

## Bodyguard 7541

### Chapter 7541

The people of the secular world had never come into contact with this kind of cultivation system, so they would not understand it even if they were told.

"What I'm thinking is, since everyone has come to the second floor and gone through another battle, will you have any gains? But it seems like I'm overthinking it!"

It seemed like Lin Yi was the only one who benefited from this, but what was the reason?

Shouldn't the sea serpent King be more concerned about the people of kirrlutz?

Or could it be that the school of swordfish was a test on the second level of the nine-story glazed Pagoda, so the glazed Pagoda would automatically recover everyone's injuries after every battle?

The reason why his primordial spirit was healed was because the glazed Pagoda had misjudged him and thought that he was injured in battle?

But since the others weren't injured, Lin Yi couldn't verify his guess.

However, it was useless to think about it now. He could only wait and see if there were any more miracles.

Lin Yi didn't think about it anymore and continued to control the swordfish to move forward quickly!

A while later, Lin Yi's spirit sense reached a group of human-shaped puppets.

And this group of human-shaped puppets was blocking his path.

However, since the puppets didn't have any aura, Lin Yi couldn't tell how strong they were.

It was really troublesome.

Lin Yi changed the direction of the swordfish leader.

There was still some distance between them and the humanoid puppet, so they could avoid the puppet formation by deviating slightly from the normal route.

However, what Lin Yi didn't expect was that when the swordfish moved, the puppet formation also moved.

In an instant, the puppet formation had become a roadblock for Lin Yi's team.

Interesting, Lin Yi subconsciously raised an eyebrow.

It seemed that this puppet formation was targeting his small team!

This also confirmed his previous conjecture that no matter which direction he took, it was the right direction.

They didn't have to look for anything, and the things that were looking for them would come to them on their own.

Since that was the case, he would just go up and do it directly!

Lin Yi didn't believe that these puppets would be stronger than him after he recovered his essence spirit.

"Everyone, pay attention. There's a high energy Alert ahead. Be on high alert!"

Lin Yi's reminder alerted everyone.

Lin Yi's words carried enormous weight now, and they couldn't take them lightly.

They did not even have the slightest doubt that there was danger ahead.

They had a natural trust in Lin Yi now. Lin Yi's words were golden rules.

Sure enough, it did not take long for the puppet formation to appear in their field of vision.

The team leader was awesome, and not just ordinarily awesome, but really awesome!

There was a distance of eight Zhang between them, and the captain had already discovered the danger without anyone noticing.

With such an awesome team leader, why would they worry about not being able to make a name for themselves in the glazed Pagoda?

This was conviction, trust, and admiration!

"BOOM!"

Lin Yi's sea of consciousness exploded again.

Why isn't it over yet? Continuous explosions? These people were right, it really became a second kick!

But this time, Lin Yi wasn't afraid at all. He used his spirit sense to check his sea of consciousness.

In the end, Lin Yi was surprised to find that his spirit recovered a lot!

What was this glazed Pagoda trying to do? this time, the battle hadn't even started, why did it recover in advance?

Lin Yi didn't know what was going on, but it was a good thing!

Now, Lin Yi was a little grateful to this legendary sea serpent King. It seemed that there were many secrets and benefits in this nine-story glazed Pagoda!

In the blink of an eye, the swordfish-riding group had already closed in.

In front of them, there were more than 500 human-shaped puppets. They formed a formation and blocked the way.

Other than Lin Yi, everyone else in the team was shocked. They'd never seen a puppet before, and they didn't know who these people were, but they knew that they weren't good people.

However, with Lin Yi leading the way, they weren't afraid.

With the captain around, whatever demons, ghosts, beautiful women, as long as she stepped out, the other party would have to submit.

The second-best kick Captain was no joke.

"Captain number eight, what are those things? An advanced robot?"

Mike looked at it for a long time, but he didn't understand it, just like the others. ""Why is there a robot in the palace of the sea serpent King?"

Mike couldn't be blamed for making a mistake. These puppets' appearances were relatively rough. Even from a distance, it was easy to tell that they weren't human. So, according to Mike's knowledge, it was normal to mistake them for robots.

"These shouldn't be robots, but puppets!"

Lin Yi shook his head. "They're very different in nature, but they're similar. You can think of them as robots."

Mike was speechless. You obviously don't want to explain in detail, so you're just perfunctory, right?

However, even if the eighth Captain explained, he probably wouldn't understand. Who knew what a puppet was?

The swordfish moved extremely fast. The two of them had only exchanged a few words before they were quickly closing the distance between them and the puppet.

Then, the puppet formation moved in unison and got into an offensive formation.

"Waa! They're going to attack us! Old eighth Captain, should we run or fight?"

Mike had faith in Lin Yi, but there were too many puppets. Running was the best option.

"They are one of the tests on the second floor. We can't avoid them! Everyone, prepare for battle!"

Lin Yi didn't explain much and led the group into the formation.

"Bang!"

With one charge, Lin Yi took out one of the puppets.

After coming into contact with them, the strength of the puppets could be said to be completely revealed. Each puppet individually only had the strength of a half-step Foundation establishment cultivator.

Although Morris and the others might not be able to deal with it one-on-one, it was still easy and pleasant to gang up on one person.

In particular, these puppets only had strength, but they didn't have any powerful martial techniques, so their Foundation establishment stage strength was greatly reduced.

However, this was only in terms of individuals.

Now that they were in formation, the combat power they could display was directly above the middle stage of the foundation building realm.

But don't forget, Lin Yi's team was all riding on swordfish, and these swordfish were all solid foundation Stage high level fish!

Although the swordfish's intelligence wasn't very high, it was still stronger than these mindless puppets. Moreover, it was controlled by someone, so it wasn't afraid of these puppets at all!

Especially with Lin Yi leading the charge, the team was like a hot knife through butter, tearing through a few layers of the puppet's defense in an instant!

"Heya! With Mr. Ling around, it's easy! These puppets are not even worth mentioning!"

Leg hair Fernandes began to flatter his thigh again. ""It's a pity that they're all dead and don't have any consciousness. Otherwise, with Mr. Ling's leg control technique, you could kick them to their knees with a left, a right, and a second kick!"

Chapter 7542

Pfft!

Lin Yi blinked, wondering if he'd taken on too much pressure and made Fernandes too bored.

At a time like this, he still had the mood to flatter?

This is a battle, alright? Aren't you looking down on puppets too much?

After all, that was a small team mission arranged by the sea serpent King. Could you take it more seriously?

With that thought, Lin Yi wondered if he should give these team members some pressure as a form of training.

But even so, Lin Yi didn't go easy-he was afraid that he'd kill the team members if he did.

The puppet formation had about twenty levels, and each level had twenty-five puppets.

Lin Yi continued to push forward, breaking through nineteen layers of defense.

He thought that he was about to face the last layer of puppets, but after breaking through the twentieth layer, another layer of puppet formation appeared!

It was as if the battle just now had never happened, and the puppet formation was still perfectly replicated!

"Mr Ling, there's something strange about these puppets!"

With Lin Yi taking all the pressure, Morris wasn't as nervous as before. He kept observing the puppet formation, and when he saw it appear again, he immediately understood something.

"Captain, the broken puppets in front will recover automatically. I'm afraid that after they recover, they will return to the back of the formation. We are doing useless work!"

Lin Yi didn't need Morris "reminder-his spirit sense had already noticed the situation, and he'd been thinking of a plan.

