

Bodyguard 7811

Chapter 7811

However, the battle was not over yet. They would only turn this sorrow into strength and pour more of it on the enemy's head!

The less than 800 cavalry charged towards another wave of nearly 10000 enemy soldiers with high morale!

The soldiers of the selencopper Commandery had been chasing after them all the way, and all they saw were the bodies of their comrades. Their morale dropped.

Even though he was still shouting "charge and kill," his footsteps had already slowed down a lot.

When they saw the group of murderous gods turn back and kill, the dozen or so soldiers who were charging at the front suddenly threw away the weapons in their hands and ran to both sides of the road.

The soldiers following behind were somewhat stunned. When they finally reacted, some wanted to run, some hesitated to continue charging, and some wanted to form a defensive formation ...

It was chaotic!

It's chaotic again!

Lin Yi and his men hadn't even arrived yet, and they were already in a mess!

If they could really get into a defensive formation, unless Lin Yi showed his strength, these seven to eight hundred cavalymen wouldn't be able to break through their formation.

But now ... He was done!

Lin Yi took the lead and swung his sword, cutting off the head of a soldier who tried to resist.

Those who wanted to run or hesitated immediately dodged, no longer having the courage to resist.

The sharp knife pierced into the formation of the troops of the seitong Commandery again, and it was still unstoppable!

The sky brightened, the flames were extinguished, the grass was burned, and corpses were strewn all over the field!

The Army of the SE Tong Commandery that had gone to fire sickle city to help was basically wiped out!

The guards unit had directly killed over 3000 enemy soldiers, and the number of people they had killed due to the chaos was two to three times this number.

Out of the 2000 fire sickle city defenders, about 3000 of them were directly killed or indirectly burned.

In the end, there were less than 2000 soldiers who managed to escape alive.

As for the rest, most of them were injured and couldn't run, and some of them surrendered.

Lin Yi didn't care about the aftermath, leaving it to the fire sickle city guards to deal with it as he rushed to Duoyuan city with the guards unit.

The moment Lin Yi left, the Soldiers of Fire sickle city started killing all the injured soldiers and captives of the city!

They were old enemies, and Lin Yi didn't tell them to do so. They felt that they didn't have enough people, so they didn't dare to bring more captives than they had. They also didn't want to heal the injured soldiers of seitong Commandery.

Therefore, he didn't think too much about it and killed them all!

Lin Yi's spirit sense noticed, but he didn't stop it.

Since the Seton Commandery dared to invade, they had to be prepared for retaliation.

This time, as long as copper Commandery suffered heavy casualties, even if Hongshang Commandery did not attack copper Commandery, they would not be able to start a war for a long time.

Song shaopeng was running beside Lin Yi, but he didn't know what to say. Lin Yi noticed his strange behavior and turned around with a smile, "Vice commander song, what do you have to say? Just say it!"

"Marshal, I ... I hope to rest for a moment!"

"Although speed is the most important thing in war, I'm a bit tired after fighting so many battles!" Song shaopeng said with a look of shame.

Lin Yi scanned with his spirit sense and understood.

Song shaopeng said that he was physically weak, but that was not the case.

His strength wasn't bad, so he wouldn't be unable to hold on. The ones who really couldn't hold on were the other guards.

In this night, they first attacked fire sickle city, breaking through 70000 with 8 million, and then recaptured fire sickle city.

Then, without stopping, they turned around and fought for hundreds of miles, ambushing the reinforcements from curl Flower City. It was another tough battle with a Few Against Many.

At this moment, the guards unit's morale was extremely high, but their bodies really could not take it.

The excitement of the spirit could temporarily make up for the lack of physical strength, but it would be a bit forced if he wanted to fight again.

Lin Yi didn't feel anything at all, but he didn't consider the fact that the others didn't have bodies made of iron. They needed to rest too.

Song shaopeng, as the Vice commander, had been leading troops for many years, not a new commander like Lin Yi.

He naturally knew that these tired soldiers had lost their previous combat power.

Seeing that the Commander-in-Chief was about to attack curled Flower City again, song shaopeng hesitated for a long time before finally saying it out.

He wasn't afraid of death, but he was afraid that he would be defeated in this state. He would lose the advantage and morale that he had worked so hard to gain!

However, Song Shaopeng didn't say that it was because his soldiers were too tired. He only said that he couldn't take it and needed to rest. This way, it wouldn't be suspected of bribing people.

"It's this Marshal's thoughtless decision. Everyone, dismount and rest!"

Lin Yi said.

If the situation was critical, one would have to fight no matter how tired they were. But now that they had won two battles in a row, they should take a break.

"Vice commander Song, take everyone and wait for orders. I'll go take a look at the situation first."

"Yes! Great commander!"

Song Shaopeng bowed and accepted the order. Lin Yi left alone yesterday, and then attracted the dark spirit beasts to attack the camp of Selenbronze Commandery. He might have another plan this time.

He didn't ask, but he was looking forward to it.

In the beginning, Song Shaopeng didn't like this commander who came out of nowhere. He thought that he was just a dandy who relied on the Sima family's name to gain experience.

However, they had never expected that this person would actually lead them eight hundred people to turn the entire battle around!

Fire Sickle City had been recaptured, while Curl City had taken care of half of the enemy forces. After killing the remaining half, only Fei Du City was left.

By that time, the main force should be able to arrive. Song Shaopeng felt that the entire battle would end in a few days!

This was simply the easiest battle to fight.

Lin Yi didn't care about what Song Shaopeng was thinking. After giving his orders, he left on his horse alone to investigate the situation in Curled Flower City.

The Seitong Commandery claimed to have two hundred thousand soldiers in this war, but Lin Yi felt that they wouldn't have more than a hundred thousand in actual combat. The rest were just auxiliary soldiers.

This had already been proven in the Fire Sickle City Camp.

The number of combat soldiers there was much less than that of the auxiliary soldiers, so it should be the same in curled Flower City.

Lin Yi felt that the 30000 soldiers he just killed were the main forces of curled Flower City.

Thus, after losing this Army, the remaining auxiliary soldiers were not a cause for concern.

This was why Lin Yi wanted to bring the guards unit to attack duoxiu city.

It was already bright when Lin Yi arrived at the city, but there was only an empty camp!

The troops of seitong Commandery that had surrounded Duoyuan city had already evacuated at dawn.

Because they were in too much of a hurry, they didn't even have time to clean up the tents, and a lot of the camp's rations and supplies were left behind.

Lin Yi was speechless. The people from seitong Commandery were obviously running for their lives after receiving the news. They didn't even have time to set fire to their tents.

It was likely that when they were ambushed, some soldiers from the rear had come back to report, and then the fleeing soldiers had arrived at the main camp one after another, bringing panic back.

Chapter 7812

After losing most of the soldiers, the remaining auxiliary soldiers ran away.

Lin Yi used his spirit sense to scan the city and realized that it wasn't in the hands of seitong Commandery. It was most likely that the spies in the city failed to take the city.

The city wall was covered in dried blood and some corpses that had not been collected in time.

It could be seen that the battle in curled up Flower City was also very fierce, and there were obviously many casualties in the city's defenders.

Therefore, when seitong Commandery abandoned their camp and fled, they did not dare to open the city gate to chase after them for fear of falling into the enemy's trap!

Lin Yi stayed outside the city for a while before turning his horse around and leaving.

Since the city was still there, there was no need to stay any longer. The credit for defending the city belonged to the city Lord and the guards, and Lin Yi wouldn't go in and take a share.

As for the escaping troops, Lin Yi didn't bother to chase after them. He didn't feel any sense of accomplishment bullying a kid by himself.

If the guards unit was in good condition, they could chase for a while and increase their gains.

After all, the troops of seitong Commandery had just left, and if the cavalymen were to give chase, there was a high chance that they could catch up!

"Marshal!"

Lin Yi went back to the outer area where the guards were resting, and two guards came out from their hiding place to greet him.

Although they had also been fighting for an entire night and were extremely tired, they still maintained sufficient vigilance and did not relax their vigilance.

Lin Yi nodded with a smile and gestured for them not to stay on guard. He followed them back to the rest area.

"Marshal!"

Song shaopeng saw Lin Yi from afar and quickly walked up to him.

The other Guards unit soldiers all stood up, standing straight to welcome their commander.

