

Bodyguard 7461

Chapter 7461 We're Really Finished

He didn't even have time to let out his last scream before he was completely dead. His limp body was completely embedded in the wall, but he didn't fall.

The white man slowly and elegantly retracted his palm. An invisible stream of air gathered the blood of the dead cultivator into a ball. With a light flick of his finger, the blood returned to the cultivator's face.

A bloody mess!

It was truly a tragic sight!

"You're indeed trash. How boring!"

The white man snorted disinterestedly, then raised his head arrogantly. "What cultivators Management Association? it seems like it's just an empty title. Why should we care about such an unrated organization?"

"He's just a low-level guard, what's there to be proud of?"

The Asian woman coldly glanced at the body on the wall and then turned her eyes to the other side of the corridor. "It seems like the person in charge is already here!"

Her tone and posture when speaking Chinese were a little stiff, which was indeed similar to the style of Korea.

"You're all lowly bastards, you have to kill a few people before you're willing to show your face!"

The white man sneered and said,""They probably think that their country has a large population, so it doesn't matter if a few people die."

"I dare you to say that again!"

Chen Yutian walked out step by step with cold killing intent, his eyes locked on the white man."Daring to come to our place and act so atrociously, Do you not know how to spell the word" death "?"

"Hehehe, trash, you sure have a big mouth! When you're dead, I can use your blood to write the word "death" beside you!"

The white man's owl-like laughter was not beautiful at all, and his eyes were as lifeless as a zombie 's."However, before I kill you, tell me first. Are you the one in charge of this cultivators Management Association?"

Yutian had Yu Bing beside him-the two had heard about the two new sanctuary's Masters entering the country, but they didn't expect them to be here.

They were thinking the same thing as Lin Yi-they thought that they were going to the villa, and so they were getting ready to go back as soon as possible.

"If you have something to say, just say it, don't beat around the bush!"

Yu Bing looked at the two uninvited guests coldly, his heart heavy-he couldn't see through the strength of these two foreigners.

If they didn't have any hidden skills or items, then either way, they were strong enough to crush him!

... He could only hope that it was the first situation!

"Alright, let's finish the business first."

The white man had a proud look on his face as he raised his chin and looked down at the two,""On behalf of the new sanctuary organization, we're here to ask you why you didn't attend the 'sanctuary anniversary founding world cultivators Summit' held in Europe. You should have been informed before, right?"

"There's a saying in Huaxia that you refuse a toast only to drink a forfeit. Since you don't want face, we naturally have to represent the sanctum to question you!"

The Asian woman continued in stiff Chinese, ""I'll give you one last chance. Immediately announce to the world that your cultivators Management Association will submit to our new sanctuary and accept the leadership of the new sanctuary. Otherwise, there's no need for your rubbish cultivators Management Association to exist!"

"Hahaha! What a joke! Where did this wild dog come from, daring to bark in our territory!"

Chen Yutian laughed in anger. He was a soldier with iron bones. How could he let these foreigners be so arrogant on his own land?

When the country was weak, there were also iron-blooded men who humiliated their people as sick men of East Asia, not to mention now that the giant dragon of the East had risen!

With a roar, Yutian charged into the White man's chest and punched him with full force.

As for the Asian woman ... There was no point in hitting a woman, so he would deal with the white man first!

"Yutian, don't be rash!"

Yu Bing was taken aback-the opponent was obviously stronger than him, and it wasn't wise to go head to head with him.

The best way was to deal with the other party verbally and stall for time. When the reinforcements arrived, they would naturally not have to be afraid of these two foreigners!

However, Chen Yutian had already started his attack-he didn't hear Yu Bing's cry at all, or he just pretended not to hear it!

The momentum had been formed. If he gave up halfway, he would only attract the enemy's merciless counterattack!

Yu Bing gritted his teeth and followed.

Chen Yutian was no match for him alone. If they worked together, they might have a chance.

The Asian woman smiled in disdain, not intending to attack. Instead, she took two steps back and moved away from the battle, watching as Yutian and Yu Bing attacked together.

The white man, on the other hand, was even more relaxed. He only reached out his right hand, grabbed it with his thumb, and flicked it lightly!

The swift fist and the casual finger collided in the air, and Yutian's tank-like body suddenly stopped!

A wave-like pattern started to spread from the point of contact between the fist and the finger, washing into Yutian's body.

Yutian's entire body was covered in the ripples, and his face quickly turned red. He gritted his teeth and held on for a second before he shot back like a cannonball!

Yu Bing was shocked beyond belief-he couldn't care less about attacking the man anymore, but put his hand on Yutian instead. He didn't dare pull too hard, afraid that the force would tear Yutian apart. He could only try to get rid of Yutian's force with his little strength.

During this process, Yu Bing was sent flying back with Yutian, but the white man didn't have any intention of letting him go. He followed closely behind like a ghost, appearing beside Yutian and Yu Bing in a flash.

"I've finished my business. Since you want to die, I'll fulfill your wish!"

The white man grinned evilly as he pointed his finger like a sword towards Yu Bing's head. Once it hit, it was undoubtedly stronger than a real weapon, "Don't worry. When you're dead, I'll write the word "death" beside your bodies and let you know how the word is written!"

Yu Bing was panicking-he couldn't even handle Yutian's power, much less the white man's attack!

This time, he was really done for!

In the nick of time, a figure suddenly flashed to the white man's side and raised his hand to stop his attack!

Yu Bing was sweating. The finger was only three inches away from his head, and the sharp Qi was about to cut his skin.

Chapter 7462 Lin Yi Is Here?

"What are you doing? Why did you stop me?"

The white man frowned and looked at his companion, the Asian woman, with dissatisfaction. ""Could it be that you've taken a fancy to this pretty boy? You want to treat him as a toy?"

"Shut up! Think about serious business! It's enough to teach them a lesson, there's no need to kill them all!"

The Asian woman hmped coldly and slapped Yu Bing's face, sending both him and Yutian flying.

"Do you two still dare to ignore us after seeing the power of our new Holy region?"

"That's right. If she didn't stop you, you two would be dead bodies by now. You'd better thank her. Of course, if you continued to hold on and let her deal with you, you might be more satisfied!"

"To me, I really hope you can be tough to the end," the white man said with an evil smile. "To be honest, I'm very unhappy that I couldn't kill you!"

Yu Bing spat out a mouthful of blood and laughed, "What do you want? Can't you just tell me clearly?"

By now, Yu Bing had understood that these two new sanctuary members were probably golden core stage!

Cultivators of this level did not exist in the secular world. Even if there were, they would only exist in the small Jianghu of the immemorial era!

As for the practitioner factions in the ancient martial world, they were basically all under Lin Yi's faction led by the green cloud sect. They wouldn't come to the common world for no reason, because the spiritual Qi there was too weak, and it wasn't suitable for golden core cultivators.

The teleportation formations of the secular world were guarded by the Ice Palace, so no one in the ancient martial world had noticed any Masters sneaking in. Of course, even if there really were golden core Masters, the disciples of the Ice Palace might not be able to find them.

However, the two people in front of him, one of them was a white-race European, and the other was a yellow-race Asian from Korea. They were definitely not from the ancient Jianghu!

The only possibility was that it was an expert created by the central!

After thinking through all this, Yu Bing gave up on fighting head-on-he had to play along and buy as much time as he could so that the reinforcements could come to his rescue.

It was also important to figure out the enemy's goal!

"Do you want to tell them? If you're willing to say it, then you can announce it!"

The white man shrugged his shoulders at the Asian woman. "'I'm only interested in twisting their heads. If they don't agree after you're done, you don't mind letting me handle it, right?"

This was a threat, but Yu Bing and Yutian didn't take it to heart-dying in the face of two golden core Masters was normal.

"Alright, I'll say it!"

