such a method to open the ruins?

This guy was quite smart. He knew that Liu Yidong and the others had come here for the trial, so he must know the way to enter the remains.
Therefore, it was absolutely foolproof for him to flatter her in this aspect!
"That's natural! I've already said that you don't even have the right to enter the ruins! If you didn't meet us, it would be normal for you to be trapped here and die!"
Liu Yidong felt at ease. He raised his chin and smiled proudly. "Get out of the way, let me open the entrance to the ruins and broaden your horizons!"
Lin Yi's lips curled up as he waved his hand, signaling for his team to back off and let Liu Yidong come to the tablet.
Although Lin Yi already had a guess about opening the ruins, he wasn't completely sure. He wanted to see if Liu Yidong had any ideas and let him try to be cannon fodder.

However, Lin Yi's spirit was only at the sea shattering realm, and he had to spend a long time to form those three words. How could Liu Yidong, who was only at the peak of the early Xuan Sheng realm, use

There was no need to ask, there must be another method!
Since that was the case, Lin Yi naturally didn't mind waiting and see. It would save him some energy.
Liu Yidong swaggered over to the wordless stone tablet and glanced at Lin Yi in disdain. He took out a scroll and threw it at the tablet.
The scroll unfurled in the air, and the top of the scroll automatically stuck to the top of the wordless stone tablet when it reached its highest point. The rest of the scroll swayed gently in the air and gently landed on the stone tablet. Soon, the scroll was flat and attached to the stone tablet.
The entire wordless stone tablet immediately turned into a stone tablet with words on it. However, there were not many words on the scroll, only three!
Lin Yi and the others didn't know what the words were, but they were very familiar-it was on the sign outside too!
"Did you see that? If you want to open the ruins, you have to hang the scroll with these three words on the wordless stone tablet. You ignorant outsiders think you can enter the ruins just because you're lucky enough to come here?"
Liu Yidong finished tossing the scroll and turned to Lin Yi with a disdainful smile, "I've opened your eyes today, right? It'll be enough for you to brag about for the rest of your life!"

Lin Yi couldn't be bothered to pay attention to Liu Yidong. He couldn't help but laugh in his heart. His thinking was correct, but his method was wrong!
It turned out that the wordless stone tablet didn't need to condense words with divine sense at all. As long as three words were written on it, the remains would be opened!
He had thought too much about it before!
Thinking about it, it made sense. Only he, who had a spiritual sense at the sea splitting stage, could barely imitate and write the words of the spiritual sense. How could others do it?
Especially an idiot like Liu Yidong. Even if he came from the ancient martial world, his understanding of the divine sense might not be as good as Lin Yi 's.
However, after waiting for a long time, there was no strange phenomenon in the hall.
"Senior brother Liu, something seems to be wrong!"
Lin Xi Chen frowned slightly and said in a low voice,"Why is there no reaction from the stone tablet? Normally, the remains should have already been opened, right?"
"Ah?"

Liu Yidong was bragging to Lin Yi when he heard Lin Xi Chen's words. He quickly turned around and looked at the wordless stone tablet!
As expected, the stone tablet did not move at all.
There was no movement in the hall.
There was only a single line of words hanging there, and it was filled with a sense of disharmony.
"This I might have to wait a little longer?"
Liu Yidong also did not know what was going on, so he could only make wild guesses.""Perhaps it's beer too long, and the mechanism at the entrance of the remains is a little rusty, so the reaction time is a little longer!"
Lin jingchen was speechless. The entrance to the remains wasn't made of iron, so how could it rust?
I've never heard of such a thing before. You're quite good at making up stories! Can I suspect that your brain is rusty?

At first, Lin Yuchen thought that it would be reliable to participate in the trial with Liu Yidong, but he didn't expect it to be nonsense.
"That's right, that's right. It's definitely rusted. We just have to wait a little longer!"
Dale did not care about anything else. He just wanted to flatter Liu Yidong!
"He can even kneel and lick this? he really has no class."
Fernandes looked at tallu in disdain. This kid is too cheap. He's a disgrace to the people of kirrlutz!
Then, Fernandes found that ardianpolo, Chris, and the others were all looking at him with strange expressions.
"Why are you all looking at me? Is there something on my face?"
"No I was just thinking, Fernandes, are you and Taru brothers? The blood-related kind!"
Adianpolo coughed and laughed,""I don't know why, but when I see how talu looks now, I feel that there must be a story between the two of you that must be told!"

The corner of Fernandes 'mouth twitched. You're the one who has a story to tell with tallu! At most, I have some stories to tell your Chris!
However, Fernandes only dared to think about it in his heart. If he said it out loud, he would probably be beaten up by dyanpolo and Chris!
Lin Yi's team was still in the mood to joke, but Liu Yidong's face was getting uglier and uglier!
The wordless stone stele didn't move at all, and tallu was still talking brainlessly on the side. It was really annoying!
"Shut up! All of you, get lost!"
Liu Yidong finally couldn't help but scold ta Lu!
Ta Lu's words came to an abrupt end. He looked at the angry Liu Yidong with a dumbfounded expression. He did not understand how he had flattered the horse!
Fernández had done a good job before, and his ability and status had improved, so why couldn't he?
However, he didn't dare to refute. He could only retreat to the side dejectedly and didn't dare to say another word.

Fernandes glanced at Dale with disdain. You still want to learn from me and hug my thigh? He didn't even look at whether he had the talent to be leg hair!
"That's not possible! Why isn't the entrance open?"
Liu Yidong frowned and looked at the wordless stone tablet in confusion.""Could it be that the scroll wasn't hung in the right position?"
After he finished speaking, Liu Yidong immediately flew up and took off the scroll. He then compared the position for a long time and hung the wordless stone tablet again.
That serious look on his face made him wish he could take a measuring ruler to size it before hanging it.
However, it was useless. The scroll was still the scroll, and the stone tablet was still the stone tablet. The surroundings were quiet and there was no movement.
"Hahaha, I've really learned a lot this time! You can brag about it for the rest of your life when you go back!"
Fernandes's laughter suddenly rang out, obviously mocking Liu Yidong's words to Lin Yi,""Aiya! It seems that the entrance to the remains is very rusty and can't be opened for a while, right?"

Liu Yidong's face instantly turned red when he was suddenly ridiculed!
These were all the words he had just said, and now fernández was using them to slap his face. It was really a slap in the face!
"Fernandes! Don't talk nonsense! If you don't understand, then don't talk nonsense!"
Lin Yi scolded Fernandes in a serious tone and apologized to Liu Yidong,""Don't take it to heart with Fernandes. He's just a reckless person who likes to talk nonsense!"  Chapter 7612 You Want To Eat The Scroll?
Liu Yidong almost suffered an internal injury. Those were my words just now!
If you want to say that I'm talking nonsense, just say it! What's the point of cursing in such a roundabout way?
"Senior brother Liu, there seems to be a problem with the entrance of the ruins. Let's first study how to solve it, don't be distracted by unnecessary things!"
Lin Xi Chen stepped forward and pulled Liu Yidong aside. She said in a low voice,""If we can't enter the ruins, our trial will be over. We won't be able to explain it when we go back!"

"I know!"
Liu Yidong gritted his teeth and nodded. He then smiled helplessly and said,"But the method to enter the ruins was bestowed by the sect's elders. If there's no way to open it I don't know what to do either!"
If he could teleport back, he could just pay a price and go back to ask. Unfortunately, the teleportation array was one-way. He could only come and not go back. If he wanted to go back, he had to enter the ruins and find the teleportation point to return!
If he couldn't enter the ruins, he wouldn't be able to return to his sect. If he couldn't return to his sect, he wouldn't know how to enter the ruins He was dead!
"Hahahaha, you have no other choice, right? Why don't Fernandes give you a clear path? as long as you listen to me, I'll definitely let you enter the relic!"
Fernandes put his hands on his waist and laughed out loud. That cheap look was really Likable!
"Do you want to know the way? I won't keep you in suspense and will tell you directly! As long as you submit to our Captain, our Captain will definitely let you enter the remains!"
Lin Yi was speechless-he wasn't even sure if he'd be able to get in, and you were the one who said he could?

