

Bodyguard 7621

Chapter 7621 Ocean-Pacifying Godly Pearl Shows Its Might

Fernandes wanted to shout and ask, besides the eighth Captain, who else! There was! Who was it?

It was a pity that his thigh had not returned yet. Otherwise, the praise for his senior leg hair would have been endless like the Yangtze River!

"Fernandes, don't get carried away! Maybe these puppets are really just taking a break?"

Johnson was also overjoyed, but he still couldn't believe that he had encountered such a good thing. He said hesitantly, "The captain hasn't returned yet. We'd better not move, in case we fall into the puppet's trap."

Fernandes scoffed at this statement. If a puppet knew how to set up a trap, would it still be a puppet? He had become a puppet spirit!

Most of the members in Lin Yi's team thought that Lin Yi had something to do with the puppets stopping. A few of them hoped that it had something to do with Lin Yi, but they weren't too sure and were suspicious.

And in fact, it was Lin Yi who did it!

The hundred puppets that came over were all torn apart by Lin Yi's clones, and they didn't even have a chance to reform. As long as they tried to reform, Lin Yi's clones would continue to tear them apart!

Lin Yi was mumbling the two words as he thought about how to solve the mystery when an idea came to him!

Ocean control!

Perhaps there was no secret at all, and one only needed to look at the literal meaning!

What did he mean by using his divine sense to condense words ... It was getting complicated!

Perhaps the sea serpent King left behind the sea controlling stone tablet to tell his descendants that only those who could control the ocean were qualified to inherit his legacy?

Therefore, the stone tablet was indeed the key to getting rid of the puppet!

But it wasn't what Lin Yi thought-it was just a reminder for those who came later on how to get the puppet!

To put it simply, it was the Imperial ocean of contempt!

Did Lin Yi have the ability to control the sea?

Of course not!

It's not LAN Guzha, it's the sea serpent Dragon. It might be able to meet the sea serpent King's sea control requirements.

But Lin Yi wasn't worried. He didn't have the ability to control the sea, but he had a tool.

The sea calming Pearl!

The original sea calming divine Pearl did not have the ability to control the sea. However, after fusing with the mermaid's tear, it already had the possibility of controlling the sea.

Lin Yi took out the sea calming Pearl and sent his spirit sense into it. The surrounding water instantly became Lin Yi's eyes and ears!

As long as he was in the sea, he could not escape!

Every puppet, after coming into contact with Lin Yi's consciousness in the sea calming Pearl, was like a subject meeting their King. Not only did they stop moving, but they also bowed their heads slightly to show their submission.

It was indeed feasible!

Lin Yi made up his mind and canceled the clone. He turned into a lightning arc and returned to the building.

"Old eighth's Captain is back!"

Mike's eyes lit up. His instinct told him that it was Lin Yi himself, not a clone. "Captain number eight, were you the one who stopped these puppets?"

"Definitely! Is there a need to ask such an idiotic question?"

Fernandes looked proud, as if he had accomplished such a great feat. "The captain is so wise and powerful. He just went out for a walk and took care of these stupid puppets! Johnson, you have nothing to say now, right?"

"The captain is mighty! Johnson is convinced!"

Johnson lowered his head and bowed to Lin Yi. Lin Yi was confused, not knowing what they were up to.

He'd been too focused on studying the sea resisting stone tablet and the puppets to pay attention to what the other members were talking about. Lin Yi thought that most of their conversations were boring and not worth the effort.

"Old eighth, Captain, why are these puppets all facing you? it's like sunflowers facing the sun. And their manners...They seem to be very respectful!"

Mike was surprised and found something unusual. ""Could it be that when you went out, Captain eight, you used the [giant foot] technique to control the golem leader? That can't be right ... The four most powerful puppets are all here, and there's an even more powerful puppet king hidden?"

The leg control technique was deeply rooted in the hearts of the people, and Lin Yi's method of capturing the leader first was also well known to the team members!

Therefore, when Mike said that, everyone thought that it was the truth!

As a result, the way they looked at Lin Yi was filled with even more respect and admiration!

Lin Yi couldn't help but curl his lips-what the hell was with the foot! Can you not mention such a low-class name?

Besides, there was no puppet leader. He was such a smart person. Why would he lead such a group of brainless team members who liked to make up stories as the truth? Moreover, he liked to act tough. There was really no cure for him!

"Ha ... No, I didn 't!"

Lin Yi wondered if he should tell them about the sea calming Pearl so that they could all know the truth.

After all, even Mike didn't know that the sea calming Pearl he had was a fake. The real one was in Lin Yi's hands first.

Then, he heard Mike say,"is there no more powerful Xuanji?" Hmm ... That's normal. It doesn't make sense for an even more powerful puppet to appear after having four of such powerful puppets ..."

"Mike, you're wrong! What the captain said is not that there are no more powerful puppets, but that he did not use the Bigfoot control technique!"

Fernandes shook his index finger with a serious look."""With the team leader's current strength, he can't use the Bigfoot control technique anymore. He can just use some other tricks and easily and happily take care of the puppet leader. For example, he can use the secret technique that kills whoever he looks at and impregnate whoever he stares at!"

Lin Yi rolled his eyes in anger-it was such a waste of talent for fern andez not to tell a story!

If she went to the entertainment industry, she would instantly become famous, and then she would sing the nine ring ... Underwater nine ring glazed Pagoda.

And so, Lin Yi decided not to tell them the truth. Letting them immerse themselves in their fantasy world was actually very blissful, and he didn't want to disturb their simple happiness!

As long as they were happy, nothing else mattered!

"Captain number eight, are these puppets under your control?"

Serena didn't join in the conversation between Mike and Fernandes. Instead, she walked closer to Lin Yi and looked at the puppets curiously, ""Then, will our next operation here be unimpeded?"

"That's hard to say. The palace of the sea serpent King is mysterious and unpredictable. Other than these puppets, there might be other dangers."

Lin Yi shook his head. Although he said that, he had some guesses in his heart. With the sea calming Pearl, the whole Kraken King ruins might really be as easy as walking on flat ground.

However, he didn't need to be too confident. There was no harm in being low-key!

Lin Yi felt that he'd always been a low-profile, cultured person-he should continue to develop this quality.

Let these team members learn from him, so that they don't have to act tough all day long. They've become a team of tough-acting members.

Just as he was thinking about this, the four puppets at the peak of the middle stage of earth splitting realm suddenly moved on their own, which shocked the speaker, thinking that the puppet army was about to attack again.

Chapter 7622 True Location

Other than Lin Yi, everyone else subconsciously went into a defensive stance, even if it was useless!

Then, they discovered that the four great puppets were not attacking them. Instead, they had gathered together, facing each other in a square that was about three meters apart.

At the center of the square, spatial fluctuations began to appear. Soon, a door of light was formed, and it stabilized in the blink of an eye.

"Old eighth, did you command them to make this? It's so powerful!"

Mike exclaimed, but before he could say anything, Fernandes spoke first.

"The captain is mighty! No matter what it was, it was nothing in the captain's hands! It's my honor to be able to follow Captain. My admiration for Captain is like a surging River ..."

As soon as Fernandes opened his mouth, Lin Yi was already immune to all of this, and he could just ignore it.

But the light doors made by the four puppets still surprised Lin Yi.

I was just thinking of keeping a low profile, and you broken puppets made such a big commotion. In the end, everyone thinks that no one else can do it except themselves!

Really ... I also want to keep a low profile, but my strength doesn't allow me to!

"This should be where the real remains of the sea serpent King are!"

Lin Yi coughed dryly, "These four most powerful puppets are not only the Trump cards to guard the sea serpent King's remains, but also the key to opening it. If you don't subdue them, no one can enter!"

Lin Yi said as he understood.

The new Holy region was probably at the center of it. He had asked everyone to improve their divine senses for the purpose of this place!

