

Bodyguard 7521

Chapter 7521

"Not good! The tunnel was really narrowing! The tower is disappearing at an even faster rate. It looks like it's really going to close!"

Someone realized something was wrong and shouted as he rushed towards the channel.

The Knight regiments that had sent the vanguards were also anxious at this time. They didn't have time to wait for someone to pass the message. They had to ensure that they could enter first!

In an instant, the people who stayed on the shore all rushed into the channel of waves.

However, the speed at which the nine-story glazed Pagoda disappeared was getting faster and faster. In the blink of an eye, five floors were gone, and the passage was also rapidly closing up, leaving only a width of 50 meters.

Lin Yi and the people from the Sword of Judgement had entered the first floor.

After them, only about four hundred people successfully entered the nine-story glazed Pagoda. The next two to three hundred people were swallowed by the suddenly closed wave passage and completely sank into the deep sea ...

But Lin Yi and the others didn't know about this-they were separated after entering the nine-story Pagoda.

Lin Yi only had Mike, Serena, Morris, and Chris by his side.

As for the other members of the sword of sanctions Knight Association and adianpolo, no one knew where they had been teleported to.

Lin Yi was surprised-did the nine-story Pagoda know that he and Mike were on the same side?

"Mr. Ling? Was this the palace of the sea serpent King? Where are the others?"

Morris 'expression was grave, and there was even a little fear in his eyes.

This was because what he saw was not a Palace, but a scene of the deep sea.

There were corals, seaweed, fish, and other things in the sea everywhere. The five of them were also in the water!

However, the strange thing was that other than the resistance and buoyancy of being in the water, their breathing was not restricted. Even when they spoke, there was no water flowing into their mouths.

At first, it was only natural for Morris to speak as he wanted to hug onto Lin Yi's leg, but he only realized the strange phenomenon after he opened his mouth.

"I don't know if this is the palace of the sea serpent King, but it should be in that nine-story glazed Pagoda!"

Lin Yi looked around and said faintly, Although we're in the water, it doesn't affect our speech, and our hearing and vision are normal. This means that there's something strange here."

"As for the others, they should have been separated. I think they're about the same as us, about five people in a group. The people in front of us should be in a similar situation."

Lin Yi paused and extended his spirit sense as far as he could, but he didn't find anyone else.

And here, although he could still use his divine sense, the range of his detection was limited. It could only extend in a straight line of about two thousand meters.

The range was actually quite large, but compared to Lin Yi's normal state, it was better than nothing!

"In that case, they shouldn't be in danger for the time being. Mr. Ling, what should we do next? Are you going to find someone first?"

Morris was at a loss. Although he was the leader of the Knight Association, he had never been to such a dangerous place to explore.

Morris' plan had been quite good. He had even contacted a few other Knight regiments, preparing to join forces after entering. In the end, even his own subordinates had been scattered, not to mention the others.

"It's not that easy to find someone ... Let's go and see if there's anything worth paying attention to here!" He said.

Lin Yi, on the other hand, was calm.

From the secular world to the heaven class Island, then to the ancient martial world and the sub-islands, what hadn't he seen?

Although the current situation seemed a little magical, to put it bluntly, it was just a unique space, no different from the ruins that they had explored before.

As the saying goes, since I'm here, I'll just take it. Since I don't have a direction, I'll just walk around!

Morris didn't mind, and was about to ask where they were going when Mike looked at Lin Yi with a strange expression. "Eighth brother, I feel a little strange!"

"What's strange?"

Lin Yi raised an eyebrow.

"I can't explain it clearly. I just feel like there's some kind of power spreading in my body, wanting to come out ..."

Mike raised his hands, and the expression on his face was a little strange.

Chris did the same thing. "I ... I feel the same way ... What kind of power wants to come out?"

As soon as she finished speaking, Mike's hands trembled, and a small vortex suddenly appeared in his palms. It quickly formed into two rapidly spinning water balls.

Chris followed closely behind, and a similar situation occurred.

However, in her palms, there were two balls of turbulence!

The two looked similar, but Lin Yi could clearly feel that they were two completely different things!

Mike's palm was controlling water, but Chris's was controlling wind!

However, they were all in the water, and the wind in Chris's palm stirred the water, so it looked a bit like Mike 's.

However, if they were on land, the fundamental difference between the two could be seen!

"What kind of magic is this?"

Serena looked at Mike and Lin Sanjiu with a face full of curiosity and envy. She also stretched out her palm eagerly, wanting to make something similar. "Eh, why can't I? How did you guys do it?"

"I don't know either! It's such a natural feeling to be able to control water currents ... This isn't magic, but a type of superpower, right?"

Mike was pleasantly surprised. Westerners had a high degree of recognition for superpowers. Heroic movies and comics were deeply rooted in people's hearts. So when Mike found out that he had inexplicably obtained the power to control water, his excitement was indescribable.

It was the same for Chris. She had obtained the power of wind, which was not obvious in the water. When she was on land, it would be widely used.

"It's indeed a superpower, but how did you guys suddenly get it?"

Lin Yi nodded, surprised.

When these two people used their abilities, there were no fluctuations of true Qi in their bodies, so it was certain that these were not the wind spiritual force and water spiritual force derived from true Qi: "Could it be that both of you are favored by the sea serpent King, so when you came to the palace, your powers were awakened?"

"It must be like this! Mr. Ling is indeed wise, you hit the nail on the head!"

Morris clapped his hands, his face full of excitement. "Among us, only Mike and Chris were chosen by the legendary sea serpent King. That's why they awakened their powers! But the three of us didn't change at all. This isn't a coincidence!"

"Does that mean that the citizens of other kirrlutz towns might have obtained similar superpowers?"

Chris dispelled the power in her hand and said thoughtfully, "I wonder how many people came in. Did they all awaken their powers? What kind of power did he awaken?"

Chapter 7522

Hearing this, Morris' expression turned slightly ugly.

Kirrlutz's population was not large, and not everyone was willing to take the risk to enter the sea serpent king's palace.

However, from the information collected by the various forces, there should be more than a hundred kirrlutz townspeople involved.

If these people all passed through the channel and entered this space, wouldn't there be nearly 200 more Espers?

Even if their combat skills were not worth mentioning, the power of an Esper was enough to harm most of the members of the Knight Association.

In other words, Yingying's competitors this time had suddenly increased by nearly two hundred Espers, and they were Espers who were favored by the sea serpent King!

In other words, this was their home ground!

This matter was a little unreliable!

Serena did not have Morris's worries. She still held Chris's hand enviously and said, ""Sister Chris, only the sea serpent King's favored like you can obtain superpowers? I also want superpowers, is there any way?"

"I don't know. I still don't understand why I have superpowers!"

"Maybe it's just a coincidence," Chris laughed helplessly. "You might get a superpower soon!"

"It seems to make sense! Hahaha! I'm really looking forward to it!"

Serena thought for a moment and suddenly became happy. "Big sister Chris, what kind of power do you think I will have? It'd be best if it was the cool kind, the flames were too ordinary, and it'd be best if it had the speed of the flash! Whoosh! Whoosh! Whoosh! Whoosh!"

Lin Yi's lips twitched-what a kid, a kid who'd been deeply poisoned by superhero stories ...

No matter what, Mike and Chris had obtained superpowers and enhanced the combat power of the team. It was a good thing!

