

Bodyguard 7471

Chapter 7471

But Lin Yi wasn't the type to do something so extreme-he'd better solve the problem as soon as possible.

Furthermore, he could not let central know that he had obtained the sea god's Pearl, in case central would interfere.

If Lin Yi really wanted to force them, central might be alerted. After all, Europe was the new sanctuary's base camp. Who knew how many spies central had?

"Little seven, help me do something!"

Lin Yi didn't go back to the villa-he turned around and flew to Europe, contacting Qiqi."Contact Black Butterfly immediately and arrange an identity for me."

"Brother ah Yi, what are you going to do? Why didn't you bring little seven along?"

Qiqi pouted, a little unhappy. "Shouldn't you bring me along when you go to black Butterfly?"

"I was in a rush this time, so I didn't have time to bring little seven along. There'll be a chance next time!"

Lin Yi coaxed him and put on the mask, turning into a middle-aged man. "Send me my appearance. I'll just make you An Ordinary Killer."

"Alright! Then brother ah Yi, it's a deal! Next time, I must bring little seven along!"

Qiqi hmped, fighting for another chance for herself before smiling. "Brother onesie, your mask is really good. After putting it on, your entire temperament has changed. You should get one for little seven in the future!"

"No problem. If little seven likes it, I'll give this mask to you!"

Lin Yi nodded with a smile. The mask was good, and it'd helped him a lot, but if Qiqi liked it, he'd give it to her.

This little girl loved doing this. With the red dust all creation mask, it would be more convenient and safer for her.

"Really? Then it's a deal!"

Qiqi was jumping for joy-it wasn't because of the mask, but because Lin Yi had promised to give his mask to her! This mask had a different meaning now!

Qiqi finished her work as the two spoke. "Brother onesie, it's done. Go to the organization and tell them my name. Then you can join the organization!"

"Little seven is amazing! We'll contact you later!"

Lin Yi said with a smile.

Qiqi was reluctant as well, but she didn't want to delay Lin Yi's business.

After the call ended, Qiqi couldn't help but Mutter, "What's so amazing about little seven? If you're willing to go back with your real identity, I'm afraid the people in the organization will cry and beg to join you. Little seven can't be compared to you, big brother ah Yi ..."

Lin Yi controlled the flying saucer and flew to Black butterfly's headquarters in Europe. He looked at the familiar door and recalled his experience back then. He couldn't help but sigh, feeling like it was a lifetime ago.

After entering the headquarters with great familiarity, he saw a familiar face. It was not as if everything had changed completely.

The familiar face was called old ghost, Lin Yi's former instructor, and now one of the people in charge of Black Butterfly.

But because of Qiqi, he had to come out himself to welcome the newbie.

Lin Yi acted like he didn't know her and greeted her politely, "I'm an assassin that yang Qiqi introduced to the organization! I wonder who's the person in charge here?"

Old ghost didn't say anything, only sizing Lin Yi up.

The red dust manifestation mask was extremely effective, and Lin Yi was now disguised as an ordinary-looking man. He was of medium build, not strong, but not thin either.

All in all, Lin Yi's image right now was the extremely normal type-he wouldn't be noticed even if he was thrown into a crowd.

To be honest, this type of assassin was really good. As the saying goes, assassins are nameless. The less people pay attention to them, the more qualified they are to be an assassin.

If he attracted the attention of thousands of people the moment he appeared, then what was the point of being an assassin? wouldn't it be better to be a celebrity?

Old ghost didn't think too much of Lin Yi before because of Qiqi!

However, when he saw the person in person, he felt that it was not bad. If he had some skills, he could at least use them.

"I didn't expect that an assassin still needs to go through the back door. Our Black Butterfly is really regressing the more we mingle. We can accept any kind of garbage!"

Suddenly, an ear-piercing sound was heard, and a tall white man strode over arrogantly.

The person who spoke was a top assassin in the black butterfly organization. Old ghost narrowed his eyes slightly, and a trace of displeasure flashed in his eyes.

After all, old ghost was one of the people in charge, and saying something like that in front of him, even if Lin Yi really did get in through the back door, wasn't that disrespecting him?!

But old ghost couldn't do anything about it in front of Lin Yi-he was still a newbie, after all, and he was afraid that Lin Yi would use his power to back him up in the future.

"Oh? So you're saying that you didn't get in through the back door, and you're even worse than trash?"

Lin Yi glanced coldly at the idiot who just came in. If it wasn't for his feelings for the black butterfly Assassin group, he would've killed this ant with one look.

This wasn't a joke. Just a single ghostly curse would be enough to kill a person on the spot.

"Kid, you're good!"

The gold-medal assassin was just worried that Lin Yi wouldn't answer, and now Lin Yi was here!

Now, even if he had old ghost's face, it would not do! In the black butterfly Assassin group, gold-ranked assassins were the backbone of the force. Even the higher-ranked Platinum assassins could not be easily humiliated!

A newbie like Lin Yi dared to insult a gold-class assassin-he had to either die or kneel down and apologize!

"It's not too late for you to kneel down now. Otherwise, don't say that I didn't give old ghost Face!"

The gold medal assassin looked down on Lin Yi arrogantly, as if he was looking at a dead man.

Old ghost wasn't feeling too good about this-even if Lin Yi was introduced by miss Qiqi, the assassin group had its own rules. Even the Queen, miss Wang Xiaoyan, had to start from the bottom!

Even the little princess, yang Qiqi, was the product of God Yang Ming and miss Wang Xiaoyan. She also rose step by step from the assassin training class to her current position!

And that legendary young assassin, Princess Qiqi's childhood friend, God Yang Ming's favorite disciple, dual fiends Lin Dongfang's grandson, the undying legend of the secular world-Lin Yi-had also risen from the bottom of the assassin training camp to the top!

But this young man in front of him was insulting a gold medal assassin just because he was introduced by Qiqi. It'd be good to teach him a lesson!

As long as it didn't harm his life, old ghost was prepared to stand by and watch.

"Is that so? Then I can only not give old ghost any face. "

Lin Yi's body flashed. He didn't even need to use pure Qi to deal with trash like this. He just used butterfly microstep and moved like a ghost, raising his hand to slap.

Chapter 7472

There was no martial arts involved because Lin Yi was afraid of killing the man.

The gold-medal assassin didn't even see Lin Yi's movement and was sent flying!

Fortunately, Lin Yi didn't go all out, and he stopped after two steps. Otherwise, he would've been dead by now.

"You're f * cking looking for death! Your whole family will die!"

The gold-medal assassin was so angry that he couldn't think straight-Lin Yi's sudden attack was an insult to him!

However, two teeth spurted out of his mouth and fell to the ground as he spoke. It was a funny sight.

Lin Yi knew when to stop-the slap only knocked out the killer's teeth, not the jaw!

"Who gave you the courage to talk to me like that?"

Lin Yi glared coldly at the gold medal assassin, but the next moment ...

The gold medal Assassin's hand shook as he spoke, and an exquisite pistol slid out of his sleeve. He raised his hand and pointed at Lin Yi.

Lin Yi laughed coldly as he used his butterfly microstep.

As soon as the gold medal assassin raised his hand, he felt a blur in front of his eyes and a sharp pain in his wrist. Then, the other side of his face, where his teeth were not broken, was hit by a huge force again, and his whole body was sent flying.

It was not until he flew out that the gold-medal assassin could vaguely hear the crisp sound of his wrist, as well as the crisp sound of a slap beside his ear. When he landed on the ground, the sky was already filled with small stars, flashing and twinkling!

