Chapter 7661 The Person Who Delivered The Inner Core Is Here

"That's right, if they didn't have the battle formation's support, they would have been killed by us long ago! It just so happens that this battle formation is very strange. They clearly have several times fewer people than us, but they can still display the effect of restraining us. "

Bobby also began to get into the mood, adding oil and vinegar to exert his imagination. ""Sir, there are many pearl shells there! Originally, they were all in her Excellency's pocket, but now she could only watch them fall into the hands of those bastards! I ... I'm really not willing to accept this!"

The big cuttlefish basically understood the whole story. It was that talu and his men had found a batch of pearl shells with high defense but weak attack and were ready to harvest them and offer them to him.

In the end, it was intercepted by some humans!

On the other hand, the individual strength of these humans was similar to that of talu's group, but they had a battle formation that could exert more power.

So, these guys were here to look for reinforcements?

Bobby secretly raised his eyes to observe the big Squid, but unfortunately ... He couldn't see the expression of the big Squid.

It would be strange if he could see the expression on the big Squid's face!

"Your Excellency, I'm not a person who likes to stir up trouble, but no one can tolerate this! Those were the adults' things, why should they be taken away by them? This is simply preposterous!"

"That's right! My Lord, not only did those guys take our pearl shells, they seem to have other good things on them. I say, not only should we go and take back the Pearl shells, we should also take back their things!"

Seeing that the big cuttlefish wasn't angry and seemed to be tempted instead, ERBI's confidence increased greatly!

One after another, they took the stage after another, instilling the benefits of snatching things into the big cuttlefish.

The big cuttlefish was really tempted. There were so many pearl shells, and there were other good things?

Of course, this wasn't a problem. The most important thing was to show how powerful it was as a big cuttlefish and make these cannon fodder underlings submit to it. Perhaps it could even recruit more cannon fodder underlings!

"Enough, you dare touch my people, you're really tired of living! Where are those blind guys? You guys lead the way, I'll go and deal with them!"

The big cuttlefish waved its tentacles and said proudly, ""Anyone who dares to resist me will die in the end!"

Talu and the others felt a chill in their hearts. They suspected that the big Squid was talking to them.

However, they were still happy to be able to get the squid to deal with Lin Yi's team. It didn't matter who won or lost-they were going to benefit from it!

After a short while, the big Squid followed ta Lu and the others back to the sea area where the Pearl shell was.

Lin Yi's team was still harvesting the cores.

"Sir, those guys are still here. Look, the Pearl shell is also here. They haven't finished harvesting. We came just in time!"

Ta Lu was very excited-he couldn't wait to see Lin Yi's team get killed by the giant squid ... Or both of them get injured!

Lin Yi's spirit sense had already noticed the big Squid's arrival, but he didn't care.

A mere sea beast at the beginning of its mountain opening stage wasn't worthy of Lin Yi's attention.

So Lin Yi didn't warn his team members and let ta Lu lead the squid straight in.

It wasn't until they could see each other that Lin Yi looked at them calmly, waiting for them to come over and talk.

"Ling-zero-eight! You didn't expect us to be back so soon, did you? Be honest, hand over all the good stuff and kneel down to beg for mercy. Otherwise, don't blame me for not pleading for you!"

Taluha laughed and then said to the big cuttlefish in a flattering manner,""My Lord, that's the captain of this small group. Look at how arrogant he is. He let his underlings deal with the Pearl shell while he watched from the side. You can tell he's not a good person!"

Lin Yi was speechless.

This wasn't a good thing?

It seems that the next time Fernandes and the others beat you up, I should also go up and beat you up, so that you will be satisfied, right?

"It doesn't matter if it's good or not. As long as you're sensible, I can spare your lives!"

The big cuttlefish felt that Lin Yi's team was indeed much stronger than talu's team, especially with their battle formation, but it didn't think much of them, "Human! Hand over what's yours and submit to me, and you can live. Hurry up and thank me for my mercy!"

Lin Yi blinked. Was this squid's brain filled with water?

He wondered if its inner core would also be filled with water ... If that were the case, it would be useless!

He came here to die and was so arrogant. Did he think that he would not die fast enough?

"Did you hear that? our Lord is very merciful and is willing to let you live. Why don't you quickly kneel down and thank him with tears of gratitude?!"

Ta Lu straightened his back and shouted, ""I think it's best for you to refuse, then you'll all be F * cked to death, and our family's adults will have more food! That Ling-zero-eight, hurry up and tell me, do you want to live or die?"

"I want to die!"

"I want you guys dead!" Lin Yi said expressionlessly.

How many times had he bypassed ta Lu and the others all this time?

This guy wasn't done yet, he was thinking of getting outside help to take revenge.

They had never seen an ant that liked to court death and provoke a Dragon all day long!

Why don't I just kill this kid?

Lin Yi thought about it seriously-it didn't really matter if he followed the rules set by central, after all!

Looking at soyatu's face, he knew that even if he killed talu, nothing would happen to him.

"Your Excellency, look, look. This kid is still so arrogant even when he's about to die. He's still putting on a straight face and acting tough all day. I don't think it's necessary to give him any more chances. Just kill him!"

Talu immediately encouraged the squid. In Lin Yi's team, Lin Yi was the core. If he killed Lin Yi, the rest wouldn't be a problem!

At that time, he could do whatever he wanted!

"You're indeed very arrogant! It seems that if we don't teach him a lesson, he won't be afraid!"

The big cuttlefish sneered as one of its soft tentacles twitched and a stream of water shot towards Lin Yi like a cannonball.

Although it was just a casual attack, the big cuttlefish was confident that even a human at the peak of the late stage of the mysterious Ascension realm would not be able to easily take on this water cannonball!

Lin Yi, on the other hand, acted as if he didn't see anything. He took a step forward casually.

In the end, he had barely dodged the trajectory of the water Cannonball and brushed past it by a hair's breadth!

The big cuttlefish was stunned. It couldn't believe what it was seeing. Was this ... A coincidence?

Based on the reaction speed of a xuansheng stage human, it should be impossible for him to Dodge its water cannonball!

Besides, the human's movement speed was not fast, unless he had predicted this attack in advance!

Or was this human not as weak as he appeared?

"Fernandes, Mike, stop for a moment. Everyone, come and gather!"

After Lin Yi dodged the squid's attack, he immediately called out, "There's no hurry to harvest the Pearl shells. There's an even more powerful big guy here who has come to deliver his inner core!"

Chapter 7662 Winning Against A Stronger Opponent

The big cuttlefish's head was full of question marks. A big guy who came to give his inner core ... Are you talking about me?

In fact, Fernandes and the others had already noticed the big Squid, tallu, and the others!

But Lin Yi didn't say stop, so they didn't stop harvesting.

At Lin Yi's command, everyone quickly gathered and stood beside him.

"Your fighting strength has increased by quite a bit. I originally wanted to wait until all the Pearl shells here were harvested, then find a stronger sea beast for you to practice on! I didn't expect that talu and the others would be so considerate to help us lure a sea beast in its early stage. "

Lin Yi said with a big smile. "Fernandes, when you let them go, did you already discuss it with them? Otherwise, how could Talu be so understanding?"

Talu was dumbfounded. What did he mean?

He could understand what Ling-zero-eight was saying, but why couldn't he understand the meaning behind his words?

However, before he could figure it out, he immediately felt a sharp killing intent enveloping him!

The big cuttlefish wasn't stupid, and Lin Yi's words made its suspicious eyes sharp.

It seemed that the words of humans could not be easily believed. It began to feel that the tower might have led it here as a trap!

"My Lord! Don't listen to their nonsense, there's no such thing!"

When Dalu realized that the big Squid was suspicious, he almost peed his pants!

