

Bodyguard 7311

Chapter 7311 I Must Go All Out ...

Judging from the results of the test, the rumors were not groundless. With Al fan's aptitude, he indeed had a chance of being accepted as elder Qin's disciple.

"Martial Master Ma is too kind! Disciple still has many shortcomings and needs to continue to work hard!"

Al fan bowed slightly and said with a smile, "Elder Qin has taught me that diligence can make up for one's shortcomings. Therefore, I will work harder in my cultivation!"

Although he had not been accepted as a disciple by elder Qin, Al fan had vaguely mentioned it to show that he had a close relationship with elder Qin. Elder Qin was also very concerned about him and would give him some advice from time to time.

"That's right. With talent and hard work, your future achievements are limitless!"

Martial Master Ma didn't hesitate to praise him and then signaled the other new disciples to come forward for the test.

Most of the new disciples were hovering between stage one to stage three. They only passed and it was difficult to get points.

In comparison, Al fan's dual-attribute fifth stage was extremely stunning!

Occasionally, some people would get points, but they could only barely reach stage four. They still could not catch up with any of Al fan's attributes!

It was only when Jin Yuan Bao stepped out that another new disciple at stage five appeared. However, Al fan did not care at all because Jin Yuan Bao was a stage five single attribute. He was still not comparable to a stage five double attribute!

Next was Chen Zhisheng, who was also at level five. He had exceeded the middle line of level five and had reached 90% full. He was almost at level six.

Al fan's face darkened. Although Chen Zhisheng couldn't be compared to him, they were both Lin Yi's underlings. It was annoying that they performed better than his underlings.

Especially Ling Hanxue and Sima Yi, who were next. These two people's talents and aptitudes were the highest in the small group. Would they steal Al fan's limelight?

Al fan's worry was not unfounded. Ling Hanxue went forward to test her wind attribute. Her unique attribute had broken through the shackles of stage six and had just entered stage seven ...

Even though it was only a trace, and he almost could not tell, some people would believe that he was at stage six peak.

However, Martial Master Ma was overjoyed. He had confirmed on the spot that Ling Hanxue had the strength of a seventh-rank elemental!

"Good! Ling Hanxue, you're really a pleasant surprise. You've actually cultivated the special attribute to stage seven! With your talent, there's a high chance that you'll be able to enter the inner sect to cultivate in the future!"

Martial Master Ma clapped his hands and laughed. He looked at Al fan and said, "I thought Al fan's dual-attribute was the only surprise. I didn't expect you, Ling Hanxue, to appear. In terms of combat power, a special attribute might be better than a dual-attribute. However, Al fan's future direction is definitely not just in combat. The two of you can form a very good complement."

Chen Zhisheng's face turned black, and he cursed in his heart!

What was Al fan? I'm not going to use this to complement Ling Hanxue!

Actually, Martial Master Ma did not have any other intentions. He just felt that Al fan would become an Alchemist in the future, while Ling Hanxue would be a powerful warrior. If the two of them worked together, it would have a good effect.

At the same time, he also thought that if he had known earlier, he would have made Al fan the senior brother in charge of the new disciples. This way, he could have formed a good relationship with him earlier.

It was just that Lin Yi's battle record was too dazzling, so it was normal to think highly of him. Unfortunately, the kid didn't listen, and the fire element martial artist wanted to live in the North Peak!

Although he had heard that he had broken through to the Golden core stage, if he stayed on the South Peak, his strength would definitely be stronger!

Martial Master Ma thought of Lin Yi, and his eyes glanced at Lin Yi's direction. His right hand subconsciously pinched his chin, wondering if he should make Al fan the only candidate for the steward.

If Al fan really became elder Qin's direct disciple, then it was necessary to be on good terms with Al fan. As for Sima Yi ... He was a disobedient kid who was courting death. Who cared if he died!

However, there was no rush to confirm the candidates. It was not too late to talk about it after the test was over!

Lin Yi arrived in front of the crystal pillar as he thought about that.

The other new disciples had all finished their tests. Ling Hanxue was the second last one, and Lin Yi was the last one to go up!

"Sima Yi, you're the most outstanding disciple we've ever had. Although you've chosen the North Peak, a place that's not suitable for your cultivation, I believe that you'll still perform well. Don't be nervous, just give it your all!"

Martial Master Ma said faintly, seemingly encouraging Lin Yi on the surface, but his words were actually full of disapproval.

For a single fire attribute martial artist to live on the North Peak, it was already not easy for him to be able to release his fire energy, so what more did he want to show?

Lin Yi's lips twitched. If he were to go all out, the hexagonal crystal pillar wouldn't be enough for the test!

This was because this hexagonal crystal pillar was used to test new disciples, and its upper limit was limited.

After all, everyone had only cultivated an entry-level body tempering technique. At most, they had exchanged for a slightly more profound advanced cultivation technique in the library Pavilion, but its power was limited.

Lin Yi, on the other hand, was a fire-element practitioner's art, a high-tier one in the sect. Even the inner sect disciples "libraries didn't have anything that could compare to this, let alone the outer sect's library.

And so, Lin Yi decided that he'd better keep a low profile and avoid trouble ...

"Yes! I understand and will do my best!"

Lin Yi smiled as he nodded, adding on to the fact that Yingying would definitely go all out-30% should be enough, right?

Originally, he wanted to get the perfect 100 points reward, but after thinking about it, he felt that it was meaningless. If all his attributes were exposed, getting 100 points for all of them was not a small amount.

However, for a single attribute, 100 points and 30 points ... It might seem like there was a big difference, but it was actually not much ...

So Lin Yi decided to control his strength as much as possible and make a position similar to Ling Hanxue's, just a little more than 7th Dan!

But Lin Yi got one thing wrong-the test didn't really look at how much strength you used ...

Martial Master Ma had always encouraged the new disciples to go all out, but he hadn't explained clearly that the test this time was not to test the strength, but the purity of the strength!

For example, the purity of the fire Qi would directly affect the following body tempering cultivation. The test was to determine whether the new disciples were qualified to accept the advanced cultivation method!

Jin Yuan Bao and Chen Zhisheng's strength wasn't the best, but under Lin Yi's guidance, they both reached stage five pure!

Ling Hanxue had even entered stage seven. She could be said to be one of the few outer sect disciples who were worth focusing on.

Lin Yi, on the other hand, had a high class practitioner art-he didn't need any special training from the outer sect, since his Arts were many times better than the highest class of the outer sect ...

Chapter 7312 Perfect Rank 10

So Lin Yi thought that he could hide his strength by only using 30% of his strength, but the result was obvious!

He slapped his palm on the hexagonal crystal pillar and released a fiery aura. The transparent hexagonal crystal pillar did not even go through the process of rising from the bottom to the top. It directly turned into a completely Crimson crystal pillar!

10th Dan!

It was perfect!

Martial Master Ma's jaw dropped and he couldn't close it anymore.

What the f \* ck was this?

Didn't they say that the North Peak wasn't suitable for fire attributed cultivators to cultivate?

Could it be that the North Peak's environment was actually the most suitable for fire attribute practitioners to cultivate? Was it all a misunderstanding in the past?

Lin Yi was confused as well-this was the classic example of a misunderstanding!

He had been misled by Martial Master Ma's words and thought that it was a test of the strength of the fire Qi. But now, it seemed that it was clearly a test of purity!

Although Lin Yi knew that he was strong, he didn't think that 30% of his strength was several times stronger than Al fan's full strength. He immediately realized that he was an idiot!

What 30%... Even if it was 10%, as long as the fire Qi was triggered, the test result would not change at all!

Al fan had a smile on his face, but that smile was a little awkward. Stunning dual attributes ... Stunning my ass!

In the face of Sima Yi's perfect fire Qi, any dual-attribute would be instantly reduced to dregs!

"Ha ... I'm so lucky? He accidentally got a perfect result ... Martial Master Ma, the result shouldn't change no matter whether this crystal pillar is broken or not, right? The disciple's reward won't be small, right?"