Two slaps and a fracture in his right wrist!

This was the price for offending Lin Yi!

The other assassins who came with the gold-medal assassin had their guns pointed at Lin Yi, all of them looking at him as if he was their biggest enemy.

The gold medal Assassin's exquisite gun was now in Lin Yi's hands!

"You call this trash a gun? As expected, trash people use trash!"

Lin Yi completely ignored the guns that were pointed at him. He just casually moved his hands, and the gun was disassembled into a pile of parts, which he threw on the ground.

This move wasn't too difficult, but it wasn't something that just anyone could do, especially when it was done so quickly. The movements were as graceful and smooth as flowing water!

An expert!

Not only was he a martial arts expert, but he was also an expert at using guns!

Fear and alertness rose in all the assassins' hearts, afraid that Lin Yi would do something else.

"Put down your guns! What was he doing? Did they really think that someone had attacked the headquarters? Even if someone were to attack, you trash would have already fallen!"

Old ghost roared, and after forcing the assassins back, he walked up to Lin Yi in shock and sized him up.

As for the unlucky ones who were injured on the ground, they were naturally carried away to be treated.

"You ... Are you a descendant of the Yang or Wang family?"

Martial arts masters, gun Masters ... Old ghost didn't care at all. He was even a little pissed when Lin Yi took down the gold-tier assassin. After all, a new member riding on an old man's head wasn't good for the organization's unity.

But Lin Yi's butterfly microsteps surprised old ghost!

No wonder Qiqi, who rarely asked about the internal affairs of the assassin group, would recommend someone-they were connected!

Lin Yi smiled and didn't answer the old ghost's question.

The old ghost nodded slightly and didn't mind. He smiled and said, ""It's fine if you don't want to tell me. From today on, you're mine!"

Lin Yi's lips twitched, thinking that the old man was trying to take advantage of him again-what did he mean by "I'm Yours "?

"You don't have to tell me your name, because from now on, you are one of the top gold medal assassins of our Black Butterfly Assassin organization, code 08!"

"You want to know why you're number 08, don't you?" old ghost smiled mysteriously. Do you think that there are only eight of us, including you, in the heaven-tier gold medal assassins?"

Lin Yi didn't react-he wanted to say that he didn't want to know ...

Old ghost ignored Lin Yi and continued, "It's actually not that complicated. Because the person you just defeated was our Sky Gold medal assassin No. 08, so you naturally took over his position. Do you understand?"

"Oh!"

Lin Yi nodded weakly-he really didn't want to have this boring conversation!

"By the way, what's your surname?"

Old ghost asked casually, and Lin Yi didn't think much about it and replied casually, "I'm surnamed Ling ..."

"Oh, your surname is Ling? that's good. In that case, your name will be Ling-zero-eight from now on!"

Lin Yi was speechless ...

Why did it feel like he and the gray-robed Ling lingfa had become brothers?

Should I go back and acknowledge my family and become sworn brothers again?

Ling-zero-eight, you can start accepting missions now. Do you want to see if there are any suitable missions?"

Old ghost was very enthusiastic as he brought Lin Yi to the mission list.

He didn't know if it was because of the butterfly microsteps or because Lin Yi defeated the gold medal No. 8.

Lin Yi only came here to get an identity-he didn't want to take on some killer mission!

'I'm such a busy man, where would I find the time to do the assassination missions in the secular world?'
He was too lazy to even complete the sword spring sect's quest.

"That ... Can I not accept the mission first?"

Lin Yi put on a troubled face."I just sneaked in from China. Can you help me get a European identity so that I can move around freely?"

"No problem! This was a small matter! That's right, you can call me old ghost in the future!"

Old ghost thought about it and agreed. Before doing the mission, he had to settle the identity problem."Wait a moment, it'll be done soon. What's your name? Ling-zero-eight?"

"...As you wish!"

Lin Yi couldn't be bothered to think of other names-all Chinese names looked the same to the Europeans, after all, just like how the Chinese looked the same to foreigners.

And so, Lin Yi quickly got his European identification, his name was Ling-zero-eight!

"Thank you, old ghost boss!"

Lin Yi put it away after a couple of glances-the guy called him "boss" willingly, after all, he was one of the instructors he had when he was in the assassin training camp!

The main purpose of looking for Black Butterfly was to get an identity, and now that he had achieved his goal, Lin Yi could leave.

"Hey, Ling-zero-eight, you already have an identity, aren't you going to consider accepting a mission? Just take it as familiarizing yourself with Europe. Why don't you accept a simpler one to play with?"

Old ghost wanted to see how good Lin Yi was at carrying out missions. After all, he was a fighter, and he was suspected to be a descendant of house Wang or yang. What if he became another legend of Lin Yi?

Lin Yi was just about to reject the offer when a blonde beauty walked over."The stefford family has issued another bodyguard mission. The reward is generous. Should we accept it?"

Although Black Butterfly was an assassin organization, they would occasionally act as bodyguards to prevent other assassins from carrying out assassinations.

Chapter 7473

The stefford family?

The Steffey family that possesses the sea quelling divine Pearl?

Lin Yi's ears perked up-he'd just been thinking about how to get close to the Steffey family, and here came a pillow!

"Ling-zero-eight, wait a moment!"

Old ghost called out to Lin Yi and took the mission list from the blonde girl's hands. He looked at it and frowned, "I'm not taking it! This bodyguard task is a bit troublesome. Several bodyguards of the stefford family have died, and we've also lost two people! The opponent is obviously an expert, and we won't rest until we die. There's no need to get involved in this mess!"

"Alright! Whatever you say!"

The blonde shrugged and reached out to take back the paper that old ghost handed over to destroy. She wasn't surprised by this result. After all, old ghost had to consider the overall interests.

However, the blonde's hand missed-Lin Yi snatched the paper away.

"This mission is not bad, I'll take it!"

Lin Yi said as he looked at the paper in his hand, the details of the mission written on it.

The blonde wasn't happy at all, frowning at Lin Yi, but he didn't even notice her.

Old ghost was a little shocked, "you want to take this mission?" Don't joke around, didn't you hear me say that many bodyguards have died?"

"I heard it. So many bodyguards have died, so the next one to die is the killer!"

Lin Yi's face made old ghost speechless.

What did he mean by so many bodyguards had already died, so it was time for the killer to die?

Do you think you're betting on big or small? you've already opened more than a dozen big shots, so you'll definitely open small next?

This joke was not funny at all!

"Ling-zero-eight, you'd better look carefully. Don't make any random decisions."

Old ghost's expression became a little serious. "Actually, we already have people on our side who have failed this mission. An earth-ranked silver assassin died together with his opponent. A heaven-ranked gold-ranked assassin was seriously injured! That's why I don't want to get involved in this quest!"

Previously, Black Butterfly thought that this was a simple bodyguard mission, so after accepting the mission, he casually sent two assassins over. He did not expect that one would die and the other would be injured. The loss could be said to be heavy.

After that, the stefford family issued missions again and continued to recruit experts, while Black Butterfly began to observe and was not prepared to make a move.

This time, the assassins who tried to kill the members of the Stratford family had already issued a death notice, announcing that they would definitely kill Mike Stratford, the son of the head of the Stratford family, within a month!

Thus, the Steffey family issued another mission, doubling the previous double reward. The rewards were generous.

