

Bodyguard 7801

Chapter 7801 Sneak Attack At Night

Lin Yi, on the other hand, was a bold man. He didn't care about the threat of the dark spirit beasts at night at all, and led the guards unit around the original route, taking a small path to fire sickle city.

Wu yucao led the Army and continued to advance according to the planned route and speed.

Lin Yi didn't care if anything happened on the way, but he left a spirit sense mark on them. If they were in danger, they could fly back in time to help.

Outside fire sickle city!

Lin Yi and the guards unit had arrived two days earlier than the Army had expected.

"General, the troops of seitong Commandery did not attack. Are they waiting for our reinforcements to arrive and then surround us? Do you really think that you can win just because you have more people?"

Song shaopeng, the Vice commander of the guards, was now Lin Yi's confidant. He asked Lin Yi excitedly, "Should we send someone to infiltrate fire sickle city and contact them to see if there's any possibility of a pincer attack?"

The guards unit didn't just rush on the road-during the day, Lin Yi would personally teach them battle formations and give them some pointers on training.

Hence, these few days, the guards unit's overall strength had increased greatly.

Although there were only 800 of them, and they were facing an enemy that was almost 100 times the size of the seitong Commandery, song shaopeng didn't think that they would lose.

With eight hundred people charging at them, the people who could fight with them at the same time could not be the sixty to seventy thousand enemy soldiers. At most, there would be one to two thousand people.

Only after killing all the enemies would new enemies fill the gap.

As long as they could maintain their mobility and had enough physical strength, song shaopeng felt that even without the cooperation of fire sickle city, they could still kill their way in and out of this ten thousand army formation!

Lin Yi's face wasn't looking too good, though. They were still quite a distance away from fire sickle city, with the Seton military camp in the middle, and the naked eye could only see a few tiny figures on the city walls.

But Lin Yi's spirit sense was strong enough to see the situation in fire sickle city!

Fire sickle city had fallen!

"Vice commander song, can you see the soldiers on the city walls?"

Lin Yi said faintly, not saying the result directly.

Song shaopeng tried his best to look. Martial artists had good vision, but they couldn't see clearly from a distance."Marshal, I can only vaguely see soldiers stationed on the city wall, but I don't know the details."

"Then let me tell you, the soldiers on the city wall are very relaxed. They don't feel nervous at all when facing an enemy that is several times stronger than them. Some of them even threw their weapons aside and leaned against the city wall to rest."

Lin Yi's expression was indifferent as he pointed at the camp,""Look over there. In a normal siege, the focus of the deployment of troops should be on the side facing the city wall, but in reality, there aren't many soldiers on that side, which is basically a decoy!"

"On the other hand, although I can't see many people at the back of the camp, there are faint metallic reflections inside and outside the camp from time to time under the sunlight. There are also moving figures. It's obvious that there are hidden troops there."

Song shaopeng looked at Lin Yi in shock. He didn't need Lin Yi to say the result, and he could already guess what it meant!

However, he couldn't understand how the commander could see so many things.

Even though he had received some guidance, he could not see it clearly.

As expected, this was why Lin Yi was a commander at such a young age, and he, song shaopeng, was only a vice commander of the guards after being promoted!

"Commander, fire sickle city ... Has it been breached?"

Song shaopeng already knew the answer, but he still couldn't help but ask, "Could it really be because of the traitor?"

Song shaopeng was the one who personally led the interrogation of the selencopper Commandery's spies. Naturally, he knew how powerful those spies were!

"It's no longer important whether there's a traitor or not. We only need to know that this is a huge trap waiting for us with its fangs bared!"

Lin Yi's lips curled up into a cold smile.

Not everything could be torn apart by the fangs. There was also the possibility of directly breaking the hard stubbles!

"Commander, what should we do?"

Song shaopeng glanced at the main camp of seitong Commandery and fire sickle city in the distance. He could not help but hesitate.

If it was a sneak attack on the enemy camp, song shaopeng was confident that he could come and go as he pleased, even if the difference in strength between the two sides was huge.

However, if it was a trap ... That was a completely different matter!

One attacked unprepared, while the other jumped into a pit knowing that there was one. Was he an iron-headed person?

If the number of Guards unit was not 800, but 8000 ... It was worth a try!

"Wait!"

"Ambush after dark!" Lin Yi said simply.

Song shaopeng was stunned, but he immediately bowed and cupped his fists, "This general will obey your orders!"

Military orders were like mountains. Even if they knew there was a pit in front of them, they had to open their eyes wide and jump in!

However, song shaopeng felt an inexplicable excitement in his heart. He felt that he might not lose if he followed Lin Yi as the commander!

Thinking about it, he felt that he was a little crazy.

Eight hundred people to ambush a trap set up by sixty to eighty thousand enemies, one against a hundred ... Was it really possible?

Lin Yi didn't turn around to look at the guards, he only sensed for a bit.

The morale of these soldiers was still good, and they were not too dejected when they heard that they were going to launch a surprise attack on a trap set up by an enemy a hundred times their size.

Of course, it was inevitable for some of them to be a little confused and hesitant.

"Don't worry, everyone. I won't take you to your deaths! Although the enemy has made their arrangements, they must think that we are still on the way and will not take any precautions! We will definitely win this battle!"

Lin Yi's tone was firm and powerful, and song shaopeng's soldiers immediately became more confident.

This commander of his Army was indeed very mysterious. Since he said that they would definitely win this battle, then ... There was really a chance of victory, right?

After all, the Commander-in-Chief was the son of the first wife of the Sima clan. If Sima Yunqi successfully ascended the throne and was conferred the title of Crown Prince, this person would be the future successor to the throne!

If such a noble figure dared to lead a charge into the camp, what else could they, the soldiers who had licked blood on their blades, not let go of?

"We will definitely win!"

Everyone's mind turned, and for a moment, they were excited. Under the leadership of song shaopeng, they raised their weapons and shouted in a low voice, "We will definitely win! We will definitely win!"

Lin Yi turned around and pressed down with his hand, stopping everyone from shouting.

Although they were still far away from the enemy camp and everyone had deliberately suppressed their voices, there was still the possibility of being discovered by the enemy.

"Very good, everyone's morale is very high! Tonight, let's trample on the barracks and destroy the seitong Commandery!"

Lin Yi didn't say much, only encouraging him a little before turning to song shaopeng. "Vice commander song, take your brothers and find a hidden place to rest. Once the sky turns dark, we'll be ready! I'll go take a look nearby and be back soon!"

Chapter 7802 Death Spreading

"This general will obey!"

Song shaopeng had no objection and left with his men.

Whether or not this person had talent was one thing, but at least he was extremely qualified to be an assistant.

Lin Yi was quite satisfied with the man's obedience.

After leaving the guards unit, Lin Yi's spirit left his body and went back into the Jade space.

In the following battles, his current physical strength was still a little weak, but there was nothing to worry about with his primordial spirit.

Song shaopeng took the guards unit to find a secluded mountain to hide and rest.

When the sky turned dark, everyone would have a full meal. This was the last bit of food they carried with them!

When they left the Army, the guards unit was light and simple. When they took the path, they also killed some dark spirit beasts as food. Their plan was to enter fire sickle city today, so there was no problem with supplies.

However, they could not enter fire sickle city. If they wanted to have another meal after this, they could only hope that they could kill the people from seitong Commandery!

After eating and drinking to their hearts "content, all of them mounted their horses, their backs straight as they quickly and silently formed into an arrow formation.

Lin Yi wasn't back yet, so they could only look at the fire in the distance, gripping their weapons tightly.

Song shaopeng was a little worried. Lin Yi had left for half a day and he didn't know where he went. Why wasn't he back?

Without a commander leading the way, he didn't know if he should give the order to continue the assault.

It wasn't that he was afraid of death, but that he didn't have any confidence!

Lin Yi suddenly popped out from the darkness not far away.

If it wasn't for song shaopeng's good eyesight, he would have called for people to attack!

"Marshal! You're back!"

Song shaopeng saw that it was Lin Yi and his heart relaxed. With a pillar of support, there was no problem with what he was going to do next!

"Marshal! The guards unit has assembled, please give the order!"

"Good! Let's go now and attack the selencopper Commandery camp with me!"

Lin Yi didn't waste any more time. He waved his hand and led the 800 cavalymen to the southeast of the camp.