At the moment of life and death, Talon's intelligence directly broke through the upper limit. He actually instantly understood. "They're just bluffing. They think they can scare us like this! But Daren's strength is heavenly, how can he be intimidated by these small fries?"

"Milord, look, their strength is only about the same as us brothers. It's only because they've formed a battle formation that they look a bit more powerful!"

"What do you mean by asking Milord to give you an inner core? that's all bullsh * t! But Daren is wise and divine, he can directly see through the truth!"

Dale had a strong desire to live. Seeing that the big Squid's murderous intent had not disappeared, he quickly explained, ""Milord, if you can break their battle formation, we can handle the rest!"

Lin Yi's team didn't have a battle formation to support them, so ta Lu wasn't scared at all!

Unfortunately, he didn't know that the members of Lin Yi's team were no longer the same as before!

Even without a battle formation, it would not be a problem for them to take down five or six enemies at the turret.

"Don't worry, of course I believe you!"

The big cuttlefish's killing intent finally disappeared. It laughed and said, ""How could I be fooled by such a simple trick?"

"Milord is wise! It was rare in the world! It's our honor to be able to follow Daren!"

Talu laughed as he tried to curry favor, but he was cursing in his heart.

If you didn't fall for it just now, do you think I would have nearly peed my pants?

"You don't need to do anything to these cunning humans. I'll take care of them myself!"

The cuttlefish seemed to feel that its intelligence was being insulted, and was ready to attack Lin Yi's team.

Fernandes took two steps forward, put his hands on his waist, and looked up at the big Squid. ""I'll accept the inner core that ta Lu sent over on behalf of our Captain! Are you going to take out the inner core yourself, or do you want me to do it?"

"Forget it, it's better for us to go get it. Otherwise, we'll waste the good intention of tallu sending you here for us to practice! Do you want to prepare? We might hit you harder later, so just bear with it!"

"Impudent! You're looking for death!"

The big Squid roared and waved its two tentacles at Fernandes!

Fernandes wasn't afraid at all. He raised his big podao from his back, grabbed the hilt with both hands, and swung it at the tentacle with all his might.

Mike and the others didn't need to be called out. They had already tacitly entered their positions and instantly formed a battle formation!

When they were harvesting the pearls, Lin Yi's team had split into four groups, each fighting on their own. They formed the most basic three-man battle formation.

At this moment, the twelve of them had formed an even more complicated and powerful battle formation, which was completely different from before!

The big cuttlefish was slightly shocked. This was not the battle formation that it had seen just now!

He had thought that it would be useless, but now there was unknown variable!

The big podao and the two tentacles collided. Fernandes, who had been strengthened by the battle formation, was extremely fierce. He took the big Squid's attack head-on and did not fall into a disadvantage!

After one hit, everyone in Lin Yi's team was pumped up-they were already this strong!

"Fernandes, it's my turn!"

Mike shouted, stopping Fernandes from advancing. He waved his sword and used the sword technique Lin Yi taught him to attack the big cuttlefish!

In order for the battle formation to run smoothly, Fernandes had no choice but to retreat slightly with the battle formation. He said angrily, ""Mike, I'm not satisfied yet. Do you want to take the head? Isn't this boring?"

Whether Mike was interested or not, the big Squid felt that it was really boring!

How did these weaklings in front of him become so powerful?

Even with the battle formation's support, wasn't this too much?

It was still fine with the saber user earlier, but the sword user's martial arts technique was truly terrifying!

The seawater around his body seemed to have become a part of the sword's power, forming a cage that trapped the big cuttlefish!

A dignified mountain split-stage sea beast actually felt threatened by these nobodies at the xuansheng stage!

It was really like seeing a ghost!

"Milord, do not show them any mercy! Use more strength and kill them!"

Dale's eyes were not sharp enough to see that the big Squid did not have the upper hand. He only felt that the two sides were fighting intensely and brilliantly. He wondered if the big Squid was going easy on him.

The big Squid, who was thought to have let the water go, heard the cheers from tallu and wanted to turn around and kill this stupid bird with poor eyesight first!

Which eye of yours saw me holding back and not attacking with all my strength?

This wasn't a battle formation that could be settled with all his strength!

Lin Yi was very satisfied-the team members were getting better and better together, and the battle formation was getting stronger and stronger!

It could be said that every time they fought, they would improve greatly.

For example, when they were fighting with talu's group, they didn't have their current combat power. But after the battle with talu's group and then harvesting pearl shells, the strength of the team members had undergone a qualitative change!

They were like two different teams!

Of course, this improvement wasn't unlimited-it was only because Lin Yi's team members were too weak before, so there was a huge gap to fill.

When it was almost fully filled, there was no way to quickly increase combat power.

Unless their level had greatly increased, such as entering the mountain-opening stage!

Chapter 7663 I Lost

"Wayayayayaya! Despicable humans! You guys are indeed playing tricks, setting a trap to harm me!"

The big cuttlefish was getting more and more exhausted as it fought, and it couldn't help but squeak,""There's not a single good person in the human race. They should all be killed! Just you wait, I'll definitely kill you all!"

"Shut up! Don't you know that your voice is very unpleasant? What if you scare the children? Even if he could not scare the children, it was not good to scare the seaweed! Even without the seaweed, the small fish and shrimp here will be afraid!"

Fernandes, on the other hand, had the support of the battle formation, and the more he fought, the more relaxed he became. He even had the time to tease the big Squid. "What are you talking about killing us all for? please think before you speak. Don't you think we're about to kill you?"

"Oh, I'm sorry. I'm not sure if the squid has a brain. Maybe you don't have a brain at all ... Or you have a brain but your brain is flooded! That's why they're here to challenge our Captain!"

"It's a good thing our Captain has a good temper and doesn't argue with you. Otherwise, you would've been finished! Do you know how powerful our Captain is? To deal with someone like you, I don't even need to make a move. I can kill you with a single look!"

"By the way, are you a male or female? If it's a female, she might not die after being glared at by our Captain. She might just get pregnant ..."

Fernandes was excited, and his mouth was full of trash talk.

The big cuttlefish didn't expect that it would be crushed by Fernandes 'countless words with just one sentence!

In terms of talking ... The big Squid had to admit that it was definitely not Fernandes 'match even if it was fighting alone!

The big cuttlefish wanted to cry but had no tears. Your mouth is so sharp, what are we still fighting for?
His head is about to explode from what you said!

He really regretted it. Why did he say those words? was it too late to take it back now?

Lin Yi was happy to see this, but Fernandes's trash talk made him speechless.

The big cuttlefish was pregnant ...

Fernandes, a talent like you should really be sent to the secular world for the Spring Festival Gala!

"Fernandes!" He said.

"Yes, Captain!"

"Shut up! Be serious and play properly!"

"Alright!"

Lin Yi really didn't want to hear the name of this "make anyone pregnant" anymore, so he told Fernandes to stop talking!

The cuttlefish couldn't help but feel grateful to Lin Yi. After Fernandes closed his mouth, the whole world was quiet again!

Its brain didn't explode as much!

Unfortunately, this didn't have much use in the battle-Lin Yi's team had already started to gain the upper hand.

Fernandes didn't relax his grip even as he spewed his trash talk.

Mike cut off one tentacle first, followed by Fernandes, who cut off the second tentacle with his big podao!

Talu's men were scared-they'd thought of the squid getting killed, but that was under the premise that it died with Lin Yi's team.

What was the situation now?

The cuttlefish was a sea beast at the beginning of its mountain-the cuttlefish that had crushed dozens of people, but Lin Yi's team kept bleeding from the left and right. It was going to be made into skewers!

What to do? Should I escape or ... I'm sorry, let's do it again. Should I escape or escape?

Talu, bobinasbi, and the others exchanged glances, and then fell into deep thought, how could Yingying escape?