However, old ghost still chose to wait and see, because his intuition told him that the opponent was not simple. If the stefford family issued a mission to find people to kill those assassins, he wouldn't mind taking the mission.

After all, protecting someone and killing someone were two different jobs. One was a shield, the other was a sword!

An assassin was not suitable to be a shield!

"It's fine. You don't need to personally get involved. I'll go!"

"Don't worry, it's nothing to me!" Lin Yi ignored old ghost's attempt to stop him.

Old ghost looked at Lin Yi deeply and nodded after a while, "Alright, since you insist, then take it!"

The blonde girl was surprised and looked back and forth between old ghost and Lin Yi. She'd never seen Lin Yi before and didn't know where this guy came from, but since old ghost didn't have a problem with it, she didn't either.

"How many people do you need to help you?"

Old ghost didn't waste any more time and went straight to the point. "Although I don't agree with taking this mission, since we've taken it, we must do it well. Otherwise, our Black butterfly's reputation will be ruined."

He had already failed once, and old ghost couldn't accept another failure, so he had to treat it seriously!

"I don't need anyone else, I alone am enough!"

Lin Yi waved his hand indifferently. If there was something he couldn't handle in the common world, it didn't matter how many people there were!

Old ghost was silent. He really didn't expect this Ling-zero-eight introduced by Qiqi to have such a personality!

But thinking about it, Ling-zero-eight was someone introduced by Qiqi, and he knew the butterfly microstep-he might really be able to take on this mission!

"I have a rough idea of the information. I'll set off for the Steffey family now. I'll leave the communication to you!"

Lin Yi turned around and left without hesitation, leaving old ghost standing there, stunned.

He's leaving? No preparations needed? You don't even want any equipment?

Lin Yi left black Butterfly and rushed to the Steffey family's base. When he arrived, Black Butterfly had already finished the mission. In theory, Lin Yi could go directly.

The stefford Manor.

This was a Manor located on the edge of the city, close to the sea. It was very magnificent, comparable to the families of Gerrard and old Buffon that Lin Yi had been to.

There was a suspension bridge at the entrance, and there were guards on both sides of the bridge. They stopped Lin Yi when he walked over.

"Who's there? what do you want to do in stefford Manor?"

It was no wonder that the guards were so vigilant. Someone had issued a death notice, and they wanted to kill the young master of the family. How could they not be nervous?

Before they killed their young master, they had to block the bullet even if they were afraid! Otherwise, if their young master died, they would not be able to live either. They might as well die in the line of duty and get a large pension.

Therefore, all the strangers who had come here these days looked like assassins to them. They wanted to kill all the guards and then kill their young master!

"I'm from the black butterfly Assassin group. I've taken a bodyguard mission to protect your young master Mike!"

Lin Yi explained his identity and purpose faintly, "Here's my identification. You should have received the notice!"

"Ling-zero-eight? A skinny monkey like you dares to come to our Stratford Manor alone and swindle people?"

One of the guards looked at Lin Yi's id and glanced at his small body, a look of disdain on his face, ""Kid, do you really think it's that easy to earn money here? With your body, you want to come here and fish for money?"

"It is! Look at this kid, he's like a bamboo pole, he's actually learning to be a bodyguard ..."

"He's gone crazy thinking about money ..."

The guards took turns laughing at Lin Yi, as his body was considered normal among Asians, but he was definitely thin and weak among Europeans!

Lin Yi didn't mind at first-he didn't need to bother with these ignorant guards. He didn't expect the European guards to get too high with their taunting and even call him a yellow-skinned monkey!

"You don't know what's good for you!" Lin Yi's eyes narrowed.

In the next moment, Lin Yi's body flashed, and in an instant, the guards who were laughing at him fell to the ground one after another, dumbfounded.

Chapter 7474

The entire process took less than two seconds. None of the guards could react, let alone counterattack. They couldn't even make a defensive move!

"With trash like you, it's no wonder that others would issue a death notice to kill you. If it were me, I wouldn't need a month. One day would be enough!"

Lin Yi stood in the middle of a bunch of people, mocking them mercilessly. He then used their controllers to open the gates and walked in.

Everything that happened at the manor's Gate was faithfully recorded by the surveillance camera and transmitted to a projector in a room inside the manor.

"Arti, what do you think of this Ling-zero-eight?"

The head of the Steffey family, evalist Steffey, was leaning back on the sofa, gently swirling a glass in his hand. The red wine in the glass spun at a constant speed as he stared at Lin Yi on the screen with interest.

When he saw Lin Yi's ordinary appearance and thin body, he thought that he was just a useless killer sent by the black butterfly organization to make up the numbers. He didn't expect Lin Yi to be so capable!

The guards at the manor's entrance making things difficult was, of course, an act deliberately arranged by evalist. Otherwise, no matter how bold these guards were, they would not dare to casually mock the bodyguards that the patriarch had spent a large sum of money to hire.

Even the most extreme racist would not go against their own boss. If they did, they would not have lived until now!

Artil was an old servant of evalist. He was standing respectfully at the side, maintaining a moderate smile, and bowing slightly. "Clan leader, this Ling-zero-eight must be an assassin sent by the black butterfly organization after careful consideration. If they didn't have some confidence, I'm afraid the black butterfly would rather give up the mission than let him out."

The truth was that old ghost was very cautious, so cautious that he almost gave up on the mission, but Lin Yi was the one who insisted on taking the mission ...

"Looking at his skills, he does have some real skills. However, we still have to see how he is. After all, the few people at the door are not qualified to be my test stones!"

Artil's meaning was clear. The group of trash at the entrance of the manor did not even have the right to test the other party!

"That makes sense, artil. Don't you think the black butterfly is being too arrogant by only sending one person? Did they really have that much confidence in Ling-zero-eight? Do you think that you can guarantee Mike's safety by yourself?"

Evalist raised his hand to take a sip of red wine, and without waiting for the old servant to answer, he continued, ""Let's not care about this for now. Let's wait for him to come in and take a look first!"

"I will follow your instructions!"

Artil bowed slightly and ordered for Lin Yi to be brought over.

The area of the manor was huge, and it'd take a couple of hours to find the owner if he didn't use his spirit.

As for the people of the stefford family, they basically used electric cars to travel to and from the manor.

Otherwise, walking around would really take a lot of time and delay things!

Soon, a servant found Lin Yi and led him to the e-bike, driving him to evalist.

"Hello, welcome to the Steffey family manor. I'm artil, please follow me!"

Artil was waiting at the door, politely guiding Lin Yi into the hall.

His meticulous standard posture was definitely an instinct that had been honed for decades.

Lin Yi looked at Artil curiously. This old servant wasn't simple—he was pretty strong, but that was only in the common world.

It seemed that the Steffey family wasn't a family without a bit of background. It was indeed an ancient family with a long history!

"Mr. Ling, this is the head of our Steffey family, Evalist Steffey!"

Artil introduced Lin Yi, and Evalist didn't put on any airs. He got up and extended his right hand to Lin Yi. "Mr. Ling, welcome to our Manor! I'm very honored!"

"Chief Stefford, it's my honor to meet you!"

Lin Yi extended his hand and shook Evalist's hand as well, and everyone sat down after greeting him politely.

"Mr. Ling should be very clear about the details of the mission, so I won't go into detail. For the next month, I'll leave Mike's safety in Mr. Ling's hands!"

Evalist did not beat around the bush and went straight to the point. He then pointed at artil and said, ""As for Mr. Ling's specific treatment, artil will tell you."