At the same time, the fire in the Northwest of the seitong Commandery camp suddenly started to shake, as if there was a riot there.

Song shaopeng had some doubts in his heart and couldn't help but ask, "General, there seems to be something strange in the Northwest of the seitong Commandery camp. Are our other troops here?"

The people of selenbronze Commandery would not try to be mysterious in the middle of the night, would they?

However, would the Army of Hongshang Commandery still come to support the northern border?

"Ha ... You can say that. You don't have to worry about it. Just follow this commander and charge forward!"

Lin Yi only smiled, not explaining further.

In fact, it was Lin Yi who caused the disturbance in the seitong Commandery.

When he left the guards unit alone, he wasn't really going for a stroll, but to look for the dark spirit beasts.

There were jungles everywhere on the sub-Island, so it was not difficult to find some groups of dark spirit beasts.

Lin Yi spent some time and provoked a dozen different dark spirit beast groups, doing things like stealing the heirs of the dark spirit beast Kings.

A dozen dark spirit beasts had all gone berserk, and there were around three thousand of them. Lin Yi led them to the Northwest of the camp.

That direction was close to fire sickle city, and it was one of the locations of the soldiers of seitong Commandery.

Normally, even if it was night time, the darkness spirit beasts would not attack the large campsite of human ancient martial art practitioners.

But this time, it was different. Lin Yi threw the beast King heirs and the treasures guarded by the dark spirit beasts into the seitong Kingdom's campsite, leaving a clear trail behind.

The berserk beasts no longer had any apprehensions, and they all rushed into the campsite of the seitoncopper Commandery with red eyes.

There was not much fighting power in the area where the soldiers were. It was night time and the dark spirit beasts attacked the camp. The soldiers of seitong Commandery were caught off guard and fell into chaos in the Northwest corner.

Soon, this chaos began to spread. The darkness spirit beasts rushed into the camp and saw blood. They became even more ferocious and scattered, spreading the panic even more thoroughly.

The news was quickly sent to the Commander-in-Chief of the SE Tong Commander-in-Chief. When he knew that the dark spirit beasts had attacked the camp, he immediately relaxed.

He had thought that the reinforcements from Hongshang Commandery had arrived!

It's just two to three thousand darkness spirit beasts, what's the big deal?

There was an Army of 60000 to 70000 martial artists here. These darkness spirit beasts were basically food for them.

"Order the three armies to not panic. They should rest and patrol at night. Then, let the two battalions closest to them deal with the dark spirit beasts. Tomorrow, everyone will have meat together!"

3,000 darkness spirit beasts. Just the inner cores and meat strips alone were worth a lot of money.

It was also a good thing to add some meat to the soldiers 'side dishes for the remaining meat.

The Commander-in-Chief of the SE Tong Commander-in-Chief was in a good mood. He even hoped that the dark spirit beasts would be more powerful this time, so that he could get more inner cores.

As for whether he could deal with these darkness spirit beasts, he was not worried at all.

A well-prepared Army was not something that these messy spirit beasts of darkness could fight against.

Lin Yi rode his Black Spirit Ferghana horse and led the eight hundred Guards unit cavalry into the darkness.

Song shaopeng was well prepared. The Black Spirit Ferghana horse's four legs were wrapped in thick leather. It would only make a slight muffled sound when it ran at full speed. If it trotted, there would be almost no sound.

Everything that happened in the camp was under Lin Yi's spirit sense, and the dark spirit beasts "effects were beyond his expectations.

He had thought that two to three thousand dark spirit beasts could only harass the seitong Commandery camp and attract their attention. He did not expect that the chaos and casualties would be dozens of times more than expected.

This way, Lin Yi's surprise attack would be even smoother!

"All troops! Surprise attack!"

Lin Yi pulled out the demonic blade and slashed at the air."Kill!"

The campsite of the selenbronze Commandery was just a few steps away.

The thick darkness of the night concealed Lin Yi and the guards very well.

In another direction, the disturbance caused by the darkness spirit beasts had attracted the attention of most people.

The soldiers of the SE Tong Commandery had just gone through a process of tension and tension, and most of them had fallen into a state of laziness.

None of them noticed that a group of eight hundred Grim Reaper's scythes were rapidly slashing down on their heads.

The plant element in Lin Yi's body was activated, and the weeds on the ground quietly spread, quietly filling up the defenses of the seitong Commandery.

When no one noticed, they opened a path for the guards unit.

The iron hooves rushed into the gap in the passage, and the blades and Spears finally shone with a cold light in the fire.

Chapter 7803 Complete Victory

A few of the guards then realized that something was wrong, and their attention finally shifted back from the Northwest corner.

Unfortunately, they were met with blades and Spears.

With a few heads flying in the air, the slaughter began!

"Kill!" Lin Yi yelled again.

The 800 guards didn't suppress their boiling blood anymore and shouted in unison, "Kill! Kill! Kill!"

He raised his saber and spear, and his iron hooves swept across!

The SE Tong Commandery had deployed a large number of troops here, but without any preparation, their advantage in numbers instantly turned into a disadvantage.

A chaos that was ten times more chaotic than the one caused by the darkness spirit beasts quickly took shape!

The soldiers of seitong Commandery were panicking. They had abandoned their armor and were in a complete panic.

They didn't know how many enemies there were, and they didn't dare to ask where they were!

Blow up the camp!

Countless soldiers did not have time to pick up their weapons. They panicked and fought for the opportunity to escape with their companions. They killed and trampled on each other. In an extremely short time, the panic spread further.

Lin Yi's 800 cavalry, on the other hand, was like a hot blade cutting into soft butter-there wasn't even a trace of resistance, and their advance was smooth!

Killing ten people with one step!

The blood under his feet formed a stream!

Lin Yi was like the sharpest blade in the arrow, constantly killing the most tenacious Warriors of the selenbronze Commandery.

Among them, there was no lack of nascent soul and even xuansheng stage generals.

When the guards unit behind saw this, their blood boiled, and they all howled like a pack of wolves following a Wolf King.

Lin Yi was as calm as ever in the rain of blood. He continued to use his spirit sense to cover the entire area, constantly adjusting his direction to avoid encountering the dark spirit beasts.

Therefore, the entire Guards unit formed into an arrow formation, drawing an arc through the camp of the seitong Commandery, and then attacking from the other side!

The chaos continued to spread, and it had already spread to the entire Army. The Commander-in-Chief of seitong Commandery could not control his subordinates at all, and could only gather a thousand or so trusted soldiers.

Lin Yi quickly noticed that there were still over a thousand troops, and so he consciously led the guards unit to attack!

"Welcome the enemy!"

The Commander-in-Chief of seitong Commander-in-Chief shouted at the top of his lungs. Unfortunately, as soon as he finished shouting, the black Armored Cavalry rushed over.

The thousand or so armored soldiers were like small pieces of mud blocking the flood, instantly scattered by the impact.

And their General's head was also cut off by Lin Yi!

To Lin Yi, it didn't make a difference whether they were commanders or soldiers. They were all trash that got beaten up, and there was no meaning to it at all!

When the guards unit killed their way through the camp again, Lin Yi stopped and looked back at the huge camp.

The flames soared to the sky!

Corpses were everywhere!

Shrieks of pain shot up into the sky!

Countless people fell in the fire and never got up again.

There were still many people who tried to escape the camp, but they were intercepted by the scattered spirit beasts of darkness and their companions before the finish line.

Lin Yi looked at the scene quietly and did a rough calculation.

The number of soldiers that he had killed with his personal guards unit was not that many, no more than five thousand!

This battle result could already be considered quite brilliant. If it wasn't for the large number of troops hoarded here, it wouldn't be enough to have such a battle result just by killing through them twice.

In fact, the number of casualties in the camp of se Tong Commandery had already exceeded 30000, and it was still rising, reaching 40000!

And these were all the aftereffects of blowing up the camp!

"Marshal! A great victory!"

Song shaopeng was extremely excited. Although it was dark, his face was still red under the fire of the seitong Commandery camp.

Of course, it could also be because there was too much blood on his face!

The enemy's blood!

"Marshal, let's go kill another one! It won't be a problem to destroy this motley crew!"

Song shaopeng seemed to be addicted to killing. Those rolling heads were all military merits!

