

Bodyguard 7281

Chapter 7281 Closed-Door Cultivation For A Month

The attributes of this batch of new disciples were not bad. Other than Al fan's wood and fire attribute Alchemist physique, there was also Ling Hanxue's special attribute, the dense wind.

A body with a special attribute would usually be stronger than a martial artist with the same basic attribute, such as su Yumo, who had the ice attribute.

It was hard to say if Ling Hanxue would be the next su Yumo!

Gold ingot had a single metal attribute, and its purity was average. This guy's talent was indeed not that good. The metal attribute was the attribute of sharpness, mainly for attack.

However, Jin Yuan Bao's attack power was not shown at all, and it was a waste of his physical attributes.

Chen Zhisheng's body was of the earth attribute, which was mainly for defense. Lin Yi didn't think that the direction he'd chosen to combine the Sword and Shield was wrong, but it was still a little off.

In the future, he should put more energy into defense. If he could develop his earth attribute body to the limit, he would definitely become a super powerful tank meat shield!

Together with Ling Hanxue's long-range attacks and Wu yucao's close-range attacks, it was a perfect triangular hunting team!

On Lin Yi's side, only Ling Hanxue was more stunning. Not only did she have a special attribute, but the purity of her attribute was also quite high. She was definitely a top-tier talent.

Jin Yuan Bao's metal element was barely above average, and although Chen Zhisheng's earth element purity was also above average, it was much stronger than Jin Yuan Bao's and was almost above average.

Among the other new martial artists, most of them had a single basic attribute. Three of them had double attributes, but they were all very ordinary and could not be compared with Ai fan's wood and fire attributes.

"Alright, the test is over. All of you, come and collect a cultivation technique that matches your body's attributes!"

Martial Master Ma wasn't in high spirits after the test-he took out a bunch of books and tossed one to Lin Yi."This is a fire attribute body refining technique. It's one of the basic introductory techniques of our sword spring sect. Cultivate it well!"

"Yes! Many thanks, Martial Master Ma!"

Lin Yi took the booklet, cupped his hands in thanks, and flipped through it.

"Listen up, after you've received your respective body tempering techniques, all of you should go back and cultivate in seclusion. Take Sima Yi as an example. Within a month, I want to see him cultivate this body tempering technique to the point where he can release his fire energy!"

Martial Master Ma paused for a moment, his eyes sweeping over all the new martial artists. "As for you people of other attributes, you must be able to release water Qi, metal Qi, and so on. Do you understand?"

"Understood!"

Everyone replied loudly in unison. Lin Yi remembered Martial Master Ma saying that they ate too much and couldn't exercise, and now he was sending them back to practice?

What happened to the exercise?

"Very good! Since you've all understood, I'll tell you one more thing! After a month of closed-door cultivation, I will give you all a test! I won't talk about the results of passing or failing the assessment now, you'll know when the time comes!"

Martial Master Ma kept him in suspense and then revealed a cold smile. "However, I advise you not to try the consequences of failing the test!"

Many of the new practitioners were taken aback by Martial Master Ma's tone, and they couldn't help but feel nervous. Lin Yi, on the other hand, didn't mind at all. It was just a basic entry level skill ... How hard could it be?

He was confident that he'd be able to master all the elements in a month, let alone a fire element basic level skill!

Martial Master Ma didn't say anything more. After distributing the booklets, he dismissed them. They would see each other again in a month!

Outside the hall, Lin Yi waved goodbye to Ling Hanxue and the others.

"I'll go to the North Peak. You guys cultivate in the South Peak. If you need anything, you can come and find me!"

"If you don't have enough points, you can come to me. Before you complete Martial Master Ma's requirements, don't waste your time on missions," Lin Yi said after some thought.

Although Ling Hanxue and the other two had more points than the basic 100 points, three meals a day would cost them three points. They would spend a lot of points in a month.

If there were other places that required points, he might not have enough!

Lin Yi's guess was that the points weren't just for food!

"Don't worry, we'll take care of ourselves. Young master, you take care of yourself too!"

Ling Hanxue nodded in agreement on behalf of Jin Yuan Bao and Chen Zhisheng. After exchanging a few more words, they parted ways.

"Brother Sima, we will be neighbors in the future. As the saying goes, a close neighbor is better than a distant relative. Moreover, we are brothers from the same sect, so we should love each other even more!"

After Ling Hanxue and the others left, Ai fan came to Lin Yi's side and smiled, "If brother Sima needs any help, you can look for me at any time!"

Lin Yi's lips twitched as if he was smiling-who the hell would want to be in love with you!

If you ask me What I Like About You the most, I'll definitely tell you that I like you. Yingluo, stay away from me!

"Young city Lord Ai is right. Since we are neighbors, it is only right for us to help each other!"

Lin Yi didn't want to fall out with Ai fan right now, so he had to pretend to be polite for the time being. However, the surname Ai fan ... Calling him "Junior Brother Ai" was a little disgusting, so he decided to continue calling him young Castellan Ai.

This was the same reason why Al fan didn't want to call Lin Yi senior brother, so he continued to call him brother Sima.

The two of them talked about some boring things, and it wasn't lonely on the way. When they reached the top of the North Peak, they greeted each other and said goodbye before entering their own residences. Outsiders might think that the two of them were really good friends.

Lin Yi walked into his house and looked around, satisfied. It was the second best place in the North Peak, after all-it was pretty big!

There were all kinds of functional rooms, such as a bedroom, living room, kitchen, bathroom, training room, study room, and so on. It was more than enough for ten people to live in, let alone one.

As for the cold, Lin Yi didn't care at all. All-elemental spiritual roots adapted to all-elemental environments automatically, so it didn't matter where he cultivated.

He found a chair and sat down before flipping through the booklet.

He joined the sword spring sect to train his new body. If it wasn't for Al fan following him, Lin Yi might have started studying martial arts on the way.

However, the first page he flipped to was not an introduction to the cultivation technique, but the rules of the sword spring sect.

These things were pretty much the same, and Lin Yi only took a few glances at them before turning them away.

Other than one thing that he had to take note of, there was nothing else.

After Wufu entered the sword spring sect, he could not continue to use and cultivate the cultivation techniques he had previously cultivated. He could only cultivate the cultivation techniques provided by the sect, and those who violated this rule would be expelled from the sect!

In other words, Lin Yi wouldn't be able to use the body refining poison technique anymore in the sword spring sect. He could only practice the body refining technique provided by the sect.

Chapter 7282 Fire-Type Cultivation Room

As for martial arts techniques, there were no hard and fast rules.

In fact, this didn't really affect Lin Yi at all. The so-called body strengthening poison techniques didn't exist in the first place, and banning it made things a lot easier for Lin Yi. He didn't even need to find an excuse to explain why he didn't use it.

From now on, in the sect's internal tests and competitions, as long as he followed the rules and used the jianchun sect's skills, no one would suspect why Lin Yi didn't use the body tempering poison technique.

Lin Yi only needed to have a rough idea of the rules-body strengthening techniques were still his main interest, so he quickly flipped to the section and started studying.

After a short while, Lin Yi roughly read through the chapter. It was good to have a strong essence spirit- he only had to read it once and he basically remembered it all!

The beginner level skill of the sword spring sect wasn't too difficult, after all. Lin Yi thought about it for a bit and had a rough idea of what it was-he'd start the actual training now.

But when he was about to start training, he realized that the North Peak really wasn't suitable for someone with Fire Arts!

This was because in order to practice the fire-type body tempering cultivation technique, one must first absorb fire energy into the body, and then use the cultivation technique to guide and temper the body. Only after the completion of the cultivation technique would there be the possibility of releasing the fire energy.

Did the North Peak have any anger?

Su Yumo chuckled on the peak!

