

Bodyguard 7291

Chapter 7291 Still Want To Go To The Fourth Floor

Lin Yi walked around and flipped through the pages, feeling a little disappointed.

Although they were advanced cultivation techniques and martial arts techniques, they weren't much better than the ones on the second floor. He didn't need to look at them. He could reach this level by deducing them himself.

The quality was only slightly better, and the quantity was much less than on the second floor. Lin Yi felt that he'd spent the fifty points for nothing. He'd rather stay on the second floor for ten hours, it was definitely more cost-effective than the third floor.

Unfortunately, it was too late to regret after entering. The points that had been deducted would definitely not be returned. He could only reluctantly look around. It was better than nothing!

"Elder Qin, look at this kid. He looks like he's asking for a beating. It seems like he looks down on the cultivation methods and martial techniques on the third floor!"

Elder MA looked at the surveillance screen and couldn't help but laugh, ""Do you think this kid thinks the third floor is too difficult or too easy? I think it's too simple and doesn't match his strength!"

Elder Qin laughed and touched his chin, ""This old master also thinks so! Maybe you should let him go to the fourth floor to take a look!"

Elder MA was mocking Lin Yi-he didn't think that the third floor wasn't good enough for Lin Yi, and he did have the thought of going up to the fourth floor.

"Elder Qin, this isn't like you. Didn't you hate this kind of disciple who wanted to run before he learned how to walk? Why did you want him to go to the fourth floor today?"

"If he wants to go, why don't you break down and let him go once? In any case, Sima Yi was the senior brother of the new manager, so he was barely qualified. As for whether he should run or leave, he should know. "

Elder Qin didn't think that Lin Yi's behavior wasn't because he had too many points to spend, so he subconsciously wanted to see if Lin Yi's performance would be the same after the fourth floor.

"Alright! Since you've said so, I'll give you face. If this kid is really greedy and wants to go to the fourth floor to take a look, then why don't I make an exception and let him go?"

Elder MA muttered to himself for a moment before making his decision!

Elder Qin's face had indeed played a big role in this.

Lin Yi finished spending two hours on the third floor and went back to the second floor, disinterested.

"Sima Yi, why didn't you find a suitable cultivation method or martial skill on the third floor?"

Elder Qin looked at Lin Yi with a smile and asked in a friendly manner, ""Or is there not enough time? do you need more time?"

"Thank you, elder Qin. I don't need any more time!"

Lin Yi smiled and cupped his hands. He'd rather save the points for a few more meals than go to the third floor!

"It's obvious that none of the cultivation Arts and martial skills on the third floor are good enough for you, so you can't choose one, right?"

Elder MA started to sneer at him without any intention of hiding anything. "I can finally see that a genius like you shouldn't stay in the outer sect. You've already been wronged by being an inner sect disciple. You should directly become a core disciple."

Lin Yi's heart jumped, wondering if he'd made it too obvious and exposed himself.

Even such a secret situation was seen through?

But on second thought, that wasn't right!

This elder Ma's face was full of contempt, he was obviously being sarcastic!

He had taken it seriously because of his guilty conscience ... How embarrassing!

"Elder MA is too kind, this disciple does not deserve it, but if you can let this disciple enter the library on the fourth floor to take a look, this disciple will definitely be very grateful!"

Lin Yi didn't want to go to the elder, so he decided to go with the flow and see if he could go to the fourth floor.

Since the fourth floor was a place where only inner and qualified outer disciples could go, there should be some genuine goods inside. If he could scan and make a copy, he would definitely not lose out!

"There's no need to thank me. A genius like you should be heavily nurtured by the sect. Furthermore, elder Qin also thinks highly of you. I'll make an exception today!"

Elder Ma's lips curled into a sneer as he raised a finger, ""Listen up, the rules on the fourth floor are different from the second and third floor. You can only enter for an hour with 100 points!"

Lin Yi thought that it was really expensive!

Ordinary new disciples, even if they were qualified to enter, they would not have any points!

If he spent 100 points to go in for an hour, then if he couldn't earn points in the following days, wouldn't he starve to death?

"Within an hour, you must choose a cultivation technique or martial arts technique to exchange for it. If you don't exchange, you will be fined 50 points!"

Elder MA continued to talk about the rules. Elder Qin couldn't help but look at him, wondering why he had never heard of such a rule. It was just decided, right?

This was clearly not the only rule that had just been set. Elder Ma's mouth was numb as he said, ""If you choose a martial skill, you must try to activate it in the practice room on the fourth floor after the exchange. The time limit is two hours! You can only take away the entire book if you can successfully activate the first move within two hours!"

"What if the activation fails?"

Lin Yi didn't know that elder MA was just making things up, but he was interested in the rules.

"Of course, you can't take the entire book away if you fail to activate it. Moreover, the points won't be refunded. You'll have to pay a fine of 100 points!"

Elder MA continued to boast, "it's my territory, I call the shots, believe it or not!"

Lin Yi was speechless-if he failed, he'd lose three hundred points, both inside and out.

It was so F * cking black!

But three hundred points wasn't a lot to Lin Yi, and it wouldn't hurt him too much even if he really threw it in.

Besides, Lin Yi believed that he would succeed for sure. At most, it'd be two hundred points!

"How is it? I've already explained the rules, do you still want to go to the fourth floor to take a look?"

Elder MA took a sip from the teapot, thinking that Lin Yi would probably back down.

Not everyone could successfully activate the martial arts techniques on the fourth floor. Even inner disciples would have to ponder for two to three days before they could successfully activate them.

Of course, if this kid was determined to waste points to exchange for cultivation methods, then it didn't matter. Elder MA wouldn't lose out.

However, high class Arts weren't of much use to Lin Yi at this stage, and wasting 300 points on useless Arts was a waste of his future!

The best way to use resources was to increase one's combat strength. If they were used for cultivation techniques that could not be used immediately, they would no longer be resources.

Elder Qin smiled as he held the teapot, not saying anything. The choice was in Lin Yi's hands, and he wouldn't remind him.

Even if elder MA had gone a little overboard, it was still within the boundaries of the rules, and there was nothing to criticize.

Elder Qin knew how many points Lin Yi had anyway, so it didn't matter if he failed. As long as he could see Lin Yi's true potential, a few hundred points would be worth it.

Besides, he didn't need to pay for the points!

Lin Yi didn't hesitate and took out his token, "Of course I'm going! Thank you elder MA for giving this disciple this opportunity, and thank you elder Qin for speaking up for this disciple!"

Chapter 7292 Fire Spirit Sword Technique

"All right, then I'll charge you 100 points first. If you don't want to exchange, I'll charge you another 50 points. If you fail after the exchange, we'll calculate it again!"

Elder MA swiped the hundred points away and made it clear that he was waiting for Lin Yi to make a fool of himself. "It's a good thing you have enough points here. Otherwise, I wouldn't dare to let you in. Wouldn't it be troublesome if you fail and can't pay the fine?"

To be honest, elder Ma's plan for Lin Yi to fail would fail because the skills on the fourth floor were all higher level skills, and the foundation of activation was the body releasing its own elemental aura.

For example, Lin Yi's fire attribute didn't have the ability to release his fire energy, so he couldn't activate any of the skills on the fourth floor!

Elder MA didn't think that this new disciple would be able to reach basic mastery of the body strengthening technique two days after joining the sect, reaching the level of fire-emitting.

Elder Qin naturally knew that Lin Yi had the right to learn the skills on the fourth floor.

However, even though he was qualified, it was still difficult to successfully activate a martial skill in two hours.

But Lin Yi was able to do it in two days, and elder Qin wanted to see if he could create another miracle. That was why he didn't stop elder MA from making things difficult for Lin Yi.

Sometimes, pressure would form a powerful driving force. Perhaps this monstrous kid in front of him could really surprise everyone again?

Lin Yi took back his token, saluted with his fists, and went up the stairs.