"The troops of selencopper Commandery in Duoyuan city have been evacuated. Duoyuan city is still in our hands, so it will not be in danger for the time being."

Lin Yi waved at song shaopeng and the others, "Get on your horses and return to fire sickle city!"

Fei Du city was the last one to be attacked, and Lin Yi decided to take a rest at fire sickle city before heading back.

The journey from fire sickle city to Fei Du city was much closer than from curl Flower City. Moreover, Wu yucao had brought the main force of the Royal capital's Garrison and should be reaching fire sickle city soon.

When the Army arrived, they would go to Fei city and have a direct battle with the selenbronze Commandery!

Before evening, Wu yucao arrived at fire sickle city with the main force of the Royal capital's Garrison.

The news of Lin Yi's sudden victory had already reached Wu yucao's ears.

The first one to look for Lin Yi wasn't Wu yucao, but Liu Ziyu. This guy had his uncle and aunt's orders on him, and he didn't dare to neglect them.

"Cousin Zhong da ... No, Marshal! Army supervisor Liu Ziyu greets Marshal!"

Liu Ziyu remembered that this was the Army. Since he had received a military post, he couldn't be too casual and had to follow the rules.

"Liu Jianjun, there's no need to be so polite. Sit down and let's talk!"

Lin Yi smiled and gestured for Liu Ziyu to sit on his left before greeting Wu yucao and the others who followed him in.

After everyone was seated, Liu Ziyu stood up and cupped his fists to Lin Yi. "Please forgive me, Marshal. The second Prince and the princess Consort have some things that they want me to say to Marshal alone."

"Alright, come over to my side and talk!"

Lin Yi didn't reject him and beckoned for Liu Ziyu to come closer. Liu Ziyu didn't stand on ceremony and whispered into Lin Yi's ear.

He didn't say much, just a few words, telling Lin Yi not to force himself, not to do things he couldn't do, and to avoid fighting when the enemy was strong.

Lin Yi was touched. Sima Yunqi and Su Lingyue really treated him like a son and took care of him.

However, their concern came too late. The three armies of the Seitong Commandery had been completely annihilated.

There was only one last path left, so how could there be any situation where he was forced to act tough or things were not going to work out?

Lin Yi only used eight hundred Guard units to take down two armies, and now that the twenty thousand guards were here, what was there to be afraid of?

Liu Ziyu didn't think too much about it. In any case, he had been entrusted with a task, and no matter how advantageous the situation was, he still had to say what he had to say.

"Alright, I understand! Liu Jianjun, you've worked hard!"

Lin Yi's face didn't change as he smiled and invited Liu Ziyu back to his seat, "I wanted to bring Liu Jianjun with me, but I was afraid that father and mother wouldn't agree, so I didn't mention it. Since you're here, you can join the army. It'll be a training experience."

"Thank you, commander!"

Liu Ziyu cupped his hands in thanks. His position as Army supervisor was just a title in name, and he didn't have any authority at all.

Now that Lin Yi had spoken, he could really join the army and be considered a part of it.

Although Liu Ziyu was relatively small and thin, he had longed to enter the Army since he was young, or to strategize and win a battle from a thousand miles away!

Or golden Spears and iron horses, moving unhindered!

It was a pity that he never had the right opportunity. Now, his dream could be considered to have come true.

Lin Yi nodded and stopped talking about Liu Ziyu. He turned to Wu yucao and the others. "Vice Commander-in-Chief led the Army just in time. I was just worried that I had too few troops at hand."

"This time, I used a surprise Army to annihilate the enemy forces of seitong Commandery in fire sickle city and take back fire sickle city in one fell swoop. Let the siege of curled Flower City be resolved!"

"Now, only Fei Du city is left. They probably have received the news that the other two armies have failed, so they won't give us any chance to surprise them. Therefore, after resting for one night, they will set off tomorrow morning and defeat the seitong Commandery. They won't dare to covet our country for the next few years!"

The war started by seitong Commandery had already involved more than half of their elite troops.

If he returned in defeat, he would not have the courage and ability to covet Hongshang Commandery. The first thing he had to consider was whether he would be counterattacked by Hongshang Commandery.

In addition to Hongshang Commandery, there were other countries around them that were eyeing them covetously. After their strength was greatly reduced, they were likely to be besieged by other countries.

The black charm Commandery, their secret ally, had not yet fought with Hongshang Commandery. If they found out that the situation had changed, they might turn around and ally with Hongshang Commandery, splitting the seitong Commandery.

Between countries, interests were the most direct relationship. An Alliance would only take effect if there were enough interests.

Lin Yi said as he thought about what to do next.

Should they return after defeating the selencopper Commandery, or should they continue to pursue?

Those who fought with perfection and surprise would win. Those who were good at surprise were as endless as heaven and earth and as inexhaustible as the sea!

After defeating the troops of selenbronze Commandery in Fei Du city, he might be able to continue to use surprise attacks and enter the territory of selenbronze Commandery to bite off a big piece of their flesh.

"Report!"

Lin Yi had just finished speaking when a soldier rushed in and knelt down on one knee. "Fei Du city seitong Commandery's Army has started to retreat, and a Messenger has come to ask for peace!"

Chapter 7813

Everyone was silent, and Lin Yi was speechless as well. They were just about to say "Zhenghe" and now they're retreating? can't they have some backbone?

This time, I won't use sneak attacks or ambushes. Why don't we just fight face to face?

Lin Yi was speechless, and Wu yucao and the others were even more speechless. They'd been marching so fast, and they hadn't even gone into a single city to repair-what was this for?

Was it to applaud and cheer for the 800 Guards unit soldiers?

At the very least, there would be an explanation for this when they returned, right?

Otherwise, when they returned to the capital and people asked how they fought in this battle, they couldn't possibly say that they rushed over, ate a meal and took a nap, and then rushed back again, right?

"The messenger has arrived?"

Lin Yi didn't have a choice-as the commander, it was best if he could win without a fight.

"I'm on the way. A Messenger Eagle first brought news! The messenger will probably enter the city at night. "

The soldier was still on one knee, his head lowered as he answered Lin Yi.

This was the legend of him leading 800 cavalymen to defeat 200000 enemy troops in the North!

Right now, all the soldiers in Fire Sickle City had respect for Lin Yi from the bottom of their hearts.

She even felt that it was a great honor to be in the same city as Lin Yi, let alone talk to him directly.

The soldier was excited and even a little proud. It was a good thing that he had run fast, otherwise he wouldn't have had the chance to report to the commander!

"I know, you can leave now! When the messenger arrives, bring him over. "

Lin Yi waved the soldier away and turned to his men. He pointed at Yuanbao."Military counselor, since the other party has come to ask for peace, then I'll leave the negotiation to you. Make them bleed!" He said.

"Understood. Don't worry, Marshal!"

Jin Yuan Bao smiled and bowed. This wasn't a difficult task, he was very good at it.

Especially when Lin Yi brought the 800 Guards unit, they had already made a name for themselves.

The two armies of seitong Commandery couldn't defeat a mere 800 cavalymen. Now that the garrison of the king's city had 20000 men, it was understandable that Fei Du city would flee.

With such a huge advantage, it shouldn't be called a negotiation. It should be more like cutting off the seitong Commandery's flesh.

Lin Yi scratched his head. He wanted to have a military meeting to discuss how to deal with seitong Commandery, but there was nothing to discuss now.

With Jin Yuanbao's shrewdness, Lin Yi believed that he would be able to get enough benefits for Hongshang Commandery, so there was no need to say more.

"Commander Ling, the Scout Camp can't relax. In order to avoid the plan of seitong Commandery, continue to send people to watch them retreat."

Lin Yi thought about it. The scouts couldn't leave, and if the selenbronze Commandery was up to something, he'd just have to do it!

Ling Hanxue bowed and accepted the order. In fact, Lin Yi didn't even need to order them to do so. The scouts were sent out to monitor the surroundings.

It was not only the case in Fei capital, but also in curl Flower City.

There was nothing much to discuss in the military meeting. Tonight's plan was to reorganize. Everything could be discussed after meeting the envoy of seitong Commandery.

The messenger arrived at night, but Lin Yi didn't show up-he only sent Jin Yuan Bao.

"Since the selencopper Commandery wants to make peace, they should show their sincerity!"

Jin Yuan Bao's face was filled with arrogance and indifference. He looked down at the messenger from seitong Commandery and said, ""Cede five cities on the northern border to our country and compensate for the military expenses of our Army in this war. This is the lowest line!"