If it was on the South Peak, where there was sufficient Yang Qi, there would naturally be fire Qi. On the North Peak, there was no possibility of cultivation at all. It would be good enough if he could maintain his level without dropping!

It was no wonder Martial Master Ma was so pissed off at Lin Yi, lowering his level of respect for him.

Fortunately, according to the introduction of the sect rules, there were cultivation rooms for various attributes in the sword spring sect!

He couldn't practice fire-type Arts in the North Peak, but he could still go to the fire room.

Of course, cultivating in the cultivation room required points. Ordinary new disciples did not have many points. They could not even guarantee food and clothing. They probably did not have many points to spend in the cultivation room.

Lin Yi still had enough points, so he didn't have to worry about spending money on the training room.

However, other than the cultivation room, other places also required points. For example, the martial technique mentioned at the end of the booklet that corresponded to the cultivation method would require one to go to the library Pavilion and use points to exchange.

In addition to martial arts techniques, some entry-level cultivation methods could also be borrowed with points. This was for the disciples to use as a reference, so it would not be given for free.

Normally, new disciples wouldn't waste points on other beginner skills, but Lin Yi was different. He had a full-attribute spirit root, and if he could get a full-attribute body strengthening skill, his body would be strengthened by several times or even dozens of times!

Of course, he could not let anyone know that he was cultivating other types of body tempering techniques. Otherwise, it would definitely attract the attention of the sword spring sect.

For the time being, Lin Yi wanted to keep a low profile and make a fortune quietly. No one would care if he only exchanged for a reference.

As long as they didn't see it with their own eyes, no one would believe Lin Yi even if he said he could practice all-elemental body strengthening Arts!

Lin Yi had a rough idea of the body refining technique after reading the book-he could start training right away if he had the energy!

There were several stages to a beginner level cultivation technique. The first stage was to guide the fire Qi into the body and temper the skin and muscles.

After completing this step, the second step was to further hone the bones.

The third stage was the internal organs. Only when these three stages were completed could one have the opportunity to store fire Qi in the body, and then release it when he made a move.

Martial artists with poor talent might be able to temper their bodies, but they might not be able to reach the external stage in their entire lives.

However, the sword spring sect would not accept such a person with poor talent!

Martial Master Ma's goal of being sent out within a month was definitely not without a goal. With the qualifications of the outer sect disciples of the Sword spring sect, a month was definitely not a problem!

As for the inner sect disciples, the time limit would be reduced by at least half or even two-thirds, which meant that it would take at most ten to fifteen days!

If you didn't complete it after the time limit, it only meant that you were not suitable to be a disciple of the sword spring sect, except for a handyman disciple!

Lin Yi kept the booklet and left the house. He couldn't train here, so he'd better go to the training room!

As for the library, it would not be too late to go there after he had achieved minor accomplishment in his body tempering cultivation technique.

The training room wasn't on the long whisker peak, but it wasn't far from it. It took Lin Yi around twenty minutes to find it.

The entrance was at the foot of another mountain. The mountainside was divided into many separate rooms, and inside were different cultivation environments for different elements.

Lin Yi was surprised to see an old man in a black robe at the door. He was an outer disciple at this age?

However, this black-robed old man's clothes were slightly different from the ordinary outer disciples. His sleeves and collar had some dark gold edges. It was basically unnoticeable from a distance, and could only be noticed when he got close.

Lin Yi didn't know who the gold-rimmed black robe was, but he didn't really care. He was only here to train, after all, and it wasn't like he didn't need to spend points.

"Hello! I want to use the fire cultivation room!"

Lin Yi greeted politely with a fist salute. It was a traditional virtue to respect the elderly.

Of course, if he encountered an old man who was not worthy of respect, he would not be polite. He would attack when it was time!

"A new outer sect disciple? Not bad, not bad. Today's your first day, right? You're the first one to rush to the cultivation room to cultivate. You're quite diligent!"

The black-robed old man looked a little lazy as he squinted at Lin Yi, a smile on his face. "I admire hard-working people the most. Let's not talk about talent first. As long as you are diligent, even if your talent is inferior to others, your strength may not be inferior to others!"

"Thank you for the compliment ... May I know how I can rent a fire-type cultivation room?"

Lin Yi smiled and nodded, not wanting to waste any more time. "Senior has also said that hard work is the most important, so I want to start cultivating as soon as possible."

"Hahaha! What an interesting kid. Fine, I'll tell you. "

The black-robed old man revealed his yellow teeth. His butt moved slightly, and he moved the chair a little, revealing a few lines of words on the stone wall behind him: "Did you see that? The low level training rooms are one point per use, and each time can only last for 12 hours at most. The mid level training rooms are three points per use, and each time can last for 24 hours. The high level training rooms are ten points per use, and each time can only last for 24 hours at most. "

"I want a high-grade fire cultivation room!"

Lin Yi chose the best one without hesitation.

Twenty-four hours at a time, that was forty-eight hours, two days and two nights. It was perfect for continuous cultivation.

Although the points in the low-level cultivation room were few, the effect was definitely not good. Moreover, it was only twelve hours. If he was interrupted at a critical moment in his cultivation, no matter how many points he had, he would not be able to make it up!

Chapter 7283 Berserk Fire Dragon

"Are you sure you want the advanced cultivation room?"

The black-robed old man was slightly startled, but he immediately reacted and shook his head with a smile. ""Do you think that the high grade training room is the best, so you use the best one? The logic is correct, but you're wrong to think this way!"

"Listen to me, with your strength that hasn't even reached the Golden core stage, the low-level cultivation room is enough for you. After you get used to it, you can enter the middle-level cultivation room and cultivate step by step! If it's a high grade cultivation room, I'm afraid you won't even be able to hold on for an incense's time. What a waste!"

"Listen clearly, this old master said that you can't last for an incense stick's time, not cultivate for an incense stick's time. There's a big difference between the two! In other words, if you enter the advanced cultivation room, you may not even have the chance to cultivate. You will only be tortured for the time it takes for an incense stick to burn, and it will end directly! Once it's over, the points collected will not be refunded!"

In other words, he only needed to spend 10 points to experience how the advanced cultivation room would torture his small body. There was really no need to.

If it was a low-level cultivation room, as long as one was not a newbie with poor aptitude, they would definitely be able to cultivate for 12 hours! No matter how he looked at it, he should know which one was suitable!

"Thank you for your guidance, senior. But I still want to try the advanced cultivation room!"

Lin Yi smiled and cupped his hands, thanking the old man from the bottom of his heart, but still insisted on his opinion.

The black-robed old man was secretly angry. He thought to himself, I've been talking for so long, but you didn't listen to a single word I said?

For a new disciple, the basic points were only 100. If he performed well, it would be good if he could get 200 points. He didn't know the immensity of heaven and earth and insisted on trying the advanced cultivation room. When he used up all his points, he would be crying!

"Alright, since I've already made my decision, I won't say anything more. The advanced fire cultivation room, ten points each time. Take out your identity token!"

The black-robed old man shook his head slightly, and his face turned into a business-like expression, "Remember, if you can't hold on inside, press the stop button in time. Otherwise, I won't be responsible if anything happens!"

After a slight pause, the black-robed old man said with emphasis, "In the worst case scenario, you will die inside! Are you really sure?"

"I'm sure!"

Lin Yi nodded without hesitation and handed his token to the elder.

The black-robed elder didn't say anything else. He took Lin Yi's token and swiped it on the red jade. The number on the token surprised him.

His remaining points were close to 600!

Was this kid really a new disciple? How could he have such a high score?

Of course, the black-robed elder knew what the final assessment of the sword spring sect was. It was not that there were no new disciples who could get three to four hundred points if they performed well.

If one's own strength was strong, and the senior disciple they encountered was an existence at the bottom of the outer sect disciples, this kind of situation was very normal.

But Lin Yi wasn't even a golden core yet, how could he be considered strong?