While the five of them were talking, they randomly chose a direction to go in and searched for places they could pass by to see if there was anything good worth collecting.

He didn't walk far before he saw a dozen people in his range.

To be exact, it was more than a dozen people who were in a chaotic battle!

Most of them were normal Knights, and only a few of them had different superpowers like Mike and Chris!

Fire, lightning, wind, and water!

Light and shadow intertwined. Although they were in the water, it didn't affect the use of these powers.

In the blink of an eye, two people had already fallen in the chaotic battle!

"There seems to be some movement over there?"

Morris did not have divine sense, but he could still feel some fluctuations of battle. "Is there someone fighting?"

"Let's go and take a look!"

Mike was eager to try. He was originally a beginner earth-rank Knight, and now he had the ability to control water. He wanted to find an opportunity to test his skills. "Eighth brother, there might be our people there. We have to hurry!"

Lin Yi, of course, knew that there weren't any members of the Knight Association in the crowd, but he didn't have to say it out loud!

"En, everyone be careful. I might not be able to take care of everyone!"

The main target was Mike, and Lin Yi could help the others when he wanted to, but when he didn't, they could only rely on themselves!

Morris and the others all agreed and began to speed up in the direction of the chaotic battle.

Mike immediately used his newly awakened power to control the water flow to help everyone move forward. Their speed was even faster than on land.

In less than a minute, Lin Yi and the others could see the battle from afar.

Originally, there were more than a dozen people in a chaotic battle, but now there were only seven people left. The speed of their deaths was quite fast.

"Two of the living people are from the Gaia Knights!"

Morris recognized two of them from afar and immediately became a little anxious. "This is the group of Knights that I've previously contacted and agreed to work together with! Mr. Ling, please think of a way to save them!"

"The three people fighting the Knights are all citizens of kirrlutz. How did this happen?"

Chris was also very anxious, "is there a misunderstanding?" I need to make them stop first!"

The seven-man battle group was clearly divided. Three kirrlutz townspeople had obtained superpowers, so they were a group.

As for the other four, two of them were members of the Gaia Knights that Morris had contacted. The identity of the other two unknown, but they were probably Knights from the same Knights.

These four knights worked together, but they still couldn't hold off the attacks of three Espers, the situation was already precarious.

To be honest, Lin Yi didn't really care about these people's lives.

However, since Morris had spoken, he had to give him some face. After all, Morris had always been respectful towards Lin Yi!

"I'll go separate them first! You guys can come after me!"

Lin Yi said as he shot out, his speed several times faster than before.

Their vision blurred, and Lin Yi was already halfway there.

Chris, who was about to use her ability to speed up, jumped-she didn't expect Lin Yi to be able to move so fast in this environment!

"Stop!"

Lin Yi shouted before he even arrived.

However, the two sides of the battle did not pay attention to them and continued to fight!

Not only that, but the three from kirrlutz increased their attack range when they saw Lin Yi charging at them, trying to cover Lin Yi as well!

Lin Yi's lips curled up into a cold smile.

'You really don't know death!'

Originally, for Chris's sake, he had wanted to separate the two of them and ask them about the cause and effect before deciding what to do.

Unfortunately, these three guys who had obtained superpowers were too arrogant and couldn't even tell who they could offend. They could only be said to be courting death!

One of the Espers obtained the power of lightning, and the lightning arcs were freely released, which became the main force to suppress the Four Knights in the water.

When Lin Yi arrived, the first thing he received was a lightning arc!

"Ha ... You can control lightning? He's really showing off his skills before an expert!"

Lin Yi laughed in disdain and grabbed the lightning arc with his hand. The lightning arc was caught in his palm without any resistance.

With a light squeeze of his fingers, the lightning bolts shattered and disappeared, not affecting Lin Yi at all!

"It's impolite not to return the favor! I'll give you a lightning bolt too!"

Lin Yi's Qi circulated and quickly formed a lightning arc with the lowest power, throwing it at the lightning Esper.

In the end, this guy didn't even have time to react. In an instant, this kirrlutz townsfolk who had just awakened his lightning power was struck to death by a powerful lightning arc that he couldn't understand at all!

Not only that, after the lightning arcs on his body wreaked havoc, they jumped and flickered as they shot at the other two kirrlutz residents.

Chapter 7523

One of them had fire power and the other had wind power. Their power was multiplied when they worked together, so they were a little arrogant and didn't want to fall behind when they attacked Lin Yi. Now, they naturally suffered Lin Yi's revenge!

Even though Lin Yi had tried to control them, one lightning arc still easily killed three of them, not a single one of them escaped!

The Four Knights were no longer a threat, and they were supposed to stop and express their gratitude to Lin Yi, but they didn't even say a word before the boat of friendship capsized, and they started attacking each other.

They were clearly comrades in the same boat a second ago, but in the next second, they had turned hostile and ruthlessly stabbed each other.

Even Lin Yi didn't expect this to happen ...

In the blink of an eye, the two of them died together. One of them was already injured, so his attack speed was slightly slower and he was killed by his opponent first.

Out of the four survivors, there was only one left!

"What's wrong with you? Why are they killing each other?"

Lin Yi frowned, "don't even think about hitting me again. You'll die a worse death!"

The last one left was a member of the Gaia Knights. His sword fell from his hand and he sat on the ground powerlessly, looking a little lost.

Morris and the other three sped up to catch up, and they were secretly shocked when they saw this scene.

Kris, on the other hand, glared at Lin Yi. "Why did you kill them? He could have made them stop! In the end, they all died!"

"They attacked me, so of course I would retaliate. Do I have to stand still and let them kill me?"

Lin Yi glanced at her and warned, "Anyone who is hostile to me and wants to kill me, I will definitely treat them as my enemy and kill them without mercy. If you have any opinions, you'd better keep them in your heart!"

Kris was furious. She wanted to teach Lin Yi a lesson, but she knew that she was no match for him!

And if he did, Lin Yi would recognize him as an enemy, and he'd kill him without hesitation, right?

Thinking of this, Chris could only swallow her anger and temporarily retreat to the side.

Morris didn't care about the conflict between Lin Yi and Kris, but rushed to the other survivor's side, "Ludi! Are you alright? What happened? why are you like this?"

"Crazy ... Everyone's crazy!"

Ludi's eyes were a little unfocused. After Morris shook him a few times, he became slightly more clear-headed. "This place can grant people superpowers, and killing people has a high chance of obtaining superpowers ..."

At this point, Ludi's expression suddenly changed. He suddenly grabbed the long sword beside his hand and swept it towards Morris.

Fortunately, Morris' strength was much higher than Ludi's. He blocked with his arm and dodged to open up a distance, so he was not injured!

"Ludi, what are you doing? Are you crazy too?"

"That's right! I'm crazy! Are you trying to kill me and get your powers?"

Ludi used both his hands and feet to crawl back quickly, raising his sword and pointing it at Lin Yi and the others. "You all want to kill me, right? I'm telling you! Don't even think about it!"

"Ludi, calm down. We didn't have any ill intentions towards you. It was our people who saved you just now. What's going on?"

Morris suppressed the anger in his heart and tried to persuade Ludi, "We don't know anything about the situation. Can you be quiet? Don't worry, we won't hurt you!"