"You're looking for death!"
Liu Yidong was very annoyed. He had been ridiculed by Fernandes again and again, so how could he suppress his anger?
His face darkened, and he raised his hand to teach fernández a lesson!
On the side, Turret Road was secretly happy. He did not expect that idiot, fernández, to hit the muzzle himself!
Ta Lu didn't care if he could enter the ruins or not-those people were the ones eating the meat, and he didn't even know if he could get the soup. Letting Liu Yidong destroy Lin Yi's team was his biggest wish!
"Ha Let's talk this out, why do you have to fight? Don't you agree, miss Lin?"
Lin Yi dodged slightly and stood in front of Fernandes, blocking Liu Yidong's way and pulling Lin Chenchen into the water without a trace.
Lin Yuchen didn't say anything, but he tugged at Liu Yidong to stop him from continuing.
Fernandes hid behind Lin Yi and sneered,""You still dare to attack? Captain, you don't have to give me face. Just stare at that kid to death, and then you'll make that girl pregnant!"

Lin Yi didn't know what to make of this logic.
If it was a dead person, he might still be able to do it, but to get pregnant The difficulty was too high!
It was a good thing that Fernandez's voice was soft, and Lin Yi's divine sense stopped him in time, so Liu Yidong and Lin Yuchen didn't hear him. Otherwise The two of them would probably kill Fernandez together!
"Eighth brother! Do you really have a way to open the entrance? If you can, please make your move!"
Lin Xi Chen gave Liu Yidong a look, then smiled and cupped his hands."Everyone wants to enter the ruins. If you can help me, I'll remember this favor!"
Fernandes snorted,"what's the use of remembering it?" It can't be eaten, but it's a pity it doesn't look good. Even if it's given to our Captain to warm his bed, he probably won't like it"
Lin Yi's mouth twitched. Fortunately, he had the foresight to completely block Fernandez's voice. Otherwise, Lin Chenchen would definitely kill Fernandez if he heard it!
To be honest, Lin jingchen was considered pretty. However, Europeans like Fernandez had a different sense of beauty from Asians. That was why he would say something with an IQ of 250!

"Miss Lin is too polite! I've studied it for a long time and have some ideas. I can try, but I can't guarantee success! Work "
Lin Yi nodded.
He had to enter the ruins, so he couldn't avoid testing his guess.
He'd wanted to keep a low profile, but Fernandes had sold him out. He had no choice but to make a move!
"Then I'll have to trouble you, eighth brother!"
Lin Yuchen smiled and extended his hand to make an inviting gesture. "We'll wait and see. We'll see your performance, eighth brother!"
Lin Yi nodded slightly and took out a big wolf hair brush from the corner of his storage bag. He didn't know which unlucky bastard it belonged to, but it was taken as a trophy. He didn't expect it to be useful one day!
"I think your method should be correct, but the words on the scroll are too old, so they have lost their effect. I just need to trace them down and maybe it will work!"

Lin Yi explained with a smile. Of course, it was all nonsense. Whoever believed it would be an idiot!
Liu Yidong was not stupid. He immediately sneered,""I thought you had some brilliant tricks up your sleeve, but in the end, you said such brainless and stupid words! This scroll was left behind by an ancestor. Only when the spiritual aura of the words on the scroll matched the stone tablet could the entrance be opened! Can you solve the problem by simply tracing it?"
"Senior brother Liu, maybe eighth brother can really solve the problem. Let's just wait and see!"
Lin Xi Chen tried to persuade him, then said in a low voice,"In any case, there's no other way now. Let's just try it as a last resort! His Wolf-hair brush was not dipped in ink, so even if he tried to trace it, the words on it would not be damaged."
"Junior Sister Lin, why do you believe the words of such a liar? If he can really open the entrance, I'll eat this scroll!"
Liu Yidong was very displeased. Although he knew Lin jingchen's intentions, he still felt that she valued Lin Yi too much.
"You want to eat the scroll? This isn't good, is it?"
Lin Yi was surprised. He looked at the scroll and then at Liu Yidong,"After all, it's something left behind by your sect's ancestors It's been so many years, it's easy to get diarrhea if you eat it!"

Liu Yidong almost vomited blood!
What was the connection between the things left behind by the ancestors of the sect and diarrhea?
Shouldn't he have said to protect what the sect's ancestors left behind?
So You Think it's not that you can't eat the food of the sect's ancestors, but that it has gone bad with age?
F * ck! There was no way to chat!
"Hurry Hurry up and trace it!"
Liu Yidong held his breath for a while and finally waved his hand weakly. He didn't want to continue talking to Lin Yi!
Lin Yi shrugged, twirling the brush between his fingers and flying into the air with ease.
The tip of the brush moved gently, quickly tracing the words on the scroll.

e

Originally, only a scroll with three characters was required, but now it required real spiritual awareness to condense the characters to open!
Lin Yi wrote these three words in the air and landed on the ground. The words on the scroll shook and released a strong killing intent, just like the sign at the door!
The wordless stone tablet trembled and slowly moved backward, revealing a passage that led downward.
"It's It's really open?!"
Liu Yidong was dumbfounded.
How could such a thing happen?
He only needed to use a brush to trace it once on the scroll?
I could have said so earlier!
Lin Chenchen's eyes flashed as she looked at Lin Yi, surprised.

She'd wanted to give Lin Yi a shot, but he finished it in the blink of an eye!
How did he do it?
"Hehe I just tried, and it actually worked! It was an accident, an accident!"
Lin Yi smiled, the brush twirling between his fingers before disappearing."That Do you still want to eat this scroll? Do you want me to help you take it off?"
Liu Yidong's face instantly turned green. He had been slapped in the face too many times today, and he felt that his heart could not take it anymore!
"You're really lucky! You can just randomly guess it right!"
It was obvious that Liu Yidong didn't want to eat the scroll, so he pretended not to hear Lin Yi's words and changed the topic,"But you should also understand that without us, you can't open the entrance either!"
He was trying to say that Lin Yi used a scroll to open the entrance.
Without a scroll, Lin Yi wouldn't be able to do it, but the word "scroll" was too sensitive, and Liu Yidong was too embarrassed to say it.

Lin Yi's lips curled up. He would've brought his men in already if they didn't come in. Why would he waste so much time here?
"Anyway, I've opened the entrance to the ruins. Do you want to eat the scroll? I'll be waiting!"
Lin Yi brought the topic back to eating the scroll again, and Liu Yidong was sick of it!
Can you not mention this? You said it yourself, the scroll has been in there for so many years, it's easy to get a stomachache!
"The entrance to the remains has been opened. Everyone, get ready and line up to enter!"
Liu Yidong didn't want to talk to Lin Yi, so he turned around and shouted to everyone behind him,"After entering the ruins, listen to the command. If anyone messes around and ruins my plan, I don't mind letting them know what horror is!"
"Some people speak like they're farting. I think you should just listen to them. Don't take it too seriously!"
Fernandes snorted and said sarcastically,""You must be careful of someone who doesn't have any credibility. Don't be deceived without even knowing!"

