

Bodyguard 7921

Chapter 7921

This information had already been sent back through the intelligence system.

However, the Prince of the long bang felt like he was dreaming.

What kind of dream was this! Not even in his dreams!

What should he do now? How embarrassing!

The emissaries from the conferred Kingdom of the Dragon state had already contacted the fire Empire, and they had also agreed to pincer the huyue conferred Kingdom, and then merge the Dragon state conferred Kingdom into the fire Empire.

More than half of the main forces of the Dragon state's conferred kingdoms have been gathered, and they are preparing to attack huyue conferred Kingdom. Now that you say that Sima Zhong da has led eight hundred men to defeat the Shanlian Empire ... What should I do?

The Prince of the long bang did not know whether to laugh or cry.

He really wanted to say, "Sima Zhong da, why don't you just go and die!"

For such a thing to happen, do you think I'm going to tear up the agreement with the fire Empire?

Then would the fire Empire also go all out and destroy the huyue conferred Kingdom and the Dragon Kingdom?

The Prince of the long bang wanted to curse, but he could not say a word!

If he had known that Sima Zhong da was such a good fighter, why would he have provoked the fire Empire?

However, it wasn't as if they couldn't provoke him. Who knew, Sima Zhong da might turn around and attack the fire Empire.

"Your Majesty, Sima Zhongda has brought Liu Ziyu to seek an audience!"

Suddenly, the old eunuch beside him came in to report.

The Prince of the long bang had not expected that Sima Zhong da would return just as he was thinking about him.

"Spread!"

Sighing, the Prince put down the battle report that was clearly out of date and sat up straight.

The old eunuch gestured for the young eunuch outside to call the two in.

This was the Imperial study of the Prince of the long bang, and ordinary people were not qualified to enter.

But Lin Yi and Liu Ziyu were different. After some consideration, the Prince stood up and personally welcomed Lin Yi and Liu Ziyu.

After killing hundreds of thousands of Shanlian soldiers and completely removing the mountain Ghost Army from the picture, the Prince no longer dared to underestimate Lin Yi and Liu Ziyu. In fact, he had already placed them in a higher position than himself.

"Greetings, King!"

Lin Yi and Liu Ziyu were surprised to see Prince long bang waiting at the door.

Regardless of whether it was an act or not, they quickly stepped forward to greet him.

Lin Yi, on the other hand, didn't even bother to bow.

"There's no need for formalities. Both of you are heroes of our Dragon state conferred kingdoms. Quickly come in and take a seat!"

The Prince didn't dare make Lin Yi bow.

After thanking him indifferently, Lin Yi and Liu Ziyu entered the Imperial study and sat on the stool the eunuch brought over.

"Your Majesty, we are here for one thing. The Shanlian Empire has been defeated, and they still have a dozen high-ranking generals in our hands. We would like to ask Your Majesty to send a Messenger to negotiate with the Shanlian Empire."

Lin Yi said, getting straight to the point.

There wasn't much respect in his tone, but the Prince didn't mind at all. He just smiled and listened.

"It's all thanks to great talent Zhong da that we have the chance to negotiate with the Shanlian Empire!"

The Prince of the long bang laughed and said, "I already know that the entire Shanlian Empire has withdrawn from our Dragon state conferred Kingdom. In fact, there is no need to talk too much about it. It will be fine as long as they promise not to attack us again!"

As he spoke, Prince long bang was thinking about the agreement with the fire Empire.

There was no way to stop this matter. The Shanlian Empire had been badly injured by Sima Zhongda, and even their mountain Ghost Army was gone.

It would be a wonder if the fire Empire did not take this opportunity to send out their troops!

Even if the Dragon state conferred Kingdom did not cooperate with the fire Empire, the huyue conferred Kingdom would find it hard to defend against the fire Empire's invasion.

Once the HU Yue conferred Kingdom was destroyed, the Dragon Kingdom would be next!

On the other hand, the conferred Kingdom of the Dragon nation and the Shanlian Empire had already fallen out completely. It was impossible for them to continue staying in the Shanlian Empire. If they were to offend the fire Empire as well, there would be no place for them anymore!

As such, the Prince of the long bang wanted to take advantage of this negotiation to delay the time of the Shanlian Empire. Then, he would work with the fire Empire to quickly get rid of the huyue conferred Kingdom!

"My King, do you have some misunderstanding?"

Lin Yi waved his hand and interrupted the man, "No more attacks? Was there even a need to talk about this? We want the Shanlian Empire to cede land and compensate us for our losses! If they come again, we'll just continue fighting back!"

The Prince of the long bang was stunned.

What the hell? Ceding land and paying indemnities?

Little brother, you really dare to think!

That was the Shanlian Empire, how could they give up land and pay indemnities!

It was as ridiculous as an ant telling an elephant that it had offended them and had to kneel down and apologize immediately!

