

Bodyguard 7901

Chapter 7901 How Many People Are There On The Other Side?

as long as he stayed, he would be able to answer to the shanlian empire!

no matter what, as long as the second prince's murderer was still alive, the conferred kingdoms of the dragon state would still have a chance to turn the situation around.

of course, it was better to be alive than dead, in case the shanlian empire said that the dead could not testify.

the prince's eyes swept across liu ziyu and the third princess as he sneered in his heart.

it was definitely impossible to get engaged now, but he could make use of liu ziyu.

he could tell that lin yi was someone who valued relationships-as long as he had liu ziyu under his control, it didn't matter if lin yi was sincere in staying in the capital or not. he wouldn't leave liu ziyu behind.

as for how to control liu ziyu, that was too simple!

the prince of the long bang could come up with several tricks at will.

he was different from the inscrutable lin yi-he could see through liu ziyu's depth.

"Your Majesty, please rest assured. There's nothing that's too late!"

Lin Yi smiled faintly,"right, I've just sent a signal for my guards to summon my personal guards to the capital. Please give the order to let them pass along the way and not cause any unnecessary trouble."

For those who came to participate in the young masters 'Union, the guards would stay in the border cities and wait for orders. They only brought two attendants with them, and they were escorted to the capital by the Army of the Dragon state's conferred Kingdom.

"It's approved!"

The Prince of the long bang waved his hand weakly.

Each Commandery's guard Army had around a thousand people. Even if they came to the capital, they wouldn't be able to do much, so he agreed to Lin Yi's request without hesitation.

When the guards arrived, it would be like a conferred Kingdom had a thousand more hostages, and it'd be better for Lin Yi to stay.

However, the Prince of the long bang did not know what kind of combat power these hostages could bring out!

Lin Yi had led the eight hundred Guards unit and killed countless enemies.

Lin Yi had brought his eight hundred personal guards with him to a conferred Kingdom.

"Let's disperse! Return to your respective residences. This King will first send people to communicate with the Empire and hope that we can resolve this matter through a more peaceful method. "

The Prince waved his hand to dismiss the crowd and reminded the third Princess, ""Take good care of Liu Ziyu and Sima Zhongda. This time, it's all because of you, you insensible girl! Forget it ... I won't say it ..."

the third princess snorted and ignored the prince of long bang. she pulled on liu ziyu's sleeve and said, ""liu ziyu, let's go! today, you stood up for me, so i have to thank you properly. that's right, there's also sima zhongda! i'll treat you guys to something good!"

in the third princess's heart, liu ziyu and sima zhongda were people who had gone through thick and thin with her. their friendship was extraordinary ...

mm, it was friendship with sima zhongda and love with liu ziyu!

as a result, she spoke to the two of them more casually. ordinary people didn't receive such treatment.

lin yi didn't mind, but liu ziyu couldn't ask for more. he agreed to the princess's suggestion unconditionally.

as for the threat of the shanlian empire, liu ziyu did not care too much. with the omnipotent cousin zhong da around, what did he have to worry about?

Of all the people present, only Liu Ziyu was not worried about what would happen to the Shanlian Empire.

He believed that since Zhong DA's cousin had taken action, he would definitely be able to solve all the problems.

Before Lin Yi made a move, he was worried that he would offend the second Prince and bring trouble to Hongshang Commandery.

On the contrary, when Lin Yi made his move, and even killed him, Liu Ziyu was completely at ease!

This was a sure win!

With cousin Zhong da around, the Shanlian Empire is in trouble!

That's right, Liu Ziyu had that much confidence in Lin Yi!

Even if Lin Yi poked a hole in the sky, he believed that Lin Yi had the means to mend it!

Most of the people had left in a daze, leaving only the third Princess, Liu Ziyu, and Lin Yi chatting and laughing without a care in the world, shopping without any worries ...

Three days later, news came that the messenger sent by the Dragon state's Prince had not even been able to reach the Empire. As soon as he had left the borders of the Dragon state's conferred kingdoms, he had been killed.

At the border, the Shanlian Empire had already deployed 300000 troops to attack the Dragon state.

These 300,000 soldiers were only the vanguards. Because they were close, they had started the attack first, and more troops would be mobilized later.

Other than the Shanlian Empire's Army, the other two conferred kingdoms that were neighboring the Dragon state also received the order to gather their armies.

Explain?

It was clear that the Shanlian Empire would not accept any explanation, and they were determined to destroy the entire conferred Kingdom of the Dragon state!

Even though the conferred kingdoms of the Dragon nation were actually part of the Shanlian Empire, they were still part of the territory of the Shanlian Empire!

"The Army is pressing on our borders ... What do you think we should do?"

the prince asked directly.

"oh, how many people are there?"

lin yi asked calmly.

"three hundred thousand!"

the prince's face was ashen as he gritted his teeth and spat out the words.

"how many of us are there?"

Lin Yi looked at Liu Ziyu.

"Eight hundred!"

Liu Ziyu's expression turned serious as he replied.

"Kill him!"

Lin Yi smiled.

To the Prince's bewilderment, Liu Ziyu actually nodded his head in agreement after listening!

Eight hundred against three hundred thousand, what kind of joke was this?

Subconsciously, the Prince thought that Lin Yi was just bullshitting.

"Kill him? I think it's them who want to F * ck you! Tell me, how are you going to deal with this 300000-strong Army? No, it's these 300000 vanguards. There will be another 2000000 soldiers that will surge into the dragon state's conferred kingdoms!"

The conferred kingdoms of the Dragon state claimed to have a million soldiers, but there was a lot of exaggeration in this.

That was because all the soldiers of the Commandery had to be included!

Then, there would be more than a million of them. Even so, they were definitely not the Shanlian Empire's match.

The number of troops that the Shanlian Empire could mobilize was far more than two million!

Once the Dragon state's conferred kingdoms gathered all their forces together, the other lines of defense would definitely become defenseless. At that time, they would lose all of their defenses, and they would only die even faster.

"I said, King doesn't need to worry, I will kill them! It won't be that easy for them to attack a conferred Kingdom!"

Lin Yi smiled confidently. "We'll deal with whatever comes our way. It's just 300000 vanguards. I'll go and cut off the claws of the king first!"

"You really want to go out?"

The Prince of the long bang was slightly stunned.

He'd thought of how Lin Yi would solve the problem, like asking for forgiveness, but he didn't think that Lin Yi would really bring his troops to fight the Shanlian Empire!

"It's useless! The military strength of a conferred Kingdom can not be compared to that of the Shanlian Empire. It will be difficult to deal with this 300000-strong Army, let alone the reinforcements. "

The Prince of the long bang sighed and shook his head.

Chapter 7902

In his opinion, there was no way they could win, but the problem was that the Shanlian Empire did not seem to accept surrender!

"Forget it, there's no other way now. If you want to fight, then go!"

The Prince was helpless. The messenger had been killed, and there was no way to talk. It was clear that they wanted to kill them all first, so he could not resist.

If the Emperor wanted the subject to die, the subject had to die. These words were said by him to the people under him. When he was the subject under him, he would not obediently follow them.

"Thank you for your trust, my King!"

Lin Yi cupped his fists. He didn't need the Prince's permission to fight, but with an official identity, it'd be more convenient for him to travel within the borders of a conferred Kingdom.

"This King doesn't trust you, but I have no choice!"

The Prince glared at Lin Yi, his words direct and undisguised.

In fact, he had heard of Lin Yi's miraculous battle record against the seitong Commandery, so he still had some hope.

Perhaps, with such a famous general, it was possible for the weak to defeat the strong and stop the attack of the Shanlian Empire.

As long as they could block it, they might have a chance to return to the negotiation table!

"Your Majesty, I think you'd better hurry up and study the marriage between Liu Ziyu and the third Princess. Don't let those idiots from Shanlian affect our official business!"

Lin Yi, on the other hand, was quite relaxed-he even had the mood to talk nonsense with the Prince.

"let's not talk about this for now. just tell me how you need this king to support you!"

the prince waved his hand impatiently, cutting lin yi off. "there are 30000 regular soldiers defending the border. they probably won't last long against 300000 soldiers."

