

Bodyguard 7871

Chapter 7871

Thus, the group quietly made their way to the training ground, where they saw a neat formation of Imperial Army soldiers, roughly a thousand in total.

Apart from them, the martial arts competition participants who had separated earlier seemed to have completed their respective events, and their expressions were different.

Many of them looked very disheveled, so they should have fought.

The old eunuch beside the Prince was sitting in an armchair, waiting for Lin Yi and the others to come over.

"Congratulations to all young masters for completing the literary competition. Next is the martial arts competition!"

The old eunuch stood up slowly and walked to the edge of the ring. He looked down at the people below the ring and said, ""For the first round of the competition, young masters, please choose the martial skill you have prepared to cultivate. The time limit is six hours!"

"Within the time limit, everyone can choose many different martial skills, but you must cultivate one martial skill to the small success realm before you can choose another martial skill!"

The Dragon state's conferred kingdoms ranked the proficiency of a martial technique according to the power it could exert.

Those that could be activated, but only had ten percent of the power of a normal martial technique, were considered to be at the elementary level.

Reaching 40% was considered minor accomplishment, 90% was major accomplishment, and 100% was perfection.

"According to the difficulty of the martial technique cultivation, there will be different point rewards. As you can see, there are marks on the side of each martial technique, ranging from ten points to a hundred points. Please act according to your ability. If you can't successfully cultivate it within the time limit, the same amount of points will be deducted!"

These points were only for those who participated in the cultural competition. Those who participated in the martial arts competition alone would have their points doubled!

Lin Yi realized that some of the weaker contestants had lost almost all of their fifty base points!

These unlucky children must have been aiming too high and overestimated themselves. They chose a more difficult martial technique and failed to complete it within the time limit, so it was a tragedy!

"You can get points if you reach the initial stage of the martial technique within the time limit. If you reach the advanced stage, you can get double the points. If you can reach the perfection stage, you will get four times the points!"

The old eunuch didn't care what his subordinates were thinking. He continued to explain the rules unhurriedly, "In the end, if both parties have the same amount of points, the one with the higher proficiency in the martial arts technique will receive the privilege of being ranked first."

The so-called last naturally referred to the end of the young master's gathering. If the total score was the same, then the person with a higher martial skill cultivation would have an advantage, which was equivalent to having half an extra point.

This was to encourage everyone to practice their martial arts.

However, everyone knew that for any martial technique, it might be easy to get started, and it might not take too much time to reach the initial success stage. However, it was not easy to reach the great success stage.

Without months or even years of hard work, it would be difficult for even the simplest martial technique to reach the great circle.

"If you can cultivate a martial art technique to the small success stage in two hours, can you cultivate it to the large success stage in the remaining four hours? If you have the time, why don't you practice two more martial arts techniques, and you'll get more points!"

Some people muttered in a low voice. They obviously didn't think that it was a good idea to cultivate martial skills in a deeper way. In fact, most people thought so.

The distance from small success to great success was more than ten times greater than the distance from entry to small success!

It was not worth it to waste time and energy for the sake of double points!

Lin Yi, on the other hand, pinched his chin, deep in thought. Four times the points just because he completed it?

Then, if he chose a martial technique that cost 100 points to cultivate to perfection, it would cost him 400 points!

Although the gap between him and Liu Ziyu's points was already very big, it was good to continue to widen the gap since they didn't know what other events would come.

But Lin Yi wasn't planning on showing off himself this time-he wanted Liu Ziyu to take the lead.

"Now, you can start choosing your martial skills. In six hours, we will test the results of all the young masters!"

The old eunuch waved his hand, turned around, and left the arena. He obviously didn't plan to wait for six hours.

Below the ring, there was a long table with books of martial arts techniques on it. Next to each martial arts technique was a score.

Ximen liuyan was the closest to him. She reached out to take a book and read it, but was stopped by the Imperial Army.

"Young master, once you pick up a martial skill here, you've already made your choice. You can't change to another martial skill before you've cultivated it to a small success. Please think carefully before you decide."

The Imperial Guard was expressionless. It seemed like he did not remind Ximen liuyan on purpose, but merely because of his duty. "Young masters, please take note that you are forbidden to flip through the book before you have chosen your martial technique!"

A few people, like Ximen liuyan, who had reached out to take the book, quickly retracted their hands. This matter could not be done casually. They had to consider everything before taking action.

Among those generals, there were obviously a few who had suffered losses before. They were teachers who did not forget their past. This was a bloody lesson!

Ximen liuyan calmly stopped and acknowledged the Imperial Guard.

The martial skill that he wanted to take was only worth ten points, and it was the lowest grade!

There was no way Ximen liuyan would choose this one, because even if she did, she wouldn't be able to close the gap between her and Lin Yi and Liu Ziyu.

After glancing at the martial arts techniques in the other seats, Ximen liuyan began to hesitate. Should she choose the highest level martial arts technique that cost 100 points?

If he failed to master it ... And 100 points were deducted, he would really be finished!

The others were also hesitating. If they wanted to close the gap, they had to choose the most difficult martial arts technique or cultivate quickly, and they could repeatedly cultivate several martial arts techniques to the minor completion level within six hours.

There was not much time. These people had already made a decision after some consideration. If they continued to hesitate, they would have even less time to cultivate.

In just a minute or so, several people had made their choices.

They all chose martial techniques that were worth 30 points and above and below 60 points. Clearly, in their opinion, this section was the most suitable!

Feng Zhipeng was one of the first to make a move. He picked up a martial technique that was worth 60 points and flipped through it. His eyes were filled with surprise.

"Feng Zhipeng, what did you find?"

Sima Zhongxiao and Feng Zhipeng were partners, and they happened to notice the slight change in his expression. He immediately lowered his voice and asked, ""Isn't it simple?"

"No! It's not simple!"

Feng Zhipeng shook his head slightly. He calmed down and took a deep breath. "But to me, this martial technique is extremely simple!"

Sima Zhongxiao was slightly stunned. What did he mean?

It sounded a little contradictory!

Feng Zhipeng looked left and right, covered his mouth with one hand, and continued in a voice as soft as a mosquito 's, ""I've learned this martial art technique in the sword spring sect before, and it's in a copy in the corner of the library Pavilion. I didn't expect that a conferred Kingdom of the Dragon state would also have it. When I saw the same name just now, I was worried that it was just the same name."

Chapter 7872

"After reading the content, I was relieved. When I was in the sword spring sect, I secretly practiced this martial arts technique and had long reached the small success realm. Hahaha, sixty points, it's like giving it away for free!"

It was a pity that Feng Zhipeng did not practice much after a period of time, so he had only reached the minor completion realm. He was still far from the major completion realm.

"How long did you take to reach the small success stage?"

Sima Zhong Xiao was secretly envious of Feng Zhi Peng. His luck was really good, but he was more concerned about the difficulty of the martial skill,""Can we get there in six hours?"

"Uh ... It's more than that! That's why I said it's not simple!"

Feng Zhipeng wasn't prepared to trick Sima Zhongxiao on this kind of thing. After recalling for a while, he said,""I remember that when I first started cultivating this martial technique, I only took less than an hour to get to the basics. As for the minor completion, I think I only completed it the next day!"

Not to mention his great achievements, he did not make much progress after practicing for a while. Feng Zhipeng felt that it was enough, so he stopped practicing.

This also meant that the higher the level of a martial arts technique, the harder it was to improve. Feng Zhipeng was quite talented, and it was already very impressive that he could reach the minor completion level in a day.

"I understand ..."

Sima Zhongxiao felt bitter in his heart. His talent was not bad, and he thought that he was stronger than Feng Zhipeng, but there was a limit to his strength.

Since Feng Zhipeng needed a day to reach the initial success stage, he would not be able to do so much faster.

In other words, Sima Zhongxiao would most likely not be able to complete the small success stage of a martial skill with sixty points within six hours!