Lin Yi retracted his palm, embarrassed. The others didn't know, but he knew that Lin Yi would feel embarrassed if he made a mistake. He changed the topic to wake the shocked Martial Master Ma.

"Eh ...? Oh, no, no... There shouldn't be a problem with the crystal pillar, the reward, and the test ..."

Martial Master Ma's thoughts were still in a mess, and he was somewhat incoherent. After calming down, he smiled and said, ""Sima Yi, you're really amazing, to be able to train to the tenth level of fire Qi, amazing! He's a genius indeed!"

No, he was not a genius, he was a monster! To be able to cultivate ten stages of pure fire Qi on the North Peak, how the F \* ck could he still let people live?

In the future, shouldn't he transfer all the fire attribute disciples to the North Peak?

Martial Master Ma suddenly remembered his plan to make Ai Fan the Senior Manager and kick Lin Yi out!

Thank goodness ... I didn't really say it out loud just now, or else this matter would have blown up!

A new disciple whose fire Qi purity had reached the perfect tenth rank was not qualified to be the senior brother of the steward? Then the Martial Master of Long Whisker Peak would probably be replaced.

If there were any talents in the outer sect, they had to be sent into the inner sect-this was one of the requirements for the long whisker Peak's test. With Lin Yi's strength and potential, Martial Master Ma felt that Lin Yi might be the first to enter the inner sect.

Therefore, the steward's third senior brother's candidate spot had to be given to Sima Yi!

As for Al fan, he was also a talent and had the potential to become elder Qin's disciple. There should be a candidate spot. If it didn't work out, he would promote him to be his accompanying disciple!

The accompanying disciples had to pass on the Martial master's orders at all times. Although they weren't the senior Steward, they represented Martial Master Ma himself. In terms of authority, they were definitely not inferior to the senior Steward!

This was also a form of compensation in disguise. Would Al fan be satisfied?

Martial Master Ma's mind was full of thoughts, and he had already thought of many things in an instant. However, his face returned to normal and he said with a smile,""The first stage of the test has ended. Everyone's performance was very good, especially Al Fan, Ling Hanxue, Sima Yi, and the others. They were extremely amazing. I believe that you will all become inner sect disciples and then grow into the elites of the sect!"

Some of the disciples were clapping in response, and Lin Yi and the others could only follow along.

Martial Master Ma raised his hands and pressed them down slightly. After the applause died down, he continued, "Next up is the martial arts demonstration. I didn't give you any martial arts when you entered the sect, but at the end of the introductory body tempering cultivation method, there was information on martial arts. I believe that some people will go to the library Pavilion to exchange for a martial arts technique that is suitable for themselves."

Everyone was silent. There were indeed people who went to exchange for martial arts techniques, but most people didn't move.

After all, the points he had were limited. He only had the basic 100 points, which was barely enough to eat. He couldn't go to the cultivation room often either, and it was the lowest level cultivation room.

Under such circumstances, it was already very good to be able to release elemental Qi. He really didn't dare to think about martial arts techniques.

Only people like Lin Yi, who didn't lack money, would exchange for martial arts.

"Disciples who haven't exchanged for a martial technique don't need to worry. It won't affect your results. As for those who have exchanged for a martial technique, as long as you can successfully activate it, you'll be rewarded with additional points!"

Martial Master Ma comforted most of the people and then gave a small number of people a surprise. "If you successfully activate the first form, one-third of the points will be refunded, the second form will be two-thirds, and the third form will be completely refunded! Any more than that would be an additional reward. If it can be fully activated, the maximum reward would be double the exchange points!"

Lin Yi was happy to hear that-he didn't choose the low level martial arts on the second floor, but the high level fire spirit sword technique on the fourth floor! He spent a hundred points just to exchange for it, not to mention the reading fee!

As long as he activated all of them successfully, wouldn't he be able to get back the cost of reading?

With Lin Yi's current strength, he wasn't able to fully activate the new fire spirit sword technique, but the original one was fine. He didn't think that there would be such a benefit!

Martial Master Ma probably didn't expect that someone would actually practice the martial technique from the fourth floor of the shared library Pavilion ...

Ordinary new disciples didn't even have the right to enter the fourth floor. At most, they could exchange for items on the third floor, and they needed points to do so.

Most people could barely exchange for martial arts techniques on the second floor. How many points did the martial arts techniques on the second floor cost? Double the effort was nothing.

"Do you all understand? This is also considered a benefit for you new disciples. Who wants to give it a try? Just come out, it doesn't matter if you fail!"

Martial Master Ma's eyes were full of encouragement as he swept across the whole place. Some of the new disciples who had exchanged for martial techniques hesitated a little, but finally made up their minds to come out and try to urge the martial techniques.

However, they did not cultivate much after exchanging for the martial arts techniques. In order to cope with this test, most of them put body tempering cultivation techniques as their top priority.

In addition, they were inevitably nervous when facing Martial Master Ma, so the process became more and more unsuccessful. After the two failed, no one was willing to come out and embarrass themselves.

Martial Master Ma had anticipated such a situation. He was still looking forward to Al fan and the others.

#### Chapter 7313 Martial Skill Test

Jin Yuan Bao, Chen Zhisheng, and Ling Hanxue looked at each other and shook their heads slightly.

Of course, they had also cultivated martial arts techniques, but like the others, their focus was on body tempering cultivation techniques. Therefore, it was more difficult to successfully activate the martial arts techniques, so they could only give up on this reward.

If he had known earlier that there would be such a segment, he would have properly cultivated his martial arts!

"Al fan, did you exchange for a martial arts technique?"

Martial Master Ma looked at Al fan with a pleasant expression. If he wanted to promote Al fan, he had to give him enough opportunities to perform. Thus, Martial Master Ma directly named him. "If you want to exchange for a martial skill, why don't you come out and demonstrate it?"

"Yes, this disciple will follow your orders!"

Al fan had already returned to normal. He cupped his fists and said courteously, "Then this disciple will come out and show off. I'm not skilled enough, so please don't laugh at me, Martial Master Ma, senior brothers, senior sisters, junior brothers, junior sisters!"

Martial Master Ma nodded slightly. ai fan's aptitude aside, at least his attitude was not bad!

After Al fan finished speaking, he stood at an empty spot. His expression turned serious and his body instantly stretched out, assuming an attacking posture.

At the same time, Al fan's body was surging with fire Qi. He was obviously preparing to activate a set of fire attribute martial arts technique.

Lin Yi raised an eyebrow-from Al fan's stance, he'd exchanged for the third floor's martial arts. It was obvious that he didn't care about the lower-level ones on the second floor.

If Al fan had the right to go up to the fourth floor, he would probably want to go up as well.

Of course, Al fan didn't have enough points to exchange for a skill even if he went to the fourth floor. Among all the new disciples, only Lin Yi had the confidence to go to the fourth floor.

"Hehe, Yingluo!"

Al fan exhaled and shouted. His fists and legs were extremely fierce. For a moment, heat waves overflowed in the field. It was quite powerful, but unfortunately, after one move, he could not continue.

Lin Yi curled his lips-he'd copied this fire-type skill as well, so he knew that Al fan had managed to activate it, but it was a struggle!

Don't look at the momentum, it was only about 60% of its normal power.

Hmm ... It could be considered a success!

Martial Master Ma, on the other hand, nodded with a smile. He could tell at a glance that it was a martial technique from the third floor, so he was satisfied with Al fan's ability to execute the first move.

It wasn't an easy task to do this. After all, Al fan's main focus was on body tempering cultivation techniques.

Moreover, it was not just one attribute, but a dual attribute cultivation. The time required was definitely not as simple as twice that of ordinary people.

"Martial Master Ma, I'm sorry. I'm not familiar with the first move of this martial technique. I'm slightly better at the first move of the other martial technique!"