"Young master Zhong da, aren't your thoughts a bit too radical? No matter what, the Shanlian Empire is still a powerful country in the world. They won't give up their land and pay indemnities just because hundreds of thousands of people died!"

The Prince of the long bang almost couldn't help but say, "you're really whimsical." It took him great effort to hide the ridicule that was about to appear on his face. "To put it cruelly, the Shanlian Empire would not even care about such a small loss! This is because the battles between soldiers and legions are only the most basic of Wars!"

What a country bumpkin. He thought that he was awesome just because he killed more than 300000 people with only 800 people by relying on tactics and combat power?

Alright, it was really awesome ...

However, that was not the main point. The main point was that it did not matter how many of these ordinary soldiers died!

Between big countries, the top masters were the strategic forces used to intimidate the enemy!

It was like the nuclear weapons of the secular world.

Unless it was a critical moment, it would not be used. It was only used as a deterrent.

"Young master Zhong da, this old servant has interrupted. Please forgive this old servant, King and young master!"

The old eunuch was someone who had served the Prince for decades. He could tell that something was wrong with his master, and he was afraid of saying something that might provoke Lin Yi.

Lin Yi and the Prince both nodded, signaling for the old eunuch to speak.

"Young master Zhong da, it's like this. In the wars between empires, ordinary soldiers are only used to occupy cities and maintain order."

"But don't think that these soldiers are all that an Empire has! The reason why each Empire can be established and prosper for a long time is because they have a secret weapon that can intimidate earth-splitting stage experts!"

"An earth formation stage expert can move freely in an Army of 10000, take the head of a general as if it's within his pocket, and it's not difficult for him to kill tens of thousands of soldiers! An expert of this level would not be easily dispatched. They are only used as a deterrent. "

"But once they're forced into a corner, the earth splitting stage experts will definitely make a move! The Shanlian Empire ... Has more than One Earth splitting stage expert!"

The old eunuch's meaning was clear. Sima Zhongda, with eight hundred blood spirits, was indeed very good at fighting!

However, no matter how good he was at fighting, could he defeat an earth-splitting expert?

Chapter 7922

If the Shanlian Empire were to really provoke them, they could send out an earth formation stage expert and they would be able to easily destroy your 800 blood spirits!

"Ha ... So what?"

Earth-splitting stage expert?

What the hell was that?

Such a distant existence!

Lin Yi didn't take it to heart at all.

He was only at the earth-opening stage, and he was no different from ordinary soldiers!

Not to mention one, even if there were a hundred or a thousand of them, they would all be vegetables!

The old eunuch's eyes widened. What did he mean by so what?

Do you even understand what I'm saying?

"Your Majesty, these are the conditions I asked Ziyu to write. Send an envoy to the Emperor of the Shanlian Empire to negotiate. If we can't reach an agreement, we'll fight again!"

Liu Ziyu took out a scroll and placed it in Lin Yi's palm before passing it to the old eunuch.

The old eunuch didn't dare to delay and quickly brought it to the Prince of long bang. He gently opened it and laid it out on the desk.

The Prince of the long bang quickly scanned through the message and almost choked on his breath.

"You ... You ... You guys ... You really dare to say that!"

After taking a deep breath, the Prince of long bang smiled bitterly with a pale face. "You want the Shanlian Empire to make a public apology and give half of their territory to Hongshang Commandery? Moreover, there can't be the slightest movement on the land that has been ceded. Whether it's assets, resources, or population, everything must be left behind?"

The Prince of the long bang would not even dare to propose such a crazy condition in his dreams!

But the two in front of him not only dared to mention it, they even dared to write it down in black and white!

This was crazy!

Did he become so arrogant after winning a battle?

Especially the last sentence, "if the Shanlian Empire doesn't agree, Sima Zhong da will immediately send his troops to attack the Shanlian Empire!"

The Prince of the long bang did not know what to say about this.

Just those 800 people of yours, if all of them were chopped up and scattered out, how much land can they occupy?

Half of the territory? did he know that half of the territory of the Shanlian Empire was equivalent to the total area of more than ten conferred kingdoms of the Dragon state?

If it's compared to Hongshang Commandery, it's hundreds of times more. Aren't you afraid that you'll stuff Hongshang Commandery to death?

"Your Majesty, do you think ... Our conditions are too lenient?"

Lin Yi pinched his chin and thought, "forget it, we have to give them some leeway, we can't be too much of a bully!"

Hearing this, the Prince of the long bang almost laughed out of anger.

Tolerance? Leeway?

Have you ever thought about giving the emissary a little leeway?

Who would dare to use this to negotiate with the Emperor of the Shanlian Empire?

Do you think your life is too long?

As long as he dared to say it, he would definitely be chopped up and fed to the dogs!

He wanted to throw the thing in his hand at Lin Yi's face and yell at Lin Yi to get out, telling him that he never wanted to see him again!

