

Bodyguard 7301

Chapter 7301 You Are Not Sima Yi After All

"Senior, disciple is hungry. I'll come back to cultivate after I've replenished some food!"

When Al fan came out and saw elder Qin, he even looked a little proud. "As expected, cultivating in the intermediate cultivation room is very fast. One more time and I should be able to touch the threshold of the first stage of body refining!"

The corner of elder Qin's mouth twitched, and he felt more and more disappointed. A mere intermediate cultivation room couldn't even be filled up for 24 hours, and yet he was still so proud when he came out?

He really didn't understand. He hadn't even touched the threshold of the first stage. What kind of great progress was that?

"It's not bad. For ordinary new disciples, it's already good enough to stay in the intermediate cultivation room for 16 hours!"

Elder Qin was uninterested and nodded perfunctorily. "It's a good thing that you're motivated. Go on, it's good to come back after you're full. "

Al fan's face stiffened. He wanted to hear more compliments. Why did this senior not seem satisfied? Compared to the ordinary new disciples ... Am I an ordinary new disciple?

"Senior, what kind of performance did that outstanding new disciple have?"

Al fan was unwilling to give up, so he asked subconsciously.

Elder Qin couldn't help but compare Al fan to Lin Yi. He felt that Al fan's talent was really ordinary, so he answered casually, ""There's a little fellow among you new disciples called Sima Yi. His performance was much better than yours ..."

He had wanted to say that it was many, many times better and that there was no comparison at all. However, elder Qin was a loyal person and felt that saying that would be too much of a blow to Al fan's confidence!

Therefore, he stopped in time and waved his hand instead, ""You go first, there's nothing wrong with cultivating diligently! You must know that hard work can make up for it!"

"Many thanks for senior's teachings!"

Al fan was extremely angry. When he heard others say that he was not as good as Sima Yi, he could not refute them. He could only force a smile and bid elder Qin farewell.

After he went back to eat and clean up, he rushed back and prepared to enter the cultivation room again!

No matter what, she couldn't lose to Lin Yi too much!

However, Al fan didn't meet elder Qin this time. It was just a disciple in the cultivation room who took him to the intermediate cultivation room.

Elder Qin was observing outside Lin Yi's room.

After this period of training, Lin Yi had naturally entered the Golden core stage. His body's strength had greatly increased, at least several times stronger than a Foundation peak.

Lin Yi didn't know that elder Qin was looking at him, but he felt like he had an endless amount of energy in him.

Although there was no true Qi, the power of a casual execution would definitely not be inferior to martial arts techniques that were powered by true Qi of the same level.

With a clear whistle, Lin Yi stood up and slashed at one of the fire dragons with his dark red devouring sword.

The first move of the new fire spirit sword technique, brilliant sparks!

A few sparks flew out from the sword, and the fire Dragon immediately fell apart!

At the same time, the three fire dragons around him were not spared either. They were all within the range of the first move and collapsed with the first fire Dragon.

The pure fire Qi was attracted by Lin Yi, and it gathered into his body like a sea.

Starfire's sword momentum had yet to be exhausted, and the second form of fire spirit sword technique had already exploded with a blazing fire!

The originally obscure sword momentum suddenly became stronger, shattering the five fire dragons in one go. Then, the third move, retrieving chestnuts from fire, was naturally used.

This strike was not as magnificent as the second one. It was just a little flame that flew into the body of a fire Dragon, and then the fire Dragon stopped moving.

In the blink of an eye, the fire Dragon began to shatter inch by inch, but it did not dissipate. It was an extremely strange sight!

Lin Yi's body and mind were filled with joy. He used the fourth move, raging fire, and the sword power increased again. All the fire dragons in the room were wiped out, leaving only pure fire Qi floating in the air.

At this time, Lin Yi should be using the time to absorb the fire energy to temper his body, but the fire spirit sword technique was at its peak-how could Lin Yi stop?

The fifth move was 'misty blaze like a Prairie Fire'!

The pure fire Qi was cut apart by the sword light, and the entire space was filled with sword Qi. It was simply appalling!

Before this, Lin Yi could only use five moves of the new fire spirit sword technique, but after reaching the Golden core stage, there were no more obstacles for him to use the sixth move-he could do it in one go!

The flames of war filled the sky!

Elder Qin, who was outside the cultivation room, was dumbfounded and shocked beyond words!

He knew that Lin Yi's fire spirit sword technique was powerful, but he didn't expect it to be this powerful!

In the entire sword spring sect, the only martial arts techniques that could compete with it were probably the few martial arts techniques that only core disciples could cultivate.

Monsters ...

Lin Yi's shadow was long gone from the monitor, and the entire screen was filled with dark red sword Qi!

Elder Qin couldn't help but worry-the new fire spirit sword technique was beyond his imagination. If Lin Yi used it, what would the higher-ups' reaction be?

He still needed to ponder over this matter!

In the training room, Lin Yi felt that he had reached another bottleneck after the sixth stance. He put his sword away and sat down, starting to absorb the fire energy to train his body.

Elder Qin shook his head and turned off the surveillance screen. He lowered his head and pinched his chin as he turned to leave.

A day later, Al fan, who looked exhausted, staggered out of the cultivation room. When he saw elder Qin, he immediately smiled.

"Senior, this disciple finally persevered for 24 hours today. I was only sent out of the cultivation room when the time was up!"

Al fan was secretly proud of himself. He felt that it was amazing that he could last 24 hours in the intermediate cultivation room for the second time."During this time, I have successfully entered the first stage of the body tempering cultivation technique. I only need two or three more times to complete the cultivation and get ready to enter the second stage!"

"Oh, not bad! Continue to work hard!"

Elder Qin nodded perfunctorily. He was still thinking about Lin Yi's matter, and he still couldn't figure it out, "If I'm familiar with the intermediate cultivation room, I can try the advanced cultivation room in the future."

"Uh ... Isn't the advanced training room a little too rushed? I think the intermediate cultivation room is enough!"

Al fan was slightly stunned and his smile became a little awkward. It was already not easy to last 24 hours in the intermediate cultivation room. Obviously, there was still a lot of potential to be unearthed. If he entered the advanced cultivation room now, wouldn't he be asking for trouble?

The upper limit of the advanced cultivation room was twenty-four hours. If he only persisted for seven to eight hours and came out, it would be too much of a loss.

Moreover, persisting for ten to twelve hours might just be an extravagant hope.

"Oh ... Right! I'm sorry, I subconsciously compared you to Sima Yi. You're not Sima Yi after all, and there's no need to use the high grade cultivation room now, it's too forced!"

Elder Qin said casually, but he didn't expect that his words would be so heart-wrenching!

Chapter 7302 Fragmented Martial Technique

Al fan's expression was obviously much uglier, and his face was even a little distorted. He suppressed his anger and asked through gritted teeth, "Senior, you mean that Sima Yi has already started using the high grade cultivation room?"

"You're talking about Sima Yi? this is his first time here and he chose the high grade cultivation room. He even stayed in there for 24 hours. He's really amazing!"

Elder Qin couldn't help but praise him with a smile. However, he felt that it wasn't very good to say that, so he immediately waved his hand and said, ""You don't have to worry about it. Sima Yi is different from ordinary people. I shouldn't compare you to him. Just pretend that I didn't say anything about this!"

Al fan almost spat out a mouthful of blood. He had already said so much, so how could he pretend he didn't say anything?

Between the lines, you old thing, are saying that this young master is not as good as Sima Yi!

Damn it ... It really did seem like he was not as good as Sima Yi!

At the thought of this, Al fan became even more resentful. After reluctantly bidding farewell to elder Qin, he turned around and left the cultivation peak. The next time he came, he was already prepared to go to the advanced cultivation room to cultivate!

"It's a pity ... His aptitude is average, and his heart is also average ... If only his wood attribute could be used on Sima Yi!"

Elder Qin watched Al fan leave and couldn't help but sigh. The heavens were playing tricks on him!