Al fan stopped and stood up straight. He smiled slightly reservedly. "Because I have dual attributes, I exchanged for two sets of martial skills. They complement each other and will be more powerful. It's just that I haven't mastered it yet, so I can't unleash its power. Martial Master Ma, please give me some pointers. "

With that, Al fan got into a fighting stance and used the first form of a technique. This time, it was a wood element technique. Lin Yi took a look-it was from the third floor again!

Just as Al fan had said, the proficiency of the first form of the wood attribute martial arts technique was slightly better!

However, it was only slightly better than the first form of the fire attribute martial skill. The power that could be exerted was about seventy percent of the normal state.

Then, there was no then. The only martial arts techniques Al fan could master were these two immature first moves!

"Very good! "The difficulty of activating the first move of a dual attribute martial arts technique is more than twice that of a single attribute martial arts technique.ai fan, if you focus on practicing and familiarizing yourself with it, both the cultivation technique and the martial arts technique will have a substantial improvement. Dual attributes can be said to be your advantage, but it will also be your disadvantage, because you need to put in more effort than ordinary people!"

Martial Master Ma complimented Al fan with a smile and gave him a few words of advice, acknowledging Al fan's ability and talent.

The new disciples immediately had a feeling that if Al fan only cultivated a single attribute, his achievements in cultivation techniques would definitely not be inferior to Sima Yi 's!

Although Martial Master Ma didn't say it explicitly, he was vaguely supporting Al fan.

Lin Yi smiled faintly, not minding it at all. Perhaps what Martial Master Ma said made sense-Al fan's progress would be good if he focused on one attribute, but to be on par with him?

Forget it.

Whether it was martial arts or martial arts, Lin Yi's skills were superior to Al fan's in terms of quality, let alone his progress!

Lin Yi's completion rate was way higher than Al fan's low-tier martial arts and martial arts, even if it was a high-tier martial arts and martial arts technique. What right did Al fan have to compete with him?

"Many thanks for Martial Master Ma's guidance! Disciple will definitely remember this and cultivate with a more diligent attitude to meet Martial Master Ma and elder Qin's expectations!"

Al fan didn't know about Lin Yi's disdain. He was expressing his gratitude to Martial Master Ma and talking about elder Qin as if he was very close to elder Qin.

Lin Yi was getting more and more disdainful. Ai fan wanted to use elder Qin to gain power, but he put Martial Master Ma in front of him. Was this respect for elder Qin?

To be honest, Lin Yi didn't think it was a good thing for elder Qin to take Ai fan as a disciple. Ai fan was too scheming and calculative-he wasn't suitable for a loyal elder like elder Qin.

Lin Yi wouldn't care if it was someone else, but elder Qin had been taking care of him, and he wasn't just some random guy!

"Martial Master Ma, I've also exchanged for a set of martial arts techniques. I'd like to show my incompetence and make everyone happy!"

Lin Yi walked out casually. He had planned to use the fire spirit sword technique to earn some points, and now his goal was clear-he wanted to suppress Ai fan's arrogance first!

Ai fan was a little angry at Lin Yi's interruption, but for the sake of his image, he held it in and stepped aside with a smile, "Brother Sima, you're so talented. I think you'll be more proficient in your martial skills. I can learn a thing or two!"

Such a humble attitude naturally added points to Ai fan's image, but Lin Yi didn't buy it at all.

"Ha ... Young city Lord Ai is right. You can indeed learn a thing or two from my martial arts techniques. I don't have any wood attribute techniques for the time being, but I might be able to give you some insight into the fire attribute!"

Lin Yi didn't stand on ceremony and acted like a master, his expression clearly saying that he was stronger than her!

Al fan was suffocating, but he still forced a smile on his face and nodded in agreement. Even he felt a little cheap ...

It was as if he had been slapped in the face and still laughed and said that it felt good ...

Lin Yi ignored Al fan and cupped his hands to Martial Master Ma. "Martial Master Ma, please give your disciple a few more words of guidance later!"

Chapter 7314 Perfect Interpretation Of A Martial Technique

"You may begin!"

Martial Master Ma nodded expressionlessly. Lin Yi stepping on Al fan was indirectly disrespecting him. After all, he was obviously flattering Al fan just now.

Martial Master Ma really didn't like people like Lin Yi!

Lin Yi's lips curled up as he unsheathed the demonic devour sword. The black light first bloomed, then turned into a dark red light, and a heat wave surrounded Lin Yi.

Fire spirit sword technique, first form, Starfire!

The dark red light sparkled in all directions, and Martial Master Ma's face changed!

Fire spirit sword technique?

As a Martial Master of long beard Peak, he knew what fire spirit sword technique was!

In theory, the fire spirit sword technique was the highest level of martial arts technique that outer disciples could learn, and only senior outer disciples were qualified to learn it!

Sima Yi was just a new disciple, how did he learn the fire spirit sword technique?

Before Martial Master Ma could react, Lin Yi unleashed the second stance, dry firewood burning fire, which was even more powerful!

This was the original fire spirit sword technique. In terms of power, it was far from being comparable to the new fire spirit sword technique. However, it was definitely a top martial arts technique in the outer sect.

Plus, Lin Yi's proficiency level was higher than Al fan 's. Comparing the two, Lin Yi's aura was naturally stronger.

Martial Master Ma's face changed again as he came back to his senses. He realized that not only did Lin Yi use the fire spirit sword technique, but his moves and power were also perfect!

What kind of a monster was this?

The purity of his fire Qi was perfect, and he had even mastered the high-level martial technique, fire spirit sword technique?

Although he had only used two moves, was that the end?

Lin Yi immediately used his actions to tell him that the two styles weren't the end, they were only the beginning!

The third move, retrieving chestnuts from fire!

The fourth move, boiling oil!

.....

The tenth stance,[rise from the ashes]!

This was true perfection!

The fire spirit sword technique was executed without any hinderance, and every move had a small increase in power. Martial Master Ma was already numb from the shock, and he almost couldn't help but cheer for Lin Yi!

A new disciple reaching this level within a month ... It was only a single fire element, but Martial Master Ma already felt that Lin Yi should go into the inner sect ...

Al fan's face was extremely ugly. He wanted to fight Lin Yi for the position of steward, but after seeing Lin Yi's strength, he honestly didn't have the confidence to fight back. He was definitely not Lin Yi's match in a direct fight!

Martial Master Ma looked at Lin Yi, dumbfounded. He then looked at Al fan, wondering if he should promote Al fan.

After all, Al fan and elder Qin's relationship was just a rumor, and it wasn't a reality yet. Lin Yi's talent and strength were already amazing enough!

Lin Yi was obviously dissing Al fan just now, so their relationship wasn't that good. Offending Sima Yi in order to promote Al fan, was this a deal?

Martial Master Ma's heart wavered, but he couldn't just ignore Lin Yi's performance. He quickly adjusted his mood and started clapping with a smile.

"Good! It was too awesome! Sima Yi, you're really a genius. You've surprised me again and again! I didn't expect that the fire spirit sword technique would be so perfect in your hands! Amazing! He's really amazing!"

Martial Master Ma praised from the bottom of his heart. Not many senior disciples could use the fire spirit sword technique to this level, let alone Lin Yi who did it all in a month!

"Today's new disciple test has come to an end. Sima Yi has given us a perfect ending, everyone should thank him! I believe that his display of martial skills will also bring you great inspiration! I hope that all of you will work hard and set Sima Yi ... And Al fan as your goals and role models to catch up and even surpass them!"

"What Al fan said just now was very good. If you work hard, you'll definitely gain something. Even if there's a difference in talent between the two of you, as long as you work hard and cultivate, there's definitely room for growth!"

Martial Master Ma gave an impassioned summary, and the new disciples could only nod in agreement. After a long while, Martial Master Ma prepared to end his speech. "Alright, that's all for today. Everyone can go back! By the way, the selection for the steward senior brother will begin tomorrow. All of you must come and participate. After all, the selected steward senior brother is related to you. Disband!"