To be on the safe side, Sima Zhong Xiao chose a martial skill that was worth forty points and did not even dare to touch the one that was worth fifty points.

Most of the people had already chosen their martial arts by this time. Only a few people, including Lin Yi and Liu Ziyu, were still silent.

Feng Zhipeng had already chosen a martial art technique that he had learned before, but it was not a good time to choose a second one right away. Therefore, unlike the other people who were studying and cultivating nervously, he was in a very relaxed mood.

Lin Yi and Liu Ziyu didn't move, and he started mocking them, "Why haven't general Zhong da and general Ziyu chosen a martial skill yet? Could it be that you think that there are too many points and it doesn't matter if you waste some, so that you can give us a chance to close the gap?"

"Even if I give you a chance, you won't be able to close the gap by much!"

Lin Yi's lips twitched as he chuckled. "A distance of a hundred steps, you have closed the distance by one step, but there are still ninety-nine steps. What's the difference between the two?"

Feng Zhipeng was slightly angry, but he had to admit that there was no difference between a hundred steps and ninety-nine steps!

The difference in points between the two of them was just as Lin Yi said. Even if Lin Yi didn't get any points now and even had one point deducted, Feng Zhipeng had sixty points. The difference in points between the two of them was still as huge as a chasm, and there was no hope of catching up.

"By the way, shouldn't you be cultivating now? With such a poor foundation, you should work harder. You actually have the time to chat?"

Lin Yi's expression was one of disbelief as he shrugged his shoulders. "Even if you learned it in the sword spring sect's library, it's not a reason for you to waste your time, right?"

Feng Zhipeng's face turned red as he realized that Lin Yi had seen the skill he chose before!

Or even learned it before?

So should he go and Exchange for a second martial technique or not?

If he did, Lin Yi would get sixty points for free from this sword spring sect skill. If he didn 't, he would lose his second chance to practice it ...

Harming others for no benefit, and not harming others might not necessarily be beneficial to oneself ...
Then let's just harm others for no benefit!

Feng Zhipeng hmphed at Lin Yi and turned his head away, pretending to focus on the skill in his hand.

In order not to give Lin Yi points easily, he made up his mind that he'd rather not learn the second martial skill before Lin Yi picked one.

"Cousin Zhong da, they've almost finished choosing their martial techniques. Let's start!"

Liu Ziyu had been looking at the martial skill book on the table. Although he could only see a name and how many points it was worth, he had already made some judgments.

"Right now, the martial skills they have chosen have basically not exceeded 70 points. It should be that they all feel that the martial skills above 70 points are too difficult and that six hours is not enough to cultivate them to the minor completion realm!"

"Cousin Zhong da, we already have enough points, so we don't have to take the risk of choosing something too valuable. We can just choose a fifty-point one, right?"

Lin Yi chuckled as he shook his head, evidently not agreeing with Liu Ziyu's words. "Ziyu, we're indeed leading by a lot, but we can't be afraid now. We have to show our dominance and completely suppress them!"

"Once the gap continues to widen, don't you think the people behind will feel despair? This way, no matter what other projects there are, we will be in an invincible position!"

"One more thing. We have so many points. Even if we fail, it doesn't matter. We can afford to lose!"

Lin Yi patted Liu Ziyu's shoulder and looked at him encouragingly before shaking his head at the high-tier section.

"Cousin Zhong da is right! We should show our power!"

Liu Ziyu's blood was boiling from Lin Yi's words, and he felt a little guilty. He felt that his cousin was indeed his cousin—he was far-sighted, and was much more brilliant than him!

Their ability to see through problems was on a completely different level!

It was definitely right to listen to cousin Zhong da!

Thus, Liu Ziyu nodded his head vigorously and strode to the high-ranked martial arts section, where no one cared about. He casually picked up a martial arts technique that was worth 100 points.

"Cousin Zhong da, I'll choose this one! Which one do you want?"

Liu Ziyu wanted to bring one for Lin Yi as well-as long as Lin Yi agreed, the guards wouldn't stop him.

"Don't worry about me. I already have a target!"

Lin Yi waved his hand with a smile and walked slowly to the lower section, where no one was interested in. He picked up a skill book that was worth ten points.

Liu Ziyu's hand that was holding up his martial arts technique book instantly stiffened, and at the same time, he was at a loss.

No, cousin Zhong da, what you said just now seemed to be ... That, did I hear wrong?

So, in fact, the correct answer should be to go there?

Liu Ziyu was in a quagmire of self-doubt, and he didn't suspect that Lin Yi was trying to trick him. He just thought that he misunderstood!

"Ziyu, don't worry about me. Hurry up and open the book. I'll help you practice it in secret!"

At this time, Lin Yi's voice rang in Liu Ziyu's consciousness,""From now on, I'll hide behind you and act as the secret driving force. You'll have to carry the flag of our Hongshang Commandery and be our representative."

"In such a case, we will have more time to react and to turn things around when something unexpected happens. Do you understand?"

Liu Ziyu's body trembled as he came back to his senses. He was full of admiration for Lin Yi!

As expected of Zhong DA's older cousin, he was far-sighted!

Chapter 7873

She nodded slightly in response before opening the book in her hand and started reading.

Feng Zhipeng had been paying attention to Lin Yi and Liu Ziyu the whole time, and he couldn't hold it in anymore after they made their choices.

Just now, he had already thought it through. The rules didn't say that the martial arts techniques he had learned in the past didn't count, so it wasn't against the rules for him to choose the martial arts techniques he had learned before, and it wasn't embarrassing.

Then what was there to be afraid of!

"Hahaha, general Zhong da, general Ziyu, are you really giving us a chance to catch up?"

Feng Zhipeng laughed very happily. Putting aside the 10-point martial arts technique, it didn't matter if it was successful or not, but a martial arts technique that was worth 100 points? He was bound to lose!

Feng Zhipeng knew very well what kind of person Liu Ziyu was. The two of them had known each other since they were young, and they both knew each other's talents.

Feng Zhipeng did not think that Liu Ziyu would be able to cultivate a 50-point martial technique to minor completion in six hours, let alone a 100-point martial technique.

In other words, Liu Ziyu's 100 points would definitely be deducted!

"That's right. I'm giving you a chance to catch up. You have to grasp it well and not let down our painstaking efforts!"

Lin Yi's lips curled into a mocking smile, and Feng Zhipeng felt his heart ache just by looking at it!

"Alright, I've already chosen a martial arts technique. You should also quickly change to a second martial arts technique. Don't waste time here. After all, you're from Hongshang Commandery. Don't be too embarrassed!"

Feng Zhipeng felt guilty as if Lin Yi had seen through him, but he was also very angry!

He had clearly wanted to mock Sima Zhongda and Liu Ziyu, but why was he being ridiculed again and again after just a few words?

He wanted to say something more, but Lin Yi had already lowered his head and was no longer paying attention to him. Liu Ziyu, on the other hand, was studying the technique from the beginning to the end, completely ignoring Feng Zhipeng.

Lin Yi flipped through the books in his hands while using his spirit sense to scan Liu Ziyu's book. He split his attention and analyzed the two skills at the same time.

The ten point worth of skill was indeed simple-Lin Yi had already grasped the fundamentals after looking through it. He hadn't demonstrated it yet, but as long as he used it, even if it was the first time, he was confident he could reach greater mastery.

With this speed, six hours was enough for Lin Yi to learn dozens of skills and easily earn hundreds or even thousands of points!

But in order to keep a low profile, Lin Yi didn't plan on doing that. He wanted to help Liu Ziyu shock the world!

"Ziyu, get ready to cultivate after you're done. I'll secretly guide you on how to activate this martial technique. You must relax all the muscles in your body and don't have any thoughts of resisting."

Lin Yi continued to communicate with Liu Ziyu through his divine sense. He'd finished reading the 100-point martial skill book, but it wasn't easy to guide Liu Ziyu to practice it successfully.

Liu Ziyu still nodded in agreement. He closed the book and began to relax.

