

## Bodyguard 7671

### Chapter 7671 Fight For Inner Core

It was rare for them to be able to beat Lin Yi's team, and ta Lu felt so proud that he straightened his back!

In any case, there were more than thirty people on his side who had successfully triggered the consciousness pill fire!

Lin Yi's team, on the other hand, didn't have a single one!

Therefore, tallu was very happy!

"Your consciousness pill fire is still okay, then go and try to refine pills!"

Lin boliang nodded slightly and casually picked an automatic alchemy furnace for ta Lu. ""The herbs have already been put in here, and the pill recipe has also been inputted. What you need to do is to continuously and steadily supply the spirit sense pill fire, understand?"

"I understand, I understand! I'll definitely complete the mission!"

Talu was immediately overjoyed. He nodded and promised, ""Assistant Lin, don't worry. Leave everything to me, talu. I'll definitely do it well!"

"I hope so!"

Lin boliang nodded noncommittally, ""The pills concocted from this pill formula can be used to increase the strength of a xuansheng stage cultivator. If you succeed in refining this pill, the first person to benefit will be you! Also, if you have the inner core of a sea beast at the xuansheng stage, you can add it to it. The effect will be even more perfect!"

Talu was slightly stunned, not knowing whether to be happy or sad.

A successful alchemy would increase one's strength, but the inner cores of sea beasts ... There wasn't a single one!

On the other hand, everyone in Lin Yi's team had at least ten xuansheng stage beast cores. Saint soyatuo didn't even take a single one!

"Fernandes, take out your sea beast inner core! As long as I succeed, I can give you some medicinal pills as a benefit!"

Dale felt confident, so he turned around and walked to fernández. He raised his chin arrogantly and said, ""In any case, you have no use for those sea beasts" inner cores. You can't even activate your spirit sense pill fire, so you're not qualified to refine pills. I'm doing you guys a favor!"

"Get lost! I don't have time for your nonsense!"

Fernandes glared at Dale impatiently. "A waste like you, whether you can refine pills or not is still uncertain, don't think that you're amazing just because you can produce a consciousness pill fire, when the time comes, you might even refine yourself to death!"

"Fernandes, don't be so shameless! This isn't a place for you to show off your might!"

"The professor and the assistant are watching," Dale sneered, "believe it or not, a beam of light will kill you!" It's no different from killing a mouse!"

"Aiyo, you scared me to death! I'm really scared!"

Although Fernandes said he was scared, he did not look scared at all. "Talu, are you trying to say that you can make the decision for professor Benjamin III and Lin boliang? If you tell them to kill me, will they obediently come and kill me?"

Talu was shocked. If the two of them really thought so, he would be dead.

"Of course I didn't mean that. Fernández, don't talk nonsense!"

Talu hurriedly explained and looked at ban Jieming III and Lin boliang with fear in his eyes. He wanted to observe their reactions. When he saw that they did not seem to be angry, he was relieved.

"I'm asking you to hand over the sea beast's inner core now, don't talk about those useless things! I've already said that I'll give you some of the pills after I succeed in refining them. What are you still dissatisfied about? The sea beast's inner core is completely useless in your hands!"

"Hehe, what a joke! Our sea beast inner cores need to be in your hands before they can be used?"

"Of course!" Fernandes laughed disdainfully. "With our eighth Captain here, what can't be done?" Talon, if you continue to talk nonsense, our Captain will kill you with a glare!"

Talu wanted to say that he didn't believe him, but the words were stuck in his throat ... It didn't matter if Fernandes was joking, but he didn't have the guts to do it when Lin Yi was involved.

He had no choice, the fear had already seeped into his bones!

"Fernandes, our boss talu is doing this for your own good!"

Nasby chimed in, not because he wanted to help talu, but because he also wanted the inner core of the sea beast. "If you can't activate your consciousness pill fire, then don't force yourself! You've seen how many people died on our side ..."

"Nasby, shut up!"

Talu glared at Nasby and shouted in a deep voice. At the same time, he carefully looked at banjamin III and Lin boliang.

Telling Lin Yi's team not to force their spirit sense pill fire? What the hell are you thinking? Didn't you hear what Lin boliang just said?

The attitude of the other party was very clear. If these people who came over wanted to live, they had to try to activate the consciousness pill fire. Failure meant death, success meant life! If they didn't want to try, they would die!

Talu was hoping that Lin Yi's team wouldn't even try, so Lin boliang would take care of them. However, this couldn't be said by these people, or they'd get angry!

Nasby was slightly angry, but he immediately came back to his senses and realized his mistake. He secretly wiped off his cold sweat and decided that it was better not to speak for now.

Bobby didn't understand and continued, ""Boss talu, why did you tell Nasby to shut up? I think what he said makes sense! Fernandes, you don't have the talent in this area, and even if you barely manage to use the conflagrated knowledge pill fire, you definitely won't be able to successfully refine the pill. It's better to give us the inner core of the sea beast!"

While they were talking, several people in ta Lu's group had successfully activated their conflagration of consciousness. The fluctuations on the bodies of the remaining people who had not succeeded were also very obvious. They were about to succeed!

"Look, our people are indeed very talented in this aspect. Although your combat strength is good, I have to admit that you are far inferior to us in terms of using the consciousness and alchemy fire!"

Bobby was very proud. He had been suppressed by Fernandes and Ardianpolo. He was finally awesome, and he was very happy.

He felt the same way as Ta Lu—it'd be great if they could use this chance to suppress Lin Yi's team!

"Professor Benjamin III, and assistant Lin Boliang, look, these people don't even have any signs of activating the spirit sense pill fire, and they are still holding on to a lot of sea beast cores, what a waste!"

Talu's eyes turned and he decided to save the country in a roundabout way. He'd use Benjamin III and Lin Boliang to put pressure on Lin Yi's team. It'd be even better if he could kill Lin Yi's team with a borrowed knife!

"Why don't the two of you communicate with them and ask them to share the inner cores of the sea beasts? This way, we can better refine pills, right? And, and, all of them didn't move at all. I suspect that they deliberately didn't want to activate the consciousness pill fire. This is a public disobedience of assistant Lin's orders!"

The underlying meaning was to quickly kill Lin Yi and the others!

There was no need to discuss how to kill their Houhai beast's inner core. They could just use it directly. How good would that be?

"This ... It does make sense!"

Ban Jieming the third scratched the back of his head and looked at Lin boliang with uncertainty. "Assistant teacher Lin, what do you think?"

Chapter 7672 Deliberately Slapping The Face

"The sea beast's inner core belongs to them. Whether they are willing to take it out or not has nothing to do with us. We will not force them!"

Lin boliang waved his hand at ban Jimin III, and then indifferently said to talu, "If you want the inner core of the sea beast, then go get it yourself. Don't waste your breath on us!"

After a slight pause, Lin boliang continued, "Moreover, I think that it's not impossible for them to refine the inner cores of the sea beasts into medicinal pills since they have them!"

Taru was stunned, and then he felt something was wrong. He turned around and found that Fernandes was holding a ball of conflagrated knowledge in his hand.

"You, you, you ... How did you succeed?!"

Ta Lu's face turned pale. He didn't feel anything just now. How could he suddenly activate the consciousness pill fire?

And no matter how he looked at it, this consciousness pill fire seemed to be even better than the consciousness pill fire that he had maintained for a long time!

They had seen a ghost!

"Is it very difficult? Do you think you can't do something that even a piece of trash like you can succeed in? Did you see that? I, Fernandes, just want to get it done in one step, so I made a lot of preparations!"

Fernandes's nose was up in the air, and he was extremely pleased.

As expected, the captain was more reliable. The improved method was more powerful than what Dale and the others did!

"Trash like you have the nerve to say that your talent is better than ours? What kind of talent do you guys have! Don't you know what it means when a bottle is full, it doesn't make a sound, but when it's half full, it shakes? It's US and you! Do you understand?"

