Chapter 7641 Picked Up Two Books

Lin Yuchen was about to vomit blood at this moment!

This was clearly the image of someone picking up trash!

Do you think such a beautiful lady like me would do such a thing?

To be honest, even Lin Xi Chen wanted to kill Fernandes, let alone the Furious Liu Yidong!

Unfortunately, fern andez was not aware of it at all, and he was still making a fire. ""How about this, take out all the valuable things you have and let our Captain choose! If our Captain takes a fancy to you, then you're lucky!"

"Good!" Liu Yidong shouted. I'll do as you say! I just want to know, if you can't open the exit, what will you do? Double the compensation?"

"Shut up, you poor bastard! You've even lost your storage bag to me, so what are you still doing here? Don't you know that you're the poorest here? If you lose, how much money do you have left?"

Fernandes curled his lips in disdain and waved his hand in disdain. ""Pauper, go to the side. This has nothing to do with you. Just wait to take advantage of others!"

The veins on Liu Yidong's forehead were bulging, and he wanted to kill Fernandes immediately!

"Hehe, it's just a storage bag. Do you think it's worth that much?"

Liu Yidong suppressed his anger, took out another storage bag, and sneered, "I still have one here, the good stuff is all here!"

"I grabbed a blade of grass! You actually cheated!"

Fernandes was stunned for a moment before reacting. "You're betting with me, you're clearly trying to scam me, right?"

As teammates, Mike and the others couldn't stand it anymore. They all knew who had been the one to be cheated in that bet ... Only Fernandez would do something as outrageous as making a bogus accusation!

Liu Yidong thought that he would fly into a rage, but he found that he had calmed down a lot. Could it be that he had been stimulated too much and had become numb to it?

"Eighth brother, this is all I have. If there's anything that you like, just pick!"

Liu Yidong didn't want to waste time with Fernandes anymore and turned to Lin Yi, "If you can't open the exit, do you dare to double the compensation for the items you've chosen?"

"No problem! We'll do as you say!"

Lin Yi nodded quickly, and then he saw Lin jingchen and the other disciples take out their things.

Liu Yidong's two storage bags might be because of his status, or he might be a trophy like Lin Yi.

Lin Xi Chen only had one storage bag. The other disciples didn't even have a storage bag, so they all carried some luggage with them.

The value of the items they took out was far from The Kraken King's gift, so Lin Yi didn't even care about it!

If Lin Yi had to give an evaluation, he'd just say that it was a pile of trash!

These things would take up too much space to put into the Jade space, so they were useless!

However, Lin Yi did find something interesting in the pile of junk!

One of them was an ancient book titled "an Encyclopedia of ancient formations," and the other was a book on the geographical map of the ancient Jianghu!

It wasn't that the books were valuable, but that Lin Yi could use them!

This was especially so for the book on ancient formations. Just by looking at it, one could feel the ancient aura on it. It was definitely not a simple item. Perhaps even a ghost would be interested in it!

"There's really nothing good ... Forget it, I'll just take two books and read them!"

Lin Yi picked up the book as if nothing had happened and smiled faintly, "This is your ticket!"

Liu Yidong was taken aback. He didn't understand what Lin Yi was thinking!

He didn't want any of the treasures given by the sea serpent King? Only those two books?

What a good person!

Pei Pei Pei!

That kid must have been worried that he wouldn't be able to open the exit and pay double the compensation, so he deliberately picked two books that were of little value.

Liu Yidong secretly cursed.

In fact, it wasn't that Lin Yi's items were worthless. For example, the ancient book on ancient formations was something Liu Yidong found in a ruin during one of his trials.

In the hands of those who knew, the value of the ancient array was immeasurable. It was a pity that Liu Yidong did not know!

After obtaining the ancient array book, Liu Yidong felt that it was useless to keep it, so he turned it over to the sect in exchange for some sect contribution points. In the end, even the elders of bitter wisdom sect could not understand it ...

This was awkward!

They all felt that it was valuable, but they also felt that it was useless. To put it simply, it was of little value!

It was tasteless, but it was a pity to throw it away!

As a result, the upper echelons of bitter wisdom sect changed hands and rewarded Liu Yidong with this book on ancient array techniques as a reward!

Liu Yidong was speechless.

He had come back after going around in circles. This was fate!

Therefore, Liu Yidong put the book into a corner of his storage bag. He had almost forgotten that there was such an ancient book!

He didn't think that Lin Yi would choose this ancient array book!

As for the geographical map of the immemorial little pugilistic world, although the location of the hidden sects was marked on it, which was rare in the immemorial little pugilistic world, it was not uncommon for the disciples of the hidden sects to have it.

In terms of value ... It really wasn't!

"Alright! You can take the things! The exit can be opened now, right?"

Liu Yidong didn't want to cause any more trouble, so he immediately decided on this matter. "If you can't activate the exit, remember the compensation you promised!"

Hmph Hmph, I'll tell you how precious and priceless the ancient array book is!

Anyway, when it came to antiques, he could just dupe them if he didn't know anything!

"No problem!"

Satisfied, Lin Yi kept the two books-it was an unexpected gain!

The gifts that Liu Yidong and the others thought were precious were all trash to Lin Yi. All of them added together weren't even as important as an ancient book on formations!

Lin Yi let the ghost take a look, and it made the same judgment!

Only people with Lin Yi's and the ghost's level of knowledge could understand and study the contents of the ancient array book. For low-level array Masters, it was like a heavenly book!

With this ancient book, this damn thing might be able to make a breakthrough in his array Dao, especially in his understanding of the laws of space!

In the words of the damned thing, the value of the ancient formations was no less than the water escape technique and Sea Dragon golden body technique Lin Yi got from the sea serpent King!

Liu Yidong's eyebrows twitched. He wanted to say, "you haven't done anything yet, but you've already put away your things?"

But after thinking about it again, it felt good to make Lin Yi spit it out if he failed, so he kept quiet.

Lin Yi took out the brush from before and played with it a bit, starting to trace the words on the stone.

Of course, this was all useless and purely a pretense!

The key to opening the exit wasn't simply writing the two words "imperial sea," but using spiritual sense to write these two words!

Chapter 7642 The Exit Opens

Moreover, the most important thing was that writing these two words required a spiritual sense that was not weaker than the sea splitting stage of the sea serpent King!

In fact, Lin Yi had already considered it from the beginning. The moment they entered the entrance, the difficulty of the ruins was raised by their own people!

At the entrance of the hall, he used his divine sense to resist the three words on the plaque, and the sea serpent King's remains was automatically matched with a sea-shattering trial difficulty dungeon.

Therefore, the scroll that could have easily opened the passage had become useless in Liu Yidong's hands!

It wasn't because the item from bitter wisdom sect wasn't good enough, but because this item couldn't be used for higher level instance dungeons.

Therefore, as the difficulty of entering increased, the difficulty of leaving would naturally increase as well.

He'd condensed the words on the tablet when he was fighting the puppets, but the pocket dimension wasn't over yet, and it wasn't allowed for him to force his way out of the pocket dimension.

However, things were different now. The sea serpent King's trial dungeon had ended, so the exit was naturally allowed to be opened.

It also explained why the puppets were so powerful in battle.

If Lin Yi hadn't used his sea-shattering spirit sense at the start and only used his xuansheng spirit sense, the strength of the puppets in the dungeon might've been reduced as well.

"Hehe, does he think that he can succeed by copying it every time?"

Liu Yidong sneered. "According to the records of the elders in our sect, there has never been such a method to open the exit. I'll see what he has to say after he fails!"

"That's right. I think he's just putting on an act. In fact, he's not very confident in his heart!"

"He only dared to choose two books just now," talu chimed in. "That's enough to explain the problem. He must be afraid that he won't be able to afford it if he fails!"