The next day, Al fan came again. This time, he really chose the advanced cultivation room, which made elder Qin look at him in a new light. At least he had some courage in challenging high difficulty.

When Al fan entered the training room, Lin Yi finally finished his twenty hours of training. He left the room and went to the entrance.

"Sima Yi, come over and have a chat!"

Elder Qin was already waiting for Lin Yi to come out, and welcomed him into the small room by the entrance, ""How's your cultivation this time?"

"Thank you for your concern, elder Qin. The training this time was not bad and I have achieved the expected effect!"

Lin Yi smiled and nodded, looking like he was in a good mood. "Does elder Qin have any orders for me to come in?"

"I was just casually chatting and asking about your situation! You don't need to worry about it. "

Elder Qin waved his hand with a smile, asking Lin Yi to sit down. "Actually, after I saw you practicing the fire spirit sword technique in the library, I have been feeling something. Today, I wanted to give you something after you finished your practice."

"How could I do that ... Elder Qin, you're my senior. I should be here to show my respect to you!"

Lin Yi didn't expect elder Qin to give him something. He quickly shook his head, "If elder Qin has any matters that require this disciple to run errands for you, just tell me. There is no need to send anything!"

One of the sword spring sect's traditions was for the people below to give gifts to the people above-Lin Yi didn't want to just accept gifts from others ...

The previous Alchemist fire attribute cultivation method was already a bit troublesome, otherwise he wouldn't have broken through to the Golden core stage so quickly. He had to first cultivate the other attribute's introductory body tempering cultivation method.

"Don't worry, this old master won't ask you to repay me with anything. It's really just something not worth mentioning. Look!"

Elder Qin smiled as he took out a small booklet and passed it to Lin Yi, "This is a martial skill of the fire attribute, and its level is higher than the fire spirit sword technique you've learned. However, this is only an incomplete chapter, so it's useless for this old man to take it. You have a strong talent in this area, so this old man wants to see if you can deduce this incomplete chapter and complete the work."

"This ... Elder Qin, don't you think too highly of your disciple? Not everyone is capable of deducing and completing a high-grade martial skill, right?"

Lin Yi shook his head with a bitter smile, not planning on accepting the skill.

"It doesn't matter. It doesn't matter if I succeed or not. This old man has already said that this incomplete chapter is meaningless to this old man. If it weren't for your ability to deduce cultivation techniques, I wouldn't have given it to you."

Elder Qin reached out his hand and pushed the booklet into Lin Yi's arms. "So, you can be at ease and go ahead with your deduction. If you need any resources, just tell me. If I don't have any, just pretend I didn't say anything."

Lin Yi's mouth twitched. Was this a joke?

"Alright, I'll try my best. If I gain something, elder Qin's good intentions will not be in vain!"

Lin Yi had no choice but to accept the book now that it was in his pocket.

Lin Yi went back to his room and took out elder Qin's martial arts manual, flipping through it carefully.

After looking through it, he realized that this book was really incomplete. There wasn't even a single complete martial technique, so how could he deduce it?

It was just like the White Crane unfurling its wings, and you were only given the word 'white' to deduce the execution of the move ...

Although there was more than one form in this booklet, all the moves were incomplete. It was almost an impossible task to find the connection between them. No wonder elder Qin said that it was useless to him ... If he could deduce and restore it, he would not be guarding the cultivation room at the cultivation peak.

But after Lin Yi flipped through it, his interest was piqued. It was incomplete, but he felt that the level wasn't low. It should be very powerful in its peak condition.

It was very difficult to create a powerful martial technique out of nothing, but to deduce and restore the original martial technique from the traces and clues might eventually be unrecognizable, but it was definitely not impossible!

Fire attribute martial arts techniques, perhaps he should go to the library to take a look?

Lin Yi touched his chin. He wasn't planning on going anytime soon, but it seemed like it was unavoidable. Most of the books he was interested in were already memorized by his essence spirit, but he might need to use even more books he wasn't interested in to repair this skill!

With the experience of modifying the fire spirit sword technique, Lin Yi felt that he had the chance to complete the repair of this martial skill. When that happened, he would have another martial skill as his trump card.

Since he'd made his decision, Lin Yi didn't waste any more time and left for the library.

"Sima Yi, you're back so quickly? Do you think that the fire spirit sword technique is too difficult and want to change to another martial art technique?"

Elder MA saw Lin Yi go up and lay on the chair, not getting up. He nodded with a smile, "You're so willful when you have so many points! But it doesn't matter, this Lord still welcomes disciples like you who give away points!"

"Elder MA! I'll have to trouble you again! Can we make a deal this time?"

Lin Yi smiled and cupped his hands politely, "This disciple doesn't want to exchange for martial arts techniques or cultivation methods this time, I only want to read some ancient books as a reference for cultivation. Could elder MA accommodate me?"

With the primordial Spirit's memory, Lin Yi wouldn't forget it as long as he wanted to. It would be too much of a waste to use points to exchange for it.

The point was that the fourth floor was really expensive-it cost 100 points just to look at it, and another 100 points to exchange for a skill or technique. Lin Yi was spending so extravagantly that he was only left with 300 points from his 600.

Chapter 7303 Going To The Library Again

If he were to use up another 200 at once, he would really be in a difficult situation.

Now, the cultivation room cost 30 points ... It was not enough!

He didn't know how to earn some points, so he wouldn't panic if he had money in his pocket!

"Like this? It's not impossible!"

Elder MA grabbed his little teapot and took a sip from it. He nodded slightly and said, "Seeing that you're still quite respectful, I'll make an exception and help you this time. The 100-point reading fee can't be any less, and the time can't be too long. However, you can choose whether to exchange for cultivation methods or martial techniques in the end. I won't force you on this point, and there won't be any more punishments."

In fact, these rules were added by him. If he wanted to revoke them, it would only take a Twitch of his lips.

"Many thanks, elder MA!"

Lin Yi smiled and cupped his fist in thanks. It was always a good thing to save some points-he could go to the practice room a few more times!

Elder MA waved his hand casually, telling Lin Yi to go up by himself. Lin Yi didn't hold back and ran up to the fourth floor!

This time, Lin Yi didn't pay attention to the other books, but carefully looked through all the fire attribute skills and Arts, comparing them with the incomplete one, trying to find a part that he could use to graft.

Unfortunately, he did not find anything useful in the end!

It couldn't be helped. The books stored on the fourth floor of the library Pavilion were enough for outer sect disciples, but compared to elder Qin's incomplete martial technique, they were still low-level stuff.

Using the martial arts here to repair it was as ridiculous as using the parts of a toy car to repair a real car!

Lin Yi was a little disappointed-the 100 points weren't wasted, and he'd managed to record all the skills and Arts he didn't finish last time, but they weren't really of much use.

With the new fire spirit sword technique and the alchemist's fire attribute cultivation technique, the cultivation techniques and martial arts techniques in this library Pavilion were no longer of any use.

He'd only use them when he wanted to train in other elements, but he'd already recorded everything he needed.

"How is it? Did you find anything?"

Elder MA saw Lin Yi come down, still lying on the chair, and smiled. "If you don't have enough time, you can continue to pay. I'll give you a 50% discount. I'll only charge you 50 points for the extension!"

"Thank you elder MA, but I don't need to pay. I've checked everything, but I didn't find what I needed."

Lin Yi sighed and cupped his hands, "Goodbye, I will trouble elder MA again next time!"

"Hey, don't worry! Elder Qin seems to be very interested in you, which makes this Lord curious about you as well. Tell me what you need, maybe this Lord can help you!"

Elder MA waved at Lin Yi and sat up straight, "The things in this library Pavilion are not as many as the things in this Lord's head. Just tell me, this Lord will most likely be able to help you!"

Lin Yi blinked, not expecting elder MA to be so friendly all of a sudden. It was completely different from the last time he was here!

Could it really be because of elder Qin?

Thinking that the relationship between these two elders seemed to be good, it should be fine to tell elder MA an incomplete martial skill. In any case, if he used it in the future, it would not be able to hide from the other party's eyes and ears.