Although the new sanctuary didn't know the details of the sea serpent king's palace on the sixth floor, they had probably inferred from some information that it required divine sense to pass through smoothly.

Lin Yi used the sea calming Pearl, but the others, like those who were favored by The Kraken King, probably didn't need the Pearl. They could use their powerful spirit sense to control the sea.

So, in theory, it didn't matter if Lin Yi had the sea calming Pearl or not. It was just that the new sanctuary had overestimated the abilities of the participants.

If Lin Yi wasn't here, ta Lu would be the leader without a doubt. With this guy's intelligence, he wouldn't think of using sea control with his spirit.

"So that's how it is! Captain number eight, you're really amazing, you know everything!"

Serena's face was full of admiration as she looked at Lin Yi, her eyes sparkling like little stars. "How do you know so much? Isn't he too smart? I declare that from now on, you are my idol!"

His fangirl, Serena, was officially online. She reached out and grabbed Lin Yi's arm, her face full of happiness.

She suddenly felt that Fernandes was more pleasing to the eye, because the two would have a lot in common about Lin Yi!

"Ha ... I was just guessing. You can believe me, right?"

Lin Yi laughed dryly and tried to pull his arm out ... But failed!

Instead, he sank deeper into a soft Valley. It was a little awkward for a moment, and he didn't know whether to move or not!

His heart was so tired ... Lin Yi felt that this team was getting weirder and weirder-it didn't seem easy to lead a team when the People's hearts were still there.

"I believe, I believe! I'll believe whatever you say, old eighth Captain! Because you are all right! There's definitely no mistake!"

Serena nodded her head vigorously. She was definitely a fangirl.

She even thought that she should have turned the act into reality when she first met Captain eighth brother!

Whatever, he had already turned Captain eighth into a business, and what was done was done!

If she could turn back time, Serena swore that she would never miss that opportunity!

"Ahem, ahem, that ... Serena, stand still!"

Lin Yi was a little uncomfortable-Serena was hanging on his arm, and the people around him, like Fernandes and Mike, were all looking at him with ambiguous eyes. What the hell was going on?!

Serena was obedient and stood up a little straighter, but she didn't let go of Lin Yi's arm. It was as if Lin Yi was her treasure and she was afraid that someone would take it away from her.

"Serena, let go!"

Lin Yi couldn't help but get serious.

Serena let go of Lin Yi's arm, feeling wronged. After all, Lin Yi's authority was there, and she didn't dare to go against him.

At least the little fangirl had not completely lost her rationality ...

"Alright, everyone, get ready and follow me into the light door! Since it's suspected to be the location of the sea serpent King's true remains, there should be great benefits for us inside, but there might also be great dangers hidden inside. We can't be careless!"

"Yes, Captain!"

Everyone agreed in unison.

Lin Yi nodded slightly and stepped into the light door first.

The Jade space didn't alert him of any danger, so he could enter with ease.

After passing through the light door, Lin Yi saw a Crystal Palace.

There were nine steps of white jade at the back of the hall, and on top of them was a throne of seven-colored coral!

"Captain! Was that the throne of the sea serpent King? We've really come to the right place!"

Fernandes was beside Lin Yi, and he got excited when he saw the throne. "That thing looks very valuable. We'll definitely make a fortune if we auction it!"

Lin Yi was stunned. What the hell? Auction off the sea serpent king's throne?

Did he go through so many dangers just to get a throne and sell it?

Fernandes, have you read too many grave robbing novels?

He had come to the remains of the sea serpent King to find treasures related to cultivation. What was the use of selling other things?

To be more precise, money in the secular world was meaningless to cultivators!

"Fernandes, can't you work harder? don't look like you've never seen the world!"

"It's just a coral throne, what's the big deal?" Mike said in disdain. Let me tell you, the value of those nine white jade steps might be much higher than the coral throne!"

"Really? So you're saying that we can earn more by taking out the White jade steps?"

Fernandes' eyes lit up!

Michael was the young master of the Stratford family, and Fernandes could trust his judgment. Thus, he began to calculate. "These nine white jade steps are a Little Big. It's easy to dig them down, but it's a little troublesome to bring them out!"

"If it's broken ... Its value will greatly decrease, right? Aiya, it's so difficult!"

“.....”

Lin Yi didn't want to talk to this money-minded idiot anymore as he walked up the White jade steps.

The fangirl Serena followed closely behind Lin Yi, her face conflicted.

She wanted to hold Lin Yi's arm, but she was afraid that Lin Yi would be unhappy, so she could only follow behind, her fingers twisted together.

Chapter 7623 Sea Serpent King Appears

"Don't speak! That was indeed the throne of the sea serpent King, and this was also the remains of the sea serpent King! If I'm not wrong, the sea serpent King should have left something here!"

Lin Yi stopped in front of the White jade steps and didn't turn back. He waved his hand, and everyone stopped talking.

Before this, Lin Yi's spirit sense had felt a weak essence spirit on the throne, but it became more obvious after he finished speaking.

Lin Yi raised his head slightly, his eyes sharp as he looked at the throne.

On the throne, the primordial spirit fluctuations suddenly expanded and emitted a gentle light. In the light, an old man in luxurious clothes appeared on the throne.

He had Blue-Gold hair like LAN Guzha. Although he did not have any similarities in appearance, his aura was 70% similar!

This old man should be the master of this Palace, the sea serpent King from the ancient times!

"Human? I didn't expect that it would be some humans who came to my throne! Has our Sea Race declined to such a state?"

The old man's eyes had a slight authority as he looked down at Lin Yi and the others. He frowned, "How did you guys get in? With your strength, it's impossible for you to come here!"

"You're the sea serpent King? This is our Captain, his strength is unfathomable. With the captain leading us, we easily entered, what's impossible?"

Fernandes was a little nervous. After all, the old man in front of him was suspected to be the sea serpent King. But in order to protect the dignity of his big brother, he still braced himself and spoke.

"The few of you are the descendants of the people I care about. You barely have the right to come to my Palace. As for your Captain ..."

The Kraken King looked at Lin Yi indifferently with a hint of disdain, ""This kind of strength can be considered unfathomable?"

Lin Yi's lips curled up, not minding the king's disdain.

He was in the form of a primordial spirit, a primordial spirit cultivated from the heaven seizing fortune battle technique. If he wanted to hide his strength, opponents of the same level or even higher level would not be able to see through him.

Hence, in The Kraken King's eyes, Lin Yi was just a peak nascent Soul Kid. There was no way he would take him seriously.

"It can't be considered unfathomable. It definitely can't be compared to senior sea serpent King!"

Lin Yi cupped his hands, giving the king some face, ""If I'm not wrong, senior sea serpent King is only a remnant will of his primordial spirit. Senior didn't leave it here just to protect the palace and throne, right?"

"You have good eyes. You can tell that I'm just a remnant will of an essence soul!"

The sea serpent King was slightly surprised, but he immediately snorted, ""I left behind my origin soul remnant will for my inheritance! I thought it would be a descendant of my sea serpent dragon race, or at least a descendant of the sea Race. I didn't expect it to be a human!"

The legacy of the ancient sea serpent King would not be passed on to humans, so the sea serpent King said indifferently, ""Originally, none of you were qualified to enter this place, but since you've come, I don't care what means you used, I'll give you some benefits."

"As for the descendants of the four people who are under my care, I can help you increase the strength of your primordial spirit and help you advance to the mysterious Ascension stage. As for the others, I have some toys here that you can sell. You can get quite a lot of rewards. Consider this a trip worth it!"

"Lord sea serpent King, I don't like what you're saying! What did he mean by not qualified to enter this place? With a character like our Captain, where in the world can he not go?"

Fernandes did not seem to realize that he was the sea serpent King's favored. He questioned the sea serpent King in public, ""Aren't you just a remnant thought? why are you so smug? To think that you would help us raise our cultivation ... To tell you the truth, we don't need it! Our Captain will help us level up, do we need you?"

