

Bodyguard 7651

Chapter 7651 Squid Mountain

Mountain opening stage!

Talu and the others were completely disheartened. They were not completely sure earlier, but now they were certain that they had provoked an existence that they could not afford to provoke!

"I surrender! Uncle squid! Don't kill me!"

Talu knelt down without saying anything and said, ""From now on, I'm willing to do anything for you. No matter what orders you have, I'll definitely follow them!"

Bobby and Nasby were dumbfounded. They squinted at tallu Qianqian and thought, "can he be the boss?" He knelt down faster than anyone else!

Most importantly, you can kneel down, but why don't you ask your brothers to kneel down together?

This was simply unforgivable!

Nasby was indignant. After he fell, he quickly knelt down and called out to the others. "All of you, kneel down! Uncle cuttlefish, we all surrender and are willing to serve you in the future!"

Sea beasts had intelligence, and they all knew that the higher the level of the sea beast, the higher the intelligence.

This cuttlefish sea beast might have a higher IQ than them. Therefore, they weren't worried that it wouldn't understand.

Sure enough, after the big cuttlefish slapped away those who wanted to attack it, it didn't do anything else.

"Boss talu, there seems to be a door ... Should we go and negotiate with it?"

Bobby meant to let the boss, talu, come forward to negotiate. The problem was, how could talu have the courage?

Therefore, Dale turned around and threw the matter back to him. He nodded in agreement and said, ""Bobby, what you said makes a lot of sense. I can only be at ease if such an important task is given to you and Nasby! Hurry up and go!"

Bobby was speechless.

No, boss talu, are you mistaken? Actually, I didn't mean it that way! Can you listen to my explanation?

Hurry up? Go to hell! Are you afraid that I won't die fast enough?

Nasby was the same. He wanted to kill Talon and give him to the big squid as food. He wondered if the big Squid liked to eat people with this kind of taste.

"Hurry up and go! What are you doing? Our brothers' lives are in your hands! Don't drop the ball!"

Dale did not care about the twos' feelings at all and directly urged them to die!

This was not the time for internal strife. Bobby wanted to live, so he could only appease the big Squid first, so he braced himself and went forward.

"Lord cuttlefish! We've chosen to submit to you. The three inner cores we've obtained from the hunt just now are our sincerity in submitting to you!"

Bobby smiled, nodded, and said, "It's not anything good. Lord cuttlefish, please be magnanimous and accept it!"

At the same time, Bobby kept waving his palm to Nasby, indicating that he should hurry over to offer his sincerity.

The three Dolphin's inner cores were in Nasby's hands. If Nasby was not willing to hand them over, everyone present would probably become snacks for the big cuttlefish.

Nasby was depressed, but he did not dare to resist the big cuttlefish. He could only obediently hand over the three Dolphin's inner cores."Lord cuttlefish, this is the inner core we obtained just now. Please accept it!"

The big cuttlefish waved one of its tentacles gently and swept the three inner cores into its mouth.

In an instant, it was completely digested without even a splash.

"Very good, you guys have good eyes. You knew you were no match for him, so you surrendered in advance!"

The big cuttlefish let out a deep voice. It was normal for sea beasts in the mountain opening stage to speak. However, talu and the others were startled by the loud voice. They quickly lowered their heads and listened to the instructions.

"Since you want to submit to me, then obediently be my subordinates. I won't mistreat you! However, if you want to betray me, you won't have a good ending!"

The big cuttlefish laughed gloomily. That voice ... It was really not worth mentioning!

"I don't dare! How could we possibly betray Daren? With a backer like Daren, we can't be happier. Only a fool would want to betray!"

"Yes, sir!" Talu quickly smiled and expressed his loyalty. "If you have any instructions in the future, we will definitely go through fire and water without hesitation!"

"Humans are too cunning. Words have no proof. I'm not that stupid. I'll believe whatever you say!"

As the cuttlefish spoke, it waved its tentacles and dozens of black dots flew toward talu and his men.

Talu and the others didn't even have time to react. They felt a chill on their foreheads and then their minds went into a daze.

"This is my gift to you. As long as you obey my orders, I can help you increase the strength of your primordial spirit!"

The big cuttlefish laughed sinisterly and said, "but if you want to betray me, you will become a poison that will corrode your primordial spirit!" If you don't believe me, you can try!"

Talu and the others wanted to cry but had no tears. What the hell was this?

His words came true. Did water really enter his brain? and it was black poisonous water!

"Thank you for your reward, my Lord! We will definitely do our best to serve Daren!"

Bobby reacted faster and knew that things were irreversible. He could only continue to show loyalty. ""We'll go hunt for you right now and collect more sea beast cores for you, Sir!"

"Alright, you guys can go! I'll be active in this Sea region. If you find anything, come back and offer it to me at the first moment!"

The big cuttlefish was very satisfied with the attitude of talu and the others. It waved its tentacles and sent them away.

In fact, low-level sea beasts' inner cores were no longer of much use to the big cuttlefish. If he wanted to improve his strength, the body and inner cores of sea beasts of the same level or even higher level were the best tonics.

The inner core of a sea beast that was weaker than the big cuttlefish's own strength was just a snack at most. It could be eaten for fun, and it would be fine even if it ate it!

The big cuttlefish had its own considerations in taking in talu and his group as its underlings. After verifying their loyalty, it did not mind training talu and the others a little.

At that time, whether he was a helper or cannon fodder, he would be useful when he went to find an opponent of the same level to cause trouble.

Lin Yi's basic training was almost done as the group of people left the squid and went to find the weaker sea beasts.

Fernandes and the others, on the other hand, were full of admiration for Lin Yi.

Johnson and the others, on the other hand, were full of respect for Lin Yi now-they didn't dare question or disrespect him anymore.

"Very good, everyone's comprehension is not bad, and your cultivation is also very good. Although it hasn't been too long, you've indeed made great progress!"

Lin Yi smiled in satisfaction after giving them pointers. "There's an old Chinese saying that sharpening a knife will not delay the work of cutting wood! Everyone did spend some time, but they've improved their combat strength. When hunting sea beasts, they'll definitely have an outstanding performance!"

"Captain, with you here to lead us, we don't need any outstanding performance. We just need to help you collect the inner cores!"

Fernández laughed and played with his big podao. "Look at this knife. It's so easy to dismember sea beasts. It's not much different from killing fish!"

Lin Yi's mouth twitched. Did The Kraken King give you this knife to kill fish? Can't you be a little more promising?

Besides, if I let you guys dissect the bodies behind me, why would I go through this special training?

Chapter 7652 I Won't Make A Move

"Fernandes!" He said.

"I'm here! Captain, tell me!"

"Shut up ..."

"Alright!"

Fernandes obediently covered his mouth and stepped aside.

He had to listen to the words of his thigh, whether it was pleasant or not!

"Where were we just now?"

Lin Yi's thoughts were a little messed up after Fernandes' interruption, but he took a while to sort it out before continuing, ""That's right. What I meant was that I won't be participating in the sea beast hunt this time!" Zhang xuan said.

Everyone paused, but Lin Yi didn't give them much time to think. "There are strong and weak sea beasts in this Sea area, and they'll be perfect for you to use as whetstones! Everyone's strength has increased too quickly, so it's inevitable that their foundations are unstable. Only through constant battles can we avoid this hidden danger!"

"Old eighth's Captain is right! We can't keep hiding under the wings of Captain eighth brother. That will only be a useless burden!"

Mike punched his fist and said seriously, "Captain number eight mentioned this problem before. We really have to take it seriously!" After all, our strength has indeed increased too quickly! It's hard to control your own power without going through countless battles!"

"Then it's settled! Captain, just wait and see! No matter what kind of sea beast it is, I, Fernandes, will teach them a lesson!"