"It's like this, when I came out of the cultivation room today, elder Meng Qin did not give up and gave me a fire attribute martial skill fragment, saying that I could study it. However, I had no clue, so I came to the library to see if I could find some clues. "

Lin Yi muttered to himself before telling the truth."Unfortunately, after flipping through all the fire attribute cultivation methods and martial arts techniques, I still didn't have any ideas. It seems that this disciple doesn't have any fate with this fire attribute martial arts technique!"

"Hahaha, so it's elder Qin's incomplete martial technique book. This seat knows!"

Elder MA laughed as he lay back down on his chair, grabbed the teapot and took a sip,""You're also an honest little fellow. The reason why an incomplete copy is an incomplete copy is because it's not easy to repair it. Otherwise, elder Qin would have done it himself long ago. Would he still give you an incomplete copy?"

Lin Yi could only nod in agreement, but he didn't think much of it. Elder Qin probably gave him the incomplete copy because he thought that Lin Yi had a higher chance of repairing it than elder Qin himself.

"This time, it's elder Qin who has tricked you, causing you to waste 100 points for nothing. Actually, you can study this remnant copy when you have nothing to do and gain some enlightenment from it. As for repairing the martial arts technique, don't even think about it!"

Elder MA shook his head and chuckled,"young man, it's good to have confidence in yourself, but you'll only be wasting time by wasting time on impossible tasks!" Remember this seat's advice, for this kind of remnant book, it's enough to comprehend it occasionally. Elder Qin most likely also has this intention, don't misunderstand!"

"Yes! This disciple knows that elder Qin did it out of concern for the younger generation. This disciple has overestimated his own ability!"

Lin Yi wasn't going to tell elder MA his true thoughts, so he just went along with it.

"Forget it, you can go back now! In the future, don't do such boring things again. The best choice for the assessment is to cultivate the fire spirit sword technique to the great completion. "

Elder MA didn't have any interest in talking anymore after a few words of warning. He waved his hand after he'd laid down comfortably, signaling for Lin Yi to leave.

Lin Yi cupped his fists and left the library.

After he went back, Lin Yi put all his attention on the incomplete martial skill book. His training had already exceeded his expectations, and he had completely mastered the original fire spirit sword technique. There was no possibility of mastering the new fire spirit sword technique, so he spent a lot of time on the incomplete martial skill book.

Lin Yi always felt that if he could deduce a move or two, it would greatly increase his strength-it was an increase in combat strength without leveling up!

Since he had this feeling, Lin Yi wouldn't give up halfway. He started studying the skill.

After a few days, the long whisker peak was calm and nothing special happened. On this day, in the advanced cultivation room of the cultivation peak, Al fan laughed wildly and then walked out of the passage with great satisfaction.

"Elder Qin! This disciple has stayed in the high class cultivation room for 24 hours and has completed the second stage of the introductory cultivation method. I will be able to enter the third stage of cultivation soon!"

When Al fan came out and saw elder Qin, he bowed slightly proudly. "It's all thanks to elder Qin's supervision. Otherwise, this disciple would not have such progress!"

Elder Qin secretly pouted. He thought to himself, "Sima Yi has already reached the level of exuding his fiery Qi in two days. How many days has it been? you're only preparing to enter the third stage of cultivation. What's there to be proud of?"

Chapter 7304 Comprehending The Incomplete Chapter

However, compared to the ordinary new disciples, Al fan's cultivation progress was indeed fast. He had far surpassed the other outer disciples and was not inferior to the ordinary inner disciples.

These conditions, if not counting Sima Yi, were actually not too bad.

"Young people, you will gain from your hard work. I am very pleased that you can maintain such progress. Continue to work hard and don't slack off!"

Elder Qin thought for a moment and felt that this kind of aptitude could barely be accepted as a disciple, so he added, ""I've always wanted to take in a disciple, but I've never had a suitable candidate. In fact, your aptitude doesn't need to be top-notch, because hard work can make up for it. I admire your hard work, so you must continue to maintain it!"

Al fan was overjoyed. Although elder Qin did not explicitly say that he wanted to take him as a disciple, his words were more or less the same. As long as he continued to show his diligence in cultivation, there would be a time when he would officially become elder Qin's disciple!

Other new disciples might think that elder Qin was just an old man who guarded the cultivation peak, but Al fan was very clear about the old man's true background and abilities. It could be said that elder Qin was one of the important targets for Al fan to enter the sword spring sect!

Now that success was in sight, how could he not be excited?

"Yes! Disciple will definitely work hard in cultivation and will not dare to relax!"

Al fan immediately showed his respect and bowed to elder Qin. "After I rest for a while, I'll come back and continue my cultivation!"

Elder Qin was very satisfied with Al fan's attitude. He encouraged him with a few more words before sending him away. As for the matter of taking him in as a disciple, of course, it would not be confirmed immediately!

Currently, Al fan was only cultivating a fire attribute body tempering cultivation technique. Elder Qin would only decide whether to accept him after he cultivated a wood attribute body tempering cultivation technique!

Although elder Qin had only revealed this intention, Al fan was already excited enough. This meant that he finally had one aspect that was better than Sima Yi!

Furthermore, once he became elder Qin's disciple, his status in the sword spring sect would rise. It would also be more convenient for him to do anything in the future.

When Al fan left the peak, Lin Yi was in his residence, frowning and trying to figure out a martial skill. He had been studying for days without any progress, but he seemed to have some ideas. It was a strange feeling.

"Lin Yi, don't think of this technique as completely fire- think about your new fire spirit sword technique, that's a technique that uses the green demonic sword technique as its core!"

He didn't know if it was just bored or if it couldn't stand it anymore, but the damn thing came out to remind Lin Yi. "Although they're all incomplete moves, you can refer to the new fire spirit sword technique and use other attributes to activate them first. Even if the first move is incomplete and only half a move, as long as you can activate it a little, you can continue to deduce in that direction!"

"That makes sense! Senior ghost, you're the best!"

Lin Yi's eyes brightened as he clapped his hands, "I should have thought of this earlier! As expected, it was dark under the light! I'll try it immediately!"

"It can't be considered powerful, it's just that the spectators can see it clearly!"

The demonic thing was not interested in this small contribution at all. It laughed hideously and said, ""You brat, if you don't use your brain properly for too long, your brain will rust! Forget it, I won't waste my breath on you. I'll go back and continue my research on array Dao!"

Naturally, Lin Yi sent senior ghost off before starting to recall the other attribute skills he'd seen in the library.

There were the basic metal, wood, water, fire, earth, and special attributes such as wind, Thunder, and ice. They were all beginner level body tempering techniques.

Lin Yi couldn't just go and try them one by one-he had the idea, but he didn't have the time.

So Lin Yi could only use his own experience to make the rule out.

First of all, Lin Yi only took a look at the elements-metal, water, earth, lightning, ice-and so on-before giving up on them. These elements didn't match the fire element in theory.

Although there could be coincidences, they were extremely special and there was no need to try at the moment.

Therefore, only the wind and wood attributes were left, which could be used together with the fire attribute.

Of course, Lin Yi himself was more inclined to wind element body refinement Arts, because fire borrowed the power of wind, and the combination of Wind and Fire would produce even more shocking power.

However, after careful consideration and deduction, Lin Yi realized that the combination of Wind and Fire was completely different from the incomplete martial skill in his hand. It was completely incompatible and he could only give up!

In the end, the only thing left was the wood attribute body tempering technique!

He wanted to practice the wood element's basic skills, but it wasn't suitable for him to go to the practice room. After all, Lin Yi didn't show his attribute back then, and it was a bit strange for him to go to the wood element's practice room all of a sudden.

Fortunately, although the residence on the North Peak was not suitable for fire attribute cultivation, it only affected the other attributes.

Due to the lack of sunlight, the wood element wasn't enough, but it was enough for Lin Yi.

Lin Yi picked out a wood element body refining skill that seemed to be of the highest quality and started training.

However, his cultivation speed could not be compared to the cultivation room on the cultivation peak!

