

## Bodyguard 7831

### Chapter 7831

Even as the commander of the rear Army, he could not afford to pay for such a large warehouse of equipment.

Come to think of it, why didn't he spend money to bring back such a large pile of equipment? why didn't he collect money from Hongshang Prefecture?

It felt like a loss!

Fei daqiang wasn't from Hongshang Commandery, so he didn't have any patriotic thoughts. He was only loyal to Lin Yi.

These weapons and equipment were obtained with Lin Yi's Black card, so they naturally belonged to the big boss. How could he let Hongshang Commandery take advantage of them?

He had to collect money!

Fei daqiang secretly nodded. This is called separating public and private interests. It is already a great merit to bring it back for the team of Hongshang Commandery. There is definitely no free service!

The problem was, how much should he ask Hongshang Commandery for the weapons and equipment in this warehouse?

Fei daqiang subconsciously glanced at the shop assistant beside him. He didn't know about the price of equipment, but he didn't dare to ask!

What if he asked for the price, and the other party was reminded to charge him?

'Forget it, forget it. I'll charge you a little higher than the price of ordinary military arms when I go back. A price of conscience!'

If Lin Yi were here and knew what Fei daqiang was thinking, he wouldn't know whether to laugh or cry. The things were still in the warehouse, but this guy was already calculating how much it would be worth to sell them.

This was an expert!

He was really playing with a White Wolf empty-handed!

By the time the person in charge of the central Chamber of Commerce rushed over, Fei daqiang had already waved his sleeves and left the mountain City quietly without taking a cloud with him.

The next day, at the agreed time, the central cooperation Chamber of Commerce successfully delivered a large number of weapons and equipment to the place designated by Fei daqiang and handed them over to him.

Fei daqiang didn't know how they transported such a large number of weapons and equipment out of the black charm Commandery, but it didn't matter.

The most important thing was that the item was now in the hands of Hongshang Commandery. Not to mention the other Garrison troops, the remaining 20000 Garrison troops of the king's city could be armed to the teeth.

"Armor-piercing crossbow! So it had already been improved! No wonder I felt so powerful when I was facing the team from the black magic Commandery last time!"

When Liu Ziyu received the equipment, he couldn't help but sigh. "The defender-general of the state seized 1000 armor-piercing crossbows from the ambush last time. They should be equipment that has been eliminated by the black magic Commandery, which is why they were transferred to our spies."

Wu yucao and the others nodded. They had also brought the one thousand armor-piercing crossbows they had seized with them, but they had not been able to use them in the last battle.

It was only then that he realized the difference between the new equipment and the new one.

After a little test firing, he could easily judge that the new armor-piercing crossbow had a great improvement in shooting speed, range, penetration and destructive power, which were basically 15 to 20% better than the original one.

Fortunately, he did not use the armor-piercing crossbow that he had seized last time. Otherwise, he would have died faster and more ...

"Commander Fei, you've made a great contribution this time. If the war with the black charm Commandery goes well, you'll be the main contributor! This general will definitely ask for a reward for you!"

Liu Ziyu was in a good mood and immediately made a promise to Fei daqiang.

"Liu Shuai, I don't care if you want me to claim credit or not. But I risked my life to sneak into the black magic Commandery and paid a huge price to get this batch of equipment. The rear Army's original funds were not enough, so I simply didn't use it."

Fei daqiang had already planned this out. This matter had to be clarified in advance, so as not to make it clear when he returned. "It's not a big deal to get equipment for our own team, but this team is not ours, right?"

"So, Liu Shuai, you understand what I mean, right? This batch of weapons and equipment will definitely be sold to Hongshang Commandery, but the cost can't be settled for the time being. Why don't you write me an IOU on behalf of the military?"

As Fei daqiang spoke, he prepared the ink and paper, then handed the pen to Liu Ziyu.

Liu Ziyu was speechless. You're doing business with your own family ...

No wonder this guy could double the supply of supplies when he was on the expedition to seitong Commandery!

If he didn't earn money, who else could?

"Alright! I definitely can't let you suffer a loss in this matter. I still have the authority to purchase armaments, so I'll write you an IOU right now!"

Liu Ziyu was also very straightforward. He picked up the pen and started to write. Fei daqiang stretched his head out to take a look, and was secretly satisfied with the amount.

After returning from the black charm Commandery, Fei daqiang learned about the price of the equipment in the black charm Commandery through tingfeng Hall.

Liu Ziyu's purchase price was far lower than the retail price of the central Chamber of Commerce, but it was much higher than the supply price to the black magic Commandery's military.

This was a result that both sides could accept. Fei daqiang was not prepared to say anything. Anyway, it was a free profit, so he should leave some benefits for his own people.

After Liu Ziyu finished writing, he took out his commander's seal and stamped it. This IOU would then officially take effect. After returning to the capital, Fei daqiang could take the IOU to Sima zhengxin to ask for money.

There was no need to worry about this matter. Liu Ziyu felt that Sima Zhengxin would probably wake up laughing in the middle of the night to buy the weapons and equipment of the black magic Commandery at such a price. He might even ask Fei Daqiang to purchase another batch.

"Alright! Liu Shuai was so forthright! Now that we have the equipment, is it time to teach the black charm Commandery a lesson?"

Fei Daqiang flicked the IOU with his finger. After happily putting it away, he began to be eager to fight, "I won't stay in the back of the Army this time. It's not easy to get the same weapons and equipment. I want to go with you to see the dumbfounded look of the black magic Commandery."

"Commander Fei is right. The black charm Commandery might not know that we have obtained the equipment. We can take this opportunity to catch them off guard!"

Wu Yucao nodded slightly and turned to Jin Yuan Bao. "Counselor Fang, do you have any good plans to make use of this opportunity?"

"The black charm Commandery has been provoking us. They think they are all high and mighty just because they have better equipment than us. So, if we go to war, they will definitely fight us head-on. We don't have to worry about them not going to war."

Jin Yuan Bao thought for a moment and had an idea. "In order to numb them, we must first hide the fact that we've obtained the equipment. We can't let them find out. This is actually very simple!"

"The front row will wear two layers of armor. The armor of the black charm Commandery is delicate and light. It should not be a problem to put on the armor of our Hongshang Commandery."

"The same goes for the shield. Pretend to be the shield of our Hongshang Commandery. In this way, the square matrix behind will be equipped with the weapons of the black magic Commandery. They will not be easily seen through."

"Before they feel that they have not lost their advantage in equipment, they will definitely underestimate their enemy. When our Army enters the shooting range of the armor-piercing crossbows, their shieldmen will probably not be on guard. At that time, tens of thousands of crossbows will be fired at once!"

Chapter 7832

Among the weapons and equipment that Fei daqiang had brought over this time, there were 10000 of the simplified armor-piercing crossbows.

It was a pity that there were less than 20000 people in the garrison of the king's city, and they could not use all of them. Otherwise, they could really launch a volley of 10000 crossbows.

In addition to the two-man-operated simplified armor-piercing crossbows, there were also 300 large armor-piercing crossbows.

The crossbow bolts alone were more than four meters long and about twenty centimeters in diameter. If they were used to attack a city, they could easily penetrate the city wall. If there were enough of them, it would not be a problem to blow down the city wall.

It was a pity that this kind of killing weapon was not suitable for mobile battles. They could not trick the team from the black charm Commandery this time, so they could only find another opportunity.

"Military counselor, your plan is very good! We'll act according to the plan!"

Liu Ziyu thought for a moment and did not find any problems with it. He immediately made a decision. "Commander Ling, take the cavalymen and flank the back. Find an opportunity to attack the black charm Commandery! Once the other party was defeated, they would immediately pursue and kill them. They could not let them off easily! This time, we're going to win!"

"Yes, sir!"

Ling Hanxue cupped her fists and accepted the order.

On the surface, the strategy this time was similar to the previous one, but the role of the cavalry was somewhat different.

By the time Ling Hanxue made her appearance, the battle would have already been set in stone. She would be in charge of taking the heads of the cavalry!

"Commander Li, you're in charge of commanding the main force this time. Grasp the appropriate distance and attack the enemy before they do. You must pay attention to this. You can't do it too early or too late!"

If they acted too early, the power of the armor-piercing crossbow could not be fully exerted. The commander would alert the enemy and give the team of the black magic Commandery time to prepare.

