Chapter 7561 The Brain-Eating Bug Didn't Die?

"Sir, I'm here to intercept people who want to go to the river of consciousness because I've been entrusted by the brain eating insect,"

"Brain-eating insect? He really didn't die!"

Lin Yi blinked, not expecting an answer like that.

At that time, his strength was still a little weak and he couldn't completely kill the brain-eating insect. He didn't expect it to come out and cause trouble again!

"That's right. There was no news of brain-eating insects for a long time before. It was only a few months ago that he appeared again."

Since the water lily had started, she didn't intend to accept it. "After he appeared, he brought a lot of changes to our place. The spirit Sense River was originally just a gimmick, but without spirit sense grass, it has no benefit to the spirit sense."

"But now there are several areas in the spirit Sense River that can be used to cultivate spirit sense, and the effect varies. It's more effective for spiritual sense cultivation below the foundation establishment stage, but it's not much use for cultivators above the Golden core stage. "

"We're still on the bank of the spirit Sense River. In the spirit Sense River, the effect of cultivating spirit sense is better. Right, now that there's spirit sense grass in the spirit Sense River, there's a chance to find it when the tide ebbs. "

Lin Yi blinked. Spirit sense grass?

The spirit sense grass was still in the Jade space, so where did the spirit sense grass in the spirit Sense River come from?

Lin Yi remembered clearly that the spirit sense grass was also called the same root grass. All the spirit sense grass in the river of spirit sense came from his own spirit sense grass root.

Could it be that a new spirit sense grass root had been born in the spirit Sense River? Should he go and collect more?

"Recently, the brain-eating insect sent me a message, asking me to cooperate with him and use catoptric deflection to intercept the people going to the river of consciousness. However, I can't kill them, and I can't trap them to death."

"His goal is to let these people find their way out of the mirror world while training their primordial spirits and divine sense! I guessed that he wanted to train his subordinates ... I didn't expect that you would be among them, Sir!"

If Lin Yi was the brain-eating insect's underling, water lotus would never believe it. The brain-eating insect probably didn't know about this either. That idiot was targeted by this ruthless person, he was probably in trouble!

In fact, Lin Yi had almost forgotten about the brain-eating insect. If it wasn't for the water lily, he wouldn't have remembered.

After all, it was just a small fry he met a long time ago, and the difference in their levels was like heaven and earth. Brain-eating bugs were no longer in Lin Yi's eyes!

"I roughly understand now!"

Lin Yi nodded slightly, guessing that the brain-eating bugs had something to do with central. "Now that you know my identity, I'll have to trouble you."

"My Lord! I will definitely not sell out your information ..."

Water lotus was shocked and had a bad feeling, but before she could finish, Lin Yi had already reached out his hand.

A water lotus, the protector's body, was easily pulled out of the mirror world by Lin Yi and put into the Jade space.

In the past, Lin Yi had to rely on his spirit sense to mark the water lily's body, keep trying, and go through countless Mirror Worlds.

But now, he could ignore the mirror world and directly grab the water lily.

The difference in strength between the two sides was so great that the water lily could not understand.

When the main body entered the Jade space, the water lily's avatar was still there. She immediately begged with a bitter face, ""Sir, I really won't say anything. Please let me go ..." He begged.

"You know my temper, so don't waste your breath on me! Leave your clone here. If you dare to play any tricks ... Ha!"

Lin Yi didn't want to alert the enemy, so he let the water lily clone do what it was doing.

Of course, the water lily didn't dare to resist. Her life was in her hands, so she could only cooperate!

"By the way, what's the situation with the nine infants? Is he also related to the brain-eating insect?"

If Lin Yi brought people to the river of consciousness, he couldn't go around the host, jiuying, ""Or did he do all these things with the brain-eating insect?"

"This ... I really don't know! Lord jiuying has not contacted me for a long time. Before the brain-eating insect reappeared, there was no news. "

Water lotus shook her head with a bitter face. "Later, the brain-eating insect came to contact me. It said that it was Lord Jiuying's order to cooperate with me. It even showed me the token. Unfortunately, I still couldn't contact Lord Jiuying and couldn't confirm it!"

"Perhaps the nine neonate is in seclusion! It's normal to spend more time in closed-door cultivation!"

Water lotus found an excuse for herself. After all, as one's strength increased, it was common for one to go into seclusion for one or two years, especially for a primordial spirit body like the nine-headed fierce beast.

"I'll go look for him later and see if he's really in seclusion!"

Lin Yi nodded slightly, putting the topic aside for the moment, "I'll bring my men over first. Your clone can continue to stay here!"

"Yes, my Lord!"

The water lily bowed respectfully and followed Lin Yi back.

"Let's go! Not far ahead, you'll be able to see the river of consciousness!"

Lin Yi told his team members to follow him, while ta Lu and the others looked like they had just seen a ghost!

He really couldn't understand how a water lily that he couldn't get with so much effort could be so obedient after being kicked by someone?

"Farewell, my Lord!"

The water lily wasn't just submissive, she was like Lin Yi's Lackey, bowing and sending off Lin Yi's group.

Fernández raised his chin proudly and said to tallu, ""You don't understand? It's our captain's unique skill, the Pixiu Big Foot control technique. Whoever he kicks will kneel! If you don't like it, I can ask my Captain to give you a kick!"

"Captain, I don't think Dale is convinced. Why don't you go and give him a kick?"

He saw this as an opportunity and went up to Lin Yi, "We can save a lot of trouble by subduing tallu!"

Ta Lu was shocked-one water lily was enough to make them want to die, and Lin Yi was someone who could kick a water lily into submission! There was no way he could take it!

A wise man does not fight when the odds are against him!

Talu smiled and admitted defeat immediately. "That ... We're all on the same side, we can't kill each other, we have to help each other ... We have to follow the Lord Holy envoy's orders, right?"

Lin Yi glanced at ta Lu and the others indifferently, too lazy to even bother with them. They were all insignificant people, just like dust in the air-what time did he have to waste on them?

Ta Lu's expression froze as he watched Lin Yi ignore him and leave.

The group could feel Lin Yi's disdain towards tallu, and they felt proud and regretful at the same time. It'd be perfect if they could kill tallu as well!

Ta Lu's eyes flashed as he watched Lin Yi's team leave. Just wait and see!

Chapter 7562 Best Cultivation Point

"You guys should also get lost quickly. Don't be an eyesore here!"

The water lotus clone waved impatiently, and Lin Yi left. He didn't even care about tallu and the others. "I'm in a good mood today ... But I'm not in a good mood either! If you continue to be an eyesore, I'll kill you all!"

If ta Lu was one of Lin Yi's men, water lotus wouldn't dare to do anything, but Lin Yi's disdainful attitude towards ta Lu and the others was enough to explain the problem!

These people weren't on the same side as Lin Yi! He didn't need to give face!

"Yes, yes, yes! We'll leave now, thank you for letting us through!"

Talu felt aggrieved and had to nod and bow to thank water lily. "We will remember your kindness and repay you when we have the chance in the future!"

"What's wrong? You're unhappy and want to take revenge?"

Water lily raised her eyebrows and looked at Dale in a bad mood. "Why don't we do it now? we don't have to wait for the future!"

"I wouldn't dare!"

Talu was shocked. Even if he had the intention to take revenge, he could not admit it at this time. "I'm truly grateful to Lord Guardian. I don't have any other intentions. Lord Guardian, please don't misunderstand!"

"Get lost!"

Water lily was not in the mood to talk nonsense with Dale and waved them away.

At the same time, Saint envoy soyatu was on the phone with the Saint Emperor. "Your Majesty Sage Emperor, there was an accident with protector water lotus. She did not complete the mission she set up."

"What's going on?"

The sage Emperor's tone was very steady, but there was still a hint of surprise in his voice. "The water lily's ability is very powerful. Those little guys in the foundation building stage can't make any waves at all!"

"It's experimental No. 1!"