The ancient formations and the ancient little pugilistic world geographical map were very precious in Lin Yi's eyes, but Liu Yidong didn't seem to care, so talu guessed that Lin Yi had picked something worthless.

Liu Yidong deeply agreed. He had always thought this way, so what ta Lu said naturally resonated with him.

This Lackey of his sect had finally said something he liked!

"He's about to finish tracing it, but there's still no movement. It seems that failure is a foregone conclusion!"

"Senior brother Liu, what should we do if he can't open the exit?" Junior Brother Wang asked in a low voice. "What if we're trapped here and can't leave?"

"If I really can't get out ... Then I can only explore other areas and find other exits!"

Liu Yidong frowned slightly.

This was indeed a problem. In the video left by the sea serpent King, it had clearly stated that they should leave after taking the benefits. If they continued to go to other places, it was difficult to say what the consequences would be!

Of course, there was no way to leave this place, and Liu Yidong could not do anything about it either. He could not just sit there and wait for death. He could only go to other places to take a look. He believed that the sea serpent King would not blame him.

Lin Yi hadn't even finished copying the words on the stone tablet, and Liu Yidong was already thinking so much-he was sure that Lin Yi wouldn't succeed!

Lin Yuchen couldn't help but say,"senior brother Liu, let's not think about that for now. Eighth brother might not necessarily fail. Look at him. Although he doesn't look very confident, he's quite calm. It feels like he has a plan in mind."

"I have a feeling that he might really be able to open the exit!"

"Junior Sister Lin, don't be fooled by him. He's just pretending! He just wanted to save some face. In fact, he might be feeling very guilty right now!"

Liu Yidong pursed his lips and said disapprovingly, ""If he could really do it, how could he give up the gift of the sea serpent King? That's good stuff!"

To be honest, Liu Yidong had even considered whether he should take all the things from the group of people on ta Lu.

They were just cannon fodder anyway, so why would they need such good stuff? It would be a waste to give it to them!

If it weren't for the king's warning and Lin Yi's team watching, he really would've done something like this.

Liu Yidong and the others didn't believe that Lin Yi could open the exit, but Lin Yi had already finished copying the words on the stone tablet.

In Lin Yi's sea of consciousness, the two words "Royal sea" had already formed. He had already formed it a few times before, so it didn't take much effort this time.

Taking advantage of the moment he put away the brush, two large characters condensed from spiritual sense were silently engraved on the stone tablet, and the entire stone tablet immediately lit up.

A pillar of light shot up from the stone tablet into the sky, forming a passage that led upwards. A circular door of light could be seen above it with the naked eye, and it should be the exit!

Liu Yidong was dumbfounded. He could not close his mouth.

They were still thinking that Lin Yi couldn't open the exit and were thinking about exploring other areas, but Lin Yi opened the exit now!

This face-smacking speed was too fast!

If he had known, he would have just watched quietly. Why did he have to say those words ...

Lin jingchen was also surprised. She had a feeling that Lin Yi would succeed, but she didn't expect it to be so fast and so smooth!

"This should be the exit!"

Lin Yi twirled the brush around his fingers and put it away in his storage bag. "I've already accepted your reward, please!"

After he finished speaking, he turned his body slightly and made a gesture, indicating for Lin Yuchen and the others to enter the light pillar.

Liu Yidong didn't know what to say. He thought that Lin Yi either wanted less compensation or something was wrong with his brain by choosing the ancient array and the ancient Jianghu geographical map.

But it was clear that Lin Yi wasn't worried about compensation at all-the enemy was confident in opening the exit, and so the two books ... Were valuable?

She thought that Lin Yi was an idiot, but now she realized that he was the idiot ... How depressing!

"Many thanks, brother eighth! Then we'll go first!"

Lin Yuchen came back to his senses and didn't say much. He smiled and cupped his hands."If brother eight is going to the ancient martial world, please come to bitter wisdom sect as a guest. We will definitely do our best to host you!"

With Lin Yi's strength and ability, Lin jingchen felt that bitter wisdom sect wouldn't lose out on befriending Lin Yi!

Unfortunately, there was some unpleasantness in the previous argument. There was no point in saying anything more now. He could only place his hopes on the future!

Liu Yidong couldn't wait to leave Lin Yi as soon as possible. He hastily called out and lowered his head as he led the people of the bitter wisdom sect into the light pillar. The six of them shot into the sky and disappeared into the light door!

Dale was burning with anxiety. The backer he had found with great difficulty had just left without a word? Then what should he do?

They sneaked a look and realized that Lin Yi didn't seem to be paying attention to them. They started to move the tower Road, trying to get closer to the light pillar and get out of here.

Chapter 7643 Come In From The Exit?

"Stop! Did they give the tickets? Are you trying to escape the votes?"

Fernandes had been paying attention to Dale and the others. In a flash, his big podao appeared in front of Dale. The edge of the blade glowed with a cold light.

However, the various gemstones embedded on the hilt were even more dazzling. They reflected the light beams and were simply gorgeous!

"Hahaha...Haha...Ha ..."

Talu, who was caught red-handed, could only laugh dryly. He rolled his eyes and said, ""Fernandes, didn't your eighth Captain just say that he only wants those two books? he doesn't want anything else!"

"Are you talking about you? That's because our Captain gave face to the sect in the ancient martial arts world. Who Do You Think You Are?"

Fernandez snorted disdainfully. In fact, he felt that Liu Yidong and the others didn't need eighth brother's thigh to give them any face. It was probably because eighth brother had taken a fancy to that girl called Lin Yuchen!

As leg hair, it was not good to talk about this kind of thing, let alone argue with someone like talu."If you want to leave this place, don't talk nonsense with me. You are just the lackeys of those guys. When you saw them leave, did they care about what you thought?"

Dale felt aggrieved. What fernÃjndez said was the truth, which was why he felt so hurt!

"You're all a bunch of paupers. Other than the loot from the sea serpent King, I don't think you have anything valuable!"

Fernandes glanced at the group of people in Taru with disdain. There was still a mountain of gold and silver in the hall, so Fernandes was very confident. Every one of them was poor, and there was nothing wrong with that!

I, Fernandes, am a rich man!

"Yes, yes, yes." Dalu nodded."We're all poor. We really can't take out anything valuable. Why don't we just let it go?" Just treat it as helping the poor, okay?"

It didn't seem likely, but what if the idiot Fernandes agreed?

Taru looked at Fernandes with hope. If possible, he wanted to keep the Gift from the Sea serpent King.

Fernandes was a bit of a nouveau riche, but he still remembered who the big boss was. The big boss had to make the decision, and so he turned to Lin Yi, ready to ask for his opinion.

In the end, before they could come up with a final opinion, a person floated down from the pillar of light!

Lin Yi looked up-it was Saint soyatu!

Come in from the exit?

Did he come from the ancient martial world? Otherwise, why would he come in from the exit that led to the ancient martial world?

"We welcome Lord Holy envoy!"

As soon as Dalu saw Saint soyatu, he was overjoyed. This was a new turn of events!

No matter what, with this Lord Holy envoy here, at least his little life should be saved, right?

Lin Yi's team wouldn't go too far in front of the Saint!

"Very good! I didn't expect you to pass the test of the sixth level so quickly and smoothly. It's really very good! I'm very satisfied!"

Saint soyatu's face was full of smiles. It wasn't that he didn't expect Lin Yi and the others to pass the sixth floor so quickly, but he couldn't believe that these experimentals would complete the mission without dying!

At the start, Saint soyatu had been prepared for a complete Wipeout, and had even pitied the test subject, Lin Yi!

"Everyone seems to have gained a good harvest! Come, let me see!"