Lin Yi's team was indeed fighting the squid, but the scariest Ling-zero-eight was watching from the side!

It didn't seem like it would be easy to escape from this man!

Should I surrender again? Anyway, they had already gotten used to voting!

Therefore, talu and the others changed their way of thinking almost at the same time and fell into deep thought again!

They were only entangled in the two choices of escape and surrender, but they had never considered helping the big Squid together ...

The big cuttlefish saw that things were not going well, but it remembered that there were still some cannon fodder little brothers around. In a moment of desperation, it shouted, ""Hurry up and come help!"

Talu looked up at the sky. Although he was in the underwater world, he still put on an intoxicated expression as if the weather was fine and he was in a good mood. He needed to take a deep breath.

Bobby and Nasby had a tacit understanding. One head turned left and the other turned right, as if they had discovered an extremely rare treasure at the bottom of the sea!

The remaining people looked at each other and then followed suit.

They either started to study why their nails were so black, or they searched their bodies for something but couldn't find it. In any case, there were all kinds of different appearances and there was no repetition!

As for the giant squid's order, what? What was that? I didn't hear it!

The big cuttlefish was so angry that it almost vomited blood!

He wanted to kill these traitors, but he didn't have any spare energy, so he could only threaten them in vain.

"Don't forget that you're still under my control! If I die, you're dead too! If you help me now, I'll release you from my control!"

The big cuttlefish gritted its teeth. Once this matter was over, it swore that it would kill these traitors as soon as possible!

Release the control?

When all of you are dead, there will naturally be no more control!

Someone in talu's group wavered a little, but this time, talu's intelligence went online. He sneered and said to ERBI, ""Don't listen to its nonsense. If it could really control us, it would have killed us first as a deterrent!"

"But what is it doing? You're using words to threaten us. Do you really think we're scared?"

"It's all our dirty tricks," Dale said with a disdainful smile. "The sea monsters are indeed not very smart!"

Bobby and Nasby deeply agreed. This little trick was indeed often used when they were in kirrlutz, so they didn't believe the big Squid's words.

If the giant squid had the upper hand now, they wouldn't mind adding flowers to the brocade, but unfortunately ... Lin Yi's team had the advantage now, and the giant squid was about to die.

In such a situation, he still wanted them to send charcoal in the snow?

Funny! It was already very loyal of him not to hit him when he was down!

The big cuttlefish resisted for a while. When it saw that the group of people from tallu's side did not move, its heart was completely cold. It knew that it could not count on these people!

Was he really going to die Here and become a stupid cuttlefish that delivered his inner core to his door?

"Stop struggling! Obediently accept your death!"

Mike cut off another tentacle of the big Squid with his sword. He was in high spirits and felt very refreshed."You have fulfilled your responsibility as a Whetstone. I will let you die a quick death! It won't be too painful!"

The big cuttlefish was filled with grief and indignation. A dignified expert sea beast at the mountain opening stage was actually humiliated by a group of humans at the xuansheng stage. It was simply intolerable!

Even if they died today, they would drag them down with them!

The big cuttlefish made up its mind and its body suddenly fell to the ground."I lost! You guys are really good!"

After a few of its tentacles were cut off, the big cuttlefish could be considered to have become a disabled beast among the sea beasts. On the surface, it did not seem to have much power to resist.

Chapter 7664 The Squid Exploded

Therefore, this kind of surrender seemed quite reasonable!

But in fact, the big cuttlefish's true combat power was not damaged much.

It was only playing dead and secretly preparing its ultimate move, preparing to use it when Lin Yi's team let down their guard and deactivated the formation!

Perhaps he could turn the tables in one fell swoop and wipe out all these damn humans!

"They're really jackals of the same tribe!"

Fernandes forgot Lin Yi's words again and shook his head in disappointment, "'I thought you could fight for a while, but I didn't expect you to be so useless. You surrendered after only a few moves! You taught Dale and the others, right? Or have you been led astray by talu and the others?"

The corner of talu's mouth twitched. 'You guys go ahead. Why are you dragging me into this?' He was shot even while lying down!

However, Dalu really despised the big Squid. It was so arrogant before, but it didn't expect it to be so cowardly!

He had overestimated it!

You should be more F * cking unyielding and take them down with you!

No matter what, it's still a sea beast at the beginning of its mountain-can't it have some face?

"Cut the crap. Since I've already lost, you can kill me or cut me up! Just don't humiliate me!"

The big cuttlefish put on an impassioned look and said firmly, ""You're just relying on your numbers. If you were fighting one on one, you would have been eaten up by me like snacks!"

"Yo, you're still being stubborn! What's there to be arrogant about when you're at their mercy?"

Fernandes curled his lips and waved the big podao in his hand. ""Captain, shall we kill it now? I'll go cut it open and find the inner core!"

Lin Yi didn't reply, but he squinted his eyes.

The big Squid thought that it had hidden its big moves well, but it was actually under Lin Yi's control!

Fernandes and the others might not be able to feel the unique aura of sea beasts, but in Lin Yi's eyes, it was as bright as a Lighthouse in the night!

With Lin Yi's permission, Fernandes waved his sword excitedly and laughed, "Big cuttlefish, you are so honored! You can die under my treasured saber! Do you see how dazzling the gemstones are? you've never seen them before, have you?"

"Let me tell you, this is a treasured saber passed down from the sea serpent King. Using it to cut you is like using a sledgehammer to crack a nut. So, you can die in peace, right?"

It was a rare opportunity to show off the value of the big podao, so of course, Fernandes had to show it off, but it made the big Squid very angry.

Hurry up if you want to do it!

It's also very hard for me to hold back my big move, alright?

Before Fernandes made his move, the battle formation wasn't completely deactivated. Only when Fernandes came up alone could the squid launch a thunderous attack and include Lin Yi's team!

After a long while, Fernandes finally stopped and was ready to kill the big cuttlefish. The big cuttlefish was secretly excited. It had been waiting for this opportunity!

Then, the big move that he had been holding back for a long time killed him!

Lin Yi's body flashed and appeared in front of the big cuttlefish the moment it was about to make its move. He slapped the big cuttlefish's head!

The big cuttlefish's body bounced up and suddenly rushed up dozens of meters before exploding in the air!

"Captain, why did you steal the kill?"

Fernandes felt wronged. He had bragged about how great the treasured blade was for a long time, and just when he was about to show off his brilliance, his target was gone ...

How am I going to solve my damn desire to show off?

"Can't you tell? That big cuttlefish knows that it's going to be finished, so it's preparing to self-destruct. If I didn't send it up into the sky, you guys would have been injured by its self-destruction!"

Lin Yi said with a straight face-no one knew what he was talking about anyway.

"So it wants to self-destruct and drag us down with it! You're really too evil!"

Mike showed an expression of sudden realization and said with lingering fear, ""It's all thanks to old eighth's quick reflexes. Otherwise, we would have been in real danger!"

Lin Yi only smiled, not saying anything else.

It was true that the big cuttlefish was about to explode, but it was not about to self-destruct!

It was Lin Yi's Qi that exploded the hidden move before it could even use it.

The power of that big move, after being released normally, was something that even the big cuttlefish could not resist head-on!

Now that it was erupting in the body, of course, it would suffocate the big cuttlefish to death!

"The captain is wise! You've saved us again!"

Fernandes immediately cheered for the thigh. How could it be called a head-snatching when the thigh stole the head? As long as the thigh was there, everyone's head was the thigh!

In the cheers, Fernandes did not forget to make a few handsome moves with his knife and cut the body of the big Squid into pieces. Then he made an extremely pretentious pose.

"The treasured saber is unsheathed, only returning when it sees blood!"

Handsome!

A cool expression appeared on Fernandes 'face. He felt that what he said was very good, and the style was also very successful!