He didn't know if Lin Yi could help them break through to the mysterious Ascension stage, but it was Lin Yi who had been helping them all this time. It didn't matter even if he couldn't.

In any case, he was already strong enough at the peak of the original level. Before, he didn't even have an earth-rank, so what was the point of forcing it now?

The sea serpent King was slightly angry and said coldly, "if you don't care, then consider it as giving up the opportunity!" The remaining three are even better!"

"I'm sorry, but we're partners in a team. We advance and retreat together. Either everyone gets an upgrade, or I'd rather not have this opportunity!"

Mike took a step forward, raised his head, and smiled proudly. "Especially our eighth brother, what right do you have to look down on him? In my opinion, Captain eighth brother is much stronger than you, the sea serpent King!"

Without saying a word, ardiapolo and Chris stood beside Fernandes and Mike, showing their attitude with their actions.

To be honest, Lin Yi was a little touched by these guys. He didn't think that they would give up the chance to become stronger just to speak up for him!

"Hahaha! Good hahaha, since you don't care, then none of you will be able to improve!"

The sea serpent King laughed in anger. "You trespassed my Palace first and offended me later. Now, it's time to teach you a lesson!"

It was obvious that the sea serpent King was really angry. He kept calling himself "me", and now he was calling himself "this King"!

After saying this, the entire Palace began to exude a sharp killing intent.

This killing intent came from the same source as the words on the plaque and stone tablet, but it was even more intense.

Lin Yi's face changed. A mere primordial spirit remnant thought could mobilize the killing intent of a sea Rift realm cultivator?

If the sea serpent King was at his peak, wouldn't he be as strong as the Vermillion Bird?

Even if it wasn't as strong as the Vermilion Bird or The White Tiger, it was definitely stronger than the new sacred beast Azure Dragon, right?

"If you want to find benefits in this King's territory, you must first be alive to get it!"

The sea serpent King sneered. "I see that there are a few descendants of my loved ones among you. Then, each of you will take one of my consciousness attacks. If you can survive, I will spare your lives!"

Why did they need to use spiritual awareness attacks at least at the sea splitting stage to deal with mere peak nascent soul realm cultivators? One casual attack was all it took to wipe out Lin Yi's team!

"You want to kill us?"

Lin Yi's face turned cold, and his body started to emit a cold killing intent. It was just a sea split realm essence spirit remnant thought, did it think it was invincible?

If it was The Kraken King at his peak, Lin Yi might have to be wary.

A remnant thought, Lin Yi could only smile coldly!

"A group of ant-like humans, do you think I need to target them? I've given you a chance, but it's up to you if you want to seize it!"

The Kraken King's disdainful eyes swept across the crowd. In his eyes, Lin Yi was no different from the others, an existence that could be crushed easily.

Before his voice fell, the murderous Qi formed into thirteen divine sense attacks, which attacked everyone like lightning.

Chapter 7624 Such Strength

Other than Lin Yi, no one else could feel a spiritual attack of this level!

However, by the time they could feel it, they would have become corpses!

Lin Yi hmped, and three spirit sense vortexes formed instantly, surrounding the team members. They sucked in all the sea serpent King's spirit sense attacks and easily killed them all.

As he activated the vortex, he also released a spirit collision, aiming at the sea serpent King's essence spirit!

"Yi!"

The Kraken King was shocked. He didn't expect Lin Yi's essence spirit to be at the sea shattering realm!

He had thought that he was a bronze fish, but in the end, he was a King tier expert like him!

This was too unexpected!

Facing Lin Yi's counterattack, The Kraken King didn't dare to be careless. He didn't even have time to say anything and used his killing intent to block Lin Yi's spirit sense.

He was just a remnant will, he couldn't take Lin Yi's attack at all-even just a graze was enough to make him collapse!

A dull sound exploded in the air. The aftermath of the invisible collision of consciousness was deliberately directed to the two sides and did not affect the two sides.

Lin Yi was ready to activate his hand-it was just a remnant of a soul, he'd just have to put it into the Jade space to see how cocky the guy could be!

It just so happened that the ghostly thing might be tired of hitting the nine infants, so he could take another one in for the old man to practice.

"Stop!"

The sea serpent King didn't give Lin Yi the chance to attack again and stopped the fight,""I didn't expect you to be so powerful. I can also sense a trace of our sea serpent Dragon's aura!"

Lin Yi blinked-the aura of a Sea Dragon? Is it the designated sea God's Pearl? Or was he talking about LAN Guzha?

It was probably the sea calming Pearl. Lin Yi didn't think that his primordial spirit would have any trace of LAN Guzha's aura.

Of course, if he still had his previous physical body, it would be possible.

However, it was said that the sea calming Pearl was formed from the inner core of a flood Dragon, and it had fused with the tears of a mermaid. Did it have the aura of a sea flood Dragon?

The sea serpent King was helpless as well. Lin Yi had already shown his strength. If he continued to fight, he would collapse without even being attacked by Lin Yi!

Moreover, the sea serpent King was not lying. He had indeed sensed the aura of his kind. It was no wonder that these humans could come to him!

"Your strength has won this King's respect, and you have also suffered an attack from this King. The matter just now is over!"

Fernandes and the others were all dumbfounded. He withstood the attack just like that? I don't feel it!

Could it be that we're already so powerful that the sea serpent King's attack is like a spring breeze to us?

"Ha ... Sea serpent King, do you think it'll end just because you say so? Did you ask for my opinion?"

Lin Yi raised his head with a cold smile. "Since you've chosen to attack us, you should be mentally prepared to accept our counterattack!"

To be honest, Lin Yi considered himself a good-tempered person, but no matter how good his temper was, he couldn't just let someone beat him up without fighting back!

Although the other party didn't hit him, it didn't mean that he didn't retaliate!

"Calm down! Please listen to this King!"

The sea serpent King smiled and waved his hand, uncharacteristically putting away his previous arrogance. "'I'm just an essence soul remnant thought. Since you've activated me, I can't exist for long. I'll dissipate soon!'"

"This King left his primordial spirit remnant will here so that the inheritance would not end. Since you can come here, it can be considered fate. Then take this King's inheritance!"

Lin Yi blinked-he was just about to beat the guy up, and now you're telling him that he's done for and that he'll leave his inheritance for you guys ... How could he do that?

After the sea serpent King finished speaking, his figure floated up and made a few hand gestures in the air. The killing aura in the palace quickly gathered like a hundred rivers flowing into the sea and ten thousand streams returning to their roots. It condensed into a ball of light between his hands.

The ball of light was filled with dense spiritual energy, and even Lin Yi couldn't help but be moved!

The ball of light was many times stronger than Lin Yi's essence spirit body, and he couldn't estimate how much it was!

Could this be the spiritual energy left behind by the sea serpent King at his peak?

"Did you see that? This is the gift that this King left behind for the younger generation. It's the purest and purest consciousness power that can be absorbed directly without any side effects!"

The sea serpent King revealed a proud expression and said with a smile, ""After so many years of accumulation, in addition to the nourishment from the palace's array, it has grown several times stronger than when I left it behind. It's enough for you to improve!"

"In addition, there are also some cultivation insights and martial arts techniques left behind by this King. If you can learn them, you will also form a significant combat power!"

Lin Yi was surprised-he didn't expect The Kraken King's inheritance to be like this!

It was a pity that LAN Guzha was not here. Otherwise, if he were to obtain the sea serpent King's inheritance, he might be able to become an expert of the sea split stage directly.

However, Lin Yi decided to study hard and pass it on to LAN Guzha.

"Alright, I won't say much. This King can't hold on for too long. You can accept the inheritance!"

As the sea serpent King spoke, twelve thin lines shot out of the ball of light between his hands and into the foreheads of Fernandes and the others.

Lin Yi didn't feel any danger from the thread, so he didn't stop the king.

Fernandes and the others were all connected by thin lines. They all sat cross-legged and began to practice.