The messenger of the SE Tong Commandery wiped his forehead with his sleeve and said, ""My Lord, should we discuss this further? Military expenses can be discussed, but as for the city ..."

On the northern border, the five most important cities of seitong Commandery were equivalent to the five dangerous passes to defend Hongshang Commandery!

If they were all ceded to Hongshang Commandery, the consequences ...

To give a simple example, it was as if the sturdy gate and walls of your house were controlled by your malicious neighbors, and you were only left with the fragile door of your room to block them.

And then you have to constantly guard against neighbors with bad intentions, how can you sleep?

"If it's a city, I only want five of you. Isn't that too little?"

Jin Yuan Bao raised his head slightly, held his chin and thought, ""Or you can also cede the five cities that are deeper in to us!"

The messenger of the selencopper Commandery was sweating profusely. Not only did you control the gate, but you also didn't even leave the door open for people?

If they really did that, then the seitong Commandery would basically be defenseless against Hongshang Commandery!

In the future, if Hongshang Commandery wanted to send troops, they could directly go deep into the hinterland of se Tong Commandery.

"No, my Lord ..."

The representative of the SE Tong Commandery kept wiping the sweat off his forehead.

The huge defeat on the battlefield had left him with no confidence to refuse Jin Yuan Bao's unreasonable request with a tough attitude.

Asking for peace was begging for the other party to give him peace. Without the initiative in hand, what could he do?

Cutting off all cauldrons and sinking boats?

"If you're not willing to give it to us, then we'll go get it ourselves!"

Jin Yuan Bao did not give the other party a chance to catch his breath as he pressed on. "Or do you think that our commander can't do this? Eight hundred cavalymen killed one hundred thousand of your Army. Do you think that five or ten cities can stop our commander's attack?"

The back of the Messenger's clothes was wet, and after a moment of hesitation, he gritted his teeth and said, ""The five cities on the northern front line and the military expenses for this war are the greatest sincerity of our country! However, I need the king's approval, so I can't completely agree. I hope that Milord can give me some time!"

Choosing the lesser of two evils, compared to losing ten cities, five was more acceptable.

"Impossible! You are the messenger of selenbronze Commandery, so you naturally represent the will of the Commandery Prince. Either you agree now, or we go and get it ourselves. There is no third option!"

"My Lord! Two days, please give us two more days! It will take at least two days for a Messenger Eagle to come and go. As long as the king agrees, the five cities can be handed over immediately!"

The envoys of selencopper Commandery could not give in. Two days would at least allow the country to be on guard.

Even if they didn't agree, they could still get the cities on the northern border to prepare for defense.

This time, almost all the border cities were deployed. Now, their defense was extremely weak. If Hongshang Commandery counterattacked, they would not be able to hold on!

Otherwise, he wouldn't have sent an envoy to make peace so anxiously.

The emissaries they sent out were only the ones who besieged Feidu city. They couldn't represent the Commandery Prince of Seitong Commandery.

"One day! If you don't give up five cities in a day, we'll take them ourselves!"

Jin Yuan Bao pondered for a while and smiled arrogantly. "At that time, there might be more than just these five cities!"

The Messenger's face was pale. He cupped his hands and left in a hurry.

Talk, there was no way to continue talking. Jin Yuan Bao's attitude was so unyielding, what else could he say?

Chapter 7814

He could only seize the time and send the news back. Whether they would fight or make peace in the end was not something he could worry about.

Jin Yuanbao looked at the Messenger's back with a disdainful smile. He slowly got up and walked to Lin Yi.

The domineering aura from before had disappeared without a trace, and he had returned to his former appearance of a good-for-nothing little fatty.

Lin Yi didn't comment on Jin Yuanbao's report-it didn't matter if they fought or not.

The merit this time was enough for him to gain a great right to speak in Hongshang Commandery.

A day later, the messenger from seitong Commandery asked to see him again. He expressed that he was willing to give up five cities on the northern border and bear the loss of military expenses in the war.

The exact amount would be discussed when the contract was officially signed.

The reason why he was so forthright was actually because of the black charm Commandery.

The troops of the black magic Commandery, which were originally going to attack the Hongshang Commandery, stopped at the border of the three commanderies after receiving the news of the defeat of the seitong Commandery.

He also had the intention to attack the selencopper Commandery.

If the war between Hongshang Commandery and seitong Commandery expanded in the northern border, the black magic Commandery would probably tear up the agreement with seitong Commandery, take the opportunity to attack seitong Commandery, and cooperate with Hongshang Commandery.

On the other side, another Commandery that was adjacent to seitong Commandery received a letter written by Sima zhengxin of Hongshang Commandery and had the intention to send troops.

If they defended the northern border, they would also collapse in other areas. The best choice for seitong Commandery was to give up, withdraw their forces, and then seek diplomacy.

No matter what the people of seitong Commandery thought, from Lin Yi's point of view, this was a huge victory!

In the meeting room of the city Lord's mansion, Lin Yi gathered his trusted men, including Liu Ziyu and song shaopeng, for a small meeting.

"The military counselor has done a good job in the negotiation this time. Seitong Commandery has ceded five key towns in the North. In the future, it will be more difficult for them to invade our Hongshang Commandery."

Lin Yi started off with a compliment, a smile on his face as if he was in a good mood. "Next, I'll take over the five cities that have been ceded. This matter can't be delayed. It must be carried out as soon as possible."

"Vice commander Wu, you will make the arrangements. Commander Li will assist vice commander Wu. In terms of manpower, take a portion from fire sickle city, curl Flower City, and Fei Du city. After that, add in the guards of the Royal capital. We can not give them a chance to regret and delay."

"Military counselor, continue to negotiate with seitong Commandery and settle the amount of war reparations. Commander Ling's Scout Camp will have to work harder and pay more attention to the movements of seitong Commandery around the five cities."

"Commander Zhang's tingfeng camp is mainly heading towards Hongshang Commandery. During our March, many spies and high-level officials in selenbronze Commandery and heimei Commandery were exposed. We must find and kill all these vermin!"

Lin Yi assigned the tasks one by one, and everyone bowed to accept the orders. Liu Ziyu was eager to try, but he couldn't ask for a mission.

It was not convenient for him to lead the Army with the title of Army supervisor. He finally had a chance to fulfill his dream, but who knew that it would be in vain again.

Lin Yi looked at Liu Ziyu helplessly-he'd wanted to give him some training, but the seitong Commandery just surrendered ... There was no other way.

As for song shaopeng, he didn't have any other thoughts. He would follow Lin Yi wherever he went. As the Vice commander of the guards, he only needed to follow the commander.

"Marshal! This general has a request ..."

Zhang Yiming suddenly spoke, and his chubby face looked a little embarrassed, ""It's a private matter, I don't know if I should say it?"

"I've already finished my business. You can speak now!"

Lin Yi smiled as he nodded. Zhang Yiming was an old man who had followed him for a long time, so he didn't mind small things like this.

"It's like this, this General's surveillance camp's commander has seized the country, so this general wants to leave first and go home to take a look ... Yunying city is on our way back. This general hasn't been home for a long time, so ..."

Zhang Yiming stammered. It wasn't a big deal. He was just going home to visit his family!

Lin Yi thought about it. Yunying city was indeed on the military route, but it wasn't a necessary route.

It was only because Yunying city was on the capital's draft list that it was on the March route.

If Lin Yi was leading the Army normally, he would spend half a day to a day's time, taking a detour to Yunying city to recruit soldiers and food.

However, Lin Yi didn't take the normal route. He took the guards unit along a small path, and the main force of the capital's Garrison led by Wu yucao didn't go to Yunying city either.

At that time, the war was urgent, and Zhang Yiming could not go back to visit his relatives.

Now that the situation was settled, and Lin Yi had achieved a rare victory in the past few decades, Zhang Yiming wanted to go home.

As the saying goes, wealth does not return to its home, just like a night walk in silk clothes.

In the past, Zhang xiaopang did not do well in the sword spring sect. In fact, he was also very ordinary in Yunying city. Other than being rich, he did not have much face.

But it was different now!

The commander of tingfeng camp under the banner of the general of Conqueror, even the Lord of Yunying city, would have to bow down to him!

"It's approved! Commander Zhang will go to Yunying city first. I will also go to Yunying city with my personal guards unit ... Oh, where is Fei daqiang?"