It was obvious that everyone present knew about the selection of the steward. Therefore, not many people were surprised and nodded in agreement.

Lin Yi looked at Zhang Yiming-the fatty was just a bystander, not saying anything. But the information was accurate-the steward's selection was after the test.

However, it wasn't going to start immediately. It would be held the next day. Also, Martial Master Ma said that it was the selection of the steward senior brother candidate. Perhaps tomorrow wasn't the official Selection.

In that case, it wouldn't be a problem to complete the candidate selection today, right? Or did he feel that there was still time, so it didn't matter if he spent another day?

Lin Yi only curled his lips at the thought-these were all minor details, and Martial Master Ma could do whatever he wanted.

After saying goodbye to Martial Master Ma, Lin Yi led his small group out of the hall. The other new disciples also left in twos and threes, leaving Al fan at the back.

After everyone had left, Al fan immediately went to Martial Master Ma's side, smiled, and cupped his fists."Martial Master Ma, disciple's performance was alright, right?"

"Al fan, your performance was very good! He's definitely one of the top disciples among the new disciples. Even among the old disciples, he can occupy a place. "

Martial Master Ma nodded with a smile and said politely, ""Just tell me what you want to say to this Lord, there are no outsiders here!"

"Martial Master Ma is really straightforward. Disciple will get straight to the point and no longer hide it!"

Al fan laughed. He first looked at the entrance of the main hall. After making sure that no one was there, he quickly said, "Martial Master Ma, elder Qin won't give up on me. I'll be accepted as a personal disciple soon, and I might even become a core disciple of the sect! After all, you should know how important an Alchemist is to the sect. "

Martial Master Ma's expression changed. He nodded slightly and said, "Indeed, a powerful Alchemist is too important to the sect. Becoming a core disciple is not a problem at all."

Although elder Qin and the higher-ups of the sect were unhappy, it didn't affect elder Qin's personal disciple's soaring!

After all, if you didn't value a pill master, many other sects would.

Chapter 7315 Forcefully Appointing A Candidate

Therefore, after hearing Al fan's words, Martial Master Ma's evaluation of him instantly improved!

Al fan, who was rumored to be elder Qin's disciple, and Al fan, who was confirmed to be elder Qin's disciple, were two completely different people!

"Martial Master Ma is wise! But here comes the problem, disciples will soon become core disciples, but if they are just ordinary outer disciples, when they become core disciples in the future, I'm afraid they will be laughed at, don't you think so?"

Al fan stared at Martial Master Ma with burning eyes. He continued after the latter nodded in agreement. "That's why this disciple would like to ask Martial Master Ma to make things convenient for this disciple and let this disciple become the Senior Manager. This way, this disciple will have some face in the future. Of course, I will never forget Martial Master Ma's help!"

Martial Master Ma secretly curled his lips. This brat really knew how to open his mouth. He wanted to directly become the senior brother steward and even wanted to skip the candidate.

Although it was true that the martial masters had the final say in the selection of the steward senior brother, they still had to put in enough effort on the surface.

In particular, Sima Yi had displayed shocking talent. Even if Al fan really became a core disciple, it was hard to say that his combat power would be stronger than Sima Yi in the future.

At a time like this, he definitely could not offend Sima Yi openly, or else he would be bringing disaster upon himself!

"If you want to become the senior Steward, of course, there's no problem. You're qualified enough. However, I can't make a decision on this matter. You still need to work hard!"

Martial Master Ma pondered for a moment and decided to support Al fan to a certain extent. "I can give you the qualifications of a candidate, and then in the official Selection competition, I can make a favorable judgment in your favor. But whether you succeed or not in the end, it still depends on you."

"That's enough. Thank you, Martial Master Ma!"

Al fan smiled with satisfaction. Being a candidate had already met his expectations. It would be better if Martial Master Ma had agreed to let him become the senior Steward!

After the two finished their discussion, they smiled and exchanged a few words before they parted ways.

The next morning, everyone gathered in the main hall again. After Martial Master Ma and the others were all present, he walked back and forth unhurriedly and began his speech.

"As everyone knows, today is to determine the candidate for the steward among the new disciples to participate in the outer sect's steward's senior brother selection competition. Among the old disciples, there is already a candidate, and now it's all up to you to decide."

"There are only two candidates among the new disciples! This is because Sima Yi was previously appointed by this seat as the third senior brother in charge, and he has also done quite well in this one month. His strength is also very strong, so he will have a spot!"

Martial Master Ma had already made up his mind not to offend Lin Yi out in the open, and so he'd chosen him as one of the two candidates.

Lin Yi chuckled to himself-what had he been doing this whole month?

To be honest, he only used his identity as the third senior brother in charge twice in the cafeteria this month. He didn't take it seriously at all the other times, okay?

Of course, Lin Yi wouldn't go out of his way to say that he didn't do anything if Martial Master Ma said so-it was fine as long as everyone knew what he did.

After Martial Master Ma finished talking about Lin Yi, it was time for the main event. He first looked at Ling Hanxue, then turned to Al fan and said after a moment of silence, ""For the next candidate, Al fan and Ling Hanxue are both very suitable. However, in terms of dealing with people and matters, Al fan is more capable, and senior brother steward has quite high expectations in this aspect. In addition, Al fan's strength is also quite extraordinary, so I feel that Al fan is more suitable to be the second candidate."

Ling Hanxue didn't mind-she never wanted to fight for the position with Lin Yi, but Chen Zhisheng didn't want to!

"Martial Master Ma, I feel that Ling Hanxue is not inferior to Al fan in any aspect. Why is Al fan more suitable?"

Chen Zhisheng didn't care, he twisted his neck and said,"This disciple feels that Ling Hanxue is more suitable. Why don't we let the two of them compete to see who is more powerful! Whoever wins will become the candidate!"

"Retreat! Do you have the right to speak here?"

Martial Master Ma's face darkened as he shouted, ""Do you think it's your place to point fingers when I'm speaking?"

Al fan was also unhappy. If he were to compare himself to Ling Hanxue, he really did not have much confidence!

After all, Ling Hanxue had a wind attribute physique and was also a long-range Archer. Even if she did not have any martial arts skills to complement her skills, she could kill him with just her arrows.

Facing a wind attribute Archer, Al fan knew that he would most likely be kited to death!

Unless the two of them were in a small space, limiting Ling Hanxue's movement space. However, such a victory would only make others gossip!

Chen Zhisheng's face was tense and he was still not convinced. Although Ling Hanxue pulled him twice, he refused to back down.

"Ling Hanxue is indeed very outstanding. Since that's the case, you guys can decide who should be one of the candidates!"

Martial Master Ma's mouth curved into a sneer, and he waved his hand, pretending to be generous. ""Now, those who support Ling Hanxue as a candidate, raise your hand!"

Other than Lin Yi's side, no one else raised their hand to support him. This was normal-they had the mentality of following the crowd, and if the majority didn't do anything, the few who hesitated wouldn't.

Most of the people present were Al fan's men, so there was no suspense about the result.

"Next, those who support Al fan, raise your hands!"

As soon as Martial Master Ma finished speaking, most of the people who hadn't raised their hands before raised them. There was no suspense!

Al fan could defeat all the new disciples in the voting round!

"Alright, this matter is settled! As the representatives of the new disciples, Sima Yi and Al fan became the candidates for the steward senior brother's selection. Tomorrow, we'll have an official battle in the martial arts practice field!"

Martial Master Ma was satisfied with the results. As for what would happen tomorrow, he had a rough idea. Even if Sima Yi lost, he would not be blamed.

When the time came, he would comfort Sima Yi in private and not offend either side. Both sides would owe Martial Master Ma a favor. This was a good thing!

"It's still early today, so I'll give you a formal lesson here and give you some guidance. If you have any questions, just ask!"

Martial Master Ma was in a good mood, so he sat on the chair and began to teach seriously.

