to respond to. The disciple could only smile and lower his head in agreement, but didn't say anything.

The so-called exit clue was actually very simple. It was just to make the competition between the participants more intense!

At this moment, Wu yucao had such a clue in her hands. Kill the opponent and leave with the token!

"Sis Wu, what's the meaning of this?"

Jin Yuanbao had just met up with Wu yucao not long ago, and because of Lin Yi, the two of them had formed a team to explore and look for other people at the same time, so he saw the clues Wu yucao had found. "Don't tell me we have to kill someone before we can leave this place?"

"It's possible ... Maybe it means that there are two conditions to leave the trial arena. Kill an opponent and find an advancement token. Neither can be missing?"

Wu yucao frowned slightly and thought for a moment. "Only by fulfilling these two conditions can one leave from the exit within a day. Otherwise, even if you find the token and the exit, you can't leave?"

"We still have to find the exit first!"

Jin Yuan Bao mumbled, "we don't even know where the exit is, so how can we get out?" If we know the location, we can go and wait for them. Whether it's killing them or snatching the tokens, it'll be very easy!"

Wu yucao couldn't help but smile. Her strength was definitely at the forefront of all the examiners, but even she didn't dare to say that it was easy to kill and take the token. Where did Jin Yuan Bao's confidence come from?

However, Jin Yuan Bao's words made sense. As long as they could find the exit, it would be much easier to leave the trial grounds. Basically, finding the exit was already half a success!

Unfortunately, the clue in her hand did not point to the location of the exit.

Just as she was thinking about this, Wu yucao subconsciously looked at the clue in her hand again. It was actually a palm-sized black triangle with a sharp angle. There was a line of small words written on it.

She hadn't paid much attention to it just now, but when she looked at it again, Wu yucao suddenly felt that it was a little strange because the words seemed to be a little crooked.

To be precise, the acute angle of the triangle was a little crooked, so the words were crooked.

Wu yucao turned her wrist, trying to straighten the triangle, but she immediately realized that it was useless!

The sharp tip of the triangle would still turn back to its original position without a sound. If Wu yucao wasn't staring, he wouldn't have noticed.

"Eh? I seem to have discovered something!"

Wu yucao's heart skipped a beat. She called out to Jin Yuan Bao, ""Young master Jin, look at this triangle!"

"So what if it's a triangle? What's strange?"

Jin Yuan Bao took a look, but did not find anything wrong. "Sis Wu, what did you discover?"

"Look at the handwriting on this! Isn't it a little crooked now?"

Wu yucao pointed at it and then turned her body slightly. ""Did you see that? is the handwriting slowly changing?"

Chapter 7243

"It really is!"

Jin Yuan Bao clapped his hands in surprise, then said in a daze, ""Then, what's the use of this? Why did they come up with such crooked words?"

Wu yucao couldn't help but roll her eyes. Jin Yuan Bao was usually quite a smart person, why was he so silly now?

"Actually, it's not that the writing is moving. The point is the sharp corner of the triangle. No matter how I turn my body, the horn is always pointing in one direction!"

"It really is!"

Jin Yuan Bao's eyes widened as he exclaimed, ""Sis Wu, you're amazing! You even found out about this! The direction this horn is pointing at must be the exit we're looking for!"

Without waiting for Wu yucao's agreement, he reached out and took the triangle. He threw it into the air and watched it free fall!

The triangle that fell to the ground was still pointing in that direction!

Again!

It was still in that direction!

The third time!

The result was still the same!

"Sis Wu! There's no need to doubt it, this is indeed a treasure that will guide us forward! Let's hurry up and go!"

Jin Yuan Bao was extremely excited. He picked up the triangle and wiped it clean with the corner of his clothes, then returned it to Wu yucao. "Now that we have this clue, we have the upper hand. As long as we find the exit, then find a place to ambush a few people with the token, we will be able to advance!"

"That makes sense. Let's go!"

Wu yucao nodded slightly, agreeing to Jin Yuanbao's suggestion. She had wanted to find Lin Yi, Ling Hanxue, and the others first before going to the exit.

But considering that he didn't have an advancement token yet, and he didn't know where Lin Yi and the others were, he might as well wait for them and get some advancement tokens as backup.

As for whether or not Lin Yi and Ling Hanxue could find the exit, Wu yucao wasn't worried at all.

If he could find a clue like this, Lin Yi and the others would naturally find other triangles as well.

She didn't believe that there was only one sharp-angled triangle in the entire trial arena. The information on it clearly stated that the participants were to kill each other and eliminate each other, so how could there only be one?

And that was the truth. At the same time, many people who were scattered in the trial grounds received the guidance of the sharp triangle. As long as they followed the direction, they would be able to find the exit of the trial grounds.

As for the rank advancement token, Wu yucao and Jin Yuan Bao didn't get it, but many of the remaining people had found it, and some had more than one!

The final location of the battle could only be the exit of the stadium!

Lin Yi was sitting cross-legged on the rock of the Golden undying bamboo, refining it with his eyes closed.

The entire golden light undying bamboo was starting to become illusionary. It finally trembled a little and turned into a green-gold Smoke, disappearing into the wound on Lin Yi's palm.

The wound also healed immediately after the golden light undying bamboo disappeared!

Lin Yi let out a breath of air and opened his eyes slowly. The refining of the golden light undying bamboo didn't improve his body much, only reaching the level of a half-step golden core.

"Senior ghost, is this normal?"

He'd thought that he'd have to at least reach the mid-stage of the Golden core, but he wasn't even there yet.

"That's normal! You should be very clear that this refinement was just the absorption of the golden light undying bamboo's essence. You didn't actually temper much of your body. "

The demonic thing replied nonchalantly, "the essence of the golden light undying bamboo is now in your blood. You can slowly cultivate in the future and continue to temper your body. The benefits are definitely much better than a one-time upgrade. What else are you dissatisfied with?"

Lin Yi felt the blood in his veins, and there was a mysterious energy circulating in it. He smiled, "Of course I'm not dissatisfied. Senior ghost, you're the most knowledgeable one. If it weren't for you, I wouldn't even recognize the Golden indestructible bamboo, let alone mention refining it!"

After complimenting the monster a little, Lin Yi got up and estimated the time. "There's still some time before the trial ends. I should go look for the exit!"

The thing hummed a couple of times and ignored Lin Yi.

Lin Yi also flew over quickly, ready to find the exit of the arena and find Wu yucao and the others at the same time.

When they were refining the golden light undying bamboo, no one had found this place. It could be seen that the trial arena was quite large. It was definitely not an easy thing for the two of them to meet.

There weren't any dark spirit beasts coming to disturb them, and Lin Yi didn't find it strange.