The Asian woman pouted and turned to Yutian and Lin Yi."On behalf of the new sanctuary organization, I declare to you that from now on, the cultivators Management Association will no longer exist. You must submit to our new sanctuary organization unconditionally and accept our conferment. If you don't agree, the new sanctuary will launch a holy war and wipe you out completely!"

At this point, the Asian woman's figure flashed. She disappeared for a moment and then returned immediately. She was holding the sign of the cultivators Management Association in her hand."You guys don't need this rubbish anymore!"

With a light cracking sound, the sign quickly turned into dust-Yu Bing and Yutian's eyes were burning with rage, but there was nothing they could do.

"Originally, we wanted you to express your stand today, but seeing that you're both injured, we'll be extra kind and give you three days to consider! If you don't have a clear answer after three days, I'll take it that you've rejected the proposal!"

The Asian girl announced coldly, her eyes locked onto Yutian and Yu Bing. "Do you have any other questions?"

"I don't need three days. I can give you the answer today!"

Lin Yi's bone-chilling voice came from the door, "But I'm afraid you won't have the chance to bring my answer back!"

"Boss Lin Yi!"

Chen Yutian and Yu Bing were both surprised and happy, "What are you doing here?"

Lin Yi, of course, had rushed back on the flying saucer. He'd received news that the two new Saints had arrived at the practitioner Management Association, so he'd rushed over immediately, just in time for the Asian woman's speech.

"Lin Yi?!"

The white man and the Asian woman exclaimed in unison and suddenly turned to look at the door.

This was a legendary name. He was a super dangerous person who had been severely warned by the higher-ups of the new sanctuary.

Basically, they wouldn't even have the chance to run away from Lin Yi!

The problem was, why was Lin Yi here?

At this time, the two golden core stage experts of the new Holy region were panicking. They had thought that they had come here to show off, then kill a few iron-headed guys and successfully take over all the forces of the cultivators Management Association.

According to the information, the only xuansheng stage master here had already left. There were no Yuanying stage or Jindan stage Masters below xuansheng stage, but there were quite a few foundation establishment stage Masters.

However, a mere Foundation establishment stage cultivator was useless. Two golden core stage cultivators were enough to sweep through everything!

The original plot was indeed going according to the script, but Lin Yi suddenly appeared out of nowhere. What the hell was this?

"Are you the new sanctuary-realm that has risen from the ashes? It looks like you're jumping!"

Lin Yi walked in slowly, his aura locking onto the two. "Do you mind introducing me to who is currently in charge of your new Holy region? LAN xiaoru? Or Zhaolong? Or an Jianwen? Otherwise, it's snow sword peak, right?"

The Caucasian man and Asian woman started to sweat-they didn't dare to move at all under Lin Yi's pressure. If they moved, they'd be under Lin Yi's storm of attacks.

"The new sanctuary is just making a small fuss in Europe. We're already being very polite by not paying attention to them. I didn't expect you to be so bold as to come to our country and threaten to Annex our cultivators Management Association. I'm really curious. Who gave you the courage?"

Lin Yi paced back and forth with his hands behind his back, calm and composed. "Do you think you can target my people without me around? Or does central think that I'm already crippled to the point that I can't even lift my saber?"

"Lin Yi, what do you want?"

The white man forced himself to open his mouth. He was terrified, but he still had some pride on his face. "You'd better think it through. If you really want to go against us, I'm afraid there will be some consequences you can't bear ..."

Before he could finish, Lin Yi slapped him!

The white man's body had been completely destroyed by the five-elemental killing intent when he was sent flying. He was a corpse before he landed.

"You came to our house, killed our people, injured my brothers, and even dared to threaten me. How much water do you have in your head?"

Lin Yi wiped his hands on his clothes in disgust, as if he didn't like it was dirty, but he was actually feeling great inside.

Chapter 7463 New Sacred Zone Organization

The anger he'd had from Mengyao's disappearance dissipated quite a bit with that slap.

Furthermore, returning to the secular world and being able to use true Qi again was also very comfortable. Although he did not have a physical body, returning to the familiar fighting style would also make him feel better.

"Your companion is already finished. Do you want to go down and accompany him?"

"Perhaps you could introduce me to your new sanctuary organization?" Lin Yi asked.

"What do you want to know?"

The Asian woman's expression kept changing, and she actually gave in. ""If it's something I know, I don't mind telling you."

Lin Yi was a little surprised-he'd thought that these two were Masters created by central, following their every command like robots that had been programmed.

From the looks of it now, that did not seem to be the case. They were more like the previous Xue Jianfeng and Chen Dongcheng. Although their abilities had increased, they still retained their own personality and thoughts.

Central hasn't suffered enough losses? Was the lesson from Chen Dongcheng's betrayal not profound enough?

"Tell me your name and how you joined the new sanctuary First!"

Lin Yi was deep in thought as he got the Asian woman to start confessing.

"My name is Piao Jinzhu. My family is a very famous martial arts family in bangziguo, so I also have a martial arts Foundation."

Piao Jinzhu, the Asian woman, was quite obedient and explained in detail, ""After that, she migrated to Europe and was chosen by the new sanctuary to be trained as a Saint. After her strength improved greatly, she began to fight for the sanctuary."

"So you're both messengers?" Lin Yi smiled. I thought you were Saint seiyas! What a pity, I still want to see what your Holy garments look like!"

Lin Yi continued after a bit of mocking, "Tell me about the organizational structure of your new Holy region and who is your leader? What's their combat strength?"

"The leader of our new Holy region is the Holy Emperor. Under him are four Holy generals, eight Holy Masters, and then us Holy envoys. There are a total of twelve people. Below Holy envoys are all called holy weapons, and there are no holy warriors!"

Piao Jinzhu didn't know if she really didn't hear Lin Yi's mockery or if she was just pretending, but her calm and collected appearance was not bad.

"As far as I know, the Saint emissaries' battle strength is about the same, and the Saint master is a level stronger than us. The Saint general is stronger than the Saint master, but we don't know how much stronger they are. The sage Emperor is without a doubt the strongest of us all!"

"As for holy weapons, those below the Golden core stage are all holy weapons. They can be divided into Captain, elite, and ordinary holy weapons according to their strength. There are more of them, but I'm not sure."

Lin Yi was speechless—he didn't think that this new Saint would be this strong!

Considering the strength of the Saint emissaries and Saint teachers, the Saint emperors were at least at the xuansheng or mountain opening stages!

With Lin Yi's essence spirit only recovering to the nascent Soul Stage, he might not be a match for the opponent.

The only good news was that Piao Jinzhu's golden core wasn't stable yet, and there were side effects of forcefully breaking through!

Not to mention anything else, just in terms of combat power, he was far inferior to a true golden core stage ancient martial art practitioner.

If one had to say it, they were stronger than half-step golden core cultivators and weaker than true golden core cultivators. From this, it could be seen that the center didn't put too much effort into training them.

It was also because central didn't know that Lin Yi was back, otherwise why would they send these two garbage golden core cultivators to die?

"What else do you want to know? I'm done talking, can you let me go?"

Piao Jinzhu looked at Lin Yi coldly, as if she didn't care about life or death, but the words she said were begging for mercy.

"I don't want to lie to you, but I'm afraid I can't let you go for the time being!"

Lin Yi shook his head. Since he didn't know that he was back at central, he had to make good use of it. It would be great if he could trick central!

"If you don't let me go, then kill me. Otherwise, I'll be regarded as a traitor, and my family will suffer because of me!"

Piao Jinzhu looked up, her eyes still cold, making it impossible to tell if she was sincere or not!

"Boss Lin Yi, since she wants to die so badly, let's fulfill her wish!"

Chen Yutian spat and stood beside Piao Jinzhu.

These two foreigners had almost killed him and Yu Bing-what was there to say now that they were asking for it?

Before Lin Yi could say anything, Piao Jinzhu suddenly jumped up and attacked Yutian with full force!

She didn't dare to attack Lin Yi, but she was confident that she could kill Yutian with one hit!