800 killing 70000!

Such an achievement was enough to boast about for a lifetime!

It really didn't matter if he was promoted or not!

The rest of the guards didn't say anything, but they were all looking at Lin Yi, their commander Wudi, with fire in their eyes.

They were just waiting for the order to charge into the enemy camp!

Lin Yi raised his hand indifferently to stop the fanatical look in his men's eyes, and then waved left and right!

"Spread out in small groups of five and surround the enemy camp! We will not kill those who surrender, but we will kill those who resist!"

"Yes, sir!"

The eight hundred people shouted in unison, all of them so excited that they couldn't control themselves!

No one felt that this mission was impossible to complete!

800 people surrounding the camp of 60000 to 70000 enemy soldiers, just thinking about it was so exciting!

Of course, two-thirds of the enemy had already died, and the remaining one-third was still in chaos.

Surrounding this kind of camp didn't seem to be a big deal!

After half an hour, the battle was over.

The 800 Guards unit gathered again, followed by about 10000 seitong Commandery prisoners.

Out of the ten thousand prisoners, support troops made up about sixty percent, and there were less than four thousand combat soldiers. Their numbers were five times that of Lin Yi's side, but they were all covered in dust and didn't have any weapons in their hands. They couldn't even think of fighting back.

"Marshal! There are about five thousand of them. We have too few people and can't capture all of them. Please punish us, commander!"

Song shaopeng came over and bowed with a little shame on his face, as if he really thought that 800 people should be enough to kill all the enemies.

Lin Yi waved his hand casually, "it's fine. If they run, then they run. It's no big deal. You've arranged it well!"

Song shaopeng didn't say anything, but Lin Yi's spirit sense had been monitoring the entire battlefield, and his control of the battlefield details was far beyond song shaopeng's understanding.

The eight hundred guards were strong, but they were small in number. Without Lin Yi's orders, song shaopeng strengthened the interception at the other two cities.

All the defeated soldiers who tried to escape to the direction of Duoyuan city and Fei Du city were killed.

At this time, if someone surrendered, they would be let off. As for the other directions, they would first persuade them to surrender, and then kill the chicken to warn the monkeys if they didn't!

This way, the news of fire sickle city's defeat could be delayed for a while, giving Lin Yi some time to react.

From this point of view, song shaopeng was indeed a talented general.

"There should still be a portion of the troops in fire sickle city. Deputy commander song, do you dare to go and persuade them to surrender?"

Lin Yi used his divine sense and knew that there were two thousand soldiers of selenbronze Commandery in the city, disguised as soldiers of Hongshang Commandery. They were setting up traps with the camp outside the city.

Now that the camp had been destroyed, the 2000-strong Army was like a rootless weed. As long as the commander in the city was not so determined, it was not impossible to open the city and surrender.

Chapter 7804 Persuading The Enemy To Surrender

As for sieging the city ... The 800 personal guard units were all cavalymen, and the sieging weapons of the seitong Commandery had been burned to ashes by the flames of the camp, so there was no way to sieging the city.

Unless Lin Yi did it himself, he wouldn't do something as boring as entering the city and killing the soldiers.

"Why wouldn't I?"

Song shaopeng was in high spirits as he cupped his fists at Lin Yi. He then urged his Black Spirit Ferghana horse to run to fire sickle city.

Previously, when the camp was in trouble, the people on fire sickle city's city walls had only reacted after a long time. The city gates had also opened once, but were immediately closed. In the end, the city's commander had not brought any troops out to help.

Lin Yi didn't like people like this. Two thousand soldiers-if they abandoned the city and attacked, they might be able to change the situation.

After all, Lin Yi's side only had 800 cavalymen. As long as the soldiers in the city didn't fall into chaos and distract the guards unit, the situation would be very different.

That's right, they didn't ask them to defeat Lin Yi's guards, they just needed to hold them back, and the chaos in the camp might slowly subside!

It was not impossible for the enemy soldiers to regather and kill the eight hundred Guards unit.

Unfortunately, all of this could only remain in the hypothetical stage!

Song shaopeng didn't have Lin Yi's spiritual sense and didn't know much about the city.

However, since he was a general talent, he could still see this situation clearly.

"People on the city wall, listen up. I am song shaopeng, the grandson of the king of Hongshang County, the Conqueror general, the commander of the three armies, Sima Zhongda. I have come with good intentions to persuade you to surrender. Open the city gate quickly. Marshal Sima will let bygones be bygones, but if you resist, you will be killed without mercy!"

Song shaopeng's voice was full of energy and he pointed his long blade at the burning seitong Commandery camp,""The Army outside the city has been completely destroyed. Don't resist anymore. You are not even enough to fill the gaps between our teeth!"

The general on the city wall didn't know the truth, or he would have spat on song shaopeng's face!

You only have 800 people, and you have the nerve to look down on my 2000 people?

What was he thinking?

Well, the general on the city wall didn't know about this.

He didn't dare to ask. He could only hide behind the battlements and shiver, hesitating in his heart about what to do.

The main force had only been annihilated for a couple of hours. What use could the small number of troops in his hands be?

Defend the city? Don't joke around!

That's right! A hostage!

Out of the original defenders of fire sickle city, there were still about 7000 to 8000 who had not died!

Because the city had been seized from the inside and the outside, the defenders had put up some resistance in the early stages, and many people had died. However, the situation had changed in the later stages, and those who had not died had either surrendered or been captured alive.

The original defenders who were locked up were prepared to use them to threaten the Army of Hongshang Commandery in the event of an emergency. Now, it was that "if"!

"Commander song, don't act rashly. I still have more than 10000 prisoners from your Hongshang Commandery. If you retreat now, I can protect them. If ..."

Behind the wall, the general of the seitong Commandery seemed to have gained some confidence in the negotiation, so he stuck his head out and shouted at song shaopeng, trying to threaten him with the prisoners.

Song shaopeng's mouth revealed a sneer. The Marshal was watching from behind. Who the hell are you to threaten me?

The commander's order was to persuade them to surrender, not to negotiate!

Song shaopeng didn't have the patience to listen to that idiot on the city wall.

Immediately, he let go of his hand and lowered his saber. At the same time, he hooked a longbow hanging on the side of the Black Spirit Ferghana horse with the tip of his foot and instantly jumped into his right hand.

At the same time, he took out an Eagle plume arrow with his left hand and nocked it!

The bow was like a full moon, and when it was released, the arrow was like a shooting star!

Song shaopeng's movements were as smooth as floating clouds and flowing water. The whole process didn't even take half a blink of an eye.

On the city wall, before the monarch of the selenbronze Commandery could finish his words, his pupils contracted!

The Eagle plume arrow that was shot out seemed to have penetrated through space. Before he could react, it had already arrived!

Before he could even think of dodging, the Eagle plume arrow had already shot into his brain!

The head of the monarch of seitong Commandery was thrown back by the arrow. His empty eyes looked at the trembling eagle feather and quickly disappeared into the endless darkness in the sky!

Song shaopeng's right hand flicked and the longbow returned to the original bow bag. Only a small part of the long knife that hadn't fallen to the ground returned to his hand.

"Let's change to another person to speak!"

Song shaopeng's long blade chopped twice in the air, and then the tip of the blade pointed at the city wall. He said domineeringly, "In front of Marshal Sima, you don't have the right to negotiate! Surrender, or die!"

A captive?

The city was broken. In song shaopeng's heart, even if the soldiers guarding the city didn't die, they weren't worth his attention.

At other times, he might be able to negotiate with the seitong Commandery for an exchange of prisoners, but now that it was about taking back fire sickle city, he could not be soft-hearted!

The soldiers on the city wall fell into silence.

Their general wasn't weak either. He was an ancient martial art practitioner at the peak of the late golden elixir realm. How could he have been killed in seconds by an arrow?

The enemies down there ... Were really brutal!

Lin Yi was quite satisfied with song shaopeng's performance. In order to save time, he decided to give him a hand. He looked around and called one of song shaopeng's guards over, whispering a few words.

The guard listened attentively, then he bowed and galloped to the prisoners of se Tong Commandery.

Soon, the disheartened captives of selenbronze Commandery began to shout in groups of two or three.

"Brothers in the city, surrender!"

