

Bodyguard 7551

Chapter 7551

However, Mike's hot-bloodedness still made him want to achieve something. He wanted to become a powerful person.

He didn't think that his dream would come true after meeting Lin Yi. He never thought that he could defeat a sea monster!

Furthermore, it was a sea monster at the Golden core stage!

Although Lin Yi killed Justina, he didn't hate Lin Yi.

He could die for Justina, but what right did Lin Yi have? Lin Yi didn't like Justina!

But just because Mike didn't hate Lin Yi didn't mean that he accepted him. He still felt a little repulsed by Lin Yi.

It was only after the destruction of the new branch and the sea serpent king's palace operation that Mike had complete respect for Lin Yi.

This was a Miracle Man who could give him strength and lead the ruling Sword Knight Association to glory!

In fact, Harris had the same thoughts. Although he was previously stronger than Mike, he was more able to recognize reality and knew the true strength of the ruling Sword Knight Association.

However, he was a man with dreams and ambitions. After seeing Lin Yi's strength, he stepped down to let Lin Yi have his way. His goal was to bring the ruling sword to the top.

A few foundation establishment realm cultivators actually killed a golden core realm sea monster, and it was even a golden core realm sea monster. Who would believe this?

However, this was the truth. They had done it without any casualties on their side.

The other members of the team were also looking at Lin Yi with passion, gratitude, and glory.

In their hearts, Lin Yi was a miracle!

"BOOM!"

Lin Yi's divine sense was upgraded again. In the blink of an eye, it became the peak of the early stage of the shattered Sea realm!

As expected, when the members of the team showed gratitude, it would be transformed into power of belief and turned into divine sense.

Lin Yi was already numb to his crazy leveling up-he was even starting to doubt if the strength he had in this nine-story tower was his real strength. He didn't want to go back to normal as soon as he left the tower.

At the same time, a man was sitting in a room full of precision electronic facilities.

There were several monitors in the room, and the man was staring at them. The screens were showing the situation of each team on the second floor of the glazed Pagoda!

This man was the sea serpent King's Holy envoy, the glass-like man, soyatu, who had appeared on the first level!

"It looks like it's not bad. These test subjects have all developed their divine sense, and they've also driven their physical bodies to improve by a corresponding level!"

"It seems that the Holy Emperor's deduction is correct. This way of leveling up is much better than using medicine to level up!"

"Eh? How did this happen? Why is this team's organizing ability so strong?"

When Saint soyatu's eyes landed on Lin Yi's team, he was shocked. "The second level should only be the ability to open the spiritual sense. Even if it can upgrade the physical body, it should at most be upgraded to half-step Foundation establishment or early Foundation establishment. Why is the spiritual sense of the people in this team at the middle Foundation establishment stage?"

The so-called activation of the spiritual awareness was the initial stage of the cultivator's contact with the spiritual awareness. It was already very good to be able to release the spiritual awareness when the spiritual awareness had just been cultivated.

At this time, the spiritual sense level of the early stage was basically half-step Foundation establishment or early Foundation establishment.

And now, anyone in Lin Yi's team had a very strong spirit sense!

"Could it be that because they have more people, the difficulty of the tasks assigned to them is higher, so their divine sense ability has improved?"

Saint soyatu was puzzled.

However, he only saw the strength of the team on the surface. The strongest was Mike, and Lin Yi's strength was naturally hidden. There was no way for Saint soyatu to discover it.

The rest of the teams had basically all activated their spirit sense, but it was only activated. None of them were as strong as Lin Yi's team.

As Saint soyatu was still confused, Lin Yi had already reached the finish line-there was no more path ahead.

According to Lin Yi's deduction, the entire second floor was a formation.

No matter which direction they went, they would be able to encounter these three waves of tests. After the tests were over, they would reach the end if they continued walking.

As expected.

"Welcome to the second level's terminal! Congratulations! You are the first team to arrive. Please take a rest and wait for the other teams!"

A pillar of light descended from the sky, and the image of Saint soyatu appeared in the light pillar.

Lin Yi waved his hand, telling everyone to sit down cross-legged and continue training the power they had just obtained, the spirit sense.

Saint soyatu, on the other hand, was a little surprised-he didn't think that Lin Yi's team would place so much importance on their spirit sense, practicing as soon as they had time!

Now, he understood why Lin Yi's team's spirit sense was so strong!

It wasn't because Lin Yi's team was talented, but because they were hardworking!

"Well done, you're a qualified leader. I'll consider rewarding your team after the final test!"

Saint soyatul nodded in satisfaction as he spoke slowly.

"Reward? What's that?"

Lin Yi asked subconsciously. Everyone was here for something, and this reward was probably the biggest reward.

"You'll know when the time comes!"

The man obviously didn't want to say more.

Lin Yi shrugged. Since the man didn't want to talk about it, he didn't want to ask. He closed his eyes and sat down cross-legged as well.

"Why aren't you cultivating?"

The man suddenly spoke up, his eyes shining as he looked at Lin Yi.

All this while, Lin Yi's team's battles had been completed by his team members, and Lin Yi's performance was only at the Foundation Stage. He didn't check Lin Yi's spiritual sense strength.

Lin Yi's heart skipped a beat as he quickly activated his spirit sense, but he only controlled it to the peak of the late Foundation Stage.

"Oh?"

Even so, he was still surprised-Lin Yi's spirit was even stronger than Mike 's!

After waiting for less than five minutes, another team arrived.

Lin Yi remembered that there were seven people in this group before, but only five were left now, and they were all injured.

He didn't know if the other two were dead or injured and had been left somewhere.

Among the five of them, there were weak spiritual fluctuations on their bodies, and it seemed that they had already activated their spiritual sense abilities.

However, the strength of their divine sense was too low, and they couldn't be discovered without looking carefully.

It seemed like the other teams had gotten their spiritual sense, but they didn't train it deeply. This was completely different from Lin Yi's team who could already use it!

At the same time, about five kilometers away from the end point, the team on Tower Road was resting.

"Boss talu, the second level is quite dangerous! Although the benefits are obvious, and we've all inexplicably advanced to half-step Foundation establishment or even early Foundation establishment, the price is not small!"

Bobby was injured. Although it was not serious, he looked more embarrassed. "I wonder if that brat aedanpolo died? I estimate that at least half of their team will die!"

Chapter 7552

The members of this team had also activated their divine senses, but they didn't know how to use them.

They paid more attention to the physical strength that was driven by the divine sense to upgrade, thinking that this was the benefit of the second level.

"So little? I'd say it's definitely at least two-thirds!"

Nasby, another of talu's confidants, sneered disdainfully. "We have boss talu leading the team, and our brothers are all cooperating well. That's how we managed to get here. What's the point of stopping here?"

"Well said! We brothers are United, no one can resist us!"

Taluhaha laughed and stood up. He waved his hand and said, ""We've rested enough. Let's keep going. Let's see if we can make a fool out of adianpolo as soon as possible. I hope that kid doesn't die so soon!"

Talu felt that the other teams were not as good as him. It would be good if a third of the people on adianpolo's side survived!

Twenty minutes later, the tower Road team arrived at the finish line-they saw adianpolo and Lin Yi's team perfectly fine!

"what ? ! They are still alive?"

Bobby looked at him in disbelief, holding his head with both hands and shouting, ""And they even got here before us? What's going on?"

"Did you cheat? How could there not be a single one injured?"

Nasby said that at least two-thirds of Lin Yi's team had died, but he didn't understand why Lin Yi was slapped in the face by strength. "Bobby, let's go and have fun with Adian Polo!"

Bobby glanced at tallu and saw that his boss did not object and maintained a tacit posture. He immediately crossed his arms with Nasby and shook him.

