

Bodyguard 7681

Chapter 7681 Illusion

Fernandes secretly made up his mind to follow the eighth Captain closely no matter what. As long as he clung to his thigh and did not let go, there would be no problem!

"Captain number eight, this place seems to be a maze, right?"

He looked around and said with a serious expression, ""It seems like our mission is to get out of this maze! The problem is, where should we go?"

The surroundings were all the same. At a glance, there were densely packed figures, endless and endless. Just looking at them made one feel dizzy. If one had tryphobia, they would most likely pass out.

"Let's wait and see! There's no point in us standing here!"

Lin Yi picked a random direction and started walking. "Everyone, keep your divine sense out. The range doesn't need to be too large. It's enough to determine the location of your companions!"

This degree of divine sense release was not much pressure for those who had already opened their mountains. The consumption could basically be matched with the recovery speed.

The reason why Lin Yi made this request was because if he extended his spirit sense too far, it would also be reflected by the mirror here, and the speed of consumption would increase exponentially.

Even with Lin Yi's insane spirit strength, he couldn't maintain it for too long. The most important thing was that even if he gritted his teeth and endured the huge consumption, his spirit sense couldn't find anything useful.

Instead of wasting his energy, it was better to preserve his strength and wait for the right time to attack.

Lin Yi had only taken two steps when a Qi attack suddenly appeared and attacked him like a ghost!

If it weren't for the fact that everyone's spiritual sense was in a state of being released, and the monitoring of their surroundings had reached the point of no detail, then adianpolo might really have been hit.

When they sensed the attack, both of them attacked at the same time. They hit the true energy almost at the same time, and the attack was completely destroyed without any impact.

However, he had a strange look on his face, and he didn't take back his fist.

"What are you doing, adianpolo? Could it be that you think your posture is very handsome, so you want to pose for a while longer?"

Fernández patted Adianpolo's shoulder and then mimicked him by punching. "You don't say. It does feel good, but the pose I put on seems more handsome than yours!"

"Don't mess around!"

He shook his head with a bitter smile and pushed Fernandes away. He then turned to Lin Yi. "Captain number eight, the attack this time seems to be the one I just used!"

When he attacked the mirror, his Zhen Qi disappeared like a clay ox entering the sea. He didn't expect that after a while, it would suddenly appear again, and the target of the attack would be himself!

"Did your attack get reflected? Or will the mirror here first absorb the attack and then find an opportunity to release it?"

Lin Yi stopped and pinched his chin, thinking. "No matter what it is, don't act rashly for the time being to avoid unnecessary trouble!"

Lin Yi didn't want to make a move before he figured out the reason. What if the rebound didn't target him? The others wouldn't be able to stop it!

"Understood!"

The group nodded. They were used to listening to Lin Yi's orders. As long as there was an order, they would follow it instinctively.

In essence, labyrinths were similar to maze formations. The only difference was that formations relied on their own power, while labyrinths relied more on artifacts!

Lin Yi was confident that he'd be able to lead the group through the maze. He was only worried about Mike and Serena-what if something happened?

In fact, it was easy to deal with Serena. After all, she was a spy arranged by the new sanctuary. Lin boliang had already shown that he would entrust her with an important task. He should not let Serena be in danger.

So the only thing to worry about was Mike's team, especially Mike!

This guy was the target of the new sanctuary's death notice, and Lin Yi only let him out for training because he was too confident. The safer way was to keep him by his side!

The labyrinth had the ability to reflect spirit sense and simulate it at the same time, so the spirit sense marks Lin Yi left on them couldn't pinpoint their exact location!

He hoped ... That everything would go smoothly!

Lin Yi was worried about Mike, but he'd been teleported in as well. They didn't have Lin Yi's sunglasses, so they had to endure the blinding light and adjust their eyes.

"Enemy attack!"

A member of the Knight Association in Mike's team shouted. His eyes had just gotten used to it when he saw many people with weapons rushing over. Hence, while he was warning them, he drew his weapon without thinking and launched an attack.

The first to attack was the stronger, the second to attack would suffer!

At this moment of life and death, there was no room for hesitation!

As for his companions, they immediately formed a battle formation and attacked without saying a word when they heard the shout. Only Mike did not make a move immediately. Instead, he was slightly puzzled and wanted to find out what was going on.

The collision between the two occurred in an instant. Mike didn't have time to check what was ambushing him before he was swept into the aftermath.

As the battle turned white hot, Mike was forced to use all his strength. The attacks he dealt with would also increase in power, and both sides always maintained a strange synchronization!

"Mike, we can't go on like this. We can't hold on any longer!"

Another member of the Knight Association was sweating profusely. He spoke to Mike reluctantly, ""If we don't have any reinforcements, we're dead! Mike, do you think Captain number eight will come and save us?"

Mike was silent-he wanted Lin Yi to come save him, of course, but he knew that it was just wishful thinking!

The next moment, the person who spoke suddenly shouted in panic, ""Mike! Mike! Where are you? Where are you guys?"

As he shouted, he looked around in horror. He suddenly realized that the place where he thought it was Mike was actually a mirror that reflected Mike's image.

It wasn't just Mike, but all his companions who he thought were fighting alongside him had also become the people in the mirror.

The sudden panic almost crushed his heart!

"I'm here. Calm down!"

Mike quickly shouted to remind the man, but he found that ... The man was just a reflection in the mirror!

The people around him had all turned into mirrors!

The words that he had just said echoed around. Except for Mike himself, no one could determine the source of the voice.

"Everyone, listen to me, calm down! Don't continue to attack and maintain a defensive state!"

A thin layer of sweat appeared on Mike's forehead. He knew that if this matter was not handled well, they would be wiped out on the spot. "I'll say it again. Everyone, stop attacking and protect yourself. Don't hurt your companions by accident!"

Chapter 7682 Growing Mike

Attack and defense were two completely different concepts. In a situation where they could not determine the position of their comrades, randomly swinging their swords would only kill their comrades.

On the other hand, full defense could prevent accidental injuries while ensuring one's own safety.

Even in such a situation, Mike's thoughts were still clear!

It had to be said that following Lin Yi in battle had subtly changed this young master, who used to be hot-headed, into a calm commander.

The five members of the team were all from the ruling Sword Knight Association, and they were familiar with Mike. Adding on the fact that Lin Yi valued Mike, they subconsciously transferred a part of their respect for Lin Yi to Mike.

Therefore, after hearing Mike's order, the five of them gave up on attacking almost at the same time and focused on protecting themselves.

As a result, the chaotic and mysterious attacks quickly disappeared!

"Very good! Everyone, don't move for the time being. Wait for me to confirm your position, and we'll make plans in order!"

Mike relaxed a little. He had a vague idea, but it was not clear yet. "We should still be in our respective areas, but we are affected by the images. Don't worry, we will solve this problem soon!"

As he consoled his team members, Mike thought about what would happen if Captain eighth encountered such a situation.

Then, he remembered what Lin Yi did and said before entering the portal. Yingying used her brain, her spirit sense!

His eyes and ears were deceived, but his divine sense was different!

Mike smacked his forehead. He should have thought of this earlier!

After he released his divine sense, Mike was indeed able to tell the difference between the team members and the mirror. Without realizing it, the six-man team was completely separated by the mirror!

Although the distance between them was not far and could be said to be close at hand, with the mirror's obstruction, just relying on the normal five senses, the scene of the world between them would really appear!

"I've found you!"

Mike was very excited. He walked to the nearest companion with a smile. "Everyone, use your divine sense to search for the people around you. This way, you can distinguish the truth from the false!"