The door to the fourth floor had also been opened. There were fewer books and records inside than there were on the third floor, so a large space had been left and divided to be used as a martial arts practice room!

An hour was more than enough time for Lin Yi to go through the fourth floor. There weren't many books on the fourth floor, and he finished going through them very quickly.

In addition to cultivation techniques, sword techniques were the most common among martial arts techniques. After all, seven or eight out of ten martial artists in the sword spring sect liked to use swords.

Before entering the sect, it was not that no one used other weapons, but after entering the sword spring sect, most of them changed to swordsmanship.

After memorizing most of the martial arts, Lin Yi chose a martial arts skill called fire spirit sword technique.

In fact, in terms of sword technique power, the green Devil God's inherited sword technique was stronger than all the martial techniques on the fourth floor of this library added together!

However, in the sword spring sect, although the disciples were not restricted from practicing other martial arts techniques, they must use the sword spring sect's martial arts techniques for both the assessment and the competition!

Hence, Lin Yi had been looking for a skill similar to the green Devil God sword technique.

In this way, when he was cultivating the new sword technique, it was equivalent to cultivating the green Devil God sword technique. It could be considered a good thing that killed two birds with one stone!

The fire spirit sword technique was the closest to the green Devil God sword technique that Lin Yi had found!

Of course, this 'closest' was only in comparison to this library Pavilion. If one really wanted to compare the two, there was no comparison at all ...

"Elder Qin, look at this kid. He's still flipping through the books on the fourth floor. He doesn't have any determination at all!"

Elder MA, who was on the second floor, shook his head in disdain as he watched Lin Yi's actions. "It wasn't easy for him to look back at the fire spirit sword technique, but with the speed at which he flipped through it, do you think he can understand the true meaning of it?"

"Elder MA, don't be impatient and keep watching! You'll take his points regardless of whether you succeed or not. We'll talk about it in the end!"

Elder Qin laughed and didn't seem to mind, ""The difficulty of the fire spirit sword technique is just right. It doesn't include the simplest martial arts technique, but it definitely won't be the most difficult martial arts technique either. Perhaps Sima Yi really has a chance of successfully activating it?"

"Stop joking! It would be strange if a new outer sect disciple could successfully activate it!"

Elder MA shook his head and no longer looked at the surveillance screen. He closed his eyes and laid down more firmly."If you want to see the results, go ahead. I'm not interested in wasting my time with you! I'll sleep for a while and wake him up when he comes out. I still need to collect his points!"

"Alright, rest assured and sleep as much as you want. Who would want to lose points in your hands?"

Elder Qin laughed and continued to pay attention to Lin Yi.

However, elder ma just smiled and really fell asleep very quickly.

Lin Yi had already entered the practice room and was trying to practice his fire spirit sword technique.

Since his initial goal was to use the fire spirit sword technique as the outer shell of the green demonic sword technique, Lin Yi wouldn't just train it step by step. He was going to use the green demonic sword technique's power exertion technique to use the fire spirit sword technique.

If it was in the past, when he was cultivating and deducing martial techniques, with the art of Dragon mastery in hand, everything seemed to be done naturally, and it was extremely easy and pleasant!

But now that he didn't have Qi and was purely a physical practitioner, Lin Yi's progress slowed down!

He wasn't as fast as before, but he was still a genius compared to normal people. He quickly got the hang of it and started practicing.

However, the difference between the green Devil God sword technique and the fire spirit sword technique was too great. Using the green Devil God's method to drive the fire spirit sword technique was like installing the most advanced CPU on the galloping 586. The outdated hardware could not stimulate the performance of this CPU at all.

Lin Yi tried to go back and forth for an hour, but the idea was still just an idea-he didn't make much progress!

Of course, if he was just practicing the fire spirit sword technique, it wouldn't be hard to master.

But Lin Yi's goal was to use the fire spirit sword technique as the shell, and the essence of the green demonic god sword technique was still inside!

As long as he could successfully complete the design, the new fire spirit sword technique might not be as powerful as the green Devil God sword technique, but it was at least ten times stronger than the original fire spirit sword technique!

Elder Qin frowned as he watched Lin Yi swing his sword, hesitating.

To be honest, although the fire spirit sword technique was placed on the fourth floor and was considered a relatively advanced sword martial technique, it was only relative to the second and third floor here.

In the inner disciples "library Pavilion, it was only a relatively ordinary item. If it was the core disciples" exclusive library Pavilion, it would be at the bottom of the list!

With Lin Yi's talent, there was no way he couldn't make the first move!

Elder MA was sleeping on the side. He didn't know that Lin Yi was able to release his anger, so he knew that Lin Yi wouldn't succeed.

Elder Qin, on the other hand, was different-he knew full well how insane Lin Yi's fire element was.

Lin Yi's failure to activate the first form of the fire spirit sword technique, from elder Qin's perspective, was because Lin Yi's understanding seemed to have a slight deviation, and there was a problem with the way he used the fire spirit sword technique!

Should she go over and give him some advice?

Elder Qin touched his chin and looked at elder MA beside him. He couldn't make a decision.

If he really went to teach Lin Yi, it would be breaking the rules and elder MA would be very unhappy!

Chapter 7293 Successfully Activated

Looking at the time ... There was still half an hour left. Should he continue watching?

Perhaps Sima Yi, this brat, had suddenly opened his aperture?

Lin Yi didn't know that elder Qin was worried about him. He was still in the practice room trying to combine the green Devil God sword technique and fire spirit sword technique at his own pace.

After another failure, Lin Yi suddenly put his sword away and sat down cross-legged, closing his eyes and entering deep thought.

The way he thought about how to exert force should be correct after many changes, but he still couldn't successfully activate the fire spirit sword technique. What was the problem?

Attribute?

Lin Yi suddenly understood. The green Devil sword technique was of the plant element, and it was a special variation of the wood element.

The fire spirit sword technique was a fire attribute martial arts technique. Even if he had modified and combined the two, the attributes would not change!

Using the plant attribute to drive, even if there was no problem with the way to exert force, the fire spirit sword technique would not be able to be successfully activated. To solve this problem, he had to first solve the change in attributes!

Fortunately, the plant attribute and the fire attribute had a symbiotic relationship. Using wood to create fire, it should be easier to transform the plant attribute to the fire attribute!

If he wanted to convert the fire attribute to the plant attribute, that would be an impossible task!

After thinking it through, Lin Yi stood up again and used the plant element to activate the force. Before he could activate it, the plant element started burning and turned into the fire element.

Lin Yi's internal organs, bones, and muscles all started to tremble. A pure fire Qi flowed through his meridians and into the demonic devour sword from the palm of his hand. The black demonic devour sword lit up, and the color was no longer pure black, but a dark red!

A burning aura exploded, filling the entire room. Lin Yi focused, his demonic devouring sword smoothly and clearly drawing a few arcs!

Elder Qin's eyes widened, and his emotions became extremely complicated. He had succeeded!

He had actually succeeded!

If he didn't see Lin Yi try it step by step from the beginning, he wouldn't even be able to tell that this wasn't the fire spirit sword technique he used before!

It was because he knew from the start that Lin Yi's method of exerting force was wrong that elder Qin was so shocked. He didn't follow the original method of the martial arts technique, but he was able to successfully activate it?

The most important thing was that elder Qin realized that Lin Yi's fire spirit sword technique's first form was several times stronger than the original!

A genius? Bah! To hell with this genius, I told you this kid is a monster! An abnormal monster!

The fire spirit sword technique was still the fire spirit sword technique, and outsiders couldn't see any changes!

Only elder Qin knew that Lin Yi's fire spirit sword technique was no longer the original fire spirit sword technique. In terms of level, there was nothing wrong with putting it in the high level martial arts techniques in the inner disciple's library!

Elder Qin's only question was how did Lin Yi succeed?

The way the body exerted force was not explained by the person himself. Even with his eyes, he could not get a glimpse of it!

Lin Yi's heart was filled with joy, the joy of solving a difficult problem was indescribable!