"i can only gather around 100000 men for you at the moment. i can still transfer more from other places, but it will take time. you don't have to worry about logistics, this king can ensure that you have enough food. "

"also ..."

since the prince had decided to let lin yi fight, he didn't hide anything and started listing out the resources he had.

there were definitely not many troops!

the 30,000 regular troops at the border were not used for defense. that was the border of the suzerain country, how could there be troops stationed there for defense?

the thirty thousand regular soldiers were mostly responsible for protecting the safety of the cities in that area and exterminating bandits when they were free.

now that they were suddenly faced with the invasion of 300000 soldiers from their suzerain kingdom, the prince of the long bang felt that the reason they did not surrender at the first moment was most

likely because the shanlian empire did not accept surrender and wanted to destroy the conferred kingdoms of the long bang.

"your majesty, there's no need to trouble yourself. i have soldiers!"

lin yi interrupted,"to deal with the shanlian empire, the king's men only need to provide assistance. if the king sends a reliable general to cooperate with me, we will definitely win this battle!"

Prince long bang's eyes lit up, and he could not help but sit up straight."Oh? Sima Zhongda, you have a secret army? How many people were there? How do you want this King's people to cooperate with you?"

He was still thinking that Sima Zhong da was indeed a famous general and had already made arrangements in secret!

He, a Prince of a conferred Kingdom in the Dragon state, had not received any news at all!

When the Shanlian Empire's invasion was settled, he must find a way to recruit Sima Zhongda under his command. It would not matter if he was directly conferred the title of Commandery Prince of Hongshang Commandery.

"What secret army? The king misunderstood! I don't have any secret army. Didn't Liu Ziyu just say that we only have eight hundred people?"

Lin Yi looked at the Prince, confused. "Have you forgotten?"

The Prince's body went limp, and he slumped back into his chair. It was as if all his energy had been sucked out.

To hell with your secret army!

What famous general! He must be a lunatic!

Did he think that he was invincible after fighting a few small battles in the countryside?

How could eight-hundred personal guards possibly fight against the Shanlian Empire? Just the vanguard alone had 300000, Oh, 300000!

They were not the trash soldiers of the selencopper Commandery, but the elite troops of the Shanlian Empire!

Even a lunatic wouldn't do such a crazy thing!

"Sima Zhong da, you're not thinking of throwing your life away to appease the anger of the Shanlian Empire, are you?"

The Prince of the long bang felt his head hurt again, so he could only come up with this explanation.

1,000 against 300000, no matter how one looked at it, it was just courting death!

The problem was that if they went to die like this, they would only be treated as a joke by the Shanlian Empire. What was the point? It's better to let this King tie you up and use you as a bargaining chip. Perhaps the hope will be a little higher.

"Your Majesty, you think too much!"

Lin Yi was probably the only person in the entire conferred Kingdom who dared to say that the Prince was overthinking things. "there is no suspense in this battle. our army will win. your majesty, you just need to wait to celebrate."

lin yi didn't really care what the prince thought.

Prince long bang felt that he had no hope left and threw a token to Lin Yi, "Go to the Bureau of military personnel and mobilize all soldiers under one hundred thousand. As for the rest, do as you see fit!"

Eight hundred wasn't enough, but a hundred thousand might be enough. The Prince didn't want to talk to Lin Yi anymore, and waved him away.

After Lin Yi left, the Prince quickly summoned his trusted generals and ordered them to lead their own troops.

Although they could not defeat the Shanlian Empire, they still needed to resist!

He couldn't really stretch out his neck and let himself be killed. That would be too disgraceful. After resisting and being defeated, he could at least give himself an explanation!

Lin Yi didn't care about the movements of the long bang conferred Kingdom's military. After leaving the palace, he went to the Ministry of War to report and give the eight hundred Guard units new equipment.

Compared to the military equipment of the conferred kingdoms of the Dragon state, the ones in Hongshang Commandery were much worse. Even the equipment from the central cooperative Chamber of Commerce was far inferior to those of the conferred kingdoms of the Dragon state.

After getting the equipment and the documents, Lin Yi set off with the eight hundred guards!

Liu Ziyu went with them. The Prince wouldn't allow Lin Yi and Liu Ziyu to leave the capital at the same time, but the Shanlian Empire was already at their doorstep. What was the point of keeping Liu Ziyu as a hostage?

After all, when the nest was overturned, no eggs would remain intact. The conferred Kingdom was destroyed, and Lin Yi and Liu Ziyu wouldn't be able to escape from the hands of the Shanlian Empire, either.

A conferred Kingdom was rich in resources, and Lin Yi had brought eight hundred guards with him. Each person had three horses, and they took turns riding the horses.

In just ten days or so, he had rushed to the border of the Dragon state's conferred Kingdom without stopping!

However, in these ten days, the entire border city had already fallen.

The 300,000 troops of the Shanlian Empire had split up to attack, but they still managed to kill all 30000 of the defending troops.

As for the civilians of the border conferred kingdoms of the Dragon state, those who did not die were reduced to slaves.

A portion of them were sent back to work in the area under the jurisdiction of the Shanlian Empire, while the rest were made into slave armies and were driven away by the Shanlian Empire's regular army to be used as cannon fodder.

Chapter 7903

Lin Yi and Liu Ziyu rode their Black Spirit Ferghana horses to a Hill and looked into the distance. Other than the necessary guards, all of the guards were resting and replenishing their food and water.

The battle was imminent, and they needed to maintain their peak condition. After all, they had to face more enemies this time!

"Cousin Zhong da, how can the people of the Shanlian Empire be so inhumane? The citizens of the conferred Kingdom are also citizens of the Shanlian Empire. How can they do this?"

Liu Ziyu's face was filled with anger, but he was also very puzzled in his heart!

If the Shanlian Empire was going to war with the outside world, they could do anything. But was it necessary to be so cruel to the people of their own country?

"Nothing is wrong! Ziyu, you have to understand that the conferred kingdoms of the Dragon state are traitors. In the eyes of the Empire, all traitors deserve death, including the people who support this rebellious Kingdom. "

Lin Yi smiled coldly, "it's good enough that they didn't kill us all on the spot!" Although those commoners have been turned into slaves and their lives are out of their control, at least they can live!"

"As long as you're alive, there will be hope!"

Liu Ziyu nodded his head vigorously, then looked at the Shanlian Empire's camp in the distance with a determined gaze.

There was a 20000-strong Army stationed there, as well as 30000 to 40000 slave soldiers!

"Cousin Zhong da, how are we going to fight this battle?"

Liu Ziyu was a little eager to try, 'cousin, do you want to do it yourself, or should I do it? Let's go together!"

He didn't get to participate in the lightning raid between Lin Yi and the seitong Commandery last time, and he only learned a thing or two from the guards after that, so he was looking forward to it.

She finally had the chance to fight alongside Lin Yi!

"to deal with a mere shanlian empire, you can just slap them in the face. do you need to study strategy? i'll leave this battle to you. we'll fight as you say!"

lin yi didn't mind at all-he'd win no matter what he did, so he might as well train liu ziyu!

"you don't need to worry about the disparity in numbers. although they have more people, it's not much use!"

lin yi wasn't even afraid of three hundred thousand, let alone twenty thousand.

it was just a small attempt!

liu ziyu also felt that he could give it a try. anyway, he had his cousin zhong da backing him up, so he would just beat him up!

"Cousin Zhong da, I don't think it's a good idea to fight them head-on. After all, the 30000 to 40000 slave soldiers are the citizens of the Dragon state's conferred kingdoms. Our main target should be the Shanlian Empire's troops!"

Liu Ziyu pondered for a moment and suggested, ""The Shanlian Empire is at the peak of their power now. They definitely won't expect how powerful our small team of eight hundred people is! Therefore, I think that we can use this as bait to lure them out and slowly devour them!"

Lin Yi's personal guard unit was small in number, so as long as they revealed themselves, the people from the Shanlian Empire would definitely come after them.

In the eyes of the other party, eight hundred people were just food. How could they not pursue?

However, because these 800 people were all cavalry, even if they were to give chase, the Shanlian Empire would not allow the slave Army to give chase. They would not be able to catch up.

If they wanted to pursue the cavalry, they would have to use the Shanlian Empire's own cavalry.

However, the number of 800 Guards unit did seem a little small. This time, it was estimated that it would be at most 2000 to 3000 cavalry.

"Alright, then we'll do as you wish!"