Ludi's expression was a little crazed, but he relaxed a little when Lin Yi and the others didn't do anything.

"You're saying that killing people will give you superpowers? What kind of power did you get?"

Lin Yi glanced at the body on the ground and asked indifferently, ""After you guys killed each other, I don't think any of you are particularly powerful or have used any amazing abilities!"

Ludi fell silent, looking at Lin Yi with fear in his eyes.

He probably remembered Lin Yi's brutal performance just now.

"They ... They didn't even have time to use all their powers before they were killed by you!"

After a moment of silence, Ludi finally opened his mouth and said, ""Actually, the three people you killed all had at least three superpowers. If they used all of their powers, you might not be able to kill them so easily!"

"Who was the one who said that one could obtain powers by killing? And who was the first one to start killing?"

Lin Yi continued to ask, not giving much thought to the explosive power of the three powers.

"A kirrlutz native first mentioned this, and he was the first person he killed!"

Ludi's fear of Lin Yi was deep in his bones, and he didn't dare to disobey, "When we first entered, we split up. Just like you guys, we formed a small team of five."

"Later on, our team met with the other two teams. Although we were not from the same Knight order, we did not draw our swords against each other. Instead, we discussed temporarily working together and finding our own people before we talk about other things."

"I didn't expect the native to suddenly shout that he could obtain more superpowers. Then, he killed the people around him and completed an instant kill without his opponent's warning!"

"The one who died was a member of the Gaia Knights. Of course, we can't just let it go. But before we could do anything, the other townspeople used their powers to attack all the non-townspeople. The guy who killed the first really did use a second power!"

Ludi said all this in one breath, and his face was already filled with fear.

It was obvious that recalling the scene at that time had caused him to fall into panic.

"After we proved that killing people can give us superpowers, not only did the townspeople go crazy, but we, who should have been United, also started to think! Since we're not members of the same Knight order, someone suddenly launched a sneak attack during the battle ..."

Lin Yi was speechless-these guys were asking for it!

If they could cooperate sincerely and take care of the Espers in kirrlutz with the advantage of numbers, the future development would be completely different.

After all, among the three teams, kirrlutz had the least number of people. Even if they had superpowers, they were no match for the more powerful Knights.

However, these silly Knights had greedy thoughts in their hearts and even stabbed their companions in the back during the battle!

In this way, not only did everyone have to face the enemy, but they also had to guard against their companions, so their combat effectiveness was naturally greatly reduced.

"Are there any people from kirrlutz among you? Hurry up and kill them!"

Ludi's long-winded speech came to an end. Suddenly, he changed the topic, and his eyes fell on Chris like sharp blades!

Chapter 7524

After staying in kirrlutz for many days, Ludi naturally knew who the natives were and who the adventurers were.

Chris's face turned pale. She panicked and didn't know what to say.

Once the seed of doubt was planted, it would quickly take root and sprout no matter what was done!

Even if Lin Yi wasn't included in the equation, Morris and Mike, who also had superpowers, were more than enough to take her down!

"Quickly kill her! People from kirrlutz are all lunatics! They claim to be the descendants of the sea serpent King, and are people favored by the sea serpent King. They want to kill all of us outsiders!"

Ludi continued to encourage Chris to kill, and his emotions became more and more agitated.

"President Morris, let him calm down!"

Lin Yi frowned as he spoke indifferently to Morris. He turned to Chris, "Don't worry, as long as you still consider yourself a member of our team, we won't do anything to you! And if you dare to lay your hands on us, I don't need to say what the consequences will be!"

Chris's pretty face turned pale, and she quickly nodded to show that she understood!

What were the consequences of reaching out to Lin Yi? The corpses of the three kirrlutz natives were a good explanation for everything!

Morris obediently went to comfort Ludi. Mike and Serena looked at each other and felt more or less relieved.

To be honest, Ludi's words had a huge impact on them. For a moment, they even felt that everyone was in danger.

It was as if the person beside him would launch a sneak attack at any moment!

Fortunately, Lin Yi was there to back them up. He comforted Chris easily, and Mike and Serena were completely at ease.

"Eh? Eighth brother, look, why are the corpses melting?"

Mike had just heaved a sigh of relief when he accidentally saw the changes in the body not far away. He was suddenly shocked and became nervous again.

The others were startled by the Mike and looked in the direction of the corpse. Their faces turned pale and they subconsciously took a few steps back.

Such a strange situation was beyond their mental tolerance.

The unknown danger was always the most terrifying!

No one knew if what happened to the dead body would also happen to a living person.

No one would be able to bear watching those corpses slowly melt away!

Lin Yi was shocked at first as well, but after scanning with his spirit sense, he found the secret!

It turned out that there were many tiny creatures devouring the corpses!

As the microorganisms were too small to be seen with the naked eye, they looked like they were slowly disappearing in the eyes of others. It was a strange and unpredictable sight!

There were even more tiny creatures gathering in this area, and Lin Yi could tell with his spirit sense that their target was the people who had just died!

In the blink of an eye, the corpses were devoured and completely disappeared. The densely packed tiny creatures quickly wandered to other places, not attacking the living.

Lin Yi sighed in relief. He didn't know what these were, but it was fine as long as they weren't harmful.

"President Morris, Mr. Ling, shall we leave this place first?"

Chris's face was pale as she watched the corpse disappear. It was as if there was an invisible monster hiding beside her, staring at her. She was shocked beyond words.

Morris "scalp was numb as he looked around warily. He whispered to Lin Yi, "Mr. Ling, shall we go? Let's go find the others first. "

For this operation, almost all the elite Knights of the Sword of sanctions had come, so Morris was worried that they would also encounter trouble. God knows if they would be killed by those lunatics.

The danger level of this place had clearly exceeded his expectations. If he had known it would be so dangerous, he would not have come.

However, it was useless to think about this now. He could only think of a way to gather his own people.

"Don't worry, the disappearance of corpses might be a unique phenomenon in this place. It shouldn't affect the living!"

Lin Yi didn't go into too much detail, only consoling them.

Morris' expression became better after hearing this. He quickly called for the others, including Ludi, to leave quickly.

Ludi's expression became calm again. He held the sword in his hand and walked towards Morris with his head lowered.

He looked normal at the moment, but when he got close to Chris, he suddenly raised his head and drew his sword. His face instantly twisted and became extremely ferocious!

"Go to hell! You demons!"

With a loud shout, Ludi's longsword stabbed towards Chris like lightning.

Although the uneasy Chris was on guard against Ludi, she still lacked some combat experience.

At the moment of life and death, she actually stood there with her mouth wide open. She didn't know how to deal with it. Even if she had obtained a superpower, she didn't have the consciousness to use it!

"Ludi!"

Morris was shocked and subconsciously wanted to stop him.

However, he didn't expect Rudi to burst out with such astonishing combat speed. Morris had just raised his hand when the tip of Rudi's longsword had already pierced Chris's chest.

Lin Yi hmphed coldly as he saw that Rudy was about to kill Kris. He casually sent a lightning arc over and killed Rudy instantly.

The long sword finally stopped in front of Chris, but it couldn't go any further.

Everyone was stunned and couldn't react in time as they looked at Lin Yi and the dead Ludi.

Finally, it was Kris who came back to her senses first and bowed to Lin Yi in gratitude. "Thank you, Mr. Ling, for saving me. I'm very grateful!"