Dale thought about it seriously. It made sense!

PAH! What kind of logic was that!

"What are you so proud of, Fernandes? It was just a coincidence that it was activated successfully. In terms of speed, you are far inferior to us. Any of my underlings is stronger than you! In terms of

numbers, we already have 40 to 50 who have succeeded, and you only have one, what's so great about that?"

If he couldn't win in quality, then he would compete in quantity. Talu felt that he still had a chance to reverse the disadvantage!

However, as soon as he finished speaking, Mike, ardiablo, Chris, and the others all successfully activated it. Each of them held a ball of pure spirit sense pill fire in their palms.

"Pa, pa, pa ..." Talu felt as if he had been slapped in the face a few times. His mouth opened and closed a few times. He wanted to say, "there are only a few of you. What's the big deal?"

Then, Morris, Serena, and the other members of the sword of sanctions Knight Association also successfully activated it!

Each of their consciousnesses and pill fires were much stronger than ta Lu 's!

Talu almost cried. Even if you want to slap someone's face, you shouldn't do this!

F \* ck, this is all on purpose, right? Did you dig a hole for me to jump into?

There was no such thing as always not succeeding and succeeding together. If you say you didn't agree on it, I won't believe you even if you beat me to death!

"Aiya! Only 12 of us have succeeded. We still can't compare to the number of people who have succeeded! Tallu, you guys are really amazing!"

Fernandes laughed sarcastically, ""Since you guys are so powerful, I think you guys should fly up to the sky and stand shoulder to shoulder with the sun! Do you need me to help you with your kick?"

Tallu gritted his teeth and turned around to leave!

Did he have nothing better to do than to argue with Fernandes?

He could still show off earlier because he had a conflagrated knowledge sea, which Lin Yi's team didn't have. Now that Lin Yi's team all had conflagrated knowledge sea, what was the point of that?

To avoid being caught and settled accounts, then he would have to bear the consequences!

As for the fact that Lin Yi didn't use his Spirit Fire yet ... Ta Lu didn't even count on that!

If those lackeys could do it, how could this mysterious bastard Lin Yi not?

He was definitely digging a hole again!

Fernandes was not pretentious enough. He wanted to take advantage of the victory and pursue, but Lin boliang stopped him. "Since your consciousness pill fire has met the requirements, then start refining pills!"

"It's very simple. As long as we maintain a stable output of the pill fire, there won't be any problems! Adding in the inner core of a sea beast at the xuansheng stage will increase the grade and effect of the completed pill. It's fine if you don't add it, but you can do as you see fit!"

After Lin boliang finished speaking, he gestured to Fernandes and the others to choose their own automatic alchemy furnaces.

Lin Yi made a spirit sense refinement fire to show that he'd succeeded as well before following his team members to pick their automatic furnaces.

Ta Lu didn't know if he should feel proud or scared after seeing this scene. As far as he was concerned, Lin Yi was indeed up to no good and wanted to scam him again!

Fortunately, he was smart and had not been deceived!

If Lin Yi knew what ta Lu was thinking, he'd probably just laugh it off ... Was there a need to dig a hole for a small fry like him?

After picking an automatic furnace, Lin Yi studied it for a while, surprised.

Central previously had an imitation of han Jingjing's automatic pill refining device, but its level was much lower than han Jingjing 's!

He didn't expect the automatic alchemy furnaces here to be of such a good grade. They were more than enough to refine pills for the xuansheng stage. They could also refine pills for the mountain opening stage.

And this was just a random automatic alchemy furnace. How powerful were the ones that weren't taken out?

Lin Yi was shocked-the research capability of the central Research Center was indeed impressive!

As long as they had time, they could mass produce experts. From this perspective, the threat from central was somewhat similar to the sun-swallowing rat tide!

"Captain, this thing looks quite simple. Shall we start refining the pill now?"

Fernandes flipped through it for a while before whispering to Lin Yi, ""Do you want to add in the inner core of a sea beast?"

The other team members looked at Lin Yi as well, waiting for orders. Without Lin Yi's orders, they wouldn't act rashly.

"Let's start refining the pills. You can add in the cores of the sea beasts."

Lin Yi nodded slightly. He'd seen the recipe stored in the automatic refining device, and although it was a recipe he'd never seen before, from the nature and effects of the medicine and the changes in the combination, it was indeed a medicine that could increase the strength of a xuansheng stage.

However, the effects of this elixir were very ordinary. It needed to be consumed in large quantities in order to increase its level by a little. However, after adding the inner elixir of a sea beast at the xuansheng stage, there would be a qualitative change!

If it was refined well, it was not impossible to directly rely on this medicinal pill to push his strength to the great circle of black Ascension!

The center was really scary!

Lin Yi couldn't help but sigh.

If he was not wrong, this kind of pill recipe was not passed down from ancient times, but a pill that was achieved through the combination of scientific and technological means and alchemy techniques, and then through an automatic alchemy device.

A normal Alchemist might not even be able to make it. Only through an automatic alchemy device would one be able to successfully make it!

"The captain said that we can start refining pills. Everyone, Let's Move!"

Fernandes shouted. He took out an ocean beast's core and placed it into the automatic pill refining furnace. Then, he poured his divine sense into the pill fire and began to refine the pill.

The others in Lin Yi's team started as well, including Lin Yi himself.

Chapter 7673 Consecutive Furnace Explosions

Seeing that they didn't come looking for trouble, talu heaved a sigh of relief and quickly began to refine pills.

He didn't want to fall too far behind in this aspect, lest he be suppressed to death again!

While Lin Yi was refining, he also paid attention to other people's situations-this level of distraction was nothing to him.

The modified spirit sense refinement fire was very stable, and so Lin Yi's team was very successful. The automatic furnace operated smoothly.

However, ta Lu was different. The spirit sense pill fire he used was more than fast, but it wasn't stable enough. Although the automatic pill furnace had the function of automatic adjustment, it was still difficult to control.

Ta Lu was getting impatient because of Lin Yi's team, and his control was getting worse and worse. Lin Yi had other thoughts after realizing this.

A wisp of his spirit sense entered the automatic alchemy furnace on the tower Road. With Lin Yi's complete sea-splitting essence spirit, no one noticed anything unusual.

When ta Lu's spirit sense pill fire started to fluctuate again, Lin Yi's spirit sense quietly added fuel to the fire.

The consciousness pill fire suddenly became extremely violent, directly breaking through the control limit of the tower Road, and at the same time breaking through the upper limit of the adjustment of the automatic alchemy furnace.

Boom! Boom! Boom!

Ta Lu's automatic alchemy furnace exploded without any suspense!

The tower Road next to him was overturned by the air wave, and he rolled a few times before stabilizing his body. However, his face was charred black, and his face was covered in dust and dirt. He looked really miserable.

"Doctor, assistant! You can't blame me for this ... It was an accident!"

Dale's desire to live was really strong. When he came back to his senses, he did not check whether he was injured, but directly cried to ban Jieming III and Lin boliang, ""I tried very hard to maintain the stability of my conflagrated knowledge sea, but I didn't expect it to explode at the critical moment ... I'm sorry! I was wrong!"

When he saw Lin boliang's cold eyes, talu decisively admitted his mistake and no longer dared to continue to argue for himself, ""Professor and assistant, please punish me!"

"Forget it, you're still a newbie. One mistake is forgivable. Change to another automatic alchemy furnace and continue!"

Lin boliang was silent for a moment. Then, he waved his hand and said, ""Be careful and don't be impatient! Steady and steady! Learn from them!"

The "they" he was referring to was naturally Lin Yi's team!

Unlike talu's team, Lin Yi's team was terrifyingly stable.

The spiritual sense pill fire in the automatic alchemy furnace didn't have much abnormal fluctuation and was strictly controlled by the automatic alchemy device, refining pills step by step.