"Mr. Ling, we have a contractual reward for the mission, but it will only be paid after the mission is completed. Please be aware of this!"

Artil maintained his respectful posture and continued with a smile, ""Before the mission is completed, if Mr. Ling is injured or killed in the process of protecting young master Mike, we will pay the corresponding compensation."

"If you withdraw from the mission because of this, then the reward can only be calculated by day. Other than that, there's also ..."

"Stop!"

Lin Yi raised his hand to interrupt artil's explanation, his face calm, ""Don't talk about these useless things. I just want to ask, other than money, can you use other things to replace the mission reward?"

Evalist blinked, evidently not expecting Lin Yi to ask a question like that. He answered subconsciously, "You don't want money? Then what do you want?"

"Patriarch stefford, please answer my question first. Can you use other items as a substitute?"

Lin Yi didn't ask for the sea calming Pearl directly. If the other party was only willing to pay, it would be useless to ask now and alert the enemy.

"Impudent! The clan leader asked you to talk to me, what's with your attitude? How dare you speak to the chief like this!"

Artil growled in a low voice. The moderate smile that he had maintained all this time was gone. The humble and polite temperament on his body also changed suddenly, becoming extremely dangerous.

As he spoke, artil reached out to grab Lin Yi. There was a faint explosion of pure energy in his palm-he had completely revealed his strength!

Half-step Foundation establishment!

Lin Yi had already seen artil's strength, but he was still surprised to see him fight. This level of strength was really not weak!

The killer who replaced number 08 after Black Butterfly was injured by Lin Yi was only a Sky Class full master!

However, even Sky Class full Masters were considered strong in the common world, and this was only because the members of Black Butterfly had been trained by Qiqi!

However, the original number 08 could not be compared to artil at all!

Don't think that the difference was only half a level, in reality, the difference was like heaven and earth!

Artil could easily kill the original number 08 with a single move.

Chapter 7475

It was a pity that artil wasn't facing the original number 08, but the new Ling-zero-eight, Lin Yi!

"A Firefly dares to compete with the bright moon? Stupid ant!"

Lin Yi laughed coldly.

A half-step to Foundation was a rare master in the common world, but it was nothing in Lin Yi's eyes. He was no different from a golden class.

Facing artil's attack, Lin Yi didn't even bother to Dodge. He reached out his hand and curled his fingers into a claw, grabbing artil's palm.

His five fingers tightened slightly, and artil was unable to resist at all. His palm suddenly bent in the opposite direction!

The intense pain came suddenly, and artil was caught off guard. He could not help but lean back.

Knowing that something was wrong, artil's forehead suddenly broke out in sweat. He endured the pain in his hand and simply fell back.

He used the chance to dissolve the force in Lin Yi's hand and tried to sneak attack Lin Yi with his lightning-fast kicks.

Lin Yi didn't move, but the cold smile on his face was getting more obvious.

Suddenly, Lin Yi's free hand formed a knife with his fingers and lightly cut at artil's shin.

Artil suddenly felt as if he had been struck by lightning. He lost all feeling in his entire leg, and he could not even stand steadily.

Lin Yi didn't want to hurt artil, so he didn't go too far. He let go of his hand.

The old man had already lost his balance and couldn't stand properly. He subconsciously used Lin Yi's hand as support, but now that Lin Yi let go of his hand, he fell straight to the ground.

Fortunately, the floor was covered with a thick expensive carpet, so the fall wasn't a big deal. Lin Yi's two small attacks, on the other hand, made artil suffer.

His palms were numb from the pain, and his calves were numb!

If it did not look like it was a big deal, Artil would have even suspected that his leg had been broken and had to be amputated ...

"Mr. Ling is so powerful!"

The light in Evalist's eyes brightened. Not only did he not take it to heart, he even clapped. "They are indeed the elite masters sent by Black Butterfly. It is really an eye-opener!"

"Chief Stefford is too kind!"

Lin Yi leaned back on the sofa as if nothing had happened, smiling. "In fact, the patriarch has a master like Mr. Artil by his side, so why would he spend money to hire people outside?"

"Mr. Ling, are you mocking me?"

Artil finally regained some of his senses and could feel the pain in his calf. He struggled to get up and smiled bitterly. "I'm not an expert if Mr. Ling can defeat me easily. "

In the past, Artil was also a very conceited person. A half-step to Foundation establishment was indeed qualified to be conceited!

He just didn't expect that he couldn't even take one hit from Lin Yi. He now knew that there was always someone better!

"Mr. Artil, you're too modest. I just used a trick. With your strength, you're indeed a rare master in the world!"

Lin Yi wasn't trying to comfort him-Sky Class full Masters were common, but there weren't many half-step Foundation Masters in the common world!

However, the world was different now, so it was hard to say.

Lin Yi didn't even need to mention the people around him-the new sanctuary had a lot of foundation building cultivators, golden core cultivators, and even nascent soul cultivators. There might even be mountain opening cultivators.

How was this still the secular world?

It was going to become a Sky Class Island!

"Mr. Ling, Artil was rude just now. I apologize to you on his behalf."

Evalist's attitude changed completely after seeing Lin Yi's true strength.

He approached Lin Yi with a big smile on his face. "Why don't we continue with the previous topic? if Mr. Ling doesn't want money, what do you want as a reward? As long as it's reasonable, I don't mind changing the payment method. "

This was what Lin Yi wanted to hear!

Therefore, he immediately smiled and nodded. "Clan leader, you're really a straightforward person. I won't be polite then!"

He paused for a moment, and waited for evalist to listen before continuing, "I've heard that the Steffey family has a sea calming Pearl. I wonder if the patriarch is willing to part with it and give it to me as a reward?"

Evalist paused, not expecting Lin Yi to propose this.

Of course, he knew about the sea calming divine Pearl. Even though this thing was said to be an ancestral treasure, it did not have any F * cking use. It was more of a symbolic item.

If it was a gemstone, they could even auction it off and make some money ... Of course, the stefford family wasn't lacking in money.

However, although this so-called sea calming divine Pearl looked like jade, it was not Jade after identification.

According to the standard of jewelry in the secular world, the sea calming Pearl was not worth much!

If it wasn't an ancestral item, the steffors would've thrown it away like garbage already! Lin Yi was using this as a reward?

As for the so-called legend of the protection of the sea, it was already the 21st century. Who would still believe that?

In the sea, the satellite positioning system and radar system were the most important.

"Mr Ling, although I don't know how you know about the sea calming Pearl, are you sure you want to use this as your reward?"

Evalist couldn't help but want to remind Lin Yi out of kindness-that thing really wasn't worth much, and the reward for completing the mission would definitely be a huge sum!

Even if the sea quelling divine Pearl was really a gemstone, it might not be able to sell for such a price!

"Chief Stratford, I'm very sure of my request. Of course, I'd be very grateful if you could allow me to take a look at it before that!"

Lin Yi decided to take a look first. If it wasn't the sea calming Pearl he was looking for, then he shouldn't waste time here.

Lin Yi realized that Evalist didn't seem to care much about the sea calming Pearl-could there be some sort of misunderstanding?

Of course, if it really wasn't what Lin Yi was looking for, then Michael Stefford could do whatever he wanted-he could kill whoever he wanted, it was none of his business!

"Sure!"

Evalist agreed to Lin Yi's request without hesitation. He turned to Artil, "Go and get the sea calming Pearl for Mr. Ling to have a look."