After all, that place was the Black Spirit golden bamboo snake's territory. Although Lin Yi had killed the snake, its aura wouldn't disappear for a short period of time, so other dark spirit beasts wouldn't go there easily.

Lin Yi ran for ten minutes and was thinking that it was indeed hard to find someone when his spirit sense picked up a familiar person.

He exerted strength in his legs and his figure flashed quickly, catching up to the man in an instant.

"Bing bi!"

Lin Yi's greeting startled the person in front, but he turned around and smiled in surprise when he saw Lin Yi.

"Young master Sima! It's great to see you! I was still wondering why I couldn't find my own people. Now that I've seen young master Sima, I've finally found the organization!"

Bing bi smiled as he cupped his fists at Lin Yi. He was originally a martial artist from Luling city, and after standing on Lin Yi's side on the dark flying spirit beast, he was considered one of Lin Yi's people.

"Yes, it's good to find you! You didn't meet anyone else on the way?"

Lin Yi smiled as he nodded, a little disappointed. He'd wanted to ask Bing bi about Wu yucao and the others, but it seemed like there was no hope.

"I've met people from other cities, but I've always been hiding in the dark and didn't go out to talk to them!"

Bing bi shook his head and helplessly said, "I don't dare to go and talk to the martial artists from other cities alone. It's a pity that along the way, other than you, young master Sima, I didn't see a single one of our own."

"Why wouldn't I? Are you afraid of them snatching your advancement token?"

Lin Yi eliminated Huang shulang himself and got an advancement token, but that was because Huang shulang wanted to die, not because Lin Yi made a move.

And so, without any clues, Lin Yi didn't think it was necessary to eliminate people from other cities, even if it was a way to eliminate opponents.

"Young master Sima, you still don't know? There are actually other rules to leave this Stadium!"

Bing bi opened his hands, revealing the sharp triangle in his palm. "Please take a look, it's up there!"

Chapter 7244

Lin Yi glanced at it and saw the handwriting-it wasn't any different from the one Wu yucao got.

After thinking for a bit, Lin Yi understood the meaning!

"So that's how it is, only by eliminating someone and having an advancement token in hand can you smoothly leave the trial grounds, otherwise you will definitely fail!"

Lin Yi raised a brow, a meaningful look in his eyes. "In that case, even if we have the advancement token and find the exit, it's useless!"

After a slight pause, Lin Yi continued, "Interesting! If someone eliminated most of the people by himself, wouldn't the remaining people have no choice but to kill each other?"

Bing bi paused for a moment before understanding what Lin Yi meant.

There were a total of 40 advancement tokens in the entire Stadium, and 100 people had entered. In theory, there could be 40 people who could obtain the right to advance.

But if what Lin Yi said happened, it would be a different story!

For example, Lin Yi's team had ten people, and all of them had an advancement token, but they didn't eliminate anyone before and found the exit.

Al fan was a ruthless person. He had eliminated all the remaining people, including his subordinates, by himself. Al fan was the only one who could leave the trial arena at this time!

After Al fan left, if Lin Yi and the others wanted to advance, they would have to eliminate five out of ten people with their own hands!

If they didn't have the heart to fight, then they could only be eliminated!

This was why Lin Yi said the rules were interesting! In fact, it was not really interesting, but the person who set the rules simply wanted to see a situation of internal strife, right?

"Young master Sima, I found an advancement token ... But I didn't eliminate any opponents. This means that I have to eliminate one person!"

Bing bi took out the rank advancement token he found and gave it to Lin Yi, ""Why don't we give this token to you, young master Sima? with your strength, it's easier for you to eliminate others!"

He felt that his strength was relatively weak and it was almost impossible to eliminate others. If he was strong, he would not have to be afraid to face the martial artists from other cities!

Lin Yi smiled and shook his head, "no need. I have my own token. You can keep it. As for the elimination, don't worry. There will be a chance!"

Lin Yi had a good impression of Bing bi, although he was indeed weaker than Chen Zhisheng. It was no wonder he didn't dare to face the martial artists from other cities.

But just because Bing bi was weak and still dared to stand behind Lin Yi to fight against the strong Zhulu city's practitioners, Lin Yi didn't mind helping him!

"Oh yeah! With young master Sima's strength and luck, how could he not have an advancement token! I was wrong!"

Bing bi smacked his forehead and smiled as he kept the advancement token, ""Since that's the case, young master Sima, let's hurry to the exit!"

"You know where the exit is?"

Lin Yi wasn't expecting a surprise like this.

The trial arena was much larger than he had thought. If he were to search for the exit like a headless fly, not to mention ten hours, he might not even be able to find it in four or five days.

"Young master Sima, please take a look. Not only does this triangle have information, its sharp edge is actually like an arrow, and it will always point in one direction!"

As Bing bi spoke, he spread out his palm and turned around.

As expected, the triangle was always facing one direction. No matter how the ice wall turned, the triangle would adjust automatically."Young master Sima, did you see that? I feel that the direction this thing is pointing to is the exit of the trial grounds. After all, there's also information about leaving!"

Lin Yi nodded-it was a pretty reliable theory. As for the triangle, it was like a compass to Lin Yi!

"In that case, let's go this way!"

Lin Yi brought Bing bi along and headed towards the direction the triangle pointed.

He had the guidance, but Bing bi wasn't moving very fast, so Lin Yi had to follow his pace.

The two of them walked for nearly six hours. During this time, they even dealt with a few spirit beasts of darkness before they finally approached their destination.

"Young master Sima, I feel like we're almost there!"

Bing bi saw traces of a fight at the side and thought for a moment before saying, "Along the way, we didn't meet anyone else, but now we can see traces of battle, which means that people have already come here, and there are more than one or two people! If I'm not wrong, they should also have a triangle to guide them, just a little faster than us!"

"That makes sense! Since we're about to reach our destination, you should be careful. I'm afraid that some people will set up an ambush!"

Lin Yi reminded, but he didn't really care. With him around, who could sneak attack Bing bi in the arena?

"Understood. Don't worry, young master Sima, I will be careful!"

Bing bi nodded and walked in front of Lin Yi, taking on the role of the vanguard!

Lin Yi smiled faintly and didn't stop Bing bi. He let him walk in front while he followed him. He spread out his spirit sense and paid attention to his surroundings.

Not long after, Lin Yi noticed six practitioners hiding on the trees, ready to pounce at any moment. As Bing bi walked into the ambush area, they entered battle mode.

"Do it!"

With a low shout, six figures descended from the sky. Two of them were targeting Bing bi, while the other four were targeting Lin Yi.

A cold smile appeared on Lin Yi's lips as he used butterfly microsteps and pulled Bing bi back seven or eight steps, out of the encirclement.