In their eyes, both of them were at the early stage of the foundation building realm, which could easily crush adianpolo.

"Adianpolo, our business isn't over yet. Let's take advantage of this time to solve it!"

After approaching, Bobby directly hooked his finger at adianpolo. "Although I'm slightly injured, I'll give you a discount! If you don't dare to fight, then avoid me when you see me in the future!"

"Idiot!"

"F * ck off!" He coldly glanced at them. "Or I'll serve you with my big feet!"

"Yo! You F * cking ..."

Bobby was about to explode when Lin Yi's cold eyes swept over him.

There wasn't any fierceness, cruelty, or killing intent added to it. It was just an ordinary and indifferent gaze, but it made Bo feel as if he had fallen into an ice cave, and his whole body was cold!

For a moment, he was so scared that he couldn't even continue speaking!

In that instant, Bobby thought he was going to die from Lin Yi's stare!

"What are you looking at? Come and try if you dare!"

Nasby didn't look into Lin Yi's eyes, so he didn't have the same feeling as Bobby, ""Bobby, what are you doing? Kill him!"

Lin Yi was a little speechless-if it weren't for the rules of the second floor, he'd be killing these two!

But Lin Yi still wanted to go to the next floor, so he couldn't make it stand out too much.

Lin Yi was about to scare Bobby again when Saint zoatu warned him, ""Before the third floor opens, it is forbidden to attack each other. Do you think my words are nonsense? Get back to your own team!"

His calm words carried the pressure of divine sense, giving people an uncontrollable sense of oppression, making them want to submit.

Of course, this didn't include Lin Yi, who had seen through soyatu's trick.

Nasby and Bobby were frightened and quickly returned to their team.

With this precedent, the teams could be said to be clearly divided for the rest of the time, minding their own business, and no one dared to be a protruding lumbar disc.

After a long wait, about an hour later, the twelve teams on the second floor had finally gathered!

Lin Yi observed in secret. All twelve teams had spirit sense fluctuations-they should have all activated their spirit sense abilities successfully.

About 40% of them had a slightly stronger spiritual sense. They should have used it before, but they had not used it or cultivated it.

"Since everyone's here, I won't waste any more time!"

Saint soyatu walked out of the pillar of light. This time, it was no longer a projection, but a real person. "Let's first judge your performance on the second level!"

"I will reward the teams that perform well ..."

"I want to make a report. Adian Polo's team must have cheated! Please investigate thoroughly and punish them severely!"

Before Saint soyatu could finish his words, Bobby suddenly jumped out!

Having been interrupted, Saint soyatu immediately frowned in displeasure.

However, Bobby didn't realize it and continued to shout, ""With their strength, how could they have come here unscathed? And he's even faster than us! That's definitely cheating!"

Originally, Bobby had some doubts. Now that he heard Saint soyatu say that the team with excellent performance would be rewarded, he suddenly couldn't sit still!

"That's right, they must have cheated. In order to ensure the fairness of the test, please investigate them strictly!"

Nasby immediately followed up, and even secretly put his hand behind his butt to beckon his own people, making everyone stand out and form public opinion, forcing Saint envoy soyatu to punish him.

"Shut up!"

"Shut up!" Holy envoy soyatul bellowed, "how dare you speak when I'm talking?!" Don't you know what you are?"

Bobby was slightly shocked and quickly put on a flattering smile. ""My Lord, I'm telling the truth ..."

"What the f * ck!"

Saint soyatul cursed as he sent a flying kick at Bobby, sending him flying.

"Owwuuu!"

With a scream, Bobby flew directly more than ten meters and hit a rock with a "squish". Several bones were broken ...

Big feet as well! Morris and the others "eyes lit up as they compared Lin Yi's feet to soyatu 's, but they still felt that Lin Yi's feet were better!

"I'll teach you a lesson. If you dare to compete again, especially if you interrupt me, I'll kill you!"

Saint soyatuo looked at Bobby coldly and warned.

Nasby shrunk his neck and no longer dared to encourage the others. He quickly retreated a little, afraid of attracting the attention of Saint soyatu.

"Let's continue. Where were we just now?"

Saint soyatu thought for a moment before continuing, ""Oh right, speaking of teams that perform well, they will be rewarded! As for the reward, we'll talk about it later!"

Bobby suddenly wanted to cry but had no tears. He thought, "you blame me for interrupting you, but you didn't intend to continue!" I'm so unlucky!

"According to my observation, the team with the best performance this time is this 13-man team!"

Announced Saint soyatu.

After some observation, Saint soyatu realized that Lin Yi's team had the strongest spirit. Even all the other teams combined couldn't compare to them.

Chapter 7553

This made Saint soyatu curious about Lin Yi-this guy had some ability, to be able to see the advantage of spirit sense and urge his team members to train.

This person could be treated as a key training target and be recommended to the sage Emperor. It was hard to guarantee that he wouldn't be able to hold his own in the future!

If Lin Yi had a bright future, then his recommendation would be a merit, and he'd be rewarded by the new sanctuary.

"My Lord, I would like to ask, how are your results judged? I think our performance wasn't bad at all!"

"If it's just because they arrived here first, I don't think it makes sense!"

In the end, Saint soyatu did not pay attention to tallu at all and continued to say,""As for why they are the most outstanding? My judgment is based on the spiritual awareness abilities of each team member! Not only did this 13 man team have zero casualties, but they also opened their spirit sense and even cultivated it, so they are well-deserved first!"

"Divine sense? What the hell is that?"

Dale was confused."All the members of our team have leveled up. They're all foundation building experts now. Why can't they do it?"

"Then look at everyone here, who's not in the Foundation Stage?"

Saint soyatu looked over coldly and impatiently. "I told you not to interrupt me when I'm talking, so shut up!"

As he spoke, Saint soyatu swept his gaze over, causing tallu to let out a blood-curdling scream and fall to the ground!

A divine sense attack!

What Saint soyatul used was a spiritual attack!

The others might not have noticed, but Lin Yi saw everything clearly.

It was at this moment that Lin Yi saw soyatu's strength-he was a practitioner of the original level, and a practitioner that focused on his spirit.

In other words, the other party's primordial spirit had also reached the nascent Soul Stage!

This was the so-called reason why one look could kill a person.

Ta Lu's team immediately kept quiet out of fear and did not dare to disobey. They obediently listened.

"Next, I'll explain to everyone what divine sense is and what uses it has! You can treat it as a lesson, but this lesson will be very beneficial!"

"To put it simply, you can understand the divine sense as an extension of spiritual power. Having a strong divine sense can play a very big role in battle."

"How about just now, the method I used to attack that person was divine sense! With one look, I made him kneel down. It was a spiritual sense attack!"

Everyone suddenly came to a realization. So there was such a combat method, they had never heard of it before!

Aside from Lin Yi, even Mike and Morris were shocked. It was as if they had entered a whole new world.

"You may have already noticed that your Six Senses are sharper than before! That's right, the purpose of this level's test is to allow everyone to successfully open their divine sense! You can feel that your field of vision has greatly increased, and there are almost no blind spots. You can now observe places that are usually difficult to see. "

"Moreover, you're all Foundation establishment experts now, so how did you level up? That's because once your divine sense is activated, a beginner will reach half-step Foundation establishment, or even early Foundation establishment! And the improvement of the consciousness will drive the improvement of the true Qi in the body, and from there, the body will be upgraded together!"

"This is only the basic knowledge of the divine sense. There are still many techniques and uses for it. You can slowly study and experience it in the future!"

.....

Saint soyatu had said a lot, but it was basically the basic knowledge of the divine sense.

Lin Yi found that this person's teaching was quite good, very professional, and even involved some basic training methods of the spirit.