If Lin Yi went back on his word after seeing it, Evalist would be happy-the strength Lin Yi displayed was enough to make people value their relationship.

From Evalist's point of view, a worthless sea calming Pearl wasn't enough to pay Lin Yi. If possible, it was better to pay with more Practical Money.

Arti left on his orders and only returned after a while. He held a gold-rimmed silver box in his hands solemnly.

Arti placed the silver box on the coffee table and opened it gently, revealing a longan-sized Jade Pearl.

Lin Yi was a little excited as he asked the thing in the Jade space, "Senior ghost, quickly take a look at this sea calming divine Pearl. Is it the thing we're looking for?"

Chapter 7476

The ghostly thing took a look, and it really was!

"There's no mistake! This was the sea calming divine Pearl. Although it was not the sea Dragon King's sarira, its effects were similar and it could be used! It's probably the neidan of the Western sea tyrant race. "

Lin Yi's heart settled-he didn't think things would go so smoothly, finding the sea calming Pearl so easily and happily in one try!

If he was black-hearted and left with the Pearl, no one in the Stratford family would be able to stop him, and they'd never know his true identity.

But Lin Yi wouldn't do something so low class. The most important thing for an assassin was to keep their promises, and the black butterfly Assassin group was even more so!

As the former Ace of the black butterfly Assassin group, Lin Yi couldn't bring shame to Black Butterfly!

"Patriarch, thank you for being so generous and willing to let me see the sea calming divine Pearl!"

"I just want this sea calming Pearl. As long as the chief agrees, I can guarantee that young master Mike will be safe for a month!" Lin Yi said sincerely, in a good mood.

"Patriarch ... Please consider it carefully. After all, this is an ancestral item, one of the legends of our stefford family! It's a little inappropriate to give it to an outsider like this!"

Artil was not satisfied. He was not qualified to say these words, but it would be too late if he did not say them!

Because, once the sea calming Pearl was confirmed to be Lin Yi's reward, there was no going back on their word!

An expert who could easily kill him in seconds would dare to go back on his word after promising him? Are you tired of living?

"There's nothing inappropriate about it! The sea calming Pearl might be a legend in our family, but it can not protect our family's future. Only Mr Ling can do it! So I think it's very appropriate to use it to exchange for the future of our family!"

Evalist only considered it for a moment before making up his mind.

The future of the family he was talking about was, of course, his son, Mike stefford!

Artil was speechless. There seemed to be nothing wrong with evalist's words.

The so-called family legend was, in the end, just a useless bead, a dead object!

How could it be inappropriate to use it in exchange for the survival of young master Mike?

"I'm sorry, I overstepped my boundaries!"

Artil bowed slightly and lowered his head. He stepped aside and no longer interfered.

"Mr. Ling, I can agree to your request, but you have to promise that nothing will happen to my son within a month! If the mission fails, you won't get any reward!"

Evalist stared at Lin Yi with a serious face, as if he wanted Lin Yi's guarantee!

Lin Yi, of course, would fulfill his wish-it was just protecting a person from the common world, what difficulty could it have?

"Don't worry, chief stefford. I promise you that as long as I'm here, no one in this world will be able to hurt young master Mike!"

Lin Yi replied with a serious face, and evalist let out a breath of relief. He felt that Lin Yi's promise was very trustworthy.

"That's great! With Mr. Ling's protection, I believe Mike will be safe and sound. Let's drink to that!"

Evalist snapped his fingers at artil. ""Pour a glass of wine for Mr. Ling and I. We want to celebrate our successful cooperation!"

Artil didn't say anything and quickly placed two glasses of red wine in front of the two. Lin Yi raised his glass and clinked it lightly with evalist's. The two smiled at each other and toasted!

"Mr. Ling, I don't know why, but when I first saw you, I felt very close to you. I instinctively wanted to trust you and get close to you! This is probably what you Huaxia people call "hitting it off at first sight," right?"

Evalist raised his wine glass elegantly and smiled as he pushed the gold-rimmed silver box towards Lin Yi. "So, I'm willing to give this sea calming Pearl to Mr. Ling in advance!"

Lin Yi blinked-there was such a good thing?

Didn't he just say that he would not get any reward if he failed the mission?

"Patriarch stefford, this isn't very good, is it? We agreed that we would only pay after the mission is completed!"

Lin Yi really wanted to get the sea calming Pearl, but he still acted reserved,"If I don't complete the task successfully and run away with the sea calming Pearl, won't it cause a loss to the clan leader?"

"Hahaha, didn't I say that I trust Mr. Ling from the bottom of my heart? I believe that Mr. Ling will never let me down. So, I am willing to give you the sea calming Pearl in advance."

Evalist smiled as he put down his glass. He looked at Lin Yi."Since Mr. Ling has absolute confidence in yourself, what reason do I have to be worried?"

In fact, in the end, the sea calming Pearl was not too important in evalist's eyes!

It was only an ordinary item passed down in the family, and wasn't of much use to the current stefford family.

He wanted to show his magnanimity and build a good relationship with a master like Lin Yi. He didn't mind giving it to Lin Yi for free, even if it wasn't related to the mission.

Artil wanted to say something but stopped. He didn't have evalist's magnanimity and felt that if he gave Lin Yi what he wanted now, it would be hard to say if Lin Yi would protect Mike in the future!

However, he was ultimately just a servant. Artil had no right to question evalist's decision, so he could only continue to remain silent.

"Since chief stefford is so forthright, then I won't be polite!"

Lin Yi didn't push it away anymore-he was a man of his word, and he'd return the trust he'd received!

He'd gotten the sea calming Pearl already, and he could leave the Steffey family behind and go straight to the wormhole to find Mengyao, but as a famous killer, he had to stay in Europe and protect Mike for a month!

"Mr. Ling, please don't stand on ceremony with me. Even if there's no mission, I personally would like to be friends with you."

"My friends all call me Esther," evalist laughed heartily. "If you don't mind, you can call me that too, Mr. Ling!"

When foreigners ask you to address them with an abbreviation, it means that they treat you as a close friend!

Especially for a seafaring giant like Evalist, who would dare to call him so casually?

"Alright, Esther, you can call me Ling, or 08! We really don't need to be so polite!"

Lin Yi shrugged. He didn't think there was anything wrong with calling her that. In the entire common world, how many people could get close to Lin Yi?

Evalist might think that he was giving Lin Yi face, but it was the exact opposite!

Under normal circumstances, a normal person like him wouldn't have the chance to talk to Lin Yi as an equal, and even hire him to protect his son.

"That's great! I'll call you 08 from now on. That's your name. I hope we can be the closest of friends!"

Evalist was very happy, and raised his glass to Lin Yi. "Come, 08, my friend, let's have another toast!"

Lin Yi smiled faintly as he raised his glass and clinked it lightly with his before Downing it in one go!

Chapter 7477

"By the way, Esther, do you know who wants to kill Mike?"

Lin Yi put down his glass and asked.

"This matter actually involves ..."

Evalist was about to explain to Lin Yi when artil suddenly put his hand beside his ear, his face changing.

Without caring if he was being rude, artil directly bowed and interrupted evalist's words, saying hurriedly, ""Chief, young master Mike and miss Justina have shaken off the bodyguards. They left the manor in a helicopter and are now flying towards the port!"

"What? Is this little bastard crazy? You still dare to be so audacious in this situation? do you not want to live?"

Evalist suddenly stood up, his face filled with shock and anger.