Saint soyatu extended his hand with a smile, and the people on talu's side quickly handed over the sea serpent King's gift with both hands. Fernandes was not very willing to have them, but Saint soyatu was different.

In the current situation, Saint soyatu to the group was like Lin Yi to Fernandes!

"Not bad, not bad! They're all good stuff, the worst of them are items that can be used by peak nascent soul and early mysterious Ascension cultivators, and there's quite a lot of them!"

Sajatul was more and more satisfied. Of course, compared to these items, the control of the sixth floor was more important.

After Lin Yi opened the exit, Saint soyatu realized that the sea serpent King's ruins weren't as impassable as before!

As long as he spent some time, the palace of the sea serpent King would eventually fall into the control of the new Holy region, just like the first five levels!

"Your Excellency, we are only the lowest grade items. We are all things that others have picked and left behind!"

Bobby didn't know what was wrong with him, but he suddenly opened his mouth and Tattletale, ""The best treasures are all in the hands of the eight teams of Ling-zero. Any one of them is probably worth 17 or 18 of our treasures!"

This guy probably thought that Saint soyatu was taking everything The Kraken King left behind, and felt a little unfair, so he wanted Saint soyatu to take everything from Lin Yi's team as well.

If Lin Yi's team didn't want to hand over the treasure, then Saint soyatu would naturally teach them a lesson-killing two birds with one stone! Perfect!

"This Lord can see it!"

Unexpectedly, Holy envoy soyatu's expression turned cold, and he indifferently glanced at Bobby. ""The people of Ling-8 have already reached the xuansheng stage. It's very reasonable for them to use better weapons! How about you guys?"

"Also! "Anything obtained here belongs to you, and I won't ask for anything from you. I'm just looking at it. Do you think that with my status, I would covet your little things?"

"I don't dare! I don't dare to!"

Bobby was shocked and quickly bowed to apologize for fear that he would be killed by Saint soyatuo in anger if he was a little late!

"You're really trash! You don't improve yourself, but you're always jealous of others!"

Saint soyatu snorted coldly, as if he was extremely angry. He casually threw the remains of the sea serpent King that talu and his men had brought over on the ground. "Keep it well! Remember, this Lord will repeat once more, the things here belong to whoever gets their hands on them. Don't worry about this Lord asking you for anything!"

"Many thanks, Lord Holy envoy!"

Talu glared at Bobby, then took the lead in thanking Saint soyatu.

He had been prepared to hand over the items, but he did not expect to return them. It was a pleasant surprise.

"Ling-zero-eight, you guys are still as outstanding as ever! I'm getting used to being surprised!"

When Saint soyatu turned his head, his cold expression immediately melted and became as warm as a spring breeze. ""Although I'm not clear about the process, it's clear that your team must have played a pivotal role ... No, it should be a decisive role, right?"

"You're too kind, Saint. We only did what we were supposed to do. We can't be considered outstanding!"

"Luck played a big part in this, and everyone worked together," Lin Yi replied, neither obsequious nor arrogant. "Otherwise, we wouldn't have been able to open the exit."

As he spoke, Lin Yi glanced at Fernandes. He wanted the guy to learn to keep a low profile no matter what he did.

Chapter 7644 Intentionally Befriending

"I like your humble way of doing things. It's really admirable!"

Saint soyatu praised Lin Yi a little more before turning to everyone. "Originally, everyone could have left this place, but your strength is too weak. If you enter the next level, you will all be finished."

"Fortunately, the spiritual Qi here is abundant, so it's twice the result with half the effort for cultivation. So, I'm going to let you all cultivate here for a while. You can enter the next level after you've all improved your strength!"

Without waiting for anyone to speak, Saint soyatu had already begun to explain the method of teaching primordial soul cultivation, and then took out pills to distribute to talu and the others.

As for Lin Yi's team, they'd met the requirements already, so they didn't need to train anymore.

"Ling-zero-eight, you all have enough strength. There's no need to stay here. Why don't you take this opportunity to show me around?"

After finishing all this, Saint soyatu wanted to go check out the other areas with Lin Yi's team.

Lin Yi, naturally, wouldn't reject a small request like this. He had nothing to do anyway, so he brought Saint soyatu back!

"Captain, I'll go back to the main hall to take a look. Maybe the barrier at the entrance of the main hall has disappeared. In that case, I can go to the other palaces!"

Fernandes leaned in closer to Lin Yi and smiled. "The Crystal Palace is so big. I'm sure I'll get more out of the main hall!"

Lin Yi chuckled to himself-Fernandes was obviously after the stuff he'd left in the hall, and seeing if he could get out was just a coincidence, right?

Although Saint soyatu had said that everything here belonged to him, Fernandes obviously did not trust Saint soyatu, so he wanted to go to the hall first to put the things in his storage bag.

Unfortunately, the space in his storage bag was limited. He probably wouldn't be able to pack much even if he went back.

"That's good, then go!"

Lin Yi waved his hand, signaling for Fernandes to leave.

"Yes, sir!" He replied happily and ran out in a hurry, not even saying hello to Saint soyatuo.

The corners of Saint soyatul's mouth twitched slightly. 'Aren't you guys being too casual in front of me?'

Can't you at least ask for my opinion? even if it's just for show, it's fine!

However, the strength and potential Lin Yi's team had displayed was extraordinary, and the Saint Emperor valued Lin Yi. The Saint couldn't say anything, and could only pretend to look elsewhere, not paying attention to Fernandes.

Lin Yi had successfully passed the 6th floor and passed through the sea serpent King Palace. He was almost guaranteed to become a saint of the new sanctuary, and Saint soyatu wanted to be on good terms with him, so he didn't dare to offend him.

They were not like the ones on tallu's side, who were basically confirmed to be cannon fodder!

The cultivation method that was taught to talu and the others was correct, but the pills given were not real pills. They were biological gene potions developed by the center!

Since he was not talented, he could only use potions to forcibly improve the strength of talu and the others!

As for the side effects of the potions ... Would cannon fodder need to care about such things?

"I heard that your team members like to call you old eight Captain. Can I call you old eight?"

After Fernandes left, Saint soyatu smiled and tried to get closer to Lin Yi, using his nickname first!

"Of course, you're too kind, Holy envoy!"

Lin Yi smiled faintly, not saying anything.

"Eighth brother, don't regard me as an outsider. My name is soyatu. You can call me by my name too!"

Saint soyatul was in a good mood and felt that this was a good start. ""To be honest, I really didn't expect that all of your team members would be promoted to the xuansheng stage! That's really amazing!"

"It's just good luck, nothing great!"

"It's just a coincidence," Lin Yi said half-heartedly, "and it was you who gave us the chance, soyatu!"

"What kind of luck is that! The so-called luck is also a kind of strength. If you can grasp the opportunity, it will be a great achievement!"

Soyatu laughed and waved his hand, then changed the topic. "By the way, if you want to advance to the mysterious Ascension stage, you need to experience the lightning tribulation, right? Where did you guys find the lightning tribulation?"

"I was just about to talk to you about this!"

They were back at the fork, and Lin Yi pointed at the other path. "There's a group of palaces from here, and there's an electric eel puppet there that can simulate and create lightning tribulations. It's because of its existence that we can advance smoothly!"

After Lin Yi and the others received the sea serpent King's inheritance and took away the four puppets, the entrance to the sea serpent king's throne was automatically activated. Was this the side effect of taking away the four puppets?

But Lin Yi didn't mind-there wasn't anything else in the palace anymore, and it didn't matter if the entrance was open.

"I see. The palace of the sea serpent King is indeed magical! Let's go take a look!"

"Oh?" sajatul's eyes lit up."Is it convenient for you to take me there, eighth brother?"

"Of course! I originally wanted to bring you there!"

