

## Bodyguard 7911

Chapter 7911 Name

"We'll use the tactic of rolling the bead curtain to attack the enemy's position and kill the generals to create chaos. Once the overall situation is set, all the enemy soldiers trapped in it will be confused and all their attention will be focused on escaping."

"At that time, the Army of 100000 will no longer be a single entity, but 100000 individuals who have lost their minds. They only have themselves in their eyes, and anyone who blocks them or even approaches them will be their enemy! In order to gain a sense of security, they could only kill everyone around them who could pose a threat to them!"

Liu Ziyu was shocked by Lin Yi's explanation.

It was not that he did not know the tactic of rolling back the bead curtain, but he had not carefully thought about the deep meaning contained in this tactic.

To put it more bluntly, this was actually a brilliant psychological tactic, but it was not something that anyone could play with.

Without an invincible commander like Lin Yi and an invincible cavalry force like the guards unit, the bead curtain would probably tear them apart in the first wave of confrontation, let alone create chaos.

After understanding this, Liu Ziyu, Song Shaopeng, and the others' respect for Lin Yi increased even more.

"Marshal! The fight over there is almost over!"

Song shaopeng looked at the battle in the distance and sneered with disdain, ""I thought the elite soldiers of the Shanlian Empire were powerful, but they are nothing in front of the Marshal! Now that we've killed each other, there are only three to five thousand left!"

"Cousin Zhong da, do we still have to go and kill them?"

Scratching his head, Liu Ziyu didn't want to chase after him, because killing such an opponent wouldn't give him any sense of accomplishment.

"There's no need. The remaining people's physical strength has almost reached its limit, and their mental state has almost collapsed. Even if they survive, it will be difficult for them to become elite soldiers in the future."

"It's not a bad thing to let them go back and help us make a name for ourselves!" Lin Yi smiled, waving his hand.

It was just as Lin Yi had said-those who were still alive couldn't even wave their weapons, and they couldn't even move their legs to run. They could only lie on the ground, looking up at the sky in despair, panting hard as they waited for their fate of being slaughtered.

However, no one attacked them again. Those who fell were given precious rest and breathing space.

Their frenzied minds slowly returned to normal. When they had recovered some strength, they stood up and looked around. They almost went crazy again!

All he could see were corpses.

Blood flowed on the ground, forming a winding dark red stream. It was a real river of blood!

He didn't care about them anymore and quickly left with the guards unit.

And those who survived did spread the name of Lin Yi's personal guard unit.

Soon, the news of this invincible and terrifying cavalry spread throughout the entire Shanlian Empire's Allied army that was sent to conquer the Dragon state.

And Lin Yi brought the guards unit everywhere, there were big and small battles every day, it made their legend spread like wings!

Blood spirit!

This was what the Shanlian Empire called Lin Yi's personal guard unit.

It meant that Lin Yi's personal guards unit was like a ghost, appearing and disappearing without a trace.

Every time they appeared, they would take the lives of a large number of Shanlian Empire soldiers, leaving behind a mountain of corpses and a sea of blood.

"F \* ck, those guys from the Shanlian Empire are so weak even at coming up with nicknames! What blood spirit? it's so unpleasant to hear!"

Upon hearing this title, Liu Ziyu could not help but Mutter,""In my opinion, general Fei daqiang's naming ability is really good. It should be called the invincible Scud Battalion!"

What blood spirit?

"Pfft!"

Hearing this, song shaopeng couldn't help but laugh!

In song shaopeng's heart, the guards unit sounded better. They were the commander's Guards unit and didn't need any other designations.

"Ziyu, there's nothing bad about the blood spirit. As long as it can intimidate the enemy, we'll have achieved our goal!"

Lin Yi put a hand on his forehead, a bitter smile on his face.

What the f \* ck, Scud!

From the sound of it, it had something to do with his thighs and big feet!

"Alright...As long as you think it's good, cousin Zhong da!"

Liu Ziyu shrugged his shoulders and did not mind.

He totally felt that his own personal guard unit should be named by his own family, what was with the enemy naming it!

"Alright, get ready for battle!"

Lin Yi waved his hand and gestured to the distance.

Liu Ziyu immediately looked in that direction and suddenly saw a group of cavalymen appear in his line of sight.

Just counting the amount, it was only about a thousand points.

Instantly, Liu Ziyu felt a little disdainful. There were only so few people, it wasn't even enough to fill the gaps between his teeth!

"This group of cavalymen should be bait!"

Lin Yi's spirit sense had already noticed them when they were talking.

He extended his divine perception further and found that there were indeed about 20000 Shanlian Empire soldiers lying in ambush on both sides of a mountain road not far away.

In order to deal with the blood ghost, the Shanlian Empire had sent out soldiers who were good at ambushing.

"Bait? How did cousin Zhong da see that this was bait?"

Liu Ziyu's spirit jolted, and he immediately began to humbly seek guidance.

From his current position, he could only vaguely see the number of cavalymen. Other than that, there was nothing wrong.

Of course, Liu Ziyu didn't doubt a single word of Lin Yi 's. If he said it was bait, then it was definitely bait!

"I couldn't tell, I was just guessing!"

With a laugh, Lin Yi raised his blade. "All troops, charge! So what if he was bait? We'll talk after we swallow the bait!"

"Kill!"

The guards unit shouted in unison, and followed their commander like an arrow.

Lin Yi only needed a simple sentence like this to make their blood boil and make them willing to go through fire with him!

When the cavalry saw Lin Yi's personal guard unit charging over, they immediately shouted and turned their horses around to run.

"Blood spirit! It's the blood spirit!"

"Hurry up and run!"

.....

They were indeed bait, but they did not want to encounter the blood ghost.

With such a long Battlefront, perhaps it was more likely for friendly forces to encounter them?

When they saw the blood spirit, they did not have to pretend to be afraid and act as bait. They were really afraid. They were really defeated!

Before the two sides had even come into contact, the cavalry had already been defeated.

Before the blood ghost's rise to fame, no one would have believed it. But now, no one would find it strange.

If there was a team from The Mountain Company that could not be defeated by the blood ghost, that would be something to be amazed about!

That was because the Shanlian Empire had not won a single battle.

In fact, they had not even killed a single member of the blood ghost.

## Chapter 7912 Ambush

Lin Yi led the guards unit and chased after them like a whirlwind.

After this period of training and killing, the Black Spirit Ferghana horse's medicinal effects had taken a step further, and its speed had increased a little.

The distance between the two sides was quickly closing. The cavalymen of the Shanlian Empire could not run back to the ambush circle in time and were caught up by the pursuers.

But Lin Yi felt that killing them like this was boring-he should've killed the 20000 who were lying in ambush.

Why don't we not kill these people first and pretend that we've been lured into their ambush?

Or should he force them to surrender first and let them lure out the enemies who were lying in ambush?

Lin Yi was seriously thinking about what to choose when his brain suddenly stopped working. He shouted out a classic line,"Surrender and I won't kill you!"

The sound of the horse's hooves was like thunder, but it couldn't cover Lin Yi's shout.

The guards unit soldiers were all a little confused. They didn't understand why their commander shouted for them to take back their guns and not kill them. However, since their commander shouted, they didn't care if they didn't understand. They just shouted along!

"Surrender your guns and don't kill! Surrender and I won't kill you!"

The guards unit shouted in unison, and the Shanlian Empire cavalry in front of them all heard it.

They were also dumbfounded. Surrender and not kill?

If they could live by surrendering, they really didn't mind surrendering!

However, what did he mean by not killing?

I'm holding a knife, if I don't turn in my gun, am I going to die?

F \* ck, I've long felt that using a spear is more convenient than using a saber! Why didn't you bring a gun with you?

The Shanlian Empire cavalymen without Spears were filled with resentment, while those with Spears were overjoyed. They quickly left the formation and threw their Spears and other weapons on the ground.

"I surrender! I surrender!"

As he shouted, he got off his horse and knelt on the ground!

The guards unit followed Lin Yi's instructions and didn't attack them, leaving them alive.

Those who were still running away were those without guns. They were filled with grief and indignation!

Why can we not kill those who surrender?

Do you have any grudges against people who use other weapons? Was there a need to be like this?

If you really can 't, can you lend me a gun first? after I hand it over to you, I'll at most pay some rent, okay?