Saint soyatu was very straightforward, releasing Lin Yi's image. "This person's strength is a little strange and unpredictable. He only went up and kicked protector water lotus once, and protector water lotus admitted defeat and let him go!"

"I kicked ... What the hell?"

The sage Emperor was speechless. Water lilies didn't need to be so cowardly! What had happened?

After some thought, the sage Emperor continued, "The water lily's catoptric deflection can easily trap opponents of the same level. It won't be a problem for him to trap those experimentals."

"My original intention was to let those experimentals experience the power of the illusionary flower water Moon. Whether or not they come out on their own in the end, their primordial spirits will be trained. Is that why you're deliberately throwing the game?"

"Your Majesty Sage Emperor is wise! I'm afraid it's possible!"

Saint soyatu chimed in, then turned to say, ""However, I feel that the kick from experimental No. 1 is also very important. According to my observations, he often uses a kick to solve problems along the way. Perhaps this is some powerful martial art technique!"

"... Maybe! Increase your surveillance on test subject No. 1. He is a talent with great potential, so we must pay close attention to him!"

The sage Emperor was speechless for a moment. Although he felt that the possibility of a kick being a powerful martial technique wasn't high, he didn't retort. "For now, we'll focus on him. If we find other good seedlings, we can also pay attention to them!"

"I understand! This subordinate will definitely observe carefully ..."

Lin Yi didn't know that he'd become the new sanctuary's main target. The group had already reached the bank of the river.

"Captain number eight, I think this direction is more comfortable ... Shall we go over and take a look?"

Mike closed his eyes and felt it. He then looked to the right. "It seems like that place is more suitable for us to cultivate our divine sense!"

Lin Yi nodded.

Water lotus had said that the riverbank of the deified Soul River had been made into an area suitable for cultivating the deified soul. However, the effects varied. Mike's spiritual sense seemed to be good, and he could already sense a better cultivation area.

"Go over!"

As he spoke, Lin Yi led the way.

Actually, the water lotus said that the river of consciousness was more suitable for cultivation-it was very different from before, but Lin Yi wasn't in a hurry to bring them into the water. He'd look at the shore first.

After all, the primordial spirits of Mike and the others were still relatively weak. It was fine as long as there was a suitable place to cultivate. They did not need a good environment.

After walking for more than ten minutes, not only Mike, but the others also felt the difference!

"Captain, this is really different. Even if I don't take the initiative to cultivate here, I still feel very comfortable!"

Fernández narrowed his eyes and looked intoxicated. "I think this place is already very good. Why don't we start cultivating here?"

Lin Yi used his spirit sense to scan the area and knew that this was the best training area. He nodded, "Sure, all of you can cultivate first. This place isn't suitable for me to cultivate. I'll take a look around!"

This was a place for foundation level newbies to train, and Lin Yi didn't have much use for it. Rather than training, he wanted to know why this place had become like this.

"The captain is mighty. This low-level place is indeed only suitable for us to cultivate!"

Fernandes complimented Lin Yi naturally, but Lin Yi didn't appreciate it. He waved his hand and floated away.

Lin Yi left before Mike, Serena, and the others could say anything. They had no choice but to find a place to sit down and start cultivating.

After about half an hour, talu and the other teams also gathered on the riverbank of the deified Soul River. Then, they went to the area where Mike and the others were practicing.

"You've been here for a long time, aren't you? it's time to give way."

Seeing that Lin Yi wasn't around, ta Lu's courage increased as he shouted, "I've seen it. This area is the best place to cultivate, but it can only accommodate about fifteen people at a time. "

"You've been here for quite some time, so it's time to let everyone use it, right? For the sake of fairness, everyone will cultivate here in batches, one round every half an hour! What do you guys think?"

Without Lin Yi, ta Lu wouldn't have wasted so much time talking. He'd just go up and kill adiabla and take his cultivation spot!

However, Lin Yi's threat was too big. Even if Lin Yi wasn't present, ta Lu didn't dare to go too far. He could only use everyone's name to squeeze the training time of Abel's team.

"Why should I rotate with you? This place is on a first come, first served basis. We were here first, so of course we're the ones occupying it. Who Do You Think You Are?"

Selena's anger was burning as she was interrupted from her cultivation. She jumped up with one hand on her waist and started to scold him, ""The other places are so big, it's not like you can't cultivate. If you concentrate on cultivating in other places, the effect might not be worse than staying here for half an hour. Do you really have to make things difficult for us?"

"What do you mean by making things difficult for you? We're all people who came to the river of consciousness to cultivate, why should you occupy The Good Place? It's fine if you just agree to the rotation, otherwise, we won't be polite!"

Someone hid behind the turret Road and shouted loudly. These were people from other teams. With the turret Road leading them, they were very bold!

Chapter 7563 No Discussion

From the sound of it, it seemed like he was going to snatch it away if they didn't agree! He clearly didn't know how strong Lin Yi was.

"It is! Don't refuse a toast only to drink a forfeit! If they don't cooperate, we'll just eliminate them when we rotate!"

"Why are you wasting your breath on them? let's just attack!"

"Just the few of them, where did they get the confidence to dare to challenge so many of us?"

.....

For a moment, the crowd's emotions were turbulent, and they could not wait to take action immediately and deal with Serena and the others.

Dale laughed to himself. He was very satisfied with the effect.

"Everyone, calm down. Let's talk this out. We'll definitely reach a perfect conclusion!"

He was proud of himself, but on the surface, he still had to pretend to be a peacemaker to appease everyone. "Don't let a woman embarrass herself, Prince. I know you can't make the decision, but you should discuss it with us first. Otherwise, it will be hard to say with so many brothers!"

"There's nothing to discuss! This is our territory, do you think you can force us just because you have more people? What a joke!"

Ardiablo sneered disdainfully and glanced at everyone with an indifferent look, ""Our Captain will be back soon. If you guys still dare to talk like this, I, aedanpolo, will respect you!"

"Hahaha, you really scared us to death! What's so great about your Captain? There are so many of us here, we can drown him with our saliva!"

"Quickly call him over! I'd like to see how powerful he is. I don't want you to pee your pants when you see so many of us!"

"Hahahaha ... Don't tell me you're already running away in fear? That's why I can't see him!"

.....

The people who had never seen Lin Yi's strength mocked him without restraint, but ta Lu and his men didn't join in.

F \* ck ... That vicious is really strong!

You idiots deserve to be cannon fodder. Just don't pee your pants when the time comes!

"How dare you humiliate our Captain! Come out! I promise I won't kill you!"

Selena was furious and wanted to teach those people who had spoken rudely a lesson.

Fernandes, Michael, and the others also started to curse. Although they had fewer people, their momentum was not weak at all!

Both sides were ready to strike at any moment, and Lin Yi finally returned from his research!

"How awe-inspiring! Are you bullying us because we have fewer people?"

Lin Yi's body flickered and suddenly appeared in the middle of the two groups. "Those who were talking just now, come out!"

This time, Lin Yi didn't use his lightning escape technique, only the most basic butterfly microstep. Still, no one could see him clearly.

When an essence spirit reached the sea-shattering realm, even the butterfly microstep was shocking enough. All the Foundation Stage cultivators here couldn't even catch Lin Yi's movements even if they had a hundred eyes.

"Captain number eight, they're trying to force us out of this area while you're not here. Kick them with your big feet!"

Mike was indignant, but he felt that something was wrong and quickly changed his words. "These small characters are not worth it for you to use your Bigfoot manipulation technique, Captain eight! Let's go up and kill them!"

"Right! We'll just deal with this small fry. Captain, you stay on the side and support us!"

Fernandes was eager to perform as well-he couldn't lose with Lin Yi around!

It was a great deal to take the opportunity to make his presence known!

"Haha.....Captain number eight! It's a misunderstanding, a misunderstanding!"

Talu's legs went soft as he saw Lin Yi. "We just wanted to discuss taking turns to cultivate here. After all, we came here together ..."

Before he could finish, Lin Yi's body flickered and he used butterfly steps, appearing in the group behind Ta Lu like a ghost.