Not to mention that if they acted too late, the black charm Commandery would strike first and gain the upper hand. What was the point of fighting then?

After the discussion, everyone began to make preparations. The Army left the city and got into formation.

When the black charm Commandery saw Liu Ziyu leading the Army out of the city, they were overjoyed.

They had the advantage in equipment, but they weren't good at sieging cities, and they didn't have as many troops as the people in the city.

In order to avoid too many casualties and benefit copper Commandery, they had always wanted to send the Army of Hongshang Commandery out of the city to fight.

Now that they had gotten what they wanted, the team from the heimei Commandery cooperated and retreated a few miles to make space for the Hongshang Commandery. They were afraid that the other party would turn back to the city.

"Hahahaha! Those cowards in Hongshang Commandery can't hold it anymore and want to come out of the city to die!"

The general of the black charm Commandery laughed out loud, overjoyed. "It must be Hongshang Commandery that pressured them and ordered them to fight outside the city! Those face-saving Hongshang Commandery bureaucrats must not be able to stand the humiliation of being suppressed by our black charm Commandery at the border, so they would rather send their soldiers to their deaths!"

"The general is wise! Since those fools are willing to die, of course we have to fulfill their wishes!"

The Deputy general at the side smiled and cupped his fists. "Giving them some space to get into formation is definitely the general's brilliant move! By the time more of them arrive, it will be impossible to escape back to the city!"

"When the time comes, our Army will take advantage of the situation to pursue them. They definitely won't have time to close their city gates. Tonight, we should be able to rest in the city!"

Hearing this, the other generals nodded in agreement and praised their General's wisdom.

As for how many people from Hongshang Commandery came out, they didn't care at all. Anyway, no matter how many people came out, they would only be courting death!

The atmosphere in the black charm Commandery was relaxed. Although they had only deployed 20000 troops outside the city, they had never thought that they would be defeated in a field battle.

As the order was given, the team from the black magic Commandery began to retreat and stand in formation.

Their general wanted to defeat Hongshang Commandery in one fell swoop and seize the opportunity to take over the city.

However, orders often could not be understood and sent out in a very accurate and smooth manner. When reflected in the formation, it became a focus on offense and impact, but forsaking defense!

Liu Ziyu saw the black charm Commandery's formation from afar and was secretly happy.

The other party had indeed underestimated him!

Next, it's time for you to taste the price of underestimating your enemy!

The team from Hongshang Commandery went out of the city and got into formation as planned. From the black charm Commandery's side, there was nothing unusual.

It was still the same old recipe, a familiar taste!

But in fact, the soldiers they saw were still wearing their old equipment, while the troops behind them were all wearing the weapons and equipment sent by the central Chamber of Commerce.

That included six thousand armor-piercing crossbows!

Liu Ziyu had put almost all of the Royal capital's Garrison into this battle.

A total of 12000 soldiers were in charge of using the armor-piercing crossbows.

There were about a thousand shieldmen at the forefront, wearing two sets of armor and using double-layered shields.

Apart from that, the rest were cavalymen, split into the left and right wings, ready to attack from the side at any time.

The general of the black charm Commandery was obviously dismissive of this. The last time he defeated Liu Ziyu's Garrison, the situation was similar to now. However, at that time, the black charm Commandery only had 10000 people!

Now they had 10000 more troops, but the number of troops from Hongshang Commandery was even fewer than last time. So in the eyes of the general of the black magic Commandery, the victory was already decided without having to fight!

"What a pity! There are too few soldiers in Hongshang Commandery. Even if we divide them evenly, it's not enough for each of us to get one head!"

The crossbowmen of the black charm Commandery were very relaxed and joked in a low voice.

This kind of serious violation of military discipline was normally absolutely not allowed. However, the current situation was that the black charm Commandery, from top to bottom, was superior and looked down on the Hongshang Commandery.

Therefore, even if the senior officer discovered this, he didn't stop him. After all, this was a time to build up his ambition!

Everyone had the same thought. The people of Hongshang Commandery would not have a chance to get close. They would die on the way and escape!

"Advance!"

The troops from Hongshang Commandery began to leave the city in an orderly manner and lined up side by side. Under Li Yingjian's command, they steadily advanced forward!

The black charm Commandery looked at the front with ease and pride, as if they were looking at a group of lambs waiting to be slaughtered.

At this moment, the soldiers of the black charm Commandery did not even raise their crossbows as the Hongshang Commandery had not entered the range of the armor-piercing crossbows.

Because at this distance, the crossbow arrow couldn't hit the other party at all. Even if it could barely reach the other party, it wouldn't pose any threat!

What they were waiting for was for the group of idiots from Hongshang Commandery to make further progress!

Li Yingjian's face under the helmet was extremely calm, and his eyes seemed to ignore everything.

After moving forward for some distance, he suddenly shouted in a deep voice, ""Group One, get ready! Six consecutive shots!"

Before leaving the city, the team of Hongshang Commandery was divided into groups according to the number of armor-piercing crossbows. Each group had 1000 armor-piercing crossbows, and they were divided into six groups.

## Chapter 7833

Upon hearing the order, the first row of armor-piercing crossbows behind the shield wall raised their heads and began to fire at an angle of 30 degrees.

This distance was not the strongest range of the armor-piercing crossbow, so Li Yingjian did not use a powerful flat shot. Instead, he used a throwing shot.

The crossbows were pulled continuously, and the first group of armor-piercing crossbows shot out six bolts in a blink of an eye.

The 6,000 armor-piercing crossbows in the air flew towards the black charm Commandery's position. The dense air-piercing sound formed a terrifying whistling sound wave.

Screams of pain, panic, curses, and howls were all mixed together, like a call from hell.

The heimei Commandery's team had never expected that the Army of Hongshang Commandery would attack first!

Although they knew that the Hongshang Commandery had seized 1000 armor-piercing crossbows, they were just products that the black magic Commandery had eliminated!

In terms of shooting range, it could not be compared to the upgraded armor-piercing crossbow, because the shooting range and power of the new product were at least 15% stronger than the previous one!

"Sprint forward! Group two, Group Three, shoot at point-blank range!"

Li Yingjian gave a new order as soon as the first wave of attack from Hongshang Commandery was launched and had not yet reached the black charm Commandery's position.

The square formation of Hongshang Commandery began to accelerate. The first group of soldiers who had finished shooting all turned sideways to let their comrades behind them quickly pass through the gap, while they themselves changed to the back and continued to load the second group of arrows.

The shield wall at the forefront spread out a little, leaving enough space between each person for the second and third groups of armor-piercing crossbows to fire quickly.

It was only a little time difference, but the square formation of Hongshang Commandery had already run into the shooting range of the armor-piercing crossbow.

The black charm Commandery's formation was suddenly in chaos. They had been relaxed and were not ready to fight back at all. Of course, no one had the time to fight back.

The 12,000 armor-piercing crossbows were like brushes, sweeping away the black charm Commandery's formation layer by layer.

Blood and flesh flew everywhere!

Corpses were everywhere!

The black charm Commandery's formation, which lacked defensive preparation, seemed to have been hit in the head by a stick. While they were stunned, a large number of heads had already been taken.

Li Yingjian's face was emotionless as he continued to issue orders, "Groups four, five, and six, spread out and surround them. Fire at will!"

The remaining three sets of armor-piercing crossbows immediately spread out to the two wings, as if they had suddenly spread out two curved wings.

While they were moving, they kept shooting arrows at the formation of the black charm Commandery.

In addition, the first group had been reloaded, followed by the second and third group. The armor-piercing crossbows were fired from all directions like a swarm of locusts, covering the formation of the black magic Commandery.

In a short period of time, the Hongshang Commandery had fired nearly 100000 crossbow arrows, which covered the 20000 soldiers of the black charm Commandery.

Although the armor of the black charm Commandery's soldiers was of excellent quality, it could not withstand such a violent attack. More than 10000 of the 20000 people were killed without any resistance!

As for those who survived, almost all of them were injured.

A small number of soldiers of the black charm Commandery managed to react and began to launch crossbow arrows to counterattack, but it was useless.

Ling Hanxue's cavalymen also began to outflank them. The Knights who were good at riding and shooting also drew their bows and shot arrows when they got close, killing the soldiers of the black charm Commandery with precision.

The surviving people of the black charm Commandery had a mental breakdown. They cried, screamed, threw away their armor, and fled.