Whether it was killing Chen Yutian or taking him as a hostage, it would definitely reverse her situation!

This was her only chance, Piao Jinzhu must seize it!

Piao Jinzhu's face was ferocious, and she had used all her strength in this attack that she had been preparing for a long time!

However, Lin Yi sighed as soon as she made her move.

There's a path to heaven, but you refuse to take it. There's no Door to Hell, but you barge in!

Lin Yi had wanted to spare her life, but it seemed like she really wanted to die!

Lin Yi's body flashed and appeared in front of Piao Jinzhu. He casually used his raging fire Bagua Palm and a burning aura exploded, sending Piao Jinzhu flying away!

Instant kill!

"Many Thanks, boss!"

Yutian was shocked-if it weren't for Lin Yi, he might've been injured or even killed.

"We're all brothers, what's there to thank? In the future, you must pay more attention. When facing powerful enemies, you must not face them head-on!"

Lin Yi said as he poked the body with his foot. "This so-called new Holy region is most likely a new trick by central. I didn't expect it to be so powerful on the surface!"

"Boss Lin Yi, do we need some help?"

Yu Bing was also shocked when he heard Piao Jinzhu's words, "If we send a message to the small Jianghu in the ancient times, they should be able to send reinforcements in a few days,"

Lin Yi's forces in the secular world, other than Chen Dongcheng, were only at the Foundation Stage at the most. The gap between them was quite big, and if he could get help from the ancient martial world, he could fill the gap.

Of course, if Lin Yi wanted to, he could use the Qi in the Jade space and the pills in his hands to force Yutian and the others to level up, just like what he did before.

However, in that case, those who were forced to improve their strength would not only not be able to improve their cultivation, but they might also have hidden dangers in the future.

For example, Lin Yi himself had some problems with his body. After rebuilding his body, his strength dropped a lot temporarily, but it cleared up a lot of hidden problems, and his future training prospects were naturally much better.

It didn't matter if it was for those below the heavenly Dao realm, but Lin Yi felt that it was better to be careful with those above the Foundation Stage!

It was better for them to let the people around them improve on their own. Anyway, there were plenty of cultivation resources, so they were not afraid to squander them!

Chapter 7464 Teaching The Sage Emperor A Lesson

"We don't need to alert the small Jianghu of the immemorial era for the time being. Let's observe the situation first!"

Countless thoughts crossed Lin Yi's mind before he finally shook his head. "Central probably doesn't know that I'm back yet. If the people of the small Jianghu of the immemorial era make a large move, it'll easily alert the enemy! I'd like to see how much central has developed when I wasn't around!"

"Boss, we've killed two Holy envoys sent by the new sanctuary organization. I'm afraid we can't hide the news of your return even if we wanted to, right?"

Chen Yutian didn't think much of it-with Lin Yi here, what was there to worry about? He directly did it!

The sanctuary base at the center had been destroyed once. If they wanted to build a new sanctuary, they could destroy it again. What was the big deal?

"If we really can't hide it, then we'll have to see if central has the guts to fight me head-on when they know I'm back!"

Lin Yi smiled coldly. This time, it was central who reached out first. If he dared to do so, he should've known that his arms and legs would be cut off!

At the same time, the new sanctuary organization in Europe!

"Lord Eastern Sage general, something happened to the two emissaries who were sent to Asia to deal with the cultivators Management Association!"

One of the Saint weapons respectfully bowed to the white-robed man. "The life devices implanted in the two Saint messengers have stopped working one after another. It's very likely that they encountered a powerful enemy and died in the sanctuary-realm!"

"Both of them are dead?"

The white-robed middle-aged man frowned slightly. "According to our intelligence, the only threat is Chen Dongcheng. He's not in the cultivators Management Association. With their strength, who can kill them?"

"I don't know ... The life device can't transmit such information back!"

The Saint weapon maintained its bow. It was only a minor character in charge of monitoring the survival of the new Saint emissaries and above. If the Saint general killed it in a fit of anger, no one would say anything.

"It seems that I have to quickly develop a monitoring device that can remain intact during battle. Otherwise, I won't know what happens when I go out. It'll be too passive!"

The eastern Sage great general didn't have any intentions to vent his anger on a minor character. He merely frowned and spoke, "This Lord knows about this matter, you can leave first!"

The Holy weapon respectfully replied and slowly withdrew after bowing.

He did know a little about the surveillance equipment that Eastern Sage had mentioned. In the beginning, every member of the new sanctuary organization would carry a surveillance equipment with them when they went out for a mission, so that it would be convenient for them to record the process of the mission.

However, these ordinary surveillance devices were still fine against ordinary Saint weapons. The battle between an elite Saint weapon and a Saint weapon Captain was already quite intense, and it was easy for the devices to be damaged as soon as the battle began.

The true Qi released by the higher-ranked Saint emissaries and above during battle could destroy these monitoring devices in one go, so there was no point in wearing them at the moment.

Later on, in the new Holy region, only ordinary holy weapons were equipped with surveillance equipment, and other people didn't need to carry it by default.

As a result, they had no idea how Piao Jinzhu and the other person died. They could only judge whether they were alive or not through the life device implanted in their bodies.

After the Saint weapon left, the eastern Sage immortal general calmly turned and headed to the central location of the Holy region to seek an audience with the sage Emperor.

"Your Majesty, the two Saint emissaries Piao Jinzhu are dead. The location is the Huaxia cultivator Management Association. From the data recorded by the life device, they were both killed in seconds."

The eastern Sage general lowered his head and spoke with a calm expression, "I've investigated it before I came. Although Chen Dongcheng has already returned to the secular world and is rushing back at full speed, he was still on his way when the two Holy envoys died, so it can't be Chen Dongcheng!"

"There are still hidden experts over there?"

The sage Emperor was slightly taken aback, and then a hint of anger appeared on his face. "What are those people doing? He couldn't even do the most basic intelligence gathering? Two Saint emissaries! This is a great loss for our new Holy region!"

The eastern Sage general still had his head lowered and did not say anything.

He was the number one person under the sage Emperor of the new sanctuary, which meant that he was the number two person in the new sanctuary. However, his actual power was not even one-tenth of the sage Emperor's.

The two sacred emissaries who had died were not the eastern Sage great General's men, so he naturally didn't care too much about them.

"Eastern Sage general, immediately arrange for spies to focus on the situation in Huaxia. We must obtain detailed information about that place!"

The sage Emperor's face was dark as he gave the order. "Remember, do not let the other party notice you. Chen Dongcheng has returned, and there is a mysterious expert hiding in the dark. Before we get detailed information, we can not act rashly."

"This subordinate will do as you command!"

The eastern Sage general didn't have any objections. He knew that although the sage Emperor was angry, he had not lost his rationality.

Only a fool would send a few more Saint Masters or Saint generals to take revenge before they figured out the background of the enemy because of the death of two Saint emissaries!

The strategy of adding fuel to the fire would only completely ruin one's own side. Only after obtaining detailed information and then launching a thunderous attack with an absolute advantage was the correct choice.

"You can leave first! If there's any new progress, let me know immediately. "

"This subordinate will take his leave!"

The eastern Sage general bowed before turning and departing the area.

The conversation between the two of them stopped there. It seemed that the number one and number two figures of the new Holy region were not very close. As for the truth, only they themselves knew.

After the eastern Sage general left, the sage Emperor opened up a communication device as a projection appeared before him.

After about ten seconds, the communicator was connected, and LAN xiaoru's image appeared on the projection.

"Miss LAN, I have something to report to you!"

Although the sage Emperor was still seated on his throne, his expression was extremely respectful, just like how the eastern Sage great general would act in front of him. "The two divine emissaries sent to Huaxia were killed by the people from the cultivators Management Association. The one who did it was not the traitor Chen Dongcheng, but someone else!"

"Who allowed you to go to Huaxia without permission?"