The people who were in taunting mode didn't run away, and Lin Yi kicked each of them away at the same time, landing on the ground with a loud thud.

Luckily, Lin Yi held back 99.9999% of his power ... The infinite loop of power only sent them flying. If he really wanted to kill them, he didn't even need to move his legs—he could kill them with a glare!

"You dare to mock us? I wonder who gave you the courage? Do you really think I won't kill you?"

Lin Yi returned to his original spot, calm and collected as if he'd never left. "Oh right, that Talu, what did you just say? I wasn't paying attention!"

"Nothing, nothing! I say, old eighth, Captain, it's great for you to cultivate here. It's very peaceful!"

Talu wiped his cold sweat and quickly smiled apologetically. "We won't disturb Captain Eight's training! Goodbye!"

He couldn't even see Lin Yi's movements when he charged into the crowd. In other words, if Lin Yi wanted to kill him, he wouldn't have reacted at all!

What a ruthless man!

It was better not to provoke him!

With such strength, would they be afraid of numbers? Would they discuss rotation with you because they had more people?

What discussion!

The fist was the truth!

"Didn't you want to discuss something? Why are you leaving?"

Lin Yi smiled teasingly as he looked at talu. "I like to win people over with virtue. Why don't you tell me in detail? everything is negotiable!"

Using virtue to win people over?

Dale secretly glanced at the people who had been kicked to the ground and could not get up."Aiyo, Aiyo," he said."I don't believe you!"

If you can win people over with virtue, I can be virtuous to the common people!

Previously, when you went to teach protector water lotus a lesson, you also said that you would win her over with virtue. In the end, you kicked her in the head. You are really wicked!

"It's fine, it's fine! We need to find a place to cultivate too! Goodbye, goodbye!"

Talu laughed awkwardly and quickly led his men away.

The more he said, the more mistakes he would make. Who knew if the ruthless person in front of him would suddenly attack him? it was safer to leave as soon as possible.

Mike and the others felt great after seeing talu and the others leave, praising Lin Yi again.

"By the way, did you find anything else nearby?" he asked.

After the compliment, Mike remembered to ask about Lin Yi's whereabouts."If there's a better place to cultivate, I don't mind giving this place to them."

"No, the area we're occupying now is indeed the best place to cultivate on the riverbank of spiritual awareness!"

Lin Yi looked at the river of consciousness. He didn't know if the effect was better in the water.

He'd been wandering around the area to find out what was going on, and he'd found some clues-but Lin Yi didn't really understand.

These man-made cultivation environments were created with the help of super-advanced technology and a little bit of formations. Lin Yi could understand these formations easily, but he couldn't understand more than 90% of the technology!

If he wanted to figure it out, he had to get Han Jingjing to do it!

Chapter 7564 Tower Road's Attack

While Lin Yi and the others were talking, the tower Road wasn't idle either-he called all the leaders of the other teams for a meeting.

"Brothers, you all saw what happened just now. The captain of that small team does whatever he wants just because he's strong. Are we just going to watch them take the best cultivation land?"

With a pained expression, talu clenched his fist and slammed it on the ground."""Seriously, I can't stand it! If we continue to endure, their team will only get stronger and stronger, and we'll have no way to survive!"

Those captains were extremely disdainful in their hearts. Can't you F \* cking tolerate it? Why didn't I see you jump out just now? He was clearly a Ninja Turtle, and only came to stir up trouble after the event. What was the point?

No one was a fool, so no one spoke to him. They all quietly watched him act cool.

Talu coughed twice. He knew that if he didn't show some sincerity, no one would believe him!

"I have a plan here that can force them to leave the best cultivation area. The premise is that everyone must cooperate sincerely! I can't be disloyal!"

"If you have a plan, then say it. Everyone can listen. If it's feasible, I believe that no one will object!"

The one who spoke was a team leader who had a good relationship with talu. After he finished speaking, he was still muttering in his heart, "this is all I can do for you. If there's anything else, there's no other way!"

"The main point is coming up. Everyone, listen up!"

Talu smiled and nodded at the man. He then lowered his voice and said, ""I just obtained a divine sense attack skill. As long as I master it, I can directly attack the other party's soul!"

As he still could not understand the primordial spirit very well, he directly used the soul to replace it.

The meaning was the same anyway.

"I will teach this skill to everyone, free of charge! After everyone had learned it, they would attack everyone in that team! Those who are attacked by the consciousness will have a splitting headache and can't cultivate at all. "

Talu showed a proud smile and snapped his fingers. "At that time, we don't need to drive them away. They'll come and admit their mistakes themselves!"

"Good plan! Talu, you're so right. I support you!"

Someone immediately voiced out to Support TA Lu, but no one knew if they really supported it or if it was just to get the spiritual awareness attack skill.

With someone taking the lead and the first person agreeing, the rest of the matter was much simpler. Everyone expressed their support for tallroad's plan!

What a joke, a divine sense attack skill, even money can't buy it!

"Good! Then I'll now teach everyone the spiritual awareness attack skill. After you learn it, you can teach it to your trusted aides, and then we'll do this ..."

Talu suppressed his joy and began to explain the spiritual awareness attack skill he had obtained in a low voice.

In fact, this was just a normal, low-level spirit sense attack. If Lin Yi saw it, he wouldn't be interested in it at all, but in these people's hands, they were all shocked!

So the divine sense could be used like this?

Although the skill was shallow, it still took a lot of time to spread to the bottom.

Fortunately, the medium cultivation area was large, and everyone could stay there to cultivate, so their cultivation speed was much faster.

"Good! Everyone has more or less grasped it, so let's start now!"

Talu waved his hand in high spirits and lowered his voice to direct the operation. "Send twenty people to attack them at the same time. We'll see how they react!"

Everyone was sweating. Looking at you, I thought you were going to launch a general attack, but why did you only use twenty people? Wasn't it good to do it in one go?

However, during the discussion, they all agreed to listen to the tower's command. Those who were called had no choice but to bite the bullet!

The team of twenty people slowly walked to the edge of the best training area and stopped about ten meters away from Mike and the others.

"This place is almost done, right? I'll be beaten up again if I go any further ..."

The person walking in front muttered, "It should be enough. I can try it first."

"I think so too ..."

"This place ..."

A few of them agreed-Lin Yi's ferocity had left a deep impression on them, and they didn't even have the guts to step into that area.

Thus, the twenty people quickly came to a consensus and began to activate their spiritual sense attacks.

An attack range of ten meters was already the limit for the strength of their spiritual sense. It was still somewhat beyond their power to cause harm to primordial spirits of the same level or even stronger.

However, Mike and the others were all cultivating their divine senses. The rough attacks from the twenty of them were enough to disrupt their cultivation!

"Hiss ... My head hurts! What's going on?"

Mike's body trembled slightly. He covered his forehead with his right hand and said in pain, "This sudden pain ... Did I cultivate wrongly?"

"I have a headache too!"

Almost at the same time, Serena and Mike made the same gesture as they covered their foreheads. "Mike, did you infect me?"

As soon as the two finished talking, Morris, Fernandes, and the others also began to have a headache. Although it was not very powerful, it completely interrupted their spiritual awareness training.

Lin Yi's eyes flashed as he looked at the twenty people approaching the group with a smile.

How could such a thick spirit sense attack escape Lin Yi's spirit sense?

Not to mention, in terms of spirit sense attacks, Lin Yi was definitely at the Grandmaster level, while those people's spirit sense attacks weren't even at the student level.

If Lin Yi wanted to fight back, he could turn all twenty of them into idiots with a single thought!

"Tallu, why are you hiding so far away? Just say a few words?"

Lin Yi turned around and called out tallu's name. "Do you think I won't know that you're the one behind this if you stay away?"

The entire training area, whether it was good or bad, was within Lin Yi's spirit Sense range. How could ta Lu's small actions escape his eyes?

Lin Yi didn't want to talk about it because he thought it was too boring.

Of course, Lin Yi also wanted to see how well Mike and the others could handle a spiritual attack of this level.