Unfortunately, no matter how fast they were, they could not outrun the armor-piercing crossbows and the Black Spirit Ferghana horses!

Completely annihilated!

The 20,000 soldiers of the black charm Commandery were all killed in just 10 minutes.

In the case where both sides had the same equipment, Liu Ziyu's side was able to fight a lightning-fast battle of annihilation!

On the side of Hongshang Commandery, there was no death, no casualties!

It was an absolute victory!

"Wan Sheng! Wan Sheng!"

The Royal capital's Garrison on the battlefield began to raise their weapons and cheer in unison. For a moment, the sound waves swept in all directions!

Ling Hanxue led the cavalry troops and began to deal the killing blows everywhere, while Fei daqiang gathered a group of auxiliary soldiers and ran to the battlefield to start cleaning up.

The more than 100000 armor-piercing crossbows that had been shot out must definitely be recalled. It was impossible to use these specially-made crossbow bolts as consumables.

The weapons, equipment, and armor-piercing crossbows of the dead soldiers of the black charm Commandery must be collected.

As long as they were not broken, they could immediately equip the teams from other cities.

If it was broken, he would repair it if he could. If he couldn't repair it, he could recycle it and use it as materials to reforge.

In any case, Fei daqiang was very happy at this moment. This was all the credit of the rear Army!

Lin Yi's essence spirit floated in the air above the battlefield.

Lin Yi had seen the entire one-sided massacre.

He had sneaked out of the capital city because he was worried about Liu Ziyu, Wu yucao, and the others. He was afraid that they would be at a disadvantage when faced with the excellent equipment of the black charm Commandery.

However, he did not expect to see such a bloody performance.

He could only say, well done!

Even if Lin Yi left Hongshang Commandery in the future, these people around him should be able to stay here and live a good life!

Just as he was sighing, Lin Yi's spiritual sense detected another troop from the black charm Commandery coming over. There were about ten thousand of them.

If Liu Ziyu and the others were immersed in their previous victory and let their guard down, then the sudden attack of these 10000 people would likely turn the tide.

Just like the battle just now, under the circumstances of having the same equipment, even if there was a difference in numbers, it was easy to gain an overwhelming advantage.

Lin Yi floated in the air, not bothering to warn Liu Ziyu and the others. He was here, and naturally, he could guarantee their safety.

However, if they let their guard down because of their own actions, then the necessary lesson still needed to be taught.

Only by suffering losses would he not repeat the same mistakes in the future!

Fortunately, as the commander of the Scout Camp, Ling Hanxue did not let her guard down. She led a cavalry unit, and other than delivering the last blow, she habitually sent out a portion of her troops to act as Scouts.

Whether it was to be used as a warning or to shield the battlefield, in Ling Hanxue's opinion, Scouts were indispensable. Then, she would get the reward she deserved!

The 10,000 troops from the black charm Commandery were caught by the scouts sent by Ling Hanxue before they even got close to the battlefield. The news was sent back immediately!

"Prepare for battle! The enemy has reinforcements. Let's do it in one go and destroy the enemy's reinforcements!"

Liu Ziyu raised his sword and shouted, ""Take advantage of the victory and pursue, directly attacking the yellow Dragon!"

Chapter 7834

"Kill, kill, kill!"

At this time, the morale of the garrison of the king's city was high. When they heard that the black charm Commandery's reinforcements had arrived, they all shouted excitedly.

The Hongshang Commandery quickly reorganized their Army and prepared to welcome the black charm Commandery's reinforcements!

At this time, the general of the black charm Commandery's reinforcement Army finally got the report from his own Scout when he approached the battlefield.

They knew that their 20000 allies had been completely annihilated by Hongshang Commandery!

"How could this be ... The soldiers of Hongshang Commandery are so powerful?"

The general of the reinforcements had an ugly expression on his face. If 20000 of them had been killed, then their 10000 men ...

He probably wouldn't be able to escape even if he wanted to!

The overall quality of the soldiers of the heimei Commandery was far inferior to that of the soldiers of Hongshang Commandery. They had also traveled a long distance. If they turned around and left now, they would most likely not be able to escape the pursuit of the Hongshang Commandery.

Since that was the case, he could only fight to the death!

"Pass down my orders!"

The general of the reinforcements gritted his teeth and shouted to the soldiers beside him, ""All soldiers, consume the medicine! If we can kill the enemy, then kill. If we can't kill the enemy, then retreat!"

Even if he wanted to fight to the death, this guy still didn't have much confidence, so he subconsciously said to retreat.

The medicine he mentioned was something he had just obtained.

They were the first batch of soldiers to receive the medicine. They had not had the time to test the effects yet. They had no choice now. If they did not take the risk, they could only wait for death.

The order was quickly passed down, and the 10000 soldiers did not hesitate at all. After hearing the order, they quickly took out a pill and stuffed it into their mouths.

"I hope it's useful!"

The general of the reinforcements sighed and swallowed a pill. If he was lucky, he might be able to keep his life.

These pills were said to be a new product developed by the central Chamber of Commerce.

To be honest, this general wasn't very confident.

In his heart, the central business Alliance was just a weapon and equipment business. What did it have to do with medicine?

If it wasn't for the fact that he was in a disadvantageous situation, he wouldn't have chosen to take the pill at this time. Who knew if he would be directly poisoned to death if he took it?

Lin Yi watched the scene from high up in the air, feeling a little strange. Taking medicine at the last minute ... Why did it feel familiar?

After taking the medicine, the general of the reinforcements was still nervous, not knowing what the effect would be.

Could it really be as the central business Association claimed, that he could obtain great power?

Or was he poisoned to death while struggling in pain?

It was not easy to be a lab rat!

However, after the pill entered his stomach, he immediately felt a warm current rising from his abdomen, and a powerful force spread.

The next moment, the weapon in his hand seemed to become as light as a feather. As he waved it casually, it brought with it unparalleled speed and power!

"Kill!"

The general of the reinforcements did not have time to be happy. He could not help but roar and point his long sword forward. He took the lead and rushed towards the formation of Hongshang Commandery!

The soldiers of the black charm Commandery behind him grew larger in size. Their muscles bulged, and their blood vessels bulged. They screamed with red eyes and followed their commander in a violent charge!

Li Yingjian's lips curled into a cold smile. This kind of meaningless charge in front of the armor-piercing mountain crossbow was simply suicide!

"Group one, two, three, level shots. Group four, 30-degree angle toss. Group five, six, two, 45-degree angle toss!"

Li Yingjian was ready to enjoy another massacre of the black charm Commandery's Army after he gave the order coldly.

The sky full of crossbow arrows once again flew towards the enemy. Under such a saturated and large-scale attack, under normal circumstances, at least half of the enemy would be killed, and the remaining half would probably be seriously injured.

Unfortunately, the current situation was obviously not normal!

Countless crossbow arrows hit the soldiers of the black charm Commandery. When they pierced through their armor and into their muscles, they were blocked by the expanded muscles!

All the arrows that had pierced through the armor had only slightly pierced into the muscles, not even causing a single drop of blood.

The damage to the soldiers of the black charm Commandery could be ignored!

"Kill!"

"Kill!"

"Kill, kill, kill!"

The soldiers who were shot did not seem to feel any pain. They simply ignored the arrows still hanging on their armor and continued to charge forward while howling.

Even if they were charging on foot, their speed was still quite astonishing.

"Shield!"

Li Yingjian's expression changed slightly as he quickly ordered the shield wall to defend!

The soldiers wearing double-layered armor and holding double-layered shields shouted in unison. They stuck the bottom of their shields into the soil and then used their bodies to support the top of the shields, putting on a posture of defending their shields to the death.

As soon as they completed these actions, the Army of the black magic Commandery rushed up like a tide and hit the shield wall!

The soldiers who could be shield bearers were basically the strongmen in the Army, and ordinary people could not do this job.

However, the shieldmen almost couldn't withstand the attack of the soldiers of the black magic Commandery!

The impact was too great!

"Hahahaha, is this all you can do? Then be prepared to die!"

The general of the reinforcements seemed to have gone a little crazy. He laughed wildly as he waved his long sword, quickly knocking over the people in the shield wall and revealing a gap.

Then, he led the soldiers of the black magic Commandery and rushed in through the gap.

"Retreat! Retreat!"

Li Yingjian did not expect the people of the black charm Commandery to suddenly become so fierce. They almost instantly broke through the carefully arranged defensive shield wall!

