

Bodyguard 7531

Chapter 7531

Fernandes did not dare to refuse, so he could only say with a bitter face, ""No problem, I'll do my best ... If I can't do it, please forgive me, Mr Ling!"

It's better to set up an ambush first and leave a way out. It's easy to collapse if you're too confident!

After all, it was a tiger head shark. Although Fernandes was a master and had superpowers, he was still afraid of death.

"Tiger head Shark School!"

Fernandes 'face was pale. He was already scared when he saw so many tiger head sharks!

Why did he and Bruce only control one seahorse each when they encountered the seahorse clan? This was because they could only control one!

Barely controlling two seahorses was not as effective as controlling one with ease, which was why they did not leave more seahorses behind.

The Tiger head sharks that appeared now were not only large in number, but also stronger. Fernandes was not confident in controlling even one, let alone a large group!

If it wasn't for Lin Yi, Fernandes would've run away already!

"Be on guard! Prepare for battle!"

As expected of the president of the sword of sanctions, Morris immediately gave the order.

Then, he, Mike, Johnson, and the others got into a defensive posture at the same time.

Lin Yi was strong, but Morris couldn't just rely on Lin Yi. He was the Knight Association's Chairman, after all, so how could he be a coward?

"Eh? These tiger head sharks are actually being controlled by someone!"

Lin Yi raised an eyebrow, surprised. "Fernandes, the people of kirrlutz are really powerful!"

At first, Lin Yi's spirit sense didn't find a human in the shark group because the person was on the back of the largest shark in the middle. If he didn't pay attention, he would think that it was a small bump on the shark's body.

It wasn't until they got closer that Lin Yi noticed the man's body move a little, leaving a small gap between him and the Tiger head shark.

If it wasn't for divine sense, one wouldn't be able to see it with the naked eye!

"Mr. Ling, you said someone is controlling the Tiger head sharks, and it's someone from kirrlutz?"

Fernandes was shocked, and his face was full of disbelief!

He knew that it was not easy to control one tiger head shark, let alone fifteen!

Who was so awesome?

Was there such a person in kirrlutz?

"I can't be sure ... I don't know anyone from kirrlutz, after all. Maybe he's not?"

"Mr. Ling, where is the person you're talking about? Let's acknowledge it!"

He opened his eyes wide and looked at the Tiger head sharks, trying to find the one who was controlling them.

If they were really one of their own, that would be for the best!

"Heh ... I'm afraid he doesn't want you to recognize him!"

Lin Yi's lips curled up into a cold smile.

The people on the Tiger head sharks could definitely see them clearly. If they really wanted to say hello to Fernandes, they would not have controlled the Tiger head sharks to attack!

The fifteen tiger head sharks circled around, and as their huge mouths opened and closed, they spewed out balls of water!

The tigerhead shark had reached the foundation building realm, so any attack it launched was already powerful!

Other than Lin Yi, anyone else on the scene would be heavily injured if they were hit.

Morris and the others activated their own defense without Lin Yi's order, either dodging or working together to block the shockwaves.

Fernandes and the others also activated their powers.

Flames, icicles, gales, and so on all exploded upon impact with the water ball's shockwave.

It was quite a spectacular sight.

Lin Yi wasn't in a rush to attack, but used his spirit sense to lock onto the person controlling the Tiger head shark, observing his every move.

The man was very patient-he didn't lead the charge himself, but directed the fourteen tigerhead sharks to attack Lin Yi's team.

The Tiger head shark that he was riding on was cruising around the periphery, waiting for an opportunity to launch a fatal attack!

Lin Yi casually dealt with a few waves of attacks, and after observing for a while, he realized that the man didn't have any new tricks up his sleeve. He didn't waste any more time and prepared to counterattack!

With a thought, Lin Yi's essence spirit turned into water and disappeared without a trace. He quickly reappeared beside the Tiger head shark.

The person who was secretly commanding the Tiger head sharks was a little surprised. How did one of their targets suddenly disappear?

Could he be dead?

But if he was dead, his body should not have disappeared so quickly!

There was only one explanation!

Superpowers!

The other party must have discovered something!

After a deep whistle, all the Tiger head sharks turned around and returned to the side of the Tiger head shark to protect their commander!

Lin Yi praised the kid-he was pretty alert!

Unfortunately, it was useless no matter how high his vigilance was. An ant was still an ant!

In Lin Yi's eyes, even if his opponent had reached the Golden core stage, he was still an ant.

"What are you playing at?"

Lin Yi suddenly appeared behind the man and casually lifted him off the Tiger head shark's back by the neck.

The man was a bald white man in his thirties with a thick beard.

"How did you find me? Why did you suddenly appear here?"

The man was a head taller than Lin Yi, but Lin Yi didn't seem to be out of place at all.

However, he still didn't understand the situation. He was being held up like this, yet he still had the mood to ask questions.

Speaking of which, such an unclear failure, he probably wouldn't be able to rest in peace if he didn't figure it out!

"Is this little trick of yours really that great?"

Lin Yi's lips twitched, "I noticed you a long time ago, but I just wanted to see what else you had up your sleeve. That's why I've been playing with you for so long. I didn't expect you to disappoint me!" Tell me, how did you manage to control the Tiger head sharks?"

"Do you want to know? Then take a good look!"

The bald man grinned, and the two tiger head sharks opened their mouths and bit at Lin Yi, ready to die with him.

Lin Yi, of course, didn't care. An essence spirit was basically undying against an attack like this-no matter what he did, he wouldn't be able to hurt a single hair.

But Lin Yi wasn't interested in getting bitten by a tiger head shark. He dodged to the side with the bald man.

The Tiger head shark's spiritual intelligence was relatively low. Before it could react, the two huge mouths collided together, and the sharp teeth bit each other fiercely, directly causing both sides to be injured!

Blood splattered everywhere.

The rest of the Tiger head sharks went crazy. They rushed over and started biting.

Tiger head sharks were bloodthirsty. This was the nature of the shark clan, even the sea beasts were the same.

Chapter 7532

However, the blood of the Tiger head sharks that had killed each other quickly gathered and gathered around the bald man!

Lin Yi naturally noticed the abnormality of the blood, but he didn't stop it.

Lin Yi wanted to see what the man was up to.

A large amount of the Tiger head shark's blood quickly gathered around the bald man's body. After reaching a certain amount, it suddenly accelerated and formed a huge blood-red vortex, enveloping the bald man.

At the same time, Lin Yi suddenly felt a huge force pushing him away!

The power was so great that even ordinary Foundation Stage experts would not be able to resist it.

"Is this your trump card? If I don't let you use it, I'm afraid you won't be able to die in peace. "

"Don't make me wait too long, show me what you've got!" Lin Yi let go.

As he spoke, Lin Yi waved his hands and sent out a few lightning arcs, knocking out the remaining tigerhead sharks with controlled strength.

These were all very good means of transportation. He couldn't let them eat each other!

"Hahaha! You will regret this! Since you dare to give me a chance, I'll fulfill your wish and let you die a quick death!"

In the blood-red vortex, the bald man laughed wildly.

Then, two thick red arms suddenly reached out and tore the blood-red vortex to two sides. "If you want to see my trump card, then open your eyes and take a good look! You won't have the chance to see it later!"

"...So ugly!"

Lin Yi's lips twitched, speechless. "Your trump card is to become super ugly and come out to scare me. Are you trying to scare me to death?"

The appearance of the bald man who poked his head out of the blood-colored vortex had changed greatly. His entire body was covered in a layer of blood-colored armor, and only his head still maintained its original bald head. However, his bald head had also become blood-red in color.