If everything went as planned, Lin Yi's team would have their pills soon!

"Thank you, assistant Lin, thank you, professor ban Jieming! I'll be careful and fight steadily!"

Talu heaved a sigh of relief and quickly thanked him.

After that, he took out a new automatic alchemy furnace and started to refine pills again.

Lin boliang frowned slightly, and a trace of displeasure flashed in his eyes.

He had just said to be careful and steady, but now he had hurriedly started to refine pills!

They had just failed once. Did they not need to adjust in the midfield?

No matter how brilliant an Alchemist was, they would always readjust their state after failing to refine a pill. Only after their body and spirit had returned to their peak would they try again.

Lin boliang felt that he had made a big mistake by not punishing ta Lu for his reckless behavior!

Unfortunately, ta Lu's actions were quite fast. The automatic alchemy furnace had already started to operate. Lin boliang could not stop it by force. He could only watch ta Lu's performance.

Nasby noticed Lin boliang's slight frown. He thought for a moment and more or less guessed Lin boliang's thoughts.

"Assistant Lin, boss talu did not make any adjustments before starting to refine the pill. It seems a little reckless, but he must be 100% confident to do so."

Nasby stepped forward with a smile and bowed slightly to Lin boliang. "Assistant Lin, please wait and see. Boss talu will definitely be able to successfully refine the pill this time!"

On the surface, it seemed like Nasby was defending Talon, but in reality, he was making things difficult for Talon in front of Lin boliang.

If talu had succeeded, then there was nothing to say. It would prove that Nasby's words were correct!

However, once ta Lu failed, Lin boliang's anger would definitely double to vent on ta Lu.

When talu, who had just started refining the pill, heard Nasby's words, he felt that his actions were a little rash. If he failed again, he would probably not have a good ending.

At the thought of this, talu suddenly panicked.

In his panic, the stability of his conflagrated knowledge sea naturally once again appeared.

Lin Yi had been waiting for this moment for a long time. He sent his spirit sense into the automatic alchemy furnace on the tower Road and added fuel to the fire!

"BOOM!"

Without any suspense, the automatic elixir furnace exploded again!

The dusty Tower Road became a truly dusty Tower Road and was once again overturned by the air wave!

Talu almost cried. Why did everything he was afraid of happen?

Murphy's Law couldn't be realized by him alone!

Can't you at least bomb the people around us?

Nasby was also a little dumbfounded. Giving Taru an eye for an eye? this was his own eye!

If ta Lu's furnace exploded in the middle of his alchemy, then his words just now would definitely double Lin boliang's anger!

"However, you exploded in less than a minute after I said that. Will Lin boliang think that I, Nasby, am a jinx? You blew up your single furnace?

Nasby felt as if ten thousand alpacas were running through his heart!

"Trash!"

Lin boliang didn't know if his anger points were full, but at least his face was quite ugly. ""This is what you meant by being cautious and taking things slowly and steadily?!"

If we all refine pills like you, no matter how many automatic pill refining furnaces there are, they won't be enough to explode!

Talu's face was ashen, and he did not know how to explain. Should he say that he was shocked by Nasby's words?

Lin boliang would probably kill him with a laser beam immediately!

Even a word from someone else could affect the state of pill refinement, what was there to be cautious about!

"Teaching assistant Lin! I was wrong ... I deserve to die! Please give me another chance!"

Talu did not dare to argue and could only admit his mistake and beg for mercy. "I'll definitely be careful this time ... No, I'll definitely be fully focused and devoted. I won't be distracted!"

Remembering the fact that he had been slapped in the face for saying that he was careful, talu didn't even dare to mention the word "careful" again!

"Then I'll give you another chance! Grasp it well!"

Lin boliang snorted. He was probably satisfied with talu's attitude, so he did not continue to pursue the matter.

Talu thanked him again. Then, he sat down cross-legged and began to recover. He no longer dared to try to refine pills in his current state.

Who knew if there would be a fourth chance if he failed again this time!

"The few of you, it's about time to start refining pills!"

Lin boliang turned to look at Nasby, Bobby, and the others."His failure is a lesson you can learn from!"

#### Chapter 7674 Some Succeed And Some Fail

"Yes, yes, yes. We'll definitely learn from our experience and not let assistant Lin worry!"

Nasby, Bobby, and the others nodded again and again. The other people who had cultivated their consciousness pill fire also began to get their automatic alchemy furnaces and tried to input their consciousness pill fire to refine pills.

Lin Yi's face didn't change, but his spirit sense continued to monitor the inside of all the automatic alchemy furnaces, waiting for an opportunity to attack him!

In just an hour, Lin Yi had detonated thirty of the automatic pill furnaces of the tallu gang! On average, one would explode every two minutes!

The point was that no one realized that Lin Yi was doing this in the dark, and they were all going crazy!

There was no end to it once Dale adjusted his condition. His underlings 'consecutive furnace explosions had given him a huge blow. How could he dare to try a third time?

"Professor Benjamin III, assistant master Lin boliang ... Is there a problem with this automatic alchemy furnace?"

Bobby cried, somewhat helpless and timid. "I was really careful, but it still exploded ..."

Within an hour, Bobby's furnace exploded for the second time, and he had caught up with his boss, tallu.

The other alchemists had experienced a furnace explosion before, so it was hard to believe that there was no problem with an automatic alchemy furnace!

You didn't take out a batch of defective goods to fool us brothers, did you?

Bobby didn't dare to say this out loud, but he knew that anyone who had a furnace explosion would have doubts about this.

"Is there a problem? You can just say it!"

Lin boliang snorted with a cold face. "But I have to remind you that all the automatic alchemy furnaces are in the same batch. Look over there and think about it!"

Bobby looked at where Lin boliang was pointing-it was where Lin Yi's team was.

The thirteen automatic furnaces, including Lin Yi 's, were all working normally, and the pills were almost done!

You're saying that there's a problem with the automatic alchemy furnace? Why don't you explain the situation over there first?

It was infuriating to compare people! Comparing goods, they had to be thrown!

Bobby could no longer say that there was a problem with the automatic alchemy furnace. If there was a problem, it was their problem. It had nothing to do with the automatic alchemy furnace!

What's more, Lin boliang's last sentence meant that he would think about it before saying it again. Bobby had already thought about it, which meant that he couldn't say it again!

"Hahaha...Haha...Assistant master Lin, I'm going to adjust myself and try again for the third time ..."

Bobby decisively admitted defeat and learned from his boss, tallu, to hide.

"Assistant Instructor Lin, look, Ling-zero-eight and the others are doing well, but none of us are doing well. There must be a reason for this, right?"

Nasby felt that he would be unlucky if this continued, so he wanted to turn the situation around.

Before he could finish, Benjamin III suddenly nodded and said, ""I also think there's a reason. For example ... Because you're all idiots?"

“.....”

Nasby was somewhat speechless!

He felt that if professor Benjamin spoke like this, they would not be able to have a good chat!

Even if he was telling the truth, could he please be more tactful?

We might be a little stupid, but we're still people who have been favored by the sea serpent King!

Lin Yi wanted to laugh as he watched from the side.

Originally, he only wanted to destroy some of the automatic alchemy furnaces in the center and see how much they could take out to consume. He did not expect that he would make ta Lu and his gang go crazy. This was an unexpected gain!

"Professor Benjamin III, I mean, they must have a secret to success. Why don't we let them share it?"

Nasby laughed drily and pretended not to understand what he was saying. He quickly explained his purpose.

Ban Jieming III looked at Lin boliang, thought for a moment, and said, ""That sounds reasonable. What do you think, assistant Lin?"

"Professor, if a grain of rat feces falls into a pot of congee, the pot of congee will be destroyed. If a pot of rat feces falls into a pot of congee, the entire pot will be rat feces!"