After hearing fernández's words, Taru actually panicked a little.
However, only a fool would question Liu Yidong at this time. To show his loyalty, ta Lu even took the initiative to speak up for Liu Yidong!
"What do you know! The scroll is a treasure given to me by an elder of bitter wisdom sect, how can it be destroyed"
"Shut up!"
Liu Yidong was a little angry from embarrassment. Why did this blind thing like to mention a sore spot so much? No one would think he was mute if he didn't speak!
Talu was shocked and swallowed his words. Looking at Liu Yidong's expression, he knew that he had flattered the horse again
"And you guys! I've changed my mind! Today, you either submit or die. These are the only two paths!"
Liu Yidong had been slapped in the face repeatedly, and his mentality had collapsed.

Eighth brother, didn't you say that I didn't keep my word? then I'll keep my word. "I'll count to three and make a choice immediately. Do you want to resist until you die or submit to me?"
"Heh I choose the third option!"
Lin Yi raised his head and smiled coldly.
He didn't argue with him, but he was even more enthusiastic!
Since he wanted to die, then he would fulfill his wish!
"The third option? Alright, I'll give you the third option!"
Liu Yidong wanted to take action directly, but Lin Xi Chen gently pushed him away, so he changed his words,""You're their Captain. I'll give you a chance to fight me one-on-one. If you lose, you'll serve me as your master, or you can commit suicide on the spot. If you can beat me, you can enter the ruins as an independent team!"
Lin Yi's lips twitched. His third option was to F $^{*}$ ck her to death, but what the hell was this thing
Do I have to say that I'll choose the fourth option? That would be too lacking in momentum!

"Haha, you're really shrewd! If we win, we'll leave as an independent team. If we lose, we'll have to surrender to you or commit suicide?"
"You've taken all the benefits," Mike sneered."You really think you can do whatever you want?"
"What are you not satisfied with?"
Liu Yidong looked at the Mike indifferently and said in an extremely cold tone,""I've given you a chance to live, are you still not satisfied? Do you believe that I will kill you right now?"
"I've touched your sore spot, so you're angry from embarrassment?"
Mike was not afraid and continued to sneer,"We were originally an independent team, and Captain number eight even opened the entrance to the remains. Now that we have a bet with you, if we win, we'll leave on our own? Do you think it's appropriate?"
"This"
Liu Yidong thought about it seriously and nodded.""It's appropriate!"
Mike choked. There was no way to continue the conversation!

It was really tiring to talk to shameless people!
"Senior brother Liu, since they feel that it's unfair, then let's give them some hope!"
"Senior brother Liu is bound to win anyway, so why waste your breath on them?" Lin Xi Chen smiled.
"Junior Sister Lin is right!"
Liu Yidong nodded and turned to Lin Yi,"In any case, you can't win no matter what. I'll listen to my Junion Sister and give you some benefits!"
"How do you know our Captain can't beat you? I'm not afraid to tell you that with your standard, our Captain can kill you with one look!"
Fernández expressed his dissatisfaction with Liu Yidong's words and said indignantly,""What's wrong? Looking at you, you're still unconvinced, right? You'll know in a while. Our Captain doesn't even need to do anything. He just gave you a look, and you'll experience it for yourself!"
Lin Yi's forehead was filled with black lines as he gave Fernandes a sidelong glance. He wanted the guy to experience it for himself!

What happened to keeping a low profile? If you keep such a high profile, how are you going to keep a low profile in the future?
Chapter 7614 Killing You With One Look
He was such a low-profile Captain, how did he manage to bring up such a group of high-profiled and pretentious members!
He really couldn't be compared to them. He was usually very humble, but these people were great. They were pretentious the moment they opened their mouths.
Fernandes felt the dissatisfaction in Lin Yi's eyes and hid behind him."I don't want to talk to you anymore. You're going to lose anyway, so let's talk about what benefits you'll give us if you lose!"
Liu Yidong was so angry that he almost laughed out loud. A peak nascent soul realm cultivator dared to say that he could kill him with a single look?
If he were to bring this joke back to bitter wisdom sect, it would probably be enough to fill the entire bitter wisdom sect with laughter for three years, right?
"Good, good! Since you're confident of winning, why don't we do this?"
"If you win, your team will be the first to choose any treasure we find after we enter the ruins!" Liu Yidong laughed in anger. Are you satisfied now?"

There was one more thing Liu Yidong didn't say-if Lin Yi lost, he was ready to kill that B * tch Fernandes too!
It couldn't be helped. Fernandes's mouth was really mean. Liu Yidong couldn't think straight if he didn't kill Fernandes!
"If I win, I should be the one to choose first, why would I need you to use it as a benefit?"
Lin Yi curled his lips in disdain,"one look and I can tell that you're a pauper who hasn't seen the world. I don't think you have anything good in your hands. Forget it, let's just leave it at that!"
Liu Yidong almost went crazy with anger. You're just a country bumpkin from the secular world. Where did you get the confidence to say that the disciples of the hidden sects in the ancient Jianghu are poor?
"Who are you calling poor? You're the idiot who has never seen the world!"
Liu Yidong was so angry that his men jumped out and scolded him.
"I'm talking about your boss! This pauper doesn't have anything good and only knows how to use our things as a bet. He's really shameless to the extreme!"

Fernandes poked his head out from behind Lin Yi. Getting rid of people was as exciting as hugging someone's thigh."Captain, don't talk nonsense with him. Just kill him with one look!"
Liu Yidong felt that he was about to explode. If he continued to talk, he would probably really explode. So, he simply stopped talking nonsense and directly launched an attack!
One look and he'll die?
You guys can really act cool! Since he liked to show off so much, he would slap his face on the spot!
I'll kill you with one look!
A divine sense attack!
His strength was at the peak of the early stage of the mysterious Ascension realm. He was definitely at the top of the ancient martial world and his consciousness was already strong enough!
On a sky-class Island, it was almost equivalent to the spiritual sense of an earth-splitting or even seasplitting expert!
Unfortunately, Liu Yidong's opponent wasn't a country bumpkin practitioner from the secular world, nor was he an ordinary practitioner from the Sky Class Island!

Lin Yi's essence spirit was completely different from the people of Sky Class Island. It was the same as the ancient martial world.
The sea shattering realm, the real sea shattering realm, was countless times more powerful than Liu Yidong!
Feeling Liu Yidong's spirit sense attack, Lin Yi revealed a faint smile.
He even had the time to exclaim in his heart that he was indeed a disciple of a hidden sect in the ancient martial world. His spiritual sense cultivation was very stable and solid. It was indeed extraordinary!
If it had been someone else in the team, they might have been killed by Liu Yidong's gaze It should have been a divine sense attack.
Unfortunately, Lin Yi wasn't the same as the others!
When Liu Yidong's divine sense attack approached, Lin Yi calmly released his divine sense to collide with it. It was not even one percent of the normal strength, but it still felt a little too much, so he temporarily withdrew eighty percent of his strength!
As soon as the spiritual awareness attacks of the two sides came into contact, Liu Yidong's spiritual awareness was like an egg hitting a stone, instantly shattering!

Liu Yidong felt that his spirit sense attack was shattered, and he was hit by Lin Yi's spirit sense before he could even show a dumbfounded expression.
Instantly, his entire head felt as if it had been struck by a thousand-pound hammer, and his body involuntarily flew backward.
Lin Xi Chen was shocked. She rushed out instinctively and held Liu Yidong's body with both hands.
However, she did not feel any impact, but Liu Yidong's whole body was soft as if he had no bones.
"Senior brother Liu! What's wrong? Are you alright?"
Liu Yidong was the leader of this trial, and he had yet to enter the ruins. If something happened to the leader, how could the trial continue?
"Hahahaha! I already told you that you can't beat our Captain, but you didn't believe me! Now you're convinced?"
Fernandes did not know what happened at all, but it did not matter. He just needed to know that the eighth Captain had won!