Lin Yi took advantage of the remaining energy from the first stance to continue with the second stance. Unfortunately, the demonic devouring sword had returned to its black state, and there was no longer a trace of fire on it.

He had failed!

Elder Qin recovered from the shock and shook his head with a smile. He thought to himself, "although the difficulty of the fire spirit sword technique is not high, it's impossible for a little monster like you to execute all the moves at once."

It was already amazing that he could use a strange method to activate the first move today. After a few days of consolidation and careful study, he would be able to successfully activate the second move!

He did not know if Sima Yi had any intention of telling him about the new way of exerting force. The sword spring sect still encouraged the improvement of martial arts techniques, as it would earn him a lot of points as a reward.

Unfortunately, elder Qin didn't know that Lin Yi's method of exerting force was based on the plant element and the green Devil sword technique as the foundation of his bone armor. No one could imitate it!

Even if Lin Yi was willing to teach, no one would be able to learn it, not to mention that it had to be kept a secret.

Lin Yi didn't care about his first failure at all. He pulled his sword back and attacked at the same time, activating the first style of the fire spirit sword technique.

The bones, bones, and muscles in his entire body trembled at an extent that was undetectable by the naked eye. The surging fire Qi poured into the demon devouring sword, and the dark red scorching sword Qi appeared once again!

Before the first style was finished, the second style was successfully activated, and the burning sword Qi's power increased a bit. Lin Yi's face was as calm as an ancient well as he continued to activate the third style!

Failed!

The demonic devouring sword made a turn in the air and quickly activated the first and second moves, followed by the success of the third move, misty cloud!

Elder Qin's jaw dropped from the second floor, his mouth wide open as he stared at Lin Yi on the screen!

How was that possible? Even if he was a monster, this was too F * cking heaven-defying!

He had failed so many times in activating the first move, but he only had to fail once in the second and third moves? And he succeeded right after he failed! Was there still justice in this world?

Lin Yi was getting more and more excited. It was like he was back at the time when he first learned the wild fire Fist. The fire spirit sword technique's third move wasn't the end, so he waved the sword again!

The fourth move, failed!

One, two, three ... The fourth move was a success!

The fifth move, failed!

One, two, three, four ... The fifth move, success!

In a short two minutes, Lin Yi repeatedly used the fire spirit sword technique. The first five moves were almost done in one go, and only now did he feel the existence of the limit!

If he wanted to continue to use the sixth move of fire spirit sword technique, it was not something his body could bear. He could only continue to practice it after he leveled up.

Lin Yi was quite satisfied with this result!

If the power of the first form of fire spirit sword technique was counted as one, then the original one was only 0.2 at most!

From the second move onwards, the power of the new fire spirit sword technique would increase by 10%. Therefore, the power of the second move was 1.1, the third move was 1.21, and so on!

The further he advanced, the more terrifying the power would be!

Elder Qin, who was peeking from the outside, was still in a dumbfounded state. He could no longer close his mouth!

He realized that he had still underestimated Sima Yi's monstrous talent!

Initially, after seeing the first move, elder Qin thought that Sima Yi was just improving the fire spirit sword technique. It was only after the first five moves were executed in one go that he finally understood. How the F * ck was this improving the sword technique?

He had clearly created a new martial art technique!

Yes, in the eyes of people who didn't see Lin Yi's research process, the strengthened fire spirit sword technique was still the same fire spirit sword technique-there was no difference. At most, it was just a strengthened version.

Chapter 7294 Creating A Martial Technique

Only elder Qin knew that the fire spirit sword technique was only the surface. The inner way of exerting force was the true core essence!

It would not be a problem to change it to other water spirit sword techniques, Wind Spirit sword techniques, and so on!

Sima Yi ... This little guy had created a new technique and then used the fire spirit sword technique to cover it up!

After understanding this point, elder Qin felt like thunder was rumbling in his head. He was so confused that he couldn't tell if this was a dream or reality.

Creating a martial technique, this kind of thing, was it something that just anyone could do?

It didn't exist!

All the existing martial arts techniques were created by ancient powerhouses, the legendary Venerables, and no one below the venerable realm had the ability to create martial arts techniques!

There was no venerable in Hongshang Commandery, and martial arts techniques were lost in the long river of history. If there was a person who could repair the incomplete martial arts techniques and improve the existing martial arts techniques, it was enough to become a world-shocking genius ...

Creating a martial technique? Elder Qin had never dreamed of this!

However, the truth was right in front of his eyes, and he had no choice but to believe it!

The sword spring sect ... Had really picked up a treasure!

No, no one else must know about this!

Elder Qin came back to his senses and made a decision immediately. If the news of Lin Yi creating a new skill got out, it wouldn't be a good thing for the kid!

No matter if they were geniuses or monsters, the majority of them would die before they grew up!

Elder Qin was an honest elder, and for the sake of Lin Yi's safety, he decided to forget everything he saw. Even the sect wouldn't say a word!

Lin Yi had already put away his sword and was ready to leave. Elder Qin sneaked a glance at elder MA and let out a breath of relief when he saw that he was still sleeping.

Good, good! Only he knew about this, so he had to keep it to himself ...

When Lin Yi came down, elder Qin went up to him first and whispered in his ear, ""Just say that you've successfully activated the first move. Don't say anything else!"

Lin Yi blinked, finally realizing that elder Qin was watching him.

Elder Qin gave Lin Yi a look, indicating that elder MA didn't know about it. He then laughed, "Not bad, little guy. You've successfully activated the first move of fire spirit sword technique before the time limit. I was right about you!"

Elder MA had already sensed it when Lin Yi came down the stairs, and he sat up straight when he heard elder Qin's words, his face full of surprise.

"What? What did you say, elder Qin? This kid has successfully activated the first move of the fire spirit sword technique?"

Is this fake? Was she in a daze from her sleep? Are you still dreaming?

Elder MA couldn't quite accept it-from what he remembered, this new Lin Yi couldn't even release his fire-how did he learn fire spirit sword?

This was impossible!

"Elder MA, I'm glad I didn't fail you and successfully activated the first move of the fire spirit sword technique!"

Lin Yi nodded at elder Qin subtly before walking to elder MA with a fist salute."Now, this disciple is here to pay the points for choosing a martial technique."

"You really succeeded?"

Elder MA looked at Lin Yi, still wondering if he'd just woken up ...

Why the F * ck did he have to sleep? Didn't you sleep last night? What had happened?

"It's indeed a success. Does elder MA need to verify it?"

Lin Yi shrugged nonchalantly as he handed over his token."If you don't need it, please transfer your points, elder MA!"

"Elder MA, this little fellow has indeed succeeded. Didn't I tell you before? He stayed in the high grade cultivation room for twenty-four hours and went to my place the first day he entered the sect. Today, he came to your place not long after he came out. "

Elder Qin wasn't sure-he didn't want Lin Yi to demonstrate his fire spirit sword technique in front of elder MA.

It was better to wait for the kid to master it before showing it to others, and so before elder MA asked for verification, elder Qin stepped out to prove it for Lin Yi."It's rare to see such a diligent kid, and the most valuable thing is that his talent is amazing too. He completed the entry level of body tempering in two days and reached the stage of fire-releasing. It's just the first form of fire spirit sword technique, what's so strange about it?"

"What did you just say? You've achieved the external release of fire Qi in two days?"

Elder MA looked back and forth between elder Qin and Lin Yi, unconsciously thinking that the two were working together to trick him ...

However, old man Qin's character was not bad. It shouldn't be that bad, right?

Lin Yi's mouth twitched. Elder MA didn't believe him. After all, seeing was believing. He didn't waste any time and punched the air.

The fire in the air brightened for a moment before it disappeared-Lin Yi had achieved his goal.

Fire Qi release!

Elder MA had no more doubts-if Lin Yi could release his fire, then it was normal for him to succeed in the first move!

I didn't expect this kid to be a genius!