"Although the people selected by soyatu are a little stupid, it's not good to destroy them just like that, right?" Lin boliang said indifferently.

Nasby's face darkened. Are you all so straightforward? If you say we're all rat sh \* t, then forget it! How could he just let it go!

But ... So what if he didn 't?

Who knew who the laser beams were aiming at? Nasby pursed his lips. After thinking about it, he decided to forget it! He had already been called an idiot, so it didn't matter if he called her another name!

"What assistant Lin said makes sense! You guys should study it on your own!"

Ban Jieming III immediately made a decision. ""Don't disturb Ling-zero-eight and the others. You won't be able to afford the compensation if anything happens!"

"Professor, Assistant, how could we disturb them?"

Nasby felt aggrieved, but he still had to put on a smile. "After they succeed in refining the pill, I'll go over and ask for some experience. I promise I won't affect them!"

"Alright! I don't care about the communication between you guys, but if you affect them, you'll be in trouble!"

Lin boliang waved his hand impatiently and ended the topic!

If Lin Yi's team could lead more people to succeed, it would be a good thing. There was no need to stop them. What he said just now was just a warning to Nasby and the others!

They had wasted so many automatic alchemy furnaces and the matching medicinal herbs inside. It would be considered cheap if he didn't slaughter them, so it was reasonable to knock them down a little!

Nasby retreated with a bitter face. Without Lin boliang and ban Jieming the third's support, he didn't dare to talk to Lin Yi's team. Are you looking for a beating?

As soon as he finished, Lin Yi's team finished their refinement one after another, and the aroma of elixirs filled the air. The people on the tower Road felt refreshed!

"Assistant master Lin, these pills are all ours, right?"

Fernandes took out two finished pills from the furnace. He was smiling, but he suddenly thought of something and looked at Lin boliang and banjimin III with vigilance. "We added the inner core of a sea beast!"

In other words, even though the automatic pill refining furnace and the other medicinal herbs were all yours, with the addition of the sea beast's inner core, the medicinal pill was ours!

You're not allowed to ask me for it!

Lin boliang smiled indifferently. "Of course it's yours. This is originally used to improve your strength. You can eat it directly!"

"However, once this kind of elixir breaks through to the mountain opening stage, it will be useless. If you have any extra elixir, you can sell it to us. We can buy it!"

Fernandes's eyes lit up. He was not too interested in the acquisition!

"Sure, sure. As long as our Captain agrees, I won't have any objections. Not only did you provide an automatic alchemy furnace, but you also provided me with the supplementary materials. If there's a deal, I'll definitely give you a discount!"

As for the knowledge and refinement fire ... Fernandes only knew Lin Yi. What the hell was Lin boliang teaching? It did not count at all!

Chapter 7675 Breaking Through To The Mountain Split Stage At The Same Time

"Alright, Fernandes, let's not talk about selling the pills first. Everyone, eat the pills you made!"

Lin Yi interrupted Fernandes "business and smiled at his teammates. "It's the first time you've successfully refined a pill. Don't you want to experience the results of your hard work?"

None of the team members "elixirs were above medium quality, including Lin Yi 's.

Of course, this was the result of Lin Yi deliberately hiding his strength, in case it was too shocking.

To be able to refine pills like this on his first try was actually not bad.

Lin Yi did some research after the pill was formed, and he was sure that this pill had no hidden harm to the human body. On the contrary, it could greatly increase one's strength, and only then did he let everyone take it.

"Captain is right! I really want to experience the results of my own hard work!"

Fernandes laughed and put one of the pills into his mouth. He would only know how much he should sell it for after he had experienced its effect.

The pill melted in his mouth and quickly turned into a clear stream that rushed into his dantian. Then, it produced a dense genuine Qi that rushed into the meridians in his body and began to circulate rapidly.

Fernandes sat down cross-legged involuntarily and began to guide the movement of this majestic true Qi. He no longer had the ability to be distracted.

The others also took their pills after Fernandes. Since Lin Yi said so, there shouldn't be a problem.

Lin Yi put on an act and popped a pill into his mouth-it might not work, but he had to put on an act!

Thirteen people sat together in a circle. Each of them had a soaring aura and surging true energy. Their strength level was rising almost visible to the naked eye.

Lin Yi, of course, followed the crowd and mimicked the others "progress to show his strength. He then continued to secretly use his spirit sense to destroy things!

While the team was leveling up, the tallu gang blew up another twenty automatic alchemy furnaces, and two of them weren't Lin Yi's fault. Someone really didn't control it and exploded!

The two of them had also perished together with the exploding automatic alchemy furnace!

On the other hand, the automatic alchemy furnace that Lin Yi blew up didn't kill a single person. At most, they looked a little miserable.

"Assistant master Lin, is our failure because we didn't add in the core of the sea beast?"

Ta Lu did not dare to try a third time. After a long time, he finally asked, "Will the stability be improved a lot after adding the inner core of the sea beast?"

There was only one difference between them and Lin Yi's team-ta Lu could only think of one!

The method of refining the fire was the same, and the automatic furnace and ingredients were the same. Lin Yi's team added an extra core-that must be the key!

"The inner core of a sea beast will only increase the effects of the elixir. It won't increase the stability of the elixir refinement!"

Lin boliang replied in an unquestionable tone, ""Are you questioning my professional ability?"

"I wouldn't dare!"

Talu hurriedly nodded and bowed in a humble manner. "I'm just saying. I really can't think of any other reason!"

"How can I not think of other reasons? didn't I just say one?"

Ban Jieming III shrugged. "You're all idiots. They're all talents. That's the biggest reason!"

Dale was speechless. There was no way to continue the conversation!

"You've rested long enough, right? Should we continue?"

Lin boliang squinted his eyes and looked at Talu with an unkind expression. "Or do you not want to try alchemy?"

As he spoke, Lin boliang raised his right hand. His thumb, index finger, and middle finger were put together, making a gesture of snapping his fingers.

Talu shivered and hated himself for coming out and saying such things!

Now that Lin boliang had noticed him, it was obviously impossible for him to muddle along!

"No, no! I've already adjusted my condition and am preparing to start refining pills. This is to increase the success rate!"

Talu smiled and picked an automatic alchemy furnace. He fearfully activated his spirit sense alchemy fire, afraid that Lin boliang would rub his fingers and attract a laser beam to kill him!

This time, Lin Yi didn't cause any more trouble. It wasn't that he felt bad for the tower, but he suddenly wanted to see what would happen if he didn't add in the beast cores.

Among ta Lu's group, ta Lu was more talented in controlling the consciousness alchemy fire. After all, he was the one who could use the consciousness alchemy fire at once. He should be the one with the highest quality of the pills in his group.

Since they had let go of ta Lu, the others should also let go of some to avoid arousing the suspicion of Lin boliang and ban Jieming the third. Therefore, in the following time, the situation of the automatic alchemy furnace exploding improved a lot.

There were finally more than ten people in talu's group who succeeded in refining pills!

"They're all about to break through!"

Lin boliang didn't pay much attention to the success of ta Lu's team, but he paid a lot of attention to Lin Yi's team.

Seeing that Lin Yi's team's aura had reached a bottleneck and was starting to accumulate, their expressions turned serious.

"I didn't think that it would really work! If we can succeed, this upgrade mode will be replicable!"

Benjamin III nodded slightly, and his eyes flashed with an inexplicable light. "The most important thing is their stability after their upgrade. It's a quality that we've been dreaming of!"

Lin Yi's heart jumped. The two were whispering, but they couldn't hide from his spirit sense. The information they revealed was quite useful!

Mode, replicability, and stability!

Unfortunately, the two didn't continue after that. Lin Yi didn't want to hear more!

A few minutes later, Fernandes was the first to break through. The true energy that he had accumulated exploded like a volcanic eruption, and his aura instantly rose several times!

Breakthrough, mountain-opening stage!