Lin Yi didn't feel anything at all-he'd rather go back to the North Peak and learn some other Arts than wasting time here. He left the hall after a while.

Ling Hanxue and the others followed Lin Yi's lead, and Martial Master Ma's explanation didn't seem to be any better than Lin Yi's. In fact, it was worse, so they left with Lin Yi.

Chapter 7316 Al Fan Raises The Flag

Martial Master Ma didn't mind. He thought that it was normal for Lin Yi's group to be unhappy when Ling Hanxue was in a bad mood and let them be.

At night, Lin Yi brought Ling Hanxue and the others to the cafeteria for dinner. He happened to see Al fan ordering the new disciples who supported him during the day.

"Brothers and sisters, thank you for your support today, so I'd like to treat everyone to a meal. Don't stand on ceremony, take whatever you want to eat!"

Al fan waved his hand in high spirits. He pointed at the food that required additional points and said, "There's no problem with the food here. If you want to eat, just eat. You don't have to save for me!"

Ordinary food could only be filled with one point, and one could eat as much as they wanted. On the other hand, food that required additional points would be of a higher grade, and if there were many people, the expenses would not be small.

Al fan probably felt that he had gained something from his cultivation methods and martial arts techniques, so he didn't mind spending more points to win people's hearts.

"Senior brother Al is forthright! With senior brother Al as the steward, we'll all have a good life in the future!"

He was one of Al fan's lackeys, so he naturally had to do his best to boost Al fan's reputation.

Those new disciples who were not Al fan's trusted subordinates naturally cheered and echoed him so that Al fan would not bear a grudge against them.

Al fan laughed out loud and stretched out his hands, saying, "Thank you all for your kind words. To be honest, even if I really become the senior brother manager, I'm afraid I won't be able to do it for long because elder Qin has the intention to take me as his personal disciple. Everyone should know the meaning behind this, right?"

Of course, no one knew about it. That was why Al fan's Lackey came out at the right time to show his support and let everyone know.

"Elder Qin's direct disciple, that status is equivalent to a core disciple! The sect probably wouldn't be stingy with giving senior brother Al the status of a core disciple, right? Aiyo, senior brother Al, you're going to skip the inner disciple stage and become a core disciple!"

It had to be said that this sidekick's skill was quite impressive, and it immediately caused waves of exclamations!

A core disciple!

That was definitely the top existence in the sword spring sect!

Even some ordinary martial masters had to greet the core disciples when they saw them. From this, it could be seen how noble the status of the core disciples was.

Al fan was extremely pleased with himself. He had intentionally revealed this information not only for the sake of the new disciples. There were many more senior disciples in the canteen who would naturally remember this news after hearing it.

When it was time for the selection, those who heard the news would know what to do!

In fact, there was no need to wait for the future. There were already many people who came forward to greet Al fan cheerfully. They wanted to get to know Al fan and express their support for him, hoping that Al fan would successfully become a Senior Manager tomorrow.

Lin Yi was disdainful of Al fan, feeling that he was becoming more and more like a clown. He didn't have the shrewdness he'd had when they first met.

But Lin Yi had a guess now-could Al fan's purpose of entering the sword spring sect be to become elder Qin's disciple? That's why he stayed in the outer sect and didn't enter the inner sect?

Although he would have the opportunity to meet elder Qin after entering the inner sect, Al fan's talent would not be considered outstanding in the inner sect. He would only be mediocre.

The inner sect's cultivation would also be stricter. Diligence was the minimum standard. If he wanted to gain elder Qin's favor, this point would not count!

Al fan's plan was well thought out, but Lin Yi still couldn't understand why he would help him before.

If Al fan had not helped at that time, although he might not necessarily be in trouble, in the eyes of a normal person, he would most likely have been kicked out of the sword spring sect.

In that case, Al fan would have fewer opponents. Could it be that Al fan had calculated that nothing would happen to him, so he was deliberately trying to be friendly?

However, he had already expressed his goodwill, so why did he show hostility and then reject her?

Why did he want to snatch the position of the steward's third senior brother even more?

These actions were really confusing!

Lin Yi shook his head to get rid of these boring thoughts and ignored Al fan. He brought Ling Hanxue and the others to get some food and started eating.

A black-robed disciple entered the canteen when Lin Yi was almost done eating.

The man looked around and walked straight to Al fan's side. He said with a cold expression, ""You are Al fan? Elder Qin wants you to go over, come with me!"

Al fan's expression changed. He quickly stood up and cupped his fists. "How should I address senior brother? What's the matter, elder Qin?"

When the surrounding outer sect disciples heard elder Qin's name, they instantly stopped moving.

Even if a mouthful of food was brought to his mouth, he did not dare to continue eating. Instead, he maintained his posture and looked at the black-robed disciple and Al fan talking.

"I'm elder Qin's in-name disciple. You'll know why elder Qin is looking for you. Are you leaving or not?"

The black-robed disciple flicked his sleeves. There was a dark golden edge on his sleeves, which distinguished him from the other outer sect disciples.

This was probably the unique symbol of elder Qin's disciples?

Lin Yi remembered the white-robed disciple who gave him the refiner's Arts-he had the same dark gold lining on his collar, confirming once more that he was sent by elder Qin.

Al fan rolled his eyes and immediately said with a smile, "Let's go, of course we'll go! Since elder Qin has summoned me, I will go with senior brother! It's most likely that elder Qin knows about the selection of senior brother steward tomorrow and has some things to tell me. I'll go and listen to his teachings. You can go back after eating. "

"Go ahead, senior brother Al. We can only be envious of elder Qin's high regard for you. We wish senior brother Al victory tomorrow!"

Some of the faster-reacting lackeys immediately started to Pat their horses, and the still scene suddenly became lively.

In the midst of all the commotion, Al fan smiled and greeted everyone, then left the cafeteria with elder Qin's in-name disciple.

Although Al fan had said that elder Qin valued him, he knew that the matter wasn't that simple.

If elder Qin really valued him, how would this in-name disciple dare to show such a cold expression?

Lin Yi only glanced at Al fan, not too interested.

Lin Yi didn't think Al fan was good enough for elder Qin to take him as a disciple, but it was elder Qin's personal business. He couldn't say anything.

Al fan was a little nervous. After leaving long whisker peak, he saw elder Qin standing on a rock with his hands behind his back, looking at the moon in the sky at a 45-degree angle.

"Disciple Al fan greets elder Qin!"

Al fan took a few steps forward and quickly came behind elder Qin. He bowed and cupped his fists. "I wonder what instructions does elder Qin have for me?"

"Al fan, I've heard that you've been publicly promoting your position as my personal disciple? Is there such a thing?"

Elder Qin turned around and looked down at Al fan.

Chapter 7317 The Selection Of Senior Brothers

As his back was facing the moonlight, his expression was not obvious, but his words carried a faint coldness and anger!

"Yes ... This disciple did say something similar, but it wasn't too clear!"

Al fan's heart skipped a beat. At this moment, he could only brace himself and admit it to a certain extent.

After all, what he had said in the cafeteria tonight should not have reached elder Qin's ears so quickly. "Actually, I'm not speaking nonsense. Elder Qin, you did mention before that you have the intention of taking me as your disciple ..."

"Impudent! Just because I have this intention, you can go around and talk about me? This old man saw that you were quite diligent, so he wanted to give you a chance! Look at what you've done!"

Elder Qin raised his voice and shouted, ""Using the Tiger's skin as a banner! It's not that this old master is stingy with his reputation, but your methods are completely not something that a down-to-earth and hardworking person should do. If you have that time, why don't you use it to cultivate?"

In addition to this, elder Qin was even angrier about Al fan's approach. It might eventually become a public opinion kidnapping, forcing him to accept a disciple even if he didn't want to!

After all, elder Qin knew his own personality. He was definitely not a cruel person. If the matter was blown up, even if he was dissatisfied with Al fan, he would still take him in as a disciple on account of his dual-attribute aptitude.