"This Lord miscalculated! I didn't expect you to have already mastered the release of fire Qi. In that case, it's normal to use the first move of fire spirit sword technique in two hours. There's no need to test it again!"

Elder MA waved his hand and took Lin Yi's token, taking away a hundred points."Of course, I don't believe you. I believe in elder Qin. Don't be too proud. In the future, you have to guard against arrogance and rashness and cultivate well!"

"Many thanks for elder Ma's advice, this disciple will remember it!"

Lin Yi took back the token and saluted with his fists,"Thank you, elder Qin!"

Lin Yi didn't have a good impression of elder MA at first-the old man was always mocking him, but the last few warnings were sincere.

"Alright, you can go now. Come again if you need anything next time!"

Elder MA waved his hand, sending Lin Yi away. "I know you still have a lot of points, enough to exchange for some more cultivation methods and martial techniques. But remember, don't bite off more than you can chew. The right way is to cultivate the cultivation methods and martial techniques in your hands to the extreme!"

"Yes, this disciple understands. Goodbye, elders!"

Lin Yi nodded with a smile and left.

In this library Pavilion, there weren't many cultivation methods and martial skills that could improve his strength. As for the rest of the books that required time to memorize, it was better to wait until he had time.

Elder Qin said his goodbyes as Lin Yi walked down the stairs. He called out to Lin Yi when he was about to leave the library.

"Sima Yi, do you have time to come over to my place?"

Elder Qin seemed to be asking Lin Yi a question, but his tone didn't leave Lin Yi any room for choice. "This old man would like to have a few words with you!"

"Since elder Qin has invited me, of course I have the time."

Lin Yi was a little surprised, but he had a good impression of the old man. "If elder Qin has any instructions, it's the same to say it here."

Chapter 7295 A Hundred-Year Genius

"Since you have the time, it doesn't matter if you come with this old man, right?"

Elder Qin laughed and patted Lin Yi's shoulder, signaling for him to follow.

Lin Yi couldn't say anything more and followed elder Qin to the peak where the training room was.

When he arrived, he didn't go to the room at the entrance of the cultivation room. Instead, he went up the mountain directly from the side of the mountain path. After a while, he arrived at the peak. There was a wall that surrounded the house that occupied a large area inside.

"This is this old master's residence, usually there aren't many people who come here as guests, if you have time in the future, you might as well come and visit often."

Elder Qin brought Lin Yi in and smiled, ""This is not a perfunctory courtesy, but a sincere invitation!"

"Thank you, elder Qin. I will definitely pay you a visit when I have time."

Lin Yi quickly thanked him, not understanding why elder Qin was so polite to him.

As for visiting often, Lin Yi treated it as a courtesy.

Even if he had the time to come, elder Qin might not have the time to see him, so it was better to cultivate more.

"Then it's settled!"

Elder Qin's face lit up with joy as he led Lin Yi into an empty room, "Actually, I invited you over today to personally test your fire attribute talent. From the potential you've shown, it's not a big deal to say that you're the most talented fire attribute expert since the establishment of our sword spring sect. The test at the entrance is too simple, my test is more accurate. "

"... Elder Qin, you're too kind. I'm not that outstanding ..."

Lin Yi didn't expect to be dragged here for a test at all, but it wasn't weird. After all, elder Qin had seen his performance in the library, and it was normal for him to want to test him.

He just didn't know if elder Qin had any other doubts.

Otherwise, no matter how talented Lin Yi was, it didn't seem to have much to do with the elder guarding the training room, right?

With that thought in mind, Lin Yi decided that he couldn't let the cat out of the bag-other than the fire element, he couldn't reveal any of his other elements.

As for cultivating body tempering techniques of other attributes in the future ... He would have to think of another way!

"Sima Yi, you don't have to be so humble. If I'm sure you have outstanding talent, I can't just watch you be buried. Even if you can't enter the inner sect for the time being, I'll definitely give you some cultivation convenience!"

"After this matter, I'll also suggest to the sect that the rules of the entrance examination must be changed!" Elder Qin said with a serious expression. I can't let such a shameful thing happen again!"

Lin Yi smiled bitterly to himself. He wanted to keep a low profile, but he didn't want to show his face too quickly. He didn't expect to attract elder Qin's attention in just two days ...

If they really alerted the higher-ups of the sword spring sect, it was really hard to say what the consequences would be, whether it would be a blessing or a curse.

"Come, come over here!"

Elder Qin didn't know what Lin Yi was thinking and called him to the room. There was a three-meter tall hexagonal crystal. "Put your hand on the crystal and try to release your fire! If you have other hidden attributes, you can be detected by the fire Qi you release!"

This was elder Qin's true goal. He still didn't give up-he wanted to see if Lin Yi had a hidden wood element other than fire.

Unfortunately, Lin Yi heard it wrong-he thought that the plant element he used to create the skill was suspected, so he didn't dare expose it.

Otherwise, it didn't matter if he revealed his previously hidden wood attribute to cater to elder Qin!

But now, of course, there was nothing except for the fire gender!

Lin Yi stepped forward and placed his palm on the crystal, starting to move his muscles and bones, releasing his fire.

In the blink of an eye, the hexagonal crystal was covered in a crimson red, and the entire empty room seemed to be ignited, filling with a faint Crimson Fire attribute aura.

Even Lin Yi himself was surprised at the scene-he'd only released a bit of fire, did he have to make it so shocking?

Elder Qin's mouth opened slightly, a little disappointed and a little shocked. He quickly glanced at the data below the crystal and waved his hand at Lin Yi, ""It's done!"

Lin Yi didn't look at the data on the crystal. It was all his disguise anyway, so it was meaningless. He stopped and backed off after hearing elder Qin's words, and the strange scene in the room disappeared.

"As I expected, Sima Yi, you're indeed a rare fire attribute genius that only appears once in a hundred years!"

Elder Qin praised Lin Yi, but he couldn't hide the disappointment on his face, "It's a pity ... You're really only a single attribute martial artist. If you had an auxiliary attribute, it would be perfect!"

Of course, the auxiliary attribute had to be the wood attribute!

"Elder Qin, isn't a single attribute good? Your future achievements will be restricted?"

"Is it because I have a higher chance of losing if I fight with a multi-elemental practitioner?" Lin Yi pretended to be confused.

"That's not it. Multi-attributed cultivators are indeed stronger among cultivators of the same level, but that's only in terms of talent! But you're different, even though you only have a single attribute, your aptitude is extremely good, not at all inferior to a multi-attribute martial artist. "

Elder Qin shook his head and thought to himself, "your aptitude isn't excellent. It's completely heaven-defying!"

The potential value was off the charts, so it was no wonder that he had such an abnormal performance. "In the future, if you specialize in fire attribute body tempering, I'm afraid that even multi-attribute martial artists of the same level will not be your opponent!"

I'm afraid you'll get too proud if I praise you too much, so it's better to keep some ... Elder Qin paused for a moment and changed the topic. "Actually, there's no problem at all for you to become an inner sect disciple, but it's a pity that it won't be that easy to become an inner sect disciple after the new allocation, so you'll have to wait for a few more days. But don't worry, I'll definitely help you find a way."

"Thank you, elder Qin. Actually, I'm not in a hurry to become an inner sect disciple. I'm just cultivating wherever I go. It doesn't matter if I'm an inner sect disciple or an outer sect disciple!"

Lin Yi really didn't care-if he wanted to enter the inner sect, he could just show one more attribute at the start, why wait?

"Forget it. It's good that you have a peaceful mind. You can go back today. If you want to enter the cultivation room in the future, come to me at any time!"

Elder Qin sighed, his face still full of pity. He didn't know if it was because Lin Yi only had a single attribute or because Lin Yi's talent was limited to the outer sect, "Remember, if you come to the cultivation room, you must look for me. Within my scope of authority, I will give you the best cultivation room!"

"Many thanks, elder Qin. This disciple will take my leave first!"

