Chapter 7341 Elder Qin Is My Martial Uncle

Speaking of Zhang Liju, elder Qin's face was full of respect.

Lin Yi sighed to himself-this time, there was no escape. This Zhang Liju was that Zhang Liju!

"It's precisely because he appeared for such a short period of time that he didn't have time to accept a disciple and leave behind his inheritance. He only spread some basic knowledge about alchemy, so all the alchemists on the sub-Island Revere him very much!"

Lin Yi didn't know what to say-he should've just told a lie and said something like "Tom, Dick, or Harry" to get him off the hook. Things were getting out of hand!

"Elder Qin, I didn't lie to you. My master is Zhang Liju, but I didn't learn from him in Hongshang Commandery!"

Lin Yi replied vaguely. The entire sub-Island didn't only have Hongshang Commandery, there were other countries. It would be best if elder Qin misunderstood.

"You're not from the sub Island, did you come from another plane?"

Elder Qin's eyes narrowed. He didn't misunderstand at all and directly grasped the main point.

This time, it was Lin Yi's turn to be shocked. Elder Qin, you're really something, you know everything?

Before Lin Yi could reply, elder Qin waved his hand and lowered his voice, "You don't need to hide it from me. If you're telling the truth, then you must be someone who came to this sub-Island from another plane, right?"

"That's right ... But how did you know, elder Qin? You even know about the other planes?"

"You don't need to worry about this. This old master only wants to know, what evidence do you have to prove what you said?"

Elder Qin's expression was serious. It was obvious that he had already believed 70 - 80% of it, but he still wanted to confirm it. "I've already said that Zhang Liju's name is known by quite a few people. How can I be sure that you're not lying?"

Lin Yi scratched his head. It was like one of those jokes he'd heard before, saying how you'd prove your mom was your mom-it was supposed to be something natural, but now that it was brought up, he didn't know what to do.

The next time I meet my cheap master, shouldn't I drag him along to take a few selfies?

It would be easier to explain when he encountered such a situation in the future.

"Elder Qin, have you seen this disciple's master? If you've seen him before, you should know what he looks like, right?"

Thinking about selfies, Lin Yi described Liju's features briefly, and elder Qin nodded to himself, his trust in Him increasing a little. "Apart from that, I also have alchemy notes that master passed down to me. Elder Qin, you can take a look."

Lin Yi took out Zhang Liju's notes and gave them to elder Qin.

This notebook recorded more basic experiences and some low-level pill recipes. It was of course valuable, but it was useless on the sub-Island.

Because Zhang Liju's notes were all based on pure Qi and pill fire-even if elder Qin could understand it, it would be meaningless without pure Qi!

"It's his handwriting! There's no mistake!"

Elder Qin didn't flip through the pages, only looking at the words on the cover. He returned the notes to Lin Yi, "If that's the case, I won't hide it from you. To be honest, your master Zhang Liju is my senior!"

She smiled proudly as she looked at Lin Yi. "In the end, although I can't be your master, I'm still your martial uncle!"

Lin Yi's face looked weird. Zhang Liju's junior? Elder Qin, are you kidding me?

It wasn't that Lin Yi looked down on elder Qin, but elder Qin's strength was clear for all to see. Combat strength aside, even Lin Yi's disciple dan qingzi was much stronger than elder Qin in alchemy.

So, how did the pill God and medical Saint Zhang Liju make elder Qin his junior?

"You don't need to be surprised, this old master also knows that your master, my senior brother, is not from this plane. Seeing senior brother's alchemy skills, this old master has always been amazed and has been looking forward to your plane. Unfortunately, the heavens do not grant man's wish. Senior brother has left and this old master can only be trapped in this sub-Island."

Elder Qin sighed and went back to the main topic,""This old man knows that you don't think we have anything to do with each other, and this matter is indeed very strange. However, this old man can prove that if you are really senior brother's disciple, you will definitely understand the meaning of these words."

Lin Yi said that he was all ears, and he heard a lot about Zhang Liju from elder Qin. He even mentioned the five elements Chamber of Commerce, and Lin Yi was sure that it wasn't fake!

"In fact, this old master and senior brother did not spend too much time together, I can't even clearly tell senior brother's true strength, but the alchemy skills senior brother left behind have benefited this old master greatly!"

Elder Qin thought that if his senior brother was here, his injuries would be nothing. He could have recovered in minutes. It wouldn't have dragged on for so many years, and now he had overdrawn his lifespan!

"Elder Qin, how did you and my master become fellow disciples?"

Lin Yi didn't change the way he addressed Liju-he still called him elder, after all.

"Senior brother, you're flattering me!"

Elder Qin revealed a smile and recalled, ""When senior brother first found me, he discussed alchemy with me. What did I know at that time? However, Shixiong said that I had unintentionally taught him a lot of things. "

Lin Yi thought to himself-his cheap master still needed someone to teach him? You're not joking, right?

After thinking about it, Lin Yi felt that it was possible. After all, Qi couldn't be used on the sub Island, and spiritual sense was suppressed. If he wanted to make elixirs, he had to find another way.

After tempering his body, he could release his fire Qi to form a pill fire, which was the best method to refine pills on the sub-Island.

Zhang Liju probably lost his ability to make pills at the start, so he learned how to make a pill fire from elder Qin.

What he taught elder Qin was his understanding of alchemy. Under such circumstances, the two of them could learn from each other and become fellow disciples.

"So that's how it is. Master has such a past, but this disciple has never heard him talk about it!"

Lin Yi nodded seriously-he'd never even seen the real Liju before, it was just a clone-it'd be weird if he'd heard about this!

"Senior brother's alchemy skills are enough to be called a peerless heaven's pride expert. Just by pointing out a few things to this old man, I've already benefited greatly! In fact, senior brother is enough to be my master, but in the end, you have to address me as senior brother. To be honest, this old man is really flattered!"

Elder Qin sighed as he recalled the past. He turned to Lin Yi, "You're senior brother's disciple, and although this old master is your senior uncle in terms of seniority, I really don't dare to say that I have the qualifications to teach you. "

"Disciple greets martial uncle Qin! I didn't know before, but now that I know the relationship between uncle-master and shizun, I think shizun won't have any objections if this disciple asks uncle-master for guidance. "

After confirming elder Qin's identity, Lin Yi immediately greeted him again with respect. He smiled and raised his head,"In the past, master and martial uncle had to learn from each other. It can be seen that

martial uncle's ability has been recognized by master. In the future, disciple's alchemy skills will have to rely on martial uncle's guidance!"

Chapter 7342 Gifting A Grand Recovery Pill

"Good, good, good! Your master isn't on the sub-Island right now, so I won't hide anything from you!"

Elder Qin was overjoyed—he couldn't be Lin Yi's master, but he was still his uncle. It was good enough that he could teach this fine jade,"Just now, you said that you can't condense the alchemy fire. Is it the alchemy fire of the sub Island or the alchemy fire of your plane?"

Elder Qin's mind cleared up after the connection was established, and he immediately grasped the main point in Lin Yi's words.

Since elder Qin knew that Zhang Liju came from another plane and had sparred with him for quite some time, he knew that Zhang Liju's pill fire was different from the sub Island.

"It's the alchemy fire form of the sub-Island. In the past, I could condense the alchemy fire. But after arriving at the sub-Island, my true Qi disappeared, so I can't use the true Qi alchemy fire."

"Actually, I haven't been on the sub Island for too long," Lin Yi said honestly. "I didn't have the chance to learn how to release my fire energy to form a refinement fire. If uncle-master can give me some pointers, I should be able to learn something."

"This old master guessed it, it really is like this!"

Elder Qin nodded and extended his palm. "Watch carefully. First, you have to control the fire Qi and gather it in your palm. The amount must be precise, not too much or too little. Then, you have to trigger the characteristics of the fire Qi and cause it to mutate into a pill fire!"

Lin Yi looked at elder Qin's palm and saw a few wisps of fire Qi congregating and twisting on it, quickly turning into a small flame.

However, this pill fire was a little weak, and as it flickered, it seemed as if it could collapse at any time.