"You're welcome. You're now a companion of our team. As long as you don't betray the team, I have the obligation to protect you! If he dares to attack you, it's the same as provoking me. He deserves to die!"

Lin Yi said with a wave of his hand.

Ludi's mental state had some problems before, and leaving him alive was also an unstable factor. It was better to kill him directly to prevent any more trouble later on.

"Eighth brother, you also obtained a superpower?!"

Mike suddenly reacted and cried out, ""You just used lightning to kill those three kirrlutz townspeople. I was too shocked to react at that time, but after thinking about it carefully ..."

After Mike said that, the few of them who were still in a state of anxiety finally realized this fact!

He had actually ignored the past!

"Mr. Ling, this is great! So you're also someone favored by the sea serpent King!"

Morris quickly congratulated Lin Yi, his eyes full of envy.

As for the dead Ludi, he couldn't be bothered with him!

"No... I originally had the ability to control lightning! The sea serpent King doesn't care about me!"

Lin Yi shook his head. How could the king of the sea serpent in the secular world be compared to the ancient electric eel?

Chapter 7525

Even if he could, Lin Yi didn't want it to happen.

"So that's how it is! Mr. Ling, you're indeed a man of deep secrets ..."

Morris did not suspect anything. He sighed slightly and then stopped talking.

That was because Ludi's body also started to disappear rapidly without any warning.

Fortunately, the few of them had already seen this scene before, so they did not panic too much.

Lin Yi's spirit sense saw everything clearly-the minute creatures gathered back at the same time Ludi died, quickly devouring the body, not even leaving a bone.

As expected, the world was full of wonders. He wondered what these things were!

Without Ludi, they returned to their original five-man team. After moving forward for a while, two giant seahorses suddenly appeared in the distance.

On the back of the seahorses, there was a man riding on each of them. From the looks of it, they were actually treating the two seahorses as mounts.

The seahorse's speed was pushed to its limits in this environment, and it only took a dozen seconds for the two to appear in front of Lin Yi and the others.

"Chris, did you get a superpower?"

Both of them were happy to see Chris, but their gazes towards Lin Yi and the others were a little hard to read.

"Brosnan, Fernandes!"

Chris was both surprised and happy to see the two. She was happy that she had met two citizens of kirrlutz, but she was surprised by their attitude!

From the way they looked at Lin Yi's group, it was clear that they didn't have good intentions. They were probably thinking about how to make a move on Lin Yi's group.

"Come here, I'll introduce you to a few friends!"

Chris was anxious. She quickly called the two of them, afraid that they wouldn't be able to help themselves!

It didn't matter what kind of powers they had, because in her heart, Lin Yi was already the synonym of invincibility!

No matter what Bruce and Bruce were capable of, they couldn't touch Lin Yi!

"Hahaha! Chris, you might not know this, but these waters are actually a paradise for us kirrlutz townspeople. Here, I can deal with others as I please, and then use their lives in exchange for the reward of the Lord Kraken King!"

Bruce laughed out loud and pointed at Lin Yi and the others. "These people are not worthy of being our friends. They can only be considered prey!"

"Cut the crap. Kill them first and leave one for Chris to practice with!"

Fernandes laughed as well. He urged his seahorse and charged at Lin Yi and Morris.

A ball of fire exploded in the water before he even reached them, completely unaffected by the water. It enveloped the four of them like a shield.

At the center of the fire, there were countless icicles hidden. Lin Yi wouldn't be able to see them with his naked eyes if his spirit wasn't strong enough.

Obviously, Fernandes had used two superpowers, Ice and Fire, which were the opposite of each other!

"Don 't! It was Fernandes! Stop!"

Chris was so anxious that she shouted with all her might to stop him. Because she used too much force, her soft voice cracked!

Brosnan and Fernandes were still laughing wildly, thinking that Chris was trying to plead for Lin Yi and the others.

But in fact, Chris was completely worried about them!

What would happen to them if they hit Lin Yi?

Those who sought death were reduced to ashes!

"Chris, don't worry. After you kill someone and obtain the new ability given to you by the sea serpent King, you'll fall in love with the thrill of killing!"

Bruce was a little behind, but he was still in the mood to talk to Chris.

Lin Yi's lips curled into a cold smile. Did these two think that they could do whatever they wanted in this special space just because they had more than one power?

What a joke!

You're getting cocky just because you killed a few noobs and weak chickens!

A lightning arc tore through the flames and icicles like a sharp sword, and it stabbed Fernandes!

Chris's face instantly turned pale.

Seeing this scene, they would naturally think of the scene they had just seen and urge Ling-zero-eight to make a move!

No one had survived the lightning bolts!

Fernandes was also shocked. When he found that the flames and icicles could not resist the lightning arc at all, he subconsciously took evasive actions.

Normally, even if Fernandes was prepared, he wouldn't be able to Dodge Lin Yi's lightning arc attack because they weren't even on the same level.

Fortunately, Fernandes was lucky today. Although the flames and icicles did not block the lightning arc, they delayed it for a moment.

As Fernandes dodged instinctively, he also pulled the seahorse under him so that the huge seahorse blocked his body completely.

Lin Yi didn't use his full strength, so the lightning bolt struck the seahorse's head and extended to its entire body.

In an instant, the seahorse's body was covered in tiny lightning arcs.

Fernandes was scared out of his wits. He subconsciously formed a layer of frost in front of his body and moved away from the seahorse immediately!

Lin Yi was a little surprised. The people of Kirrlutz were all normal people before they got their powers, so their bodies weren't that strong even after getting them.

But this Fernandes in front of him was also a heaven rank master, and with the help of his power, he clearly had the strength of the Foundation Stage!

However, Bruce, who was talking to Chris, wasn't so lucky.

The kid thought that Fernandes would be enough to crush Lin Yi and the others, so he put most of his attention on talking to Chris.

What he didn't expect was that after Lin Yi's lightning killed Fernandes' seahorse, the lightning didn't die down, but turned around and came at him!

It was so fast that Bruce could not react at all!

The bright lightning arc landed directly on Bruce's head, and a powerful electric current instantly surged through his body, destroying all the functions and tissues in his body without restraint.

By the time Brosnan reacted, his life had also come to an end!

"Brosnan!"

Fernandes had just escaped from danger when he saw his companion being killed in one blow. He was so scared that he raised his hand and several layers of ice crystal defense appeared in front of him.

"Wuwu!"

Fernandes let out a roar, and Bruce's giant seahorse quickly approached Fernandes.

Lin Yi raised an eyebrow, curious. This guy even had the ability to command sea beasts?

With Lin Yi's eyes, it wasn't hard to tell that these two giant seahorses were the lowest level sea beasts. They weren't strong, only half a step into Foundation.

Chapter 7526

However, there were no sea beasts in the ocean of the secular world. Could it be that the space they were in was no longer in the secular world?

This nine-story glazed Pagoda was actually connected to another plane?

He just didn't know which Sea area this place was connected to and how powerful the strongest sea beasts were.

"Mr. Ling! Please show mercy!"

Kris was afraid that Lin Yi would continue to attack her, so she quickly interceded.

Lin Yi glanced at Kris indifferently, his face neither happy nor sad. "Then I'll spare this guy's life for now!"