Therefore, he immediately jumped out with his hands on his hips and laughed out loud, showing off!
"How is it? I, Fernandes, never brag, right? If the captain said he would kill you with one glance, then he would kill you with one glance! I'll lose if I take one more look!"
Lin Xi Chen couldn't be bothered with Fernandez. She reached out and checked Liu Yidong's breathing. When she found that he was still breathing, she immediately felt relieved. She then quickly checked him again and finally heaved a sigh of relief.
Although Liu Yidong was still unconscious, it was certain that he had not suffered any fatal injuries. He was only temporarily unconscious because of the turbulence in his primordial spirit.
Although his primordial spirit was shaken, it was still in good condition. It did not leave any fatal injuries.
"What are you guys doing? All of you, back down!"
After checking Liu Yidong's injuries, he found that the remaining four junior brothers were about to attack Lin Yi together. Lin Chenchen panicked and quickly put Liu Yidong down, blocking them,""Are you crazy? Who allowed you to make your own decisions?"
Even Liu Yidong couldn't take one hit from Lin Yi, and the four of them, who were only in the original infant stage, could take him down? What a joke!

Charging forward would just be delivering food to them!
It was only an appetizer!
"Senior Sister Lin, senior brother Liu has been ambushed by him. Are we just going to watch and do nothing?"
Junior Brother Wang, the youngest of them all, had a look of indignation on his face. Although he was stopped by Lin Yuchen, he still looked eager to try. "Senior brother Liu is injured. Of course, we have to seek justice for him!"
Justice, your sister!
All of you just watched and didn't see anything? Are you blind?
Lin Yuchen was furious, but he couldn't show it in front of outsiders. He could only suppress the anger in his chest and said in a deep voice,"What plot? Eighth brother and senior brother Liu are just having a fair and square competition, it's just that they're not as good as him, what are you guys making a fuss about?"
You still want to seek justice? After delivering the vegetables, I still have to save the four of you?

"Oh! You want to win by numbers just because you can't beat them? Do you think we're all fake?"
Fernandes sneered. He waved his hand and said,""Brothers and sisters! Can you let them bully our Captain? Come with me!"
After saying that, Fernandes wanted to rush out to support Lin Yi, but he suddenly felt that something was wrong!
He turned around and saw that everyone was looking at him as if he was an idiot. He was dumbfounded. "What's wrong? Am I wrong?"  Chapter 7615 There's No Need To Join Forces
"Fernandes, are you stupid? The other side didn't rush over, and Captain old eight didn't even say anything. What are you so excited about?"
Out of concern for the mentally retarded, Mike explained in a gentle voice,""Even if the four of them rush over, do you think Captain number eight will still need our help? Even if forty of them come up, it's useless. Captain old eight can wipe them out with a single glance. Do you think it's your turn to make a move?"
Fernandez thought about it and felt a little embarrassed. 'That's not right. Mike, what do you mean by that look?'
Lin Xi Chen's heart was heavy as they chatted and laughed. After comforting his four junior brothers, he turned to Lin Yi and cupped his fists.

"Eighth brother, I didn't expect you to have such hidden skills! We were all wrong! Could it be that you're also from the small ancient martial world?"
Lin Xi Chen's expression was solemn and extremely serious."Just now, you asked a lot about the small Jianghu in the ancient times. If you really came from there You shouldn't be from an ordinary sect, right? Could he be a disciple of an ancient sect?"
"What ancient sect? Is it a place that's even more powerful than your hidden sects?"
Lin Yi was stunned,"and I'm not from the ancient martial world like you said. We're both from the secular world. I've only heard some things about the ancient martial world and was curious, so I asked a few questions!"
"It doesn't matter if you don't admit it! Just pretend I didn't say anything!"
Lin Yuchen nodded slightly, waved his hand, and smiled."It doesn't matter whether it's true or not, we'll know in the future! You won just now. According to the agreement, you can enter the ruins independently. You have the right to choose the treasures we found together!"
Lin Yi thought to himself-I'm really not from an ancient sect, why does it look like you've already decided on me?
Forget it, there's no point in explaining. Let her think whatever she wants!

"Alright then! I don't think you're willing to go with us, so we won't take all the benefits. So, it's better for us to go our own ways and not interfere with each other!"
Lin Yi cupped his hands, "miss Lin, we'll be leaving first!" Everyone, follow me into the remains!"
"Captain! Wait a minute!"
It was rare for Fernandes to go against Lin Yi's orders, and Lin Yi was curious as to what this guy was up to this time.
"Ta Lu, get over here! He was so smug just now, and he even knew how to fan the flames! Isn't it time to come out and give an explanation?"
Fernandes rushed over in high spirits and pulled out tallu, who was trying to hide.""You still want to run? Where can you run to?"
"No Fernandes, do you have to go this far? We're all from kirrlutz, from the same hometown! Fellow townsman, why make things difficult for fellow townsman?"
Talu's heart was like dead ashes, but he had to force a smile and face Fernandes.""I didn't say much We're all serving our own Masters, you should understand! Besides, your eighth Captain didn't say anything, right?"

"The captain didn't say it because he was magnanimous and couldn't be bothered to argue with trash like you. But as his underlings, we definitely can't tolerate people like you who insult the captain!"
Fernandes sneered. He grabbed Taru's collar and lifted him up.""I don't want to talk nonsense with you. I'll beat you up today to vent my anger. Bear with it!"
Talu was relieved. Just a beating? That doesn't matter, just don't kill him!
He had originally wanted to ask for help from a backer, but Liu Yidong was still unconscious and Lin Yuchen obviously didn't want to manage the situation. Even ta Lu was in despair, but he was much more relaxed now.
"Captain, will it be fine if I beat him up?"
Fernandes raised his fist and suddenly felt that he should ask for the opinion of his thigh, so he stopped and turned around to ask,""I promise I won't waste any time. I just want to beat him up to vent my anger!"
Lin Yi pretended he didn't hear anything and turned to look at the scroll, studying the words again.
Fernandes understood what he meant, and he immediately laughed and waved his fist.

Adianpolo and Mike were so excited that they joined in and beat talu up until he was rolling on the ground and shouting for help. Unfortunately, no one responded.
Not to mention the people of the bitter wisdom sect, even Nasby and Bobby, who were tallu's men, looked down and pretended not to see or hear!
After a long while, fernÃindez and the other two finally finished their beating and returned to the team, laughing and joking, leaving tallu groaning on the ground like a broken sack.
Looking at his breathless appearance, it made one wonder if he was about to die.
At this point, Lin Yi was completely sure that central really couldn't monitor this floor.
Perhaps it was because this was a real trial site, and Central's ability could not control this place.
In this way, he could be much more at ease when doing things and did not need to hide and suppress his strength at all times.
"Captain number eight, we're back!"
"That guy's skin is really thick," said Mike with a smile as he shook his hand."My hand was hurt by his skin!"

Talu was not dead yet, but he almost choked when he heard Mike's words."Do I want to hit your hand with skin?" Does your family know that you're so naughty?
"Alright, let's go!"
Lin Yi didn't say anything else and led his men into the tunnel.
After Lin Yi's team went in, Lin Chenchen's team followed.
However, after a few steps, the two sides met again at an underground fork.
The road split into two, and Lin Yi wasn't sure which one to take. He stopped for a while, and the people arrived.
"Eighth brother, which way are you going?"
Lin jingchen thought for a moment before walking to Lin Yi's side and saying indifferently,"According to our bitter wisdom sect's records, we should take the right path. If you're willing, why don't we work together?"