Fernandes opened his mouth again and waved his big podao. He said in high spirits, "There's no time to lose, let's go now!"

Since the 'big thigh' wanted them to deal with the sea beasts by themselves, as experienced leg hair, of course they had to support it!

Fernandes could not wait for one or two sea beasts to appear right now, and it would be best if they were more powerful, so that he could test his knife!

In any case, if there was really danger, he didn't believe that his thigh wouldn't make a move!

The others had similar thoughts. Lin Yi said he wasn't going to help, and he wouldn't just stand by and do nothing at a critical moment like this.

Thus, the group set off in a happy mood. Hunting for the inner cores of sea beasts was as easy as going on a spring trip.

Lin Yi could only shake his head and smile bitterly, not knowing what to say to make them more serious and nervous. Maybe ... Make them suffer a little?

The ancient sea beast battlefield indeed lived up to its name. After walking out of the teleportation point, one could see the remains of countless sea beasts.

The sea was filled with the chaotic aura of the sea beasts. Although there was sufficient spiritual energy, it was not a particularly good cultivation environment for humans.

However, it was different for sea beasts. This place was simply heaven for them. As long as they were within this range, their strength would slowly increase even if they didn't seriously cultivate.

It was no wonder that it attracted countless sea beasts to gather here.

"Captain, I've found a sea beast!"

Fernandes "eyes brightened as he moved closer to Lin Yi,"I found it with my spiritual sense this time! As expected, this thing was very useful! I really need to use it more in the future!"

Lin Yi wanted to slap him when he saw the look on the guy's face.

After teaching him so many times, he only learned to use his divine sense for the first time. Was he very shameless?

Besides, Lin Yi had already found a bunch of golden core stage fish when the Fernandes found the sea beasts.

You can't bully a child like this!

Most importantly, there was no benefit in bullying these little kids. What use was the inner core of a golden core stage sea beast!

Fernandes was still a little confused at Lin Yi's disdainful expression. He scratched his head and offered,"Captain, I, Fernandes, request to fight and kill all the sea beasts!"

"Fernandes, I think Captain number eight wants to kill you!"

Mike pinched his chin and looked at Fernandes as if he was looking at an idiot. ""I'll chop you up and feed you to those trash fish. Maybe they'll level up, and their inner cores will have some value then!"

"Mike, you're wrong. Fernandes only has a few pieces of meat. It's not even enough to fill the gaps between the teeth of those small fish. How can he be promoted?"

Serena joined in the fun as well. She curled her lips and wagged her index finger. "And Fernandes 'meat ... It doesn't taste good. I don't think they like it!"

"Bah! Your skin is soft and tender, and the fishes like to eat you. Then I'll chop you up and feed you to the fishes!"

Fernandes snapped back at Serena before sneaking a glance at Lin Yi, afraid that their Captain was really going to kill him.

However ... There was no special expression on the thigh's face. What was going on? Was she happy or unhappy?

"Alright, stop joking around!"

Lin Yi said with a wave of his hand. This was the battlefield of the ancient sea beasts, and there were several mountain opening stage sea beasts in the distance. There were even Earth splitting stage sea beasts in the distance!

He was all smiles. Did he really want to feed the fish?

When the captain spoke, the few people who were joking and joking winked at each other, then lowered their heads and didn't say anything.

He looked as childish as a primary school student who was caught daydreaming in class!

He couldn't be serious!

Lin Yi scratched his head. He decided to let them have a tough battle first.

Within the detection range of his divine sense, there were more than 20 light blue giant sea mothers. Their strength was between the middle stage and the peak of the late stage of mysterious Ascension.

In the secular world, this thing was not a dangerous species. However, in the ancient battlefield of sea beasts, it would become a powerful sea beast.

Whether it was quantity or quality, they were above Lin Yi's team. They were the perfect Whetstone!

"Let's go this way!"

Lin Yi changed direction and led the team straight towards the sea mother nest.

After seven or eight minutes, the sea mother, which was emitting a faint blue light, could be seen with the naked eye.

"Wow, so beautiful!"

Serena exclaimed as she grabbed Lin Yi's arm and started jumping around!

Fernández squinted. Beautiful my ass, you're just trying to take the opportunity to get closer to the captain, right?

To put it bluntly, he just wanted to butter up the captain!

'Hmph, I, Holmes, have seen through everything!'

But I just won't say it! I'll leave you some face, little girl!

"The sea mothers in front are all sea beasts of the xuansheng stage. There are quite a number of them. You guys form a formation and surround the sea mother horde!"

Lin Yi pulled his arm back without making a sound, his face serious, "Be careful, I said I won't do anything, so I definitely won't. If anyone is in danger, remember to send help to your companions! Go!"

Fernandes and the others were startled. Was their Captain really not going to make a move?

Is this fake? But it didn't seem like he was joking!

Everyone was a little nervous, and only came back to their senses after Lin Yi's urging. They quickly formed a battle formation and charged at the sea mothers.

The sea mothers were just floating around in the water when they felt the hostility from Lin Yi's team, and their speed exploded.

In an instant, it completely lost that leisurely feeling and turned into a light blue light that shot everywhere in the water.

Interesting!

Lin Yi crossed his arms and watched the battle calmly.

Chapter 7653 Like Yingluo

These sea mothers were strong, but not enough to kill Lin Yi's team in an instant. Lin Yi didn't have to worry about their safety.

Fernandes's big podao collided with a sea mother first. The sharp blade wrapped in powerful true energy slashed at the sea mother.

As a result, the surface of the sea mother was slippery and elastic. Not only did it shift the blade's edge a little, but it also wrapped around the blade and quickly sank.

The force on the blade was deflected, and the big podao was pulled and rebounded by the sea mother's skin. Fernandes almost lost his grip on the big podao.

As he shouted, he used all his strength to hold the handle of the big podao, which was inlaid with gems.

Mike and the others also fought against mother sea.

Although everyone's weapons came from the sea serpent King, none of them could hurt the sea mother. They were all easily defended against.

In fact, because the rebound force was too great, it caused their weapons to fly out of their hands!

"Pay attention to the position of the formation! Don't panic!"

Lin Yi said he wasn't going to help, but he didn't say he wasn't going to open his mouth. After the first wave of attacks, his team members almost lost their line. He could only give them some advice. "Take two steps back at the same time. The left wing takes one step forward diagonally, and the right wing takes three steps forward to attack!"

Everyone instinctively followed Lin Yi's instructions without even using their brains. They didn't even consider the fact that they would be dismembered immediately if they made a mistake!

As it turned out, Lin Yi's advice was not only timely but effective.

The battle formation that was on the verge of collapse was instantly stabilized. The sea mother's attacks were temporarily unable to break through the defense of the battle formation, and the members responsible for attacking also began to have the opportunity to counterattack.

Lin Yi nodded to himself and didn't continue to give pointers. Since they had a firm foothold, they should rely on their own strength to fight!

The entire battle lasted for about 20 minutes. In the end, 15 of the sea mothers were killed. The remaining few saw that things were not going well and turned to flee in panic.

Lin Yi's team wanted to give chase, but they couldn't.

After the intense battle, their limbs were all weak, and most of them were injured. If those sea mothers didn't escape, they probably wouldn't be able to hold on!

"Very good! Everyone did a good job!"

Lin Yi smiled as he walked over to his team members, passing them some recovery pills. "Have a good rest. The following battles will only get more and more difficult!"

"Thank you, Captain!"

"The captain is really something!"

.....

Fernandes and the others took the pills one by one, and after thanking him, they put them into their mouths.

They trusted Lin Yi, and even if he gave them poison, they would swallow it without hesitation.

Soon, the medicine took effect, and the team members felt that their physical conditions were gradually getting better!

It wasn't surprising-these were all healing medicines from the Sky Class Island, and the team members weren't particularly injured, so the effects were obvious.