"Martial uncle Qin, just now you said that because of the injury, your strength has dropped greatly, and your alchemy skills have also been affected. This alchemy fire ... Is the aftermath of the injury?"

Lin Yi looked at the pitiful refinement fire and understood that elder Qin's injuries were serious. It was the greatest tragedy for an Alchemist to be unable to control the refinement fire!

"This is considered one of the aftereffects!"

Elder Qin shook his head with a bitter smile and waved his hand to disperse the alchemy fire in his palm. "It's already very difficult for martial uncle to even condense his alchemic fire. All that's left is to just talk and give some theoretical knowledge!"

"Martial uncle ... Is it convenient for you to tell me how you got injured?"

Lin Yi muttered to himself. If he still had his pure Qi, it should be easy to treat with his all-powerful pure Qi.

Now, he could only ask around and see if there were any other ways to cure elder Qin.

"It's not inconvenient at all. You should know about the heaven and earth spiritual fire, right? I don't think I need to explain how important this is to an Alchemist. "

Elder Qin sighed and smiled bitterly,""In order to obtain a heaven and earth Spirit Fire, I was about to succeed, but I was ambushed by a mysterious person. Not only did I fail, but I also suffered extremely serious injuries, causing my strength to fall greatly, and my alchemy ability to almost be crippled!"

Lin Yi was surprised. He didn't expect the sub Island to have a heaven and earth Spirit Fire!

He had a genuine heaven and earth Spirit Fire, misty ice flame serene lotus flame!

It was just that Lin Yi hadn't been able to tame it yet, but the icy blaze fire derived from the accompanying Spirit Fire Crystal of the ice flame nether Lotus fire wasn't inferior to a normal yellow level Spirit Fire. For a long time in the future, he should have enough icy blaze fire to use!

These thoughts only floated in Lin Yi's mind for a moment before he threw them away. The main point now was whether elder Qin's injuries could be fully healed.

A healthy and powerful elder Qin was far more useful to Lin Yi than the crippled elder Qin!

"Martial uncle Qin, what was your strength level before you were injured?"

Lin Yi asked as he tried to think if he had any suitable elixirs. If elder Qin was at the sea shattering stage or even the heaven breaking stage before, then this injury might really be incurable.

Although there were many refined pills in the space of the jade pendant, if elder Qin's level was too high, those pills would not be of much use.

"Before I was injured, I was at the peak of the original level. If I had successfully subdued the spiritual fire of heaven and earth, I might have been able to further improve my strength. Unfortunately, I was seriously injured and couldn't even keep my original level!"

Elder Qin's face was bitter, but he forced a smile and said, "It's a pity that senior brother had already left at that time. Otherwise, whether it's the heaven and earth spiritual fire or my injury, it would be a small matter. "

Lin Yi relaxed. If it was only peak nascent soul realm, there would be a lot of elixirs to use!

"Don't worry about it, uncle-master Qin. I have a pill here that might be useful for your injuries!"

Lin Yi took out a Jade bottle and handed it to elder Qin. There was a special great recovery pill in the bottle."If martial uncle doesn't get better after taking the pill, we'll think of other ways."

At first, elder Qin didn't pay much attention to it. He was an Alchemist himself, so he naturally had a lot of pills left behind. Unfortunately, they were all useless. However, after he opened the Jade bottle, his expression suddenly became extremely interesting.

"This ... This is actually a special grade great recovery pill? A golden class level Seven pill?"

Even at elder Qin's peak, he couldn't make a golden class seventh level pill, let alone a special great recovery pill of such good quality!

"Sima Yi, senior brother really has nothing to say about you, even giving you such a precious pill! I didn't expect senior brother's alchemy skills to have already reached such a level, it's really amazing!"

After elder Qin recovered from his shock, he began to sigh. Then, he said hesitantly,"Such a precious great recovery pill, senior brother must have left it for you to save your life. It's not suitable for me to eat it ..." Jiang Chen said.

Lin Yi's mouth twitched-he was too embarrassed to say that he made this pill himself. Even his master probably wasn't interested in making something so low-end, was he?

Plus, golden class level Seven pills weren't precious to Lin Yi at all-he could even eat them like candy.

"Martial uncle can rest assured and take it. As long as it helps your injuries, what is a mere great recovery pill? Disciple still has more. If it's not enough, you can continue to eat. "

Lin Yi smiled as he consoled elder Qin before urging,"Martial uncle, don't think too much about it. Quickly take the great cyclic pellet. Healing your injuries is more important."

"You really have more?"

Elder Qin felt that he was already old, and the remaining years of his life were enough for him to teach Lin Yi. It was better to leave the great recovery pill to Lin Yi.

But if Lin Yi really did have more, then he might as well try taking one and see if it could heal old injuries.

Lin Yi didn't waste any more time and took out another five or six Jade bottles, each filled with a special grade great recovery pill, and showed them to elder Qin.

"Martial uncle, you saw it too. This disciple didn't lie to you!"

As he spoke, he pushed the Jade bottles in front of elder Qin,""If martial uncle needs it, it doesn't matter if you eat all of this!"

Chapter 7343 Lin Yi Learning Alchemy

"Senior brother really values you a lot!"

Elder Qin was speechless for a moment before he shook his head with a smile. "But I understand. If I had a genius disciple like you, I would also give you my best life-saving card!"

Lin Yi didn't want to explain that the pill wasn't from Liju, and it wasn't that valuable anyway-that'd be too much of a blow.

Luckily, elder Qin didn't say anything else-since Lin Yi had so many more, he didn't need to be polite with this one.

Elder Qin heaved a sigh of relief and placed the precious Grand recovery pill into his mouth.

The pill melted as soon as it entered his mouth. It instantly turned into a cool stream of air that flowed down his throat, warming his internal organs, then sank into his dantian and spread to his limbs and bones.

Elder Qin had complete trust in Lin Yi now, and he didn't even try to hide anything. He sat down cross-legged in front of Lin Yi and started refining the medicine to heal his injuries.

Lin Yi didn't disturb elder Qin, sitting on the side and protecting him.

The special grade recover pill was indeed a Holy medicine for low-level martial artists. In just a short time, Lin Yi could feel that elder Qin's aura was getting stronger and stronger!

From the beginning of the Aurous core stage, it continued to rise. Soon, it broke through the shackles of a large level and entered the nascent Soul Stage. Then, it slowed down a little, but it did not stop.

For a Yuanying stage martial artist, the special grade great recovery pill was enough to be called a life-saving sacred medicine that could revive the dead!

Although elder Qin's old injuries were serious, they were still within the treatment range of the special grade great recovery pill. Therefore, he had a high chance of returning to his peak in one fell swoop with this treatment!

Lin Yi wasn't in a hurry. He watched quietly as elder Qin recovered his strength. When elder Qin's aura reached the peak of the advanced stage of nascent soul, he finally stopped moving!

"Congratulations uncle-master, your injuries have healed!"

Lin Yi saw elder Qin open his eyes and immediately cupped his fists with a smile, "From now on, martial uncle can open a furnace to refine pills again!"

"Hahahaha! I didn't think that this old man would recover one day. My good martial nephew, this martial uncle really doesn't know how to thank you!"

Elder Qin laughed as he stood up. His face was filled with excitement. He had thought that he did not have many years left to live. Unexpectedly, a special grade great recovery pill had not only restored his strength, but also restored his lifespan!

"Martial uncle, you're treating me like an outsider by saying this! We're one family, one family doesn't need to talk like two families!"

Lin Yi smiled and waved his hand. "Martial uncle hasn't recovered to his peak strength. Is the medicine not enough? Why don't you take another one?"

"No need, no need! The medicinal power was sufficient. Because he had been injured for too long, his martial uncle's muscles and meridians had shrunk a little. Although they had been repaired, he still needed some time to adapt. After you get used to it, not only will your strength return to its peak, you might even improve. "

Elder Qin declined immediately. One big recovery pill was already a luxury for Lin Yi, he didn't want to waste another one, "By the way, I heard that your courtesy name is Zhong da, right? Then I'll call you Zhong da from now on!"