It would be a waste not to use a Whetstone that was sent to his door!

Talu blinked-he didn't understand how Lin Yi found out about everything he'd been hiding.

"Hahahaha, Captain number eight, what are you talking about? How come I don't understand?"

He didn't dare ignore Lin Yi's words and walked over with a laugh. "What the hell did I do? Old eighth Captain, don't accuse me wrongly!"

"My team member's cultivation was interrupted, and you're saying I've wronged you?"

Lin Yi looked at Talu with a half-smile. "Do you think you can deceive everyone with that little trick of yours?"

"Old eighth, aren't you a little overbearing?"

Talu's heart skipped a beat, but he still chose to hold on. "We've already given you the best cultivation area, so why can't we cultivate in other places?"

Chapter 7565 Snatching A Cultivation Ground

"We were all sent here by the great Messenger, and we have all followed the summons of the sea serpent King. You can't possibly not even give us a place to cultivate right? He was so overbearing that he couldn't go anywhere! Everyone, am I right?"

Dale turned around, hoping to see everyone supporting him and raising his momentum!

However, he didn't expect that only a few people would agree in a low voice. To hell with the imposing manner!

This was very awkward!

The corner of talu's mouth twitched. Was he doing this for himself? You're all dead!

"Well, Captain number eight, we'll be cultivating here. You've taken the best place, so you can't not give us a second-grade place, right? One must be reasonable! We must win people over with virtue!"

Talu had no choice but to brace himself. "If our training affects you, you can't blame us, right? After all, we won't say anything if you affect us!"

"Unreasonable! Captain, why should we put up with them? We'll just drive them all away!"

Adian Polo stood up indignantly. "Although we have fewer people, even if the captain doesn't make a move, we won't be afraid of them!"

At this time, Chris and the other people from sword of sanctions had gathered one after another. Lin Yi's team was all gathered together, and the number of people against the other side was about one to eight!

Not counting Lin Yi, Lin Yi's team was stronger individually, but if it was a group fight, without Lin Yi's help, they had no chance of winning.

"Don't be impatient, adianpolo!"

Lin Yi smiled faintly as he consoled him. He turned to talu, "You said you're going to cultivate here, and it doesn't matter if we affect each other, right?"

"Yup! We can endure it! I definitely won't say anything!"

"If old eighth really wants to rely on his strength to act tyrannically, then we can only accept it!"  
Brothers, let's sit down and cultivate!"

More than eighty people answered sparsely, and then one by one began to sit cross-legged, and after a long time, they were all ready to start cultivating the spirit sense attack skill.

As soon as Lin Yi's team members started cultivating, they would immediately be attacked by over eighty spirit sense attacks, which were several times stronger than the twenty people before!

He was afraid that it would not be as simple as disrupting his cultivation. He might even be injured.

Talu was worried-he didn't know if Lin Yi would turn on him or not. They had more people on their side, but they might not be able to stop this guy!

Their only hope now was that Lin Yi would be afraid of Saint soyatu and the sea serpent King, and not make a move!

"Captain number eight! Let's kill him!"

Mike was angry. He felt that he had been forced to the door. With Captain old eighth here, it was not like he couldn't win. Why should he swallow his anger?

When had he ever suffered from such vexation?

Any difficulty could be solved with a kick from eighth brother's Captain. If he couldn't solve it, then he would use two big kicks and a second kick!

"They're such bullies. They really think we don't dare to make a move!"

The little girl, Serena, was also extremely angry. Her little face was flushed red. "I'll go chase them away now!"

"Don't be rash! I've always said that we must win people over with virtue! Don't touch me when you can reason with me!"

Lin Yi waved his hand casually and smiled without a trace of anger, "You guys are still too young. You'll be too impetuous when you're young. It's not good for your cultivation!"

Everyone rolled their eyes at him.

Which time didn't they use their big feet to clear the way? It's right to convince people with big feet, right?

"Tallu, what you said makes sense. I can't stop you from cultivating here!"

Lin Yi nodded seriously, as if he was trying to reason with everyone. "It's a good thing you're mentally prepared for everyone to influence each other. This way, it'll be easier for us to do things!"

Talu was stunned. What did this mean? Admitting defeat? It didn't sound like it!

Before he could finish his thought, all kinds of screams and screams sounded from the side.

Turning his head stiffly, he saw the people rolling on the ground. Talu felt cold all over. Cold sweat poured down like a waterfall, drenching his clothes.

A divine sense attack?

Such a large area?

He attacked more than eighty people at the same time!

Although he couldn't feel it, looking at the people on the ground, it was clear that they had been hit by the spiritual sense attack he had taught them!

Tallu felt like he was going crazy!

He had thought that this was a unique secret technique. How did the opponent know it too? And it was even more powerful!

He didn't know that Lin Yi was a Grandmaster in this area-he didn't even need to learn something as simple as this!

Using it to deal with these Foundation establishment rookies was simply like using a butcher's knife to kill a chicken!

"Ha ... It seems like our side has a greater influence on you!"

Lin Yi's lips curled up, "Talu, are you mentally prepared for such a scene?"

Talu was dumbfounded. He subconsciously wiped the cold sweat from his forehead and laughed dryly. "Yes ... No... Should I have or not?"

The guy almost cried-he really wanted to ask Lin Yi what he had to say to make him satisfied.

If he was wrong, he didn't know what kind of punishment he would have to suffer!

"How would I know if you should have it or not?"

Lin Yi pretended to be surprised and smiled after a while, "But I think this is possible! Otherwise, you wouldn't have dared to cultivate here, right?"

"Yes, yes, yes! Yes, yes, yes!"

Talu wanted to cry but had no tears. You're the boss. Whatever you say goes!

Out of all the people who had rolled on the ground, only Dale was still standing. How could he dare to refute?

If Lin Yi told him to get lost right now, he'd run away without hesitation!

"Forget it. The environment here isn't very good. It's not suitable for our cultivation. I'll leave it to you!"

Lin Yi waved his hand and turned to Mike and the others. "Follow me!"

Mike and the others were shocked by Lin Yi's skills-he didn't even need to use his ultimate move, Big Foot, to take down a whole bunch of people!

It was a pity that they couldn't continue teaching the people on the tower Road a lesson, but no one objected and followed Lin Yi obediently.

He then saw Lin Yi walk to the side of the river and jump in.

It wasn't the time for low tide yet, and the river was overflowing. Mike and the others weren't the only ones who were stunned when they saw Lin Yi jump in-talu was as well.

What was going on?

Jumping into the river after winning?

Mike and the others didn't hesitate. Even if Lin Yi wanted them to jump off a cliff, they would follow him without hesitation!

This was the prestige that Lin Yi had built up in their hearts!

Chapter 7566 Cultivating In The Water

Lin Yi's team didn't stop and all followed Lin Yi into the river, leaving ta Lu standing there with his mouth wide open.

After a while, the people who were attacked by Lin Yi recovered and asked for directions.

"What's happening? Where are they?"

When talu heard this, he came back to his senses. He looked up and yawned. "Those guys used a technique that exceeded their abilities to ambush everyone. In the end, they couldn't withstand the backlash!"

"All of you have been knocked to the ground, but I'm perfectly fine. Under my pressure, those guys didn't dare to stay. They could only leave behind the best cultivation area and jump into the river to escape."

"I'm telling you, they ran away a little faster, otherwise I would have made them pay! You dare to sneak attack our brothers, this is unforgivable!"

Lin Yi wasn't here, so talu didn't feel any pressure at all.

As he spoke, even talu himself felt that it made sense. Lin Yi might really have suffered a backlash-he might be fine on the surface, but he might be dead on the inside!

"Boss talu is mighty! I knew that those guys were no match for boss talu, and it was just as I expected!"

"So it was a sneak attack. No wonder we all fell for it. They're really shameless!"

"If I could recover earlier, I would definitely not let them escape!"

.....

There were some who were sucking up to ta Lu, some who were scolding Lin Yi's team, and some who said they were going to chase after them. The scene was extremely noisy.