Lin Yi didn't know if he should laugh or cry at the mention of Fei daqiang-the guy's deeds had already spread, and Lin Yi had naturally heard of it.

To be honest, Fei daqiang had done a good job. The problem was that he had plundered a large number of rations, enough for 50000 troops to eat for several years!

However, the battle had already ended before his rear Army had even reached the battlefield!

This was very awkward!

Should she continue to let him send over the rations?

After swallowing the five cities of the seitong Commandery, there was indeed a need for food supplies. However, those were the resources of the Expeditionary Army. It would not be nice to casually distribute them to the border Army!

If someone were to mess this up, it'd be evidence that Lin Yi was trying to buy people's hearts and gather troops for himself.

Of course, Lin Yi didn't care about something as boring as this. He just thought it was troublesome.

"Commander-in-Chief, commander Fei has not arrived at Yunying city yet. Given the current schedule of the rear Army, commander Fei would arrive at Yunying city one day after commander Zhang returns!"

Ling Hanxue's Scout Camp had more information on this, so she answered Lin Yi's question immediately.

"Just nice! Commander Zhang, go back to Yunying city and wait for commander Fei to come. Let him wait for me there!"

"Maybe I'll get to Yunying city before him. I don't care, let him wait for me there." Lin Yi said after some thought.

"Yes!"

Zhang Yiming agreed loudly. He was secretly excited and couldn't wait to go back to Yunying city to visit his parents and family.

Chapter 7815 The End

Lin Yi smiled and waved, ending the meeting.

Those who had missions went off to do their own things. After Zhang Yiming returned, he arranged for the people in the wind listening camp to go out. Then, with two guards, he rode out of the city on the Black Spirit Ferghana horse and galloped in the direction of Yunying city.

The matter of taking over the city of the selenbronze Commandery went smoothly. It was almost done on the third day after Zhang Yiming left.

And so, Lin Yi left fire sickle city with the guards unit, leaving the rest to Wu yucao.

At this time, Zhang Yiming had already returned to Yunying city. However, when he returned home in high spirits, he didn't see his parents and family, whom he had been thinking about day and night!

In front of Zhang Yiming was the bleak Zhang family.

"What's going on? Why is it like this?"

Zhang Yiming felt as if he had been struck by lightning. When he saw the broken gate, he had a bad feeling.

Once they entered, there were dilapidated buildings everywhere. If it wasn't for the people walking around, it wouldn't be wrong to call it a ruin.

"Young master! Young master Ming is back!"

An old man in a servant's uniform suddenly became excited when he saw Zhang Yiming. His expression became complicated.

"Uncle song! What happened at home? Where are my father and mother?"

Zhang Yiming rushed to the old man's side and grabbed his arm. "Quickly tell me, what's going on? Why is the family like this?"

"Young master Ming! Quickly leave! I can't stay here!"

The old man's face changed again. He grabbed Zhang Yiming's arm and pulled it a few times. "Young master Ming, quickly, quickly leave Yunying city!"

"Uncle song! What was going on? You tell me!"

Zhang Yiming was anxious and angry. He suddenly shook off uncle song's arm and rushed in. "I'll go find father!"

"Young master Ming! The old master was captured by the city Lord! Many of our family's stewards, big and small, were killed, and the rest were all captured!"

Zhang Yiming felt as if he was struck by lightning. He was stunned.

Although Zhang clan was not the center of power in Yunying city, it was a major clan which controlled the largest Yunying fine iron mine and some other mineral deposits in Yunying city.

In terms of wealth, they were undeniably the number one. Normally, the city Lord should not have made a move on the Zhang family!

"Young master Ming, the city Lord said that he wanted to collect military pay for the soldiers in the front line of the northern border. The master gave it to him, but the city Lord didn't say that it was too little. He said that the master colluded with the seitong Commandery and sent troops to besiege our family without distinguishing right from wrong."

Uncle Song didn't bother to hide it anymore and explained everything. "Although there are some martial artist guards at home, they are no match for the city Lord's army. In order to prevent the Zhang family from being completely annihilated, the old master took the initiative to be a hostage."

"The Yunying fine iron ore and other assets of the family, except for this main residence, have all been confiscated by the city Lord's mansion ..."

Zhang Yiming's eyes were red. He still wanted to go home and bring glory to his family!

He didn't expect that the lintel was about to be torn down by someone!

"Uncle Song, don't worry. Father will be back soon, and our Zhang family will not fall!"

Zhang Yiming gritted his teeth and growled. He turned around and rushed out of the house. He jumped onto the Black Spirit Ferghana horse and rushed straight in the direction of the city Lord's mansion.

Uncle song was shocked. He rushed out of the door and shouted at Zhang Yiming's back, ""Young master Ming, don't be rash. You can't win against the city Lord's mansion. Leave quickly ..."

Zhang Yiming turned a deaf ear to uncle song's words and quickly left with his two guards. Before uncle song could finish his sentence, he had already disappeared.

In the Yunying city Lord's mansion, the city Lord, Huo Jingtian, was in a good mood as he hummed a little tune and played with the birds.

The Zhang family's Yunying iron ore that he had been coveting for a long time had finally been obtained. His net worth had increased several times. This matter was really happy!

It was all thanks to the conscription order from the capital that he had an excuse to make things difficult for the Zhang family, and seized the opportunity to pin the crime of colluding with the enemy.

Even though the head of the Zhang family was still alive, it was nothing in Huo Jingtian's eyes.

After a few days, he could just find an excuse and kill her in prison.

Huo Jingtian knew that the little brat of the Zhang family was learning in the sword spring sect, but he didn't care about it at all. He didn't care about that kind of remote sect at all.

If it wasn't for the fact that he didn't feel that the little fatty was a threat, Huo Jingtian would have long considered sending people to eliminate him.

It was also because of his contempt for Zhang Yiming that he didn't know the identity of the little fatty who was not a threat to him.

Zhang Yiming inexplicably flashed across Huo Jingtian's mind, and a guard came in to report, ""City Lord, that brat from the Zhang family in the sword spring sect has returned. He has brought two people to block the entrance of the city Lord's mansion. He wants us to release all the members of the Zhang family immediately and return all of the Zhang family's assets!"

"F * ck, this city Lord can't be bothered to deal with him. He actually didn't know what was good for him and sent himself to the door to seek death. Then it really doesn't make sense if I don't fulfill his wish!"

Huo Jingtian sneered and waved his hand casually, ""You don't need to report such a small matter in the future. Just have them all captured and locked up in the prison of the Zhang family."

"This city Lord is still very kind! I didn't kill him on the spot, but let him and his son see each other before they die. I'm so kind!"

The Guard's mouth twitched. He was probably used to this kind of scene, so he didn't say much, bowed, and left.

Soon, Zhang Yiming and the two guards were arrested and thrown into the prison. Zhang xiaopang was so angry that he went crazy!

"You guys are finished! I'm telling you, you're all dead! I'm the commander of tingfeng camp under general zhengkun's command. You dare to capture me? is your Yunying city trying to rebel?"

Zhang Yiming didn't expect that after he revealed his identity, he wouldn't even be able to see Huo Jingtian and was even thrown into prison.

It was a pity that the people of the tingfeng camp had been sent out to carry out their tasks. There were only two guards beside them, and they were only golden core stage ancient martial art practitioners. They were directly defeated.

"Don't call me that. Don't you know how to make a draft when you're bragging? commander of the tingfeng camp? I've never heard of such an establishment. If you want to deceive people, you should at least find a more reliable explanation!"

The soldier who brought Zhang Yiming in laughed and threw him into the cell, ""Besides, you want to be a commander with your strength? Take a piss and look at your own virtue!"

Zhang Yiming was furious. These ignorant idiots had never even heard of tingfeng camp. They deserved to die!

But thinking about it, Lin Yi had brought eight hundred Guards unit all the way and settled the War in the North like a tornado. The news probably hadn't spread yet, and the guards were just here to be bystanders.

Without outstanding military achievements, how could one have Supreme prestige?

The newly established surveillance camp didn't even have a chance to show their faces, so it would be a wonder if they knew.

Chapter 7816

"Ming 'er! Why did you come back? You shouldn't have come!"

Zhang Yiming's father was in prison. When he saw Zhang Yiming being thrown in, he burst into tears.