"Their strength is too low, they can't use too much of their deified soul power!"

The sea serpent King smiled at Lin Yi, "99% of the spirit sense here will still be passed on to you!" Are you ready?"

Lin Yi could feel the change in Mike's aura before The Kraken King finished his sentence. It was clear that he was about to break through to the xuansheng stage.

Lin Yi waved his hand, not bothering to answer The Kraken King. He was just about to feed Mike a Thunder elixir and make some artificial lightning to help him level up!

Unexpectedly, a giant electric eel puppet suddenly appeared above the sea serpent King and directly released a pure Thunder arc, which fell on Mike!

This could also be considered a man-made lightning tribulation ... The sea serpent King was really thoughtful, and it was a one-stop service!

"It's coming. Pay attention to receiving this King's inheritance! You are the most suitable candidate. Don't disappoint this King!"

With that, the yuan spirit faded away. Before it disappeared, the ball shot out a thick line that covered Lin Yi's yuan spirit!

Lin Yi didn't even have the chance to reject, and he didn't even want to.

The purest and purest consciousness could greatly increase the strength of the spirit. Lin Yi wouldn't give up such a good opportunity!

In addition to the power of the deified soul, there were also many insights gained from cultivating the deified soul at the sea split realm. The sea serpent King was indeed extraordinary!

Although he didn't become a heaven breaking expert in the past, he was still a super expert at the consummate level of the sea Rift realm who was close to the half-step heaven breaking realm!

And he was an expert at the Great Perfection of the sea-splitting realm who mainly cultivated his divine sense!

Chapter 7625 Accepting The Legacy

The help Lin Yi could get from a practitioner like this was beyond his imagination!

Lin Yi used the battle tactics of heaven's stolen fortune as the main technique and The Kraken King's training notes as the supplementary technique. He received the consciousness while training, and his essence Spirit's strength skyrocketed!

When the ball of light was completely used up, Lin Yi's essence spirit had reached the great circle of the sea-splitting realm!

Although he was still not as close to the half-step heaven breaking realm as the sea serpent King, he would probably have no opponents within the sea splitting stage!

If his physical body could keep up with his essence spirit, he'd probably be able to take the Vermilion Bird head on!

Other than the elevation of his essence spirit, the sea serpent King still had many skills. Lin Yi didn't care about most of them, but there were still surprises, like the Suan NI Water escape technique!

As the king of the ocean, The Kraken King naturally had the complete version of the water escape technique, and Lin Yi learned it easily.

In the ocean, even the Royal sea beasts might not be able to fight Lin Yi!

The other surprise was the sea serpent King's cultivation technique, Sea Dragon golden body technique!

Back then, the sea serpent King focused on his consciousness and body, and had no achievements in the aspect of true Qi. The sea Dragon golden body technique was the sea serpent King's strongest body-tempering cultivation technique!

The sea serpent King's physical body was almost invincible, and he relied on the sea Dragon golden body technique!

If Lin Yi could learn the sea Dragon golden body technique before he died, his body's strength would increase quickly!

The only problem was that if he wanted to learn the sea Dragon golden body, he needed the blood of the sea dragons. The sea serpent King had the blood of the sea dragons, so he could get twice the results with half the effort.

Lin Yi didn't even have Sea Dragon blood!

On the other hand, Mike, Fernandes, ardiapolo, and Chris were the descendants of the sea Dragon King's favored, so they had a very thin Sea Dragon bloodline in their bodies. They could practice some of the sea Dragon golden body technique's superficial knowledge!

What they received was also the simplified version of the sea serpent King's optimized version, because the sea serpent King knew that they could not cultivate the complete version.

Mike, fern ndez, and the other two were still going through the lightning tribulation, while the others had already finished their lightning tribulation and successfully became early stage mysterious Ascension Masters.

A faint golden light appeared on the bodies of the four people who had yet to finish their Thunder tribulation. They were actually using the Thunder tribulation created by the electric eel puppet to practice the sea Dragon golden body technique!

Although it was just a superficial version of the sea Dragon golden body technique, it was still very different after cultivating it. Before the end of the lightning tribulation, the four of them were already at the peak of the early stage of the mysterious Ascension realm, and it was still rising rapidly!

As for what heights they could reach, it would depend on the results of their Sea Dragon golden body technique.

Lin Yi was completely relieved that the four were fine. He started studying the sea Dragon golden body in his sea of consciousness, planning to use this time to practice.

He didn't expect that even though he had already mastered all the key points of the sea Dragon golden body technique, he still couldn't cultivate it!

Lin Yi was very depressed-the heir of the art of Dragon mastery could even control Dragons, how could he lose to the sea Dragon golden body?

Since he couldn't cultivate the sea Dragon golden body technique, he would change it until he could!

The art of Dragon mastery was known as an omnipotent mental cultivation technique, and it could copy, modify, and deduce most martial arts techniques. When it was combined with the creation battle technique to form the heaven seizing creation battle technique, its power would be even greater. He didn't believe that he couldn't deal with the sea Dragon golden body technique!

Deduction!

Fusion!

Wrong!

He deduced again!

Then, he fused again!

Another mistake!

Lin Yi didn't know how many times he'd gone back and forth.

It looked like it took a long time, but Lin Yi did it in the Jade space. It didn't take long.

After a round of deduction, the new version of the sea Dragon golden body technique was a success!

After the modification, the sea Dragon golden body technique no longer required the sea Dragon bloodline to be cultivated. If it were to be spread, it would definitely cause a sensation.

Lin Yi was quite satisfied with this, and started training again.

Then, there was no then!

He still couldn't cultivate it!

What was going on?

Lin Yi had never been in a situation like this before. It was a perfect technique, but why couldn't he practice it?

This was not scientific! That didn't make sense!

Lin Yi couldn't help but feel a little depressed-he'd been working all day for nothing!

Could it be that he was really not cut out to cultivate the sea Dragon golden body technique?

However, this was clearly the sea Dragon golden body technique that had been combined with the art of Dragon mastery.

It could even be called the Xuanyuan Golden Dragon mastery. Why couldn't it work?

Ever since Lin Yi started training, especially after he learned the omnipotent skills, he could quickly master any skill and even modify it to become stronger than the original.

This was the first time he'd come across a skill that he couldn't learn no matter what he tried. If it wasn't for the fact that he could learn the water escape immediately, he'd be doubting his life already.

"Little Lin, what are you doing? I really can't stand it anymore!"

The voice from the Jade space surprised Lin Yi, and he was overjoyed.

"Elder Jiao! You're awake? When did he wake up? I've missed you so much!"

Lin Yi was already used to these things popping out from time to time, but elder Jiao, on the other hand, hadn't done it in a long time!

Come to think of it, elder Jiao would always wake up every time she returned to the mortal world, and it seemed like this time was no exception!

"I woke up early, I just didn't talk to you."

"Why didn't you talk to me when you woke up?"

Lin Yi didn't know what to do-when did he offend elder Jiao? I don't think so?

"Oh, when I woke up, I just happened to see old bastard beating up a nine-headed primordial spirit. I thought it was quite fun, so I watched for a while longer."

"You're pretty busy too, so I didn't want to bother you. "Elder Jiao laughed.

"Old Jiao, what's the point of just watching? why don't you come and beat him up!"

The ghastly thing invited Jiao yazi enthusiastically, "I'm free anyway, so I'll just take it as training!"

The nine neonate burst into tears. You can't play like this! Isn't it enough for you to beat me up alone? you even called for others to do it together? do you think this is training?

Do I look like a sandbag? Have you ever seen a sandbag with nine heads?

"Old bastard, I appreciate your good intentions, but you should continue to play. I'll just watch!"

Jiao yazi shook his head and looked at the nine neonate. "But it seems like your sandbag can't hold on much longer. If you continue, you'll probably turn into a sand sculpture. You should take it easy."