Before his voice fell, the entire space seemed to distort slightly, and Mike's foot that had just been raised could no longer fall!

This was because in his divine sense, his five companions had once again disappeared and were replaced by endless darkness. In the darkness, there were countless long swords floating in the air, each of them exuding a cold killing intent.

Without waiting for Mike to react, the long swords in the air started to move, and they shot toward Mike like a storm!

Before the sword rain arrived, the sharp sword Qi had already torn the space apart. Mike's skin immediately felt as if it was being pierced by countless needles!

"Illusion! This is all an illusion!"

Mike let out a wild cry and firmly suppressed the urge to draw his sword. From the probing of his divine sense just now, his five companions were right beside him. Once he drew his sword, it was very likely that he would hurt them first!

Although they had all broken through to the mountain-opening stage together, Mike's Foundation was good. His level was higher than theirs when he was at the xuansheng stage. So, when he reached the mountain-opening stage, his combat power was still above the five of them.

Once Mike went all out and used the swordsmanship Lin Yi taught him, the five members of the sword of judgment would have a hard time blocking it!

However, there were swords shooting at him from all directions. If he didn't do anything, he might be pierced with thousands of holes!

Defense? It couldn't be blocked at all!

"It's all an illusion! It must be an illusion!"

Mike secretly gritted his teeth and completely released his divine sense. Then, he opened his eyes wide and shouted, "Come on! I'm not afraid!"

It would be a ghost if he wasn't afraid!

In fact, Mike wasn't confident at all, and he was panicking.

However, his intuition told him that this was the only way he could have a chance of survival!

To be reborn after death!

Mike's pupils rapidly contracted and expanded, reflecting the sharp blades. The tips of two long swords directly pierced his eyes, but they stopped the moment they almost touched his pupils!

The sharp aura on the tip of the sword felt like it was going to blind Mike's eyes, but Mike's eyes were wide open, and he resisted the urge to close his eyes and escape!

In his divine sense, the long swords that filled the sky dissipated like smoke in the wind. The sword tips in front of his pupils also slowly disappeared!

Mike's heart, which had almost stopped beating because of his nervousness, suddenly roared like a motor. His body went soft, and his legs seemed to have lost their support. He directly sat on the ground!

It was only then that Mike realized that his clothes had been soaked in cold sweat!

He had never been so close to death before!

At that moment, Mike really suspected that he had made a mistake! Was he really going to die Here?

Fortunately ... He had won the bet!

"Is everyone ... Alright?"

Mike composed himself and took a slight breath, only to find that his companions were all lying on the ground. "How are you guys? Say something!"

The mirror was still there, so Mike was surrounded by countless people lying on the ground. Fortunately, his divine sense could determine their true location.

In addition, he could also confirm that they were at least still alive!

"I ... I'm still alive ... I'm not dead ..."

One of them managed to prop up his upper body and responded to Mike with a bitter smile.

Then, the second one, the third one ...

After everyone had a bubble pop up, Mike was completely relieved. "It's great that everyone is alive! Are you all injured?"

"Small injuries! I'll be fine after a short rest!"

The first person to respond forced a smile. "It's all thanks to you, Mike, that we were able to defend against the sudden burst of sword rain! Otherwise, I'm afraid he would be dead by now!"

Mike was speechless. Those were all illusions, but they had real attack abilities!

If he could not see through it, the illusion would pass off as the real thing and become a truly fatal attack!

In many cases, fake things could also cost a person's life. For example, if a person was blindfolded, had his hand cut, and then told that his hand was bleeding.

In the end, the blindfolded man heard the dripping sound and died from excessive bleeding.

But in fact, his hand was not cut, and only water droplets fell!

Mike's team was in a similar situation. When they thought that the rain of swords really existed, the endless rain of swords really existed!

If it wasn't for Mike's desperate attempt to break through the illusion in time, their team would have been wiped out!

"This place is a bit strange. Everyone, release your divine sense and maintain close contact with the people around you!"

Mike couldn't explain too much, so he could only mention the most important thing to remind everyone, ""This is the advice given to me by the eighth brother's team leader. This is the only way we can leave this place. Everyone, please take this seriously!"

Hearing Lin Yi's name, no one said anything and all released their senses to deal with the possible danger!

Chapter 7683 Magic Lamp

At the same time, in another place, Dale and his team were also in a similar situation as Mike's team!

However, they did not need to use the illusionary realm to attack at all. They directly started fighting with their own mirror selves!

"You traitors! I knew it! You will definitely rebel! I'll kill you all!"

Ta Lu seemed to have gone crazy as he desperately attacked the people around him. He didn't care whether they were real people or people in the mirror. In any case, everyone except him was an enemy and deserved to die!

However, the crazier the attack, the more counterattacks he would receive. The more counterattacks he received, the more desperate Ta Lu's attacks became. Under this vicious cycle, he didn't last long at all. Soon, he was knocked down to the ground like a dead dog!

The other five members of Ta Lu's team were in a similar situation. Although they were not dead, they were just one breath more than the dead. They would probably not be able to move for a while!

Most of the people who were teleported into the maze were in the same state. Serena remembered Lin Yi's words. They were similar to Mike—they could barely handle it, but Ta Lu's men were in a miserable state!

Lin Yi didn't know any of this—the labyrinth was too big, and his spirit sense was constantly refracted inside, so he couldn't extend too far.

Lin Yi was leading Fernandes and the others forward, looking for the exit.

"Captain, it's the same when we're walking here and there. Are we going in circles?"

Fernandes was a little dizzy. If he continued, he might vomit. "Why don't we find a way to leave some marks? This way, we'll know if we're going in circles!"

"It's useless to leave a mark. If you don't believe me, you can try!"

"If I leave a mark, there'll be a mark everywhere!" Lin Yi shrugged nonchalantly.

Fernandes thought about it and agreed. In this world full of mirrors, a mark left anywhere would be reflected on all the mirrors. You couldn't tell which mark was real and which one was fake!

It would take a lot of time to distinguish it, so Fernandes could only give up!

"Captain, you don't look anxious at all. You should be confident, right?"

Aedenbora pulled Chris's hand and dodged a mirror in front of them. "I've followed you all the way here, Captain. We basically didn't encounter any trouble, let alone any danger. I think you must have a way to leave!"

"That goes without saying! What kind of person was the captain! It's just a small maze, how could it be difficult for the captain?"

Fernandes immediately put aside the mark and changed to leg hair. "Captain just thought that this maze was quite fun, so he took us for a stroll. It's only a matter of minutes if we want to leave, and as for danger, it's even less likely!"

"With the captain leading us, we'll take the initiative to avoid any danger! You've finally spoken the truth this time, adianpolo!"

.....

Lin Yi smiled speechlessly as he patted the talkative Fernandes on the shoulder. "Fernandés, the exit is ahead. I'll leave the glory of leading the team out of the maze to you!"

"Did you see that? What did I say! If the captain wants to leave, he can leave immediately!"

Fernandes 'face was full of joy. He immediately raised his head and puffed out his chest. He walked to the front of the small team in high spirits. "The captain asked me to lead the team, so I'll be the vanguard! Don't fall behind, aedenpolo!"

As they spoke, they had already turned a corner. The view in front of everyone suddenly opened up. There was no longer the reflection of the mirror. They could finally say goodbye to those dense shadows!

An ancient bronze door appeared in front of Lin Yi's team. Fernandes grabbed the copper ring on the door and pushed hard, and the door opened without a sound!

Fernández used too much force. He thought it would be hard, but it turned out that he didn't use any force at all, and he almost fell into the door!