Lin Yi felt that Liu Ziyu's tactics were a little slow and not straightforward enough, and he was afraid that it would waste a lot of time.

But Lin Yi's goal was to train Liu Ziyu, so as long as he had no problems with the general direction of the strategy, Lin Yi would let him be.

Lin Yi was going to leave eventually, and the Dragon Empire was too small.

Therefore, the most important thing was to let Liu Ziyu grow up as soon as possible so that he could take charge of an area on his own.

"Commander song!"

"This general is here!"

Song shaopeng was waiting not far away, and when he heard Lin Yi's call, he quickly came up and bowed, "What are your orders, commander?"

"General Liu will be in charge of this battle. You and the guards unit will follow general Liu's orders."

Lin Yi gave the order, and song shaopeng immediately bowed.

Liu Ziyu was somewhat excited in his heart. This was Zhong DA's cousin's personal guard Camp!

The famous Guards unit with outstanding military achievements!

He had never thought that he would have the chance to lead this personal guard unit into battle.

Now that the opportunity was in front of him, he was naturally excited.

"Commander song, nice to meet you!"

Liu Ziyu didn't dare to neglect song shaopeng. After all, song shaopeng was the commander of Zhong DA's cousin's personal guard Camp. He could definitely be considered a trusted general.

"General Liu is too polite! Please give the order!"

Song shaopeng respected Liu Ziyu as well, because it was clear how much Lin Yi wanted to train Liu Ziyu.

He was the cousin of the Marshal, so their relationship was not ordinary. Not to mention that Liu Ziyu's identity was also a general, and his rank was far above song shaopeng.

So when Lin Yi appointed Liu Ziyu to command, song shaopeng didn't have any dissatisfaction or objection.

"Good! Commander song, please organize your troops. We'll be ready to fight at any time!"

"Yes!"

Song shaopeng cupped his fists, then put his right thumb and index finger on his lips and whistled.

After that, the soldiers who were resting, eating, or on guard immediately tidied up their equipment and assembled.

In just six or seven breaths, everyone was ready and lined up, waiting for Lin Yi and song shaopeng's orders.

The entire process was extremely quiet. In fact, there was almost no collision between the weapon and the armor.

"Commander, general, the guards unit has assembled, please give the order!"

Song shaopeng turned around and reported to Lin Yi and Liu Ziyu.

Lin Yi said, making a gesture of invitation.

Liu Ziyu nodded slightly and took a step forward.

"Brothers of the personal guard unit, I am very honored that Marshal Sima will temporarily lend me the command of the personal guard unit today! Over there are 20000 elite soldiers of the Shanlian Empire. We have to lure them out and annihilate them in batches! Do you guys have the confidence?"

The 800 guards did not say a word. They just raised their weapons in unison!

In the blink of an eye, it was as if a forest of steel had grown on the ground, and the sharp blades shone with a cold light!

Their silent attitude showed the guards unit's indomitable will and belief in winning every battle!

Liu Ziyu became more and more excited. He clenched his fists and said, ""Good! I won't say anything else. Everyone, get on your horses!"

Before his voice had died away, the eight hundred guards mounted their horses in unison, their movements as smooth as one person.

Even though the atmosphere was extremely somber, there was not the slightest bit of killing intent leaking from their bodies.

Lin Yi nodded to himself. At the start, the eight hundred Guards unit had followed him through life and death, through mountains of corpses and seas of blood. Every one of them had a thick killing intent and killing intent.

Chapter 7904

If an ordinary person were to approach them, they would feel an invisible pressure and have the illusion of trembling!

However, this kind of momentum was only suitable for head-on confrontation, not for guerrilla warfare.

However, things were different now.

All of the guards were able to control the killing intent with ease after Lin Yi's training.

Before he truly attacked, it was like a treasured saber hidden in a box, its edge completely restrained!

It was only when killing enemies that the sharp blade would be fully revealed.

At that time, the enemy's blood would flow like a river!

"Soldiers are trained for a thousand days, but they can only be used in one moment! Everyone, I'm here to watch you kill the enemy! I look forward to your triumphant return!"

Lin Yi said.

All the guards unit soldiers raised their fists in front of their chest and lowered their heads slightly. This was the special military salute that the guards unit gave to Lin Yi. It meant that everything was left to them!

"Let's go!"

Liu Ziyu pulled on the reins and led the way.

Lin Yi watched as they walked away, and he felt a sense of pride!

This was a strong Army that he had personally created, and Liu Ziyu was also a famous general that he had nurtured and supported!

Perhaps Liu Ziyu and the personal guards unit were only famous in Hongshang Commandery and the surrounding two or three commanderies. But after today, their names would really shake the world!

The Shanlian Empire would be the best stage for them to become famous!

The current 800 Guards unit was completely different from the guard unit that had fought against the SE Tong Commandery!

It wasn't just because Lin Yi's teaching was more profound and more practiced, but most importantly, their individual strength had also improved greatly.

Lin Yi made some body strengthening pills when he was free-it wasn't that hard since it was easier to find dark spirit beasts.

This batch of pills was used by Lin Yi to increase the strength of the guards unit, causing their combat strength to increase explosively.

In addition, they were equipped with the excellent military equipment provided by the Dragon state's conferred kingdoms. So, how could they be soldiers? they were basically killing machines!

The guards unit soldiers, on the other hand, had resistance to the medicine, so after the pills were completely ineffective, Lin Yi thought that it would be a waste if he didn't use it since he had nothing to do anyway, so he mixed the rest of the pills into the black Spirit Ferghana horse's food ...

The result was that the personal guards unit's Mount had at least three times more endurance than a normal black Spirit Ferghana horse, at least fifty percent faster, and its carrying capacity had also doubled.

Whether it was a long-distance raid, a short-distance charge, or even a fully armed heavy cavalry, they were not a problem!

Lin Yi was confident that Liu Ziyu would be able to handle such a strong personal guard unit!

For an ordinary opponent, even ten times the number of people might not be able to resist one charge.

Lin Yi stood on high ground and released his spirit sense to follow the guards.

Under Liu Ziyu's lead, the 800 cavalymen quickly approached the Shanlian Empire's camp. However, they did not directly provoke and attack them. Instead, they loitered around the periphery.

It wasn't until they met the other party's small scout team that they finally had a fight.

Five of the six-man team from the Shanlian Empire had been killed. The last one had tried his best to "break out" of the encirclement and escaped from the battle in a panic.

"Commander song, tell our brothers to hold back a little. Don't be too serious! It's already so difficult to release a person, how are we going to lure the enemy out!"

Liu Ziyu was not very satisfied with the effect of the performance. He solemnly told song shaopeng, ""Remember, we have to give the enemy a false impression that we are not very powerful. Even if we are not very powerful, they are still the elite cavalry of the conferred kingdoms of the Dragon state, just a little weak! Only then will they be fooled!"

Song shaopeng agreed, but in his heart, he felt that this was a bit difficult!

How could the brothers be so serious? this wasn't even a warm-up. If they had held back a little more ... They might as well just stand still!

In fact, in song shaopeng's heart, he didn't think there was a need to be so cautious!

He wasn't afraid of the other party, so why did he have to draw the other party out so slowly?

He would be finished if he went up!

"General Liu, I don't think it's a problem to fight directly ..."

Song shaopeng hesitated and carefully suggested, ""The enemy only has 20000 soldiers. We can just push through and scatter them. Why do we need to use such a roundabout method?"

Liu Ziyu's mouth twitched!

Brother, the way you speak makes me feel like we're an Army of 80000!

A mere 20,000 soldiers ... Could 20000 be described as a mere 20000?

It didn't seem impossible!

Liu Ziyu thought about the record of the guards unit and felt that song shaopeng's words were not unreasonable.

Of course, this wouldn't affect his tactical decisions.

"Commander song, it's not a problem for us to crush them directly, but if we do that, the enemy's scattered troops will easily crash into the slave army camp, and the 30000 to 40000 slave soldiers will also be thrown into chaos! At that time, they will trample on each other, and there will be countless deaths and injuries!"

Liu Ziyu explained seriously.

Of course, if it was Lin Yi, Song Shaopeng wouldn't have any doubts. Even if he did, Lin Yi wouldn't explain much.

An order was an order, and it would be over as long as it was executed. Why did he have so much nonsense to say?