This is so good! But he couldn't let anyone see it, or it would ruin his cool expression!

It was a pity that no one cheered for such a cool line and such a handsome look.

In fact, no one noticed Fernandes's act. Mike stared at a drop of blood falling from the air and used his water power to wrap it up and pull it back to him.

The water swirled gently and quickly washed away the blood, revealing the inner core of the big cuttlefish.

"Captain eight, although the big cuttlefish self-destructed this time, it was still killed by you. So, this inner core should be under your name, right?"

Mike didn't even look at the pill as he handed it to Lin Yi with both hands. "I know it's easy for you to get the inner core, but since we already have our share, please accept this one."

"Alright, then I'll take it!"

Lin Yi didn't beat around the bush. The others accepted the self-destruction of the cuttlefish, but only Lin Yi himself knew how it died, so there was nothing wrong with taking the inner core.

The key was the core of the sea beast-if he used it to make elixirs, he could get higher level elixirs. Since the team members didn't need it, Lin Yi might as well keep it for now.

Mike wanted to continue persuading Lin Yi, but he didn't expect Lin Yi to accept it. He didn't know what to say!

"Captain, what should we do with those stupid birds? We let them go just now, but they actually brought a Big Squid to take revenge on us. This is simply preposterous!"

Seeing that no one appreciated his heroic posture, Fernandes could only sheepishly put away his sword and start to find a topic to talk about. "Why don't we just kill them? In case they go and find other sea beasts ... Eh, maybe they can go and find other sea beasts!"

Who would complain about having too many high-grade sea beast inner cores?

Chapter 7665 Habitual Cowardice

"It's a misunderstanding! It's all a misunderstanding!"

Talu decisively admitted defeat and knelt down. "We were all threatened by the big cuttlefish! Everything he had said and done before was because of the threat of the big Squid! You guys must believe me, how could I possibly come and oppose you? Wouldn't that be asking for trouble?"

"Boss talu is right. We were all forced to come here. We didn't want to go against you. The facts have proven that going against you will not end well!"

Bobby, Nasby, and the others followed suit, each of them kneeling and begging for mercy.

In the blink of an eye, talu and his men were all kneeling. No one was still standing!

Surrendering had already become a habit anyway. As long as he could keep his life, what was the harm in surrendering again?

"Fernandes, send them away! It would be a good thing if we could lure more high-level sea beasts over!"

Lin Yi waved his hand casually, too lazy to bother with the tallu gang.

"Yes! Captain!"

Fernandes bowed in agreement. When he turned to talu and the others, he instantly straightened his back and said proudly, ""You're lucky that our Captain is kind and willing to let you live. Remember, lure some high-level sea beasts here!"

Talu and the others nodded in agreement, but they were cursing in their hearts.

Were high-level sea beasts that easy to attract? If they were not careful, they would become their snacks!

After all, it was rare to see a high-level sea beast like the big Squid!

If they encountered a smart sea beast, it would directly eat them. How could they be tricked into giving them their inner cores?

"All of you, come and thank our Captain for his generosity, then you can get lost!"

Fernandes waved his hand proudly. "It will be the most glorious moment of your lives to express your gratitude to our Captain in person. It will be the capital for you to show off in the future. Be serious!"

Talu almost blurted out, "I don't believe you!"

How could surrendering and thanking someone for not killing you be used for bragging? Don't I care about my face?

However, on the surface, he could only nod and bow respectfully, squeezing out a smile and saying, ""Yes, yes, yes! What you said makes sense, Fernandes. It's our honor!"

He had no choice. The fist was big, so whatever he said made sense!

"Captain number eight! I sincerely thank you! Thank you for letting us go again and again! I promise ..."

Talu tried his best to thank Lin Yi humbly, but Lin Yi interrupted him with a wave of his hand.

"Alright, your promise is worthless! If you want revenge, you're welcome to do so at any time, so hurry up and get lost! Don't delay things here!"

Lin Yi's words were very direct-takjue should've felt humiliated, but now he felt like he'd heard a God's music!

He wasn't displeased at all-he was happy, in fact. He thanked Lin Yi again and left with his men, afraid that Lin Yi would change his mind.

"Everyone, continue harvesting pearl shells. Increase your speed!"

Lin Yi didn't bother with the group of stray dogs at the tower Road, urging his team members to finish their unfinished work.

After the battle with the giant cuttlefish, the strength of the small team had been verified. The battle formation formed by twelve people was already strong enough to shake a sea beast in the mountain opening stage.

This had already reached Lin Yi's expectations.

And so, in the next harvesting process, Lin Yi used his spirit sense to help out a little, increasing the team's speed by several times. Soon, they'd finished all the pearls.

After finishing the Pearl shell, Lin Yi's team had a great harvest.

Saint soyatu still hadn't shown up, so the test probably wasn't over yet. Lin Yi continued to lead the group.

Soon, Lin Yi's team encountered a group of bats at the xuansheng stage.

It was a kind of underwater creature that looked like it had wings. Some people also called it a Stingray.

There were about 60 to 70 Stingray in total, and they were slightly different from ordinary manta ray. Not only were they larger in size, but they also had natural skull stripes on their abdomens.

From below, it looked like a group of winged skulls were swimming in the sea.

"Captain, there are so many inner cores again! Are we still following the old rules?"

Fernandes's eyes lit up. He grabbed the handle of the big podao and said, ""Everyone, let's attack together and deal with them!"

"Same old rules, you guys form a battle formation!"

With that, Lin Yi stepped back to the side to watch the show. The team members formed up and attacked the school of Devil Fish.

These Stingray weren't weak, and there were many of them. They weren't afraid of Lin Yi's team of twelve humans.

Therefore, after being provoked, they immediately launched a counterattack!

The two sides collided together, and the situation was actually evenly matched!

Fernandes and the others were full of confidence that they could kill the big Squid during its opening period. They felt that there would be no problem in taking down this school of Stingray.

In the end, he did not expect the Stingray to be so tough.

They didn't have a battle formation, but they knew how to advance and retreat, and their teamwork was great. Lin Yi's team couldn't do anything to them!

After two to three minutes of attack, the school of Devil Fish seemed to be getting impatient, and the skull on its abdomen began to move.

Those malevolent skeletons' mouths actually opened and closed non-stop, emitting waves of soul-stirring sounds from within!

Lin Yi's team froze, and even Fernandes and the other four strongest members were shaking!

A divine sense attack!

Lin Yi was surprised. He didn't expect these Stingray to have a natural ability to attack the spirit sense of the team members!

Fortunately, there was no warning in the Jade space, which meant that although this kind of spiritual sense attack would affect everyone, it would not cause any fatal danger!

It was just that it was a bit difficult for Fernandes and the others to continue fighting in their current state!

He could not even hold his sword steadily, and he did not even have the ability to resist the attacks of the school of Devil Fish!

As expected, the school of Devil Fish swarmed up and surrounded Lin Yi's team after launching the spiritual attack.

Lin Yi sighed. It seemed like he had to do something.

With a flash, Lin Yi appeared in front of his team members, raising his hand and slapping the school of Devil Fish!

A silver light appeared in his palm, and lightning flashed. The devil ray that he encountered first twitched and fell straight down while emitting black smoke.

The exploding lightning arcs continued to flash and jump, like chains, darting towards the other Stingray.

Because of their tight formation and the fast movement of the lightning arc, almost at the same time as the first Stingray was hit, all the other Stingray were also hit!

Crackling!

In the blink of an eye, all the Stingray were charred on the outside and tender on the inside. They could be directly served on the table as barbecue skewers with iron skewers!

"The captain is mighty!"

Fernández came back to his senses from the attack of the divine sense and immediately gave a thumbs up. "You killed a group of stingray fish with a single slap. Captain, you're indeed crushing them without any suspense!"

