

Bodyguard 7821

Chapter 7821

Lin Yi and the guards unit spent nearly fifty days on the way back!

By the time the guards unit, which had almost been trained into a special force, followed Lin Yi back to the capital, Wu yucao and the others had also returned with the capital's guards.

The two sides met fifty miles outside the capital.

The five cities that seitong Commandery had ceded had been completely absorbed. With the efforts of Wu yucao and the others, they had become the first line of defense against seitong Commandery.

And this line of defense could be said to be impregnable!

Sima zhengxin, who had received the news, personally left the city and led the civil and military officials to hold a Grand triumphant ceremony outside the city!

More than half of the people in the capital rushed out of the city to welcome the triumphant Return of the Hero in their hearts.

The remaining half really couldn't squeeze out. There was a sea of people outside the city gate, and there was no place for them to stand. They could only settle for second best and wait on both sides of the streets in the city.

Lin Yi's personal guards were in a completely different state after all the training and killing. They didn't care much about a big scene like this.

The other soldiers of the Royal capital's Garrison were different. They had only gone to the northern battlefields to play a supporting role, and when they returned, they were welcomed like heroes. They were very happy!

Regardless of whether they made it in time for the war or not, taking over the cities that the five enemy countries had ceded would be a real achievement!

I'm a hero, and I deserve this welcome ceremony!

After the Grand triumphant ceremony, the royal guards went around the city to receive the cheers of the crowd before returning to their original camp, including Lin Yi's personal guard Camp.

Meanwhile, Lin Yi brought Wu yucao and the other generals into the palace with Sima zhengxin and the other officials to receive their rewards.

Sima zhengxin sat on the throne and looked at Lin Yi with a smile.

With a grandson like this, it would not be a problem for the Sima clan to continue to control Hongshang Commandery!

The eunuch beside him unfurled a scroll of imperial edict and read out the reward loudly,"

"

When this reward was announced, everyone's eyes turned red!

Not to mention the defender-general of the state, he was basically the number one person under the Grand Marshal in the military!

And the Grand Marshal was actually just a title, and could only be given during wartime.

In terms of actual power, the defender-general of the state was the big boss of the military and had the power to control all the troops!

As for the vice general manager of the capital's Garrison, it didn't matter. The General Manager was Sima Yunqi, so it didn't matter if Lin Yi was the vice general manager or not.

The courageous God Marquis was even more impressive. Although Sima Yunqi was also a Prince, his status as a Prince was based on Sima zhengxin's status as the Prince of Hongshang Commandery.

If the Commandery Prince of Hongshang Commandery was replaced by another family, Sima Yunqi's royal status would automatically lose its effect. However, Lin Yi's Marquis Shenyong status would not be taken away!

Under normal circumstances, it was impossible for the other clans to agree to the Sima clan's people being conferred the title of Marquis. Furthermore, it was a Marquis with a fief, with three thousand households!

This meant that these three thousand households would become Lin Yi's personal property, and he could decide their lives and deaths.

As for the title of fire sickle city's Castellan, it wasn't that important. In this war, the castellan of fire sickle city was finished.

Lin Yi had taken back fire sickle city, and he was just a spiritual leader-the general couldn't just stay in the city, he had to stay in the court.

But if Lin Yi wanted to raise a private army, fire sickle city would be a very good place.

It was far away from the Imperial court and was originally a border pass. Now that they had five cities ceded by the seitong Commandery, it was much safer and they could go to the seitong Commandery to train their soldiers from time to time.

It was perfect!

"The defender-general of the state could choose a 1000-man personal guard unit from the garrison of the king's city to protect himself ..."

This was directly putting the personal guards unit under Lin Yi's name.

Although everyone felt that breaking through seventy thousand with eight million was a bit of a dream, they were sure that Lin Yi's personal guards unit was an invincible force.

Of course, Sima zhengxin couldn't give this Army to anyone else, not even his own son, Sima Yunqi. He decided on the title and helped Lin Yi expand it to a thousand men.

With such a famous Royal grandson leading a strong Army in the capital, Sima zhengxin felt that he could sleep more peacefully.

The rewards were still going on, and the next ones were Lin Yi's wealth. Everyone here was a big Shot, and they didn't care about that at all.

After Lin Yi was done, it was time to reward the rest of the soldiers.

The Vice commander, Wu yucao, was given the title of Pingbei general, the commander of the left camp of the Royal capital's Garrison, and other rewards.

The military counselor Jin Yuan Bao was given the title of general Fubo, counselor of the left camp of the Royal capital's Garrison, and other rewards.

Zhang Yiming was given the title of general of rebellion, counselor of the right camp of the royal city garrison, and other rewards.

Li Yingjian was given the title of general Zhaowu, the Vice commander of the right Battalion of the Royal capital's Garrison, and other rewards.

Ling Hanxue was given the title of divine Archer general, the Vice commander of the left camp of the Royal capital's Garrison, and other rewards.

Song shaopeng was given the title of Pingnan general, the commander of Lin Yi's personal guard, and other rewards!

Fei daqiang was given the title of general Minfeng, the Vice commander of the rear camp of the king's city garrison, and other rewards.

.....

Even though everyone in the long flag was a general, only Wu yucao and song shaopeng were real generals.

As for the other generals like the subduing wave general and the Renegade general, they were all known as surplus generals. They were the lowest-grade generals and were considered common goods ...

Lin Yi's previous Conqueror general was one of them.

The so-called surplus generals could be given the titles of the subduing wave general or the anti-rebel general. It was normal for several generals to exist at the same time.

It just so happened that no one was using them, so he gave them a different one each.

Wu yucao and song shaopeng's North-pacifying and South-pacifying generals were only one rank higher than surplus generals, but they were unique. If they were given to Wu yucao and song shaopeng, there would be no more North-pacifying and South-pacifying generals.

The rewards for Wu yucao and the others were obviously a few levels lower than Lin Yi 's.

Not to mention the titles, in terms of military positions, above the four generals of the North, South, East, and West were the four generals of the North, South, East, and West of the North, and then the four generals of the North, South, East, and West of the North, and the four generals of the South, East, and West, and the four generals of the North, and the South, and West of the North, were the four generals of the North, South, East, and West!

Above these four ranks was the great general rank. Lin Yi's defender-general rank was above the four ranks of Zhengping. From a surplus general to a top general, it was a huge leap.

It was because Lin Yi's battle record was too dazzling this time, Sima Zhengxin rewarded him with all his might, and no matter how unwilling the others were, they couldn't refute it.

Other than envy and jealousy, they couldn't find any reason to go against Sima Zhengxin, so they could only suppress Lin Yi's men a little.

Chapter 7822

In fact, their suppression only prevented Wu Yucao and the others from advancing too brightly.

Normally, this kind of promotion was almost the same. After all, Wu Yucao and the others had only gone to the northern border to do nothing.

Only Song Shaopeng, who had really followed Lin Yi through mountains of corpses and seas of blood, had a slightly lower level of advancement.

Including the guards unit soldiers who were still alive, in terms of achievements, each of them could at least be an extra general. In the end, except for Song Shaopeng, they were basically only given the rank of Lieutenant.

Thinking about it carefully, if the guards unit were all given the title of surplus general, such as general Pomin ...

Eight hundred generals, should the guards unit be renamed to the Stellar Breaker Army?

After that, everyone greeted each other when they met. "Greetings, general Polva!"

"General po gang, have you eaten?"

"Did general Polva sleep well last night?"

.....

Well ... The scene was too beautiful to imagine.

Sima Yun Fei was the most anxious of them all.

The fight for the Crown Prince with the second brother, Sima Yunqi, was about to be destroyed by Lin Yi's sudden appearance. He wanted to kill Lin Yi right now.

But the reality was that he had to squeeze out a sincere smile to congratulate Lin Yi, the new general!

Facing Lin Yi, who had returned with a great victory and had an unparalleled momentum, Sima Yunfei's mind was spinning. He couldn't fight Lin Yi head-on, he had to think of a way to deal with Lin Yi using a soft knife!

"Father, nephew Zhong da has already achieved such amazing achievements at such a young age. He is truly a rare genius in our Hongshang Commandery!"

After Sima Yunfei finished congratulating Lin Yi, he turned around and cupped his hands at Sima zhengxin with a big smile on his face, ""A few days ago, the Prince of a conferred Kingdom of the Dragon state sent an invitation to invite the young talents of our Hongshang Commandery to attend a young master's gathering in the conferred Kingdom of the Dragon state. Nephew Zhong da is the most suitable candidate!"