If he had to say ugly ... He was really ugly! No wonder Lin Yi couldn't help but complain!

If it was someone with narcissism and mysophobia, they would probably not want this kind of superpower even if they were beaten to death!

"Hahaha! Wouldn't it be too easy on you if I scared you to death! I'm going to skin you alive, break your bones, and pull out your tendons to show my ability!"

The bald man laughed out loud, then stretched out his thick right arm. The blood-red nails on his five fingers were 20 centimeters long, like five small swords. "Go to hell!"

Five blood-red beams shot out from his nails, reaching Lin Yi in an instant.

Lin Yi casually waved his hand with a disdainful look on his face, and the five blood-red beams disappeared without a trace.

"Ha ... Your ugliness didn't scare me to death, and now you're trying to scare me to death with your big words? It's a pity that I've been scared since I was young. I'm really sorry to disappoint you!"

Lin Yi pulled back his palm and twisted his thumb, index finger, and middle finger together. "There's water, wind, and earth attributes ... Although they're just for show, there's something special about them! A complex superpower? This is interesting!"

The bald man's face changed-it wasn't because Lin Yi told him the details of his ability, but because Lin Yi blocked the five blood red beams so easily!

This was the strongest power he could use after transforming with the Tiger head shark's blood, but it was still the same in the eyes of the other party?

How could they fight then? He might as well escape!

"Stevenson! Is that you?"

On the other side, Chris tried to shout, ""Stevenson, stop fighting with Mr. Ling and quickly surrender!"

Lin Yi's movements were too fast, and the group didn't even have time to react.

Then, the bald man controlled the Tiger head shark to engage in a chaotic battle. Blood splattered everywhere, causing the people of Kirrlutz to not dare to approach. It was only now that they saw that the other party was the town's Stevenson.

The bald man rolled his eyes and laughed, ""Is it Chris? Oh my, there's also adianpolo, and even fernández! I didn't see you guys just now!"

With that, he turned back to Lin Yi and laughed, "Mr. Ling, right? It's a misunderstanding, a misunderstanding!"

As he spoke, Stevenson walked over to Chris, acting like an acquaintance who wanted to reminisce about old times.

Lin Yi looked at him with a smile, not stopping him.

Stevenson was secretly overjoyed. He continued to talk to Chris and ardiablo while keeping an eye on Lin Yi from the corner of his eye.

He saw that Lin Yi was still standing at the same spot, and a faint smile of satisfaction appeared on his face.

"Fernandes, why aren't you saying anything? You actually give me a special kind of familiar feeling, I actually didn't realize it before!"

Stevenson was already two steps away from Fernandes as he spoke, but Lin Yi was still in the same spot.

It was now!

A light flashed in Stevenson's eyes, and his fingers flew like swords toward Fernandes, Chris, and ardiablo at the same time!

"Hahahaha! Idiots! After I kill you, I will become even stronger. By then, who can still be my opponent?"

Stevenson laughed maniacally as he launched a fatal blow.

In his plan, he would take this opportunity to kill Fernandes and aristocrat, and then take Chris as a hostage.

As citizens of kirrlutz and favored by the sea serpent King, fernández and adianpolo must have superpowers. If he killed them and took their powers, his strength would be greatly improved.

Although he couldn't beat Lin Yi just now, he was confident that he could beat Lin Yi after taking away the abilities of these two!

As far as he was concerned, Lin Yi had only killed a few more people and gained a few more superpowers.

As for keeping Chris, it was just in case!

If she still couldn't beat Lin Yi, she could use a hostage to force Lin Yi to let her go.

It had to be said that this wishful thinking was really clever!

Unfortunately, Lin Yi didn't think much of it.

Lin Yi made his move at the same time as Stevenson.

He appeared in front of Stevenson as if he had teleported and grabbed both of his wrists, causing the attack he had just launched to instantly disappear without a trace, leaving behind only Stevenson's stunned bald head!

"Originally, you could have lived, but unfortunately, you just want to court death. Then there's no other way!"

Lin Yi's expression was calm as he applied a bit more force, and Stevenson let out a blood-curdling scream.

The two wrists that were protected by the blood red armor were broken by Lin Yi!

"I was wrong! Spare me! I'm very useful, I can definitely help you!"

Stevenson let out a blood-curdling scream. He immediately endured the pain and desperately begged, ""It's true! I'm willing to serve you as my master, I only ask that you let me live!"

"It's too late!"

Lin Yi's expression was cold as he lifted his leg and kicked twice, breaking both of Stevenson's legs."But I'm a soft-hearted person. I'll beat you half to death first and see if your friends will let you off!"

Chapter 7533

With that, Lin Yi turned to the three.

After all, this guy could control a group of tiger sharks. It was still useful to keep it, so he would beat it until it lost its combat ability first!

As for whether or not he'd survive, that would be up to the three. This guy was from the same town, after all, and Lin Yi would just do him a favor.

Of course, the most important point was that Lin Yi didn't seem to be able to get abilities from people he killed!

But Kris and the other two were different. Even if they killed Stevenson, they would inherit his abilities.

Stevenson's arms and legs were broken by Lin Yi, and he was in extreme pain.

However, when he heard that there was still a chance to live, he immediately became spirited. Although his expression was pained, he still squeezed out an ugly smile and looked at Chris and the other two as if he was trying to please them. "Ardianpolo, Chris, and Fernandes, we are all old friends. You won't watch me die, will you?"

"I was wrong just now. I was possessed. But you see, I've already received the punishment I deserve. Please be magnanimous and let me go!"

"Hehe, now you know we're old friends? Why didn't I think of it just now?"

Fernandes was a cruel man to begin with, and he did the same thing before joining Lin Yi-how could he let Stevenson off so easily?

"Don't be soft-hearted, adembolo, Chris. Who knows if he'll come after us again? We can't always be on guard against him, can we?"

Fernandes quickly said when he saw that ardiablo was silent and Chris was a little soft-hearted.

"Fernandes, we're actually from the same town, and we see each other often. Stevenson has already been punished by Mr. Ling, so why don't we spare his life? His arms and legs are broken anyway, so he won't be a threat in the short term. "

As expected, Chris wanted to let Stevenson go. "As you know, we don't have much time to stay here. By the time Stevenson recovers, we'll have left this place long ago."

"Do you agree with Chris, adianpolo?"

Fernandes definitely wanted to kill Stevenson. Seeing that Chris's heart softened, he looked at adianpolo and said, "He wanted to kill you and me, then kidnap Chris! Everyone could see his feelings for Chris! To be honest, I don't care if I kill him or not, but you are different!"

At this point, fernández looked at Stevenson, and then at adienpolo and Chris, and said meaningfully, "You have to think this through. I'm not someone who likes to stir up trouble, but if I were you, I definitely wouldn't be able to stand it!"

The look on his face suddenly turned ugly. Fernández's words hit his soft spot!

Everyone in the town of kirrlutz knew that Stevenson had been coveting Chris for a long time!

Stevenson's intention to kill Fernandes and ardiablo before kidnapping Kris was also very obvious. If it wasn't for Lin Yi's intervention, he might have already succeeded!

It had to be said that Fernandez's ability to bewitch others was very strong!

He really couldn't stand it!

Or rather, any man would not be able to endure it!

You want to kill me and then steal my woman? If he could endure this, he would rather die!

"That's right. We don't need companions who can stab us in the back at any time!"

He made his decision.

"Adianpolo ..." He said.

Chris was startled. She wanted to say something, but she knew that Fernandez was telling the truth, so she could only give up.