Chapter 7666 Tattletale On Tower Road

"It's a good thing that you've given us all the chances along the way. If you were the one doing everything, we wouldn't even be here!"

"To be honest, how can your lightning power be so strong?" asked Mike. A casual strike is already so terrifying. If you get serious ... It seems like you won't even have the chance to get serious!"

"What could there be that Captain needs to be serious about? These Stingray are just a bunch of scum in the captain's eyes!"

Fernandes spoke for Lin Yi proudly, "If it wasn't to save us, the captain wouldn't even need to make a move. He could kill them with a single glare!"

"Alright, let's take out their inner cores!"

Lin Yi waved his hand, "with these Stingray, everyone should have quite a lot of inner cores. This level should be over soon!" Since there's still some time, let's go to other places and see if there's anything good!"

There were even stronger sea beasts within the range of his spirit sense, but Lin Yi didn't plan on harvesting their cores.

This floor might be under Central's surveillance, and provoking a new-stage or even higher-level sea beast wasn't in Lin Yi's plan.

Of course, for sea beasts like the big cuttlefish, if they encountered one that was alone, they could let the small team practice again.

Just as they were speaking, a ball of light suddenly erupted in the distant sea, and a pillar of light shot down from the sky. Even though it was very far away, it could still be seen clearly with the naked eye.

"Captain number eight, that direction ... Is that where we came in?"

Mike scratched the back of his head, a little uncertain. "It seems right? The place where the prompt text is!"

"That's right. It looks like the passage has opened again. Saint soyatu is coming!"

"I was just saying that this floor was about to end, and it's coming true!" Lin Yi nodded.

Lin Yi didn't believe that central wasn't monitoring this floor!

Perhaps Saint soyatu had heard Lin Yi's words and decided to open the path.

"Captain, should we hurry over or continue to stroll around other places?"

Fernandes felt a little regretful. It was very interesting to hunt sea beasts in this ancient sea beast battlefield, and his strength improved quite quickly. He really hoped that he could stay longer.

"Let's return! If we miss the time to leave, we'll be in trouble if we're stuck on this floor!"

Lin Yi didn't think too much about it and led his team towards the pillar.

Not long after he left, he saw that ta Lu and his gang had also obtained a batch of xuansheng-stage sea beasts 'inner cores.

However, these inner cores were not obtained by ta Lu's group from hunting. Instead, two groups of sea beasts had a conflict and died in an intense battle. Ta Lu's group, who was hiding on the side, took advantage of the situation and reaped the benefits!

The rules didn't allow them to snatch the sea beast's inner core anymore. To be able to do this at the last moment, the luck of talu and the others couldn't be considered bad!

Lin Yi didn't notice it before, and he didn't know if tallu and the others got their neidan first or if the light pillar appeared first. Maybe it was because everyone got their neidan, so the light pillar appeared?

After a while, Lin Yi's team and ta Lu's team returned to their original positions at about the same time.

The pillar of light was still there, and Saint soyatu had indeed arrived.

"We meet again. I'm very happy to see you all again."

A perfect smile appeared on Saint soyatu's face as he turned to Lin Yi after a broad greeting. "Eighth brother, your performance is still so stable, so stable and excellent! And in terms of combat, they've all improved quite a bit!"

"You're overpraising me, soyatu! We've passed the seventh level?"

"I didn't think the seventh floor would be over in such a short time!" Lin Yi smiled faintly.

"It's all because you're too outstanding, you've exceeded the quota!"

Saint soyatul laughed and said, ""Now, take out your harvest! I'll do a count, and then I can send you to the eighth floor!"

Talu thought that Lin Yi's group didn't have many people, but they did have a lot of inner cores-there were dozens of pearl shells!

If they let Lin Yi's team take it out first, it'd be a bit embarrassing for them to get their lucky cores-they had to take it out first!

"Lord Holy envoy soyatuo, this is the inner core of a sea beast that I've obtained. Please have a look, Lord Holy envoy!"

Talu had two ocean beast inner cores. Although he had a big advantage because he had a lot of people in his team, he only had two left after each of them had taken one.

Of course, these two sea beast inner cores were the best of all the inner cores he had picked up!

Bobby and Nasby also took out two sea beast inner cores each. The quality and grade were slightly lower than that of Talu. The remaining people only had one sea beast inner core each.

If he was not afraid of these people rebelling, Talu would have taken all the inner cores!

"It's alright, thank you for your hard work!"

Saint Soyatu glanced at them indifferently and kept all the inner cores into his storage bag. Then, he said indifferently, "You may withdraw! You guys barely pass!"

Talu immediately heaved a sigh of relief. He didn't care if it was forced or not, as long as he passed!

One inner core of a sea beast was considered a pass, but he had two, and they were the two with the highest grade. No matter how he looked at it, it should be a good result, right?

"Eighth brother, take out your harvest as well!"

When Saint soyatu turned to Lin Yi, his face melted like ice, revealing a warm smile like a spring breeze. "Your performance has always been outstanding. I'm full of anticipation!"

Dale thought to himself, "the big cuttlefish's inner core is at the beginning stage of its cultivation. That bastard Ling-zero-eight will definitely win the favor of the Saint. It will be even more difficult to slander him in front of the Saint in the future!"

Lin Yi smiled faintly and nodded, signaling for the others to take out their cores.

The big starfish, pearl shell, Devil Fish, and other xuansheng stage sea beasts had contributed more than 120 inner cores in total. When they were distributed to each person, it was exactly ten for each person!

Lin Yi kept the rest for safekeeping, and he decided to take them out as his own.

As for the core, Lin Yi didn't take it out. If Saint soyatu had been monitoring them, he should know about this!

So Lin Yi wanted to use this chance to test the waters, to find out if central could monitor the entire process, or if they could observe the situation on and off. This would be of great help to their future operations.

"What an excellent team! It was a great harvest! Amazing!"

Saint soyatu laughed heartily as he saw Lin Yi's team take out so many cores. "Eighth brother, you're really an amazing team leader. Under your leadership, the combat power of these team members is simply amazing!"

Chapter 7667 No One Believed

Lin Yi frowned slightly. This reaction ... Didn't she know about the big cuttlefish core?

The center can't completely monitor the seventh floor, or it can't at all?

Or was soyatu pretending to be stupid, and he actually knew about this but deliberately didn't mention it?

The result of the test was actually equivalent to nothing. If only Saint soyatuo had more reactions!

"Lord Holy envoy! Ling-zero-eight also has a mountain-opening cuttlefish inner core. He deliberately hid it and didn't report it, wanting to steal it for himself!"

Talu was thinking that he couldn't use Saint soyatu against Lin Yi anymore when he saw Lin Yi trying to hide the core. His brain twitched and he started complaining instinctively!

Bobby and Nasby instinctively took two steps back and widened the distance between them and tallu!

It was obvious that Holy envoy soyatu valued Ling-zero-eight more, and yet you still wanted to complain to his face. Did you want to die faster?

It was really tiring to follow such a Big Boss! They had to worry about their lives being implicated at all times!

Lin Yi chuckled inside-soyatu's reaction wasn't fast enough, and tallu's help came in!

It seemed that letting this good-for-nothing go wasn't completely without benefits. At least in this matter, his bad intentions had done a good thing!

"Eighth brother, is there such a thing?"

A slightly surprised expression appeared on Saint soyatu's face, as if he knew nothing about the giant squid's inner core. ""Your team already has the ability to hunt sea beasts during the mountain opening stage? Isn't he too powerful?"

Talu almost vomited blood. "Your Excellency, are you focusing on the wrong point?"

They shouldn't be questioning Ling-zero-eight about why he hid the giant cuttlefish inner core, and not lamenting about their team's strength, right?

"What are you saying, tallu? I don't understand a single thing!"