Although the puppet formation did not pose much of a threat, a man can not fight against many people. Just like in the abandoned land, a single sun-swallowing rat was nothing, but a rat tide would be terrible.

"Mike, ardiablo, Chris, Fernandes, focus your attacks on the puppet and see if you can destroy it!"

Lin Yi ordered.

Lin Yi could test it out himself-any one of the five-element pure Qi was already stronger than the combined attacks of all these abilities, but Lin Yi thought that since it was The Kraken King's arrangement, perhaps the ability attacks were the most effective and targeted.

Mike and the other three heard Lin Yi's command and started to focus fire without hesitation.

The four of them communicated with their eyes and aimed at a puppet at the same time. Their powers fused together and fired at full force, instantly turning the puppet into dust!

However, it was useless!

The powder formed by the puppet quickly gathered together in the sea at a speed visible to the naked eye. Then, it formed a ball of powder and disappeared in an instant. It then appeared at the back of the puppet formation, forming a new puppet layer.

Special ability attacks were the same.

Lin Yi's head hurt-there was no way out!

"Captain! If this continues, we'll be exhausted to death here!"

Morris "face was pale as well-as far as he was concerned, no matter how strong Lin Yi was, he couldn't possibly fight a bunch of undying puppets!

It was like if a cup of water was poured on a piece of paper, the paper would be immediately soaked and would rot with a light touch!

However, if a cup of water was poured on hundreds of paper towels, the water would not be able to penetrate through!

And now, Lin Yi's team was that cup of water, but the puppets that were constantly recovering weren't just a few hundred paper towels, but thousands of paper towels. No matter how much water he had, it couldn't last as long as the paper towels were endless.

Lin Yi's face was serious as he activated his practitioner's Arts, sending out lightning bolts that landed on the puppet's body.

The powerful force of lightning instantly tore the puppets apart, but it was unable to stop them from recovering.

The power of lightning seemed to be the same as special abilities, having no effect.

Lin Yi had to take this seriously!

The power of lightning had always been an invincible existence, especially in a place like underwater. It had no natural enemies, and anyone who touched it would die.

However, such an invincible martial technique was useless on these puppets.

At the end of the day, these puppets were inanimate objects. Even if they had been struck by lightning until they could not be more dead, they were still inanimate objects.

"Captain eight, these things are too strange!"

Mike was also a little flustered.

It was still the same-no matter how strong Lin Yi was, he couldn't outlast so many undying puppets!

"You guys turn around and retreat, I'll cover the rear!"

"Let's put some distance between us and see if the puppets will chase us!" Lin Yi said decisively after some thought.

Judging from their initial performance, the puppet formation was only blocking the advance of the team, but it might not actively pursue them.

However, he still needed to verify if this was the truth.

If they could retreat, Lin Yi would be able to think of a plan and buy himself some time.

Morris and the others knew very well that if they continued to advance, they would only kill their own team, so they obediently controlled the swordfish to turn and retreat.

As for Lin Yi, they weren't worried at all. Looking at the power of that second kick, as long as he didn't go all out and fight the puppets, even two or three times more puppets wouldn't be able to stop this killer god!

At first, everyone was still a little worried when they retreated, afraid that the puppets would not let go. But the result was unexpectedly smooth!

Morris and the rest were not stopped at all. They retreated smoothly and easily got rid of the puppet formation.

Lin Yi was a little dumbfounded-it was unnecessary for him to cover the rear. These puppets didn't seem to have any intention of chasing after them.

"Captain eight, what are these golems trying to do?"

"If they do the same thing behind us, won't we be trapped and killed?" Mike was a little confused.

When Morris and the others heard this, they immediately felt a chill run down their spines.

If they really encountered a situation where they were sandwiched, they would really be in despair!

"Perhaps these puppets are only trying to stop us from advancing. They won't take the initiative to surround and kill us."

Lin Yi thought for a while, and seemed to have realized the key to the whole thing. He smiled,

"The direction we're heading in should be correct! If he wanted to go to the next level smoothly, he would have to get through the puppet formation! The reason why there's no danger in retreating is because we'll be trapped to death on the second floor!"

Retreating was the way to go. Since that was the case, why would the puppet chase after him? Wouldn't it be better to let these people live and die on their own?

The designer of the second floor must have had the same idea. Although the puppets were immortal, they would probably consume some special energy.

Even if the designer of the second floor had a mine at home, it was impossible for them to afford the endless energy consumption.

Therefore, he would use his energy when he was busy and save it when he was free.

"So that's how it is! As expected of the leader! His eyes are really like a torch!"

Fernandes, as the number one leg hair on Lin Yi's thigh, immediately gave him a thumbs up. "If it wasn't for Mr Ling's explanation, I would never have thought of this possibility!"

Chapter 7543

Mike frowned and did not want to see Fernandes continue to flatter him. "Captain number eight, according to this logic, we must pass through these puppets, but we can't do it at all!"

He didn't know about the others, but Mike knew that he had given his all!

Under such circumstances, how could everyone still work hard?

In fact, the key was not that everyone was not working hard. The main problem was the recovery ability of the puppets!

No matter how fast the team fought, the puppets were able to recover. How could they fight this battle?

Lin Yi waved his hand, telling everyone to quiet down and focus on the puppet formation.

After they had retreated, the puppet formation had returned to its original state, as if it had never moved.

Lin Yi didn't say anything, so everyone just waited.

However, after waiting for a long time, Morris finally could not help but ask, ""Mr. Ling, have you found anything? Why don't we take a detour?"

It had to be said that his idea was quite good, and his line of thought was right. If he couldn't afford to offend them, he could at least hide, right?

Unfortunately, Lin Yi knew that he couldn't avoid this!

He didn't explain how the puppet changed its path with him.

"I've indeed made some discoveries. I think we can crack the puppet's undying ability this time!"

"I was too careless, I didn't see that!" Lin Yi said confidently.

"What's this? Captain, don't play riddles with us!"

Serena interrupted anxiously. In fact, this was what everyone was thinking. "Could it be that the golems have some sort of fatal weakness, such as their Mingmen? so long as we attack their Mingmen, we'll be able to destroy them?"

As soon as the words left her mouth, Serena felt that something was amiss. When everyone had attacked the puppets earlier, most of the puppets had been reduced to dust. Therefore, even if there was a weakness, it would have been taken care of long ago.

If this kind of attack was useless, where could they find the door of life?

As expected, Lin Yi shook his head. "Actually, the puppet itself is full of weaknesses. But after the formation is formed, under the protection of the formation, it becomes an undying body with no weaknesses!"

"A formation?"

Serena tilted her head and looked confused.

It wasn't just her, the others had similar expressions!

It was obvious that they had never heard of such profound knowledge.

However, it was no wonder that these people were from the secular world. Even the ancient sects, Ice Palace, and Snow Valley had little knowledge of formations.

Even the five-elements sect, the leader of the ancient sects, and even patriarch xuanchen and boss Bai had not studied formations.

Formations were almost non-existent in the secular world.

So Lin Yi naturally ignored the formation and didn't think in that direction.

It was just a flash of inspiration just now. He thought of the formation that he passed through when he entered the second layer from the first layer and realized that the puppet array was actually a kind of formation.

"Formations are different from formations. A formation is just a square formation, but a formation takes into account the position, individual ability, the timing, location, and so on. In fact, you can understand it as a special formation formed by these people. This formation can improve the attack power, defense power, movement ability, and so on of a single puppet. This also includes recovery power. This is the answer to the mystery of the immortal body!"