"It seems that no one has any objections. Then, I'll kill this bastard on behalf of everyone!"

Fernandes laughed as he walked towards the terrified Stevenson. He clenched his fists and made a crisp cracking sound.

"Fernandes, I'll do it myself!"

Suddenly, he stepped forward and stopped fernández."You just said that I can't stand it, so let me do it!"

Lin Yi looked on coldly-the two couldn't stop their greed.

Everyone knew that by killing Stevenson, they could strip him of his power, so they all wanted to rush to make a move!

But it didn't matter to Lin Yi-it didn't matter who got the power, it was all the same to him.

Stevenson's face was ashen. He knew that death was inevitable. He could only turn to Chris."Chris, say something. We're all from kirrlutz. Can you bear to see me killed?" he said.

"Why can't Chris Bear to do it?"

With a sneer, he stepped forward to stop Chris, not giving her a chance to continue begging,"Stevenson, you should know how many people you've killed. It's time for you to pay back!"

"Adianpolo, Fernandes! You guys stop!"

Chris finally couldn't help but speak up.

A glimmer of hope flashed in Stevenson's eyes. He had thought that he was dead for sure, but he did not expect there to be a turning point!

"Chris, are you really going to plead for this scum?"

He turned around and looked at Chris with disappointment. ""In your heart, Stevenson is actually more important than me?"

"No, you guys listen to me!"

Chris shook her head and lowered her voice. "Stevenson should die, but no matter who among us kills him and inherits the other's abilities, it might cause Mr. Ling to be wary ..." He said.

As she spoke, she gave Lin Yi a subtle look.

Both ardiapolo and Fernandes were not fools, and they were shocked!

The three of them, including Chris, were all wondering if this was a test Ling-zero-eight was giving them.

No matter who learned the ability to control the Tiger head shark, they would definitely be a threat in the future!

After all, Lin Yi and the others needed the Tiger head shark as a Mount. If the three of them had bad intentions and got bitten by the Tiger head shark, it would be a big problem!

The three of them knew that they couldn't earn Lin Yi's full trust yet, and whoever had the ability to shock their master would die first.

The three lowered their voices, but Lin Yi heard everything clearly.

So be it if you're greedy, but why don't you just kill him?

After killing it, he controlled the Tiger head shark and hurried on his way, but he was here analyzing human nature.

To be honest, Lin Yi wouldn't be afraid even if all three of them knew how to use tigerhead shark.

What was a tiger head shark?

He'd been through even worse sea beast tides a couple of times already.

However, he was worried that the three of them might become a threat to Lin Yi after getting their powers. It'd be a tragedy if he eliminated them!

"Mr Ling, I'll leave Stevenson to you! We ... Can't bear to do it. "

In the end, it was still Chris who spoke to Lin Yi.

Lin Yi was already sick of it, and he immediately sent a stream of five-element Qi over after hearing what Chris said.

Lin Yi shook his head as he felt his body. It seemed like the power wouldn't be inherited from him.

Chapter 7534

"Fernandes, go and study how to control the Tiger head shark."

Lin Yi woke up a tiger head shark.

Fernandes smiled helplessly. He could only brace himself and approach the Tiger head shark. He let out a low whistle and tried to communicate with the Tiger head shark.

If he had known that he would be the one controlling it in the end, he would have killed Stevenson instead!

Now, not only was it easy for him to get killed by the Tiger head shark, but he'd also become Lin Yi's biggest threat if he really did control it. Why did he have to do this?

However, before Fernandes could complain, the Tiger head shark opened its mouth and bit him!

Fernandes was so scared that he almost peed his pants. He threw out ice, fire, and everything else.

"Mr. Ling, save me!"

Only Lin Yi could save him as he ran for his life!

Lin Yi flashed in front of the Tiger head shark and slapped it on the head. The Tiger head shark fell to the ground and made a big hole.

To be able to do this in the water, one could see how much strength Lin Yi's slap had!

Fernandes was dumbfounded for a moment, and then he quickly put on a flattering smile. "Mr. Ling, you're really amazing. Thank God You're Here, or I would be in danger!"

"It seems like you failed to control it?"

Lin Yi glanced at Fernandes, "Your ability is quite limited ..."

Fernandes "heart skipped a beat. Was Lin Yi getting rid of him because he was useless?

Seeing that Stevenson had disappeared without a trace, Fernandes was terrified.

"Mr. Ling, I must have not mastered it yet, that's why I missed! If you let me try more, I might succeed!"

Thinking of this, Fernandes quickly promised with a serious face, ""Please believe me, I'm definitely a professional in this area!"

Even though he said that, Fernandez was also regretting. He might as well have personally killed Stevenson just now!

"No need. Since I can't control them, I'll just tame them!"

He didn't stop walking as he spoke-he strolled up to the Tiger head shark, raised his leg, and kicked its head.

Fernandes's heart skipped a beat!

This wasn't control, this was a provocation!

You kicked the Tiger head shark away, so don't think about controlling it anymore. It's good enough that it doesn't eat you!

"You should have some intelligence, can you understand human language?"

Lin Yi retracted his leg and started communicating with the Tiger head shark, "If you can understand human language, then obediently be our Mount. If you can't ... I'll beat you up until you can! Do you understand?"

The Tiger head shark raised its head from the pit. It couldn't care less about its dizziness and seeing stars. It quickly propped its body up and shook its head a few times to show that it understood.

Lin Yi smiled in satisfaction. "It seems that you're quite smart. Our communication is very smooth!"

The Tiger head shark's eyes were filled with a human-like bitterness-the shoe print on its head was clear, and Lin Yi's kick was even more painful than the slap ...

He hoped that this human would be able to communicate well and not get all touchy with him ...

"I'll wake up your companions later. You go and make them listen to me!"

Lin Yi didn't give the Tiger head shark a chance to negotiate, "If you can 't, I'll beat you up!"

The Tiger head shark's heart collapsed. Why are they disobedient and you want to beat me? Couldn't they just beat them up directly?

You're bullying me because I'm big, aren't you?

Damn humans!

He had no choice. He couldn't beat them, and he couldn't escape either. He could only accept his fate!

The Tiger head shark could not speak, so it could only passively accept a series of unequal treaties.

The people around them were dumbfounded. They didn't expect that he could control the Tiger head shark like this!

Could this be the superpower that he got from Stevenson?

It seemed that Lin Yi's method was very effective. Not long after, their small team had fourteen tigerhead sharks as their mode of transportation, and their speed instantly increased a lot!

As for why there were 14, the reason was simple. One of them had died from excessive bleeding.

With so many tigerhead sharks around, no matter if it was kirrlutz's natives or other Knight regiments, they would all stay far away from anyone they met!

Lin Yi led his team and the Tiger head sharks around the first floor.

After a few hours, they finally found another five Knights from the ruling Sword Knight Association.

However, they were not a small team. They were the remaining members of three small teams.

Morris immediately became depressed. There were basically only a few elites left in the entire ruling Sword Knight Association!

"Mr. Ling, it's about time. The entrance to the second floor should be activated soon!"

Fernandes was very afraid of death, and so he would run to Lin Yi from time to time to get familiar with him. This time, he seized the opportunity to make his presence known. "If I'm not mistaken, we've been here for more than ten hours!"

"For those of you who have been blessed by the sea serpent King, have you received any enlightenment?"

Lin Yi pinched his chin and looked around at Fernandes, ardiablo, Chris, and the others, even Mike, "I had guessed that you would have sensed it when the entrance was activated. After all, you are the people who are favored by the sea serpent King."