"Mr. Ling, although Fernandes attacked you, he was obviously blinded by the benefits ... Huh? Let him off?"

Chris was about to continue persuading him, but she didn't expect that she would have such a big influence.

However, Chris immediately turned to Fernandes and said, "Fernandes, Mr. Ling has promised to spare your life. Why don't you come over and apologize to Mr. Ling and express your deepest gratitude? Do you really think that with your puny powers, you can go against Mr. Ling?"

Seeing that Fernandes was still hiding behind the ice crystal defense layer, Chris suddenly became anxious.

Ling-zero-eight didn't look like a patient person. If Fernandes didn't seize the opportunity to surrender, it would be too late for him to cry if he changed his mind!

"Fernandes, what are you still thinking about? Hurry up and come over!"

Kris observed Lin Yi's expression carefully before scolding him, "Don't even think about resisting or running away. If Mr. Ling wants to kill you, it'll be as easy as killing a seahorse!"

Lin Yi maintained his calm expression as he looked at Fernandes and the giant seahorse.

Lin Yi didn't want to waste time talking to this idiot if he didn't want a confession.

Fernández's face was full of fear and hesitation. He looked at Lin Yi and then at Kris, as if weighing the pros and cons in his mind. After a while, he said, ""Chris, can you guarantee that he won't kill me? He wouldn't do anything to me!"

Kris couldn't help but roll her eyes. What guarantee can I make?

If you still don't come over, I can guarantee that Ling-zero eight will definitely kill you, you idiot!

Chris didn't need to say anything-Lin Yi was already getting impatient."Do you think you still have the right to bargain? I'll give you three seconds. If you don't surrender, you'll die!"

With that, Lin Yi raised three fingers and pulled one back!

Three!

Two!

First ...

When the last finger was about to be pulled back, Fernandes's mental defense finally collapsed. He removed all his defenses, raised his hands, and shouted, "I surrender! Don't kill me! I surrender!"

Lin Yi's lightning bolts had already scared Fernandes out of his wits. The ice crystal barrier only made him feel a little safer, but his rationality told him that these things couldn't withstand the lightning bolts at all!

In front of the lightning bolts, they would definitely not be able to withstand a single blow.

As for riding the seahorse to escape ... If it was any other enemy, they might be able to try. After all, the seahorse's speed could be displayed to its maximum in this environment.

However, he didn't even dare to think about running away from Lin Yi.

No matter how fast the seahorse was, could it be faster than lightning?

Chris heaved a sigh of relief. There weren't many people in kirrlutz, and most of them knew each other. She didn't want to let these acquaintances die.

Bruce, Fernandes, and the ones Lin Yi had killed before were all on good terms with Kris. It was good to keep one alive.

"Mr. Ling, Fernandes has surrendered. Please spare him!"

Kris had a fawning smile on her face as she moved closer to Lin Yi, "Let him atone for his crime. I believe that he will sincerely serve Mr. Ling and President Morris! Don't you think so, Serena?"

Since she didn't know Lin Yi's personality, she decided to get Serena to help.

In the past few days, she had become very close to Serena.

"Um ... Mr. Ling, we don't have enough people. It's good to have one more helper, right?"

Serena's heart felt a little guilty as she thought to herself, 'I don't have a good relationship with Ling-zero-eight ... In fact, I was also a captive of this pervert!'

However, because of her best friend's feelings, she could only reluctantly open her mouth to help, ""With Chris's guarantee, this person probably won't have any problems. Besides, even if he did, he wouldn't be able to cause any trouble."

Lin Yi's lips curled up as he waved his hand. "Since I didn't kill him, he can be considered to have kept his life! But whether or not he'll be fine will depend on whether he's honest or not!"

"Be honest, be honest! I'll definitely be honest!"

Fernandes was already walking slowly towards them, and he started nodding like a chicken after hearing Lin Yi's words. "If there's anything you need, Mr. Ling, I'll do my best!"

"Tell me first, do you know what's going on?"

Lin Yi lifted his chin slightly, signaling for Fernandes to look at Bruce's body. "Don't tell me that you've never seen it or know about it. If you're lying, I won't give you a second chance!"

Fernandes trembled a little at his words. He quickly bowed and smiled apologetically, ""I don't dare, I don't dare, I'll definitely tell you everything I know!"

Looking back at Bruce's rapidly melting body, Fernandes's eyes darkened. After all, he was once a companion of his, and it would not feel good to watch Bruce's body disappear.

"Mr Ling, to be honest, I really don't know why the body would melt so quickly here. Maybe it's a trap set up by the sea serpent King ... Look over there, even the seahorse's body is the same. It's not only human."

Fernandes was referring to his Mount, the seahorse. It was killed by one of Lin Yi's lightning bolts, and was melting away like Bruce.

Lin Yi's spirit sense told him that it was the tiny creatures that were devouring the bodies, but the others couldn't tell with their eyes. They thought that the bodies were disappearing on their own.

Lin Yi asked Fernandes because he thought that Fernandes could control sea beasts, so he might know what those tiny creatures were and whether they were considered a type of sea beast.

But now it seemed that Fernandes was not too sure.

"Alright, it seems like you're not clear either!"

Lin Yi looked into Fernandes "eyes for a while before nodding."Then forget it, let's change the topic."

Fernandes secretly wiped away his cold sweat and felt a little relieved.

Lin Yi's stare was too much pressure!

It was a good thing that he really didn't know. If he had known and deliberately concealed it, he might have collapsed under such huge pressure!

"Please speak, Mr. Ling!"

Fernandes quickly listened.

Chapter 7527

"How did you control the sea beasts? it's those two giant seahorses! Is it also an ability that I obtained?"

Lin Yi knew that the Sky Class island's spirit beasts could be tamed, but he'd never heard of a sea beast that could be controlled.

Fernandes scratched his head, as if he did not know where to start, but he did not dare to neglect it. He thought for a long time before he said,

"Mr. Ling ... I can't really say much about this. If you want to call this a mid-grade superpower, then it's not quite the same as other superpowers!"

"It's not a superpower, but its effect is similar to one! Mr. Ling can also control lightning, so he should also be favored by the sea serpent King, right? Then, Mr. Ling should be able to feel it. When you obtain an ability, your body will feel like it has an additional surge of power that you want to release. "

"Then, the overview of this power will naturally appear in your mind and guide you to successfully activate the power once. However, there was nothing wrong with controlling the seahorses until we saw the seahorses and saw that they were very docile. Then, we realized that we could easily command and control them!"

Lin Yi blinked-there was such a thing?

Was this a sudden awakening of his own ability?

Or is it a bonus gift after obtaining more than one superpower?

Fernandes didn't seem to be lying, and Lin Yi felt helpless. It was the same as not asking!

"Other than this, what else do you know? just tell me!"

Lin Yi didn't think too much about controlling sea beasts. He'd keep Fernandes with him so that he could have him demonstrate how to control sea beasts the next time they met.

Fernandes scratched his head subconsciously, wondering if he should tell Lin Yi everything he knew. He then met Lin Yi's cold eyes.

He would not have another chance to lie!

These were Lin Yi's words, and they resonated in Fernandes' ears, shaking him.

Under Lin Yi's stare, Fernandes' back was covered in cold sweat, and he no longer had any other thoughts.

"Yes, Mr. Ling. Don't worry. I will tell you everything I know!"