Lin Yi's explanation seemed simple, but probably only the people of Sky Class Island would understand.

As expected, Morris and the rest did not understand. All of them had their mouths wide open, as if they were listening to a heavenly book.

This was because they really didn't know that these broken puppets could have so much effect when they stood together.

"Uh, Captain, since you've already seen the problem, why don't you just tell me how to solve it?"

Morris could not understand, and did not want to continue thinking about it. Such a profound question could not be understood in a few words, and this was not the time to ask for advice.

Mike nodded and said, "Captain number eight, just say it!" Where can we win?"

"Next, listen to my arrangements!"

Lin Yi knew that he wouldn't be able to explain it, so he started assigning tasks. "Morris, you and Serena will protect Mike. Move to two points of the puppet formation and wait for orders."

The three people who were called out immediately agreed and got ready.

"Adianpolo, you take two people from the Knight Association and move to the four o'clock direction of the puppet formation."

"Understood!"

"Yes!" Aedenpolo nodded and picked two people to prepare.

"Chris, you take two people with you and stand by at the eight o'clock direction of the puppet formation!"

"Fernandes, you and the other two go to the ten o'clock direction and wait for orders!"

Lin Yi said after making arrangements for everyone. "I'll attack the puppet formation from Six o'clock, which is to say, from the front. After I've launched the attack, your four teams will attack the puppets at the same time, with the ability users at the front and the others as support!"

"Just like this?"

"Mr. Ling," he said, "those puppets are very strong individually. I'm afraid three people can't defeat them."

After all, it was Lin Yi who charged first, and everyone else focused their fire on him from behind.

However, if they were to fight the puppets alone in groups of three, they would not be so confident.

"Don't worry. As long as you don't actively enter the range of the puppets' formation, they won't attack you!"

Lin Yi waved his hand and said confidently.

Seeing Lin Yi's confident look, everyone calmed down a lot, and so the four groups quickly split up and went to their designated positions.

It was just as Lin Yi had said-everyone was in their positions, facing the puppets, but as long as they didn't charge into the formation, the puppets wouldn't attack.

"Everyone, get into position, I'm going to make my move!"

Lin Yi nodded and shouted, ordering the swordfish leader to charge into the group of puppets.

In an instant, the lightning bolts flashed and destroyed a few puppets. Lin Yi then shouted, ""Begin the attack!"

As soon as the order was given, the four groups immediately moved out at the same time, attacking the puppets in front of them.

However, their attacks were too weak and did not cause much damage to the puppet.

"Mike, your power needs to be more condensed. You're a water ability user. You have to use the direction of the water to create a stronger Whirlpool attack ..."

"It's the same for Chris. Although your wind ability is different from Mike 's, the principle is similar. You just have to follow the direction of the water flow to activate your wind ability, and the water will help the wind. You can control it like a fish in water."

"You are a fire ability user. It seems like you are suppressed in the water, but you can try to compress the fireball! By compressing the fireball to the smallest size before releasing it, the heat will naturally be concentrated, and it can resist the impact of the sea water ..."

Chapter 7544

"Fernandes, you're a multi-elemental Esper. You can try to fuse several Esper abilities, just like the fellow townsman I killed before ..."

Lin Yi distracted himself by teaching the four followers how to use their powers as he fought-they wouldn't be able to fight otherwise!

After all, these people used to be ordinary people. They were not even as good as the Knights of the Knight Association. Now that they had obtained powerful abilities, they could not display them, let alone familiarize themselves with the control.

However, things were different after Lin Yi's guidance. Qi and abilities were very similar, and although they were different, the experience could be used.

Lin Yi was a multi-attribute master himself, and all of this common knowledge came out of his mouth.

Lin Yi's guidance seemed easy, but the effect was surprisingly good!

Mike and the others didn't really know how to use their powers before, but after Lin Yi's guidance, they were more or less familiar with it. They could also use their martial arts-like powers, increasing their combat strength by a lot.

"Very good. Michael, move to the threeo' clock direction. Fernandes, move to the nineo' clock direction!"

"Don't be too forward, adianpolo. Your fireball is already very powerful. You don't have to be so close to it. The sea water won't affect your ability too much!

"Chris, come to me!"

With Lin Yi's precise orders, the puppet formation started to split up into pieces.

Not only could Lin Yi's lightning bolts take care of the puppets on his side, but he could also appear at the right time when the four groups needed help.

As the battle progressed, a smile appeared on Lin Yi's face.

His theory about formations was right-a formation of this level was nothing to Lin Yi.

The puppets were destroyed one by one, but they never recovered.

"We ... Actually succeeded!"

Selena and the rest also saw this magical scene and immediately cheered loudly.

"Mr. Ling, I really admire you. I want to bear your children!"

Serena's eyes were burning-she really didn't know what Lin Yi couldn't do!

He had single-handedly turned over the entire new sanctuary division and removed the blood curse from her body. He had also used the Big Foot control technique and kicked twice. Now, he had even broken the puppet's formation!

Which young girl didn't yearn for love? This was especially so for a young girl Killer like Serena who had never been in love. She worshipped the strong!

Lin Yi's face darkened! And his mouth twitched!

Where did this girl learn this from? If you want to give birth to monkeys, go find them, why me?

"Mr. Ling, I also want to bear your children!"

How could Fernandes, the number one leg hair, show weakness? He immediately followed up and showed his good side to make his presence known.

Unfortunately, what he didn't know was that this time, his flattery had landed on the horse's leg!

Serena's chest was at least a deep cleavage, but yours was full of chest hair that was desperately sprouting out of his clothes ... It was so eye-piercing to look at!

Lin Yi suppressed his disgust and dodged to Fernandes "back, kicking Fernandes" butt twice!

Caught off guard, Fernandes demonstrated what it meant to be a dog gnawing on mud!

Serena was also speechless. You also have monkeys? Do you have that function?

Of course, looking at Morris and the rest who were confused, Serena knew that there was no way to explain this. This was not a common joke in foreign countries.

"Mr. Ling, your second kick is too powerful. It sent me flying in one go!"

Fernandes straightened his body. Although his face was full of resentment, he still gave a thumbs-up.

"Pfft!"

Lin Yi didn't know what to say-they weren't on the same channel, after all, and he didn't understand what was going on.

"Captain, we've just relived the process of the battle again. Thank you very much for your guidance!"

At this time, the three of them walked over and bowed to Lin Yi respectfully, ""You've given us a lot of insight in the field of superpowers. You're not only our Captain but also our teacher!"

What the three of them lacked the most was the way to use their abilities, but Lin Yi's guidance made them improve so much that they were now Sky Class.

They knew that Lin Yi didn't have the responsibility to guide them as their Captain-he only needed to lead them through the levels.

But Lin Yi didn't hide anything from them, teaching them everything he knew. This made them very touched and grateful!

After all, even in all the Knight groups, everyone's practice and martial arts were secrets that couldn't be passed on to others, but Lin Yi taught them so easily-what a broad mind!

"You're welcome, we're all teammates!"

Lin Yi waved his hand, not really bothered by it.

"No matter what, Captain is our teacher. Even if we leave the nine-story glazed Pagoda, we'll do our best if teacher summons us!"

Lin Yi didn't mind, but the three of them couldn't! The three of them cupped their fists at the same time, their faces full of gratitude.

"BOOM!"

This was the third time, but Lin Yi was a lot calmer this time.

The feeling of clarity from the sky appeared again!