LAN xiaoru's face darkened and she said unhappily, ""Is Europe completely under your control? They're already extending their hands into Asia?"

"Miss LAN, you've misunderstood ... This time, it's only because the cultivators administrative Association has ignored our invitation. We've sent someone to question them, lest they look down on our new Holy region!"

"If we really wanted to do something to Huaxia, how could we have only sent two emissaries?" the sage Emperor quickly explained. This is just a deterrent and a guarantee for our development in Europe. "

"In the future, if you want to leave Europe, as long as it's a holy weapon Captain or above, you must get my approval! Do you understand?"

LAN xiaoru's expression was unpleasant as she shouted in a low voice, ""If you dare to act on your own again, you don't need to continue being the sage Emperor!"

A hint of embarrassment and anger flashed through the sage Emperor's eyes, but he immediately lowered his head to hide it. Feigning fear and reverence, he said, "As you command! Don't worry, miss LAN, there won't be a next time!"

Chapter 7465 How Did You Come Back?

"It's best if you don't. You should know how much resources and price we've paid to cultivate a Saint. It wasn't easy to gather the organizational structure of the new sanctuary, so you must be careful before it grows strong!"

LAN xiaoru's expression looked a little better as she began to comfort the Saint Emperor, ""You've done a great job before this. Keep it up and Don't Let Me Down!"

"This subordinate will do his best to serve the organization and will not let miss LAN down!"

The sage Emperor quickly expressed his loyalty and asked, "What should we do in China? Before this, your subordinate has already arranged for Eastern Sage to deal with some matters. "

After listening to the sage Emperor's order to the eastern Sage general, LAN xiaoru pondered for a moment. ""There's nothing wrong with what you're doing, just do it for now!"

"As for the mysterious master who killed the two Saint messengers ... Could it be that Lin Yi has returned?"

LAN xiaoru herself didn't know how much she feared Lin Yi, so when she heard that a mysterious master had killed two golden core stagers, her first reaction was that Lin Yi had returned!

"Miss LAN ... We didn't receive any news of Lin Yi's return, and didn't they say he left Sky Class Island for another plane? He shouldn't be in the mortal world, right?"

The Saint Emperor clearly had some understanding of Lin Yi and the sky Class Island.

"This Lin Yi ... It's hard to say! Wait a moment!"

LAN xiaoru didn't cut off the communication with the sage Emperor, but directly connected to another communication in front of him. ""Help me check if there's any unusual movement in the wormhole passage!"

The other party quickly took action after agreeing. In just half a minute, there was a reply. "Because the entrance of the wormhole passage is guarded by the people from Dafeng, it's hard to investigate the specific situation. However, Dafeng has been leaving the wormhole passage frequently recently. This should be one of the unusual movements!"

LAN xiaoru's expression did not change, but she was feeling embarrassed!

The wormhole was originally the center of their group, but now that brother Dafeng had taken over the place, they didn't even know the exact situation of the wormhole.

This made LAN xiaoru even more determined to create Masters to destroy Lin Yi's power in the secular world!

If they didn't move, it would be fine, but once they moved, they had to capture them all in one fell swoop!

After cutting off the communication, LAN xiaoru turned around and spoke to the Saint Emperor, ""Dafeng, that traitor, is Lin Yi's loyal fan. He's been leaving the wormhole entrance that Lin Yi asked him to guard. It's very likely that he's going back to see Lin Yi. It seems like the possibility of Lin Yi coming back is very high!"

LAN xiaoru didn't know that Dafeng bro had been leaving a lot recently because of Chu Mengyao, but she managed to guess that Lin Yi was back!

"Miss LAN, how should we deal with this?"

The Saint Emperor had crossed paths with Lin Yi many times, and he knew how terrifying Lin Yi was.

LAN xiaoru waved her hand slightly, indicating that the Saint Emperor should not speak. She needed some time to think.

If Lin Yi really did come back, he wouldn't have come from Sky Class Island!

Because LAN xiaoru knew exactly where Lin Yi was going!

There was no passage back to the secular world in that place, so the only possibility was the projection of primordial spirit!

So, the gray-robed man's operation on the sub-Island had made some progress? Did the man in gray send Lin Yi back to the common world?

He had no choice. There was no way to get information from the sub-Island. If he wanted to know the situation, he had to project his primordial spirit over and ask the gray-robed man directly.

The problem was that there was no suitable person in the secular world who could project their primordial spirit to the sub-Island.

The experts that were created were good at fighting, but if they were to use primordial spirit projection, the probability of them dying was as high as 99%!

Now, they could only assume that Lin Yi came back because of the gray-robed man, but why did the gray-robed man bring Lin Yi back?

Let the people in the center of the secular world kill him?

As LAN xiaoru thought about it, she looked at the text message about brother Dafeng from the wormhole after the communication.

It was very specific, including the components on the list that brother Dafeng was currently collecting.

LAN xiaoru's eyes lit up when she saw the items that only central had. Very few people in central knew about these things, and it was even more impossible for brother Dafeng to have access to them.

The only explanation was that Lin Yi told Dafeng bro to collect it, and the way Lin Yi knew about it was through the gray-robed man!

.....

LAN xiaoru continued to follow this line of thought. Although she didn't manage to deduce the entire truth, she was close to it.

"Secretly monitor Huaxia and only collect information. Don't show your face and don't cause trouble in Huaxia!"

After LAN xiaoru thought it through, she immediately made a decision. ""It doesn't matter if Lin Yi's back or not-what's important is that you guys shouldn't be too high-profile at this stage. Hide your strength and develop well, taking Europe in your hands as soon as possible is the most important!"

"After we take control of Europe, we'll extend our reach to North and South America. As for Africa ... Once we take care of North and South America, we'll be able to easily take over Africa! We'll deal with Asia after that!"

"Yes! This subordinate will do as you command!"

The sage Emperor respectfully agreed, but his heart couldn't help but burn with passion. If his plan could be successfully realized, he could become the sage Emperor of the entire world!

Even if it was just a puppet pushed out from the center, it was still a Sage Emperor that could truly shock the world!

At that time, he might be able to kick the center of attention away!

Of course, if they wanted to kick central out, they had to solve the means that central used to control them.

Lin Yi had already brought Yutian and Yu Bing back to the villa after the new sanctuary had decided on their plan.

Their injuries weren't a big deal-with Lin Yi there, they'd recover in minutes.

"Boss, I've sent someone to investigate the new sanctuary organization and found that they have become the most powerful force in Europe!"

Lai Changyi sat beside Lin Yi, showing the contents of the tablet to Lin Yi and the others, "On the surface, the forces of the new sanctuary have already controlled many areas, among which are the areas controlled by our partners, such as the Buffon family and the Gerrard family. According to them, at least 30% of the territory has been occupied by the new sanctuary."

"This is also because the Buffon family has our cooperation, so they are relatively strong. As for the Flesher family, the Lyman family, and the others who have some grudges with us, they have basically joined the new sanctuary and become the new sanctuary's minions."

"Wait, who are the Flesher family and the Lyman family? Do you have a grudge against us?"

Lin Yi couldn't remember-after all, it was hard to remember these foreign characters.

"Boss, the young master of the Lyman family is that igradopovich, the dumbass we met last time when we went to Europe to participate in a sales exhibition. His mother, Josephine, is the younger sister of the head of the Fleisher family, Edmonton ..."

Realization dawned on Lin Yi as he recalled that there was indeed such a thing!

Chapter 7466 Scared Me To Death

These people wanted to take advantage of Lin Yi. Not only did they want the exclusive European agent rights, but they also wanted 50 million euros from Lin Yi every year.

What a well-thought-out plan!

After that, Lin Yi went to the Buffon family's young master, Keman, and made the Buffon family and miracle doctor Guan's group partners ...

"It turns out to be those clowns. How is Keman Buffon now? You're saying that their clan's sphere of influence has been taken over by a new Saint, and they're having a hard time?"