This son had also walked right into the trap. The Zhang family really had no hope!

"Father! Don't worry, father, I'm not an easy person to deal with. I'll make them pay ten times what they did to us today!"

Zhang Yiming couldn't be bothered to argue with those ignorant soldiers. He rushed to his father and knelt down. After saying a few words, he couldn't help but show off,""Father, you don't know this, but I'm now the commander of tingfeng camp under the command of general zhengzhu. This time, the general zhengzhu has settled the war in the northern border and will come to Yunying city in two days."

"At that time, the Lord of Yunying city, Huo Jingtian, or Huo Dongdi, will all kneel down and cry, begging us to let him go!"

"Ming 'er, wake up! Now that even you have come in, our Zhang family is really finished!"

Comrade old Zhang was in despair. It was already very difficult for his son to be captured, but he did not expect that he would also get hysteria.

Are you dreaming?

Not to mention this, he also said that the Conqueror general had already quelled the War in the North and would come to Yunying city in two days?

These words were obviously fake!

The Conqueror general had set off from the capital, so he probably would not even be able to see what the northern border was like.

These two days from the capital to Yunying city was more or less the same, but to calm the war in the northern border?

It would already be considered fast if he could do it today next year!

Zhang xiaopang was also in despair. Looking at his father's expression, he definitely did not believe a single word he said!

He wanted to return to his hometown in wealth and bring glory to his family, but in the end, he was treated as a liar. Damn it!

I'm the commander of tingfeng camp, don't I need to save face?

Zhang xiaopang looked at the cold crescent moon in the sky through the small prison window. He was speechless.

Great commander!

Senior brother Sima!

Hurry up and come!

I don't want to be treated like a lunatic by my father!

Lin Yi, who was being nagged at by Zhang xiaopang, had just left fire sickle city. He brought the 800 Guards unit, which had been fully replenished, and rushed to Yunying city.

The reason why they didn't move together with the main force was to continue training the guards unit. This time, there were new recruits, so they needed such training.

With the main group, there was no way to travel in his extreme state!

The retreating duo Luan city troops could have intercepted them, but the guards unit was too tired and lost the ability to fight.

And so Lin Yi decided that he'D train them to be able to fight for a long time-first, he'D train them to the extreme of long-distance running!

Zhang Yiming's heart was set on going home, and it took him two to three days to get to Yunying city. Lin Yi's request for the guards unit was to travel day and night without stopping. They had to get to Yunying city in one day to pass!

The eight hundred Black Spirit Ferghana horses stopped outside Yunying city, white breaths rising from their mouths and noses, forming a dense mist.

Large beads of black sweat rolled down from the Black Spirit Ferghana horse, gathering on the ground and wetting the green grass.

The Knights on the horses were all wearing armor, and sweat was also rising from the gaps.

But every single one of them straightened their backs and sat unmoving on their horses, their eyes sharp and determined as they looked at their commander.

Lin Yi was very satisfied with the long-distance training.

Not only was he half an hour faster than expected, but he was also practicing the cavalry's assault formation as he traveled at full speed.

After two huge battles, the guards unit soldiers had been reborn.

Even though there were dozens of new recruits, under the leadership of the Veterans, they gritted their teeth and persevered.

"Everyone's performance was not bad, but after entering Yunying city, we still can't relax. It's only been a day and a night. After a short rest, we'll continue training!"

Lin Yi turned around to face the cavalry formation. He didn't speak loudly, but his words were clearly heard by all the soldiers.

"Deputy commander Song, you'll be in charge of the daily training. We must maintain everyone's peak condition!"

Since the war was over, Lin Yi planned to train the guards unit to the point where he couldn't even move his fingers.

As long as he got used to this extreme state, it wouldn't be a problem for him to fight for three days and two nights in a row!

"This general will obey!"

Song shaopeng cupped his hands and bowed. His movement was so powerful that it shook off a lot of sweat.

"Let's enter the city first. Everyone, keep your spirits up!"

Lin Yi waved his hand and led the Black Spirit Ferghana horse towards Yunying city.

However, as they neared the city gates, Lin Yi's expression turned strange.

Zhang Yiming ... Was locked up in Yunying city's prison?

Who was so bold as to capture the commander of tingfeng camp under the general of Conqueror?

Could it be that Yunying city had been infiltrated by enemy countries and the entire city had rebelled?

Lin Yi was suspicious, but he didn't find any signs of traps with his spirit sense. It didn't look like a city rebellion.

"Greetings, Conqueror general!"

The guards at the gate received the news first, lining up to welcome Lin Yi, their attitude extremely humble and respectful.

Yunying city was a relatively peripheral city. If it wasn't for Yunying Elite Iron ore, it was estimated that they wouldn't have built a city, so these guards were naturally in awe of the people from the capital.

"Where's your city Lord?"

It was Song Shaopeng who asked. As the commander, Lin Yi naturally wouldn't ask the soldiers this kind of question.

Putting aside the fact that Lin Yi was the Conqueror general, the commander of the army, and so on, just the fact that he was Sima's son was enough for Huo Jingtian to welcome him personally.

"General, I just went to inform the city Lord. The city Lord should be on his way. I'm really sorry. Can the Marshal and the other generals enter the city first?"

The guard was a little embarrassed.

Because the guards unit notified them too late, they tried their best to find Huo Jingtian. However, there wasn't enough time for Huo Jingtian to come out and welcome Lin Yi.

It was a bit rude to let Lin Yi in without anyone to welcome him, but it was even more impolite to just stand at the gate.

Lin Yi didn't show any expression, only nodding and leading the guards unit into the city.

The common people in the city consciously moved to the side of the road, not daring to block the advance of the murderous cavalry.

After a short while, the city Lord Huo Jingtian and a few of his subordinates rushed over.

He immediately got off his horse and saluted respectfully when he saw Lin Yi's armor.

"I, Huo Jingtian, the city Lord of Yunying city, pay my respects to Marshal!"

Huo Jingtian didn't dare to neglect Lin Yi.

Not to mention Lin Yi's identity, just the news of the northern border had already been sent to every city, and Huo Jingtian was shocked.

He thought that Lin Yi would come to Yunying city to recruit soldiers and food when he led the Army to the northern Battlefield, and he'd use the draft notice as an opportunity to please Lin Yi, but who knew ...

Chapter 7817

His estimation was completely wrong!

Fortunately, the opportunity was still there. Whether it was on the way to the northern border or on the way back from the northern border, there was actually no problem.

As long as he could get on the target's good side and get on Lin Yi's good side, that would be enough!

"I've received good news. I've heard that you've shown your power in Fire Sickle City and Curl Flower City, defeating the main force of Seitong Commandery and forcing them to cede land and pay indemnities. I'm so excited, I can't wait to see your power!"

Huo Jingtian didn't care that they were on the streets at all. He looked at Lin Yi with respect and praised him loudly.

Lin Yi glanced at Huo Jingtian and nodded, "City Lord Huo, there's no need to be so polite. After the war, my personal guard Camp needs to be repaired. Please make the arrangements first."

"I should, I should! It is this official's honor to be able to host the Marshal and the Warriors who can fight one against a hundred. Everything has been arranged, so please go, Marshal!"

Huo Jingtian turned his body to the side.

After Lin Yi agreed, he quickly got on his horse and led the way to the side.

When they arrived at the city Lord's mansion, there were dozens of young and beautiful women lined up at the entrance. Fragrant flower petals were dancing in the air.

The floor was covered with a luxurious red carpet, and the welcoming array was very Grand.

Lin Yi's face was still calm, not changing at all.

Huo Jingtian carefully observed Lin Yi's expression, sighing in his heart. As expected of the Prince of the capital, he's seen the world!

After leading Lin Yi to the banquet, Huo Jingtian invited Lin Yi to take a seat while he sat at the second seat.

"Marshal, this small city is short of food. There's nothing good to take out. There's only some game hunted from the mountains, coarse tea, plain rice, and light wine. Please don't mind it and try some."

Huo Jingtian introduced a few dishes to Lin Yi with a big smile on his face. They were all made from the rare Essence of dark spirit beasts.

The wine was also a precious wine stored in a cellar, and it was definitely not as crude as what Huo Jingtian had said.

If this meal was in a restaurant outside, it was not something that could be eaten with money.

"City Lord Huo, you're so kind. There are so many good things here. It's rare for me to get to eat them!"