The nine neonate was instantly grateful. Even though it was a little unhappy to be called a sand sculpture, it decided to accept Jiao yazi's help since he was pleading for it.

He didn't expect Jiao yazi to continue after a pause, "He's dead in one hit. It won't be easy to find such a good sandbag in the future. We have to know how to cherish it. Only a small amount of water can flow long!"

The nine neonate almost vomited blood. If there was blood to vomit ... The old man that came later would be even worse!

To think that I thought he was a good person!

Who would believe him! This rotten old man was very evil!

"Old Jiao, what you said makes sense! I'll be careful not to kill him!"

The ghostly thing nodded in agreement and then continued to beat the nine neonate. Anyway, he had a good sense of propriety. It was fine as long as he did not kill it! It didn't matter if he was beaten into a sand sculpture or something.

Chapter 7626 Waking Up The Dreamer With A Single Sentence

Elder Jiao didn't care-as long as the thing was happy, he didn't care.

Lin Yi waited for the two old men to finish before opening his mouth. "Elder Jiao, I was just cultivating the sea Dragon golden body technique from the sea serpent King's inheritance. Originally, I needed the blood of the sea Dragon to cultivate it, but after I modified it, this restriction was removed. However, I still can't cultivate it."

"I'm really ashamed! I still have no idea why I can't cultivate it! I really can't figure out what the problem is!"

Lin Yi was really helpless-he'd been working on the sea Dragon golden body over and over again, but he still couldn't find the problem.

Why was it so easy to learn the water escape technique, but not the sea Dragon golden body technique?

"Are you stupid? Do you still not understand?"

Elder Jiao's heart ached as he didn't know whether to laugh or cry. "If I hadn't woken up, how long would you have wasted your time? Old bastard, too, too focused on beating up the sandbag and didn't even look after you. One look and I can tell you're not a smart person!"

"Of course I'm not a smart person, because I'm not a human at all!"

The demonic thing laughed smugly at elder Jiao, "You're not human either, we brothers are just the pot calling the kettle black! Don't blame anyone!"

"You're indeed not human! How am I not a human?"

Elder Jiao threw Lin Yi away and started arguing with the thing.

Lin Yi was speechless-couldn't you guys just control me?

We're talking serious business! Let's talk about serious matters first before quarreling, okay?

Luckily, elder Jiao was a reliable person-he only exchanged a few words with the thing before getting back to the main topic. "Sea Dragon golden body technique. I don't need to look to know that it's a powerful body refining technique or martial skill! You're a primordial spirit now. It'd be a miracle if you could cultivate a body-tempering cultivation technique!"

"Old Jiao!"

The ghost looked at elder Jiao and pointed at itself, indicating that there was indeed a ghost here ...

Elder Jiao's mouth twitched. He didn't want to talk to this old man!

Lin Yi didn't know whether to laugh or cry at the realization.

His primordial spirit body was too real, not much different from his physical body. He had actually overlooked this point!

No matter how similar a primordial spirit body was to a physical body, it was still a primordial spirit body. Could he successfully cultivate the sea Dragon golden body technique?

"Yes! Elder Jiao, you're right! I actually forgot about this! Thanks to you, elder Jiao, I was woken up!"

Lin Yi shook his head with a bitter smile, "I didn't even understand such a simple logic. I'm ashamed!"

"There will also be situations of darkness under the light when cultivating. You're just confused by the person involved!"

Elder Jiao didn't continue his attack on Lin Yi, but turned to the ghost, "It's a pity that there are some old bastards who are just as bewildered as the bystanders!"

The ghostly thing glared and wanted to refute, but he was speechless. Then, he couldn't help but laugh.

Lin Yi couldn't help but smile-speaking of practicing, elder Jiao was more reliable, but he had his own advantages. The two had their own strengths.

"Oh right, elder Jiao, did you regain your memories this time? Did you remember something?"

Lin Yi was indeed concerned about this, but he also wanted to change the topic so the two old men wouldn't start fighting again.

"I do have some, but it's not complete. I'll tell you after I'm done."

"That's one of the reasons I didn't talk to you immediately after I woke up,"elder Jiao nodded." I need to hurry up and sort out these memory fragments. " If it wasn't for you messing around, I really couldn't stand it and had to come out to remind you that you should be sorting out your memory fragments now. "

Lin Yi was a little embarrassed-he'd messed up elder Jiao's plans because of him.

"Alright, let's not talk about this anymore. I'll go back and sort out the memory fragments. You can continue with your work!"

"Old bastard," elder Jiao laughed, "you can continue with what you were doing. Don't stop!"

The nine neonate only had two lines of tears. It thought to itself, "you old man, you can leave, but why did you have to remind me?"

Can't you let me rest a little longer?

Lin Yi understood that now wasn't the time to reminisce. He'd have to say goodbye to elder Jiao first and wait for him to finish merging the memory fragments.

The lightning tribulation for Fernandes and the other three finally ended. Lin Yi turned his attention to them and realized that their bodies had all improved greatly. They were now at the mid-stage of xuansheng!

In addition, there was a faint golden light flowing on the surface of their bodies. It was clear that they had also gained some insights from the sea Dragon golden body technique.

"Not bad! Their strength has greatly increased!"

Lin Yi nodded, satisfied, "other than strength, did you learn any skills?"

"There is! Captain, look, I've already mastered quite a few martial arts techniques, and their power is extraordinary!"

Fernandes liked to show off in front of Lin Yi, so he quickly told Lin Yi everything he'd been through.

Other than the sea Dragon golden body, Fernandes also had two other extraordinary martial arts skills, but they were in Lin Yi's legacy as well. He just didn't practice them.

Other than the water escape technique and Sea Dragon golden body technique, the other skills didn't have much value to Lin Yi.

"Captain number eight, I've also mastered three martial arts techniques. Now, I'll practice them. Can you help me take a look?"

Mike was excited. He pulled Fernandes up and said, ""Come, let's practice and let Captain eighth brother see."

Fernandes gladly accepted, and the two immediately got into a fighting stance.

Apart from the sea Dragon golden body technique, the two of them had learned different martial skills. It was obvious that the sea serpent King had also inherited martial skills based on their different talents.

After entering the xuansheng stage, Fernandes and Mike's strength had increased significantly, and their martial arts skills were also very powerful.

Morris and the others were forced to take a few steps back by the aftershock. They could only watch them play from afar with envious eyes.

"Not bad! Although it's your first time using it, you're already quite familiar with it. "

Lin Yi smiled and encouraged the two, "These are all very good martial skills. If you cultivate them well, you'll be even more powerful in the future."

Fernandes and Mike reluctantly stopped and agreed in unison.

These martial skills were directly engraved in their spiritual sea when they upgraded their primordial spirit, so they could use it as soon as they picked it up. However, if they wanted to truly master it, they would need to spend a lot of time practicing.

"Do you two want to practice as well?" he asked.

Fernandes was not satisfied with the fight, so he wanted to see what martial arts his two companions in kirrlutz had learned.

The two looked at each other and then at Lin Yi. After getting a nod from Lin Yi, they smiled and started practicing.

It was just that the two of them were in love and were not really competing with each other. It was more like they were flirting, which fed everyone a bunch of dog food.

Chapter 7627 Can You Still Enter?

"Pei Pei Pei! What the hell are you guys fighting, aedenpolo? It hurts my eyes!"

Fernandes was very dissatisfied. He rubbed his hands and said, ""I think I'll play with you! Otherwise, the captain would think that the martial arts you learned were for dating!"

Ardianpolo shrugged his shoulders and gave fernández a look that said, "it's useless for you to be envious or jealous. Come and Bite Me If You Can."

There was too much information in his eyes, and Fernandes could not react for a while.

Kris, on the other hand, blushed a little. She felt that her practice with adianpolo wasn't very suitable.

"Ha ... Fernández, don't mess around. Good job playing with dyanpolo and Chris."