The six of them were instantly dumbfounded. They had never thought that their ambush would actually fail to catch anything!

This was a little troublesome!

"Haha...Haha...Young master Sima, this is a misunderstanding ... Hahaha!"

The six of them looked at each other, and the leading cultivator didn't dare to hesitate, quickly explaining with a dry smile, "We didn't see clearly that it was you, young master Sima. It was really a misunderstanding!"

Whether it was a misunderstanding or not, everyone knew in their hearts!

With a martial artist's eyesight, how could he not even recognize the person at such a close distance?

Lin Yi's display of strength and power before was something that most people wouldn't dare to mess with, but these six people were hoping for a fluke. They thought that they had the advantage of numbers, and with a sneak attack, it wasn't impossible to eliminate two people as long as they injured Lin Yi first!

The most important thing was that no one would really die Here. At most, they would be eliminated! As the saying goes, wealth is found in danger, and you should act when you should!

Unfortunately, their sneaky attacks were nothing but a joke in Lin Yi's eyes!

Moreover, these six people were the ones who had not managed to grab any food. They had not replenished themselves for several days in a row, and they had been consuming their energy at a high intensity. Whether it was their mental or physical strength, they were all at an extreme low!

Chapter 7245

From the looks of it, they didn't think of a way to find something to eat in the trial arena, such as killing two Spirit beasts of darkness to barbecue or something. It was probably because they were alone and didn't have the physical strength before they met up, so they couldn't kill the spirit beasts even if they wanted to.

To be able to come here alive and join forces was already a miracle, but unfortunately, their luck ended here!

"It doesn't matter if it's a misunderstanding or not! What's important is that since you've already made a move on this young master, if this young master doesn't respond, wouldn't others look down on me?"

Lin Yi hmped coldly as he walked up to her. "How about this, as long as you can take ten moves from this young master, I'll treat today's matter as if it never happened. If you can 't, then there's no need to say anything more!"

"Young master Sima, we've already apologized. There's no need to do this, right?"

The leader's face turned ugly-they'd all seen Lin Yi's strength, and that weird poison technique aside, just that swordsmanship alone was enough to shock them!

To be honest, even if the six of them were at their peak after eating and drinking, they still wouldn't want to fight Lin Yi in a face to face battle, because the chances of winning weren't high!

Not to mention this half-dead state!

Lin Yi didn't even need to do anything-Bing would use his full strength, and the six of them weren't sure if they could win. After all, a proper fight and a sneak attack were two different things!

"This young master has the final say! You have to accept it, even if you don't want to!"

Lin Yi's lips curled up as he unsheathed the demonic blade, a black light bursting forth!

He did not actually have to eliminate these six people. It was just that after obtaining the golden light undying bamboo, his body had an obvious improvement, so he wanted to try and familiarize himself with his current body.

Otherwise, how could he have needed ten moves to deal with these six guys who could be blown down by the wind? After one sword, it would probably be over!

Seeing that begging for mercy was useless, the six of them could only brace themselves and attack!

Unfortunately, as they expected, even if they were at their peak, they still might not be Lin Yi's match, let alone now.

With the demonic devour sword in his hands, the six of them were completely crushed by Lin Yi. They couldn't even last three moves, let alone ten moves! And this was when Lin Yi was holding back.

"You're really too weak!"

Lin Yi shook his head in disappointment-this guy had no way of getting him used to his strength."Forget it, you guys should go rest in the safe area!"

With that, Lin Yi waved his sword and sent five of them away, leaving one trembling guy behind. He picked him up and threw him in front of Bing bi.

"What are you afraid of? It's just an elimination, it's not like you'll really die!"

Lin Yi glanced at the martial artist in disdain and turned to Bing bi,"Bing bi, this is for you. Kill him and you will have the right to leave the stadium!"

"Many thanks, young master Sima!"

Bing bi cupped his fists in thanks. Without any pretense, he directly killed the martial artist on the ground and said,""Young master Sima, shouldn't we have left a few of them behind just now so that we can attack them when we find big sis Wu and big sis Ling?"

He still remembered Lin Yi's analysis-once the majority of the people were eliminated, and the remaining people who still wanted to pass had to kill each other!

Thus, Bing bi felt that it was safer to leave a few alive and keep them with him, so that they wouldn't end up killing each other in order to advance!

"No need! We don't have many people, the remaining opponents are enough!"

Lin Yi shook his head with a smile. He could already feel that there were a lot of people gathered a few thousand meters away. If he wanted heads, there was no lack of them!

"Oh," Bing bi replied and didn't say anything else. He was following Lin Yi's lead now, and he had the right to leave, so there was nothing to worry about.

There was an advancement token left on the ground. As expected, those who were eliminated would not be able to take the advancement token away and would automatically remain.

Bing bi picked up the rank advancement token and wiped it with his sleeve before handing it to Lin Yi with both hands.

"Young master Sima, here's an advancement token. Keep it, it might be useful!"

"Alright!"

This time, Lin Yi didn't reject it. Bing already had one, and didn't need another advancement token, so he could save this one for others.

After keeping the rank advancement token, Lin Yi brought Bing bi and continued forward. They soon arrived at a Valley, and there were already thirty to forty people gathered at the entrance. This was almost everyone who was still in the arena!

"Young master Sima!"

"Little brother Zhong da!"

"Brother Sima!"

.....

Wu yucao, black wildflower, and Jin Yuan Bao all greeted Lin Yi happily when they saw him. Lin Yi naturally smiled back at them and looked at the rest of them.

On his side, Wu yucao's trio were all there. Black wildflower and Jin Yuan Bao had also successfully arrived, but that was all!

There were still a few Luling city fighters on Lin Yi's side who were on dark flying spirit beasts like Bing bi, fighting against Zhulu city's fighters. It was a pity that they were all gone-they were probably eliminated!

Bing must've been lucky to have met Lin Yi on the way. If Lin Yi wasn't there, he probably wouldn't have been able to block the sneak attack and would've been eliminated too!

"It's good that everyone is here! What's the situation now?"

Lin Yi looked around and found that the entrance was clearly separated. He was on one side, and the other side was led by Al fan, with Zhulu city's elites as the backbone and the rest as the wings.

Before he came in, Wu yucao, black wildflower, and the others were facing off against Al fan. If Lin Yi didn't come, they would probably be eliminated in minutes!

"Brother Sima, you're finally here. I've been waiting for you for a long time!"

Al fan smiled and cupped his hands at Lin Yi. "There's not much time left. Let's not beat around the bush and just tell us how to get out!"

Lin Yi raised a brow and saluted Al fan, but didn't say anything. He turned to Wu yucao and black wildflower.