It didn't take long for everyone to recover. Each and every one of them was full of energy, and they couldn't wait to catch up with the sea mother who had escaped earlier!

"Captain, you're a drug God! That's amazing, do you have any more for us?"

Fernandes felt that having such a pill was equivalent to having an extra life, and he would not be afraid of going anywhere in the future!

"There's still some here, you guys can split it!"

Lin Yi took out a few Jade bottles and distributed the pills to everyone. "However, you have to remember that you have to be careful. Don't be stubborn just because you have healing medicine. You can't be saved if you court death!"

Fernandes laughed out loud, thinking that his Captain was really good at joking.

It was good to be tough for a while, and it would only be good if he kept being tough!

With the medicine, it would be a great loss if he didn't go!

If it were not for the rules, Fernandes would have gone to play with them!

"Captain, I've taken out the inner core. You can keep it!"

Johnson was completely convinced by Lin Yi now. When Lin Yi was distributing the pills, he took the time to cut open mother sea's body and found all the inner cores!

Johnson then handed the cores to Lin Yi. "If it wasn't for the captain's command, we would have been killed by the sea beasts, let alone getting a big harvest! So, all of these inner cores belong to the captain. You guys don't have any objections, right?"

"Of course I have no objections!"

"It should be given to Captain eighth brother!"

Everyone agreed that Lin Yi should have the core.

"Alright! You guys can split it!"

"I'll have it when I need it!" Lin Yi waved his hand.

Fernandes immediately laughed and said, ""That's right, that's right. If the captain wants the inner core of the sea beast, do we need to do it? The captain doesn't even need to make a move. With a casual glance, those sea beasts will fight to commit suicide and offer their inner cores!"

Lin Yi's mouth twitched. Suicide and the core? Come, come, come, let me see you perform!

However, although Fernandes's words were exaggerated, the others took it for granted. They all nodded and said, ""Fernandes, you've finally said something! If the captain wanted the inner cores of the sea beasts, he wouldn't even need to lift a finger. He could kill those sea beasts with a single look!"

Fernandes, however, was very angry. What did he mean? What do you mean by finally speaking the human language? you've said that I spoke the human language a few times before, so what you said before doesn't count, right?

Did he have to be so casual?

"If Captain number eight doesn't need it, then let's split it. Let's split it evenly and each of us will take our own share. If there's any excess, we'll keep it for now. We'll continue hunting later and split it after we've gathered enough."

Mike didn't waste time and suggested directly.

The others had no objections.

Fernandes immediately threw away his thoughts about the human language and raised his hand to volunteer. "I have a storage bag with space inside. It's just right to store the inner core!"

Mike glanced at Fernandes and gave the remaining cores to Lin Yi. "Captain number eight, please help us keep these for now. We'll distribute them later!"

"Sure!"

Lin Yi didn't object to that and put the core into his storage bag.

Fernández was dumbfounded. He pulled Mike's arm and said, "Mike, what do you mean? Don't you believe me or what? Although I don't have any objections to leaving it to the captain, shouldn't you at least give me a heads up after I've mentioned it?"

It was very hurtful to ignore him without saying anything! I, Fernandes, don't care about my face?

"Fernandes, actually ... I don't believe you!"

"I heard that there's a mythical beast in China called a Pi Xiu. You look like it!" Mike chuckled.

Fernandes was startled. Like a divine beast? Is he complimenting me? For a moment, he had even forgotten that Mike did not trust him.

Chapter 7654 One-On-One

"Captain, what is the background of this bi 'an divine beast? Isn't he very powerful?"

Fernandes didn't understand, so he turned to Lin Yi excitedly. "Do I look like such a godly beast? So I'm already as powerful as a divine beast?"

Lin Yi almost laughed out loud. He didn't think that Mike would know about the mythical beast, Pi Xiu!

Actually, it was quite similar to Fernandes!

Fernandes was plundering the entire Kraken king's palace, not letting a single thing slip by.

Mike probably thought that he would not be able to get it back if he gave it to Fernandes, right?

Of course, it was just a joke. Mike and Fernandes were on good terms, so it didn't matter if he teased Lin Yi. The main thing was that no one would question Lin Yi's ability to obtain the inner core!

"Ha ... There is indeed a mythical beast called the Pi Xiu. In China, many people like the Pi Xiu and would make them into all kinds of decorations to carry around with them. It has the meaning of bringing in wealth and treasures!"

Lin Yi tried to hold back his laughter as he explained to Fernandes.

Fernandes was overjoyed to hear this. This one was really good!

As expected of my master Fernandes!

In that case, shouldn't he give her a nickname with "Yingluo" in it so that it would be more glorious?

"By the way, Captain, tell me, how do you write this Kasaya? I'm going to get a tattoo after I learn it!"

Fernandes showed a rare studious side as he handed Lin Yi a coral branch and asked him to write on the ground.

Lin Yi didn't mind-he took the branch and wrote two big characters on the ground.

Fernandes' eyes widened. This ... Why did it feel so mysterious? it was indeed worthy of the name of a divine beast!

Forget about learning how to write it, just looking at it a few more times would make one dizzy!

I'm sorry for disturbing you ...

Farewell!

As expected, it was more reliable to get the captain to write down a tattoo on a piece of paper after they got out!

"Captain, let's continue forward! There are so many sea beasts waiting for us to hunt. We can't waste time!"

Fernandes turned around and said, "If talu's group is too far ahead of us, we'll lose face!"

Just now, he wanted to ask why people like Yingluo couldn't keep their inner cores, but now he directly ignored it.

Everyone's injuries were all healed by Lin Yi's medicine, and they all wanted to hurry up and hunt sea beasts!

It would be best to kill all the sea beasts so that talu's group would have no sea beasts to hunt!

This was the so-called "walking on other people's path, leaving others with no path to walk on"!

Lin Yi sweated a bit. It was good to have high morale, but were they sure they wanted to wipe out all the sea beasts in this ancient sea beast battlefield?

Those sea beasts at the mountain opening stage and above ... They're not to be trifled with!

After that, Lin Yi didn't point them in a specific direction-he let Fernandes lead the way and went wherever he liked!

After about 20 minutes, they finally came across a lone sea beast of the xuansheng stage. There were many sea beasts below the xuansheng stage on the way, but Lin Yi's team didn't bother them. They didn't dare to provoke them either.

"Just one ... It's not enough to fill the gaps between my teeth!"

Fernandes looked at the huge starfish in front of him with a look of disgust."I say, do you have any other companions? Why don't we call them over?"

The starfish suddenly opened its mouth full of fangs and roared at Fernandes. The invisible sound waves carried a large amount of seawater and formed a shock wave that shot directly at Fernandes.

Peak of the late stage of xuansheng!

This starfish was a few levels higher than Fernandes, and sea beasts of the same level were stronger than humans. So, this shock wave was extremely dangerous for Fernandes!

Although Fernandez was shocked, he didn't panic. He held the big podao with both hands, shouted, and slashed down with the force that could split a mountain, hitting the shock wave of the starfish.

The shock wave paused for a second, and then bounced off Fernandes's big podao and continued to attack Fernandes.

"So fierce!"

Fernandes' heart went cold. He did not expect the big starfish, which looked useless, to be so fierce!

Now that his defense had been broken, wouldn't he be dead without any cover?

Fortunately, Fernandes's teammates were more reliable. They followed up in time and used the power of the small team battle formation to block the shock wave of the big starfish. Then they turned it into soft force to minimize the impact wave, ending the crisis.

"Brothers, let's attack together! Kill it!"

Fernandes recovered from the shock and suddenly became furious. He waved his big podao and was about to rush forward with his men!

"All of you, come back!"

Lin Yi stopped Fernandes and the others in time, knocking out the starfish who wanted to run away with a collision of consciousness.