"We lost. The Marshal of Hongshang Commandery is too powerful. We can't defeat him. The Marshal doesn't kill prisoners ... Surrender!"

"It's meaningless to die Here. Think about your wife and children at home!"

"Big brother, I'm not dead yet. You should surrender too!"

.....

Not long after, the chaotic shouts gradually converged into a loud "surrender!"

The city's commander had died, so the Deputy general naturally didn't want to take the responsibility. He pretended not to see it and sneaked up.

Without a leader, the people who were familiar with each other exchanged glances and gathered together before sneaking to the city gates, ready to ambush the guards and open the gates to surrender to Lin Yi.

They did not expect that before they could make a move, they would see the soldiers guarding the city gate already quietly opening the city gate ...

Like-minded!

When the guards at the gate saw that someone was coming, they were frightened, thinking that their actions had been exposed. They picked up their weapons and prepared to fight.

And then ... They looked at each other. They were all the same people ...

Everyone did not need to say anything. They nodded in tacit understanding and worked together to open the city gate!

The moment the city gate opened, song shaopeng's mouth showed a smile.

The overall situation was set!

While Lin Yi was taking back fire sickle city, Liu Ziyu had caught up to the royal guards who were still marching as usual.

It was already late at night, and Wu yucao had already given the order to set up camp.

Have you guys confessed to the goddess? If not, 521 can confess to the school Belle and follow the public account "Yuren22." There will be a chance to receive a custom-made folding fan from 5.21 to 5.28 every day! Just search for the public account "Yuren22" and you can join the event!

Chapter 7805 Liu Jianjun

Liu Ziyu chased after them with a few guards, but they were almost killed by the scouts who thought they were enemies.

Fortunately, the scouts were all veterans of the Royal capital's Garrison, and their eyes were not bad. They recognized that this was the second Prince, Si Ma Yun's cousin, Liu Ziyu, and thus, they did not cause a big problem.

Liu Ziyu was sent to the main tent of the Army under "surveillance in name" and could not afford to lose his temper.

Only with strict military discipline would one have the qualifications to become a strong Army. He understood this point.

"Young master Liu, why are you here?"

Wu yucao, Jin Yuan Bao, and Zhang Yiming were all in the middle Camp. Liu Ziyu was not familiar with them, but he knew them.

On the day of the expedition, Liu Ziyu and Sima Yun had come to see Lin Yi off, and Lin Yi had introduced them to each other before.

"Vice Commander-in-Chief Wu, military counselor Jin, and commander Zhang!"

Liu Ziyu didn't dare to be negligent. He greeted the three of them one by one, then raised his head and looked around. "Is the commander not here?"

"Young master Liu, why are you looking for the Marshal?"

Wu yucao used a question to answer a question.

Lin Yi's absence from the Army was still a secret, and there were soldiers who looked like Lin Yi impersonating him every day. Normal soldiers wouldn't know that their commander wasn't in the Army.

However, that imposter could not appear in front of Liu Ziyu.

"There are indeed some matters. This time, I've come on the orders of uncle and aunt to find cousin Zhong da and say a few words."

Liu Ziyu knew his place-he'd addressed Lin Yi in a personal way, not to show that he was close to him.

Instead, he told Wu yucao that he came to see Lin Yi for a private matter, not official business.

If it was official business, Wu yucao, the Deputy commander, Jin Yuan Bao, and Zhang Yiming, the two military counselors and head of intelligence, were all qualified to hear about it.

It was a private matter, after all, and only Lin Yi knew.

"I see!"

Wu yucao nodded slightly and frowned. ""Young master Liu is not an outsider, so I won't hide it from you. The Marshal is not in the camp, so I'm afraid I'll have to disappoint you!"

"What? What did cousin Zhong da mean by not being in the camp? Where did he go?"

Liu Ziyu was shocked, and he had a bad feeling in his heart. ""Wait, the soldiers here are the guards of the king's city, right? If cousin Zhong da is not in the camp, how many guards does he have with him?"

He had chased all the way from the capital and naturally met Fei daqiang on the way, so he was very clear that the soldiers gathered by the various cities along the way were basically in Fei daqiang's hands.

Lin Yi didn't bring the Army from the city, and the guards were here as well. Did he leave alone?

"Young master Liu, the Marshal's whereabouts are a military secret. I can't tell you!"

Wu yucao cupped her fists slightly. Liu Ziyu was Lin Yi's cousin, but she wouldn't tell him where Lin Yi was going just like that. What if something happened?

Liu Ziyu's face showed a trace of irritation. He scratched the top of his head, then stomped his foot and took out a gold medal and a folded silk from his arms.

"Vice Commander-in-Chief Wu, please take a look. This is an appointment signed by the king. I can supervise the Army in the northern border war!"

Liu Ziyu cupped his hands respectfully. "I won't do anything as an Army supervisor. This identity is just a tool that my uncle has given me to make things easier. Please don't take it to heart." Right now, as an Army supervisor, I only want to know where the great commander is. "

Wu yucao, Jin Yuan Bao, and the rest looked at each other. The gold medal and certificate of appointment were real, so Liu Ziyu's identity as an Army supervisor was also real!

"Young master Liu, no, it's Liu Jianjun! Since you want to know, then we'll be direct. "

Wu yucao handed the gold medal and silk back to Liu Ziyu. ""The commander took 800 guards to fire sickle city first. We were ambushed by the spies of seitong Commandery in Hongshang Commandery. The commander was worried that there were enemy spies in fire sickle city, so he went to check out the situation."

"I see!"

Liu Ziyu heaved a sigh of relief. "It shouldn't be a big problem if we're just going to Scout out the situation, right?"

Eight hundred guards didn't sound like a lot, but it was more than enough to Scout the situation and protect Lin Yi.

What he didn't know was that the 800 Guards unit that he thought could only Scout for information and protect Lin Yi had already killed 70000 soldiers and forced fire sickle city's defenders to surrender!

No one would believe this, so Liu Ziyu would never have thought of this.

"There's definitely no problem! Marshal's divine might is invincible, and you can move freely in the ten thousand army formation. There's no need to worry!"

Jin Yuan Bao waved his hand and smiled at Liu Ziyu. ""You don't have to worry. We'll set off tomorrow morning and speed up our March. We'll be able to meet up with the Marshal before sunset in the afternoon. If there's anything, we'll talk about it when the time comes. "

Liu Ziyu smiled bitterly. He really did come to Lin Yi with a few words!

Su lingyue's words told Lin Yi to be more careful and not to force himself if things didn't go well!

Su lingyue wanted Lin Yi to go back to the capital.

As the news of the SE Tong Commandery's spies causing trouble everywhere had already reached the capital, she was worried that something would happen to her son, whom she had finally found.

As for the defeat in the northern border, what did it matter?

If they lost a few cities, they would think of a way for their father Sima Yunqi to take them back. If their son was gone, where would they find him?

Liu Ziyu didn't agree with su lingyue's words, but su lingyue had raised him as if he was her own child. Even if she said that she was his aunt, she was no different from his mother.

He really couldn't go against su lingyue's wishes, so he had to rush here. Who knew that Lin Yi was already at the front line?

"Army supervisor, you can rest for the night. It's too dangerous to travel at night. In any case, you'll be able to see the Marshal tomorrow."

Wu yucao saw that Liu Ziyu wanted to find Lin Yi overnight, so she tried to calm him down, ""Besides, you might not be able to find the Marshal even if you go to him now. Why don't you come with us? you'll definitely be able to see the Marshal."

Liu Ziyu sighed in his heart. Wu yucao's words made sense, and he could not refute them.

Since things had already come to this, there was no other way. It could only be this way!

"By the way, the commander of your rear Army is called Fei daqiang, right? He really was a talent! When I was chasing after you, I heard some things. Amazing!"

Liu Ziyu didn't want to continue talking about Lin Yi, so he used Fei daqiang to change the topic, which caught the interest of Wu yucao and the others.

All of them had been partners for a long time, but Fei daqiang was someone Lin Yi brought into the team before the expedition, so they weren't familiar with him at all.

After the rear Army acted alone, they didn't even have the chance to meet.

However, the king's city's Garrison in the emergency Army could receive supplies from the rear Army on time every day. Just this ability to dispatch supplies alone was enough to show that Fei daqiang was not a useless daqiang.