In the end, before the two of them could speak, Ling Hanxue said, ""Young master Sima, young city Lord Al said that we'll decide who can leave the trial arena through a battle!"

Lin Yi wasn't surprised-he'd expected a big fight at the exit, but he didn't think it'd be a chaotic one.ai fan had it all under his control.

"Brother Sima, the exit is in this Valley. However, if you want to leave the testing grounds, you must have thirty advancement tokens to open the exit!"

Jin Yuan Bao further explained,"there are only 40 advancement tokens in the entire trial arena. However, not all of them have been found. Currently, we and young city Lord AI have exactly 30 advancement tokens. There are nearly 40 people here. So, not everyone can leave ..."

Chapter 7246

"I understand!"

Lin Yi nodded and interrupted Jin Yuan Bao,"How many advancement tokens do you have in total?"

Lin Yi didn't mind giving the extra tokens to AI fan. He didn't care how the other party distributed them, but he didn't want to touch his people.

If it wasn't enough, then Lin Yi had no choice but to take it from him!

"The five of us now have four advancement tokens, but Zhi Sheng doesn't have any!"

Wu yucao answered Lin Yi, but her eyes were on Al fan's camp. Chen Zhisheng didn't have a token, so she could only target the other side. After all, she had been with Ling Hanxue and Chen Zhisheng for a long time. It didn't make sense for her to give up on Chen Zhisheng and advance on her own.

"Only Chen Zhisheng doesn't have one? That's good!"

Lin Yi relaxed. One less advancement token didn't matter-he had one more with him, and everyone could live together!

Chen Zhisheng's face darkened at Lin Yi's words. What did he mean by "only Chen Zhisheng didn't have it"?

So, among these people, no one could not have a token, but he, Chen Zhisheng, could?

But Zhisheng immediately realized that he was wrong-Lin Yi took out a rank advancement token and gave it to him.

"I just got rid of a group of idiots who were blocking the road and robbing me, and I got an advancement token. Now all of us have a token!"

Lin Yi said as he raised his hand, signaling for Zhisheng to take the token.

Chen Zhisheng's mouth twitched. Although he was unwilling, he couldn't give up the opportunity to advance, right? He gritted his teeth and accepted it-he had to thank Lin Yi, too.

"Brother Sima, if you have any thoughts, just say them!"

Al fan saw that Lin Yi was ignoring him and frowned slightly. He then smiled, "You should also know, right? Other than the rank advancement token, there must be someone who has been eliminated before they can successfully leave the testing grounds. Therefore, this competition is very necessary. Don't you think so, brother Sima?"

"Have you eliminated anyone before?"

Lin Yi didn't answer Al fan's question. He asked Wu yucao and the others first. If they all eliminated other people, he could totally ignore Al fan.

In any case, they had the advancement token in their hands. If they wanted to leave, they had to cooperate with each other. What Al fan did was none of his business. They just had to sit and watch the show.

"Little snow, black wildflower, and I have eliminated others before, but Zhisheng and young master Jin haven't!"

Black wildflower replied Lin Yi in a low voice, his expression serious, probably thinking that the situation was a bit tricky!

Under normal circumstances, although Chen Zhisheng and Jin Yuan Bao's strength were not at the top level among the candidates, they could still be considered below average. They were definitely not at the bottom.

In addition, there were so many people who were not full and had consumed a lot of energy. The advantages of Chen Zhisheng and Jin Yuan Bao were even more obvious. It was not difficult to eliminate one person each.

However, the situation was different now. Ai Fan had united everyone. It would not be easy to eliminate Ai Fan's people.

"Brother Sima, whether or not I can advance in rank will depend on you!"

Jin Yuan Bao grinned cheekily as he leaned in to whisper to Lin Yi. "Go and capture a person. Control him and let me cut him down!"

Lin Yi smiled—he really should've kept two of them alive and eliminated Jin Yuan Bao and Chen Zhi Sheng.

He could only turn his attention to the other team!

Chen Zhisheng lowered his head, feeling very embarrassed. He was the only one who didn't have an advancement token, and he didn't have an eliminated opponent. Although there was still a Jin Yuan Bao this time, he still felt ashamed!

It wasn't that Chen Zhisheng was useless, it was just that he was unlucky. Lin Yi and the others didn't blame him, he was just angry.

"Young city Lord Ai, may I know what the rules of this competition are?"

"Could it be that we'll have a chaotic battle, and the winner will get all the tokens?" Lin Yi smiled at Ai fan.

In terms of numbers, Lin Yi's side was at an absolute disadvantage. Ai fan's side was about five times his number. Although numbers didn't guarantee victory in a battle, numbers always gave the advantage in a chaotic battle!

"Of course not. You and I have such a good relationship. Is there a need to fight to the death?"

Ai fan laughed. It was as he said—he and Lin Yi seemed to be on good terms on the surface, and there was no need to fall out.

In fact, Ai fan only had ten or so true subordinates among all the people he gathered. He wanted to fight to gather people's support and to suppress Lin Yi's strength.

Lin Yi's own strength was outstanding, and his subordinates were basically all elite martial artists. Once everyone became a disciple of the sword spring sect, the competition would still exist, so Ai fan was planning to weaken Lin Yi's support.

"Brother Sima, this is what I'm thinking. It's not realistic for everyone to leave. Those who have tokens and have already eliminated others, stand aside first. Those who have not fully obtained the right to leave, come out and fight one on one!"

"This way, everyone will rely on their own abilities. No one can blame anyone, don't you think so?" Al fan explained with a smile.

Lin Yi raised an eyebrow, thinking that this wasn't impossible. With Chen Zhisheng and Jin Yuan Bao's strength, they could easily deal with a normal hungry martial artist.

"Young city Lord Al, who from your side wants to come out and fight?"

Lin Yi thought it was a good idea, but he still needed to confirm who the other side would send.

Al fan waved his hand and an early-stage golden elixir realm ancient martial art practitioner behind him walked out. This was an expert from Zhulu city and one of Al fan's trusted aides. He was definitely not a useless person who had gathered behind them!

"Brother Sima, this subordinate of mine doesn't have a token yet, so I'll let him take the lead!"

Al fan smiled at Lin Yi. He had heard their conversation and knew that Chen Zhisheng and Jin Yuan Bao hadn't eliminated anyone yet, so he sent out his confidant.

With the strength of an early jiedan stage, it was almost certain that he could deal with Chen Zhisheng or Jin Yuan Bao. There was no need to worry about failure at all.

"Young master Ai, are you sure you want to send him?" Lin Yi's face changed. Aren't you going to switch to someone else?"

"The others will naturally go up in a while. Does brother Sima have any opinions?"