"With nephew Zhong DA's literary and martial arts skills, you will definitely be able to raise the prestige of our country in the Dragon state. No one in the world will dare to look down on our Hongshang Commandery!"

Sima Yun Fei's words were full of righteousness and passion, but when the others heard this, they couldn't help but reveal a strange expression.

The sub-Island was a place where dynasties and empires fought for power. Compared to the entire sub-Island, Hongshang Commandery was just an insignificant piece of land.

Above Hongshang Commandery was a conferred Kingdom of the Dragon state, and the king was a Prince of the White Mountain Empire.

In the entire White Mountain Empire, there were more than a handful of kingdoms with such titles.

There were also more than a dozen commanderies under the Dragon state's conferred Kingdom, such as Hongshang Commandery.

In addition to the territory of the conferred Kingdom directly under it, the entire territory of the Dragon state conferred Kingdom was almost fifty times the size of Hongshang Commandery!

The two sides were not only different in terms of land size, but also in terms of resources.

Commanderies were actually some of the more barren places in conferred kingdoms, which were given out for people to manage.

The truly prosperous areas were all territories that belonged directly to the conferred kingdoms.

Therefore, when a war broke out between commanderies under the jurisdiction of a conferred Kingdom, the conferred Kingdom would basically ignore it.

You can fight however you like, just don't cross the line and enter your territory!

War could nurture powerful and elite troops, and only when a war broke out between conferred kingdoms would there be good recruitment of soldiers.

Therefore, the conferred kingdoms would not interfere in the war between commanderies. Instead, they might even secretly add fuel to the fire.

To put it bluntly, these commanderies did not have any status at all. The White Mountain Empire would not pay attention to these commanderies at all. They were not even registered in the empire's records. It was all up to the conferred kingdoms to manage them.

If measured by the standards of the secular world, an Empire was a province, a conferred Kingdom was a city, and a Commandery was a County, or even a town.

The conferred Kingdom of the long bang that Sima Yunfei mentioned was the suzerain Kingdom of Hongshang Commandery.

The reason why the princes of the conferred kingdoms of the Dragon state were holding a young master's assembly was actually to recruit a Prince Consort!

The monarch of the conferred Kingdom of the Dragon state loved his daughter very much and was unwilling to marry her to another country. This was why he wanted to select a young and handsome man in the country to be the Prince Consort.

In addition to the direct territory, there were also many young geniuses in the Subordinate Commanderies.

Therefore, the monarch of the conferred Kingdom of the Dragon state simply sent out invitations to all the commanderies and invited young geniuses of the right age to attend the banquet.

Although this matter was not clearly stated, everyone who should know knew about it, such as Sima Yun Fei and most of the high-level officials of Hong Shang Commandery, including Sima Yun Qi.

"Father, I think this matter needs to be discussed. Zhong da is now an important official of our Hongshang Commandery. It's a bit beneath him to attend this kind of gathering of young people who haven't shown their faces yet!"

Of course, Sima Yun couldn't let Lin Yi go to a conferred Kingdom. His son was so outstanding, there was a high chance that he'd be chosen as the Prince Consort!

It would be great if he could marry the princess of a conferred Kingdom in the Dragon state, but that was clearly impossible!

If he were to stay in the Dragon state and become the Prince Consort, he would not be able to come back and inherit the position of the Commandery Prince of Hongshang Commandery!

This was Sima Yunfei's plan. Without Lin Yi's threat, it would be hard to say who would win if he and Sima Yunqi fought for the Crown Prince position.

Of course, if Lin Yi really became the Prince Consort of a conferred Kingdom, he might be able to benefit Hongshang Commandery in return.

However, when Sima Yun thought about his son, who he had just found, and the fact that he was such a brave and invincible general, being forced to be the emperor's son-in-law ... How could he be willing to do that?

"Second brother's words are wrong! Nephew Zhong da is bringing glory to the country, how could he lose his status? to be able to show his face in front of the Prince is also very beneficial to our Hongshang Commandery, isn't this a good thing?"

Si MA smiled smugly, thinking that he'd made a good point-he'd just use the excuse of a big hat and send Lin Yi to a conferred Kingdom!

If he could really make this kid stay and become the Prince Consort, that would be wonderful!

Even if he couldn 't, it didn't matter. Some things were more convenient to do after leaving for a while!

"Let's take a step back. Our Hongshang Commandery is such a small place. What's the point of nephew Zhong da being trapped here? With this young masters "conference, honorable nephew Zhong da can go to the Dragon state's conferred kingdoms to broaden his horizons and make friends with the various geniuses. This will be of great benefit to his future development!"

Sima Yunfei's heart was moved by what he said. It seemed like this was a good thing!

Hongshang Commandery was a small country with few citizens. If he had the opportunity to build a good relationship with the young talents of other countries, it would be a great network!

Why don't I let Zhongxiao go and experience it too?

However, what if Zhong Xiao was fancied by the princes and princesses of the conferred kingdoms of the Dragon state?

Sima Yunfei hesitated for a moment. Sima Zhongxiao was his most outstanding son from the first wife and was also one of the most important chips in the fight for the position of Crown Prince. He couldn't just give him away to be the Prince Consort.

Chapter 7823

It would be great if a bastard like Sima Zhongyi could become the Prince Consort.

Not only would it not affect the fight for the Crown Prince in Hongshang Commandery, but he could also use his status as the Prince Consort of a conferred Kingdom in the long state to provide assistance!

We'll see if there's a date or not, and when the time comes, we'll send them out to try!

Sima Yunfei's mind turned and he said, "Of course. Since honorable nephew Zhong da is going to a conferred Kingdom of the Dragon state, this King will allow Zhong Yi to follow along and broaden his horizons. We can keep each other company."

Sima Yun was instantly speechless. The son of his boss's family was going too. He couldn't refuse!

The problem was that when it came to the matter of finding a Prince Consort, how could the big boss's family be a match for his own son?

At first, Si Ma was already very annoyed, but he couldn't think of any reason to refute.

At this moment, a soldier rushed out of the main hall, knelt down on one knee, and shouted, "Urgent military intelligence! The black charm Commandery's border! The exact number is unknown, urgent news from the border!"

The hall immediately fell into silence.

For a moment, everyone was confused. What was wrong with the black charm Commandery? Why did they choose to start a war with the Hongshang Commandery at this time?

When the Seitong Commandery sent their troops, the black charm Commandery would attack the other direction of Hongshang Commandery at the same time. This would be the most effective and force Hongshang Commandery to split up their troops to fight.

If they sent out their troops now, they would encounter the situation where Hongshang Commandery had defeated Seitong Commandery and taken down five cities in the North. The morale of the entire country was high.

Moreover, the northern border did not suffer any serious injuries, so it would not be particularly difficult to deal with the black magic Commandery.

Therefore, although many high-level officials of Hongshang Commandery in the hall were surprised, they did not panic.

He even had the leisure to guess the reason why the black charm Commandery chose this time to attack.

"Father, the black magic Commandery has invaded. As the defender-general of the state, Zhong da can not leave easily. I think that Zhong da has done a good job in pacifying the war at the northern border and defeating the seitong Commandery. This time, with Zhong da as the commander, the black magic Commandery will definitely succeed!"

Sima Yunqi finally found a reason for Lin Yi not to go to the young masters "gathering in the Dragon state conferred Kingdom. He spared no effort in pushing Lin Yi to lead the expedition.

"The black charm Commandery's equipment is excellent, which is not comparable to the selenium copper Commandery. Although nephew Zhong da has outstanding military achievements, it is obviously impossible for him to replicate the battle results against the sulfur copper Commandery."

Sima Yunfei would definitely object to it. Not to mention anything else, he would object to whatever Sima Yunqi suggested.

Sima zhengxin pinched his eyebrows and felt his head hurt!

This time, the urgent military report was really urgent. It was sent directly in front of all the civil and military officials, so that Sima zhengxin did not have the time to hold a family meeting in advance at the Qiu Shi Palace Hall to unify the words.

Now that Sima Yun Fei and Sima Yun Qi both had their own opinions, Sima Zheng Xin was in a difficult position.

"Your Majesty, I also think that the defender-general of the state should not be taken lightly. He should just stay in the king's city. After all, he is one of the highest-ranking generals in our Army. If the black charm Commandery only sent a small troop to harass the border, we would be a joke if we send the defender-general!"