"There's only one starfish, is there a need for so many people? A problem that could be solved by fighting alone, why make it so complicated? Mike, you go and settle it!"

Lin Yi pointed out the generals. It was easy to rely on formations, but they needed to train their individual fighting skills.

The big starfish right now was an excellent Whetstone!

"Alright! Old eighth, just wait and see!"

Mike was overjoyed. He had long wanted to try it out alone, and now he finally had the opportunity. "Big starfish, watch my sword!"

The sea serpent king's sword was unsheathed and stabbed at the big starfish with a cold light.

Lin Yi's control of the collision of consciousness was extremely exquisite. The big starfish just came back to his senses and his strength wasn't affected at all. Seeing that the humans didn't rush at him, but only a mid-stage xuansheng, he relaxed!

One of its feelers waved casually, and a vortex appeared in the space between Haixing and Mike. The powerful pulling force caused Mike's sword to be deflected in one direction, and his entire body was also deflected, revealing a large area behind him.

The feelers on the other side of the big starfish vibrated rapidly and slightly, and countless needle-shaped water currents as thin as cow hair shot toward Mike in an instant. If they hit Mike, he would probably be turned into a hornet's nest immediately!

Mike was shocked, but he didn't panic. Lin Yi's sword skills were much stronger than the original, and since he couldn't get rid of the vortex's pulling force, he gave up on resisting and increased his strength, becoming one with the vortex!

Instantly, the speed of his body multiplied!

Taking advantage of this opening, the power of his sword martial technique burst out. A sword light flashed and collided with the needle-shaped water flow, instantly eliminating more than half of them.

He activated his Water-type powers and used his sword techniques to deal with the big starfish's attacks. For a moment, Mike's life was not in danger, but he could only maintain the situation where he could only take hits and not fight back.

Chapter 7655 Exclusive Martial Skill

After three minutes, Mike couldn't hold on any longer. If he continued, he would probably be whipped to death by the big starfish!

"Stop! Mike, this isn't the right way to play. How did I teach you? You stop first, come over and I'll talk to you!"

Lin Yi shook his head. Mike's swordsmanship and water power didn't work well together, and the main problem was that he couldn't split his attention!

He wanted to control his sword technique and water power at the same time. It was not a problem for him to kill opponents of the same level or lower level, but it was not possible for him to deal with the big starfish who was stronger than him.

Mike wanted to cry but had no tears. Captain old eight, I would like to go over and listen to you, but I have to go over first!

The big starfish would let Mike go? What a joke! Don't sea beasts care about their face? Did you stop at your house just because you said so? were you playing with your cats and dogs?

The big starfish was extremely disdainful of Lin Yi's words, thinking that this human must be out of his mind. Then, he felt the sudden dizziness again!

So it wasn't a coincidence!

The big starfish suddenly came to a realization, but it was too late.

This time, Lin Yi used a little more strength, so the big starfish fainted!

The pressure on Mike's body was relieved, and his body, which had been forced to lean back, suddenly leaned forward. He staggered and almost fell down. Fortunately, he had quick reflexes and supported himself with his long sword, so he did not really make a fool of himself.

"Captain number eight, you helped me?"

Mike blinked and turned to Lin Yi ... Didn't we agree on a one-on-one fight? Although we're about to lose, what you're doing seems to be going against my Knight's spirit!

"Who said I helped you? It's only a half-time break now, you'll have to continue fighting it one on one later!"

"If I did, would that big starfish still be alive?" Lin Yi said without changing his expression.

Mike thought about it and agreed. Old eighth's Captain had made a move ... He didn't need to make a move. He could kill the starfish with a glare. In this case, it really wasn't considered helping!

It was just a half-time break ... It felt weird. Was there such a thing when hunting sea beasts?

"Hurry up and come over! The intermission time is limited, so don't waste it!"

Lin Yi called Mike over and started explaining, "Mike, when you were using your swordsmanship and water power, you were distracted and your power was greatly reduced. That's why you couldn't defeat that starfish! How about this, I'll teach you a martial art now, so you can cultivate and comprehend it!"

When he was watching the battle, Lin Yi had already created a new sword technique in his mind. It was a new technique that was born from the green demon Sword technique and combined with water power. It was a technique that was made for Mike!

Of course, the so-called "born from the green demonic sword technique" was just borrowing some of the essence of the green demonic sword technique. The Water-type powers were also simulated by Lin Yi using his Water-type Qi.

If he were to combine the original, Lin Yi would be able to use it, but Mike wouldn't be able to learn it. He could only teach Mike the simplified version.

Even though it was a simplified version of the technique, as long as Mike could master it, it would still be extremely powerful.

In the future, even if Mike advanced to the sea Rift stage, he would still be able to use it.

After all, this was a skill Lin Yi created when he was at the peak of the sea splitting stage, and it had potential for growth!

The power of this martial technique would be determined by the level of Mike's strength!

"Captain number eight, please give me some pointers!"

Mike's eyes lit up and he quickly ran over.

What was Lin Yi capable of? He wasn't sure, but he was omnipotent. It was the same with the previous guidance. He was too godly!

Now that he was going to teach him a martial art, Mike was so happy that he went crazy!

Sure enough, it was right to fight more. If he lost, old eighth's Captain would teach him martial arts even if he didn't fight. It was a profit!

"Watch carefully!"

Lin Yi didn't waste any time and started practicing. The sword Qi was cold and the surrounding water was attracted by it, forming an irregular chaotic flow!

With a single sword strike, the rivers and seas were overturned!

The green demonic sword technique allowed him to control plants, and Lin Yi's creation of this martial skill borrowed the green demonic sword technique's special characteristics, allowing him to control water to a certain extent.

Of course, just this alone was not enough, but at the same time as he struck out, he infused his water ability into it, complementing the green Devil God sword technique's characteristics, the two produced a shocking reaction.

At this moment, one plus one no longer equaled two, but directly equaled 50,60,70, and even up to 100!

Even if it was a sea beast, it would probably not be able to withstand such Water-type explosive damage!

Mike's eyes suddenly widened and he was dumbfounded!

Swordsmanship ... Could be used in this way?

To be honest, Lin Yi was surprised himself!

He'd only been deducing it in his sea of consciousness before, but when he actually used it, he realized that it really wasn't weak!

However, this skill was completely different in Lin Yi's hands and in Mike's hands. As for how much Mike could use it, that was hard to say. After all, his strength and experience were there!

"Mike, do you understand?"

Lin Yi was thinking that he could try combining the green Devil sword technique with other attributes into a new martial skill in the future-it might surprise him.

"I don't understand!" Mike shook his head in a daze.

What could he understand if he was only admiring his captain's magnificent martial arts? Do you understand how powerful it is?

Lin Yi came back to his senses and found it funny. He only used it once, and Mike already understood the secret. It was really hard on him!

After all, not everyone had Lin Yi's ability to copy someone else's skill and use it as his own.

"It's okay if you don't understand. I'll explain it to you in detail. "

Lin Yi wasn't surprised at all and started explaining, "The core of this technique is that the technique itself has the ability to control water. Then, it's fused with Water-type powers, making the two complement each other and increase the power ..."

Mike perked up and listened carefully. When he really didn't understand, he would interrupt and ask for clarification.

Lin Yi explained patiently to Mike's teachings.

In the past, he had only protected Mike as an employer, but now, he truly treated him as a member of the team. He really wanted him to improve his strength so that he could take charge in the future.

Fortunately, Lin Yi only created this one style, and it didn't take too much time to go through the instructions.

Under Lin Yi's guidance, Mike finally understood the essence of it!

"Captain number eight, I understand!"

After a short while, Mike's eyes lit up and he raised his sword excitedly. "I can use this move now ... By the way, what's the name of Captain eighth brother's martial technique?"