Al fan shrugged his shoulders indifferently. He wanted to keep those noobs for internal digestion. Whether it was Zhulu city's people or their own internal strife, the final benefits would be with Al fan.

It wouldn't do Al fan any good if he sent a noob to let Chen Zhisheng and Jin Yuan Bao win. At most, he'd get Lin Yi's favor, but he didn't need that.

If it was possible, Al fan wanted to make Lin Yi his subordinate. That way, there wouldn't be any competition. If he wanted to make Lin Yi his subordinate, he had to give him some favors and beat him up. He wouldn't be able to make Lin Yi his subordinate if he only gave him favors.

Chapter 7247

Al fan felt that he'd already helped Lin Yi before, so he needed to give Lin Yi a good beating and let him know his strength!

"Actually, there is another possibility. Brother Sima, you can bring your people and join us. If we are all on the same side, it would be more convenient to discuss the distribution internally!"

Al fan gave Lin Yi a hint at the end, letting Lin Yi know what he was thinking.

As long as Lin Yi could join Al fan, everything could be discussed!

Lin Yi laughed coldly to himself. "Young city Lord Al, I appreciate your kind intentions. Actually, we are not afraid of such a one-on-one battle. We just hope that young city Lord Al can be mentally prepared!"

"What kind of mental preparation?"

Al fan laughed. He did not care about Chen Zhisheng and Jin Yuan Bao's strength. "Let's cut the crap and start quickly! We don't want to miss the time and everyone can't get out!"

"Did young city Lord Al forget to ask me who's going to fight?"

Lin Yi stepped forward slowly, his hand on the hilt of the demonic blade as he looked at Al fan coldly.

Al fan's face changed. He didn't think that Lin Yi wouldn't make a move. If Lin Yi did, his men wouldn't be his match!

He wanted to weaken the people around Lin Yi-now he'd be the one to suffer!

If Al fan could see the ranking outside, he'd know that Lin Yi had the right to leave, and his kills were at the top!

The problem was that Al fan didn't know about this. Otherwise, he would rather start a chaotic battle than let Lin Yi threaten him.

Al fan's early-stage golden elixir realm underling's expression changed as well. He'd seen Lin Yi's swordsmanship and body tempering poison technique. He felt that he could defeat him in either one. How could he fight Lin Yi?

He knew that he was going to die, but he still wanted to go out and give his head away. What was the point?

As long as he could pass the trial arena, he would have a 90% chance of joining the sword spring sect. What was the point of giving away his head now?

Although the worker didn't dare to disobey Al fan's orders, he was still a little resentful of Lin Yi. There were so many noobs here, and it was enough to guarantee that everyone in Zhulu city would make it out of the competition. Why did he have to go all out against Lin Yi?

"Brother Sima, are you going to do it yourself?"

"I didn't expect someone as strong as brother Sima to not have the qualification to advance?" Al fan forced a smile.

For a moment, Al fan was tempted to get the girl back. However, if he did that, his reputation and prestige would collapse, so he was still hesitant.

"Young city Lord Al, we are all friends. If you have any thoughts, feel free to speak!"

Lin Yi had a smile on his face, but his eyes were cold. He didn't say if he was really going to attack, but just standing there with the hilt of his sword gave off a lot of pressure.

"Young city Lord, I don't think I'm in a very good state. I need to rest before I can make a move. Why don't we change to someone else first?"

The early golden core practitioner didn't want to face Lin Yi, but he understood Al fan's thoughts and difficulties. He might as well admit defeat and give his master a way out. Everyone would be happy!

Al fan was relieved that the person who was going to fight admitted defeat and Al fan admitted defeat.

He just wanted to give Lin Yi a good beating, but he wasn't ready to completely fall out with Lin Yi. He said unhappily, "Trash, why are you saying that you're in a bad state at this time? I'll settle this with you later!"

Al fan turned around and smiled again. He said with a hint of shame, "I'm sorry, brother Sima, I've embarrassed myself! These brats just need to be taught a lesson. I'll teach them a lesson later! Let's change someone else to the field now!"

After saying that, Al fan randomly pointed at a cultivator at the peak of the foundation building realm. This person was not from Zhulu city and had never eaten before. He had less than 10% of his strength left. It was estimated that even an initial stage foundation building cultivator could easily and happily defeat him!

Lin Yi laughed coldly to himself, thinking that Al fan and his underling must be out of their minds to be willing to do something like this. In fact, there were only two people on Lin Yi's side who didn't have the right to leave the arena.

On Al fan's side, there were definitely more than two of them. Hence, wouldn't it be better to just let this new rookie fight with the Golden core stage martial artist from earlier?

But it didn't matter-Al fan and the people of Zhulu city were the ones who'd be embarrassed, after all. Lin Yi didn't want to worry about them.

"Alright, young city Lord Al, you have the final say. I'll also send someone on my side."

Lin Yi shrugged and stepped aside. He turned to Jin Yuan Bao and Chen Zhisheng."Who do you two think will go first?"

The other side was obviously a soft persimmon, and whoever went up would be able to get through. Jin Yuan Bao was too embarrassed to fight since he and Lin Yi were only friends, and Chen Zhisheng was Lin Yi's close confidant on the surface, so he was thinking if he should take the initiative to give in?

"Let young master Jin go first, we'll talk about Zhi Sheng later."

Without waiting for Jin Yuan Bao to speak, Wu yucao made a decision first. ""What does young master Sima think?"

As far as Wu yucao was concerned, they were all Lin Yi's people, and Jin Yuanbao was Lin Yi's friend. Of course, she had to guarantee Lin Yi's friend the right to come out first.

In terms of strength, Jin Yuan Bao was the young master of the gold yuan bank. He spent all his time eating, drinking and playing. Even if he had accumulated a lot of resources, his real combat power was definitely not comparable to the Hunter who had been walking on the edge of life and death.

If Chen Zhisheng and Jin Yuan Bao fought one-on-one, there was no doubt that Jin Yuan Bao would lose badly. Therefore, after Wu yucao thought about it, she felt that Chen Zhisheng had a much greater chance of advancing than Jin Yuan Bao in the next round.

It was just that she made a decision without telling Chen Zhisheng in advance, so after she finished speaking, Chen Zhisheng's expression was a little unnatural, but he couldn't say it.

Lin Yi glanced at Chen Zhisheng and thought for a while before nodding, "Sure! Brother Jin, you go first!"

His considerations were similar to Wu yucao 's. Whoever went up this round could win, and the opponent for the next round had not been decided. Chen Zhi had a higher chance of winning than Jin Yuan Bao, so it was reasonable to keep Chen Zhi.

Even if Chen Zhisheng was a little unhappy, he had no choice!