Lin Yi blinked-he didn't think that elder Qin would already know about his random name. There was no need to explain anything, of course. It was just a form of address, after all.

"Zhong da, it's enough for you and me to know about martial uncle's recovery for the time being. Don't spread it out yet!"

Elder Qin pondered for a while before making a request, "You must pay attention to this matter. Even if it's the people closest to you, you must not reveal it."

"This disciple understands! Is martial uncle trying to find an opportunity to secretly find the person who attacked you back then?"

Lin Yi nodded, "if they knew that you've recovered, they'd be on guard. They'd only let their guard down if they kept it a secret!" Don't worry, martial uncle, disciple will definitely keep it a secret. If there's anything I can help with, please let me know!"

"Hahaha! Zhongda, your martial uncle appreciates your intentions, but you can't interfere in this matter. It's better for you to cultivate properly and become stronger as soon as possible!"

Elder Qin shook his head and waved his hand. He didn't want Lin Yi to get involved, obviously trying to protect him, ""Let's not talk about anything else first, martial uncle's injuries have fully recovered, so I can properly teach you alchemy knowledge!"

As soon as he finished speaking, elder Qin opened his right hand and a dark blue pill fire appeared in his palm.

The heat of this alchemy fire was astonishing, and it was also extremely stable. It was completely different from the swaying little flame from before!

"Look, Zhong da, after you release the fire, the fire needs to be stable before it can be used for alchemy. At first, the fire will be red, but as your cultivation level increases, it will slowly change color. Look at my

dark blue fire, it's ten times stronger than the red one, but it can only make golden class level five pills at most. Compared to your master and my senior brother, it's far worse!"

Elder Qin brought up Zhang Liju again, his expression full of respect, "Actually, if your master could teach you personally, that would be the best choice. Unfortunately, he's not here now, so I can only make do with it. Fortunately, you're only learning the basics, so I can still teach you a little. When you grow up, there's no way to do it."

"Uncle-master is too humble. Back then, master also studied and sparred with uncle-master to achieve mastery, so uncle-master is more than enough to guide the disciple!"

"Alright, let's cut the chit-chat and start now!"

Elder Qin didn't want to waste time, so he cut to the chase and started explaining to Lin Yi how to release fire to form the refinement fire.

Lin Yi's Foundation was great, but he lacked pointers in these techniques. With elder Qin's explanation, he felt like he was enlightened.

The sub island's refining methods were different from the outside world, but they were connected. Lin Yi learned a lot from comparing the two.

In the field of alchemy, elder Qin seemed to have opened up a whole new world for Lin Yi.

An hour later, Lin Yi had completely mastered the theoretical knowledge of the sub island's alchemy and started to try to activate the fire.

Elder Qin looked at the calm Lin Yi, feeling a little nervous. Normally, it would take at least two to three days for a practitioner who had never learned how to condense a refinement fire.

But Lin Yi wasn't a normal person!

This was a super genius, a perverted little monster. No one else could do it in such a short time, but Lin Yi had a good chance of doing it!

So elder Qin had high expectations for this, and naturally was a little nervous-even more nervous than Lin Yi himself.

The first step was to gather a small amount of wood Qi in his palm as a primer!

Chapter 7344 Refining Pills For The First Time

Elder Qin recited the steps in his heart and watched as Lin Yi completed the step perfectly.

Feeling a little happy, he immediately recited the second step in his heart. He released his fire Qi, forming threads of entanglement, and minced the wood Qi from before!

Lin Yi completed it easily as well. The first form of the incomplete martial skill had a similar principle, so this step was easy for Lin Yi.

The last step was to detonate the fire Qi and form the pill fire!

Elder Qin encouraged Lin Yi secretly. This last step was also the most difficult one. Nine out of ten people would be stuck here and not be able to complete it.

Lin Yi, on the other hand, ignited the fire in front of elder Qin's eyes, successfully forming the fire!

A red pill fire the size of an orange burned quietly in Lin Yi's palm. It was much smaller than elder Qin's dark green pill fire, but there was no doubt that this was a real pill fire!

It was a success!

Lin Yi was extremely excited-the refinement Fire This Time was different from all the Qi refinement fire and spirit refinement fire he'd used before!

With a thought, the fire in his palm began to change in size and shape, and the temperature rose and fell without any obstruction. It changed according to Lin Yi's will!

He had really succeeded!

It was no longer the uncontrollable alchemy fire of the past!

This time, he could really refine his own pills!

Elder Qin was extremely excited as well-Lin Yi wouldn't let him down!

A true genius would understand with just one hint!

Who could successfully condense a pill fire on their first try? Only such a person was worthy of being called a genius!

"Zhong da! Quickly try and see if I can use your pill fire to refine pills!"

After elder Qin's excitement, his greed turned into insatiable. He felt that geniuses didn't need an adaptation period at all. He immediately took out a small alchemy furnace and some medicinal herbs.

"Do you have the recipe for the minor rejuvenation pill? Let's try to make a small recovery pill first!"

Elder Qin placed the ingredients and the furnace where Lin Yi could use his hands,"It doesn't matter if you don't have the pill formula! The small reversion pill is relatively simple. I'll tell you how to do it directly!"

"There's no need for that, martial uncle. I know the recipe for the minor rejuvenation pill!"

Lin Yi also wanted to try the feeling of making elixirs himself. As for the recipe, no one on the sub Island knew more than him.

Under the constant refinement of the Scarlet pill fire in his palm, the inner core had already appeared a little orange. It was obvious that it had a trace of evolution. Elder Qin saw it in his eyes and was even more surprised.

Lin Yi couldn't make elixirs by himself before because of the control of the fire, but now that he had solved that problem, his refining process was as smooth as flowing water.

The alchemy fire was injected into the alchemy furnace, and the fire Qi was continuously transmitted into it to maintain the alchemy fire. The temperature was constantly changed according to the situation. Then, the medicinal materials for the small reversion pill were also added in according to the order and proportion.

Elder Qin was dumbfounded. Even if he were to do it himself, he would only be able to do so much. Even if he could win by a little, there would be a limit!

As expected of a junior from a prestigious family, senior brother's disciple was extraordinary! Coupled with his own talent, he would definitely be a world-famous alchemy Grandmaster in the future!

The herbs were melted into medicinal liquid in the furnace, and the impurities were constantly burned away, leaving only the essence.

The different medicinal liquids fused with each other, and at different times and temperatures, Lin Yi felt like he could control everything. The small world in the furnace was within his control.

The whole process was also a process of Lin Yi combining all the different techniques. The technique elder Qin just taught him was slightly modified, and the effect was better with the addition of the old techniques.

Elder Qin noticed the change immediately, but he didn't stop it. Instead, he was even more shocked at Lin Yi's talent!

To be able to do such a difficult thing on his first try at pill refinement, he was really a little monster!

By the way ... Was this really his first time refining pills? Elder Qin couldn't help but be suspicious. After all, Lin Yi's technique was too smooth, it was unbelievable!

However, Lin Yi's basic techniques were the same as what elder Qin had just taught him. It was a little rough at the start, but it became smooth very quickly. This made elder Qin believe that this was Lin Yi's first time using this technique!

Other than exclamations, what else could he say?

The process of making the small reversion pill was extremely smooth and didn't take much time. Lin Yi finished the whole process very quickly.

When the faint fragrance of the pill spread, elder Qin could not wait to see the results.

"Special-grade! It's actually a special grade small reversion pill!"

The result was a pleasant surprise. Even someone as calm as elder Qin couldn't help but exclaim.

Although the small reversion pill was only a golden class second level pill, and elder Qin could easily make it a special grade pill, this was Lin Yi's first time making pills!

For the first time, it was a golden class second level pill of special quality!

Even the word 'genius' was insufficient to describe this!

"Zhong da! You really are a genius in alchemy, you were born to be a great Alchemist! If you don't refine pills, you're wasting God's gift, and even the heavens won't be able to bear it!"

Elder Qin grabbed the special grade small reversion pill and waved his hands and feet in excitement. He no longer looked like a respected senior.