In fact, Lin Yi didn't do anything at all. It was just that the difference in strength between the two was like heaven and earth, especially in terms of soul. Lin Yi's soul compared to Fernandes' was like the difference between heaven and earth.

As far as Fernandes was concerned, Lin Yi's eyes were like the eyes of truth that could see through everything. Lying under those eyes was more than just a mountain of pressure.

"Mr Ling, when we first arrived here, we were still suspecting if we had entered the nine-story glazed Pagoda. Later on, we confirmed that this is the first floor of the nine-story glazed Pagoda!"

As he spoke, Fernandes reached into his chest pocket and took out a necklace made of small white shells. The pendant of the necklace was a Black Pearl."Mr. Ling, please take a look. This is something I obtained after I entered."

Lin Yi was a little confused-they were talking about the first level, why did she pull out a necklace?

Could it be related to the nine-layered glazed Pagoda?

Lin Yi didn't think much of it when Fernandes took off the shell necklace and handed it to him with both hands.

"Mr. Ling, please hold the Black Pearl in your palm. Some of the information inside will automatically appear in your mind. It will be much more direct and clear than me explaining it!"

Fernandes smiled as he explained the use of the necklace.

Lin Yi held the Black Pearl tightly in his hand, and some information appeared in his mind.

The general meaning was that the area they were in now was the first floor of the nine-story glazed Pagoda. It had magical power and could grant some superpowers to those favored by the sea serpent King.

Other than bestowment, there were two other ways to obtain superpowers. One was to Rob each other of their superpowers.

The other method was to kill the invader and use it as a merit to receive an additional reward from the sea serpent King!

The so-called intruders, naturally, were people like Lin Yi and Morris who weren't the king's favored!

To put it bluntly, if you want to obtain more superpowers, you just have to kill without any restraint. No matter who you kill, you can obtain superpowers!

The people of kirrlutz still had a bottom line, and they hadn't started a fight yet, at least for now.

However, after all the invaders in name were dead, it was hard to say if there would be any internal conflicts!

Other than that, there was another piece of information that was more important. Ten hours after the first level's opening, the entrance to the second level would be activated!

However, this entrance was relatively hidden, and he would need to spend some time and effort to find it.

If no one found it within ten hours after the second level's passageway was activated, the passageway would be closed again.

This was not the main point. The main point was that after the entrance passage to the second floor was closed, the first floor space would be in cleaning mode!

Any foreign life, regardless of whether they were the sea serpent King's favored, would be listed as a target.

Lin Yi was shocked-he didn't think there'd be such a danger!

If he didn't know about this, he would have been able to wander around the first level for 20 hours without even knowing how he died!

Of course, Lin Yi himself wasn't afraid of the first floor's cleaning mode. After all, even if the sea serpent King came out personally, he might not be able to do anything to him.

But other than Lin Yi, the people around him would probably all die!

"Fernandes, you already know the information inside, right?"

Lin Yi said indifferently as he tossed the necklace back. "Other than this necklace, is there anything else that can give me information?"

There wasn't much information in the necklace, but it was very important!

Lin Yi could tell that the Black Pearl was the explanation for the first layer, but it wasn't comprehensive enough.

Therefore, there should be something similar in addition to this necklace!

"Of course I know everything inside, but Bruce and I only found the necklace! We also wanted to look for other things, but unfortunately, we didn't find any clues. "

Fernandes was surprised. He didn't think that Lin Yi would return the necklace. He thought that Lin Yi would take it away.

"In that case, you don't know where the entrance to the second level is either?"

Lin Yi frowned as he did some mental calculations. It seemed like he hadn't been in here for long-the second floor shouldn't be activated yet.

"I don't think there's a need to hurry ... Since the entrance hasn't been activated yet, I can't find it even if I wanted to. I might as well hurry ..."

Fernandes felt a little embarrassed as he smiled.

Chapter 7528

Lin Yi understood-this guy meant that the time before the activation was the Killing Time!

This was the time that the sea serpent King had specially left for his favored to increase their strength!

In the 10 hours before the second level's entrance is activated, kill as many people as you can and obtain as many superpowers as you can. After 10 hours, it's time to find the entrance!

"Mr. Ling, I'll do whatever you tell me to do next. I won't beat around the bush when you point to the East, and I won't fish when you tell me to chase the seahorse! However, it's still early, and I can't find the entrance even if I want to ..."

Fernandes's eyes flickered, implying that he wanted Lin Yi to bring him to continue killing people for abilities.

Now, Fernandes didn't feel that there was anything wrong with surrendering to Lin Yi. With such a strong person with him, killing people would be much easier!

Fernandes thought that Lin Yi got his power from the lightning arc he just used.

Lin Yi wasn't from Kirrlutz, so he wasn't The Kraken King's favorite. The lightning could only be a power he got after killing someone!

In that case, he would definitely continue to kill people and obtain more superpowers.

Fernandes gave the Black Pearl to Lin Yi so easily, so he must have thought about this!

"Mr. Ling, let's go and find our people as soon as possible! If this drags on, I'm afraid they'll all be in danger!"

Morris was deeply worried. The members who had followed them in were all the elite backbone of the Association. If they were all slaughtered, the sword of sanctions would be destroyed.

In order to develop the power of the Knight Association, Morris had already publicly recruited trainee Knights. If all the elite backbones were dead, what use would trainee Knights be?

"Let's go! We'll continue in that direction. Before the second floor's entrance is activated, we need to at least get a rough idea of the first floor's area and terrain. "

Lin Yi nodded, trying to comfort him. "You don't have to worry too much. When the others come in, they should also form small teams. They're all on the same side, so it won't be a problem for them to take care of each other. They might not encounter any danger in a short time."

Morris subconsciously glanced at Chris. He wanted to say that not all the teams were on their own. At least one of the five-man teams had an outsider who would mock him!

Judging from the situation they had encountered before, the kirrlutz townspeople hired by the other Knights had basically all turned their backs on them after obtaining the ability!

Would he be an exception?

Kris didn't have the chance to do so. Not to mention the God Lin Yi, Morris 'strength alone was enough to deal with her.

Besides, Mike had also obtained superpowers. With his own strength, he could also defeat Chris, so they didn't turn against each other.

"President Morris, what old eighth said makes sense. Don't worry now, let's hurry and set off!"

Mike also tried to persuade him, and then turned to fernÃ¡ndez. ""Where did you get these seahorses? Can you get us a few more to ride?"

If he had a seahorse as a means of walking, his movement speed would definitely be several times faster than his own. Mike felt that Fernandes 'ability could be used.

After all, Mike was also a member of the ruling Sword Knight Association. He was also concerned about the life and death of his companions!

Lin Yi thought that it made sense. He could be very fast, but the others couldn't. If they could move as a whole, the benefits were obvious.

Fernandes didn't want to talk to Mike at first. Lin Yi was the only one he respected here, so who was Mike?

But after seeing Lin Yi's concerned eyes, Fernandes immediately bowed. ""This kind of seahorse appeared about four kilometers in that direction. There was a group of about ten to twenty of them. Bruce and I only caught two for transportation. I don't know if the others are still there!"

"Let's go and take a look!"

Once Lin Yi opened his mouth, it was settled!

Without saying anything, Fernandes led the team in the direction he said. As for Bruce's seahorse, it was not his turn to use it.