As far as Lin Yi was concerned, as long as he was willing to interfere, Al fan wouldn't fall out with him over a qualifying spot.

"Alright! Brother Sima, big sister Wu, then I'll be impolite to refuse!"

Jin Yuan Bao cupped his hands slightly, and without any hesitation, he stepped forward and got into a fighting stance. "Come, let's end this quickly!"

The expression of the noob martial artist opposite him was very ugly. He had less than 10% of his strength left. If he was at his peak, he was confident that he could kill Jin Yuan Bao. But now, he could not even protect himself. He could only watch Jin Yuan Bao's arrogance.

He knew that he was not Jin Yuan Bao's match, but this was about his chance to qualify. No matter what, he had to give it a try!

"Let's fight! Who's afraid of who!"

The noob martial artist's expression changed for a moment before he suddenly shouted and charged at Jin Yuan Bao with all his might. Unfortunately, courage and determination were nothing without strength!

Chapter 7248

Jin Yuan Bao didn't Dodge or evade, he directly swung his fist to meet the attack head on. His opponent was already so weak, if he still dodged, Jin Yuan Bao would feel embarrassed!

The collision between the two men was simple, without any vigorous momentum. Jin Yuan Bao did not move an inch, while his opponent flew back, his feet unstable. After staggering seven or eight steps, he still rolled a few times on the ground before coming to a stop!

Jin Yuan Bao's lips curled into a smile. This kind of exchange was simply a one-sided victory. It was easy and enjoyable!

"I'm sorry! You should go back to the safe zone and rest!"

Jin Yuan Bao stepped forward and laughed as he spoke. Under the opponent's despairing eyes, he drew his saber and finished off the opponent!

The light of teleportation flashed, and the loser was teleported away. Jin Yuanbao put away his blade excitedly and walked back to Lin Yi, cupping his fists to greet him.

Once they left the trial arena, the list of people who could enter the sword spring sect would be confirmed. If nothing unexpected happened, Jin Yuan Bao would definitely be on the list!

He'd heard that the sword spring sect was recruiting thirty people this time, and those who could leave the arena were only in their early thirties. If it weren't for Lin Yi, Jin Yuanbao wouldn't have been able to make it into the thirty.

Lin Yi nodded in response before turning to Ai fan with a smile. "Young city Lord Ai, shall we continue with the next match?"

Ai fan's face was calm. He smiled faintly and said, "Of course. This time, you two will go!"

Lin Yi blinked-the two people Ai fan was talking about were from his side. One was from Zhulu city, and the other was from another city.

Without a doubt, Zhulu city's cultivators were much stronger and could easily eliminate the other party!

It seemed like Ai fan had already figured out the problem just now, so he decided to solve it internally first and push his trusted subordinates forward.

Lin Yi raised an eyebrow. He couldn't say anything about Ai fan's actions and could only wait and see.

Even if the ancient martial art practitioners who had sided with Ai fan were unwilling, they had no choice. They would still have a chance if they were used as stepping stones. If they resisted, Ai fan would probably slaughter them all immediately.

Al fan did the same for the next few matches. He didn't even ask Lin Yi.

Lin Yi wasn't in a hurry, crossing his arms and watching coldly. Only Chen Zhisheng was worried.

As more and more people were eliminated, he still did not get a chance to make a move. In a while, the remaining people would all be experts!

"Alright, brother Sima, the people on my side already have the qualifications to pass the test. Let's leave the trial grounds now!"

When another match ended, Al fan clapped his hands with a smile and announced the end of the game.

Chen Zhisheng's face changed. Everyone on Al fan's side could leave, but everyone on Lin Yi's side could leave except him. Was he going to be the only one to be eliminated?

"Young master Al, I'm not done yet!"

Lin Yi's lips curled up into a mysterious smile, a dangerous look in his eyes. "Don't tell me that young city Lord Al just wants us to watch the show for half a day and it's over?"

"Brother Sima, the people on my side are all done. As for your side, you can think of a way to make internal adjustments. After all, this is how we have been arranged on our side!"

Al fan spread out his hands, looking like he wanted to help but couldn't. "Brother Sima, you can't possibly ask my people to give up their qualifying spot, right?"

Right now, Al fan had more than twenty martial artists with him. Among them, there were ten other martial artists who belonged to Zhulu city. Entering the trial arena was a relatively large loss!

Lu Butong and Nangong Yimeng were among the practitioners outside of Zhulu city. They would rather die than follow Lin Yi, so they could only follow Al fan.

Plus, Lu Butong had already chosen to serve Al fan, so Lin Yi wasn't surprised.

Other than Lu Butong and Nangong Yimeng, there was no one else in Luling city-the rest were with Lin Yi.

There were more than ten martial artists from other cities on Al fan's side. Their strength varied, but they basically did not have much combat power. Two of them were ruthless people who ate on the ground. They had preserved their combat power well, but they could not challenge Al fan, so they could only rely on Al fan's protection.

"Young Castellan Al, I think there are still too many people left. Although the sword spring sect said that they would recruit thirty disciples, that's the upper limit. If they're not satisfied, they might not even recruit thirty people!"

Lin Yi's smile was a little cold as he slowly walked forward."So, before we leave the trial arena, the more people we eliminate, the higher our chances of becoming disciples of the Sword spring sect. Don't you think so?"

"Brother Sima, what are you trying to do?"

Al fan's expression changed slightly, and a bad premonition rose in his heart."The rest of us can basically become disciples of the Sword spring sect. There's no need to ..."

"It's necessary!"

Lin Yi shouted in a low voice as he activated his super butterfly micro steps and appeared in the middle of the fighters from the other cities.

The sword technique inherited from the green demonic god was fully unleashed. The black light of the demonic devouring sword swept around, killing five weak martial artists in an instant!

If all the martial artists in Zhulu city were at their peak strength, Lin Yi might not even be able to kill one of them, unless he used a soul attack and a sword technique. But these weak martial artists couldn't withstand Lin Yi's attacks at all.

Lin Yi didn't want to fall out with Al fan right now, either. The martial artists in Zhulu city were tough and troublesome to deal with, so he wouldn't touch them.

"Sima Yi! What are you doing?"

Al fan's expression suddenly changed. He shouted angrily, then waved his hand and stomped his feet. "Hurry up! Are you all watching the show?"

Zhulu city's martial artists immediately moved and surrounded Lin Yi, trying to save the other martial artists.

Although these people were weak now, once they recovered, they would still be a strong fighting force. ai fan had subdued them now, and after he became a disciple of the sword spring sect, he would immediately have his own force.

But now, Lin Yi was eliminating these people without any restraint. The direct line of descent of Zhulu city was still here, but if today's incident were to spread out, would anyone still choose to follow Al fan in the future?