"I don't know if the electric eel puppet is still there or not," Lin Yi smiled faintly,"I'm sorry if it suddenly disappeared!"

Saint soyatu smiled and said that he understood, but he was still somewhat looking forward to it.

Talu and the others could reach the peak of the original level very quickly after using the gene agent. However, if they wanted to advance to the mysterious Ascension stage, they had to go through the lightning tribulation.

If he didn't have the lightning tribulation, it wasn't impossible to just use gene potions to strengthen himself. However, the price was too great. The resources consumed would increase by tens of times, and the stability after advancing was unstable. It was possible that he would explode at any time.

Hence, the electric eel puppet that Lin Yi was talking about was very important to the Saint!

Not to mention others, even ta Lu's group could be promoted to the xuansheng stage here!

Lin Yi led his team and chatted with Saint soyatu as they walked, quickly returning to the sea tablet and entering the sea serpent king's throne from the entrance.

The electric eel puppet was still there, and Saint soyatu was overjoyed.

"Is this it? It looks very powerful, but How do I release the lightning tribulation?"

Holy envoy soyatu looked around at the electric eel puppet, but he did not dare to act rashly.

"It should have released the lightning tribulation automatically when it sensed that it had advanced to the mysterious Ascension stage."

Lin Yi wasn't too sure himself, and he pinched his chin as he speculated, "Why don't you touch it?"

"Touch? Can I?"

Rubbing his hands together, Saint zoatul was a little eager to try, as if he was looking forward to seeing a young beauty in front of him.

Then, he immediately tried it out!

"Stab ..."

In an instant, a bolt of lightning struck Saint soyatu's head.

"Hahaha, old eighth, you're really a Lucky Star!"

With smoke rising from his head, Saint soyatul clapped his hands and laughed with bright eyes. "Believe me, your future is limitless!"

Saint soyatul almost said that you're going to become the Holy Son of our new sanctum!

Chapter 7645 You Have To Thank Him

Lin Yi's lips twitched upon hearing that-he couldn't even imagine what his future would be like ...

Who was he talking to about unlimited potential?

Moreover, you're really unparalleled with that smoking look on your head. You're really in a hurry to get struck by lightning.

"Is there only one electric eel puppet here? Do you have any other good stuff?"

Saint soyatu turned around and looked around. If he could find something similar to the electric eel puppet, it would be a great development for the new sanctuary.

"No, it was all taken by Fernandes."

Except for the puppet electric eel, there was nothing good in the palace. Even the useless decorations had been taken away by Fernandes, what else could be left?

Lin Yi said it on purpose, wanting to see if the Saint really didn't care about all the good stuff, or if she was just pretending.

"Oh, then forget it."

Saint soyatu nodded and did not say anything else. It was impossible to tell that he was angry.

Of course, in the eyes of Saint soyatu, having the electric eel puppet was a great gain!

There was no need to offend the future Son of God for other things. Besides, what Fernandes got was probably something the Son of God didn't want, which was useless to him.

On their way back, they met Fernandes, who was coming from the hall. The guy was carrying a Hill of goods that was obviously smaller on his back, and his face was bitter.

He thought that he could take all of them in the storage bag, but the result was disappointing!

"Captain, I've checked. There's still no way out of the main hall!"

Fernandes glanced at Saint soyatu, worried that the latter would take a fancy to the treasure on his back. "It seems that we have no other way but to leave through the exit."

"Fernandes, what's the use of you carrying so many things?"

Black lines appeared on Saint soyatu's forehead!

You're already a xuansheng stage expert, so why are you making these things that look valuable but are actually useless?

It was a good thing she didn't ask for a share of Fernandes 'loot-she'd offend Lin Yi if she did, and she'd get herself a pile of useless junk.

"I can't collect it!"

Of course, Fernandes would not say that it was for money. He said confidently, ""Why do you still care about this, Holy envoy? Don't tell me whoever you want to see will get a share?"

Those vigilant little eyes ... Saint soyatu wished he could find a hammer to crack open his skull and see what was inside?

I'm a Saint, why would I be interested in your things?

Are you worried that I'll snatch yours?

"Fernandes, you're really good at joking. I've said it before, anything found here will belong to whoever finds it!"

Saint soyatu's heart was a little crushed, but he had to be nice for Lin Yi's sake. "I just feel that there's no point for a great expert of the xuansheng stage like you to carry these burdens! When you leave this place, you'll know that the wealth of the world is nothing to an expert of your level!"

Fernandes pursed his lips. "I'm a well-educated man. Don't you think you can fool me?" he thought.

Saint soyatu could not help but want to go up and kick him, but in the end, he warned himself that he had to restrain himself for the sake of the future Holy Son! Calm down!

"Soyatu, forget about Fernandes. Shall we go to the hall and take a look?"

Lin Yi laughed inside, but his face remained calm as he changed the topic. "If we can get out of the main hall, we can indeed explore more areas."

"However, the sea serpent King's words seemed to be telling us to leave after taking the benefits. I guess we can't explore the other areas this time."

Lin Yi didn't really want to explore the place even if he could-he'd already gotten the biggest legacy, and the other things didn't really matter anymore.

Saint soyatu turned to Lin Yi, a smile on his face. "Then forget it. There's no need to go to the main hall. Let's go back to the place we were at and see how their cultivation is going."

For a new Saint, Lin Yi breaking through these two paths was enough.

With these areas as nails, they would be able to break into the sea serpent King Palace. The remaining areas would be developed sooner or later.

There was no need for Saint soyatu to worry about those things, so his task could be considered to have been completed perfectly.

With the help of the potions, talu and his men made rapid progress. Those who had not reached the Yuanying stage had all broken through and improved greatly in such a short time.

By the time Lin Yi and Saint soyatu returned to the exit, talu and his men were all peak nascent soul cultivators!

They only needed to go through the lightning tribulation with the help of the medicine and they would be a group of xuansheng stage experts!

"Not bad. I'm very satisfied with your progress. Next, I'll take you to a place to prepare to advance to the xuansheng stage!"

Sajatul was very satisfied. He smiled and nodded. "You have to thank Captain number eight. He was the one who found that place and gave you the chance to advance. You should all thank him!"

Talu, bobinasbi, and the others looked at each other, their hearts feeling as uncomfortable as if they had eaten a fly!

He even had to thank that God of plague? Thank him for what? Should we thank him for harming us?

However, since Saint soyatu had spoken, how could talu's group dare to object?

So they all obediently bowed to Lin Yi and thanked him-it didn't matter what they thought in their hearts, they'd just get over it!

"You're too polite, soyatu. It's all thanks to you that they're able to have such a good fortune. It has nothing to do with me!"

Lin Yi said with a wave of his hand, extremely humble.

Seeing this, Dale was even more depressed. This Ling-zero-eight was close to the Saint. Wouldn't it be even more difficult to deal with him in the future?

Saint soyatu was very happy. Lin Yi's attitude was good, and he might really become a powerful ally in the new sanctuary ... Or maybe a big thigh for him?

After exchanging a few more pleasantries, Saint soyatu took talu and the others to the electric eel puppet to advance.

With the potions concocted by the center, talu and the others successfully survived the lightning tribulation and advanced to the mysterious Ascension stage despite their poor foundations!

"Boss talu, our strength has increased, and we are not any weaker than those guys. We have to find an opportunity to get rid of them!"

On the way back to the exit, Bobby secretly pulled tallu and Nasby to the back and whispered, ""That Ling-zero-eight is a little evil, and he's becoming more and more powerful. If we don't think of a way to kill them, we might be killed by them!"

"Bobby is right! Boss talu, we have to find a way to kill them!"

Nasby didn't want to mess with Lin Yi's team, but he was stronger now, and Bobby was leading the way. "We previously sought refuge with that dog shit kuhui sect, but in the end, those guys ran away on their own, leaving us behind!"