"This is a newly created martial technique. I haven't had the time to name it yet!"

"It's up to you, just name it what you like," Lin Yi said, surprised.

Since it was a battle technique tailored for Mike, it would be appropriate for him to name it himself. He was too lazy to think about it.

Chapter 7656 Helping You Out

Mike was very touched when he heard this. Old eighth's Captain was really too kind!

He had specially created a martial technique for him, and even gave him the right to name it!

In the future, he must follow in the footsteps of his eighth brother's Captain and never betray him!

"Mike, the move that the captain taught you is so powerful. I think we should call it the underwater current super invincible sword. Doesn't it sound very domineering?"

Fernandes was everywhere, and when he heard that he was going to name a martial art, he immediately came over to give an idea.

Lin Yi didn't know what to say-giving away the naming rights wasn't a good thing ...

Thinking about the control of the giant foot, whoever he looked at would die, whoever he stared at would get pregnant, and so on, he simply couldn't bear to look at it!

In comparison, this so-called underwater current super-invincible sword sounded more reliable, but it always had a feeling of super-invincible and lowly, which made people feel uncomfortable!

"Ahem."

Lin Yi coughed, hinting that Mike would probably reject Fernandes.

After all, it would be better for him to name his own battle technique. Besides, the name Fernandez wasn't that great.

As expected, Mike immediately understood and shook his head. "Fernandes, your name is good, but it's not domineering enough! Captain eighth brother's battle technique must have a more domineering name to match it!"

"Oh, then tell me!"

Fernandes didn't mind-the name was rejected, but he was sure that Lin Yi's skills should have cool names.

After a moment of silence, Mike suddenly clapped his hands and said, ""There it is! Let's call it the invincible super sword of the king of the endless ocean!"

Lin Yi didn't say anything-these names were getting worse and worse!

If he'd known, he would've called it Fernandes "name, or at least a shorter one. He wouldn't even remember the name now.

"Good name! As expected, it's domineering!"

Fernandes immediately cheered. He felt that Mike's naming ability was indeed better than his, and he was very convinced.

Mike was also a little proud."Then it's decided!"

Lin Yi didn't have the energy to comment on that-as long as you guys are happy!

Next time, if someone were to ask for the name of the martial arts technique, he would definitely tell them that it was called ocean swordsmanship or green ocean swordsmanship ...

"Mike, get ready for battle. The starfish is about to recover!"

Not wanting to dwell on the name, Lin Yi went up and woke the big starfish up, reminding Mike to fight.

"Don't worry, Captain number eight. I'll use my invincible super sword to deal with that starfish!"

Mike's momentum was like a rainbow. He waved his long sword, and the surrounding water was immediately attracted and began to gather towards the sword.

The power he used couldn't be compared to Lin Yi's, but it was indeed much stronger than before.

The big starfish had just woken up and was still a little confused. He was thinking if he should escape immediately when he saw Mike's sword coming at him!

The surrounding seawater suddenly stirred, forming a cage of seawater that surrounded the big starfish.

Seeing that he couldn't escape, the big starfish could only fight with all his strength, otherwise, his escape speed would be limited, and he might be killed by the other party as soon as he turned around!

Mike attacked, and starfish also attacked. Both sides attacked each other, and a huge shock wave suddenly burst out.

If there were any sea beasts below the original infant stage nearby, they would have been turned into dust by the aftershock!

Although Mike's martial arts technique was very powerful, it was his first time using it, after all, so he didn't succeed in one strike. He didn't even have the upper hand, and he was even slightly suppressed by the big starfish.

However, Mike was not discouraged. Instead, he was overjoyed.

In the previous battle, he had been suppressed by the big starfish all the time, and he had never been in such a disadvantageous situation.

The big starfish was even more confused. What had just happened?

How did the human's strength increase so much in the blink of an eye?

Was she dreaming now or just now?

What confused the big starfish the most was what happened next. Mike became more and more used to the new martial art that he had just learned. As his proficiency increased, the power also slowly increased.

Very quickly, the slight disadvantage turned into an even match, and then it was a steady advantage!

Hai Xing panicked. If this continued, he would definitely be finished!

Unfortunately, the surrounding waters were all under Mike's control, so it couldn't escape even if it wanted to!

Besides, there were so many humans eyeing it covetously. The big starfish didn't think that those people would be much weaker than the ones who fought with it. After all, it didn't even know who knocked it out just now.

In any case, it was definitely not Mike, which meant that there was an expert in this group who was stronger than Mike.

After a little hesitation, the big starfish made a decision. It launched a wave of attacks with all its might, pushed the microphone away, and then fell to the ground with a "squish".

"Aiya, I can't do it, I surrender! Don't kill me!"

Although the voice was a little strange and it was hard to speak, the meaning was clear that Yingying was not playing with them anymore! If you can't win, why not surrender?

Mike was dumbfounded. What was going on? Why did you surrender?

You stopped when you were in the middle of playing, just like you stopped updating when you were reading a book!

Do you think that I won't kill prisoners just because I'm a Knight?

Alright! The spirit of chivalry indeed did not allow one to kill an enemy who had surrendered!

"Why are you surrendering? Do you think you can't win?"

Lin Yi was quite satisfied with the big starfish as a Whetstone, and thought it was a waste to end it here, "It's okay, I'll help you!"

What?

Fernandes looked at Lin Yi, stunned. What did he say? Did I hear wrong?

Why the hell did he help that starfish?

Mike was also a little confused, but he didn't care. He thought that Captain eighth brother wouldn't harm him.

With that, Lin Yi flashed to starfish's side, but there was a cunning look in his eyes.

It could tell that Lin Yi was the leader of this group. If they caught Lin Yi or injured him, this group of people would be in chaos.

Thinking of this, the big starfish pretended to be weak, but when Lin Yi got close, he suddenly prepared to launch his strongest attack!

"What the hell are you doing!"

Lin Yi was about to help the big starfish level up when he saw the big starfish jump up with pure Qi all over his body, looking like a bomb.

Hence, he slapped him.

The big starfish howled as he was slapped and turned over. He lay on the ground, feeling sad. How could this man be so strong?

'We're done for. This sneak attack failed. There's definitely no way out. '

At this moment, Lin Yi also understood the big starfish's thoughts and couldn't help but sigh. Indeed, those who are not from his race are all different!

Lin Yi was thinking of letting the big starfish live at the end-after all, he contributed to Mike's growth!

But now, it seemed that sea beasts were still sea beasts. There was no logic to speak of, and that was how the food chain worked.

Chapter 7657 I Want It Too

He pressed his hand on the starfish's body, sending a steady stream of pure Qi into it. Lin Yi then stuffed a few more pills into its mouth.

In an instant, the big starfish's injury from Mike's attack was healed, and his strength and aura began to rise rapidly.

Lin Yi didn't seem to have any pity for this kind of cunning big starfish. He directly used his pure Qi to expand its meridians and increase its strength.

As for the consequences, Lin Yi didn't even consider them.

As for the pills, they weren't of much use-they were just a cover so people wouldn't know that Lin Yi's Qi could help sea beasts level up.

Anyway, after the big starfish completed the task of Whetstone, it would still have to contribute its inner core, so it didn't make a difference whether it was killed by the backlash of its strength or Mike. The result was the same.

The big starfish was shocked at first, thinking that Lin Yi would kill him after his sneak attack failed, but he didn't expect Lin Yi to increase his strength!

In the blink of an eye, the big starfish's strength directly broke through to the great circle of mysterious Ascension!

The big starfish suddenly regretted it, feeling that he had made a death-seeking decision before.

However, there was no medicine for regret in this world. For these sea beasts, it was heaven with a single thought, but an abyss with a single thought.

"Alright, quickly get up and continue fighting! Don't play dead!"

Lin Yi kicked the big starfish and sent him flying. Then he flashed back to where he was.