Lin Yi, of course, was also very excited. This was the first time he'd successfully made a pill with his own strength. Although it was only a golden class second level small recovery pill, it was still a milestone breakthrough.

Lin Yi didn't know whether to laugh or cry when he saw elder Qin getting more excited than him.

On Sky Class Island, he was a famous Mystic third level refiner-wouldn't it be embarrassing to be so happy after making a golden second level pill?

But to be honest, Lin Yi himself was very excited!

In the past, although he could also refine pills, that was actually fake. He had borrowed the help of external forces.

But this time, he was truly relying on his own ability to refine pills.

Other than the fact that a certain part of his body was a Little Big and pants were not easy to buy, the rest of his body was really good!

Of course, it wasn't surprising that it was a special-grade second-grade small recovery pill. Lin Yi had never used his own methods to make pills before, but he knew the principle by heart!

It would be strange if he couldn't refine special grade pills!

Elder Qin held the small recovery pill and looked at it over and over again. His face was full of smiles and he couldn't let go of it. Those who didn't know would think that he was holding a Mystic second level pill!

"Zhong da! Looks like golden class second level isn't your limit-you'll need to make higher level pills to test how good you are!"

Elder Qin took a while to move his attention away from the small reversion pill, hesitating if he should let Lin Yi continue with the refinement. He thought for a while and shook his head, ""Let's forget about it today. First, it's getting late. Second, you've only refined one furnace of pills. Continuously refining pills may hurt your Foundation. It's better to have a good rest first."

Chapter 7345 The Third Senior Brother Of The Inner Sect

Lin Yi nodded. He didn't think it'd be a problem for him to make one or two more cauldrons, but his body wasn't the same as it used to be. He had the Jade space to convert the Qi into Qi, so he didn't feel any pressure.

The fire Qi He had now was completely produced by his own body. After refining a furnace of small reversion pills, he did feel a little tired.

This was the normal reaction of a refiner-the Lin Yi from before was a bug!

"By the way, when you were refining the elixir just now, I noticed that the core of your alchemy fire has changed slightly. You need to continue to work hard in this area and try to turn the alchemy fire completely orange in a short time!"

Elder Qin recalled the alchemic fire he had seen earlier, and a smile appeared on his face. "A red pill fire can barely make a golden class third level pill, but it's at most mid to low quality. There won't be high quality pills, let alone Supreme or special quality ones. Your pill fire that's already changing will be slightly more beneficial, but if you want to make special quality pills, you'll have to completely change into an orange pill fire."

"Thank you for your guidance, Junior Master. I will definitely remember it and work hard on my cultivation when I return!"

Lin Yi cupped his hands. So the color of the fire had this effect? However, with the strength of his new physical body, he should be able to use the icy blaze fire to refine pills, right?

With the power of the icy blaze fire, the alchemy fire formed by the release of fire Qi was absolutely incomparable. However, if he wanted to control the icy blaze fire to refine elixirs, he would have to wait until he was at the great circle of the nascent soul realm at the very least before he could try.

Otherwise, if he was not careful and suffered a backlash, his body would probably not be able to withstand the icy blaze ...

"Zhong da, your martial uncle has seen your hard work, so I really don't have to worry about this. Unfortunately, if you want to calm down and cultivate properly, it will probably take some time!"

Elder Qin suddenly sighed. "If you can become uncle-master's direct disciple, you can naturally enter the inner sect. You can even become a core disciple. In that case, you can save a lot of time on missions."

Lin Yi thought to himself, I'm not doing any missions, why can't I just focus on training?

Lin Yi couldn't say too much about elder Qin's personal disciple. He could only suppress his doubts and continue to listen.

"You and I both know about senior brother's matter. Don't tell anyone else. Although senior brother's reputation on the sub-Island is great, he has made many enemies. The news that you are senior brother's disciple can not be told to anyone except uncle-master!"

Elder Qin changed the topic and warned Lin Yi seriously. He only continued after Lin Yi nodded, "Because this matter can not be told to outsiders, and you can not become my personal disciple, you can only stay in the outer sect and continue to cultivate. In the future, you will be promoted to the inner sect according to the standard process."

"Martial uncle, don't worry. Even if I cultivate in the outer sect, this disciple's progress will not be much slower than the inner sect disciples!"

Lin Yi was just trying to comfort elder Qin, but the elder thought that it was only natural.

In the practicing before, be it martial arts, martial arts, or alchemy, Lin Yi's talent and speed had already surpassed all the other inner disciples, so it wasn't surprising at all for him to say something like that.

"Even so ... If you had entered the inner sect earlier and enjoyed better resources, you might have been able to improve faster!"

Elder Qin mumbled to himself and didn't pursue the topic any further.

At the same time, tyrant Wolf also left the banquet hall and headed to the mountain where the inner disciples were gathered to pay his respects to his backer, the inner sect manager, third senior Yang Qi!

"The extreme summer tyrant Wolf greets senior brother yang!"

The extreme summer tyrant Wolf arrived at Yang Qi's residence and bowed respectfully, ""I've come so late at night. Please forgive me, senior brother!"

"We're all fellow disciples, no need to be so formal!"

Yang Qi waved his hand indifferently, signaling for summer extreme tyrant Wolf to sit to the side, ""I heard that you were defeated by a new disciple today? You can't even be the eldest martial brother in charge of the outer sect?"

The extreme summer tyrant Wolf looked embarrassed as he lowered his head and whispered, ""That Sima Yi brat is a little strange, I was a little careless!"

Whether he had been careless or not, he knew in his heart that he had to save some face in front of Yang Qi.

"Useless thing! He couldn't even win against a new disciple, forget it! Since you're one of my people, there's no need for you to stay in the outer sect any longer, so just enter the inner sect and cultivate in peace!"

Yang Qi's face was full of disdain, as if he felt that the extreme summer tyrant Wolf had embarrassed him.

"Yes," agreed tyrant Wolf Nono. He didn't dare to refute.

In reality, he did not have the confidence to face Yang Qi at all. When he was in the outer sect, he had been suppressed by Feng Zhipeng.

It was only later on when he sought refuge with Yang Qi that he gained some of the prestige of the eldest senior brother in charge, and was able to wrestle with Feng Zhipeng.

It could be said that without Yang Qi, he, extreme summer tyrant Wolf, was nothing!

"Senior brother yang, Junior Brother has collected some small things, please have a look! In the future, Junior Brother will need senior brother Yang's help in the inner sect!"

The extreme summer tyrant Wolf obediently took out a small box and presented it to Yang Qi with both hands.

Yang Qi gave an indifferent "en" before opening the box. Looking inside, his expression immediately softened and a smile appeared on his face.

"Junior Brother Xia Ji, you're too kind. I won't stand on ceremony with you. In the future, as long as I, Yang Qi, have anything to eat in the inner sect, I will definitely not let you go hungry!"

Yang Qi closed the box and said with a warm smile, "Actually, it's not a big deal to suffer a little loss. I'll just get back at him in the future!"

"Senior brother, that brat Sima Yi is too arrogant. Are we just going to swallow this? You should know that he could have challenged the second senior brother, the manager of Dongge Pi, but he skipped Dongge Pi and challenged me directly. He clearly doesn't take you seriously! Who in the outer sect doesn't know that I'm your man, senior brother yang!"

Seeing that Yang Qi was satisfied with his gift, tyrant Wolf was overjoyed. He took the chance to badmouth Lin Yi, ready to instigate Yang Qi to go against Lin Yi, "Senior brother, the more I think about it, the more I'm not willing to accept this! Please make the decision, senior brother!"

Yang Qi touched his chin and said after a moment of thought, "I heard that the brat called Sima Yi has some relationship with elder Qin, right? Is it elder Qin's disciple candidate?"

"Uh ... That's true ... But what kind of person is he? elder Qin probably just said it casually. Who in the sword spring sect doesn't know that elder Qin's requirements for his disciples are extremely strict?"

The extreme summer tyrant Wolf's face flashed with embarrassment. He did not expect Yang Qi to know everything. If that was the case, it would not be easy to spout nonsense!