After realizing this, Lin Yi stopped training and decided to use the green Devil God sword technique to activate this new skill.

After all, the plant attribute seemed to be somewhat related to the wood attribute, similar to the relationship between the ice mist and the water attribute.

Moreover, with the successful experience of the new fire spirit sword technique, he should be able to get twice the result with half the effort.

Unfortunately, the new fire spirit sword technique's method of exerting force wasn't suitable for this incomplete martial technique!

It was not that the attributes were wrong, but there was a huge difference between the two!

One was a sword technique, while the other had nothing to do with the sword. It was a martial technique related to the fist!

The wild fire Fist was more similar, but it was completely different from the fire Qi of the body, so he couldn't use the experience of the wild fire Fist.

The green Devil sword technique couldn't help, so Lin Yi could only continue with his wood element body refinement technique to solve the problem at its root.

At this time, the difference between having a cultivation room and not having one was quite obvious.

Lin Yi only spent two days in the advanced training room to reach the stage of releasing fire energy.

However, in the North Peak Residence, Lin Yi trained for three whole days and only completed the first stage of muscle strengthening. Such slow progress was really unsatisfactory!

Of course, he would definitely be beaten up if he said that ...

An ordinary wood attributed outer sect disciple would not be able to complete the first stage of tempering without spending seventy to ninety days in the cultivation room.

"Phew ... That's more like it! If I had known earlier, I would have used the wood attribute during the test!"

Lin Yi let out a breath and shook his head. He didn't know that elder Qin's eyes would turn green if he showed wood and fire during the test!

Chapter 7305 Mountain Burning

The martial skill in his hand was a fire element, and Lin Yi only trained in the wood element as a starter- he had enough Foundation to handle it.

Using wood to start a fire, the fire Qi would be purer and more stable. It would no longer be a single explosive force, but a longer lasting one!

The new fire spirit sword technique had reached the peak of explosiveness, but Lin Yi's incomplete martial arts technique required a relatively stable and long-lasting output, so he needed the wood element to guide it.

Other than that, Lin Yi realized that the basic body strengthening technique wasn't enough to activate the incomplete skill in the book!

Failed!

Failed!

Failed!

After several failed attempts, Lin Yi wasn't discouraged. It was an incomplete skill, and he had to figure out how to use it. It would be weird if he succeeded right away!

Time flew by as he trained, and a day went by without him realizing it. Lin Yi wasn't sure if he'd made any progress, but he'd been failing all this time. He was pretty familiar with using the wood element to guide the fire.

He'd used up all his energy just from using too much force, and he was so exhausted that he didn't even want to go out for food. He just took out some food from the Jade space to fill his stomach and fell asleep.

After waking up, he continued trying!

Failed!

Failed!

Lost ... Huh? There was movement!

Lin Yi's spirit jolted, and he felt the fire in his body move a little, but the feeling disappeared when he paid more attention.

Try again and grasp the feeling from before!

There was a fire Qi gathering in his body. This was not true Qi that would flow through his meridians. It was the power generated by his internal organs, bones, and muscles!

From wood to fire, a powerful force erupted!

The incomplete move was completed by itself, and the violent fire Qi swept in all directions, starting from Lin Yi's residence and quickly spreading, covering half of the North Peak!

Raging inferno!

This was the name of the incomplete move that had been successfully activated, and it was now a complete martial technique.

Lin Yi wasn't sure if it was the original skill, but there was no doubt about its power!

To be honest, even Lin Yi himself was shocked. That kind of violent and lasting fire aura was extremely powerful. Fortunately, Lin Yi didn't want to destroy anything, or it was hard to say what kind of damage he would cause!

"The water is flowing! Hurry up and put out the fire!"

The outer sect disciples who were staying at the bottom of the North Peak felt the terrifying burning aura and immediately ran out of their lodgings in panic, shouting while looking for the fire.

The North Peak had never been exposed to the sun for many years, and coupled with the cold aura that su Yumo often emitted, it was normal for it to be suspected of being on fire.

The most important thing was that the temperature was rising rapidly. Although there was no open fire yet, if this continued, the entire North Peak might be set on fire!

Lin Yi's body shook a little, and his face turned pale. He quickly stopped his energy and finally stopped the raging fire from continuing to wreak havoc on the North Peak.

In fact, Lin Yi had to stop even if he didn't want to. He only activated it for a second, and all his energy was sucked out.

Lin Yi's body was extremely sore and weak-he almost couldn't sit properly and fell to the ground!

This move was strong, but it wasn't suitable for Lin Yi at this stage. He might kill himself before he could even kill his enemy!

Lin Yi panted heavily a few times before he finally managed to catch his breath, but his face was still pale!

What kind of F * cking martial arts technique was this?

It was only the first move. If he were to use the second move, it was hard to say if he could still remain awake!

He didn't have any idea how to use the second move yet, and even if he did, he wouldn't dare to continue researching it!

The consumption was too great!

Lin Yi was a little exhausted, and after catching his breath, he rushed out to the canteen and finished ten people's worth of food. Only then did he feel much better!

"Senior brother Sima, I haven't seen you in days. What a coincidence today!"

Zhang Yiming came to the canteen when Lin Yi was almost done with his food. He ran over to Lin Yi in surprise. "Senior brother Sima, can I sit here?"

"Of course you can, you can sit!"

Lin Yi smiled and put down his utensils. "How have you been? Did anyone else bully you?"

"No, no one has dared to deal with me recently. It's all thanks to senior brother Sima!"

Zhang Yiming sneaked in front of Lin Yi and cupped his hands in thanks, "Most people don't dare to deal with me easily because of senior brother Sima's reputation. I'm usually more careful and always choose the time when there are the least people in the cafeteria. When I'm free, I'll stay in my residence to cultivate, so those who really want to bully me don't really come looking for trouble. "

"That's good. I'll keep a low profile and cultivate. I'll improve myself!"

Lin Yi nodded, rubbing his chin. "If it's an ordinary person, they would probably want to see if I can continue to be the steward third senior brother. If you succeed, then there's nothing to say, but if you fail, you'll probably be suppressed even more severely than before. Therefore, your own strength is the most important thing! Only when you are strong will you not be coveted by others!"

"Senior brother Sima is right! I'll definitely train hard!"

Zhang Yiming nodded solemnly, then smiled bitterly. "It's just that my talent is limited. Even if I want to cultivate properly, my progress is not satisfactory!"

Just as Lin Yi was thinking about whether he should give Zhang Yiming some pointers, another group of people walked in. ai fan was in the middle, but the people surrounding him weren't his followers, but a few of his old disciples.

"Senior brothers, I'm not lying. Among the new students, i, ai fan, have the most potential. If I can help you during the selection of senior brother manager, I'll definitely repay you generously!"

Al fan didn't see Lin Yi and Zhang Yiming in the corner and was bragging about himself. "I think all the senior brothers have heard that elder Qin has taken a liking to me and thinks highly of me. Elder Qin has already thought of taking me as his direct disciple. In time, I will definitely soar to the sky. At that time, I will naturally not forget those who have helped me!"

Lin Yi found it strange. Could the elder Qin that Al fan was talking about be the elder of cultivation peak? Or was there another elder Qin?

"Junior Brother Al fan, you can't become a Senior Steward with just our support! However, if you are really valued by elder Qin, it would be easy for you to get a spot as the steward senior brother!"

Someone laughed and said, "of course, if you become the senior Steward, we will definitely support you!" Don't you worry about this!"

Supporting the position of steward senior brother and supporting it after becoming steward senior brother were two completely different things!

Chapter 7306 Public Opinion Everywhere

However, Al fan clearly did not mind. He smiled and nodded. "Very good, if this little brother becomes the senior Steward, everyone will definitely benefit!"

"As for elder Qin's matter, please keep it a secret for the time being. After all, it has not been completely finalized yet. I need to keep a low profile!"

Al fan's words made the people around him curl their lips. 'You want the whole world to know about this, yet you still want to keep it a secret?'

You clearly want us to help spread the news, right?