Chapter 7646 Is There A Hint?

"Ling-zero-eight's team probably won't forgive us for defecting to the enemy. Now that the people from the bitter wisdom sect have escaped, we can only take the blame. If we want to live, we have to strike first!"

"I also want to kill them! But can we?"

Bobby and Nasby, the two dumbasses, spoke one after another.

Talu was already traumatized by Lin Yi's actions, so he looked at his two henchmen suspiciously. "You guys aren't trying to harm me, right? The two of you weren't so eager to deal with Ling-zero-eight before!"

Ta Lu didn't really believe that he would join the bitter wisdom sect as an enemy!

There must be a reason for this abnormality, and it was not unreasonable for him to suspect that these two idiots had plotted against him.

Wouldn't they be able to get promoted smoothly if they settled the boss?

"How could I! Boss talu, you're thinking too much!"

Bobby laughed dryly. "How could we harm boss? it's just that Ling-zero-eight is too big of a threat, and now he's on good terms with the Saint. In the future, we won't even be able to lift our heads in front of him. At that time, if he wants to kill us, he can just kill us casually, and I don't think the Saint will say anything."

Talu thought that it made sense!

The fact that Saint envoy soyatuo forbade killing each other was their last resort. If Ling-zero-eight broke the rules because he was on good terms with Saint envoy soyatuo, wouldn't they be in danger?

However, it was still a bit of a stretch for him to go head to head with Lin Yi like this. He shook his head after a moment of silence, "Let's observe the situation first. We'll talk about it when we have the chance!"

Ta Lu wouldn't dare to make a move on Lin Yi if he didn't have the chance to kill him in one hit. They were all xuansheng stage cultivators, and Lin Yi's team seemed to be able to challenge those above their level!

How could they fight head-on?

Bobby and Nasby looked at each other and didn't say anything. In fact, they didn't have much confidence in their hearts. It was fine to take the lead, but to jump out ... They were not that stupid!

After returning to the exit, Saint soyatu said a few words as usual, mostly praising Lin Yi's team. He then waved his hand. "Next up is the seventh floor! I don't know the exact situation, so you can only explore it by yourself. "

"However, after you enter the seventh floor, there should be a notification that you've passed. Here, I wish you all peace and success, and I look forward to our next meeting! Alright, you can all go!"

Lin Yi frowned. Wasn't this the ancient martial world? Why did it become the seventh level?

Could it be that the immemorial small world was the seventh level?

Also, Saint soyatul did not clearly state the situation on the seventh floor, and said that there would be a hint on the seventh floor ... Was this clear or unclear?

Was the center of the seventh floor set up or not?

If he couldn't even control the sixth level, the seventh level shouldn't have succeeded.

However, he really couldn't guess what happened to central!

"Lord Holy envoy, we'll definitely do our best and strive to obtain a good result on the seventh level. Just wait and see! I promise you won't be disappointed!"

Talu quickly expressed his loyalty.

Before he found a chance to kill Lin Yi, he had to think of a way to gain the favor of Saint soyatu!

"Yes, yes, yes! We won't let Lord Holy envoy down!"

"Let's set off now and strive for a good performance!"

Bobby and Nasby stood on both sides of the tower Road, nodding and bowing with a smile.

Saint soyatu gave a noncommittal hum and waved his hand impatiently to let them enter the pillar of light!

Talu and the others did not dare to delay. They bowed slightly to Saint soyatu again and quickly entered the light pillar.

This was not only an opportunity to show off in front of Saint soyatul, but also a good opportunity to seize the initiative.

As long as they got to the seventh floor before Lin Yi's team, they might be able to get the upper hand and get some benefits. They might even be able to kill Lin Yi's team in one fell swoop.

Lin Yi wasn't in a hurry-he waited for the tallu guys to leave before leading the group to the light pillar."Soyatul, we'll be going over too!"

"Alright! Sheng Xiao, you be careful too. I wish you all the best and will wait for your good news!"

A sincere smile appeared on Saint soyatu's face, but just as he was about to make some small talk, he saw Fernandes, who was like a small mountain on his back.""Are you sure ... You want to bring these things in?"

"Of course!"

Fernandes nodded. ""We can't come back after we go in. If we don't bring it, won't we lose it?"

Lin Yi's mouth twitched as he pulled out a moldy storage bag from the space in the Jade and threw it to Fernandes. "Just put them all in, aren't you tired? I'm such a generous team leader, how can I have such a stingy team member like you?"

"Alright, thank you, Captain!"

Fernandes' eyes brightened as he took the storage bag. Even if it was the worst thing in Lin Yi's eyes, it was still a top-tier item in Fernandes's hands.

At the very least, it was much better than the bag of senior brother Liu from bitter wisdom sect. Just in terms of volume, it was much better than the previous one.

Fernandes packed his things happily and was ready to leave.

Saint soyatu wasn't surprised at all-he thought that Lin Yi had gotten the treasure from the sea serpent King Palace.

There were a lot of things like storage bags in the new sacred zone. After the central and the sky Class Island exchanged goods, these things weren't worth much in the Central's eyes.

After watching Lin Yi's team enter the pillar of light and disappear into the door, Saint soyatuo turned away and went to report to the Saint Emperor.

The familiar feeling of teleportation disappeared, and Lin Yi found himself in an underwater world.

This was somewhat similar to the first and second levels, but there were some differences.

He'd wanted to spend some time looking for his team members, but he'd found out that they were all with him-it saved him a lot of trouble.

"Captain, is that the hint that Saint soyatu was talking about?"

Fernandes looked at the magnificent scene in front of him as soon as he entered the seventh floor. He suddenly had an indescribable feeling.

It was a good thing that he put all the stuff he got into Lin Yi's storage bag, or they'd be scattered all over the floor in shock.

Lin Yi was a little speechless-he didn't think that the saint's hint would be this ... Magnificent!

Tens of thousands of small fish of various colors formed words on the bottom of the sea. They were also emitting a faint light. After forming the words, they looked extremely gorgeous.

Unless one was blind, it would be impossible for one to not notice these hints when they came here!

"Captain eight, what do those words mean?"

Mike moved closer to Lin Yi and scratched the back of his head. "Looks like I'll have to learn Chinese from Captain number eight in the future. Otherwise, it'll be quite awkward if I don't understand the hints when I go out!"

Chapter 7647 Treated As One Of Us

That's right, the words formed by the tens of thousands of small fish were still the standard Chinese language!

It was even in proper regular script, which was quite pleasing to the eye.

"You want to learn Chinese? No problem! As long as you can persevere!"

"I'll just say something," Lin Yi smiled, "it'll be considered a small achievement in Chinese if you can understand it."

"Captain number eight, I'm very interested to hear what you have to say!"

Mike showed a very interested expression, slightly tilted his head, and listened.""Although I don't understand it yet, I can experience it."

As for the content of the hint that he wanted to ask just now, it wasn't important. He just had to wait!

"Alright then. Listen, Yingluo's raincoat got mud on it from the rain today. I almost fell while riding my bicycle, but I managed to stop it in time!"

Lin Yi's casual reply stunned Mike.

What the hell?

It's raining, and you're even holding on to me one by one ... You're not trying to trick me into calling you daddy, right?

Sorry for disturbing you!

Farewell!

Mike gave up on learning Huaxia language and changed the topic back to the previous question."Captain number eight, let's talk about the meaning of the words formed by the small fish first!"

"That's indeed the hint for the seventh level's mission. It's actually very simple!"

Lin Yi didn't continue joking and got to the point, "This is an ancient battlefield of sea beasts. In ancient times, there was a great battle between sea beasts, and many powerful sea beasts died."