"Captain, what are you doing?"

Fernandes "brain was still short-circuited, and he didn't quite understand Lin Yi's intentions."If I give the big starfish medicine and make him stronger, will the inner core be more valuable? Just like feeding animals?"

Lin Yi's mouth twitched. What else did this guy know other than money?

However, this was also true. When the big starfish's level increased, the quality of the inner core would also improve. This was also a means of artificially creating high-level inner cores.

"I surrender, I don't want to fight anymore!"

The big starfish's strength had increased, but it was more and more afraid to make a move. That human had easily raised its level to the great circle of mysterious Ascension. What was the point of fighting such a terrifying person?

"It's fine if you don't want to fight, but let me tell you, there are hidden dangers in helping you improve your strength. You will die in a while, unless you can beat him!"

Lin Yi smiled faintly as he pointed at Mike."If you defeat him, I'll barely remove the hidden danger for you. If you lose, you'll only die! Whether you want to live or not, it's your choice!"

If he didn't fight, he would definitely die! There's still a chance to live after being hit. Is there even a need to choose such a multiple choice question?

The big starfish was extremely sad and angry, but it also knew that it was its own fault. In that case, even if it died, it would take someone with it to die!

Mike, on the other hand, was full of confidence and was very grateful to Lin Yi!

In order to hone his martial arts and combat power, the captain had actually spent time and effort to improve the strength of the sea beasts, just to make the sea beasts qualified to be whetstones!

He really had good intentions!

How could he let down the captain's heart after taking such painstaking efforts?

As a result, both hai Xing and Mike burst out with an amazing fighting will and collided with each other again.

The big starfish, whose strength had been greatly improved, regained the upper hand, and Mike did not show weakness. He still repeatedly urged the invincible super sword of the endless sea King's descent.

In the beginning, when Mike faced the big starfish, whose strength had suddenly increased, he could only barely hold on. He didn't suffer a loss, but he didn't gain any advantage either.

However, as time passed, Mike's attacks became fiercer and fiercer. It was as if the previous battle had repeated itself!

In just three minutes, they went from a disadvantage to a tie.

After another two minutes, Mike gradually began to regain his advantage, but the big starfish was getting more and more disappointed!

Even if he had improved his strength, the big starfish was still not his opponent. Of course, it was also because his strength had just been improved and was not yet stable, so he could not use it as he wished.

After a wave of ineffective attacks, the big starfish slowly lost confidence and was directly suppressed by Mike in the end.

He didn't even have the chance to beg for mercy, let alone escape!

"Captain number eight! Fortunately, he did not fail his mission! I've retrieved this sea beast's inner core!"

As expected, Mike successfully killed the big starfish and took back the inner core for Lin Yi. "This endless sea's King's descent is indeed powerful! Captain number eight, I even feel that the martial technique you taught me is much more powerful than the sea serpent King's inheritance!"

"That's for sure! The leader is so wise and powerful, the sea serpent King is nothing. Even if he appeared personally, he would definitely not be the leader's match, let alone those martial arts techniques left behind!"

Fernandes hmped, disdainful of The Kraken King. He smiled and moved closer to Lin Yi. "Captain, I can't learn Mike's invincible super sword technique, the descent of the king of endless sea. Can you help me create a martial art technique?"

This was a tailor-made exclusive martial technique!

It was awesome to say it out loud, and it was even more cool to use it!

Fernandes was envious when he saw Mike kill a sea beast at the peak of Mystic Ascension with the martial arts Lin Yi taught him!

Therefore, he had long planned to seize the opportunity to flatter his backer, and then conveniently make a request. Most likely, he would get the promise of his backer!

After all, as a veteran leg hair, how could he not think of him when there were benefits?

Lin Yi's head hurt a little-it wasn't that it was difficult to create a new skill for Fernandes, but he didn't know what kind of weird name this guy would give it.

Mike was a Super B * stard, and it was dizzying to hear that name. Fernandes could definitely come up with a name that was even more confusing than Mike 's!

"There's a chance ... No need to rush!"

Lin Yi rubbed his forehead and brushed it off. "Let's continue, we've wasted a lot of time here. "

Getting Fernandes a skill was a small matter-what Lin Yi needed to think about was the name of the skill before teaching it to Fernandes, not giving Fernandes any room to use it!

Fernandes took it as Lin Yi's agreement. He couldn't just create his own skill so casually. He had to be like Mike, showing off in the battle first so that he could create a skill based on the characteristics!

So Fernandes shouted excitedly, telling everyone to set off quickly and fight with the sea beasts as soon as possible.

In the following days, Lin Yi's team only encountered groups of sea beasts. They fought a few rounds in groups, but Fernandes didn't get the chance to fight alone.

However, Lin Yi still didn't participate in these battles, only giving pointers from the side.

Everyone had different insights and gains. Although they didn't get the treatment of creating their own martial arts, their combat strength had increased.

Chapter 7658 Steal From Them

"Captain, I've found the tracks of the people from tallu!"

Fernandes's desire to fight was very strong. He rushed to the front to find a stronger sea beast and fight it so that Lin Yi could create his own skill!

However, he didn't expect that the sea beasts would find talu's group instead.

"They're dealing with a bunch of huge pearl shells. Let's hurry over and snatch a wave from them!"

Not far away, tallu and the others were fighting a group of pearl shells ... Or rather, crushing them!

The strength of these pearl shells was basically above the middle stage of the mysterious Ascension realm and below the peak of the late stage.

There were about 40 to 50 of them. At first, Dale and the others did not dare to provoke sea beasts of this level, especially a large group of them!

However, after repeated probing, talu and the others were surprised to find that the attacks of these pearl shells were simply noob. It could be said that they had no offensive power at all. Thus, they were relieved and boldly besieged them.

However, the defense and attack power of these pearl shells were completely different. They belonged to the high defense but low attack type, simply the other extreme!

Even the attack of a great circle of black Ascension might not be able to break through the defense of these pearl shells!

However, this was also referring to physical attacks. These pearl shells 'defense against spiritual sense was not strong!

With the strength of their primordial spirits and the ability of their divine sense attacks, they had actually successfully opened the shells of three pearl shells!

When Fernandes found Dale and the others, they had just opened the Pearl shell.

In each pearl shell, there were two or three huge pearls the size of small watermelons!

Fernandes 'eyes suddenly turned green. Such a big pearl, any one of them would be worth a sky-high price!

If he didn't go and snatch it, he wouldn't be able to understand!

As for the inner core ... He could look for it again after he received the pearls. It didn't matter if he had it or not!

Lin Yi scratched his chin and nodded. "That's good. Those pearl shells aren't a big threat. It's just the right time to harvest a wave of inner cores. After that, I'll find some powerful sea beasts to let loose and train your combat strength. You don't have to worry about not having enough inner cores!"

"The captain has already spoken. Brothers and sisters, what are you waiting for? Charge!"

Fernandes was already itching to go, and after hearing Lin Yi's agreement, he immediately brandished his sword and led the way to where the talu gang was.

According to the rules, the three pearl shells that had already been opened by talu and the others already belonged to them, so it was not good to snatch them.

However, the remaining pearl shells were all living sea beasts, so it would be up to each person's ability to fight the sea beasts!

"Fernandes! What are you guys trying to do? This is my territory! I found this place first!"

"What?!" Ta Lu raged as he saw Lin Yi's team charging at them. "Hurry up and leave. Otherwise, don't blame me for being impolite!"

If it was before, ta Lu might've been afraid of Lin Yi's team's strength and wouldn't dare to provoke them, but after all the battle training, his team had improved.

Although the number of people had been reduced, their overall strength had increased by a lot.

In addition, this piece of pearl shell had already been regarded as something in ta Lu's pocket, so how could he be willing to give it up?