Lin Yi went to Europe for a mission when he was sixteen and saved Keman Buffon, who was eleven or twelve years old at the time. Since then, the kid wanted to be Lin Yi's disciple, and Lin Yi sent him to Xiaobo and Changyi to teach him.

"That kid, Keman, is fine. His family isn't having a good time, but with our support, it won't be too hard. He's also very talented in training, and he's already a heaven class powerhouse. He's quite a powerful master in Europe!"

Changyi smiled as he complimented. Keman was considered half a disciple to him-of course, they were only friends in name. He was boss Lin Yi's little brother, after all, and it wasn't good to be his disciple.

"Let's go back to the situation of the new Holy region. In addition to these family forces, many of the high-level leaders of several small countries in Europe are suspected to be controlled by the new Holy region, which is equivalent to indirectly controlling these countries. Some of the big countries in Europe have also shown goodwill to the new Holy region."

Lai Changyi continued to read the information."All in all, the new sanctuary controls more than half of Europe's economic lifelines and political resources. It's not easy to touch them. If something goes wrong, a World War might break out again!"

This was not a joke. Although the influence of the small countries directly controlled by the new Holy region was not great, with the Alliance of several countries and the help of someone in the upper echelons of the big countries, it was really not easy to touch the new Holy region!

"Central is really impressive. They can develop the new sanctuary to such a scale in such a short time!"

Lin Yi couldn't help but facepalm after listening to the introduction, "A centipede dies but never falls down! The wildfire can't burn it out, but it will grow again when the spring breeze blows! If they can't kill the central government, they can reproduce infinitely, just like a mouse cockroach!"

To be honest, Lin Yi was still thinking about going to Europe to completely eradicate the new sanctuary, but he wasn't interested anymore.

It couldn't be helped. After destroying a sanctuary base, a new sanctuary had emerged not long after, and its momentum was countless times greater than the previous sanctuary!

Not to mention whether they could destroy this new sanctuary, even if they did, central could quickly create a new sanctuary ...

Lin Yi didn't have that much time and energy to play house with central in the common world.

Speaking of which, Central's ability to build a base was really amazing. It was faster than a mouse digging a hole. After destroying one house, another one would immediately be created.

Sometimes, Lin Yi wondered what central was doing with all that mess. He might as well focus on real estate!

With the speed at which they were building their base, who in the world could be their match? Wouldn't it become the top real estate company in the world's top 500?

The central government might contract all the construction projects in the world. How glorious would that be?

Of course, if Lin Yi started his own real estate development company, it'd be even better if he found central to be his contractor. He wouldn't have to do anything else, he could just count the money!

"Boss, how should we deal with this new Saint-level?"

Changyi was a little nervous after the introduction-he hadn't noticed before, but now he realized that his opponent wasn't just a random person.

Although they didn't have to worry about anything with Lin Yi around, it seemed like the enemy this time wasn't easy to deal with!

"Let's put it down for now. You guys go do your own things. I'll go to Europe to find Shihan and Yiyi and see how it goes!"

Lin Yi shook his head slightly. Unless he could get rid of all the forces in the center of the secular world, there wasn't much point in just attacking the new sanctuary!

On this point, LAN xiaoru and Lin Yi had the same idea. They both wanted to kill each other, but they didn't want to act rashly. It was better to stay put than to fight!

He was worried about Xu Shihan and Cheng Yiyi, so he didn't waste any time and flew to Europe.

Chen Dongcheng would be back soon, and Lin Yi didn't have to worry about the villa's safety for now.

He flew to Tiger continent and found the two girls. He hid his identity with the red dust all creation mask and acted as their bodyguard, watching the new sacred zone's movements in the dark.

Unexpectedly, after the death of the two Holy ambassadors, Piao Jinzhu, the new sanctuary organization in Europe began to lay low and became extremely low-key!

Not to mention causing trouble for Xu Shihan and Cheng Yiyi, he even kept a low profile in other places.

Late at night, Lin Yi, Xu Shihan, and Cheng Yiyi were playing cards in the suite, trying to see if the new sanctuary would attack them in the middle of the night. They didn't expect someone to show up, instead.

Wang Ba!

"Where is boss Lin Yi? Didn't lai Changyi say he's here to see you?"

As a primordial spirit, Ba Wang floated in without knocking.

He was just wondering why Xu Shihan and Cheng Yiyi were playing cards with a strange man in the middle of the night, and then he saw the man's cold eyes stabbing at him like a knife.

"Boss ... Lin Yi?"

Wang Ba, who had a strong desire to live, was immediately frightened. He carefully probed, ""You're ... Boss Lin Yi, right? My two sisters-in-law?"

Only now did he remember to call her sister-in-law ... Xu Shihan and Cheng Yiyi were amused.

They'd all seen Wangba before-the guy used to come to the common world to help or deliver messages, so everyone on Lin Yi's side knew him.

"What are you doing here in the middle of the night?"

Lin Yi didn't take off his mask and returned to his original voice, "Did you find something?"

"Boss Lin Yi is so wise and brilliant, nothing can escape your eyes!"

Wang Ba confirmed with his eyes that it was that terrifying little bastard, so he quickly flattered him.

Of course, he was cursing Lin Yi in his heart, you little B * stard, you're meeting your lover in the middle of the night and you're wearing a mask!

What was this? A guilty conscience?

It's fine if you wear a mask to have an affair in the middle of the night, but why did you have to wear a mask to play cards?

Are you crazy? Are you trying to scare me?

"Cut the crap, hurry up and say what you have to say!"

Lin Yi dropped the cards in his hand and sat up straight, "If you continue to talk nonsense, I'll deal with you!"

Wangba cursed in his heart, swearing that he'd take care of Lin Yi when he had the chance!

Of course, he still had to put on a flattering smile on his face. "Boss is mighty! I made a big discovery, so I came to inform you. I hope you know that my loyalty to you can be seen by the sun and moon, and my respect for you is endless ..."

He realized that Lin Yi's eyes were not friendly, and realized that he was asking for a beating ... He quickly stopped and put on a serious face!

Chapter 7467 Wormhole Undercurrent Vortex

"Boss, I have been searching the wormhole day and night after receiving your orders. I didn't miss any inch of the wormhole space and finally found a hidden space crack!"

Lin Yi nodded subconsciously-this was related to Mengyao, and he couldn't afford to be careless!

"Then have you tried going in? Where does this spatial Rift lead to?"

Lin Yi's heart skipped a beat as he asked seriously, "Could it be that the exit leads to somewhere near Europe, so you came?"

"Boss Lin Yi, I haven't seen it yet ..."

Wangba chuckled awkwardly, worried that Lin Yi would flip out. "It's not that I don't want to go in, but that spatial Rift is a bit special. It's not easy to go in!"

"What's special about it?"

Lin Yi raised a brow-he wanted to grab Wangba's neck and force the answer out of him.

"It's like this. There's a spatial undercurrent in the crack that forms a spatial vortex. As long as you get a little closer, you'll feel a force that can tear your soul apart. It's an extremely powerful force, so I really don't dare to go in ..."

Wang Ba thought to himself, 'if you dare to go in, it'll be great if you're torn apart!'

If you don't dare to go in, why should I die for you?

Shouldn't she have tricked Lin Yi into it? If he really killed this little brat, then the world would be at peace!

At the thought of this, Wang Ba rolled his eyes and laughed. "That's why I'm here to discuss with boss Lin Yi. Should we go see the undercurrent vortex? Perhaps boss could find a way to enter! That's right, there's one more thing. That undercurrent vortex doesn't always appear in a fixed location. I didn't see it in my last search. "

"There's no time to waste. We'll head to the wormhole immediately!"

Lin Yi heard that the spatial tear might disappear and decided to go check it out, "Shihan, Yiyi, why don't the two of you go back to China first? Chen Dongcheng is there to ensure your safety. As for the concert, there'll be more chances in the future!"