As the Father, he had spent a lot of money to find an expert to protect his son, but who would have thought that this little rascal would leave his bodyguard behind and fly out to play with his little girlfriend?

Don't you know that the entire world is filled with assassins who want to kill you? He simply didn't know his place!

"Patriarch, now is not the time to talk about this. We must immediately bring the young master back!"

Artil was a little anxious. It was obvious that he had deep feelings for Mike. "The others might not be able to persuade young master. Why don't you let me make a trip?"

"I'll go! This is my mission to begin with!"

Lin Yi stood up and put the sea calming Pearl into his pocket naturally.

This was the most important target, and Lin Yi had to keep it with him in case of any accidents, "As long as we can catch up with Mike, I'll definitely ensure his safety ... And his little girlfriend's safety."

One sheep was chasing, two sheep were also letting go, it didn't matter!

Evalist had no opinion on this and nodded repeatedly. "08 is right! Artil, immediately arrange for people and helicopters to take 08 to chase Mike. Also, immediately inform the port. No matter what that brat wants to do, we must stop him!"

Artil bowed in agreement. He pressed his fingers to his ears and began to arrange things in a low voice at an extremely fast speed.

A few seconds later, artil lowered his hand and bowed slightly to Lin Yi."The helicopter is ready. Mr. Ling, please follow me!"

There was no time to lose, and Lin Yi didn't say anything else. After greeting evalist, he quickly left the place with artil.

The two of them didn't use electric cars but relied on their own speed to fly. Electric cars couldn't be compared to such Masters in short-distance sprinting.

In just over 20 seconds, the two arrived at the tarmac in the manor. There were a total of five helicopter parking spaces on the wide tarmac.

However, there was only one helicopter at the moment, and the other seats were empty.

The only helicopter had already started. The pilot in the cockpit gave artil a thumbs up, indicating that everything was OK and that they could take off at any time.

"Mr. Ling, I'll leave young master Mike in your care!"

Artil bent down and gave Lin Yi a nearly 90-degree bow."I have to stay here to protect the chief, so I won't be going with Mr. Ling. If there is any danger, please let me know at any time. I will arrange a rescue team here in advance."

The Stratford family had their own security team, which was equivalent to the family's private army. When the time came, they could also be pulled out to fight.

It was just that this kind of team wouldn't be of much use against an expert's assassination, which was why the Steffey family had issued a mission to recruit top experts to help protect Mike.

"Artil, you can rest assured!"

Lin Yi didn't think it was too difficult. He waved his hand and entered the helicopter.

Lin Yi would've used the flying saucer to catch up to Mike if it weren't for the fact that he didn't want to scare the world. However, they were both helicopters with the same functions. It wasn't easy to catch up to Mike since he was a few minutes ahead of him.

The only advantage was that Mike's piloting skills weren't as professional as Lin Yi's ...

After the helicopter took off, the pilot looked at Lin Yi through his glasses curiously and gestured for him to put on his ear mic.

The mic connected directly to artil, and the old man seemed to have more to say to Lin Yi.

"Mr. Ling, young master Mike is going to the family's backup port. There are no large ships there, but there are many small and medium yachts. If young master Mike is going to take miss Justina out on a yacht, I suggest that Mr. Ling use the helicopter to catch up with them."

Arti explained the situation in detail, "Other than the yacht, there are also a few small and medium-sized submarines at the dock ... If young master Mike is using submarines, it will be difficult. We can only ask Mr. Ling to stop them before they board the submarine!"

Lin Yi was a little speechless-a giant in the marine industry was different, after all. It was just a backup dock for a family, and they had all sorts of small and medium-sized yachts and submarines?

Is your family a maritime giant or a naval base? Are there any hidden destroyers, gunboats, or even aircraft carriers?

Lin Yi grumbled to himself before replying in a low voice, "I understand. Arti, keep me updated on the situation over there at all times so that I can control the situation at the first moment."

Mike's sudden departure from the Steffey family's Manor was an emergency, and the killer who wanted to kill him might not be able to react in time. In theory, there shouldn't be any safety issues in a short time.

He was afraid that the other party had been closely monitoring Mike and would find an opportunity to make a move.

In that case, Lin Yi wouldn't be able to save him in time. After all, he was only Ling-zero-eight now, not Lin Yi. He couldn't reveal his strength that didn't belong to Ling-zero-eight.

And what worried Lin Yi the most was-who the hell was that Justina? A woman like this popped up at a time like this-Lin Yi suspected that the woman was behind Mike's decision to leave the bodyguards behind.

If not, Mike wasn't a fool. He knew that someone wanted to kill him, but he still deliberately left the bodyguards behind. Wasn't this just courting death?

If Justina was the mastermind behind all this, she might be one of the people who wanted to kill Mike. If that was the case, Lin Yi would have to go and collect Mike's body ...

Lin Yi thought about all the possibilities, and seven or eight minutes passed before he realized it. Artil's voice sounded in his mic.

"Mr. Ling, young master Mike and miss Justina have arrived at the port. Our men wanted to get close to young master, but he forced them back with his sword ..."

Lin Yi was speechless-what was Mike thinking? Did you have nothing better to do? Pointing a sword at the person who wanted to protect him, was he thinking that he was not going to die fast enough?

Chapter 7478

"You didn't ask him what he wanted to do?"

"There's no need to ask ... Young master Mike and miss Justina are moving towards the submarine dock under the port. They want to go to the bottom of the sea!"

Artil's voice sounded helpless. The submarine had entered the bottom of the sea, and Lin Yi couldn't bring them back even if he chased after them!

At most, he could drive another submarine to follow Mike and his partner, but what was the use of that? If the killer knew Mike's movements, he could get an attack submarine and kill Mike easily!

As for whether the other party had the ability to get a combat submarine, artil had no doubt because he knew who his opponent was!

Lin Yi didn't know anything about this-Mike had already left the manor when evalist was about to tell him who his opponent was.

So Lin Yi didn't really care about Mike going to the bottom of the sea-it didn't matter to him anyway. As long as he could keep up with Mike, he'd know where they were.

"Artil, can you contact Mike? Just ask him what he's up to!"

Lin Yi didn't want to be led around by the nose by a kid. He ordered artil to contact Mike while he looked into the distance through the helicopter's glass.

The Steffey family's Reserve Port was already in sight, and he would reach it soon. However, he didn't know if Mike would have already left by the time he arrived.

"Mr. Ling, I've tried, but I can't contact young master Mike. He's rejecting the call."

Arti was helpless. This was the young master Mike that he had watched grow up! If something were to happen, he would not be able to take it!

"Keep trying until the call is connected!"

Lin Yi's lips twitched-it was probably because Mike wasn't on the submarine yet, and didn't want to waste time talking to his family.

When the submarine left the port smoothly, they would most likely be willing to connect the communication. After all, they had to give an explanation to their families. Otherwise, they would be too insensible!

Arti did not speak again after he agreed. He obviously continued to try to contact Mike.

A while later, Lin Yi's helicopter landed on the emergency dock of the Steffey family. A white man with silver hair in a suit and leather shoes quickly approached the helicopter and shouted at Lin Yi.

The silver-haired man was yelling at the top of his lungs due to the noise from the wings, but that wasn't a problem for Lin Yi. He waved his hand and told the man to speak at a normal speed.

"Young master Mike has boarded a small submarine with miss Justina. They left the port a minute ago, but there is a signal transmitting device on it. As long as it is within 20 nautical miles, it will appear on our surveillance."