First lieutenant Feng ruoting, who hadn't spoken much, suddenly stepped out and expressed his opinion. "In my opinion, the black magic Commandery will not easily break through the border, so the war will not be too urgent."

"The plan now is to first investigate the situation of the black magic Commandery and then make a suitable response. Before that, we can send a Deputy general to the border with a group of reinforcements. How to deal with it depends on the situation."

"In this way, we can easily resolve the threat of the black charm Commandery! I wonder if your Majesty thinks that this old Minister's words make some sense?"

Originally, Feng ruoting wanted to see a good show of Sima Yunfei and Sima Yunqi, the two brothers fighting each other.

It was not in house Feng's interest to let Lin Yi lead the Army, so they had no choice but to support Sima Yunfei.

Lin Yi was already the defender-general of the state-if he continued to lead troops and returned with a victory, what rewards would he get?

At such a young age, he had no way to be promoted. If it was someone else, they might have been suspected by his Lord and died a terrible death.

However, Lin Yi was different. He was the grandson of the king. Sima zhengxin already had the thought of abdicating, but he was still wavering between Sima Yunfei and Sima Yunqi.

If Lin Yi were to rise up at this time, his contributions would be so great that he couldn't be rewarded, and Sima zhengxin might just skip his son and make Lin Yi the king's grandson!

Once such a young and powerful Wang Taisun succeeded the throne, the Feng family would not have the chance to touch the throne of Hongshang Commandery for decades or even a hundred years!

And so, they couldn't let Lin Yi lead the Army. If possible, they had to get him to attend the young masters "meeting, and find a way to make him the Prince Consort of a conferred Kingdom!

On this point, Feng ruoting and Sima Yunfei were natural allies, and they could reach a consensus without communication!

"The Grand commandant's words are naturally the words of an old man! Pass down my order, quickly investigate the reason, scale, strategic target, and other information of the black charm Commandery's Army. You must send it to me today!"

Sima zhengxin gave the order to the eunuch beside him, then turned to the officials below, ""Before the situation is unclear, don't send reinforcements from the capital. Send orders to the cities around the battle area to reinforce the front line."

As for whether they would be attacked by the black charm Commandery, Sima zhengxin couldn't care less for the time being.

In any case, with the elites of the capital at hand, it would not be a big problem to suffer a little loss in the early stages.

Sima Yunfei and Feng ruoting had more or less achieved their goal, so they didn't say anything more.

The reward from the victorious return naturally turned into a discussion about the new war.

The people in the hall were generally optimistic. After all, the seitong Commandery was not weaker than the black magic Commandery, but they were still defeated and had to cede their land and pay indemnities.

After half a day of discussion, no new opinions came out, and they finally dispersed.

On the second day of the court session, new information was sent back by a Messenger Eagle. Sima zhengxin sat on the throne and let the eunuch beside him read the information.

"...The seitong Commandery knew that they were no match for the black magic Commandery, so they ceded all the territory that was adjacent to the black magic Commandery and had always been in dispute to the black magic Commandery. They also added two more cities as the price to negotiate peace with the black magic Commandery!"

"On the surface, this contract states that the seitong Commandery will give up their land unconditionally. But in fact, there is an additional clause in the dark. The black magic Commandery will continue their alliance and attack our Hongshang Commandery!"

"The black charm Commandery thought that seitong Commandery had taken the initiative to show weakness and withdraw their defense line. They didn't want to fight to the death since they still had some strength. Therefore, after getting enough benefits, they turned to attack our border. They wanted to take some benefits from us while we were digesting the fruits of the battle in the northern border."

"In summary, we can analyze that the strategic goal of the black charm Commandery is not to go deep into our territory, but to gain some benefits. It is unlikely to develop into a large-scale country war."

Chapter 7824 The Power Of The Devil

"The Army mobilized by the black charm Commandery this time is basically transferred from the front line of the seitong Commandery. The total number is about 80000, which is in line with the analysis and speculation, but we can not rule out the possibility of subsequent reinforcements!"

The hall began to buzz with discussion.

The black charm Commandery's military action was not as strong as expected, but it was not to be ignored.

If they were not careful, it was normal for them to take down a few cities.

"Royal father, this son believes that the reinforcements should be sent as soon as possible, but there is no need to pay too much attention to it. Nephew Zhong da, the defender-general of the state, does not need to be sent out. Just send a Deputy general."

Sima Yunfei wanted Lin Yi to join the young master's meeting. Who knew when the war with the black magic Commandery would end?

If Lin Yi led the Army, he might miss the young masters "gathering.

After all, the black charm Commandery was famous for its excellent equipment. The combat power of its soldiers might not be as good as that of the seitong Commandery, but with excellent equipment, it was hard to say.

If Lin Yi led the Army to battle, the black charm Commandery could kill Lin Yi. Although their Army was well-equipped, they were only difficult to deal with. They lacked the ability to make the final decision.

If not for this, the black charm Commandery would have already conquered the seitong Commandery and the Hongshang Commandery. How could they be in a deadlock?

"Your Majesty, I also think that the first Prince's words are reasonable. It's just a small conflict at the border. It's too much to send the defender-general of the state to the battle. It would make it seem that our Hongshang Commandery values them."

Feng ruoting tacitly stepped out to help Sima You Fei. "Just send a Deputy general over and send the black charm Commandery away. That way, our Hongshang Commandery will appear powerful!"

"The Grand commandant's words are to my liking. Father, let's settle this matter like this? I still have one more person to recommend, who can show our country's contempt for the black charm Commandery and win the war!"

Sima Yun Fei and Feng ruoting echoed each other, and in a few words, the matter was almost settled.

And Sima zhengxin didn't open his mouth to object, just quietly watching them speak.

..."Royal father, your son would like to recommend the cousin young master of second brother's residence, Liu Ziyu! He was once the Army supervisor for honorable nephew Zhong da, so he's no stranger to the matters of the Army. As long as he has someone to assist him, this victory will be extremely simple!"

Sima Yunqi and Lin Yi were stunned by the words. Who? Liu Ziyu in charge?

Lin Yi had wanted to train Liu Ziyu, but the battle had already ended by the time he met him. Liu Ziyu had only gone to deliver a few words.

After that, Lin Yi brought the guards unit back first, and while they were training and clearing out the bandit groups, Liu Ziyu followed Wu yucao to deal with the five cities ceded by the selengtong Commandery. It was an internal affair, and had nothing to do with the military.

To be honest, Liu Ziyu's performance at that time was not too bad. Therefore, although he was not read out in the main hall during yesterday's reward, he was still given the military position of Lieutenant.

"Father, this matter is not very appropriate. Liu Ziyu is not good at leading troops and fighting wars, and his own martial strength is not considered high. Moreover, his status is a little too low, so he is not a suitable candidate!"

Sima Yun immediately stood up to object. "Saving the Army is like putting out a fire. The situation on the battlefield is ever-changing. Even if we don't think the black charm Commandery will invade, we can't be so relaxed. We must be vigilant and send a more experienced and prudent general to the battle."

"Brother Wang's words are wrong!"

Sima Yunfei laughed and shook his head, ""Honorable nephew Zhong da is the defender-general of the state. Although honorable nephew Ziyu's surname is not Sima, he also has the bloodline of our Sima clan. Royal brother has always raised him as a son, so what's there to say about his identity? The Lieutenant is not suitable to lead the Army, so he will be conferred the title of Conqueror general. "

"Nephew Zhong da went to the northern border in the name of the Conqueror general. He won a battle and became famous. If nephew Ziyu goes to the northern border on behalf of his brother, he can also borrow the power of the defender-general of the state. Maybe it will be another earth-shaking victory!"

The Conqueror general was only an extra general. Sima Yun Fei did not care if Liu Zi Yu was an extra general or a Lieutenant.

As for copying Lin Yi's record? That would really be hehe.

Liu Ziyu wasn't Lin Yi, who grew up in the capital. Sima Yunfei knew the kid very well.

Perhaps he had some talent, but that was in literature. As for military talent ... Hehe!

Sima Yunfei's plan was very good. Lin Yi's victory in selenbronze Commandery had completely stabilized the Sima family's rule over Hongshang Commandery.

At this time, the chances of the other families trying to seize the throne were not high, so he had to think for himself.

Lin Yi's reputation was like the sun in the sky, which meant that Sima Yunqi's reputation was like the sun in the sky. At this time, they had to think of a way to suppress him, so that he wouldn't even lose the chance to compete with his second brother.