Moreover, this was not just three or four hundred points, but close to six hundred points. How could he have so many points?

The elder's suspicion disappeared as quickly as it appeared, but he didn't pursue the matter. He handed the token back to Lin Yi and said faintly, "Follow me!"

She didn't say anything, but she was actually quite interested in Lin Yi. She was planning to pay more attention to him after he entered the room to see if there was anything special about him.

"This passageway is filled with fire elemental training rooms. The advanced training rooms are located further in."

The black-robed elder led Lin Yi into a dark red tunnel. Lin Yi noticed that there were a few other tunnels with different colors around them, probably representing different elemental training rooms.

After a short while, the two of them came to a door in the inner part of the room. The black-robed old man pressed on the door twice, and the dark red Door slid open silently. "Go in! Remember what I said, if you can't hold on, press the stop button immediately, don't lose your little life!"

"Yes! I'll remember that. Thank you, senior!"

Lin Yi cupped his fists and walked into the training room. The dark red Door closed silently behind him.

The black-robed old man did not leave. Instead, he stood outside the door with interest.

He wanted to see how long Lin Yi could last. In fact, there were always a few ignorant kids who liked to go to the advanced practicing room as soon as they came up.

However, none of the new disciples who entered the advanced cultivation room lasted more than an hour!

This included golden core stage martial artists!

When he entered, he was high-spirited, but when he came out, he was covered in dust!

Although this brat called Sima Yi seemed to be a little different, he might not be much stronger than the previous new disciples.

The black-robed old man stayed outside the door. Other than waiting to watch the show, he also wanted to save them at a critical moment.

Of course, after he rescued them, he would teach them a lesson. He had to let the kid know that being down-to-earth was the correct attitude in cultivation. He should not be biting off more than he could chew!

Lin Yi didn't know that the old man was still there, and he looked around the room as soon as he entered.

The entire room was a sphere-shaped space, and the curved walls and floor were all covered in red lines. When Lin Yi entered, the lines started glowing.

A scorching aura began to rise, and the red lines quickly connected together. Then, something began to protrude from the wall.

Lin Yi looked at the red lines calmly, even having the time to study them.

"Roar ..."

A loud roar sounded, and the protrusion on the wall turned into a fire Dragon. It roared out of the wall and pounced at Lin Yi!

This was a fire Dragon formed from pure fire Qi. As for its power, it was only between the middle and late stage of the Golden core realm.

If Lin Yi was really just a normal Foundation Stage practitioner, one fire Dragon would be enough to seriously injure him!

Under such circumstances, it was impossible to last for the time it takes an incense stick to burn, let alone to stay in there for 24 hours!

Lin Yi sent out a bit of his spirit sense to feel the fire Dragon's aura, but didn't think much of it.

In the past, a casual sneeze from a fire Dragon of this level would be able to disperse it. It was just right to use it to temper one's body!

So Lin Yi didn't try to avoid it, he just used the sword spring sect's basic skill, preparing to guide the fire into his body.

However, Lin Yi didn't expect the fire Dragon to be so fierce. It hit his chest directly, and the strong push sent him flying into the stone wall behind him.

Lin Yi's breathing relaxed, and he couldn't help but cough-he couldn't even take a hit!

Chapter 7284 Body Tempering With Fire Energy

However, when he thought about it carefully, it made sense!

After all, this was a new body, and it was completely different from before. It could not be compared at all!

Although he knew this, Lin Yi's mindset hadn't really changed yet, and so he suffered a big loss from the first move!

Before Lin Yi could react, another fire Dragon came out of the curved wall behind him and sent him flying!

He'd just reached the center of the room, and just as he was about to get away from the fire Dragon, another fire Dragon came out from the side ...

Lin Yi didn't know what to say-how did he end up in this situation?

There weren't only three fire dragons in the room-Lin Yi scanned with his spirit sense and found that there were ten of the same fire dragons circling around him!

The slender fire body was extremely agile, and they wouldn't collide with each other. As long as Lin Yi had an opening, they would charge at him!

Stop button? Stop your head!

Lin Yi couldn't help but think to himself-there was a stop button in the middle of the room, but you had to be able to press it to stop it!

And so, Lin Yi was sent flying around like a ball-he was going to die!

If it was any other peak Foundation Stage practitioner, it'd probably be hard for them to get out alive. Luckily, Lin Yi wasn't a normal person!

Having a spirit root with almost all elements meant that he had a body with all elements, so his body's resistance to these fire dragons was ten times stronger than normal martial artists of the same level.

The heat and pain ... Although they were unbearable, they were not completely unbearable!

Lin Yi clenched his teeth and continued to use the fire element body refining technique of the sect.

Wisps of fiery energy seeped into his skin and muscles during the collision and began to slowly and steadily temper his body.

He didn't know how many times he was hit, but Lin Yi's body was on fire, as if he was burning in flames. Subconsciously, he felt like he had become a man of fire!

If I could open my mouth, I would sing a song to burn my calories!

The black-robed elder outside the door did not leave. Instead, after waiting for a while, he pressed a mechanism and the situation inside the high-grade cultivation room was displayed on the stone wall.

"This kid is quite tough! He's still alive even after this!"

The black-robed old man clicked his tongue in wonder.

He'd been worried when he saw Lin Yi spinning in the air, unable to reach the stop button-he'd been wondering if he should help.

However, when he felt that Lin Yi was absorbing the fire energy through the impact to strengthen his body, he relaxed a lot.

To be able to persist in cultivating under such circumstances, at the very least, his will definitely surpassed others!

So, the black-robed elder decided to wait and see how long Lin Yi could last. If he really couldn't hold on, he could save him.

An incense's time passed, and the black-robed elder was a little surprised-he didn't think that Lin Yi would be able to last that long!

Although he looked extremely embarrassed, he was strong enough to hold on!

He should be reaching his limit soon, right?

As the black-robed old man thought of this, two hours passed!

He was surprisingly tenacious!

But it should be almost unbearable, right?

The old man felt like he had overestimated Lin Yi, but he underestimated him by so much!

Lin Yi's entire body was red, and his skin was as bright as blood. The black-robed elder was already thinking if it was time to save him!

However, at this moment, Lin Yi's body was sent flying by a fire Dragon, but when he was close to the stone wall, he suddenly stretched out his hand and used the momentum to stabilize his body!

"Eh? What's wrong with this kid?"

The black-robed old man could not help but exclaim in a low voice!

According to his calculations, Lin Yi should be on the verge of collapse, so how did he still have the energy to stabilize his body?

Since Lin Yi was acting strangely, the black-robed elder naturally wouldn't interfere. He immediately gave up on the idea of attacking and continued to observe.

The next moment, a fire Dragon rushed out from the side and sent Lin Yi flying again!

This time, Lin Yi didn't manage to continue his "miracle" and was sent flying, smashing into the wall on the other side.

"Haha, it seems like it was just an accident. You've scared me."

The old man laughed at himself and was ready to save Lin Yi. The kid could be proud of how long he had lasted.

But before he could do anything, all the fire dragons disappeared, and Lin Yi's body slid down the curved wall, stopping in the middle of the room.

The black-robed old man was slightly stunned. He could not help but shake his head and laugh.

He had forgotten that every two hours in the cultivation room, there would be about an incense's time to rest.

Firstly, it was to give the martial artists cultivating inside the room a chance to adjust their bodies. Secondly, it was to give the fire Qi in the cultivation room time to recover.

Lin Yi slid down to the training spot in the middle of the room and sat up instinctively, circulating his body refinement technique continuously, quickly refining the fire Qi stored in his body.

It had only been two hours, but Lin Yi could clearly feel the thick fire energy in his skin and muscles, continuously strengthening all aspects of his body.

If he were to complete 24 hours of cultivation, how far would he progress?