Fernandes and the other two looked at each other and shook their heads at the same time. "I don't feel anything!"

Mike was even more baffled.

"This is difficult. We've been wandering around the first level for so long, but we haven't found anything that looks like a passage!"

Lin Yi looked around, "we spent almost ten hours on this floor, and that's with the Tiger head shark's speed!" Therefore, the entrance shouldn't be too difficult to find. After all, only a few people can walk one round. "

"Mr. Ling, I have an idea!"

Fernandes suddenly said, as if he had been prepared, ""I think the exit should be at a higher ground! This was because the passage to the second floor was definitely a flight of stairs! We were walking on flat ground just now. If there were stairs, we would naturally see it at a glance, but we would have ignored the higher places. "

"That makes sense! Mr. Ling, we've just passed by a few places with higher terrain. Why don't we go back and take a look?"

"That's right!" Adianpolo was stunned for a moment before he agreed.

After all, no one paid attention to what was on the high platforms just now. They were only focused on the things in front of them.

"Who said that there must be a flight of stairs to the second level?"

"We're at the bottom of the ocean," Lin Yi shook his head, "do we need stairs to get to the second floor?"

Fernandes and the others were stunned at first, and then they were speechless!

Because Lin Yi was right!

Everyone was in the water. If there was really a passage above, they could just float up directly. Why would there be a need for a flight of stairs?

Chapter 7535

"Mr. Ling, you're the best. I forgot that we're in the water!"

Fernandes chuckled and said in distress, ""In that case, how are we going to find the entrance? The range is getting bigger and bigger. "

Lin Yi didn't say anything, but raised his head and frowned.

"Mr. Ling, what's the problem up there?" Morris looked up as well.

"I don't know, but I feel like something is wrong!"

Lin Yi shook his head and waved his hand, "you guys wait here, I'll go up and take a look!"

Morris was about to suggest that they all go up together when Lin Yi split into two again, and one of them disappeared.

"Mr. Ling is really awesome. Morris, where did you invite this person from?"

"That's right, he's too powerful. I think Mr. Ling is the most powerful person in this tower!"

Fernandes and ardiapolo were both amazed.

"You'll have to ask Mike about this ..."

Morris was surprised at Lin Yi's speed as well-he disappeared in the blink of an eye.

Lin Yi's speed was indeed very fast, almost the speed of light.

But even so, Lin Yi had been going up for a few minutes, using a speed that was comparable to a top tier water escape technique, and he still hadn't reached the top of the first level!

Even if this was the real deep sea, Lin Yi should've reached the surface long ago with his speed!

It was strange!

Lin Yi stopped and looked down, but he couldn't see anything wrong.

After rising to a certain height, the view below could no longer be seen with the naked eye.

Looking around, there was nothing but water.

Lin Yi muttered to himself and disappeared again. A few minutes later, he was back in the group.

"Mr. Ling, did you find anything?"

Fernandes saw Lin Yi's real body and immediately went up to him, ""Is the entrance to the second level up there?"

Lin Yi had only been there for a few minutes, and they thought he hadn't gone far.

"There's nothing up there. It's impossible to find any clues up there!"

Lin Yi didn't explain further and waved his hand. "But I already have some ideas. What Fernandes said just now is not completely unreasonable."

"Haha, Mr. Ling, you're too kind. We'll definitely find something if we go to a higher place!"

Fernandes was overjoyed, thinking that Lin Yi was complimenting him.

"No, you're wrong."

Lin Yi poured a bucket of cold water on him. "I mean the opposite. The entrance should be in a low-lying place, such as a trench or something ..."

"Mr. Ling, why do we have to go to a lower place?"

Fernandes was dumbfounded.

Lin Yi waved his hand, "maybe the tip of the tower is all the way down to the bottom of the ocean. So the first floor we're on right now might be the highest floor. If we want to go to the second floor, we have to go down!"

Morris and the others had always followed Lin Yi's lead, and so the Tiger head sharks started swimming again, leading the team to the nearest trench they just passed.

Ten minutes later, Lin Yi waved his hand, signaling for the group to stop.

A dozen meters away, there was a deep trench.

He'd scanned with his spirit sense when he passed by earlier, but there wasn't anything unusual.

However, this time, it was obviously a little different. When he used his divine sense to scan it, he was blocked.

"I'll go down and take a look, you guys wait for me here!"

Lin Yi activated the thousand changes of wood and forest, leaving a clone behind while he dove into the trench himself.

Although the outside of the trench also looked like an underwater world, there was enough light and it was as bright as day.

However, after entering the trench, the surroundings immediately became pitch black. It would not be an exaggeration to say that one could not even see one's own fingers!

Lin Yi transformed his Yuan spirit into water and swam freely in the trench. Soon, he found an unusual place.

On the stone wall of the trench, there was a pit with faint spatial fluctuations.

With a thought, Lin Yi instantly appeared outside the hole.

But the hole didn't look special at all, and Lin Yi couldn't figure out what the hell was going on even after he touched it.

But Lin Yi didn't use force to open it. He fell into deep thought.

It was wrong!

Perhaps he was overthinking it!

How could the entrance to the second floor be in such a hidden place?

According to the previous logic, the sea serpent King had given the people of Kirrlutz some special abilities and hinted that they could get more rewards for killing their companions or outsiders.

In that case, the sea serpent King must be trying to achieve some goal.

And his appearance was just an accident!

If he wasn't Lin Yi and was just a normal bodyguard, he wouldn't have been able to find this hole at the bottom of the sea, much less use force to blow it up.

Then, how would these people from the first level enter the second level? Was he really going to wait for his time to come and die together?

With that in mind, Lin Yi felt much more at ease and returned to the outside of the trench.

"Mr. Ling, you're back! Is that the entrance to the passage?"

Mike asked.

"Maybe, maybe not. It's not time yet, so everything is unknown."

Lin Yi waved his hand, "everyone, take a break. You're tired from walking around. Those who got your powers, practice. If I'm not wrong, the key to opening this tunnel is your power!"

This was the conclusion Lin Yi came to!

Otherwise, why would the sea serpent King create so many ability users for his own entertainment?

"Ah!"

Morris clapped his hands in realization!

Lin Yi's words were like a wake-up call.

Thinking about it, it made sense. Why did everyone go through so much trouble to enter the nine-layered Pagoda and then kill each other?

Wasn't it all for the sake of obtaining superpowers?

But what could he do with superpowers?

In this enclosed Sea area, other than humans, there were only sea beasts. Could it be that all the humans had died and they were using superpowers to deal with the sea beasts?

Fernandes also nodded thoughtfully and ran to the side to practice his power.

Lin Yi, on the other hand, closed his eyes and meditated on a piece of coral. He closed his eyes and studied why his Yuan spirit body had so many illusionary abilities.

It wasn't Lin Yi's first time projecting his spirit-he had a similar experience before.

However, the last time, the primordial spirit could only switch between the state of the real primordial spirit and the virtual primordial spirit.

He could also disappear in an instant, but he could clearly feel that he wasn't one with his surroundings.

The primordial spirit state was still the primordial spirit state. It wasn't an exaggeration to say that it was a special form of energy, but it wasn't detected by most people.

However, it was different now. If this ability was properly developed, he could use it to comprehend the five-element escape technique.

Chapter 7536

However, he didn't know if this ability would still exist after his primordial spirit returned to his physical body.

Mike was also practicing his power. He was a water ability user, so he controlled the vortex.

In the beginning, he just wanted to play, but it was quite fun to play with water. He got addicted to it, and the whirlpool he created became bigger and bigger.