Lin Yi shrugged innocently-he'd just have to go all out! If soyatu was acting, then he should play along with him!

"Soyatu, do you think I'd hide the inner core of a sea beast and not give it to you? To be honest, the big cuttlefish that talu mentioned ... I just want to ask, what does a cuttlefish look like? Is it an octopus?"

Dale was furious."You're too good at acting. You killed the big Squid, and now you're asking what the big Squid looks like?" Was it still an octopus? Octopus your sister!

Can you stop acting like you can't tell the difference between a squid and an octopus? Do you want me to explain the difference between the two?

"Hahaha, eighth brother, you really know how to joke! Of course, a cuttlefish is not an octopus. The two are different!"

Saint soyatu laughed loudly, finally having the time to explain to Lin Yi."Of course, many people think that squids are octopuses. In fact, they are very different. If you are interested, I can explain it to you."

"Forget it, soyatu. You're quite busy, so why waste your time on such a small matter? I'll find someone to do some research on my own!"

Lin Yi waved his hand with a smile, rejecting the saint's suggestion. "Tallu, you said that I hid the inner core of the big cuttlefish. Do you have any evidence to prove your words? Or do you want to have soyatu search my body?"

The big cuttlefish's inner core had been stored into the Jade space. If Saint soyatu really wanted to search him, he would not be able to find a single cell tissue of the big cuttlefish!

"Tallu, are you tired of living? How dare you make things up in front of Saint zoatul and use such baseless words to frame our Captain? do you really think that I don't dare to kill you?"

Fernandes's eyes widened, and he stared at tallu with a fierce look. "Apologize to Saint soyatu and our Captain immediately, and I'll let you go. Otherwise, don't blame me for killing you on behalf of our Captain!"

"Fernandes, don't be impatient!"

Lin Yi raised his hand and gestured for Fernandes to calm down. "Look, soyatu, my team members also said that this is a Tower Road that came out of thin air, and it can't be trusted! If you're still worried, you can ask the people on the tower Road for their opinion. "

As he spoke, Lin Yi paid attention to the minor expressions on the saint's face, trying to see if he was putting on an act.

"Yes, yes, yes! Your Excellency, Fernandes is one of Ling-zero-eight's men, so he will naturally speak for him. If you want to know the truth, you have to listen to the words of our people!"

Talu's eyes brightened, thinking that Lin Yi had made a mistake. He quickly turned around. "Nasby, Bobby, quickly tell what you saw to the Saint. Also, tell everyone else, did Ling-zero eight kill the big cuttlefish during the mountain opening stage and take its inner core?"

Bobby and Nasby quietly looked at each other. They knew that things were impossible, so they didn't want to be buried with talu!

"Lord Holy envoy ... There's actually no such thing as a cuttlefish during the mountain opening period! Naturally, Ling-zero-eight and the others didn't get the big cuttlefish's inner core either!"

Bobby showed an ingratiating smile and humbly bowed. ""It's probably because our boss talu was injured, so he's not in his right mind. Also, a few of our brothers died just now. Boss talu is sad and has some hallucinations. It's reasonable, right?"

Tallu's eyes widened in shock. He couldn't believe that this was what Bobby said!

I'm very clear-headed, why am I not in my right mind?

And sad for his dead brother? Who are they? I don't know him at all!

Moreover, those were cannon fodders. If they died, so be it. What was the big deal?

Nasby was not willing to fall behind, and he quickly said, ""That's right, that's right. Our boss talu is seriously injured, so it affected his thinking ability. Please forgive him, Your Excellency!"

"You two are traitors! How could he lie through his teeth? You all know the truth, so why are you doing this to me?"

Dalu burst into tears and rushed over, wanting to hug Saint soyatu's thigh. "Lord Holy envoy, they're all talking nonsense. Don't believe a single word they say! You must believe me, I'm telling the truth! Lord Holy envoy will definitely be able to distinguish right from wrong, believe me!"

"Do you mean that if I don't believe you, then I can't tell right from wrong and am confusing the public?"

Saint soyatu raised his eyebrows slightly and kicked aside tallu, who was trying to hug his thigh. He said coldly, ""Talu, I'm warning you. If you dare to talk nonsense again, don't participate in the next trial. I'll personally send you to the mental hospital!"

Talu's heart immediately turned cold. He knew that Saint soyatu would protect Ling-zero-eight, but he didn't expect it to be to this extent!

Not only did he not pursue the matter of the inner core, but he also turned around to deal with him?

Where was the Justice in this world!

"Yes, Your Excellency! I was wrong, I won't dare to do it again!"

Talu screamed in his heart. Then, he admitted defeat and apologized.

Saint soyatu waved his hand impatiently, shooving him away as if he was shooving away a fly!

He turned to Lin Yi with a smile, "eighth, don't lower yourself to the same level as an injured person. He's a confused person, after all. It's useless to talk to him!"

Chapter 7668 Automatically Refining Pills?

"Don't worry, Saint soyatu. I've always been a magnanimous person who easily forgives others!"

Lin Yi smiled faintly, as if he were the incarnation of a Saint.

When talu and the others heard this, they could only purse their lips and shout in their hearts, "F * ck, I don't believe you!"

"I believe you! You're indeed a magnanimous person, eighth brother. Otherwise, these trash would have all died long ago!"

Soyatu laughed and casually changed the topic. "Your results are very outstanding. You will have special treatment in the next level. You should keep these sea beast inner cores for yourself. They might be useful in the next level!"

Lin Yi's team's inner cores had all returned, but there was no movement from the tower Road.

Talu wanted to ask why they didn't have their inner cores, but he didn't dare to.

At a time like this, he just wanted to disappear completely, as long as he didn't let Lin Yi or Saint soyatu see him!

"Alright, I'll say the same thing again. I hope to see all of you on the next level!"

Saint soyatu smiled and waved at Lin Yi, saying goodbye to everyone in Lin Yi's team as well.

After Lin Yi's team entered the pillar, it was ta Lu's turn.

Seeing talu's cowering appearance, Saint soyatu was furious.

They were both individuals, so how could the difference be so great?

Lin Yi was a Dragon in the abyss, but he'd fly up to the sky in a day, while tallu Xuanji was just mud on the wall!

"Lord Holy envoy ..."

Seeing that Saint soyatu was looking at him, talu could only smile and try to please him. ""I really didn't ..."

"Shut up!"

"Shut up!" Saint soyatul shouted coldly. "You're a piece of trash, so what excuses do you have?" I'm so disappointed in you!"

For a moment, Dale did not know what to say, but he did not dare to enter the light pillar without permission, so he stood there awkwardly.

"What are you standing there for? Do you still want me to reward you?"

Saint soyatu lifted his leg and kicked, causing tallu to stagger. ""All of you, get inside!"

Ta Lu almost fell to the ground. He finally stabilized his body and did not dare to delay. He rolled and crawled into the light pillar and entered the transmission channel.

The others kept quiet out of fear. They lowered their heads and quickly followed behind, trembling.

Saint soyatu looked at the empty pillar of light and sneered in a low voice. "A bunch of trash. If the last level still had any value, I would have sent you to die! I hope you can use your remaining value to buy your lives ..."

At the same time, Lin Yi's team finished teleporting and appeared on the 8th floor. Ta Lu and the others were still not here.

They had thought that the eighth and seventh floor would be similar, but they did not expect to see an extremely large room in front of them.

The style of the room was extremely sci-fi, like a super modern laboratory.

There were all sorts of advanced equipment and monitors here, as well as many researchers in white coats, all busy with their own things. They weren't surprised at all by the sudden appearance of Lin Yi's team.

It was like Lin Yi's team was supposed to be here!

"Captain, is this the eighth floor of the nine level glazed Pagoda? Why do I feel like I'm in the world's most advanced Scientific Research Institute?"