Lin Yi thanked elder Qin with a fist salute and turned to leave the room.

Chapter 7296 Zhang Xiaopang Was Humiliated

Lin Yi was truly grateful for elder Qin's kindness-at least he'd have a better environment for body-refining in the future. It'd be a great help to his strength.

Elder Qin watched as Lin Yi left before turning back to look at the crystal pillar. He couldn't help but sigh,""It's such a pity! Such a talented and beautiful jade, but only has a fire attribute physique ... If only Shixiong was here, we could make a wood attribute for him. Even if it's only void wood attribute, it would be enough to use with the top fire attribute ... It's a pity that Shixiong has already left and disappeared without a trace ... It's really heaven's will making fun of people ..."

Lin Yi didn't hear elder Qin's exclamation and left the peak where the training room was. He returned to long beard Peak, feeling hungry. It was mealtime, so he decided to go to the canteen for something.

Lin Yi saw a group of people gathered in a corner as soon as he entered the canteen, yelling and yelling excitedly.

"Eat it!"

"Eat it!"

.....

Lin Yi frowned. He didn't care what happened here, but the noise was affecting his appetite!

He scanned it with his spirit sense, and his face darkened, anger rising in his heart!

He didn't want to get involved in the dispute here, but now it was impossible not to get involved!

Because the person in the middle of the crowd was none other than the chubby kid Zhang Yiming!

At this time, Zhang Yiming was kneeling on the ground, his hair was pulled and pressed to the ground. There was some food in his mouth, and the person who was holding him was forcing him to eat the food on the ground.

"Fatty Zhang, listen to the cheers of your fellow disciples. Everyone wants you to eat the food. Do you want to disappoint everyone?"

A skinny young man with triangular eyes was pressing down on Zhang Yiming. He looked down at Zhang Yiming as if he was a cat playing with a mouse. "Oh, I know. You're thinking that these things are tasteless, right? Don't worry, I'll add some seasoning for you. I guarantee you'll enjoy it!"

After he finished speaking, he cleared his throat and spat a mouthful of thick phlegm into the food. The people around him were disgusted, but he picked up a wooden spoon that had fallen on the ground and stirred the food as if nothing had happened.

"You see, senior brother is personally cooking for you. If you don't finish these, aren't you not giving senior brother face? I've lost face, so I'll be in a bad mood. Can you bear to see me in a bad mood?"

The skinny young man grabbed Zhang Yiming's hair and pulled his head closer. ""Be good, hurry up and finish eating. After you finish eating, senior brother will give you some soup."

"Senior brother Wang, please forgive me this time. In the future, I'll do whatever you say, okay?"

Zhang Yiming tried his best to resist the pressure on his head. He would rather beg for mercy than approach the food on the ground. "When the resources from my family arrive, I will immediately send them to senior brother Wang, okay?"

"Hehe, fatty Zhang, you make it sound like I'm blackmailing you. People will misunderstand if you tell them! In fact, I'm just treating you to a meal. Do you have to be like this?"

Wang Shixiong lifted his wrist and pressed it down, and Zhang Yiming's forehead heavily hit the ground, ""Are you trying to ruin your senior brother's reputation? Do you really think this is a good idea?"

Zhang Yiming's forehead was in pain. Fortunately, he was a martial artist who trained his body, so he was not so easily injured. It was only a little red and swollen.

"The one surnamed Wang! Don't go too far, even a man made of mud has some dirt in him. If you force me, I'll fight you to the death!"

Zhang Yiming's eyes were red. He had always begged for mercy when he was bullied, but when he was forced to the extreme, he would always have a tendency to explode.

"Yo! I'm treating you to a meal, yet you still want to fight with your senior brother. You've grown some ability! Alright, try risking your life!"

Senior brother Wang sneered and pulled Zhang Yiming's head up by his hair. His other hand was about to slap him, but the other hand caught his wrist.

"Enough! This is the canteen, there should be a limit to bullying!"

Lin Yi's cold voice sounded from above Wang Shixiong's head. He exerted force on his wrist and threw Wang Shixiong's arm away.

Senior brother Wang only felt a strong force hit him, and his half-squatting body involuntarily fell down with his arm. He staggered a few steps and finally stood firm. He immediately became a little angry from embarrassment.

"Who the F * ck is blind, daring to meddle in my business?"

She raised her eyes and saw that it was Lin Yi in a white robe. She frowned, "Tsk, I was wondering who it was, so it's the new disciple, Sima Yi! Why? How dare you meddle in our business?"

The old outer disciples didn't think much of Lin Yi as their third senior-Lin Yi's power was only limited to the new disciples, and he didn't concern them at all.

"Are you alright?"

Lin Yi didn't even bother with him. He pulled Zhang Yiming up and patted the dust off his body, "What's going on?"

"Senior brother Sima!"

Zhang Yiming's tears were about to fall-Lin Yi was like his Savior, and he could even call him a senior without any difficulty, "They just like to bully me ... Ever since that day, they've become worse!"

Lin Yi understood immediately-she was obviously referring to the last time they had dinner together!

It seemed that because of this, Zhang Yiming had become even more of a thorn in the eyes of the senior disciples. They would find an opportunity to bully him, and if they couldn't find an opportunity, they would create an opportunity to bully him.

This meant that Zhang Yiming's bad luck had something to do with Lin Yi, and it was only right for him to help.

"Sima Yi, Who Do You Think You Are? You dare to ignore senior brother's words?"

Wang-Shixiong saw that Lin Yi didn't even care about him, and he felt even more embarrassed. He reached out to grab Lin Yi's shoulder, "Today, let your senior brother teach you how to respect ..."

Before he could finish his sentence, Lin Yi grabbed his wrist and twisted it in the opposite direction. Wang Shixiong screamed as his body was bent backward.

"Who the hell are you? Don't you know that I'm the third senior brother in charge? Do you still have any respect for your seniors?"

Lin Yi looked at him indifferently and kicked him in the knee, forcing him to kneel. "Even if you don't know that I'm the steward's third senior brother, can't you tell my face? Are you blind or color-blind? Since when did black-robed disciples dare to attack white-robed disciples?"

The surrounding people were speechless-Lin Yi's reasoning was strong and flawless!

The hierarchy of the sword spring sect was extremely strict. The color of the clothes represented the absolute difference in status!

Although Lin Yi's white robes were quite different from the White robes of the inner disciples, a white robe was still a white robe. If a normal black-robed disciple dared to reach out to a white-robed disciple, breaking his hand would be considered a light punishment!

Chapter 7297 Eat It All Up

"It seems like you're very confident in your food. In that case, eat all of this!"

Lin Yi wasn't planning on breaking his hand, nor was he going to kill him, but he knew that he'd have to be punished, "Since you like to press down on people's heads so much, I'll suffer some losses, so I'll satisfy you."

Before he finished, Lin Yi twisted Wang Shixiong's arm behind his back and grabbed his hair with his other hand, pushing his head to the ground.

This scene was exactly the same as before, except that senior Wang's character had completely changed!

"Sima Yi! Don't go overboard! I'm in charge of second senior brother's people, if you do this ... Wuwuwu ..."

Before he could finish, Lin Yi pressed his head into the food on the ground!

Lin Yi didn't want to waste time with him-he had to finish the food first!

Senior brother Wang's mouth and nose were sealed by the food, so he could only instinctively open his mouth and swallow the food. Otherwise, he would suffocate to death in the food. However, when he thought about the things he had vomited in there, he suddenly felt nauseated and nauseated ...

He wanted to vomit, but he was forced to swallow ... He wanted to die-of course, he'd better kill Lin Yi before he died!

Lin Yi pressed down on Wang Shixiong coldly as he looked around at the crowd. No one dared to say anything, including Wang Shixiong's friends.

Wang Shixiong forced Zhang Yiming to eat the food on the ground, this was a reference to Lin Yi's previous method. Of course, they knew what the consequences would be if they stood up for him. Qianqian would eat with Wang Shixiong!