Liu Ziyu was a very good opportunity to suppress them. With this kid leading the battle, the chances of losing were very high, and the limelight of second brother's family could be suppressed.

Sima zhengxin frowned slightly and hesitated.

He knew better than Sima Yunfei what kind of person Liu Ziyu was.

However, this battle was indeed not too difficult. If Liu Ziyu could take this opportunity to return with a layer of gold, not only would his future be bright, but it would also be very beneficial to Sima Yunki.

For the position of the Crown Prince, Sima Zheng Xin had basically set his mind on Sima Yunki. If Liu Zi Yu could rise again, no one would be able to shake Sima Yunki's position as the Crown Prince.

Should he take a gamble?

The people of the various factions in the Imperial court also began to wave flags and shout for their respective bosses. There were many people who agreed and opposed to recommend other people to fish in troubled waters. Sima zhengxin became more and more irritated.

At this time, Lin Yi suddenly stepped out and cupped his fists, "Your Majesty, this subject thinks that Liu Ziyu can be the commander!"

The entire imperial court fell silent.

No one expected Lin Yi to say something like that. Sima Yunfei and Sima Yunyun both had the same thought. Was he crazy?

"Zhong da, Ziyu doesn't have much research on military operations, but he's more skilled in poetry. Although he has also cultivated, he's not very strong."

Sima Yun got up and coughed lightly. He reminded his son in a low voice, ""When you go to war, you can take Ziyu with you and let him be a Secretary or counselor. That's not a problem. But to lead an Army ... It's a little too much for him!"

Military affairs were not child's play. At first, si Ma Yun did not consider too much about personal gains and losses. He was only worried about Liu Ziyu and the impact his failure would have on Hongshang Commandery.

Lin Yi raised his hand, giving Sima Yun a reassuring look, "Although Liu Ziyu didn't have many opportunities to show off in the war at the northern border, he's not completely clueless about military affairs. I believe that he can complete this expedition!"

Chapter 7825 The End

Sima zhengxin smiled. "Since the defender-general of the state has said so, then it's decided. Liu Ziyu will be appointed as the Conqueror general. He will lead twenty thousand Garrison troops to support the border."

"Along the way, you can recruit troops, provisions, and materials, and have the power to make decisions on the spot ..."

Liu Ziyu's expedition this time was a replica of Lin Yi's expedition to seitong Commandery.

However, in terms of authority, it would be slightly weakened, and there would be an official Army supervisor to follow the Army.

"Your Majesty, I recommend a few generals to assist general Liu Ziyu. Pingbei general Wu yucao, Fubo general Jin Yuanbao, rebellion general Zhang Yiming, Zhaowu General Li Yingjian, divine shooting general Ling Hanxue, and Minfeng will increase the military expenditure!"

"These generals have all performed well in the war against the seitong Commandery. I'm sure they will perform well in this battle with general Liu Ziyu."

Lin Yi was giving his entire team to Liu Ziyu, except for song shaopeng's personal guard.

The guards unit was considered Lin Yi's personal army and they couldn't leave his side easily. Unless there were special circumstances, they only listened to Lin Yi's orders.

"It's approved!"

Sima zhengxin nodded readily. This was a good thing and there was no reason to object.

He knew that the people Lin Yi had recommended were all his trusted aides.

If he could use this opportunity to continue expanding his influence, there would only be benefits and no disadvantages in the future.

As for Wu yucao's position as the Pingbei general being one rank higher than Liu Ziyu's Conqueror general, it was not a big problem.

After all, Wu yucao was only a commoner, while Liu Ziyu was a relative of the king and had the title of Viscount.

Of course, Liu Ziyu's title of Viscount did not have a fief or a fief. It was just a title that represented his status as a noble.

However, it was this noble status that allowed him to easily become the commander and lead Wu yucao, who had a higher military position than him.

Sima Yunfei squinted his eyes at Lin Yi, but didn't object.

As long as Lin Yi didn't lead the Army, everything else didn't matter.

Liu Ziyu was leading twenty thousand of the capital's Garrison, and it was possible for him to transfer these people from the left and right camps, so in Sima Yunfei's eyes, Lin Yi's recommendation was unnecessary.

Lin Yi smiled-this wasn't a bad result. With Wu yucao and Fei daqiang following them, at least Liu Ziyu's life was safe.

As long as Liu Ziyu did not act arbitrarily and blindly, and everything was discussed after listening to the information, it would not be easy to lose this battle.

The main reason why Lin Yi agreed to let Liu Ziyu be the commander was that he wanted to train him to become a general who could take charge of a field.

In the entire third generation of the Sima family, not counting the imposter Lin Yi, there really weren't many who were talented.

At least in Lin Yi's eyes, Sima zhengxin's third generation disciples were basically all trash.

To put it bluntly, mud can't hold up a wall!

On the other hand, Liu Ziyu was still okay-Lin Yi was planning ahead, and felt that it was worth it to support him, which led to the situation just now!

"Pass down my order. The Army will set off immediately and rush to the front line at full speed to fight against the black charm Commandery Army!"

Sima zhengxin was also very straightforward. After he made a decision, he immediately carried it out.

Although they had not come to a conclusion last night, they were already making preparations for the expedition.

Now that the order had been given, the 20000 Garrison troops of the king's city could immediately be ready to set off.

In fact, most of these 20000 people were those who had just returned from the northern battlefield. Only a small number of them had come in to fill the gap ...

In terms of combat experience, these two groups of people were actually similar.

They had just returned, so they didn't need to do much preparation before they could set off.

The morale of these 20000 soldiers was quite high. They had won a great victory at the northern border, but they did not get any battle credit and had pitifully little credit.

It would be a lie to say that they weren't envious when they saw Lin Yi's personal guards rise to the top. They suddenly had the opportunity to go to war, and they were all clamoring to go into battle.

The order was carried out very quickly. This time, Sima zhengxin did not plan to hold any ceremony and directly sent Liu Ziyu and the others out.

If you want the ceremony, then come back in triumph!

Liu Ziyu didn't care. It wasn't easy for his dream to come true, so who had the time to care about these things?

Lin Yi only had time to send him off and give Wu yucao and the others a few instructions, telling them to assist Liu Ziyu with all their might and protect him.

Wu yucao and the others were still in their previous positions, each in charge of one area and cooperating well.

Other than the change in the Commander-in-Chief, the entire Army was basically the same.

Even their marching tactics were the same as Lin Yi's at the beginning, with Fei daqiang leading the rear to gather troops and supplies.

The only difference was that they didn't have Lin Yi this time, so the invincible Guards unit wouldn't appear.

Liu Ziyu obediently stayed in the middle of the Army and rushed with the main force. He did not dare to fight with the main force of the black magic Commandery with 800 people.

One against a hundred, this kind of thing, just listening was enough, he didn't need to personally try it.

Liu Ziyu had a clear understanding of his own abilities, and knew that he wasn't a general like Lin Yi who could surprise attack the enemy, so he obediently led the Army and moved quickly.

Before they arrived at the battlefield, they were ordered to rest and recover their physical strength to prepare for battle.

"Marshal! The heimei Commandery has a division stationed 30 miles away, with about 10000 people. They should be responsible for guarding and intercepting the reinforcements of our Hongshang Commandery. "

Ling Hanxue had personally come back to report that the distance of 30 li was not too far. It was already in the range where a battle could happen at any time.

"Thank you for your hard work, commander Ling! The scouts Battalion, continue to investigate and see if there are any other troops of the black charm Commandery lying in ambush around this Army. "

Liu Ziyu smiled and nodded politely at Ling Hanxue, then ordered solemnly, ""In addition, the Scout Battalion should increase the coverage of the battlefield. We can't let the scouts of the black charm Commandery discover our whereabouts!"

"Yes, sir!"

Ling Hanxue cupped her fists and bowed, then quickly left the central Army camp.

Because they were Lin Yi's trusted aides, Liu Ziyu's attitude towards them was always gentle and polite.

But neither Wu yucao nor Ling Hanxue would rely on their relationship with Lin Yi to be arrogant and domineering. They did what they had to do in work, and they would not disobey Liu Ziyu's orders.

"Vice Marshal Wu, order the Army to move out and form a formation fifteen li behind. Commander li will lead the cavalry to flank the rear!"

After Ling Hanxue left, Liu Ziyu began to give out orders in an orderly manner.