Lin Yi was a little embarrassed-he'd messed up!

A gun that didn't kill was not the kind of gun they understood. Forget it, there was no point in explaining this ...

"Those who surrender will be spared, and those who resist will be killed without mercy!"

As the new order was issued, the soldiers of the Shanlian Empire who were still running away burst into tears.

Boss, we've been running away from the start. When did we have the courage to resist?

However, no matter what, he could finally escape death if he surrendered, and he didn't have to surrender his gun to avoid being killed!

The soldiers of the Shanlian Empire who knew that they could not escape quickly surrendered. No one wanted to try their luck and see if they could escape.

Liu Ziyu and song shaopeng each took a few prisoners and went to different places to interrogate them. They soon got the same answer.

"Cousin Zhong da, you've really guessed right! There is indeed an ambush in the Shanlian Empire!"

Liu Ziyu's eyes were filled with respect when he saw Lin Yi!

He'd be the most loyal disciple if Lin Yi were to start a sect.

"Marshal, I've already questioned the four of them, and their statements are all the same! There are close to 20000 elite soldiers from the Shanlian Empire in the canyon ahead. They have also set up countless traps. As soon as we enter the canyon, we will be attacked from all directions!"

Speaking of this, Song Shaopeng was also a little scared.

If they didn't know about this, if the guards unit really chased into the canyon, even if they weren't completely wiped out, they would definitely suffer heavy losses.

The guards unit was strong because they had an invincible commander like Lin Yi, they were stronger than the other soldiers, they were strong because of the battle formations Lin Yi taught them, and they were strong because of the speed of the Black Spirit Ferghana horses!

However, these would not be of much use in the face of traps and ambushes!

At the end of the day, the soldiers of the guards unit were still made of flesh and blood. They were still relatively strong ordinary people. In the face of a large-scale ambush, they would still die!

"Ha ... The Shanlian Empire is also scheming! It means that their fear of us is increasing with each passing day!"

Lin Yi didn't really mind-this so-called ambush, this so-called trap ... It'd only be effective if you walked in. If you didn 't, it'd just be a decoration.

And to ambush Lin Yi in the sub-Island?

How could that be possible?

"Commander song, send a few brothers to drive these captives into the ambush and attract the enemy's attention. Then, you and Ziyu will each take half of the men and sneak up from the canyon on both sides to kill all the people in ambush!"

The guards unit was indeed powerful when riding on Black Spirit Ferghana horses, but without the Black Spirit Ferghana horses, their strength would only be stronger!

This was because the coordination of the battle formation could unleash greater power without riding a horse!

Furthermore, in the special terrain of the canyon, the Army could not spread out. The guards unit's small team fighting style was the strongest fighting style!

"Yes, sir!"

Liu Ziyu and Song Shaopeng cupped their fists together, then they started to lead their troops.

Lin Yi told them to each take half of their men, but they only took 300 men each, leaving 200 men for Lin Yi.

They weren't counting on these two hundred people to protect Lin Yi ... It was more likely that Lin Yi would protect them instead!

It was to make it easier for Lin Yi to get people to help him when he needed something.

Lin Yi didn't reject their good intentions—three hundred each was enough.

After that, Lin Yi led the remaining two hundred men and mixed into the Shanlian cavalymen, charging towards the canyon.

Although the cavalymen were a few times more than Lin Yi, they didn't dare to resist at all and only followed his orders obediently.

Very quickly, Lin Yi's group had charged into the canyon.

Naturally, the ambushers on both sides were alerted, but they didn't move immediately because Lin Yi had been using his divine sense the whole time!

As they moved forward, not only did they shock the ambushers, but some of the traps and mechanisms that Bai had set up were also damaged, losing their destructive power.

Divine sense martial skills were not only effective on people, but also on inanimate objects.

At this time, Liu Ziyu and Song Shaopeng had already led the guards unit to quietly sneak over and cut the throats of the soldiers who were lying in ambush.

When it was done, they were all a little surprised. They felt that this operation was really smooth. They were not discovered by the other party and completed it without the slightest resistance. It was simply incredible!

Could it be that these ambushing troops had already been dumbfounded from the ambush?

Lin Yi drove the surrendered soldiers out of the canyon, and on the surface, nothing happened.

The surrendered soldiers were also shocked. Where was the ambush? What happened to the trap?

Why was there nothing?

So, we're actually cannon fodder sent out to die?

Chapter 7913 The Strongest Mountain Ghost Army

At this moment, the surrendered soldiers of the Shan Lian Empire were all furious. This was too much!

If they had counted on the ambush to save their lives, wouldn't they have died with everlasting regret?

What they didn't know was that the real reason they died was because of the 20000 soldiers in the valley. They didn't even know how they died. They just died for no reason.

When Liu Ziyu and Song Shaopeng, who were covered in blood, walked out of the canyon with 600 Guards unit soldiers who were also covered in blood, the surrendered soldiers knew that they were wrong!

It was indeed an ambush, but they had all become corpses!

The guards unit soldiers were dripping with blood, all of them giving off a terrifying aura!

Blood spirit!

It was a real blood spirit!

He had solved the ambush of 20000 soldiers without a sound?

It wasn't an exaggeration to call them ghosts!

The fear in the hearts of these surrendered soldiers had reached an extreme point. Even if someone had stuffed a knife into their hands and asked them to chop the guards unit soldiers who were standing still, they would not dare to make a move.

If they were forced, they might even commit suicide instead of being enemies with the guards unit.

All the surrendered soldiers couldn't help but shiver. Some of them suddenly knelt on the ground, and then a large number of them followed suit, touching their heads on the ground.

He was begging for his life, but also avoiding the fierce gazes of the guards unit soldiers.

"What are you afraid of? I said I won't kill you, so I won't kill you!"

He glanced at the surrendered soldiers. Only Lin Yi knew that the guards unit wasn't as strong as they appeared to be.

Without the assistance of his own spiritual sense oscillation, how could it be so easy to kill all these ambushers?

"Let's go! I won't kill you this time, but that doesn't mean I'll let you live the next time we meet on the battlefield. You're on your own!"

Lin Yi waved his hand and dismissed the surrendered soldiers.

He kept them alive because he had promised not to kill them.

Secondly, someone had to spread the news of this beautiful counter-ambush.

At that time, wherever the blood ghost went, its might would shake the world, and all his enemies would surrender without a fight.

Just like the surrendered soldiers, when they saw the guards unit appear, their first choice was to run and not resist.

"Thank you for not killing me, my Lord!"

The surrendered soldiers heaved a sigh of relief and thanked him loudly.

After thanking Lin Yi, they quickly got on their horses and ran for their lives, afraid that Lin Yi would go back on his words.

But one of them suddenly cupped his fist to Lin Yi after he got on his horse. "Thank you for letting us live, general. As a reward, I'll tell you a piece of news!"

"One of the strongest armies of our Shanlian Empire, the mountain Ghost Army, is already on the way to the conferred Kingdom of the Dragon state! The target is the blood spirit!"

"The mountain Ghost Army has a total of 3000 people, and is the Empire's trump card Army. Every single soldier can fight against 10000 enemies! Three years ago, our Empire and the fire Empire clashed at the border. The mountain Ghost Army sent out a small team of thirty men and massacred seventy thousand border soldiers in the forest at the border!"

"Although your blood spirit is very strong, I'm afraid you're still not as strong as the mountain Ghost Army. I advise you to retreat as soon as possible!"

The man didn't wait for Lin Yi's reply and left.

Mountain Ghost Army?

Lin Yi scratched his head, interested.

The guards unit's success was mostly due to Lin Yi's use of the spirit sense vibration.

But what did the mountain Ghost Army rely on?

30 against 70000?

That would be about the same as his 800 against 300000, or even stronger!

Could it be that this mountain Ghost Army also has experts in command?

"Cousin Zhong da, what is the mountain Ghost Army? I've never heard of such a troop. Could that fellow be lying to us? There's actually no mountain Ghost Army?"

Liu Ziyu was the first to express his disbelief.

In his eyes, the guards unit was the strongest in the world, how could there be a stronger unit?

This was especially so when that fellow just now actually said that the mountain Ghost Army was only one of the strongest armies in the Shanlian Empire. That was just a F \* cking lie!

And one of?