"BOOM!"

A sudden loud noise startled everyone present.

Mike's hand trembled, and he almost hit the whirlpool on his head.

"What's that sound?"

Morris was also a little surprised, but when he looked at the vortex in Mike's hand, he suddenly exclaimed, ""Mike, your vortex ... Exploded!"

The vortex ... Exploded?

You're the one who exploded!

Mike was a little annoyed. Young master was training his special ability here. He wanted to be awesome and surpass Ling-zero-eight one day!

He did not expect Morris to say that his vortex had exploded!

Your whole family exploded!

Mike had been under a lot of pressure during this period of time. Although others were envious of him for having such a powerful bodyguard like Ling-zero-eight, he didn't think so.

First of all, it wasn't that easy to let go of what happened to Julia, and second, Mike didn't want to rely on Lin Yi for everything!

Ever since Ling-zero-eight had appeared, Morris' attitude towards him had changed. He was now extremely respectful!

However, Mike was very annoyed. He knew that this was all because of Ling-zero-eight! That was why Mike was worried that Morris would still treat him the same way after Ling-zero-eight left!

It definitely wasn't!

Mike couldn't stand that kind of difference!

He was a proud Knight.

So after receiving the special ability, Mike was very happy. He felt that this trip to the sea serpent king's palace was the right decision.

However, he did not expect Morris to curse Ling-zero-eight before he even left!

"Mike, it was your vortex ... That exploded ..."

Chris said weakly. Her ability was wind and she couldn't use it in the water, so she had been watching the others practice.

Therefore, she was sure that the explosion was caused by Mike's vortex.

"What?"

Mike was stunned and looked at the vortex in his hand.

Whoosh! Whoosh! Whoosh!

The vortex ... Was actually split in half!

This ... Really exploded?

However, before Mike could figure out why the vortex exploded, he saw a dark red bead spinning in the middle of the vortex in his hand.

It was obvious that Lin Yi had noticed the problem. "Stop fooling around, Mike. The bead in your vortex appeared out of thin air. It might be the one that caused the explosion."

"It's the blessing of the sea serpent King!"

At this moment, Fernandes suddenly stood up and said loudly, ""Do you still remember the Black Pearl I had? This was how the explosion happened without any warning!"

"Let me see."

Lin Yi's heart skipped a beat, and he took the Red Pearl from Mike's hand.

A set of messages was sent into Lin Yi's spirit sea like a signal.

Once you've reached the yellow level, head to the fake mountains and trenches and wait for the passage to the second level to open!

Then, there was a holographic image.

To Lin Yi's surprise, the image was in the trench they were in!

So that's how it was. It seemed that this was really the entrance to the second layer!

However, the way to enter wasn't to force it open, but to train your discipline to golden class.

It seemed that as long as one's ability reached golden class, they would be able to receive this kind of communication bead.

Mike was already half a step into the heaven rank, and he only had one ability, so he had been pondering all along. It was reasonable for him to reach the yellow rank in a short time.

As for Fernandes, although he was a Sky Class master, because of the variety of abilities he had, none of them were Yellow Class.

This was the principle of biting off more than one could chew.

However, it seemed that as long as one person in each team reached yellow rank, they would be able to receive the message. Therefore, it probably wouldn't be long before everyone who was alive would gather here.

As expected, four to five teams were approaching at a speed visible to the naked eye. They had obviously received the sea serpent King's message.

"It's tallu!"

Chris's sharp eyes saw a small team rushing towards the front door and immediately exclaimed!

"What, it's actually ta Lu, he's here too!"

Aedenpolo was also a little shocked.

Talu was one of kirrlutz's tyrants, and he never got along with aediboros. The two of them had always been in conflict.

Of course, he wasn't a weakling. His family was a landlord in a small town and owned a large farm.

Even though he wasn't very strong, he had many strong men under him, and talu couldn't do anything to him.

However, it was different now. Not only was Dale here, but he also brought a group of his underlings.

It was obvious that tallu was not hired by the other Knight regiments, but had come alone.

Seeing that his four guardian deities were all there, he knew that ta Lu's team had not suffered any losses.

"Hey, isn't this aedanpolo? What, did you bring your girl to the sea to show off?"

When he saw the other party, the other party also saw him. The one who spoke was Bobby, one of talu's four guardian deities. His conflict with adianpolo was the most serious.

The reason was that the Bobby family's Manor was next to the Ardian Polo family.

Adianpolo hesitated and didn't dare to answer. After all, he was not Bobby's opponent, even if he had a superpower.

Besides, Chris was also here, and he was afraid that a conflict would be detrimental to her.

"This is your team? Defeated soldiers, and all of them are women!"

Bobby saw that Adian Polo had to swallow his anger, and he became even more arrogant. "'I'll give you two choices. Our boss hasn't played with a woman for more than ten hours!"

"One, you let my boss play with your woman!"

"Two, bring that little girl over!"

As he spoke, Bobby waved his hand and pointed to Serena.

Serena was dumbfounded. How did the conflict between the two of you implicate me?

"Who are you? You look like a Gorilla, do you want to die?"

Who was Serena?

That was the Holy weapon of the new Holy region, an earth-class master!

Don't look at how she usually didn't speak much in the Knight Association, she was a true expert.

"Forget it, Serena. I think the passageway is about to open. Don't cause any more trouble."

Lin Yi said with a wave of his hand, not in the mood to argue with these people.

There were more and more teams gathered here, and it was clear that the passage was about to open.

"Hmph!"

Serena snorted coldly and ignored Bobby.

However, Serena ignored it, but Bobby did not let it go. "Little girl, master talu is The Godfather of kirrlutz. If you follow master talu, you'll be able to live a good life."

"Get lost!"

Serena didn't expect Bobby to be insatiable, and a murderous look flashed in her eyes.

Chapter 7537

"You want me to get lost? Hehe, I'm telling you, you're all crippled!"

Bobby was not angry but happy. He was worried that he couldn't find a reason to make a move. "Your team will fall here today because of this chick!"

After all, there was a kirrlutz native, Adian Polo, in the team. Bobby had to find a reason to make a move!

They couldn't stay in the sea serpent king's palace for their entire lives. They would leave sooner or later.

As long as he returned to the secular world, he would have to consider whether he could withstand the anger of the ardiablo family.

In fact, from the beginning, Bobby wanted to anger Adian Polo's team to prompt the other party to make a move first.

If they wanted to get more abilities, they had to kill people, but along the way, there was no one else in ta Lu's team to kill!

He had killed all that could be killed. The remaining teams that were still alive were all tough bones. Even ta Lu couldn't take them down.

As a result, the remaining teams acquiesced to each other's existence. If they continued to fight, both sides would suffer.

As a result, the team that did not seem to be strong became a hot commodity in the eyes of these people.

Bobby looked back and gave a vague look to tallu. Tallu waved his hand and said directly, "Adianpolo provoked them first. Everyone, go and teach them a lesson."

"Pa!"

"Owwuuu!"

There was a crisp sound and a wail.

Ta Lu, who had been acting like a swagger a moment ago, was hit by a huge force. Then, he was instantly lifted from the ground and rushed in the direction of the sea.

The speed was so fast that it was like an underwater torpedo being launched. In an instant, he had become a black dot.

"You're noisy. "

Lin Yi waved his hand and looked at the team coldly. "The second level is about to open, and you're still acting tough! Why are you so pretentious? why didn't you get killed before?"

Acting cool?

Bobby was stunned and scared!

Big brother, who is the one who can act tough!