This time, the 20000 soldiers in the Royal capital's Garrison consisted of 4000 Black Spirit Ferghana horse cavalymen. As the commander of the forward strike Battalion, li Yingjian was directly appointed by Liu Ziyu as the commander of this cavalryman unit.

Wu yucao and Li Yingjian accepted the order. 20000 against 10000, no one thought it would fail.

Chapter 7826

Lin Yi had brought 800 cavalymen and crushed an Army of 100000. How could they lose when they outnumbered them?

At the same time, at the central junction of the two armies, there was no need for Ling Hanxue to send an order. Both sides had already started a battle of Scouts.

Similarly, when a small scout team of six people discovered each other, no one chose to retreat. Instead, they tacitly launched a charge!

A hundred steps!

The Scout from Hongshang Commandery stood up on his horse and used his legs to control the horse. He drew his bow and nocked an arrow in his hand. He calculated the speed of both sides and then released the bowstring.

These Scouts were the elites of the king's city's Garrison, and their riding and shooting skills were quite strong.

Under normal circumstances, the arrows shot by the six of them could cause at least three casualties on the other side, and the rest would be killed in a wave of attacks.

However, their opponents this time were the scouts from the black magic Commandery!

The six Scouts from the black charm Commandery were not flustered when they saw the six arrows flying towards them.

Their left arms stretched forward and bent, and pieces of metal armor quickly spread out on their armors, instantly forming a round shield that protected the front of their bodies. It also provided some defense for the Black Spirit Ferghana horses they were riding.

As they opened the round shield with their left hands, their right hands were not idle either. They each pulled out a crossbow from the side of the horse and placed it on the side of the round shield, aiming at the scouts of Hongshang Commandery who were rushing towards them.

In the blink of an eye, the two sides were 60 steps away. The arrows of the scouts from Hongshang Commandery fell, but they could not penetrate the round shields of the scouts from black charm Commandery.

The only arrow that managed to avoid the round shield hit a Scout's shoulder, but it was blocked by his pauldron!

After a few crisp clanking sounds, the Scout of the black charm Commandery was not affected at all. He pulled the trigger of the crossbow on his right hand.

Six crossbow arrows shot out like lightning. As the two sides rapidly closed in, this distance was enough for the crossbow arrows to exert their greatest power. As long as they hit, they would basically be bloody holes.

The scouts from Hongshang Commandery did not panic. Almost at the same time that the other party raised their crossbows, they had already made evasive movements and changed their bows and arrows to swords.

The cold blade blocked the Black Spirit Ferghana horse's path, preventing the crossbow bolts from attacking the horse.

All of this happened in the blink of an eye.

Six crossbow arrows flew over. Three of them swept past the back of the Scout who was crouching low. Two of the crossbow arrows that were aimed at the Black Spirit Ferghana horse were cut off by the blade, and the last one was not intercepted and directly pierced through the chest of the Black Spirit Ferghana horse.

Under the huge inertia, the Black Spirit Ferghana horse neighed and slid to the ground. The Scout on the horse's back was unable to escape in time and was crushed under the rolling Black Spirit Ferghana horse.

It was impossible for his comrades to save him at this time. In order to maintain the charging formation, they could only harden their hearts and step over.

The black charm Commandery had gained the upper hand in the first round of confrontation!

There was no time for a second shot after the first shot.

The two sides were so fast that they were already 30 steps away. The scouts from the black charm Commandery let go of their crossbows and let them fall to the ground. They then drew out their swords.

The remaining five scouts from Hongshang Commandery let out wild roars. They straightened their bodies from their horses, twisted their waists, and slashed down with all their might.

In terms of equipment, even the elite of the garrison of the king's city could not compare to the Army of the black magic Commandery.

However, in terms of individual courage, the black charm Commandery's Army was not worth mentioning.

Five against six, both sides did not retreat. They collided together!

The two Scouts from Hongshang Commandery were very precise. They used the force of the Black Spirit Ferghana horse and directly cut through the gap in the armor of the other party.

The moment they brushed past each other, they took two heads.

However, the other three had some problems. One of them was a little slower and was hit by the other party first, falling off his horse and dying.

One of them exchanged a blow with the other party, but when he passed by, he was stabbed by the other party's extra person. He was caught off guard and his left arm was cut off.

The other one struck the enemy's shoulder armor. Although he managed to break the armor with the help of the horse's power, the blade was stuck in the shoulder armor and could not be pulled out.

The scouts of the black charm Commandery were also ruthless. Their combat power might be slightly inferior, but they were very brave at this time.

He grabbed the blade with his left hand and let the blade rub against the wound on his palm and shoulder armor. With a sinister smile, he slashed at the enemy.

In a flash, the Scout from Hongshang Commandery decisively abandoned his knife and rushed out with the Black Spirit Ferghana horse. However, he did not expect that the man from heimei Commandery would chase after him and cut a big hole in his waist.

It had to be said that the black charm Commandery's equipment was at least one grade better than that of Hongshang Commandery.

Their knives could easily cut through the armor of Hongshang Commandery, and the scouts of Hongshang Commandery could not even cut off the man's shoulder with the help of their horses.

Both sides charged forward for a few dozen steps before turning around and launching a new charge.

In the second Battle, two people from the black charm Commandery died and one was injured, while one person from the Hongshang Commandery died and two were injured. They were basically tied.

Although the heimei Commandery had lost one more person, their injured people still retained at least 70% of their combat power. As for the two injured Scouts from Hongshang Commandery, it was hard to say if they could even retain 50% of their combat power!

"Kill!"

The leader of the scouts from Hongshang Commandery did not waste any time. He shouted in a low voice and continued to charge with his sword.

The two injured men didn't even care about their wounds and followed up with their blades.

This time, the two sides collided, causing both men and horses to fall. In the end, everyone fell off their horses.

It was just a battle between these few people, but it had a tragic aura.

The two injured Scouts from Hongshang Commandery knew that their combat effectiveness had been greatly reduced. Therefore, the Scout who had a wound on his waist and his internal organs were flowing out simply ignored them and hugged the strongest one in front of him tightly.

The one without the left arm took the opportunity to kill the most powerful enemy.

The two injured Scouts from Hongshang Commandery did not live long either. They were killed by the enemy almost at the same time!

The remaining two Scouts from Hongshang Commandery joined forces and killed one of them. Then, they turned around to deal with the two remaining Scouts from the black charm Commandery.

At this time, the advantage of equipment had been weakened to the extreme, and the two sides were competing with their own combat power and skills.

The Scout Camp wasn't Lin Yi's personal guard Camp and didn't receive much training from Lin Yi, but they had learned the most basic battle formations.

When the two of them joined forces, they didn't need to use too much of their strength. Any advantage they had was enough to turn into victory!

Very quickly, the battle was over!

All the scouts from the black charm Commandery were killed, and four from the Hongshang Commandery were killed.

Although it was a victory, it was only a Pyrrhic victory.

This encounter was only the beginning. More Scouts had begun to fight in other directions. Both sides had wins and losses, and no one had an absolute advantage.

Ling Hanxue began to send more people to the front lines, but the situation did not improve.

Chapter 7827

The people of the black charm Commandery also began to send more Scouts. Although they could not detect the movement of Liu Ziyu's main force, they were not at a disadvantage in the Scout battle.

The main forces of both sides finally met face to face after two hours. It was 20000 versus 10000. The black charm Commandery was not afraid at all and took a head-on stance.

"General, the troops of the black charm Commandery are a little strange. They are facing two times their number of enemies, but they did not retreat immediately. Are they confident or are they plotting something? We have to be on guard!"

As the military counselor, Jin Yuan Bao naturally had to give his own suggestion. "The cavalry has outflanked us from the side. There's no ambush. I suspect that they have a large number of long-range weapons in their Army, which is why they are so calm!"

What was the most famous weapon in the black charm Commandery?

The armor-piercing crossbow!

This unit did not seem to have large armor-piercing crossbows, but it was not troublesome to carry a batch of simplified armor-piercing crossbows.

Of the two thousand people who ambushed Lin Yi, they only brought one thousand simplified armoring-piercing crossbows, which ended up benefiting Lin Yi and the city guards.

If there were 3000 to 4000 of these armoring-piercing crossbows in this 10000-strong Army, it would be enough to pose a fatal threat to Liu Ziyu's Army.

"What the military counselor said makes sense, but in the current situation, we're like an arrow on a bow. We have no choice but to fire!"

Liu Ziyu also understood the dangers involved.

The problem was that as the commander of the reinforcements, he led 20000 elite soldiers of the garrison of the king's city. If they did not dare to attack the 10000 people of the black charm Commandery, then how could they help?