If you have one, then you have two. Why did you send these vanguards? Wouldn't it be better to just send out the strongest?

Sending a pile of trash to their death, was it because the Shanlian Empire's population was too large and they could not feed themselves?

"I don't think he would lie to us. He didn't need to lie to us in that situation."

Lin Yi shook his head after some thought. "If the mountain Ghost Army really does exist, then we'll be able to find out the truth if we ask around."

"Perhaps ... Our Hongshang Commandery is too remote. We don't even know the elite troops of a conferred Kingdom from the Dragon state, let alone the elite troops from the Shanlian Empire!"

Liu Ziyu sighed. He was a native of Hongshang Commandery, different from Lin Yi who came back from the outside, but he was also out of touch with the news.

To put it bluntly, in front of these behemoths, Hongshang Commandery was nothing at all and could not come into contact with such a high-level matter.

"If there really is a so-called mountain Ghost Army, and it's so powerful, how should we deal with it?"

This was the first time Liu Ziyu had such a worried thought. In the past, in his mind, cousin Zhong da was invincible, and so was the personal guard Camp.

However, the fact that the mountain Ghost Army was actually able to fight against 70000 with 300 soldiers was a little beyond his imagination.

"We'll just deal with it normally. "

As for the mountain Ghost Army, Lin Yi didn't really care about it. He was here to take care of things anyway, and he could just do it himself.

"General Liu, commander song, rest up and wait for the mountain Ghost Army to arrive!"

Since the enemy had sent out the mountain Ghost Army, the normal soldiers should have left by now. Lin Yi didn't want to go through the trouble of searching for them one by one. He just had to wait.

The Prince of the long bang was looking at the battle report in his hand, dumbfounded. He could not believe his eyes.

A great victory! A great victory! A great victory!

All of them were great victories!

Sima Zhongda had really brought his ridiculous 800 personal guards unit and stirred up a storm on the border battlefield!

No, who would still think that it was a joke for the 800 personal guards unit to go out and fight? they were the most ridiculous people!

Annihilate 20000 elite troops of the Shanlian Empire, saving tens of thousands of enslaved citizens of the Dragon nation's conferred Kingdom, defeating 100000 reinforcements from the Shanlian Empire, and eliminating the elite troops of the Shanlian Empire ...

Blood spirit!

This was the fear that the Shanlian Empire had for Lin Yi's eight hundred soldiers, and also the respect they had for them!

The Prince of the long bang felt that this title was very appropriate!

But he still didn't think that Lin Yi could turn the tide of the war!

There was no other reason. The difference in strength between the two sides was still not on the same level!

"Your Majesty, the situation at the border has taken a slight turn for the better. Should we deploy the troops to the front line as soon as possible? Should we take advantage of Sima Zhong DA's advantage and strengthen our defense?"

Even though they had won, the officials and generals of the conferred kingdoms of the Dragon state still treated them seriously.

Chapter 7914 Impatient

The Shanlian Empire would not let this matter rest after suffering such a loss. Even if the conferred Kingdom of the Dragon state said that they did not want to fight anymore, the Shanlian Empire would not accept it!

Only when the conferred kingdoms of the Dragon state showed a more unyielding attitude and completely resisted the revenge of the Shanlian Empire, the two sides might still have a chance to sit down and return to the negotiation table.

Prince long bang was a little stunned. The Army that he had prepared to defend the Shanlian Empire had not yet been fully gathered, but Sima Zhong da had already led eight hundred men to annihilate nearly two hundred thousand of the Shanlian Empire's troops!

No matter how he thought about it, he felt like he was in a dream. It didn't feel real!

At this time, the Prince of the long bang even felt a little scared.

If Hongshang Commandery had rebelled and sent troops to attack the suzerain Kingdom of the long bang, would he have been able to resist?

The answer seemed to be obvious without even thinking. No!

"Approved!"

The Prince of the long bang came back to his senses and immediately agreed to the ministers 'proposal.

No matter what, the Prince had to support Lin Yi. Even if Lin Yi couldn't defeat the Shanlian Empire, he could easily defeat a conferred Kingdom.

Plus, the Shanlian Empire's territories and the cities Lin Yi recovered needed to be taken over again.

After all, Lin Yi didn't care anymore.

No matter how strong the guards unit was, they only had 800 people. Lin Yi couldn't possibly spare any manpower to manage the city.

Hence, the Prince could only rely on himself to gather enough troops and take back the city while Lin Yi had the advantage.

"Your Majesty, there is a secret report! It was said that the Shanlian Empire had already mobilized the mountain Ghost Army to deal with young master Sima Zhongda and his subordinates, the blood spirit! This news has not been verified, but the possibility is very high!"

Suddenly, a minister in charge of intelligence received a piece of information and quickly reported it to the Prince of the long bang.

When the Prince of the long bang heard this, it was as if he had been struck by lightning, and his body stiffened. ""How could this be? Even the mountain Ghost Army has been mobilized? It seems like our Dragon state's conferred Kingdom is truly finished!"

Lin Yi didn't know about the mountain Ghost Army, but the Prince did!

The mountain Ghost Army was known as one of the strongest armies in the Shanlian Empire, and they would not be deployed easily.

Only when there was a war between two empires of the same level would they send such a powerful Army to fight.

The Prince of the long bang had never thought that the Shanlian Empire would use a trump card like the mountain Ghost Army to deal with a conferred Kingdom!

To be honest, while the Prince of the long bang was shocked, he also felt a little proud and excited.

The fact that the mountain Ghost Army was willing to make a move showed that the conferred Kingdom of the Dragon state had a certain weight in the heart of the Emperor of the Shanlian Empire!

"How many more days can Sima Zhong da live?"

After a long while, the Prince of long bang could not help but sigh.

The blood ghost might be powerful, but the mountain Ghost Army was the legend of the Shanlian Empire!

The Prince didn't think that Lin Yi had a chance to live.

At the same time, the Dragon state's conferred kingdoms were most likely doomed!

"No, I can't just sit here and wait for death! Pass on this King's decree, give up on supporting the front lines, gather all the troops, gather all the resources, and attack huyue conferred Kingdom!"

The moment the order was given, everyone was shocked!

The huyue conferred Kingdom was also a conferred Kingdom under the jurisdiction of the Shanlian Empire, and it was adjacent to the Dragon state conferred Kingdom.

The two countries had a good relationship, and there was almost no friction at the border.

This time, when the Shanlian Empire attacked the Dragon state conferred Kingdom, they had also issued an order to the surrounding conferred kingdoms to mobilize their troops to besiege the Dragon state conferred Kingdom, and the huyue conferred Kingdom was one of them.

However, the HU Yue conferred Kingdom had yet to truly attack the Dragon state conferred Kingdom.

Of course, they would definitely mobilize their troops. At the very least, they had to show the Shanlian Empire that they were ready to attack.

"Your Majesty, you must not!"

An old Minister with a big beard quickly came out to admonish, ""The HU Yue conferred Kingdom has always been on good terms with our Kingdom, and they have not attacked us this time. We should be on good terms with the HU Yue conferred Kingdom and ask them not to send out their troops. Only then will we be able to gather more troops to deal with them ..."

"No need to say anymore! This King's mind is set!"

The Prince of the long bang slammed the table and stood up with a ferocious look on his face. "The Dragon state's conferred kingdoms are about to be destroyed. What's the point of talking about those useless things?!"

"Since the Shanlian Empire is determined to destroy us and even sent out the mountain Ghost Army, what else can I not do in order to survive? Yuan Qing, this King orders you to immediately move at full speed and secretly send a message to the fire Empire. Tell them that our Dragon state conferred Kingdom is going to surrender to them!"

The entire imperial court once more fell silent.

The one who was called out was Yuan ru Qian, who was in charge of diplomacy. After being stunned for a few seconds, she cupped her fists and accepted the order.

He understood what the Prince of the long bang meant.

Since the Shanlian Empire was determined to destroy the long bang conferred Kingdom, and the Prince of the long bang felt that he could not fight against it, in order to survive, he could only rely on a Big Shot who was on the same level as the Shanlian Empire.

The fire Empire was the only Empire that was the closest to a conferred Kingdom in the Dragon state and had the power to wrestle with the Shan Lian Empire.

Between the Dragon state conferred Kingdom and the fire Empire, there was the huyue conferred Kingdom!