Being driven by Fernandes 'aura, Mike also broke through!

Their auras complemented each other, making them seem even more vast and boundless!

Mike had also broken through the mountain opening!

Adianpolo and Chris!

Serena, Morris, and Johnson!

One after another, the entire room was filled with a powerful aura. Ta Lu and the others turned pale and shivered like dogs facing the might of the heavens.

A few of the automatic alchemy furnaces that had been fine exploded because of this. However, compared to the momentum of more than a dozen people breaking through the mountain opening stage, it was not worth mentioning!

"Good! That's great!"

Ban Jieming the third nodded excitedly. ""To be able to see thirteen people break through the mountain opening stage at the same time, it's really a grand event! Assistant Lin, you should be happy too!"

Lin boliang still looked indifferent. He just smiled slightly, ""It's not unexpected that they could break through. Since it's within my expectations, there's no surprise!"

"It's boring to talk like this!"

Banjimin III shook his head and turned to talu and the others. ""But then again, it's indeed rare for thirteen people to break through at the same time. But if all of you can break through together, that Grand occasion will be unprecedented!"

Chapter 7676 A Bunch Of Trash

The corner of talu's mouth twitched twice. He thought to himself, I also want to break through! However, without the cores of sea beasts in the automatic alchemy furnace, even if the pills were made, they would not be as effective as Fernandes's pills!

If you really want to see that unprecedented Grand occasion, shouldn't you go and help me get some sea beast inner cores first? For example, asking Saint soyatuo for the cores of the sea beasts that he had previously seized?

Lin boliang indifferently glanced at talu and the others, and a trace of ridicule flashed across the corner of his mouth, ""Just these people? What qualifications do you have to participate in this Grand occasion?"

He looked down on her!

Dale felt aggrieved, but he could only continue to hold it in.

He was afraid that Lin boliang would kill him if he retorted!

"Congratulations, everyone, for successfully advancing to the mountain-opening stage!"

When the auras of Fernandes and the others stabilized, Lin boliang took the initiative to come forward and congratulate them,""I thought that you would break through smoothly, but I didn't expect it to be so smooth! It's fine if you don't break through, but once you do, your entire team will break through together!"

Lin Yi put on an act and retracted his breakthrough aura. He smiled at Lin boliang,"Many thanks! It can't be said that we were lucky, but we have to say that assistant Lin's spiritual sense pill fire and automatic pill furnace have helped us a lot!"

"If we didn't have these, who knows how long it would take for us to break through and open the mountain!"

Under normal circumstances, it wasn't that easy to break through from the xuansheng stage to the mountain split stage!

Otherwise, wouldn't the Sky Class islands be filled with people?

The pill that central made was indeed quite impressive. Lin Yi had already memorized the ratio of the ingredients and would study it later, but he wasn't sure if he could replicate it.

Because many of the materials were produced by the central through technological means, it was not easy to find substitutes!

"You're too kind, Captain eight! You were able to break through successfully because of your own strength. We just pushed the boat along with the current, not worth mentioning!"

Lin boliang was a little modest and immediately went to the main topic, ""All of you have broken through and are now qualified to enter the next level. However, you can't leave yet. In a while, I will explain some information about the mountain opening period to everyone!"

"What are you guys doing? Hurry up!"

Ban Jieming the third saw that the group of tallu players were standing still in a daze and could not help but scold them in a low voice, ""Look at them, they're already in their mountain-opening period. Don't you know how to catch up? Did he really want to be eliminated before he was happy? Can't you be more careful!"

Talu was dumbfounded. I also want to catch up! But how should he do it?

"Didn't you all also refine medicinal pills? Eat!"

"I've eaten it, but it's not of much use ..."

Dale was innocent.

Without the inner core of a sea beast, just the medicinal pills refined from those medicinal herbs alone would have a far different effect!

"Doctor, the medicinal pills they refined really aren't effective!"

There was a small light screen in Lin boliang's palm, on which a lot of data was listed. After carefully looking at it for a while, he turned it off. "The lack of materials is one thing, but the other is that their control over their consciousness pill fire is too poor, and the grade of the pills they refine is too low!"

"Although these pills can slightly increase one's strength, the effect is not obvious! If we want them to break through to the mountain opening stage, they will have to cooperate with our potions!"

As he spoke, the ground silently opened up, and a floating metal platform slowly rose from the ground. There was a shelf on the platform, filled with glass test tubes neatly, each of which was filled with a light golden liquid.

"You, come here!"

Lin boliang hooked his index finger at talu and took a glass test tube from the metal platform. "This kind of medicine, when combined with the medicine you just made, will produce an amazing chemical reaction! If you're lucky, you should be able to break through to the mountain opening stage!"

Talu was stunned. He didn't dare to disobey Lin boliang's order and walked over obediently. "Assistant master Lin, this medicine ... Should I drink it directly or inject it into my body?"

He knew that his life was in her hands. Even if the glass test tube was filled with gut-piercing poison, he had to pinch his nose and drink it.

"Just drink it!"

Lin boliang looked at the tower Road indifferently and passed the glass test tube in his hand forward again. ""Take it!"

Talu swallowed his saliva and took the glass test tube with both hands. He wanted to ask if he should let the others go first.

However, Lin boliang had been staring at him, and judging from his posture, it was probably useless to say anything.

Without a choice, Dale could only make up his mind, raise the glass test tube, and kill it!

Lin boliang and banjimin III were obviously on the same side as Saint soyatuo. Since they had eaten Saint soyatuo's food, it was no big deal to eat Lin boliang 's!

They might even be able to catch up to Lin Yi's team!

This was indeed the case. As soon as the light golden liquid entered his throat, it turned into a huge amount of pure spiritual energy and began to forcibly increase ta Lu's strength level!

However, this process seemed to be a little more painful. Ta Lu couldn't take it anymore-he screamed and rolled on the ground, completely different from Lin Yi's team.

"Um ... Assistant Instructor Lin, is our boss talu alright?"

Bobby was a little worried, but of course, he was also worried about himself!

After the tower Road, it would be their turn to drink the light golden liquid in the glass test tube.

"It's fine. It's normal. I won't die!"

Lin boliang gave a perfunctory reply and continued to focus on the top of the observation tower.

The medicine he took out could indeed increase one's strength, but the side effects were also extremely obvious. In fact, it was the genetic Medicine that the center had developed before.

According to the experimental data of these potions, about three out of ten experimental subjects could survive, and the three who survived would not have much time left after they successfully broke through the mountain opening stage!

In non-combat state, they might be able to live longer, but in full combat state, they might explode after one battle!

Therefore, for this nine-story glazed Pagoda, the center had tried a new cultivation model in the hope of solving this problem.

Lin Yi's team's performance was outstanding, and Lin Yi was the focus of attention-he was the template for the success of the new model!

As for talu's group, they had already used potions to forcibly increase their strength before, so it was hard to say how long they could live.

This time, it could also be considered as recycling. Lin boliang wanted to see if the result would be different if the experimental experts trained using the new model as the foundation were to use the potions of the old model to level up halfway.

If this model really worked, it would be an unexpected gain!

As for failure ... It was no big deal if he failed!

After a while, Dale, who was wailing on the ground, exploded with power.

Chapter 7677 Central's Plan

With the explosion of his aura, ta Lu's strength also began to rise steadily. He quickly broke through the shackles of the xuansheng stage and advanced into the mountain split stage!

However, while ta Lu's aura was strong, it was a little weak compared to Lin Yi's team. He was less stable and his actual combat strength was much weaker.

The difference was like a normal practitioner going up against Lin Yi at the same level. There was no other possibility other than being crushed!

"You, and you!"

Lin boliang waited for the tower Road to break through more or less. He pointed at Bobby and Nasby and then pushed the metal platform toward them. ""Your boss is already in his mountain-opening stage. All of you should also take the medicine and break through as soon as possible!"