Morris had probably come into contact with such things, so he was more surprised than the others, ""But the things here seem to be decades more advanced than the most advanced technology in the world ... Could this be an alien base?"

"Morris, do you mean that these people are all aliens? Wait a minute! Maybe he was kidnapped by aliens to be a Coolie and also a research target?"

Fernandes began to think. ""Do you think the aliens are stronger than us? I don't think so. They mainly rely on technology. Maybe I can take down an entire spaceship of them by myself! Don't fight with me when the time comes!"

Just as he said a few words, the group from tallu began to appear. This time, the teleportation did not separate them, and everyone gathered together.

"Welcome to our laboratory!"

After everyone had been teleported, two people in white coats appeared in front of everyone. One of them smiled and said, ""I'm Dr. Benjamin III, and this is Lin boliang, my assistant. If you have any questions, please keep them in mind. Please follow us!"

Lin Yi looked back and forth between the two, feeling a little weird but couldn't put his finger on it.

Banjimin III turned around first, and Lin boliang followed him. He led everyone into a metal door.

The people in white coats around them turned a blind eye to what was happening, as if everything that was happening here was air. No one took a second look.

After passing through the metal door, they arrived at an empty metal Hall. It was large enough to accommodate thousands of people without feeling crowded.

There were less than a hundred people on both sides of the tower Road and Lin Yi, and the hall was especially empty after entering.

Apart from the hundreds of human cauldrons in the center, there was nothing else in the hall.

"Alright, everyone can see those automatic pill furnaces, right? Next, you will need to stay here and refine pills to increase your strength!"

Ban Jieming the third turned around and clapped his hands. ""Don't worry about whether you can successfully refine the pill or not. You already have a strong enough Foundation. As long as you can successfully activate the pill fire, refining the pill will be extremely easy!"

"Everyone noticed, right? As I mentioned earlier, these are automatic pill-refining cauldrons. With a pill fire, they will refine pills on their own. What you all need to do is very simple. Ignite the pill fire, refine pills, and increase your strength!"

"As long as I complete it well, I can pass the eighth level and enter the ninth level!"

Lin Yi's face didn't change, but he was extremely confused. What was central trying to do? To cultivate a group of people from scratch and then let them refine pills?

With an automatic alchemy furnace in his hands, why go through so much trouble? Wouldn't it be fine to just randomly find a group of people who could stimulate pill fire to refine pills?

"Next, assistant master Lin boliang will teach you how to activate the pill fire to refine pills. Everyone, please listen carefully!"

After saying this, ban Jieming III turned slightly to Lin boliang and made an inviting gesture. "Assistant master Lin, I'll leave the rest to you!"

"No problem, doctor, don't worry! I won't make any mistakes!"

Lin boliang smiled and nodded. He took a step forward to face everyone. "Today, I'm going to teach everyone how to use divine sense to condense a pill fire. This pill fire is called divine sense pill fire, and it's an essential pill fire for refining some pills!"

Consciousness pill fire?

Lin Yi knew this the best-the ancient martial world's Arts used the consciousness fire to make elixirs, while Sky Class island only used Qi fire. Many elixirs that needed both fires were lost on both sides.

Chapter 7669 Who Still Wants To Quit?

"To condense a consciousness pill fire, one's primordial spirit must first be strong enough to bear the burden of transforming consciousness into a pill fire ..."

Lin boliang began to explain. He spoke at a moderate speed and was very organized, so that people could understand it as soon as they heard it.

But Lin Yi was getting more and more confused. The consciousness refinement fire Lin boliang was talking about wasn't the same as the one Lin Yi knew before!

Although this method could also successfully condense a consciousness pill fire, this kind of consciousness pill fire was very unstable. If one's control was not good, it was easy to hurt themselves!

However, on the other hand, this kind of unstable consciousness pill fire could be used to refine pills at an unexpectedly fast speed. However, whether it could be successfully refined into a pill still depended on the user's ability to control it.

The automatic pill furnace could balance it, but it couldn't completely eliminate the abnormality of this spiritual sense pill fire.

"Alright, that's all for the method of stimulating the consciousness pill fire. Although it's a bit difficult, I believe everyone can do it!"

With a smile on his face, Lin boliang said unhurriedly, ""Now, let's try to activate the consciousness pill fire!"

Talu listened very carefully. After Lin boliang finished, he began to try to stimulate the consciousness pill fire. He thought it would be difficult, but it was unexpectedly easy.

In his first attempt, ta Lu successfully activated a trace of consciousness pill fire!

"Hahahaha! I've succeeded! Dr. Benjamin III, and Lin boliang, your assistant, look! I've succeeded!"

Dale was excited and felt that he could finally hold his head high. "This is a consciousness pill fire, right? I succeeded, didn't I?"

"That's right, you've succeeded! Well done!"

Lin boliang nodded slightly, and the expression on his face didn't fluctuate much, ""Continue, stabilize the consciousness pill fire, and then increase the output of consciousness!"

Ta Lu didn't dare delay and followed Lin boliang's instructions, not forgetting to sneak a glance at Lin Yi's team.

No one on the other side had successfully activated their consciousness pill fire, so ta Lu became more and more proud.

They finally beat Lin Yi's team for once!

Just as talu was sighing in his heart, a shrill scream suddenly came from his team.

Ta Lu was shocked, and his consciousness pill fire shook violently, almost extinguishing.

He subconsciously looked back and found that one of his subordinates was covered in illusory flames. After letting out a scream, he quickly fell to the ground and disappeared from the inside out.

Lin Yi's eyes narrowed-this was within his calculations, but he didn't expect it to be this fast!

In the method taught by Lin boliang, those who couldn't successfully trigger the spirit sense pill fire had a certain chance of hurting themselves. The poor guy who Played with Fire was obviously in a more serious situation.

"Don't worry, everyone. As long as you strictly follow the method taught by assistant master Lin boliang, there will be no danger. This is just an accident! He must have made a mistake somewhere!"

Ban Jieming III smiled and said,""Therefore, everyone must be even more careful from now on and not make any mistakes! What you're holding in your hands isn't the consciousness pill fire, but your lives!"

Professor Benjamin III ... Can ... Can we not do it?"

A skinny man in talu's team seemed to be frightened. He trembled and said, ""I think it's good enough now. I don't need to improve my strength anymore ... So I want to quit!"

Although he was the only one who said that, a few people around him showed a look of deep agreement.

As long as ban Jieming the third agreed, they would definitely follow up and quit the game!

However, before banjamin III could speak, Lin boliang, the assistant coach, raised his hand and snapped his fingers.

A hot beam of light as thick as an index finger shot out from a corner of the hall and pierced the forehead of the person who wanted to retreat!

The person who was pierced in the forehead didn't even know what had happened. His face still maintained the same expression as before, and he fell straight down, causing a panic and commotion in the surroundings.

"Anyone else who wants to quit, just say it!"

Lin boliang withdrew his hand as if nothing had happened and put it into the pocket of his white coat. He glanced at everyone indifferently, ""If no one wants to quit, then let's continue!"

"You dare to kill! I'm going to kill you!"

The other man beside the man who was killed probably had a very good relationship with him. After he came to his senses, he was filled with grief and anger. He raised his weapon and tried to rush towards Lin boliang to avenge his friend or relative!

It was a pity ... He had thought that the strength of a xuansheng stage cultivator was very impressive. However, in this place, it was actually nothing!

This time, Lin boliang didn't even need to snap his fingers. Another beam of light accurately shot the man's forehead. Even though he had tried his best to Dodge, it was still useless!

"Idiot!"

Lin boliang commented indifferently and his eyes swept across the crowd again, ""Who else is there?"

He looked calm on the surface, but he was extremely domineering!

Lin Yi didn't know why, but he really wanted to slap this guy in the face ... But his rationality overcame that impulse-now wasn't the time!