"Definitely, definitely! We'll definitely do as Junior Brother Al fan says!"

Someone laughed and agreed. He would definitely not keep it a secret, but it was also impossible for him to deliberately help spread it. This matter would become a topic of conversation, used for idle chat after tea and meals.

The group of people walked over as they talked. Then, they each took their food and prepared to eat.

Lin Yi didn't have anything else to say, so he turned to Zhang Yiming. "Do you know that elder Qin that Al fan mentioned?"

"I know! Elder Qin of the cultivation peak!"

Zhang Yiming nodded. "Our sword spring sect seems to only have one elder Qin, so there's no mistake! I've heard about Al fan, but senior brother Sima, you've never heard of him?"

In the entire sword spring sect, Al fan's matter was like a small stone falling into a rolling river. It could not even cause a splash. But in long whisker peak, it was a big news that attracted more attention.

That was why Zhang Yiming found it weird that Lin Yi didn't know anything about it!

"I've been in closed-door cultivation recently, so I don't pay attention to the outside world. I really don't know anything. Tell me!"

Lin Yi shrugged and admitted that he had no idea!

"Alright, I'll speak up for senior brother Sima!"

Zhang Yiming lowered his head slightly and noticed that no one was looking at them, so he lowered his voice and said, "Elder Qin was originally a top Alchemist in our sword spring sect, but later on, there was an accident and he could no longer refine pills. His own strength was also less than 10%, so he became the guard elder at the cultivation room."

"However, this does not mean that elder Qin has lost his position. On the contrary, he will get more attention if he stays in the cultivation peak! This was because his alchemy inheritance had not been handed down. It was precisely because of this that there were many people who wanted to become his disciple! To be able to become a personal disciple is an extreme honor!"

Lin Yi was a little surprised-he didn't think that elder Qin was an Alchemist ...

In that case, that alchemist's fire attribute body tempering technique should have been given to him by elder Qin?

Then, because he had cultivated the cultivation technique in the cultivation room and successfully broken through to the Golden core stage, elder Qin gave him a martial arts technique remnant book when he came out?

If he hadn't cultivated this new cultivation method to break through to the Golden core stage, perhaps he wouldn't have given him that incomplete martial skill book.

"Elder Qin has always wanted to find a disciple to inherit his alchemy skills, but a suitable candidate has never appeared."

Zhang Yiming didn't notice Lin Yi's slight distraction and continued, "The most basic requirement to become an Alchemist is to have wood and fire dual attributes. This kind of person is very rare. Although he has appeared in the past, his talent is too poor, and he can't meet elder Qin's requirements."

"It wasn't until this year, when Al fan appeared, that there were some changes. I heard that Al fan is very talented. Among the outer sect disciples of senior brother Sima's batch, he's one of the top existences. Of course, he still can't be compared to you, senior brother Sima!"

Zhang Yiming didn't forget to flatter Lin Yi when he mentioned Al fan. "Senior brother Sima, if you also have the wood and fire dual attributes, elder Qin will definitely take you as a disciple! Then what's the point of Al fan?"

"Heh ... That's not necessarily true! Let's continue talking about Al fan. Is elder Qin sure that he wants to take him as a disciple?"

Lin Yi didn't care about Al fan, but he did care about elder Qin!

Since there was already a candidate for a disciple, what was the purpose of this old man giving him a cultivation method and martial skill?

If he already wanted to take Al fan as his disciple, shouldn't he put more effort into Al fan?

"There are indeed such rumors, but the matter hasn't been settled yet. I can only say that elder Qin has such intentions!"

Zhang Yiming nodded. "Al fan is indeed much more talented than those unqualified wood and fire dual-attribute disciples. I heard that he can now cultivate normally in the advanced cultivation room. His progress is quite fast. That's why elder Qin expressed his intention to take him as a disciple."

Lin Yi nodded slightly. Zhang Yiming may be in a bad state, but he was talented in gathering information. It wasn't easy for him to know so much.

"Senior brother Sima, this Al fan might be a threat to you!"

Zhang Yiming lowered his voice and glanced at Al fan before moving closer to Lin Yi. "Elder Qin hasn't decided to accept him as a disciple yet, but he's already using elder Qin's name to make friends with outer sect disciples everywhere. He's trying to use public opinion to create momentum for him, and finally succeed in becoming the senior Steward!"

"Is it useful to rely on public opinion? Isn't Senior Steward going to have a selection battle?"

Lin Yi didn't take Al fan seriously. He wasn't afraid of Al fan when he was still in the foundation building stage. Now that he was in the Golden core stage, his strength had doubled. With the new fire spirit sword technique and elder Qin's incomplete martial arts technique book, he could be called the number one under the nascent Soul Stage!

And this was still under the condition that he didn't use his primordial spirit. Once he used his divine sense attack skills, even a Yuanying stage Martial Master might not be his opponent!

"It's a selection and competition, but there's also a voting segment. Look at how Al fan is trying so hard to win over the senior disciples. He has a purpose!"

Zhang Yiming was very excited to be able to help Lin Yi, and he spoke faster, "In the end, Senior Steward has to manage everyone, so he has to be able to convince the masses. Therefore, everyone's vote will also affect who Senior Steward belongs to!"

"You mean that the voting will have a certain effect, but it shouldn't be in a dominant position, right?"

"As long as we have the upper hand in the fight, we don't have to vote, right?" Lin Yi said after some thought.

"Senior brother Sima, what you're talking about is a normal situation. However, it's not the case with senior brother's selection rules. The victory and defeat of the battle will have corresponding points, and everyone's vote will also be converted into points! Even if they have a great advantage in the competition, it's likely that they will lose because of the low voting points ..."

Zhang Yiming laughed drily and shook his head, "although I think the most important thing for Senior Steward is still your own strength. With absolute strength, who would dare to oppose you?" However, the sect paid more attention to management efficiency, so the rules were like this. Senior brother Sima, you must not underestimate this voting round! This is an important segment that can affect the final result!"

Chapter 7307 Al Fan's Promotion

Although Zhang Yiming had never seen Lin Yi's true strength, he had received news that Lin Yi had broken through to the Golden core stage ...

It was a pity that he still couldn't see Lin Yi's true level in a face to face fight, so he wasn't worried at all about Lin Yi losing.

Only this preliminary voting ... Was really not optimistic!

Judging from Al fan's actions, he had the possibility of beating Lin Yi completely in this aspect!

Zhang Yiming felt that he had no way out now. He could only cling onto Lin Yi. The stronger Lin Yi was, the safer he would be. If something happened to Lin Yi, he would be dead!

As the two of them were talking, another group of people came in from the entrance of the cafeteria. It was the second senior brother in charge who had a conflict with them last time!

The second Shixiong scanned the cafeteria as soon as he entered. ai fan was too focused on boasting and winning people over, so he didn't notice Lin Yi and Zhang Yiming. However, the second Shixiong noticed them immediately.

Lin Yi happened to raise his head as well, and their eyes met.

The steward's face darkened a bit as he snorted coldly. He gave Lin Yi a disdainful smile and walked into the canteen with his head held high.

"Second senior brother, come and sit here!"

When AI fan saw the steward's second senior brother, he had already stood up and greeted him. "We were just talking about second senior brother. He's a forthright and righteous man, a role model for our generation!"

Lin Yi's lips twitched. ai fan seemed to be using unscrupulous means to get to the top!

With AI fan's talent and status, he could've become an inner disciple the moment he entered the sect. Lin Yi couldn't understand why he wanted to stay in the outer sect, and why was he so interested in the position of steward?

Becoming an inner sect disciple, even if it was the most ordinary member, would still be more respected than the outer sect's steward senior brother!

For example, if Lin Yi didn't have elder Qin's Secret help, he'd only be able to practice in the advanced practicing room. He wouldn't even be able to enter the inner disciples "special practicing room.

Another example was the library Pavilion. Only the most ordinary inner sect disciples would go to elder Ma's shared library.

Those who were slightly stronger would only go to the exclusive library of the inner sect disciples to search for ancient books, and even the outer sect's senior brother in charge did not have the qualifications to enter there!