Lin Yi activated his practitioner's Arts and entered his sea of consciousness, checking on his essence Spirit's condition.

However, it didn't matter if he didn't check, but he was shocked when he did! This time, his primordial Spirit's injuries were actually healed in one fell swoop!

In other words, the hidden danger of his unstable primordial spirit caused by forcefully raising his strength previously no longer existed!

In other words, Lin Yi's spirit was back to its peak state when he was on Sky Class Island!

The first time was a coincidence, the second time was also a coincidence, but the third time ... Wasn't this too much of a coincidence?

Coincidences could happen again and again?

To be honest, Lin Yi was shocked!

How could he encounter such a good thing on a trip back to the secular world?

If he had known earlier, he would have come back a few more times!

Thinking about it, he didn't know whether to laugh or cry. Before he reconstructed his physical body, he was worried that his primordial spirit would collapse at any time. If he had known that it would be so simple, he would have gone to the sub Island and directly projected his primordial spirit back to the secular world.

However, on second thought, since the second floor required a team to take the test, could the reward be this?

However, since it was a reward, he couldn't possibly obtain the ability to repair his primordial spirit while the others obtained nothing, right?

So Lin Yi was thinking that maybe these people had activated their powers too, but they didn't know yet?

With that thought, Lin Yi turned to Morris, "Did the few of you gain any enlightenment from the battle just now?"

Hearing this, Morris and the others began to shake their heads, shrugging their shoulders and twisting their waists, and making all kinds of strange gestures with their hands. After a long while, they shook their heads in disappointment.

Chapter 7545

"Mr. Ling, it seems like we are not the people favored by the sea serpent King, so no matter what we do, we can't obtain superpowers!"

Morris let out a soft sigh, feeling somewhat disappointed.

Seeing that he, who was once the president of the sword of sanctions Knight Association, was about to be reduced to being Mike's assistant, it would be a lie if he said that he was not envious.

"Mr. Ling, I have a presumptuous request that I would like you to consider!"

Morris' expression suddenly changed, and he said solemnly, ""After we leave this place, can Mr. Ling become the new president of the sword of sanctions Knight Association? I'm willing to abdicate my position and become Mr Ling's pawn!"

"Morris, why are you suddenly saying this?"

Lin Yi blinked-he was just thinking about how his soul recovered, why did this guy mention abdicating?

"It's because I feel that only someone like Mr. Ling can lead the Knight Association to a higher level! To be honest, if you weren't here today, we would all have our own plans. Even if we form a team, we would still be a pile of loose sand!"

Morris continued to speak seriously."I don't think I can convince adianpolo, Chris, and Fernandes. Similarly, it is unrealistic for them to expect me to bow my head. Only you, Mr. Ling, can convince us!"

"What does this have to do with your judgement sword?"

"I'm Your Captain now!"Lin Yi's mouth twitched.

"I know!"

Fernandes had already forgotten about Lin Yi's kick and raised his hand enthusiastically. "Morris" intention is probably to let Mr. Ling be the president, and then take the three of us in! Let me make this clear, as long as Mr. Ling is the president, I, Fernandes, will definitely be Mr. Ling's Guardian Knight!"

Protect, your sister!

Lin Yi felt a chill down his spine-why did this guy sound so gay? Could it be that he had this kind of taste?

"Mr. Ling, Chris and I think so too. We'll be very happy if we can continue to study under Mr. Ling!"

Ardiablo and Chris also firmly said, ""As long as you don't mind, we are also willing to join your Knight Association!"

"I have no interest in becoming the president! But if you're willing to work together, that's not a bad idea!"

Lin Yi waved his hand and said calmly, "after this adventure, you've established the bond of comrades who go through thick and thin together. When you get out, you must work together!"

"Mr. Ling! "As long as you're willing to take over as the president, all the wealth and resources of our Association will be yours ..."

Morris thought that Lin Yi didn't know about the benefits and wanted to lure him in, but Lin Yi really didn't care about the money they had.

Of course, Morris thought that Lin Yi was working as a bodyguard for Mike for money.

But in reality, these worldly assets were useless to Lin Yi no matter how much they were.

"Alright, let's put this matter aside for now. Let's settle the matter at hand first!"

"Since we're done with the puppet formation, let's move on. Don't wake up early and let the other groups get there first!" Lin Yi interrupted.

Morris sighed. He decided to talk to Lin Yi after they got out!

He told everyone to get back on the swordfish and released his spirit sense to check the situation.

"Eh? Captain number eight! I think ... I have a new power!"

Just as he was about to set off, Mike suddenly let out a surprised cry, ""My field of vision has suddenly become so wide, just like the legendary clairvoyance!"

Lin Yi blinked-what did he mean by "a wide field of vision"?

Looking into the distance from the swordfish's back, there wasn't much cover. With a 360-degree panoramic skylight, you could see anywhere you wanted!

As long as one didn't have a sensory integration disorder, their field of vision would be very wide!

"I mean ... I can see behind ... No! I seem to have a 360-degree vision with no blind spots! It wasn't! I can see everything around me with my eyes closed!"

Mike was so shocked that he couldn't even speak properly. He didn't know how to express his excitement!

However, these words were like thunder to Lin Yi's ears!

A 360-degree vision with no blind spots? He could see his surroundings with his eyes closed?

Wasn't this the divine sense?

Lin Yi himself was in this state almost all the time, so he knew what was going on with Mike immediately!

The problem was, how did Qingqing Mike suddenly gain the ability to use divine sense?

Could it be that his previous speculation was correct? In fact, the reward of increasing the strength of the primordial spirit was targeted at everyone in the team!

But because Lin Yi's spirit was strong to begin with, he felt it especially clearly and immediately recovered his Spirit's injuries.

But the others did not have divine sense, and even if they did, they were pitifully weak, so even if they strengthened it, they would not be able to detect it for a while.

If that was the case, it would make sense, but it was a little farfetched.

"Hey! I think I have this ability too!"

Morris started yelling just as Lin Yi was thinking, "I already felt that it was a little strange just now. If Mike didn't mention it, I wouldn't have noticed! Does this count as having superpowers?"

Just a moment ago, he was still feeling sad that he did not get a superpower. In the end, he suddenly found out that he had one too. Morris's surprise was really hard to describe!

He did not expect that after Morris, Serena, Fernandes, and Ardianpolo would also exclaim in surprise, and obtain the same ability!

Lin Yi felt a bit dizzy-spiritual sense was considered a high level ability on Sky Class Island, and most people only started training when they first started-but it was all over the place in the common world?

Before Lin Yi could say anything, the rest of the people started cheering as well. It was clear that they all received the spiritual sense!

"This is amazing! Although this power doesn't have any offensive or defensive capabilities, it can be used to assist in battle. Especially when it comes to scouting the enemy, it's a super useful ability!"

Morris had his eyes closed and his face was full of smiles. He kept on testing his newly acquired superpower like a child who had just received his favorite toy.

The others were in the same state as well, all curiously testing out their spirit abilities, not even bothering to talk to Lin Yi.

Lin Yi was shocked. He was an expert in the area of consciousness, especially after his soul recovered. He was one of the top masters on Sky Class Island, so he could immediately sense the strength of these people's consciousness.

On Sky Class Island, normal cultivators would only start learning about the spiritual sense when they were in the sect-opening stage. Even the students in the school would only start learning about it when they were in the Xuan Sheng stage.