After leaving the giant cuttlefish, ta Lu's team encountered many sea beasts and fought a few rounds. However, they were all weaklings below the xuansheng stage. It was just right for them to practice.

The Pearl shell was the only xuansheng-stage sea beast that ta Lu's team had encountered that they could deal with. It was the best choice to use to complete their mission!

And so, ta Lu gathered his courage and prepared to fight Lin Yi's team to the death!

"Tallu, you're quite bold! Did you forget the pain after the scar healed? Then let Sir Fernandes help you remember how painful it is to open a scar!"

Fernandes was engaged in a verbal battle with Dale as he sneaked towards a pearl shell!

There were pearls the size of small watermelons inside! Who had the time to waste on that idiot, talu? He would harvest the pearls first!

"Refusing a toast only to drink a forfeit! Brothers, let's go together and kill this group of sons of B * tches!"

Ta Lu gritted his teeth and waved his hand, ordering everyone to charge at Lin Yi's team.

In Dale's eyes, everyone's level was basically the same. Even if there was a gap in combat power and combat experience, it should be balanced out!

And now that they had several times more people on their side, it was a good time to take revenge!

Lin Yi's team was confident enough to face off against the sea monsters, and they were getting a little cocky after a few battles with the sea monsters.

Especially after harvesting a bunch of pearl shells that didn't have any attack power, his confidence was even more explosive.

Therefore, the morale of both sides was very high, and they soon collided with each other.

"Interesting! Your combat strength has improved quite a bit!"

Fernandes still had time to talk in the middle of the battle. He put on a smile that he thought was extremely evil. "Unfortunately, trash will always be trash! After your combat strength has been improved, you little puppets are at most the combat puppets among the trash!"

"Fernandes, what are you laughing at? If you want to talk, talk properly!"

Mike was also very free, and he even had the time to notice the smile on Fernandes's face. "Are you trying to use your silly smile to attack Talu and the others? Don't be silly, their silly smiles are a hundred times better than yours, okay?"

Fernandes' chest felt stuffy. He was really angry!

This is my evil and crazy smile, a smile that can charm thousands of girls, a smile that can become the dream of 900 million girls, and you call it a stupid smile?

They might be familiar with each other, but it's easy to get beaten up if you talk like this, you know?

However, seeing Mike's sword swing so freely, and thinking of the exclusive martial arts technique created for Mike by his Captain, Fernandes wisely did not say what he was thinking, in case he got beaten up first.

Talu was also very angry. He was actually said to be a hundred times better than Fernandes? Is there still justice? How could she mock him like this?

He was at least a thousand times better than that fool, Fernandes, okay?

...Wait, something doesn't feel right ...

Dale's thoughts were a bit chaotic. He was not as skillful as Fernandes and Michael in the battle. He had no time to think carefully and could only rely on his instincts to fight.

The members of Lin Yi's team naturally formed familiar battle formations against the group attacks, easily and happily dealing with ta Lu's group.

Then, Dale felt that something was wrong.

They were the ones attacking Lin Yi's team, but why did it feel like they were getting attacked by Lin Yi's team?

What the hell was this strange sense of familiarity?

"Hahahaha, talu, you stupid bird. You don't learn from your mistakes. Are you dumbfounded?"

Fernandes did not argue with Mike and continued to bully talu. ""You see, you've been surrounded by us again. Do you have anything to say? For example, surrender, kneel down and beg for mercy!"

Chapter 7659 Surrendering Again

"I'm in a good mood. If you kneel and beg for mercy in a good way, I might spare your lives. If the posture isn't good, then I'm not in a good mood!"

Talu was dumbfounded. Kneeling and begging for mercy? What was considered beautiful?

Do you want us to stick our butts up? At the thought of this, Taru suddenly shivered. He did not expect Fernandes to have such a hobby!

"Brothers, let's go all out against them!"

Ta Lu suddenly burst out with a shocking fighting will and attacked with a shout.

This time, it was Fernandes's turn to be dumbfounded. What was going on? Since when did tallu become so unyielding?

It wasn't like they hadn't surrendered before. Along the way, they had surrendered countless times. Shouldn't they be used to surrendering?

Why did you still fight back when you heard that we're surrendering?

"You have a backbone! I'm telling you, I like it when you have a backbone and surrender so easily like you used to. I didn't even feel comfortable fighting you!"

Fernandes laughed and shouted excitedly, ""Mike, if they don't surrender today, we can fight to our heart's content!"

"Fernandes, although I don't know how you did it, I still have to say, well done!"

Mike was also very happy with this result. He laughed as he led his team to speed up.

As they sped up, the entire battle formation also accelerated. The power and density of the attacks suddenly increased, and talu's group immediately suffered.

It was already difficult to hold on just now, and now it was even more impossible to resist!

The fighting spirit that had been ignited with great difficulty was instantly doused as if a basin of cold water had been poured over his head!

"I surrender! Are you satisfied with this position?"

Dale was a very stubborn man. He would rather die than submit ... There was no such word in his dictionary! Seeing that they couldn't resist it, they dropped their weapons and knelt down to beg for mercy.

With its head touching the ground and its butt sticking up high, it was like an ostrich, respectfully asking for surrender.

Bobby, Nasby, and the other accomplices of the tower Road almost vomited blood!

You've just shouted for us brothers to fight it out with them, and now they're kneeling and begging for mercy, and you're even asking if this posture is okay ... How can you trick people like this!

They were still charging forward with their weapons raised!

Fernández and Mike were also quite depressed. They had just said that the other side would not surrender and could have a good fight, but tallu had simply surrendered!

Can't you be a little more honest?

However, tallu had never been a man of integrity.

When Bobby and Nasby saw Fernandes and Mike's eyes sweeping over, they suddenly panicked.

This bastard wanted to use them as cannon fodder to calm Lin Yi's team down? In your dreams!

The two of them did not need to discuss. They threw away their weapons and knelt down seriously like Talon. "I surrender! Are you satisfied with my posture?"

Satisfied my ass!

Fernandes almost exploded. He had just gotten into position and was ready to fight, and the enemy had surrendered!

Surrendering wasn't the key. The key was that he couldn't show his skills to the captain, and the captain wouldn't be able to tailor his martial arts moves.

Fernandes, who was in a state of shock, didn't say a word. He went up and kicked each of Talon's ass, sending them flying!

"Get lost! All of you get lost! If I see you again, I'll kill you!"

Talu and the others were overjoyed. They could roll away just like that? What a pleasant surprise!

Although his butt hurt a lot, this kind of pain was still acceptable, as long as it wasn't the kind of pain where his ass was covered in wounds!

Even without Talon's command, his men all followed him and fled.

Only a fool would stay to get beaten up if he could leave so easily!

"Captain ... I ... I made my own decision!"

It was not until Taru and the others were far away that Fernandes 'mind returned to normal. Then he realized that it was not appropriate to ask for the opinion of his big brother.

She quickly lowered her head and apologized, as nervous as a primary school student. "I definitely won't do this again. Please forgive me, Captain."

"It's fine. You did well. Don't worry about it!"

Lin Yi waved his hand nonchalantly, "the rules don't allow us to kill them. We can't take the loot either. They're just an eyesore. It's good to let them go!"

"Next, all of you attack together, using your spiritual sense to attack these pearl shells! If you guys were to use normal physical attacks, I'm afraid it would be very difficult to break through the Pearl Shell's defense. "

Lin Yi turned to instruct his team, "However, your spiritual sense attacks aren't that strong. Although the Pearl Shell's defense against spiritual sense attacks is weak, if you fight it alone, it might not be of much use."

No matter how weak they were, pearl shells were still stronger than Lin Yi's team!

Even if their spiritual sense defense wasn't strong, they could definitely fight against weaker opponents.

If not for that, talu and his gang wouldn't have taken so long to deal with the three pearl shells.