In order to use the armor-piercing crossbow easily, the team from Hongshang Commandery did not bring any melee weapons. At most, they only brought daggers.

However, in the face of the berserk soldiers of the black charm Commandery, these daggers were definitely not enough!

Li Yingjian had no choice. Although he was unwilling, he could only retreat!

Li Yingjian was fighting on the front lines.

However, with his strength, he was evenly matched with an ordinary soldier of the black charm Commandery.

Even the web between his thumb and forefinger was slightly numb, and his movements had lost their usual smoothness.

He was a disciple of the sword spring sect, and not a weak one at that!

He was actually on par with an ordinary soldier.

"Abandon your shields and get into formation!"

Li Yingjian kicked the enemy in front of him with all his strength and took the opportunity to give an order.

However, the soldier of the black charm Commandery who had been kicked rushed back with the push of his companions behind him. His ferocious face showed a cruel smile.

The surrounding soldiers of Hongshang Commandery immediately threw their shields at the enemy. Then, they drew out their swords and got into a battle formation.

Lin Yi had already taught them the basics of battle formations when he went to Seton Commandery. The guards unit was trained by Lin Yi himself, and the rest of the guards were taught by the officers after they learned it.

The operation of these battle formations was not complicated, but they were simple and practical.

Although it didn't increase his combat strength by much, it was close to doubling.

Although it was not enough to resist the attack of the black magic Commandery, it was much better than before.

## Chapter 7835 The End

In the beginning, after the black charm Commandery's troops broke into the defense line of the king's city garrison, they immediately showed a destructive and unstoppable attitude.

But now, it was as if they had fallen into a swamp, and their speed of advancement had been greatly reduced.

"Abandon the armor-piercing crossbows and form a formation. Cover each other and retreat!"

Liu Ziyu gritted his teeth. The value of the six thousand new armor-piercing crossbows was immeasurable. If they were to abandon them now, the chances of them being recycled were almost zero.

If it were some profit-seeking bureaucrats, they might feel that it did not matter if they sacrificed ten or twenty thousand Garrison troops, but they could not afford to lose the six thousand armor-piercing crossbows.

However, in Liu Ziyu's heart, human lives were much more important than the armor-piercing crossbow.

If they retreated with the armor-piercing crossbows that could not be used, the casualties would definitely increase greatly!

The order was quickly conveyed through the flag. The soldiers of Hongshang Commandery threw away the armor-piercing crossbows and took out their short knives and daggers for self-defense, forming a small battle formation.

Wu yucao, Fei daqiang, Ling Hanxue, and Li Yingjian all rushed to the front line and led their teams to resist the attack of the black magic Commandery.

Unfortunately, other than them, even the soldiers in battle formations could not cause much damage to the soldiers of the black charm Commandery.

The only thing they could do was to slow down the black magic Commandery's attack and buy more time for their comrades to retreat.

It was supposed to be a complete victory, but for some unknown, the tables began to turn.

Lin Yi floated in the air and looked down at the battle, not planning on interfering.

Wu yucao and the others were strong enough-even if they couldn't turn the tables, they could save their own lives. Lin Yi didn't need to worry about that.

As for the Army's casualties, these were all normal losses. Since they had encountered it once, there would naturally be a second and third time.

Lin Yi couldn't protect them all the time-they had to learn how to face strange enemies like this.

The situation on the battlefield was extremely tragic. The soldiers of Hongshang Commandery, who had just won a great victory, were fighting a bloody battle.

Although they were suppressed by the other side, they did not collapse. Under the leadership of a few generals, they fought to the death against the other side's violent attacks.

After retreating for a distance, there was a loud noise on the city wall. A large armor-piercing crossbow whizzed through the air and shot into the formation of the black magic Commandery at a speed that was difficult to be seen by the naked eye.

Even the soldiers of the black charm Commandery, whose strength had been greatly improved, could not withstand the attack of such crossbow arrows.

No, this could no longer be called a crossbow. It would be more appropriate to call it a cannon.

The black light that shot out from the top of the city wall drew a blood-red straight line in the middle of the black charm Commandery's formation.

However, not many soldiers of the black charm Commandery died. Only two died on the spot, and five or six were injured.

The black charm Commandery's violent attack suddenly came to a halt. After this period of fighting, they had recovered a lot from the confusion at the beginning of the medicine.

At this time, the large armor-piercing crossbows that constantly appeared on the top of the city wall made them feel even more pressured, and they subconsciously stopped chasing!

"Retreat! Loose formation!"

The general of the black charm Commandery was also very straightforward. He shouted as he retreated quickly.

In fact, it was the right choice to speed up the entanglement with the troops of Hongshang Commandery and form a chaotic battle so that the armor-piercing crossbows on the city wall would not dare to continue firing.

If they were lucky, they might even be able to rush into the city!

Once the urban combat began, the soldiers of the black charm Commandery, who had taken the medicine and had their strength doubled, would obviously be able to exert a greater advantage.

It was a pity that the general of the black charm Commandery did not have a clear idea. Seeing that the resistance of Hongshang Commandery was extremely fierce and the threat on the city wall was real, he had the idea of retreating for a while.

The two armies quickly separated. Without the worry of accidentally injuring their own people, the large armor-piercing crossbows on the city wall fired continuously, chasing and attacking the retreating soldiers of the black magic Commandery.

However, the formation of the black charm Commandery had been spread out as much as possible. Such a powerful single shot armor-piercing crossbow could not cause a large area of damage.

The soldiers of Hongshang Commandery took the opportunity to retreat into the city. After the city gate was closed, everyone was relieved.

However, after counting the casualties, the atmosphere became tense again.

Previously, when they annihilated the 20000 soldiers of the black charm Commandery, there were no casualties on the side of the Hongshang Commandery. It was a perfect victory!

However, in the next battle against the 10000 reinforcement troops of the black charm Commandery, 1500 cavalymen of Hongshang Commandery died, 2700 infantrymen died, and less than 1000 people were injured ... Or uninjured!

Even Fei daqiang was slightly injured, but Wu yucao, Ling Hanxue, and the others were not spared. They all had varying degrees of internal and external injuries.

As for the 10000 casualties of the black charm Commandery's reinforcement Army ... If the final battle record of the large armor-piercing crossbow was not counted, the number of casualties was less than 200!

A great defeat!

Especially the great defeat after the great victory, it was especially demoralizing. The entire city had fallen into an inexplicable low pressure.

Everyone was thinking, if there were no large armor-piercing crossbows, would the black magic Commandery have broken into the city gate directly?

If that was the case, would everyone still be able to stay here?

Perhaps they had already fought to the death?

Just as the morale in the city was at its lowest, Lin Yi suddenly appeared on the top of the city wall, landing in front of Liu Ziyu and the others with a light leap.

"The defender-general of the state!"

"Marshal!"

"Marshal!"

.....

To this team, Lin Yi was the commander they acknowledged from the bottom of their hearts!

Liu Ziyu didn't have that kind of prestige yet.

Only Liu Ziyu addressed Lin Yi as the defender-general, while the others, including Wu yucao, still called him Marshal.

"Everyone has worked hard! Although he had lost the battle just now, it was not a crime! The black charm Commandery must have used some other means to break out a combat power beyond the normal level!"

Lin Yi greeted everyone with a slight nod before getting straight to the point, "It's already not easy for everyone to escape from the hands of this unknown enemy. As for the battle loss ratio ... You don't have to worry too much!"

It didn't matter if it was a consolation or an explanation-everyone felt a lot more at ease hearing it from Lin Yi.

"Ziyu, take these elixirs and ask someone to dissolve them in water. The injured brothers will each drink a bowl. It will speed up the recovery of their injuries!"

Lin Yi took out a bag of healing pills and gave it to Liu Ziyu. He then gave Fei daqiang, Wu yucao, and the others one each. "All of you, eat this and recover as soon as possible."

There were too many injured people, and Lin Yi could only guarantee that everyone in his team would get one pill. The others could only share it.

Fortunately, their injuries were purely physical. After the medicinal pill dissolved into water, it would have a very good effect.

"Great general, should we first treat our injuries and then go find them to settle the score?"

Fei daqiang threw the pill into his mouth and chewed it like candy, ""I'm really angry thinking about it. My body isn't strong enough, and I'm actually being bullied by these little guys! Great general, we can't take this lying down!"