If it was decided based on strength, the only seahorse at the moment should be given to Lin Yi, of course, but he didn't want it, letting the two girls sit on it.

The group moved at full speed, and four kilometers didn't take much time. They soon arrived at the place Fernandes mentioned.

But when they arrived, there were no traces of the seahorses. Clearly, the remaining seahorses had left long ago.

"Mr. Ling, the seahorse is missing ... But I might be able to try and get the seahorse to find its clan!"

Fernandes couldn't help but feel a little nervous after failing his first time working for Lin Yi.

Therefore, in a moment of desperation, he thought of this method: "I can't guarantee that I'll succeed. I can only try my best."

"Sure, then let's try!"

Lin Yi nodded.

With Lin Yi's permission, Fernandes approached the seahorse and let out a low whistle. This was probably the method he used to control and communicate with the seahorse.

Lin Yi was a little surprised-he'd just mastered something like this without any reason, and it was even more interesting than suddenly getting a power!

The seahorse tilted its head and listened to Fernandes's roar. It was unclear if it understood or not, but it rushed in one direction.

"Mr. Ling, there seems to be a door. Let's hurry and follow it!"

Fernandes was overjoyed as he quickly turned to Lin Yi. "As long as we find a group of seahorses, I will definitely pick the best seahorse for Mr. Ling to ride on!"

"Ha ... Thank you!"

Lin Yi replied noncommittally and brought the others to follow seahorse.

He followed the seahorse for another kilometer, and his spirit sense finally found traces of other people!

It was a team from the sword of sanctions Knight Association!

It wasn't really appropriate to call them a team-the two bodies were disappearing when Lin Yi found them, and there was only one member of the sword of sanctions left, along with aedanpolo!

Their opponents were seven other Knight regiments.

From the looks of it, they seemed to be toying with adianpolo and the other person!

Otherwise, with the seven of them working together, dealing with the two from ruling sword would be a piece of cake.

"I've found him!"

Lin Yi activated the thousand changes of wood forest and created a clone as soon as he spoke. "Come over quickly, I'll go take a look first!"

Before he could finish his sentence, he activated his lightning movement and disappeared into the distance.

The people who were left behind looked at each other and were stunned.

What kind of superpower was that?

How did it suddenly become two Ling-zero-eights?

Chapter 7529

Was it the fission ability? Or was it an illusion ability?

Morris and the others wanted to ask about Lin Yi's doppelganger, but they didn't dare to, afraid that they'd get information they shouldn't have.

Fernandes, on the other hand, was in even more fear. He praised himself for surrendering just now-Lin Yi's ability to move like lightning just now ... Who could escape from this pervert?

Also, why did Ling-zero-eight get such amazing superpowers when he killed people?

Fernandes was a little upset-his Fire and Ice cones looked strong, but they were much weaker than Lin Yi's clones and lightning powers!

Even Lin Yi was shocked!

Because when he used the Thunder escape technique, he actually felt that he had turned his body into Thunder at the fourth level!

Whether it was control or speed, it was much stronger than the Thunder escape technique.

And this was under the condition that his strength had been greatly reduced, and he was far from being able to compare with his previous peak level!

He had already reached the fourth level of the lightning escape technique?

Before he could figure it out, Lin Yi had already appeared at the location of the battle.

The speed was so fast that even Lin Yi himself was caught off guard!

As for the people who had been toying with the sword of sanctions 'Knight, they suddenly saw a flash of lightning.

Then, there was one more person in the field, and they were all shocked!

"Who are you?"

What a cliché opening ... Lin Yi ignored him, still thinking about the lightning escape.

The fourth level, lightning transformation, would be an immeasurable boost to Lin Yi's strength!

As the saying goes, among all the martial arts in the world, only speed can not be broken!

When the speed was fast to the extreme, being invincible among the same level was simply as easy as blowing off dust!

Lin Yi didn't even need to use any skills-he could kill anyone at the same level with just his lightning movement!

Of course, Lin Yi was already invincible among his peers, and once he reached the fourth level of the lightning movement technique, killing an opponent one level higher would be as easy as eating and drinking!

"Hey, I'm talking to you! Who was it? What do you want?"

The Knights that were attacking the two started yelling when they saw Lin Yi not moving.

But Lin Yi's appearance was too shocking, and they didn't know what to do.

"Eh ... I think I've seen this person before. He's from the ruling Sword Knight Association! They were in cahoots! Hurry up and kill him!"

Someone finally recognized Lin Yi-he'd been standing with Morris at the beach before, so it wasn't a surprise.

"Mr. Ling! Be careful!"

The only survivor from the Sword of Judgement whispered to Lin Yi, but he was glad that he was saved!

Other people might not know, but how could the members of ruling sword not know?

The new sanctuary had sent people over twice, and regardless of whether they were elite Holy soldiers, captains of Holy soldiers, or reserve Holy emissaries, they had all been killed by Mr. Ling, who was standing in front of him!

What were a few members of the inferior Knight order?

Lin Yi frowned as he scanned the noisy Knights around him. How dare they interrupt his lightning movement!

It was truly unforgivable!

"Who are they?"

Lin Yi nodded, feeling a little strange.

If the other party was a citizen of kirrlutz, it would be understandable. After all, they were at odds with the foreign Knights.

But at present, the enemies were all from other Knight regiments, and not a single one of them was from kirrlutz.

"Mr Ling, they are all from the Thunderbolt Knights. They said that we snatched the person they were going to hire because we looked down on the Thunderbolt Knights, and that's why we attacked them!"

Johnson, the only survivor of the judgement sword, explained.

At this moment, he was filled with resentment and anger as he stared at the people opposite him and said angrily, ""They were just looking for an excuse to kill! The sword of sanctions and the Thunderbolt Knights have always been on bad terms, so they will find an opportunity to attack us!"

Lin Yi suddenly understood. Not only did he interrupt his lightning movement, but he was also the old enemy of the sword of judgment.

"A bunch of ant-like things. In a place like this, they're not United against outsiders, but actually killing each other!"

"Very good, you can all die now."

Lin Yi looked at the Thunderbolt Knights coldly and turned into a lightning arc!

Of course, Lin Yi didn't need to use his lightning movement technique to deal with these ants, but he wanted to continue to understand the changes of the fourth level of his lightning movement technique. These people died with honor.

In a flash, the seven members of the lightning Knights were all dead.

However, Lin Yi didn't stop using lightning escape. He continued to flash around.

To transform one's body into lightning was to turn oneself into a true bolt of lightning, a true bolt of lightning!

Lin Yi could feel that he had indeed become a lightning bolt.

This was in line with the profound meaning of the fourth level of the lightning escape technique, but he felt that something was not right ...

After a while, Lin Yi suddenly realized that he was now in the form of his Yuan Shen and had turned into lightning. It was similar to merging with lightning, but it wasn't the true fourth level of the lightning escape technique!

If he was in his physical form, he probably wouldn't be able to transform into lightning!

It was a little complicated, but it was actually very simple. When Lin Yi was in his essence spirit state, he could turn into lightning and use the fourth level of the lightning escape technique, turning his body into lightning!

This wasn't because Lin Yi had mastered the fourth level of the lightning escape technique, so he couldn't turn his body into lightning in his physical state!