F * ck! Originally, it was fine to eat the food that had fallen to the ground, but it was better to let senior brother Wang enjoy the food alone since it had been stepped on several times and had been specially seasoned by senior brother Wang ...

I'd rather die than my fellow Daoist!

Of course, if they didn't do anything, it wouldn't be right. So, Wang Shixiong's friends took advantage of the opportunity when the audience didn't dare to continue watching and gradually dispersed. They quickly slipped out of the cafeteria and went to get help!

When he returned, he would have a reason to talk nicely to senior brother Wang. It's not that I don't want to help you, but if you want to deal with Sima Yi, you can only ask the white-robed manager, second senior brother, to step in. This is to save you!

After a short while, the steward second senior brother rushed in with a few people in an aggressive manner!

The onlookers didn't dare to come over, but they wouldn't leave just like that either. They all spread far away and watched the development of the situation.

"Sima Yi, what do you mean? You even dare to touch my people!"

The second Shixiong didn't make a move immediately, but looked at Lin Yi with a cold face, ""Release the person first!"

"So it's second senior brother! This person doesn't care about seniority and casually attacked me, the third senior brother in charge. In order to maintain the dignity of us senior brothers in charge, I'll punish him a little and let him eat the food I made. This isn't too much, right?"

Lin Yi smiled as he pulled the guy up-the food on the floor was pretty much all gone already, so he pushed it out without hesitation."Second senior brother has come personally to ask for her. Of course, he'll give you face. Take her back and discipline her!"

"Sima Yi!"

The second Shixiong's face was as dark as water, his eyes like a hungry wolf staring at Lin Yi. "Do you think we can just let this matter go?"

"Of course we can't just let it go like this!"

Lin Yi put on a serious face and shook his head. "I was just punishing him for being disrespectful to me just now. I haven't settled the score yet! 'He attacked my brother before. Second senior brother, what do you think we should do?' Shouldn't he be the one to come and apologize?"

Zhang Yiming jumped, not expecting Lin Yi to say something like that. He was touched, but he didn't dare to accept an apology from Wang Shixiong!

Especially in front of the steward's second senior brother, wasn't this just looking for death?

But Lin Yi was standing up for him, and no matter how nervous he was, he wouldn't drag Lin Yi down. He suppressed his panic and stood beside Lin Yi without saying a word.

"Hahaha, good! Sima Yi, you've got guts!"

The second Shixiong laughed out of anger as he narrowed his eyes at Lin Yi, "Aren't you afraid that you'll get into trouble that you can't afford to provoke?"

"Ha ... Let me tell you a secret. I actually have a nickname, trouble! That's why most people wouldn't provoke me, because provoking me is equivalent to provoking trouble! Second senior brother, do you think I'm afraid?"

Lin Yi smiled and shrugged, "Alright, let's cut to the chase. Let's get back to the main topic. Let's get senior brother Wang to come and apologize!"

The poor senior brother Wang was currently nauseated, throwing up on the side. An unpleasant sour smell filled the air, and the people in the cafeteria were pointing and whispering, many of them even directly covering their mouths and noses.

The steward's second senior brother's face was livid. In his heart, he was also complaining that his subordinate was too disappointing!

In a situation like this, there was no point in fighting Lin Yi-it'd only weaken their momentum, and there was no way they'd surrender.

"Sima Yi, the sect has its rules. Count yourself lucky, but today's matter won't be over just like that. It won't be long before the outer sect management senior brother's selection. I'll see you on the arena then!"

The steward second senior brother sneered a few times. He knew that he had lost his face today, so he could only say a few polite words first and then regain his face later, ""If you don't want to die, just give up. As long as you dare to go on stage, I'll kill you, you little brat!"

"Ha ... Second senior brother's ability to tell jokes is quite strong! It's a pity that it's still uncertain who will die in the end!"

"Usually, people who say they're going to kill me all die. I hope you won't be the next one, second senior!" Lin Yi smiled.

The steward second senior brother snorted coldly. He didn't want to argue anymore and turned around to leave with his men!

The audience was greatly disappointed. They had wanted to see a fierce battle, but how did it end?

We've already bought the melon seeds, and this is all you're showing us?

"Senior brother Sima, thank you for standing up for me today ... But I've also caused you trouble!"

After the steward's second senior brother left, Zhang Yiming said with a worried face, ""The steward's second senior brother's strength is outstanding. Senior brother Sima, you've offended him because of me. I'm afraid ..."

They didn't think that Lin Yi was a match for the manager's second brother!

Lin Yi shrugged and consoled with a smile, "Don't worry. This second senior brother's strength is outstanding. My third senior brother, who is in charge, is not to be trifled with!"

He paused and patted Zhang Yiming's shoulder. "Don't worry, I'm really not afraid of him! You'd better tell me about the senior brother administrator's tussle competition!"

"Senior brother Sima, you don't know?"

Zhang Yiming blinked and realized that Lin Yi might really not know.

Chapter 7298 Entrusted To Deliver Books

Because of Lin Yi's strong performance, Zhang Yiming subconsciously treated him as a senior. He thought that Lin Yi would know about such a small matter, and the conversation with the manager's second senior had given him the same impression.

But now that he thought about it, Lin Yi had only joined the sect three days ago-what was so strange about not knowing about the tournament? It was very normal!

"It's like this. The management of the senior brother selection is to select the eldest and second senior brothers. Now, the position of third senior brother will be added, right?"

Zhang Yiming pondered for a while and organized his words. ""Mm ... Let's put it this way. Senior brother Sima, your current status was obtained through an appointment. However, in reality, senior brother stewards have to go through a selection round to be selected. There should be many people who will challenge senior brother Sima this year ..."

One should pick the soft persimmons to pinch, and in Zhang Yiming's eyes, Lin Yi was obviously the softest persimmon among the managers!

"After the challenge, the strongest two or three will remain. After the battle, the seats of eldest brother, second brother, and third brother will be determined. That's why the steward and second brother said those words just now!"

Zhang Yiming looked at Lin Yi carefully and swallowed, "Senior brother Sima, if you feel that you're not confident, you can just give up when the time comes. No one will say anything!"

Lin Yi's lips curled up-no one would say anything!

As long as he did not dare to accept the challenge, the entire sword spring sect would immediately spread rumors that Sima Yi was a coward who was afraid of death, and that he did not even dare to fight for the position of steward senior brother.

Even before the competition started, there would be rumors that would force Lin Yi to fight to the death with second brother!

At that time, not only would second senior brother's people spread it, but eldest senior brother's people would also add fuel to the fire!

Two competitors fighting to the death was definitely a good thing for eldest senior brother in charge, he could reap the benefits without any effort!

"Alright, I got it!"

"You don't have to worry about that," Lin Yi nodded with a smile, "be careful from now on, don't let them find another chance." You must also work hard in your cultivation. As long as you are strong, those clowns won't be able to bully you!"

"Senior brother Sima, don't worry. I will definitely work hard in my cultivation!"

Zhang Yiming cupped his fists and bowed gratefully. After today, he was determined to work hard in his cultivation. He would never allow himself to be bullied again!

"If you have any problems with cultivation, you can find me to discuss it with you. I have some attainments in theoretical knowledge."

Lin Yi thought about it and decided to help Zhang Yiming a little more. If he was willing to come to him for advice, he wouldn't leave disappointed. Of course, if he didn't want to come, Lin Yi wouldn't go to his house to teach.

With the books and records from the library, it was more than enough to guide Zhang Yiming, not to mention that Lin Yi was a monster-level genius who was demoted from a Super Master. No matter what, as long as Zhang Yiming was willing to come, he would definitely return with a full load!

"Then I really have to thank senior brother Sima. In the future, I'll definitely come and invite senior brother frequently. I hope senior brother won't be stingy with your teachings!"

Zhang Yiming's face was full of excitement. He didn't realize that he was an old disciple and Lin Yi was just a new one. He really thought that Lin Yi could give him some pointers.