"Captain, are they trying to run?"

Although Fernandes lowered his head in apology, his attention was still on the Pearl shell.

It couldn't be helped. The huge Pearl inside was too eye-catching, and he couldn't help but notice it.

"They really want to run. There were more people on the tower Road earlier and they were surrounded. Now that we don't have enough people, they want to take the opportunity to escape!"

Lin Yi nodded, not minding it at all. "But you don't have to worry, these pearl shells can't run away even if they want to! For now, you will still be split into small groups, and each group will deal with one pearl shell!"

The Pearl Shell's surface strength was stronger than the team members, so the best and most effective way was to attack in groups of three.

With the addition of the battle formation, the strength that the three of them could display together was just on par with the Pearl shell, but not too much higher. This way, they could temper the members' spiritual sense ability to the greatest extent.

With that, Lin Yi extended his spirit sense out, covering all the pearls.

Lin Yi didn't need to use his spirit sense to attack-just the pressure alone was enough to make all the pearls stay still as if they were facing a great enemy.

This was the effect he wanted. He wanted all the Pearl shells to be left here for others to slowly practice on.

As Lin Yi's team was busy harvesting pearls, the fleeing tallu and his men finally stopped at a distance from Lin Yi, their mouths wide open as they panted.

"Boss talu, are we just going to bear with this? It wasn't easy to find those pearl shell sea beasts that didn't have much attack power, but they were all robbed by them! Can you really hold back your anger?"

Bobby panted as he looked at Talon with resentment. ""We've been bullied enough by them along the way. Do we have to continue to endure this time?"

Chapter 7660 Calling For Reinforcements

"What's the use of saying this now! What were you doing just now?"

"Shut up!" Dalu cursed. "Don't be so full of yourself. I can't take it anymore. Why didn't you fight them just now?!"

Bobby was somewhat speechless, but his heart was filled with hatred. Didn't he just kneel and beg for mercy with you? If you don't risk your life, what's the point of us fighting?

Of course, he couldn't say this out loud. If he did, he would completely turn against talu.

"Boss talu, Bobby means that we can't always be suppressed by them. We must find a way to get back at them, or our brothers' hearts will be broken!"

Nasby didn't have the respect he had for Taru, but he still maintained his original respect. ""You're our boss, so you should at least come up with some rules, right? If we really want to fight them, as long as boss talu gives the order, we will definitely fight to the death!"

As long as you don't f * cking kneel and beg for mercy, we might be able to fight to the end!

But Nasby was just thinking about it-he'd seen the power of Lin Yi's team's battle formation, and he wouldn't have the guts to fight them to the death!

The main purpose of saying this was to attack Tallu's prestige and let others see if this boss was worth following.

"Alright, alright, I know what you mean!"

Talu waved his hand impatiently. In fact, he did not really study Nasby's mind. He just wanted to quickly find another wave of weak sea beasts like the Pearl shells.

However, this was just a thought. It could only be encountered by chance. What if he encountered a powerful existence like the big Squid again ...

Eh?

Talu's eyes suddenly lit up. He snapped his fingers and said, ""There it is! Didn't we surrender to the big Squid? Now that we're in trouble, shouldn't this big cuttlefish come out to help?"

Surrendering had become a habit. Tallu didn't blush at all, and Bobby and the others didn't feel ashamed at all. Instead, they nodded and felt that this was a good idea!

"Boss talu, that's a great idea! That Big Squid is extremely powerful. If it's used to deal with aedenpolo and the others, it should have a high chance of winning, right?"

Bobby suddenly felt that tallu was sometimes reliable. "It's best if they both suffer heavy losses. That would be even better! Nasby, what do you think?"

Maybe after Lin Yi's team and the squid died, the squid's control would automatically be removed!

Nasby frowned as he considered the pros and cons. If this matter was successful, tallu would be able to win back a city and rebuild his prestige in the team.

There was already a rebellious thought in his heart, so he naturally did not want to win over the hearts of the people again.

However, there seemed to be no other way except to ask for help from the big cuttlefish!

Even if Nasby wanted to object, he could not come up with any reason.

"I think it's feasible. If we can really make them fight, it won't be bad for us no matter who wins or loses!"

Talu did not wait for Nasby to speak. He clapped his hands and made a decision.

Good! Make arrangements!

"Bobby, Nasby, I'll leave the task of convincing the big Squid to you! Don't Let Me Down, our brothers are counting on you!"

Talu reached out and patted ERBI's shoulder. He looked at them and said earnestly, ""Among us, you are the most worthy of being entrusted with this important task, and only you have the ability to complete this important task. Good luck!"

Bobby and Nasby looked at each other.

No, wait a moment!

How did it become us communicating with the big Squid?

Shouldn't you, the boss, be the one going? besides, you're the one who proposed the plan, right?

"Boss talu, you're our leader. Isn't it more appropriate for you to step in? Besides, you know this plan better than us, and you can communicate with the big cuttlefish more smoothly!"

Bobby still tried to struggle to see if he could be saved.""After all, Nasby and I are of low status. If the big cuttlefish thinks that you look down on it and gets angry, wouldn't it be bad instead?"

"You said it yourself, I'm your boss. Why? Now, even my words don't matter? Are you going to talk back three times for every sentence I say?"

Talu's face suddenly changed. He sneered and his eyes turned cold. Bobby, do you mean that I should give you the position of the boss before you communicate with the big Squid?"

Nasby thought to himself, 'this is for the best. As long as you dare to give it, I dare to take it!'

Bobby didn't dare to resist to this extent. He immediately smiled and said, ""Boss talu, You must be joking! When have we ever disobeyed your orders? Then let's go find the big Squid now! Leave the communication to us, we won't let boss down!"

"Very good! I knew you were trustworthy! Do a good job and I won't mistreat you!"

Dale nodded in satisfaction. He laughed and praised the two of them. Then, he led the team to the location of the big Squid.

After finding the big cuttlefish, talu came out first and took out the inner cores and pearls of the low-level sea beasts and the three pearl shells that he had previously harvested.

"My Lord, these are the things I obtained from hunting. I'll give them all to you!"

Talu bowed respectfully and held the treasure high with both hands. "Originally, I had more to offer to my Lord, but there was an accident. I'm truly sorry, my Lord."

"What accident?"

The big cuttlefish was not interested in the things that ta Lu took out, so it only took out three pearl shells 'inner cores and ate them as snacks.

Tallu winked at Bobby and Nasby, indicating that it was their turn to appear.

There were definitely some risks in using the big Squid, so after showing his face, Dale immediately retreated behind the scenes.

Bobby and Nasby had no choice but to step forward and bow.

"My Lord, it's like this. We found a group of pearl shells, and their levels are quite high! The three inner cores that Daren ate just now were the three weakest ones. "

Bobby bent his waist humbly and didn't dare to look at the big Squid. "These pearl shells have astonishing defensive power, but they basically have no offensive power. If there are no accidents, we can completely harvest them and offer them to Milord!"

"Pearl shell? Those trash really don't have much attack power. Even if their strength level is the same as mine, you guys won't be in much danger. "

The big cuttlefish was also a powerful character in this Sea area, so it naturally knew about pearl shells. ""Then what kind of accident was it that you only brought back three inner cores?"

If there were many xuansheng stage inner cores, it would also be able to increase the strength of the big cuttlefish.

It would be even better if it was a pearl shell from the beginning of the mountain!

Under normal circumstances, the big cuttlefish didn't like to deal with pearl shells, because the shells were too hard and wouldn't be digested.

It was a small surprise that these humans could actually obtain the inner core of a pearl shell.

"We've met our enemies. They've stolen our pearl shells!"

"Those people are about as strong as us," Nasby said. "But they formed a strange battle formation that greatly counters us. We can't beat them, so we can only retreat."