Lin Yi's spirit sense entered Liu Ziyu's body, guiding him into a training state.

Only a super strong spirit like Lin Yi could do something like this. If it was someone else, the chances of him dying would be higher.

His divine sense slowly guided Liu Ziyu's muscles and bones, using a special vibration to fine-tune various details and form different body movements.

Outsiders could only see Liu Ziyu's body slowly executing the moves of his martial technique, but they could not understand the profundity of it at all.

Even if he imitated them, he could only learn the shape. The essence of martial arts techniques was in the coordination of the bones, bones, and muscles in the body!

If it wasn't for Lin Yi's spirit sense guiding him, Liu Ziyu wouldn't be able to learn this skill in a day!

And now, Liu Ziyu's mastery of this martial art technique was already soaring at an unbelievable speed!

Unknowingly, four hours had passed. Many people who had chosen low-value martial arts techniques had almost finished cultivating.

For example, Liu Zimei was applying for the assessment at this time.

He had chosen the forty-point battle technique, which wasn't very difficult. At this point, an Imperial Army soldier would walk up the stage and Exchange a move with him using the same battle technique to test the level of his cultivation.

"Initial stage, pass! You've obtained 40 points!"

The Imperial Army soldier who acted as the judge announced expressionlessly.

Liu Zimei was forced to take a few steps back, but she had indeed cultivated her martial arts technique to the small success realm!

"Many thanks!"

Liu Zimei cupped his fists towards the Imperial Army soldiers on the stage, his attitude extremely humble.

After all, they were the Imperial Guards of a conferred Kingdom, so he did not dare to treat them lightly.

However, the moment he turned his face, Liu Zimei began to show off. Seeing that Liu Ziyu was still doing all kinds of movements slowly and leisurely, he could not help but mock him loudly.

"Yo, yo, yo, Liu Ziyu, the martial arts you've practiced is really something new! With such slow movements, even a mosquito wouldn't be able to hit him, right? A 100-point martial technique is indeed a bit too difficult for you! Why don't you just give up?"

"It's a big loss to lose 100 points, but you still have time to learn other things. Look at how smart Sima Zhongda is, getting a ten-point martial skill. You might be able to recover some of your losses!"

"Oh my, speaking of Sima Zhongda, it's been so long, but you haven't even mastered a ten-point martial skill? But it doesn't matter, you won't care about these little points anyway, so you're looking down on them, right?"

Liu Zimei didn't rush to choose the second skill after getting off the stage. Instead, she was chattering non-stop between Lin Yi and Liu Ziyu.

It wasn't just for the sake of mocking the two, it'd also affect their training.

If Lin Yi and Liu Ziyu were to get distracted and fail, that would be great!

However, Liu Ziyu completely ignored him, and turned a deaf ear to Liu Zimei's words.

At this moment, Liu Ziyu was completely immersed in his training, all his attention focused on Lin Yi's divine sense guidance.

Forget about Liu Zimei's provocation. Even if Liu Zimei were to make a move, it would probably not affect her at all.

Lin Yi, on the other hand, laughed as he walked past Liu Zimei, "I gave you a chance to catch up, but you didn't take it. What are you talking about here?"

"Since you want to see me get the points so much, I'll fulfill your wish!"

With that, Lin Yi was already on the stage!

Liu Zimei snorted coldly. "It's just ten points. So what if you've mastered it?" You're acting like you're a Big Shot!"

Lin Yi's lips curled up, and an Imperial Army soldier followed him up the stage.

The two of them stood opposite each other, saluted each other, and then took the same posture.

This battle technique wasn't very difficult, and there were many people in the Imperial Army who knew it. As such, no one paid much attention to it at first. After all, it was a simple battle technique that only cost ten points.

Chapter 7874

However, when the same martial technique collided in the ring, everyone's attention was suddenly attracted.

There was no other reason other than the fact that its power had exceeded his expectations!

The testing soldier was sent flying by Lin Yi's attack!

This was a little unbelievable.

Although this Imperial Army soldier had yet to reach major accomplishment in this martial technique, he was already infinitesimally close to it. It could be said that he was only one step away from the door.

Therefore, even if he were to face a master of this martial technique, the gap between the two sides would not be too big!

After all, during the test, both parties would be fighting one-on-one head-on. Therefore, this small difference would only cause one of them to be knocked back.

Just like Liu Zimei, who had taken the first test.

In the end ...

"Perfect ..."

The adjudicator, the Imperial Army soldier, was stunned. He subconsciously muttered, ""It's actually at the great circle level!"

A simple martial technique, when cultivated to the highest level, would have the effect of turning something rotten into something magical!

Therefore, no matter how simple a martial technique was, very few people could cultivate it to the great circle, because it was simply too difficult!

Yet, there was a mutant right in front of him!

"Thanks for letting me win!"

Lin Yi cupped his fists at the Imperial Guard before turning to the judge. "I won. How do I calculate the points?"

The judge came back to his senses, a complicated look on his face as he replied, "It's a martial skill at the perfection stage, and you can get four times the points! So, young master Zhong da, your score this time is 40 points!"

Liu Zimei's jaw dropped as he looked at Lin Yi in disbelief!

He was just mocking Lin Yi for choosing a ten-point skill and not being able to learn it after so long.

But who would have thought that this damned Sima Zhongda was actually holding back his ultimate move and had actually directly unleashed it to the level of perfection!

Crazy!

At the young masters "gathering, other than a madman, who else would pursue such a thankless reward in their limited time?

Even a conferred Kingdom of the Dragon state would not have expected that someone would be able to complete the mission, right?

You have the nerve to take this kind of reward that is more symbolic?

Don't you have any shame?

Liu Zimei was cursing at Lin Yi in her heart, but she couldn't even say a word in reality!

What else could he say?

He knew that the more he said, the more humiliation he would have to bear. If he was smart, he should just stop!

"How is it? Have you seen enough? Do you need me to demonstrate it to you again?"

Lin Yi walked down the stage, a mocking smile on his face as he passed by Liu Zimei. "It's only a ten point martial technique, it can't compare to the difficulty of your forty point one, I've made a fool of myself!"

F * ck! Who was laughing at who?

Liu Zimei felt indignant in her heart, but she knew what to do and lowered her head, not saying a word.

He suspected that Lin Yi had already mastered the skill-who else could've trained it to perfection in such a short time?

Besides, Lin Yi didn't even train much before, he was just sitting there all the time. It didn't make sense for him to reach the great circle!

However, at this moment, Liu Zimei really did not know, and she did not dare to ask!

He could only suppress his doubts and stare resentfully at Liu Ziyu, who was about to lose 100 points!

At that time, he would definitely return the favor with double the amount of ridicule!

Lin Yi's spirit sense had never stopped helping Liu Ziyu with his training. The series of events just now was just a display of him being distracted.

With Lin Yi's help, Liu Ziyu's body trembled slightly, and all his comprehensions were instantly integrated!

Every cell in his body was jumping happily, recording the subtle changes in his muscles, meridians, bones, and so on!

From now on, Liu Ziyu didn't need Lin Yi's spiritual sense to guide him-he could easily and perfectly execute this technique!

"Hehe, Liu Ziyu, are you going to suffer from Qi deviation? If you really can't, don't force yourself! It's disgusting to see him twitching like this!"

Liu Zimei seized the opportunity and started with a wave of small taunting.

At this time, Liu Ziyu's eyes were still closed. He was prepared to wait for Liu Ziyu to open his eyes before unleashing his ultimate move!

There were a few people who had completed the assessment and were in a more relaxed mood. After choosing a ten or twenty points martial technique, they were not in a hurry to cultivate, but came over to watch the show.

It couldn't be helped-Lin Yi and Liu Ziyu's performance was too amazing, and they were under a lot of pressure!

Now that he had the chance to see a joke, he naturally couldn't miss it!

"He's probably going to fail? Looking at his appearance, I'm afraid he can't even achieve the rudiments!"