Ta Lu was a little lost-he'd seen a ghost when he was so scared of Lin Yi!

The next time we meet, I'll definitely teach them a lesson!

Talu looked at the mist-filled river of consciousness and felt that it was better to ignore the others for the time being. It was better to cultivate here!

Lin Yi didn't care about the situation on the tower Road at all. They were just a bunch of insignificant people, not worthy of Lin Yi's attention.

After entering the river of consciousness, Lin Yi did feel the difference.

The first time he came here, the spirit Sense River was useless for cultivating the spirit sense. Only with spirit sense grass could he have a connection with the spirit sense.

And the spiritual awareness grass was just bait set by the nine neonate. In the end, it had nothing to do with the river of consciousness.

It was completely different this time. Even without the spirit sense grass, Lin Yi could feel a mysterious power in the river. Cultivating his spirit sense in this environment would be much more effective.

With a thought, he opened up a small isolated space in the river and brought Mike and the others in.

"Mike, Morris, did you both feel it?"

Lin Yi's eyes scanned everyone's faces and smiled. "The effect of cultivating in this River is at least two to three times stronger than on the shore. Ordinary people can't cultivate in the water, but you guys are different!"

"I'll open up a cultivation space for you all so that you can cultivate in peace in the water. With such good conditions, you'll be able to advance very quickly!"

Lin Yi's essence spirit had broken through to the sea-splitting stage, and he could even manipulate the real ocean at will, let alone a river of consciousness.

But in order to hide his strength, Lin Yi didn't plan to use his sea split stage power. He set up a formation in the water!

A simple, low-level formation was enough-Lin Yi, a Grandmaster, finished it in the blink of an eye with a wave of formation flags.

"Alright, you guys stay here and cultivate. I'll teach you the spiritual sense attack technique that ta Lu and the others used just now!"

Lin Yi said that it was tallu's skill, but it was actually a simplified version of his own-the divine sense collision, much more high-end than tallu 's.

Mike and the others were naturally full of admiration and gratitude, but it was a pity that they couldn't level up Lin Yi's spirit again. It seemed that the second level's effect was gone after reaching the third level.

"You guys focus on your cultivation, I'll leave first!"

Lin Yi decided to look for the nine neonate, so after settling Mike and the others down, he left the formation and entered the river of consciousness again.

The first time he saw the nine neonate was an accident. If Lin Yi was still as strong as before, he wouldn't even be able to find the nine neonate.

But now, it was different. As a Grand expert of the sea splitting stage, the position of the nine infants was clear at a glance under the cover of his divine sense.

The restriction that the river of consciousness had placed on one's consciousness was now as easy to break as a paper window.

The problem from before was no longer a problem!

"Jiuying, your old friend is here. Why are you still hiding?"

Lin Yi easily found the nine neonate and laughed, ""I didn't expect you to have a new spirit sense grass root. If you don't come out, I'll take this new spirit sense grass root!"

"Who are you? How do you know that I and this spirit sense grass root are new?"

The nine neonate was confused, but it still appeared in front of Lin Yi in its nine-headed true form. However, all nine heads were full of hostility and didn't let down their guard.

Ordinary people couldn't enter this place of his at all. They couldn't even find him. However, this stranger in front of him seemed very familiar and had casually walked in!

However, he couldn't tell what level this person was at with a single glance, which was a little terrifying!

"Oh, I've changed my appearance, so it's normal that you can't recognize me!"

Lin Yi slapped his forehead. He was wearing the red dust all creation mask and his name was Ling-8. It would be weird if the nine neonate recognized him!

"But I've said so much, you should have thought of it! Who else took the spirit sense grass root other than me?"

"It's really you?!"

The nine heads of the nine neonate all had strange expressions on their faces, but their hostility towards Lin Yi didn't decrease at all. "Why are you here again? I'm warning you, don't even think about my new spiritual awareness grass root! Otherwise, I won't be polite to you!"

Although the nine neonate didn't need the spirit sense grass or spirit sense grass for its cultivation, it didn't mean that it was willing to give them to Lin Yi for free.

Even if they couldn't use their own treasures, they could just display them. Why should they let others take them away?

"We're all old friends, what are you saying! Do I look like that kind of person?"

Lin Yi pretended to be unhappy, showing that he wasn't interested in the spiritual sense grass at all.

In fact, there were still a lot of spiritual awareness grass roots in the Jade space. Such a large spiritual awareness grass root, a thin piece could be used to make several spirit quenching pills, and after being nourished by the Jade space, the used ones could grow back.

This was equivalent to an endless supply of spiritual roots, so Lin Yi didn't really care about the nine neonate's new spiritual roots.

If he was about to run out of his ... Then it would be hard to say!

The eyes of the nine heads of the nine neonate clearly indicated that you were this kind of person! However, he just didn't say it out loud.

"Old friend? It could be considered so! What's your old friend here for today?"

The nine neonate was silent for a while before it said lightly, ""What else do I have that you want besides the spiritual awareness grass?"

Chapter 7567 Going To The Azure Sky Valley Again

"Ha ... Why are you so cold? I haven't seen you in a long time, can't I visit you?"

Lin Yi was relaxed as he smiled, "When you told me about the Azure sky Valley and the purple mist sinful Lotus, you did me a great favor!"

"What? You've been to the Azure sky Valley and found the purple mist sinful Lotus?"

The nine neonate blinked, not expecting Lin Yi to bring this up. "So now you ... Have you reconstructed your body?"

Lin Yi's essence spirit body was extremely solid and looked no different from a physical body. The nine neonate's strength was far inferior to Lin Yi 's, so it didn't have the eyesight to distinguish it.

"That's right! However, I entered the valley from another place, not the teleportation formation you mentioned last time. "

Lin Yi mentioned the valley because of this. "I've come to find you this time to thank you for your information and also to find the teleportation formation you mentioned before."

If they could find the teleportation array and enter the Azure sky Valley, it would be equivalent to returning to the sub-Island!

The center could only project his spirit and couldn't go between the two places. If he could verify the effectiveness of this teleportation formation, he could return to the trial ground and then back to the secular world after his spirit returned to his body!

The problem of being unable to leave the sub-Island was solved!

"You've already been to the Azure sky Valley! What an amazing opportunity!"

The nine neonate's eyes flashed and it said with a sigh, ""It's a pity I didn't have the chance to go. If I could've obtained the purple mist sinful Lotus, I might have been able to reconstruct my body!"

"I remember you saying that the purple mist sinful Lotus isn't of much use to you?"

"Huh?" Lin Yi blinked, "how come I can use the Lotus to reforge my body now?"

"Hahaha ... The purple mist sinful Lotus is a heavenly treasure. It's a rare treasure for any primordial spirit. How can it be useless? you must have remembered it wrong!"

The jiuying's sharp laughter rang out, and it seemed a little embarrassed, so it immediately continued, ""Even the purple mist Snow Lotus is a very useful treasure, let alone the purple mist evil Lotus!"

"Although the purple mist Snow Lotus isn't even one percent as powerful as the purple mist sinful Lotus, it's enough for me!"

The nine neonate paused and looked at Lin Yi with a strange expression, ""You said you want to go to that teleportation formation? Was he preparing to enter the Azure sky Valley again? If you can enter, can I ask you to help me find a purple mist Snow Lotus? I won't ask for your help for nothing. I'll give you a treasure as a reward!"

The purple mist sinful Lotus would only mature once every few thousand years, so the nine neonate definitely could not hope for it. However, the purple mist Snow Lotus was different. Although it was also very precious, it was not rare in the Azure sky Valley.

"No problem. As long as we can enter the Azure sky Valley, I will definitely help you find a purple mist Snow Lotus!"

Lin Yi, on the other hand, didn't mind-as long as he could confirm that the teleportation formation was fine, what was the point of getting a purple mist Snow Lotus as a reward?

As for the treasure or not, it was fine!

At the sea shattering realm, Lin Yi didn't really care about the treasure that the nine neonate had been looking for.