Who would choose a boss who couldn't even protect his subordinates? He came here to be cannon fodder?

Lin Yi didn't care about these people at all. He killed a few more with lightning speed and grabbed one, pulling him out of the encirclement and coming to Chen Zhisheng.

"Kill him!"

Lin Yi reached out his hand and lifted the man in front of Chen Zhisheng.

Wu yucao and the others were ready to fight Al fan, but Lin Yi came back so easily!

Especially Chen Zhisheng, who looked at the frightened martial artist in front of him. He was still a little confused. What was going on?

However, Chen Zhisheng quickly realized that Lin Yi had turned against Al fan and killed most of the fighters from other cities so that he could advance.

Chapter 7249 Eliminating Cannon Fodder

Although there was a strange feeling in his heart, Chen Zhisheng was also a decisive person. He immediately cut the neck of the cultivator and watched him transform into a teleportation light and disappear.

With that, everyone on Lin Yi's side had the right to leave the arena!

"Sima Yi, what do you mean? They're all my people now. You eliminated them in front of me. Are you looking down on me, Al fan?"

Al fan's face was dark as he stared at Lin Yi coldly. "Or do you want to have a big fight with me here and eliminate everyone, leaving only a few of you to enter the sword spring sect?"

"Young Castellan AI, don't be impatient. I've already said that we'll eliminate some useless people. After we've simplified them, the remaining people will have a higher chance of entering the sword spring sect. After all, we're the only ones left. They're all elites. What else is there to pick from the sword spring sect?"

Lin Yi put on an innocent face and glanced at the two remaining fighters from the other cities. They were the ones who ate and dug on the ground. Lin Yi wanted to kill them, but he couldn't do anything to them in the short time he had!

Of course, if he had used his spiritual sense to attack them first, these two ruthless people would probably have died long ago!

"Sima Yi, come out and fight me one on one if you have the guts!"

One of the men had a menacing expression on his face as he pointed his blade at Lin Yi. "What kind of skill is a sneak attack? I will fight you one-on-one! Do you dare to come out?"

One of the people Lin Yi eliminated was probably his friend, and so he was filled with hatred towards Lin Yi.

He didn't feel much pressure when he faced Lin Yi just now.

The green Devil God's swordsmanship was profound, and it was amazing in group battles, but Lin Yi's physical strength was there, and his swordsmanship was problematic. In his eyes, Lin Yi wasn't undefeatable.

If he could kill Lin Yi, not only would he be able to avenge his companions, but he could also show his face in front of Al fan. Now that Al fan had lost more men, he could take this opportunity to become Al fan's confidant. His future would be bright!

"I don't need my young master to fight one-on-one! There was no need to use a butcher's knife to kill a chicken. Let me see what kind of amazing skills you have!"

Wu yucao didn't wait for Lin Yi's reply and charged out with a cold face, unsheathing her curved sword halfway!

A blade light as clear as autumn water flashed, as cold as the new moon in the sky. It appeared in front of the ruthless man in an instant.

Vicious 'face changed. He wanted to fight Lin Yi because he could tell that Lin Yi wasn't that strong yet. After all, he wasn't even at the Golden core stage yet.

However, Wu yucao was different. He was a true expert who was infinitely close to the perfected golden core realm!

Faced with Wu yucao's stunning attack, he could not avoid it and could only block it forcefully. He did not expect Wu yucao's body to sway and move to his side, but the attack did not change at all!

Butterfly microstep!

Lin Yi had taught the most basic butterfly microstep to Wu yucao, Ling Hanxue, and Chen Zhisheng. It was extremely useful for body practitioners.

Whether they could practice the Super butterfly microstep or even the limit of the butterfly microstep in the future would depend on themselves!

With the butterfly steps, Wu yucao's already agile attacks became even more unpredictable. At least, the ruthless person in front of her couldn't block it if she was caught off guard!

One blade!

It was only one slash!

This ruthless man who had escaped from Lin Yi's demonic sword was easily eliminated by Wu yucao!

However, Wu yucao did not stop there. With the momentum of victory, she continued to use her butterfly microstep and appeared behind another ruthless person who was picking and eating on the ground.

Although this person didn't provoke Lin Yi, when Lin Yi attacked him before, he did send out a sword attack. Of course, it was just an indiscriminate attack and wasn't specifically aimed at him. Lin Yi was completely willing to kill him if he could, and if he couldn't, he would just leave. He didn't care if he could eliminate this person!

Wu yucao cared!

Since Lin Yi wanted to eliminate this person, she would help him fulfill his wish!

As for whether Al fan would fall out with her because of this, it wasn't within Wu yucao's consideration at all. She only needed to consider Lin Yi's feelings!

The remaining martial artist was still stunned by Wu yucao's attack, but he did not expect to be in the same situation. He hurriedly waved his weapon to defend, but Wu yucao did not attack head-on. She still turned her body slightly and attacked from the side!

One blade! It was still just one blade!

The last fighter from another city was also eliminated!

Right now, only the people from Zhulu city and Luling city were left. The people from the other eight cities had all been wiped out!

Lu Butong and Nangong Yimeng's expressions turned unsightly. They did not know whether they were from Luling city or Zhulu city, but they could not afford to offend either of them ...

Al fan's face was dark as he looked at Lin Yi and Wu yucao coldly. After a while, he suddenly burst out laughing!

As he laughed, he clapped his hands and said, "brother Sima, you're really good!" This young master didn't misjudge you! And your subordinates are indeed exceptional, not bad, not bad!"

Lin Yi raised an eyebrow and smiled. "Young city Lord Al is too kind. It seems that young city Lord Al doesn't care about those people!"

"That's natural! A bunch of trash can only be cannon fodder. Who would care about cannon fodder?"

Al fan shrugged and gave Lin Yi a thumbs up. "Originally, if I wanted to deal with them, it would not be very good for this young master's face. Now that brother Sima has done it for me, this young master should be the one to thank brother Sima!"

Lin Yi laughed coldly to himself. He didn't believe a single word Al fan said!

It was most likely that Al fan wasn't prepared to completely fall out with him, so he used this as an excuse to let this matter pass.

If Lin Yi and Wu yucao's target was Zhulu city's people, would Al fan be able to get away with it so easily?

At that time, for the sake of his men's loyalty, Al fan would probably have to fight Lin Yi to the death!

"Alright, I won't say any more polite words! Let's go out!"

Lin Yi didn't want to waste any more time-he picked up the token and walked into the valley.

An inexplicable look flashed in Al fan's eyes. He smiled and didn't say anything. He led his men and followed behind.

The remaining people were Wu yucaao, black wildflower, Jin Yuan Bao, and Bing bi-seven people in total.