It didn't matter if he was a celebrity, but it wasn't worth it to put his life in danger for a mere concert!

Xu Shihan and Cheng Yiyi didn't rely on being celebrities for a living anymore, this was just their interest!

Xu Shihan and Cheng Yiyi looked at each other and immediately nodded.

She wasn't worried about the danger in Europe, but she felt that she couldn't be of much help to Lin Yi, or at least she couldn't be a burden to him.

As long as the two stayed in Europe, Lin Yi would worry about them, and now that Mengyao's whereabouts were at stake, it wasn't a good time to hold a concert in Europe!

Especially since Lin Yi just killed two new Saint emissaries, he needed to keep a low profile when he needed to.

The two didn't have any objections, and Lin Yi let out a breath of relief. Once he entered the wormhole, who knew when he'd be back!

If he went into the crack, he might go to places he'd never been to before. If Xu Shihan and Cheng Yiyi were targeted by the new sanctuary during this time, how could Lin Yi be at ease?

After the discussion, the four of them took the flying saucer and flew back to their home. Lin Yi dropped Xu Shihan and Cheng Yiyi off in the air above the villa and flew back to the wormhole without even greeting the others.

Dafeng bro already knew the situation when Wangba came out, and he guessed that Lin Yi would probably go into the wormhole himself to check it out. He waited here the whole time and eliminated Central's people.

"Boss Lin Yi, you guys are here!"

Seeing Lin Yi and Wangba, Dafeng bro quickly went up to them, "'I've already driven the people from central away. There are no outsiders spying on us now."

"Good! Wang Ba and I will go in and take a look. We might be back soon, or it might take some time. We'll leave it to you to continue here. If central comes to make trouble, you can be tougher!"

Lin Yi said before pulling Wangba into the tunnel.

Lin Yi and Wangba turned into their essence spirit forms and floated along the wormhole's natural teleportation power.

Soon, Wang Ba indicated that they had arrived. The two primordial spirits broke free from the power of teleportation and floated to the edge.

Lin Yi had already noticed it even before Wangba said anything. There was a circular vortex-shaped spatial Rift there.

However, it was different from an ordinary space crack. There was no light here, only endless darkness. If one didn't pay attention, it was really difficult to discover the existence of this undercurrent vortex.

"Boss Lin Yi, look, this is the undercurrent Whirlpool. It's different from normal space cracks. If your spirit sense goes in just a little bit, you'll be killed by the whirlpool immediately!"

After Wang Ba finished speaking, he suddenly felt annoyed. Why did he tell this little B * stard about this? He should have tricked him into going in to try it out himself!

If Lin Yi was scared, he wouldn't go in and try again?

It didn't matter if Wang Ba said it or not-Lin Yi would try using his spirit sense, no matter what. He wouldn't just charge in without thinking.

Not to mention, the Jade space would give him a warning as soon as he got close-there was no way he'd be stupid enough to just go in and die!

Lin Yi was at a safe zone at the edge of the undercurrent vortex and sent out a strand of his spirit sense to check.

Sure enough, as soon as his divine sense approached the undercurrent vortex, it was pulled in by a tearing force. Without any chance to resist, it was twisted into pieces.

"He's so powerful ..."

Lin Yi's heart skipped a beat-the warning wasn't just for show, he didn't think that the undercurrent would cause so much damage to the spirit!

"Wangba, is there any change in the strength of the undercurrent vortex compared to when you discovered this place?"

Wang Ba was slightly stunned. He thought to himself, "I've never tried it before. Who the hell knows how strong it is inside?" If you want to know if there are any changes, then go in and try it yourself!

"Boss Lin Yi, I just found this place and came to find you immediately, so I can't tell you the details ..."

Wangba was still trying to get Lin Yi to take the risk, but he remembered that he was right next to Lin Yi-it'd be a disaster if the kid wanted him to go Scout the path.

Therefore, after some careful consideration, Wang Ba decided to wait and see.

Lin Yi didn't say anything. If the undercurrent was always this strong, then Chu Mengyao would be dead the moment she stepped into it ...

"We'll wait and see!"

Lin Yi said.

Of course, Wang Ba had no choice but to obey. The two of them waited quietly by the undercurrent vortex for at least two to three hours.

During this time, Lin Yi paid close attention to the movement of the undercurrent vortex. The tearing force didn't stay the same, but there was a fluctuation.

Chapter 7468 Sea Calming Divine Pearl

If Chu Mengyao was lucky, she might be able to pass through the undercurrent when it was at its calmest ...

Of course, this probability was not higher than one in a hundred thousand.

Adding the two together, the chance of entering the wormhole and passing through the undercurrent vortex ... It was hard to say ...

Lin Yi's heart sank, but this was the only place he had hope in. He couldn't give up.

"Senior ghost, come out and take a look to see if we can pass through this undercurrent vortex!"

There was nothing he could do about it-he could only summon the Dragon out of habit when it came to things like this.

No one could enter the wormhole except for the spirit, so Lin Yi didn't have to avoid Wangba. The thing was a spirit anyway.

The ghostly thing came out of the space in the jade pendant and appeared in front of Wang Ba.

Before Wang Ba could figure out what the hell was that, he was so scared by the powerful primordial spirit aura that he peed his pants. He did not even notice where the hell it came from.

When he saw what it was, Wang Ba was so scared that he shivered and cursed in his heart!

F * ck!

Lin Yi had such a powerful spirit by his side?

What level?

F * ck! I can't tell!

Wang Ba could only feel that this was an existence that could kill him with a single look!

What the hell was going on? I'm trying to possess this Lin Yi brat? He was really looking for death!

With such a powerful primordial spirit around him, even if he succeeded, he would be devoured by this old man immediately, let alone whether he could successfully possess the body.

I can't afford to offend you!

Be a good girl and don't even think about taking Lin Yi's body ... It'd be best if you ran as far away as you could when you saw him!

Wait a minute, could this old man's spirit be under Lin Yi's control?

Then, was there a chance to rope him in and kill this Lin Yi kid together?

There's hope!

Wang BA's mind was spinning with thoughts. His eyes brightened, but they quickly dimmed again.

Who knew if the old man was under Lin Yi's control? What if there was no control? If I go up, I'll be courting death!

The damn thing ignored Wangba-he and Lin Yi were one, after all, and he knew what Wangba was like.

After carefully examining the undercurrent vortex, the ghastly thing's expression turned grave."I didn't expect there to be such a special crack in the wormhole passage. Ordinary spatial cracks don't have much damage to the essence soul, but this undercurrent vortex is terrifying!"

"Senior ghost, is it possible to set up a spatial transfer formation here, directly passing through the undercurrent vortex and being transferred to the other end?"

Lin Yi had no choice but to come up with this whimsical idea.

Senior ghost laughed,"you're saying that we'll set up a teleportation formation at the two ends of the spatial Rift and use the power of space to jump through the spatial undercurrent vortex to complete the spatial teleportation?" Do you think that's possible?"

Lin Yi sighed. What else could he say?

He had done some research on space, so he knew that this was impossible!

Lin Yi only said that because the damn thing was more skilled in space, so he still had a little hope.

The truth proved that this hope was just an extravagant hope. There was no chance of it being realized.

"So, we don't have a way to get through the undercurrent vortex?"

"Of course there is a way. If teleportation doesn't work, there are other ways!"

"Although I've never seen such an undercurrent vortex before, I've already thought of a way when I saw it!" The ghastly thing smiled proudly.

"What method? Senior ghost, hurry up and tell me!"

Lin Yi was overjoyed-this was the last straw!

"This method can be said to be simple, but it can also be said to be difficult. It depends on your luck!"

The ghastly thing didn't have the mood to keep him in suspense and simply said, ""If you can find the sea-stabilizing Pearl and use it to suppress the tearing and rotating force of the undercurrent vortex, you can pass through here smoothly!"