## Chapter 7836

Lin Yi was the only one who understood Fei daqiang's intentions. After coming to the sub Island, Fei daqiang couldn't use his pure energy and his strength dropped drastically.

His primordial spirit and true energy had reached the mountain-splitting stage, but the strength of his body was far from keeping up!

Even though he had been training his body, it had only been a short time. He would need more time to catch up to the strength of his genuine Qi and primordial spirit.

If Fei daqiang could use his genuine Qi, coupled with his divine sense and special ability, then the 10000 soldiers of the black charm Commandery would basically be no threat to him.

Even if he could not wipe out 10000 soldiers of the black charm Commandery, he could at least kill seven of them and move freely.

"Of course we'll settle the score. Hurry up and recover. In a while, we'll go out of the city to collect the score from them!"

Lin Yi nodded with a smile, but his eyes were cold.

If it was a normal war, Lin Yi wouldn't show up. But this time, the black charm Commandery was clearly not in the category of a normal war. He had to find out the truth.

It was not easy for him to gain a foothold in Hongshang Commandery. How could he tolerate the black charm Commandery's trouble?

"Marshal! This general requests to fight!"

Wu yucao swallowed the pill and didn't care about her recovery. She immediately cupped her fists and bowed, requesting Lin Yi to fight.

Ling Hanxue, Li Yingjian, and the others spoke up as well, and then they gradually spread out.

The morale of the Royal capital's Garrison, which had been low just a moment ago, was instantly roused when they realized that their God of War, Sima Zhongda, had arrived and was preparing to counterattack.

No matter if they were injured or not, or how badly injured they were, they all raised their weapons and wanted to counterattack.

As far as they knew, as long as Lin Yi was here, there was no enemy that they couldn't defeat!

War god Sima Zhongda was invincible in every battle!

A mere 10000 soldiers of the black charm Commandery were nothing!

Liu Ziyu smiled bitterly to himself. He was the commander of this team, but when Lin Yi appeared, everyone's instinct was to follow Lin Yi's orders!

Although Lin Yi didn't actually lead them for long, not even as long as Liu Ziyu. After all, Lin Yi only led the 800 Guards unit!

However, Lin Yi's Mark was already deeply imprinted on this Army!

Liu Ziyu, on the other hand, wasn't jealous at all. He saw Lin Yi as his backbone, and he felt at ease when he saw Lin Yi.

He had a clearer understanding of himself now, and knew that he was more suited to assist Lin Yi, not to lead an Army by himself.

This was his first time leading an Army out as a Commander-in-Chief, and it might also be his last time.

"Everyone, be quiet!"

Lin Yi raised his right hand and spoke faintly. His voice wasn't loud, but everyone quickly quieted down and looked at him with passionate eyes. "This general did not leave the capital on the king's orders, so I can't lead the troops to battle. Everyone has worked hard before. Rest well and recuperate. I will do the rest in my own name."

"Marshal, whether I lead the Army or not, this general is willing to follow Marshal into battle!"

Wu yucao spoke up immediately, expressing her determination to follow Lin Yi to the death!

The others said the same thing, but Lin Yi only shook his head.

"If all of you leave, what will happen to the remaining team? This time, everyone else will stay behind. Commander Fei and vice commander Wu will follow. "

Lin Yi's decision made everyone follow his orders, even if they were unwilling.

Fei daqiang was immediately excited, "great general, are the three of us going to wipe out those 10000 people?" It was too awesome! I'm so happy just thinking about such an exciting thing!"

As long as he succeeded, he could brag about it for half a day in the future!

As for whether it would succeed or not, Fei daqiang did not doubt it at all. With his big brother personally taking action, was there a need to doubt?

He only needed to think about how much time it would take to wipe out the enemy!

Killing ten thousand people in seconds? That would be boring ... I'll have to play for a while longer!

"Marshal, my injuries are no longer a problem. I can set off at any time!"

Wu yucao was very happy. Other than Fei daqiang, Lin Yi only brought her along. Did this mean that she was very important?

It would be even better if there was no Fei daqiang!

"Let's go then. The others are waiting for news in the city!"

Lin Yi waved his hand and led Fei daqiang and Wu yucao to fly over the city wall, chasing in the direction of the black charm Commandery's reinforcements.

The reason why he brought Fei daqiang and Wu yucao was that they could use their divine sense.

Not to mention Fei daqiang, his path of advancement was mostly due to the improvement of his spiritual sense leading to the upgrade of his true Qi.

Wu yucao's primordial spirit wasn't strong, but after dying once and fusing with Wu Yuhua's body, it actually made her primordial spirit start to strengthen, and she could also use simple deified soul techniques.

Lin Yi had noticed this long ago and had given her some pointers in private, so Wu yucao's essence Spirit's improvement wasn't slow.

As for Ling Hanxue and the others, Lin Yi didn't teach them anything about the spirit sense. Although the sub-Island didn't restrict the spirit sense like how it did with pure Qi, it was still suppressed.

Other than Wu yucao's condition, it was difficult for normal people to train their spirit sense. Lin Yi didn't have that much time, so he could only put it aside for now and wait for a chance to find a way.

Back to the main topic, Lin Yi was confident that he could annihilate the ten thousand soldiers of the black charm Commandery alone.

However, if he did that, he would definitely expose his trump card. Therefore, he brought Fei daqiang and Wu yucao along. The three of them would join forces and attack with their divine senses. He estimated that they would be able to settle this quickly.

After all, no matter how well-equipped the soldiers of the black charm Commandery were and how strong their bodies were, they had no resistance to the attack of the spiritual awareness.

Lin Yi brought the two and sprinted quickly. They were all Masters, and their speed over short distances wasn't much slower than the Black Spirit Ferghana horse.

It didn't take long for the three to catch up with the black charm troop.

The enemy didn't care at all when they saw that Lin Yi only had three people running over. They just sent out a random small team of soldiers to capture the three.

"Hahaha, are you here to die? You didn't die just now, and now you've come back to die. It's really hard on you!"

The captain of the squad from the black charm Commandery laughed wildly and raised his long knife. "Are you going to surrender, or are you going to resist a little and let us have some fun?"

"Big sister Wu, try out the divine sense battle formation skill!"

Lin Yi smiled faintly and ignored the captain, "Fei daqiang, cooperate well!"

"Don't worry! Captain, don't you know how I do things? It's absolutely reliable!"

Fei daqiang grinned and patted his chest, ""Sis Wu, don't worry. Let's use these soldiers as practice first!"

The corners of Wu yucao's mouth curled up, and she gave a terse "okay" as she pulled out her scimitar.

The small team of soldiers from the black charm Commandery looked at Wu yucao with ridicule. They had all been at the forefront of the battle. Although they had seen Wu yucao's combat power, it was not enough to completely suppress any of them.

#### Chapter 7837

"Oh, so you're two cowards, relying on women to fight a war. What? Are you trying to use your beauty?"

The captain laughed wildly and hooked his finger at Wu yucao. ""The beauty trap is good! I like her, so I'll take her. The remaining two of you can die!"

Wu yucao didn't want to waste time talking to them and started spreading her spirit sense out. Lin Yi and Fei daqiang also activated their spirit sense at the same time, forming a battle formation between the three.

This was what Lin Yi thought of when he was watching the battle from the sky.

But because Lin Yi came up with this battle formation on the spot, they couldn't bring too many people.

As a result, the final result was that Lin Yi, a Super Master at the consummate level of the sea-splitting realm, lowered his own level limitlessly to cooperate with Wu yucao and Fei daqiang.

Wu yucao's and Fei daqiang's primordial spirit and consciousness had a huge increase because of this.

For example, Lin Yi's group of three were wooden planks of different lengths, forming a bucket.

As Wu yucao was the shortest board, the water bucket could only hold up to her height.

In order to make up for this shortcoming, Lin Yi gave a large portion of his strong spirit sense to Wu yucao, and Fei daqiang also got a part of it.

In this way, the amount of water that the bucket could hold had directly increased by dozens of times!

Wu yucao couldn't control such a powerful spiritual power, but because of the battle formation, this was no longer a problem.

With a simple collision of spiritual awareness, the entire team of soldiers from the black charm Commandery was stunned. Then, an arc of light flashed and their heads flew up.

Instant kill!

"Such great courage, to actually dare come to our Army to kill!"