You're the one who's acting tough, okay? you're simply the head of acting tough!

With a casual wave of his hand, he called our boss to the sky, and then he said our boss was pretentious!

Is there any justice left in this world!

The corner of his mouth also twitched!

Others might not know, but he was very clear about it!

Tallu was a peak heaven rank and a half-step Foundation Stage master, otherwise he wouldn't have become the Overlord of kirrlutz!

But just like that, Lin Yi shot her up into the sky like a rocket, and she still hadn't fallen down-just how much strength did he use?

Fernandes 'eyes flickered as well. Luckily, he didn't go against Lin Yi, or he wouldn't even know how he died!

He thought he'd overestimated Lin Yi, but he didn't even reveal his true strength!

With the skill of this slap that could send someone flying to the sky, if it were to land on him, he might directly die!

Fernandes did not think he was stronger than Dale.

After the passage to the second floor was opened.

Lin Yi did a headcount-he had Morris, Mike, Serena, and Johnson on his side, as well as six other members of the ruling Sword Knight Association.

In addition, there were also aedenpolo, Chris, and Fernandes from kirrlutz, making a total of thirteen people!

Among the remaining 12 teams, this was already considered a relatively large number of people.

"Captain number eight, is this the second floor? It doesn't feel any different from the first level!"

Mike looked around.

It was the same underwater world, but the environment was not much different, which gave him the illusion that he was still on the first floor. "Where should we go now?"

The others all looked at Lin Yi, waiting for his orders.

That was because they were also a little dumbfounded.

At the very least, there was still something to do in the first level, which was to obtain superpowers!

However, everyone had almost killed each other on the first level, and the second level forbade killing each other. Then, the question was, what was the second level going to do?

"It doesn't matter. The result will probably be the same no matter where we go. Since they want to give us a test, they will definitely take the initiative to find us!"

"The main point is the information that the sea Wyrms King Saint Just revealed," Lin Yi said after some thought, "why did he emphasize forming a team?"

The remaining people were already made up of small teams, so what was the point of doing this?

In that case, this team would probably be of some use on the second level.

It was a warning in advance to prevent some teams from going solo after reaching the second level.

With that, everyone understood-Lin Yi was right. Since they didn't know what to do, they could only wait.

"Speaking of which ... What about the other teams? Why didn't anyone other than us come?"

With Talon in mind, he paid special attention to his team. ""They shouldn't have yet to enter the second level, right?"

"When I entered the tunnel just now, I saw the second group already walking this way. After such a long time, they should have already arrived."

Johnson was one of the last few people to enter the tunnel, so he wondered, ""Perhaps the purpose of forming teams is to separate and teleport each team to a different location?"

Lin Yi nodded. "It's possible. After the massacre on the first floor, there aren't many people left. The sea serpent King might want to avoid more conflicts!"

Lin Yi's eyes flickered, and a school of swordfish appeared in his spirit sense!

There were hundreds of swordfish.

Moreover, judging from their auras, they were at least at the foundation establishment stage.

Compared to the tigerhead shark in the first layer, it was even stronger!

It was also an ancient sea beast, a creature that had been extinct in the mortal world.

Could this be a test for the team? United against the school of swordfish?

Lin Yi's mind moved quickly-he didn't have any problems dealing with the school of swordfish alone, but he was worried that it'd affect his chances of getting to the third floor.

After all, the second level highlighted a team and not a solo team.

"Attention, everyone! There are sea beasts attacking!"

In the blink of an eye, the school of swordfish was already approaching.

Lin Yi reminded before turning to his men. "Morris, take some men and guard the perimeter. Mike, you, along with dianpolo and Chris, attack the people from the Knight association with your powers."

"Fernandes, try to control the leader of the school of swordfish. If you succeed, you can control the entire school of swordfish without any effort!"

The people who were called out all agreed and quickly responded.

Lin Yi's authority had been established, and everyone subconsciously followed his orders.

However, most of them accepted the order happily. Only Fernandes had a bitter expression on his face, and he wanted to cry ...

Chapter 7538

Boss, there are so many swordfish, which one is the leader?

Besides, even if he did find it, he might not be able to control it!

The Tiger head shark is a good example. Boss, can you not have such high expectations for me?

People would die!

It didn't matter if Fernandes was willing or not, the swordfish had already charged at Lin Yi the moment he finished his sentence!

As meat shields in the front row, Morris and the other Knights of the Sword of sanctions could not help but panic. However, there was no way out at this moment, so they could only brace themselves and fight!

They thought they would be overwhelmed by the swordfish in one move, but with the interference of Mike and the others' powers, they actually held on!

"Everyone, let's work harder! We can win!"

Morris was excited and could not help but cheer loudly, "With Mr Ling commanding us, these stinky fish and rotten prawns are nothing!"

Any one of the swordfish in the school of swordfish was at the foundation establishment stage or above!

If it was in the past, even if these few people from the sword of sanctions Knight Association joined forces, it would be impossible to stop the attack of a swordfish.

This time, at least five or six swordfish had collided head-on with Morris's defensive line. However, not only did not a single member of the sword of sanctions die, they did not even retreat after being injured.

What a miracle!

Morris was so happy that he could not describe it!

The morale of the other members of the Knight Association was greatly boosted as well, and they began to put up a defense with all their might.

Of course, he could only defend. If he wanted to counterattack, he would be dreaming!

They were still able to face their own strength and left the attack to the special ability team behind.

Lin Yi raised an eyebrow. As expected, was this a test of teamwork?

Under normal circumstances, other than Lin Yi, no one in the team could take on one swordfish, let alone a whole school.

However, with their cooperation, they were able to beat the swordfish to a pulp. It could only be said that the current situation was arranged for the team.

In that case, the team members wouldn't be in too much danger under normal circumstances, and Lin Yi was relieved.

Originally, he was ready to help at any time, but now there was no need to be anxious. He planned to continue to observe the situation!

"Mr. Ling ... I can't control any swordfish!" He said.

Fernandes was loyal to his duty. Lin Yi asked him to control the leader of the swordfish, but he couldn't tell which one was the leader. He could only try to control one.

However, the result was rather tragic. None of them paid any attention to him!

"Mr. Ling, it's not that I'm not trying my best, but these swordfish have strong willpower. I can't communicate with them ..."

Fernandes explained carefully, afraid that Lin Yi would get angry.

Lin Yi had expected this situation as well-he was just following the normal logic of letting the team members do their own jobs, but it didn't matter if they were useful or not in the end.

Fernandes could not even control the Tiger head sharks on the first layer, let alone the swordfish on the second layer.

"It's fine, if you can't control it then so be it. You can help Mike and the others resist it with your powers!" Lin Yi said with a wave.

Fernandes was secretly relieved. He quickly agreed and joined the team.

The school of swordfish dispersed after the first wave of attack and began to surround them from all sides.

This time, the pressure on Morris and the others increased by more than several times!

The difference in strength between the two sides was already great. As a result, the swordfish school directly changed their attack pattern, and the small team was unable to concentrate their firepower.

The moment they split up, their attack power naturally weakened. Although there were no casualties, the situation was already precarious!

Morris was panicking, wondering why Lin Yi wasn't making a move yet.

He couldn't just watch them die, could he?

Lin Yi's calm voice came from behind her, "You guys continue to defend and protect yourselves. I'll go deal with the swordfish!"

Lin Yi could tell that these swordfish were sent according to the team's situation-they could put pressure on the team, but they wouldn't collapse.

This way, they could achieve the goal of tempering the team members.