The primordial spirit could turn into lightning, so it could activate the body to turn into lightning. The physical body could not turn into lightning, so it could not be activated ...

Lin Yi didn't know what was going on-what was happening?

Why could his primordial spirit turn into real thunder and lightning? was it because he had killed someone and was rewarded by the sea serpent King?

Beside them, Johnson and aristocrat were even more confused. Lin Yi had turned into lightning and was flashing around in a small area. There were even crackling sounds from time to time. They were so scared that they didn't dare to move!

They were afraid that if they accidentally touched it, it would be a tragedy!

Didn't you see how the few unlucky ones from the Thunderbolt Knights died the moment you touched them?

Lin Yi dodged for a while and suddenly had an idea. He wanted to turn his essence spirit into water.

Although he didn't know the water escape technique, it didn't seem impossible since he had a water spiritual root!

And so, the lightning disappeared, and so did Lin Yi, leaving only Johnson and Adien with their mouths wide open. They didn't understand what was going on.

"Mr. Ling ... Mr. Ling?"

Johnson tried to call out, but he didn't get a response. He panicked and raised his voice, ""Mr. Ling! Mr. Ling, where are you? Please answer if you can hear me!"

Chapter 7530

He looked around and didn't find anything, so he shouted after Johnson.

Lin Yi was standing right in front of them, and he was both surprised and happy-his guess was right!

His primordial spirit had indeed turned into a state of water!

The first level of the nine-story glazed Pagoda was filled with water. To put it bluntly, everyone moved in the water. It was only because of the nine-story glazed Pagoda's uniqueness that people could move freely. They even had no problem talking, breathing, and moving.

However, after the primordial spirit turned into water, it was as if it had used the most top-notch water escape technique and completely blended into the water. It would be strange if it could still be discovered by others!

Lin Yi didn't understand how his spirit was able to do this-was this also a gift from The Kraken King?

It seemed that there was something strange about this nine-story glazed Pagoda!

It was more than one or two levels higher than the seven-story exquisite Pagoda of the great witch of ghost Yin on the sub-Island!

If he could refine it and make it his own, this trip would not be in vain!

Unfortunately, Lin Yi could only think about it-he couldn't even touch a treasure like this unless he was lucky enough to know the core secrets.

Even great witch Luo Changle's seven-story exquisite Pagoda couldn't be refined by Chen Zhisheng, let alone a layman like Lin Yi.

"Adian Polo ... Where do you think Mr. Ling went? Why did he suddenly disappear?"

Johnson's face went pale-the body on the ground was already melting, and half of it was gone. He was worried that Lin Yi might've disappeared like the other bodies.

It wasn't that he was close to Lin Yi, but Lin Yi's strength was there for all to see. He was the entire ruling sword's backing!

If their backer fell, their future would be difficult!

Not to mention, even Lin Yi's disappearance was a mystery-what future did these people have?

"Mr. Ling is mysterious and unpredictable. Nothing will happen to him. We don't have to worry ..."

He forced a smile and comforted himself as well as Johnson!

Lin Yi wanted to try other attributes, like turning his essence spirit into fire or wind, but decided against it.

Since the primordial Spirit's ability to change had been proven, there was an 80% chance that his other attributes could also change in the future. There was no point in trying more.

Lin Yi couldn't be sure if the ability was only effective in the nine story Pagoda. He might not be able to use it outside.

"Don't worry, I'm fine!"

Lin Yi's heart moved as he revealed himself, "I was just trying out my new power! You guys don't have to worry about it!"

"So that's how it is! Mr. Ling's power is so strong, I'm so envious!"

Both Johnson and aristocrat jumped in surprise, but quickly came back to their senses and congratulated Lin Yi!

The two of them knew that killing people gave them abilities, and Lin Yi didn't need to explain much.

Speaking of which, Lin Yi was also suspicious-his spirit being able to change into different attributes, was it because he'd killed a lot of people here?

Was this an ability that was taken from others, or an ability that was rewarded by the nine-story glazed Pagoda for killing many people?

Morris and the others arrived as the three were talking, and they froze when they saw Lin Yi!

The two of them exclaimed in their hearts that Yingying's superpower was too awesome. Why didn't I get this power?

Lin Yi removed the clone just in case Fernandes attacked Mike and the others while Lin Yi wasn't around.

Johnson, where are the others?"

When Morris saw his subordinates, he quickly went forward to ask, still holding on to the thought of 'just in case', ""Did you get lost?"

"President Morris ... Ma Ge na, Sturridge, and tenapu were all killed by the people of the Thunder Knights. Only me and adianpolo were left fighting a bloody battle. If Mr. Ling didn't come in time, the two of us would have been killed and disappeared without a trace!"

Johnson lowered his head and said sadly, ""It's all because I'm not strong enough. Otherwise, I'd have cut them into a thousand pieces!"

Morris's face turned pale. He had always wanted to strengthen the sword of sanctions Knight Association. When he heard that three elite Knights had fallen, he felt as if three pieces of his flesh had been dug out.

On the other side, Chris excitedly threw herself into his arms, holding her sweetheart in her arms and crying tears of excitement!

Fernandes was also very happy with the two. With the addition of adianpolo in the team, the strength of kirrlutz would be a little stronger, and his safety would be more guaranteed. At least there would be more people to talk to!

Lin Yi didn't interrupt their conversation as he was still thinking about his newly acquired ability. Suddenly, he found a group of tiger head sharks at the edge of his senses!

These tigerhead sharks were obviously different from the ones in the secular world. There were a total of 15 of them, and each of them exuded an aura that had already reached the foundation building realm!

If it wasn't for Lin Yi, the others wouldn't even need a group of sharks to deal with a tiger head shark- they'd just need one and they'd be dead!

The seahorse that Serena was riding on seemed to have sensed the approach of the Tiger head sharks. It became restless, and its entire body started to tremble. It even let out a low neigh!

Fernandes's face changed slightly. He listened carefully and quickly said to Lin Yi, "Mr. Ling, the seahorse has sensed danger approaching! We have to move quickly!"

Lin Yi looked at the seahorse and Fernandes, surprised. He didn't expect them to have an early warning ability!

The timing of this discovery was only a little bit later than his own spiritual awareness exploration!

It seemed that in this underwater world, the suppressed divine sense might not be as useful as the sea beasts 'senses. Those tiger head sharks might have discovered this team outside the range of his divine sense!

In the future, he had to pay more attention and not completely rely on his divine sense to ensure his safety!

Fernandes, since you can control the seahorses, can you control the Tiger sharks?"

Lin Yi ignored Fernandes 'warning.

These tigerhead sharks were strong, but Lin Yi didn't think much of them. If Fernandes could control them, they'd be great mounts for these people.

One tiger head shark per person was much more impressive than one person riding a seahorse!

"I ... I don't know. I've never tried it before!"

Fernandes didn't dare to say that he couldn't do it, so he used the excuse that he didn't try it, in case Lin Yi thought he was useless and threw him away ...

At the end of the day, Fernandes still lacked a sense of security when it came to Lin Yi!

"Then let's try! Since you have such an ability, it's a good time to practice it!"

Lin Yi nodded and started thinking about how many tigerhead sharks he needed to catch. If he gave everyone one, he'd have to come back and catch more later if he found his own people. It would be better to capture all the Tiger head sharks!