"Because of the nourishment from the corpses of these powerful sea beasts, there will be many sea beasts lingering in this area. The mission this time is to hunt sea beasts in this area and obtain their inner cores."

"The rule is that you can compete to kill sea beasts, but you can't take the inner cores of others. Whoever gets the inner cores will have them! In other words, you can compete, but you can't kill each other. "

"Other than that, there are also restrictions on the level of the cores obtained from hunting. Only those of the xuansheng stage and above are qualified. It doesn't matter how many cores of the sea beasts below the xuansheng stage there are."

Lin Yi said everything in one breath, and Fernandes scratched his chin. "These rules are quite annoying! Was it specially set up to protect ta Lu and his group? Otherwise, we can just Rob them after they're done collecting them!"

...Fernandes, tell me honestly, were you a pirate? Or are you the man who aspires to be the Pirate King?

Why did he want to Rob me? At least wait for tallu and the others to gain a huge harvest, and then helplessly fight back and harvest the spoils of war, right?

Michael cursed in his heart as he slapped Fernandes on the shoulder. ""You're absolutely right! It's really convenient for ta Lu's group!"

Lin Yi didn't know what to say-wasn't Mike a hot-blooded young man?

As expected, he who was close to Vermilion was marked by black. After staying with Fernandes for a long time, he would be led astray by him?

"By the way, where did the people from tallu go? Why don't I see him?"

Fernandes looked around as he realized what was going on. He had yet to settle the score with ta Lu and the others for joining bitter wisdom sect. Even if he couldn't kill them, he had to find an opportunity to teach them a lesson.

"Use your divine sense ..."

Lin Yi was helpless-how many times did he have to repeat this?

Lin Yi's spirit sense had already detected that tallu was far away when he teleported out. If fernÃndez and the others released their spirit sense, they might be able to find tallu's traces.

As for now ... The other party was still within Lin Yi's range, but Fernandes and the others were probably in trouble.

But it wasn't their fault-from a normal practitioner who wasn't even a Sky Class, to a Sky Class Island boss, it was only natural that they weren't used to using their spirit sense.

Sure enough, Fernandes obediently released his divine sense and scanned around, but he did not find the group of people from tallroad. He shrugged and said, ""Captain, I didn't find them with my divine sense! Did they get teleported to another area?"

"If you say so, then so be it!"

Lin Yi didn't want to waste any more time with Fernandes.

"Captain number eight, can those people from tallu understand these words?"

Mike suddenly thought of this question. ""If they can't understand it, will it be against the rules?"

"I should be able to understand!"

"There are a few Asians in ta Lu's group, and I think there's someone who can read Chinese," Lin Yi said after scanning the area with his spirit.

He might not be Chinese, he might be an Asian from another country, but there was a high chance that he could understand Chinese. After all, countries like Wei nation and Korea were all deeply influenced by Chinese culture, so there were more people who could understand Chinese.

Lin Yi guessed that the people from talu's group had already received the notification, judging from how anxious they were. They were probably trying to race against time to hunt sea beasts.

"Who cares if they understand or not? do you think we'll lose to that group of good-for-nothing people?"

Fernandes didn't give a damn about the tallu gang and turned to Lin Yi. "Captain, let's go hunting now! I don't know where there are many sea beasts. If we bring out more sea beast inner cores, can we make a lot of money?"

Mike rolled his eyes and said, "Fernandes, why are you only thinking about money?" Was he lacking in money? If you're short on money, just say the word, I have some here!"

I, Mike stefford, N-generation rich, rich!

"Oh right, you're a nouveau riche!"

Fernandes's eyes lit up, and he began to seriously consider how much pocket money was appropriate for Mike?

Lin Yi coughed dryly and got the topic back on track. "I don't intend to bring you to hunt for sea beasts now. You should know the contents of the notification. This is an ancient battlefield for sea beasts!"

"Although many of the sea beasts swimming around here are at or below the nascent Soul Stage, a large portion of them are at the mysterious Ascension stage or above! With your current strength, it's not a big problem to encounter one or two, but it'll be dangerous if there are many!"

Lin Yi was telling the truth. Fernandes and the other three had received part of the sea serpent King's inheritance and reached the mid-stage of the mystic Ascension realm. The others were only at the early stage.

With his current strength, if he were to encounter a sea beast at the great circle of black Ascension, it would be very difficult to fight!

If they formed a group and borrowed the battle formation, they could still manage to deal with it. However, if the opponent exceeded the xuansheng stage and reached the mountain opening stage, then they would not be able to deal with it.

Lin Yi had made up his mind to train his team, and so he didn't want to interfere too much. As long as it wasn't a life or death situation, he wouldn't interfere, leaving everything to them.

At the start, Lin Yi only followed them with the thought of protecting Mike, but after interacting with them and fighting with them, he'd already started treating them as his own people.

Chapter 7648 Guidance And Teaching

Since they were on his side, he would do his best to help them improve their strength so that one day when he left the secular world, they would be able to take charge.

However, their current strength was really a little lacking, and they had to strengthen themselves!

"Captain number eight, do you mean that you want to give us some pointers and help us improve our strength?"

Mike's face lit up, and his eyes sparkled. "Although I think we're already very strong now, I'll definitely agree with Captain eighth brother's personal guidance!"

"Then I'll raise both hands and feet in agreement!"

Fernandes sat on the ground and really raised his hands and feet.

Mike glanced at fernández in disdain. ""Are you learning from a turtle? Can you turn things around? Do you need me to help you turn over?"

Lin Yi put a hand to his forehead helplessly-couldn't they just have a proper conversation?

"Alright, stop talking nonsense! Make the best use of your time!"

Lin Yi put on his captain's dignity with a serious face. "Your levels are already rising very quickly, so I'm not going to continue helping you level up. Instead, I'll start with combat power."

Going from Earth Class and Sky Class to xuansheng in such a short time wasn't something that could be done even if one sat on a rocket. Who knew what would happen if Lin Yi continued to level them up?

In any case, it was certain that his Foundation was unstable!

Combat power had never been something that could be represented by levels.

For example, talu's group's actual combat power was far from what they were supposed to be. People of lower levels could defeat them.

It was a complete counterfeit!

After the combat power of Fernandes and the others was improved, they could better match their current level and better display their current strength!

"Fernandes, you go first. Show me the martial art you're most proud of!"

Lin Yi called out Fernandes "name first before signaling for the others to move aside."Be serious, don't be perfunctory!"

"That's for sure! Captain, how can I be perfunctory with your advice? I'll definitely use all my strength!"

Fernandes laughed and picked up the big podao with a gem-embedded handle.""Captain, just wait and see!"

The big podao in Fernandez's hand moved as if it was as light as a feather. The blade light flashed, and the momentum was extraordinary.

In fact, what martial arts did Fernandes have that he was proud of?

Before entering the nine-story glazed Pagoda, he was only slightly stronger than an ordinary person. This saber technique was something he had just learned after receiving the sea serpent King's inheritance.

This was the simplified martial technique given to him by the sea serpent King. Otherwise, Fernandes would not have been able to learn it at all.

So, when fernández first chose this big podao, it was not only because of the gem on the hilt ... Well, actually, it was because of the gem on the hilt.

There were a few knives without gems, and they were more suitable for this martial art technique. This guy was only interested in those gems ...

Lin Yi watched as Fernandes finished his show before speaking up, "You haven't fully mastered this saber technique yet, so you can't fully display its power. That's the first reason. As for the second reason ... You've made some mistakes in your cultivation!"

"Please ... Captain, give me some pointers!"

Fernandes put away his big podao and respectfully asked, "I do feel that something is wrong, but I don't know what it is!"

As Lin Yi spoke, he had already found the blade technique in his sea of consciousness and was modifying it.