"I think so too. After all, it's a 100-point martial technique. Not everyone can learn it ..."

"It's not that I can't learn it, it's just that the time is too short! In my opinion, the martial skills this time are divided into several levels of difficulty. The easiest is naturally ten points and twenty points. Thirty to forty points is a little difficult, and fifty to sixty is already relatively difficult, but those with outstanding talent also have the opportunity to reach the small success stage within six hours. "

The few of them were discussing in low voices.

They were jealous of Lin Yi and Liu Ziyu, but they didn't have any deep grudges. Naturally, they wouldn't be as loud as Liu Zimei to affect Liu Ziyu.

They were all smart people in their commanderies, and they would not easily make enemies unless it was necessary.

"I'm afraid that only geniuses will have the chance to cultivate to the initial success stage in six hours when they reach the level of seventy and eighty points ... Although I've never seen any martial skills of this level, I've heard of the name of one of the martial skills."

The person from before continued to speak in a low voice, and the others beside him nodded in agreement from time to time." 90 points and 100 points. I think there are two difficulty levels, but it doesn't mean much. After 80 points, even a genius will find it difficult to complete the cultivation."

"It's impossible for him to even enter the sect within six hours, let alone the initial stage. That's why Liu Ziyu was a little arrogant this time. He miscalculated!"

"That's right, that's right!"

.....

Liu Zimei, who had been listening by the side, could not help but sneer, ""You're all wrong. Liu Ziyu didn't miscalculate, he was just too arrogant! Does he really think that he's a super genius just because he got a lot of points by luck?"

"It's a pity that martial arts training can't be completed by luck. This time, he should be able to recognize his true nature! He's just a stray dog, how is he a genius!"

As soon as she said that, the few people who were discussing earlier glanced at Liu Zimei in unison, then turned around and left in tacit understanding.

"Ah, there's still time. Hurry up and cultivate the second martial arts technique. We still have a chance to get points before the end of the competition!"

"Right, right, right, an inch of time is an inch of gold, and an inch of gold can not buy an inch of time! We can't waste time, we must cherish it!"

They were scolding Liu Zimei in their hearts. She was just watching the show. What was she blindly making comments about?

Chapter 7875 Another Perfection

If we were to agree, wouldn't we be offending Sima Zhongda and Liu Ziyu?

These people now understood that Lin Yi and Liu Ziyu weren't simple people. Whether it was in civil or martial arts, they were both outstanding talents!

So what if Liu Ziyu had failed once?

At most, they were just here to watch the show, but it did not affect Liu Ziyu much!

At a time like this, only someone with a screw loose would choose to become enemies with Sima Zhongda and Liu Ziyu!

There was not much of a problem with Liu Zimei's brain. He just could not take this lying down. He was clearly a stray dog that the Liu family looked down on. How did he manage to do so well?

Lin Yi looked at Liu Zimei with pity. He didn't have much to say to someone who couldn't see the situation clearly.

"Cousin Zhong da! I've mastered it!"

Liu Ziyu finally opened his eyes, and the first thing he saw was Lin Yi. He ran over with a face full of joy. "This martial technique is quite powerful. I didn't think I would be able to master it!"

Liu Zimei was stunned for a moment. He had really mastered it?

Is this a joke? Was there a mistake somewhere?

Or perhaps, that stray dog was just bragging? It definitely was!

"Hahahaha, Liu Ziyu, did you think that you've mastered it just because you've finally gotten started? If you want to pass, you can't just enter the beginner level, you must reach the initial level!"

Even if Liu Zimei was beaten to death, she would never believe that Liu Ziyu was able to master a martial technique that required 100 points in just over four hours. Thus, she instinctively thought that Liu Ziyu was only at the beginner level.

In fact, the people around them who had noticed this had similar thoughts. After all, they had all seen Liu Ziyu's state when he was cultivating.

That kind of slow and unhurried movements that made him look like an old man ... He couldn't even move his muscles and bones, so how could he have cultivated such a difficult martial art?

"summer insects can not speak of ice!"

lin yi smiled and shook his head, ignoring the people around him. he patted liu ziyu's shoulder."not bad! let's go for the assessment now! let those who underestimate you know that there is indeed a huge gap between people!"

at this point, lin yi glanced at liu zimei and added,"the difference between a human and a dog is even greater. dogs will never understand why there is such a huge difference between them and humans!"

"Yes! Cousin Zhong da!"

Liu Ziyu nodded his head vigorously. Without even looking at Liu Zimei, he turned around and went up the stage.

The one in charge of the assessment this time was an officer from the Imperial Army. It was clear that the martial arts that Liu Ziyu had learned were not something that ordinary soldiers could master, which also proved the difficulty of the assessment.

"Young master Liu, please!"

The Imperial Army officer bowed slightly and cupped his fists in greeting. He did not do this out of respect for Liu Ziyu's status, but because Liu Ziyu was the only person who had challenged the 100-point difficulty martial technique!

Regardless of whether Liu Ziyu would succeed or not, his courage alone was worthy of his respect.

Those who had never cultivated it before would never understand how difficult this battle technique was. In the eyes of this Imperial Army officer, reaching the initial success stage in six hours was an impossible task!

It was already very impressive to be able to reach the entry level within six hours!

Hence, for Liu Ziyu to be able to stand on the stage in less than six hours, he had at least far surpassed the entry level!

"Please give me some pointers!"

Liu Ziyu didn't think too much about it. When the other party bowed, he very naturally returned the bow. Then, he crossed his feet and got into an opening stance!

Just this stance was enough to cause the Imperial Army officer's expression to change!

As the saying goes, once an expert makes a move, one will know if he has it or not!

The Imperial Army officers had been immersed in this martial art technique for many years, so they could naturally tell with a single glance whether Liu Ziyu had just entered the sect or if he had successfully cultivated it.

However, the people in the audience did not know that Liu Zimei was deeply dissatisfied with being ignored just now and was still making a fuss to make her presence known.

"Yo, yo, yo, you've put on a pretty good show. You took your time just now because you were studying how to put on a pretty show, right? Amazing! Liu Ziyu, you've definitely succeeded in this aspect!"

"Hey, is anyone willing to make a bet? I'll be the banker and bet on how many steps Liu Ziyu will be sent flying. How about it?"

Liu Zimei wanted to pull some people in to humiliate Liu Ziyu, but unfortunately, no one responded.

This was because most of the people, including his two brothers, were making the best use of their time to cultivate.

The others would at most pay attention to Liu Ziyu's performance, but they would not come to make Liu Ziyu their enemy because of Liu Zimei!

The ruckus below the stage had no effect on the one on the stage. The Imperial Army officer began to use his martial skill with a grave expression.

On the other hand, Liu Ziyu was doing the same thing at the same time.

In the end, the two of them let out a low groan at the same time and charged forward like lightning, using the same amount of power to push their martial skills to the limit!

The center of the ring suddenly burst out with a powerful air wave, followed by a dense sound of fists and feet clashing!

In the blink of an eye, the two had exchanged more than a hundred blows, and then the Imperial Army officer was sent flying, forming a small arc in the air before landing at the edge of the stage.

The Imperial Army officer staggered as he landed and almost fell off the stage. He only managed to stabilize himself after much difficulty and didn't make a bigger fool of himself.

However, he knew in his heart that Liu Ziyu had held back at the last moment. Otherwise, he would have been groaning under the ring by now.

Standing at the edge of the stage and groaning under the stage were two completely different states!

"Thanks for letting me win!"

Liu Ziyu smiled as he cupped his fists and bowed to the Imperial Army officer.

The Imperial Army officer's face turned from red to white, and then a look of admiration appeared on his face. He cupped his fists at Liu Ziyu and bowed deeply. "Young master Liu's talent is astonishing, this general is willing to admit defeat! Thank you for your guidance!"

The crowd instantly burst into an uproar. This was an officer of the Imperial Army from a conferred Kingdom of the Dragon state! When had they ever seen someone from a conferred Kingdom of the Dragon State Act so humbly?