"That's great!"

The nine neonate was overjoyed, but it immediately shook its head and said,""It's a pity that the transportation formation is filled with poisonous gas. You can't get close at all. This matter can only be said in passing!"

"It might have been like this in the past, but it's not necessarily the case now. As far as I know, the poisonous gas at the teleportation array should have dissipated!"

Lin Yi had some confidence in this-the Green Valley had returned to the Azure sky Valley, and the affected teleportation formation was probably restored as well.

"Really? I really didn't know about this!"

The nine neonate was inexplicably shocked, but it immediately revealed a smile."In that case, I really have a chance to obtain the purple mist Snow Lotus!"

"There's definitely a chance! Actually, if you're free, why don't you come with me?"

Lin Yi wanted to find someone to lead the way. Water lilies were fine too, and if the nine neonate was willing, that would be even better. Letting him find the purple mist Snow Lotus would save him some trouble!

"I ... I'm afraid I can't go with you. I've had some problems with my cultivation recently, so I've been in closed-door cultivation ..."

The nine neonate's eyes flickered, and it was clear that what it said was not true.

"I see, no wonder Water lotus said you haven't contacted him for a long time! By the way, how did you get in touch with the brain-eating insect?"

Lin Yi came to find the nine neonate to listen to the brain-eating bug was also an important reason,""It's said that the changes in the spirit Sense River were all brought by brain-eating insects, right? Including the new spirit sense grass root!"

"Haha ... You're quite well-informed!"

The nine neonate laughed dryly and continued,""To tell you the truth, I'm not very sure either. Previously, the brain-eating insect contacted me and said that it would make some good changes in the spirit Sense River. I was busy with closed door cultivation, so I agreed."

"You also know that the brain-eating insect is my right-hand man. It definitely won't harm me, so I'm at ease and let him do it. I'm going to cultivate in seclusion."

"I don't know what happened after that. Fortunately, the brain-eating insect did make a good change and didn't let me down!"

The words were said beautifully, but there was nothing practical.

Lin Yi raised an eyebrow, thinking that the nine neonate wasn't telling the truth!

But it didn't matter. Even if the nine neonate didn't say anything, he could deduce a lot of truths.

The brain-eating insect colluded with central, that was a definite thing. He just didn't know if the nine neonate had a deep connection with central.

Let's talk about this after we've confirmed that there's no problem with the teleportation array!

"Alright ... Let's not talk about other things for now. I'll go look for the teleportation formation now. If I succeed, I'll most likely be able to bring back the purple mist Snow Lotus. Wait for my news!"

"I'll get water lily to lead the way!" Lin Yi cupped his fists.

The nine neonate smiled, but its heart was filled with wheat skin!

Water lotus was his right-hand man, and Lin Yi said he'd let her lead the way. Could she have been captured again?

Lin Yi didn't care what the nine neonate thought and left as quickly as he could!

With the water lotus leading the way, Lin Yi ran as fast as he could and arrived at the teleportation formation in no time.

As expected, the poisonous gas that had filled it had already dissipated.

The teleportation formation was a little old and broken, but the main frame was intact. It was just that Lin Yi couldn't repair it by himself at this level of damage.

Teleportation formations were different from using formation flags. Teleportation formations usually involved the power of space, which was Lin Yi's current weakness.

"Senior ghost, thank you for your trouble!"

Lin Yi had no choice but to bring out the ghost.

The ghostly thing didn't refuse. The two of them worked together to repair it, and the teleportation formation was as good as new.

He filled in the spirit Jade as the energy source for the teleportation formation, and a bright light shone on it. Lin Yi stood on the teleportation formation, excited.

Whether or not he could leave the sub-island after returning to his body would depend on this!

The light completely covered the entire teleportation formation, and when the light faded, Lin Yi was gone!

Chapter 7568 The Ancient Guardian Of The Spirit Beast

As expected!

The Azure sky secluded valley, it really was the Azure sky secluded valley!

And this place was really a sub-Island!

Lin Yi appeared on the other side of the teleportation formation and scanned with his powerful spirit sense. He immediately saw a familiar scene.

Zhang Liang's thatched house and the familiar broken soul Stream not far from the valley were indeed the real sub-Island.

Lin Yi's heart started beating faster as he laughed out loud, his laughter echoing far and wide!

It was a pity that he couldn't let the grey-robed Ling lingfa know about this yet, and so his spirit couldn't go back to find his body yet!

Lin Yi couldn't reveal the teleportation formation's secrets that central didn't know!

Once Ling lingfa found out or controlled this place, it would be even more difficult for him to make use of it!

Whatever central wanted, they would either control it or destroy it. In short, they would not let him have it!

So the first thing Lin Yi did after laughing was to set up another combination formation outside the teleportation formation, including a trap formation, a kill formation, a maze formation, and the most important stealth formation!

Without the ghostly array Dao attainments, no one would be able to find this teleportation array!

Lin Yi was only in the mood to look for the purple mist Snow Lotus after setting up the formation.

The valley had a restriction on Lin Yi's spirit sense before, but it was still there now, with minimal effect.

The last time Lin Yi came here, his essence spirit was injured, and his strength dropped drastically. Now, not only was his injury healed, but he had also advanced to the sea shattering realm. It hadn't been long, but he was completely different from the past.

His powerful consciousness swept across the blue sky Valley and quickly found a purple mist Snow Lotus.

Lin Yi didn't stay for long after he put it away and quickly returned to the river of consciousness.

Of course, Lin Yi didn't forget to set up a formation to protect the teleportation formation before he left.

"Jiuying, I've found the purple mist Snow Lotus and brought it back for you!"

Lin Yi returned to the nine infants and took out the purple mist Snow Lotus. "Take a look, it's not wrong, right?"

"So fast?"

The nine neonate was very surprised. How much time had passed, and he had already made a return trip to the Azure sky Valley? And he even found the purple mist Snow Lotus!

Was the purple mist Snow Lotus a roadside cabbage in the blue sky Valley? You can find it just by looking?

"It's indeed the purple mist Snow Lotus! That's great!"

The nine neonate was pleasantly surprised, but Lin Yi didn't think it was as happy as it seemed, ""Since you've brought me the purple mist Snow Lotus, I'll fulfill my promise and tell you the news of a treasure."

Lin Yi wasn't interested in the treasure, but he wouldn't stop the nine neonate from talking.

The nine neonate took the purple mist Snow Lotus and slowly approached Lin Yi, ""This treasure is in the Sky Class island's southern continent. It's something I left there back then, but I don't need it anymore. I'll give it to you as a reward!"

"You're a spirit beast from the South continent of the Sky Class Island?"

Lin Yi blinked. He didn't expect the nine neonate to say something like that. It was really unexpected. "Can you tell me what's going on?"

Lin Yi didn't care about anything else, but there were a lot of things he needed to do when it came to the southern island.

There was the Skybolt pig, Wang Shiyang, and his promise to the frog!

So, no matter what, Lin Yi had to go to the southern island again to solve this problem.

"Of course you can. Actually, I'm the great Guardian sacred beast of the ancient spirit beast clan. You might not be aware of how noble my status was in the spirit beast clan!"

At this point, the nine neonate immediately revealed a proud look. ""At that time, I was a super big Shot who shook the entire Sky Class Island! Unfortunately, a huge change happened and the spirit beast clan declined ..."

"Let's not talk about this. The treasure I'm talking about is in my former residence in the South continent. If it's still well-preserved, a little bit of it is enough for you to enjoy!"

"Wait, you said you're the ancient great Guardian sacred beast of the spirit beast clan?"

Why didn't Lin Yi believe it? This guy couldn't be bragging, could he? how could the ancient great Guardian sacred beast be a fallen original soul of the original infant stage?

If he was really powerful back then, he would fall to the ground due to an unforeseen event, and his strength would plummet, but the essence of his primordial spirit would still exist!

Then, how could the nine neonate not devour his spirit when Lin Yi first came to the river of consciousness?