Chapter 7346 Quest Hall

"Senior brother, that brat, Sima Yi, first displayed his fire-attribute physique. Later on, when he fought su Yumo in the arena, he displayed his ice-attribute physique. Although it's rare, elder Qin wants a disciple with dual attributes of wood and fire. Even Ai fan from the outer sect is more suitable than Sima Yi. Therefore, the matter of him being a personal disciple is probably just a casual remark from elder Qin!"

"Regardless of whether elder Qin said it casually or not, this matter is related to him, so we can't just ignore it! That's why we can't directly attack Sima Yi in the short term!"

Yang Qi shook his head slightly. Even though he was the third senior in charge of the inner sect, he was not willing to offend elder Qin. This was a thankless task!

"Senior brother, are we really going to just watch Sima Yi jump around like this?"

The extreme summer tyrant Wolf was indignant. He subconsciously looked at the gift box. Such a heavy gift, and it couldn't even be exchanged for a helping hand?

In fact, he understood that if he wanted Yang Qi to personally deal with Sima Yi, this gift would be enough. However, if elder Qin was involved, it would not be enough!

"Junior Brother Xia Ji, calm down! If a martial artist can't calm his heart, how can he improve his cultivation?"

Yang Qi shook his head and smiled at the extreme summer tyrant Wolf, ""Just because we don't take action personally doesn't mean we can't deal with Sima Yi! Wasn't he the eldest senior brother in charge Now?! This isn't just about glory ..."

"Senior brother, what do you mean?"

The extreme summer tyrant Wolf's eyes brightened. Seeing Yang Qi wave at it, it quickly ran over.

Yang Qi whispered into the extreme summer tyrant Wolf's ear, ""We can do this and this, this and this ... That brat Sima Yi will definitely be in a terrible fix. I'm afraid that in a few days, he will be kicked out of his position as the eldest senior brother steward?"

"Hahaha, as expected of senior brother yang! To strategize and win a battle thousands of miles away! We don't even need to show our faces and we can teach that arrogant kid a good lesson!"

The extreme summer tyrant Wolf clapped his hands and laughed, ""That's great! We don't need to deal with Sima Yi openly, we just need to trip him a little from behind and he'll fall to the ground with dust and dirt on his face!"

"Are you relieved now? Don't be impatient, let's just wait for a good show!"

Yang Qi's lips curled up, and he exchanged a look with the extreme summer tyrant Wolf, both of them smiling sinisterly.

After Lin Yi left the cultivation peak, he went straight back to his residence on the North Peak of the long whisker peak. He had been fighting continuously today, and now he had to learn how to make elixirs. He was physically and mentally exhausted, so he went to rest as soon as he entered the door.

The next day, Lin Yi was woken up by a knock on his door.

"Senior brother Sima, everyone's waiting for you. Why aren't you out yet?"

Zhang Yiming saw Lin Yi open the door and immediately retracted his hand, bowing respectfully, "Are we going there now?"

"What is it? Why did you wait for me?"

Lin Yi felt refreshed after a night's rest, but Zhang Yiming's question made him confused. "Where are we going? You better explain it to me first and let me think about it!"

"Ah! Senior brother Sima, don't tell me you don't know?"

Zhang Yiming slapped his forehead and said, "it seems so. I didn't mention it to senior brother before. I was so happy yesterday that I forgot to mention it!" Blame me, blame me!"

"Alright, don't blame you. Hurry up and explain clearly!"

Lin Yi waved his hand impatiently, "if you can't explain it clearly, then don't!" I'm too lazy to listen!"

"Don't, don't! Senior brother Sima, you can't not listen. Actually, today is the day when the long beard Peak will announce the distribution of tasks!"

Zhang Yiming quickly grabbed Lin Yi's arm and said, "Most of our points are obtained by completing missions, and issuing missions is the responsibility of the managing senior brother. Senior brother, if you don't go, we, the people of long beard Peak, can't accept missions!"

"Ah? I still have to issue a mission?"

Lin Yi scratched his head. Why didn't anyone tell him?

Thinking back to elder Qin's words last night, he suddenly understood. Although elder Qin didn't say it clearly last night, he seemed to have vaguely mentioned some topics about the mission. Could it be this?

"Yeah! My senior brother Sima, you'd better leave quickly, or else everyone will be waiting anxiously. This is senior brother's first official appearance as the eldest senior brother in charge, you better not mess it up!"

Zhang Yiming didn't say anything and pulled Lin Yi along as they ran. Lin Yi didn't resist. Since it was his duty, he had to complete it.

The two of them walked quickly and soon arrived at the mission Hall of long whisker peak.

"He's here, he's here, senior brother Sima is here ..."

"Hurry up and line up. Don't fight with anyone. I'm the one at the front of the line. Why are you pushing me ... Hey ... Don't push me!"

"I've finally waited for the mission to be issued ... My points are almost used up. If I don't do missions to earn points, I'm afraid I won't even be able to eat!"

.....

The hall buzzed with activity as Lin Yi walked in. Lin Yi walked through the crowd and went up to the platform in the middle.

He'd already asked Yiming about the details of the mission on the way here.

Zhang Yiming gave a simple introduction so that Lin Yi wouldn't be completely clueless!

As for why outer sect disciples had to accept missions? As mentioned before, it was mainly for points. In the sword spring sect, points were everything!

Without points, not to mention cultivation, he could not even guarantee food and clothing.

As for the outer sect disciples' missions, they were divided into five levels, starting from the first level and ending at the fifth level. The first level had the lowest difficulty, so the points obtained were naturally the least.

As the level increased, the points awarded and the difficulty of completing the mission would also increase. If an ordinary outer sect disciple were to do a Tier 2 mission alone, it would be somewhat difficult.

Therefore, difficult missions were usually completed in teams and small groups. The points would be distributed according to the number of members and their contribution.

Although the rewards for the more difficult missions would be higher, with so many people, the rewards might not be as good even if they were evenly distributed.

Because of this, solo missions were more popular!

Apart from the points, the number of completed missions and the degree of completion were also a kind of assessment index for outer disciples.

If an outer sect disciple didn't complete any missions, not to mention whether he would starve to death, there was no hope for him to be promoted to the inner sect.

As a big senior, Lin Yi's greatest power was the assignment of tasks. For example, if two people wanted a task at the same time, Lin Yi could decide who to give it to with one word!

Another example would be if only one person applied for a mission, but Lin Yi could just reject the other party's request and say that he wouldn't give you a mission!

Chapter 7347 Conspiracy Against Lin Yi

Of course, if Lin Yi really did that, it'd anger the public too. Under normal circumstances, it was fine to be a little biased, but he couldn't go too far.

"Senior brother Sima, hurry up and activate the mission token! We've been waiting anxiously!"

Some of the outer sect disciples who'd attended Lin Yi's party last night thought that they'd found some familiar faces, so they got closer and started cheering.

Lin Yi only gave him a slight nod, not giving him much of a response. This guy was a fence-sitter who swayed with the wind-there was no need to put too much effort into it.

With a quick glance, all the outer sect disciples were basically gathered in the mission Hall, including the second senior brother in charge, Donggepi, and the third senior brother in charge, Aifan. However, the two of them did not appear to be too friendly because of their status.

As for the Senior Manager, tyrant Wolf Xiaji, he wasn't in the mission Hall, so Lin Yi didn't mind.

According to Zhang Yiming's introduction, every year when the new disciples were qualified to take on missions, the outer disciples would have more missions. This was also used for the new disciples to practice and to give them benefits.

Some rank one missions were basically as simple as death. For example, sending a letter to a certain city, going to a designated place to purchase an item the sect needed, or having some leftover materials of the sect and exchanging them for other materials, and so on.

Simply put, there was no danger. All they needed to do was spend some time. Moreover, the quest items in the Tier 1 quest were not of high value. Even if someone wanted to Rob them, they would not choose to Rob these things.

It was precisely because there would be a large number of low-level missions appearing at this time of the year that the outer sect disciples were particularly orderly today. If it was any other time, it would be good enough if one-third of them came.

Lin Yi didn't waste any time and activated the mission Board with his identity token.