But Liu Ziyu couldn't—this was Lin Yi's personal guard unit, not his, they were just working together!

"The slave Army is made up of the citizens of the Dragon state's conferred kingdoms. We'll do our best to save them, and it'll be a meritorious deed! As long as the enemy is far enough away from the slave Army, there will be no problem in fighting!"

"What General Liu said makes sense! This general was rash!"

Song Shaopeng cupped his fists.

She did not know if he was really convinced. In any case, it was not good for him to go against Liu Ziyu. Just now, he was just giving his opinion. Now, it was time to seriously carry out the military Order.

Under the command of the two men, the eight-hundred guards moved a little to avoid suspicion from the people of the Shanlian Empire.

very quickly, the guards unit's scout came to report, "a large number of enemy cavalymen have left the camp and are searching for our tracks. there were about six thousand of them, divided into three teams! each unit has about two thousand cavalymen!"

"how far is the distance between the three teams?" liu ziyu was overjoyed and quickly asked.

"the team in the middle is about five miles away from the left and right. the other party should be planning to quickly support each other."

as the scout spoke, a disdainful chuckle appeared at the corner of his mouth.

In front of the guards unit, what kind of support was there?

There was only the tactic of continuously throwing away one's life!

"Good! Five li should be enough!"

Song shaopeng immediately clapped his hands and laughed. He also didn't think about the problem of the other side's support, "After we defeat one group of cavalymen, we can continue to pursue the second group. It's only five li, they have no chance of escaping!"

"Once our Black Spirit Ferghana horses enter the charging state, they can only wait for death!"

Chapter 7905 Zero Loss

Support?

He wasn't afraid of the other party's reinforcements, but he was afraid of the other party escaping!

There was only a distance of five li now, so they couldn't escape even if they tried!

Lin Yi's spirit sense had been on Liu Ziyu's side the whole time, and he nodded to himself when he heard song shaopeng's words!

The guards unit wanted this kind of domineering air!

"All troops, attack!"

Liu Ziyu did not waste any time. He took the lead and drew his long saber, waving it forward. He motioned for the Scout to lead the way and meet the cavalry team on the far left.

Both parties were moving at a fast speed, and they were afraid that the other party would run away, so they soon encountered each other.

Liu Ziyu led the personal guards unit, and the 800 cavalymen charged towards the enemy like black Lightning. When the Shanlian Empire cavalymen noticed the personal guards unit, the commander was obviously dumbfounded!

He wondered what was going on.

The ' 800-strong Army' of the Dragon state's conferred Kingdom was rushing over to court death?

This didn't make sense!

However, it was already too late for him to react in that moment of hesitation!

The enhanced Black Spirit Ferghana horses were extremely fast after Lin Yi's enhancement. As they were running, the guards unit first drew their bows and fired, and after a wave of arrows, they instantly switched to hand crossbows.

The crossbows that were already loaded lowered their angle slightly, and three arrows shot out from one crossbow. They followed closely behind the rain of arrows and landed densely in the enemy formation.

The cavalry of the Shanlian Empire was indeed an elite force, much stronger than that of the selenbronze Commandery. Therefore, even though they were suddenly attacked, they did not panic too much.

Most of the Shanlian Empire cavalry raised the simple hand shields on their arms to protect their vital parts.

Then, he used the weapon in his hand to hit left and right in an attempt to knock off the arrows.

He was still considered fearless.

However, in the next moment, they really panicked!

They were shocked to find that the soldiers of the Dragon nation were simply too fast, and they had arrived almost as soon as the arrows had been fired!

There were no loud and angry shouts, nor were there any shouts of killing. The 800 soldiers of the personal guard unit all raised their weapons in silence and determination.

The formation cut into the enemy's formation, and the weapons cut into the enemy's body.

In an instant, there were hundreds of headless bodies among the cavalry of the Shanlian Empire. The splattering blood blurred the vision of their comrades, but it did not affect the vision of the Slayer.

The guards didn't care about the blood at all, their eyes were wide open, and their eyes were shockingly bright.

The murderous aura that was usually restrained exploded out. Even the Black Spirit Ferghana horses of the Shanlian Empire were frightened by the dense murderous aura, let alone the soldiers who were being slaughtered.

Ten seconds!

The entire battle only lasted for ten seconds!

The formation of the Shanlian Empire was completely penetrated, and all the cavalymen were annihilated!

The guards unit had killed 2.5 people on average, but in reality, the number of people who had charged forward was far more than that.

The people at the back were all complaining that there were too few enemies, and they didn't even have a chance to attack.

That was because each of the guards who acted as the Arrowhead of the arrow formation had killed at least five enemy soldiers. As a result, the guards who followed behind only got one head, or even none ...

Usually, in the camp, some people would say that it was unfair and ask the people in front to take fewer heads. Then, the people in front would like to say that they had taken the heads with their own abilities. If you want it, come to the front!

One sentence was enough to completely crush him!

The arrowheads of the arrow formation were the strongest elite soldiers, and not just anyone could get there!

All the guards unit soldiers took pride in being able to enter the arrow position.

And those who could enter would naturally have to boast about it from time to time.

When Liu Ziyu led his team through the enemy formation, he couldn't help but feel a little dazed. They had killed 2000 enemy soldiers just like that?

It wasn't a defeat, nor was it a defeat, but a serious annihilation!

The kind that would leave no one alive!

As for the guards unit?

Zero!

"General Liu! What do we do next?"

Song shaopeng, who was beside Liu Ziyu, flicked his wrist and threw away the blood guillotine on his long knife. His eyes had already turned to the direction of another cavalry.

It was only five li. If not for the trees blocking the way, they would have been able to see each other with their naked eyes.

Needless to say, song shaopeng's intention was to immediately attack the second Cavalry team!

He had already killed all of them, and this wasn't even enough to warm up. How could he be satisfied?

He was really afraid that Liu Ziyu would ask them to clean up the battlefield and collect the spoils of war.

However, his worries were clearly unnecessary.

without another word, liu ziyu pointed his long saber in the direction of another group of cavalrymen. ""brothers, continue to charge with me!"

"ha!"

the 800 personal guard unit soldiers finally let out a loud shout in unison, venting the hot blood in their hearts. the weapons in their hands were raised high in unison, and they followed liu ziyu's black spirit ferghana horse as they charged at the other enemy army at full speed.

as for the battlefield behind them, who cared?

the enemy's black spirit ferghana horses were actually uninjured, and the equipment on the soldiers of the shanlian empire was also quite good. if they were to collect all of them, they could arm a cavalry of 2000 people in minutes.

however, liu ziyu and the others didn't care about it. if they had time later, they could come back to clean it up again. if they didn't have time, it didn't matter if they threw it away.

compared to building a cavalry, it was more interesting to continue annihilating a cavalry!

To the guards unit's Black Spirit Ferghana horses, a distance of five li was actually just a short distance charge.

Therefore, Liu Ziyu's eyes quickly focused on the mountain ridge Empire's cavalry team in the middle.

The guards unit appeared at the side of the Shanlian Empire cavalry, which was a perfect spot for a sneak attack.

But to the guards unit, it was not good.

Because after cutting them off in the middle, the guards unit would have to split into two, each heading in a different direction. This was equivalent to having one more step, and it was a waste of time.

"Circle around and cut in from the back!"

Liu Ziyu did not hesitate to give up the advantage of a side attack, and slightly adjusted the direction of the guards unit. The troops drew a beautiful arc, killing their way to the back of the enemy.

"Enemy attack!"

The cavalry of the Shanlian Empire suddenly realized that an enemy troop was circling around from behind. They shouted loudly and sent out a communication signal.

Of course, they didn't know that their comrades on the other side had been completely annihilated. They didn't even have the time to send out the warning signal.

Hence, the commander of The Mountain Company cavalry still fantasized about annihilating the guards unit with his own strength and taking all the credit for himself!

If it wasn't for the fact that the people who saw Liu Ziyu wanted to sneak up on them from behind, and it was too troublesome for them to change the team, the commander wouldn't even have sent a signal to gather his allies.

"Don't panic! The front Army has turned to pursue the enemy's rear!"

The commander of the Shanlian Empire was not incompetent. He knew that he had lost the upper hand. If the rear Army turned around to fight, it would definitely cause chaos.