Back then, Lin Yi's original body was at the xuansheng stage, but because of the essence spirit projection, when he saw the nine neonate, it was only at the peak of the Foundation Stage, while the nine neonate was at the peak of the nascent Soul Stage!

It really was a great Guardian Saint Beast. No matter how one looked at it, Lin Yi would be devoured by the nine neonate!

"Yup! Is there a problem? You don't think I look like one?"

The jiuying laughed. "Don't think too much. Why Would I Lie to You about this?" There's no need!"

"Actually, I've been to the Sky Class island's southern continent before, and I met a Big Frog there. It's also an ancient spirit beast Master ... You guys don't know each other, do you?"

"Big Frog? He's still alive?"

It was the nine neonate's turn to be stunned, and it stopped moving closer to Lin Yi, ""Where did you meet him? Can you tell me in detail?"

"Of course you can! I met the big Frog in a place called the illusionary mist space. He was imprisoned here ..."

Lin Yi explained the situation to the frog and asked, "You seem to be very familiar with him?"

"I am indeed very familiar with it. The big Frog is the same as me, a great Guardian sacred beast of the spirit beast clan. Unfortunately, the decline of the spirit beast clan has caused him to be imprisoned for so many years!"

The nine neonate sighed and said, 'the decline of the spirit beast clan is really not without reason! The ancient guardian Saint beasts were all experts who protected the king of spirit beasts, but in the end, they were all persecuted!"

"The king of the spirit beasts that came later was a fake King, not a pure bloodline of the king of the spirit beasts! These fake Royal bloodlines were afraid that their identities would be exposed and they would be counterattacked, so they either killed or imprisoned the spirit beast experts who were loyal to the royal family ..."

"Why am I telling you this? Hehe, it's good news to know that my old friend is still alive!"

The nine neonate chuckled and looked at Lin Yi with a strange expression, ""Let's talk about the treasures I left in my old residence in the South continent. You can find this place and do as I say, and you can easily get them!"

"There's no rush. I'm very curious. How did you end up here and even become a primordial spirit? And he had become so weak! With your status and strength, you shouldn't be like this!"

Lin Yi still wasn't interested in the treasure, but he was interested in the nine neonate itself, ""Also, can you tell me more about the big Frog? Apart from you, what other ancient guardian Saint beasts are there?"

"Hehe ... Actually, I don't remember much. I'm not afraid to tell you the truth. I'm not the nine neonate's main body, but just a remnant soul separated from my primordial spirit."

The nine neonate hesitated slightly before saying, ""I don't even know if my main body is still alive. What I can remember are mostly fragmented things. I'm sorry, but I can't tell you too much. And these memories have only recently awakened ..."

Chapter 7569 Another Misunderstanding

"So that's how it is! It's not easy for you to be able to cultivate to this point with only a wisp of your soul!"

Lin Yi was suspicious and felt that the nine neonate wasn't telling the truth, but he couldn't find any flaws.

"Isn't that so! However, my memory of my old residence in the South continent is intact. I'll send you the map with my spiritual awareness now. Take a look!"

The nine neonate brought the topic back to its treasure and came to Lin Yi's side without a sound. It used its spirit sense to send Lin Yi a map.

The two of them were primordial spirit bodies, so it was very convenient for them to directly use their divine sense to transmit this information!

Lin Yi looked at it and confirmed that it was a map of the South continent. There was a mark on it, and it should be the old residence of Jiuying.

If the other party was really an ancient guardian sacred beast, this place would have some value.

When he returned to the South continent in the future, he could take some time to go there and have a look.

"Hahaha! You've finally become my tribute!"

The nine neonate took advantage of Lin Yi's distraction and suddenly laughed wildly as it activated its essence spirit devour, "Let's see what you can do this time!"

As he spoke, the aura on the Jiuying's body exploded. It was actually a Master of the Mountain opening stage!

"You've actually advanced to the level of a mountain-splitting expert?!"

Lin Yi was shocked-how long had it been? How did the nine neonate advance so quickly?

Before this, the nine neonate had spent many years in the river of consciousness before it could maintain its strength at the great circle of the nascent Soul Stage!

It would be understandable if he had broken through to the xuansheng stage, but the mountain split stage?

Are you kidding me?

The river of consciousness had neither resources nor an environment. What did the nine neonate have?

"Hahahaha! You didn't expect this, did you? Last time, you were at the xuansheng stage and I couldn't devour your primordial spirit. I didn't expect you to deliver yourself to me again! If I don't devour you this time, I'll be letting myself down!"

The nine neonate's essence spirit was already wrapped around Lin Yi, and it was very proud, ""Kid, there's a path to heaven, but you refuse to take it. There's no Door to Hell, but you barged in! If you want to blame someone, blame yourself ... Wait, F \* ck, what's going on?"

History seemed to be repeating itself as the nine heads of the nine neonate screamed at the same time, ""Why is it like this? I can't even devour you!"

"Hehe ... Is the beginning of a mountain really that great?"

Lin Yi was shocked, but he wasn't panicking at all. A mere mountain split-stage Yuan spirit wanted to devour a sea split-stage Yuan spirit like him?

Aren't you afraid of losing all your teeth?

"It's indeed beyond my expectations that you could advance to the mountain opening stage. However, why don't you think about it? if you can advance, why would I remain stagnant?"

"I really don't understand," Lin Yi said sarcastically. "What are you thinking?"

The nine neonate almost vomited blood. What else could it think? No matter how I think about it, you should be the weaker one. Why did you become stronger?

"There's no reason! Shouldn't you still be at the xuansheng stage? Isn't the transfer array to the Azure sky secluded valley restricted to only those at the xuansheng stage and below?"

The nine neonate could not understand, and nine heads were not enough. "I specifically asked you to help me bring back the purple mist Snow Lotus to make sure you didn't advance in rank!"

One had to say that the nine neonate wasn't an idiot after all. It had suffered once from Lin Yi before, so it was naturally more careful this time.

This was why the nine neonate said that the purple mist Snow Lotus was useful to him and asked Lin Yi to bring one back from the Azure sky Valley.

The purpose was to see if Lin Yi could pass through the teleportation formation!

In fact, if even the purple mist sinful Lotus was useless, then the purple mist Snow Lotus was even more useless!

Lin Yi blinked-he really didn't notice that!

However, the teleportation array was broken to begin with, so before it was used, he repaired it with the damn thing. Could it be that this restriction was removed by accident at that time?

Or could it be that after the dark green demonic Valley returned to the dark sky Valley, the restrictions on the teleportation array would automatically disappear?

"Now that the poisonous gas is gone, perhaps the teleportation formation's restriction has disappeared along with the poisonous gas! But it doesn't matter!"

Lin Yi didn't want to think too much about it-he just smiled teasingly,"You remember, right? I've learned this technique from you before!"

"It's a misunderstanding! It was a misunderstanding! I was just joking!"

The nine neonate shuddered and quickly begged for mercy,""We're all old friends, so it's not too much to joke around, right?"

Thinking about it, the nine neonate wanted to cry but had no tears. It thought that it had learned its lesson last time and was careful enough this time. Not only did it test Lin Yi, but it also moved to Lin Yi's side carefully.

He even used the map to split Lin Yi's heart and then used a sneak attack, but what was the result?

Are they all clowns?

This, this, this ... I'm really going to cry if I say more!

"As the saying goes, a fall into a pit, a gain in your wit. I think you've just forgotten the pain after the scar has healed! I let you off last time, and you want me to let you off this time?"

Lin Yi smiled coldly,"but since you said you were friends with the big Frog, I won't devour you for the sake of it!" Tell me everything you know!"

"I really don't have anything to say! What I said just now was the truth. I'm only a wisp of a soul, and my memories are incomplete. I've already told you everything I know!"

The nine neonate really wanted to cry, swearing to stay away from Lin Yi in the future ...

If there was a future!

"Oh, since there's nothing else to say, then you can also go to my world and accompany your water lotus Protector!"