When he became the senior disciple of the steward, his identity token had automatically given him this authority.

In the entire long whisker peak, apart from him, only Martial Master Ma's identity token had this authority.

The mission Board was a huge white jade wall, and after Lin Yi activated it, dense words appeared on it, neatly arranged into mission descriptions.

When the outer sect disciples saw the mission, they were in an uproar!

"I'll go! What the hell is this? It's hard to be blind! Do you want me to live?"

Extreme summer's disaster? Was he the brother of the extreme summer tyrant Wolf?

"What the f * ck are you talking about? What's going on this year ..."

Xia Ji was bullsh * tting? Another brother of the extreme summer tyrant Wolf?

Lin Yi raised his head and looked at the mission on the wall, frowning.

According to Zhang Yiming, the missions that appeared today should be a large number of stage one and stage two missions for the new disciples to gain points.

However, the lowest level of the missions on the White jade wall was a rank three mission!

And there weren't many of them!

Usually, the first rank was a simple task that could be completed by a single person. As for the second rank, inner disciples could basically complete it by themselves, and outer disciples could also choose to complete it in a team.

For Tier 3 missions, even forming a team would be more difficult. It would be better if there were more people, but once there were more people, the points each person would get would probably be less than the points for Tier 1 missions!

Currently, there were only two Tier 3 Quests on the quest board. A party of three to five players could still make a profit, but a party of six to seven players would be of little value.

However, according to the strength of the outer sect disciples, they would only have a chance of completing the Tier 3 mission if they formed a team of ten people. However, this was impossible!

As for the Tier 4 missions, there were quite a few, a total of ten!

The problem was that rank four missions were also a mission with a certain level of difficulty for inner sect disciples. How could outer sect disciples play? 40 to 50 teams?

The reward points after the completion of the mission did not match the danger involved at all!

As for the only rank five mission, no one paid any attention to it at all. In the eyes of the outer sect disciples, a rank five mission was an impossible mission!

If you don't want to live, you can try it. If you don't want to die early, you should give up!

"Senior brother Sima, what's going on? Why is the mission this year so difficult?"

One of them raised his voice and questioned Lin Yi.

The steward had the power, and naturally had the responsibility. It was a pity that Lin Yi didn't know about this mission until today-why was it so difficult?

Only the ghosts would know!

Zhang Yiming's forehead was covered in sweat as he whispered to Lin Yi, "Senior brother, something's really wrong today. Why don't we go and ask if the inner sect's mission was mistakenly given to us outer sect disciples?"

In theory, the range of missions that inner sect disciples could take on was from level one to Level Seven, which was two levels more difficult than that of outer sect disciples. However, in reality, inner

sect disciples would not even bother to take on such low-level missions like level one and level two, so the vast majority of level one and level two missions would be sent to the outer sect.

Inner sect disciples basically started taking on Tier 3 missions. Because they were strong, they needed much less people to do Tier 3 and Tier 4 missions than outer sect disciples. The points and mission completion rate of individual disciples would naturally be higher.

The list of tasks in front of him did look like the list of tasks for inner disciples. Perhaps both sides had made a mistake?

"Who is in charge of assigning tasks to the outer sect disciples?"

Lin Yi muttered to himself before turning to Zhang Yiming, "Perhaps this wasn't an accident, but someone did it on purpose?"

Zhang Yiming was slightly stunned. Before he could answer, Dongge Pi stood up and turned to face all the outer sect disciples. He raised his hands and pressed them down a few times.

"My fellow junior brothers and sisters, please be quiet and listen to me."

Donggepi had successfully attracted everyone's attention. After the noise died down, he smiled in satisfaction and said, "I roughly know the reason for today's incident, so I boldly came out to analyze it for everyone. Do you think that's the case?"

"Second senior brother, if you have something to say, just say it. We believe you!"

"That's right, that's right. Second brother's words have always been trustworthy. He must have a reason!"

"Second senior brother, we support you ..."

.....

As soon as Dongge Pi said a few words, a few people jumped out to wave the flag and cheer. Of course, these were all his underlings. They were here to make Dongge Pi seem popular.

Lin Yi looked on coldly, not interrupting Dongge Pi. He wanted to see what reason he could come up with. He didn't know the reason, after all.

Dongge Pi coughed twice and thanked his junior brothers for their support in a reserved manner before he continued to talk about serious business.

"As everyone knows, when senior brother Xia Ji was in charge, he had a very good relationship with the inner sect, so when he went to the inner sect to assign tasks, he would try his best to help us get good tasks. To tell you the truth, senior brother Xia Ji went to the inner sect last night, so we haven't seen him today!"

Dongge Pi sighed, as if he had a close relationship with extreme summer tyrant Wolf. He had completely forgotten the fact that they had been scheming against each other before. "I don't think I need to explain why today's mission list is like this. Everyone should know, right? Without senior Xia Ji's face, why would the inner sect's steward have to take care of us outer sect disciples?"

Chapter 7348 Is There Anyone Participating In My Team

The people below immediately went into an uproar and whispered to each other. The buzzing sound immediately resounded in every corner of the mission Hall.

Lin Yi turned to look at Zhang Yiming, who had an ugly expression on his face. He nodded helplessly and whispered, "Senior brother Sima, I'm afraid this is true! The person in charge of assigning the outer sect missions was the inner sect's third senior, Yang Qi. He was the summer extreme tyrant Wolf's backer! The extreme summer tyrant Wolf was defeated by you, senior brother Sima. It must be feeling indignant, and it's trying to embarrass you!"

"Junior brothers and sisters, as you all know, the inner sect disciples usually don't bother to take on Tier 1 and Tier 2 missions. However, because of senior brother Xia Ji, those low-level missions will probably be digested by the inner sect disciples, and we won't be able to do anything anymore! If you want points, you can only choose the dangerous Tier 3 and Tier 4 missions!"

Dongge Pi continued to fan the flames. "As for why senior brother Xia Ji did this, I think everyone can understand. If it were anyone else here, they might have made the same choice, right?"

Dongge Pi didn't say anything about Lin Yi, but everything was pointed at him, indirectly saying that Lin Yi was the cause of all this!

The outer sect disciples didn't dare to say anything about Lin Yi, but they were already very unhappy with him! He felt that this eldest senior brother steward was not suitable at all!

A big senior brother who could provide everyone with benefits was a good big senior brother. If they couldn't even complete missions because of Lin Yi, how were they supposed to play in the future?

Without missions, there would be no points. Without points, there was no way to cultivate!

The Tier 3 and Tier 4 missions were too dangerous. There were too many people and not much to gain. It was troublesome no matter how you looked at it!

Lin Yi watched Dongge Pi's performance without batting an eyelid. He wasn't prepared for this, so he couldn't do anything about it. However, it wasn't like there was no chance of a comeback. He'd wait for Dongge Pi to make his move.

As expected, Dongge Pi smiled after a while, "In order to take care of the new disciples, I'll accept a rank three mission and recruit five new disciples into the team. This way, the points each person gets should be slightly more than doing a rank one mission alone. It's a profit."

AI fan took the opportunity to join in. "Second senior brother of the East Pavilion is my role model. In that case, I, AI fan, will lead the team for the other Tier 3 mission. I'll also recruit five new disciples as members. I believe that with us leading the team, the Tier 3 mission won't be that difficult to complete!"

Indeed, with Dongge Pi and AI fan leading a five-person group of new disciples, they had a high chance of completing the Tier 3 missions. It was considered a benefit for the new disciples.

The new disciples they were targeting were those who supported Lin Yi before. As for their own disciples, they would team up with other confidants to do the Tier 4 missions.

The chances of completing the mission were high with more people, after all. It didn't matter if the points were low, it was better than nothing. They wanted to use this method to poach all of Lin Yi's supporters away, and then incite the others to isolate him!

"Sima~first~senior~brother! There shouldn't be any problems for us to accept the Tier 3 quest, right?"

Donggepi dragged the last syllable on purpose and looked at Lin Yi teasingly. He couldn't wait for Lin Yi to reject the two tier 3 missions.