Lin Yi smiled, helping them out of their predicament. "If I'm not wrong, the martial arts of adianpolo and Chris are actually a set of joint attacks. That's why their fight is so long."

"If they join forces, Fernandes, you and Mike may not be their match!"

If it was a one-on-one battle, Fernandes and Mike might have the upper hand, but if it was a two-on-one battle, the chances of failure were much higher.

Speaking of joint attack skills, Lin Yi remembered Huang xiaotao again. He went through the scenes of hucai tianwu mountain and Lufeng forest in the nine-story Pagoda with Huang xiaotao.

The two's wild fire Eight Trigrams palms had been extremely powerful in these places. Without this set of martial arts, Lin Yi and Huang xiaotao might have been dead long ago.

"Captain, if you put it this way, I'm a little unconvinced!"

It was rare for Fernandes to refute his thigh's words. He looked at the arrogant look on adianpolo's face and said,""With their martial arts? Mike, why are you still standing there? Come with your brothers! Let the captain see that we won't lose to the two of them!"

"Alright! There would be plenty of opportunities after the sparring! There's no hurry!"

Lin Yi waved his hand to stop Fernandes "fighting spirit, and the guy immediately smiled and said okay, never mentioning the competition again.

Mike, who was about to make a move, was a little stunned. Didn't you want to make a move immediately? Why did you retreat faster than me before the eighth Captain could finish his words?

This seems to be a trap!

Lin Yi ignored them and turned to Morris and the others, "President Morris, Serena, did you find anything?"

"No, I didn't! Other than the increase in level, I didn't learn any martial skills!"

Serena's face was full of envy, but she was also a little disappointed as she said, "Mike and the others are all people favored by the sea serpent King, so they obtained the complete inheritance of the sea serpent King. The few of us are just the sea serpent King's help in increasing our strength."

Morris and the others had the same expression as Serena. They had communicated with each other when fernández and the others were practicing martial arts, and they knew that those who woke up first had only improved their strength, but did not receive the inheritance of martial arts.

Lin Yi chuckled to himself. Mike and the others didn't get the complete inheritance. It was only a small portion-the only one who'd received the complete inheritance was Lin Yi himself.

"It's okay. Martial arts techniques are not important. I'll choose a suitable martial art technique for you later and teach it to you."

Since Lin Yi was getting the bigger share, he wouldn't mistreat his own team. The Kraken King had a lot of skills, and he didn't like them, but it was suitable for Morris, Serena, and the others.

It was a pity that they couldn't cultivate the improved Sea Dragon golden body. They didn't need the sea Dragon bloodline, but they couldn't cultivate it without Lin Yi's all-purpose true Qi.

Unless Lin Yi changed the sea Dragon golden body again and made a simplified version, maybe Morris and the others could try it.

"Thank you, Captain!"

Morris and the others were immediately overjoyed, and their somewhat depressed mood was suddenly lifted.

Serena lunged at Lin Yi, wanting to kiss him, but Lin Yi dodged her quickly.

Hence, there was a hint of resentment in Serena's eyes.

What's there to Dodge? Was it against the law for a fangirl to give her idol a kiss? This was simply preposterous!

I don't believe I can't give you this kiss! I must give it to you today!

And so, Serena continued to chase after Lin Yi, who dodged as if he were taking a stroll in the park. Everyone was confused-was this some sort of dog food display?

The captain doesn't seem to want to show off this dog food. So, are we eating it or not? This was a problem!

After causing a ruckus for a while, Serena still did not succeed, and could not help but feel a little more resentful.

The onlookers wanted to laugh but didn't dare to. They were having a hard time holding it in, but they still had to put on a serious look.

"Let's go. We'll talk after we leave this place!"

Lin Yi checked the surroundings as he avoided Serena.

Unfortunately, after the legacy ended, Lin Yi didn't find any way to leave or a teleportation formation. "This is already a dead end. We have to find a way to leave."

Liu Yidong had said before that if they wanted to leave the palace of the sea serpent King, they had to find another teleportation point. They could not use the teleportation array they had come from.

However, they were going back to the ancient martial world. Lin Yi was different-he only needed to get Saint soyatu to appear.

The problem was that the center of the sixth floor did not seem to be under control, so could Saint zoatul really appear?

For safety's sake, Lin Yi decided to find his own escape route.

Everyone left the sea serpent King's inheritance Palace and returned to the pavilion. The four earth splitting stage puppets retreated by themselves and the door of light disappeared.

"Captain, the puppets here shouldn't be able to threaten us anymore, right?"

Looking at the sea beast puppets, he was still a little scared. "We've accepted the sea serpent King's inheritance, so we're considered their own people. They won't suddenly attack us again, right?"

"What nonsense are you saying! Captain is wise and powerful, he has already subdued all these puppets. Even if they did not receive the sea serpent King's inheritance, they are all tools in captain's hands!"

Fernández expressed his dissatisfaction with adianpolo's words. How could he question the authority of his thigh?

"Ha ... Don't worry, aedanpolo. These puppets won't attack us. At the very least, we'll be absolutely safe in this palace complex!"

Lin Yi smiled and waved his hand, "Fernandes, don't just talk. Even if you're telling the truth, you have to keep a low profile!" Now, everyone was looking around to see if there was a teleportation point that they could leave. They would also collect the good things left behind by the sea serpent King. Since we've already obtained the inheritance, the sea serpent King's things are also ours. "

"Ah! Captain, now that you mention it, I just remember! I forgot to tear down the sea serpent king's throne and the White jade steps and take them with me!"

Fernandes slapped his thigh and said with a pained expression, ""That's worth a lot of money! Big brother Golem, can you let me in one more time?"

Chapter 7628 Sea Serpent King's Sword

He even went to discuss with the four earth creation stage puppets. Unfortunately, the other party was cold and ignored him!

Aedanpolo and Chris both turned their heads, pretending not to know Fernandes.

To think that he could come up with the idea of negotiating with a puppet!

He couldn't say that he was from the same place as Fernandes, as he couldn't afford to lose face!

Lin Yi didn't know what to say. Fernandes was still thinking about the White jade steps? Although you can sell it for a lot of money in the secular world ... You're already a master of the xuansheng stage. Do you still need to care about that little money?

On a Sky Class Island, even a xuansheng master would be a Big Shot-you've never seen the world!

"Fernandes, you've inherited the sea serpent King's legacy. You'd better leave his throne and stairs to the sea serpent King!"

Lin Yi waved his hand, "this Palace is so big, you're not afraid of not having anything valuable?" Let's hurry and find the treasure!"

Fernandes thought about it and agreed. It would be useless if they couldn't get in now. They might as well go to other places to find treasures!

"Alright! Captain, don't worry, I'll definitely find all the good stuff! Mike, what are you waiting for? let's go!"

Fernandes rushed out with Mike, and the others also rushed out of the attic and scattered.

Serena wanted to follow Lin Yi, but he gave Morris a look. Morris got the hint and dragged her away.

Soon, Lin Yi was the only one left in the attic.

Naturally, he had his own reasons for sending them away-he had his eyes on the four earth formation stage puppets!

Their defense was unparalleled, and they could automatically repair themselves if they were damaged. When they joined forces, they could exert the power of the sea splitting stage!

Wouldn't it be a waste not to take away such a good helper?

The most important thing was that it could be used in the sea. It was amphibious and might even save lives at a critical moment!

After putting the four puppets into the Jade space, Lin Yi turned his attention to the nascent soul puppets.

After receiving The Kraken King's inheritance, Lin Yi knew the secrets of these puppets like the back of his hand.

In this Palace, these puppets could regenerate infinitely, but once they left the palace, it would take at least a few days to regenerate.

With that, their value dropped by a lot. Yuanying stage ... To Lin Yi, they really didn't have much use!

However, on second thought, it was useless to him, but in the secular world, it was a good fighting force!

And so, Lin Yi found two storage rings-they were all his spoils from before, and there wasn't much in them, so they were perfect for storing puppets!