## Chapter 7546

However, in that short amount of time, the spiritual sense that these people displayed had already reached the level of the spiritual sense that was cultivated during the opening period of the Sky Class Island.

In the ancient martial world, this was nothing, but in the Sky Class Island, it was already very impressive. However, this was only the secular world!

"Captain number eight, did you also obtain this power? It's really great!"

Mike opened his eyes and closed them again, feeling back and forth. "I can now be sure that no one can ambush me within a radius of twenty meters!"

Lin Yi's lips twitched as he flicked a finger, and a small water bullet shot out, hitting Mike's forehead and exploding.

However, the water bullet did not have any offensive power. It only made Mike raise his head slightly.

"Who gave you the confidence? You can't even Dodge my direct attack!"

"Captain number eight, you really don't give me face. How can there be a bodyguard like you!"

Mike's face reddened immediately-he'd been a little too full of himself just then, and Lin Yi had just slapped him in the face!

But then again, he was quite frustrated-this bodyguard of Lin Yi's didn't listen to his employer at all!

"Your own strength is the absolute truth. If your body can't keep up, you won't be able to Dodge the attack. You can only watch as you die!"

Lin Yi pointed at Mike and turned to the others. "Everyone's newly acquired power is very effective. You can practice it more, but we will continue to set off now!"

Although obtaining spiritual awareness was something to be happy about, now was not the time to be happy!

They had not reached the end yet, so they had to continue.

"Yes!" Everyone replied in unison. Their morale was high as they urged their swordfish to follow Lin Yi, charging out in high spirits.

Lin Yi could only shake his head as he felt the chaotic divine sense behind him.

The swordfish was extremely fast, and they arrived at a coral reef within a few minutes.

"Captain number eight! This place looks a little familiar!"

Mike's mind had been focused on studying his newly acquired deified soul power. When he saw the coral reef, he subconsciously said, ""I think he's on the mermaid Island ..."

At this point, his expression changed slightly, obviously thinking of Justina who had died on the mermaid Island!

Fortunately, his respect for Lin Yi had washed away his feelings for Justina, and his face returned to normal in an instant.

"Mike, you're right. These coral reefs are indeed similar to the one on the mermaid Island!"

Lin Yi nodded and got on his swordfish. "If I'm not wrong, this is the next test we have to face!"

"This coral reef is a little strange. I don't feel good!"

"Ardianpolo, Fernandes," Chris said, frowning. "Do you feel that way?"

"I can't say. Now that you mention it, it seems a little, but it also doesn't seem like anything!"

Adianpolo tilted his head and pondered for a moment. ""Maybe I'm just thinking too much!"

"Adianpolo, Chris really didn't think too much!"

Fernandes stopped in front of a coral reef and wiped it with his hand. ""Look at this, don't they look like words?"

Lin Yi scanned it with his spirit sense and found that there were indeed some words made up of small shells!

The ancient mermaid graveyard!

No wonder it was similar to the mermaid Island. It turned out that this was the tomb of the ancient mermaids.

But why would the mermaid clan's Cemetery appear here, in the palace of the sea serpent King?

Furthermore, this Cemetery had become one of the tests?

"The legendary mermaids? This is their grave?"

Chris saw the words clearly and immediately exclaimed, attracting everyone to look at them.

Although these people had all obtained the ability of spiritual sense, they were still not used to using spiritual sense to replace their eyes.

"There's a piece of text on the side that says that one has to pass through the mermaid clan's Cemetery to have a chance of entering the third level ... This is indeed one of the tests!"

After Fernandes finished reading, he turned to Lin Yi, full of hope and admiration. "Mr. Ling, we'll have to trouble you again! I wonder what kind of danger there is in this ancient mermaid Cemetery!"

No matter what, it was never wrong for him to hug onto someone's thigh first!

"The danger is still uncertain, but let's work together to overcome this difficulty!"

Lin Yi waved his hand and started giving orders, "I'll still advance first. You guys form a cone formation and follow closely behind me! Use your newly acquired abilities to the maximum. We'll advance at full speed, and it'll be best if we can rush over in one go!"

Since the requirement was to pass through the mermaid Cemetery, it would be a good idea to win with speed.

Yet, Lin Yi and the others hadn't even gone far when something unexpected happened!

The swordfish would rather die than cross the coral reefs. They only loitered at the entrance of the cemetery and would never cross the lightning Pool!

"Aiya, these animals are going to rebel! Mr. Ling, why don't you give me two more kicks? Aiyo!"

As soon as Fernandes finished his words, he was almost thrown out by the swordfish he was sitting on!

He was so frightened that he quickly hugged the swordfish's dorsal fin and refused to let go.

"What's going on? Why don't you dare to enter the mermaid Cemetery? Are you afraid of something?"

Lin Yi ignored Fernandes and started talking to the swordfish leader.

Sometimes, a kick could solve a problem, but sometimes, one couldn't just rely on one's foot!

The swordfish leader had been tamed before, but now it refused to move forward. It was obviously not that it didn't want to, but that it didn't dare to!

He had to figure out what was going on, and not act rashly.

Sometimes, animals were more alert to danger than humans.

The swordfish leader couldn't speak, so it could only nod and shake its head to express its thoughts, but it couldn't quite understand.

And so, Lin Yi changed his way of asking, "You don't dare to enter the cemetery because you're afraid?"

The swordfish leader quickly nodded.

"You don't dare? Could it be that the ancient mermaids suppressed you, and even though it's just a Cemetery, the residual aura is still suppressing you?"

Lin Yi pinched his chin and asked.

The swordfish nodded with all its might, and its eyes seemed to say that it was also very helpless and that he couldn't be blamed.

"Since that's the case, I'll set you free! If we meet again in the future, please give us a ride!"

Lin Yi patted the swordfish leader's head and jumped down. "It's been hard on you all. Now, you can all leave!"

The others left the swordfish's back as well, standing beside Lin Yi and looking at them.

As soon as the swordfish that were near the cemetery regained their freedom, they immediately followed their leader and fled in the opposite direction!

"It seems that we can only rely on ourselves for the rest of the journey!"

"All good things must come to an end," said Mike. "I know that you can't be my bodyguard forever, but I hope that you can still take over the ruling Sword Knight Association!"

Chapter 7547

"We'll stick to our previous formation. I'll take the lead, and you guys follow!"

Lin Yi didn't reply to Mike's question. These middle schoolers were sometimes artistic and sentimental.

"Yes!"

The twelve of them answered in unison.

Everyone stepped into the coral reef, and what they saw was suddenly very different from before!

The scenery changed. There were coral tombs everywhere, but there were no gravestones. Every tomb was filled with a faint aura of death.

A distant singing voice floated in the air, beautiful and sad, but the voice was too light, and it was impossible to hear what it was singing.

Lin Yi's spirit sense was fully activated, monitoring the surroundings for any movement. At the same time, he was also on guard for any dangers he might encounter in this test.

"Ah, Yingluo."

Suddenly, Chris let out a low groan, and her body went soft as she fell into the arms of adianpolo.

As for adianpolo, he wasn't surprised at all when Chris pounced on him. He naturally hugged her and lowered his head to kiss her!

"What's going on? [Ardiablo, Chris, if you want to be intimate, you should at least look at the time and place, right?] Is this a suitable place?"

Mike was furious and couldn't help but shout.

However, the two of them did not care at all and continued to kiss each other.

Chris even began to undress, as if she was going to do something further.

"Don't go too far, you two!"

Mike was furious. In such a dangerous place, were these two people trying to kill the entire team?