The meaning of the Prince of the long bang was very clear. They would contact the fire Empire and pincer attack huyue conferred Kingdom. As long as they could connect, the fire Empire would take down the two conferred kingdoms under the Shanlian Empire in one fell swoop!

On the other hand, the Shanlian Empire and huyue conferred Kingdom had formed a pincer attack on the long bang conferred Kingdom as well. It was just that the Shanlian Empire was being held back by Lin Yi, while the huyue conferred Kingdom had yet to make a move.

Thus, the Prince of the long bang was afraid that the huyue conferred Kingdom would declare war on the long bang conferred kingdom first, and that would be extremely difficult for him to bear!

The reason why the HU Yue conferred Kingdom did not make a move was because of their friendship, and perhaps because they were also observing.

After all, the HU Yue conferred Kingdom was close to the border, and there were more disadvantages than advantages to taking action.

The moment they made their move, if the HU Yue conferred Kingdom were to take on the long state conferred Kingdom, they would not even be able to wait for reinforcements, and would have to fight on their own.

"Sima Zhong da ... Even if you die, you have to hold on for a bit longer! This King needs time!"

Lin Yi didn't know that he was already a dead man in the Prince's eyes.

His only use was to buy more time for the Dragon state's conferred kingdoms.

At this time, Lin Yi was leading the guards unit around the area, killing some of the Shanlian Empire Scouts.

The guards unit only had so few people. It would be a little difficult to send a few Scouts to find out news about the mountain Ghost Army.

So Lin Yi decided to just wander around and wait for the enemy to come-he'd interrogate any Shanlian Empire Scouts he saw.

"When will the mountain Ghost Army of yours arrive?"

The first thing Lin Yi asked the Shanlian Scout was the mountain Ghost Army.

The captured Scouts were quite cooperative. They sneered and said,""Soon! The moment the mountain Ghost Army arrives, it will be the end of your blood spirit race! While you can still breathe, take a few more breaths!"

Chapter 7915 The Battle In Three Days

"How fast is fast? One or two days?"

Song shaopeng couldn't stand it and slapped him. ""You better F \* cking talk properly! Stop laughing! Do you believe that I will make you breathless from the pain right now?"

"Kill me if you have the guts. I'm not a good man if I frown ..."

This captive was also tough.

So, how could song shaopeng spoil him?

At this point, would song shaopeng say that he had no balls? That definitely can't happen!

Therefore, with a Flash of the Blade, the Scout was beheaded!

"You tell me!"

Song shaopeng kicked over the headless body. The bloody tip of the knife turned and pointed at another Scout.

With the previous experience, the Scout didn't dare to act tough. He secretly swallowed his saliva and said, ""The news of the mountain Ghost Army's arrival isn't a secret. The higher-ups even ordered us to spread it out."

"However, the whereabouts of the mountain Ghost Army are top secret. There's no way we would know about them! Perhaps they would take a long time to arrive, perhaps they would arrive in a few days, or perhaps ... They had already arrived! That's all possible. "

"If you let me go, I'm willing to gather information for you. As long as I have some reliable information, I'll send it to you. What do you think?"

This captive obviously cherished his life more than the previous one, and he continued to Bluff.

Lin Yi's lips curled up as he looked at the Scout, "You're quite smart. You want to know our whereabouts and then report it to kill us?"

"I don't dare! I really want to use this to exchange for a chance to live!"

A thin layer of sweat appeared on the Scout's forehead.

Only he himself knew if he had such thoughts, but he would never admit it.

"It doesn't matter! I'll give you a chance!"

Lin Yi's zhanmadao moved and lifted the Scout's chin.

The sharp and cold Steel gave the Scout goosebumps, but he didn't dare to move, for fear that his throat would be cut open if he moved.

"I won't ask you about the mountain Ghost Army. I'll let you go now, and I only need you to do one thing! It's to tell your boss that in three days, at the autumn leaf Plains, we will be facing off against the mountain Ghost Army. See you there!"

"Don't say that the mountain Ghost Army won't be able to make it in time. That will make us look down on the so-called strongest army of your Shanlian Empire!"

The Scout was dumbfounded by Lin Yi's words!

He was even suspecting if he was hallucinating. The other party was going to have a direct confrontation with the mountain Ghost Army?

What a stupid idea!

Are you looking for death?

Are you looking for death!

Since they wanted to die, he would definitely help these idiots!

"Good! I'll definitely pass on the message! Three days later, in the autumn leaf Plains! I won't leave until we meet!"

The Scout had no reason to refuse. If he could keep his life and report blood ghost's whereabouts, it would definitely be a great merit!

Lin Yi waved his hand, and the guards put away their weapons. They didn't care about the scouts anymore, and left with Lin Yi.

The few Scouts who did not speak could not believe that they had managed to return alive after encountering the blood spirit!

"Cousin Zhong da, will the Shanlian Empire gather more troops to attack us in the battle with the mountain Ghost Army in three days?"

After running for a while, Liu Ziyu got close to Lin Yi and asked, "Although we brothers are very strong, the mountain Ghost Army is not an undeserved name. If the Shanlian Empire takes the opportunity to surround us with their Army, it will be very difficult for us to break out of the siege."

"Heh...Ziyu, don't you think it's a little troublesome for us to run around and catch people? We'll give them a chance, and we'll also give ourselves a chance. "

Lin Yi smiled mysteriously, a confident smile on his face."It doesn't matter if the mountain Empire sends an Army to besiege us or not, we won't be at a disadvantage. Without an Army, we'll just have to get rid of the mountain Ghost Army. This will be the greatest deterrent to the Shanlian Empire. "

"If they really do send an Army to surround us, then let's take them down in one fell swoop. Let's not waste any more time here!"

"What do you mean by one book?"

Liu Ziyu was slightly taken aback.

"Uh, I'm just fighting with the mindset of getting it all out in one go!"

Lin Yi slapped his forehead with a bitter smile.

He thought of the days in the West Star Mountain village in the secular world.

At that time, with an 11-inch laptop, the days of watching movies would be gone forever!

He really missed it!

He had a lot of female friends on Sky Class Island, but there were no films to watch.

He couldn't just look at them, could he?

What if he saw something else?

Lin Yi was such a pure person, and he wanted to save his first time for his real girlfriend, Tang Yin!

However, Tang Yin was still unconscious, and Lin Yi couldn't possibly do anything to the "dead body" right?

It had been a long time since he had gone to the Otaku store in Akihabara to buy a movie.

The last time he was there was when he was on a mission in the secular world.

Now, they could only fight in the autumn leaf Plains.

Lin Yi was still fantasizing when Liu Ziyu spoke up.

"Oh, oh, then we'll just get them one by one!"

Liu Ziyu was instantly impressed. "That's a good name. From now on, we'll name it the personal guards unit!"

"....."

Lin Yi wanted to say, "F \* ck off, are you the second generation of Fei daqiang?"

For the next three days, Lin Yi didn't go hunting for more Scouts, and the Shanlian Empire didn't push any further either.

A rare moment of peace appeared on the borders of the Dragon state's conferred kingdoms.

Three days later, in the autumn leaf Plains!

Lin Yi brought the 800 Guards unit to the battlefield.

Opposite them was the most powerful Army of the Shanlian Empire, the bi 'an mountain Ghost Army!

The Shanlian Empire placed great importance on the existence of the blood ghost. They had sent out their full force of three thousand mountain ghost soldiers!

Not only that, but all the armies that were sent to attack the Dragon state's conferred kingdoms had also gathered twenty miles away from the battlefield.

It wasn't a million, but it definitely wasn't less than five hundred thousand!

If one were to look from above, they would be able to see square formations spread out one after another, covering the earth!

Just as Liu Ziyu had expected, since they knew that the blood ghost would appear here, the Shanlian Empire had no intention of releasing it.

The 3,000 mountain ghost soldiers were their trump card. They believed that the mountain Ghost Army could deal with blood Phantom!

However, in order to be absolutely safe, the 500000-strong Army would surround the entire autumn leaf Plains after the battle began!

Regardless of the outcome of the battle between the blood spirit and the mountain Ghost Army, he would make sure that the blood spirit would not be able to escape today!

They thought that they wouldn't be discovered by the blood spirit if they waited twenty miles away from the battle Point, but they didn't know that Lin Yi's divine sense could reach far beyond that!