Cavalrymen were different from humans. Cavalrymen needed time and space to turn around!

Chapter 7906 Haven't Warmed Up

once he stopped and changed directions, he would be courting death!

let's not talk about whether these 2000 mounts would listen to orders. even if they could, it would be a mess when they turned around!

therefore, the commander calmly issued an order, leading the front troops to draw an arc and make a turn, chasing after liu ziyu's rear troops!

then, when the reinforcements arrived, they would attack from both sides, and liu ziyu would definitely die!

the commander of the shanlian empire felt that his response was flawless and perfect!

no matter how he looked at it, the other party only had around eight hundred soldiers. the commander was very clear.

and the commander had two thousand cavalymen under him. even if it was a battle of attrition, the side with more people would definitely win in the end!

"Accelerate! Bite the enemy's tail and our Army will win!"

The commander of the Shanlian Empire felt that he had the pearl of wisdom in his hand. He shouted to boost the morale, ""Those who capture the enemy general alive will be promoted by one rank and rewarded with a thousand gold! Those who behead the enemy general will be promoted by half a rank and rewarded with five hundred gold!"

From the commander's point of view, this was already a very generous reward. It would definitely be able to motivate the soldiers to fight forward!

Indeed, the soldiers around him were all shouting and chasing after him, but the more they chased, the more they felt that something was wrong ...

The distance between them and the enemy seemed to be rapidly increasing?

What was going on? Could it be that the ground beneath our feet is mud, causing the Black Spirit Ferghana horses to be unable to run?

Someone really did look at the ground, but there was nothing wrong with it!

It was normal forest ground, which was the Black Spirit Ferghana horse's specialty. Furthermore, the horse's speed was also very good, and it had already displayed its fastest horse speed!

The commander of the Shanlian Empire was dumbfounded. His plan was actually very good, but things changed quickly.

He had never expected that he would not be able to catch up to the other party after urging the Black Spirit Ferghana horse with all his might!

This was very awkward!

The scene that they had imagined did not happen. Instead, the Shanlian Empire's rear troops were slaughtered by the enemy without any resistance!

In fact, he did not know that the front and back of their cavalrymen were the same. Whether they resisted or not, it was the same. Those who should be killed in one strike would definitely not be killed a second time!

Liu Ziyu's side was busy snatching kills, so who would be the last hit?

"Turn around and hit the road!"

The commander of the Shanlian Empire was stunned for a moment, but he quickly reacted. If this continued, their 2000 men would be wiped out very soon. They had to fight back!

At this point, it was obviously impossible for the commander to chase after Liu Ziyu. If this continued, it would soon be Liu Ziyu chasing after the Shanlian Empire!

Therefore, the commander of the Shanlian Empire made a prompt decision and ordered all the cavalrymen to turn around!

No matter how difficult it was to turn around, they had no choice but to turn around. After all, they would not be able to catch up to him. Instead, they directly turned around to face Liu Ziyu's personal guards.

From a tactical point of view, the Shanlian Empire's commander was relatively quick to respond. Although it was difficult to change direction, he had no other choice.

But the problem was that it took time to change direction, and this was the commander's biggest mistake!

As the Shanlian Empire's cavalrymen turned around, Liu Ziyu's personal guards were still killing. Before they could even turn around, Liu Ziyu and his men had already swept past them!

The current battle was like harvesting leeks. The guards didn't even need to wave their blades. They only needed to hold the hilt tightly, raise the blade horizontally, and use the terrifying acceleration and impact of the Black Spirit Ferghana horse to easily cut off the enemy's head!

It was so boring!

On the battlefield, many of the guards actually had such thoughts.

The enemy only had two thousand cavalrymen. It was not enough for them to kill!

This was especially true for the soldiers at the back. They had been able to get a few heads the first time, but this time, they had no chance at all!

The soldiers at the front used the horses' power to harvest, leaving no living people behind. They didn't even have the chance to finish off the enemy!

The Shanlian Empire's commander had just completed the change in direction when he was shocked to find that his team ... Was only left with a small group of people around him!

And this small group was still rapidly decreasing!

The commander's actions were already considered very fast, but in the end, he realized in despair that he and his soldiers would only die in a different way!

When his head flew into the air, his eyes were still wide open in confusion!

Why? Why were the enemy troops moving so fast?

Even if he had tactics and strategies, in such a quick flash battle, it had become a mistake and helplessness for him to fall one step behind!

Moreover, he didn't have any good tactics or strategies.

Twenty seconds!

The battle of annihilation took a little longer this time, mainly because they had wasted some time adjusting their direction.

"Continue forward! There was still one more enemy troop! Can you guys hold on?"

Liu Ziyu was waving his saber on his horse's back, his eyes full of fanaticism and excitement.

He had never even dared to dream of such a gratifying Blitzkrieg and annihilation battle in the past!

Song shaopeng couldn't help but roll his eyes!

Can you still hold on? What a joke! We haven't even warmed up yet, what the hell are you persevering for!

Especially the soldiers at the back. They didn't even have the chance to swing their knives. They just followed the horse and ran one round. What was there to persist in?

Song shaopeng cursed in his heart and didn't answer Liu Ziyu's question. He directly ordered, ""The front Army, spread out. The back Army, move forward and regroup!"

Immediately, the back of the Army burst into cheers. They knew that their commander was giving them a chance to gain some merits.

The soldiers at the front all looked disappointed. They didn't exercise much at all, and they hadn't had enough fun!

However, the orders were like mountains, the guards quickly changed formation, not affecting their speed at all.

In just a few seconds, the front and back had been completely reversed!

Liu Ziyu was not surprised by this. It had only taken a few seconds to kill a team of cavalymen. This was not worth mentioning!

After a short while, the guards unit met the third team of Shanlian Empire's cavalymen. These cavalymen saw the signal and were gathering here. They just happened to bump into Liu Ziyu's Guards unit.

The cavalymen did not expect that their allies had already been slaughtered. On the contrary, they felt that Liu Ziyu's side was definitely done for.

Therefore, this group of cavalymen was only here to go through the motions, and then see if there were any fish that had escaped the net.

In the end, he didn't expect all the fish to leak out, and the net to be completely torn apart!

"Kill!"

Liu Ziyu took the lead and shouted as he raised his long saber and charged forward.

The soldiers of the guards unit were still in the arrow formation as they charged forward, urging their Black Spirit Ferghana horses to move forward at full speed!

"Welcome the enemy!"

Although the cavalry of the Shanlian Empire was confused about where their allies had gone, the commander was not a good-for-nothing either. He did not understand, but it did not affect his quick reaction.

Unfortunately, before the enemy cavalry of the Shanlian Empire arrived, they were greeted by a series of crossbow arrows.

Immediately after, Liu Ziyu's personal guard unit drove the strengthened Black Spirit Ferghana horses to knock away their own kind, and continued to charge without any resistance.

Chapter 7907 Burning The Camp

The soldiers who came later learned from the previous soldiers and raised their large swords horizontally, beginning to harvest the heads of their opponents!

To his heart's content!

Liu Ziyu pulled on the reins, and the Black Spirit Ferghana horse circled around. When he turned around to look, not a single enemy soldier was left behind!

Not far away, Lin Yi's spirit sense covered the area as he watched the scene expressionlessly.

To be honest, Liu Ziyu had already done a good job, but it was still not enough.

He would have to leave eventually. If it was only like this now, Liu Ziyu would not be able to protect this vast empire.

So, before he left, he had to think of a way to raise the level of these eight hundred guards.

"Commander song, collect the armor and flags of the Shanlian Empire!"

At the end of the battle, Liu Ziyu nodded his head in satisfaction and ordered,""Tell our brothers to change into the armor of the Shanlian Empire. We'll attack the camp under their banner!"

"Yes, sir!"

Song shaopeng's eyes lit up.

The guards unit moved very quickly and quickly put on the enemy's equipment.

"Very good! Everyone, make yourself look even more miserable. It's the kind of feeling that makes you look like a defeated Army. "

Liu Ziyu spoke as he changed into his equipment, ruffled his hair, and wiped the blood on his face.

After thinking for a while, he slashed at the pauldron again, making a large gap."Just like me, it's best that the brothers around you can't recognize you."

With Liu Ziyu's demonstration, the guards unit quickly learned from him and settled the disguise.