This technique was also in The Kraken King's heritage, but Lin Yi only got the complete version. The simplified version was like child's play to him.

When the sea serpent King simplified it, he didn't think too much about it. It was simplified, but there were many problems after the simplification.

"I've briefly summarized that there are a total of 17 mistakes in this saber martial skill that can be improved! The first mistake was when you first brandished your saber with all your strength! Although the saber momentum is strong and fierce, it lacks room for change. Try to use 70% of your strength to urge it and save 30% of your strength to withdraw the momentum before striking!"

Lin Yi said as he demonstrated.

Although he didn't have a saber in his hand, he naturally formed a majestic saber aura. "Did you see that? this might seem like you're using less force, but it actually forms two levels of force exertion, making the saber Force even more firm and fierce. Its power is at least 50% higher than before!"

Fernandes was dumbfounded.

The martial skill he had learned required him to go all out in order to exert force. Then, he would drive the knife force to roll out and form an extremely fierce martial skill attack.

He had never thought that using 70% of his strength would actually be more powerful than going all out.

Subconsciously, he tried to follow Lin Yi's instructions ... And it was the correct answer!

Not only that, but Fernandes felt that using Lin Yi's method of exerting force was a lot smoother!

Why was it like this?

Could it be that the martial technique passed down by the sea serpent King was actually fake?

The powerful Captain was the real sea serpent King?

"Very good, your comprehension ability is not bad!"

Lin Yi nodded in satisfaction. He only needed to give him a little advice, and fernández was able to do this. "The second point, there's a problem with your steps! When you swing the knife, your left foot should advance three steps instead of two. The tip of your right foot should be the axis, and you should turn halfway to use your waist strength to drive your arm strength!"

As usual, he demonstrated in slow motion as he spoke. This time, the blade Qi was sharper and fiercer, which stunned Fernandes again.

If he had cultivated according to the previous method, he would have only been able to move his left foot two steps forward if he had swung his saber with all his might at the beginning. He would have injured himself on the third step!

But following Lin Yi's instructions to use 70% of his strength, three steps was easy!

Not only that, but the later movements could also be displayed smoothly. As the saying goes, pulling one hair will affect the whole body. The small changes in the front would naturally drive the saber technique in the back.

The power of his martial technique had increased once again, and it was twice as powerful as his previous saber technique!

"So powerful! Captain, you're really awesome!"

Fernandes was so excited that he couldn't even think of the words to flatter!

There were only two changes. If there were really seventeen changes as the captain said, how powerful would the saber technique be?

It was simply unimaginable!

"Focus! Don't waste time!"

"There's still someone else waiting for you, listen up!" Lin Yi frowned.

"Yes, Captain!"

Fernandes quickly bowed and pretended to be all ears.

"The third thing that needs to be changed is ..."

Fernandes nodded as he explained in slow motion, like a primary school student trying to show off in front of his teacher.

Other than Fernandes, the others were also listening with great interest.

They hadn't practiced this technique before, but Lin Yi's explanation and demonstration were quite comprehensive, so they could learn something from it.

Chapter 7649 Miserable Tower Road

After a while, he finished teaching the seventeen improvements and waved his hand. "All right, Fernandes, go to the side and practice. I won't teach you anything else now, in case you're too greedy!"

"Right, besides saber martial arts, you should also practice the sea Dragon golden body technique. It'll be good for you!"

Fernandes nodded and started practicing happily.

Next up was Mike. He had wanted to use the swordsmanship he was good at, but after seeing the benefits fern ndez had gained, he immediately changed his mind.

Those low-level goods in the past, how could they be of any use now?

Since Captain eighth's guidance was so exquisite, it was only natural that he would use the martial technique passed down by the sea serpent King!

Lin Yi seemed to only be giving one set of martial arts to each of them, and Mike didn't want to waste this opportunity!

If you want to use it, you should use it on the blade!

The sea serpent King had passed down a set of sword techniques to Mike, which was almost as powerful as Fernandes 'sword technique.

Lin Yi, of course, had this sword skill as well, so once Mike started practicing, Lin Yi determined which skill it was and began to modify it in his sea of consciousness!

"Captain number eight, how's my sword technique?"

Mike finished his practice and looked at Lin Yi, worried.

Due to his limited abilities, his swordsmanship wasn't very good, and he was afraid that Lin Yi wouldn't like it.

"It's not bad, but there are a lot of flaws in it. I've looked through it and concluded that there are about 17 or 18 problems!"

Lin Yi organized his thoughts and started explaining without wasting time, "The first one is here ..."

He explained and practiced at the same time, and in an instant, sword Qi swept across the area, cold light shining in all directions!

Everyone was dumbfounded. Wasn't the captain too awesome?

When he was playing with the saber earlier, he felt like a saber technique Grandmaster. Now, when he was playing with the sword, he felt like a sword technique Grandmaster ...

When you're playing with guns, did you become a Grandmaster again?

"Oh right, Morris, you guys should come over and listen and learn."

Lin Yi suddenly stopped and turned to call the other members of the ruling Sword Knight Association over. "All of you are experts who are used to using the sword. Mike's sword technique is also suitable for you."

"Can we also learn? Thank you, Captain number eight!"

Morris was pleasantly surprised.

They were not the sea serpent King's favored, so they did not receive any inheritance. They were only raised to the xuansheng stage by the sea serpent King, but that was already a great benefit!

The others, like talu and the others, would not have been able to reach the xuansheng stage if not for the favor of Holy envoy soyatu.

Mike's swordsmanship was so exquisite that Morris and the others thought that they would be lucky if they could learn a little from him, but they didn't expect Lin Yi to ask them to learn with him.

"What's there to learn? We're all in the same team, and I was planning to teach you this set of the sea serpent king's sword technique after I return. "

Mike was rather generous. They were all comrades of the sword of sanctions Knight Association, and it was good for everyone to be strong.

"Mike, you can pretend to be generous later. Listen to me, and you should also listen carefully!"

Lin Yi waved his hand, cutting them off, "That was the first change. Now, the second ..."

Morris and the others immediately listened carefully, not daring to miss a word!

While Lin Yi was teaching his team members, ta Lu's group had already walked quite a distance and ran into the three dolphins!

"Boss talu, look at those three dolphins. They are all at the xuansheng stage! He's very suitable to be our prey!"

Nasby's eyes brightened, and he said with a smile, ""Dolphins aren't sharks, they don't have much attack power. Even if they are stronger, they won't be our opponents. Let the brothers surround them first?"

"Then what are you waiting for? Hurry up and go!"

Talu's eyes widened and he rebuked loudly without mercy, ""Do you want me to personally arrange such a small matter?"

"Yes, yes, yes, I'll go immediately!"

Nasby didn't dare to delay. He quickly turned around and made arrangements, but he was a little unhappy in his heart!

You've been beaten up like a dog by those guys, and now you're trying to show off in front of me? Speaking of which, everyone's strength is about the same, so why should I be suppressed by you?

Nasby, who had his back to the tower, had a gloomy expression on his face. Some other thoughts rose in his mind.

However, with the threat of Lin Yi's team, he felt that it wasn't time to fall out with ta Lu yet.

For the time being ... He'd let this talu boss continue his show-he'd use him as a weapon against Lin Yi's team, and then he'd talk!

Nasby's mind turned, and he quickly pretended as if nothing had happened and arranged the manpower with Bobby.

Dozens of xuansheng stage powerhouses spread out and formed a net that was not too dense. They quickly enveloped the three big dolphins.

The three big dolphins seemed to have noticed the malicious intent of talu and the others, and they directly accelerated and rushed over!

Talu was stunned. What happened to the non-offensive nature? Why did he take the initiative to rush over?

"Battle! Attack!"

Nasby and Bobby did not wait for tallu to speak and had already shouted for their underlings to take action.