After a few more words, Zhang Yiming and Lin Yi found another table to sit down and had something to eat before leaving.

While they were eating, the conflict between Lin Yi and the manager's second martial brother had already spread throughout the entire long whisker peak. Some people even said that Lin Yi and the manager's second martial brother had made plans to have a Deathmatch in the selection contest ...

Lin Yi didn't know that the news had spread by the time he returned to the North Peak-he wouldn't have cared even if he did, since he'd expected it anyway.

Lin Yi was surprised to see a white-robed disciple at the door.

Inner sect disciple?

"Senior brother, may I ask if you are looking for me?"

Lin Yi cupped his hands and greeted him politely. He noticed the dark gold lace around the disciple's collar and sleeves, and it looked familiar.

"You're Sima Yi, right?"

The white-robed disciple looked Lin Yi up and down and smiled faintly. He cupped his hands and said politely, "If you're Sima Yi, then I'm here to look for you."

"I am Sima Yi. What can I do for you, senior brother?"

Lin Yi didn't understand why an inner sect disciple was here.

Could it be that Wu yucao or black wildflower had asked him to come?

"I don't dare to advise you. I'm only here on master's orders to give Junior Brother Sima a book. Master told me that if Junior Brother has time, you can read it and try to figure it out. You should have some gains!"

The white-robed disciple said as he took out a sheepskin book and handed it to Lin Yi with both hands.

Lin Yi received it with both hands as well, but he didn't have time to look at it. "May I know which senior is your master?"

There were only two seniors in the sect-elder Qin and elder MA.

Elder Qin had just left, so he wouldn't have sent someone to deliver the books, right?

Elder MA, on the other hand, was an elder of the library-it was reasonable for him to give Lin Yi a book, but why would he do that? The relationship between the two of them was not that good.

Furthermore, from the dark gold edges on the white-robed disciple's clothes, it seemed to be more related to elder Qin.

"Master didn't say to tell you, so ... It's better to wait for an opportunity in the future. He'll tell you in person."

The white-robed disciple smiled and shook his head. He then cupped his fists and said, ""Mission accomplished. Farewell!"

"Take care, senior brother, we'll meet again!"

Lin Yi cupped his fists as well, knowing that he wouldn't get anything out of him.

After they left, Lin Yi went back to his room and opened the book. He was surprised!

This was actually a fire attribute cultivation technique for alchemists. It was of a higher grade than the one in the library Pavilion. Even on the fourth floor, there was no cultivation technique of this grade.

Lin Yi was quite disappointed with the advanced skills in the library, but he didn't expect someone to give him a skill like this, especially when it was for alchemists-it was the one he needed the most.

He flipped through it quickly, and after understanding it, he tried to practice it. The results were at least ten times better than the beginner level.

Even in his residence on the North Peak, he could feel his progress when he cultivated. If he were in the advanced cultivation room, he would probably be able to break through to the Golden core stage very quickly.

Lin Yi was planning on going through all the different body strengthening techniques, but now that he had this fire element technique, he hesitated. Should he break through immediately?

The steward's second senior brother was indeed very strong, having reached the peak of the Golden core stage. Lin Yi didn't think he could fight him without using his spirit sense.

However, if he broke through to the Golden core stage, then when they fought, there was a high chance of him winning!

Chapter 7299 Advanced Cultivation Room

Should he practice cultivation techniques to break through to the Golden core stage, or should he continue to fight steadily and not make a breakthrough for the time being, just practice martial arts techniques, and use techniques to make up for the gap in level?

Although he had only mastered the first five moves of the new fire spirit sword technique with the green Devil God sword technique as its core, if he could completely master it and practice it to the point of perfection, the power that he could exert was definitely not to be underestimated!

Lin Yi sat in his practicing room, rubbing his chin as he compared the two options.

After a while, Lin Yi suddenly smacked his forehead. He felt like he was possessed!

This alchemist's fire attribute cultivation method was something that someone had given to him to cultivate. If he received such a high grade cultivation method and did not cultivate it, wouldn't it arouse even more suspicion?

After the release of fire energy, the beginner level body tempering technique was no longer of much use to cultivation. No matter who sent this technique, it could be considered as sending charcoal in the snow!

No matter what, it was weird that Lin Yi didn't start training immediately after getting the manual.

Lin Yi knew that he had no other choice now-any normal practitioner in his situation would've started training immediately after getting their hands on this fire-type skill.

And because the residence on the North Peak was not suitable for cultivation, he had to go to the cultivation room!

If Lin Yi used up all his points, he'd have an excuse not to go, but he'd spent so much on the practice room and library, and he'd only used half of his points-he had more than enough to use the room!

It turned out that having too many points was not a good thing sometimes ...

Lin Yi smiled bitterly to himself. He rested for a while and packed up before leaving his house again, heading to the peak where the training room was.

"Elder Qin, I'm here to trouble you again!"

Lin Yi walked to the entrance of the training room and saw elder Qin sitting there with a smile. He immediately went up and greeted, "I thought that elder Qin would be resting now, I didn't expect ..."

The sky was already dark, and elder Qin was still waiting at the entrance of the room. It was a little strange, and Lin Yi couldn't help but suspect that the fire-element skill book was sent by elder Qin, and was waiting for him here?

But he didn't want to ask too many questions, so he kept them to himself.

"Sima Yi, you're really hardworking. It hasn't even been a day since you left the cultivation room, and you're back here to cultivate?"

Elder Qin nodded with a smile, his face revealing a look of admiration and satisfaction. "This old man likes a diligent young man like you the most. How about it? How about I bring you to a higher level cultivation room this time? As for the points, it's not bad. Thirty points can be used for twenty hours!"

Compared to the advanced cultivation room, his points had doubled, but the usage time had only increased by a quarter. From this, it could be seen how big the difference in quality was.

Lin Yi was quite moved, but after some consideration, he decided to put aside the worry of cultivating too quickly and nodded. "I'll have to trouble elder Qin then! Of course, if there is any inconvenience, disciple can continue to use the advanced training room. "

"Hahaha, what trouble can there be? I'm in charge of everything on this cultivation peak. When your strength is purer, it's not impossible to open you a higher level cultivation room. "

Lin Yi's mouth twitched. Just how many more advanced, more advanced, more advanced training rooms do you have?

"Many thanks, elder Qin! Sima Yi can't thank you enough, I'll be deeply grateful!"

"Thank you, elder Qin!" Lin Yi said as he tossed the thought away.

Lin Yi felt a strange sense of joy when he treated this old man with respect, not to mention the benefits he could see. It was as if he was meeting his own elder.

"No need to be so polite. A diligent and talented young man like you should be nurtured with better resources. Only then will you become a pillar of the sect in the future!"

Elder Qin laughed heartily and patted Lin Yi's shoulder, "Come, this old master will take you there!"

"Elder Qin ... I haven't paid the points yet!"

Lin Yi quickly took out his identity token and handed it to elder Qin.

The latter patted his forehead and took it with a smile. He swiped the red jade and gave it back to Lin Yi after thirty points were deducted.

She then brought Lin Yi into the tunnel, even more anxious than Lin Yi.

After a few turns, the two entered a path that Lin Yi had never seen before.

Of course, this was only his second time here, so most of the passageways were unfamiliar to him. However, this passageway was clearly independent of the others. The door to the cultivation room inside was also slightly different from the ones he had seen before.

Lin Yi understood that this should be the training room for inner disciples. He was only able to come in here because of elder Qin's help. If it were someone else, they wouldn't have the authority to let outer disciples in.

"Sima Yi, this is the fire attribute cultivation room. You can go in!"

Elder Qin stood in front of a fiery red Door and opened it, signaling for Lin Yi to enter. "Although there is a limit of 20 hours at a time, if you can't hold on, don't force yourself. It's not worth it to hurt yourself!"