"Senior ghost, what is the sea calming divine Pearl? Where can I find it?"

Lin Yi was a little confused. He'd only heard of Sun Wukong wreaking havoc in the East Ocean Dragon Palace and taking the ocean-pacifying godly needle and Ruyi Jingu staff, but he'd never heard of the ocean-pacifying godly Pearl!

Could he be the long-lost brother of the Jingu bang?

"The sea-stabilizing Pearl is the legendary relic left behind by the sea Dragon King after his death. As long as you have the sea-stabilizing Pearl, you can stabilize the waves in the four Seas as if you are on flat ground."

"The so-called Dragon Kings in the past are actually the kings of the sea beasts. They're not rare!" The ghastly thing said while shaking its head.

Lin Yi and Wangba looked at him-a king of the sea beasts, a true Sea Dragon King, wasn't that rare?

Right now, in the small world of the immemorial era and the endless sea of the heaven class Island, it was unknown whether there was a real Sea Dragon King, let alone the relic left behind by the sea Dragon King after his death!

If you dare to ask the sea beast clan to borrow your sea calming divine Pearl, I'm sure the entire sea beast clan will hunt you down.

"Senior ghost, do you know where I can find the sea calming divine Pearl? It shouldn't exist in the secular world, right? It looks like I'll have to go to the Sky Class Island to look for it ... If it really doesn't work, I'll have to make a trip to the ancient martial world!"

Lin Yi didn't want to mess with the sea beast race at all. He could only place his hopes on the sea calming Pearl.

After all, it was normal for the sea Dragon King to die in the ancient war. Even his skin and bones could become the spoils of war, let alone a sarira.

"Who says the secular world doesn't have it? I've said it before, the legendary Sea Dragon King of your Huaxia! It's not something made up, so it's not strange for the sea calming Pearl to appear in the secular world. "

The ghastly thing couldn't help but Mutter, ""Back then, didn't this old master also meet you in the secular world?"

Wang BA's ears twitched. He could vaguely hear the mumbling of that ghastly thing, and he was instantly terrified!

It was a good thing he didn't have time to connect with the old man-it seemed like he had a good relationship with Lin Yi, the little B * stard, and had known him for a long time?

I can't afford to offend you!

In the future, it would be better to continue hiding as far away as possible!

Cherish your life and stay away from Lin Yi!

"It'd be best if there's one in the secular world. I'll send people to search for it when I get back! By the way, senior ghost, what does the sea Dragon King's sarira look like? I heard that the sarira is actually a type of bone, right?"

Lin Yi hadn't heard of the sea Dragon King's sarira before, so he wanted to know more, "If it's a bone, would a Sea Dragon King have many sariras?"

It wasn't unreasonable to ask this question. In the past, he had heard that an eminent monk had left behind a few sariras after passing away, causing chaos in the pugilistic world and so on!

Chapter 7469 Arranging A Bounty

If the sea Dragon King's sarira was the same, then a Dragon that was so big ... There must be at least ten or twenty of them, right?

If that was the case, the sea calming divine Pearl did not seem to be too precious!

"And these two, could they be the sea quelling divine Pearl?"

Lin Yi suddenly remembered the two communication pearls LAN Guzha and Xiao Yan gave him. He wrapped them in his spirit and showed them off before quickly putting them back in case the wormhole's power disintegrated them.

"Bah! What the hell are you talking about!"

The damn thing didn't know whether to laugh or cry. "Don't I know about LAN Guzha and Xiao Yan's two communication beads? If it's the sea quelling divine Pearl, do you need to take it out? There's only one sea Dragon King's sarira, and it's actually its inner core!"

Lin Yi blinked, but then he realized-this thing probably knew better than him what he had!

After all, he was cooped up in the Jade space all day long. Other than studying the space Array Dao, he had nothing else to do. It was normal for him to rummage through the inventory when he was bored.

However, Lin Yi's move shocked Wang Ba. He was not an ignorant person. Two communication pearls from the Royal sea beast? Lin Yi's social circle sure was high and mighty!

I can't afford to offend you!

In the future, it would be better to continue hiding as far away as possible!

Cherish your life and stay away from Lin Yi!

"Why did you say that the inner core is a sarira? There's another difference!"

The damn teacher's lecture was still going on. "The sea Dragon King's inner core does not necessarily turn into the sea calming Pearl. It will only turn into a sarira after its essence is absorbed and locked in the inner core after its death. A sarira, on the other hand, is only one-tenth the size of an inner core, but its hardness is hundreds of times stronger. "

"In other words, the inner core can be swallowed by sea beasts to cultivate, but the sarira can't be swallowed. Whoever eats it will have an upset stomach!"

Lin Yi's mouth twitched-could senior ghost stop? How did the lecture turn into a sea beast having a stomach ache?

The scene was too beautiful to imagine. The turn and drift were a little unexpected!

After talking about the sea Dragon King for a long time, Lin Yi suddenly remembered the Dragon of five evils. He didn't see it again after meeting it once on the southern island. He wondered how it was now.

The five poisons swamp was still considered safe. As long as the Dragon of five evils didn't come out, no one would probably find trouble with him.

What he was most afraid of was that this fellow would stupidly go and fight the Vermilion Bird to the death in order to avenge his master's five-poison Dragon. If that were the case, he would really be dead.

Lin Yi knew how strong the Vermilion Bird was, and the stronger he got, the more he would understand how terrifying the Vermilion Bird was!

When Lin Yi first encountered the Dragon of five evils, he was too weak to understand the difference between the two.

Speaking of which, he didn't know if the five-poison flood Dragon had left a relic behind ...

Lin Yi shook his head and chased these unrealistic thoughts out of his mind, focusing on the sea Dragon King's sarira.

"I understand. Senior ghost, since you said that the sea Dragon King's sarira, which is the sea calming Pearl, might be in the secular world, I'll go back to the secular world and search for it."

Lin Yi looked at the undercurrent vortex again and made up his mind to find the sea calming Pearl as soon as possible. "Wang Ba, go back and inform Jing Jing. Tell her to arrange for people to search for the sea calming Pearl on every island of the Sky Class Island. If there's an auction, we must get it at all costs!"

There would be auctions on Sky Class islands from time to time. For example, the auction on the northernmost Island would often show precious treasures.

He'd gotten the precious soul nurturing wood and spirit-gathering branches at the auction on the northernmost Island, as well as the mask of all creations, which had helped him a lot.

Perhaps the sea calming Pearl would also appear at the auction, so he had specifically warned Wang Ba.

"Yes! Boss Lin Yi, is there anything else?"

"Yes!" Wang Ba replied respectfully. He just wanted to leave as soon as possible. The existence of that damn thing was giving him too much pressure!

"Hmm ... After you inform Jing Jing, return to the wormhole and continue to look for other spatial rifts. Perhaps you'll find something new!"

The undercurrent in front of him was too dangerous, and Lin Yi didn't want to be the only choice. It wasn't that he was afraid of danger, but he was afraid that it would be too dangerous for Chu Mengyao to enter!

If there were other safe rifts, then they'd have a better chance of finding Mengyao.

"Yes! I'll definitely search back and forth in the wormhole. If I can't find a new crack, I won't leave the wormhole. If I find anything new, I'll definitely inform boss at once!"

Wangba continued with his respectful reply. No matter how unhappy he was, he only dared to curse Lin Yi in his heart, not showing it.

On the surface, he still had to act loyal and devoted. It was quite disgusting to think about it!

It's not that I'm useless, but my enemy, Lin Yi, is just too strong! I can't afford to offend him!

Lin Yi didn't have anything else to tell Wangba, so he wrapped a small Jade bottle with his essence spirit and gave it to Wangba. There were three drops of Black Sea soul concentrating liquid in it as a reward for Wangba's hard work. He then sent him away.

Wang Ba happily took the reward, cursing Lin Yi for being stingy as he quickly left the place and returned to Tianjie Island to find han Jingjing.