The black-robed elder saw Lin Yi's actions and his expression was weird. He thought that Lin Yi had reached his limit, but it seemed like he still had some energy left!

If he were to forcefully open the cultivation room and take it out, he might do something bad with his good intentions!

Well ... Let's wait and see!

The rest time passed in a flash, and the fire Dragon in the room rose again, continuing to spiral and attack Lin Yi from all directions.

This time, after Lin Yi was hit against the wall, he tried his best to stabilize his body and miraculously dodged a few of the second hits!

This meant that Lin Yi's dodging wasn't a coincidence-he was starting to get used to the fire Dragon in the high class practicing room.

Although the final result was still miserable, it was undeniable that it was much better than the first two hours!

The black-robed old man hesitated a few more times about whether to attack or not. Unknowingly, the second two hours had passed.

Lin Yi crossed his legs again and started refining his body with the fire Qi.

Six hours later, the number of times Lin Yi hit the wall decreased again ...

The fourth hour ...

The fifth hour ...

A day later, Lin Yi was able to avoid hitting the wall even once. He could even face the fire Dragon's attack from the front without being sent flying.

The black-robed old man was already numb to Lin Yi's progress. He went back to the entrance and waited, only coming over to check on Lin Yi's progress from time to time.

Four hours later, Lin Yi was standing in the middle of the room, enduring the fire dragons coming from all directions. He didn't move at all.

Chapter 7285 This Is A Pervert

The impact of all the fire dragons was no longer able to affect him.

The fire dragons could only pass through Lin Yi's body, leaving a large amount of fire energy in his body. The effect was unparalleled.

When the black-robed old man saw this scene, there were no words that could describe his feelings other than shock.

A kid who had not even reached the Golden core stage could actually achieve this in the advanced cultivation room. This was simply unheard of!

Before this, there was not a single Foundation establishment stage newbie in the sword spring sect who had achieved this!

The black-robed elder was very suspicious. Why was such a person not an inner sect disciple, but an outer sect disciple?

Was the person in charge of the assessment blind? Or was the assessment method of the sword spring sect too trashy?

At this time, the black-robed elder really wanted to see how long Lin Yi could last in the advanced practicing room. Could he use up all twenty-four hours?

This shouldn't be a problem. Then, what level could this kid reach when he first entered the cultivation room?

At present, the first stage of muscle-honing had been completed, and the bone-honing seemed to be going well. Would he be able to complete the honing of his internal organs by the time it ended?

The black-robed old man felt that it was unbelievable. Such a person and such a thing had never appeared in the sword spring sect before ... Would one appear today?

The second day was already halfway through, and Lin Yi let out a clear whistle in the training room, brandishing his fist for the first time!

A fire Dragon collided with Lin Yi's fist in the air, but it couldn't move forward. It paused for a moment before changing direction and whizzed past Lin Yi's body, leaving behind only a stream of pure fire Qi that was drawn by the body refinement technique and absorbed into Lin Yi's body.

Compared to the fire Dragon, the amount of fire Qi He absorbed this time wasn't small at all, and Lin Yi didn't feel any pain at all. This was the most stable and comfortable way of body tempering!

Bone and spine honing, complete!

Lin Yi was overjoyed. He decided to use the butterfly microstep and kept moving in the small space. He kept punching the fire Dragon, and the old man was dumbfounded.

She'd expected Lin Yi's progress, but it was still shocking to see it with her own eyes!

A genius!

He was definitely a body refining genius!

In just a day and a half, he had already started to hone his internal organs. The black-robed old man wanted to ask who else could it be?

There was still half a day left before the time limit for the advanced cultivation room. He wondered to what extent this kid could hone his internal organs.

The old man thought, but he didn't think that Lin Yi would be able to finish the training.

After all, from the tempering of the skin and flesh to the tempering of the five internal organs, the difficulty of each stage was getting higher and higher!

The first two stages of the muscles and bones took a day and a half, so the third stage would probably take about a day and a half, right?

It was impossible to achieve perfection this time. It should be more or less the same if he came again. Perhaps next time, he could see this kid directly release his anger!

With such an astonishing cultivation speed, let alone the inner disciples, even the core disciples would most likely not be able to compare with him.

However, when the second day was about to end, the black-robed old man came over and saw the scene inside. He was completely speechless!

Every time Lin Yi punched out, the fire Dragon would be destroyed, leaving behind a large amount of pure fire Qi for him to guide into his body. The destroyed Fire Dragon would then reform and join the ranks of the attacking forces.

However, in this way, the consumption of the high-grade cultivation room doubled. Originally, it would only stop after two hours. Now, it had stopped before an hour had passed.

The black-robed elder's mouth twitched. He felt that he should take back his comment that Lin Yi was a genius. This guy was a F * cking monster! He was a monster, alright?

Genius? How could a genius be compared to such a perverted monster?

What did he just see? Releasing fire?

It wasn't obvious yet, but the old man believed that he was right-Lin Yi had already started releasing his fire energy when he fought the fire Dragon!

Two days! No, it hasn't even been two days!

He was only able to release his fire? If this wasn't a monster, then what was?

Lin Yi couldn't help but sigh as he watched the fire Dragon disappear.

He didn't know if this could be considered as releasing his fire Qi, but the three stages mentioned in the fire attribute body tempering cultivation method should have been tempered to perfection. When he punched, there was also a trace of fire power in it.

Perhaps he had already met the requirements for Martial Master Ma's examination? It didn't matter even if he didn't reach that level. He still had some time left to continue tempering his body!

The high-grade cultivation room was indeed extraordinary. If it was a low-grade cultivation room, who knew how many times he would have to go in to complete his current state?

Lin Yi clenched his fist and nodded in satisfaction. He sat down cross-legged and continued to absorb the fire energy. There was still a lot of room for improvement-he couldn't waste any more time!

The 24-hour period was up!

Lin Yi walked out of the room, satisfied. The old man had already left, so Lin Yi didn't see him.

At the exit, Lin Yi cupped his fist politely, "Many thanks, senior. See you next time!"

"Sima Yi, slow down. Come over and have a chat!"

The old man waved at Lin Yi with a smile before opening the door behind him, "Come, come in and talk!"

Lin Yi blinked. Could it be that he'd stayed for 24 hours and wanted to ask about the situation?

It was most likely the case. Previously, he said that he wouldn't last more than an incense stick, but in the end, he used a full 24 hours. Anyone would be curious.

However, these words could be said here. Was there a need to go in?

Lin Yi was suspicious, but he didn't reject the offer. He followed the old man into the stone room and the door closed behind him.

The ceiling of the stone chamber was inlaid with a circle of fist-sized luminous pearls, which emitted a soft light.

These pearls alone were already worth a lot, and Lin Yi guessed that the old man's identity wasn't simple.

If it was an ordinary outer sect disciple, it would be good enough to have a candle stand in the stone room, but a circle of night pearls? You must be dreaming!

It seemed that the Golden edges on the black robe did have a special meaning.

"Senior, is there anything you want to say?"

Lin Yi put aside his guesses and cupped his fists with a smile, "Is it about the advanced cultivation room?"

"That's right! This old man thought you would encounter danger inside, so I secretly paid attention. "

"I hope you don't mind," the black-robed old man said with a smile. "After all, with your strength, you might not even have the chance to press the stop button."

Lin Yi understood immediately-this meant that the black-robed old man was monitoring his training?

It didn't really matter-he was just training the body strengthening technique of the sword spring sect anyway, and there was nothing to be ashamed of. Plus, he couldn't press the stop button at the start.

Chapter 7286 Too Bad He's Not The Successor

If it wasn't for his special physique, it was indeed possible for someone of the same level to die inside. If no one paid attention, he would have died in vain!

"Of course I don't mind, but I have to thank senior for your concern!"