	Xi Chen wasn't sure what kind of danger there was in the remains. Liu Yidong hadn't woken up yet, she wanted to work with Lin Yi.
Wit	th such a powerful ally, they could deal with many dangerous situations, even if they had to pay monet.
"Die	dn't we agree to go our own way? there's no need to work together!"
Lin	Yi shook his head and rejected Lin jingchen's suggestion.
war	nior Sister Lin, why waste your breath on such a person?" Junior Brother Wang said angrily. We rned him out of goodwill, but he thought we were trying to harm him! He really treated good entions as ill intentions! Don't care about him, he can die if he wants to!"
	Yi smiled and shook his head, keeping a low profile. He didn't want to argue with Wang, setting an mple for his team.
war	e reason why Lin Yi found it difficult to choose between the two paths was because the Jade space arned him that there was danger on both sides, and the differences were similar. It was hard to bose.
Cha	apter 7616 Encountering The Stone Tablet Again
The tea	e Jade space notified him of the danger, meaning that he was a threat to Lin Yi or someone in the m.

He just didn't know if this danger was targeted at him or the team members.
So Lin Yi was thinking about letting the others wait here first, and he'd go explore it himself. He'd let them in after the danger was gone.
He didn't expect Lin Chenchen to suggest working with him. To be honest, Lin Yi didn't care about these people's strength at all. Working with them or not made no sense, so he rejected them.
"Since you guys want to take the right path, then we'll take the left path!"
Lin Yi made his decision and smiled at Lin Chenchen, "Let's split up. We won't affect each other. We'll see what we can get. There's no need to choose first!"
"Eighth brother, I really want to work with you, so that everyone can have one more strong helper"
Lin Yuchen said, then immediately stopped and shook his head."Forget it. If you're not willing, I won't force you. I hope we can both be safe!"
Lin Chenchen didn't wait for Lin Yi's reply and led the group into the right tunnel.
The people on the tower Road naturally followed the people from the bitter wisdom sect, walking past Lin Yi's team in the blink of an eye and into the right tunnel.

Lin Yi's admiration for Lin Chenchen increased.
This woman had a straightforward and straightforward personality. Even though he knew that she treated talu and the others as cannon fodder, it was difficult for him to hate her.
After all, if they were in a different position, Lin Yi might have made the same choice and used ta Lu as cannon fodder.
It didn't seem to be 'maybe', but 'definitely'!
Because his high-profile team members were eager to see him die as cannon fodder!
After the enemies had left, Lin Yi led the team into the left tunnel and started an unknown journey!
Lin Yi looked at the fork one last time and didn't find anything else,""Did the sea serpent King send you any more messages?"
"Captain, that's all!"

Fernandes shook his head and said,""But then again, even the sea serpent King isn't as useful as you, Captain. What's the point of having him?"
Lin Yi waved his hand speechlessly, not in the mood to talk to a high-profile member like this. He turned to Mike."What about you, Mike?"
"Captain number eight, I didn't receive any messages either. It's as if some sort of connection was cut off from this level."
Mike said, looking at Chris and adianpolo."I think they should be the same."
"Alright, then we'll go this way."
Lin Yi nodded and led the group into the left tunnel.
The tunnel was long and narrow, but it wasn't crowded. Lin Yi led the way, and they didn't encounter any danger.
After walking for a long distance, his eyes suddenly brightened up!
Lin Yi was troubled-could it be that the danger wasn't in the tunnel, but behind it?

"Waa! It was so beautiful! This is the real palace of the sea serpent King, right?"
Fernandes was the first to exclaim when he saw the scene in front of him.
The Crystal Palace was already luxurious and beautiful, but compared to the pavilion in front of them, it was still inferior!
"Captain number eight, we should have found the right place, right? Anything here is a priceless piece of art, so I'm afraid this is the palace of the sea serpent King!"
Mike was also a little dazed. He couldn't help but reach out to touch a fist-sized night-luminescent Pearl!
This kind of night-luminescent Pearl was definitely a priceless treasure in the secular world!
But here, they were just ordinary objects used for lighting and decoration. They were everywhere, so they were not rare at all.
"Everyone, don't move. First, observe carefully to see if there's any danger!"
Lin Yi stopped Mike's actions, sighing to himself. He was such a cautious person, how did he get this group of bold and high-profile members?

There was really no cure. It seemed that he had to restrict them more in the future.
However, Lin Yi was a little suspicious. The Jade space indicated that there was danger in this tunnel, and since they had been safe all the way through, the danger must be in this Palace!
Don't be fooled by this place's exquisiteness, who knows when the unknown danger will appear!
Mike and Fernandes quickly pulled their hands back. Lin Yi's authority had already been established, and he wouldn't move if he said so!
"Captain eight, there's also a stone tablet here. The words on it are similar to the ones on the plaque outside!"
"It's here!" Serena called out loudly,"I feel like I'm shivering again when I look at it."
Lin Yi had noticed the stone tablet a long time ago, but the hall was huge, and he hadn't scanned the entire area with his spirit sense yet. He only turned his attention to it when he heard Serena's voice.
"Ocean control?"

Serena didn't know the words on the tablet, but Lin Yi did!
It was written in the standard Chinese language, completely different from the plaque outside the hall.
"Captain eighth brother, what do you mean by those two words?"
Serena did not quite understand, but she vaguely felt that she had caught on to something.
"Controlling the sea here should mean controlling the ocean. If I'm not wrong, this Palace is indeed the remains of the sea serpent King!"
"As for where the other path leads to, it's hard to say. Maybe it's The Kraken King's ruins on both sides, or maybe It's just a trap!" Lin Yi guessed.
"In my opinion, that's definitely a trap!"
Fernandes laughed and said,""If they don't follow our brilliant Captain, who will fall into the pit if they don 't?"
"Hahaha, Fernandes, I like what you're saying! Those guys must be regretting it now! Captain number eight, let's hurry up and take action. After we've taken the benefits, we'll go over and see how unlucky they are!"

Mike also began to gloat. He clapped his hands and laughed wildly."I really want to see the expression on that unlucky bastard's face! Speaking of which, it would be strange if the bitter wisdom sect's people weren't unlucky to have brought along ta Lu, this unlucky star!"
Lin Yi smiled bitterly to himself. Where did these guys get their blind confidence from?
No matter what, Liu Yidong was still an expert in the xuansheng stage. He was a true king of the heavenly Dao realm, an expert with one foot in the Titan realm!
If his primordial spirit hadn't cultivated to the sea splitting stage, how could he be Liu Yidong's opponent?
Lin Yi himself was stuck at the xuansheng stage for a long time before breaking through to the mountain split stage.
With Liu Yidong leading the team, the tower Road would not be in any life-threatening danger.
Moreover, even if this was the true location of the sea serpent King's remains, there were still unknown dangers present. It was impossible for others to take all the benefits away so easily!
What worried Lin Yi was where the danger of the Jade space communication came from. Everyone had been in here for a while, and the danger that should have been activated should have been activated long ago!

Chapter 7617 Shrimp Soldiers And Crab Generals
Just as he was thinking, the killing intent exuded by the two words "imperial sea" on the stone tablet grew stronger and stronger.
Just as Lin Yi realized that something was wrong, countless shrimp soldiers and crab generals suddenly swarmed out of the exquisite and beautiful buildings around him!
This was a real shrimp soldier and crab general, just like the ones in the movies.
Each of the shrimp soldiers and crab generals was nearly 2.5 meters tall, and they had thick shells on their bodies, looking quite powerful!
"What the hell is this? A sea beast?"
Fernandes was shocked at first, but he quickly regained his composure.""That's quite a lot, but it's a pity that it's useless! With our Captain here, he can kill you all with one look! However, the captain liked to win people over with virtue. He directly controlled them with his big feet! Therefore, I advise you all to obediently submit!"
If Lin Yi wasn't here, Fernandes would've probably run away after seeing so many shrimp soldiers.
With Lin Yi around They'd be able to show off!