Wang Ba heaved a huge sigh of relief when he was able to leave the ghastly thing's side. If it was possible, he really did not want to see this old man again ...

The ghost didn't have anything else to say. After Wangba left, he returned to the Jade space. Lin Yi took one last look at the undercurrent vortex and returned to the secular world.

After exiting the passage, brother Dafeng immediately came up to him. ""Boss, how is it? Did you find anything?"

"No substantial progress!"

Lin Yi shook his head slightly. "I need a sea calming Pearl. Put up a reward for me immediately. Search the world for it. If you provide the information, and if it's true, give me a reward!"

"Sea calming Pearl? What's that?"

Brother Dafeng was dumbfounded. The first thing that came to his mind was also the ocean-pacifying godly pillar in the hands of The Great Sage, Heaven's Equal. What was the connection between these two? A long-lost brother?

Speaking of which, did such a legendary thing really exist?

Lin Yi explained, and Dafeng finally understood what the sea calming Pearl was and what it looked like.

So it was formed from the inner core of the sea Dragon King ... This was easy to understand, and it was not too mysterious.

What's so great about the inner core of a sea beast? The sky-class Island was connected to the secular world, and brother Dafeng was in charge of transporting goods. It wasn't like he had never seen an inner core before, but he had never seen an inner core as high level as the sea Dragon King's ...

"I understand! Boss, don't worry, I'll immediately arrange a reward. As long as this thing exists in the world, we'll definitely get the news!"

Dafeng bro was very confident-things were different now. Lin Yi's people had formed a powerful group in the common world, and they had channels all over the world to get information.

Chapter 7470 Found Her Whereabouts

The most important thing was that there was a special website on the internet for buying information through bounties. If one was not a powerful force, they would not be qualified to log in.

"Alright, I'll leave this matter to you ... You've worked hard recently!"

Lin Yi patted Dafeng's shoulder. He thought that he had given Dafeng a lot of work these days. He didn't expect him to be so capable when he first took him in.

His cultivation aptitude was average, but his ability to do things was quite good!

"It's not hard! It's Dafeng's honor to work for the boss. There's no hard work to speak of. There are so many people in the world who want to work for the boss but are not qualified!"

Dafeng bro's face was red with excitement, as if he was sharing the glory. Lin Yi could only smile and think about how to reward him later.

"That's all for now. I'll go back to the villa and wait. Let me know immediately if there's any news!"

Lin Yi thought that he'd be busy from now on, so he wanted to go back and meet up with everyone.

When it came to receiving messages, one would not be able to obtain the true information all at once. Most of the time, there would be many specious messages that needed to be verified one by one.

It wasn't like other people could do this, and Lin Yi was the only one who could do it. The world wasn't big, and flying around on a flying saucer was more convenient.

If the sky Class Island was like this ... Then he wouldn't have to do anything, he could just fly around and travel all day!

After sending Lin Yi off, Dafeng bro immediately went to arrange the reward for information and directly put up a reward for the sea calming Pearl!

There were many mercenaries in the secular world who would take risks for the sake of a huge reward. If they knew about the sea calming divine Pearl, they might just kill their way to the door and snatch it to claim the reward. This was more direct.

Brother Dafeng was not a kind person, so he felt that it was easier and more direct to offer a reward for the sea calming divine Pearl. Anyway, no matter how many people died, it had nothing to do with him. It was not his own people who died!

A few minutes after Lin Yi flew out of the wormhole, he received Dafeng bro's communication request before he even reached the villa. Dafeng bro's excited face filled the entire screen when the call connected.

"Boss, we have news!"

Lin Yi's mouth twitched.

There was news of the legendary divine weapon?

Was it really that exaggerated?

How about ... He could also put up a bounty to find the ocean-stabilizing divine pillar and let this long-lost brother meet him?

No matter what, it was good news. Lin Yi shook off those unnecessary thoughts and stopped the flying saucer. "What's the news? the exact location of the sea calming Pearl?"

"I'm not sure about the exact location, but the general location is clear!"

Brother Dafeng took a deep breath to calm himself down before he continued, "According to our sources, Europe's Steffey family has a sea quelling Pearl in their ancestors, and its characteristics are very similar to our description."

"The stefford clan? What's his background?"

"Is it possible to buy it with money?" Lin Yi asked after some thought.

If it could be solved with money, then try to solve it with money. If not, you can use other things to exchange for it!

If he really couldn't do it, he'd have to resort to force.

For Chu Mengyao, what was an European family worth?

"It's said that the stefford family's ancestor was an important Minister under Napoleon. During the great voyage era, they were also an extremely famous family of navigators. The sea calming Pearl was a legend during the great voyage era."

Dafeng bro had obviously done his homework as he explained to Lin Yi, "In that era, it was said that the Steffey family's fleet had never encountered any wind or waves. Other than Pirates who might sink their ship, the ocean posed no danger to them!"

"All of this is because the stefford clan has a sea-stabilizing Pearl. It's said that this sea-stabilizing Pearl was born after a deep sea Beauty flood Dragon passed away. It's a treasure that the stefford clan's ancestor obtained by chance! If you take it to the sea, it will be peaceful. Storms, whirlpools, waves, and even sharks will all stay away from it!"

"It's precisely because of this that the stefford family was definitely a giant in the great voyage era, and it also laid the foundation for their family in the long run! To this day, the Steffey family is still one of the Giants in the maritime industry. It's just that we've entered the high-tech era, and the routes are fixed and the storms predicted are extremely accurate, so there's no need for the sea calming Pearl. "

"Additionally, the maritime industry doesn't need fleets to travel together. It's meaningless for a cruise ship to be equipped with a sea-pacifying Pearl. Therefore, the Steffey clan has already enshrined the sea-pacifying Pearl as their clan's heirloom. I don't know its concrete location, but I'm sure it's in the hands of the Steffey clan!"

Lin Yi was overjoyed. Although the sea calming Pearl was said to have come from a flood Dragon, as long as the effect was good, it didn't matter whether it was a Sea Dragon King or a flood Dragon. It was the same anyway.

Perhaps it was just that the legends of different countries were different, and the names were different.

"Boss, I've already sent people to contact the Steffey family and ask if they're willing to sell the sea calming divine Pearl. If it doesn't work ... Can we take further action?"

Dafeng bro didn't dare to take any extreme actions-it'd be troublesome if he messed up Lin Yi's plan.

Lin Yi, of course, understood what Dafeng meant-if he couldn't buy it, he'd just Rob it!

Even a small European country wouldn't be able to withstand the gold ingot's attack, let alone the fact that the Steffey family was just a giant in the maritime industry!

As long as a large amount of money was invested, many mercenary organizations in the world would swarm over like sharks that smelled blood.

The military strength of a small country might not even be able to stop these desperadoes with the best equipment!

"Let's buy it first! You don't have to worry about other things. "

Lin Yi thought about it and decided that it was more reliable to do it himself.

Even if they did get their hands on a mercenary, accidents might happen. Mengyao was at risk, and he felt more at ease doing it himself."Pass the information of the stefford family to me, and I'll personally take over this matter!"

"Yes, boss, I'll send it to you immediately!"

"Okay!" Dafeng bro replied, knowing that Lin Yi valued Mengyao greatly and decided to do it himself.

In this case, there would be no suspense about the sea calming divine Pearl!

In this world, no one could stop boss Lin Yi from getting what he wanted. Not even the center!

Soon, Lin Yi received the detailed information from Dafeng bro. After browsing through it, Lin Yi decided to fly to Europe!

Now that he knew where the sea calming Pearl was, there was no time to waste. The sooner he got it, the sooner he could find Chu Mengyao!

In fact, the simplest method was to capture the important members of the stefford family, such as the current patriarch or the patriarch's children, and force them to use the sea calming Pearl to make a deal.

Although it was a little rough, it was definitely effective.