These theories were already not inferior to the introductory divine sense manual of the ancient martial world!

With soyatu's explanation, the people present could basically start to cultivate their divine sense by referring to it, and they could obtain a certain level of improvement in a short time.

Even on a Sky Class Island, one might not be able to find such a good entry manual for people to practice!

At least in Lin Yi's Mystic division sea college, Xu Xiaoyan didn't explain it in such detail.

Lin Yi pinched his chin as he looked on coldly, thinking about this man's background.

Could this person be related to the small ancient martial world? Otherwise, why would he be so well-versed in spiritual sense?

Or could it be that this so-called sea serpent King originally came from the small Jianghu in the ancient times?

This was all possible!

"Alright, that's all for the class. Now, try the method I taught you and see if there are any changes!"

Saint soyatul clapped his hands to wake up the crowd, who had been listening in a daze.

After listening to Saint soyatu's words, everyone immediately returned to reality from their drunken stupor and hurriedly began to cultivate according to the method taught by soyatu!

The effect was obvious-most people could already use their divine sense, but Mike and the others didn't think much of it. They had already started training their divine sense after receiving Lin Yi's guidance, and only knew that this ability was called divine sense.

At the same time, Mike and the others' admiration for Lin Yi grew even more. He'd already figured out the discipline's pattern and training method before even waiting for Soyatu's lecture!

The captain was indeed the captain. He kicked twice and was awesome, klass!

"Everyone's performance on the second level is not bad. I've said just now that the team with the best performance will be given a certain reward!"

After everyone was done with their training, Saint Soyatu brought up the same old topic again. "The third level is about to open. I'll fulfill my promise now."

As he spoke, Saint Soyatu took out a Jade bottle and shook it above his head. "There are thirteen pills in here. After taking them, they can speed up the cultivation of the spiritual sense! I'll now award it to the team with the best performance. The rest of you must work hard too, there will be more chances next time!"

Lin Yi blinked. A pill that could speed up the training of the spirit?

Could it be the spirit tempering pill? Or the spirit accumulation pill?

Such a precious pill could be sold for a sky-high price, and the man in front of him just gave away thirteen of them?

Did he have to be so generous?

The thought hadn't even finished when Saint soyatu handed the Jade bottle to Lin Yi. "You're the team leader, so you'll be in charge of the distribution!"

"Many thanks!"

Lin Yi accepted it without batting an eyelid and thanked him before opening the bottle to take a look at the pill inside.

There were indeed thirteen of them, but they were small and exquisite-they were only half the size of Lin Yi's fingernail!

In fact, it was more appropriate to call it a pill.

Not a pill?

It can also speed up the cultivation of the divine sense?

Why did he feel that something was wrong?

Lin Yi raised an eyebrow and closed the bottle calmly.

This kind of medicine with unknown origins and unknown ingredients, it was better to wait for research to confirm that there were no problems before giving it to the team members. Otherwise, if something happened to them, they would be screwed and would have to save themselves!

Chapter 7554

"You're not going to give the pills to your men? Let them take it, it can increase their strength!"

Saint soyatu paused, not expecting Lin Yi to just put the Jade bottle away!

As a Captain, aren't you being too brazen with your corruption?

The reason why he gave it to Lin Yi was because he wanted to do Lin Yi a favor and recommend him to the Saint Emperor. After Lin Yi's meteoric rise, he'd have one more connection in the new Saint.

However, you embezzled the ink right in front of me ... Should I pretend that I didn't see it?

"They're not my men, they're my teammates. I'll keep the things first, and I'll give them later."

Lin Yi smiled faintly and turned to his team, "Everyone's strength has increased by a large margin. There's no benefit in taking pills to continue improving now. We'll talk about other things after we stabilize our current strength."

"I understand! Old eighth Captain, you're afraid that we can't hold it anymore and take the pill right away, causing our strength to be weak, right? As expected of eighth brother's Captain, you're so thoughtful!"

Mike clapped his hands and said with bright eyes, "Actually, I think that the pills should all go to the captain. The stronger the captain is, the stronger we will be. Don't you think so?"

"Right! I also think so! I, Fernandes, will now give my share of the pill to the captain!"

Fernandes's leg hair was very sensitive, and he hugged his thigh without hesitation.

The others also expressed their opinions. Maybe some of them wanted the pills, but with Mike and Fernandes leading the way, no one would be embarrassed to ask for more pills after someone followed them.

Saint soyatul's eyes widened as he looked at the scene in disbelief. What the hell was going on?

It's obvious that he's corrupt, but you're still in a hurry to condone it? Why don't I have such a subordinate?

If this pill was given to the captain alone, it wouldn't be effective!

Saint soyatu felt a headache coming on. He wondered if it would be better to get the Jade bottle back and then send it out to them one by one so that they could consume it on the spot.

But if they did that, it would be the same as offending Lin Yi, a potential stock!

It was really difficult!

"Forget it. It's useless for me to eat so much alone. When the time is right, I'll naturally give it to you!"

Lin Yi didn't know whether to laugh or cry.

It's really for your own good that I'm not giving it to you for the time being. It's not that I want it for myself. You should be more observant when you show your loyalty, right?

Didn't you see how unhappy the Saint was? If he continued, who knew if the other party would get angry?

Saint soyatu was more or less relieved after hearing Lin Yi's words-it didn't matter if they ate later, as long as they ate it!

"Good! Now that the rewards have been distributed, it's time to open the entrance to the third floor!"

Saint soyatul was rather straightforward. After saying that, he opened the entrance to the third floor and continued, ""The 3rd level is different from the 2nd level. We will no longer be moving in teams."

"Everyone will become an individual and be randomly sent to a corner of the third level! On the third floor, you need to continue to cultivate your divine sense. As to how far you can cultivate and what kind of fortune you obtain, it will all depend on your own efforts!"

"The rules are still the same. After you meet each other, you can compete with each other, but you can not kill each other! Whoever dares to kill me, I will kill him to pay for it, do you understand?"

"Understood!"

"I understand ..."

Sparse responses came from everywhere. After all, this was not a regular army, so Saint soyatu could not ask for too much.

"Since you understand, then go in!"

Saint soyatu nodded to Lin Yi. "Your team is still the first! Work harder and try to get the best results again! I have faith in you!"

Lin Yi's lips twitched. What's the point of looking at it or not? who knew if that stupid reward had any side effects!

Before entering, Lin Yi used the time to secretly leave a spirit mark on Mike. Although Saint soyatu said that he couldn't kill anyone, he had to ensure Mike's safety.

And so, Lin Yi's first goal after entering the third floor was to find Mike.

As for the others, he would just treat it as a chance for them to gain experience!

They wouldn't die anyway, so they might get more benefits if they let them go.

"After everyone enters the third floor, be careful. Remember the important thing, that is, when you encounter difficulties, use your divine sense!"

As the team leader, Lin Yi had to remind everyone that they didn't have much experience in solo adventures, unlike Lin Yi who had already gotten used to clearing Dungeons.

"I'm not too sure about the situation in the third level. While you're training, try your best to find companions, support each other, and take care of each other!"

"Yes! Captain!"

Morris and the others quickly nodded, their expressions extremely solemn.

They didn't want to be separated from Lin Yi-they could easily pass each floor with a strong Captain like him.

But now, he had to truly rely on himself.

However, everyone also secretly made up their minds. They must not embarrass their Captain!

In any case, the members of the team had a much higher starting point than the other teams!

Whether it was his spiritual sense or physical strength, he had already surpassed the other teams!

With such a huge advantage, if he still couldn't do anything, then he would really weaken the team leader's aura.

"Alright, let's go!"

Lin Yi waved his hand and walked into the tunnel.

This time, Lin Yi was careful and told the damn thing to come out and see the secret of the portal.