However, song shaopeng didn't quite understand. He thought for a while and couldn't help but ask in a low voice,"general Liu, what are we doing? Aren't we attacking the camp?"

From song shaopeng's point of view, the Shanlian army camp only had 14000 soldiers left after the 6000 cavalymen were killed. The guards unit could just charge in and kill them like chopping vegetables. Why bother with the disguise?

A mere 14000 people, that's less than 20 kills per person!

"We are going to attack the camp, but I've already said that it's best if we can save the thirty to forty thousand slave soldiers! If we attack their camp directly, they will definitely suffer countless casualties. Thus, we can sneak into the enemy camp and launch a general attack!"

Liu Ziyu's original plan was to lure the Shanlian Empire's people out in batches and then slowly devour them.

However, after annihilating the 6000 cavalymen, he realized that he had still underestimated the combat power of the guards unit.

These 800 people were basically 800 killing gods!

Since that was the case, he might as well choose a more radical plan!

Song shaopeng nodded and didn't ask anymore.

After the guards unit settled their disguises, they maintained a loose formation and flew towards the Shanlian Empire's military camp.

On the way, they were still trying to adapt to their status as defeated soldiers, trying to pretend to be defeated.

This put the guards unit soldiers in a difficult position. After they became Guards unit, they would kill in all directions, how would they have the chance to become scattered soldiers?

He didn't have any experience!

In terms of imitation, their opponents also didn't have the chance to become scattered soldiers. They were almost all killed before they collapsed.

Therefore, he could only rely on his imagination to act tough, which was even more difficult than acting tough!

Very quickly, the Shanlian Empire's camp was in sight. The observation post saw this group of cavalymen who had abandoned their armor and raised their own flag. Without any suspicion, they hurriedly opened the gate of the camp.

"What's going on? Why did you all retreat in defeat? I saw a signal in the distance just now. Did you encounter the enemy's main force?"

"Yes, the enemy's main forces ... I have to report to the general immediately!"

Liu Ziyu shouted in a muffled voice and galloped into the camp.

The Sentry was stunned for a moment, still wondering who this voice belonged to. He had never heard it before ...

The main reason was that the accent of Hongshang Commandery was not similar to that of the Shanlian Empire. Liu Ziyu had tried his best to imitate it, but it still sounded a little strange.

Before the Sentinels could figure it out, the 800 Guards unit cavalymen had already swarmed in and followed Liu Ziyu and Song Shaopeng to the boundary between the slave Army and the Shanlian Empire army.

"Hey, hey, hey! The general is not in that direction!"

The Sentry didn't understand. After shouting, he felt that something was wrong!

Then, he saw the last few cavalymen of the defeated Army turn around and draw their bows. The arrows flashed and appeared in front of him like meteors.

The Sentry's eyes widened as he felt a pain in his throat. He looked in disbelief at the tail of the arrow that was still trembling in front of him, and his pupils gradually lost their light!

An enemy attack ...

Before he lost consciousness, he finally realized what was wrong, but it was too late to sound the alarm.

All the sentries at the entrance of the camp, including him, were sniped by arrows at almost the same time, and none of them survived!

This was the effect that Liu Ziyu wanted. If the Sentry post of the Shanlian Empire did not issue a warning in time, the guards unit would have more time to act. This would prevent the Shanlian Empire camp from falling into disorder and chaos.

"Set fire to the camp and separate the Shanlian Empire from the slave Army!"

Liu Ziyu reached out and picked up a torch by the side of the tent, then threw it at the target he had his eyes on in the distance.

Song shaopeng killed a soldier of the Shanlian Empire, took out an arrow, and swept it over the brazier.

These were specially made arrows. The arrowheads were coated with oil and would burn when they came into contact with fire. The soldiers of the guards unit followed suit, so in an instant, a fire arrow streaked through the air and landed on the tents in the distance.

The fire spread rapidly, and the soldiers of the Shanlian Empire rushed out of their tents, screaming.

"Brothers, let's start!"

The guards unit soldiers fired another round of fire arrows, then took out their long swords and began to reap the lives of the enemy.

The development of the situation was just as Liu Ziyu had expected. Chaos spread rapidly throughout the entire Shanlian Empire. However, because of the sea of fire, it did not affect the slave Army at all.

There were also soldiers of the Shanlian Empire standing guard in the slave Army. After realizing that something was wrong, these guards wanted to command the slave Army to put out the fire, but they were shot dead by the soldiers of the guards unit with bows and arrows.

Lin Yi, who was a distance away, nodded silently. Liu Ziyu's kindness didn't make him suitable for leading troops.

Although there was nothing wrong with being merciful, sometimes, being merciful would delay the opportunity to fight in a war.

However, leading the Army was just a training for Liu Ziyu. Lin Yi's real purpose was to make him the heir of Hongshang Commandery ... Well, he should be the new emperor who was on the same level as the Shanlian Empire now.

After all, after destroying the Shanlian Empire, they would have to give up their land and pay compensation.

By then, half of the mountain and the Empire would be split up and given to Lin Yi.

Lin Yi didn't want it for sure, since it was useless.

As for Liu Ziyu, Lin Yi wanted to push him to the throne of this new empire, so he was more than happy to see him showing mercy to the people.

On the battlefield, the general of the Shanlian Empire was not useless. On the contrary, he was also a man with military talent. The first thing he did when he discovered a problem was to organize a defense, stabilize the morale of the Army, and try to counterattack.

Chapter 7908 Then Why Are You Still Asking?

Unfortunately, the guards unit was least afraid of a talented general. If he was just an idiot, he would escape with his men when he felt something was wrong and cause the team to collapse. Maybe some of them could escape.

It was precisely because he had the talent to gather his men and prepare for a counterattack that he lost the chance to escape.

When the guards unit reached his side, he hadn't finished his command. Hence, he didn't even have time to resist before all the subordinates he had gathered were killed!

With the death of their general, the soldiers of the Shanlian Empire were without a leader. However, they were not completely in chaos. Their level of elite was indeed not comparable to that of the seitong Commandery.

As soon as the main general here died, the surviving generals on the other side organized a resistance and tried to counterattack.

However, it was useless. The strength of the guards unit was beyond their imagination. With their speed, they were destined to be tragic!

Twenty minutes later, the battle was over. The 14000 elite soldiers of the Shanlian Empire had been annihilated!

Lin Yi, who was paying attention to the battle, smiled and nodded, satisfied with Liu Ziyu.

It was only then that Liu Ziyu took over the slave Army.

The moment Liu Ziyu said that he was representing the Dragon state, the slave Army immediately expressed their support.

Thus, Liu Ziyu selected 3000 young men from these people to act as the logistics team to clean up the battlefield and collect the spoils of war.

The remaining 30000 soldiers were given a portion of the resources from the Shanlian Empire's camp and were ordered to retreat into the dragon state's conferred Kingdom.

After that, Liu Ziyu brought the guards unit to meet up with Lin Yi.

"Commander, we did not fail our mission. The enemy has been completely annihilated!"

Liu Ziyu couldn't help but jump off his horse and run over to Lin Yi, the expression on his face as if he was a child who had just gotten good grades and wanted to be praised by adults.

"It's beautiful!" Lin Yi smiled and nodded. However, don't be complacent!"

"I understand! Compared to cousin Zhong da, I'm still far from it!"

Liu Ziyu grinned. Although he sounded humble, he was very happy in his heart.

It was as if getting a compliment from Lin Yi was more worth it than killing the two elite soldiers.

"Do your best. The future is yours!"

Lin Yi patted Liu Ziyu's shoulder. He didn't say his thoughts out loud, but he wanted to give him more experience so that he could get used to the role of a superior quickly!

"Report! Marshal, we've just received a message from an Eagle. An Army of 100000 soldiers from the Shanlian Empire is approaching the Dragon state. "

Lin Yi and Liu Ziyu were still talking when a guard ran over.

After a slight pause, the soldier saluted Lin Yi and reported, ""This is one of the reinforcements from the Shanlian Empire. They are about one hundred and fifty miles away from us."

The initial 300,000 strong Army of the Shanlian Empire had already spread out to attack the various cities along the border of the Dragon state conferred kingdoms. Most of them had succeeded, and countless cities had been destroyed.

The 20,000 people that Liu Ziyu had just annihilated were part of this 300000-strong Army.