The general of the black charm Commandery didn't understand what was going on, but he flew over arrogantly in a rage and with the elixir attached to his body, ""What are you all standing there for? Surround them first! Don't let a single one of them off!"

The soldiers of the black charm Commandery rushed over with their weapons raised, surrounding Lin Yi and the other two in the middle.

Because they had the absolute advantage, they didn't even think about using the armor-piercing crossbow.

"There's a path to heaven, but you refuse to take it. There's no Door to Hell, but you barged in! You've just been injured and the scar hasn't healed yet, but you've already forgotten about the pain?"

The general of the black charm Commandery sneered and stabbed the knife in his hand into the ground. ""I'm too lazy to deal with stupid birds like you! Go and break the arms and legs of the two men first, and detain the woman!"

The other party didn't even care about the team that Wu yucao had just killed.

What was the big deal if a few soldiers died in an Army of ten thousand?

"General, are we only going to break their limbs? Wouldn't that be letting them off too easily?"

A soldier on the side laughed evilly and jeered, "even if we don't kill them, we should at least let them have a taste of being skinned and having their tendons pulled out. Then, we will use a small knife to cut their meat piece by piece and roast them before feeding them. We are very kind. We will not take their meat and feed it to the wild beasts!"

"Hahahaha, you're absolutely right! I just want to see the scene of them crying and begging us to kill them ..."

"What are you guys thinking about? Did you come here to seek trouble?"

Wu yucao's face was ashen, and the killing intent in her heart was boiling. She could not suppress it at all.

"Big sister Wu, don't pay attention to them. They're just people who are about to die, and they're just wailing before they die!"

Lin Yi smiled faintly and increased the output of his spirit sense. "Let's begin! There's no need to argue with them when we can fight. "

The three's consciousness battle formation started to shake. This was what Lin Yi had planned, but he needed to test it out.

Invisible spiritual awareness ripples spread out in an instant, with the three people as the center, surging out in circles. This kind of vibration was based on the collision of spiritual awareness, but the target of the collision was not the enemy, but the spiritual awareness of the battle formation.

It was as if two waves were coming at each other, and after clashing, they formed an even more powerful shock wave.

The soldiers of the black magic Commandery who were closest to the three people felt that their minds were blank and their consciousness disappeared in an instant. Their faces still maintained the previous expressions and their body movements did not change, but they had temporarily lost their sense of self.

This included the general of the black charm Commandery!

It didn't matter how much of a ruckus they'd made before, they were meat on the chopping board now, waiting to be slaughtered by the three!

To be exact, he was at Wu yucao's mercy!

Wu yucao did not show any mercy because he hated the foul language of the soldiers of the black charm Commandery. With a flash of his curved blade, he had already cut off the heads of more than a dozen high-ranking officials of the black charm Commandery, including the general.

"Boss! These weaklings have no resistance at all. There's no sense of accomplishment in killing them!"

Fei daqiang also took out his big podao, and while maintaining the spiritual battle formation, he casually slashed at it. He muttered regretfully, "They've all become idiots. They don't understand our might ..."

To put it bluntly, no one was watching him act cool. It was too uncomfortable! He couldn't help but feel a little disappointed!

"How about this, big sister Wu and I will retreat first and return to the city to watch you stay and show off your power, okay?"

Lin Yi glared at him faintly before continuing to follow Wu yucao.

Fei daqiang laughed awkwardly and didn't dare to say anything else. He quickly waved his big podao with all his might and helped Wu yucao harvest the enemy's heads.

Of course, Lin Yi didn't want to rely on the three of them to cut off ten thousand heads. Even if it was ten thousand chickens, it would take a lot of time and energy. Not to mention, they had to maintain the divine sense battle formation. Lin Yi didn't care, but Wu yucao and Fei daqiang might not be able to do it.

After all, the battle formation only used Lin Yi's spirit sense to strengthen their own spirit sense, not their own. What needed to be consumed would be consumed. Even if Lin Yi consumed ten times more than them, his endurance was far from what they could compare to.

"Continue to increase the output of your divine sense!"

Lin Yi shouted in a low voice. The main reason he came to deal with the black charm Commandery's Army was that they had changed after taking the pills. Other than that, Lin Yi also wanted to try out the deified soul battle formation he had conceived.

His initial plan had succeeded, and now it was time for the last spiritual awareness battle formation skill!

Circles of shock waves continued to spread, but this time, there was a hint of chaos within the waves. Any soldier who came into contact with the waves would not only lose consciousness, but their bodies would also start to become chaotic.

The pupils of the first soldier who came into contact with him dilated, and his eyes were dull. However, the large sword in his hand suddenly slashed horizontally, cutting the companion beside him in half.

Blood splattered everywhere. Before he could retrieve his saber, his head was sent flying by his companion behind him!

Chapter 7838

There were no screams, no cries of pain, only the sounds of sharp weapons tearing armor and cutting flesh!

The swords and Spears landed on their bodies, killing each other, but it was as if none of them had landed on their physical bodies. Everything happened quickly in silence.

In an instant, the team from the black magic Commandery fell into a strange chaos.

Wu yucao and Fei daqiang looked at each other in shock. They didn't think that the divine sense battle formation Lin Yi brought them to use would have such an effect!

Why would they need an Army to fight in the future? The three of them could sweep the sub-Island, right?

"Don't be surprised. Although the soldiers of the black charm Commandery have strong physical bodies and fierce combat power, they are almost blank in terms of primordial spirit!"

Lin Yi saw the confusion in the two's eyes and explained, "As long as their primordial spirits have the ability to defend against deified soul attacks, it would be impossible for our battle formation to achieve this effect."

"Boss, you're too modest. Even if they have a certain level of spiritual awareness defense, it's absolutely impossible to defend against our spiritual awareness attack!"

Fei daqiang chuckled. He was no stranger to spiritual sense attacks. Even without his powerful spiritual sense, the spiritual sense battle formation that his big brother had created was by no means ordinary.

To put it simply, this divine sense battle formation was enough to crush the divine sense defense of the same level, and it was not impossible to fight above one's level!

Therefore, as long as their primordial spirits had some spiritual sense defense ability, they couldn't be stronger than the battle formation makers, but they couldn't be weaker!

"Zhong da, the soldiers of the black charm Commandery behind us have started to flee! The range of our divine sense battle formation isn't large enough, and it can only cover about a thousand people right now. There are still more than eight thousand people left ... Should we let them go?"

Wu yucao couldn't see with her eyes, but she could clearly observe the entire battlefield through the deified soul battle formation.

The people of the black magic Commandery who were not affected by the spiritual awareness attack saw that their own people had begun to kill each other in a strange way. Then, the chief general was also finished. Without anyone to restrain them, they could not come to help. Under the guidance of some people who fled, there was a large-scale escape.

From this, it could be seen that the quality of the soldiers of the black magic Commandery was really too poor. Before, they relied on equipment. Now, not only did they have equipment, but their strength had also increased greatly after taking the medicine. They still collapsed immediately when they encountered failure.

Hongshang Commandery was much better in this aspect. The royal city's Garrison had fought a fierce battle just now, but they still maintained their basic formation when retreating. If the royal city's Garrison had also collapsed, they would have been wiped out if Lin Yi didn't show up.

"Don't worry, our deified soul battle formation hasn't fully displayed its power!"

Lin Yi's lips curled up as he chuckled lightly. "Big sister Wu, we'll use all our divine sense in a while. You should take this pill first to avoid any accidents!"

"Alright!"

Wu yucao trusted Lin Yi unconditionally and would do anything he said, so she took the spirit accumulation pill and swallowed it without asking.

"Boss, what about me? Do I need to eat one too?"

Fei daqiang's eyes were extremely sharp. With one look, he knew that the spirit accumulation pill was a good thing. He quickly came over to lick his face.

Lin Yi didn't know whether to laugh or cry as he pushed daqiang's face aside. "You don't need it. Your primordial spirit and consciousness are strong enough. There won't be any problems!"

The spirit accumulation pill was made with spirit sense fruits as the main ingredient. Lin Yi didn't have a lot of them, and Fei daqiang's essence spirit leveled up too quickly. His Foundation wasn't stable yet, so there wasn't much point in using the spirit accumulation pill now.

After thinking for a while, Lin Yi took out a spirit tempering pill and threw it to Fei daqiang. This guy used spirit sense grass before, but Lin Yi's spirit tempering pill was made from spirit sense grass, which was perfect for refining his essence spirit.