Lin Yi, on the other hand, was getting sick of it-what was the point of wasting time if he thought he'd seen through the formation?

He would just go up and do it.

Morris and the others were overjoyed, and their spirits were lifted. The situation that was about to collapse was finally stabilized.

People were all like this. With hope, there was fighting spirit.

Lin Yi dashed into the school of swordfish in a flash.

He didn't use any fancy martial arts techniques, just a simple left punch and right kick, and directly sent the swordfish in front of him flying.

The pressure on the defensive team was lifted, and their respect for Lin Yi increased.

To be able to step forward at a critical moment and lead everyone to safety, what was lacking about such a leader?

Lin Yi's role as the leader wasn't just to help everyone out, but to target the swordfish's leader.

As the saying goes, shoot the horse before shooting the man, capture the king before capturing the bandits!

If they took down the head of the swordfish school, would the other minions be afraid of them?

Fernandes couldn't tell, but Lin Yi locked onto the strongest one in the school.

This swordfish didn't participate in the attack, but swam around the area. It was obviously the commander!

If he didn't deal with it, who else would he deal with?

Lin Yi casually kicked the swordfish in his way, sending them flying with either a fist, a slap, or a kick.

In any case, he couldn't escape the word 'fly'!

Lin Yi even gave them tickets to the Lin family's sea, sending them off to the ocean.

In the blink of an eye, Lin Yi was in front of the swordfish leader.

The guy was a smart guy, too-he felt that Lin Yi wasn't someone to mess with, so he didn't put up any resistance and just turned around to run.

"Ha ... You're still thinking of running away at this time? Don't you think it's too late?"

Lin Yi laughed and instantly appeared in his escape route, sending a Big Foot towards him!

The swordfish leader's speed was too fast, and it was as if it had delivered itself to Lin Yi's door-its head was under Lin Yi's foot!

"Bang! BOOM!"

With a loud bang, the swordfish leader was sent flying back with a heavy head.

Its huge body rolled a few times before finally stopping, but Lin Yi was already waiting by its side.

The swordfish leader already had a high level of intelligence, and it knew that it was no match for the human in front of it. It sent out a signal for its underlings to come and save it while it continued to turn around and run.

"Still running? Do you want to have a few more footprints on your forehead?"

Lin Yi reached out and grabbed the leader's long mouth. "I'm not going to talk nonsense with you. If you want to die, then continue to struggle. If you want to live, then be more honest!"

The swordfish leader immediately became quiet.

Chapter 7539

Its underlings wanted to respond to the call to save the Emperor, but they were not stupid!

Lin Yi had defeated a few swordfish before, and the normal swordfish around the leader were all sent flying. Who would dare to get close now?

Didn't they see that their boss had been captured, and these little brothers 'heads weren't damaged? were they going to die?

A wise man doesn't fight when the odds are against him, and a good fish also doesn't fight when the odds are against them!

"Not bad, it seems like you can understand human language. I was wondering if you could understand, but I'll beat you up until you can!"

Lin Yi shrugged, a little disappointed.

Human, F * ck your Grandpa!

The swordfish leader's eyes went black and he almost fainted!

So, I can understand human language? You still want to beat me until I understand?

This was too ruthless.

With that thought, the swordfish leader didn't dare to hesitate at all. He quickly nodded, afraid that Lin Yi wouldn't know that he could understand human language and beat him up again.

"Well, I'll give you two choices now."

Lin Yi nodded in satisfaction and let go of the creature's mouth. He wasn't afraid of it running away anyway, and he could kick it back if it wanted to.

"Either you'll be killed, or you'll submit to me!"

F * ck, was there even a need to choose?

The swordfish leader staggered. Only a fool would be willing to be killed!

However, he could only keep the anger in his heart and continue to nod.

"Oh, it seems like you want to be beaten to death?"

Lin Yi laughed, "great! I'll kill you now and then find another subordinate to replace you. He'll be our Mount!"

Get lost!

The swordfish leader almost went crazy with anger!

You're doing this on purpose, right? I've already nodded, and you're still saying that I want to die?

However, on second thought, did this human do it on purpose? They deliberately didn't understand his choice and then bullied him for not being able to speak. Even if they were beaten to death, they wouldn't be able to say anything.

"Wuwuwu!"

The swordfish leader quickly shook his head. Who would want to die? Who would want to die and let their underlings take their place?

The swordfish leader could only try his best to express his decision with the flattery in his eyes, afraid that Lin Yi wouldn't understand and would kick him.

"Oh, you mean you don't want to die? Alright, then you can choose some of your subordinates to be our mounts. "

Lin Yi shook his head in disappointment, "However, you're quite tactful. From now on, you'll be my Mount!"

Lin Yi patted the swordfish leader's head-his footprints were still there, and it was quite a funny sight!

The swordfish leader was shocked. What the hell, is this kid trying to take the opportunity to kill me?

However, he couldn't feel any fluctuations of true energy, so the swordfish leader quickly acted like nothing had happened and leaned over.

He had to admit that this guy knew how to do things-he actually rubbed his head against Lin Yi's palm. He didn't look like a Foundation Stage sea beast at all, but a pug dog asking for its master's pet!

However, the swordfish leader was very proud. Thinking that he was also a ruthless fish, he made a prompt decision to save his life.

The team members were all speechless as they watched Lin Yi control the swordfish.

Even Fernandes could tell that Lin Yi didn't just get a new power, he was using brute force to control it.

Beating up if you're not convinced, this was something that others couldn't learn even if they wanted to.

If he wanted to learn, he had to have the ability!

"That's enough. Other than leaving the outstanding ones, let the rest of your underlings disperse. Make sure not to hurt my men when you disperse. If you hurt anyone, I'll skin you alive!"

Lin Yi waved his hand and jumped on top of the swordfish leader, landing his butt on its head.

PAH!

Why should I suffer when they hurt people?

Can't you be more reasonable?

The swordfish leader was resentful, but he couldn't say anything ...

Of course, he didn't dare to say anything ...

And so, the swordfish leader ordered his men to disperse, and without Lin Yi's orders, he quickly picked out twelve swordfish to be the mounts for the rest.

That was called deftness!

She nodded, trying to get on Lin Yi's good side as she raised her eyes at him, afraid that he'd kick her if he got upset.

"Mr. Ling! You're really amazing! With a casual move, he subdued the leader of the school of swordfish!"

Fernandes rushed over immediately.

After seeing Lin Yi's amazing skills and strength, Fernandes decided to follow this Big Shot.

Otherwise, each floor would be more dangerous than the last. Without Lin Yi, they wouldn't even know how they died.

But he joined halfway, and they were still enemies-he had to make his presence known, and make Lin Yi feel like he was truly loyal.

Otherwise, he would be the first one to be abandoned if they were to encounter a danger that required them to abandon their team members.

With the same mentality, adembolo and Chris ran over,""As expected of the great captain. With a mighty person like Mr. Ling here, we're really as stable as Mount Tai!"

Morris appeared as well, his mind on how to keep Lin Yi in the Association.

Therefore, after the thigh had displayed its powerful strength, Morris, who was the leg hair, naturally had to praise it!

The others weren't strong enough, and after the pressure was gone, they were all weak and almost fell to the ground, but they still went along with Morris, praising Lin Yi for being the captain.

Of course, even though he was agreeing, it was definitely not flattery.

Everyone was truly grateful to Lin Yi in their hearts!

If Lin Yi wasn't here, and they were in another team, without a strong Captain like Lin Yi, they'd be dead for sure against the swordfish.

Even if they barely survived, they would definitely be bathed in blood and fight until they were half-dead!