He should just go back to the capital and change Lin Yi!

Jin Yuan Bao also understood this, so after doing his part, he did not say anything more.

The 10,000 infantrymen of Hongshang Commandery formed a square formation and slowly approached the black charm Commandery's Army.

The 4,000 cavalymen on the flanks took an arc and were already prepared to charge at the enemy's side.

The battle was about to start!

The Army of the heimei Commandery was as still as a mountain. They just quietly watched the guards of the imperial capital of Hongshang Commandery approach.

When the two sides were about two li apart, the soldiers in the front row suddenly knelt down in an orderly manner. From their shoulders, the arrows of the armor-piercing crossbows emerged.

Two thousand!

A total of 2000 armor-piercing crossbows were aimed at the formation of Hongshang Commandery!

Compared to the ambush on Lin Yi's Army, there were more armoring-piercing crossbows this time, and the two sides were closer, so their power was naturally stronger!

Each unit of the armor-piercing crossbow had six arrows, and it did not take long to replace them. Therefore, if they wanted to break through this distance, the 10000 infantrymen of Hongshang Commandery would have to withstand at least 50000 to 60000 arrows!

"Shield!"

A melodious shout came from the infantry of Hongshang Commandery.

The soldiers at the front spread out their retractable shields to form a shield wall, while the soldiers at the back raised their shields to protect themselves from the arrows falling from above.

The orderly shield wall continued to advance. The square formation of ten thousand soldiers was like a moving steel fortress, advancing forward fearlessly.

The general of the black charm Commandery sneered.

Two li was already the maximum range of the armor-piercing crossbow, so he waved his arm without hesitation and gave the order to attack.

Wave after wave of armor-piercing crossbows were like a dense swarm of bees, directly cutting through the distance between the two armies in a flat manner, and crashing into the shining shield wall with a loud bang.

The originally neat shield wall was instantly torn apart, and the huge kinetic energy penetrated the shield and continued to penetrate the bodies of the soldiers behind it. If it wasn't for the shield, the armor-piercing crossbow would have penetrated at least three to five soldiers before it was exhausted.

In the blink of an eye, the front line of Hongshang Commandery's formation was stripped and the number of soldiers killed exceeded 500!

"Shield!"

The soldiers in the second row suddenly threw down their shields, forming a second shield wall, and the comrades who were Dead or Alive in front of them became the buffer for the second shield wall!

The crossbow arrows did not stop and continued to shoot.

The first row of soldiers, along with their shields, were shot into rags, riddled with holes and completely shattered.

The second row of shield wall was about to follow suit, and the soldiers in the third row were ready to form a new shield wall.

Liu Ziyu's face was livid. In the face of the dense mountain armor-piercing crossbows, the soldiers of Hongshang Commandery could not advance at all.

If this continued, the 10000 elites of the king's city garrison would probably be completely annihilated before they could even get close to the enemy.

"Retreat!"

Liu Ziyu was very decisive. The current casualties were still acceptable, but if they continued to persist, they would really be finished!

Hearing the signal to retreat, the infantry formation still retreated slowly, but the black magic Commandery did not give up.

The range of the armor-piercing crossbows continued to extend, and at the same time, the formation began to move forward slowly. They actually wanted to bite Hongshang Commandery to death and swallow the 10000 troops in one bite!

"Cavalry, attack from the back and cover the infantry!" He ordered.

Liu Ziyu continued to give orders. Originally, he wanted to use the cavalymen to kill the enemy while he was at it, but now, they could only be used as a tool for harassment.

On the side, li Yingjian received the signal and led the cavalry to the rear of the black charm Commandery's formation.

However, when they were three miles away from the enemy, the black charm Commandery's formation quickly changed and revealed another one thousand armor-piercing crossbows!

The Black Spirit Ferghana horse was too fast. The black charm Commandery did not dare to let li Yingjian's cavalymen get too close, so they had already started to fire the crossbow arrows.

This gave li Yingjian and the cavalymen some time to react. If they were to launch the attack only when they were within two li of the enemy, more than half of the four thousand cavalymen would have died!

"Retreat!"

Li Yingjian wasn't a braver man. Facing such a formation, he quickly ran in an arc and led the cavalry around the armor-piercing crossbows.

The armor-piercing crossbows that were shot out did not cause too many casualties to the cavalry, which was already a blessing in the misfortune.

Moreover, with li Yingjian's harassment, the people of the black charm Commandery stopped their pursuit and did not continue to chase the infantry of the Hongshang Commandery.

However, the armor-piercing crossbows did not stop. They continued to kill the infantry of Hongshang Commandery.

By the time the two sides finally left the battlefield, more than 2000 people in Hongshang Commandery had died and less than 1000 were injured. The number of deaths was more than twice the number of injured people. It could be seen that the attack of the armor-piercing crossbow was terrifying!

An ordinary Army would be on the verge of collapse if the casualty rate reached thirty percent in a short time.

The fact that this infantry square formation of the capital's guards could still retreat in an orderly manner and finally leave the battlefield was enough to prove its degree of elite.

However, such an elite army could only take a beating without the ability to fight back. The two sides did not even have the opportunity to fight in close combat!

Liu Ziyu's Army had fought the black magic Commandery for the first time, and the black magic Commandery had zero casualties!

A great defeat!

Lin Yi's prestige in the selenbronze Commandery was almost destroyed in one day!

When the news was sent back to the capital, the entire court was in an uproar!

Chapter 7828

20,000 versus 10000, with 3000 casualties and no one from the other side dying!

This sort of result was almost the same as Lin Yi breaking a hundred thousand with eight million.

When did the black charm Commandery become so powerful?

"Father, your son is ashamed! He recommended the inhuman, which led to this great defeat!"

Sima Yunfei's voice was full of emotion and tears as he said, ""Your son is guilty! I really didn't expect that Liu Ziyu would be so incompetent. He led the defender-general of the state to defeat the troops of seitong Commandery and achieved such a shocking battle record. I think that we should immediately capture him and bring him back to the capital for interrogation! To thank the world!"

Sima Yunfei didn't really care about Liu Ziyu. He only used him as a tool to attack Sima Yunqi.

"Hehe ... Your Highness, if you don't know better, you'll think that general Liu Ziyu has killed 300000 people in one battle, and Hongshang Commandery has no available soldiers!"

Lin Yi had a cold smile on his face. After retorting Sima Yunfei, he turned to Sima zhengxin and cupped his hands, ""Your Majesty, victory and defeat are common in the military. General Liu Ziyu's defeat has nothing to do with strategy or tactics, and has nothing to do with the combat power of the soldiers. The only thing related is the difference in equipment between the two sides!"

"When faced with an Army equipped with thousands of armors and crossbows, unless we appear at the edge of the enemy's formation as soon as possible or fill in the gap with ten or ten times more people, it will be very difficult to break through the formation set up by the armors and crossbows."

"If it were any other general in this situation, they wouldn't have been able to do any better! If general Liu Ziyu is to be blamed for this, who would dare to fight for the country in the future?"

Lin Yi's information was more detailed and detailed, so he already had a plan in mind. Sima Yunfei didn't have anything to say to refute him.

"Our Army has the fortifications and the black magic Commandery has sharp weapons, but they can't break through our city in a short time. With the arrival of the surrounding reinforcements, they also have an advantage in numbers. At this time, as long as we hold the city, the black magic Commandery will return without any success!"

"Hahaha, is the defender-general of the state afraid? We have the advantage in numbers, but we are still being suppressed in the city. How can we have the confidence to talk to the black charm Commandery in the future?"

First lieutenant Feng ruoting stepped out and said, "this old official believes that Liu Ziyu is indeed guilty. If he had only brought an ordinary Army, it would have been fine. It wouldn't be a big problem even if they were defeated." But he is leading the elite of the capital's Garrison!"

"If there's no punishment, how can the public be convinced?"

Lin Yi looked at Feng ruoting, Sima Yunfei, and the others, and sneered in his heart. In order to strike down the dissidents, they really didn't want Bilian anymore!

"Your Majesty, this battle must be fought! Although we lost, it wasn't to the point where we were completely wiped out. Moreover, the reason was also due to the equipment of both sides, so you can't blame general Liu Ziyu. "

Lin Yi was determined to protect Liu Ziyu-he couldn't let anyone stab him in the back, no matter what. "It's a military taboo to change the commander before the Army. Besides, the equipment of the black charm Commandery is really excellent. If this problem is not solved, no one will have a good result."