Lin Yi smiled and bowed, expressing his sincere gratitude. "Junior is extremely grateful for senior's care and concern for junior."

He believed that the black-robed old man wouldn't be so free as to pay attention to everyone who entered the room-only Lin Yi's life-threatening situation would be monitored, right?

"It's what I should do. No need to thank me!"

The black-robed old man smiled and waved his hand. He then asked, "It's because I saw your situation inside that I was shocked. Can you tell me how you did it?"

"How?"

Lin Yi scratched his head. How should he put it? After a moment of silence, he answered, "there's nothing special about it. I just gritted my teeth and held on. Then, I felt the fire Qi enter my body. I used the body tempering technique to guide and temper my body. Then, I got used to the intensity of the cultivation room step by step!"

Speaking of comprehension, he really didn't have any comprehension. It was originally a beginner level body tempering cultivation technique. With fire Qi, he could temper his body. There was no need to comprehend anything at all.

Body cultivation was different from the cultivation of true Qi and primordial spirit. It was a solid foundation step by step without any fancy tricks. It was unlike the cultivation of true Qi, where it was possible to have an amazing breakthrough with a sudden enlightenment.

"That's true ... I can only say that your talent is too strong!"

The black-robed old man shook his head and laughed. There was nothing much to say about this. Monsters were monsters because other people did things that were as difficult as ascending to the sky. To them, it was as natural as eating and drinking. How could you ask others how they did it? Chew, chew, and swallow, what else could he do?

"Actually, this old master didn't call you in mainly to ask you this question."

The black-robed old man waved his hand and muttered to himself, "With your talent, the advanced cultivation room is not suitable for you to cultivate. Next time you come, if I'm not here, don't go in first. When I'm here, I'll take you to a higher grade cultivation room."

"There are even more advanced cultivation rooms? Isn't the advanced training room the highest grade?"

Lin Yi was a little surprised, but he quickly came back to his senses. The people in the advanced training room were just normal golden core cultivators-they weren't that strong.

If a Yuanying stage Martial Master came, this level of cultivation room was obviously far from reaching the effect of cultivation.

"Of course not!"

The black-robed elder laughed as he explained, "The cultivation rooms marked on the outside are only for the outer sect disciples. The inner sect disciples have other cultivation rooms, and they need to go through a special passage. The outer disciple's high grade training room is only a low grade training room to the inner disciples!"

Lin Yi didn't know what to say-the outer disciples "high-level rooms were only the inner disciples" low-level rooms? Wasn't the difference a little too great?

It was no wonder. The difference in status between the two was obvious, and the resources of the sect were also very reasonable!

"Senior, can I use the inner disciples' cultivation room?"

Lin Yi, on the other hand, was looking forward to it-he'd already felt that the supply of fire wasn't enough after the last session in the advanced practicing room. He'd definitely go if there was a higher-class one!

"Originally, you were not qualified to use it, but this old master saw that your talent in the fire attribute is astonishing, so I made an exception and gave you this opportunity! Besides this old master, no one else can give you this opportunity, so the next time you come, you must find this old master!"

The black-robed old man revealed a proud expression. ""This is against the rules. You can't tell anyone. Otherwise, you won't have the chance to do so in the future!"

Lin Yi understood-no wonder they had to come in so secretly. He cupped his fists."Many thanks for senior's favor, this junior will definitely keep his mouth shut!"

"Alright, you can go! Pay attention to the balance between work and rest, and come back after a good rest!"

The black-robed old man was very satisfied with Lin Yi's attitude. He smiled and waved his hand, "I'm very optimistic about your future. Perhaps it won't be long before you can openly use the inner disciples "cultivation room!"

With that, the black-robed elder opened the door and led Lin Yi out.

Lin Yi said respectfully and left the place in a good mood.

"This kid is really not bad. It would be a pity if he were to be buried in the outer sect!"

The black-robed old man smiled as he watched Lin Yi leave, sighing softly, "Such a stunning fire attribute physique, what a pity! How good would it be if I also have a wood attribute physique to complement it!"

"I'm very capable, but I can't find a suitable successor even if I wanted to ... I've been guarding this cultivation room for so many years, and there are two people with wood and fire dual attributes. Unfortunately, they're not very useful ... If only one of them had Sima Yi's fire attribute aptitude, it wouldn't matter even if the wood attribute was a little worse ..."

"I don't know how many years I can last with my injuries ... If I can't find a successor before I die, I won't be able to rest in peace! He heard from Xiao Ma that there was a new disciple with wood and fire attributes this year ... Was he called Ai fan or something? he wondered what his aptitude was like. I don't expect her to be as stunning as Sima Yi, but half ... No, a third would be enough!"

"It's been two days ... Within two days, Sima Yi has already cultivated the introductory body tempering technique to the minor success stage and has reached the level where he can release his fire energy. As for that brat called Ai fan or something, I haven't even seen his shadow ... With this attitude, I'm afraid he's not a suitable candidate!"

The black-robed old man mumbled to himself and sighed from time to time with a lonely expression on his face.

This was an old man who valued hard work, and so Lin Yi, as the first new disciple to come to the room, got a good impression.

However, Ai fan, the disciple that the black-robed old man had in mind, made him extremely disappointed!

It wasn't a big problem if one's talent was lacking. Hard work could make up for it, and hard work was enough to make up for some gaps in talent, unless one was really lacking in talent!

However, if one's talent was poor and not diligent enough, the gap between one and those diligent geniuses would only grow bigger and bigger. There would never be a chance to catch up!

Lin Yi left the peak where the practicing room was and went back to the North Peak to wash up, changing into his new steward uniform.

Lin Yi was an official, so he was wearing a white robe.

After that, Lin Yi went to the canteen to have a big meal before he started walking around long beard Peak, satisfied.

After twenty-four hours of training, he was at the basic level of the fire element body refining technique of the sword spring sect. Lin Yi had basically completed his goal of releasing his fire energy, so he was ready to go to the library to check it out.

Chapter 7287 Outer Sect Library

The sword spring sect had a few libraries, and there was one on the long whisker peak.

This was a library Pavilion specially for outer sect disciples. The books inside were all introductory level cultivation methods and martial skills. It wasn't that there weren't any higher level ones, but there weren't too many either.

Moreover, the books here were mostly rubbings. The original copies were all in the core of the sword spring sect, the library.

With Lin Yi's current status, other than the long whisker Peak's library, there was another place that the outer and inner disciples could go to.

It was not far from the peak where the cultivation room was located. Although the books there were not as good as the ones used by the inner sect disciples, it was much better than the ones on the long whisker peak.

For ordinary outer sect disciples, if they wanted to enter the library Pavilion, they would choose the library Pavilion on the long whisker peak. It was closer and the points required were slightly cheaper.

Only the stronger outer sect disciples would choose to go to the common library Pavilion to find some higher grade cultivation methods and martial skills to exchange.

Lin Yi didn't lack points, so he decided to walk around the mountain.

Lin Yi only looked around for a while as he passed the library, before leaving the mountain and heading towards the library that was shared between the inner and outer gates.

He wanted to learn martial arts and practicing as well, and Lin Yi didn't want to waste his time on low-level books. It was the same as choosing a training room.

Instead of wasting time in the low-level cultivation room, it was better to enter the high-level cultivation room and successfully temper the body in one step!

After a while, Lin Yi arrived at the library between two mountains.

Occasionally, one or two outer sect disciples in black would enter and leave the gate. As for the inner sect disciples, they were not seen.

This wasn't strange. Compared to this library shared with the outer disciples, the inner disciples' library was more abundant!

However, the level there was higher, so the new inner disciples would choose to come here to exchange for some basic cultivation methods and martial techniques.

There were two grey-clothed youths standing at the entrance of the library, and they immediately bowed respectfully when they saw Lin Yi. "Greetings, senior brother! Does senior brother want to enter the library? Please show me your identity token!"