In fact, with Lin Yi's current strength level, he didn't have the right to use this room yet. Normal Foundation Stage cultivators entering it wasn't a matter of how long they could last, but whether they could survive!

Lin Yi was the only one who'd been able to enter the advanced practicing room, after he'd displayed his fire element talent. As for whether or not he'd be able to train for the full 24 hours, that was a different story.

"Yes! I understand and will not force myself!"

"I'll go in then!" Lin Yi replied with a bow.

Elder Qin waved his hand and watched Lin Yi enter before closing the door.

The scene in the training room appeared before elder Qin's eyes. Although he was sure that Lin Yi was safe, he was still worried and didn't dare to be careless.

So as soon as Lin Yi went in, elder Qin immediately started paying attention to him. As soon as he noticed something wrong, he would open the room and save Lin Yi!

Lin Yi entered the training room and found that it was similar to the advanced training room. It was also a spherical space, with the same patterns on the walls, but it was bigger than the advanced training room!

If his guess was correct, the reason why the space was larger was most likely because the fire Qi here was stronger, so it needed more space to rotate.

The fire Qi on the stone wall started to form a fire Dragon, baring its fangs and brandishing its claws as it charged at Lin Yi. Lin Yi, on the other hand, had already memorized the alchemist's fire attribute skill by heart and immediately started using the fire Dragon to temper his body.

In the advanced practicing room, Lin Yi was able to handle the fire Dragon with ease. He could destroy the fire Dragon with a single strike and guide the fire Qi into his body.

Chapter 7300 Throwing Away

In this training room, the fire Dragon's strength increased as it grew in size. Lin Yi used all his strength, but he could only make sure that he didn't get sent flying.

The absorption wasn't very efficient, but Lin Yi was satisfied. As long as he could maintain it, thirty hours was no problem!

Plus, as his body refinement progressed, Lin Yi's strength would only get stronger and stronger-he'd be able to defeat the fire Dragon with one punch again sooner or later.

Elder Qin let out a breath of relief when he saw this-he knew that Lin Yi could handle it. There was no danger!

Compared to the miserable appearance of this little guy when he first entered the advanced cultivation room, he was obviously in a state of ease now!

Elder Qin nodded slightly, turned off the monitoring screen in the cultivation room, and turned to leave.

Lin Yi's training would only improve after a while, so elder Qin decided to go back to the entrance first. He'd come back to check on him once in a while after he closed the entrance.

He didn't expect that at the entrance, there would be someone else!

"Senior, disciple Ai fan wishes to enter the cultivation room to cultivate!"

It was Lin Yi's neighbor, the young governor of Zhulu city, Ai fan. He was looking around at the entrance, but when he saw elder Qin come out, he immediately cupped his fists and bowed,"Since this is disciple's first time here, I don't know anything. Senior, please give me some guidance!"

Elder Qin's eyes lit up. He had an impression of the name Al fan. Wasn't he the new disciple with the wood and fire dual attributes that Xiao Ma had mentioned?

Although he only came on the third day, he was considered diligent. Well ... He could not be compared to a little monster like Sima Yi ...

"Al fan, right? I didn't expect you to come so late. This old master was about to close the entrance!"

Elder Qin sized Al fan up with a smile. At first glance, he thought that Al fan was not bad. "It's rare that you're so diligent, you deserve encouragement! I'll introduce you to the rules of the cultivation room!"

"Disciple is afraid that I've delayed senior's rest!"

Al fan quickly apologized and then stood aside with a slight bow. "If it's not too much trouble, please give me some pointers, senior. This disciple is all ears!"

Elder Qin was satisfied with Al fan's attitude. He stroked his beard and said with a smile, ""The cultivation rooms are divided into various attribute areas, and then according to the strength, they are divided into low, middle, and high level cultivation rooms. A low level training room costs twelve hours per point, a middle level training room ..."

Al fan listened attentively while he calculated which level of cultivation room he should choose.

Although the low-level ones were cheap, the effects would definitely be poor. Ai Fan felt that with his strength, he didn't need to go to a low-level cultivation room to cultivate!

As for the high-grade cultivation room, he wasn't very confident ... In case he couldn't withstand it, it was a small matter to waste points, but it would also waste a lot of time, such as having to recuperate after getting injured.

Therefore, after comprehensive consideration, spending three points to choose the intermediate cultivation room that could be used for 24 hours was obviously the most reasonable!

"Senior, this disciple would like to choose a middle grade fire element cultivation room!"

After Ai Fan made his decision, he immediately made a choice. "This is the disciple's identity token, please collect the points, senior."

There was a flash of disappointment in Elder Qin's eyes because Ai Fan had only chosen the intermediate cultivation room ...

Lin Yi was already in the inner disciple room, but the disciple he had his eye on was still thinking about the intermediate room ...

You'll die if you compare people to people!

After that, elder Qin reminded himself that he could not compare anyone to the little monster, Sima Yi. Otherwise, he would never be able to find a disciple!

"Good, good, good! The fact that a new disciple could choose an intermediate cultivation room showed that he was quite decisive! You're not bad! Work hard!"

Elder Qin took the token and said some words of encouragement to Al fan. He felt that comparing Al fan to Lin Yi was too shameful, so he wanted to praise him.

However, when Al fan heard this, he immediately felt that he was really wise and brilliant. He was immediately valued by the sect's seniors!

Moreover, from elder Qin's words, it seemed that no new disciples had come here yet. Perhaps he was the first one to come?

Al fan thought about it for a while and felt that it was definitely fast for him to fully understand the introductory body tempering cultivation technique in two or three days. The others were probably still studying the cultivation technique. Perhaps he was really the first one to come to the cultivation room.

Elder Qin perked up and finished the process. He sent Al fan to an intermediate cultivation room. After all, Al fan was a potential candidate for a disciple, so he was rather polite.

On Al fan's side, he felt that elder Qin was extremely enthusiastic. He was indeed an extraordinary figure. Even a senior like him would look at him in a different light!

After settling Al fan down, elder Qin paid a little attention to him. Unfortunately, Al fan didn't have any amazing performance in the intermediate cultivation room. He was only considered to be average.

If he didn't have Lin Yi's skills, he would've been fine, but comparing the two, Al fan was instantly crushed!

Elder Qin sighed and went to Lin Yi's training room. He opened the screen and was shocked!

Lin Yi didn't use his fists to defend against the fire dragons anymore. He sat down cross-legged in the middle of the room, allowing the fire dragons to pierce through his body.

Since he couldn't defeat the fire Dragon, Lin Yi decided to use this Dangerous Method to strengthen his body, allowing the maximum amount of fire Qi to stay in his body.

Lin Yi's newly acquired fire element practitioner's Arts were fully activated, and every muscle, bone, and Meridian in his body was vibrating at an almost undetectable speed, almost invisible to the naked eye, like the wings of a mosquito.

However, elder Qin could see everything clearly. How long had it been? He had already started learning that cultivation technique and was starting to reach the next level?

He only needed a little more time and he would be able to enter the Golden core stage!

He was really ... A little monster!

Elder Qin couldn't help but clench his teeth and sigh again. He then compared Al fan in the intermediate cultivation room ... Bah!

Why are you making blind comparisons? Did you have nothing better to do?

After watching for a while more, elder Qin turned around and left.

Lin Yi had already started leveling up. From the Foundation Stage to the Golden core stage, it was an extremely long process. It was as if he had to start all over again, and he wouldn't be able to finish without at least twenty hours.

Fortunately, this little guy was allowed to enter this cultivation room. If it was the previous high-grade cultivation room, the time needed might be even longer.

Of course, it wasn't that one couldn't break through in a place with a bad environment. However, the increase in strength after breaking through might be ten times or even ten times more than in a place with a good environment!

Elder Qin walked back and forth many times. The sky was bright, and the sun was rising from the east to the West. Lin Yi was still leveling up, but Al fan couldn't hold on anymore. He came out of the intermediate room after sixteen hours.