Lin Yi's lips curled up into a mysterious smile.

Huo Jingtian was shocked. These words ... Were they good or bad?

Huo Jingtian didn't dare to think too much about it. He just laughed it off and said a few humble words before taking out a gift list and presenting it to Lin Yi with both hands.

"Marshal, this is the food that this lowly official has prepared. There is also a small token of my appreciation. Please take a look and accept it."

"MMH," Lin Yi said as he opened the gift list.

In addition to the basic provisions and supplies, there were also many precious ores, inner cores, and all kinds of other valuable things.

"Marshal, this subordinate has already arranged for these things, including the provisions and supplies, to be delivered to vice commander song. If there are any problems, just give the order, Marshal! As for this lowly official's small token of appreciation, this lowly official has already prepared it. Marshal will take it with you when you return. "

Lin Yi nodded noncommittally and tossed the gift list aside. "You're so thoughtful!"

Before Huo Jingtian could celebrate, Lin Yi changed the topic, "By the way, Zhang Yiming, the commander of tingfeng camp, said he was going back to Yunying city to visit his relatives two days ago. It's my first time here, so I'm not familiar with the place. I'll have to trouble Castellan Huo to ask him to join us for dinner."

Huo Jingtian's shock was no small matter. Zhang Yiming?

That little fatty from the Zhang family?

Was he really the commander of the tingfeng camp?

What the f * ck!

Huo Jingtian felt as if ten thousand mud crabs and horses were galloping across his heart.

This matter ... Could not be resolved peacefully!

"Don't worry, Marshal. This lowly official will send someone to find commander Zhang!"

Huo Jingtian's expression did not change. He forced himself to calm down as he thought about how to deal with this situation. However, he continued, "But I don't know commander Zhang, and I don't know where his family is. There are many Zhang families in Yunying city."

If he let Zhang Yiming out, Huo Jingtian felt that he would be dead for sure. But if he didn't let him out, it was hard to say if he would still be alive!

The only plan now was to be ruthless and decisive and kill all the Zhang family members in prison so that the dead could not testify!

"It's fine. I know a little about commander Zhang's family background. He's my senior brother. I heard him mention it when I was in the sect. He said that the biggest Yunying fine iron mine in Yunying city belongs to his family."

Lin Yi looked at Huo Jingtian with a half-smile, "With this clue, city Lord Huo should know, right?"

Beads of sweat began to form on Huo Jingtian's forehead as he forced a smile and said, ""In that case, this official has some direction. Marshal, please wait a moment. This official will arrange for someone to find commander Zhang."

As soon as he finished speaking, Huo Jingtian bowed and stepped out of the door.

Lin Yi's lips curled into a cold smile as he locked his divine sense onto Huo Jingtian.

Even Zhang Yiming was thrown into jail. Lin Yi wanted to see how Huo Jingtian would handle this.

The answer was revealed very quickly. After Huo Jingtian left, he quickly found his confidants for a meeting.

Then, he secretly ordered his trusted men to gather the troops. One group would go to the prison to kill the Zhangs, and the other group would surround Lin Yi's personal guard Camp.

After that, they sealed off the entire city and entered a state of martial law.

The Zhang family had already been dealt with, and there was no way they could let things rest peacefully. Huo Jingtian was prepared to use force to erase the evidence.

If necessary, he'd even fall out with Lin Yi!

The 800 cavalymen had killed 70000 soldiers and ambushed 30000 soldiers, but Huo Jingtian didn't believe it.

His instinct told him that Lin Yi was just using this to make himself look better.

Victory was definitely a victory, but the difference in numbers was hard to say.

Perhaps the truth would be if the number of people on both sides were reversed?

Therefore, Huo Jingtian wasn't afraid at all. With the military strength of Yunying city, they weren't afraid of a mere 800 cavalymen.

As long as he killed the people of the Zhang family, then threatened them with force, this matter would most likely be left unsettled.

However, it was certain that he would be on bad terms with the Prince.

However, Huo Jingtian couldn't care less about that. He could only wait and see how he could use money to find an opportunity to ease their relationship.

Lin Yi's face darkened as he used his spirit sense to monitor everything.

He really had guts!

Huo Jingtian was courting death!

With the burst of his super butterfly steps, Lin Yi, who was sitting in the main seat, kicked away a few tables in front of him and disappeared in a flash.

The officials and celebrities of Yunying city who were accompanying him were dumbfounded. They had no idea what had happened.

Lin Yi was nowhere to be seen by the time they realized what was going on.

After a few seconds, Lin Yi arrived at the guards unit.

Huo Jingtian did not dare to neglect these proud soldiers and generals. He had specially set up a banquet of nearly a hundred tables in a large courtyard of the city Lord's mansion to entertain the soldiers of the personal guard Camp.

Chapter 7818

Most of the guards had just taken a few bites, while the ones on guard didn't even get to take a bite when Lin Yi suddenly appeared in front of them.

"All soldiers, hear my order!"

Lin Yi said in a low voice.

All the soldiers reflexively dropped the food in their hands and stood up at attention!

"Yunying city's city Lord is secretly plotting a rebellion, prepare for battle!"

Shua!

The weapons of the eight hundred men were in position at the same time, and their uniform voices carried a Supreme killing intent.

The people of the city Lord's mansion were already dumbfounded. They were so scared that they didn't even have the strength to run.

Lin Yi couldn't be bothered with these small fries and turned around to lead the guards out.

The 800 cavalymen had been running for an entire day and night, and were both physically and mentally exhausted, but following behind Lin Yi, their bodies erupted with a shocking battle intent!

He was invincible!

In their hearts, as long as they charged with Lin Yi, they would be invincible!

No matter how many enemies there were, 10000,100000, or even 1000000, as long as that invincible commander was there, numbers did not matter!

What's more, how many people could a mere Yunying city have if all their troops were added up?

Follow the commander and we'll be finished!

The 800 cavalymen left the city Lord's mansion and slowly increased their speed as they galloped in the direction of the prison.

Due to the delay, the men arranged by Huo Jingtian had already arrived at the prison. However, the troops surrounding the guards unit were a little lacking and could not make it in time.

Huo Jingtian's face changed again and again when he received the news. He couldn't understand what was wrong with Lin Yi all of a sudden.

Or did someone leak the news?

"Follow this city Lord!"

As Huo Jingtian gave the order, he led the 2000 soldiers who had initially wanted to surround the guards unit and charged towards the prison.

These were all his trusted private soldiers, and there was no doubt about their loyalty.

As for the prison, they had also sent a thousand men just in case.

Huo Jingtian felt that having so many soldiers in his own territory was more than enough to beat up Lin Yi's personal guards.

After all, no matter how good the 800 cavalymen were at fighting, their fatigue was extremely obvious.

It was said that most of the people had not even had a few mouthfuls of food before. They were hungry and tired, so what if they were elites?

Outside Yunying city's prison, before the one thousand soldiers who had just arrived could go in and kill them, they heard the rumbling of horse hooves approaching.

The leading general quickly ordered for a defensive formation, then rode forward on his horse and shouted.

"Halt, this is an important place in the city, you can't trespass!"

The two sides were still about two hundred steps apart, and their voices were immediately drowned out by the sound of the horses' hooves.

Lin Yi didn't care what they were shouting at all, and only pulled out the demonic devour sword coldly.

"Those who don't surrender will be killed without mercy!"

Lin Yi ordered coldly.

If these people refused to come to their senses, they deserved to die. If they surrendered in time, they could be spared.

"Those who don't surrender will be killed without mercy!"

The eight hundred Guards unit shouted in unison, repeating Lin Yi's order!

The sound waves swept in all directions, and the killing intent soared to the sky!

The general's expression changed, and he loudly ordered his soldiers to quickly form a defensive formation.

This time, they had come to silence him, so they had not brought any long-range weapons. Facing the accelerated cavalry formation, a sense of despair had already risen in the general's heart.

A hundred steps!

Lin Yi looked at them coldly-no one was surrendering, and they were all in a fighting stance. There was no need to be polite!

He waved the demonic devouring sword forward, and the eight hundred cavalymen pulled out a javelin in unison, then threw it forward.

The moment he attacked, the distance between the two sides was sixty steps!

After a round of javelin throwing, the guards unit soldiers did not continue to use javelins because the Black Spirit Ferghana horse was too fast and there was no second chance.