"Captain, this is a passageway with nothing ... Wait, it's not that there's nothing. There's a bronze platform with an oil lamp on it!"

Fernandes laughed awkwardly. In order to resolve the awkwardness, he stuck his head out and described what he saw. "This oil lamp looks a little old, and its shape ... Looks like Aladdin's magic lamp! Could it be an Aladdin's magic lamp?"

Lin Yi led the people behind him through the bronze door. It was just as Fernandes described-it was an ancient-looking tunnel.

There was nothing inside except an oil lamp on a bronze platform. The shape of the oil lamp did look like Aladdin's magic lamp in children's paintings.

"Fernandes, don't move!"

Seeing that fernández was about to reach for the oil lamp, he immediately stopped him. ""There might be some kind of danger here. We've been very safe all this time, which is a bit abnormal! Maybe he's waiting for us here!"

"Aedanpolo, I just praised you, why are you so confused now? We had a safe journey because of Captain! With the captain leading us, we won't be in any danger!"

Fernández's face was full of disapproval, and he praised his thigh again,""Now that Captain is by my side, what do I have to be afraid of? Don't worry, there won't be any problems!"

Lin Yi smiled bitterly to himself. It was what happened, but Fernandes 'words still felt a little weird!

The labyrinth was so smooth indeed because of Lin Yi's existence. Without Lin Yi's powerful spiritual sense and formation knowledge, they might not have been able to pass through the labyrinth smoothly, and there was no telling what kind of danger they would encounter.

As for the oil lamp, the Jade space didn't give any warning, which meant that there was no danger!

Fernandes was right, but it didn't seem good that he'd deified Lin Yi!

Just as he was thinking about whether he should find a chance to correct fernández's thoughts, the man had already raised his hand and picked up the oil lamp.

"Maybe this is Aladdin's magic lamp. I'll see if I can make a lamp God out of it!"

Fernandes said as he casually wiped the oil lamp with his sleeve.

He had originally wanted to make a joke, but he did not expect that when the oil lamp lit up slightly, a faint smoke would rise from it.

Soon, a faint figure appeared from the smoke, but it wasn't Aladdin's lamp God. It was a familiar face, the sea Dragon King!

"Someone really came out!"

Fernandes exclaimed in a low voice. When he got a clear look, he was stunned. "What's going on? Is the sea serpent King Living in Aladdin's magic lamp?"

The sea serpent King was speechless. What the hell was Aladdin's magic lamp? I've never heard of it! Don't treat the treasures I left behind as trash, you bastard!

Chapter 7684 Fulfilling A Wish

"You were able to pass through the maze this King left behind, which proves that your cultivation of the divine sense is quite good! As a reward for you, I can grant you a wish!"

This was still a remnant of the sea serpent King's primordial spirit, which would not last for long. Therefore, he did not have time to care about Fernandes and went about his own business. "Now, I'll fulfill one request!"

Lin Yi got some information from the words, like passing through the maze, and cultivating spirit sense!

Did this mean that the maze this time was a training of the spiritual awareness? And Lin Yi's protection of his team caused them to lose a chance to train?

Fernandes didn't think as much as Lin Yi and shook his head at the sea serpent King's remnant, ""Oh, go ahead. Since you've given us so many good things along the way, I'll grant you a wish!"

This sea serpent King was really shameless. He had just come out and he wanted his team to fulfill his wish!

However, in front of his big brother, no matter how awesome he was, he couldn't do it. This also meant that his big brother was even more awesome than the sea serpent King!

"What?"

The sea serpent King was stunned. If it still had a body, it might have choked to death on its own saliva!

What the hell is this? He meant to grant him a wish! But what the hell was he talking about?

"What, what, are you stupid?"

Fernandes pouted, "are you all so happy that you're silly?" There's nothing our Captain can't do. Hurry up and say your wish, don't waste time!"

The sea serpent King was speechless. "An all-powerful Captain? what are you capable of?"

"This King is saying that this King wants to fulfill a wish of yours! It's yours! Think about it carefully, do you have any wishes that you want to fulfill but haven't?"

The sea serpent King wanted to slap Fernandes on the head!

The primordial spirit remnant will did not have this ability, so it could only try to calm down and bring the topic back to the right path.

"Why can't you understand the human language? I already said that our Captain is omnipotent, so with Captain around, there's nothing I can't fulfill!"

Fernandes waved his finger arrogantly and then laughed, ""Ever since I started following our eighth brother, I feel like my life has reached a high level! He felt like he had reached the peak of his life! Good!"

"Hey, your mom!"

The sea serpent King really wanted to smash the lamp into Fernandes 'head!

Why is it so difficult for me to fulfill your wish? Shouldn't they be crying and shouting for one or two more wishes to come true when they heard that they could?

With such a disdainful and disdainful attitude, can we still have a good chat?

I don't have to cry and beg you to make your wish come true, do I?

"You said that your Captain is omnipotent? Where is he? let him come over!"

The sea serpent King felt a sharp pain in his head.

Fernandes jumped to the side, exposing Lin Yi. He bent his knees and looked up at Lin Yi, his hands raised up as he pushed out his golden legs!

"Look, this is our omnipotent Captain, old eighth. As long as you follow the captain, there's nothing you can't do!"

"I don't believe it!"

The sea serpent King snorted, feeling that this human brat was also very ordinary! What's the big deal?

This primordial spirit remnant will was independent of the one on the sea serpent king's throne. The one on the other side had already dissipated, and only the real sea serpent King knew the situation.

Of course, that was if the real sea serpent King was still alive.

So, this person didn't know who Lin Yi was, and had no way of knowing what was so special about him.

In the eyes of The Kraken King, Lin Yi was just a normal practitioner at the beginning of the mountain opening stage, nothing special.

"Hey, you still don't believe me?"

Fernandes was immediately displeased!

[The eighth Captain is so wise and powerful, and so is Fernandes. He is only a little bit worse than the eighth Captain, and you don't believe his words?]

I'll kill you!

After thinking for a moment, Fernandes still felt that he had to win people over with virtue, so he put on a serious face and said, ""How about this? you're lucky today. You can make a request and see if our eighth brother can fulfill your wish!"

"Just wait and see. You'll be dumbfounded. From then on, you'll be sincerely convinced by our Captain, old eighth, and you'll never dare to talk nonsense again!"

The sea serpent King laughed in anger. What kind of idiot would dare to say such things?

"Alright, then I won't stand on ceremony. I can open my eyes and see if your Captain has the real deal!"

After a slight pause, the sea serpent King came up with a plan that he felt was foolproof. "I want to go back to this oil lamp now, you can take me back!"

Although the sea serpent King was only an essence soul remnant will, it was, after all, a wisp of essence soul remnant will that had separated from the sea serpent King's essence soul during the ancient sea splitting stage.

Not to mention an expert at the mountain opening stage, even an expert at the sea splitting stage, or even an ordinary expert at the earth splitting stage, couldn't do anything to him.

Not to mention, Lin Yi and the others were only at the initial stage of mountain opening-The Kraken King didn't even put them in his eyes.

"Hurry up! I'll stay here and not move. I'll give you the time it takes for an incense stick to burn!"

The sea serpent King had victory in his grasp, and a smug smile appeared on his face.

As far as he was concerned, as long as he didn't want to, even if all six of Lin Yi's group combined their strength, he wouldn't be able to get into the oil lamp!

"What do you mean in just an incense's time? If our Captain wants you to go back, would he need so much time? I can kill you with a single look!"

Fernandes hmped proudly and turned to Lin Yi with a big smile."Captain, don't be polite with him, just stare at him!"