Lin Yi smiled and took out his identity token.

"Senior brother, please come in!"

The grey-clothed young man who spoke just now maintained a slight bow as he asked Lin Yi to enter.

Both of them were factotum disciples of the Sword spring sect, and they were here to help guard the door of the library Pavilion. It could be said that no matter who came, as long as they could enter the library Pavilion, their status would be higher than theirs!

They were all very humble, especially since Lin Yi was wearing a white robe!

"Many thanks!"

Lin Yi thanked them politely, and the two disciples were grateful.

This was because there were very few official disciples of the Sword spring sect who would pay attention to the lowly handyman disciples, let alone thank Lao Ai, even if it was just out of courtesy.

"Senior brother is too polite!"

The youngster bowed even deeper before raising her head to steal a glance at Lin Yi. "Senior brother, you don't look familiar. Is this your first time in the library Pavilion?"

Normally, he wouldn't dare to talk to a disciple who just entered the library, but Lin Yi was so friendly today that he couldn't help but say a few words.

"That's right. It's my first time here. Is there anything I need to pay attention to?"

Lin Yi was about to step into the library when he stopped and looked at the grey-clothed young man with interest. "By the way, I haven't asked. What's your name?"

"Senior brother, my surname is Wang, so you can call me Xiao Wang!"

The young man's face was red as he rubbed his hands nervously, not expecting Lin Yi to ask for his name.

Lin Yi's mouth twitched. Are you sure you want me to call you a little bastard? It's not appropriate, right?

Xiaowang obviously didn't notice the ambiguity in his words. He continued with a little excitement, "Senior brother, there's nothing much to take note of. There's just one thing. Elder MA inside must not be offended."

The other grey-clothed young man seemed a little envious of his friend talking to Lin Yi. He added, "Senior brother, my surname is lü, and my name is lü Diao. Senior brother, you can call me Xiao lü."

Lin Yi's mouth twitched again. Were the two of them monkeys "clowns? A little jerk and a little green bean, did they like each other?

Lü Diao didn't know that Lin Yi was laughing so hard at their names that he was about to cramp up. He interrupted, "Elder MA is the elder in charge of the library Pavilion. All the senior brothers who want to enter the library Pavilion must get elder Ma's permission. If he doesn't agree, then you can forget about exchanging for the cultivation method and martial skill you want."

"Is elder MA very difficult to get along with?"

Lin Yi found it strange-the elder in charge of the library was the same as the head of the library, right?

When other people came to the library to borrow books, they usually had nothing to do with the chief!

"It's not that he's not easy to get along with, elder MA is a very good person!"

Little Wang seemed to feel that the two of them had a tendency to court death. If they were found out gossiping about the elder behind his back, they would really be done for, so he quickly whispered to remedy the situation, ""Under normal circumstances, no one would ever offend the nice elder MA. It's just that elder MA can't tolerate the sand in his eyes, so he's a little more strict ..."

Lü Diao also realized that his words were inappropriate. He sneaked a glance into the library Pavilion, patted his chest with lingering fear, and said in a low voice, ""Senior brother, it's not good for us to say too much. You just need to pay more attention and be humble!"

"Thank you for the reminder! See you later!"

Lin Yi could tell that they didn't want to talk about it, so he didn't force them. These two servant disciples probably didn't know much anyway.

After waving his hand casually, Lin Yi stepped into the library.

After entering, there was a Round Hall. In the middle, there was a huge stone sculpture of a book. The entire library was made of wood and looked antique. On both sides, there were stairs winding up against the wall.

There weren't many people on the first floor, and there weren't any books either. There were only two wooden staircases and a stone carving. Lin Yi took a look around and went up to the second floor.

The balcony on the second floor was the intersection of two stairs. A little further in was a door.

A white-robed middle-aged man was lying on a chair in front of the door.

The middle-aged man was holding a purple clay teapot in one hand and drinking tea from the mouth of the teapot. In the other hand, he was holding a book and reading it in a relaxed manner.

"Senior! Outer sect disciple Sima Yi wishes to exchange for some cultivation methods and martial skills!"

Lin Yi guessed that this white-robed middle-aged man was the elder MA, the manager of the library. He cupped his fist and greeted politely, "I wonder if senior is elder MA?"

Chapter 7288 Overestimating

The white-robed man took a sip of his tea and put the book down. He looked at Lin Yi.

"That's right, I've never seen you before. Are you new here? He hadn't even finished cultivating the introductory cultivation method, and he wanted to exchange for other cultivation methods and martial techniques? What a lofty goal!"

Elder MA started scolding Lin Yi as soon as he opened his mouth, before slamming the teapot in his hand onto the coffee table beside the chair. "I've always emphasized that cultivation should be done step by step, and not overnight! He didn't even have a good foundation, so why would he exchange for martial arts techniques? You haven't even learned how to walk and you're already thinking of running?"

Lin Yi raised an eyebrow-the little jerk and little green bean were right, this elder MA was strict!

But elder Ma's intentions weren't wrong, so Lin Yi didn't blame him. After all, he'd never been able to release his fire in just two days!

At the very least, there was none in the sword spring sect!

"Elder MA ..."

Lin Yi cupped his hands, thinking that it was best to explain so that the other party wouldn't continue to misunderstand.

Elder MA didn't even give Lin Yi a chance to explain as he waved his hand, "You don't need to say anything! Whatever you want to say, I've already heard it countless times! Everyone's time is tight, so stop talking nonsense!"

Lin Yi didn't know what to say ... Are you sure I've heard what I was about to say countless times?

Could it be that there were countless disciples in the sword spring sect who had mastered the introductory body tempering technique in two days?

"Rotten wood can't be carved! Forget it, what's the point of telling you so much! Tell me, what cultivation method or martial skill do you want to exchange for?"

Elder Ma's face was full of disdain as he continued to be immersed in his own world, unable to extricate himself.

Lin Yi rubbed his brows and decided to get straight to the point. "Elder MA, how do we exchange cultivation and martial arts techniques?"

"Don't talk nonsense! I feel annoyed just hearing you ask this!"

Elder MA was getting impatient, and Lin Yi could feel the veins popping out on his forehead!

Didn't you F * cking ask me to exchange for some cultivation methods and martial arts techniques? He said this was nonsense again. What the hell was he trying to do?

Elder MA also seemed to feel that his attitude was a bit too much. He smacked his lips and said with a frown, "The second floor is the storage place for beginner-level martial arts techniques and cultivation methods. The price is the same. Ten points for a cultivation method or martial arts technique!"

After saying this, he raised his hand and pointed at the ceiling. "Up there is the third floor, which is the area for advanced martial arts techniques and cultivation methods. You can exchange 50 points for a martial arts technique or cultivation method. Just tell me what attribute you need, and I'll help you choose a suitable one!"

Lin Yi frowned as well—other than the entry level, the higher level ones were separated into whether or not they suited the practitioner.

Not all fire attribute cultivation methods and martial arts techniques were suitable for people with fire attribute physiques. One could only determine whether they were suitable for themselves by personally choosing them.

"Elder MA, can't you read and choose by yourself?"

Lin Yi finally understood why he said he couldn't offend elder MA—if he let him pick, who knew what kind of trash skills and Arts he'd give him!

"You want to choose for yourself? It's not impossible!"

Elder MA picked up the teapot and took another sip, smacking his lips, "On the second floor, you can read for two hours with ten points. Within two hours, there's no limit on how many cultivation methods and martial techniques you can read. After you've confirmed it, you can spend another ten points to exchange for one. The same goes for the third floor, 50 points per two hours!"

Lin Yi's eyes widened-that was expensive!

Two hours on the second floor would cost ten points, which was equivalent to ten meals, twenty-four hours in the high-grade cultivation room, and a cultivation method and martial technique on the second floor!