"Yes! Thank you, assistant Lin!"

Bobby and Nasby bowed and thanked him. Although tallu looked like he was in pain, his strength had improved many times!

The most important thing was that ta Lu had survived. In that case, what was there to hesitate about?

Nasby reached out and pulled the metal platform to his side, then turned and waved to the others. ""Come and get the potions. Line up one by one, don't mess up!"

As he spoke, he took out a glass test tube and held it in his mouth. He didn't drink the light golden liquid yet, but just took his share.

This was also Nasby's attempt to win over a wave of people's hearts. Otherwise, he would have been eager to take the potion and break through directly.

Bobby didn't have the same thoughts as Nasby, so he picked up a potion and swallowed it directly. Then, like tallu before, he began to roll on the ground and scream loudly.

Nasby's movements were extremely fast. His hands left a series of afterimages as he finished distributing the potions in an instant. He then lifted his neck and tipped the test tube in his mouth. The light gold potion flowed into his mouth, and he began his journey of breakthrough.

At this time, the tower Road had already completed the breakthrough, and his clothes were wet.

Although he was already in the mountain-opening stage and had an amazing aura, his body was still a little weak. He didn't have much strength to get up for a while and could only watch his underlings improve their strength.

"Assistant master Lin, do they have a chance to break through all of them?"

Ban Jieming III approached Lin boliang and spoke in a low voice while looking at the group of people screaming on the ground. ""According to the previous data, it should be ..."

Only 30% of the people should be able to successfully break through and survive for the time being!

There was no need to say this. Lin boliang knew this, but that was only the data from the past. Ban Jieming III also felt that the group of people from talu were experimental subjects trained in a new model, and might be a little different!

"I can't say! It might be difficult to break through all of them, but I think it should be higher than before!"

Lin boliang wasn't very sure either. "In fact, it's already a great improvement to be able to increase the probability to a certain extent. If this verification is effective, it will greatly reduce our losses if we train experts in batches in the future!"

As the two of them spoke, the people who were rolling on the ground began to die!

The person who died didn't scream the most miserably, but as he screamed, he suddenly stopped breathing.

"There's no hope for all of them to break through!"

Lin boliang's cold eyes swept over the person who had just died, and there was no fluctuation in his emotions, ""I can only hope that the ratio can be raised a little!"

Before he could finish his sentence, a second person had died. Then, like a dam that had a gap opened, it was out of control!

Talu's face was pale. He was already weak and ugly, and now he looked no different from a dead man.

He wasn't feeling heartache over the loss of his underlings, but he was feeling fear for himself.

The continuous deaths only came to an abrupt end when there were close to twenty people!

It was probably because the remaining people had barely passed the threshold of death and struggled to obtain a temporary chance to survive!

"That's right, only 19 people died!"

Lin boliang's face revealed a faint satisfied smile. ""There are less than forty of them left, and they have all entered the stage of breaking through to the great circle of black Ascension. If there are no accidents, they should be able to successfully advance to the mountain split stage!"

As for how long they could survive after they entered the mountain-splitting stage, it did not matter. The length of time was just a set of research data!

"This is considered a success!"

Ban Jieming III was even more excited. "A two-thirds chance of survival, that's more than twice as much as before! Not including Ling-zero-eight's team, just these people alone are already a huge harvest!"

Lin Yi's team was a successful template for the new training model, while ta Lu's group was just recycling trash. The result was an unexpected surprise-they could be considered turning trash into treasure!

Lin Yi, who was watching from the side, had some speculations about Central's plan.

If he had the chance, he had to destroy Central's plan!

Otherwise, the entire secular world would fall into the hands of the demon at the center!

No, not just the secular world, even the small Jianghu in the immemorial era was not spared!

Even if all the forces in the entire small ancient pugilistic world worked together, they would not be able to defend against this Army of mountain opening experts!

Lin Yi glanced at Benjamin III and Lin boliang. These two should be important people in central, and they were key figures in the training plan. He didn't know if he could take this opportunity to get rid of them.

Unfortunately, Lin Yi knew that Central's technology could guarantee that their important people were like the nine-lives cat. It was hard to kill them with normal methods, just like LAN xiaoru and the others.

Therefore, now was not a good time to make a move. The two of them were not the best targets to make a move. The best target was the other key point of this plan, the nine-story glazed Pagoda!

Lin Yi's mind was spinning as he thought about how to destroy the nine story Pagoda. If central could control the nine story Pagoda, then there would be a lot of Masters in the future.

On the other side, after talu and his men passed the threshold of death, they all broke through to the mountain opening stage, but their auras were weaker than talu 's.

If one were to count seriously, these people could actually only be considered as false mountain-opening!

Lin Yi only took a quick look and didn't pay any more attention. With this kind of strength, even Fernandes, Mike, ardiablo, Chris, Morris, and the others could easily take on a group of them, let alone Lin Yi!

"Congratulations, you've all successfully entered the mountain split stage. From now on, you're all true magnate realm experts!"

Ban Jieming the third looked at the survivors with a smile and said,""I know that you guys don't understand the mountain split stage, and you don't understand the meaning of the Titan stage, right? It's okay, assistant Lin will give you a brief introduction later!"

Talu's group's faces were all very ugly. Condensing conflagrated knowledge sea, refining pills, and taking potions, in a series of events, more than twenty of them had died, directly losing a third of their people!

Chapter 7678 Lowering Your Head And Kneeling

Congratulations? Smooth?

How could this be called successfully advancing to the mountain opening stage?

If things didn't go smoothly, these people would all die, right?

However, they really didn't know that in the eyes of ban Jieming III and Lin boliang, it was already a very smooth thing to be able to survive two-thirds of them!

A dead person? They were all trash, how could they be considered human lives!

"Are you guys dissatisfied with something? If you have any dissatisfaction, you can directly say it!"

Lin boliang felt that there was a kind of emotion that spread in ta Lu's team, but he did not dare to speak out. His indifferent eyes slowly swept over and made eye contact with each of them.

Everyone, including talu, was shocked by his cold and ruthless gaze. They were defeated with just a slight contact and lowered their heads, not daring to look at him.

"No, how could I be dissatisfied? The doctor and assistant professors have given us such a big favor, causing our strength to have a tremendous change, we can't be more grateful!"

Talu braced himself to be careful, not caring if he would hurt the emotions of his underlings. "From now on, we'll be working for professor Benjamin III and assistant Lin. We'll do anything you ask of us!"

"It's good that you're not dissatisfied!"

Lin boliang's expression relaxed a little and he nodded slightly, ""If you know where you stand and what you should and shouldn't do, I won't mistreat you!"

"Let's cut to the chase. Let me give you a brief introduction. Your current strength level is comparable to that of the mountain-opening stage! This is the first level of the Titan stage. Only when you've reached the mountain opening stage will you be considered to have truly entered the threshold of an expert. "

"Before the mountain-opening period, they can only be regarded as preschool level. They look quite powerful, but in the eyes of true experts, they're just babies playing with Spears. Only by becoming an expert of the mountain split stage will one have the qualifications to become a titan of a region, and that's why there's the term "Titan"!"

"There are a total of four levels to the giant head realm. After the mountain split stage, there's the Earth splitting stage, then the sea splitting stage, and finally the heaven breaking stage! There's a world of difference between each major level. You'll understand when you make a breakthrough in the future!"

When Lin boliang said this, he glanced at ta Lu and the others with a trace of pity in his eyes. He added a sentence in his heart, "if you can still live!"

"That's about all the basic information about the mountain split stage and the Titan stage. Next, I'll distribute some cultivation techniques and martial arts techniques that are suitable for the mountain split stage. All of you should study and cultivate well!"

Lin boliang raised his hands and gently patted twice. A floating metal platform rose from the hole in the ground. This time, it was not a glass test tube, but a thin booklet, neatly stacked.