Chapter 7916 More Joy

And so, their every move was under Lin Yi's surveillance.

Lin Yi smiled faintly. Five hundred thousand wasn't as much as he thought, but it was enough.

After today's battle, even if the Shanlian Empire didn't want to, they had to kneel!

"Cousin Zhong da, is that the mountain Ghost Army of the Shanlian Empire? It really does give off a very strong feeling!"

Liu Ziyu looked at the 3000-man team in dark gray leather armor and felt a little nervous.

He'd always been confident when he was with Lin Yi, thinking that he could do anything he wanted in the world, but every time he thought about the mountain Ghost Army, he'd get a little depressed.

"Heh ... It should be the mountain Ghost Army! As expected of one of the strongest armies in the Shanlian Empire. "

Lin Yi was still smiling faintly, but a strange light flashed in his eyes.

800 Guards unit against 3000 normal soldiers, even if they were slightly stronger, they still had the confidence to win!

However, just like Liu Ziyu, when they saw the mountain Ghost Army, their unswerving determination actually wavered slightly.

The ability to influence with divine sense!

Lin Yi suddenly understood why the mountain Ghost Army was so strong!

These three thousand people all had the ability to release their spiritual sense to affect the opponent, but it was not a spiritual sense attack skill.

To be exact, they should all be people with mutated spiritual power!

They could release their own spiritual power, producing an ability similar to a divine sense attack.

In terms of effect, it was similar to Lin Yi's spirit sense.

In other words, their ability was a simplified version of consciousness shock!

Coupled with their own strength, they could indeed display amazing combat power. No wonder they could be one of the Trump cards of the Shanlian Empire.

Unfortunately, they met Lin Yi today!

In terms of spirit sense, Lin Yi was the master!

These were child's play, not even qualified to be called showing off in front of an expert, playing with knives behind closed doors, or selling books in the Confucius sect!

"Are you the blood spirits? It doesn't look like much!"

The commander of the mountain Ghost Army was a middle-aged man with a sinister expression.

The man's cheeks were thin, his pupils were protruding, and his hair was a little yellow. He looked like he had never had a full meal since he was a child, which led to malnutrition and a congenital deficiency in his development.

The guy laughed evilly when he saw Lin Yi with the guards unit. He then hooked his finger at Lin Yi. "You should be the leader of the blood ghost, right? Come over and kneel down, kowtow a few times, and this general might be merciful and let you live. "

"And all of you, as long as you kneel down and beg for mercy, and swear to surrender and be loyal to our Shanlian Empire, I can let you live today! But you can only become a slave. If you can make a contribution, I will give you the chance to get rid of your slave status. "

When the Shanlian Empire attacked the conferred kingdoms of the Dragon state, they did not accept surrender at all, and only a few civilians were captured as prisoners.

This time, he asked for Lin Yi's personal guards to surrender because he felt that the combat strength of the personal guards was shocking!

If the Shanlian Empire could add such a strong Army, it would be better than recruiting hundreds of thousands of soldiers from the Dragon state and conferred kingdoms.

Liu Ziyu and song shaopeng were furious!

Although they were slightly affected by the mountain Ghost Army, they had not used their full strength yet. Furthermore, they were strong-willed experts. Thus, they immediately raised their weapons and prepared to attack.

Lin Yi raised his hand, stopping the two.

Lin Yi then gave the commander a "care for an idiot" look. "With your IQ, it's really not easy to live this long! You puny shrimp soldiers and crab generals, existences like small fish, dare to be impudent in front of me?"

"To tell you the truth, even if you small fries ran over, knelt on the ground, cried, and wanted to surrender, I wouldn't want you because you're too weak! Bringing along a bunch of trash like you will only drag down our fighting strength. "

"Hahahaha!"

Song shaopeng and the guards suddenly burst into laughter.

They knew how to seize the opportunity and laughed at the right time, returning the gloominess of being looked down on double.

"He can really act tough!"

The commander of the mountain Ghost Army laughed instead of getting angry. "I thought that our mountain Ghost Army was good enough at acting tough. But now, it seems like you're the head of the acting tough group! You're forcing yourself to act tough!"

"Hahahaha!"

The mountain Ghost Army also seized the opportunity to laugh back.

"Laugh all you want, you won't be able to laugh after a while! It's true that mentally disabled children are much happier!"

Lin Yi waved his hand and looked at the commander, "Hurry up and smile."

"Hehehe ... You really don't know what's good for you! Originally, this general pitied you all for being battle-hardened elites, and it would be a pity for you to die. But since you all like to court death, then this general will fulfill your wish!"

The commander of the mountain Ghost Army also waved his hand, and the 3000-strong mountain Ghost Army instantly got into formation!

An invisible aura spread out, and the originally clear sky seemed to instantly turn gray.

"An Army of 3000 mountain ghost soldiers is too little! It's not even enough to fill the gaps between my teeth!"

Lin Yi raised his head and looked up at the sky, his face full of disdain.

In the end, he could only sigh softly. "Brothers, there's no other way. No matter how small the mosquitoes are, they're still meat. Let's use these little mosquitoes as a sumptuous meal first. We'll go behind them to find a big meal later!"

"Good! Let's listen to the commander and have a sumptuous meal first!"

Song shaopeng laughed out loud, playing along with his master.

He didn't know that there was an Army of 500000 behind the mountain Ghost Army. He simply thought that his Marshal was just trying to anger him.

The heart of the mountain Ghost Army's commander sank.

Of course, he knew that there were hundreds of thousands of soldiers twenty li away!

But how did Lin Yi know?

Could it be that he was just saying it and blindly guessing?

However, no matter how Lin Yi found out, after hearing Lin Yi's words, he felt more uneasy.

The blood spirit knows that we have an Army behind us? If you knew, why did you still dare to come over?

You still dare to act so cool?

"Al, I'm fine. The opponents are so weak and there are so few of them. I think it's a waste to send a hundred of our brothers out!"

Lin Yi continued to provoke the mountain Ghost Army, completely ignoring their formation!

He even turned a blind eye to the dense spiritual energy that they were exuding. "But it's not fair to the other brothers if we only let 100 brothers fight. There's more monks than meat, so we should let everyone have some soup!"

The guards didn't have the killing intent they had before-they cooperated with Lin Yi, saying that they didn't mind the lack of meat, and that they wanted a share.

The pressure on the mountain Ghost Army previously had also disappeared without a trace.

"How arrogant! I'll grant you your wish, now die!"

The commander of the mountain Ghost Army shouted angrily.

At this moment, the mountain Ghost Army's formation had already been fully deployed, and they were ready to attack!

Chapter 7917

Even in the war against the fire Empire, it was difficult for the mountain Ghost Army to launch an all-out attack. Most of the time, they would move in small teams.

To deal with a mere 800-man blood Phantom, not only did they mobilize all 3000 mountain ghost soldiers, but they even had 500000 soldiers behind them. This was an utter humiliation to the mountain Ghost Army!

Therefore, the commander of the mountain Ghost Army had made up his mind to kill all the blood spirits in one fell swoop with a thunderous force!

He wanted to let the people of the Shanlian Empire and the other empires on the sub-Island see the power of the mountain Ghost Army.

One of the strongest armies of the Shanlian Empire?

Bah!

The mountain Ghost Army was the strongest army, without a doubt!

All sorts of thoughts ran through the commander's mind, but it did not affect him in the slightest as he led the mountain Ghost Army to unleash their strongest attack.

The wide range of the spirit sense completely enveloped Lin Yi's eight hundred personal guard units, and then the three thousand mountain ghost soldiers waved their weapons, each using their best martial skills.

In the eyes of the mountain Ghost Army, 3000 versus 800. This was a true battle for the kill. If they were slow, they would not be able to get any kills!

On average, four people would only fight for one head. For their own merits, they really gave it their all!

Lin Yi's head was still raised, looking at the clouds in the sky, as if he was thinking about life.

Lin Yi turned a blind eye to the mountain Ghost Army's attack and only spoke indifferently.

"Slaughter them all!"

The guards unit soldiers came down from above, and all of them instantly put away their playful expressions, their eyes becoming sharp and cold again.

The hidden killing intent also soared to the sky, instantly making people feel as if they were in a mountain of corpses and a sea of blood.