He had only read it for two hours!

Lin Yi was only surprised on the surface, but he was overjoyed on the inside!

Two hours, for ordinary martial artists, casually flipping through dozens of cultivation methods and martial arts techniques to determine whether they were suitable was already very tense!

If he wanted to memorize it with all his might, it was already not bad if he could memorize a cultivation method or martial technique by rote!

If there really were people who had a photographic memory, at most, two cultivation techniques or martial arts techniques would be the best. Therefore, the library Pavilion would definitely not lose out!

But Lin Yi was different!

With the help of the divine sense, having a photographic memory was child's play. With a sweep of the divine sense, he didn't even need to look at it, he could just scan and copy it!

After reading it ... No, it should be said that after scanning and copying it, he could even save on the points needed to exchange for it. This business was really important!

"Elder MA, what about the ones above the third floor?"

Lin Yi remembered seeing this before-the library didn't just have three levels."How many points do I need to flip through the fourth level?"

"Woof! Don't even think about it, you're just a new disciple, being able to go to the third floor is already me showing you special kindness, and you still want to go to the fourth floor? you don't know how high the sky is!"

Elder MA laughed in disdain and continued to mock,""Let's not talk about whether you're qualified to go to the fourth floor first. You'd better think about whether you have enough points to pay for the third floor's browsing fee. If you see something you like, do you have extra points to exchange for it?"

An ordinary new disciple would not even have enough basic points to eat, let alone enter the cultivation room or the library Pavilion!

As far as elder MA was concerned, even if Lin Yi had more points than the average new disciple, he'd at most get two to three hundred points!

His thinking was similar to the black-robed old man in the cultivation room. After deducting a month's food expenses, a part of the cost of the cultivation room, and points for exchanging cultivation methods and skills, he had to save them.

To be able to flip through the third level for two hours was already an extremely difficult thing!

Of course, for a new disciple to personally flip through the books and choose cultivation methods and martial techniques, in elder Ma's eyes, this was an unnecessary matter!

"Elder MA, what are the requirements for the disciple's identity on the fourth floor? When can I go up?"

Lin Yi didn't want to give up-the things on the fourth floor were obviously better than the third!

Therefore, if he wanted to get there in one go, going straight to the fourth floor was the right choice.

"Oh, you still haven't given up!"

Elder MA had a mocking smile on his face as he nodded slightly, "Alright, I don't mind telling you. The fourth floor of this library Pavilion is only accessible to inner disciples and outer disciples who have been in the sect for more than two years! You're just a new disciple, don't even think about it!"

Lin Yi raised an eyebrow and flicked his sleeve. "Elder MA, although I'm new here, I'm wearing a white robe!"

"So what if it's a white robe? the same white robe is also divided into different grades. Do you think that your white robe is the same as mine?"

Elder Ma's mocking expression became even more intense as he shook his head and laughed, "This Lord knows that you are the new manager of the outer sect disciples, but unfortunately, you are still an outer sect disciple, far from the ordinary inner sect disciples! He wanted to enjoy the treatment of an inner disciple just like that? You should go back, wash up, and sleep!"

Chapter 7289 What Is This Kid Doing?

Lin Yi didn't want to argue with elder MA anymore-there wasn't any benefit to fighting on his territory.

Since he couldn't go up to the fourth level, he would take a look at the second and third levels first. He should be able to digest the gains for a long time!

"Elder MA is right. Since that's the case, this disciple will first go through the second and third levels. These two levels will each be exchanged for two hours of time!"

Lin Yi took out his identity token and handed it to elder MA with both hands.

Elder MA was taken aback, but since Lin Yi said so, he could only accept the token and mumble unhappily, "Wastrel, wasting a little points! Do you think you can figure something out in two hours? It's simply ridiculous!"

In a mere two hours, just reading through the second and third level's ancient records 'table of contents and brief introductions was already very difficult. Wanting to choose a suitable cultivation method or martial technique from them was even more difficult!

Elder MA wasn't worried at all that Lin Yi would secretly memorize all the martial arts and techniques.

Elder MA said as he swiped Lin Yi's identity token on Hong Yu-he realized that Lin Yi had quite a lot of points!

Elder MA was surprised, but he wasn't one to make a big fuss over something like this. He opened the door and signaled for Lin Yi to come in.

"Two hours on the second floor, two hours on the third floor, a total of 60 points. You must come out when the time is up, and if you exceed the time, even if it's just an instant, you must pay again! Of course, you won't get your points back if you come out early!"

Elder MA reminded Lin Yi coldly. After Lin Yi cupped his hands and agreed, he waved his hand, "Go!"

Lin Yi then stepped into the second floor of the library.

This place was similar to the library in the secular world. There were rows of bookshelves with ancient books neatly placed on them.

Looking up, there were signs hanging on the bookshelves, divided into different areas.

For example, the fire attribute cultivation method area, the fire attribute martial arts area, the metal attribute cultivation method area, and so on.

In addition to cultivation methods and martial techniques, there were also some special areas, such as the alchemy area, artifact refining area, and other miscellaneous areas. In addition, there were other areas related to the geography and customs of the sub Island.

Lin Yi scratched his chin-he didn't expect the second floor to be this vast. It was all the most basic knowledge, but it'd still be of great help to him if he flipped through them all!

Unfortunately, it was not realistic to read through all the books in two hours. Fortunately, it only cost ten points for two hours on the second floor. He could come back next time to read more carefully.

The main purpose of his visit today was still to obtain the cultivation methods and martial arts techniques of the sword spring sect. The rest could be put aside for the time being.

So Lin Yi first went to the Arts section and started looking through the different elements.

The second floor was filled with all the basic level body strengthening techniques. Lin Yi spent around ten minutes to read through all the body strengthening techniques other than the fire element. He was prepared to practice them all if he had the chance.

With that, Lin Yi's body was like being trained multiple times at his current stage, and it was much stronger than just using the fire element.

It was not difficult to do this. All beginner level body tempering techniques were similar. The only difference was the attribute aura that was guided into the body!

Some of the training methods were pretty much the same, but Lin Yi felt that the only difficulty was how to get into the rooms for the other attributes.

He clearly had a fire attribute physique. If he kept going to other attribute cultivation rooms, and not just one or two, but full attribute cultivation rooms, it would be strange if he did not arouse the suspicion of the sword spring sect!

If he didn't go into the room and just stayed in his room, the progress would be too slow. Lin Yi didn't plan on training an advanced body strengthening skill before he completed all attributes.

He'd already considered himself a person who'd placed more emphasis on his Foundation when he'd been training, but it was still ruined by his unstable foundation. So this time, his new body had to be steady and steady-every step had to be incomparably solid!

After looking at the arts, Lin Yi turned to the beginner martial arts section and started flipping through the different types of martial arts.

These weak martial techniques were just toys that were better than nothing. There was no need to memorize them at all, and one could understand most of them at a glance.

Lin Yi could basically use it with a simple mental simulation.

In the past, he was able to copy his opponent's martial arts technique during battle and then use it directly. If he still didn't know how to use it after looking at the illustration now, he should really find a piece of tofu and kill himself.

Elder MA, who was outside, had already turned on his monitoring technique the moment Lin Yi entered the library.

Although the books inside were not precious, anyone who entered had to be monitored to avoid damaging the things inside.

"Who are you! Instead of studying a suitable cultivation method or martial skill, you're just wandering around aimlessly, you're really rotten wood!"

Elder MA saw Lin Yi moving from one area to another, and a disdainful smile appeared on his face. "He's actually flipping through all attribute books, does he think he's proficient in all attribute cultivation methods and martial skills? What a joke!"

"Elder MA, what are you mumbling to yourself about?"

A burst of laughter suddenly came from the stairs. Elder MA turned his head and saw the black-robed old man from the cultivation room.