In his Fury, Mike actually did not care and was about to directly launch an attack on the two people!

At the same time, Fernandes suddenly wanted to attack Mike!

Morris was also very angry. When he saw Fernandes move, he also followed closely behind!

As for Chris and Adrianpolo, they didn't seem to be aware of the danger that was coming. They were still intimate with each other as if no one was around!

It had to be said that the two of them were really nimble. They were indeed ability users. It had only been a short while, but they had already removed most of their equipment ...

A great battle was about to start!

"All of you, wake up!"

A loud shout startled everyone present!

The person who spoke was naturally Lin Yi. At the same time, three spirit vortexes spread out, forming a triangle around the group and spinning rapidly.

"These are all illusions. Don't get lost in them!"

The vortex of divine sense that surrounded the team quickly blocked the strange aura from the mermaid Cemetery, and the ethereal chanting also disappeared without a trace.

"Ah, what am I doing?"

Morris suddenly woke up, and his originally blurred eyes instantly became clear. He quickly released his hands, which had almost broken Fernandes' neck.

"This place is so scary! I've been affected unconsciously!"

Mike was in a bad shape as well, and he quickly moved closer to Lin Yi. He felt like he'd gone crazy just now, wanting to kill both of them without a care.

"Ah!"

Chris also woke up and found that she was doing this kind of thing with ardiablo. She immediately grabbed the clothes on the ground and covered her body.

"What's going on? How did I become like this?"

He couldn't believe that someone as determined as him would do such a thing in public!

It must be known that aedenpolo's family was also a well-known family in kirrlutz. Their upbringing was very strict, and it was impossible for them to do such an immoral thing.

But just now, he didn't know why, but he just wanted to be intimate with Chris. He couldn't control himself.

"Yeah, it's too scary. I almost killed Mike!"

Fernandes also looked at his hands in disbelief. Just a moment ago, he thought that Mike would hurt his compatriots in kirrlutz, so he wanted to kill Mike.

However, Mike was a target that even the captain had to protect. If he wanted to attack Mike, wouldn't he be courting death?

How could a person who cherished his life do such an outrageous thing?

"Mermaids have the ability to confuse people's minds!"

Lin Yi waved his hand, telling everyone to calm down. "Mike might know more. Mermaids are born with this ability to bewitch people, especially their singing voice, which can make people fall for it without knowing it!"

"So that's how it is. This is too terrifying!"

"Yeah, if Captain Ling didn't pull us out of the illusion in time, we might have been dead!"

The crowd was still in a heated discussion.

"I don't think so!"

Lin Yi waved his hand, "since The Kraken king's messenger doesn't want us to kill each other, we can't really hurt each other!" However, I don't think I'll be able to get out of this place for a while. "

Everyone came to a sudden realization. It made sense when they thought about it. The sea serpent King's envoy had clearly said that they could not kill each other.

"Let's continue forward. Everyone, keep your head clear at all times and release the abilities you've obtained previously to resist the merfolk's bewitchment!"

Lin Yi warned as he saw that the power of the three swirls had weakened.

As the power of the spiritual awareness vortex weakened, the previously isolated chanting sounded again, and the strange atmosphere of the mermaid Cemetery once again enveloped everyone.

The people who had just returned to normal began to be in a daze again.

"Strengthen your will and guard your mind!"

Lin Yi was the captain now, so he had the responsibility and responsibility to his team members.

Although he had guided others in their cultivation in the past, this was the first time he had taught them from scratch!

It was a strange feeling, like a teacher in the common world, teaching some ignorant children. Lin Yi suddenly felt that Xu Xiaoyan's job was quite good. She gave a different sense of achievement every time she taught others.

"Use your abilities and try not to observe your surroundings. Because I'm around, there's no danger. What you need to do is to use inner sight to look at yourself!"

Primordial spirit inner vision!

In fact, it was to enter one's own spiritual sea and focus on one's body, making one's body clearer.

In this way, the primordial Spirit's attention would be focused on the sea of consciousness, and the outside world's shadow on him would be minimized.

Everyone now treated Lin Yi like a god-they'd do whatever he asked them to do.

Therefore, everyone immediately executed it. Although they were not familiar with it, after trying it out, they realized that they really could not hear the distant singing ...

"Very good. Everyone, follow me and continue forward!"

Lin Yi nodded. He had to admit that the second floor's spirit sense was perfect, unlike his own, where there might be flaws and differences in strength.

It must be known that not all cultivators who cultivated the spiritual sense could use the spiritual sense to enter the spiritual sea to look inside. This skill actually required the strength of the spiritual sense. If the spiritual sense was too weak, it was impossible to do it.

Chapter 7548

However, as far as Lin Yi was concerned, no one raised any objections, which meant that they all did it. This was not easy at all.

This also proved that the palace was a treasure trove, but Lin Yi didn't understand why everyone would get such benefits.

"Justina ..."

Just as everyone was about to pass through the mermaid Cemetery, something happened at Mike's side!

The kid's eyes were bloodshot as he suddenly changed direction and charged towards a mermaid's grave.

"Justina! Please don't abandon me ..."

Mike hugged the grave and suddenly burst into tears like a child.

Lin Yi sighed, but didn't blame him.

Justina had a very high position in Mike's heart. They were childhood sweethearts, innocent and innocent. This was the highest realm of love.

Just like back then, when Lin Yi and Qiqi met again, he was filled with joy and thought back to his childhood in the assassin training camp.

Lin Yi could understand how Mike felt-the guy hadn't mentioned it recently, but he still couldn't get over it.

This was human nature. It proved that Mike was a person with feelings and flesh. Even if Justina betrayed him and did something to hurt him, Mike still had no regrets.

"Captain, Mike, he ..."

Mike's crying pulled everyone back from their thoughts. Fernandes looked at Mike in confusion. ""What's wrong with him? Did he get tricked again? I'll go wake him up?"

"Let him cry for a while,"

Lin Yi waved his hand, "this is one of his experiences growing up, and it's also a demon in his heart!" If he can make it, he will have a wider path of cultivation. If he can't ... I'll kick him awake!"

Pfft!

Fernandes almost burst out laughing, and Morris and the others could not help but laugh!

The first half of Lin Yi's sentence made him sound like a life mentor, but the second half completely destroyed his image.

And it was still the Bigfoot law!

"Everyone, try to use your newly acquired abilities to concentrate and resist the influence of the illusion. It will be beneficial for your cultivation!"

"Since The Kraken King gave us the same ability, it'll definitely play a decisive role in the later levels. The stronger our abilities are, the easier it'll be for us to stand out!" Lin Yi said to everyone.

"Yes!"

Everyone agreed with Lin Yi's reasoning and sat down cross-legged on the ground, using their spirit sense to fight against the illusion.

It was only because of Lin Yi, their Captain, that they were able to cultivate with all their might. Without him, who would dare to cultivate here? Are you courting death?

After crying for an unknown period of time, Mike suddenly woke up from his inner memories. He wiped his tears and stood up.

In an instant, Mike's expression became firm and resolute, as if he was different from the previous rich young master.

Lin Yi glanced at Mike without making a sound. He was surprised as well-this guy's spirit sense had improved again. He was as strong as Leng Leng!

In other words, Mike was now half a step into the heaven rank, but the strength of his spirit sense had reached the peak of the early stage or even the middle stage of the foundation building realm!

"Captain number eight, you guys ... Were all waiting for me?"