Lin Yi glared at Fernandes. You got The Kraken King's inheritance, shouldn't you show some respect?

Besides, she wanted to help you realize your wish. Why did you have to cause so much trouble when you could have just said a random wish?

It wasn't easy for her to come out, so was there a need to send her back like this?

That was what Lin Yi thought, but he didn't say anything. He just sent his spirit sense over!

The sea serpent King's primordial spirit remnant will trembled slightly and immediately retreated back into the oil lamp.

In his current state, he was basically immune to physical attacks.

However, a primordial spirit attack technique like the collision of divine sense was definitely his nemesis!

Lin Yi only attacked casually, and the sea serpent King's essence spirit couldn't resist at all.

Fortunately, he didn't have the ability to resist. If he wanted to take it head-on, Lin Yi's spirit sense would've broken it apart!

"The captain is mighty! The captain was amazing! The captain is the best in the world! He will unify the pugilistic world for thousands of years!"

Fernandes started his daily flattery again, and Lin Yi was speechless. Where did he learn all this? Why did it feel like he was talking about the leader of a God sect?

Chapter 7685 Need To Wait

"Hey, hey, hey! Come out! You won't come out after you go back?"

After fernández finished his flattery, he picked up the oil lamp and knocked it, trying to get the sea serpent King's primordial spirit out again. ""Did you reply? Do you know how powerful our Captain is now? Hey, say something. Can't you talk? Is He Dead?"

Of course, the sea serpent King's remnant spirit wasn't dead. Lin Yi knew what he was doing, but the sea serpent King's remnant spirit felt that it couldn't face Fernandes, so it pretended to be dead.

It was simply too embarrassing to be forced into an oil lamp by a human in the mountain opening stage!

Even though the sea serpent King was just a wisp of primordial spirit remnant will, he still wanted his face!

Fernandes was about to wipe the oil lamp with his sleeve again to get the sea serpent King out and have a good talk with it, but he did not expect the scene in front of him to change. The tunnel disappeared and turned into an empty square!

"What the hell? Have we been teleported again?"

Fernandes grabbed the oil lamp and looked around. ""Or was it just an illusion, and now it's real ... No, it was real just now, and now it's an illusion? The sea serpent King is up to no good?"

"It's all true! The tunnel is over there!"

Lin Yi raised his chin, signaling for Fernandes to look behind him. There was a familiar bronze door. "It's not really a teleportation. I think I was transferred out after completing the labyrinth mission."

Fernandes looked at the oil lamp in his hand and chuckled. ""It's this guy who felt too ashamed to see anyone, so he simply got us out! It's a pity that you're in Fernandes "hands. You can't run away even if you get us out!"

After he finished speaking, he used his sleeve to wipe the oil lamp. He turned it over and over and kept mumbling to himself!

The sea serpent King's primordial spirit remnant will was already very annoying. No matter what, I'm still the sea serpent King! Is this really appropriate for me?

Hmph Hmph! The Great Sea Serpent King, I won't leave if I say so. Bite me!

Lin Yi didn't bother with Fernandes and released his spirit sense, covering the entire square. He wanted to check the surroundings first!

Lin Yi then realized that there was no end to the square.

There was really no end, so there was naturally no exit!

"Captain number eight, where should we go now?"

His spirit wasn't as strong as Lin Yi 's, but there was no difference in his sight. Compared to the maze of mirrors, there were only a few mirrors missing!

In this situation, it was already a habit for him to listen to Lin Yi's orders, and the others were no exception. They were all waiting for Lin Yi to make a decision!

"Let's not leave yet, we'll wait here!"

Lin Yi shook his head and looked at the bronze door. "If I'm not wrong, the others will come out from the other side after we pass through the maze. We'll wait for Mike, Serena, and the others!"

"Captain, can Mike and the others get out of the maze without you leading them?"

Fernandes was worried about Mike too, and he stopped fiddling with the lamp when Lin Yi mentioned it. "We only managed to get out safely because of the captain. What if Mike and the others get lost inside and can't find the exit?"

"Captain number eight, what fernández said makes sense. Why don't we go back and look for them?"

Morris was most concerned about the remaining people who had not come out. Whether it was Mike or Serena, they were the future of the sword of sanctions Knight Association!

The five members of Mike's team were also the elite backbone of the sword of sanctions. They couldn't afford to lose any of them!

"I don't need it! This was originally a training test. If you follow me, you'll lose a chance to improve! So, before they come out, don't just sit around and do nothing. Just cultivate here!"

Lin Yi shook his head slightly. Other than the reason, he didn't know if they could go back to the maze. After all, they might not be able to find the person!

The mirror in the labyrinth could reflect spirit sense, and no matter how strong Lin Yi's spirit was, he could only maintain his accuracy in a small area. He could be misled if the area was slightly larger.

Because of this, the spiritual awareness imprints left on Mike, Serena, and the others could not play their role. Returning to the maze was most likely useless.

From the information revealed by the sea serpent King's primordial spirit remnant will, the labyrinth's function was most likely to train one's divine sense. In that case, he might as well wait for Mike and the others to come out on their own.

"What the captain said is definitely right! Let's hurry up and cultivate. Who knows, by the time we finish cultivating, Mike and the others might already be in front of us!"

Fernandes trusted Lin Yi unconditionally. He sat down cross-legged and slammed the oil lamp on the ground.

The sea serpent King was depressed. The Overlord of the ancient sea Race was ignored by you?

If I have the chance, I'll definitely kill you!

Lin Yi's group started practicing, but the people in the maze were still struggling to move forward. After the initial losses, everyone, including tallu and the others, had some idea of the maze.

Or perhaps the labyrinth would give a hint at a specific time. In short, everyone began to use their divine sense to resist the illusion of the labyrinth and gradually gathered in the correct direction of the exit.

Half a day passed as everyone worked hard, and the bronze gate on the other side of the maze was opened again!

Fernandes, who was practicing in the square, and the oil lamp beside him moved slightly, and then disappeared from where they were.

Lin Yi blinked-even he didn't notice anything!

Lin Yi was worried that something might happen to Fernandes, so he secretly activated the thousand changes of wood and forest, leaving a clone to look after the others while he silently transformed into his soul form and flew towards the bronze door!

The most likely place for the disappearance of Fernandes and the oil lamp was the tunnel behind the bronze gate.

Lin Yi had left a clone in his essence spirit form, so no one would notice anything.

On the surface, Lin Yi was still sitting there cross-legged, not moving at all. Even if central was monitoring him, they wouldn't suspect anything.

The bronze door could only be opened from the tunnel, but since the oil lamp and Fernandes could come and go as they pleased, Lin Yi's spirit could easily pass through it as well!

Sure enough, the oil lamp brought Fernandez back to the tunnel. The reason was that a person had appeared out of the labyrinth and walked along the tower Road!

Lin Yi was surprised-he'd thought that Mike's team would be the second, or maybe Serena's team, but he didn't think it'd be talu!

Besides, tallu was the only one who came here. He didn't know where his team members had gone, and they all looked extremely miserable, as if they had encountered a great danger.

Chapter 7686 Junk And Trash

"Fernandes!" He said.

After seeing who was sitting cross-legged in the tunnel, talu immediately shouted and rushed over, ready to attack, ""Son of a B * tch, I've finally found you alone! I'm going to kill you today!"

He naturally knew that Fernandes was in the middle of training, and there weren't any other people from Lin Yi's team around. This was a Godsent opportunity, and he'd be letting himself down if he didn't grab it.