"Senior ghost, did you discover anything strange this time?"

Lin Yi asked as soon as they entered the portal.

"It indeed doesn't look like a normal formation."

"Speaking of which, it's somewhat similar to the technological combination formation on the sub Island ... But it's more precise and advanced," the demonic thing said after pondering for a while.

"A technological formation? Could central be behind this?"

Lin Yi was shocked!

Lin Yi's first reaction was to think about the center!

It was impossible for the sea serpent King to have created such a high-end thing tens of thousands of years ago. Moreover, human technology could not create it now.

In the entire secular world, other than Han Jingjing, Central was probably the only one who could do something like this.

Could it be that the sea serpent king's palace was created by the new Holy region?

However, did the center have the ability to quickly improve the primordial spirit? If there were, then wouldn't the bio-humans developed by the center be extremely powerful?

"I'm not sure. You need to investigate it yourself ..."

After the ghastly thing finished speaking, he continued to do his own things.

As he spoke, Lin Yi's vision blurred, and the teleportation ended. He was now in the third floor.

This time, it was no longer the underwater world. It was no longer surrounded by seawater, but normal air!

Chapter 7555 I'll Kill You Alone

But, this place ... Why did it look so familiar?

On the other side, after Saint soyatul sent off all the trial-takers on the second level, he immediately contacted the Saint Emperor.

"Your Majesty Sage Emperor, the effects of the second floor were extremely good. All the survivors successfully opened up their spiritual sense, and their physical strength also greatly increased."

At this moment, Holy envoy soyatu was very respectful, unlike his previous arrogance. "Among them, there are some who have performed outstandingly and have far exceeded our expectations. The specific list is as follows ..."

Everyone in Lin Yi's team turned into an image in front of the Saint Emperor.

As for their names, they were labeled with the labels 'test subject No. 1' and 'test subject No. 2'.

Naturally, Lin Yi was the number one test subject!

"You've done well. Continue to pay attention and report to me if there's any progress!"

The Saint Emperor nodded in satisfaction, exuding the aura of a superior being as he praised, "I'll remember your achievements. After the mission is completed, I'll reward you!"

"Many thanks, Sage Emperor. This subordinate will definitely bow to you and die before you!"

This was exactly what Saint soyatul wanted to hear, and he immediately bowed to show his loyalty.

The sage Emperor gave a few more words of encouragement before ending the call with soyatu and contacting miss LAN.

"Miss LAN, my suggestion was a great success. Everyone who entered the second floor had activated their spiritual sense. Some of them even exceeded our expectations and had a considerable increase in the strength of their spiritual sense."

The Saint Emperor was very pleased with himself as he asked LAN xiaoru for credit,""With this experience, I'll be able to produce a large number of high-level experts in the future if I train them according to my methods! He's much more powerful than the simple biochemical expert from before. "

Although the experts from the center were also experts, most of them improved their strength through biochemical experiments. Their strength was greatly reduced at the same level.

For example, the few Saint messengers Lin Yi met before were golden core Masters, but they were only half-step golden core Masters.

However, the method proposed by the sage Emperor was to stimulate the consciousness of the test subject, allowing the consciousness to drive the physical body to upgrade in tandem. This way, not only would the experts produced not have the flaws of the previous biochemical drugs, but they would also be stronger than ordinary experts of the same level.

"You've done well! If the plan really succeeds, I'll personally ask professor li to help you claim credit, and it won't be difficult for me to help you return to the ancient martial world and dominate it. "

After listening to the sage Emperor's report, LAN xiaoru smiled."It seems like choosing you to be the Saint Emperor of the new Saint realm was the right choice!"

The sage Emperor laughed triumphantly. He also felt that he was a genius.

Lin Yi was still in shock.

Lin Yi only felt that the place looked familiar when he first arrived, but this was normal. Many people had the same feeling when they were in a place they'd never been to before.

But after a while, Lin Yi was sure that he'd been here before!

This was the trial ground of the small Jianghu in the immemorial era!

The third level of the nine-level glazed Pagoda was actually the training ground?

In that instant, Lin Yi was dumbfounded!

He wouldn't make a mistake. Back then, Lin Yi found the spirit grass and spirit grass here, building an indestructible Foundation for his spirit to become stronger.

He had also heard the news of the purple mist sinful Lotus from the nine neonate here!

Hence, this was a place that was extremely important and meaningful to Lin Yi.

He could mistake her anywhere, but not here!

Thinking about the ancient martial world, Lin Yi felt nostalgic.

Come to think of it, he had never returned since he left the last time.

Leng Leng, Duanmu Yu ... And many of my friends. I wonder if they're all doing well?

Lin Yi shook his head, trying to get rid of these thoughts.

It seemed that when one got older, one would miss it more easily.

In fact, Lin Yi wasn't old-he was only in his twenties, which was considered young in the world of practicing.

It was just that he'd been through too much over the years, and he wasn't young anymore.

Could it be that the third floor of the nine-story glazed Pagoda was related to the ancient martial world?

Or did the center use a teleportation formation to send them into the small Jianghu of the immemorial era?

Or could it be that the nine-story glazed Pagoda had replicated the trial ground of the small Jianghu in the immemorial era, but this was not the real trial ground?

No matter what, he had to find Mike first!

Lin Yi could feel the spirit mark on Mike-he wasn't too far away.

With that thought, Lin Yi activated his lightning escape and disappeared in a flash of lightning.

"Hahaha, I'm lucky to have met a companion of adianpolo!"

Bobby stopped Mike with two people.

This guy was quite lucky. Not long after he entered, he met two companions, and then Mike, who was alone. "Since that brat aedanpolo isn't here, it's the same to mess with you first. If you want to blame someone, blame your companion, aedanpolo!"

"You think it's useful to have more people? What a joke!"

Mike sneered disdainfully and was not afraid of Bobby and the other two. "A real Knight is not something that dirty things like you can understand! Come, I'll show you my true strength!"

If it was before the breakthrough, Mike would not be afraid of a one-on-three battle. It was just three small town gangsters, what was the big deal?

Now that his strength had greatly improved and he had superpowers, Mike was even more eager to try!

He had long wanted to find someone to practice with. Bobby brought people to the door, which was really good!

"You're pretty good at bragging, we were almost scared by you!"

Bobby laughed strangely, "do you think we can't kill you? is that why you're not afraid?" To tell you the truth, even if I don't kill you today, I'll make you suffer a lot of humiliation and then you'll beg for death!"

"So much nonsense! Why? It's three against one, and you guys still don't dare to fight?"

Mike snorted contemptuously, holding a sword in one hand and hooking his finger at Bobby and the other two, ""Come on! I won't kill you. At most, I'll beat you until you doubt your life and then commit suicide!"

"Bullshit! I can kill you by myself!"

Bobby's eyes widened, and his hands suddenly stretched out into claws. Then, he shouted, ""Freeze!"

Mike felt his body tighten as if it was bound by something, and he could no longer move!

"What? What kind of power is that?"

Mike was shocked. This was the first time he had encountered such a strange power!

Caught off guard, he actually directly lost the ability to resist!

"Hahaha, I've already said that I can kill you alone!"

Bobby laughed a few times, and suddenly his face turned red. He shouted to his two companions, ""What are you guys doing? Hurry up and tie this kid up! I can't hold on for long!"

Chapter 7556 Slapping Himself

His two companions immediately rolled their eyes at him. Didn't you say that you could kill him alone?

Was it really appropriate to show cowardice after acting tough?

Bobby couldn't help it. Mike's strength was beyond his imagination. Although he was temporarily trapped, it was really hard.

If he could deal with Mike alone, he wouldn't ask for help from his companions. It would be better to act tough alone!