"If you want to eat, eat this. It's easier to stabilize your essence Soul Foundation by tempering it in battle."

"Thank you, boss!"

Fei daqiang wasn't a picky eater. As long as it was from his thigh, it was definitely something good. So he caught the spirit tempering pill and thanked him before directly throwing it into his mouth and eating it with a crunch.

The three of them spoke very quickly. After they finished, Lin Yi commanded the deified soul battle formation to explode. This time, the shock wave was no longer in the shape of ripples, but directly like the shock wave of an explosion. It spread out instantly and enveloped all the soldiers of the black magic Commandery.

[Deified soul shock-fantasy Prairie]!

Nearly 10,000 soldiers of the black charm Commandery froze at the same time. The killing among them also stopped. Time seemed to have stopped. One or two seconds later, some soldiers began to fall to the ground, and then a large number of them began to fall to the ground.

In the blink of an eye, nearly ten-thousand soldiers were lying on the ground limply. A few unlucky ones accidentally fell on the sharp edges of the weapons, and happened to fall in the gaps of the armors, and died for no reason.

The only ones left standing on the battlefield were the three of them!

"So powerful! Boss, our battle formation is so powerful! It's too awesome!"

Fei daqiang couldn't help but cheer. Seeing nearly 10000 people fall to the ground with his own eyes, the shock he felt was no less than killing his way through the 10000-man formation.

In fact, the visual effect of such an unpredictable method was even more shocking!

Fei daqiang was even more excited when he thought that he was one of the participants in this method.

Of course, excitement was just excitement. At this time, he should vigorously praise his thigh so that he could continue to firmly hold on to it. Therefore, Fei daqiang had already organized his words in his heart and was ready to flatter him.

Unexpectedly, Wu yucao's body shook slightly and fell to the ground like the soldiers of the black charm Commandery. Fei daqiang didn't have time to praise his thigh and quickly shouted, ""Boss, sis Wu has fainted!"

Lin Yi wasn't surprised at all, pulling Wu yucao into his arms. "I'm fine, I just used too much spiritual sense, so I just need to rest for a while,"

Lin Yi's spirit was replenishing the spirit battle formation, and Wu yucao was out of points when it burst out. It was normal for her to overexert herself after going all out. She had taken the spirit accumulation pill and just needed a nap.

Compared to Wu yucao, the soldiers of the black magic Commandery were in a worse state. Wu yucao could recover after a dozen minutes of sleep. Even her primordial spirit and divine consciousness would improve.

On the other hand, the ten thousand soldiers of the black charm Commandery had to bear the impact of Lin Yi's attack. Wu yucao was asleep, while they were unconscious. They would not wake up for at least one or two days.

After they woke up, it was hard to say if they would become idiots. After all, with their weak primordial spirits, it was very likely that there would be residual effects after taking such a shock.

"Fei daqiang, you stay here and take care of her. I'm going to see an old friend!"

Lin Yi suddenly took out two blankets and laid one on the ground for Wu yucao to lie on, the other on her body. "She should wake up in a while. Protect her well. When she wakes up, return to the city and ask Liu Ziyu to send troops to clean up the battlefield."

"Don't worry, boss. I'll definitely protect sis Wu!"

Fei daqiang wanted to go, but Lin Yi asked him to stay, so he couldn't have any objections. He patted his chest and agreed, ""By the way, these guys from the black charm Commandery are still alive. Should Liu Ziyu kill them when he comes?"

"I won't interfere in this matter. Let Liu Ziyu discuss it with the others!"

Lin Yi waved his hand. He'd sneaked out of the capital to come here as a private matter, and shouldn't interfere too much with the military.

In the city, in front of everyone, Lin Yi could only continue to put on the airs of a general, but once he left the city, he'd go back to his usual identity, and the change in the way they called each other after leaving the city was obvious.

So Lin Yi didn't plan to interfere with the soldiers who were still alive. It was up to Liu Ziyu to decide whether to kill or release them, or to take them back as prisoners. After all, he was the Commander-in-Chief.

"I'll go first. After this matter is over, I might return to the capital directly and won't be meeting you. Tell Liu Ziyu to keep my appearance here a secret. Don't mention my appearance in the battle report at all!"

Lin Yi said a few more words before waving his hand and disappearing into the distance.

"Oh," Fei daqiang replied. He wanted to say more, but Lin Yi was already far away in the distance.

Not long after, Lin Yi came to a dense forest. The person he scanned with his spirit sense was still waiting at the same spot. Seeing Lin Yi coming over, he immediately laughed coldly.

"Lin Yi, you still have the face to come here?"

"Hehe ... Ling lingfa, didn't you show up on purpose to lure me over? Why? With this attitude, do you want to fight me?"

Lin Yi's lips curled up-the old friend he was talking about was Ling lingfa, naturally."Those weak chickens in the black charm Commandery suddenly had an outbreak because of the potions you provided, right? I knew it was you!"

Ling lingfa was furious,'you knew, but you still sabotaged it on purpose! Are you trying to tear up the agreement between us?"

As for Lin Yi's words about fighting, Ling lingfa completely ignored them!

What a joke! Ling Ling's primordial spirit was projected over, and his strength was greatly reduced. He used the purple mist Snow Lotus to make a physical body, so he was far from being Lin Yi's match. Fighting with Lin Yi at this time wasn't a fight, it was just asking for a beating!

How could someone as smart as Ling lingfa do such a stupid thing? At this time, of course, a gentleman should use his mouth and not his fists!

When you can't beat someone, don't make a move if you can!

There's nothing wrong with that!

"You're pretty good at this 'the villain complains first' move! Don't talk nonsense, if you say I deliberately destroyed it, then I deliberately destroyed it. Come, come, come, let's have a go first!"

Lin Yi's sharp senses picked up on Ling lingfa's thoughts, and he hooked his finger at him with a teasing smile.

If you don't dare to fight, then why the hell am I still talking to you!

Ling lingfa was frustrated-if they were on Sky Class Island right now, and he was at his peak ... He wouldn't be able to just fight Lin Yi like that!

This made him very angry!

The research and practical operations at the center of the sub-Island were far behind that of the sky Island and the secular world. Ling lingfa wanted to speed up the progress, so he used the resources on the sub-Island to make potions to improve his strength.

The 10,000 people from the black charm Commandery were the first batch of large-scale experiments. Ling lingfa was worried that they would not take the medicine and wondered if he should issue a mandatory order through the black charm Commandery's Royal Court.

He didn't expect things to go so smoothly. Hongshang Commandery came with a great victory. These 10000 experimental subjects chose to take the medicine without hesitation when they had to choose whether they would die if they didn't take it.

Ling lingfa was quite satisfied with the initial data, and was about to collect more data when his nemesis, Lin Yi, appeared again ...

Lin Yi's appearance didn't matter how many people there were-he took care of all the experimentals easily, and the data during that time ... Didn't have any value at all!

Thinking back to those 10000 experimentals, they were so fierce and ruthless when they just took the medicine! In the end, it didn't take long for them to all F \* cking faint!

You shouldn't be like this even if you're causing trouble!

You should at least keep them here for a while, and everyone will fight for hundreds of rounds. At that time, it doesn't matter if you kill them all!

Ling lingfa's heart was filled with frustration, and seeing Lin Yi's finger curling non-stop made him even more depressed.

"No... You're going to completely tear up the agreement, right? Do you want to go to war with our Center?"

"Ha ... If you can't wait to fall out with me, I don't care. At most, we'll just fight to the death!"

Lin Yi didn't want to fall out with central right now, but he couldn't back down now! He immediately sneered with a tough attitude, ""Ling lingfa, are you crazy? What's the point of provoking me like this?"

"I'm provoking you?"

Ling lingfa felt like he was going crazy. ""You've ruined my plan, and you're saying I'm provoking you?"

If they were on Sky Class Island, Ling lingfa would probably beat Lin Yi up first, but now ... Let's just continue!

"Provoke you? Did I attack the center?"

Lin Yi shrugged, "don't tell me that the black charm Commandery is your Center now!"

Ling lingfa was silent for a moment, then he smiled coldly. ""Your men went to the central Chamber of Commerce of the black magic Commandery and took away a large number of weapons and equipment exclusively for the black magic Commandery with the card I gave you. Do you dare to say that you don't know the relationship between the black magic Commandery and our central Chamber of Commerce?"