On Al fan's side, there were eleven people left, including his Zhulu city. Adding Lu Butong and Nangong Yimeng, there were twenty people on both sides.

The twenty people were divided into two sides, clearly guarding against each other.

In terms of numbers, Al fan's side was almost twice as many as Lin Yi's side, but if they were to fight, Al fan's side might not be able to win for sure.

"Brother Sima, please take a look. Those grooves are for placing the rank advancement tokens. There are a total of thirty of them. Once they are filled, the exit of the training grounds will open. Anyone who has eliminated others can leave smoothly."

Al fan was smiling as if the conflict had never happened. "This is the explanation. If brother Sima has any questions, you can take a look!"

Chapter 7250 Killing The Top Ranker

There was a stone tablet beside the 30 grooves, and the rules for leaving were indeed recorded on it. However, the stone tablet looked very new, and it should have been made not long ago. It was likely that the sword spring sect had only made this rule this year.

Lin Yi wasn't interested in these things as long as he could get out of here safely. He nodded slightly and took out all the tokens, putting them in the grooves.

Al fan acted as well. After the 30 tokens were placed, the space in front of him distorted slightly, and a teleportation light door appeared.

"Brother Sima, please!"

Al fan moved to the side politely, not showing any hostility at all. Lin Yi didn't know what he was thinking, but it was as if he had been good friends with him for years.

"You're welcome. Young city Lord Al, please go first!"

Lin Yi waved his hand. It wasn't like whoever went out first had an advantage.

Of course, Lin Yi would just ignore Ai fan and leave if he tried to be polite again. It was enough to waste time like this once.

Ai fan didn't hold back. He cupped his hands at Lin Yi and led his people out of the portal.

Lin Yi said after they were all gone.

Light flashed, and the scenery changed. Everyone returned to where they were before, but Lin Yi noticed that the people who came out first were all looking at him strangely.

Lin Yi was suspicious, thinking that there was something wrong with his body, but he quickly realized that it wasn't the case-he saw the name list on the wall.

Sima Yi was ranked at the top of the kill list with a kill count of sixteen!

With that last burst of strength, everyone saw Lin Yi take out ten or so practitioners, but they didn't expect him to have already taken out five or six people before they arrived!

Other than Bing bi, Wu yucao and the others probably didn't expect this.

However, they weren't surprised that Lin Yi could do something like this. If it were a thousand people instead of a hundred, they'd think it was normal for Lin Yi to kill two hundred people!

"Elder Xu, what's the use of this kill list?"

Lin Yi hadn't heard of the hit list before, so he asked humbly.

Elder Xu's face didn't look too good-he didn't have any special feelings towards Lin Yi, perhaps just a bit of dislike.

But at the last moment, Lin Yi's sudden burst of power eliminated all ten people who could've made it out, and he was a little unhappy.

These were all people who could make it to the next round, and Lin Yi was blatantly eliminating those who didn't belong to him. Although it was within the rules, elder Xu still felt that this guy didn't follow the rules!

"It doesn't have any special use, you don't have to worry about it!"

Elder Xu said coldly, "this trial arena was originally meant to select 40 people. Then, through other assessments, 30 people would be admitted into the sword spring sect. I didn't expect that only 20 people would come out in the end. This is really surprising!"

Originally, the number of kills on the kill list was useful. Those who were in the lead would receive some rewards. However, these rewards were all decided by elder Xu's words. Whether he gave them or not depended on his mood.

He wasn't in a good mood right now, especially when he saw that Lin Yi was in first place. He decided to just cancel the reward!

"In order for the next assessment to proceed smoothly, I will choose the ten people who have killed the most from the eliminated people and grant the defeated party the right to be resurrected. As long as one's score in the next assessment exceeds any of the twenty people here, they will be qualified to enter the sword spring sect!"

Elder Xu didn't care about the crowd's reaction and announced his decision. This also explained the purpose of the kill count.

The corner of Ai fan's mouth twitched. He felt that Lin Yi's plan had failed completely!

But it was hard to say-perhaps Lin Yi didn't plan anything at all, and was just killing the chicken to warn the monkeys!

It was said that the losing side would choose the ten people with the most kills, but in fact, among the eliminated people, there weren't many who really had a kill count. Even if there were, most of them only had one kill.

Therefore, the final name list still had to be decided by elder Xu.

Among the last ten people, most of them were young masters from other cities. Not to mention their strength, their wealth and power were definitely not small in the local area.

Lin Yi laughed coldly to himself. Elder Xu did this because he was worried about the reactions of the big cities!

This was an act to preserve a trace of face for the major cities. If there were no accidents, at least one person from each city would symbolically enter the sword spring sect!

As expected, the final candidates were all young masters from noble families, but they weren't trash since they had killed so many people.

Lin Yi couldn't interfere with the decision of the sword spring sect. After the name list was confirmed, he only glanced at it indifferently without any objections.

"Next up is the final test. As there are only thirty people, as long as you can pass the final test, you will basically become a disciple of the sword spring sect!"

Elder Xu waited for the losers' representatives to arrive before saying a few simple words, "The final test is very simple. It will be to see if you have enough strength at your current stage! All of you, follow this Lord!"

The so-called strength at the current stage was actually a strength test. Everyone followed elder Xu to a square. There was a huge stone tablet at the side with the words "strength square" written on it.

Lin Yi didn't even have the strength to comment on the name-the entire Plaza was empty, with only a pyramid-shaped stone in the middle, about ten meters tall. It was completely grey and didn't stand out at all.

Elder Xu brought everyone to the stone and turned to Lin Yi and the others, "This is the place where we, the sword spring sect, test our strength. All you need to do is to hit this rock with all your might, and you will be able to test your body's strength, speed, and other data."

In fact, this stone also had a function to test one's potential, but it was not very accurate. There had been some problems recently, so elder Xu did not mention it.

Just the data of strength and speed was enough for the assessment.

"Everyone only has one chance to take the test, so you have to make good use of it. If you don't reach the passing line, even if you're already half a step into the sword spring sect, you'll be immediately eliminated!"

Elder Xu's gaze swept across everyone indifferently, especially those young masters who had been resurrected by the defeated side. His words were basically meant for them.

The sword spring sect could give face to the major cities and retain a chance of entering the sword spring sect. However, if these young masters were too useless and could not meet the requirements, elder Xu would not let them enter the sword spring sect.

Although he was only an outer sect disciple and the requirements were not too high, the reputation of the sword spring sect was there. If a good-for-nothing used the name of the sword spring sect, it would only embarrass the sword spring sect!

"Let's begin the test! Sima Yi, you're number one on the kill list, so you should test it out first!"

Elder Xu nodded at Lin Yi, signaling for him to step forward.