Furthermore, with elder Qin's injuries ... There was no way he could continue waiting for the next suitable candidate to appear!

"Elder Qin, I was wrong. I just wanted to improve my reputation so that it could match master's status. I didn't want people to say that master took in a mediocre disciple ... So, please don't be angry with me on account of my sincerity."

Al fan's mind raced. He put on a pitiful expression and begged, "Whatever punishment there is, disciple is willing to bear it. Master, please don't be angry. If anger harms your body, it will be disciple's fault!"

"Shut up, I'm not your master yet! You're not my disciple either!"

Elder Qin did not hold back at all and continued to chide, ""Don't think that I'll accept you as my disciple just because you're like this. I only wanted to give you a chance because your aptitude was acceptable and you were diligent enough. However, an opportunity is just an opportunity. It doesn't mean that you're qualified to call yourself my disciple! You can't even be considered an in-name disciple, let alone a personal disciple. "

"Yes! This disciple has made a mistake, please punish me, elder Qin!"

Al fan knelt down on one knee, lowered his head, and admitted his mistake. "If you want to beat or scold me, I will bear all the consequences. Please don't be angry, elder Qin!"

Elder Qin felt helpless. Faced with Al fan's attitude, the anger in his heart dissipated a lot. He couldn't really scold him.

"Forget it ... Today's matter will end here! Remember, before you officially join the sect, you are not allowed to say that you are my disciple! And whether or not you can become a personal disciple, you'll have to accept my subsequent tests. It's not that simple!"

Elder Qin was silent for a moment before he said indifferently, ""This old man admires the diligent younger generation, and also admires the down-to-earth and low-key people. Don't do those sensationalizing things again!"

"Yes, this disciple will remember!"

Al fan heaved a sigh of relief. He knew that he had passed this stage for the time being!

As for the matter of using the Tiger's skin to raise the flag, since the flag had already been raised, he couldn't go and explain to everyone that he, Al fan, wasn't elder Qin's disciple, right?

Elder Qin probably wouldn't let Al fan do such a thing, so Al fan still achieved his goal in the end!

Elder Qin was naturally well aware of this, so he was secretly a little unhappy. If Al fan's aptitude wasn't good and no one else could replace him at the moment, he really wouldn't want such a disciple.

There was no other choice now. He could only give Al fan a chance ... He hoped that he would not disappoint him again!

"Let's return! I heard that you'll be participating in the selection of the outer sect disciples, senior brother manager. This old man will pay attention to your performance!"

Elder Qin waved his hand to send Al fan away, but he still felt a little disappointed.

There was only one disciple who met the requirements, so he really couldn't just reject him!

How good would it be if Sima Yi had the wood element? That would be the perfect candidate for a disciple! It was a pity ...

The next day, the new disciples gathered in the main hall again. Then, Martial Master Ma led them to the outer practice field.

The martial arts practice field was located halfway up the long whisker peak, at the junction of the north and south peaks. It was a natural platform.

The sword spring sect had built a building that was similar to a basketball court in the secular world, but the audience seats around it were all open air.

There was no fence in the middle of the ring, and it was about 60 centimeters higher than the ground. It was a height that could be stepped on with one step. The audience sitting in the row below would not hinder their view. On the contrary, they would have a better viewing angle.

On the side directly facing the entrance of the martial arts practice field, there was a platform about three meters high. All the audience could focus their attention on it.

Normally, this was the place where the highest-ranking people in the sword spring sect would watch the matches. Sometimes, it was also used as a place for the host to give a speech.

Lin Yi looked around and estimated that there were hundreds of seats around. Only a quarter of all the outer disciples of the long whisker peak could sit there, and he guessed that there might be inner disciples here.

Of course, the people present today were basically outer sect disciples. Because the place was big enough and there were enough seats, many people were divided into factions. For example, the people of the eldest senior brother sat on the South Stand, and the people of the second senior brother sat on the West Stand.

Martial Master Ma led the new disciples to the empty North Stand, and Lin Yi's supporters also distanced themselves from Al fan's group.

Zhang Yiming saw the new disciples and ran over to greet them.

"Senior brother Sima, you've come! I've inquired about the rules today, and it's pretty much the same as I expected. The points will be obtained through fighting, and the points will be obtained by the participants. The points will be added up, and the one with the most points will win. "

Zhang Yiming moved closer to Lin Yi and whispered the information he'd heard,"In addition to the battle between the candidates, disciples who are not qualified to be a candidate will also have a chance to challenge. When a candidate wins, he will be challenged once. If he loses to the Challenger, he will lose his position as the steward. "

"There's such a rule? Is it something that was added before or something that was added this time?"

Lin Yi was a little surprised as he looked at Martial Master Ma, not sure what the point of this rule was.

In that case, the candidates would have no advantage at all!

After winning, they still had to face unknown challenge. One side was waiting at ease for the exhausted, while the other side had gone through a series of fierce battles. How could there still be any fairness to speak of?

Chapter 7318 Playing Smart

"There was such a rule in the past, but it wasn't used every time. I don't know why it's been used again this time!"

Zhang Yiming continued in a low voice,"actually, this is not a big deal. For example, if senior brother Sima wins, one of us can get on the stage first and get the challenge quota. Then, we can admit defeat and the challenge will be completed."

"This works too? What's the point of that?"

Ling Hanxue also came over and whispered in surprise, ""The winner only needs to accept one challenge, so this kind of cheating-like method can guarantee victory, right?"

"It can't be considered cheating. The candidates are the strongest chosen ones. How can ordinary people be a match for them? Moreover, the process of this challenge is more of a ritual, so you don't have to pay too much attention to it!"

Zhang Yiming laughed dryly and tried his best to explain, ""Ling Hanxue, you have a wind attribute physique, and your speed is extremely fast. When the time comes for you to fight for a spot, it will all depend on your performance!"

"Of course. Don't worry, I'm not afraid of anyone when it comes to snatching places!"

Ling Hanxue patted her chest proudly as the topic was successfully changed. She had already begun to plan the details of how to fight for a spot to go on stage.

As for Lin Yi losing, Ling Hanxue didn't even consider it!

Zhang Yiming saw this, so he was too embarrassed to explain for Ling Hanxue. There were too few people on his side, and it was hard to say whether they would win in the end ...

As they were talking, Martial Master Ma signaled for Lin Yi to follow him, with Al fan already waiting for him.

The two new candidates came to the platform, and Lin Yi saw the steward walking up.

"Respected martial masters, elders, and all the junior brothers and sisters present, today is the selection battle for the steward. First, let me ..."

After the eldest senior brother went up the stage, he immediately took out the most impeccable posture and began to give an endless speech.

Lin Yi was dumbfounded-what happened to the fight? Why did he have to give a speech first?

He was just the senior brother in charge of the outer sect disciples. Did he have to make it look like a presidential election in the secular world?

The most important thing was, why didn't Yingluo tell me about this?

From time to time, the caretaker senior brother would sneak a glance at his palm. It was obvious that he was well prepared. He even had a script for his speech!

"... Everyone basically knows that the steward is in charge of all aspects of the overall operation of the outer sect disciples, especially the recommendation of listening qualifications to the inner sect. I have made quite some achievements in this area and am quite familiar with the inner sect senior brothers. As long as I can continue to be the steward of the eldest senior brother, I will definitely fight for more places to give back to the junior brothers and sisters present here in the future ..."

Eldest senior brother steward had a glib tongue and promised a bunch of such benefits, which also attracted bursts of joy.

This was not only limited to his subordinates, because these benefits were indeed related to the vital interests of everyone!

After talking for a while, the eldest senior brother in charge got off the stage in satisfaction. Then, it was the second senior brother in charge's turn to give a speech.

The two of them said the same thing. The steward second senior brother was previously in charge of the distribution of tasks and assessment rewards for the outer disciples. It was also a position with real power, so his focus was also on the tasks.