"These are the relatively basic cultivation methods and martial techniques used during the mountain opening stage. Of course, they are divided into different attributes. You can choose at will, and then you can start cultivating. We will come back in a day!"

Without waiting for the crowd's reaction, Lin boliang and ban Jieming III turned and left, leaving everyone to deal with it themselves.

After the two of them left the room, ta Lu and his men rushed forward and began to snatch the cultivation methods and martial arts techniques on the metal platform. They were afraid that they would not have a share if they fell behind!

Lin Yi's team, on the other hand, didn't move at all-they just stood there and watched.

"Captain, look at talu and the others. They're just a bunch of country bumpkins who have never seen the world!"

Fernandes shook his head in disdain and said with pride, ""It's just a few common basic cultivation methods and martial techniques, yet they actually fight with their own people. No wonder they're all trash!"

With Lin Yi's teaching and guidance, Fernandes didn't know how powerful Lin boliang's martial arts skills were, but he firmly believed that they couldn't compare to his big brother!

"Fernandes, you can't blame them. They were trash to begin with. How could they miss the opportunity to be promoted to fine grade trash?"

"It's a pity." He shrugged."No matter how much I improve, trash can only go into the garbage dump. At most, I'll absorb more garbage and turn from a garbage dump into a garbage station!"

The two of them spoke without restraint, and their voices were not too low, so the people on the other side of the tower Road could hear them clearly.

Talu immediately glared at him, but he did not dare to fight back.

"What are you staring at? If you're not convinced, then come and bite me!"

Fernandes sneered and curled his lips at tallu. He waved his hand and said, ""Come, come! Your Grandpa Fernandes is waiting for you here!"

If it wasn't for the fact that the thigh didn't say anything, fernández would have rushed over and beat up tallu!

He had no choice. Now that he saw Dale's unlucky face, he felt his hands itch!

"Fernandes, don't be so smug! I'll make you lower your head one day!"

Talu gritted his teeth. Unfortunately, the 'harsh words' that he said did not sound imposing.

They didn't have a choice-if they were too harsh, Lin Yi's team might just break the rules and surround them again!

As the leader of a gang in the town of Cruze, he still wanted to save some face, even though he had lost all his dignity!

As for why he still wanted to keep his face when he had already lost it, Talu didn't even consider it!

"Hahaha, Talu, you really know how to talk. It's not like Fernandes didn't bow his head in front of you! Every time you knelt down and begged for mercy, Fernandes would look down at you!"

Fernandes laughed. "Why don't you try making me lower my head again? This position is very good. It's very suitable for you to kneel down and see me lower my head!"

Taru was so embarrassed and angry that he wanted to rush over and tear Fernandes's cheap mouth apart!

Forget it, I shouldn't have argued with Fernandes! Wasn't this just asking for it?

Talu deeply reflected on his impulsiveness, then took the book of martial arts and turned around and left, as far away as possible from Fernandes!

After he had learned the cultivation methods and martial arts techniques of the mountain opening stage, he would come back to seek revenge!

If he still couldn't get back at them, then ... He would just continue to turn around and leave!

The two sides bickered for a while, and the booklets on the metal platform were almost all gone.

Everyone in the tower Road gang had one book each, and there were still more than a dozen books left on the metal platform.

It wasn't that they were kind enough to leave it for Lin Yi's team, but they didn't dare to take it anymore ...

If they took it all, wouldn't Lin Yi's team have an excuse to come and take it?

At that time, he definitely wouldn't be able to escape a beating. It was better to be sensible and everyone lived in peace!

"Fernandes, go and take a look at the rest of the books. Everyone can learn from them!"

Lin Yi lifted his chin, signaling for Fernandes to go to the metal platform.

"Captain, what do you want those things for? The things that even Dale could learn are obviously not high-level stuff. We don't need them!"

Fernandes toot.

## Chapter 7679 Bottom-Tier Mountain-Opening

Although Fernandes was complaining, he still followed Lin Yi's orders instinctively. He mumbled to himself as he walked to the metal platform and swept the rest of the books away.

"Captain, here!"

Lin Yi took the book from Fernandes and flipped through it. It was indeed some basic arts and techniques for the mountain opening stage.

It was rather practical, but its power was average!

The characteristics of these cultivation methods and martial arts techniques were that they were relatively simple and easy to master. They could allow experts who had just advanced to the mountain opening stage to obtain a certain amount of combat power.

Of course, it was the lowest combat power in the middle of the mountain-opening stage!

If one didn't learn these cultivation techniques and martial arts techniques, those who had just advanced to the mountain opening stage would be at the bottom of the mountain opening stage. After learning them, their combat strength would be slightly stronger, but they would still be at the bottom of the mountain opening stage. That was what it was!

"Take it and have a look, it's good to kill time!"

Lin Yi flipped through it casually and gave it to the rest of the team. "I can read it as a novel or learn from it. There's no harm in it anyway!"

To Lin Yi's team, these things were like regular vitamins-there were no benefits or disadvantages!

"Yes, sir!" Fernandes and the others answered in unison. They picked up a random book and started reading it like it was a novel.

It was just to pass the time, so it didn't matter!

Even if he was holding the metal platform's user manual in his hand, he could probably use it to wear it down.

The people on the tower Road all went to the other corner of the room to cultivate, keeping a distance from Lin Yi's team.

Both sides stayed out of each other's way and spent the day in peace.

The next day, at the same time, ban Jieming the third and Lin boliang appeared again, and it was still Lin boliang who spoke up!

"Everyone has a certain understanding and grasp of the cultivation methods and martial techniques of the mountain split stage. Next, I'll send you all to the ninth floor!"

Lin boliang waved to both sides, signaling everyone to come closer to him. After everyone had gathered, he continued to announce, ""The ninth level requires you to move in small groups. Each group can only have six people, so I'll be dividing you into groups first!"

There were thirteen people in Lin Yi's team, including Lin Yi. Lin boliang took a look and called Lin Yi first, ""Ling-zero-eight, you'll lead a small team. The team members will be your team members. This, this, and him, him, and him!"

Lin boliang pointed out casually and put Fernandes, adianpolo, Chris, Morris, and Johnson into Lin Yi's group.

She turned to Mike before Lin Yi could respond. "What's your name? Forget it, it's not important! You're pretty strong here, so you'll lead the second team. The five of them will be your team members!"

Mike's five people were all members of the ruling Sword Knight Association. Everyone was familiar with each other, so there was no need to worry about the problem of command and cooperation!

"Al! There was still one more! Is Serena alone?"

Fernandes was very happy to be able to follow his thigh, but when he realized that Serena was missing, he suddenly became a little anxious. ""We're all in the same team. Serena will be in our team! It shouldn't be a problem to have one more person, right?"

Fernandes was thinking that Serena liked being supported, and although the attitude of the support was not clear, he could not leave her behind!

"I don't want to say it a third time! The limit for each group is six people!"

Lin boliang coldly refused Fernandes and turned to Serena, ""You're Serena, right? You'll be the team leader and lead another team!"

Without waiting for Serena's permission, he picked five people from talu's group. ""You guys follow Serena. She's your team leader. Whoever disobeys her will die in vain!"

It was unknown if this was a warning or a reminder, but the five of them agreed obediently and quickly ran to Serena's side. Each of them had a look of relief on their faces.

The other Tower Road lackeys, on the other hand, were envious-it was a rare opportunity to get close to Lin Yi's team, why didn't it get their turn?

"Fernandes, stop it! It's also good for Serena to lead a small group herself. It can be considered as a form of training for her!"

Lin Yi stopped Fernandes from talking and nodded to Serena, ""Serena, you can do very well. Believe in yourself and do it well!"

"Yes! Captain number eight! I understand!"

Serena pondered for a moment, then nodded vigorously.

In the entire team, only Lin Yi and Serena had some understanding of Lin boliang's arrangement.