On the surface, the central Chamber of Commerce had a cooperative relationship with the black charm Commandery, but Ling lingfa and Lin Yi were both well aware.

Even if the black magic Commandery had not fallen into the hands of the central government, it would be completely controlled by the central government sooner or later.

Nine out of ten people who had deep cooperation with central would eventually be controlled by central. Everyone had a tacit understanding of this.

The last one was naturally Lin Yi himself, the thorn in his side.

"Ha ... I understand what you mean. Here's the question. With how powerful you are, don't you know that I'm the grandson of the king of Hongshang Commandery?"

A dangerous light flashed in Lin Yi's eyes as he gathered a conflagration bomb in his palm. "You know that Hongshang Commandery is my territory, but you still let the black magic Commandery invade. Tell me, who was the one who broke the agreement first? Forget it, you don't have to say anything, let's fight first!"

Ling lingfa was speechless.

Naturally, Lin Yi's Information Center was paying attention to it. Not only did he become the grandson of the king of Hongshang Commandery, but he also led 800 cavalymen to defeat the seitong Commandery in a flash battle.

The problem was that Ling lingfa didn't think that Hongshang Commandery was Lin Yi's territory!

What kind of background did Lin Yi have? how could central not know?

Royal grandson my ass!

It's just a counterfeit!

Chapter 7840

Then, the heimei Commandery took the benefits from seitong Commandery and turned to attack Hongshang Commandery. Central neither agreed nor objected. As long as it could play its due role in the experiment, it would attack anyone.

Ling lingfa looked up at Lin Yi-he couldn't fight him, at least not before they got back to Tianjie Island. He'd be asking for trouble.

"Forget it. It's just a misunderstanding. Let's not talk about each other. I'll go back and ask the black charm Commandery to withdraw their troops. This matter will be over!"

Ling lingfa was depressed, but he had no choice. ""Let go of the soldiers that you knocked out!"

They're the first batch of test subjects, after all. They'll be of some use when they get back. "

"Ha ... You think it's a misunderstanding just because you say so? Do you think it will end just because you say so?"

Lin Yi wasn't going to let Ling Ling go so easily. "Our Hongshang Commandery has suffered heavy losses and you want to withdraw your troops? Aren't you going to talk about the war reparations first?"

"Lin Yi, don't go too far! Our central business Alliance gave you such a large amount of equipment, isn't it money?"

"Besides, the Hongshang Commandery suffered a great loss. The black charm Commandery suffered an even greater loss ..." Ling lingfa was exhausted.

"Stop! Don't be long-winded, just be straightforward, continue fighting or sit down and talk? The unconscious people there are all captives. The ransom has been prepared. How can there be such a good thing!"

Lin Yi had made up his mind to make the black charm Commandery and Central Pay a price, in case they provoked him again.

Only by hurting them could Hongshang Commandery be stable.

If he wanted to borrow the power of Hongshang Commandery, a stable environment was the most basic requirement!

"Do whatever you want. The black charm Commandery is not mine. I don't care!"

Ling lingfa waved his hand and turned around to leave!

The center was so big, and the black charm Commandery wasn't that important. It was a waste of time to argue with Lin Yi over it!

"Al! Why did he leave? You don't want the captives anymore? At least give me a price!"

Lin Yi was intentionally trying to piss Ling lingfa off, but he hadn't even offered a price yet, so there was no bargaining.

Ling lingfa's speed increased. 'I can't afford to offend you, but I can't hide?'

They were just some experimentals. It would be best if they could get them back. If not, it was also okay. There were plenty of people on the sub-Island who could be his experimentals. He didn't lack these thousands of people!

Lin Yi couldn't help but sigh as he watched Ling lingfa disappear into the distance. The gray-robed man back then looked like a mysterious master, but now his image seemed to have fallen apart!

Ling lingfa's departure meant that central would no longer interfere in the war between the black charm Commandery and the Hongshang Commandery. Lin Yi didn't go back to Liu Ziyu and the others. Instead, he hid in the dark and observed the situation.

The black charm Commandery responded quickly and began to retreat. It was not known whether it was the news from the central or because they were terrified after losing 20000 to 30000 soldiers.

Liu Ziyu did not let go of the opportunity. He commanded all the soldiers in the defense line to change their equipment and start the counterattack. With the same equipment, the black charm Commandery was no match for the Hongshang Commandery.

The central Chamber of Commerce no longer provided drugs for testing. In the process of the black charm Commandery's retreat, they were defeated by Liu Ziyu's team several times. The three cities at the border of the black charm Commandery were taken down!

The Commandery Prince of the black charm Commandery had no choice but to send an envoy to seek peace.

He was truly begging, begging, and begging.

If they didn't stop the war, he was afraid that the commander of Hongshang Commandery would come straight in and destroy them.

Even if they managed to defend against the attack from Hongshang Commandery, seitong Commandery, which was suppressed to the extreme, might still attack.

Just like what the black charm Commandery had done to the selenbronze Commandery.

The situation was settled. Lin Yi didn't care about the things here anymore and returned to the capital quietly. As for how the black charm Commandery would cede the land and pay the compensation, it was all the work of Liu Ziyu and the others.

Although Lin Yi played a big role in this victory, he couldn't say it out loud. He could only hide his achievements and reputation.

Of course, this was all for the future. When Lin Yi returned to the capital, Liu Ziyu's counterattack had just begun. The black magic Commandery had not even ceded land, paid indemnities, and asked for peace. So, the atmosphere was still a little heavy when Lin Yi attended the court meeting for the first time since his "serious illness".

"The defender-general of the state has finally shown himself! You've been sick for a few days, have you recovered?"

When Sima Yunfei saw Lin Yi appear, he immediately laughed sarcastically, ""It's a good thing that there's no bad news in the battle reports these days. Otherwise, the defender-general of the state might not be able to recuperate in peace. "

"Thank you for your concern!"

Lin Yi pretended that he didn't understand Sima Yunfei's taunting and ignored him after cupping his hands.

At this moment, Sima Zheng Xin had also arrived, and Sima Yun Fei didn't have the time to continue laughing at Lin Yi. He quickly stood up straight and greeted Sima Zheng Xin.

After they were done, Sima zhengxin looked at Lin Yi with a warm gaze and spoke first, ""How is Zhong DA's body? If there's still anything wrong, there's no harm in resting for a few more days. "

"Many thanks for Royal grandfather's concern. Grandson is already very well! The soldiers on the front line are still fighting a bloody battle. As the defender-general of the state, I can't be bedridden all the time. "

Lin Yi smiled and bowed. He looked at Sima Yunfei and continued, ""I heard that there are no new battle reports these days. Are we in a stalemate with the black charm Commandery?"

Fei daqiang had secretly obtained the equipment from the central cooperative Chamber of Commerce, and Liu Ziyu had defeated the black charm Commandery. These battle reports were still on the way and had not reached the capital.

Lin Yi flew back in his spirit form, and was three times faster than a Messenger Eagle. In addition, Liu Ziyu was busy organizing the counterattack, and the battle report didn't arrive in time, so no one in the capital knew about this.

The situation had been completely reversed!

"Stalemate? Hehe...You can call it a stalemate, but in fact, the black magic Commandery is suppressing us. We can't do anything but rely on the defense of the city wall to survive!"

Sima Yunfei laughed coldly and mocked Lin Yi subconsciously, ""It seems that the elite soldiers and generals under the defender-general of the state are also very ordinary! We can't turn the tide of the battle ..."

"Your Highness is right. Maybe I should go there myself and see if I can defeat the black magic Commandery."

Lin Yi had a teasing smile on his face, and one sentence from him made Sima Yunfei choke!

Sima Yunfei pushed Liu Ziyu out because he didn't want Lin Yi to lead the Army.

For one, it was for the young masters "Union of the conferred kingdoms, and for two, they didn't want Lin Yi's influence in the military to expand.

Of course, they couldn't let Lin Yi lead the troops at the front line!

"Hahaha, the defender-general of the state can't be moved easily. In fact, it's already very good that we can stop the attack of the black magic Commandery. General Liu Ziyu did a good job. Changing the commander at the last minute is a taboo in the Army. We'd better wait and see. "

Sima Yunfei was a little annoyed. He felt like he had slapped himself in the face, or rather, he had shot himself in the foot. So, he changed the topic.