Although the underlings 'encirclement wasn't complete, they were almost there. In an instant, attacks were aimed at the three big dolphins from all directions.

The three dolphins were all in the late stage of the mysterious Ascension realm. They were much stronger than ta Lu and his men, so they took the initiative to attack fearlessly.

In the face of the concentrated attacks, they relied on their tyrannical bodies to forcibly resist and charge forward.

Tallu's face turned pale.

Although they had more people on their side, they did not seem to have the advantage ... The attacks that landed on the Dolphins were not completely useless, but they did not cause much damage to them!

"Shrink the formation! Focus your attacks! Don't let them come over!"

At the critical moment, Dale's mind was still clear. He commanded his scattered minions to retreat and focus 80% of their attacks on a Dolphin.

The remaining 20% was used to obstruct and pin down the other two dolphins.

Quantity led to a qualitative change. After focusing, the power of the attack was greatly increased. It was difficult to break the defense before, but now it had instantly injured a big dolphin!

"Well done ... F * ck! Stop them!"

Before talu could finish his excited words, he couldn't help but curse.

After the pressure on the other two dolphins was reduced, their speed soared. They instantly broke away from the blocking attacks and rushed into the formation of tallu's group.

As such, it was naturally impossible to focus their attacks on the big dolphin. If they could not hit it, they might even kill a group of their own people, which would be fun!

Nasby was secretly angry. He felt that talu was a piece of trash who had led to the current dangerous situation because of his reckless command!

Chapter 7650 More Tragic

However, Nasby couldn't say anything now. Everyone was in the same boat, and if they were to capsize, they would all be finished!

"Spread out! Spread out! Attack!"

Nasby shouted loudly, scattering his subordinates that had just gathered.

Otherwise, the two big dolphins would be able to easily flip around in the dense formation, and with a flick of their heads and tails, they would be able to send a group of them flying!

Talu's men were all confused. They scattered and then gathered, and then said they were going to disperse. What did this mean? Are you playing?

Who was he listening to?

At the moment of life and death, escaping was more important. What was there to listen to!

Thus, talu and Nasby both realized that their subordinates had exploded. They were like a group of headless flies, running around in a frenzy, trying to avoid the two crazy dolphins.

Of course, there were also people who insisted on attacking, but most of them were out of fear. They acted out of self-defense instinct, which was basically useless!

"Everyone, calm down! You'll only die faster if you do this!"

Nasby shouted in anger, but unfortunately, it was to little effect. Who would listen to him when he was only concerned with running for his life?

Death wasn't scary. What was scary was running slower than your companions and dying for them!

Therefore, these people were all trying their best to run faster than their companions! So that others could die first!

"Go back! Go back! All of you, get back!"

Talu also wanted to escape, but in the end, he waved the machete in his hand and kicked the few people who escaped the fastest toward the two dolphins.

As the leader of this motley crew, the quality of the knives that talu picked out from the treasure chest was not bad. At least, they were better than the others on this side.

Coupled with the fact that he still had his reputation, he managed to stop the tide of people running away.

Of the few people who were kicked back, two were directly killed by the Dolphins, and the rest fought back with all their might. At least they managed to save their lives, but they were also injured quite badly.

Talu was also a little nervous. He didn't know if the two people who died were considered to have been killed by him. If that was the case, wouldn't that be a violation of the rules?

"Why are you guys running? No matter how fast they ran, could they be faster than dolphins? Do you want to die Here one by one? Hurry up and attack!"

Nasby took the opportunity to roar, brandishing his weapon as he led the charge!

With a leader and the threat of tallu, the remaining motley crew shouted and rushed forward, surrounding the two dolphins.

With the speed of the Dolphins, if tallu's team collapsed, they would bite their tails and chase after them. It would not take long for them to completely annihilate tallu's team.

But now that the situation had reversed, it was sometimes very scary when people who were scared out of their wits fought with their lives!

As the saying goes, many ants can kill an elephant. When a dog is anxious, it will jump over the wall. When a rabbit is anxious, it will bite. If they use the human wave tactic, it is only natural that the dolphin will be killed. It is just a matter of time!

After killing the three big dolphins with great difficulty, talu and the others sat on the ground, their faces pale and panting.

Originally, the team of 180 people did not suffer many losses in the first six floors, but when they reached the seventh floor, more than ten people died in one encounter, and the rest were all injured.

"Boss talu, we can't do this ... If we encounter such a sea beast again, we'll probably be wiped out!"

Bobby caught his breath and said with a bitter smile,""And that's only because dolphins don't have strong attack power. If it were three big sharks of this strength, at least half of us would have died!"

"Then what do you think we should do? You're going to take a detour when you see a sea beast of this strength?"

Talu rolled his eyes and didn't even have the strength to be angry."Nasby, go and collect the inner core first! After spending so much effort, we finally got some gains. "

Nasby's eyes darkened for a moment before returning to normal. He agreed with a smile and ordered his men to dissect the dolphin in search of the so-called inner core of the sea beast.

None of these people had done this before, so many of them worked together and almost dismembered a Dolphin before they found the location of the inner core.

"Boss talu, what I mean is that next time, don't find sea beasts that are more powerful than us. Just find ones with similar strength!"

Bobby said, "we have so many people. If we encounter one or two sea beasts with similar strength, won't we easily and happily take them down?" In any case, the requirement is that it must be the inner core of a sea beast at the Xuan Sheng stage. There are no specific rules on how strong it is. "

Talu thought about it and agreed. If he specifically targeted the sea beasts at the early stage of the mysterious Ascension realm, especially those that were alone, the risk factor would be infinitely close to zero!

However, he had never thought that their mentality of picking on the weak would always mean that they were destined to be weak!

This battle seemed to be brutal, and they had suffered the greatest casualties so far. However, the people who were still alive had imperceptibly raised their morale and combat power by a lot!

Once they returned to the mentality of a weakling, the little bit of confidence and courage they had built up with great difficulty would disappear. People who only knew how to fight when the wind was blowing would immediately collapse when the wind was blowing against them.

"What you said makes sense, so let's do it!"

"Of course!" Dalu grabbed his chin and nodded. "In the future, if you see a sea monster that is more powerful than us, you should take a detour. If you see one that is of a similar level, you should swarm it. Of course, this is only when there are fewer sea monsters!"

Just as he said that, a huge black shadow suddenly appeared in the distance. Before ta Lu and the others could react, it had already arrived above them like a dark cloud.

"What a big cuttlefish ..."

Bobby swallowed his saliva, raised his head, and trembled all over.

The huge squid above had a torso that was more than 20 meters long. This was not the main thing. The most important thing was that the aura it emitted easily suppressed Bobby, making him unable to move.

Talu wanted to cry. Why was he so unlucky? He had just finished hunting three big dolphins, and now a Big Squid had come!

If you said it was another big dolphin, it could still be explained as the old one coming, but you're just a cuttlefish!

Could it be that he was born with bad luck? I didn't realize it before!

And that idiot Bobby, still sighing about how big the squid was at this time ... Who the hell was blind? Can't you see how big it is?

Now was not the time to be emotional, but to quickly think of how to escape!

He had just said that he would take a detour if he encountered a powerful sea beast, but now he knew that when he encountered a powerful sea beast, he had no chance to take a detour at all!

"Brothers, don't be afraid. Let's go and kill it!"

Nasby shouted and led his men to charge at the big cuttlefish.

They had just dismembered three big dolphins and their bodies were full of blood. Although the big Squid's aura was awesome, it was not enough to make them not have any thoughts of resisting.

Unfortunately, it was useless to just resist!

A group of people rushed forward, but the big cuttlefish was not moved at all. With a simple wave of one tentacle, all of them were sent flying.