The two storage rings contained more than two hundred puppets. He would store them in the villa later as a trump card to protect everyone.

Then, he put another one to two hundred into the Jade space. It was not important whether he used it or not. Anyway, the place was big, so it did not matter. He could help the ghostly thing beat up the nine neonate when he was free!

Lin Yi didn't touch the rest-it wouldn't be too obvious if he took all of them, but it'd be hard to explain!

With that done, Lin Yi walked out of the building. With the sea calming Pearl in control, he knew where the others were and what they were doing. The hidden traps had all lost their effect.

After a while, the group returned to Lin Yi's side with the loot, especially Fernandes-he was carrying something that was at least ten times bigger than him ... Even robbers wouldn't be this ruthless, would they?

The most important thing was that what Fernandes found were all so-called treasures that could be sold in the secular world, and had nothing to do with cultivation.

The others had at least found some things related to cultivation, such as spiritual jades, pills, spiritual herbs, weapons, and so on. Only Fernandes had found things that could be sold for money!

"Fernandes ... You ... You've worked hard!"

Lin Yi didn't even know how to describe it. He just smiled. "Isn't it inconvenient for the next adventure with so many things?"

"Captain, don't worry. I don't think it's inconvenient at all! After my advancement, I feel that my strength is endless. Ten times my weight is nothing to me!"

Fernandes grinned and stretched out his arm to show off his muscles. "If it wasn't for the fact that it's not easy to carry, I could've taken more things!"

Lin Yi's face was expressionless. So you've been restraining yourself? I'm telling you to do as you please, are you trying to tear down the entire Palace and take it away?

Was it really appropriate for a xuansheng stage expert to use his strength in such a place?

If the sea serpent King knew that the descendant of his favored was like this, he might be so angry that he would take back his inheritance.

"Captain number eight, ignore that stupid fernández. What do you think of this weapon?" he asked.

Mike didn't think much of Fernandes' money-grubbing behavior. He showed Lin Yi a heavy sword, "I feel that the aura on this sword is similar to that of the sea serpent King. Perhaps this is one of the sea serpent King's swords! What do you think, Captain number eight?"

Lin Yi took a look and nodded, "That's right. This sword does have the aura of the sea serpent King, and it's quite extraordinary. With your current strength, you can control it! If I'm not wrong, it should be the weapon used by the sea serpent King in the early days. "

At his peak, the sea serpent King was at least an expert in the consummate level of the sea rending realm. He did not need a weapon of this level at all. At most, he would carry the ceremonial sword with him to show off.

However, the killing aura on the sword was not strong, so it was obviously not the weapon that the sea serpent King always carried.

The only explanation was that the sea serpent King had used a weapon during the xuansheng stage or the mountain opening stage.

"As expected, Captain number eight, you think the same way! I didn't come in vain this time!"

Mike was very happy. In his opinion, this longsword was far more valuable than the sum of the small mountain on Fernandes 'back.

Only a fool would give up on such a real treasure and pick up trash!

There was no doubt that Fernandes was the big fool!

"Captain number eight, I'll give this Kraken king's sword to you as a gift!"

Mike liked The Kraken king's sword as well, but he still chose to give it to Lin Yi. "Such a precious sword can only be put to its greatest use in your hands, Captain eighth!"

"For me?"

Lin Yi blinked. To be honest, this sword wasn't of much use to him, and he didn't usually use a sword. If he really did need a sword, the demonic devour sword would be enough. "No need, you can keep it! I don't like to use swords!"

It was a gift from Mike, but Lin Yi wouldn't accept it, "The fact that you were able to find the sea serpent king's sword means that you are fated to meet it. It will only be able to display its best use in your hands!"

"Captain number eight, I really want to give it to you. I'm not just saying it ..."

Mike thought that Lin Yi had misunderstood him, so he was interrupted by Lin Yi.

Chapter 7629 The Exit Isn't Here

"I know! I'm very grateful for your kind intentions, but I really don't need them. You're letting them go to waste by giving them to me!"

Lin Yi smiled and shook his head, "that's why you're being responsible by keeping it!" It's the same for the others. All the gains are yours, don't even think about giving them to me!"

"Don 't, Captain. I prepared half of this for you. How can you not take it?"

Fernandes quickly expressed his loyalty and shook the mountain of things on his back. ""If it wasn't for the captain, we would have been finished. What's a little token of appreciation? Or after we get out, I'll deal with these things and give you half of the money?"

Lin Yi didn't know what to say-Mike's sword did have some value, but he was still giving him half of that trash?

I'm not a rubbish collector ... Money from the secular world is no different from rubbish to me!

The others also said that they would share their loot with Lin Yi, the captain. After some chaos, Lin Yi still didn't accept anything.

He had no choice ... He looked down on all of them!

While these people were arguing, Lin Yi used his spirit sense to look for a way to leave.

It was a pity that Lin Yi didn't find any teleportation points to leave this palace complex, nor did he find anything of value.

After some thought, Lin Yi decided to bring his team back the way they came.

"Captain, should we go take a look at the other passageway?"

Fernandes was carrying a small mountain of loot. Although it was not strenuous, it was not very convenient to walk in the passage. "I wonder if talu and the others are dead. Why don't we go back to the main hall and put our things down before looking for them?"

It was not that Fernandes was concerned about the tower Road, but he was simply thinking about whether there were other benefits in the other passage.

If there was, he couldn't let Liu Yidong, ta Lu, and the others take advantage of it. He had to get it for the captain.

He suggested that they return to the main hall first and settle down their things so that they could go into battle with less weight and obtain more treasures.

"Alright, let's return to the main hall first!"

Lin Yi nodded after some thought. "We've already obtained the sea serpent King's inheritance. The most important thing now is to leave this place!"

He didn't know what happened to Liu Yidong, and Lin Yi didn't want to split the benefits. He'd already gotten the biggest benefit from the sea serpent King Palace, and he didn't mind leaving the rest to Liu Yidong.

He didn't think that they could leave the palace just by going back the way they came, but he had to confirm it.

There were both advantages and disadvantages to this floor without Saint soyatuo's message.

The advantage was obvious. He didn't have to worry about being monitored at all times. The disadvantage was that he didn't know when he could leave, or how to leave.

And so, Lin Yi's team didn't stop when they passed the fork-they quickly returned to the hall they came from.

Fernandes put the things he was carrying in the corner of the hall, but he was still a little worried. ""Captain, is there a problem with leaving it here? Will our things be stolen?"

"That's hard to say! Why don't you stay here and guard?"

Lin Yi shrugged. They were trash in his eyes, but he couldn't be sure if there were people like Fernandes who liked trash like them. "How about we come back to pick you up after we find the teleportation point?"

"No need, no need! I, Fernandes, have always regarded money as dirt. And I've said it before, wherever you go, Captain, I'll follow! I'll never be separated from the captain!"

Fernandes looked impassioned, as if he really didn't care about what he had memorized.

Mike laughed and exposed him mercilessly, ""You're afraid that you'll miss out on more good things if you don't follow Captain, right? Since you've already obtained it, you're too greedy!"

"Mike, what are you talking about? You don't understand my respect and admiration for the captain at all!"

Fernandes jumped up like a cat whose tail had been stepped on. He thought to himself, "why is Mike telling the truth?" It's affecting me from hugging your thigh!

Lin Yi couldn't be bothered with their daily bickering. He went to the place where Liu Yidong and the others appeared and used his spirit sense to check.

The people from the bitter wisdom sect said that it was a one-way teleportation formation, but that was just what they said. Lin Yi didn't care if he believed it or not, he had to confirm it himself.

After observing for a while, he found nothing. It should be that the bitter wisdom sect did not activate the teleportation, so there would not be any abnormalities here. It seemed that what Liu Yidong and the others said was true.

"Eh, Captain! We can't get out of the main hall!"

Morris wanted to take a look outside the Great Hall, but he was immediately blocked by an invisible barrier. He was immediately shocked.