In addition to promising to find more tasks for the outer sect disciples to carry out, the steward second senior brother also said that he would discuss with the sect to increase the rewards for the outer sect disciples after completing the tasks.

This was also related to the vital interests of every outer disciple, and as expected, it received a lot of cheers!

Zhang Yiming couldn't help but whisper, ""There are only a few missions for outer disciples, and there's no way we can get many. With so many monks and so little gruel, I'm afraid only his trusted aides have the opportunity to get a mission, right? It's a disaster for this kind of person to be the second senior brother steward!"

This was not wrong at all. In the process of distributing the tasks, the steward's second senior brother had intentionally or unintentionally sided with his people.

In fact, it was not that there were no complaints among the outer disciples, but it would be the same no matter who it was, so there was nothing much to say!

Because of this, Zhang Yiming's mumbling was completely drowned out by the waves of cheers and did not attract any attention at all ...

"Al fan, get ready. You'll go up and give a speech later!"

Martial Master Ma turned his head and said in a low voice, "just tell us your advantage and let everyone know. Don't be nervous!" Sima Yi, you should get ready too. After Al fan, it's your turn!"

Lin Yi smiled coldly to himself-it was obvious that Master Ma was biased towards Al fan!

After all, they were competitors. What else could Lin Yi say if Al fan went up first and told him all the benefits?

Of course, the two of them would always have different ideas. People would have different attitudes when running for president, let alone a mere Senior Steward.

However, Lin Yi wasn't prepared at all, and it was hard to say how well he could perform!

Al fan answered with a smile and immediately went up to the main stage.

After a round of pleasantries, Al fan went straight to the point. "I must thank elder Qin for being able to stand here today and participate in the selection of the steward's third senior brother. If it wasn't for his encouragement and urging, I would never have the strength and confidence to participate in the selection today!"

"There have been rumors that elder Qin will take me as his personal disciple. I need to clarify that elder Qin has not taken me as his disciple yet, so this news is not accurate! It should be said that I really hope to be able to become elder Qin's disciple, but everyone knows that elder Qin has strict requirements for accepting disciples! I'm only in the probation period, and I have a high chance of becoming elder Qin's disciple. That's all, so please don't misunderstand!"

On the surface, Al fan was clearing up the rumors. At the same time, he was expressing to elder Qin that he could no longer use his identity as elder Qin's disciple to speak about things because he had been beaten last night.

But in reality, the effect of Al fan's words was not much different from directly saying that he had become elder Qin's disciple!

With such a relationship, when the audience voted, they would naturally know what to choose.

Moreover, elder Qin could not find fault with him when he said that. ai fan could totally say that he just wanted to explain the rumors in the past!

Lin Yi's lips twitched a little. ai fan was really good at scheming. He wondered what elder Qin would think.

Elder Qin was present for today's selection as well, and Lin Yi noticed that the old man's face was expressionless. It was clear that he wasn't in a good mood.

Perhaps Al fan's little tricks would not win elder Qin's favor. In order to get some votes, he had forgotten his roots. Perhaps this was the so-called "being too smart for your own good"?

Chapter 7319 Come Down

On the stage, Al fan was very satisfied with the reactions of the people around him. Then, he promised a bunch of benefits. They were all empty checks anyway, so what was the harm in issuing them first?

Al fan cupped his hands and left the stage amidst the cheers. He smiled at Lin Yi. "Brother Sima, it's your turn. I have high hopes for you!"

"If you think so highly of Sima Yi, why don't you just withdraw from the selection?"

Jin Yuan Bao could not stand Al fan's smug look and retorted directly.

Lin Yi patted Jin Yuanbao's shoulder, telling him to stop. He nodded to Al fan. "Young city Lord Al is too polite. I'll count on your blessings. I won't let you down today!"

After he finished speaking, he went up the stage and stood still without waiting for Al fan's reaction.

"Hello everyone, I'm Sima Yi!"

Lin Yi scanned the audience calmly, a smile on his face. "What should be said and what shouldn't be said have already been said by the people in front of me. There's no need for me to repeat the nonsense. Let's just talk about something more practical!"

"All the senior brothers and sisters here, if you want to become stronger and have any questions during your cultivation, you can come to me. I will find the most suitable path for you to cultivate! Don't doubt my words, this is my innate ability. If you don't believe me, you can come and try!"

No matter if it was the old disciples or the new disciples, after being slightly startled, they all burst out laughing!

No one believed Lin Yi's words to be the truth. A new disciple saying that he could guide everyone and help them find the most suitable path to practice was a joke no matter how they looked at it!

"Hahahaha ... I haven't seen such an arrogant kid in a long time. No, I've never seen him before!"

"This is so funny, he's here to be funny, right? Could it be that today's selection for senior brother steward is actually a competition to see who's the funnier one?"

"Oh my, I can't take it anymore. I'm going to die of laughter. I can laugh at his words for a year. When the new disciples come in next year, I can laugh at him for another year when he says it again!"

.....

Everyone was laughing at Lin Yi, and only Ling Hanxue and a few others knew that Lin Yi was telling the truth!

With Lin Yi's guidance, their training speed increased significantly, and it was extremely smooth!

Most importantly, none of Ling Hanxue's group had the same fire element as Lin Yi 's!

Since Lin Yi could guide them, he could naturally guide practitioners of other elements!

This was without a doubt!

"Don't doubt me! Senior brother Sima can really do it ..."

Zhang Yiming wanted to support Lin Yi, but his voice was drowned out in an instant. No one heard him, and even if they did, they wouldn't take it seriously!

Lin Yi didn't mind teaching a few outer disciples wasn't a problem, but what would he do with his own training if he had to do that?

So it didn't matter if they believed him or not. Lin Yi just wanted to find a topic to talk about since he didn't have much to say.

After the laughter died down, Lin Yi was about to say something when Martial Master Ma waved at him. "Sima Yi, you can come down!"

Lin Yi's eyebrows twitched—he'd only said a few words, and she wanted him off the stage already?

Wasn't the difference in treatment too obvious?

Seeing that Lin Yi wasn't moving, Martial Master Ma went up the stage himself and whispered, "You little fellow, haven't you always been quite low-key? Why did he suddenly become so arrogant today? Alright, don't say anything else. The more you say, the more mistakes you'll make!"

Lin Yi thought to himself, you're doing this for my own good? He had really gained a new status ...

After Martial Master Ma finished speaking in a low voice, he turned around and announced, ""We'll be preparing to enter the next segment. The competition for the selection of the steward senior brother will start with the battle for the candidate of steward third senior brother! Best of three! Al fan, Sima Yi, you guys go up to the ring!"

Lin Yi's lips twitched as he jumped off the stage, landing in the center of the arena.

Al fan followed him up the stage and walked slowly to the opposite side of Lin Yi. He smiled and cupped his fists. "Brother Sima, please give me some pointers!"

"I don't dare to advise you, young city Lord Al, please make your move!"

Lin Yi pulled out the demonic blade and pointed it at the ground.

The reason why Lin Yi didn't attack first was to save face for elder Qin. He didn't want Al fan, who might become elder Qin's disciple, to lose face.

In a sect competition, one had to use the sect's martial arts and skills. If Lin Yi attacked first, Al fan wouldn't be able to withstand even one move from Lin Yi, even if he used the original fire spirit sword technique ...

Al fan knew that he wasn't Lin Yi's match, so he put on a good front and laughed, "How can I make the first move? Naturally, brother Sima has to make the first move!"

He could lose in a fight, but he had to let everyone understand his humble attitude!

Lin Yi, of course, knew what the guy was thinking, and didn't want to waste his breath on him. He'd wanted to save him some face, but since he didn't need it, then forget it.

Starfire!

The original fire spirit sword technique's first move was far from the new one, but Lin Yi's fire Qi was at rank 10, and with perfect proficiency, it was still powerful!

Al fan's face changed. He had seen Lin Yi's fire spirit sword technique yesterday and was prepared for it, but now that he was facing it, he realized that watching was not enough to experience the horror!