"Bobby, did you bring a rope? I don't have a rope here!"

One of the companions searched his body and looked at Bobby innocently.

The other one was about the same. He shrugged and said, ""I don't have a rope, how can I tie him up?"

Bobby was almost angered to death. I'm very tired. Do you want to ask me everything?

"Take off your belt and hold it off for a while!"

He had no choice but to think of an idea to solve it. Bobby felt that he was really witty! I'll give myself a like when I'm free!

"Alright! Get it done immediately!"

The eyes of the guy who spoke first lit up. He took a step forward and started to unbuckle Bobby's belt with a click.

Bobby was instantly dumbfounded!

By the time he came back to his senses, the belt had already been removed. He almost spat out a mouthful of blood.

"Are you an idiot? Why did you pull my belt?"

"If I don't take your belt, do I take my own belt? I'd be the stupid one then!"

She retorted rather quickly!

Bobby's eyes were dizzy, and his power was almost broken!

"You're going to draw that kid 's! Can't we use his own belt to tie him up?"

"That's true! Alright, I'll help you put on your belt again!"

The man smacked his forehead and felt that Bobby's words made sense. He turned around and returned the belt. Bobby wanted to slap him!

Since it's already like this, can't you just tie him up first? I already said I can't hold on any longer!

Are you a F * cking spy from the other side? Are you deliberately trying to anger me to death so that you can save that kid?

Before he could say anything, there was a flash of lightning, and Lin Yi suddenly appeared in the field. Then, Bobby's power stopped working.

Mike's body relaxed. He had finally regained his freedom!

"Captain number eight, you're here! That's great! You've saved me again!"

Mike was overjoyed. He waved the long sword in his hand and sneered at Bobby, ""You want me to be humiliated? You want to tie me up? I ..."

Before he could finish, Lin Yi's body flashed and appeared in front of Bobby. He raised his right leg and casually kicked Bobby's face.

Bobby didn't react at all. He was still thinking about how Lin Yi broke his power after the lightning.

In the end, a Big Foot flashed in front of her eyes.

And then ... He soared into the sky!

It did a dozen somersaults in the air and then fell to the ground with a loud thud!

"Captain old eight, why did you use the big footprint control method on Bobby? Are you planning to control it like a sea beast?"

Mike was deeply surprised. He thought to himself, "the control method of the giant foot print is so magical. Maybe it can really control people?"

Lin Yi's mouth twitched. This kid's brain was pretty full of holes ... He knew how to control everything with big footprints!

"They dared to bully my team members, which means they didn't give me face. It's already good enough that they didn't die from my kicks!"

Lin Yi waved his hand and glanced at Bobby's two accomplices with cold eyes, ""You two, either slap your own faces or let me kick your faces!"

The two men looked at each other and weighed the situation in their hearts. They felt that they could control their strength better and wouldn't cause any problems.

Otherwise, he would be disfigured if he were to be kicked by the fierce-looking guy!

Bobby was originally ugly, and disfigurement was similar to plastic surgery, but they both felt that they were handsome men, and disfigurement was absolutely intolerable!

"We'll do it ourselves!"

The two nodded and started slapping themselves in front of Lin Yi!

"As expected, Captain old eight's Bigfoot manipulation technique is still awesome. He can even control people and do whatever he wants!"

"When can I have your strength?" said Mike with a look of admiration. "Even if it's just half, or even ... One-tenth, it'll be enough!"

Mike was speaking from the bottom of his heart-he was in complete admiration of Lin Yi now!

At the same time, as the heir of a large family, he was a little hot-blooded, but he still had a brain.

Mike didn't think that his father could afford to hire an expert like the eighth brother's Captain, because this kind of person was destined to be the protagonist no matter where he went. He wouldn't bend over for a little bit of money.

Hence, Mike didn't dare to call himself a young master anymore. He treated Lin Yi as his real Captain.

"Cultivate well. You'll have a chance!"

Lin Yi comforted her, but he knew that it was just a comfort.

His strength was obtained by going through life and death situations, and it could not be replicated! Lin Yi could've died if he wasn't careful-he had strength and perseverance, but he also had luck!

As for Mike, if it weren't for Lin Yi's help, he'd probably never have a chance in this life.

This was the environment of the common world-without Lin Yi, Mike wouldn't be able to reach golden core, not even one percent of Lin Yi's strength!

"I'll definitely work hard in my cultivation and strive to catch up to Captain eighth brother's footsteps as soon as possible!"

Mike's eyes were burning with anger. In the past, he only wanted to be a Knight who upheld justice. Now, he wanted to become a true powerhouse, a master who stood at the top of the cultivation world!

Mike paused after a while before turning to Lin Yi."Captain number eight, did you receive any news?"

"What information?"

Lin Yi didn't know what was going on-did someone send a message to Mike? However, if he was able to transmit his voice without being discovered, then he must be an expert!

One had to know that Lin Yi was now a true master of the broken sea realm!

What was the sea splitting stage? It had the power to split mountains and split seas, and could destroy mountains and earth with a punch or a kick.

Lin Yi's sea-shattering realm was picked up from the ground, but other people had to cultivate for dozens or even hundreds of years to break through.

After cultivators reached the heavenly Dao, their lifespans could be extended indefinitely, but that did not mean that they were immortal. Most cultivators would be hundreds of years old by the time they reached the mountain-opening stage, and some would even be old.

He looked like a young man on the outside because he had been like that when he had broken through to the heavenly Dao. It didn't mean that he wasn't an old fool on the inside.

In fact, most people had basically reached the end of their lives when they reached the age of mountain-opening. If they did not seek a breakthrough, they would inevitably be annihilated in the long river of history and become a speck of dust.

However, the sea splitting stage was different. The mountain split stage cultivated the spiritual sense, and the sea splitting stage cultivated the domain. Although it was not powerful, the sea splitting stage could involve a certain amount of spatial ability.

Chapter 7557 Summoning Sound

The spatial ability came from one's own body. Therefore, advancing to the shattered Sea realm was a process of reconstructing one's body.

Once a person advanced to the sea splitting stage, his inner core (that is, the Golden core or the nascent soul) would crack and become a sea that spread through the whole body. Like a dam bursting, it would break through the cells, muscles, bones, and meridians of the whole body.

No destruction, no construction!

His body, which had been broken apart, exploded like a sea being split open, and then gathered again!

It could be said that the split sea was a rebirth. As long as a cultivator stepped into the split sea, he would have a new life. His body functions would be restored to its peak again, and his lifespan would be increased by a thousand years.

This was also the reason why the academies in the mystic division Sea area attached great importance to the opening of their mountains. Once these students broke through to the shattered Sea realm, it would be a huge and valuable treasure.

Of course, Lin Yi's body wasn't here, and the reconstructed body was useless here. They couldn't be linked, so Lin Yi's split sea breakthrough wasn't shocking at all. There wasn't any explosive or cool feeling.

When other people broke through to the sea Rift realm, it was like a small universe exploding. Their bodies would explode and reform, obtaining new life. It was a very vivid picture.

If Lin Yi really did bring his body to level up, Saint soyatu would definitely notice the problem, and his cover would be blown.

But even though Lin Yi was at the sea Rift realm, he didn't find any messages.

This meant that either the other party was an expert at a higher level than the sea splitting stage, or they had used some technological means.

If it was the second possibility, han Jingjing would probably be the only one who could discover it.

"In my mind, a voice suddenly appeared. It seemed to be calling me to go to a place called the river of consciousness to cultivate."

Mike scratched the back of his head and said with some doubt,""Captain, why didn't you hear it? Am I an illusion?"

"That voice told you to cultivate in the spirit Sense River? Is there anything else?"

Lin Yi was shocked!