Taru gritted his teeth at the thought of all the mockery and sarcasm fernández had given him along the way!

Killing Fernandes made him even happier than escaping from that hellish labyrinth!

"Oh! Tallu, you've become more capable!"

However, just as Dale took two steps forward, fernández suddenly opened his eyes and looked at Dale with a half-smile. ""What's wrong? Do you think you have some strength and dare to turn the heavens upside down?"

Talu came to a screeching stop and an awkward smile appeared on his face. ""Hahaha, Fernandes, you misunderstood. I'm just happy to see you! I just wanted to go over and give you a hug!"

"Is that so? Why do I seem to hear someone saying that they're going to kill me today?"

Fernandes slowly stood up, patted the dust off his butt, and lazily smiled. ""It's probably because some people feel that they've gained a lot of benefits in the labyrinth and improved a lot of their strength, so they can't wait to test their strength, right?"

"It's a misunderstanding, a misunderstanding!"

Talu forced a smile on his face, but he was roaring in his heart!

'Fernandes, you bastard, you're pretending to be cultivating, trying to trick me!'

I've really been F * cking fooled ...!

"I'll tell you the truth. I didn't want to do anything to you. I just saw that the oil lamp beside you seemed to be a treasure, so I wanted to take advantage of your cultivation to secretly get it!"

Dale couldn't tell the truth and could only make up a story.

When he saw that the oil lamp under Fernandes' feet looked ancient and simple, like Aladdin's magic lamp, he used it as an excuse.

"You've taken a fancy to this thing?"

Fernandes looked down at the oil lamp at his feet and said in disgust, ""What kind of treasure is this? it's useless! If you like it, I'll let you play with it for a while. Just treat it as a benefit before you die!"

Dale was stunned. Wait a minute! Why am I dying?

After talking for so long, you still want to fight? You really think I'm afraid of you?

Alright ... I'm really scared of you!

"That ... Fernandes, we're all from the same place, and we've grown up together. What kind of conflict can't be resolved, don't you think? If I offended you in any way before, don't take it to heart. I'll apologize to you, okay?"

Talu bowed slightly with a flattering smile on his face. It was no big deal that he had already become used to begging for mercy.

Besides, there were only two of them, Fernandes and himself. It was a private act of cowardice, and it wouldn't hurt their reputation!

What he didn't know was that there was a spirit Lin Yi watching from the side, hoping that their conflict would be more intense.

"Your apology? Fernandes doesn't care!"

Fernandes raised his head and said proudly, ""But Fernandes, you're with our eighth Captain now, and your status is much higher than yours! It's a little embarrassing to argue with you ..."

Talu couldn't help but smile. I can tolerate status and whatnot, but what the hell is life level?

You're not human anymore? Aliens? So should I call you Fernandes avatar now?

Forget it, I don't care what kind of life level you are, just let me go!

Just as Dale was thinking this, fernández glared at him and shouted, ""Kneel down!"

It was simple, violent, and direct!

Talu didn't even think about it. His knees went soft and he knelt on the ground. He had no choice, he was already used to it!

By the time he reacted and felt that this was fernández's humiliation to him, he was already kneeling on the ground!

"I told you to kneel, and you just knelt down. This is so boring!"

Fernandes was very satisfied, but he pretended to be bored. He shook his head and sighed. "As expected, when you follow our eighth brother's Captain, you will naturally carry the domineering aura of our eighth brother's Captain! Is this the legendary domineering aura that edifies the people around you?"

"Ah~it's so lonely to be invincible~lonely as snow!"

Dale was extremely annoyed. If he could beat you, he would have killed you a hundred times over!

"Alright, alright, I'll let you play with this broken thing first! It's useless anyway!"

Fernandes was in a good mood. He moved his feet and pulled the oil lamp on the ground to the tower Road.

It was fun to act tough. He didn't even want to kill a hateful guy like Talon. It was good to keep him for later.

Dale subconsciously grabbed the oil lamp. Since he was kneeling, he didn't need to bend over.

This could be considered a benefit ... Well, it could be considered a benefit of kneeling!

Talu comforted himself in his heart. Then, he saw the oil lamp light up slightly and the sea serpent King's primordial spirit remnant will rushed out again!

"Bastard, you're the broken thing! Your whole family is a bunch of broken things!"

The sea serpent King's primordial spirit remnant will was about to go crazy from anger. It was being kicked here and there and called a broken thing. This was simply intolerable!

Even the primordial spirit of the ancient sea serpent King could not help but point at Fernandes and curse like a Shrew!

"Oh, you're finally willing to come out! I said you're a broken thing and you still won't admit it? You're not useful at all, and you easily take up space. I'm already giving you face by not calling you trash, okay?"

Fernández tilted his head and looked like a ruffian, ""Hey, there's a new trash. I think he's a good match for you. You can try to give him some benefits!"

Talu, who was scared by the sea serpent King's primordial spirit, nodded subconsciously when he heard Fernandes 'words.' "Yes, I'm the new trash ..."

Bah! Who was the good-for-nothing? Fernandes, that's enough!

"Look, tallu admitted that he's trash, but you still don't admit that you're a broken thing!"

Fernandes curled his lips and shook his head at the sea serpent King's primordial spirit remnant will, as if he was angry at the sea serpent King for not giving up.

The sea serpent King held his breath and shouted in his heart, "calm down, calm down!" Otherwise, this essence soul remnant will would have collapsed from anger!

Knowing that it would not be good to continue talking to Fernandes, the sea serpent King turned to the tower and shouted in a rough voice, "Tell me, what is your wish? I can fulfill one of your wishes!"

Chapter 7687 Change Wish

What? There was such a good thing?

Talu was suddenly excited!

This is called a broken thing? This was clearly Aladdin's magic lamp!

Hahaha, Fernandez, you idiot, you don't even want this kind of treasure, you deserve to be killed by me!

"I want to become stronger, stronger than anyone else!"

Talu jumped up without hesitation and laughed wildly with his hands on his waist.

As long as I can fulfill this wish, I'll be able to fight against the heavens, the earth, the air, and even kill Fernandez!

“.....”

The sea serpent King's essence soul remnant will was speechless.

If his main body was at its peak, it wouldn't be a problem to increase ta Lu's strength. The biggest problem now was that he was only a primordial spirit remnant will. If he wanted to become stronger, he had to be stronger than anyone else?

Why don't you say you want to fly up to the sky and stand shoulder to shoulder with the sun?

"This won't do, change to another one!"

The sea serpent King had no choice but to pretend to be cold and reject talu's request.

Talu's wild laughter suddenly stopped. He put down his hands on his waist, lowered his head, and knelt down again!

F * ck you! As expected, it was a broken thing!

If you can't even fulfill such a simple wish, then why are you acting like a Wolf with a big tail?

You're acting like you can do anything, but you're lying to me again! What kind of world is this! Why were there so many scammers?

The sea serpent King was also embarrassed. Talu's Swift kneel was a slap to his face!

When it came to face slapping, Fernandes would never fall behind. Seeing this scene, he immediately hugged his stomach and laughed so hard that tears rolled down his face. He even slapped his thigh with one hand.

"Hahahaha! As expected, it's a combination of broken things and trash. It's a waste of talent if you don't make jokes! You can't even do such a small thing like improving your strength. You're just useless, and you still dare to come out and talk nonsense! I feel like your face is hurting for you!"

"Shut up! If you can do it, then go!"

The sea serpent King was a little angry, but Fernandes did not buy it at all!

"It's just increasing my strength, what's so difficult about it? Our Captain can do it easily and happily, it's even easier than eating and drinking!"