So, what was Al fan doing?

Al fan, of course, wasn't going to answer Lin Yi's questions. He followed the steward's line of sight and saw Lin Yi's figure.

Of course, he had no intention of going over to greet them. Instead, he sat down with the steward's second senior brother warmly, eating, drinking, and laughing!

A warm smile appeared on the steward's second senior brother's face as he spoke to Al fan happily.

It was obvious that the two had a tacit understanding, and it went without saying that Lin Yi would become their common target!

"Senior brother Sima, if the two of them join forces, it will be even more troublesome ..."

Zhang Yiming looked over and said worriedly, "If it's just Al fan, senior Sima, it's no problem for you to deal with him. But if the two of them target you together, you'll be in danger during the competition, let alone the voting during the preliminary selection!"

"What do you mean? Is there a free-for-all?"

Lin Yi raised an eyebrow. He wasn't afraid of a chaotic battle, but it didn't hurt to know. "Why don't you tell me the rules of the competition?"

"If it's a chaotic battle, it's not impossible ... This kind of situation has happened before."

Zhang Yiming scratched the back of his head and laughed dryly. "Senior brother Sima, if you want me to tell you the rules, it's really hard for me to do so. The rules of senior brother steward's selection contest change every year. It's completely determined by Martial Master Ma's mood. Sometimes, it's a fight to eliminate the opponent, sometimes it's a chaotic battle to decide the winner, and sometimes it's a mission for the participants to decide the winner through the mission."

After a slight pause, he added, "there's also everyone's voting. Generally speaking, although voting during the preliminary auditions is important, it's only used as a supplementary means. But I heard that there was one time when they didn't even compete and directly voted to decide on the appointment of senior brother steward! Of course, I don't think there were any strong competitors at that time, so I can't use it as a reference. "

Lin Yi's lips twitched. Was the steward that capricious in choosing people?

Or was it that the person in charge of the selection was so willful that it would be more convenient to just appoint him ...

Speaking of which, if there was no competition this time and they voted directly, wouldn't they be doomed?

With Lin Yi's connections, he couldn't be compared to the manager's second brother at all. Even AI fan was far behind him.

Not to mention AI fan's management among the senior disciples, more than half of the new disciples were his people!

If they were to vote, Lin Yi could just announce that he didn't vote!

"Senior brother Sima, voting is just a special case. I heard that it's only once, so this time, it should still be a battle with voting as a supplement. As for how the competition will be, I'm not sure for now."

Zhang Yiming observed Lin Yi's expression and seemed to understand what he was thinking. He continued in a low voice, "The time of this selection will most likely be placed together with the first assessment of the new disciples. My guess is that it might be related to the new disciple Assessment this time."

It was a voting system, but if Al fan and the steward worked together, Lin Yi would be completely crushed by Al fan's votes no matter how much of an advantage he had ...

Zhang Yiming's heart was beating like a drum. He didn't know if he should be more clear about this.

"Like this? What about the steward, eldest senior brother, and second senior brother? You're also participating in the test for new disciples?"

Lin Yi smiled and shook his head, "I don't think it's a game. Or are you old disciples taking the test at the same time?"

"Mm ... We do have an assessment, but the timing doesn't match up and it will be later. Perhaps eldest senior brother and second senior brother are directly one of the candidates. After the new disciples finish the assessment, we will choose the candidate for the steward senior brother and then compete?"

This possibility was quite high, and Lin Yi was inclined to believe in this possibility!

However, there was no point in thinking about this now. Everything would have to wait and see when the time came!

At that moment, two more people entered the canteen. Lin Yi smiled when he saw them and waved at the door.

This was because Ling Hanxue and Chen Zhisheng were the few companions of the sword spring sect.

He'd been busy practicing and practicing ever since he'd entered the sect, and hadn't seen the two before. It wasn't peak dining time, and the canteen was quite busy-it was the first time they'd met after entering the sect.

"Young master Sima, senior brother Zhang!"

Ling Hanxue's face was full of joy as she quickly walked over to greet Lin Yi and Zhang Yiming with cupped fists. Chen Zhisheng didn't have any special expression on his face as he followed Ling Hanxue over and greeted them.

Chapter 7308 Guiding Cultivation

"Sister Xue, Chen Zhisheng, I haven't seen you two for a long time. How have you been?"

Lin Yi gestured for the two to sit down with a smile and started chatting. "I've been busy with closed-door cultivation recently. I didn't even have the time to look for you. "

"Young master Sima, we have also been in closed-door cultivation. However, we have heard of young master Sima's legend. He is the first new disciple to enter the high grade cultivation room to cultivate. His reputation is quite loud!"

Ling Hanxue sat down with a smile, while Chen Zhisheng went to get some food. ""At the cultivation peak, young master Sima, you're the most popular among the new disciples. After that, it's Al fan!"

Speaking up to this point, Ling Hanxue glanced at Ai fan in the distance, and the corners of her mouth curled up in disdain. "I heard that Ai fan has been very active recently. Actually, how can such a person be compared to young master Sima?"

"That's right! Junior Sister Ling is absolutely right, I also think so!"

Zhang Yiming agreed and nodded, "Compared to senior brother Sima, Ai fan is really inferior!"

"Alright, you two stop complimenting me, even though I know I'm very outstanding!"

Lin Yi joked before turning serious. "Sister Xue, it's not too far away from the test. How's your cultivation going?"

"Hmm ... My progress is still alright. I've already cultivated the introductory body tempering cultivation technique to the third stage. I just need some more time before I can completely master it. Then, I'll try to release it!"

Ling Hanxue muttered to herself for a moment before saying, "I should be able to meet the requirements before the test, but Chen Zhisheng seems to be in some trouble. He's only at the second stage and hasn't even reached the completion of the second stage. It's hard to say if he can complete the cultivation target within a month!"

Lin Yi was a little surprised as he looked at Chen Zhisheng, who was getting food. "How could this be? Although Chen Zhisheng's aptitude wasn't above average, it was still above average, right? There's no reason we can't achieve our goal!"

"Senior brother Sima, this is actually very normal. Some people don't find their own rhythm at the beginning of cultivation, or they can't open their apertures for a while, so they take a detour in cultivation. Once they open their apertures, they will quickly return to the right track."

Zhang Yiming interjected to express his opinion, and then gave a suggestion,""In Junior Brother Chen Zhisheng's case, if there is a teacher to give him some advice, he might be able to suddenly open his aperture. Why don't you ask him to find Martial Master Ma?"

As soon as he finished, Zhang Yiming shook his head and denied it,""That won't do either. Martial Master Ma won't agree to guide the new disciples or ask an old disciple for help before the test is over."

Ling Hanxue's lips twitched, thinking that this wasn't very reliable. The senior disciples were basically all around the big and second Shixiong, and had no relationship with Lin Yi, the third Shixiong.

Zhang Yiming was a special case, but unfortunately, his strength was limited and he couldn't give Chen Zhisheng any guidance.

The other old disciples were already giving Lin Yi face by not kicking him when he was down, let alone helping him!

"In that case, there's a way!"

Lin Yi tapped his index finger on the table lightly, a smile on his face. "After you're done eating, you can come to my residence on the North Peak and sit there for a while!"

When it came to guidance, why would he need Martial Master Ma? He didn't need any old disciples-he was a moving library!

Although Lin Yi was only training in fire and wood element Arts, the basic level of body strengthening Arts were more or less the same-the only difference was the element.

If Chen Zhisheng really didn't open his body just yet, Lin Yi was confident that he could do it successfully!

"Alright! We haven't seen each other for so long, I also want to have a good chat with young master. This dining hall is not a good place to talk, being able to be a guest at young master's place is the best!"

Ling Hanxue was instantly overjoyed. Just then, Chen Zhisheng came over with two plates and took one of them. ""Chen Zhisheng, let's hurry up and finish our meal. Then, we'll go to young master beifeng's residence to play for a while!"