Unfortunately, fernández chose the wrong opportunity again.
He had become a fool after failing to act tough. So many shrimp soldiers and crab generals did not pay attention to him at all and directly rushed over in a black mass!
"Don't talk nonsense. Be careful and defend with all your strength!"
Lin Yi shouted and waved his hand, releasing a lightning arc in front of the team members.
Dozens of the shrimp soldiers exploded when they touched the lightning, but Lin Yi's face was still very serious.
"They are not living creatures, they are all puppets!"
The puppets that had been blown up reassembled in the blink of an eye and continued to charge with the main force, seemingly unaffected.
Fernández and the others were shocked and quickly organized a formation to defend.
However, with Lin Yi blocking them, they didn't feel too much pressure.

"Captain, what the hell is this? Are puppets immortal?"
Fernandes panicked as he watched the broken puppets regroup and continue to attack the defensive formation.
He wasn't afraid of the enemy being strong, but he was afraid of the enemy not being able to kill him!
Such an opponent could drag you into despair!
"Fernandes, don't be nervous. These puppets are not too strong. Although there are many of them, we should be able to deal with them!"
Mike, on the other hand, was relatively calm. He even had a smile on his face as he spoke."Look, the fish, shrimp, and crabs at the front are at most at the peak of the middle Yuanying stage. They're far from being a threat to us. We can kill them without the help of our Captain!"
Fernandes saw that it was true!
Although the number of the other side was relatively large, they had formed a defensive formation. They were not facing the enemy alone. Instead, they had gathered the strength of their teammates together. It was not difficult to deal with these fish, shrimp, and crabs!

"Hahaha! Mike, are you joking? Who am I? I'm Fernandes! How could I be nervous?"
After realizing that he was safe, Fernandes immediately laughed, trying to cover up his panic.""It's just some stinky fish and rotten shrimp! And they're all fake, this is clearly a joke!"
Before he finished speaking, a new batch of puppets had been formed. The number was slightly less than before, but their strength had increased greatly. They had reached the peak of the advanced stage of the original level from the peak of the middle stage of the original level!
Compared to Fernandes and the others, he was only slightly weaker!
This wasn't the main point. The main point was that the remaining shrimp soldiers and crab generals were still surging out. The small amount was immediately filled up by three to five times!
Fernandes 'face turned pale. These rotten fish and shrimp can level up by themselves?
Not only was he unkillable, but he also became stronger the more he died? Are they all mayflies with Saiyan genes?
"Everyone, maintain your formation and move immediately!"
Lin Yi felt that something was wrong and immediately ordered everyone to retreat, "There's something strange about these puppets. I can't stay here and waste my time!"

The lightning bolts could destroy the puppets, but they could not destroy them. As for the divine sense attack, these puppets did not have primordial spirits at all, so they were not affected by it at all!
If they continued to be entangled, the situation would become more and more disadvantageous to their side!
Lin Yi had already thought of a lot of countermeasures in the time that Fernandes was talking.
If the divine sense attack didn't work, then he would try using the Imperial ocean script on the stone tablet.
It was just that in such a short time, Lin Yi couldn't form the words completely, but using his spirit sense to simulate the aura was no problem.
Unfortunately, it was still of no use. These puppets simply turned a blind eye to it!
Perhaps the sea controlling stone tablet was the key to activating the puppet's attack, but it was clearly not the key to closing it.
"This way!"

Lin Yi raised his hand and blasted a group of puppets away, temporarily creating a gap for them to pass through.
Fernández and the others maintained their formation and followed closely behind Lin Yi. The pressure around them increased, but it was still within their tolerance.
"Captain, where are we going?"
All Fernandes could see were fish, shrimp, and crab puppets. He could no longer tell North from South, East from West, let alone see his surroundings.
"There's a Pavilion over there, and the number of puppets is still considered small. We should be able to hide for a while!"
Lin Yi said without turning his head. He didn't explain that he could tell that the buildings were built according to a formation, and that the attic was the life gate!
Lin Yi didn't stop his attacks as he led his team. The Thunderbolt vegetable knife cut the wires, creating a trail of sparks and lightning. It didn't take long for the team to reach the attic.
"You guys go in first!"

Lin Yi opened the door and scanned the building with his spirit sense. He didn't find anything special, so he dodged to the side and let the people behind enter first. He stayed outside to guard the back.
Fernandes and the others went in one after another. Lin Yi's bravery was already deeply rooted in their hearts, and they weren't worried about Lin Yi being in danger at all. They were only worried that they would become a burden!
After they all entered the building, Lin Yi threw out dozens of formation flags and disappeared around the building.
These array flags would not change the original array, but they would seal the surroundings of the pavilion for a period of time.
Normal illusionary formations were useless against the puppets-only this kind of sealing formation could slow down the puppets 'attacks for a while. Lin Yi would have enough time to find a way to solve the problem.
After that, Lin Yi turned around and entered the attic, closing the door behind him.
"Captain number eight, are those golems really not going to attack this place?"
Mike saw Lin Yi come in and leaned on the door,"Where did these things come from? All of a sudden, such a large number of them appeared!"

"It should be the guards left behind by the sea serpent King to protect the palace. To be able to refine such a troublesome puppet, this sea serpent King Seems to be not simple!"
Lin Yi explained, raising his opinion of the king.  Chapter 7618 Yandi Stage Puppet
He had thought that it was just an ordinary sea serpent King and might not be much stronger than LAN Guzha. However, it seemed like he had underestimated his opponent!
Just these puppets alone were similar to the sun-swallowing rat tide in the abandoned land. They could both evolve and be reborn after death!
So as long as there were enough puppets, they could even fight against the sun-swallowing rat tide!
With such a comparison, one could see how powerful these puppets were!
This was the power of the sea serpent King!
Just how high level of a forging technique was required to create so many exquisite puppets?
"Captain number eight, I realized that it's not that these puppets don't want to attack us They're being blocked by something. It's amazing!"

Mike observed for a while from the crack of the door and more or less saw the problem.""This attic seems to be a good thing. It can block attacks. It would be great if I could take it with me!"
Lin Yi didn't know what to say, and didn't know how to explain. He thought to himself that it wasn't the attic that was good, but the formation outside the attic that was good!
Fernandes's interest was piqued. He came over to observe the situation, wanting to see if there were any shovels or pickaxes to pry the attic up and take it away.
Unexpectedly, a new change suddenly occurred!
Four black Sea beast puppets silently appeared from four corners and immediately launched an attack!
Lin Yi's face changed. Even with his spirit sense monitoring every corner of the building, these four sea beast puppets appeared out of thin air without any warning. Lin Yi was caught off guard!
The puppets didn't have any aura, and Lin Yi couldn't see their true strength level before they attacked. It was only when their attacks started that he realized the severity of the situation!
The peak of the middle stage of earth creation!

The four puppets 'offensive power had all reached the peak of the middle stage of earth creation!
Moreover, under the joint attack of the four parties, the power was definitely comparable to that of an early stage sea Rift cultivator!
In this way, Mike, Fernandes, and the others would be turned into ashes by the puppets even if they were touched by the puppets, let alone fighting them head-on!
Wood forest thousand transformation!
In the nick of time, Lin Yi chose to protect his team members without hesitation. Eight clones appeared in pairs, each taking on a puppet.
He'd already shown off his "doppelganger" ability once before, so it wasn't too strange for him to create a few more this time.
Otherwise, once Lin Yi himself made a move, even if these puppets were immortal, a sea Rift level lightning explosion would probably turn them into PM 2.5, and they would never recover.
But that would be too shocking. He was sure that the Saint soyatu couldn't keep an eye on this place, but he didn't want to scare his team.