The silver-haired man followed Lin Yi as he ran, "Mr. Ling's submarine is also ready. If you have any other needs, please let me know immediately and I will arrange for someone to prepare it."

"No need, just take me to the submarine dock!"

Lin Yi ordered as he walked down the tunnel. He'd never been here before, but with a scan of his spirit sense, he knew where to go without anyone leading the way.

"Oh, tell the submarine pilot to leave. I can do it alone!"

The so-called submarine docked in the dock below should actually be called a civilian submarine. It was not the same concept as a military submarine in the general sense.

First of all, they were much smaller in size. Secondly, these mini submarines could only accommodate five or six people at most. Moreover, they were not equipped with advanced weapons, only a few metal arrows that could be launched.

This kind of small submarine was relatively fast, but its endurance was much lower. If one wanted to stay in it for a day or two, they had to be mentally prepared to sleep at the bottom of the sea!

If Mike also drove a submarine like this, he probably wouldn't go too far. After all, he didn't bring any equipment or supplies!

Lin Yi realized that he'd overlooked this point-did Mike bring anything with him? If he was light, what was the reason?

"Arti, what did your young master Mike bring with him? Who is that miss Justina?"

Lin Yi didn't think much of this mission before-it was just a walk around, after all. Things were getting interesting now, and he wanted to know more.

The silver-haired man was a little surprised to hear Lin Yi telling him to get the pilot away, but seeing that Lin Yi was on the phone with arti again, he swallowed his words and obediently followed Lin Yi's instructions.

For such a small submarine, although having one more or one less passenger would not make much of a difference, there was still a slight difference. The people chasing after them were already a few minutes behind, so it was good to reduce the burden as much as possible.

Since this person didn't need a pilot, it meant that he had an understanding of all kinds of submarines.

On the other end, arti was silent for a moment before he said,""I think young master Mike brought a hiking bag with him. We don't know what's inside, so our men didn't have the chance to check it."

"As for miss Justina, she's the daughter of our family's long-time friend. She grew up with young master Mike, and they're very close."

Lin Yi understood now-they were childhood sweethearts, after all. The possibility of her being a killer wasn't high, unless she'd been switched.

However, the probability of it being switched was not high. If anything happened to their childhood friend, the first person to notice would definitely be Mike.

Under such circumstances, it would not be so easy to trick Mike out!

"I don't know why, but this time, young master Mike and miss Justina left the manor together. If possible, Mr. Ling, please ensure the safety of both of you."

Arti continued, but Lin Yi understood what he was trying to say.

If it was possible, he had to ensure the safety of both of them. If not, he would give up on Justina!

After all, to Arti, Mike was the only young master of the Steffey family. Justin...Was not important!

"I understand. That's all for now. Contact me if there's anything!"

Lin Yi brushed it off and ended the conversation with a tilt. He arrived at the dock below, where a small submarine was prepared and the pilot left as Lin Yi requested.

"Mr. Ling, young master Mike's submarine will be displayed on the radar screen. As long as you maintain a distance, you will be able to see his position."

The silver-haired man followed closely behind Lin Yi, still talking non-stop, "If you have any needs, please contact me at any time! In addition, our three submarines are following young master Mike, so please pay attention to the division. "

Chapter 7479

"I got it!"

Lin Yi nodded slightly and entered the submarine in a flash, not giving the silver-haired man a chance to speak.

The door closed right after Lin Yi went in, and waves started to surge on both sides of the submarine as it dove down.

The dock was built under the sea, and the submarine entered the tunnel after diving down. Lin Yi's familiar propulsion device quickly pushed the two propellers at the tail to full speed, pushing the submarine out of the tunnel.

In the blink of an eye, Lin Yi opened up a quiet and beautiful underwater painting. It was close to the shore, but there were still many fish swimming in the area.

The radar showed that there were four mini submarines at full speed ahead a few nautical miles ahead. The one at the front was displayed in red, while the three behind were displayed in green.

It was obvious that the control center had marked Mike's submarine as the enemy's color to make it easier to distinguish.

What the hell was this kid going to do with his little girlfriend? was it a date or an elopement? It was too funny to cause such a big commotion!

Lin Yi mumbled to himself as he pushed the mini-submarine to its maximum speed. Two small vortexes appeared at the tail of the submarine as it sped through the dark sea.

Under normal circumstances, it would not be easy to catch up with the submarines in front of them. After all, everyone had the same performance, and it would be difficult to offset the advantage of being the first to attack.

However, Mike, who was leading the way, did not move in a straight line. He seemed to be unsure of where his destination was. Occasionally, he would take a winding route. The three submarines that followed him could only bite his tail and change their course.

Lin Yi, on the other hand, didn't need to-there was a distance between them, so the changes wouldn't affect him at all. All he needed to do was maintain a straight line with Mike's submarine.

Just like that, after an hour or so, the distance between Lin Yi and the four submarines had shortened quite a bit.

Even without the need for radar, under the strong light of the underwater spotlights, the tail of the submarine could be seen with the naked eye.

Lin Yi calculated that they'd be able to catch up to Mike's submarine in another ten to twenty minutes.

But the problem now was, what could he do after he caught up?

Now that they were about 400 meters above sea level, they couldn't just drive a car to stop and ask them to get out of the car like they did on the road, right?

"Not good! There's a school of sharks up ahead! Be careful, don't alert the Sharks!"

A cry of surprise suddenly rang out in the communication channel. Then, wherever the light shone, a school of sharks suddenly appeared around Mike's submarine like predators tearing through the darkness!

It was not a big deal. Sharks might not be interested in submarines. However, in Mike's submarine, perhaps the young master or the young miss was too nervous, a metal arrow was shot!

Moreover, the metal arrow had coincidentally hit the body of a shark!

A stream of dark red blood immediately spurted out, dyeing a small area of the sea red.

The originally calm group of sharks immediately exploded. The Sharks on the side sniffed the blood and rushed towards their companions. The Sharks around the submarines also began to swim around the submarines according to the changes in the current.

Mike's submarine was quick to react. It instantly stopped moving and remained silent, allowing the submarine to sink slowly and naturally. It was like a stone falling into the water.

The other submarines did not react so quickly. They were not so lucky either. After being hit by the Sharks around them, the outer shell of the submarines began to crack!

"Help me, Qianqian!"

"HELP....."

The three submarines that followed Mike were destroyed one after another.

This kind of small civilian submarine did not have much defensive power at all. Moreover, it was in the deep sea. If it was slightly deformed, it would be destroyed even if it could not withstand the water pressure.

Lin Yi could only watch helplessly as they died.

It wasn't hard for Lin Yi to kill an entire school of sharks, but that didn't solve the problem.

The three submarines were damaged, and even if Lin Yi killed the shark, the people in the sea wouldn't be able to survive.

Lin Yi's submarine wasn't big, and it was four hundred meters deep. There was no way to open the door and let people in-that was something only military submarines could do.

No matter if Lin Yi helped or not, there was no way the people in the submarine could survive four hundred meters underwater!

On the other side, Mike's submarine had already left the shark's hunting range after silently diving for a distance. It was unknown if this kid was lucky or if he was really brave and smart. He was calm and composed, and he managed to resolve this crisis.

Lin Yi didn't continue provoking the crazy sharks. He turned off the lights and used the momentum to get closer to Mike's submarine.

Perhaps sensing Lin Yi's arrival, Mike's submarine started up again. The propeller pushed the submarine to full power, pushing it deeper.