This way, all the outer disciples' anger would be ignited, and they'd all come together to fight Lin Yi. Who knew, maybe they'd be able to replace this big Senior Manager today?

"No problem. Since you guys want to bring newbies to complete the Tier 3 quest, I, as the senior brother, will definitely support you!"

Lin Yi smiled and shrugged, his face nonchalant. "Although I think it's a waste for the two of you to lead a team to complete a Tier 3 quest, it's fine as long as you think it's appropriate! Junior Brother Zhang, help them register!"

Donggepi and Al fan's faces turned dark-they realized that it wasn't very honorable to pick the two missions with the lowest difficulty after Lin Yi's reminder.

However, the words had already been said, wouldn't it be even more embarrassing to go back on them? Moreover, this was all planned in advance. There was no benefit in changing it at the last minute, so he could only hold his nose and endure it.

Zhang Yiming agreed and quickly helped Donggepi and Ai Fan register. The new disciples who wanted to join their teams also took out their identity cards and quickly completed the two tasks.

Then, Donggepi and Ai Fan's confidants each formed a group to accept a rank four mission. There were more people in each group, and each group had nearly 40 people. Even if they completed the mission, they would not make much profit.

The remaining people who had not accepted the mission were hesitating as they watched from the side. A Tier 4 mission ... Was really a little difficult!

The success rate might be higher with more people, but the danger in the process was not gone. It was normal for a few to die, and it was possible for more than half of them to be killed. Was it worth it for a few points?

He might as well endure it for a while and wait for the next stage one and stage two missions to be more suitable!

Donggepi and Ai Fan left with their men after taking the mission, and a small half of the remaining people left as well. About half of them remained, hesitating and yelling at Lin Yi.

"Eldest senior brother Sima, our points are very tight, but a Tier 4 mission is too difficult for us. As the eldest senior brother in charge, no matter what, you should think of a way to come out, right?"

"Yes, yes! Although this was caused by senior brother Xia Ji, senior brother Sima, you're the senior brother in charge Now. We can only ask you for help ..."

In other words, Lin Yi had to take responsibility for the trouble he caused!

Lin Yi's lips curled up into an indifferent smile. "The mission is here. If you have the ability to do it, you will get points. If you don't have the guts to take it, then don't talk nonsense! Don't tell me that you're going to sit around and eat until you're starved to death without taking any low-level missions?"

"It's easy to say. He'd be a fool to go out and do it even though he knows it's a suicide mission! We can only increase our strength step by step by taking on low-level missions, and then slowly take on high-level missions. Isn't it right for us to take things step by step?"

Someone retorted, and a wave of support followed, demanding Lin Yi to think of a way and take responsibility.

Lin Yi raised his hand and pointed at the only Tier 5 mission on the wall. "I'm currently leading a team to accept a Tier 5 mission. Is there anyone who wants to join me?"

Everyone was silent!

Level five missions were basically only considered by martial artists who had reached the nascent Soul Stage, and they would go in groups. But were there any outer sect disciples who had reached the nascent Soul Stage?

No!

Hence, there was no market for Tier 5 missions among outer sect disciples!

There were still sixty to seventy people here, and if they all joined Lin Yi's team, they might get a decent reward if they completed the mission. The points each of them would get would be equivalent to completing two tier 1 missions.

Chapter 7349 Ghost Yin Mountain Range

The problem was that without a nascent Soul Stage martial artist to back them up, who would dare to take on such a dangerous mission? He might not even be qualified to be cannon fodder!

"Why aren't you talking? Weren't you all quite talkative just now?"

Lin Yi's cold eyes swept over the heads below, a mocking smile on his lips. "Could it be that your courage is only enough to accept rank 1 and 2 missions? What a disappointment! I, Sima Yi, hereby solemnly announce that anyone who can trust me, Sima Yi, can join my team for this rank five mission!"

The people at the bottom were all secretly sizing up the people around them, but no one dared to answer Lin Yi's recruitment.

Ling Hanxue, on the other hand, didn't hesitate and jumped onto the stage to Lin Yi's side. She smiled, "Count me in! I believe that eldest senior brother Sima will definitely be able to lead us to complete this mission!"

"Count me in!"

If Ling Hanxue wasn't here, Chen Zhisheng would never have come to support Lin Yi.

Jin Yuan Bao followed closely behind and stood behind Lin Yi, "I can't be missing! Wealth was found in danger! The greater the risk, the greater the reward! This was a good opportunity to strike it rich! Zhang xiaopang, what are you hesitating for?"

Zhang Yiming was conflicted-he'd have some confidence if everyone else went, but there were only a few people around Lin Yi-he didn't think he could do it!

But now that Jin Yuanbao said it, he'd probably be kicked out of Lin Yi's core group if he didn't join!

Even if she could still follow Lin Yi, she'd only be an outer Lackey-she wouldn't be able to enjoy the treatment of a core member anymore!

After weighing the pros and cons in his heart, Zhang Yiming immediately laughed and said, ""How can I hesitate? Little fatty Jin, don't talk nonsense, when have I ever hesitated? I've always been eldest senior brother Sima's hardcore supporter, so I can't be left out on this mission!"

Other than these four core members of Lin Yi, the others were all watching, and then they realized that everyone was watching too ... There was nothing more to say!

There were only five of them, and they accepted a rank five mission? Is this a joke?

It was extremely difficult for inner sect disciples to even want to complete a Tier 5 mission. Furthermore, that was a group of inner sect disciples, not five!

Where did this Sima Yi get his courage and confidence from?

With that in mind, the remaining people all turned around and left quietly. Not long after, the mission Hall was quiet, and only Lin Yi's group of five were left.

"Senior brother Sima, are you really prepared to accept the rank five mission?"

Zhang Yiming looked at Lin Yi, worried. There were only five of them, and he didn't have any confidence at all. "Or we can choose a Tier 4 mission. There are so many Tier 4 missions left, we can choose whatever we want."

"You don't believe we can complete it?"

Lin Yi smiled and shrugged, "But I don't think this Tier 5 mission is that difficult!"

As if I would believe you! How could a Tier 5 quest be easy?

Zhang Yiming complained to himself, then carefully read the quest description. Previously, because it was a Tier 5 quest, he subconsciously ignored the content. He would not accept it anyway, so why would he pay attention to the content?

Ling Hanxue and the others also looked up at Bai Yubi, studying the Tier 5 mission that Lin Yi said wasn't too hard.

[Mission: head to the ghost Yin mountain range and search for the rumored cultivation ruins of the great witch of ghost Yin. You only need to find the location of the ruins and find the entrance.]

As for the exploration of the ruins of the great wizard of ghost Yin, they didn't need to worry about it. It was beyond the scope of a rank five mission. After they got the exact information, they would issue a higher level mission, such as a rank six or even a rank seven mission!

After reading the details, Zhang Yiming's chubby face turned pale. He quickly pulled Lin Yi's arm, "Eldest senior brother Sima, let's discuss it again! That's the ghost Yin mountain!"

"What's wrong with the ghost Yin mountain?"

"It's just that the name sounds scary," Lin Yi said nonchalantly, "you're scared, aren't you?"

"Senior brother Sima, it's not about the name!"

Zhang Yiming smiled bitterly, "the ghost Yin mountain is a very strange place. Usually, only original infant stage Warriors dare to explore it. It's also very dangerous!" He had never heard of a golden core stage practitioner coming out! Wouldn't it be suicide for us to go to such a dangerous place?"

"Don't be fooled by the rumors. In fact, the ghost Yin mountain is not that scary!"

Lin Yi patted Zhang Yiming on the shoulder. "I have some understanding of the ghost Yin mountain range. If you trust me, then follow me. I guarantee that it will not be more dangerous than the Tier 4 mission. If you are really afraid ... Then stay! I won't blame you!"

Zhang Yiming's face was bitter. Although you said you wouldn't blame me, I didn't believe it! What if this was a test? If he were to retreat now, wouldn't he fail the test?

Zhang Yiming had no choice but to bite the bullet and say that he believed in Lin Yi, and that he would go through hell with him. However, he still had to remind Lin Yi!