Lin Yi frowned as he waved his hand and made his decision.

Lin Yi could naturally get some information by soul searching if he devoured the nine neonate, but this method of devouring the essence spirit could easily cause adverse effects to his own essence spirit.

It wasn't easy to heal his spirit, and Lin Yi didn't want to mess around anymore. Who knew if there would be any settings for Spirit Recovery in the later stages?

He couldn't just go back to the first few levels and take a stroll, right? However ... This was also a good idea. He just didn't know if the Saint would agree.

To be on the safe side, Lin Yi decided to put the nine neonate into the Jade space first.

"...Your ... World?!"

The nine neonate, who entered the Jade space, was instantly dumbfounded. It did not understand why it had suddenly changed to a different world!

He then saw the water lily's body-it was as Lin Yi said, it was in this world.

He had his own world?

What kind of F \* cking monster was this!

'I must be out of my mind to want to devour such a ruthless person!'

The nine heads of the nine-headed fierce beast were full of tears. If he could have another chance, he swore that he would never touch Lin Yi!

Wasn't this courting death? he was originally living well, but he had to court death.

"Senior ghost! Come out and greet our guests!"

Lin Yi didn't plan to waste time in the Jade space after bringing the nine neonate in. ""This is the great Guardian sacred beast of the ancient spiritual beast clan. You'll probably be very interested in it!"

"The Guardian Saint Beast of the ancient spirit beast clan?"

The ghostly thing was very interested as expected, appearing in front of Lin Yi and the nine neonate in a flash, sizing the nine neonate up with interest, ""Such a weak trash beast, if you didn't say so, this old man wouldn't believe it!"

Chapter 7570 Don't Hit Me ...

The nine neonate felt that its remorseful tears could drown its brain. The tears it was crying now were the water that had just entered its brain!

One Lin Yi was already abnormal enough, so how did they get another essence spirit that was so strong that they couldn't even see through?

It felt like ... He wasn't any weaker than Lin Yi, maybe even stronger?

Of all the people he could provoke, he had to provoke such a monster group. Nine heads and eighteen eyes, are they F \* cking blind?!

"Actually, I don't really believe it either, so I handed this guy over to you, senior ghost, to interrogate. There are some things that I don't understand even if he told me. I wouldn't know if he lied to me, but senior ghost, you probably know."

"With senior ghost here, I'm sure he won't dare to play any tricks!" Lin Yi raised a brow and smiled.

"That's true. In front of this old man, it doesn't matter if he's an ancient guardian sacred beast or not. It's useless!"

The demonic thing laughed weirdly. "If you know what's good for you, then you'll have to explain it clearly. If you don't, hehe, don't blame me for not warning you when the time comes!"

"I really don't have anything to say! Please believe me ..."

The nine neonate tried to explain with a bitter face. Don't hit me ... Ah! I'm really ... Ah ah!"

Before he could finish speaking, the ghostly thing made a move.

Back then, this thing was a beast, too. It was only in Lin Yi's Jade space, and there wasn't anyone to beat up. There was only an old man, Jiao yazi, whose strength he couldn't see through, and Lin Yi's spirit that came in from time to time. Who could he beat up?

Now that someone who claimed to be an ancient guardian had finally entered, who would he be letting down if he didn't exercise his muscles and bones?

The nine neonate was immediately beaten until it cried out in pain. It was too horrible to look at. The water lily in the distance kept quiet out of fear and did not dare to move.

He was afraid that the fire at the city gate would affect him, so he looked down and pretended not to see his boss being beaten up!

"Think carefully before you speak. I'm an old man with a bad temper. I don't have much patience!"

The ghostly thing stopped after a few hits, and then looked at the aggrieved nine neonate calmly. ""If you make me angry again, do you believe that I will devour you and then find the information I want from your primordial Spirit's memory?"

The nine neonate trembled. It definitely believed this! Because he often did it himself!

Using himself to push others, the nine neonate felt that this was not a threat, but a statement of fact!

"Senior ghost, I still have something to do, so I'll go out first. You can beat him up slowly, just don't kill him!"

Lin Yi brought the nine neonate here for interrogation, and he had to leave after handing it over.

"You go! Don't worry, I promise I won't kill him!"

The ghostly thing happily took on the task. Before this, he had been studying formations in the Jade space. Although it was out of interest, he would get bored after being alone for a long time.

The nine neonate was here. Let's not talk about the interrogation, it was more or less a pastime.

Lin Yi left the Jade space and went back to the river of consciousness after making the arrangements.

Mike and the others were still training their senses in the river. Lin Yi hadn't left for too long, but it wasn't too short either. He thought that it would be good enough if they could each level up a small level.

He did not expect that everyone had already raised the strength of their primordial spirits to the perfected Foundation establishment realm!

Lin Yi was speechless. Thinking back to his first time in the training ground, how hard was it to raise his spirit strength?

Star inkstone, spirit sense grass ... And he had to endure the pain of his spirit sense being refined!

These idiots just casually cultivated in the river of consciousness for a while and reached the peak Foundation establishment realm?

Wouldn't he be forming his golden core soon?

"Old eight, Captain, you're back! There doesn't seem to be any cultivation effects here!"

Mike saw Lin Yi and quickly opened his mouth, "Our cultivation speed was originally very fast, but I don't know what happened, but at this stage, we can't improve anymore."

"The great circle of the Foundation Stage is a critical juncture. It won't be easy to break through."

Lin Yi replied casually, but he was a little confused.

The barrier he mentioned was certainly reasonable, but the cultivation environment in the river of consciousness was indeed a lot worse.

Even the effect of the river water was still weakening, and it would soon return to the previous spirit Sense River. It was normal that there was no effect of cultivating spirit sense.

However, he couldn't explain these complicated reasons to them, so he could only study them himself.

Why was it like this? Could it be because he had put the nine neonate into the Jade space?

"Everyone is working hard and has improved greatly. Since this place is no longer suitable for cultivation, let's go up!"

Lin Yi glanced at his team members. Mike was still the fastest one, and his spirit wasn't just at the peak of Foundation Stage, but was a half-step golden core.

In addition to Mike, Serena, Morris, and Fernandes had completely consolidated their strength as foundation building perfected stage cultivators.

The rest of the people had not stabilized their levels yet. They were between the perfected Foundation establishment and the peak of the late Foundation establishment stage. They were more or less unstable!

Lin Yi even thought that if he let the mystic class sea Academy's geniuses come here to train, how fast would their essence Spirit's growth be?

But it was just a thought-Lin Yi guessed that this situation was probably caused by Central's interference, and it wouldn't last long.

Lin Yi could clearly feel that the cultivation environment here had also fallen, and it would probably return to how the river used to be.

"Boss talu, look, adianpolo and the others are coming up again! Should we go over and kill them?"

Nasby saw Lin Yi and his men coming ashore and was tempted. "With our current strength, we can teach them a lesson in minutes! I've already chased them into the river just now, how about we do it again?"

Dale was speechless. Did he really think that he was the one who drove them into the river?

It's fine if this stupid subordinate doesn't have a brain, but why does he have such poor eyesight?

"That's right, boss talu. It's a good time to practice. We'll just go up and do it!"

Bobby was also eager to try.

They had occupied the best cultivation area on the shore, and their primordial spirits had been greatly enhanced. They had already entered the peak of the late Foundation establishment stage.

But they'd only just entered the peak of the late Foundation Stage-it wasn't stable yet, and just like the weakest members of Lin Yi's team, they'd drop back down to the lower levels from time to time.

The only difference was that the weakest in Lin Yi's team was between peak late Foundation Stage and peak Foundation Stage, while talu and the others were between late Foundation Stage and peak late Foundation Stage. There was a whole level difference between the two!

In a one-on-one fight, even the weakest one on Lin Yi's side was enough to destroy any one of them!

"Don't talk nonsense and shut up!"

Talu scolded in a low voice.

Lin Yi's spirit attack had already shocked ta Lu-he didn't want to mess with Lin Yi if he wasn't 100% confident.