Chen Zhisheng's mouth twitched and he nodded. ""Okay ... But won't that disturb young master Sima?"

"No, it's the young master who invited us. If you don't want to go, I can go alone!"

Ling Hanxue took a bite of the food. As she chewed, she mumbled, "That's right. You still have some problems with your cultivation. It's good for you to go back and continue your cultivation!"

Chen Zhisheng's face darkened. He was going back, and Ling Hanxue was going to Lin Yi's place alone? A man and a woman alone in a room?

Bah! Don't even think about it!

"Forget it. We're going to advance and retreat together. It's fine if we go together. There's no rush for cultivation anyway. Changing the environment occasionally might be more helpful for cultivation!"

Chen Zhisheng said with a sullen face. He took a big bite of food and chewed hard.

Lin Yi laughed to himself, too lazy to say anything about Chen Zhisheng's thoughts.

Anyway, it was good that Chen Zhisheng was willing to go. After all, the main purpose of inviting them was to give Chen Zhisheng some advice. If the main person did not go, what was the point?

It was a good thing that Chen Zhisheng followed Ling Hanxue wherever she went. In fact, if Lin Yi had only invited Ling Hanxue, Chen Zhisheng might have taken the initiative to follow, right?

"If you're free, do you want to go over and have a seat?"

Lin Yi turned to look at Zhang Yiming. He had a good impression of this fatty, and he didn't mind giving him some pointers.

Lin Yi wouldn't normally go and give Zhang Yiming advice unless he asked for help, but it didn't matter if he brought Zhang Yiming along now that he was helping Chen Zhisheng.

"Can I? Then I'll have to trouble you!"

Zhang Yiming's heart was filled with joy. He had no way out now and could only cling onto Lin Yi's leg and walk this path to the end.

So if there was a chance to get closer to Lin Yi, Zhang Yiming would naturally try his best to grab it!

In fact, even if Lin Yi didn't send out the invitation, Zhang Yiming himself was ready to go!

Ling Hanxue didn't have much of an opinion on this. She was currently eating her fill and wanted to go to Lin Yi's residence at the North Peak as soon as possible.

Chen Zhisheng thought about it and felt that this was a good thing. The more people there were, the less opportunities Ling Hanxue and Lin Yi would have to be alone!

Although Lin Yi had said before that the one he was really interested in was Wu yucao, and what happened later seemed to confirm that, but now that Wu yucao was an inner sect disciple, it was hard to say if there would be any changes between Lin Yi and Ling Hanxue!

That was why Chen Zhisheng was even more vigilant, determined not to let Lin Yi have a chance to be alone with Ling Hanxue!

Lin Yi couldn't be bothered to guess what Chen Zhisheng was thinking. Seeing that they were too focused on eating to chat, he paid a little attention to Al fan's side to hear if there was any news.

Chapter 7309 Newbie Test

But the two were just having a casual conversation, and Lin Yi lost interest after a few sentences. He'd rather have a chat with Zhang Yiming.

After a short while, Ling Hanxue was the first to finish eating. Then, she began to urge Chen Zhisheng to hurry up. Chen Zhisheng had no choice but to hastily take a few bites and then pass out.

The four of them left the cafeteria, leaving Al fan and the manager staring at Lin Yi until they disappeared.

When they arrived at the residence on the North Peak, Ling Hanxue said with a strange expression, ""Young master, why is the temperature on the North Peak so high? Didn't they say that this place was extremely cold? It feels like it's about the same as where we were at the South Peak?"

Lin Yi didn't know what to say-he'd stopped the heat right away, but the temperature didn't drop that fast!

They went to the canteen for a meal and chatted for a while. When they came back, they could even feel a trace of warmth.

Of course, compared to the scorching heat before, the current warmth was completely different!

"Ha ... It's not like this usually, but today's a little special ..."

Lin Yi laughed it off and changed the topic, "Let's talk about cultivation! I've been to the shared library twice and read a lot of books, so I have some understanding of the cultivation methods and martial skills of various attributes, so I called you here to exchange and verify. "

Lin Yi guessed that Chen Zhi would be stubborn if he told him directly that he'd help him, and it'd be awkward if he refused.

With Lin Yi's understanding of Chen Zhisheng, this was a possibility. It would save a lot of trouble if they could communicate.

"Senior brother Sima, you're really amazing. Not only can you enter the library Pavilion, but you can also read so many ancient books inside? If it was me, I wouldn't be willing to spend the points in the library Pavilion. "

Other than Lin Yi, Zhang Yiming was probably the only one who knew the rules of the library!

The points spent there were much more expensive than the cultivation rooms, especially in terms of time, which was very short.

If he really wanted to read so many books inside, he would definitely go bankrupt!

But since Lin Yi said so, Zhang Yiming didn't doubt it. He thought that Lin Yi could really be a scholar. After all, there were many geniuses who had photographic memory!

What he didn't know was that Lin Yi didn't even need to look at it-he only needed to use his spirit sense to scan it, and that was much more impressive than photographic memory ...

"Young master is mighty! Then I'll first tell you about my wind attribute cultivation technique. Have you seen it before, young master?"

Ling Hanxue was eager to give it a try. She raised her hand and requested to be the first to go.

Lin Yi smiled and nodded, signaling for Ling Hanxue to start. Ling Hanxue then told him everything she'd learned, but it was a bit messy since it was an idea.

But Lin Yi's casual words always hit the nail on the head, instantly explaining the things that Ling Hanxue wasn't clear about, giving her a feeling of enlightenment.

"Amazing! Young master, you're really amazing!"

When it was over, Ling Hanxue's face was full of surprise. ""I feel that after chatting with young master, I will be able to complete my final goal!"

If she could cultivate, Ling Hanxue would have immediately started cultivating. She would definitely be able to break through to the third stage of the body tempering cultivation technique!

"Young master, it's a pity that you don't have a wind attribute physique. Otherwise, your wind attribute would definitely be many times stronger than mine!"

Ling Hanxue praised him from the bottom of her heart, but Lin Yi only smiled and said nothing.

Wind attribute physique? There really was! It's just that it's not convenient to reveal it now!

Lin Yi didn't lack anything but stats!

Chen Zhisheng and Zhang Yiming were also amazed. Although they did not have wind-attributed physiques, their beginner level body tempering techniques were similar!

So Lin Yi's interaction with Ling Hanxue gave them a lot of inspiration.

After Lin Yi and Ling Hanxue demonstrated, they started talking to Chen Zhisheng.

Sure enough, Chen Zhisheng no longer had the slightest resistance and spoke of his doubts one by one.

Lin Yi's deep analysis enlightened Chen Zhisheng, and he felt like he was about to improve!

Naturally, Zhang Yiming wouldn't let go of this opportunity. Lin Yi had mentioned before that he could look for him if he had any problems, but Zhang Yiming didn't take it to heart at that time. Only now did he know what kind of opportunity he almost missed.

Lin Yi didn't just give them pointers, he would also throw out questions and answer them with questions. This helped them understand more.

The exchange only ended when it was dark.

Ling Hanxue and the other two had gained a lot and left in a hurry. They were ready to go back and digest it in seclusion. After that, they would wait for a breakthrough!

After sending them off, Lin Yi started to practice other basic body strengthening Arts.

The North Peak was more suitable for cultivating the water and ice attributes. Although the effect was not as good as the cultivation room, it was still better than the other attributes.

The fire element was already way ahead of the others, so Lin Yi decided that he'd start training in all the other elements when he had the time.

After all, Lin Yi felt that he could leave the second one aside after learning the first one ...

Because the power was too great, it was better to wait for the second move to be more powerful before deducing it!

Time always passed very quickly during cultivation. In the blink of an eye, the one-month period had already arrived!

"Young master Sima! Young master Sima!"

Ling Hanxue's voice came from outside the house, and Lin Yi woke up from his cultivation.

"Sister Xue, you're here!"

Lin Yi walked out and saw Ling Hanxue, Chen Zhisheng, Jin Yuan Bao, and Zhang Yiming. He smiled and greeted them,""It's the first test for the new disciples today, right?"