Lin Yi was telling the truth-Zhang Yiming was overthinking things!

And Lin Yi did have some understanding of the ghost Yin mountain. First of all, the map that the Nangong nobles got had records of the mountain. With that, he was a bit more confident.

There were also some records about the ghost Yin mountain in the books in the library. Lin Yi had some impression of it after looking through it.

So in terms of understanding of the ghost Yin Mountains, there weren't many in the sect who could compare to Lin Yi!

It was because of this knowledge that Lin Yi had the confidence to explore the ghost Yin Mountains. It was a strange place, and people didn't usually go there.

Lin Yi was planning to collect some suitable herbs in the ghost Yin Mountains. Now that he was going to start learning alchemy again, some rare herbs couldn't be bought, so he had to find them himself.

There were countless herbs and medicine stored in the Jade space, but there weren't many that Lin Yi could use right now!

After all, Lin Yi didn't play with elixirs under golden class level six or seven anymore-he had to make them now if he wanted to make golden class level three or four!

It didn't matter what could be bought with money, but the key was that those that couldn't be bought could only be found by themselves. The ghost Yin mountain range was deserted, which was the best place to find medicinal herbs.

The great witch of ghost Yin was the most famous warrior in the ghost Yin mountain a long time ago. Although his nickname had the word "great witch" in it, he was still the most powerful in martial arts. However, the remains of this person's cultivation had always been a legend, and almost no one had found it!

The sword spring sect had treated the search for the ruins as a rank five mission. Strictly speaking, they had underestimated the difficulty of the mission.

However, the reward was very generous. Even if they didn't find the ruins, as long as they could safely come out of the ghost Yin mountain range and bring back the local specialty as proof, they would get a quarter of the task points as a reward!

Chapter 7350 The Center That Bloomed Everywhere

Therefore, even if they couldn't find the ruins, they didn't lose anything!

After all, Lin Yi's team only had five people, and a quarter of the points was a lot to distribute.

With Lin Yi's final decision, no one objected, and the five of them prepared to leave the mountain.

They did not expect that just as they left the mission Hall, five new disciples would stop them hesitantly.

"Senior brother Sima, my name is Li Yingjian. We want to join your team, I wonder if we can make it in time?"

The young man in the lead sneered and cupped his fists, "We didn't think it through just now, but after we thought about it, we felt that eldest senior brother Sima didn't seem like someone who would do something he wasn't confident in, so we wanted to take the liberty to ask to join eldest senior brother's team."

Zhang Yiming looked at the five people as if they were idiots. Were there really people who were not afraid of death and were rushing to die?

That's good, it's more comfortable to lie down with a few more scapegoats!

Zhang Yiming was supportive of these five joining, but he didn't say anything since Lin Yi had the final say.

Lin Yi smiled, "it'd be great if everyone's willing to believe in me, Sima Yi, and come with us to complete the mission!" It's just that this Tier 5 mission is indeed a little dangerous, and it's very likely that you won't be able to return. Have you really thought it through?"

If these five really wanted to join, Lin Yi didn't mind bringing them along. He could take them in if they were worth befriending.

"Senior brother Sima, we've already thought it through. This time, we'll definitely do our best to follow senior brother to complete the mission! No matter what dangers lie ahead, even if it's a mountain of daggers or a sea of flames, don't even think about stopping us! If you frown, you're not a good man!"

Li Yingjian obviously had a plan in mind. He patted his chest and promised without hesitation, ""If eldest senior brother finds out that we disobey orders or are afraid of death, he can kick us out of the team at any time!"

"Alright, since that's the case, we're all a team now! Let's help each other and take care of each other in the future!"

Lin Yi smiled and nodded. Five more people didn't matter, but this meant that there were people who really thought highly of him as a manager-there would be more and more of these people after he finished this Tier 5 mission!

"Senior brother Sima, what should we do now? Are we going to the ghost Yin mountain range directly?"

Zhang Yiming was very happy that someone had joined. He quickly asked about the departure time. It would be even better if he could recruit more people!

"To go to the ghost Yin mountain, we need to prepare some items. Does the sect have a shop for this?"

Lin Yi pinched his chin as he pondered-things were different now. Without pure Qi, his strength was greatly reduced, and he needed items to help him, "We'll set off after we're done with the preparations."

"Senior brother Sima, if you want to buy items, I think it's more cost-effective to go to the city closest to the sect."

Zhang Yiming scratched his head and laughed. "Although the sect has shops that sell tools in this area, you need points to buy them. I don't think it's worth wasting points on these things. Not only can you save points by buying them in the city, but you can also buy them at a much cheaper price. The most important thing is that there is a wide variety, and you can buy whatever you want. It's much better than buying them in the sect!"

"That makes sense! Let's go to the nearest city first ... The sect has an aerial spirit beast to send us, right?"

Lin Yi suddenly thought of this problem. Without an aerial spirit beast, he'd have to spend a lot of time crossing mountains and rivers to leave the sect.

"Uh ... We do have aerial spirit beasts, but the sect won't give them to us for free. We'll also need points to get them!"

Zhang Yiming was very clear about these things. He immediately did some mental calculations and said, ""There are only ten of us in total, so we don't need a large aerial spirit beast. A medium-grade one will be enough. We'll fly to the nearest city, which won't be too far away, so it won't cost us much points. About twenty or so points will be more than enough."

"That's fine. Let's go. We'll fly to the nearest city!"

Lin Yi made the decision and the group of ten quickly set off, reaching the square where the flying spirit beasts were rented.

As Zhang Yiming had said, it cost 25 points to rent a medium-class dark flying spirit beast for ten people.

Lin Yi waved his hand and paid for it all.

The dark flying spirit beast took the ten people and soared into the sky. After flying for only ten minutes, they saw the city closest to the sword spring sect.

After dropping off Lin Yi and the group outside the city, the dark flying spirit beast returned to the sword spring sect on its own. They would have to think of another way to go to the ghost Yin Mountains.

"Senior brother, the most famous Chamber of Commerce in this city is the central cooperative Chamber of Commerce. It has a wide variety of items and many strange things. I've been here before and found it interesting, so let's go there directly?"

After entering the city, the first thing Zhang Yiming said was the central business Association, which made Lin Yi speechless.

He really ran into a central cooperative Chamber of Commerce everywhere he went!

It seemed that Central's development on the sub-Island was also quite good. Chain stores had already bloomed everywhere!

"Alright, you're an old horse who knows the way. You can lead the way!"

Lin Yi shrugged. He didn't really care if they were going to the center, as long as he could get what he needed.

"Alright! Eldest senior brother, follow me. The central cooperative Chamber of Commerce's shop is not far from the city gate. It's just a few steps away!"

Zhang Yiming agreed and led the way excitedly. It turned out that it was not just a few steps ... They walked at least a thousand steps before they saw the sign of the central Chamber of Commerce.

After entering the shop, Lin Yi looked around, wondering if there could be such a coincidence to see the man with the grey hat again. Unfortunately, it wasn't!

After a round of selection, Zhang Yiming chose a lot of props and items, and he rushed to pay, "Eldest senior brother Sima, I don't have many points, but I do have many gold certificates! So, I'll pay for the props this time! Don't you dare snatch it!"

"Zhang xiaopang, do you know what first come, first served is? It's not your turn to foot the bill! I'll definitely go first this time!"

Jin Yuan Bao finally had a chance to show off, and Jin Yuan bank was not short of money. How could they let Zhang Yiming be rich?

"What first come first serve! I suggested it first, so of course I'll pay for it. Little fatty Jin, don't mess around, or else I'll fall out with you!"

Zhang Yiming was also a real rich second generation. Otherwise, why would he be squeezed out more than others by 90% because of the resources sent by his family?

It wasn't an exaggeration to say that this guy had a lot of money too-the two chubby kids were fighting over the bill, and Lin Yi was speechless!

Although he had quite a few gold and silver certificates, he really didn't dare to compete with these two chubby boys!

Of course, if he could use items to exchange for pills, Lin Yi wouldn't be scared of anyone. Any pill he threw out was worth cities!