As Lin Yi spoke, he released his spirit sense.

The 3,000-strong mountain Ghost Army's little trick was like a spider's web encountering a meteorite when it encountered the divine sense shock of an ancestor!

Not to mention blocking it, there wasn't even a trace of its existence!

All the soldiers of the mountain Ghost Army were in the middle of charging forward when they simultaneously fell into a momentary daze!

Before they could react, the guards unit soldiers, led by Liu Ziyu and Song Shaopeng, had already cut into their formation like sharp blades.

Lin Yi put his hands behind his back and continued to look at the clouds in the sky.

Because the opponent was too weak, not even enough to fill the gaps between his teeth. As the commander, he definitely could not fight with his subordinates for the kill!

Of course, this was the thoughts of the guards unit soldiers. They just felt that their commander was good and didn't steal kills!

Moreover, the commander's carefree attitude was just too handsome!

When the two armies clashed, the guards unit's expectations of the mountain Ghost Army's powerful attacks did not appear. Instead, the guards unit soldiers went all out and killed countless people as if they were chopping vegetables.

One of the strongest armies of the Shanlian Empire? the mountain Ghost Army?

It turned out that they were all a bunch of noobs!

The guards unit soldiers were instantly enraged!

What happened to the strong Army? I've been nervous for half a day, and this is what you're showing me?

Go die die die!

It was like a hot knife through butter!

They probably didn't even know how many people the guards unit had killed. Their killing techniques were definitely at the point of perfection. In the blink of an eye, they could kill three or four people!

At this time, the guards unit soldiers at the back of the formation were suddenly anxious!

We agreed to have a sumptuous meal together, to eat mosquito meat together!

[You bastards! You killed so fast! You didn't even leave us any soup!]

However, before they could complain, the battle had already ended!

From the moment the two sides collided to the end of the battle, it had not even been five seconds!

"Marshal, there are over thirty of them alive!"

Song shaopeng and a few guards brought the commander of the mountain Ghost Army and his 30 guards to Lin Yi, "This guy said that he has information and is willing to give it to us. He's also willing to surrender and is begging us to spare his life!"

"Yes, yes! Furthermore, our mountain Ghost Army is truly powerful. Even if we only have 30 or so of us left, we can still display a powerful combat strength ..."

The leader of the mountain Ghost Army opened his mouth to speak, but before he could finish, Lin Yi's guards all started laughing at him.

Was the mountain Ghost Army really that powerful?

So strong that they couldn't even last five seconds against the guards unit and they were all wiped out?

The remaining 30 or so could also display powerful combat strength?

Then show us what you've got!

The commander of the mountain Ghost Army seemed to have realized that there was something wrong with his words. It was really not appropriate to say that he was powerful in front of this group of blood spirits!

Lin Yi was still looking up at the sky, as if the clouds in the sky had an endless attraction. The remnants of the mountain Ghost Army weren't even worth his attention.

"Commander song, what is my order?"

Lin Yi said faintly, continuing to study the clouds in the sky. His tone was calm.

Song shaopeng's expression became serious, and he instantly raised the knife in his hand and chopped down. The other soldiers of the guards unit did the same without hesitation.

Because Lin Yi's order was to kill them all!

They didn't need any survivors, they didn't need them to provide any information, and they didn't need them to surrender to drag down the strength of the guards unit!

The head of the mountain Ghost Army's commander that flew up was filled with astonishment. He did not expect that he would be abandoned as though he was a piece of trash after using important information as a bargaining chip and bringing his men to pledge their allegiance!

Before he lost consciousness, he remembered what Lin Yi said. They wouldn't accept it even if they knelt in front of him and cried!

So ... It was all the truth!

"Marshal, this subordinate knows his crime. Please punish me!"

Song shaopeng threw away the long blade in his hand and knelt down on one knee, lowering his head to beg for forgiveness, "This subordinate has disobeyed the military Order! This has nothing to do with the other brothers!"

Lin Yi's order was to kill all the mountain Ghost Army, but song shaopeng took more than thirty prisoners by himself, which was indeed against the order.

If it was serious, it was normal to be chopped off!

The guards who followed song shaopeng also dropped their weapons and knelt in front of Lin Yi.

"Forget it, this time you have your own reasons, it's excusable! I won't pursue this matter, but there won't be a next time!"

Lin Yi finally stopped looking at the clouds and lowered his head to look at song shaopeng and the others. "Get up and get ready. We should go for a big meal!"

"Thank you, Marshal!"

Song shaopeng and the others quickly thanked him and jumped up with excited smiles on their faces.

That Army of mountain ghost soldiers from earlier was not even an appetizer. How disappointing!

"Cousin Zhong da, where is the feast?"

Liu Ziyu followed Lin Yi around and became a lot more battle-hungry.

At this time, he was naturally eager to try, and the big saber in his hand was already unable to endure the thirst!

"If I'm not wrong, the Shanlian Empire's Army is waiting for us!"

Lin Yi couldn't say that he'd already seen through everything with his spirit sense, so he pretended to be smart. "The important information that fellow just gave us should be to tell us how many troops the mountain Ghost Army has behind them, waiting to surround and annihilate us."

Chapter 7918

"Unfortunately, he doesn't know that we don't care how many soldiers the Shanlian Empire has. We will kill as many as they come!"

"Right! We'll kill as many as they come!"

Song shaopeng grabbed his weapon and raised it over his head, his face red!

Being able to follow a commander like Lin Yi, he felt like he had reached the peak of his life. Even if he died like this, it didn't matter!

People should live happily, and even if they died, they should die a heroic death like this!

Moreover, following the Marshal, it seemed that it was not easy to die even if one wanted to!

"We'll kill as many as they come! Kill! Kill! Kill!"

The guards unit soldiers shouted in unison, their morale was high, and their killing intent was strong!

The eight hundred cavalymen charged forward with Lin Yi, and the famous mountain Ghost Army was now just dust on the ground, no one would pay attention to them anymore!

In the sky not too far away, the aerial spirit beasts sent by the Shanlian Empire were observing the battle between the mountain Ghost Army and the blood spirit.

They had never imagined that the mountain Ghost Army, one of the Empire's most powerful armies, would be completely annihilated in a single exchange of blows despite being outnumbered by 3000 to 800!

This kind of thing felt like a fantasy!

Even though they had seen it with their own eyes, they couldn't help but wonder if their eyes had deceived them.

When Lin Yi brought the guards unit and started charging, the aerial spirit beast in charge of observing quickly sent out a signal to inform the Army behind.

The Misty Mountain Ghost Army had been defeated!

"Incompetent! You've been bragging all day that you're the strongest army in the Empire, but in the end, you were defeated by a mere 800 people!"

The commander behind them was a brother of the Emperor of the Shanlian Empire, His Royal Highness the Prince!

He had a fief, but he was stationed in the capital. He supported the second Prince who Lin Yi killed, and that was why he'd come here personally to fight a conferred Kingdom.

He still didn't know what was going on. The mountain Ghost Army wasn't defeated. They were completely annihilated!

The signal that was sent back could not be described too clearly. It only conveyed the fact that the mountain Ghost Army had failed, but it could not explain how miserable the process of failure was.

"Pass on my order! All troops spread out and surrounded the autumn leaf Plains! Don't let any living thing on the plains go, even a mosquito. Stop it for this King!"

The military Order was passed down, and the 500000-strong Army began to move.

It was just that there were too many people in the Army, and it was not that easy to fully spread out.

Lin Yi led the guards unit and ran for about 17 to 18 miles, and they could clearly see the Shanlian Army's movements.

"A ... A lot ..."

Liu Ziyu stammered at the sight. The Shanlian Empire's army formation was simply too large!

All he could see were the soldiers of the Shanlian Empire.

There was a sea of people!

It was impossible to judge how many enemy troops there were!

The entire personal guards unit was just a drop of water in the sea of people in the Shanlian Empire!

"Cousin Zhong da, isn't this feast a little too big?"

Liu Ziyu could not help but smile bitterly.

Although he had faced a 100000-strong Army before, he was still speechless when he encountered an Army that was many times larger than that!

A big meal ... This was the rhythm of being full, and the kind of full to the point of bursting!

Although Liu Ziyu believed in the strength of the personal guards unit, with so many enemies, the personal guards unit might not be killed by the enemy in the end, but killed by exhaustion ...