The Imperial Army soldiers who had gone up the stage earlier were all so arrogant. Regardless of victory or defeat, they didn't care much about their opponents. But what was going on with this Imperial Army officer?

Admit defeat?

How was that possible?

Liu Zimei was especially furious. He had not even finished speaking when the outcome was already clear on stage!

Although he didn't win the bet because of this, which saved him a lot of money, his heart was really stuffed!

Damn stray dog, he must have cheated!

He must have learned this martial technique long ago, otherwise, how could he do it?

On the other side, the judging Imperial Army soldiers were dumbfounded for a long time before they finally reacted.

"Perfect ... Perfect!"

He didn't quite believe his own words!

it was one thing for sima zhongda to have reached the great circle of martial skill with ten points, but now there was another one worth a hundred points ...

has the world gone crazy?

one had to know that the imperial army officer who had sparred with liu ziyu earlier had only reached the mastery stage after years of studying this battle technique!

Chapter 7876 Nine-Level Pagoda Of Arrays

The further he advanced, the more difficult it would be to improve. If he wanted to go from the great completion to perfection, he would need at least ten years or even longer. It was also possible that he would never be able to reach perfection!

The Imperial Army members who knew the situation all looked at Liu Ziyu with complicated expressions. This was definitely a super genius!

Even if Liu Ziyu had cultivated this martial art technique before, to be able to reach perfection at such a young age, he was an extraordinary genius!

However, if he had never learned it before and was just applying what he had learned on the spot ... He had already surpassed the realm of geniuses and should be considered a monster!

Liu Ziyu easily won the quadruple reward. When he got the 400 points, he was a little dumbfounded.

What the hell? It was perfect just like that?

Cousin Zhong da is too awesome!

He originally thought that he had just gotten what he wanted. Who would have thought that it would actually be a direct perfection!

Liu Ziyu blinked his eyes, still feeling a little unreal. He couldn't help but think, is there anything in this world that cousin Zhong da can't do?

As expected, he was the omnipotent cousin Zhong da!

If he could even help others master such a difficult martial skill, wouldn't it be even easier for him to cultivate it himself?

Speaking of which ... If cousin Zhong da wanted to have a child of his own, he might be able to do it, right?

Omnipotent ... Liu Ziyu quickly shook his head. He had run off course!

"Congratulations, young master Ziyu. You're indeed a genius!"

When Liu Ziyu stepped down from the stage, there were already people who started to flatter him.

At first, it was the people from the black charm Commandery. They were already afraid of Liu Ziyu's beating. Now, they felt more and more afraid of Liu Ziyu, so they rushed to cozy up to him.

They felt that the black charm Commandery's loss was really justified!

Then, there was seitong Commandery. They had the same reason-they were scared of Lin Yi, but Lin Yi was on Liu Ziyu's side.

The two of them were there, so it didn't matter who he flattered!

Well ... The people of seitong Commandery were still traumatized by Lin Yi, and didn't dare to go to him directly. It was a good idea to use Liu Ziyu to save the country.

In addition to the people from these two commanderies, the people from the commanderies that were closer to Hongshang Commandery also began to show goodwill.

Although it was not as straightforward as the black charm Commandery and the seitong Commandery, it was enough to show that the Hongshang Commandery was increasing in their hearts.

Or rather, it was because of Lin Yi and Liu Ziyu that they paid more attention to Hongshang Commandery.

As for the others who didn't say anything or were hostile like Liu Zimei and Ximen liuyan, Lin Yi didn't care at all. They were all weaklings, so he didn't care!

In the following time, because of Liu Ziyu's amazing performance, they seemed to be a little unperturbed.

some people successfully got their points, while others had their points deducted. however, no one cared much.

the difference was just too big-liu ziyu's four hundred points alone were enough to kill everyone except lin yi, not counting the thousand or so points he got from wenbi!

lin yi, on the other hand, had successfully gotten everyone's attention on liu ziyu, while he kept a low profile and hid himself in second place ... well, a thousand points was still a low profile!

in any case, not many people would care about the second place!

after six hours, the old eunuch slowly appeared in the ring again. the young eunuch beside him automatically placed an armchair for him, but the old eunuch did not sit down. instead, he walked to the edge of the ring.

"the first round of the martial arts competition has come to an end. the young masters have performed very well, especially young master liu ziyu and young master sima zhongda from hongshang commandery. i hope that everyone can continue to work hard and continue to obtain good results!"

the old eunuch specifically praised lin yi and liu ziyu, meaning that the two were the focus of attention. this made the others jealous!

However, they had no choice. They were not as good as him, so what could they say?

Lin Yi and Liu Ziyu cupped their hands at the old eunuch, expressing their gratitude.

The old eunuch also nodded with a smile.

The Prince Consort might be one of them, so the old eunuch naturally had to build a good relationship with him in advance.

After all, the princess was deeply loved by the Prince. As someone close to the Prince, he knew how powerful this was!

"Next up is the second task, challenge the array tower!"

The old eunuch clapped his hands twice.

The bluestone floor beside the ring made a clicking sound as the bluestone rose and folded, quickly revealing a dark hole.

The Imperial Army nearby had long since retreated. The late-witted young Master's Guild members also hurriedly ran to the side and curiously peeked at the increasingly large hole.

The diameter of the entire hole extended to about 20 meters before it slowly stopped moving. Then, a section of the spire began to rise from the bottom, followed by the complete body of the tower.

In less than 20 seconds, the entire array tower was fully displayed in front of everyone.

The entire tower had nine floors. It was made entirely of black crystal and rare metals, and there were many complicated array patterns carved on the surface.

Lin Yi used his spirit sense to scan the entire formation tower and confirmed that it was a local product of the sub Island. The formation system was completely different from what he had learned before.

Of course, this wasn't a problem. Lin Yi had read quite a few secret books about the sub island's formations in the sword spring sect.

Now that Lin Yi was a formation master himself, he could figure out the secret books himself. He didn't even need any weird stuff to explain.

"As all of you can see, this formation tower has a total of nine floors, and each floor has a different level of attack power. It's used by our conferred Kingdom to train our elites."

The old eunuch spoke unhurriedly, his eyes sweeping over all the participants below the stage, giving the illusion that he was talking to me."The rules this time are very simple. The number of points you get is based on the number of levels you pass!"

"1st level 10 points, 20 points for 2nd level, 40 points for 3rd level, and so on. With each level, the points will double! The final 9th level's score is 2560!"

Most of the people in the audience widened their eyes and even stopped breathing. They did not expect to hear such a terrifying number.

Originally, they didn't care about small things like 10 points for the first level and 20 points for the second level. But now!

After his breathing stopped for a moment, it quickly became heavy!

They'd already given up all hope-Liu Ziyu and Lin Yi's points were too high, like a natural chasm that they couldn't cross.

But now that the opportunity was right in front of them, they couldn't help but be excited.

"I'm sure all of you already know that as long as you pass the nine levels, you'll be able to obtain a total of more than 5100 points! In comparison, the previous ones were just a warm-up!"

Hearing the old eunuch's words, the breathing in the audience grew heavier.

Chapter 7877 Heaven-Defying Points

To be honest, they were stunned by the points of the ninth floor and didn't have time to think about the total points of the ninth floor.

Only now did he realize that this was F * cking crazy!

If he could really pass the ninth level, wouldn't counterattacks and such be easy?

"Big brother, we must pass the nine-level array tower and completely suppress that stray dog!"

Liu zizhu was inexplicably excited, and his face was slightly red. He clenched his fists tightly and muttered in a low voice beside Liu Zimei,""I don't even need to pass the ninth level. A few levels less should be enough!"

Liu Zimei could not help but roll her eyes. Was a few floors less enough? You're the one who's F * cking enough!

If it wasn't for the fact that everyone knows you're my brother, I really want to pretend not to know you!

Look at Liu Ziyu's current score, it was over 1500!