Fernandes raised his chin and said proudly, ""You bring our Captain in, and I'll show you how to improve your strength on the spot!"

Lin Yi was quite speechless as he watched from the side-why did he get shot while he was watching?

It would not be good if the sea serpent King really brought his clone in!

Fortunately, the sea serpent King was still afraid of Lin Yi. He remembered the clash of consciousness and how he was thrown back into the oil lamp without any resistance.

How could there be such a powerful human in the mountain opening stage? Is he cheating?

To be honest, if Lin Yi was in the tunnel, The Kraken King wouldn't even show up.

"You talk too much nonsense. Get out and don't disturb me here!"

The Kraken King would never let Lin Yi in, so he moved Fernandes out of the tunnel and back to the square outside!

He was so angry that he forgot that he could do this. He had brought Fernandes with him when he returned to the tunnel because he was too close to Fernandes.

Great, now that the annoying guy is gone, the whole world is quiet!

"Fernandes? Where did he go?"

Taru watched Fernandes disappear in an instant. He was not sure if what he saw was real, so he looked around carefully.

"That bastard has been taken away by this King. Have you thought about it? do you have any other wishes?"

After transferring Fernandes, the sea serpent King's primordial spirit was connected, and he immediately returned to the posture of a Senior Master, elegant and dignified!

Talu was overjoyed, and the pressure on his body disappeared. He immediately jumped up from the ground, not even bothering to wipe the dust off his knees. "I've thought it through! I hope that Ling-zero-eight and the others will all die!"

Since he couldn't strengthen himself, he would kill Ling-zero-eight and the others to fulfill his wish!

Without team Ling-zero-eight, he was still the strongest in front of Saint soyatu!

"....."

The sea serpent King was speechless once again. I don't even dare to meet that Ling-zero-eight, and you want me to kill him? And his team members?

Are you sure you're not trying to kill me?

"What's wrong? Is it that hard?"

Seeing that the sea serpent King did not speak, talu looked at him with suspicion.

"Cough, cough! It's not that difficult ..."

The sea serpent King was slightly embarrassed. This was no longer a matter of difficulty, but something that was impossible to succeed!

To kill Ling-zero-eight, it would be hard not to be killed by Ling-zero-eight ...

"Well, let's study how to improve your strength!"

The sea serpent King thought to himself, 'now that I've increased your strength, it's none of my business if you go looking for death!' Although this was difficult, there was still room for manipulation!

"..." This time, it was talu's turn to be speechless!

You really are a broken thing!

It was not reliable at all!

"If we can't kill them, can we just cripple their strength? Or let them get sick, injured, and weak?"

Dale still didn't give up and wanted to lower the difficulty to fulfill his wish.

The sea serpent King looked at talu as if he was looking at an idiot. If he could do this, how could he not kill them?

Fernandes was not lying when he said that this guy was trash!

"Let's talk about your wish to increase your strength!"

The sea serpent King's words were equivalent to rejecting talu's wish.

Dale was disdainful. Fernández was not lying when he said that this guy was a piece of crap!

At least the two of them had reached a consensus in this regard, and it was rare for them to identify with Fernandes. If Fernandes knew about this, he would probably be proud for a long time!

Lin Yi was quite happy watching from the side, as if he was watching the two of them do a crosstalk. It was a rare form of entertainment!

It was a pity that The Kraken King had sent Fernandes out of the tunnel-he'd have someone to share this with. Lin Yi was the only one who was happy.

"Then I'll increase my strength!"

Dale shook his head in disgust.

This was his original wish, but now he felt that his desire was somewhat dissatisfied. He really didn't know how to describe it.

The sea serpent King was also very aggrieved. He did not want to waste any more time with ta Lu. He directly fused the origin power of the remnant will into ta Lu's soul and began to increase the strength of ta Lu's soul.

Even if it was just a wisp of remnant will, the original power that was separated from a primordial spirit at the peak of the sea splitting stage was enough to improve a pseudo-mountain split expert like ta Lu by a lot.

Therefore, as the strength of his primordial spirit increased, his physical body naturally improved as well, and his strength level rose rapidly.

Unfortunately, the sea serpent King's essence soul remnant will did not contain much essence Soul Origin power. It would soon be empty!

The sea serpent King was so frightened that he quickly stopped. Otherwise, his essence soul remnant will would have collapsed on the spot!

Chapter 7688 Taking Revenge

"Alright, your strength has increased by a lot. I've consumed too much energy and am about to enter hibernation!"

After the sea serpent King finished speaking, his figure quickly faded and returned to the oil lamp without any more signs of life.

On the other hand, talu was inexplicably excited. He snorted and performed a set of punches and kicks, then laughed proudly. "Hahahaha, I've become so powerful. Fernandes, Ling-zero-eight, just you wait! I'll definitely kill you all!"

"No, I can't reveal my strength now. I have to keep a low profile and then find an opportunity to surprise them! I'm a professional at scheming! I can definitely kill them!"

After getting over his excitement, talu started mumbling to himself about how to deal with Lin Yi, Fernandes, and the others. He didn't know that Lin Yi's spirit was right beside him, listening to every word he said.

However, Lin Yi didn't care about the plan at all. His heart didn't move at all, and he even wanted to laugh!

It would be a miracle if this child's play plan succeeded!

In the face of true strength, any schemes and intrigues were just floating clouds!

Just treat Dale as a Whetstone for the team members. Whenever they were unhappy, they could just kill him with a slap!

A person in Taru was having a good time talking when the bronze doors on both sides of the corridor suddenly opened at the same time. A group of people came in from the maze, including Mike's team, Serena's team, and the two teams of Nasby and Bobby.

These people had somehow gathered together. When ta Lu saw a group of people coming in, he panicked.

He had a guilty conscience. He was afraid that the sinister plan he had mumbled to himself just now would be heard by others!

"Bobby, Nasby! You're here too! Why are you with them?"

Talu forced a smile and waved his hand to greet them. "It's great that you guys are fine! When I see you guys, I can finally relax!"

"Boss talu, why are you alone? Where are the others?"

Bobby came over and hugged Taru, who opened his arms, and looked around in confusion. ""Are they okay?"

The four teams that came in this time were all in good shape. Mike's and Serena's team were in the best condition. Other than the fatigue on their faces that could not be hidden, they were basically not injured.

On the other hand, everyone in Nasby and Bobby's team was injured. They looked much more miserable, but at least they were still alive, and no one was pulled out.

Only Tallu was alone, so it was no wonder that Bobby would feel strange.

"Ah ... The people in my group were all separated. I don't know where they are now!"

Dale laughed and casually changed the topic. "You haven't told me why you're with them."

"Oh, we met at the exit. What a coincidence. Four groups came out from four directions at the same time. Everyone's situation was not good, so we definitely couldn't fight, so we came in together."

Bobby explained in a low voice and continued to ask Talu, "Boss Talu, is there anything good here? We've been working so hard for so long, what exactly is it for?"

"I just got here too, so I don't know. There's a door over there, let's go take a look first!"

Tallu definitely couldn't tell the truth!

If Mike, Serena, and the others were not around, he would not mind showing off his strength to intimidate Nasby and Bobby.

However, in order to plot against him, he could only bear with it. He could not let Mike and the others know about his increase in strength.

Lin Yi was relieved to see both Mike and Serena safe and sound. His essence spirit left the tunnel and returned to his clone, canceling it at the same time.

The whole thing was done flawlessly, and even if someone was monitoring him, they wouldn't notice that Lin Yi had actually left for a while!

"Boss talu, what's this oil lamp?"