On the other hand, the strength displayed by the doppelganger was much lower than that of the main body. However, it was not a problem for the doppelganger to deal with a puppet in a two-on-one battle. It just did not seem out of place!
As expected, the team members all thought that Lin Yi was using his cloning ability again.
"Boom boom boom!"
The clone and the puppet collided with each other, and a deafening boom erupted from all four directions!
The violent impact created a powerful shockwave that shook the surroundings. Lin Yi was a little shocked. These puppets They looked very strong. He had to personally protect Fernandes and the others.
"Captain What the hell is this?"
Fernandes 'face turned pale. He was not only shocked by the sudden sneak attack, but also by the huge movement caused by the collision between the avatar and the puppet!
Although Lin Yi had blocked the aftershock and didn't affect any of the members, the power was still enough to make fernández tremble in fear!

"I didn't expect there to be such a powerful Guardian puppet here This is obviously a little strange!"
Lin Yi's expression was serious-he knew exactly what was going on!
He had clearly brought everyone to the gate of life in the formation, so why did these powerful earth splitting stage puppets appear, and why did four of them appear?
Could it be that this place was indeed built according to the life gate, but in fact, this was also the most important location of the sea serpent King's remains?
So, these four puppets were guarding this place?
From the perspective of the entire palace complex, this Pavilion was not eye-catching, and could only be ranked in the lower-middle class. An ordinary person would probably directly ignore this Pavilion and go straight to the more gorgeous and exquisite palaces to find treasures, right?
But then again, if it wasn't for Lin Yi's strength and formation skills, no one would be able to enter the tower or any building alive against the puppet army!
"Eighth brother's Captain Why are there so many eighth brother's captains all of a sudden? Which one is the real you?"

Mike wasn't a simple-minded person, and he immediately turned his attention to Lin Yi's clone after the shock.
It wasn't the first time he'd seen Lin Yi's clones, but he'd only seen one before, and now there were eight!
That's why he's called eighth brother?
That didn't seem right!
Including the main body, there were nine of them So he should be called ninth?
"Oh, this is my power. This is the real me!"
Lin Yi waved his hand and said, "As you can see, that's why I'm called eighth brother Actually, my powers have evolved!"
"Oh, oh, so it's evolved!"
Mike and the others had already misunderstood Lin Yi's ability when he revealed his clone, so they naturally pushed it to the evolution of his ability.

Everyone had experience with this kind of power evolution, so it was easier to understand.
"The power that eighth brother got is so cool!"
Mike sighed with envy.""How great would it be if I had such a power!"
"It is! This power is so cool!"
Fernandes also said enviously,""Captain, when you're hitting on girls in the future, aren't you afraid that you won't be able to handle all the pretty girls? I think other people will die of exhaustion after marrying a bunch of wives. Captain, if you marry a bunch of wives, you won't even need one, three, five, two, four, six. You can split up and hit them all at once. It'll be easy and enjoyable!"
"Cough cough"
Lin Yi blushed-what the hell were you talking about? no one'd think you were mute if you didn't say anything!
"So Mike, you have to remember, if there's a party, don't invite the captain. Otherwise, we won't even be able to hook up with a single girl, and the captain will get all the girls!"

Fernandes didn't see Lin Yi's displeasure and continued to nag.
Lin Yi's mouth twitched-they were still in the middle of a fight! Can't you be more serious?
It was a good thing that Mike was honest, unlike Fernandes, who was unreliable!
Just as he was thinking about this, he saw Mike nod in agreement after a slight pause.""Indeed! Captain number eight's power was too powerful. No matter how many beautiful girls there were, he could withstand it! Looks like I'll have to order a super-large bed for Captain eighth brother"
Chapter 7619 Puppet Army
Lin Yi didn't know what to say-who said Mike was honest? Honest my ass!
"Mike, be more serious!"
Fernandes glared at Mike unhappily.
Lin Yi blinked, thinking that this guy had changed. He didn't expect Fernandes to continue, "I'm talking about serious business with you. The pretty girl has already been seduced by Captain, how are we supposed to play?"
Lin Yi put his hand on his forehead, thinking that he was too stupid to have any hope in Fernandes!

"Tsk! I'm the young master of the Stratford family. How can I lack beautiful women when it comes to an opening party? Don't worry, you'll get your share!"
Mike waved his hand and said,"I'm not like you. If there's something good, of course, I'll give it to Captain number eight first. I don't believe that Captain number eight only took eight No, nine. How many more can he take?"
Chris immediately glared at Fernandes and Mike with a disdainful look. She pulled Serena and aedanpolo away while mumbling,""All of you, stay away from Fernandes. Mike has been led astray by him. You must be careful!"
Fernandes was dumbfounded. What do you mean I've led Mike astray? This kind of young master from an aristocratic family, he's clearly the one who led me astray, okay?
Lin Yi was tired-his clone was fighting a puppet at the peak of the middle stage of earth creation, and all of them were chatting about something boring instead of being scared?
Don't you know that you'll all be finished if you leak a little bit of the aftermath?
With this lively chattering, the only thing missing was a table with melon seeds, peanuts, and tea, right? You guys are really big-hearted!
They couldn't be blamed-Lin Yi's invincible image was already deeply rooted in their hearts, and now that eighth brother had stepped in, they subconsciously felt that it was fine!

Just chat and relax, and wait for the captain to take care of the enemy!
Unfortunately, things were not that simple. The four great puppets 'attacks were unable to bring them down after a long time, and they actually changed their strategy!
They suddenly stopped their attacks and retreated instead of advancing. They crashed into the wall of the pavilion and penetrated through it!
Lin Yi was surprised-he didn't think that the puppets could do this!
"Eh? Captain, those golems knew that they were no match for you, so they ran away with their tails between their legs?"
Fernandes was not too surprised. He nodded and said,""They're quite smart and can run faster. If they were a little later, Captain, you would've used your secret skill to kill and impregnate whoever you stare at. You'd definitely be able to kill them instantly!"
What a lousy name!
Lin Yi was speechless. Fernandes 'naming skills were really good. Fortunately, the thousand changes of wood and forest had explained that it was a cloning ability. Otherwise, he didn't know what kind of weird name this guy would come up with.

"Not good! Those four puppets are trying to lure the puppets outside in!"
Lin Yi's face changed as he felt the change outside the building. He was annoyed at his own carelessness!
The formation that was blocking the puppets outside was just something Lin Yi casually set up. It wasn't a high level formation, and it shouldn't have a problem blocking the Yuanying or even xuansheng stage puppets!
However, in front of a puppet at the earth formation stage, it was not enough!
One of these puppets was enough to destroy the formation, let alone four of them!
Almost at the same time the four puppets went out, the formation blocking them was completely destroyed.
This Pavilion was a bit special. It had a life gate, so those puppets shouldn't have come here on their own initiative.
However, with the four puppets leading the way, there was no longer any restriction on the life gate, and all the puppets surged into the pavilion from all directions.

Lin Yi was worried that the tower would explode from the endless puppets.
It turned out that Lin Yi was overthinking-the building was made of a special material, and the four puppets were able to go through the walls without damaging it at all. Even with so many puppets rushing in, the main body of the building wasn't affected.
It was as if the space in the attic would automatically expand, or rather, the puppets that entered would automatically compress, so it didn't matter how many puppets came in!
"Captain Can you create more doppelgangers?"
Fernandes 'face turned pale again. Seeing the endless puppet army surging in like a tide, the visual impact almost scared him to death!
No matter how confident they were in Lin Yi, there were too many puppets, and they were undying
No matter how strong old eighth's team leader was, he would be exhausted to death, right?
Lin Yi's thousand changes of wood and forest could, of course, create more clones-even a thousand or eight hundred. The problem was that it didn't matter how many clones he had-the broken puppets would become stronger after they were reassembled!