Hence, they picked up their weapons with practiced ease.

At the front of the formation was a flat Lance, and on both sides were flat zhanmadao.

With the powerful horse power, the guards unit soldiers didn't need to use much strength to pierce through the enemy's body and behead them.

The javelins that were as dense as rain accurately fell into the formation of the one thousand men, causing blood to spray out. Before they could react, the eight hundred cavalymen had rushed into the formation, cooperating with the javelins so well that there was almost no gap.

The despair in the general's heart grew. He thought that he could at least hold out for a while and wait for reinforcements to arrive. However, after actually coming into contact with them, he realized how naive he had been.

This was truly a super powerful Army that dared to charge into the camp of 70000 enemy soldiers with only 800 people!

This was truly a force of less than 800 people that could kill 30000 soldiers!

They only had a thousand people. Where did they get the courage to face these killing gods?

Before he could let out a sigh, the general saw the world turn upside down and his headless body fall off his horse.

It was as easy as crushing dry weeds and smashing rotten wood!

It was like a hot knife through butter!

One thousand people, just one charge!

Completely annihilated!

No one surrendered, because no one had the time to surrender!

The spears of the guards unit were too fierce, and their blades were too sharp!

"Vice commander song!"

Lin Yi pulled on the reins and turned back to look at song shaopeng.

"This general is here!"

Song shaopeng hung his spear on the victory hook and bowed on the back of the horse.

"There are still pursuers behind us. You lead the team to deal with them. It's the same, kill those who don't surrender!"

Lin Yi didn't plan to continue leading the team. These small fries in Yunying city were only enough for song shaopeng and the others to practice!

"This general will obey!"

Song shaopeng didn't say anything and left a hundred men to protect Lin Yi. He only took seven hundred cavalymen and went back the way they came.

Lin Yi didn't mind. There were more pursuers behind them, about two thousand of them, but on a Street like this, there was no way they could Stop the Cavalry.

The guards unit would definitely win!

Lin Yi didn't care about the result of the battle and went straight to the prison with the guards unit soldiers.

There were some Yunying city guards, but they were tactful and didn't dare to resist. They all knelt down to welcome Lin Yi.

"Marshal! Great commander!"

Zhang Yiming saw Lin Yi and was extremely excited, "Father, did you see that? I told you that the commander would come to save us!"

"Commander Zhang ... It seems like you'll need to strengthen your cultivation in the future!"

Lin Yi said with a weird smile on his face. "I'm the commander of the tingfeng camp. It's embarrassing for me to be thrown into prison so casually!"

Although he was locked up, Zhang Yiming wasn't tortured at all. Lin Yi, on the other hand, was less angry.

Zhang Yiming laughed awkwardly and pulled old Zhang, who was dumbfounded, over."Father, this is general zongqian, the commander of the army in the North, and the king of Hongshang County, Marshal MA Zhongda! General, this is my father, Zhang Weibing!"

Zhang Weibing was only the head of a family in a border city like Yunying city. He was at most a rich local tycoon, but he had never seen someone with such a high status.

Chapter 7819

Looking at Zhang Yiming's status in the sword spring sect, one could see how weak Zhang Weibing's family was.

So when Zhang Yiming introduced Lin Yi's identity and title, Zhang Weibing subconsciously wanted to kneel down.

Lin Yi wasn't going to let him kneel for real-he quickly reached out and grabbed Zhang Weibing's arm through the iron bars.

"Uncle Zhang, you don't have to be so polite. In the Army, Yiming and I are superior and subordinate, colleagues. In private, we are brothers, true brothers! You're my elder, if you're too polite, I'll be embarrassed. "

"Marshal ... His Highness ..."

Zhang Weibing started to speak incoherently.

He really didn't expect such a scene to appear.

He had been locked up in prison, his family property seized, and his family clan destroyed. He was already close to despair!

Lin Yi suddenly appeared and called him uncle ... Why did it feel like a dream?

"Marshal! The Lord of Yunying city framed my family and imprisoned me. Please seek justice for me!"

Zhang Yiming didn't care about his father. He wanted to complain to Lin Yi first. Huo Jingtian, that bastard, just wait for his death!

She didn't expect Lin Yi to only smile and shake his head, "I won't care about this, you guys do as you see fit!"

Zhang Yiming was shocked. What? You don't care, commander?

No, eldest senior brother Sima, brother! If you don't care, I can't handle Huo Jingtian either!

Lin Yi turned around and gestured for the guards to open the cell door, personally welcoming Zhang Weibing out before continuing with a smile, "Huo Jingtian is plotting a rebellion. I guess he's not dead

yet. Uncle Zhang, you'll have to work harder in the future. You'll have to bear the burden of Yunying city for the time being!"

Zhang Weibing and Zhang Yiming were dumbfounded. What did that mean?

"I'm the general in charge of the Army in the northern border, and I have the power to make decisions on the spot. Huo Jingtian is suspected of rebellion, so he must be a spy from the enemy! Regardless of whether he's still alive or not, it's impossible for him to continue to serve as the city Lord of Yunying city. In the future, uncle Zhang will be the new city Lord of Yunying city!"

Zhang Weibing continued to be dumbfounded. His family was about to be destroyed, and he suddenly became the Yunying city Lord?

It was so unreal!

I must be dreaming!

Zhang Yiming's reaction was quick-he knew that Lin Yi had the power to do so. Overjoyed, he cupped his fists and bowed, "Thank you, commander!"

With Lin Yi's words, the Zhang family would go from an ordinary rich man with a mine to one of the noble classes in Hongshang Commandery!

Although the position of commander of the surveillance camp was not any lower than that of the Lord of Yunying city, it was only effective in the Army.

After the division, if the garrison of the king's city returned to their original duties, it was uncertain whether tingfeng camp could still be kept!

"There's no need to be polite between you and me. Let's talk after we get out!"

Lin Yi said, waving his hand.

Of course, the stronger his younger brother's family was, the better. Even if they could not provide any help, at least they would be able to live well when he left in the future.

The prison wasn't a place to talk, and Lin Yi quickly brought the father and son out.

In just a short while, song shaopeng and the guards unit cavalry appeared on the distant Street again.

His killing intent grew stronger, and there were more blood stains on his body. It was obvious that the pursuers that Huo Jingtian had brought were already finished.

"Reporting to the commander, the rebel army has been annihilated. The guards unit has killed 1073 people and the rest have been captured! The head of the rebel general Huo Jingtian is here!"

Song shaopeng got down from his horse and picked up a head that was still bleeding.

It was the Lord of Yunying city, Huo Jingtian, who was trying to please Lin Yi.

Lin Yi only took a glance at Huo Jingtian's head and didn't pay any more attention to it, ""How are the guards unit's losses?"

He didn't even need to ask-with just a scan, he knew that there were many casualties.

"Commander, the guards unit has 41 dead, 23 heavily injured, light injuries ... No statistics!"

Song shaopeng was a bit ashamed. He had brought 700 people to fight, and nearly 10% of them were seriously injured or dead. Although it was not worth mentioning compared to the casualties of the enemy, it could be considered a big victory anywhere!

However, compared to the previous battles under Lin Yi's leadership, the difference was huge!

In this battle of killing a thousand people in front of the prison, the guards unit did not have a single injury, a complete victory!

Looking back, the ambush in fire sickle city and the ambush in duojuan city-under Lin Yi's leadership, they faced enemies dozens of times more powerful than they were, and the casualties weren't that high!

"Treat our injured brothers well, and give a proper burial to those who died in battle. Double the compensation! Don't miss out on any of the merits you should have!"

Lin Yi ordered after a moment of silence.

The guards unit was already in the early stages of a super strong Army, and in the process of growing, casualties were inevitable.

If Lin Yi had led the troops, he might have been able to keep them alive, but he wasn't a babysitter. He couldn't take care of them forever.

When Lin Yi left in the future, the guards unit would still have to face this!

"Thank you, Marshal!"

Song shaopeng expressed his gratitude for the dead and wounded soldiers, and also for the living soldiers.

He didn't think there was anything wrong with it. The purpose of the guards unit was to protect Lin Yi.

It was impossible for the Commander-in-Chief to charge at the forefront every time there was a battle. Then what was the point of having the guards unit?

"Castellan Zhang, you're responsible for taking over Yunying city and dealing with the aftermath. I have commander Zhang and deputy commander song coordinate with you for the time being. I hope you could stabilize the situation in Yunying city as soon as possible!"