Mike had never been to the ancient Jianghu, so it was impossible for him to know about the river of consciousness. Therefore, what he said should be true. It was not an illusion at all, but he had really received some information!

"There's nothing else. Captain, do you know about the river of consciousness? What the hell is this? How are we going to go!"

Mike shook his head, a little confused.

"Follow me."

Lin Yi waved at Mike before turning to Bobby and the others. "All of you, come here!"

The two guys who were still slapping themselves were shocked. They thought that they had been found out for cutting corners, so they quickly slapped themselves to death. They almost died.

After they were done, they realized that Lin Yi didn't seem to be paying attention to them at all. He was looking elsewhere. They sighed in relief, but at the same time, they felt depressed.

The two of them hurriedly dragged Bobby over, nodding and bowing with flattering faces. "Boss, what are your orders?"

Although he knew that he wouldn't be killed, sometimes not dying was scarier than being dead ...

So these three really didn't dare to show any disrespect to Lin Yi-even if they hated him to death, they had to act like they were his father!

"Don't be nervous, I'm just asking if you know anything about the river of consciousness?"

Lin Yi waved his hand casually, acting friendly."Or did you guys hear any sound?"

"Yes, yes, yes! I heard it! I've just heard that someone wanted me to cultivate in the river of consciousness. I wonder who told me that ..."

"Me too, me too! He told me to cultivate in the consciousness River. That voice was very majestic, sacred and inviolable! I think it's the sea serpent King talking to us. After all, we're all favored by the sea serpent King!"

The two guys who slapped themselves hurriedly competed to show their skills.

As Lin Yi expected, Mike wasn't the only one who heard the message.

Out of all the enemies, Bobby hated Lin Yi's team the most, and so he hated his two companions the most!

What was this? he had no moral integrity at all! That was the enemy, okay! Can't you guys have some backbone?

"Oh, Bobby, what about you?"

Lin Yi nodded slightly and turned to Bobby, who had taken a big kick, ""Are you deaf or did you not receive the message? Do you need me to kick you again?"

"No, no, no! I'm just thinking of how to add on to that, aren't I?"

Bobby was shocked and immediately nodded and bowed. ""The two of them said everything they wanted to say. I was so angry that I quickly recalled something different! After trying my best to recall, I seemed to have vaguely felt the location of the river of consciousness! Boss, if you want to go, I can lead the way!"

Originally, the other two guys saw Bobby's anger and thought that this guy had a backbone and dared to continue to fight. They didn't expect to blame them for saying too much!

Lin Yi blinked, "you can still sense the location of the river of consciousness?" Mike, can you sense it?"

"I can't sense it!"

"I thought it would be like the 2nd floor, where I would have to walk to the river of consciousness no matter where I went!" Mike shook his head with a blank look.

However, Mike's words made sense. It was not impossible!

Of course, there was also the possibility that Saint soyatu had deliberately not released the full information, so that these people could compete with each other and not kill each other. This was a special test.

Lin Yi pinched his chin as he fell into deep thought. If this place copied the ancient martial world's training ground, then the river of consciousness would be the end point of the third level. It did fit the criteria of reaching it no matter how they walked!

However, if it was a teleportation array, that meant that this place was not a replica, but the real trial ground. Then, he could not walk around casually. If he got lost again, he would be finished.

After all, Lin Yi hadn't completely explored the real training ground yet. He was still heading straight for the river of consciousness.

"Bobby, where did you sense the location of the river of consciousness?"

Lin Yi, of course, didn't need Bobby to lead him to the river of consciousness-he just wanted to test it out.

"It's ... That direction!"

Bobby wasn't sure. He looked around and pointed in a direction. ""Big brother, why don't I take you there?"

He was putting on a smile, but Bobby was praying that Lin Yi wouldn't agree to it. He really didn't want to be with Lin Yi.

"No need! If I bring you along, you'll slow me down!"

Lin Yi rejected directly and pulled on Mike's arm. "Let's go! You'd better not let me see you bullying my team again, or I won't be able to control my foot. If I kick you out of the glazed Pagoda!"

Kicked out of the glazed Pagoda? You can continue acting cool!

Bobby didn't believe that Lin Yi could really kick him out. How much strength did he need to break the pagoda?

Perhaps only the person who could split the sea into two like when he entered the glazed Pagoda could do it?

So sometimes, not knowing the truth was quite a happy thing. If Bobby knew that Lin Yi was a master of the shattered Sea realm and could really do this, he would probably be scared to death.

Chapter 7558 Trouble Comes From The Mouth

Before Bobby could react, Lin Yi had already flown away with Mike and disappeared in an instant.

The direction was exactly where Bobby was pointing, and it was the direction of the river of consciousness in Lin Yi's memory.

"Bah! You're the burden! Your entire family is a burden!"

Bobby waited for Lin Yi to completely disappear before jumping up and down. "I'll let you off today, you're lucky you ran fast! Don't let me see you in the future! Otherwise, I'll beat you up every time I see you!"

His two friends, on the other hand, were dumbfounded and turned around in fear. The guy was gone, but who could guarantee that Lin Yi wouldn't come back for him?

This Bobby was really an idiot. He had forgotten the pain after the scar healed. This kind of person would die without even knowing how he died. It was better to stay away from him.

"What are you two doing? 'What a coward. What's wrong with you? you're so scared that you don't even dare to curse?' What a cowardly thing!"

Bobby saw that his two teammates actually hid far away, as if they didn't know him, and he was suddenly angry. "Look at all of you, you're so useless ..."

Bobby was cursing happily when a lightning arc flew from the distance and instantly landed on Bobby's head.

"Bang!"

"Aooo!"

Bobby let out a shrill cry and was almost reborn by Richard.

However, Bobby made a sound, and the remaining two were made by his teammates.

The two of them were really unlucky. They were already so far away, but the lightning arcs that shot out still affected them!

Although he was only electrocuted, and not as miserable as Bobby, he still crazily thunderdanced, dancing for a while, and then fell straight to the ground.

"Boss, I was wrong. I won't do it again ..."

Bobby wanted to cry, but no tears came out. His dark face was completely charred, and when he opened his mouth, black smoke came out.

The other two groaned in pain. They were angry. "Bobby, you son of a B * tch. I'm so far away from you and I'm still affected!"

Bobby was just joking and didn't expect Lin Yi to hear him after he left!

The saying "trouble comes from the mouth" was not wrong at all!

Fortunately, the rule of the third floor was that killing was not allowed. Otherwise, if it were the first floor, they would have been electrocuted!

Lin Yi really didn't want to kill anyone-they were all small fries, and he'd just teach them a lesson. There was no need to let them affect his plan!

When he found out that this nine story lapis lazuli King Palace might have been created by the new sanctuary, which was central, Lin Yi secretly decided to find out.

Central's development was too fast-if he could cause them some trouble, then his trip to Europe wouldn't have been in vain. He wouldn't have wasted his time looking for Chu Mengyao.

Lin Yi flew with Mike. It wasn't as crazy as lightning escape, but it wasn't slow either. Soon, Lin Yi was far away from Bobby and the other two!

Not long after, Lin Yi and Mike got close to the river of consciousness, and there were other people within the range of their senses.

"Morris! It was Fernandes! And also aedanpolo!"

Lin Yi adjusted the direction of the mic and quickly arrived in front of the three. "Where are the others? Didn't you see it?"

"Captain!"

Morris and the other two were overjoyed to see Lin Yi-they quickly came up to greet him and Exchange a few words with Mike.

"I haven't seen the others for the time being, but we met them not long after we came in. I think it's not difficult to meet the others. Maybe we'll see them in a while!"

Morris explained, and then changed the topic, ""Captain, we were blocked over there and couldn't advance, so we retreated to think of a way."