Nasby noticed the ancient oil lamp in talu's hand and became suspicious. "Did you find a treasure?"

"No, it's just a worthless piece of trash. I just thought that the shape was pretty good and wanted to bring it back to be a decoration!"

Talu spoke nonsense without a change in his expression. The sea serpent King was in hibernation and would not come out again.

Perhaps it could be used to improve his strength in the future, so talu was unwilling to abandon it and planned to take it with him first.

Nasby was suspicious. He wanted to take the opportunity to make trouble and seize power, but he felt that it was a little strange. Without any confidence, he could only suppress his impulse to attack!

The bronze gate leading to the square was probably opened by the sea serpent King before he went into hibernation. As talu and the others were talking, Fernandes had already rushed in.

Fernandes was very anxious when he was transferred away by the sea serpent King. How could he be interrupted just like that?

So, as soon as the door was opened, fernández, who had been studying outside for a long time, ran in. He did not expect to see a group of people!

"Mike! I knew you'd be fine!"

Fernandes didn't care about Taru's bad luck. He rushed over and gave Mike a bear hug.

"Of course I'm fine! I'm an expert trained by eighth brother's Captain, how could anything happen to me!"

Mike was also very happy to see fernández. Wherever this guy was, there would definitely be Captain number eight. "Where's the eighth Captain? I haven't seen you for such a long time, I miss you so much!"

Fernandes 'mouth twitched. It had only been half a day, okay? How long has it been? One day apart felt like three years?

Mike, you're not being honest here. Do you want to snatch the position of my brother's experienced leg hair?

"The captain is in the square outside. You'll see him once you get out."

Fernandes let go of Mike and answered casually. He turned to Serena and opened his arms. "Serena, it's great to see you. I missed you too!"

Serena turned her weapon around and pushed it against Fernandes 'chest with the handle. Then, she smiled happily. "I missed you too, fernández, but forget the hug!"

"You despise me?"

Fernandes spread his arms and looked aggrieved.

"You're right!" Serena laughed even more cheerfully. "You're right!"

Mike and the others laughed out loud when they saw Fernandes' expression. After going through life and death situations, they were really happy to be able to make such a joke!

Everyone talked as they walked, and soon they reached the square. When they met with Lin Yi's group, it was inevitable for them to exchange pleasantries and talk about their experiences. They all sighed- following eighth brother was indeed the most worry-free!

After a while, the people from the tower Road also arrived at the square in twos and threes. When most of them had arrived, a dazzling light lit up in the sky and a thick pillar of light shot down from the sky.

Within the pillar of light, Saint zoatul slowly descended once again!

"Congratulations, everyone, for passing the final trial! I'm very happy to see you here!"

Saint soyatul said a few official words as soon as he landed before turning to Lin Yi, a smile on his face. "Especially you, eighth brother. You're still as outstanding as ever. You're so dazzling that I'm almost blinded!"

Chapter 7689 Confess The Truth

"You're overpraising me, soyatu!"

Lin Yi smiled and pretended to be humble, "It's all because the team members cooperated well, I can't claim credit for it!"

"Eighth brother, you're good at everything, but you're too humble! I know that this is a traditional virtue of you Chinese, but here, we appreciate the direct way of doing things. If it's your credit, it's yours. There's no need to be humble!"

Saint soyatu waved his hand and looked at the rest of Lin Yi's team. "Of course, the others are also outstanding, but they have all achieved this under your leadership, eighth brother. That's why you are the most outstanding!"

"You're too polite, soyatul! Now that we've completed the final test, can we leave this place and go home?"

Lin Yi didn't really want to leave, but he wanted to retreat for the sake of advancing.

The nine-story glazed Pagoda was the key to the Center's new model of cultivating experts. He believed that Saint soyatu would not easily let them, the first batch of test subjects, leave.

If he could obtain the control method of the nine-layered glazed Pagoda, or find some key parts and directly destroy them, then everything would be over!

Lin Yi was looking for a chance to destroy anything in the center anyway.

He was now Ling-zero-eight, so even if he broke it, it would not violate the peace agreement with central, and central would not be able to find fault with him.

Besides, even if central knew that he had done it, it wouldn't matter. In any case, his current identity was a cultivator of the nine-story glazed Pagoda. If it was damaged, it would be done by accident.

"Don't worry, eighth brother. Of course, I'll let you go home. But before you leave, there are some things I need to explain to you."

Saint soyatu waved his hand and then revealed a mysterious smile. "Everyone, I have an important announcement to make. Listen up!"

"Actually, I'm one of the twelve Holy envoys of the new sanctuary organization. I'm sure you've all heard of the new sanctuary, right?"

Recently, the new sanctuary had been very famous in Europe. Even ordinary people had heard of the name of the new sanctuary organization, let alone those with some power.

That was why everyone's expression changed when Saint soyatul said this.

Of course, other than the fact that Lin Yi was pretending, this was something she had expected.

It would be even more surprising if Saint soyatuo were to say that he was not a new sanctuary-realm, but another organization.

"Eighth brother, and everyone else here, you have all passed the harsh test and successfully grown into super experts of the mountain opening stage! I am honored to tell you that you will be a part of our new sanctuary!"

Pleased with the crowd's expressions, Saint soyatu delivered his speech in an even more passionate and high-spirited manner. ""You are the new blood of the new sanctuary! You're an important cornerstone of the new Holy region! As long as you're willing, you'll become special existences that transcend the mortal world!"

"I can very responsibly tell everyone that with your current strength, as long as you enter our new Holy region, your starting position will be at the level of the twelve Holy envoys! The more powerful you are, the higher the authority and status you will obtain!"

When talu heard this, he was immediately excited!

In terms of level and strength, Dale felt that he had surpassed everyone present!

In other words, after he joined the new sanctuary organization, his position would be above Lin Yi's team!

He grabbed a blade of grass! Just thinking about it made him excited!

When the time came, would he still need to do it personally? He could have just used the power in his hands to toy with them to death!

Calm down!

Now, I have to keep a low profile and let those bastards who look down on me think that I'm still as useless as before ... Bah! I'm not trash!

Talu sneaked a look at Lin Yi's team and put his thoughts aside, focusing on what Saint soyatu had to say.

"You may not know this, but the number of positions for the twelve Holy envoys in the new sanctuary is fixed. There will be no increase or decrease. In order to make suitable arrangements for everyone, we have specially set up new Holy envoy positions!"

Saint soyatu paused for a moment, his eyes slowly sweeping across everyone in front of him. "From now on, you will be the new battle Saint emissaries of the new sanctuary organization!"

"There are a total of 108 battle Saint emissaries, named Tiangang and Disha. There are 36 Tiangang Saint emissaries and 72 Disha Saint emissaries! Earth emissary's status is the same as the original twelve emissaries, while heavenly spirit emissary is half a level higher!"

"Everyone here is at least one of the 72 emissaries, so I would like to congratulate you all first! Right now, you don't have 108 people, but you'll slowly make up for it in the future. At that time, you'll be the elders of the battle Saint emissaries!"

Talu calculated for a moment and felt that he was definitely one of the 36 Holy envoys of the Big Dipper. However, he could not be sure if that perverted Ling-zero-eight was one of them.

If they were both Tian Huan emissaries, there should be a ranking, right?

No matter what, I'm going to walk the road of awesomeness!

Ling-zero-eight will definitely not be a stone in my way!

"That's the basic situation. Does anyone have any objections to becoming the glorious battle Saint of our new Holy region?"