Therefore, it was meaningless to fight a war of attrition!
"Captain number eight, we should think of a way to retreat"
Mike was finally a little nervous. It was like surfing. It was fun to play with some suitable waves, but in the face of a tsunami that was enough to destroy the city, who would have the courage to surf?
Running for his life was his instinctive choice!
"What retreat! The captain must have a way to deal with these puppets!"
Fernandes still had hope for Lin Yi's support and firmly supported him, "Captain, hurry up and show your true ability! Let these damn puppets all die!"
Lin Yi thought that these puppets really couldn't die!
I'm at the sea splitting stage and I have a thousand Thunderbolts explosion. The puppet is probably dead. However, all of you are dead too. If I wasn't a primordial spirit, I probably wouldn't have been able to escape!
If he could find out the weakness of the puppets, or their death acupuncture points or Life Points, it would be fine if he could destroy them all, but Lin Yi didn't know much about them.

It was the same for the ghostly things, or Lin Yi wouldn't have stopped researching them.
Just like formations, Lin Yi basically knew everything that ghosts knew, he just lacked experience.
As he spoke, Lin Yi's clones were already fighting the puppet army head-on, and in just a few seconds, two of them were destroyed.
Under the lead of the four puppets, the low-level puppets were like ants to an elephant. Lin Yi's clones were strong, but they couldn't hold on.
Fernandes and the others tensed up when they saw Lin Yi's clones get destroyed for the first time. Fortunately, Lin Yi quickly replaced them with new clones to maintain the defense line.
However, their numbers did not increase. They maintained eight clones.
Then, after the clone activated the battle formation, the disadvantage was slightly reversed. For the time being, the team would not be directly threatened by the puppet army.
"There's a limit to the usage of superpowers. If Captain uses them like this, he won't be able to replenish his doppelgangers soon. "

Fernandes could not help but swallow his saliva and whispered to Mike and the others,""There's no other way. We can't let Captain take all the attacks alone. We have to help him share the pressure!"
"Fernandes, you've finally said something! I also think that we need to step forward and fight alongside Captain!"
Chris nodded to Fernandes and said,""Maybe we're all far from enough, but as long as we work together and unleash the power of the battle formation that our Captain taught us, we'll definitely be able to make some difference!"
Chapter 7620 Ocean Control Is The Key
Fernandes thought to himself, "how did I finally say something human again?"
These words sounded familiar Ah pui! This wasn't the main point. The main point was that if I didn't speak human language, was everything I said just nonsense?
Morris and Serena had determined expressions on their faces as well, saying that they wanted to fight alongside Lin Yi. In fact, they couldn't just hide behind Lin Yi and do nothing anymore.
His life was his, so what reason did he have to ask the eighth brother to bear it?
Lin Yi didn't expect them to help out of their own accord. With their strength, they really weren't a match for these puppets. Even if they could break one or two, what was the point?

In the next second, the shattered puppet would complete its reconstruction and return in a stronger form!
It was no wonder that the center was unable to control the sixth floor. The difficulty of the sixth floor could not be solved with just a few experts.
The question was, if central knew the true danger level of the sixth floor, why did they send them in?
Did they really think that these newbies in the original infant stage and the Golden core stage could pass through such a difficult level like the sixth level?
If it wasn't for Lin Yi, they would've been wiped out already!
"Don't move, I have some clues!"
Countless thoughts flashed through Lin Yi's mind-he might have to rely on that stone tablet if he wanted to deal with these puppets!
Ocean control!

He had tried it out earlier, but to no avail. Now that he was surrounded by the puppet army, he could only try his best!
While the clone was fending off the puppets, Lin Yi had already formed the words "Royal sea" in his sea of consciousness. With the previous experience and the familiar Chinese characters, it was much easier to form them.
The two words "ocean control" were completed very quickly, and Lin Yi said, "I'll be right back!"
Lin Yi turned into lightning and flashed across the puppet army.
With the help of the lightning escape technique, Lin Yi appeared beside the stone tablet as if he had teleported. He transferred the two words to the stone tablet.
"Captain Why did you leave?"
"Captain?" Johnson was a little flustered. "Did he leave us behind?"
"Shut up! The captain isn't someone who would abandon us and run away alone! He said he'll be back soon!"
Fernandes glared at Johnson and retorted,""For the sake of President Morris, I won't argue with you this time. If there's a next time, I, Fernandes, will not let you off!"

"I I'm just a little worried" He said.
Johnson immediately felt ashamed.
He had faith in Lin Yi, of course, but not to the extent of fernÃindez and Mike's blind worship,"The captain said that he would definitely come back But I'm afraid that the captain's clone can't hold on for too long. Without the captain's support, the defensive formation will collapse soon, right?"
"Johnson, stop!"
Morris chided in a low voice,"if the captain's clone is destroyed, then we'll go forward. If the defensive formation collapses, we'll at most fight with our lives. What's the big deal!"
He was already prepared to fight to the death, so what else was there to say?
Johnson lowered his head and didn't say anything. He was going to fight to the death, but having a Captain and not having a Captain were two completely different things!
The other members of the ruling sword Association didn't say anything, but they had the same thought as Johnson. They thought that Lin Yi would leave them behind and leave.

Even if they did come back As long as they were a little late, they would all die. What was the point of coming back?
Lin Yi, of course, wouldn't abandon his teammates-he knew his clone's situation very well. Once the formation collapsed, he'd be the first to use his lightning escape to come back.
There weren't any puppets around the stone tablet, and they'd all gone to attack the tower. Lin Yi had to use this chance to do his own thing.
The two words in his sea of consciousness quickly merged with the Yu Hai name on the stone tablet. Lin Yi then stared at the stone tablet, waiting for some changes.
One second, two seconds, three seconds
Ten seconds, twenty seconds, thirty seconds
A minute passed, and the stone tablet was still the same stone tablet. Imperial ocean was still the same two Imperial ocean, but the killing intent on the words had become much denser. However, there were no changes to it!
Well It wasn't completely the same-Lin Yi's lightning escape attracted some of the puppets 'attention.

And so, there were already over a hundred puppets charging at Lin Yi, silently and efficiently attacking.
Lin Yi was depressed-his guess was off. How was he supposed to deal with these puppets?
A cockroach that can't be killed is really a headache!
He couldn't just get two super alchemic bombs and completely destroy this place, could he?
Without a Foundation, these puppets might lose their offensive and even mobility, but in that case, the sea serpent king's palace would also be gone. Did they come here just to tear down the house?
Lin Yi rubbed his brows helplessly. He activated the thousand changes of wood and forest again and created hundreds of clones to beat up the puppets. He couldn't kill them, but he wanted to vent his anger first.
"Ocean Ocean"
Lin Yi mumbled to himself as he let the clone wreak havoc on the puppets.
These two words were definitely the key, but he didn't know what to do!

When they sensed that one of their clones had been killed, one of the hundreds of clones below immediately transformed into a lightning bolt and flew over to join the defense line, continuing to stabilize the formation.
"Did you see that? How could the captain abandon us? He's clearly paying attention to our safety at all times. Who knows what kind of risk he's taking to help us find a chance to survive!"
Fernandes was excited to see Lin Yi's new doppelganger,""Johnson, don't you worry! With the captain personally taking action, these puppets will be finished very quickly!"
"It's my fault. The captain will never abandon us!"
Johnson admitted his mistake and said,""But these puppets are an unsolvable problem. No matter how powerful the captain is, he can't deal with them It's hard to say when he'll return!"
In other words, he still didn't think that Lin Yi would be able to make it back in time.
Sometimes, it wasn't that you didn't give up or give up, that you would definitely get what you wanted. Most of the time, you were forced to give up!
Johnson was prepared for this, and he didn't blame Lin Yi for it.

As soon as he finished speaking, the attacking puppet army suddenly stopped moving. It was so uniform that it was as if time had suddenly stopped.
"What's the situation? There's even a half-time break?"
Fernandes was dumbfounded, but he immediately reacted and said with ecstasy,""It's Captain! Team leader, take care of these puppets!"
Who else could make these damn puppets suddenly stop their attacks other than the omnipotent eighth brother's team leader?