"Liu Jianjun, why don't you tell us the details? we don't know much about this fellow. If we can know more about him, it will be more convenient for our future cooperation."

As Wu yucao invited Liu Ziyu to sit down and talk, she personally poured the boiling water on the stove into the teapot and made tea for them one by one.

Chapter 7806 Fei Daqiang's Anger Toward Heaven And Earth

Zhang Yiming pulled Liu Ziyu to sit down and urged him to speak quickly.

As the commander of tingfeng camp, he had put all his energy on seitong Commandery.

The tingfeng camp was just established, and they lacked manpower, training, and experience. They had flaws in everything, so it was really impossible to collect information from the rear.

"Um ... If everyone's interested, I'll tell you."

Liu Ziyu did not expect them to show such great interest in Fei daqiang.

He had thought that Wu yucao and the others knew about this and had only mentioned it casually to change the topic.

"In fact, what I know is limited. I heard it from others on the road. Whether it's true or not, you can ask commander Fei daqiang yourself in the future ... The matter has to start from Blue Moon City ..."

Fei daqiang invited all the major grain merchants to a banquet in Blue Moon City and purchased a huge amount of grain and materials. The next day, they loaded the carriages and set off.

Such a huge commotion would definitely not escape the eyes and ears of the selenbronze Commandery!

The 2,000 men who ambushed Lin Yi were fine because the forest was small, but it wasn't like they couldn't get more people for backup.

A small part of the reason was that Fei daqiang's rear Army had attracted their attention, so some spies of the seitong Commandery had set their eyes on Fei daqiang's rear Army.

Fei daqiang led the four thousand soldiers of Blue Moon City and the grain transportation team arranged by the major grain merchants. After leaving Blue Moon City for more than half a day, they passed by a hillside area and were ambushed by the enemy.

The distance from here to Cang Yue

The fast horses would only take less than an hour to travel the distance. Who would have expected that there would be an ambush of such a large supply convoy?

When hundreds of large fireballs rolled down the hill, the entire team panicked.

"Fire! There was fire! Quickly run!"

"Go and block ...!"

"Run!"

Chaos instantly formed.

The four thousand people dispatched by Blue Moon City were not elites. The elites were all left in Blue Moon City to protect their base.

Then, the manpower of the major grain merchants was even less worth mentioning. If they encountered a head-on attack from the bandits, they could still go up and Exchange a few moves.

A huge fireball rolling down the hill? Hurry up and run!

The grain transported was flammable, and there was a large amount of it. Once it was set on fire, it would be like setting the camp on fire!

At that time, he might not be able to escape even if he wanted to!

"Why are you panicking? Stay calm!"

Fei daqiang didn't care, and he was even a little happy. How could Fernandes 'prestige be shown if it was quiet?

Now that there was an unforeseen event, he had the chance to act tough!

"Move to the side and watch! What are these little tricks?"

Fei daqiang shouted as he jumped off his horse. He stood alone at the foot of the hill and stretched out his hands to face the hundreds of fireballs.

Fire ability activated, fire control!

The sub-Island didn't allow the use of true energy, but it didn't seem to have much effect on superpowers.

The flames on the hundreds of fireballs seemed to be drawn away by an invisible force. They left the fireballs in an instant and formed an even bigger fireball in the air.

The chaotic transport team was dumbfounded and forgot to run for a moment. The chaotic team suddenly became quiet.

Without the flames, the hundreds of spherical objects continued to roll down the hill. They hit the convoy and made a series of cracking sounds. Many small objects flew out from the spherical objects, all of which were flammable.

If the fire was still burning, such a collision would instantly spread the fire and cover more than half of the grain transport team. At that time, the grain supplies would probably be wasted.

But now ... Nothing happened!

Fei daqiang's eyes didn't look sideways, but his divine sense quietly extended out. He didn't care about the people who were ambushing him, and just stared at his own team.

When he saw the shock, adoration, respect, and other complex emotions on everyone's faces, he was instantly satisfied!

There was only one word to describe how great it was!

Fei daqiang, who was addicted to acting tough, laughed three times and waved at the big fireball in the air. The fireball immediately turned into a line of fire and flew directly into his mouth. In the blink of an eye, the big fireball completely disappeared.

This time, the members of the supply team at the side almost knelt down. No one had ever seen a person who could swallow such a large ball of fire in one go!

She was simply a little heifer in the clouds, so awesome that she could go to heaven!

Everyone's eyes on Fei daqiang changed. What kind of martial skill did their commander use?

He had never heard of it!

Could it be that he had a pure fire Constitution and could absorb flames for cultivation?

Amazing! This was too amazing!

Fei daqiang was extremely satisfied. He felt that he had done a good job and could be given 10 points.

He deliberately opened his mouth and burped, causing a wisp of fire to appear in the air and then disappear. "It doesn't taste that good. Do you have anything better?"

No one on the hillside answered, but there was a loud explosion, and then a torrent of water poured down!

Everyone was a little stunned. If the fire failed, they would use water to attack?

What kind of divine being was on the mountain slope, to actually store so much water, it was not easy!

But if it was a water attack ... The damage to their rations and supplies would not be great!

At most, it would only be damp and dry for two days. Was there a need to spend so much time storing water?

Wait a minute!

They had just left Blue Moon City, so how did they manage to store so much water?

Wait a minute!

Water attacks didn't have much effect on supplies, but they could drown people!

What's the point of thinking about these things at this time? Hurry up and run!

The people of the grain convoy were about to fall into chaos again, but they didn't expect that commander Fei daqiang, who had just swallowed the Super large fireball, would laugh again.

"Still this kind of insignificant skill, you guys really let your Grandpa Fei down!"

Fei daqiang stretched out his hand in a very pretentious manner and snapped his fingers at the surging torrent!

The stream of water seemed to have hit an invisible wall, and it shot into the sky.

Under the control of the superpower, the torrent exploded in the sky and turned into tiny ice crystals, falling down like it was snowing.

These ice crystals also tacitly avoided the grain convoy and scattered on the side. When they melted into water, they did not affect the convoy at all.

Fei daqiang's expression was indifferent, but he was secretly proud in his heart and felt that there should be applause here.

It was a pity that those fools were all dumbfounded, and not a single one came to support him!

As expected, qualified leg hair was not something that could be found everywhere!

Such a big leg was placed in front of them, and they didn't even know how to come up and hug it tightly!

The experienced leg hair Fei daqiang couldn't help but secretly sigh. I'm lonely!

Did they need master Fei to personally remind them to come and support them?

Wasn't this a disgrace? Don't you want your face?

He was so angry just thinking about it. He could only vent his anger on the little mice on the hillside!

"You want to ambush your master Fei with such a small trick? It's simply ridiculous!"

Fei daqiang spread out his hand, and a consciousness pill fire bomb condensed in his palm. "It's impolite not to return the favor. Your uncle Fei will give you a little thing. If you can accept it, today's matter will be written off!"

Chapter 7807 Ambush Welcomed

Fei daqiang threw out the consciousness pill fire bomb and it fell on the hillside like a meteor.

The people below did not know how many soldiers were waiting in ambush above. They only saw a flash of fire and the entire hillside was engulfed in a strange flame.

Then, there was no then!

Everything on the hill was reduced to ashes in the flames that would spread on their own.

No one knew how many soldiers were lying in ambush above, nor where they came from.

They only knew that commander Fei daqiang was really very strong!

Fei daqiang proudly raised his head and snorted, ""A bunch of useless chickens and dogs. They actually dared to ambush me. I really don't know who gave them the courage!"

In terms of spirit sense strength, Fei daqiang felt that Lin Yi was the strongest in the sub Island, and he was undoubtedly the second strongest!

So using the spirit sense pill fire bomb to deal with the ambush was a bit of a waste.

"All troops, hear my order! Continue on!"

Fei daqiang casually clapped his hands and had no intention of letting anyone go up the hill to check out the situation.

The food Protection Team, who had come back to their senses, instinctively obeyed the order and rushed the convoy back on the road.

Everything that had happened before was like a dream. Many people wondered if they had been daydreaming and that nothing had actually happened.

And then ...

"Commander Fei is really too amazing. With such powerful talent and martial skills, he should have been famous long ago! I've actually never heard of it before. It's not that I'm ignorant, it must be that commander Fei is indifferent to fame and fortune ..."