Saint soyatu's eyes became somewhat playful and dangerous. "If anyone is unwilling, it's fine. Tell me now and I'll arrange for you to leave this place and send you home!"

Lin Yi smiled coldly to himself. Was it heaven or hell?

Looking at you, whoever doesn't agree to join the new sanctuary will definitely be killed the moment they step out!

"Captain number eight!"

Mike and Morris had been listening for a long time and wanted to attack, but Lin Yi didn't say anything, so they held back.

Now that Saint soyatu said they could leave, they wanted to hear Lin Yi's opinion. Should they attack now or leave first?

After all, the new sanctuary organization had issued a notice of death to Mike, and the conflict between the stefford family and the new sanctuary was very deep.

There was no need to mention Morris 'sword of judgment. It had already had more than one conflict with the new sanctuary. It had destroyed the new sanctuary's branches and killed the new sanctuary's Holy envoy. The hatred it had for the new sanctuary was even greater than that of the stefford family!

Lin Yi made a hand gesture to calm them down before communicating with them, "The new sanctuary must know who you are, but they still let you pass the test and improve your strength. Don't you find it strange?"

Mike, Morris, and the others were all stunned. That was indeed the case!

This time, they had come to find the treasure of the sea serpent King. No one had disguised themselves or hidden their identities. It would be strange if the new Holy region did not know who they were!

Since he knew and still dared to let them increase their strength, he must have a backup plan. He was not afraid of Mike and the others falling out with him!

Chapter 7690 Tower Road Is Going To Explode

"Everyone, don't be rash. Let's wait and see!"

Lin Yi said, giving an order to the group, and Mike and the others fell silent.

Listening to what old eighth's Captain said, it must be right!

This was the prestige that Lin Yi's performance had brought to the team, and everyone in the team was convinced by it.

However, the dissatisfaction and hatred Mike and the others had for the new sanctuary-realm didn't disappear because of this. Instead, it was like a spring that contracted under pressure. When the pressure disappeared, it would burst out with more power.

Saint soyatul glanced at Lin Yi's team with a smile, paying attention to the expressions of Mike and the others.

"Mike, Morris, are you not planning to leave? I know about the sword of judgment. You have had many conflicts with our new sanctuary before. If you want to leave, I promise to let bygones be bygones!"

Mike and the others didn't expect Saint soyatul to suddenly expose this matter. After a moment of surprise, Mike sneered and replied, ""I don't need it! I'll always be with Captain number eight. I'll go wherever the captain goes!"

"That's right! "The sword of sanctions no longer exists. From the moment I, Morris, followed the captain of the eighth brother, we were all members of the captain of the eighth brother. There is no longer any sword of sanctions Knight Association!"

Morris's expression was solemn. It was clear that he was speaking the truth. "That's why all of us will follow our eighth brother's lead. If he says we'll join the new sanctuary, we'll join. If he says we'll leave, we'll leave!

"I didn't expect you to be so loyal! Eighth brother, I knew you were outstanding. Otherwise, you wouldn't have been able to subdue them and make them so loyal to you!"

Saint soyatul's expression relaxed, and he laughed out loud."Forget it, forget it. For the sake of eighth brother's face, let's forget about all the past matters. From now on, we're all one family, so we still need to work together and help in this great event!"

Mike and Morris couldn't help but Hmph. They didn't say anything because of Lin Yi.

Lin Yi, on the other hand, only exchanged a few pleasantries with Saint soyatu before signaling for everyone to follow him into the light pillar and leave the square.

In an instant, they were in a huge Hall, surrounded by screens, most of which showed the places they had been to.

"We're all on the same side now, so I'll bring you to the most important area of the nine-story glazed Pagoda! You guys probably find the scene on the display familiar, don't you?"

Saint soyatu faced Lin Yi and the others, opening his arms and smiling. "That's right, these display screens display the situation of each level of the nine-story glazed Pagoda. "

"At this time, you should be able to understand that the entire nine-story glazed Pagoda has actually fallen into the control of our new Holy region. However, there are some places that we haven't been able to fully control. Thanks to your excellent performance, our control of the nine-story glazed Pagoda has taken a step forward."

"It's a pity that I still need to work harder to completely control the nine-story glazed Pagoda. However, with everyone's participation, I believe that this moment will come very soon!"

"At that time, all the levels of the nine-story glazed Pagoda will be completely developed by our new Holy region. It won't be like now, where some levels can only be opened and entered, but we still can't control the contents of them completely."

Lin Yi's eyes narrowed as he was overjoyed.

Since the nine-story glazed Pagoda had a Control Center, there was a possibility of it being destroyed!

The place in front of him could only be called a monitoring center, not the control core of the nine story Pagoda. Lin Yi hoped to find out the location of the control core from the Saint and destroy it secretly.

Lin Yi was just thinking about how he could get to the core of the secret, and he didn't expect the Saint to bring it up himself.

"In order to completely control the nine-story glazed Pagoda, everyone needs to work together and use their divine sense to communicate with the nine-story glazed Pagoda's own thoughts. Then, they will refine it!"

Saint soyatu walked to a computer and typed in a string of commands. A hole appeared on the ground in front of Lin Yi and the others, and a sci-fi metal ball rose from it.

The ball was about five meters in diameter, and there were glowing lines all over its surface, giving it a mysterious feeling.

"Saint soyatu, is this the nine-story glazed Pagoda's ... Self-will?"

Talu could not help but ask. He felt that he would be the most important one among the 36 Big Dipper Holy envoys in the future, so he had to make his presence known.

Lin Yi thought that this trash was really useful-it saved him a lot of time and effort, and he wouldn't get suspected by Saint soyatu.

"No, the nine-story glazed Pagoda's own consciousness exists in the nine-story glazed Pagoda. It can't be seen or touched, so how can it be here?"

Saint soyatu did not care about talu's interruption. He probably felt that the poor guy did not have long to live. For a dying man, he did not mind being a little more patient.

"This is an instrument developed by our new sanctuary. Its function is to communicate with the mind of the nine-story glazed Pagoda, and then refine and control the entire nine-story glazed Pagoda!"

"Everyone's primordial spirit has been nurtured by the nine-story glazed Pagoda and is already quite powerful. The reason why we spent a huge amount of resources to help everyone improve their spiritual sense strength is that we hope to borrow everyone's strength to communicate with the nine-story glazed Pagoda!"

Lin Yi finally understood that the new sanctuary had a good plan!

By using the nine layer glazed Pagoda to cultivate a group of people with strong spiritual sense as tools, and then completely refining the nine layer glazed Pagoda, he could then better cultivate more experts and form a virtuous cycle.

As for whether Lin Yi's group would face any danger during the process, it wasn't something the new sanctuary would consider.

In any case, as long as he could make some progress in controlling the nine-story glazed Pagoda, it would be worth it!

The new sanctuary wasn't afraid that Lin Yi and the others wouldn't cooperate, either. If he was right, the medicine that Saint soyatu gave them earlier not only increased their strength but also controlled them.

In addition, the laser weapon that Lin boliang had shown before was a means of external deterrence. With such a balance, whoever wanted to resist would be killed on the spot!

"Saint soyatul, I think I can do this alone. I don't need anyone else's help!"

Talu had wanted to keep a low profile, but when things came to a head, he couldn't help but become arrogant. "Isn't it just communicating with the nine-story glazed Pagoda's own consciousness? it's not a difficult thing!"

His words were not without basis. The sea serpent King's primordial spirit remnant will had used its own primordial Spirit's origin power to increase the strength of ta Lu's primordial spirit. This meant that ta Lu had fused with a portion of the sea serpent King's primordial spirit remnant will.