And the total of the first seven levels of the array tower was only 1270!

In other words, it was impossible to defeat Liu Ziyu after passing through the seventh level. Only by passing through the eighth level would he have a chance.

This would require Liu Ziyu's cooperation, as he had not passed the seventh level.

The only way to be safe was to clear the ninth floor!

At that time, unless Liu Ziyu also cleared the level, he would still lose even if he cleared the eighth level!

Everyone present was smart, and they all had the ability to calculate. Therefore, their expressions were changing, and they were all looking at Liu Ziyu, intentionally or otherwise.

The chance to turn the tables was right in front of them, and everyone knew that the key was to think of a way to stop Liu Ziyu and Lin Yi from passing the level as they passed the stage, or everything would be for nothing!

The old eunuch, who was on the stage, took in everyone's expressions. He was very satisfied with the effect.

If Lin Yi was three hundred points behind Liu Ziyu, the others were even more so.

This was not a good thing for the young masters Guild. In order to have a better effect, it was necessary to provide a chance to turn the tables.

"The rules are that simple. Now, let's officially begin! The order will be based on the number plate you get!"

The old eunuch waved his hand, and an Imperial Army officer took the bag from his waist and threw it into the air.

The opening of the bag naturally widened, and the small tags inside flew out and fell on all the participants like scattered flowers.

Although it wasn't accurate, there were small plates around everyone. One could catch one of them by reaching out or moving one or two steps.

Lin Yi didn't mind-he picked one randomly and saw that it was one of the bigger ones, probably at the end of the list.

Liu Ziyu's number was slightly lower than Lin Yi 's, but it was also a little bigger, probably in the middle and behind.

"The formation tower has six sides, and each side has a door that can allow one person to enter at a time, which means six people in a group!"

The one speaking this time was the Imperial Army officer who had previously served as the judge. He spoke faster and more clearly. "Those with number plates from 1 to 6, pick a door and enter!"

"Cousin Zhong da, what number did you get?"

Liu Ziyu looked at the number Lin Yi showed. "After this little brother! Has cousin Zhong da ever seen this kind of formation tower before?"

"No, I didn't! Ziyu, have you seen him before?"

"It doesn't look like anything special," Lin Yi replied, shaking his head, "are you confident in passing the ninth floor?"

liu ziyu laughed bitterly and whispered, "cousin zhong da must be joking. this formation tower is rather high end, and this little brother has only heard of it."

"putting aside the lower levels, the seventh level and above are all training grounds for the commanders of the imperial guards of conferred kingdoms. if one doesn't know the secret, even a mountain formation expert might not be able to pass!"

obviously, liu ziyu was also one of the people who didn't know the trick, but he wasn't too worried, because with the omnipotent cousin zhong da around, there was nothing that couldn't be solved!

lin yi smiled faintly and didn't say anything else, signaling for liu ziyu to watch the first six enter.

from number one to number six, there were two people dressed as generals who were only participating in the martial competition, and four people dressed as scholars.

this time, the old eunuch didn't say that the military points would be doubled, so everyone tacitly agreed that civil and military officials received the same treatment.

this was because the points for clearing the formation tower could not be compared to before. it would be extremely unfair if the points for the generals continued to double.

The six of them didn't interact much. They each chose a door that was closer to them and entered the array tower almost at the same time.

After they entered, the door closed automatically, isolating them from the outside world.

No one outside could see what was happening inside, and no sound could be heard.

Two to three minutes later, one of the six eaves above the first floor lit up, emitting a faint milky white light. One of the two generals had entered in that direction.

"The eaves of the tower have lit up. This means that you have passed the test of this level and have entered the next level!"

The adjudicator, the Imperial Army officer, timely explained, letting everyone understand the meaning of the eaves lighting up.

Before he could finish his sentence, the second eaves lit up as well. The remaining four eaves also lit up within 30 seconds, indicating that the first floor was not too difficult for the six of them.

Although the people on the outside couldn't see what was happening inside, no one said a word. They were all calculating in their hearts whether there was an advantage or gap between their strength and the six people.

The first batch of people who entered would provide a reference for the people who came later. Even if they could not learn from their experience, they could still obtain some inspiration during the time they spent clearing the stages.

The difficulty of the second floor was not much different from the first floor. Although the points were doubled, the time it took for the six people to clear the tower did not double.

The first person had entered for a little more than three minutes, and in less than four minutes, he was once again in the lead and had entered the third level.

The other five followed closely behind, clearing the second level within 30 seconds and beginning the third level's trial.

After another half an hour, the leading person entered the sixth level. At this time, the gap between the six people was slightly more obvious.

Of the two people who were lagging behind, one of them had entered the fifth level at almost the same time as the one in the lead had entered the sixth level, while the other had not even entered the fifth level.

The people outside started to get restless. From the current situation, it would be difficult for most people to pass the seventh level.

Although the first batch of people had not finished their rounds, it could be seen that a few of them were already lacking in stamina.

If that was all, then there was no hope of surpassing Liu Ziyu and Lin Yi.

Sure enough, after another half an hour or so, after the three of them passed the sixth level and entered the seventh level, the lights on the eaves of the tower below them were instantly extinguished.

There was no need for the referee to explain. Everyone knew that this meant that he had been eliminated.

There were still three people, two of whom were still persevering on the seventh level. They had already exceeded 15 minutes and had not passed or been eliminated. Their exact situation was still unknown.

Then, the general who had been leading the way successfully broke through the seventh level and entered the eighth level before the three people who had been eliminated left the array tower!

Chapter 7878 The Predecessors Talk About Experience

And then, there was no more and then. As soon as he entered the eighth floor, he was eliminated in an instant. All the lights on the eaves below were extinguished in an instant, and he became the fourth person to be eliminated after the three people.

However, only being eliminated after entering the eighth level was already very good!

Adding up the points from the first seven levels, the total was one thousand two hundred and seventy points, a full six hundred and forty points more than the people who were eliminated at the seventh level!

On the leaderboard, this person had jumped to second place, surpassing Lin Yi and only Liu Ziyu!

And the gap wasn't that big!

"It's good that someone passed the seventh level! Even though he was killed on the 8th floor, it still gave us a warning!"

Liu Zimei turned around and whispered to her two brothers, ""The eighth level's attack power is clearly much stronger than the seventh level 's. If I want to pass the eighth level, I must conserve my strength!"

"There's no need to worry about the time. There's no time limit in the rules, so try to save as much energy as possible. Then, when we reach the eighth level, we'll burst out. "

"Of course, there's a limit to how much you hold back. First, you have to make sure you pass through the seventh level. Only then can you close the distance between you and that stray dog, Liu Ziyu. The formation tower isn't the last segment. As long as we close the distance, we'll have a chance to overtake them!"

"Also, Zilan, your number is closer to the front. After you enter, remember to collect information so that we have a better chance of going further!"

Liu Zimei spoke quickly-he was about to say that if possible, he'd try to stop Lin Yi and Liu Ziyu from entering the formation tower.

However, this was clearly not very possible. If he said it out loud, he would easily be targeted by the conferred kingdoms of the Dragon state. Thus, he only thought about it and did not say anything more.

Liu Zilan nodded, indicating that she would remember it. Anyway, it was just something she did in passing, and she could not guarantee whether it would work out. She would see when the time came.

As they spoke, the two people on the seventh floor finally couldn't hold on any longer and were eliminated.

The final result was that only one person from the first group of six broke through the seventh level and was immediately eliminated after entering the eighth level.

The other five had all passed the sixth level and were all eliminated after persevering for a different amount of time on the seventh level.

Although the people who lasted longer looked more powerful, it was a pity that the final result would be the same. The points would not be different even if they lasted a few more minutes.

"The first batch of people has come out. The second batch, get ready!"

the judge didn't say much. when all six people came out of the formation tower, he didn't announce their points and directly let the next six people enter.

liu zilan was one of the six people in the second group. before they left, liu zimei grabbed his arm and quickly whispered, ""remember what i said! you must pay attention to gathering information. one more thing, everyone in the first batch has passed the sixth level, which means that the first six levels are not difficult. the real test starts from the seventh level!"