"According to the intelligence, the black magic Commandery used to forge their own equipment. The armor-piercing crossbow was one of their weapons. But it seems that something has changed recently. Some of the weapons and armor seem to be purchased from outside."

"I have arranged for people to investigate this matter. If we can obtain the purchasing channels of the black magic Commandery and change our Army's equipment, the black magic Commandery will certainly be no match for our Army with the same equipment."

Lin Yi's information was obtained from Zhang Yiming's tingfeng Hall. After Yunying city expanded, Zhang Yiming's tingfeng Hall had a great development.

It was not difficult to get this information. The difficult part was to find the source of the equipment in the black charm Commandery!

Fortunately, Lin Yi had given Fei daqiang an order. Fei daqiang followed the tingfeng camp and sneaked into the black magic Commandery to find the source of the equipment. Then, they would negotiate immediately.

When Lin Yi was arguing with the other people in the Imperial court, Fei daqiang had already found a weapon supplier for the black magic Commandery with the help of the windlistening camp.

Central cooperation Chamber of Commerce!

This central business Alliance was not located in the capital of the black magic Commandery, but in a Mountain City near the border of the Hongshang Commandery.

This place produced some high-quality ores, which was similar to Yunying city, so the central Chamber of Commerce directly built an Arsenal here.

Only cold weapons, armors and armors were sold to the black charm Commandery. There were no hot weapons for sale at all.

The black magic Commandery did not know if they had other weapons and equipment. Anyway, what they could purchase was enough for the black magic Commandery to use, so it did not matter.

Fei daqiang sneaked into the central cooperative Chamber of Commerce and even deliberately disguised himself ...

In fact, no one knew him at all, so it didn't matter if he was in disguise or not!

"Is your boss here? I'm here to discuss some business!"

Fei daqiang thought that his disguise was flawless. After entering the central Chamber of Commerce, he casually sized it up, grabbed a worker, and whispered, ""Big business! Hurry up and get your boss here!"

The shop assistant looked at Fei daqiang suspiciously. He felt that this person was a little suspicious, but he didn't have any evidence, so he couldn't say anything.

"Sir, we only do retail here. Each person can only buy one set of equipment at most. There's no big business here!"

The shop assistant broke free from Fei daqiang's palm without a sound.

Fei daqiang didn't care. Otherwise, this shop assistant wouldn't be able to escape from his evil clutches even if he was beaten to death.

"Is your shop that strange? You don't even want to do business, big business!"

Fei daqiang pouted and glanced at the weapons and equipment in the shop. ""What profit can we make by selling them one by one? I'll make a deal with you, and you don't have to open your door for three years. "

The waiter's eyes immediately became alert, and the smile on his face gradually disappeared. ""Are you from the black charm Commandery?"

As he said this, the shop assistant looked around carefully to make sure that there were no other people nearby before he lowered his voice further. "Our central cooperative Chamber of Commerce has branches in various countries, so we don't want to offend people from other countries."

"But in this place, because of the agreement with the royal family of the black magic Commandery, the large-scale trade will only supply the military of the black magic Commandery, and the best products. The retail is actually low-quality defective products, and there is a rule that everyone has to buy limited products. "

"Sir, that's all I can say. I'm telling you this because I don't want our cooperation with other countries to be affected. I won't ask where you're from, please leave!"

How could Fei daqiang just leave like this? he quickly grabbed the shop assistant's arm and said, "Don 't! Isn't it fine to cooperate with any company? Don't you think so? Whatever the black charm Commandery can offer you, we can give you, and even better!"

Chapter 7829

"How about this, you call your boss out and we'll talk face to face. Maybe he'll agree to do business with me?"

"Impossible! You'd better give up on this idea!"

The shop assistant said firmly, not leaving any room for negotiation. "Our central Chamber of Commerce is a trustworthy business! Since he had already signed an agreement with the black charm Commandery, he would not violate it! It doesn't matter what conditions you can offer, be it double, three times, four times, or even ten times, it's all useless!"

"Hey, I say, why is your little buddy so stubborn? You're not in charge, so how do you know if your boss will have other thoughts ..."

Fei daqiang still wanted to persuade him, but the shop assistant directly raised his hand and interrupted him.

"Customer, there's no need to say anymore. Rules are rules. No one can force us to do what our central Chamber of Commerce doesn't want to do! You should leave now, or the soldiers of the black magic Commandery will come to capture you soon!"

Fei daqiang disdainfully curled his lips. Is your Grandpa Fei someone who's afraid of being surrounded? Do you believe that I, your father, will be able to surround and capture an entire city's Army by myself?

He was smug in his heart, but it was of no help to the situation.

Fei daqiang really wanted to use force to do something big, but the storage bag Lin Yi gave him had limited space, and it was filled with all the treasures he'd collected before. He really didn't have any space for these worthless pieces of equipment.

Moreover, the central cooperation Chamber of Commerce ... Fei daqiang really didn't dare to act rashly when it came to matters related to the central.

He'd been with Lin Yi for a while now, and he had a good understanding of central.

"Alright, you win! I'll go back first today. Next time I come, I'll make sure you'll invite me in with great respect!"

Fei daqiang said a few words and left the central Chamber of Commerce helplessly.

Previously, he had made a lot of money in his business, so Fei daqiang was a little arrogant. He felt that he would be successful in every endeavor.

He didn't expect that he would be defeated so quickly!

There was no other way. Boss had to come out and settle the trouble!

Fei daqiang quietly returned to the territory of Hongshang Commandery and immediately sent the details back to Lin Yi with a Messenger Eagle. He then waited for Lin Yi's reply.

Lin Yi wasn't surprised at all when he received Fei daqiang's message. Central's shadow was everywhere!

It was no wonder that the equipment of the team from the black charm Commandery had improved so much. It was already good that the central government did not produce some machine guns and missiles for the black charm Commandery.

Of course, the body-refining martial artists on the sub-Island had strong bodies. If it were ordinary firearms and bullets, they might not be more threatening than the armor-piercing crossbow.

Perhaps this was one of the reasons why central didn't launch firearms.

After all, the technology at the center of the sub-Island was not advanced. It was at least 20 years behind the technology of ordinary countries in the secular world.

It was easy to know that the central Chamber of Commerce was supporting the black charm Commandery.

Lin Yi quickly replied to Fei daqiang and went to find Sima Yunqi to inform him that he would be leaving the capital for a while.

With Central's involvement, Lin Yi didn't feel at ease leaving his men at the front lines, so he had to go and watch over things in secret.

He couldn't let anyone else in the capital know about this, so he needed Sima Yun's cooperation.

Si Ma Yun was the one who came up with the excuse that he was sick, and no one could say anything.

Lin Yi's plan to leave the capital aside, the messenger Eagle quickly brought Lin Yi's reply back to Fei daqiang.

Fei daqiang excitedly opened the envelope. When he took out the letter, a black card fell out.

What the hell?

Fei daqiang didn't bother to look at the reply. He first took the black card in his hand and looked at it several times. No matter how he looked at it, it looked like a bank card from the secular world.

What did he mean by 'thigh'? Use money to buy it?

Fei daqiang was secretly puzzled and quickly looked at the reply.

In the end, the reply was also very simple. The general idea was to take this black card to the central Chamber of Commerce to buy equipment.

As expected, he was using money to smash it!

Fei daqiang nodded. If the thigh said so, then there must be a reason!

As the saying goes, money can make the devil turn millstones. If money can't do it, it must be because the money wasn't given enough!

But then again, could a bank card from the secular world be used here?

Fei daqiang looked at the black card and thought to himself that his thigh was powerful. If he did what his thigh said, he would definitely be right!

Without saying anything, he continued to disguise himself and sneaked into the border of the black charm Commandery. He entered the central cooperative Chamber of Commerce with familiarity.

"Dear Customer, why ... Why is it you again?"

The shop assistant was still the same as last time. As soon as he came up to greet Fei daqiang, he frowned and straightened his back with a slight displeasure, "I've already made myself clear last time, please don't make things difficult for me!"

Fei daqiang was a little confused. The disguise this time was different from the last time. How could you recognize it at a glance?

Sure enough, your master Fei's peerless charm can't be hidden no matter how you disguise it?

Thinking of this, Fei daqiang was happy. He clenched his right hand into a fist and coughed lightly, then said with a little reservation, ""Since you've recognized it, I won't waste any more time. Call your boss out. There's a big deal!"