"Commander Fei doesn't care about his reputation. He's the role model of our generation ..."

"Commander Fei's strength is shocking, he must be a famous general of his generation ..."

.....

As it turned out, there was never a lack of leg hair if one wanted to hug someone's thigh. What they lacked was the talent and ability to become senior leg hair!

This flattery was really ordinary, but Fei daqiang was already very satisfied!

It's better to be late than never!

To be honest, Fei daqiang's mentality was a little light after being surrounded and flattered by so many people.

Of course, he still pretended to be calm, as if he didn't care about the praise at all.

At the back of the group, the children and trusted aides of a few major grain merchants also gathered together and sighed softly.

"I didn't expect commander Fei to be so powerful. The power of that strike was truly terrifying! I originally thought that he was just relying on Marshal Sima's influence and was merely a Fox exploiting the Tiger's might ... I really misjudged him!"

"Yup! He had thought that it was a silver spearhead, but who knew that it was a hidden God of War! Even commander Fei, who has such powerful combat strength, can only be a commander in the rear Army. Then, how powerful are the generals in Marshal Sima's middle Army and the vanguard?"

"That's hard to say! Do you think that the commander of the rear is not important? If it was a weaker commander, he would not have been able to resist the previous ambush. If the provisions were destroyed, no matter how powerful the people at the front are, they would not be able to defeat the Army of Seitong Commandery!"

"You're right ... But with the presence of experts like Marshal Sima and commander Fei, there shouldn't be any problems in the war at the northern border. The chances of winning are very high!"

"That's right, there must be a business opportunity in this. It's time for us to get rich again ..."

The topic quickly turned to business, but Fei daqiang's strength had undoubtedly penetrated deep into these people's hearts!

The speed of the transport team was not fast, but the news of this ambush had spread very quickly.

By the time Fei daqiang arrived at the next city, the city Lord and others who had received the news had already respectfully gone out of the city to welcome him, along with the famous people from all walks of life in the city.

This arrangement was very Grand. Fei daqiang was very satisfied with this, and naturally, he humbly thanked him.

"Thank you for your hard work, everyone. This general is just passing by, so there is no need to trouble everyone. Moreover, the military situation is urgent, so it is not good to delay any further. The city Lord just needs to deliver the prepared Army and rations."

Fei daqiang smiled and nodded to everyone, with the attitude of a Shangguan on an inspection tour, ""Everyone, go do your own things. This general will leave once I'm done with the delivery."

"Commander Fei, although we can't compare to Cangyue city, where we have the foundation of last year's harvest, we still have a surplus of grain. I wonder if Commander Fei still wants to buy more?"

The grain merchants here threw out an olive branch, thinking that Fei daqiang would continue to purchase grain.

Although there would be a discount from the market price, it would not be a loss. Even if he really made a loss, it was worth it to be able to have a relationship with a powerful commander like Fei daqiang who was also a strong person!

"The more the better. If you have any grain to sell, this general will not refuse!"

Fei daqiang's eyes turned, and he had a plan in his heart.

He didn't have much money on hand, but who said that one had to pay in cash to buy something?

"However, I have to say this first. The Army is out on a mission, and the funds we bring are limited. So, after the appraisal, we will put all the purchases on credit. When the Army wins and returns, we will settle the accounts with interest. Do you have any objections?"

He didn't need to spend any money, but he had to get the supplies first!

Fei daqiang couldn't help but praise himself in his heart. At the same time, he was also annoyed that he didn't think of this when he was in Blue Moon City!

How good would it be to owe him first!

I wonder if it's okay to go back and ask for the money back?

Fei daqiang pinched his chin and thought for a moment. Forget it. The great general Fei couldn't afford to lose this face!

"No problem! No problem! Marshal Sima and commander Fei are both famous generals, and we will definitely win the war at the northern border!"

A grain merchant loudly complimented. At this time, no matter how they flattered, who could look down on who?

Sure enough, the next moment, a large number of people followed suit and expressed that there was no problem with the credit, that Hongshang Commandery would win, and so on.

Their confidence came not only from Fei daqiang's battle record, but also from Lin Yi's killing of two thousand ambushers, gaining two thousand Black Spirit Ferghana horses and one thousand armor-piercing crossbows.

With such a valiant Army, it was obvious that they were going to win!

If he didn't invest now, when would he?

"Commander Fei, there are too many provisions and supplies. If the troops are too large, will there be any problems with the defense during the transportation? If I can't, it'll be very troublesome, right?"

The city Lord kindly reminded.

Fei daqiang's current grain resources were already very large. It was completely unnecessary to buy them in large quantities!

Although there was no food problem in his city, there was no harvest last year. It was just a normal year.

If a large amount of grain flowed out, it would be hard to make ends meet in the future. It would be good if he could have the idea of strong consumption.

"It's no trouble at all!"

Fei daqiang waved his hand in a domineering manner. "Those jumping clowns from last time were no threat at all. I was thinking that they could send more people. The more the better. This will give me a chance to loosen up my muscles!"

"Commander Meng thinks highly of me and asked me to lead the rear Army and be in charge of the Army's supplies. This is indeed an important task, but this also reduces many opportunities to kill the enemy!"

Fei daqiang put his hands behind his waist, looked up at 45 degrees, and sighed, ""I'm skilled in martial arts, but it's a pity that I can't go into battle to kill the enemy. So, if those scoundrels want to ambush me, I'll welcome them with open arms!"

Chapter 7808 Catching Spies With Divine Sense

"In front of all of you, this general doesn't need to hide anything. On the way, I'm not afraid of their sneak attacks, but I'm afraid that they won't come! That's why I'm going to increase the purchase of grain and resources. If the bait is too big, the fish will be hooked!"

"Otherwise, the current amount of grain would already be enough for the Army, so why would we need to purchase more? Don't you guys think so?"

When Fei daqiang said this, he looked around and felt proud in his heart. He felt that his eloquence had improved greatly!

He would definitely be able to perform even better when he had to ride on someone's coattail!

"Commander Fei is far-sighted, we are impressed!"

The city Lord and the group of famous businessmen cupped their fists and complimented him.

Among them, there were some who were truly impressed because Fei daqiang's explanation was very reasonable.

It was indeed a waste of talent for such a powerful expert to only escort the rations. It was not unreasonable to use the rations to lure and kill some enemy soldiers.

As for whether it was too dangerous to do so, they didn't care what would happen to the Army in front if there was a loss of provisions and fodder. In their opinion, Fei daqiang was bold and had the capital to be willful!

Fei daqiang smiled with satisfaction in the midst of the flattery, deeply feeling that his acting was very good. While he was affectionately communicating with everyone, he quietly spread out his spiritual sense.

There was a grain merchant in the crowd who had a strange expression and a forced smile. Fei daqiang didn't look at him, but he had already quietly noticed him.

Very quickly, the grain merchant lowered his head and sneaked out of the crowd, then quickly entered the city.

Fei daqiang's expression remained unchanged as he contracted his divine sense, shrinking the coverage area into a line. This way, the range of his detection would be greatly increased.

The grain merchant didn't know that his every move was under Fei daqiang's surveillance. He entered the city gate, immediately boarded his carriage, and quickly sped in one direction.

After a while, the grain merchant came to a remote alley and knocked on the door of a small courtyard. He looked left and right to see that no one was following him, and then quickly slipped in through the crack of the door.

There were a few men dressed as hunters sitting in the main hall of the courtyard. When they saw the grain merchant come in, they did not get up and only nodded to him as a greeting.

"Sirs, that Fei daqiang has already arrived. As soon as he arrived, he continued to wantonly purchase rations and supplies. His purpose is to lure us to continue ambushing him!"

The grain merchant cupped his hands and said anxiously, ""Fei daqiang is really quite amazing. Not only is his strength superb, he's not afraid of water or fire, his martial skills are amazing, and he's also very intelligent. He set up this plan to lure us, so he must have full confidence. In my opinion, it's better not to provoke him!"

"You're overestimating him! What Fei daqiang? I've never heard of him before. There is no aristocratic family with the surname Fei in Hongshang Commandery, nor is there any sect with a figure named Fei daqiang. "

The man sitting at the head of the table waved his hand nonchalantly. ""I don't know where this nameless person came from. He's probably only good at playing to the gallery. Why scare himself?"