"you don't have to rush through the levels. try to preserve your strength in the first six levels, advance slowly, and observe carefully ..."

before he could finish, liu zilan interrupted him, ""i know! don't worry, big brother, i know what i'm doing. i can't delay any longer, i'll go over first!"

after liu zilan finished speaking, she ran over in a hurry. the other five people were already in position, and he was the last one.

When he reached the door, the six doors of the array tower opened at the same time. There was a faint light in the door that blocked his vision, and he could not see anything clearly.

Liu Zilan took a deep breath and stepped into the room. The door closed behind her without a sound, leaving no gap.

From now on, no one would know what happened in the tower.

Liu Zilan remembered Liu Zimei's instructions. First, she had to preserve her strength and slowly clear the levels. Then, she had to observe carefully and gather information about the tower.

However, in the eyes of the people outside the tower, the six of them were the same as the first batch. They all entered the second floor in about three minutes.

Then, the time spent on the second level was almost the same, almost the same as the first group of six.

Liu Zimei's expression did not look too good. She thought to herself, 'what is this B * stard Liu Zilan doing?' Did he turn a deaf ear to all that he said?

When he comes out, I'll make him suffer!

in fact, liu zimei was not the only one who had his own thoughts. if he could think of it, the others would naturally be able to think of it as well.

the second batch of six people, including liu zilan, had received similar instructions, but in the end, they did not seem to be the case.

therefore, his expression was ugly. liu zimei was not the only one who was puzzled. he had a few people who were in the same boat as him!

other than the people from the conferred kingdoms, lin yi was probably the only one who knew what was going on!

lin yi's spirit sense could easily penetrate the formation tower and observe the operation of the tower to grasp the secrets within. he understood the basics and could easily control the formation tower now.

"cousin zhong da, do you think anyone will be able to break through to the eighth level this time?"

as liu ziyu was one of the participants, he paid some attention to her.

"Very difficult!"

Lin Yi shook his head, not hiding anything, "There's something strange about this formation tower. There are still people who can break through the seventh level, but the eighth level is definitely not something that these people can touch now."

"With their strength, it's already very impressive for them to be able to enter the eighth floor. The possibility of them getting the points on the eighth floor is not high, but it's not completely impossible. Don't you agree?"

Liu Ziyu scratched the back of his head. 'If you say it's right, then it must be right!'

It's just that I'm not looking forward to a miracle from them!

The exchange between the two did not attract the attention of others, and the clearing of the array tower was still quite smooth at the beginning. It was not until the fourth and fifth levels that the gap began to show.

Just like the first batch, only one person managed to pass the seventh stage and was eliminated on the eighth stage. The other five people, including Liu Zilan, were stuck on the seventh stage.

When Liu Zilan came out, Liu Zimei's expression was still not too good. "'Zilan, what's wrong with you? Have you completely forgotten what I said before we entered?'"

Those were the words that he had repeatedly warned her about!

"Big brother, it's not what you think!"

Liu Zilan waved her hand and explained with a bitter face. "After I went in, I wanted to do as you said. I wanted to take it slow and observe carefully to gather information. But the actual situation didn't allow me to!"

Liu Zimei snorted and said,"that's enough!" Hurry up and tell me the details, don't waste time. "

"Yes!"

Liu Zilan did not dare to refute him, so she could only agree in a low voice and began to tell him,""After I entered, I was attacked automatically by the array tower. However, it wasn't very strong, so I could easily break it."

"However, the intensity of this attack would continue to increase, forcing me to use more power to deal with it. Very soon, I found the key to the second level."

"That's not quite accurate. Actually, I think that the array tower deliberately let me discover this, not that I discovered it!"

Liu Zilan's words were a little awkward, but everyone present could understand what she meant.

Chapter 7879

"After I found out that I could reach the second level, I wanted to stay for a while longer to observe and collect information. I didn't expect the attack power of the first level to suddenly double. After I blocked it, I found that the attack power doubled again!"

Liu Zimei and the others were stunned. This was easy to understand. It was like the first level of the formation tower was ten points, the second level doubled to twenty points, and the third level doubled to forty points.

The power of the first level's attack would also double like this?

Who could withstand that!

There was no need for Liu Zilan to explain further. Liu Zimei and the rest already understood that under those circumstances, they had no other choice but to enter the second level.

If he continued to stay on the first level, forget about preserving his strength, he might just be killed by the first level directly!

"Big brother, the situation is similar on the second level. The array tower seems to have its own consciousness. As long as the standard is met, it will automatically open the passage to the next level."

Liu Zilan continued to summarize her experience and provided it to her two brothers for reference. ""Once the passage is opened, you must enter the next level. Otherwise, every attack from the array tower will double the previous attack."

Liu Zimei immediately gasped after hearing that!

In that case, it wasn't that the people who entered the tower wanted to pass through the levels quickly, but that the array tower was forcing them to move forward quickly.

The reason why there was a difference in speed was entirely because of the difference in strength. Therefore, there would naturally be some differences in the time it took to reach the standard.

While they were summarizing their experience, the third group of six people had already entered. The process was similar, followed by the fourth and fifth groups.

Most people were still stuck at the seventh level, while a few entered the eighth level. There was one person who passed the eighth level!

It was Ximen liuyan!

He was one of the six people in the fifth batch to enter the array tower.

The other five were all stuck on the seventh floor. He had used some unknown method to enter the ninth floor after the eighth floor and was immediately eliminated.

"Hahahaha, this array tower is indeed difficult! It's an impossible task to clear all of them!"

When Ximen liuyan came out, she laughed smugly and walked to Lin Yi and Liu Ziyu's side, ""You guys have to work hard too! Although this young lord doesn't think you can even see the eighth floor, you still need to do your best. If you can see the eighth floor, that would be good!"

"As for the ninth floor, don't even think about it! Other than this young master, I'm afraid no one else here can reach the ninth floor. You'll never know the scenery up there!"

Liu Ziyu sneered and retorted, "so what if you're on the ninth floor? you were killed as soon as you got up. Do you have the chance to open your eyes and see the scenery on the ninth floor?"

Ximen liuyan was stunned.

In fact, it was just as Liu Ziyu had said. Although he had entered the ninth floor, he had not had the chance to see anything at all. He had been killed the moment he had gone up.

My heart hurts, old tie!

"Hehehe, are you trying to provoke me into telling you what's on the ninth floor? This young master won't fall for it and let your heart itch unbearably!"

Ximen liuyan laughed drily. She could lose, but not her face. She could not show her fear at this time.

However, Liu Ziyu didn't care about it at all. It was his turn to enter the array tower next, so after he finished speaking, he turned around and walked towards one of the gates.

Lin Yi gave Ximen liuyan a look as if he was looking at an idiot before putting on a kind smile. He didn't say anything and turned to look at Liu Ziyu entering the tower.

Lin Yi didn't say anything, but the message he wanted to convey was clear.

You're an idiot, I'll forgive and tolerate your actions!

Ximen liuyan felt very angry. What did that look and smile mean?

Was it a performance that an expert who could enter the ninth floor should have?

Do you believe I won't beat you up!

However, Ximen liuyan could not do anything about it. She was just smiling. Was she going to make a move just because of that?

Fine, in the end, Ximen liuyan didn't dare to fight Lin Yi.

After all, Lin Yi's name had spread far and wide, and his performance at the young master's gathering was unfathomable.

Hence, Ximen liuyan found an excuse for herself. She wanted to see Liu Ziyu's performance first. As long as he did not pass the eighth level, she would mock him to death when he came out!

Liu Ziyu didn't know that Ximen liuyan was thinking about him. After entering the formation tower, Lin Yi's spirit sense sounded in his sea of consciousness before he could even observe.