"It's a feast! Of course, it has to be big, or else it's not a big meal!"

Lin Yi laughed, not caring about the crowd at all. "Brothers, the enemy has hundreds of thousands of soldiers. Are you afraid?"

"Kill!"

The guards unit followed Lin Yi and didn't know what fear was. They only knew the word "kill"!

"Cousin Zhong da, how are we going to fight? Still rolling up the bead curtain?"

Liu Ziyu steadied his mind and began to humbly ask for advice.

Rolling up the bead curtain was a good tactic, but he felt that it would not be easy to use it now.

On the main battlefield, the Shanlian Empire had set up a tight defensive formation. If the guards unit charged in directly, it would probably be difficult to break in.

And this time, there was no enemy cavalry to use, so it would be difficult to replicate the tactics from last time.

"No need. There's no strategy this time. Just kill them directly!"

Lin Yi laughed heartily as he swung his zhanmadao at the air. "Everyone, follow this commander and pierce through them. After charging back and forth a few times, they'll probably collapse!"

In the entire world, Lin Yi was probably the only one who dared to say that eight hundred people could break through a formation of five hundred thousand!

As for Liu Ziyu and the personal guards unit, they all felt that it was natural and immediately prepared to charge.

"Cousin Zhong da, there seems to be someone on the other side who wants to talk!"

Liu Ziyu suddenly pointed at a rider who had rushed out from the opposite side and said, ""They're most likely here to make us surrender, right? With our battle prowess, we are indeed worthy of all the empires in the world extending an olive branch. "

This time, Liu Ziyu's guess was right. The combat power of the guards unit was too shocking, and the Shanlian Empire naturally wanted to try recruiting them.

Of course, after recruiting him, he didn't know if he would secretly get rid of Lin Yi.

The possibility was at least 90%. After all, it was Lin Yi who killed the second Prince, and it wasn't going to be that easy to get over it.

"Blood ghost, you've been surrounded by 500000 soldiers. Surrender now and I'll spare your lives. Otherwise, all of you will die from a thousand arrows piercing through your hearts!"

The messenger who ran over shouted as he raised his hand.

The Shanlian Empire's formation immediately raised their longbows, and the arrowheads shone brightly under the sun.

Lin Yi took a look-there should be around forty to fifty thousand archers aiming their arrows at them.

It wasn't possible for everyone to be pierced by 10000 arrows, but it was possible for each person to be hit by dozens of arrows and become a Porcupine.

"Ha ... Surrender? This Marshal Sima Zhong da, go back and tell your commander that if he leads the entire Army to surrender now, this Marshal will spare his life. If he is stubborn, then don't blame this Marshal for not leaving his corpse intact!"

Lin Yi laughed loudly, not taking the tens of thousands of archers seriously at all. He even threatened the Shanlian Empire Messenger naturally.

The Messenger's eyes went wide as he looked at Lin Yi in disbelief. Who were these people? Are you blind?

To bring eight hundred men to threaten the general of a five hundred thousand strong Army, where did he get his confidence from?

"You're the one who's stubborn. Since you want to die, then just wait for it!"

The envoy from the Shanlian Empire was too lazy to waste his breath. After a few curses, he turned his horse around and galloped back to his camp.

"Marshal, let this subordinate kill that guy?!"

Song shaopeng touched his longbow, and his eyes were a little cold. Who the hell dared to be so disrespectful to the general? letting him go back was too easy on him!

"There's no hurry. When two armies are fighting, we won't kill the messenger. Let him go first. He can't escape anyway. We can kill him later!"

Lin Yi waved his hand and raised his zhanmadao with one hand. He pointed it at the Shanlian Army and shouted, "Throw down your weapons and don't kill those who surrender! Those who resist will be killed without mercy!"

Chapter 7919

His voice exploded in the air, and even the cries of the five hundred thousand soldiers couldn't overpower Lin Yi's voice.

The Shanlian Empire's 500000 strong Army paused.

However, what shocked them wasn't that Lin Yi's voice had reached the ears of every single one of the 500000 soldiers, but that the leader of the blood spirit Army was telling them to surrender!

800 people were shouting for 500000 people to surrender?

What a joke!

The Prince of the Shanlian Empire's expression turned cold. He extended his finger and gently waved it, causing the flag to dance.

Instantly, countless arrows rose into the air, like a dense swarm of locusts, enveloping Lin Yi and the 800 guards!

This rain of arrows would be more than enough to cover eight thousand people, let alone eight hundred!

In other words, it was almost impossible for Lin Yi and the guards unit to Dodge!

Of course, it was only 'almost'!

Lin Yi had already urged the Black Spirit Ferghana horse to charge forward at full speed when the enemy shot the arrows. The guards unit soldiers followed closely behind, forming a complete battle formation.

With the support of the battle formation, the Black Spirit Ferghana horse, which was already astonishingly fast due to the strengthening, increased its speed once again.

The entire formation was like a Black bolt of lightning, instantly breaking through the small distance between the two sides, and at the same time, perfectly avoiding the range of the arrow rain!

The forty to fifty thousand arrows all missed their target!

A cold smile appeared on Lin Yi's lips as he activated his spirit sense, sending out the widest range of spirit sense he had ever sent out!

Before the shield wall of the Shanlian Empire's Vanguard was hit, it suddenly fell apart. The shield wall fell and the spear formation was in a mess, revealing a huge flaw!

Lin Yi's zhanmadao slashed through the air, easily taking away the heads of two Shanlian Empire soldiers. At the same time, he led the guards unit into the formation of the Shanlian Empire soldiers!

There was no chaos because the soldiers of the Shanlian Empire were still in a daze under the effect of the shock of consciousness. They had no time to panic.

At this moment, they were just a herd of lambs waiting to be slaughtered, and they were already on the anvil, unable to move.

Facing the guards unit's knife, they couldn't even tremble.

Under Lin Yi's command, the 800 guards spread out in a comb-shaped formation. The distance between the two was just the distance of their blades!

The comb was not combing through hair, but the enemy's flesh and blood!

In the blink of an eye, the Shanlian Empire had lost twenty to thirty thousand soldiers!

"Throw down your weapons and we won't kill those who surrender!"

Lin Yi called out after the first wave of spirit sense, and a new one came.

Before the soldiers of the Shanlian Empire could come back to their senses, they fell into a new round of confusion!

Whether it was intentional or not, no one responded to Lin Yi's call to put down their weapons.

Thus, the guards continued to comb!

Originally, the Shanlian Empire's Army was in an impenetrable defense, but now, they had become a factor for their pursuit!

Large groups of soldiers were killed by Lin Yi's Guards unit without knowing what was going on.

Lin Yi and the guards unit were like a sharp knife cutting into a large piece of tofu.

No matter how big the tofu was, it would never be able to block the sharpness of a knife. It would not even be able to block it.

The Prince's face went pale-he had a treasure on him that could barely withstand Lin Yi's super-large spirit sense vibration, so he could still stay conscious.

He finally understood how terrifying the blood ghost was!

This was a super powerful Army that was even more powerful than the mountain Ghost Army, capable of influencing the minds of their opponents!

No wonder ...

No wonder the mountain Ghost Army could not even withstand a single blow from the blood Phantom!

As the Prince of the Shanlian Empire and one of the higher-ups, he was one of the few who knew the secrets of the mountain Ghost Army!

Now that he had discovered an enhanced version of the mountain Ghost Army, blood Phantom, he finally understood that numbers no longer mattered!

The 500,000 strong Army ... Was defeated!

Even if the blood spirit would be exhausted and it would be difficult to kill five hundred thousand, he could not stop it from leaving!

No matter how many people there were, they wouldn't be able to stop him!

Seeing Lin Yi's killing stance with the guards unit, the Prince lost his confidence.

500,000 people, are they really unable to kill them all? Would he really be exhausted?

Using the momentum of the Black Spirit Ferghana horse to move the blade, the cavalry did not need to spend much strength at all. They only needed to stabilize the blade!

With every step the Black Spirit Ferghana horse took, close to a thousand soldiers of the Shanlian Empire would die. Furthermore, its speed was so fast that it could sprint dozens of steps in a second!

The 500,000-strong Army was lucky that they had already formed a formation. Otherwise, they would not have been able to survive the blood ghost's attack!