"Daren, the previous ambush was a fact! Our men were all annihilated! Isn't that enough to explain the problem?"

The grain merchant was slightly agitated, "a nameless person might not be useless. Every famous general was a nameless junior before they rose to power!" If we underestimate Fei daqiang because of this, we will definitely suffer a loss!"

The man on the seat of honor had a disdainful look on his face, but before he could say anything, a long laugh rang out from outside, ""Hahaha, he's right. You're destined to suffer losses for underestimating me!"

Before his voice fell, the courtyard door was kicked open. Fei daqiang walked in with his hands behind his back, followed by a large group of soldiers.

The few people in the main hall were shocked. They stood up and looked out of the courtyard door, not knowing how to react.

He wanted to escape, but he noticed that there were soldiers sticking their heads out from all around the small courtyard, and they were all pointing their swords at him.

Fei daqiang smiled, thinking that Lin Yi was right!

Using his divine sense was indeed effective. This time, he easily caught these rats!

The grain merchant's face turned pale, and a fierce look suddenly flashed in his eyes. He took out a dagger and shot toward Fei daqiang like a lightning bolt, wanting to kill Fei daqiang while the situation was still uncertain.

As the saying goes, shoot the horse before shooting the man, and capture the king before capturing the bandits. Even if the chance was slim, since he was at a dead end, he would try!

However, the truth was not much different from what he had expected. He didn't even get close to Fei daqiang's body before he was killed by Fei daqiang's sword that he casually drew from the waist of the soldier beside him!

"Weak chicken! You're such a noob, yet you still dare to ambush this general. I really don't know who gave you the courage!"

Fei daqiang contemptuously shook his head at the corpse on the ground. He shook off the blood on his sword and smiled faintly, ""You've been surrounded. Come out and surrender! This General's military heart is kind, so I can spare you all from death!"

The faces of the people in the main hall were ugly. It was only now that they believed the grain merchant's words. Fei daqiang was really very strong!

It couldn't be helped. The last ambush was completely annihilated. No one could come back and tell them the details of what happened. Therefore, they didn't believe that Fei daqiang had dealt with the ambush alone.

Now ... They couldn't fully believe the ambush, but it was enough to confirm that they were not Fei daqiang's opponent even if they joined forces!

"What are you still thinking about? Putting up a stubborn resistance would not end well! Or do you think you can escape?"

Fei daqiang opened his arms and looked at the people in the hall with a faint smile, ""Why don't you guys try!"

Before he finished his words, the leader snapped his fingers. Those people gritted their teeth, and their eyes turned white. Blood flowed out of their seven apertures, and their bodies fell to the ground. They were all dead!

Fei daqiang was stunned and grabbed a blade of grass! All of them committed suicide?

Your uncle Fei finally had a chance to show off, and you all committed suicide?

The corner of Fei daqiang's mouth twitched. In his heart, there were ten thousand galloping horses!

"Commander Fei's divine might is unrivaled. When the enemy saw you, they didn't even dare to have the thought of resisting and directly committed suicide by consuming poison. It can be seen that commander Fei's prestige has already shocked the ancient and modern times!"

Fortunately, the guard on the side was very talented and immediately found suitable words of praise to praise Fei daqiang.

Fei daqiang immediately felt much more comfortable.

That's right!

Your Grandpa Fei is famous now. Just showing his little face can scare a bunch of people to death!

It was indeed powerful!

Other than Lin Yi's support, there was probably no one more powerful than uncle Fei on the entire sub-Island!

"Sigh ... I didn't expect these guys to be so cowardly. They committed suicide without saying a word! It's a pity, I wanted to follow the vine to the melon to get some clues. "

Fei daqiang smiled reservedly and casually waved his hand to order, ""All of you, go search the area and see if there's anything of value. If you can find more spies, everyone will be rewarded!"

Chapter 7809

"Yes, sir!"

Everyone responded in unison and quickly dispersed to various parts of the courtyard, starting to rummage through the cabinets for clues.

As for whether or not they could find anything valuable, that was unknown!

Along the way, Liu Ziyu only got this much information about Fei daqiang.

After that, he overtook the rear Army led by Fei daqiang and chased all the way to the middle Army of Wu yucao and the others.

Because the speed was too fast, Fei daqiang didn't have time to send any news over.

"I didn't expect this Fei daqiang to have some ability. It's not too much to say that he's brave and astute."

After hearing Liu Ziyu's story, Jin Yuan Bao nodded to himself. "As expected, the person the Marshal brought back personally is definitely not a simple person! I just don't know how much grain he has bought and if anything else happened. "

Jin Yuan Bao's expression was a little weird at the mention of food. He was the young master of the gold yuan bank, and he was in charge of Lin Yi's faction's financial operations when he was in the sword spring sect.

Fei daqiang's method of buying a large number of grain and materials to lure the enemy was not bad, but such a large number of materials ... Could not be consumed at all!

He couldn't return the things to the other party to offset the payment, right?

As Jin Yuan Bao spoke, he was thinking about how to deal with this batch of grain and supplies.

Although there were a few methods, he was the military counselor, and it was not convenient for him to interfere too much in the logistics.

If he was someone from the sword spring sect, he could be blunt, but Fei daqiang ... The two of them were not familiar with each other!

He could only wait until he met Fei daqiang in the future, and then discuss what to do with a more euphemistic attitude.

After hearing this, Wu yucao had another thought. "Commander Fei's combat strength is so strong, it's indeed a waste of talent to only manage the rear Army. If I can follow the Marshal, I will definitely be able to play a greater role."

Lin Yi taking the risk alone, no matter how strong he was, made Wu yucao worried.

She knew the strength of the Vice commander of the guards unit, song shaopeng. He was not bad.

However, it didn't seem so obvious beside Lin Yi.

In comparison, Fei daqiang's strength seemed to be more suitable to help Lin Yi.

"The Marshal naturally has his reasons for placing commander Fei in the rear. Vice Marshal, you don't have to worry about the Marshal! With the Marshal's strength, even if it's an Army of 100000, he can easily take the general's head. Don't worry. "

Zhang Yiming knew what Wu yucao was thinking, so he comforted her.

There wasn't much to say after that, and the group went their separate ways after some small talk, preparing to meet up with Lin Yi the next morning.

Lin Yi, on the other hand, didn't have time to rest. There were still many things to do after taking over fire sickle city.

The captured Soldiers of Fire sickle city were released, while the soldiers of selenbronze Commandery became captives and were locked up together.

The soldiers who had just been released did not have time to rest. After having a full meal, they began to clean up the city defense.

Two thousand of the more elite soldiers were picked out, fully armed with bows, arrows, Spears, and armors. They mounted the captured Black Spirit Ferghana horses and followed Lin Yi and the eight hundred guards out of the city, disappearing into the darkness.

Lin Yi's target this time was duoxiu city, which was closer to fire sickle city, but he didn't go straight for the city. After all, it wasn't something that could be replicated.

Once the news from fire sickle city was sent over, the people of the SE Tong Commandery would definitely be on guard, and the guards unit would not be able to achieve the same results as before.

As for the extra two thousand fire sickle city soldiers ... They would only be a burden for the attack on the camp, so it was better not to bring them along!

"Marshal, isn't it ... A little inappropriate for us to set up an ambush here?"

It was dawn, and Lin Yi led the team to hide in the grass by the road. The grass was about the height of a human, about twenty meters away from the road.

Song shaopeng had some doubts about this.

To be honest, this was not a suitable place for an ambush.

If the cavalymen on the road looked at the thatched land, they could easily see that a large area of thatched grass had been crushed.

Especially since Lin Yi's side had Black Spirit Ferghana horses, they were much taller than the grass when they stood up. They had to lie down on the ground to barely hide.

"You also think it's inappropriate, so the people of seitong Commandery won't think that they will be ambushed here!"

Lin Yi smiled faintly and explained for song shaopeng, "Of the people who escaped from fire sickle city's campsite, there will definitely be people who will make a detour to curl Flower City to report the situation. Even if there aren't any, it doesn't matter. The few people you arranged to escape should be able to complete this mission."

"They didn't know how many people we had before the attack on the camp, but everything was out in the open. As long as the escapees don't lie and exaggerate our numbers by more than a hundred times, the troops of the seitong Commandery in Duoyuan city will immediately set out to attack fire sickle city!"