"Haha, so it's elder Qin. How come you have the time to come here today? I'll say this first, there's tea, but there's not a single drop of wine!"

Elder MA smiled and stood up to welcome the guest. It was obvious that he had a good relationship with the black-robed elder, elder Qin.

"You're so petty! If you're not even willing to drink some wine, let's see if this old man will bring you something good next time!"

Elder Qin laughed and scolded. His eyes turned to the surveillance screen that elder MA had not turned off. "Eh, I see this little guy again! You're so hardworking!"

"Elder Qin, you know this kid?"

Elder MA was taken aback-he didn't think that Lin Yi, a new disciple, would be connected to elder Qin.

"I've seen him once. He's a new disciple this time. He has a good personality and was the first to come to my cultivation room to cultivate on the first day. He's also quite talented ..."

Elder Qin couldn't help but want to praise Lin Yi-he liked hardworking disciples like Lin Yi the most. How long had he been away from the training room? He came to the library Pavilion to read cultivation methods and martial techniques!

Elder Qin wouldn't think much of Lin Yi if he only came here to exchange for martial arts and martial arts based on the recommendations, but spending points to personally enter and choose clearly meant that he was looking for the most suitable martial arts and martial arts for himself-this made elder Qin's impression of Lin Yi even better.

Such a person, as long as he didn't die halfway, he would definitely have amazing achievements in the future!

"Amazing what? Just an embroidered pillow! His diligence is just an illusion. Elder Qin, don't be fooled by this kid's appearance!"

Elder Ma's mouth twitched in disdain, and he interrupted elder Qin's words, ""Look, what is this kid doing?"

Chapter 7290 I Want To Go To The Third Floor

Elder Qin was surprised, not understanding why elder MA had such a bad impression of Lin Yi. He decided to see what Lin Yi was reading first.

With one look, elder Qin's heart started beating faster. Even with his mental fortitude, he couldn't help but feel his mouth go dry. Lin Yi was in the wood element martial arts section, flipping through the wood element's elementary martial arts!

Didn't this kid have a fire attribute Constitution? Why did he look at wood attribute martial arts techniques? Could it be that his body also had a wood attribute Constitution?

She thought back to Lin Yi's amazing performance in the fire attribute-if he really did have a wood attribute, even if it was just a tiny bit, it was enough for him to become her disciple!

At the thought of this, elder Qin wanted to rush in immediately and ask Lin Yi if he was a dual element of fire and wood!

"Elder Qin, did you see that? This kid is a guy who doesn't do proper work. His identity token clearly indicated that he has a fire attribute physique, but can you guess what happened?"

Elder MA snorted through his nostrils, his disdain and contempt evident."He actually flipped through all the cultivation methods of the other attributes, except for the fire attribute cultivation method, and then began to flip through all the elementary martial arts techniques of the other attributes. What do you think this means? Do you want to become an all-attribute martial artist?"

"Sima Yi saw all attribute cultivation methods and martial arts techniques?"

Elder Qin suddenly felt a great sense of loss.

If Lin Yi had only seen the wood element Arts and skills, then there was a 90% chance that he had an undetectable wood element in him.

This was not the first time something like this had happened. In the history of the sword spring sect, there had been a few people who had done this. The first time their attributes had not been tested, they had exploded with shocking energy through their own cultivation.

However, Sima Yi was looking at all attribute cultivation methods and martial arts techniques, so it could only be said that there was a 90% chance that he was purely of the fire attribute ...

"Maybe he wants to know his enemy and himself and win every battle? Therefore, I'm going to study the cultivation methods and martial techniques of other attributes in preparation for the future assessment!"

Elder Qin couldn't help but sigh as he tried to find a reasonable explanation for Lin Yi.

"There might be such a possibility, but I feel that as a newbie, he might as well study a cultivation method and martial arts technique that is suitable for him instead of wasting his points to read these things. As long as he is strong, why should he be afraid of others?"

Elder MA was still disdainful, thinking that Lin Yi was on the wrong path!

Elder Qin shook his head and laughed.

He'd wanted to tell elder MA that Lin Yi'd finished the basics in two days in the advanced practicing room, reaching the level of fire-externalization, and that gave him time to understand his opponent's Arts and skills.

However, after being disappointed once, elder Qin was not in the mood to talk much. He also did not want to argue with elder MA, so he simply changed the topic.

"Don't worry about him, this old master is here with you. Even if I can't bring out the good wine, at least make a pot of good tea first, right?"

Elder Qin didn't stand on ceremony and directly took over The Magpie's Nest, lying on the chair that elder MA had been lying on.

"Your Grandpa! You're here to snatch my place!"

Elder MA scolded him jokingly. He took another chair and placed it next to elder Qin. Then, he took out a new teapot and made tea before placing it next to elder Qin. "My Lord, please have some tea!"

"You're so crude. Can't you make a teacup? do you think everyone likes to drink from the teapot like you?"

Elder Qin picked up the teapot with a look of disgust and took a sip. He smacked his lips and savored the aftertaste. "The tea is alright, but the person is really a little lacking!"

"PAH, you old thing, if you don't want to drink it, then forget it. Don't take advantage of me and still act innocent!"

Elder Ma's eyes widened, but he couldn't help laughing after he finished speaking. He simply lay down on the side. "You didn't even bring any gifts when you came to visit. How dare you be so picky? do you believe I'll kick you out?"

"Come on, try chasing one away!"

Elder Qin rolled his eyes and continued to lie down. "This old master will be here today, if you can make it, then come!"

"You're being shameless again, right? It hasn't changed after so many years ..."

Elder MA spat and ignored elder Qin. He turned to Lin Yi. "Look at this kid, after reading all the cultivation methods and martial techniques, he actually went to flip through the artifact refining books. Next is the pill refining area, right? You might even be able to take in an Alchemist as your disciple!"

If Lin Yi only looked at the wood element arts and techniques before going to the refining section, elder Qin would take him in without hesitation and train him with all he had.

It was a pity ... The wood element martial arts and the pill refining section were just a small part of what Lin Yi had casually flipped through!

Elder Qin had given up on Lin Yi long ago, so he only snorted and fell back after hearing what elder MA said.

Lin Yi didn't know that his every move was being watched by the two old men.

However, it didn't matter even if he knew. In the eyes of outsiders, he was just casually flipping through it and couldn't possibly remember anything.

Two hours passed quickly, and Lin Yi only flipped through the books he was interested in. They made up about one-seventh or eighth of the entire second floor.

If he wanted to read through all of them, he would need at least 12 to 12 hours!

Lin Yi didn't want to waste time and points, and so he left the second floor as soon as the time limit was up.

As soon as he went out, he saw two old men lying on two side-to-side deck chairs. In the middle was a tea table with two similar-looking teapots.

"Senior, you've also come to the library Pavilion!"

Lin Yi recognized elder Qin and greeted him with a fist salute. He had a good impression of this black-robed elder.

"Yeah, we just separated. I didn't expect to see you again. How is it? Did you gain anything from the library Pavilion?"

Elder Qin nodded with a smile.

No matter what, Lin Yi's talent in the fire element was undeniable. He didn't understand why he would randomly flip through the books in the library, but it didn't stop him from having a good impression of Lin Yi.

"I've gained a lot, but I still want to go to the third floor to take a look. "

Lin Yi replied obediently.

At the side, elder MA waved his hands impatiently to shoo him away. "Go, go. Don't disturb me and elder Qin's conversation!"

"Yes! Elder Qin, elder MA, see you later!"

Lin Yi smiled, knowing that the old man's last name was Qin. He didn't mind elder Ma's attitude and went up the stairs.

The door to the third floor opened automatically when Lin Yi arrived-elder MA could control it from a distance.

This was quite convenient. After entering, he did not find any other disciples of the Sword spring sect inside. However, there were two disciples on the second floor of the library.