Lin Yi was stunned-was this guy out of his mind?

Continue to dive?

This type of civilian submarine could only reach a depth of over four hundred meters!

If he continued to dive, it was hard to say when he would be squeezed into pieces by the water pressure!

Lin Yi had no choice-he'd promised evalist that he'd keep Mike safe, so he'd have to follow them. Even if the submarine broke, he could still use his pure energy to save one or two of them.

However, an unexpected situation occurred again. Mike's submarine had just dived down 20 to 30 meters when a huge Whirlpool suddenly appeared at the bottom of the sea!

Mike's mini submarine was caught off guard and began to spin continuously. It quickly fell into the center of the vortex.

Not only that, but the miniature submarine's resistance to pressure had already reached its limit, so after spinning three or four rounds in the vortex, the entire submarine began to disintegrate.

Without a doubt, in just two to three seconds, the two people in the submarine would be completely finished!

Lin Yi sighed to himself.

These two had stupidly broken away from the family's protection just to come to the bottom of the sea to die?

If he had not followed them, no one would have known how Mike had died!

Seeing that Mike's submarine was about to break apart, Lin Yi transformed into his spirit and left the submarine. He didn't forget to put the submarine back into the Jade space before entering the vortex.

He grabbed a couple who came out to die and quickly used his pure Qi to protect their bodies, preventing them from being torn apart.

If it was any other Foundation establishment or even golden core stage master, it would be difficult to guarantee their survival in such an underwater Whirlpool, let alone save people!

It was only because of Lin Yi's strength and his strong essence spirit that he was able to protect the two.

Chapter 7480

Lin Yi was about to leave the whirlpool with the two when he suddenly felt a faint spatial fluctuation in the center of the whirlpool!

Could it be that there's another space here?

This was an unexpected discovery!

Could it be that Mike and Justina were here for this?

Since there was something strange about it, Lin Yi decided to stop resisting the suction force of the vortex and let it pull him into the center.

He wanted to test if the sea calming Pearl worked, but he didn't want to destroy the spatial fluctuations in the center of the whirlpool.

Mike and Justina, who were wrapped in true energy, had fallen unconscious, so they did not notice the strange event that they were going through.

The three of them were quickly swept into the center of the vortex and disappeared as if they had never been there.

Lin Yi brought the two into the center of the vortex and felt as if his body had passed through a tough membrane. Then, the ground beneath his feet disappeared and the scenery in front of him changed!

Lin Yi was surprised to find that there wasn't a drop of water around him.

Not only that, but there was also a slight fishy smell of the sea as the air slowly flowed, forming a faint sea breeze. It felt as if they had returned to the surface of the sea!

Lin Yi turned into his spirit form and stabilized himself in the air. He saw that the beach was ten meters below them and slowly put the two down.

Carrying two people with pure Qi was quite exhausting for Lin Yi, and he felt much more relaxed after putting them down. He had the time to observe his surroundings.

Looking down from the sky, it was a small island. It was not very big, and it would take about a day to walk around the island.

The island was surrounded by water, and that was no problem at all. The problem was the sky-Lin Yi looked up and realized that there was water above him as well!

The entire Island seemed to be covered by a transparent semi-circular cover, and the outside of the cover was all seawater!

Without a doubt, this was a mysterious island at the bottom of the sea!

As for his background, perhaps the young man and woman on the beach would know something.

Lin Yi used his spirit sense to check and found that Mike and Justina weren't awake yet. He flew up a bit more and came to the boundary of the sea.

He poked it a few times with his finger. It was soft and could be penetrated. Although he didn't know what it was, it was obviously not an ordinary item!

Interesting!

Lin Yi lowered his head and looked at the island, a look of interest flashing across his eyes. He'd just used his spirit sense to scan the island and realized that he couldn't use it on the island. There was an invisible force that rejected his spirit sense.

This Island was indeed not simple!

Lin Yi wanted to explore the area and landed on the beach slowly. His divine sense was rejected just now, so he kept his guard up when he landed.

Once he discovered that there were signs that were harmful to his primordial spirit, he could immediately react.

Nothing out of the ordinary happened, however, and Lin Yi landed easily.

"Um ... Where am I?"

Mike, who was on the beach, seemed to have woken up. He groaned as he held his forehead and forced his eyes open. "Who are you?"

Lin Yi ignored him and turned to the girl, Justina.

It had to be said that this girl was not bad-looking, in line with the aesthetic point of view of Westerners. Her figure was slender and well-proportioned, and she was quite hot and sexy. No wonder Mike, this young man, would risk his life to come out with her.

But this wasn't Lin Yi's type-he preferred traditional Eastern girls, like Tang Yin, Mengyao, Shangguan LAN 'er ...

After Mike woke up, Justina's long and dense eyelashes moved slightly, and she opened her eyes.

"You guys are awake? Tell me, why did you come here?"

Lin Yi ignored Mike's question and asked them back indifferently, "Don't try to hide it. There are only three of us here. If your answer dissatisfies me, you won't want to know the result!"

"Are you threatening me?"

Mike had already sat up straight, and his face darkened as he pulled out his sword.

It was hard to believe that he didn't abandon this sword when he was on the verge of death.

Lin Yi glanced at Mike from the corner of his eyes. He didn't do anything, but he waved his arm and Mike's sword was in Lin Yi's hand.

"You ..."

Mike was a little annoyed. He thought that Lin Yi had the advantage of a sneak attack, but he was a swordsman. Without a sword, he had no weapon. In theory, he had already lost.

However, Lin Yi's ghostly speed really scared him. Even if the opponent wasn't a martial artist, he was an assassin!

"You what you! Don't you know that I was the one who saved you two?"

Lin Yi didn't mention that he was Mike's bodyguard and maintained his cold attitude,"Since I can save you, I can naturally make you return! Do you want to try?"

"This gentleman, if you have something to say, please say it. There's no need to make such a joke!"

Justina stood up elegantly and dusted off the sand on her hands. She also cleaned up her body. She was so charming and graceful that Mike was completely smitten.

After she was done, she smiled at Lin Yi. "I'm Justina. Thank you for saving us. How should I address you, Sir?"she said.

"You guys can call me old eighth!"

Lin Yi didn't realize until he finished that eighth brother sounded like he was taking advantage of them, but it didn't matter. The two foreigners probably didn't understand what he meant.

"Justina, you should know what this place is, right?"

Lin Yi thought that Justina was a little too calm, so he assumed that she was the mastermind behind this whole thing. Mike was just a stupid kid who got used on impulse.

He was taking advantage of the fact that she was unconscious and didn't know who Lin Yi was, thinking that he was a native of the island.

After all, getting out of the submarine in the deep sea and going into the whirlpool to save someone was something that normal people wouldn't even imagine. Only Lin Yi dared to do it.

As long as the two of them had such a preconceived impression, it would be much easier for them to talk, because everyone wanted to get information from each other!

"Mr. Eighth brother, I just woke up. How do I know where I am? Why don't you introduce us to where we are now?"

Justina's eyes flashed and she smiled brightly, showing her pearly white teeth. "Perhaps we'll know what this place is after Mr. Eighth's introduction!"

"Since you know nothing about this place, that's not a bad thing ... Do you think I should send you into the seawater here or the seawater outside?"

Lin Yi smiled slyly as the two's expressions changed. He continued, "But then again, you're quite pretty. It should be good for me to stay on the island with such a pretty girl as my companion. As for this man, he doesn't seem to be of any use. What should we do?"