The 100,000 they were talking about now were the follow-up reinforcements, not the 300000 they had been talking about before.

"One hundred thousand, one hundred and fifty li! The Shanlian Empire is really something!"

Lin Yi pinched his chin and thought about it. The distance wasn't too far, he could run over and hit it!

On the side, Liu Ziyu secretly swallowed a mouthful of saliva. Eight hundred against a hundred thousand ... Just thinking about it made him feel excited!

This battle was completely different from the previous one!

When they faced the 6000 people, they split up. In reality, the number of enemies that the guards unit faced at the same time was not as many as what they described.

And if they were to fight this time, they would most likely face a true elite army that was waiting in formation. Thinking about the number, the shields that were raised could probably form a wall.

No matter how good the guards unit was at fighting, it was impossible for them to break through such a defensive line.

"Cousin Zhong da, you're not thinking of ambushing them, are you?"

Thinking of this, Liu Ziyu's mood suddenly became a little complicated.

Most of them were worried, but a small part of them were excited, filled with a kind of eagerness to try.

In his opinion, cousin Zhong da was omnipotent. Perhaps he could really annihilate a hundred thousand troops?

"Ziyu, what do you think?"

Lin Yi didn't reply, waiting for Liu Ziyu's answer.

After all, to Lin Yi, whether it was a hundred thousand or a million, one pill fire bomb was enough to blow it up.

Liu Ziyu pondered for a moment, then gathered his courage and said, ""Cousin Zhong da, this little brother feels that 100000 enemy troops are too many! This was a difference of over a hundred times! Even if they just stand there and let us kill them, we'll kill them until our hands go soft, right?"

Even killing a hundred pigs would be extremely tiring, let alone a hundred elite soldiers.

Moreover, these soldiers knew how to form formations, defend, and counterattack. They had weapons, armors, and strength.

Liu Ziyu had confidence in Lin Yi, and he had no doubt about the strength of the guards, but he was still very worried!

After all, the guards unit only had 800 people. Once they were exhausted, it would only take an instant for them to be chopped into meat paste.

"I think we need to come up with a plan if we want to deal with the Shanlian Army! We have to continuously divide and disintegrate them, nibbling them up in small numbers and multiple times. When we have enough confidence, we will launch a general attack!"

"Or, we can mobilize the Army of the conferred kingdoms of the Dragon state. When we have enough troops, we can set up an ambush at the key points and lure the enemy into the ambush. Then, we can wipe them out in one fell swoop!"

On the other side, Lin Yi was listening with a smile on his face, but he didn't make a sound or comment.

Liu Ziyu turned to Lin Yi, a little worried. "Cousin Zhong da, is what this little brother said feasible?"

"Ziyu, you're right. This is the correct way of thinking for an excellent general."

He gave her an affirmation before changing the topic, "So, Ziyu, do you think that we don't have enough soldiers and need reinforcements from the Dragon nation?"

Liu Ziyu nodded.

He didn't deny that the guards unit was strong. If they used guerilla tactics and ambushed them, it wasn't impossible to destroy the 100 thousand troops.

However, as time passed, the Shanlian Empire's Army would continue to push forward. By then, it would not be 100000 troops but a million or two million.

At that time, it would be enough to cover the entire battlefield, and the guards unit would lose their space to engage in guerrilla warfare!

"How many people are there?" Lin Yi smiled.

"A hundred thousand!"

Liu Ziyu answered subconsciously.

"How many people do we have?"

"Eight hundred!"

Liu Ziyu suddenly felt that this conversation was a little familiar.

As expected, Lin Yi laughed as he mounted the horse.

"Then why are you still asking? Kill him!"

The blood of the 800 personal guards boiled as they raised their weapons and shouted, "Kill him!"

With their invincible commander leading them, they were an invincible army!

It didn't matter if it was a hundred thousand or three hundred thousand, he would do it!

Chapter 7909 Consecutive Victories

At that moment, Liu Ziyu's heart was also filled with excitement. He felt that he had really failed to live up to expectations just now!

Zhong DA's cousin was a synonym for miracles. If he said he could fight, then he definitely could!

Furthermore, from what Zhong DA's cousin said, eight hundred people was a little too much to deal with the one hundred thousand troops?

I'm afraid so!

Eight hundred personal guards unit soldiers, one person and three riders, gathered into a black torrent, following behind their revered commander, quickly charging towards their target!

With the enhanced Black Spirit Ferghana horse's speed, one hundred and fifty li was only less than an hour.

Lin Yi ordered the horses to change when they were close to the target.

One hundred and fifty miles didn't consume too much energy for the Black Spirit Ferghana horse, but considering that they might have to chase down an army of one hundred thousand soldiers later on, Lin Yi felt that it was better to switch to a better warhorse.

That's right, they hadn't even started fighting yet, and Lin Yi was already thinking about chasing!

The Shanlian Empire's 100000 strong Army was nothing in Lin Yi's eyes.

The soldiers of the guards unit had no intention of stopping to change their horses. They all jumped off their horses and onto another batch of Black Spirit Ferghana horses. They completed the transfer in an instant without affecting their speed at all.

After running for a few hundred meters, a group of ten Scouts appeared in the guards unit's line of sight.

It was obvious that the Army of the Shanlian Empire was very close.

When the scout team saw the guards unit, they immediately turned their horses around and prepared to escape.

Song shaopeng waved his hand, and a few soldiers from the guards unit also sped up and chased after the scout team.

The other side had already wasted a lot of time turning their horses around, and it was even more difficult for them to start up again. Moreover, the guards unit was 50% faster than them.

So in the blink of an eye, the guards unit soldiers had already caught up to the shooting range of the arrows. The 10 of them immediately drew their bows and released their arrows. Without any instructions or communication, the arrows of the 10 people each hit the nearest enemy in front of them.

Completely annihilated!

The ten-man team slowed down a little, waiting for Lin Yi and the others to catch up before quietly returning to their original positions and continuing to move at the same pace and speed as if nothing had happened.

The 10 dead Scouts fell to the ground. No one went to collect their bodies. The guards unit rushed over and in the end, the 10 of them died without a complete body and were completely turned into meat paste.

Although they were miserable, no one would sympathize with them. As invaders, they should be prepared to die!

After turning a corner, a group of cavalrymen from The Mountain Company appeared not far away. There were about five thousand of them.

Further away, there were rows of soldiers that stretched as far as the eye could see.

It was obvious that these five thousand cavalymen were the vanguard, and the main force of the reinforcements was behind them. The total number of troops reached ninety-five thousand.

"Charge!"

He didn't use the demonic blade, but a zhanmadao instead. He swung it forward and charged at the enemy.

The 800 Guards unit did not hesitate, they also readied their weapons and charged forward.

Before, because of the curve, it had affected the vision of both sides. After the curve, the distance between the two sides was very close, so close that the guards unit did not even have the chance to fire their crossbows!

But it didn't matter-something like a crossbow wasn't Lin Yi's personal guard camp's main killing method, it was just an extra.

With such a close distance, he could just kill them directly!

"Welcome the enemy!"

The vanguard cavalry of the Shanlian Empire did not panic. They reacted quickly and raised their weapons to fight back.

The Shanlian Empire cavalry did not think that they would lose in a battle of five thousand against eight hundred. Furthermore, they had an Army of ninety-five thousand behind them. They were only a few miles away and could be seen with the naked eye.

Not to mention a mere eight hundred cavalymen, so what if there were a hundred times more?

Lin Yi, on the other hand, revealed a mysterious smile. He spread out his powerful spirit sense, covering the entire area that could become a battlefield.

His divine sense trembled!

The 5,000 cavalymen and their Black Spirit Ferghana horses suddenly felt their minds go blank. Their vision turned white, and they were in a daze for a moment.

Before they could react, Lin Yi and the eight hundred guards had already charged forward!

The shining zhanmadao easily took the head of the Shanlian Empire cavalry commander.

"Kill! Kill! Kill!"

The guards unit soldiers shouted in unison.

The murderous aura that they usually kept in check exploded out. The soldiers of the Shanlian Empire suddenly felt as if they were in a sea of blood and corpses. The air around them seemed to be filled with a thick and unerasable stench of blood.

After the shock from Lin Yi's spirit sense, both the soldiers and the Black Spirit Ferghana horses were at their lowest point.