It wasn't like this-Lin Yi had to take on 90% of the pressure, and the rest ... It was tough, but who could complain?

"We're all on the same team. Since I've become your team leader, I'll definitely be responsible for you! You don't have to be so polite in the future!"

Lin Yi said with a wave of his hand.

Lin Yi didn't really care about these people's gratitude-he'd done a lot of great things, even destroying the center was elevated to saving the earth and humanity. He didn't do it for a compliment.

Lin Yi stopped Morris from complimenting him and continued,"I couldn't bring the Tiger head sharks in from the first layer, and I was worried that I didn't have a means of transportation. Now, you can choose any one of them as a Mount. With swordfish as a means of transportation, our speed will also be much faster. "

"Mr Ling is mighty! I'm not flattering you, I'm just praising you from the bottom of my heart!"

Fernández touched a swordfish first and said with a face full of emotion,""In comparison, my ability to control sea beasts is nothing!"

"I can't even control any of the swordfish here, but Mr. Ling can control the entire school of swordfish with a single kick. The difference between the two is like the difference between cloud and mud!"

"Mr. Ling, you're really awesome! Tiger head sharks and swordfish, no matter how powerful the sea beasts were, they would have to submit to a kick. Was this the Bigfoot control technique? If I can learn one-tenth of it, no! Even if it's just one percent, I'm sure you can do whatever you want here!"

Chapter 7540

Bigfoot manipulation spell?

What kind of name was that? even if you wanted to suck up to someone, you can't just say that. How could the heroic act of defeating the school of swordfish be associated with Bigfoot?

However, it was quite an image!

Morris and the others secretly despised him. This guy's flattery was a little too bottomless. Why didn't we think of these words?

"Alright, get on your mounts and set off!"

Lin Yi didn't know whether to laugh or cry. What leg control? Can't you come up with a lower name?

"That's right. Mr. Ling's leg manipulation is really amazing. I don't care if it's a tiger head shark or a swordfish. With just one kick, it'll be obedient and become our Mount!"

Morris saw that Lin Yi didn't have any objections to the name "control of the giant foot," and didn't want to fall behind.

"That's right. I never dreamed that I could use such a powerful sea beast as a Mount. Captain Ling's big feet are too powerful. It's simply awesome and ruthless!"

"That's right! The Guild leader kicked the sea monsters twice today, and they surrendered to him twice! He's simply a dumbass!"

The people from the Knight Association immediately agreed, and another wave of praise came.

Lin Yi's eyes widened helplessly-what the hell was this?

Why don't you say that it's the monkey God cannon, or that it's the Thunder that shakes the sky?

It was really tiring to communicate with these foreigners, and even good words could become jokes.

However, these people still agreed with a certain look."The captain of the second kick is mighty!"

You're the stupid ones!

Lin Yi didn't want to argue with a bunch of normal people-he was someone who'd dominated Sky Class Island already, so what if he kicked them a second time?

"BOOM!"

Suddenly, there was a loud noise in Lin Yi's sea of consciousness!

Lin Yi almost fell off the swordfish leader's back.

Eh? The swordfish leader saw that Lin Yi was about to fall and was overjoyed!

Did this human suddenly have a brain hemorrhage or a heart attack? That would be great!

When the swordfish leader thought about how it was about to escape the control of the humans, it became extremely excited and its body couldn't help but shake.

"Bang!"

In the end, before the swordfish leader could finish showing off, a Big Foot came and directly hit his face.

"What are you doing, are you having epilepsy?"

Lin Yi's sea of consciousness suddenly exploded, and just as he was worried, the swordfish leader suddenly started moving around randomly. Lin Yi was furious, ""Tell me, were you the one who shook me and almost made me fall?"

Big brother, you're the one who didn't sit still. Why are you still clinging to me?

Aren't you a little too shameless? Another kick without any reason, my face!

Thinking of this, the swordfish leader shook his head in an attempt to please him.

Lin Yi couldn't be bothered with this beast anymore. He quickly closed his eyes and activated his spirit sense.

This spirit sense was something Lin Yi had always relied on. Whether it was detecting danger or fighting enemies above his level, it was a great help to him.

If his spiritual sea suddenly exploded now, then he wouldn't be able to cultivate his spiritual sense in the future.

However, as soon as he activated his divine sense, he was shocked!

He didn't know what was going on, but the explosion just now was like a clear day from the sky. His primordial spirit was actually recovering quickly!

Ever since he was injured on the Sky Class Island, his essence spirit had never recovered. He did rebuild his body on the sub Island, but that was only in the sea of consciousness. His essence spirit didn't make much progress.

However, in that instant, his primordial Spirit's injuries had almost recovered!

What the hell?

What had happened?

Such a miracle had actually happened?

The damage to the spirit was the hardest to recover from, or else Lin Yi wouldn't have been unable to recover for so long with his resources.

However, the divine lightning that fell from the sky like an explosion just now had blown up his divine sense?

Could this be a Gift from the Sea serpent King?

He thought about the first level, where everyone would be given superpowers after gaining the approval of the sea serpent King. If he tamed the swordfish in the second level, did that mean that he had completed the sea serpent King's mission and gained the approval?

However, if that was the case, just how powerful was the sea serpent King?

Or could it be that the second level of the nine-story glazed Pagoda actually had the ability to naturally heal primordial spirit injuries?

However, the problem was that he had not cultivated his primordial spirit before. How could it recover by itself without doing anything?

No matter which one it was, this was too amazing!

Lin Yi's mind raced, but he couldn't figure it out. There was no way to explain this! It was beyond his understanding.

But no matter what, this was a good thing!

With his essence spirit recovered, Lin Yi's strength naturally recovered by a large margin as well. Once his essence spirit returned to its peak, even the entire central forces of the secular world combined wouldn't be able to withstand a single move from him!

Before, Lin Yi didn't even care about The Kraken king's palace, but now, he had to say that he was impressed.

"Let's go!"

Lin Yi realized that he'd been stunned for a moment, and everyone else had already gotten on the swordfish, but he didn't leave. They didn't dare to say anything, only looking at him blankly. He quickly grabbed the swordfish leader's dorsal fin with one hand and pointed in a direction with the other, leading the team!

"By the way, did you feel any changes in your bodies just now?"

Lin Yi wasn't sure if he was an exception, so he turned to the others. "For example, you gained a new superpower or your original power was improved?"

"Mr. Ling, I'm still the same as before. I don't seem to have gotten any new powers!"

Morris was stunned at first, then he felt it and shook his head.

"Yes, could it be that Mr. Ling has discovered something?"

Morris also felt it, but did not find anything special. "I still haven't gained any abilities."

The other members of the Knight Association exchanged a few words and shook their heads. "It seems like we have no chance of getting superpowers! What a pity!"

"That's not necessarily true. After all, this is only the second level, and this glazed Pagoda has nine levels. There will be more opportunities later!"

Lin Yi nodded, consoling her. It seemed like he was an exception.

After all, it was impossible for these people from the secular world to have any spiritual sense. At most, the six Senses of cultivators were slightly more sensitive.

Mike, Chris, and adianpolo were also testing their powers, but they shook their heads.

"Captain number eight, why do you ask? did you get a superpower?"

Mike and Lin Yi were the closest to each other, so they didn't hold back when they spoke. He called Lin Yi Captain eight.

After all, no matter what, Lin Yi was his bodyguard, and he was much more superior than the others.

"Me? I didn 't!"

Lin Yi shook his head. He wasn't lying to them, but the divine sense wasn't a power. It was a training system.