"Aside from us, ta Lu and a few others are also blocked there. It's said that the river of consciousness is there, but none of us can cross it."

"You guys ... It's not easy to go over!"

Lin Yi's spirit sense had already spread out, and he had a weird expression on his face. "With it here, even if the rest of you gathered together, it's unlikely that you'll be able to break through!"

"Captain, you already know what it is? It's indeed powerful!"

Fernandes was surprised and quickly gave Lin Yi a thumbs up. "None of us can do it, but with the captain, there definitely won't be any problems! As long as the captain uses his Bigfoot manipulation technique, everything will submit to him!"

"That's right! The second kick's Captain was unrivaled! It's invincible!"

However, if he didn't say anything, wouldn't he seem unsociable?

He had no choice but to bite the bullet!

Lin Yi waved his hand and ignored them, sighing inside.

Within the range of his spiritual sense, what appeared was not an unfamiliar object, but an acquaintance from the ancient martial world, the black water lily!

At this time, the water lily had not changed much from before. Morris and the other two had retreated in time, so there was no problem. On the other hand, talu and the others had stayed there and were played by the water lily!

It was a familiar recipe and a familiar taste!

He had originally thought that the nine-story glazed Pagoda was just a replica of the trial ground of the ancient Jianghu, and that everything was just an artificial environment.

He didn't expect that even water lilies would appear!

Lin Yi's spirit sense confirmed that the water lily wasn't fake-it was a real life form!

In this case, it was a little magical!

It was impossible for a water lily to appear in the nine-story glazed Pagoda, and everything here was exactly the same as the ancient martial world!

So, this place was actually the small Jianghu of the immemorial era?

Did central really have the ability to connect their technology to the small Jianghu in the ancient times?

"Captain number eight? What should we do now?"

Mike saw that Lin Yi was deep in thought and started to worry, "Isn't there a bit of trouble?"

"Troublesome my ass. With the captain, we can just use the Bigfoot control technique to control that thing and it'll be over!"

Fernández's admiration for Lin Yi had reached the point of blind worship-he felt that nothing could stop his leg control skill!

If one kick didn't work, then two kicks, two kicks!

"The captain might think that although Bigfoot is easy, we can't practice and improve it, so he wants to guide us in the battle. So ... I apply to be the first to fight!"

Mike thought about it and agreed-even Bobby could control it with one kick, so Lin Yi's feet were strong! Mike's eyes lit up as he asked for the fight!

"ERM, Mike, you have to remember that you don't need to fight and kill for everything. Sometimes, as a cultivator, it's also very important to win others by virtue!"

Lin Yi couldn't just watch Mike become a battle maniac. After all, water Lily's strength wasn't something this guy could handle!

This kid's self-confidence was a little off the charts. Having self-confidence was a good thing, but it didn't mean that he could do anything to anyone he wanted!

Chapter 7559 Old Acquaintance Blocking The Way

This thing also had to consider its own strength. If it couldn't kill the other party, it might end up killing itself!

And so, Lin Yi tried his best to persuade her, "There's an old Chinese saying that a gentleman uses his mouth and not his fists! We're all gentlemen, so don't touch me when we can talk! Especially when you're facing an opponent who's stronger than you, you have to be even more careful!"

Mike was dumbfounded. There was such a thing?

But it seems like old eighth's Captain doesn't use his mouth but his fists!

"What Captain number eight said is right. I'll remember it!"

Out of respect and trust for Lin Yi, Mike could only nod.

"The captain is mighty! Every single sentence contained profound philosophy! Captain is indeed the idol I've admired for my entire life!"

Fernandes was completely shameless now. As leg hair, what was the point of being shameless?

Brainless flattery was the way to go!

"Alright, let's go and take a look. I believe the other party will be reasonable!"

Lin Yi said that because he recognized the water lily. They were all acquaintances, so he didn't need to touch it.

Morris and adianpolo looked at each other. They felt that something was not right. Their Captain had always been good at using his hands and feet. Why did he change his attitude now?

Did he meet a fake Captain?

Each with their own thoughts, the four followed Lin Yi and quickly arrived at the water lily.

Talu and his men were walking around in a small area, their faces full of fear.

Water lotus, who still looked like a handsome man, had a playful smile on her face. She looked at talu and the others, who were like headless flies struggling in the world of flowers and water.

"Heya! The three of you are back! You even brought two helpers, do you think you can pass with two more helpers?"

The water lily looked at the five of them and smiled, "I just feel that the ones inside are a bit lonely. You can go in and accompany them!"

"Wait! We're not here to fight you! Our Captain is here to reason with you!"

Fernandes stepped forward and said righteously, ""It's all thanks to our captain's kind heart that he didn't want you to get hurt. Otherwise, he could've killed you with one kick. You'd better be aware of that!"

"Yo! This shameless braggart, he really doesn't want face!"

Water lotus clicked her tongue in admiration. "It's been a long time since I've met a human as shameless as you. I'm in a good mood today. Listen to how your Captain is reasonable!"

After a slight pause, he immediately continued, "If your reasoning doesn't satisfy this protector, you can prepare to die of old age in my world!"

"You're the one who's boasting shamelessly. If it wasn't for our captain's compassion, you'd already be done for, you know!"

Fernandes hmped coldly and turned to Lin Yi."Captain, why waste words with this kind of guy who doesn't know what's good for him? just go up and control him with your big feet!"

Lin Yi thought that the water lily was an old friend, so kicking her was a bit too much!

Lin Yi felt like he was reminiscing about the past-he wanted to see how his old friends were doing.

"That whatever protector, what are you doing blocking this path? What does our trip to the river of consciousness have to do with you?"

Lin Yi remembered that he'd changed his appearance, and it wasn't good to meet the water lily directly. He could only be vague with how he addressed her,"Or are you trying to Rob me? Why don't you tell me how much it costs to buy the road?"

Mike was dumbfounded again. He had to pay for the passage?

Captain number eight, you can't be reasonable like this, right?

No, it must be that eighth brother's Captain was trying to numb the other party. If the other party really dared to ask for it, he would definitely have kicked him!

This was the so-called 'courtesy before violence' in China, right?

As expected, he was unfathomable! He had learned another move today!

Lin Yi didn't even think that much. He only remembered the nine infants in the river of deified soul.

The training of the spiritual awareness in the river of spiritual awareness was the sound of the wind released by the nine neonate. Its purpose was to attract people to come over as Tributes and let him devour their primordial spirits to nourish it!

So now that someone was going to the river of consciousness, what reason did the water lily have to stop him?

Lin Yi was a little confused. Central didn't teleport people here to give tribute to the nine infants, did it?

Thinking back to the situation of the first and second levels, could it be that they first cultivated a group of people's primordial spirits and then gave them to the nine neonate to nourish?

However, where did the nine neonate get such a big face?

The central region was such a powerful existence. They were domineering in the mystic Sea and ignored everyone. How could they take the initiative to please a small primordial spirit of the trial ground?

This matter was still strange, and he had to investigate it thoroughly!

"What road robbery and asking for money? Am I such a person?"

"Hmph!" Water lotus snorted. "This area is my territory. You've barged into my territory. Do you still have any reason?"

"Forget it, forget it. You won't understand even if I explain too much to you. To put it simply, this protector married a human wife in the past. Unfortunately, she was snatched away on the day of the wedding."

"That's really a shame for this protector. Unfortunately, I haven't met any similar human women since then. It's rare that so many of you have come today, and there are two beautiful girls among them!"

"If you want to go to the river of consciousness, it's very simple. Wait for those two beautiful girls to come over, this protector will pick one to be my wife, and naturally I will let you go!"