"That's right. That's why we're here to find you. Let's go together!"

Ling Hanxue smiled and bowed. She was very respectful to Lin Yi when there were outsiders.

Chen Zhisheng and Zhang Yiming, on the other hand, cupped their fists and called Lin Yi senior.

As the third senior brother in charge, he was indeed worthy of being called senior brother!

"Why are you here? The test for new disciples has nothing to do with you!"

Lin Yi was talking about Zhang Yiming before turning to Jin Yuan Bao."Junior Jin, how's your progress in cultivation?"

After teaching Ling Hanxue and the other two, Jin Yuanbao also came to the North Peak to find Lin Yi and also got some pointers from him, which saved him a lot of detours in his cultivation.

"I'm just here to watch the fun. I'll wait for you to finish your test and then take over the selection of the steward senior brother!"

Zhang Yiming laughed and patted gold ingot. "He's improved quite a bit, more than enough to pass the test!"

The two chubby boys seemed to be on good terms. Jin Yuan Bao also smiled and nudged Zhang Yiming with his shoulder. "He has indeed improved a lot. I think he's going to be more powerful than him soon!"

"Hehe, Junior Brother Jin, if you want to stand shoulder to shoulder with your senior brother, you need to work harder!"

Zhang Yiming laughed and pushed gold ingot back with his shoulder. "Although I'm not as strong as senior brother Sima, I'm still much stronger than you, Junior Brother Jin!"

Chapter 7310 Al Fan's Impressive Results

"Let's go! The test was probably about to begin. Let's not be late!"

Lin Yi smiled and shook his head. He didn't want to see the two chubby kids bickering anymore. "Everyone should be fine with the test this time. After the test, we can go and take a look at the mission when we're free."

The sword spring sect also had a Mission Hall for disciples to accept missions. Completing missions would earn them sect points.

There was no need to mention the use of points. They were needed to eat, cultivate, exchange cultivation methods, martial arts techniques, and so on. They could also be used to exchange for weapons and armors.

In any case, in the sword spring sect, points were the hard currency. They were even more useful than gold and silver certificates. This was because some things could only be exchanged with points. No matter how many gold certificates one had, they would not be allowed to exchange for them!

Zhang Yiming had only mentioned the mission Hall in their conversation.

Because the new disciples' first month was mainly to practice the introductory body tempering technique to deal with the test, the mission Hall would not be open to them during the first month.

Only the new disciples who passed the test were qualified to go to the mission Hall to accept missions.

Lin Yi still had a lot of points, but it wouldn't last long if he were to use them. He needed to save up some points in case of emergencies!

No one had any objections to Lin Yi's suggestion, and they all headed to the first hall!

When they reached the hall, the new disciples were basically all gathered. Lin Yi and the others were the last group, so they stayed at the back instead of the front.

Naturally, Martial Master Ma saw Lin Yi and the others, and he was a little displeased.

As the third Shixiong, Lin Yi was in charge of these new disciples, but he ended up being one of the last few! This was outrageous!

This was also because Lin Yi only had one fire attribute, but he insisted on staying at the North Peak, which made Martial Master Ma unhappy!

He'd heard that Lin Yi had broken through to the Golden core stage in the practicing room, but he didn't think much of it.

A single fire attribute martial artist who liked to court death, his future achievements could be imagined.

On the other hand, Al fan was doing very well among the outer sect disciples. His reputation had risen greatly, and he had both wood and fire attributes. It was said that elder Qin had the intention of taking him in as a disciple!

"Al fan, you test it first. Show your junior brothers your skills!"

Martial Master Ma thought of Al fan and waved at him. "Don't be nervous. You just need to release your own elemental Qi."

"Yes! This disciple will obey!"

Al fan was pleased with himself. He was the first one to be called out for the test. As expected, he had been looked at in a different light!

This time, the test tool was replaced by a hexagonal crystal pillar that was two times larger than the previous one.

It was white and transparent, and the top of the pillar was faintly divided into sections evenly, a total of ten sections!

Al fan looked humble, but he was actually proud of himself. He walked to the hexagonal crystal pillar and cupped his hands to Martial Master Ma. "Martial Master Ma, I have two attributes. Do I need to test both?"

"Mm ... According to the rules, only one attribute has to reach the level of external release to pass! Of course, if you want to test both attributes, that's not a problem. "

Martial Master Ma paused for a moment before continuing, ""I'll add that in today's test, as long as you perform well, you can get points as a reward. Do you see the segments above? Rank 1 to 3 is a pass, no rewards. Rank 4 to 6 is good, 10 points. Rank 7 to 9 is excellent, 30 points. Rank 10 is perfect, 100 points!"

"Although the reward points aren't a lot and it's just a token of encouragement, I still hope that everyone can get the perfect reward. Everyone, work hard! Especially disciples with multiple attributes like Al fan. You can receive a reward for each attribute as long as you can reach the corresponding rank. "

Lin Yi couldn't help but curl his lips-he should've revealed more of his stats if he'd known this was going to happen! It wasn't every day that he'd get to earn points so easily!

Al fan, on the other hand, was snickering in his heart. He felt that Martial Master Ma's rule was to take care of him and give him the resources.

With two attributes, getting two rewards was a given! He wondered what rank the reward would be.

"Alright, Al fan, go and test it. Hit the crystal pillar with all your might and you'll be able to test how strong your elemental Qi is!"

Martial Master Ma turned to the side and raised his hand to signal to Al fan.

Al fan nodded slightly and took a deep breath. All the muscles and bones in his body trembled slightly. Then, he exhaled, twisted his waist, and punched the hexagonal crystal pillar with all his might.

A Scarlet Aura immediately rose from the transparent crystal pillar. It began to rise rapidly from the base and quickly dyed the hexagonal crystal pillar Red.

Al fan looked at the crystal pillar expectantly, thinking that even if it didn't reach 10 Duan Qi, it should at least reach 7 or 8 Duan Qi, right?

The intensity of fire Qi and wood Qi was about the same. If they were both at the seventh or eighth rank, he would be able to get double the outstanding reward, which was a total of 60 points ... Although it was not much, it was still quite a lot to Al fan!

It could be used to pay for the cost of the cultivation room for more than ten days!

Unfortunately, the speed of the Crimson aura was still considered fast at the beginning, but after it reached the fourth stage, it began to slow down.

After finally reaching the fifth section, he climbed up with great difficulty, and finally stopped at the middle of the fifth section, without any more movement.

Al fan's expression turned a little ugly. This was quite different from what he had expected!

The middle of stage five was still one and a half stages away from stage seven! The reward he received was reduced by two-thirds!

"Not bad. It's already good enough for a new disciple to reach stage five. Do you want to try your wood attribute?"

Martial Master Ma admired Al fan's performance and said, "If your wood attribute can also reach the fifth stage, then your talent can be said to be quite good! If an ordinary person can cultivate any attribute of body tempering technique to the fifth stage of external release in a month, they can be considered a talent!"

"Thank you, Martial Master Ma. Of course, I want to try the wood property!"

Al fan didn't pay attention to Martial Master Ma's words. He took another deep breath and changed to testing his wood attribute.

No matter what, this was related to the reward points.ai fan could only choose to go all out!

Another punch was thrown. The Scarlet Aura from before had long retreated and was replaced by a green aura of the wood attribute!

The situation was similar to before. At the start, it was extremely fast, but after reaching stage four, it began to slow down. It completely stopped when it entered stage five.

Compared to the fire Qi of the fire attribute, this result was slightly worse, but it could be said to be the same. After all, they were both at level five.

Al fan was a little disappointed. It was not as good as he had expected ... The two attribute rewards added together were not even one of the attribute rewards he had expected ...

"Not bad, not bad. You've also reached the fifth stage of the wood attribute.ai fan, your results are quite impressive!"

Martial Master Ma nodded approvingly. ai fan had deliberately spread the news that elder Qin had accepted a disciple. Almost everyone on long whisker peak knew about it, so Martial Master Ma's attitude towards AI fan was completely different.