She was a spy sent by the new sanctuary organization, after all, and it was normal for them to put in all their effort into training her without knowing that she was completely on Lin Yi's side.

After all, Serena was one of the successful templates as well. She was one of the new sanctuary's people, and it would be easier to control her than Lin Yi and the others.

Therefore, letting her lead a group of people alone was a sign that he was entrusting her with a heavy responsibility and was going to start training her.

Fernandes and the others had nothing to say after Lin Yi spoke. Lin boliang didn't care what they thought and continued to group ta Lu's group.

Tallu naturally became the leader of a group, while Bobby, Nasby, and the others also led a group.

In this way, the position of the boss of tallu's gang only existed in name. Nasby was secretly happy and felt that his chances of rebellion had increased!

"From now on, you will move in small groups. After entering the 9th floor, you can only rely on your own teammates! Now, follow me!"

Lin boliang turned around and waved to ban Jieming III. ""Doctor, I'll take them to the teleportation array now, you don't have to follow me!"

"Alright then! I'll go back first, you've worked hard!"

Ban Jieming the third nodded and made a goodbye gesture to Lin Yi and the others, ""All the best, you guys! I'll be leaving now, I hope we'll have the chance to meet again!"

Lin boliang waited for ban Jieming the third to leave first, then left the room with the others.

The group of people passed through a metal corridor and quickly arrived at another circular room. In the middle of the room was a circular teleportation door!

"This is the teleportation gate to the ninth floor. It can only teleport a maximum of six people at a time. After passing through, it will appear at any place randomly, but the people who are teleported together will not be separated!"

Lin boliang gave a simple introduction and revealed a rare faint smile. ""If you want to ask me what I need to do to enter the ninth floor? That was not necessary! You'll know what to do after you get there!"

## Chapter 7680 Ninth Floor

Everyone was speechless. Why did these words sound so familiar? so you're not actually Lin boliang, but soyatu wearing Lin boliang's mask?

"There's no problem, right? If there's no problem, then enter the portal in groups!"

Lin boliang stood at the side of the light door and used his hand to direct everyone to line up.

"I have a question ..."

Bobby raised his hand obediently, like a primary school student asking a question. Unfortunately, Lin boliang was not a primary school teacher!

"If you have a problem, hold it in! I won't answer even if you ask!"

Lin boliang didn't even look at Bobby. He was already giving Bobby face by saying this,""Any more questions?"

Bobby was dumbfounded. 'If you say that, do I have a problem or not?'

"Ling-zero-eight, your group will be the first to enter!"

Lin boliang didn't care if Bobby had a problem or not and directly ordered Lin Yi's group of six to go to the portal first.

Lin Yi nodded-it wasn't his first time, after all, and he was pretty familiar with the route. It didn't matter if he was the first or the last.

"Mike, Serena, be careful! Don't panic when you encounter something, use this more often!"

Lin Yi turned around to remind Mike and Serena-they had a lot of responsibility as team leaders!

Mike and Serena watched as Lin Yi tapped his fingers on their temples a few times, nodding in understanding.

Old eighth's captain's meaning was not only to use his brain when encountering danger, but also to use his divine sense when in danger!

Lin Yi had always emphasized the importance of using his consciousness, so of course they knew what it meant!

Lin Yi patted Mike and Serena's shoulders and led Fernandes and the others through the portal.

The familiar feeling of teleportation quickly disappeared, and the six people's vision blurred. They felt like they were in a bright world, with dazzling lights everywhere. It was so bright that they couldn't open their eyes!

"What the hell is this? I'm going blind! Captain! Are you guys alright?"

Fernandes covered his eyes with one hand and shouted, "I really miss my sunglasses! You always bring it with you when you go out, how could you forget this time?"

Lin Yi's mouth twitched. Fernandes reminded him that there were a lot of common goods in the Jade space-sunglasses should be there, right?

With that thought in mind, Lin Yi found the sunglasses in the Jade space and put them on. They were indeed useful, and they didn't shine anymore!

"There are mirrors everywhere. There's light reflection, so it's very dazzling!"

Lin Yi didn't actually need sunglasses to see his surroundings clearly. Spiritual sense was much more useful than eyes most of the time!

"Captain, you actually carry sunglasses with you! He's too ... Too wise!"

Fernandes almost blurted out that Lin Yi was cunning, but he came back to his senses in time. How could a Big Shot be cunning? of course, he was wise and powerful!

As expected, as a veteran leg hair, there were still many things to learn from the thigh. Any small detail had to be studied in depth!

"I still have some here. If you need them, you can choose a pair of sunglasses and wear them!"

Lin Yi took out a dozen pairs of sunglasses for fernández and the others to choose from. They all had different styles, but they were all very fashionable and handsome.

Fernández and the others all showed a strange look. Did the captain of the eighth brother like to act cool and handsome so much? Why did he have to wear so many sunglasses when he went out?

But he had never seen Captain eighth brother wear it before!

"Thank you, Captain eighth brother!"

No matter what, these sunglasses solved everyone's pressing problem. After thanking Lin Yi one by one, they all picked the ones they liked and put them on.

With the sunglasses, the reflected light was no longer dazzling, and everyone could finally look around freely.

"Are these mirrors? What material was it made of! It seems to be quite sturdy!"

Fernandes approached a mirror next to him and made a few bodybuilding moves arrogantly. He felt that he was really handsome!

As for the solidness and whatnot, he was just casually talking about it. He had never tried it out.

He punched out a stream of genuine Qi and hit the mirror beside him.

However, the moment the true Qi touched the mirror, it disappeared without a trace like a clay ox entering the sea. It was as if it had never existed!

"There's something strange! This thing doesn't seem to be able to be destroyed ..."

As soon as he said that, the mirrors around him seemed to come to life and started to twist.

In an instant, the light flickered and the images shook rapidly. When it quieted down again, everyone was surrounded by countless people!

As far as the eye could see, they no longer looked like mirrors. The six of them seemed to be in a vast and empty space, and there were countless people who looked exactly like them around them!

"Gulu Gulu!"

Fernandes couldn't help but gulp, making an obvious gulping sound. He then moved closer to Lin Yi and reached out to pull on Lin Yi's sleeve, ""Captain, what's going on? Could it be our clone?"

Before he could finish, his outstretched hand touched the cold mirror. He was trying to pull on Lin Yi's sleeve, but it was only the reflection of the mirror!

"Fernandes, I'm here!"

Lin Yi shook his head with a bitter smile and waved at Fernandes. The two of them were right beside him. How could this guy get the directions wrong?

However, when Lin Yi moved, countless other Lin Yi's moved as well, waving in different directions.

However, the sound was constantly reflected and echoed from all directions. It was impossible to determine where the true source was with the eyes and ears.

Fernandes was dumbfounded. Captain number eight, where is this place you are talking about?

Right now, he really felt like he was in a crowd, but his heart was extremely lonely ...

Lin Yi sighed and slapped Fernandes on the back of his head, "Here!"

"Oh, oh, oh! Captain, you're behind me! Hahaha! This place is really dazzling!"

Fernandes scratched the back of his head, laughed drily, and quickly patted his horse. ""The captain is still the best. He wasn't confused by these smokescreens at all! The captain is mighty! The captain was domineering! Captain ..."

"Alright! Use your divine sense to sense, not to mention the distance, you can always determine the position of your teammates!"

Lin Yi didn't know what to say. He'd told Fernandes to use his divine sense many times, but it wasn't a habit. He still used his normal five senses to observe his surroundings.

He had no choice but to say it a few more times. After it became a habit, he would no longer need anyone to remind him!

Fernandes immediately came to a realization. He quickly released his divine sense, and sure enough, he could clearly distinguish the positions of his companions.

However, the image in the mirror also felt real. If his companion was further away, he might not be able to tell the difference!