"And this road is the only way from curled Flower City to fire sickle city. As long as they come, we will have the opportunity to do something big! As for whether it will expose our ambush, you can rest assured!"

Lin Yi said as he activated the plant element in his body, and the crushed grass crawled out from the side, tenaciously spreading upwards.

Soon, the large area of collapsed area caused by the ambush was restored to its original appearance!

Moreover, the bodies of the ambushers would not be affected. The originally straight grass twisted to avoid people and horses, forming a space. Although it was a little narrow, it was not uncomfortable.

Song shaopeng was dumbfounded."You can do this?"

He couldn't help but stand up and look around. In the darkness before dawn, there really wasn't anything unusual about the grass!

"Marshal, your means are really amazing ... But this seems to be a function of the plant attribute, right?"

Song shaopeng was puzzled and asked the question out of the blue. He immediately regretted it.

The plant attribute was more common in the already declining heiye clan, and almost no one in the Sima clan had ever heard of it.

His question was a taboo.

Lin Yi didn't really mind and didn't think too much about it. He only smiled and replied,"As expected, the men from curled Flower City have arrived to reinforce fire sickle city!"

Song shaopeng was stunned. He didn't care about the nature of the plant and quickly fell to the ground, putting his ears on the ground to listen for any movements.

There was indeed a slight vibration in the distance. Because of this, song shaopeng was even more amazed. How did the commander know about it from such a long distance?

It was too magical!

Naturally, Lin Yi wouldn't explain the strength of his spirit sense-as long as it was within the range of his detection, not only would he know the arrival of the reinforcements, he would even know how many people were there and what weapons they were using!

"Commander, the enemy is about seven or eight li away, and there are about thirty thousand of them!"

Although song shaopeng didn't have spiritual awareness, he could still make a rough judgment through the earth hearing technique.

Chapter 7810

Lin Yi nodded. As a local general, song shaopeng was a pretty good one!

If there was a chance in the future, he could cultivate it.

Lin Yi turned to look at fire sickle city, where there were two thousand soldiers with enough bows and arrows, ready to intercept the troops of the seitong Commandery.

Thatch's side was still Lin Yi and the eight hundred Guards unit.

Sometimes, the more people there were, the better it was for an ambush. Enough mobility might be able to play a greater role.

In the silence, the 30000 soldiers of seitong Commandery passed by the ambush location.

Just as Lin Yi said, the enemy didn't even care about an ambush location like this.

Under the light of the morning sun, the entire thatched land could be seen clearly. The general of seitong Commandery took a quick glance and no longer paid attention to it, let alone sending someone to investigate.

There were at most two thousand people lying in ambush in that thatched field. Even if there were two thousand people hiding there, they wouldn't care, let alone if there were no abnormalities.

However, they would soon know that the number of people was not the key to whether they cared or not!

Lin Yi gave the order to attack when two-thirds of the troops had passed.

The 800 cavalymen instantly stood up from the grass, as if the grass had suddenly been raised by half.

"Kill!"

Lin Yi shouted as he wrapped his legs around the horse's belly. The Black Spirit Ferghana horse dashed out like lightning and reached the side of the road in the blink of an eye.

Most of the soldiers were still looking at Lin Yi in shock, not even realizing that they were in an ambush.

"Kill!"

Song shaopeng followed closely beside Lin Yi, his long blade held high, his face a bit ferocious from the excitement.

"Kill! Kill! Kill!"

The eight hundred Guards unit roared in unison, following their invincible commander, waving their weapons and charging forward!

The unprepared troops were easily torn apart by Lin Yi. The eight hundred cavalymen formed a sharp blade and easily cut through the dragon-like Army.

Lin Yi acted as the tip of the blade, controlling the direction of the attack. After entering the line of soldiers, he adjusted his position slightly and followed the line!

The Black Spirit Ferghana horse's speed had already increased, and with no one able to stop Lin Yi, the force of the eight hundred cavalry was quickly being released.

The chaos arrived as expected!

The first reaction of the soldiers who were cut off by Lin Yi was to regroup and chase after the fearless cavalry.

However, they were too slow and couldn't catch up at all. They could only follow behind, shouting and chasing.

This way, not only did they not cause any damage to Lin Yi's Guards unit, but they also made the front line even more chaotic!

Who would have thought that there were only eight hundred cavalrymen lying in ambush?

In their panic, the people at the front thought that their own people behind them were all finished, and that the rest were all enemies!

The scarier thing was that Lin Yi's speed was too fast, almost as if he was chasing after chaos, causing even more chaos. The people at the front didn't even receive any news!

When the frontmost soldiers felt that something was wrong behind them, the two thousand soldiers from Fire Sickle City appeared!

They didn't have Lin Yi's sudden attacks, but they had a lot of arrows.

The soldiers guarding the border cities were not all master archers, but they were at least very skilled at archery.

Two thousand arrows flew through the air. The arrowheads had already been ignited, and they left a trail of brilliant flames in the air.

The first wave of arrows was launched in the blink of an eye, and the second wave of flaming arrows followed.

Then, in this interval of time, he continuously scattered down eight batches of Flame Arrow formations.

20,000 fire arrows were shot at the front line of the SE Tong Commandery, causing a great chaos.

The first wave was not blocked. The flames fell to the ground and ignited the weeds on the side of the road, not to mention the subsequent waves.

The soldiers of the selencopper Commandery were instantly thrown into a state of confusion, and it was difficult for them to organize an effective defense.

The front and back fell into chaos at the same time, and the soldiers in the middle who had not been affected were suddenly at a loss.

They had received the news overnight and rushed to fire sickle city, but they had been ambushed halfway. Even the slowest person would have thought that they had fallen into a trap.

Were they attacked from the front and back, or had they already been completely surrounded?

Although there were no enemies on both sides of the road, the soldiers of seitong Commandery did not dare to run to either side. Who knew if a bunch of burly men would suddenly jump out from there?

Lin Yi was very satisfied with the current situation. Without revealing his true strength, he had to rely on surprise troops if he wanted to win.

Create chaos, fish in troubled waters, and win in the chaos!

The 800 cavalymen followed Lin Yi with an unstoppable force, but in reality, they didn't really kill that many enemies.

He had only killed a little more than 1000 people when he reached the first third of the troops from the seimencopper Commandery.

The number of injured enemy soldiers was slightly higher, around two to three thousand.

On average, each of the guards unit killed four to five enemy soldiers.

However, the actual number of casualties in the seitong Commandery was close to 10000.

This was the wondrous effect of the chaos, similar to the ambush at night. The chaos was still spreading on a large scale.

The wind suddenly became violent!

The fire in front was getting stronger and stronger. The soldiers behind saw this and became even more panicked. The thick smell of blood in the air almost suffocated them!

Lin Yi swung his sword and killed one of the soldiers who still had the guts to fight back. Black Spirit's horse charged forward, but the space in front of him suddenly disappeared.

He killed his way through!

The front part of the enemy forces that were in chaos due to the fire had already separated from this side.

The soldiers of seitong Commandery had already fled in different directions, and Lin Yi could only express his regret.

The number of soldiers in their hands was still too small!

If the main force of the capital's Garrison was here, the troops of seitong Commandery would have been completely annihilated!

"Return with this commander and kill!"

Lin Yi turned his horse around and let go of the chance to attack the front line. He charged in the direction he came from.

The front Army had already been scattered, and with the two thousand defenders of fire sickle city watching over them, there should not be any problems for a while.

The middle troops that had been ambushed and killed were almost finished, but the rear troops were still rushing over!

Lin Yi was prepared to destroy this part of the Army in one fell swoop!

"Kill, kill, kill!"

The guards unit soldiers responded with a roar, their morale high as they followed Lin Yi back.

This time was different from the previous attack. Although the enemy had also fallen into chaos, the guards unit still had 30 - 40 casualties.

Lin Yi didn't intervene. This was a war, not a game.

The Commander-in-Chief was not a babysitter. If he only wanted to protect every soldier, there was no need to continue fighting.

I can fight them alone!

Only an Army that had experienced casualties would undergo a new transformation in the baptism of blood and fire and become one of the few powerful armies in the world!

As for the deaths of their comrades, the guards unit would naturally feel sad.