"No one wants to quit, right? Then let's continue!"

Lin boliang waited for a few seconds and said to talu, ""These are your people, right? Control them well and tell them that if you can do it, there's no reason they can 't!"

"Yes, yes, yes! I'll definitely discipline him!"

Talu hurriedly nodded and agreed. He carefully smiled, but he was very depressed in his heart.

What did he mean by "if I can do it, there's no reason they can 't?" Do I have to be worse than them?

I'm the F * cking boss, isn't it normal for these underlings to not have as much talent as me?

Unfortunately, ta Lu only dared to curse in his heart. He did not dare to argue with Lin boliang. That fiend would kill people with light beams without even a chance to resist!

I can't afford to offend you!

"Did you hear the words of the assistant? Raise your spirits and do it well! Otherwise, if you die, you can only blame yourself for not being able to live up to expectations!"

When talu turned around, his face immediately changed and he said arrogantly, ""Learn from me, your boss! It was so easy and pleasant to use the consciousness pill fire!"

"Boss talu is mighty!"

The underlings could only pinch their noses and flatter, and then began to try to stimulate the consciousness pill fire with fear.

Ta Lu was very pleased with himself, but he saw that Lin Yi's team wasn't moving. His eyes moved, and he felt that his chance had come!

"Hahahaha, what's the matter with you guys? Why aren't they moving? Is it because you're afraid of self-immolation, or is there no way at all, and no one can control the consciousness pill fire?"

Talu laughed and hooked his finger triumphantly. "Why don't you all acknowledge me as your boss and I'll teach you some experience?"

Chapter 7670 A Problematic Relationship

"Talu, do you mean that your experience is better than that of Lin boliang 's? Should we call you assistant Talon instead?"

Fernandes sneered. Even if you tie the two of them together, I won't be afraid!

I, Fernandes, all-mouthy King!

Talu was suddenly stunned. His face turned red, and he peeked at Lin boliang with some horror in his eyes. He was afraid that Lin boliang would really think that he was finished!

Fortunately, Lin boliang didn't seem to pay attention to the conversation over here. His eyes were always on those who tried to stimulate the consciousness pill fire!

After secretly heaving a sigh of relief, talu immediately lowered his voice and said, ""Fernandes, don't think that such a low-level provocation will work. Do you think people with your IQ can speculate about the adults?"

"I'm not trying to say this, but your combat power may be stronger than ours, but your talent in conflagrated knowledge is not even half as high as mine!"

Ta Lu was a little proud when he mentioned the consciousness pill fire. He slightly shook the wisp of consciousness pill fire in his palm. "Hurry up! Don't fall too far behind! A friendly reminder, be careful not to burn yourself to death!"

"Only idiots like them would play with fire and burn themselves by following a useless boss like you. We have the captain, so we can do anything we want!"

Fernandes laughed arrogantly. "It's a pity that a piece of trash like you doesn't even have the right to carry the shoes of our Captain. You want to join us? we don't want you!"

Talu was instantly enraged!

But what he said was the truth, and there was no way to refute it!

I'm so angry, I'd better not talk to this bastard Fernandes!

"It's useless to talk about how powerful you are! Let's get the consciousness pill fire out first!"

Dale decisively changed the topic and raised his head proudly. "If you can't make a conflagrated knowledge sea pill fire, you're the trash!"

After saying that, he was afraid of Fernandes's continued rebuttal, so he immediately turned around and walked back. It was not easy for him to get an advantage, so he had to retreat quickly!

"Fernandes, don't worry about the tower first!"

Lin Yi waved his hand and used voice transmission to communicate with the team members. "Don't show any strange expressions. I'm talking to you now. You don't have to answer me, just listen to me carefully!"

"There are some problems with the method of condensing the spirit sense pill fire that Lin boliang taught me. Don't be in a hurry to try to activate your consciousness pill fire!"

"There's one more thing ... Forget it, let's not talk about it for now. Everyone, pretend to be studying the consciousness alchemic fire!"

Lin Yi originally wanted to let the team members observe Lin boliang and ban Jieming the third in the dark, but he changed his mind after thinking about it.

Lin Yi didn't know why, but he felt that the two of them were a little weird!

It was said that Dr. Benjamin III was the leader, but the right to direct everything seemed to be in the hands of assistant Lin boliang!

But it wasn't too obvious, and Lin Yi decided to pay more attention to it.

Fernandes and the others heard Lin Yi's words and immediately maintained their calm expressions, not revealing any flaws.

After all, Lin Yi was a mysterious existence in their hearts, and it was understandable for them to do anything magical!

And then, they acted as if they were trying to figure out how to activate the conflagration, but they still couldn't figure it out.

After Lin Yi gave his instructions, he started to study the method of condensing the spirit sense and refinement fire Lin boliang taught him.

As far as Lin Yi was concerned, this method had a huge flaw, but it wasn't completely useless!

Lin Yi knew how to get rid of the weeds and keep the fine ones-it wasn't difficult at all!

Very quickly, Lin Yi realized that this method of refining the consciousness fire could be combined with the previous method. When the two were combined, it would even form an even more perfect refining method!

The activation speed was faster, the consumption of spiritual sense was less, and the degree of control was more precise and exquisite!

Compared to the previous condensation method, it was like the leap from mobile phones to mobile phones in the 1990s!

He didn't know if he could upgrade it to a smart phone in the future, but he felt that with this new spirit sense refinement fire, he had a high chance of successfully refining pills without the help of an automatic refining device!

"Everyone, pay attention. I have slightly improved the method of condensing the consciousness pill fire. Now, I will teach it to you. You just need to cultivate according to this method!"

Lin Yi communicated with his team members and started teaching them how to properly form the fire.

Of course, what Lin Yi taught them was the simplified version. The spirit sense refinement fire wasn't as good as the original, but it was easy to understand. As long as one had spirit sense, they could successfully activate it, and the effect was only a little worse.

Moreover, the biggest advantage of the simplified version was that the spirit sense pill fire that was urged in this way was exactly the same as the spirit sense pill fire that Lin boliang had taught him!

Even if Lin boliang was watching from the side, he probably wouldn't be able to see anything!

At this time, in talu's team, there were more than 30 people who successfully urged the spiritual elixir fire, including the leaders such as Bobby and Nasby.

At the same time, there were two unlucky people who were burned to death by his own consciousness pill fire!

"Why didn't any of the people that soyatu said to focus on succeed?"

Ban Jieming the third looked at Lin Yi's team and frowned. "It's been quite some time, but these people have no reaction at all. Is there a problem?"

"Let's wait and see! Maybe one of them will succeed soon!"

Lin boliang glanced at Lin Yi's team indifferently before turning his eyes back. "There are many people here who can successfully activate the consciousness pill fire, but there are still many people who haven't succeeded. Don't worry!"

"That's true! I just feel like they're letting down soyatu's recommendation. "

Benjamin III nodded slightly and looked at talu. ""This person's consciousness pill fire is almost stable, should I let him start refining first?"

Lin Yi had been paying attention to the movements of ban Jieming the third and Lin boliang, and he was getting more and more confused by the conversation.

From ban Jieming III's tone, it seemed that he was asking Lin boliang for instructions. What was the relationship between the two?

Who was the leader?

On the other side, tallu was also paying attention to the conversation between ban Jieming III and the others, and he could not help but feel happy.

"Professor Benjamin III, and assistant master Lin boliang, don't expect too much from them!"

Ta Lu took the chance to mess with Lin Yi's team, "With their looks, I don't even need to ask to know that they're people with no talent! The consciousness pill fire is clearly not something that just anyone can play with!"

"In any case, we're here. If you need to refine any medicinal pills, just tell us! With our talent in conflagrated knowledge, that's not a problem!"