"Hey, hey, you, don't you understand human language? Our family will not do business with you! Please leave! Don't force us to do it. If we really offend the people of the black charm Commandery, you and the people behind you will be embarrassed!"

The Associate from the central Chamber of Commerce was very unyielding. Last time, he had been polite and said a lot of things, but this time, he wanted to drive them away directly. "You'd better understand that this is the city of the black charm Commandery. Once the people of the black charm Commandery get involved, you might not even be able to leave!"

"Hey, are you the one in charge here? Can you make the decision here?"

Fei daqiang frowned slightly and glared at the shop assistant with some displeasure, ""If you can't make the decision, then don't talk nonsense here! This is such a big central cooperation Chamber of Commerce, is there no one who can talk nicely?"

The shop assistant was also furious. What kind of people were these?

You really don't understand human language, do you?

Alright, then let's stop talking!

"Brothers, someone is causing trouble. Hurry up!"

The shop assistant turned around and called out. Immediately, more than ten shop assistants and guards rushed out. All of them stared at Fei daqiang with unfriendly eyes.

Although they were not strong, they could attract the guards of the black charm Commandery if they caused a scene. Then, they would be in big trouble!

With Fei daqiang's strength, it would definitely not be a problem for him to escape, but escaping would not solve the problem!

Without the equipment of the central Chamber of Commerce, the war between the Hongshang Commandery and the black charm Commandery could not be carried out fairly!

At this time, he could only believe in the magic of his thigh!

Fei daqiang didn't say anything. He took out his black card and threw it at the waiter's face.

The shop assistant was furious. Who was this person!

Isn't he too arrogant?

How dare you hurt people with hidden weapons in our shop?

"Brothers, beat him up! Go to hell ... Wait!"

The Furious shop assistant was about to call his friends to kill Fei daqiang, so he pulled off the black card on his face and was about to throw it back at Fei daqiang.

Chapter 7830

However, when he took a quick glance, he suddenly realized that something was wrong!

This ... This ... Isn't this the legendary Supreme VIP card of the central Chamber of Commerce?

The waiters and guards on the side didn't see what Fei daqiang had thrown at their faces, but they had already rushed up one by one.

Fei daqiang was considering whether he should shake his body and kill a few insensible things first before talking about other things.

Then, the man with the black card in his hand suddenly changed and rushed in front of Fei daqiang with a smile on his face. He opened his arms and blocked his friends behind him.

"My Lord! Aren't you deliberately making fun of me? After all that, they're family!"

The shop assistant bowed to Fei da Qiang and respectfully returned the black card with both hands. Then he turned around and waved to his friends, "Let's go, it's all a misunderstanding! Sir, please come in. I'll go and invite our shopkeeper to come out and personally negotiate with you!"

"Of course, if you're in a hurry, you don't have to wait for our shopkeeper. If you need anything, just tell me. I'll make a list and hand it to you when I get it from the warehouse!"

Fei daqiang looked up at the sky at a 45-degree angle and snorted coldly, ""Didn't you say you don't want to do my business? Why are you so polite?"

Although he said that, he was actually very happy in his heart. As expected, he was a thigh!

He didn't even need to show himself, and any random card would make that snobbish fellow slap himself in the face.

It was said that money made the devil turn millstones!

He just didn't know how much money was in the black card. Just showing his face was enough to scare people.

"You're joking! Of course, we won't do business with you, Sir system. If you need anything, just take it. As long as we have it, we will give it to you for free. How can this be considered doing business?"

The shop assistant bowed and led Fei daqiang inside while continuing to say with a smile, ""This is just a small place. We only supply cold weapons and equipment for the black charm Commandery. We don't have anything good. You can have whatever you want. Aren't you slapping us in the face by talking about money?"

Fei daqiang was dumbfounded. So this kid didn't faint because of the money, but because of the black card?

If you don't want money, just take it? There was such a good thing!

Then what will your Grandpa Fei take? Or take it? I'd better take it!

It was rare for him to be so enthusiastic, and it would be disrespectful to refuse! I can't waste his good intentions!

"Let's go to your warehouse first!"

Fei daqiang felt that he should strike while the iron was hot and quickly settle this matter.

At this time, he was not in the mood to sit down for tea and snacks, so he directly proposed to go to the warehouse to see the goods.

Normally, miscellaneous people would definitely not be allowed to enter the warehouse of the central cooperative Chamber of Commerce. Although Fei daqiang said this, he was actually a little nervous in his heart. He was afraid that he would be rejected and it would not look good on his face.

In the end, the waiter didn't hesitate at all. He tilted his foot and changed his direction slightly. "No problem, this way please, Sir!"

Fei daqiang felt great this time. He arrogantly grunted and followed behind the shop assistant with his hands behind his back.

The other workers and guards had also seen the appearance of the black card at this time. One by one, they stood respectfully to the side and saluted Fei daqiang.

This wave of acting cool was absolutely satisfying!

Fei daqiang was about to fall in love with this feeling. He finally reacted and knew that the black card given by his thigh was not simple. It was a divine tool for acting tough!

Sure enough! There was absolutely no mistake in following someone's thigh! Wherever he went, he could happily act cool and handsome, and his mood was so good!

Soon, Fei daqiang followed the waiter to the warehouse.

Originally, the guard didn't have the authority to enter, so the guard didn't care about him at all. However, after seeing Fei daqiang's Black card, the guard immediately bowed and retreated, obediently opening the door.

Happy!

Fei daqiang had a faint smile on the corner of his mouth. Under the respectful eyes of the guards, he slowly walked into the warehouse. Inside, there were rows of neat, multi-layered steel shelves, which were stacked with various kinds of equipment.

At first glance, it was similar to the storage companies in the secular world, except that there were no modern forklifts.

Moving things here all relied on manpower. It was also thanks to the sub-island's body refining martial artists who had a lot of strength, otherwise it would really be inconvenient.

"My Lord, the equipment in this warehouse is specially designed for the Army of the black magic Commandery. It is of much better quality than the ones sold in the stores outside. What do you need?"

Fei daqiang casually glanced around. To be honest, when he came in and saw this scene, he was somewhat dazzled.

However, he was still the commander of the rear Army and had a large amount of resources in his hands, so he did not show any expression on his face.

With so much equipment, not to mention the 20000 Garrison of the king's city, it would not be a problem to arm all the defenders of the cities at the border who were fighting with the black magic Commandery!

So ... Was there a need to see what he needed?

"Not bad! I want all the equipment here!"

Fei daqiang stretched out his finger and drew a circle around the warehouse, "You guys are in charge of delivering the goods to the door, right?"

The smile on the shop assistant's face froze. This was a ruthless man!

He didn't even leave any for others?

Not only did he take everything away, but he also wanted them to deliver the goods to his door ...

"What are you saying, Sir? of course, I'll take responsibility. Just tell me where to send it!"

There was no other way. Seeing the black card in Fei daqiang's fingers, which was like a butterfly, the shop assistant could only force himself to continue smiling. "As long as it's not too far away, we'll definitely be able to get there quickly!"

In fact, when he came to the black magic Commandery to buy equipment at this time, the shop assistant could probably guess Fei daqiang's background. He just didn't expect that this man would have a black card!

"Alright, then I'll leave it to you. Send these equipment to the border of Hongshang Commandery. Well, let's set the time to tomorrow afternoon. I'll give you more time to prepare."

Fei daqiang reached into his pocket and took out a map of the border between Hongshang Commandery and black charm Commandery. He opened it and pointed at a location. ""Here, right here! I'll wait here for you guys to bring the equipment over, is that okay?"

"No problem!"

The shop assistant was smiling, but he almost cried in his heart. He was indeed from Hongshang Commandery!

The heimei Commandery was at war with the Hongshang Commandery. If the heimei Commandery knew that the central Chamber of Commerce had secretly sent the weapons and equipment to the heimei Commandery, the friendship between the two sides would be overturned.

However, the central Chamber of Commerce had connections with the black magic Commandery, so it was not particularly difficult to transport a batch of goods out of the country.

As long as the contents of the delivery were not known to the black charm Commandery, it would be fine.

This was also the reason why the shop assistant agreed so readily. Otherwise, a small shop assistant like him would not dare to make such a decision!

"Alright, in that case, I'll go back and wait for you to deliver the goods to my door! Don't make me wait!"

Fei daqiang turned around and left. He was afraid that if he stayed any longer, he would suddenly ask for money again. That would be awkward.