Mike wasn't stupid. When he saw everyone sitting cross-legged on the ground, he knew what was going on. A hint of shyness and apology flashed across his face.

"You've overcome your heart's devil?"

Lin Yi asked.

"Justina has her mission, and I have mine. Although I love her, we are not the same."

"From now on, I'm Mike. I'm me. Different fireworks ..." Mike said indifferently.

"Yeah, do you need me to light you up?"

Lin Yi was very happy to see Mike's growth.

Lin Yi was protecting Mike, but after all that he'd been through, he'd started treating him as a junior. He'd help him if he could.

"Let's get up, everyone. Let's try one last time and get out of the mermaid Cemetery!"

Lin Yi clapped his hands, waking everyone up.

Lin Yi suddenly understood after seeing Mike's growth. Perhaps his method of influencing the entire team was wrong?

It wasn't an overstatement to say that in the entire common world, there wouldn't be a second person with a spirit as strong as Lin Yi's. If it was any other team, they'd probably be trapped to death in the mermaid Cemetery without a strong spirit to protect them, wouldn't they?

But looking at Mike's situation, Lin Yi seemed to understand. He needed to grow up to fight against his heart's demon!

Mike was affected by the mermaid's song and entered his own illusion demon. However, through his own awakening and resistance, he improved his divine sense and successfully resisted the illusion.

If Lin Yi didn't stop them, perhaps the pain would wake them up from the pain!

That way, they would also be able to overcome their inner demons, and the momentary pain would also help them improve the level of their divine sense.

Even if Lin Yi didn't stop them, these people wouldn't kill each other, and the sea serpent King wouldn't let them do that!

Not killing each other was the key to the second level.

Luckily, after Mike's heart's demon entered his body, these people all followed Lin Yi's instructions and trained their spiritual sense.

Although the path was different, the end result would be the same.

Everyone's senses were strengthened, and Lin Yi felt a lot more relaxed. The mermaid's song only affected normal people, and it didn't have any effect on people who trained their senses.

There wasn't much distance left, and because everyone's divine sense had increased in speed, they quickly left the mermaid Cemetery without any trouble!

"We actually made it out! He didn't even need to put up any resistance for the second half of the journey, and he was completely unscathed!"

Morris was very surprised-it seemed that after using Lin Yi's method to train, the mermaid's illusions could no longer affect the mind.

"That's right. The superpower that Mr. Ling is guiding us to cultivate seems to be much stronger than before!"

"Thank you for your guidance, Captain!"

.....

The members of the team were all grateful to Lin Yi from the bottom of their hearts!

Lin Yi was only their temporary leader, but he was always thinking about them. What reason did they have to not follow a good leader like him?

At this moment, everyone secretly made up their minds!

Captain Ling, you will always be our Captain. Even after we leave this place, we will definitely follow in your footsteps and never leave you!

Lin Yi said with a wave of his hand. Everyone else had gotten some benefits, but he didn't.

Or could it be that the way he, as the leader, gained benefits was different from the other team members?

Chapter 7549

Just as he was thinking about it, the long-awaited explosion came!

"BOOM!"

Lin Yi's sea of consciousness exploded again, and this time, it was a magnitude 9 earthquake!

Normally, Lin Yi would've died from the explosion already, but now he was just excited!

As expected, everyone had gained benefits, and so did he, the leader!

A huge wave rose up in his spiritual sea, as if the earth was splitting and the sky was collapsing!

In the blink of an eye, everything was calm again, as if nothing had happened!

Lin Yi couldn't wait to enter his sea of consciousness and look inside, and he was stunned!

Although it looked calm on the surface, it was a wonton in his spiritual sea!

Squeak ...

Something seemed to be condensing rapidly in his sea of consciousness-Lin Yi was all too familiar with this feeling!

This was the strength of condensing the essence spirit!

Boom boom boom ...

Very quickly, the condensation of the essence spirit was completed.

This was actually ... A breakthrough?

Lin Yi was shocked to find out that his essence spirit had become early stage sea-splitting!

But Lin Yi didn't want to break through now!

Although the breakthrough of the primordial spirit was a good thing, the gap between the level of the primordial spirit and the physical body was getting bigger and bigger. When would the physical body catch up to the primordial spirit?

If it was in the past, the advancement of the primordial spirit would naturally bring the advancement of the physical body as well!

However, after the reconstruction of the physical body, the level of the physical body would no longer match the level of the primordial spirit.

This might be the side effect of reconstructing the body. Lin Yi guessed that only when the body and spirit were at the same level would The Spirit Level up as well.

But now, it was getting harder and harder to catch up with the primordial spirit. When could the physical body gain the benefit of linkage again?

Moreover, the primordial spirit could only promote the physical body that had cultivated true Qi. Now that the physical body had not cultivated true Qi, it was hard to say if there would still be such a joint benefit!

It was too F \* cking sad!

However, this was also a good thing. If they could really link up, his primordial spirit would advance, and his physical body, which was guarded by the center of the sub-Island, would also break through to the early stage of the shattered Sea realm with a series of cracking sounds. By then, the gray-robed man would definitely use him as a lab rat for research!

After feeling his own strength, Lin Yi couldn't help but be surprised.

This ... Was the strength of a sea Rift realm cultivator.

Lin Yi was completely different from before. He was now in the form of a primordial spirit, which meant that he was a real early-stage Shattered Sea realm master!

The sea Rift was the power of an expert at the sea Rift stage.

Previously, when they had entered the nine-story glazed Pagoda, the seawater had split into two, forming a passage. Many people had passed through it, but many had been submerged.

Lin Yi couldn't save these people back then, but now, he could do the same!

This was not the same as the mountain opening period.

Lin Yi really wanted to use his ultimate skill and see how strong he was now, and how different he was from when he was still a mountain.

Once upon a time, the sea realm was an unattainable existence for Lin Yi, but he'd somehow reached it now.

However, he couldn't use it now. If he did, it would scare the team members to death. He also didn't know if the sea serpent King had any means of monitoring them.

Therefore, it was better to make a fortune in silence.

After leveling up, Lin Yi calmed down and started thinking about why he leveled up.

From the current situation, although the members of the team had all gained benefits, they did not directly break through and level up like he did.

Lin Yi didn't even have time to think about it when he saw Mike level up!

Half a step into Sky Class, Sky Class early phase, Sky Class early phase peak ...

He kept upgrading crazily and finally stopped at the middle stage of the foundation building realm!

Not only Mike, but Morris had also started to level up. Then, the other members of the Knight Association, including Serena, all of their abilities had soared all the way, from ordinary cultivators to heavenly path experts!

Then, Fernandes also began to advance, and his strength finally stopped at the peak of the early Foundation establishment stage.

It was the same for adianpolo and Chris, but they were weaker, only in the early stage of the foundation building realm.

Lin Yi squinted his eyes and nodded.

In this way, they all matched! Not only did he level up, but these people also leveled up.

However, these people's bodies leveled up because of their spirit, which also confirmed Lin Yi's previous deduction. Only when the body and spirit were at the same level could they level up.

These people used to be noobs with easy spiritual sense, but they were all cultivators with different strengths.

Even though they were ordinary people who hadn't even reached the Golden class, they had some true energy under the influence of the Knights.

As for the final level, everyone was at the heavenly Dao realm Foundation establishment stage. There were strong and weak ones. Mike was the strongest because he had comprehended it himself, while the others were weak because they hadn't really resisted the mermaid Cemetery's illusion.