"Ziyu, listen to my command! Move one step to the left, two steps forward, jump three steps to the right, then take one step back, and two steps to the left ..."

The divine sense was like a thought that came to his mind, and there was almost no time consumption. Liu Ziyu instinctively started to act according to Lin Yi's instructions.

At the same time, he couldn't help but sigh in his heart. As expected of the all-powerful cousin Zhong da! Even the formation tower couldn't block Zhong DA's cousin's sight and sound transmission! This was too amazing!

By the time Liu Ziyu finished sighing to himself, his body had already completed Lin Yi's instructions, and the entrance to the second floor appeared!

It had only been five seconds since the six of them had entered the array tower. Most of the people outside were whispering to the people who had entered the tower, so they didn't have time to watch the battle.

Ximen liuyan, on the other hand, was seething with anger. Lin Yi's eyes and smile made him grit his teeth!

Just as he was thinking about how to mock Liu Ziyu after he came out, he saw the first-level eaves that represented Liu Ziyu light up!

It lit up?

It lit up!

It lit up ...

Ximen liuyan almost choked on her own saliva.

His eyes were wide open as he looked at the eaves of the tower in disbelief. The expression on his face changed quickly.

First, he was bewildered, then he was shocked, and finally he was speechless ...

As someone who had entered the array tower before, Ximen liuyan knew that the first level was simple, but it would take time to go through the process!

If the process was over, you had to leave even if you didn't want to. If you wanted to leave before the process was over, sorry, no way!

No door meant that there was really no door. Of course, there was no window either!

If you want to leave, you have to wait for the door to the second floor to appear.

it's not impossible for you to climb through the window, but you have to find the window first.

what did liu ziyu do? he actually passed the first level in such a short time?

ximen liuyan even suspected that liu ziyu had entered the wrong door. did he not enter the first level, but directly entered the second level?

in fact, from liu ziyu's point of view, it was indeed similar to directly entering the second level.

according to zhong da's cousin's instructions, he walked left and jumped right, entering the second floor one after another.

he did not know either!

Chapter 7880

However, Liu Ziyu was very self-righteous, he just didn't know!

On the second floor, Lin Yi's spirit sense was still ringing in Liu Ziyu's consciousness.

As he directed Liu Ziyu's actions, he also explained the formation tower to Liu Ziyu.

"In this array tower, the basic attack power of each level is divided into six, attacking the six people who enter. With every level, the attack power will double."

"Once one of the six people on the current level enters the next level, the attack that originally belongs to that person will be shared with the other five people! In other words, as the number of people decreases, The Six Forces will gradually concentrate on the remaining people. "

"Therefore, the earlier we enter the next level, the more beneficial it is! The later they leave, the greater the pressure. The previous batches of people were not the weakest, but they were the ones who had to bear the pressure of the attacks, so they naturally consumed the most. "

"If you don't enter after opening the entrance to the next level, the attack from the next level will enter this level. Together with the attack power of this level, they will attack you and force you to enter the next level."

Liu Ziyu listened to Lin Yi's instructions as if he was listening to a heavenly book.

There were so many mechanisms in the formation tower? It was so complicated!

Cousin Zhong da is so powerful, how does he know everything?

As expected, he was omniscient and omnipotent! Amazing!

"However, the first person to enter the next level will not face the combined attack of the six attacks at the same time. This is because when one person enters, only the corresponding attack will be activated. When the second person enters, the second attack will be activated."

"At this time, if you have already entered the next level, then the second person to enter will have to face twice the power of the attack! When the third person enters, the two of them will share the three portions. "

When Liu Ziyu heard this, he could not help but sigh in his heart. What a strange setting!

The one who was slower would be unlucky, and the one who was second in speed seemed to be even more unlucky than the one who was third in speed.

i wonder which unlucky person would follow me ... tsk, tsk, tsk, what a pitiful child!

lin yi's simple explanation only took the time it took for liu ziyu's thoughts to turn, and he soon saw the entrance to the third floor.

it had only been eight seconds since he had entered the third floor!

outside, ximen liuyan was still guessing if liu ziyu had entered the wrong door and had gone straight to the second level. then, he saw that the eaves of the second level, which represented liu ziyu, had lit up!

it lit up?

it lit up!

it lit up ...

wait, this feeling, this emotion, it seemed a little familiar.

'forget it, i don't care. why the f * ck did it light up again?'

Ximen liuyan subconsciously held her head in her hands. She really did not understand!

Why was it like this?

Right! It must be that bastard Liu Ziyu who had directly entered the third level!

Speaking of which, why could he directly enter the third level? This is cheating, right? Or was there something shady going on in the judging team?

Ximen liuyan could not help but look at the old eunuch sitting in the armchair and the Imperial Army officer who was the judge.

but after thinking about it, he decided to forget it. to question these people? was he, ximen liuyan, tired of living?

in fact, the old eunuch and the imperial guards were also shocked. although they didn't show it, everyone knew that this was too abnormal!

in their previous training, not even the most elite of the imperial army had been able to do this!

then how did liu ziyu do it?

if liu ziyu had heard this question, he would definitely have answered with a face full of pride. after all, there was nothing that zhong da's cousin couldn't do!

about three minutes later, the second person to pass the first level finally appeared. then, he discovered that the pressure on the second level was actually four times stronger than the first level!

although it was still relatively easy and he could deal with it with ease, wasn't this degree of improvement a little too shocking?

However, he soon realized that the pressure seemed to have weakened. So, was this a pattern of getting weaker and weaker? It was so strange ...

What he didn't know was that the third person who came in had the same thought!

He didn't know what kind of hell mode was waiting for him!

At this moment, Liu Ziyu had already broken through the sixth level and entered the seventh level.

Even with Lin Yi's help, Liu Ziyu couldn't get past a floor in a few seconds.

After all, the difficulty had increased, and his speed gradually slowed down. But even so, compared to the others ...

Let's not mention that!

what's there to compare with those people who hang around on the first and second levels?

as for the people outside, their mouths were wide open and their eyes were wide open.

most of the people were even numb. they had seen fast people ... alright, they had never seen fast people. compared to liu ziyu, those who had been relatively fast were like snails climbing trees!

"after the seventh level, the difficulty will increase significantly. ziyu, you need to focus and make sure you don't make any mistakes!"

lin yi didn't forget to add in a few words during the time he was giving orders,"the 7th floor blocked the majority of the people, but there's still room for error. on the 8th floor, there's really no room for error."

"understood!"

Liu Ziyu nodded seriously. He didn't care if Lin Yi could hear him or not-he had faith in his cousin, so he thought that he could hear him!

It took Liu Ziyu a little more than two minutes to pass the seventh floor.

The moment he entered the eighth floor, Lin Yi used his spirit sense to shout into Liu Ziyu's spirit sea,""Dodge two steps to the left with all your might! Take three steps forward!"

Liu Ziyu's instinct was to follow Lin Yi's instructions and dodged instantly, avoiding the consecutive attacks by a hair's breadth.

Although the power of the eighth level did not hit Liu Ziyu directly, the power of the attack when it passed by him had already made his hair stand on end, and he was filled with a strong sense of danger.

Liu Ziyu didn't dare to neglect Lin Yi's command, and now he was even more alert, using 120% of his strength!

Moving up and down, dodging left and right, he was like a peerless dancer dancing on the tip of a knife!

Three minutes later, he passed the eighth level!

When the eaves of the eighth level lit up, everyone was completely speechless.

Previously, Ximen liuyan's speed of passing through the eighth level was extremely fast. She had reached the ninth level in almost an instant and was then killed in seconds. No one had even had time to react.

After the incident, although everyone was amazed, they still felt that it was not as realistic.

Unlike Liu Ziyu, who had spent three minutes in between, everyone was on tenterhooks as they waited for something.

Then, when the eaves of the tower lit up, they were all disappointed and even desperate!

As for the five people behind him, they had already been completely forgotten. Who would remember to pay attention to them?

Everyone's eyes were firmly locked on the ninth floor!