Suddenly being attacked by the killing intent of the guards unit, he lost his composure. Seeing the commander being killed and his comrades being beheaded, fear instantly surged like a wave.

"Argh! Help me!"

Someone let out a shrill cry, then turned his horse around and prepared to escape. The people beside him immediately followed suit.

With the first and second one, the third and fourth would naturally follow.

Fear spread out like an avalanche, and the morale of the entire mountain company cavalry was completely destroyed. Everyone was running for their lives, trying to get away from the demon-like enemy.

It was not a test of how fast you could run, but whether you could run faster than your companions!

As long as he could outrun his companions, he would at least be temporarily safe before his companions died!

Because of the distance, the main formation of the Shanlian Empire could not be seen clearly. They only knew that the vanguard had encountered the enemy and had suddenly collapsed before the battle had even begun.

What had happened?

The commander of this Army was dumbfounded. He immediately ordered the Army to enter a defensive state!

Lin Yi's smile widened as his eyes lit up. So what if it was an Army of 100000?

It was indeed tiring for one person to kill a hundred, but it was no problem to drive the enemies to kill each other!

Under Lin Yi's command, the guards unit didn't go all out to kill the terrified soldiers, but chose the enemy officers to snipe them with precision.

After losing all the generals and middle-and low-level officers, the already chaotic cavalry had lost the chance to regroup!

Under the urging of Liu Ziyu's personal guard unit, these soldiers kept on accelerating and accelerating, charging straight for the Shanlian Empire's main formation!

"Marshal! The enemy seems to only have ... Less than a thousand cavalymen!"

The soldiers of the Shanlian Empire who were in charge of observing the enemy could not believe their eyes. They found it difficult to even speak when they were reporting.

With less than 1000 cavalymen, he defeated 5000 cavalymen of the vanguard Battalion in a single clash?

Who would believe this?

When did the elite cavalry of the Empire become straw men?

How could this be possible? could it be that the other party's 800 people were all earth-opening experts?

Chapter 7910 They All Committed Suicide

However, he had never heard of a conferred Kingdom from the Dragon state having so many experts. Even the Shanlian Empire did not have so many experts!

"Less than a thousand?!"

The commander of the Shanlian Empire widened his eyes in disbelief.

If there were only so few enemies, wouldn't he be making a mountain out of a molehill by having an Army of nearly 100000 stand guard?

If word got out that he had an Army of 100000 but was afraid of less than 1000, how could he have the face to lead his troops into battle?

"What is Wang Tong doing? He couldn't even defeat such a small number of enemies? They had actually been defeated! I'm going to kill him!"

This Wang Tong was the first Cavalry general that Lin Yi cut off his head, so the commander of Shanlian wouldn't have the chance to kill him again. At most, he'd get his head back and whip his body.

They would have to see if the commander could survive Lin Yi's next attack!

"Commander, what should we do now? Are you going to let our Vanguard in?"

The Deputy general beside the Marshal was a little uncertain.

Under normal circumstances, if there were routed soldiers in front of them, the already formed defensive position could not be loosened. If the routed soldiers could not turn around in time, they would face the attack of their own position.

Those who charged at the formation were the enemy!

The reason why Lin Yi didn't kill too many cavalymen was to drive them into the formation.

What Liu Ziyu had said previously was actually right. 100000 people were too many. No matter how strong the 800 personal guards unit was, it would be difficult to continue killing so many people.

Even if Lin Yi could use his spirit sense to turn them into sheep waiting to be slaughtered, it would take him some time to break through their defense.

And so, Lin Yi chose to use this move!

Nearly five thousand cavalymen had completely lost their minds. They charged forward without a care.

If there were tens of thousands of soldiers chasing after them, the commander of the Shanlian Empire would definitely order them to shoot at them before they could get close and kill them all.

However, there were less than a thousand people behind them, and there were less than six thousand people including these scattered soldiers. What was there to be afraid of?

"Nonsense! Those are our elite cavalry. Spread out and let them in. Be on guard on both sides and be ready to outflank them at any time!"

The commander of the Shanlian Empire gave the order without hesitation.

Lin Yi's personal guard unit only had 800 men, and he couldn't kill five thousand of his elite cavalymen just for 800 men.

In his opinion, it didn't matter if the defensive formation scattered. There were 100000 soldiers here, and 800 people charging in was like a drop of water falling into a River. What waves could it cause?

Lin Yi smiled silently. This was the effect he wanted!

The Shanlian Empire's defensive formation withdrew their shield wall and spear formation, ready to make way for the cavalry.

And this was the chance Lin Yi was waiting for!

The vibration of the consciousness exploded silently. The soldiers of the Shanlian Empire who had not retreated felt a sharp pain in their heads and their consciousness went blank.

Although it didn't last long and they quickly regained their consciousness, it was already too late for them to avoid it!

The crazily retreating cavalymen were no longer blocked by the shield wall and the spear formation. They raised the butcher's knife in their hands at their original comrades.

Because these people didn't make way for them, they were in the way of their escape!

The devil like personal guards unit was hot on their heels, and they did not dare to stop for even a second.

At this time, who would have the time to gather in a team and take the passage in the middle?

Countless soldiers of the Shanlian Empire were beheaded by their former comrades before they could figure out the situation.

The chaos was created in an instant and spread out with lightning speed.

Even the elites could not stop the spread of panic!

The terrifying thing about the rolling bead curtain was that after the chaos was formed, it would snowball until it was unstoppable!

"Kill!"

Lin Yi shouted and swung his zhanmadao left and right, killing four to five Shanlian soldiers in a row. He then led the guards to the position of the Shanlian commander.

Shoot the horse before shooting the man, capture the king before capturing the bandits!

As long as the commander of this Army was taken care of, the other side's collapse would be irreversible!

"Kill! Kill! Kill!"

The guards unit soldiers followed closely behind their commander, their eyes and faces filled with fanaticism.

As expected, only charging with commander Sima was the most exciting thing!

The eight hundred cavalymen were like a sharp black sword, cutting through the thick and heavy army formation without any hindrance. No one could stop them along the way.

In the blink of an eye, Lin Yi and his men were already in front of the Shanlian commander.

This person was also protected by two thousand of his most elite personal guards. These soldiers were well-organized and did not fall into chaos. They still maintained sufficient combat power.

"Kill!"

Lin Yi didn't say anything more-the word "kill" was enough to explain everything.

As a result, these elites simply didn't have time to unleash the combat power they had reserved, and were directly knocked unconscious by a wave of divine sense shock. And then there was no and!

Lin Yi's personal guards were killing people at an amazing speed. The two thousand elite soldiers and the commander they were protecting didn't even have time to resist before they were all killed.

Lin Yi didn't stop, leading the guards unit to continue their killing, expanding the chaos.

More and more soldiers were fleeing. In order to fight for a chance to escape, they no longer cared about the people around them. Anyone who blocked their escape path was killed!

The Army of 100000 was finished!

The number of people killed by the 800 Guards unit this time was actually not as many as the number killed by Liu Ziyu's team.

That time, they had wiped out 20000 soldiers. This time, only 10000 of them had died at their hands.

However, the number of casualties in the Shanlian Empire was soaring at a terrifying speed.

In about half an hour, less than 10000 of the 100000 soldiers were still alive!

No, to be exact, it was only five thousand, but it was not wrong to say that it was less than ten thousand!

However, this also included the number of enemies that had escaped.

As the 800 guards were too few, they could not surround and annihilate them all, and it was inevitable that some of them escaped.

There were about two to three thousand people in this group, but compared to an army of one hundred thousand, this number of people was just a drop in the ocean!

"Cousin Zhong da, these 100000 troops committed suicide just like that?"

The war was nearing its end, and Liu Ziyu sighed in amazement.

He and Lin Yi were standing on a gentle slope, looking at the chaotic Shanlian Army in the distance.

"There's nothing strange about it. Once chaos forms, it's not something that can be stopped just because you want to! In an Army of 100000, how many of them knew each other? If we kill those middle-and low-level generals, no one will be able to restrain the soldiers and end the chaos. "

Shaking his head, Lin Yi patted Liu Ziyu's shoulder,"Ziyu, you were right. We have 800 people. If we want to kill an Army of 100000, our people will probably be exhausted!"