"Throw down your weapons and we won't kill those who surrender!"

Lin Yi shouted again, and the Prince almost cried.

Big brother, at least let them wake up a little and give them a chance to put down their weapons and surrender!

All the soldiers of the Shanlian Empire were instinctively holding onto their weapons, but they were unable to use them or throw them away. This was bullying!

That's right, eight hundred people were bullying five hundred thousand people!

The Prince of the Shanlian Empire felt ashamed to face his father.

Lin Yi led the guards unit and charged for a while, feeling that there was no point in killing like this. He saw that the commander of the Shanlian Empire wasn't as dazed as the others.

Although the commander's face was twisted in pain, he still seemed to have some self-awareness.

"Interesting!"

Lin Yi pulled on the reins, and the formation changed. The eight hundred guards ran in a small arc and quickly reached the Prince.

"You must be the commander of the Shanlian Empire, right? At this point, don't you want to surrender?"

Lin Yi stopped three steps in front of the Prince, a half-smile on his face. "Or do you want me to kill all of you?"

All the guards unit soldiers were like evil spirits that had crawled out from a sea of blood, their bodies soaked in the enemy's blood.

And behind them were mountains of corpses and seas of blood!

In this charge, the Shanlian Empire had lost at least 150000 soldiers, which was close to one-third of the entire Army!

How long has it been?

The Prince of the Shanlian Empire felt as if he had fallen into an ice cave. His entire body was cold, and his heart was completely frozen.

This was because the Army had spread out their formation in an attempt to surround the autumn leaf Plains. If they had maintained their initial absolutely dense formation, the number of deaths might have doubled!

"Who ... Who are you?"

The Prince stammered. His mind was in a mess, and he didn't know what to do.

He had just been scolding the mountain Ghost Army for being trash. In the end, he realized that he was also trash!

An Army of 500000 was all trash!

A divine sense attack was the blood ghost's true strength!

Chapter 7920

This was also the reason why the eight hundred of them were invincible!

However, it was already too late when they found out about this!

If he had known that the blood ghost had a divine sense skill that was even more powerful than the mountain Ghost Army, the Prince would not have led 500000 people to their deaths!

He would have suggested to the Emperor to send out a vicious expert to deal with the situation!

A blood spirit of this level could easily cut through ordinary soldiers like vegetables!

"I'm sorry, I forgot to introduce myself. I'm the defender-general of Hongshang Commandery, Sima Zhongda. This is my personal guard Camp!"

Lin Yi introduced casually, and the Prince was dumbfounded.

What the hell?

Hongshang Commandery? What was that?

A general of a small Commandery with his personal guards had killed hundreds of thousands of soldiers from the Shanlian Empire?

You must be joking!

"This commander is ..."

"You don't have to introduce yourself. I don't want to know who you are. You're just a defeated general!"

Lin Yi's disdainful interruption made the Prince angry and embarrassed, but he couldn't say anything!

150,000 people were killed by 800 people while the other side didn't even have a single person killed. If this wasn't considered a defeat, then it would be a defeat if they let their people kill 500,000 people.

"Listen, I'm very dissatisfied with the Shanlian Empire's action of sending troops to attack the Dragon nation's conferred Kingdom this time. Although you have lost, our losses are considerable!"

Lin Yi paused, wanting to give an example of how big the loss was, but he couldn't think of anything!

The guards unit had fought their way here, and no one had died. Injuries were inevitable, but this was a huge loss. Even Lin Yi himself couldn't say it.

Moreover, even if he was injured, it would be because he was too tired and his waist muscles were damaged from slashing people.

"Yes, the losses are too great, so I won't list them one by one ..."

Lin Yi didn't know where to start after the awkwardness. He coughed vaguely, "Look at how many of us there are. It's not a small amount of money to eat, drink, pee, and poop every day!"

The Prince watched Lin Yi's performance expressionlessly, his heart aching.

You call this a great loss? we've lost hundreds of thousands of soldiers, and we've even lost one of our trump cards, the mountain Ghost Army.

Now, he understood that the mountain Ghost Army had not just been defeated. They had definitely been killed!

Just look at the brutal means of these bastards. Wherever they passed, there were no survivors at all!

This Prince of the Shanlian Empire had dared to Pat his chest and say that if any of the mountain Ghost Army members were still alive, it would be his loss!

"Forget it, I don't want to talk nonsense with you. In short, you are all my captives now. The Shanlian Empire must pay the war reparations in good faith for this invasion. Then, I will let you go according to the situation!"

The Prince continued to be speechless.

You captured 350000 people with just 800 men? Can you manage it?

Lin Yi turned around and looked at the hundreds of thousands of soldiers. He didn't think there was any point in capturing so many people. One meal would make him poor!

"To show my sincerity, I'll release most of your captives first. The senior generals of your Army will be kept as hostages. That's the deal!"

800 Guards unit with only 10 captives was much more convenient, and would not affect their mobility.

"General Sima, I have lost, but the Shanlian Empire has not. It's a joke that you want war reparations!"

The Prince was quite unyielding.

The Shanlian Empire was a giant, and Hongshang Commandery was not even a finger of the Empire. How could they ask for war reparations?

"Ordinary soldiers are not the decisive force between countries. Of course, the war between commanderies is different. Soldiers are the deciding factor. But at the level of an Empire, a loss of a Legion of soldiers is a loss!"

At this point, the Prince suddenly revealed a proud expression. "The real deciding factor is the top experts!"

"Cut the crap, you mean you don't want to pay?"

Lin Yi cut the Prince off.

So what if he was an expert?

Are you looking down on our Hongshang Commandery for not having any experts?

"A warrior can be killed but not humiliated! The Shanlian Empire would never do such a disgraceful thing ..."

The Prince continued to display his pride.

He waved his hand and frowned, showing a bit of impatience.

Song shaopeng didn't say anything and raised his hand, shooting three crossbows.

The Prince looked at song shaopeng in disbelief. He couldn't believe that he, a Prince of the Shanlian Empire, would die in the hands of a random soldier from the Commandery!

Then, the light in his eyes quickly dimmed. His body tilted and he fell to the ground.

Song shaopeng put away his crossbow and bowed to Lin Yi, "Marshal, this subordinate is at fault, please try to figure out the superior's intentions!"

"You're not wrong, that's what I meant!"

Lin Yi didn't want to hear the Prince's bullshit-there was a master, come at him!

After losing their Supreme Commander and more than a dozen high-ranking generals, the remaining Shanlian Empire's Army quietly cleaned up the battlefield and retreated from the territory of the Dragon state conferred Kingdom.

Before further instructions from the Empire arrived, the Army at the front line no longer dared to enter the territory of a conferred Kingdom.

The name of the blood spirit resounded throughout the world!

Sima Zhong DA's name was like the sun in the sky!

He had single-handedly fended off the invasion of the million-strong Army of the Shanlian Empire.

It was not wrong to call him a peerless general!

"Cousin Zhong da, has the battle ended?"

Liu Ziyu followed beside Lin Yi, a little lost. He'd been killing all day recently, and his mentality had changed.

Liu Ziyu was not used to the sudden absence of enemies.

"How can it end so easily? We still want them to cede land and pay indemnities!"

"Hmph," Lin Yi hmphed, "our brothers are fighting so hard, and we have to face enemies that are tens or even hundreds of times bigger than us every day. Is it easy?" How can I not ask for some compensation?"

Liu Ziyu was suddenly speechless. What cousin Zhong da said made sense, and he really wanted to applaud!

The brothers of the guards unit, didn't they have to face such a harsh battle environment every day!

Although the side with more people would die in the end, this kind of hardship couldn't be erased!

He must be compensated!

"I don't think it's that simple. Since the Shanlian Empire has temporarily withdrawn their troops, let's return to the capital of the Dragon state conferred Kingdom and have a good rest. We'll have the Dragon state conferred Kingdom send an envoy to negotiate with the Shanlian Empire."

Lin Yi waved his hand and led the guards unit and the captives back to the conferred Kingdom.

The Prince of the long bang was dumbfounded again.

Sima Zhongda had annihilated the mountain Ghost Army, destroyed the 500000 strong Army of the Shanlian Empire, killed the Prince of the Shanlian Empire, and captured more than ten high-ranking generals!