Lin Yi's mouth twitched. Was the water lily still thinking about Duanmu Yu? This fool didn't dare to cause him trouble back then, so he wanted to find a replacement?

It was a pity that this unlucky guy met Lin Yi again when he was about to get married ...

As he spoke, ta Lu came out of the mirror world with three of his friends. When they saw Lin Yi and the others, they didn't bother with the trouble and ran to the side to catch their breath.

"Heya! I was too focused on talking to you and didn't pay attention to you. Now, you have found a chance to escape!"

Water lotus clapped her hands, looking a little annoyed. ""What should I do? Why don't I take you all in together?"

"Don 't! We're not going to the river of consciousness!"

Talu's face paled as he took a few steps back with his lackeys. He looked at the water lily alertly and pointed at Lin Yi and the others. "You go play with them! We'll be taking our leave!"

Lin Yi frowned and looked at the group suspiciously. He didn't know if it was an illusion, but he felt that the spiritual sense of the group was stronger than before.

It shouldn't have been long since they came here. Ta Lu and the others didn't have the opportunity to cultivate, so how could their primordial spirits have strengthened?

Morris, Fernandes, and the others were still at their previous level. The only difference between the two sides was that Dalu and the others had all entered the mirror world of the water lily!

This was what Lin Yi didn't understand-it wasn't like he'd never been to the mirror world of the water lily before, and it didn't strengthen his spirit sense!

Chapter 7560 Water Lilies Marrying A Wife

Long time no see. Did he evolve?

So, being trapped in the mirror world wasn't a bad thing. In fact, it was a good thing?

"Don't worry, don't worry!"

Water lotus smiled and waved her hand, "I can let you go to the river of consciousness, as long as this protector marries a suitable wife!" There's a pretty girl here, let's do it!"

As he spoke, Serena's figure appeared in the distance. She saw Lin Yi and the others and immediately ran over.

Naturally, Lin Yi had noticed Serena long ago, but he didn't greet her. She was coming this way, after all, and they'd meet sooner or later.

"Captain eight, it's Selena!"

Mike glared at water lily. "He dares to have ideas about Serena. Captain eight, let's not win him over with virtue, okay?" Let's just F * ck him up!"

"Adianpolo, I think you should just give that girl to this Lord! As the favored of the sea serpent King, going to the river of consciousness is my top priority!"

Talu saw that water Lily's attention had shifted to Lin Yi's team, and decided not to leave anymore. He started gloating, "You can't go wrong listening to me! This Lord is extremely powerful. If he doesn't want to let us pass, we definitely won't be able to!"

"Kid, you have good eyes. Not bad, not bad!"

Water lotus was very happy. She nodded to tallu and said, ""When this protector gets married, I'll invite you all to have a drink and have some fun!"

"That's a great honor! It's our great fortune to be able to attend your wedding!"

Talu was determined to make the water lily the enemy of Lin Yi's team, so he was flattering her with all his might.

Serena was already there, greeting Lin Yi and the others. "Captain! Morris, Mike, you're all together! Chris isn't here yet? What's that idiot called tallu saying?"

"He said he'll give you to that person to be his wife!"

Fernandes held back his laughter, thinking to himself, "is Captain going to continue using his virtue to win people over?"

Serena exploded as soon as she heard this. She pointed at the tower Road and the water lily and spat!

Water lotus didn't take it to heart. Instead, she smiled and nodded. "Not bad, not bad. I like little Chili's character! And her figure and appearance were both very good! It's you!"

"Your sister! Who Do You Think You Are!"

Serena was furious. She felt as if she was a product on the shelf that had been picked away by a water lily. She was so sick of it! He rushed forward on the spot.

Unfortunately, he had only taken two steps before he fell into the water lily's Mirage. He shuttled through countless Mirror Worlds, unable to get close to the water lily.

Lin Yi rubbed his eyebrows. He wanted to save some face for water lily, but it seemed like he couldn't!

He flickered his body and appeared in front of the water lily. The Mirage didn't affect Lin Yi at all.

Back then, Lin Yi was only in the Foundation Stage, and that was why he fell into the Mirage. He had to rely on the Jade space to break out of the mirror world, but now?

It would be a joke if a super expert at the sea splitting stage was affected by the water lily!

Water lotus only felt a blur in front of her eyes, and then a Big Foot instantly enlarged and ruthlessly landed on his face!

With a loud "bang", the water lily's head was directly kicked open!

Mike, Fernandes, and the others were all shocked. Wasn't the Bigfoot control method supposed to control people?

How did he kick him to death?

Captain! Didn't you say that you'd win people over with virtue? What happened to being reasonable? Wasn't this a little too much?

"Don't play dead, get up! What are you pretending for? if you really want to die, I'll fulfill your wish. "

Lin Yi put his hands behind his waist and looked down at the dead body of the water lily on the ground.

The broken Head quickly gathered back together and then recovered. Water lily jumped up in anger and scolded, ""Where did this bastard come from? How dare you lay your hands ... Your feet on this Guardian! Are you tired of living?"

The others were all dumbfounded!

What was going on? He could revive after his head was smashed? Is this guy's superpower undying?

"Continue to act tough! Do you want to go into my world to calm down?"

Lin Yi spoke to the water lily, "long time no see, you've probably forgotten who I am, right?" It's been so long, and you still like to use your clones to wander around outside. Do you think that no one can catch your original body?"

Water Lotus's pupils suddenly contracted, and her face suddenly showed an extremely frightened expression.

This voice ... Could even wake one up from their dreams!

"You ... You ... You are ..."

"Don't say it out loud, pretend you don't know me!"

Lin Yi continued to use his voice to speak, and as expected, the water lily immediately recognized him!

The water lily shrunk in an instant. She nodded, bent over, rubbed her hands, and laughed. "Hahaha, it's you, my Lord! Really! Why didn't you inform me earlier! I almost didn't recognize you!"

To hell with recognizing! Water Lily's heart was full of tears, she felt so wronged!

Lin Yi's appearance, body shape, aura, and voice were completely different-there was no way she could recognize him!

Never would the water lotus have thought that she'd meet this ruthless Lin Yi again, trying to steal his woman!

F * ck!

You won't even let go of a foreign girl, just tell me how many women you have.

[This protector wants to marry a wife. Why does it always end up with your woman?]

Are all the beautiful women in the world yours?

"The captain is mighty and domineering! As soon as Bigfoot used his control, he immediately made the other side submit!"

Fernandes was the first to react and immediately started to flatter. ""This kind of trash can be dealt with with one kick. There's no need for the captain to kick him twice!"

Lin Yi didn't even have the strength to curse-it was a low-class name, after all!

"I understand! In fact, the 'winning people by virtue' that old eighth Captain mentioned is another name for the Bigfoot manipulation technique!"

Mike's eyes lit up, and he clapped his hands and laughed. "Powerful indeed! Captain eighth brother is mighty!"

Lin Yi's mouth twitched. Young man, did you misunderstand the idea of winning people over with virtue? As the captain, I have the duty to explain to you!

If you don't understand, I'll kick you to death!

"You guys wait here, I'll have a few words with him!"

Lin Yi rubbed his forehead and gave some instructions to Mike and the others. He pulled water lily away a few steps and set up a soundproof barrier. "Water lily, tell me what's going on!"

"Ah? What does my Lord want to know?"

Water lotus was scolding Lin Yi in her heart, and she was a little scared by Lin Yi's question, ""I know. I will tell you the truth. Please tell me!"

"Are you trying to play dumb with me?"

Lin Yi, of course, wouldn't give her any hints. His cold eyes were enough to make her break out in cold sweat!

"I don't dare! I'll tell Daren everything I know!"

The water lily didn't know what Lin Yi knew and what he wanted to know, but under Lin Yi's pressure, she could only spill everything.