"We actually advanced for no reason!"

Mike looked at his hands in disbelief. Although he had fantasized about having the strength of the foundation establishment stage one day, he didn't think that this day would come so quickly!

"That's right, this is the true strength of a Foundation Stage cultivator!"

"It's like this!" Morris was also amazed. "Those of us who have successfully entered the second level seem to have all become people who have been favored by the sea serpent King, and have all obtained benefits!"

"Captain, you should have gotten some benefits, right? Is it even more powerful now? it's three kicks!"

The leg hair fernández jumped out again, looking at Lin Yi excitedly.

The team could only be strong if Lin Yi was strong!

They'd already gotten so much, so would Lin Yi get even more?

Lin Yi did get a bigger benefit, but he couldn't say it out loud. "I'm already very strong, so the improvement isn't obvious. "

"That's true. The captain is already powerful enough. If he's even more powerful, he won't let us live!"

Fernandes nodded. "It seems that the so-called team battle on the second level should be to let everyone put their thoughts on the breakthrough of their superpowers. We should share any insights and experiences with each other instead of killing each other. Only then can we progress together!"

Lin Yi nodded and was about to say something when he heard another "boom" in his sea of consciousness ...

The strength of the sea splitting stage that he had just advanced to was directly stabilized!

This ... Could it be that this would only happen to him when everyone truly admired and appreciated him?

Lin Yi had a rough idea of how he'd gotten the benefits-it was all after the members had benefited and expressed their gratitude to him.

Chapter 7550

He had some speculations about this before. In other words, the team leader would only receive benefits if all the members of the team received benefits and were grateful to the team leader!

The Kraken King's plan was quite sinister. If the leader only cared about himself and didn't care about his team members, even if the leader passed the test, his team members wouldn't be able to gain their gratitude and his strength wouldn't increase.

Now, it seemed that the entire second level was to cultivate the essence soul and divine sense of the team members.

He'd seen a similar description in an ancient book in the Qingyun sect's library when he was in the ancient martial world.

Under certain special circumstances, the gratitude of others would be converted into power of belief, and the power of belief would be converted into power to enhance the strength of the primordial spirit and divine sense.

In that case, it could perfectly explain what had happened earlier!

This was probably what the second floor was designed for-to make the members feel grateful to their Captain after they got their abilities, and this gratitude would turn into a type of faith power, allowing Lin Yi's spirit to level up!

"Everyone, get used to your current strength, and then we'll set off!"

Lin Yi suppressed the weird thoughts and waved his hand,"After passing the mermaid Cemetery, we might not be far from the entrance to the third floor. Don't fall behind others!"

"Can anyone else be faster than us? With Mr. Ling here, who can surpass us?"

Morris was a little surprised.

"Don't underestimate others. "

Lin Yi waved his hand. To be honest, he didn't think that other people's tests would be this hard!

The difficulty of the assessment should be set according to the number of people in the team, the overall strength, and the individual strength of the team leader. Therefore, in summary, the test that one's own team encountered should be the most difficult.

Otherwise, if the difficulty was the same, the other teams would not be able to pass. It was more likely that they would all be wiped out.

They didn't say anything else after that, and everyone got into formation and followed behind Lin Yi.

This time, without the swordfish as a means of transportation, their speed was naturally much slower.

After walking for about half an hour, a huge octopus appeared in front of the team.

Lin Yi's spirit sense had already detected it, so he wasn't surprised. He led his team up and did it without any nonsense!

"Mister Ling, this giant octopus's strength has actually reached the peak of the late golden core stage. Its body's defense is too strong. Even if we reach the foundation building stage, we can't break through its defense!"

When he saw his power being bounced off by the soft body of the giant octopus, he felt helpless.

"It doesn't matter. You guys listen to my command!"

Lin Yi smiled faintly-it was just a peak late-stage golden core octopus, and he could kill it with one look.

It was just that Lin Yi didn't want to do it himself, otherwise he could turn a giant octopus into a barbeque octopus ball with a lift of his hand!

"It's still the same group as before. Split into four groups. Mike's group is in the front, adianpolo's group is on the right, Chris's group is on the left, and Fernandes 'group is at the back! The members of each group must be in sync!"

Lin Yi had the twelve men split into four groups, forming a simple battle formation.

After all, Lin Yi was a formation master taught to him by that damn thing-commanding a simple battle formation was as easy as blowing off dust.

In this way, the strength of everyone in the battle formation was raised by more than a large level!

"Michael, move three steps to the left and attack!"

Mike's team moved three steps to the left in unison and then attacked together.

A power and two long swords hit one of the giant octopus's soft feet at the same time. Finally, the defense of the giant octopus was broken, and a bead of blood appeared.

"Success! We broke through the giant octopus's body!"

Mike was overjoyed, and the others were also excited.

No wonder he was the captain. No matter how they attacked, they were all bounced back. They couldn't deal any damage to the octopus, which was a huge blow to everyone's morale.

But now, under Lin Yi's command, the attack was the same as before, and the strength was the same, but the effect was completely different!

Although the giant octopus was not severely injured and only had one tentacle left, as long as it kept attacking, it would be exhausted to death!

Lin Yi smiled as he continued to give orders, "Adianpolo, take a step forward and attack!" He shouted.

Chris took two steps forward diagonally to the left and squatted down! Attack!"

"Fernandes ..." He said.

Following Lin Yi's orders, all the team members followed the orders without a single mistake. To their surprise, everything became extremely simple!

All of the groups' attacks landed on the same tentacle of the giant octopus. In just five minutes, one of the tentacles was cut off by Morris!

"Good job!"

Lin Yi nodded, pleased. These team members were quite efficient, and this made him, who didn't care much about being the Knight Association's President, have some ideas!

Europe was Central's base camp, and if they could support their own forces in Europe, it would be a good way to monitor and contain the development of central.

And now, these people in the team would become his most loyal and powerful team!

Of course, these people were still weak, but it wasn't a problem for Lin Yi. With the art of Dragon mastery, it wasn't hard for him to raise them to the level of sea shattering realm.

Lin Yi's mouth didn't stop at all as he thought about it. He continued to give orders, "Fernandes, take three steps forward and attack!"

Fernandes did as he was told, and another tentacle was cut off!

The giant octopus seemed to sense that something was wrong and suddenly spewed out a large amount of ink!

Suddenly, everyone's vision turned dark, and the giant octopus tried to escape!

"Close your eyes and use your power to sense the location of the giant octopus!"

"Next, follow my instructions and continue to attack together!" Lin Yi said.

"Yes!"

Only then did everyone remember about superpowers. They were surprised to find out that they could fight monsters with their eyes closed!

They couldn't be blamed for not thinking of this. These people usually didn't come into contact with divine sense at all. Even if they obtained this ability, it would be difficult to directly use it.

It was much easier with the detection of spiritual awareness. Everyone was an expert in battle, and with a battle formation, it was even more like adding wings to a Tiger.

Soon, the four groups took turns to attack and finally cut the miserable giant octopus into a ball!

The tentacle-less octopus was no longer a threat. After another round of battle, it was sent to heaven.

Mike was very excited. He couldn't believe the battle results in front of him!

Once upon a time, his childhood dream was to be a great hero who saved the world, so when he grew up, he joined the sword of sanctions Knight Association and became a Knight.

However, as the pressure of reality gradually destroyed his dream, he finally understood that Knights weren't omnipotent. Although he was already a half-step heaven rank, there were still many stronger experts in the world.