Lin Yi reached out and touched it-there was indeed an invisible barrier in the air, even his divine sense was blocked. It was extremely tough!

It was similar to hucai tianwu mountain and Lu Feng forest, where there was an invisible barrier.

"Captain number eight, I'll try!"

Mike ran over and pulled out the sea serpent King's long sword. He said eagerly, ""This is the sea serpent king's sword. It might be able to break the barrier here!"

Lin Yi smiled noncommittally-this place did have a possibility of that happening, and he'd just go with Mike.

The sea serpent king's sword let out a clear and melodious sword cry in Mike's hand. Then, it turned into a stream of light and stabbed at the transparent barrier at the entrance of the hall.

The next second, the sea serpent king's sword bounced back with a whoosh.

Mike had just used all his strength, but the sudden rebound was even stronger than his full strength. He immediately felt numb and could no longer hold on to the sword. He could only watch the sword fly into the air and spin in circles.

With a wave of his hand, Lin Yi wrapped the sword in pure Qi and sent it back to Mike slowly, in case it fell and hurt the others.

"Captain number eight, the barrier here is so tough. Although my sword is sharp, it can't penetrate it!"

Mike caught the sword and shrugged in embarrassment. ""Captain number eight, why don't you try using this sword?"

"No need! Since I can't get out, then I won't!"

Lin Yi waved his hand. He tried using his spirit sense to form words, but he couldn't open the barrier.

Unless Lin Yi used his full strength right now, it would be hard to activate it by force.

But Lin Yi didn't think there was any point in using brute force to open it. It was just a square outside the hall, and there shouldn't be any teleportation formation or anything.

Since the sea serpent King had left behind an inheritance, there must be a conventional way to get out. The sea serpent King couldn't possibly let the person who had obtained the inheritance be trapped here to death, right?

"This place doesn't allow us to leave, so I'm afraid the exit to the Crystal Palace is not here! Let's not waste any more time and think of other ways to find an exit!"

Lin Yi said with a wave of his hand.

Chapter 7630 Growing Stronger The More One Dies

"Captain, if that's the case, the exit should be in the passage that the bitter wisdom sect and ta Lu went to!"

Fernandes twisted his neck and laughed. "It just so happens that we're going to look for them and find the exit!"

"I'm afraid you're not looking for them, but to see if there's anything good in that passage, right?"

Mike chuckled and patted Fernandes on the shoulder. ""Actually, you've already plundered so many good things. Even if you had more, you wouldn't be able to bring them out!"

"Bah! Am I, Fernandes, that kind of person? Would I only think about plundering?"

Fernandes pretended to be displeased. He snorted and suddenly laughed. "It really is! You just love to tell the truth! Can we still have fun together?"

"Fernandes, stop fooling around. Please take us out as soon as possible, Captain!"

Adianpolo also reached out and patted fernández on the shoulder. ""If the exit is really on the tower Road, they might have already taken all the good stuff and are ready to leave. Are you thinking of getting nothing?"

Nothing? That can't be tolerated!

Fernandes's face turned serious immediately. "Captain, I think we should go to talu and the others as soon as possible. I'm not talking about what they took. I, Fernandes, am not that kind of person! But what if they destroy the exit when they leave? won't we be trapped here until we die?"

"I really don't want to fight for anything. I'm really worried that they'll destroy the exit. You know that those B * stards from tallu are definitely people who would do such immoral things!"

Everyone smiled meaningfully. Although what you said makes sense, fernández, who do you think will believe that you are not going to snatch something good?

As for worrying about the exit being destroyed? As a veteran leg hair, shouldn't you say that no matter what tricks talu and the others use, your leg will be able to overcome all the problems and settle them?

"What's with your gazes? Is there a problem with what I said?"

Fernandes felt his hair stand on end. He did not know what these people meant. Or did they all have problems with their eyes?

"No problem! What you said makes sense, Fernandes! I'll give you a round of applause!"

Mike gave him a few slaps, but fernández felt that the kid was laughing at him!

"Let's go! Fernandes is really thoughtful. If the exit is destroyed, we will all be in trouble!"

Lin Yi shook his head. Fernández's IQ was pretty high sometimes. He walked into the tunnel first. "Everyone, stay alert and be ready to deal with any sudden situations!"

Lin Yi didn't think that they'd be in any danger, but it was necessary for them to be alert!

After all, it was impossible for him to lead them all the way.

After this was over, they would still have to live their own lives. It wouldn't be good for them if they relied too much on Lin Yi!

The group returned to the fork in the road. Lin Yi didn't stop and went straight to the road Liu Yidong and the others chose.

Before entering the path, Lin Yi's spirit sense couldn't go in, but after entering, his spirit sense could go in smoothly.

Then, Lin Yi realized that Liu Yidong, the bitter wisdom sect people, and ta Lu's group were all trapped together, under the attack of the puppet army!

...It was indeed the same recipe, a familiar smell!

What Lin Yi's team had gone through, Liu Yidong and the others couldn't escape!

"Yo! There's so much movement in front! Looks like it's a very lively fight!"

Fernandez didn't release his divine sense, but his hearing was good. He had already heard some movements and gloated, ""I've already said that Tower Road is a jinx. No matter where he goes, he'll be unlucky. Whoever goes with him is doomed! Liu Yidong and his gang finally know how powerful they are, right?"

"Fernandes, look at how happy you are ... Do you think that they haven't taken all the good things?"

Mike was already addicted to flirting with Fernandez. From time to time, he would sneer and say, ""Are you planning to wait for talu and the others to finish fighting before you go and reap the benefits?"

Fernandes squinted at Mike. If he didn't say it, he would still be a good friend! You brat, you've already said everything, can we still have fun together?

"Hehe ... It seems that it will take a long time for them to finish fighting! The few people from bitter wisdom sect are cooperating pretty well, they can barely defend!"

Lin Yi's spirit sense covered the entire area, and he knew the details of the battle. "Although the strength of talu's group is relatively weak, they can hold on for a while with the cooperation of their superpowers!"

What surprised Lin Yi was that after being surrounded by the puppet army for who knows how long, no one from the bitter wisdom sect or the pagoda Road died.

Under the premise that their strength was far inferior to the puppet army, it was not easy to do this!

"As expected of the captain. He already knows the situation like the back of his hand before even seeing it!"

The daily flattery of the senior leg hair Fernandes reappeared, but after saying one sentence, he immediately changed the topic and asked, ""Captain, who are they fighting with? Did that unlucky bastard talu die?"

"After you release your divine sense, you should be able to find it! I've been telling you to get used to using your divine sense instead of your eyes. When will you remember it?"

Lin Yi was helpless. Fernandes and the others were already at the xuansheng stage, but they still couldn't get used to using spirit sense!

It was like holding a full magazine of AK-47 and using the barrel of the gun as an iron bar to fight with someone!

What a waste!

"The captain is wise! If you didn't tell me, I wouldn't have remembered!"

Fernandez grinned fiendishly and released his soul consciousness. He then screamed, "I'll go! It was the puppet army again! What we encountered was the 1st Legion, is this the 2nd Legion?"

"Talu and the others are lucky. Although they were surrounded, they're still alive!"

Mike clicked his tongue and praised, "being weak has its benefits!" Under such circumstances, not retaliating has become the reason why they can keep their lives!"

Lin Yi blinked and immediately understood!

He had misunderstood the situation. He had used his clones to fight against the puppet army. He felt that the puppet army was strong enough to crush Liu Yidong, talu, and the others. It was a miracle that the other party did not die!

Mike, on the other hand, had watched Lin Yi's battle. As a bystander, he might not know the strength of the puppet, but he knew its characteristics very well!

Undying and imperishable! The more they died, the stronger they became!

Due to their lack of strength, the bitter wisdom sect, ta Lu, and the rest could only defend passively. They were unable to pose a threat to the puppet army and could only barely protect themselves!