Lin Yi turned to Zhang Weibing (Mr. Zhang)-it wasn't appropriate to address him in private when it came to business.

Zhang Weibing understood this, so he immediately bowed and accepted the order.

"This official will do it right away. I will not disappoint Marshal's expectations,"

Zhang Yiming and song shaopeng also bowed and agreed. The three of them quickly got into position and began to take over the entire Yunying city.

Huo Jingtian's confidants knew that this matter was no small matter. They had offended one of the top figures of the entire Hongshang Commandery, Sima Zhongda.

The more timid ones had already packed up their valuables and secretly escaped or hid, while the more daring ones took the initiative to seek refuge with Zhang Weibing, hoping to redeem themselves by doing good deeds. If they were lucky, they could even retain their original positions.

Yunying city gradually returned to the right track amidst all the chaos. The next morning, the influence left behind by Huo Jingtian had basically been eliminated.

The commoners even felt that it would be better for Zhang Weibing to be the city Lord.

It was almost noon, and Fei daqiang finally arrived at Yunying city with the back of the Army and met up with Lin Yi.

In addition to the provisions and supplies, Fei daqiang actually brought 70 to 80 thousand cattle and sheep.

These weren't dark spirit beasts, but normal domestic meat.

Lin Yi was dumbfounded at the scene.

Not counting the cows and sheep, just the rations for the 50000 strong Army would be enough to last them for three years!

If he really ate it for three years ... It would probably rot, right?

Lin Yi didn't think that putting Fei daqiang in charge of logistics would cause such a big scene.

Along the way, this guy had recruited more than 25000 troops, which was not a lot, and they were all within the scope of the conscription order.

However, if the logistics, livestock, and craftsmen were all counted as auxiliary troops, this Army would directly exceed 60000!

Chapter 7820

What a talent!

Fei daqiang heard that Lin Yi was in Yunying city and came over excitedly. He smiled when he saw Lin Yi and bowed,"General, I have gathered enough food. We don't have to worry about our brothers not having enough food. We can counterattack and destroy the seitong Commandery!"

Lin Yi was speechless-he was already on his way back to the capital, and yet this guy was sending him a huge amount of food and supplies, and even wanted to attack selengtong Commandery!

Then should I continue to lead the Army, or should I join you in the counterattack?

Looking at the 60000 troops outside the city, it didn't seem appropriate to let them leave just like that ...

Lin Yi thought about it-the northern border was lacking in manpower, and these soldiers he'd recruited would be good enough to guard the five cities that seitong Commandery had given over. Even the auxiliary soldiers would be enough.

"Marshal, this is the account book. Do you want to take a look?"

Fei daqiang took out a thick account book and handed it to Lin Yi as if he was presenting a treasure,"This general walked a bit slowly, I wasn't playing. Marshal, take a look!"

Lin Yi took it and flipped through it, and couldn't help but exclaim again. Fei daqiang really was a talent!

When he left the capital, how much food and resources did he have?

The number of gold certificates was not much for an Army of tens of thousands.

But now?

At the end of the account book, the amount of gold certificates in Fei daqiang's hands was more than ten times that of when he left the capital!

The grain, livestock, and other resources were all on another side!

"Commander Fei ... You, did well!"

Lin Yi didn't know what he was feeling right now, so he only gave a dry compliment.

I wonder if the commander of the rear Army is breaking the rules by buying and selling the Army's supplies ...

However, the profits were all in the military's public account, so it shouldn't be considered a violation, right?

To be honest, Lin Yi was starting to admire Fei daqiang's methods.

This guy had bought a large amount of grain at a low price in Blue Moon City, and later on, he had used the credit method to obtain more.

Then, when they passed by the cities where the grain harvest was low last year, they sold a batch of grain and bought the local specialty, Kasaya, for only half of the money, and the other half was on credit!

Along the way, he had more and more resources in his hands, and he made more and more money.

The most exaggerated thing was that Fei daqiang didn't even need to pay for the people who transported the grain. They were all people sent by various shops to follow Fei daqiang's Army.

Usually, dark spirit beasts and bandits would appear between cities, so it was not easy to do business across cities. It was not easy to have Fei daqiang. He would definitely make a big profit if he followed the Army!

As for the things he owed before, to be honest, it was not a loss to give them directly to Fei daqiang!

Lin Yi closed the account book and suddenly felt that his tens of thousands of kills seemed very ordinary. It was far from the speed at which Fei daqiang increased his wealth!

If this guy didn't become the Minister of Revenue or something, he would be burying talent!

Fei daqiang moved closer to Lin Yi with a big smile on his face, as if he was saying "boss, praise me! I can accept it no matter how hard you praise me!"

Lin Yi was about to praise him, but he lost the mood.

"Commander Fei, clear all the money you owe. Then, take the Army and rations and continue to move forward. Go find deputy commander Wu and let her arrange the dispatch of the soldiers and the distribution of supplies."

Lin Yi paused, a weird smile on his face. "The battle at the northern border has ended, and our Army has achieved a complete victory. Commander Fei, you've come a little too late, so you won't be able to obtain any great achievements. However, you did contribute in gathering the rations and supplies, so this trip wasn't in vain. "

Fei daqiang's mouth was wide open, and he was dumbfounded. Does this mean that what I've done is not of much use?

It seemed to be true. The war had already been won, so there was no point in having more resources!

Moreover, the money earned was from the Army and could not be kept in his own pocket, so ... This was all for nothing?

Lin Yi tried to hold back his laughter-this was just a small blow to Fei daqiang, in case he got too cocky and overconfident.

As for the achievements, did Fei daqiang need them?

When Lin Yi left, Fei daqiang would definitely follow him. What was the use of the merit points of Hongshang Commandery?

In any case, it was always a good thing that Fei daqiang had brought a large amount of resources over.

The situation in Yunying city was also stabilized. That day, Lin Yi gathered everyone and held a small celebration party, and the guards unit soldiers also received more than enough rewards.

Another day passed, and Lin Yi brought the guards to the South.

Fei daqiang continued to lead the team North to the northern border to support Wu yucao.

Zhang Yiming stayed in Yunying city for two more days to help his father, Zhang Weibing, consolidate his position as the city Lord and sort out the power structure in Yunying city.

Secondly, he could recruit more people from his hometown and integrate them into tingfeng camp.

When they returned to the capital, the former soldiers of the surveillance camp would return to the capital Garrison. They might not be able to stay in Zhang Yiming's hands.

The ones he recruited now could be considered Zhang Yiming 's, or rather, Lin Yi' s, private soldiers. They wouldn't be included in the ranks of the capital's Garrison. This was the listening wind camp that Zhang Yiming could truly control.

It just so happened that Fei daqiang had earned a huge amount of military funds and supplies, and Lin Yi had the power to recruit soldiers. Everything was reasonable and legal, and it was natural!

When Lin Yi left Yunying city, he didn't continue the high-intensity journey but practiced as he walked. He didn't just teach the guards how to fight formations, he also taught them all kinds of body training techniques and martial arts.

The sword spring sect's book collection was of great use at this time. Although it was a sect at the edge of the area, it was much better than what the ordinary soldiers of the guards unit had cultivated before.

The journey back to the capital was not only a journey of cultivation and learning, but also a journey of actual combat.

Lin Yi considered the fact that if the guards only trained without actual combat, the results wouldn't be satisfactory. So, he used the excuse of eliminating evil for the people to wipe out all the bandit groups.

Lin Yi even took a detour to the bandit bases that weren't on the route after getting the news.

Killing God devil star!

Lin Yi hadn't even returned to the capital yet, and this name had already spread all over the place.

The common people were naturally overjoyed, excited to have such a peerless general on their side.

As for the mood of the high-level officials of Hongshang Commandery, it was hard to say.

There were some who were happy and some who were sad in the Sima clan, let alone the other clans.

For a moment, the high-level officials of Hongshang Commandery fell into a strange silence.

Lin Yi didn't know what happened in the capital yet, and still brought the guards around to train, battle (sweep), gather information, travel, and battle (sweep), having fun.

Lin Yi collected information on all the places he passed by, but he didn't get what he wanted.

However, the spoils of war they seized grew more and more, and in the end, they could not take it away. They could only find a city to sell it and Exchange it for gold certificates to split, which ensured the mobility of the guards unit.