The speckles of dark red sword gleams seemed to be scattered, but they had completely sealed off all the space around Al fan to Dodge. It was impossible for him to even retreat other than to fight back head-on.

The problem was that Al fan wasn't prepared to fight Lin Yi head-on. He just wanted to put on a show and say a few nice words in exchange for a chance of winning the vote!

However, things were out of his expectations. With the demonic devouring sword, Al fan didn't have the energy to plan anything else. He took out his immature fire attribute martial arts technique and tried to take Lin Yi's sword move head-on!

The gap!

This couldn't be called a difference at all. The power of the martial techniques and cultivation methods of both sides were completely two different levels of collision!

Al fan's martial arts technique was completely defeated before they even came into contact with each other, and he was sent flying.

The wide ring could not accommodate Al fan's body. He flew out of the ring and fell in the audience.

Fortunately, there was no one sitting in this area, so it didn't cause further casualties.

"Young city Lord Al, are you alright? You don't need to go to this extent even if you show mercy!"

Lin Yi held the demonic devour sword in reverse and put it on his back. He flew to the side of the stage easily and looked at Al fan in the audience with a mocking expression. "Young city Lord Al is being so modest. Sima Yi is really a little fearful and reverent. For the second round, I hope that young city Lord Al will give it your all and not be modest anymore!"

Al fan wasn't injured, but his body was a little sore. After struggling to get up, he looked a little embarrassed!

Chapter 7320 Two Battles, Two Wins

Humble, my ass!

If this young master had the ability to kill you, I would definitely not just injure you!

Even though he was determined, Al fan still laughed dryly and said, "No, no. Brother Sima, your strength is outstanding and extraordinary. I don't think there's a need to compete in the second round, right?"

Al fan couldn't help but resent Martial Master Ma. It was fine if they had a proper fight to determine the winner, but why did he have to resort to two out of three?

Don't you think losing one match is embarrassing enough?

If he was killed or disabled in one round, was there a need to proceed to the second round?

"Of course not. The rules state that we have to fight a second round if we win two out of three rounds. Young master Al, are you deliberately showing weakness to the enemy to numb me and then take advantage of the situation to win?"

Lin Yi laughed as he spoke, completely ignoring the expression on Al fan's face. "Young city Lord Al's strategy is outstanding. I was careless and almost fell for it. Ha ... Since I've seen through your plan, it won't be so easy for you to succeed!"

Lin Yi wasn't spouting nonsense-he was just mocking Al fan, saying that he'd used all sorts of tricks and schemes to become the manager's third senior.

However, in terms of true strength, it was not worth mentioning at all. This kind of behavior of neglecting the essentials and pursuing the trivialities inevitably made people look down on him.

Al fan cursed in his heart. He was sensitive enough to understand what Lin Yi was trying to say.

"Alright, since it's the rules, let's fight the second round!"

Al fan didn't want Lin Yi to continue talking nonsense, so he changed the topic back to the fight."Brother Sima, please allow me to go up the stage. This time, I really want to experience your brilliant moves!"

Lin Yi smiled and shrugged, looking calm and relaxed. He took a dozen steps back and gave Al fan some space.

Al fan returned to the ring, thinking about whether he should continue to put on a show or attack first.

She wouldn't be Lin Yi's match if she attacked first, but if she didn't even have the courage to attack in the arena, her reputation would be ruined!

"Young city Lord Ai, are you still not willing to make the first move this time? If we were to act in a hurry like last time and completely lose without even being able to use any martial skills, wouldn't that be too embarrassing?"

Lin Yi wasn't planning on saving Ai fan any face, rubbing salt in his wound.

Ai fan felt extremely embarrassed-he didn't know if he should attack first or later!

The result was predictable-no matter if he attacked first or later, he'd be crushed by Lin Yi's fire spirit sword technique the moment he attacked!

This was a huge gap in the level of cultivation methods and martial techniques, which could not be made up for at this stage.

Unless Ai fan could use a martial arts technique that was better than Lin Yi 's!

It wasn't that Ai fan didn't have it, but in the sword spring sect, he had been forbidden from using it. Once he used it, he might even be disqualified.

"It was brother Sima who attacked first just now. This time, it's my turn. We'll each take a shot. It's fair and just!"

In the end, Ai fan still decided to make the first move. At least, he wanted to show his courage.

And martial arts ... It wasn't easy the last time he was in the ring, so he should at least activate his martial arts, right?

Lin Yi shrugged, indicating that he didn't mind. He made a "please" gesture, letting Al fan make the first move.

Al fan couldn't back down now. He could only force himself to shout and activate the first form of his fire-type skills, hoping to hit Lin Yi's body.

He didn't want to hurt the enemy, but at least he could explain himself after hitting the enemy.

However, Lin Yi didn't even give his opponent this chance. He waited for Al fan to make the first move and flicked the demonic devour sword on his back. With a twist of his wrist, Lin Yi stabbed at Al fan like lightning.

Dots of dark red sword light flickered. It was still the first move of fire spirit sword technique, Starfire. It was a familiar formula and a familiar taste!

Al fan was filled with grief and indignation. 'Didn't you agree to let me attack first?

This young master hasn't even successfully executed the first move, how could he be sent flying again?

Can we still have fun in the future?

"Sima Yi won two out of two battles. He obtained fifty points each time he won. That's a hundred points in total!"

Martial Master Ma expressionlessly announced the result on the platform, ""Al fan didn't cause any harm to Sima Yi. You won't get any points from the fight. You have zero points now!"

Al fan was lying in the audience with a dumbfounded expression. He was extremely ashamed and resentful. He didn't have to say the second half of the sentence. Was he trying to remind others how badly he had lost?

In fact, Martial Master Ma was also criticizing Al fan in his heart. Why was he so useless?

Even if he was only entangled with Sima Yi for a while, not to mention injuring him, even hitting him a few times would be good!

That way, they would at least have something to say, and he could give them some points.

Moreover, in order to help Al fan get more points, Martial Master Ma had specially arranged the best of three rules. He couldn't get too many points in one round, but he could get more points in two rounds, right?

As long as there were some points, the arrangements after that would not be too conspicuous ... But his teammates were really useless, what could he do?

"Next, it's time for all the outer sect disciples to cast their votes. Every outer sect disciple has a vote from the steward third senior brother, which represents one point! Choose which candidate to support and vote for him, and he will get a point! The final score would be the sum of the final score! The person with the highest score wins!"

Martial Master Ma was annoyed. One victory was supposed to be worth 100 points, but there were less than 200 outer disciples. Even if everyone supported Al fan, he wouldn't be able to win Lin Yi's points, so he changed it to 50 points.

The consequences of doing so would obviously make people feel that it was unfair, because it was meaningless to win a battle, and the voting, which originally occupied half of the role or even played a supporting role, had leaped to become a decisive means that could change the situation!

He had no choice ... Since he had promised Al fan to help, Martial Master Ma had no choice but to do it!

"The voting will begin now. Fill in the candidate you wish to support with your votes and place them into the voting slots at your respective seats. The final result will be automatically calculated."

Ling Hanxue and the others immediately looked around the seats, and sure enough, they saw a small gap that they could throw their votes into.

Each person had a vote, and there were three in total, corresponding to the steward's eldest senior brother, second senior brother, and third senior brother. Now, all they needed to do was to throw the third senior brother's vote into the voting gate.

Zhang Yiming chose to support Lin Yi first, and then demonstrated to Ling Hanxue and the others, "Look, as long as you choose to support senior brother Sima on the voting ticket, and then throw it into the voting gate, it'll be fine."

Ling Hanxue, Chen Zhisheng, and Jin Yuan Bao all followed suit and quickly cast their votes. Then, they began to observe the outer sect disciples around them.

Unfortunately, this form of voting was basically an anonymous vote. Other than the person who knew, it was difficult for others to see what was on the other person's vote.