Unfortunately, the Prince of the long bang did not dare to!

Blood Phantom's battle record was too terrifying. The conferred Kingdom didn't have the mountain Ghost Army, and they didn't have any earth formation Masters either. He didn't dare to offend Lin Yi before he figured out blood Phantom's strength.

"Young master Zhong da, this King feels that this matter still needs to be discussed, or something might easily happen! Do you think you can change to a more relaxed condition?"

The Prince actually wanted to say, "why don't we stop talking? the Shanlian Empire won't agree to it anyway. Why don't you just bring your men to attack the Shanlian Empire?"

It was better to delay for as many days as possible than to send an innocent Messenger to die!

"It's already very loose! I don't want the Emperor of the Shanlian Empire to surrender. I only want half of the country. What else do you want?"

Lin Yi said with an innocent shrug.

The Prince of the long bang was furious. What else did he want? I really want to beat you up!

"Royal father, this son feels that young master Zhong DA and Young master Ziyu are right. This is how it should be!"

A crisp voice was heard. The third Princess suddenly jumped in from the door.

She had long been used to wandering around, and no one in the palace dared to stop her.

When she heard that Liu Ziyu had come to the palace, she naturally rushed over in joy.

"Nonsense, what do you know? get out!"

Prince long bang's head was hurting. He couldn't handle the two of them here, so could you not come over and add to the trouble?

"Father, how can I not understand? Young master Zhong DA and Young master Zi Yu won the battle against the Shanlian Empire, but they lost a lot of people. We can't win, so we can only retreat. What's wrong with asking them to cede land and pay compensation? Isn't this what I should do?"

The third Princess placed her hands on her hips in defiance.

What right do you have to say that I don't understand? I'm a smart and cute little princess, what do I not understand? Horizontal!

The Prince of the long bang rubbed his forehead, his heart full of powerlessness.

It seemed that this matter couldn't be settled, so he would send someone!

It's just the death of a Messenger, not the death of this King. Let's see which guy I don't like and throw him to the Emperor of the Shanlian Empire to vent his anger!

"Alright, alright! Young master Zhong da, this King will do as you say and send an envoy to the Shanlian Empire to negotiate ..."

The Prince shook the silk and threw it to the old eunuch beside him. "Partner, go and make arrangements to see who is suitable to be sent to the Shanlian Empire!"

The Prince of the long bang emphasized the word "appropriate."

The old eunuch, who had accompanied him for decades, understood his meaning. He immediately held the silk scroll with both hands, bowed, and accepted the order. "Yes! This old servant will go and arrange for a suitable emissary to head to the Shanlian Empire as soon as possible. "

Prince long bang nodded, thinking that it was not very appropriate to send someone to their death. Should he send a coffin over and let the emissary carry it with him?

Hmm ... That seemed even more inappropriate. Forget it then.

"Thank you, Your Majesty. If that's the case, we brothers will take our leave first. We'll talk again after the negotiations with the Shanlian Empire have come to an end!"

Lin Yi got up and left, giving Liu Ziyu a look before sneaking a glance at the third Princess.

He meant that Liu Ziyu should spend more time with the third Princess and not leave the palace with him.

Liu Ziyu's face reddened-he understood what Lin Yi meant, of course. He was looking forward to it, but he was still a little embarrassed.

This innocent little boy was not as generous as the third Princess.

Lin Yi smiled and left the study, not bothering with him.

Liu Ziyu and the third Princess also hurriedly took their leave. Only then did the Prince of long bang reveal a dejected expression and powerlessly leaned back in his chair.

"We've already offended the Shanlian Empire, it doesn't matter if we offend them even more! What we need to do next is to strengthen our ties with the fire Empire and Annex the huyue conferred Kingdom as soon as possible!"

The Prince of the long bang muttered to himself. The old eunuch had not left yet, so he only lowered his head when he heard this.

He knew when to speak and when to pretend to be deaf.

In truth, the relationship between the long state and huyue conferred Kingdom had always been quite good. If the Prince of the long state really wanted to destroy this good friend of his, he would feel a little guilty.

However, when it came to his life and death, he could only choose to sacrifice his fellow Daoist over his poor Daoist!

After mumbling to himself, the Prince waved his hand to let the old eunuch do his work.

Chapter 7923

In the next three days, Lin Yi let the guards rest in the capital and relax.

These guys had killed so many people at the border, if they didn't adjust their mentality, Lin Yi was afraid that the guards unit's mentality would be affected.

As it turned out, Lin Yi was overthinking.

The guards unit was a bunch of heartless people, they just followed their commander and charged, they didn't think too much.

In the capital, he was having a lot of fun.

The name blood ghost had already spread throughout the world, so not only did no one make things difficult for them in the capital, but they were also respected everywhere.

After all, they were the ones who stopped the Shanlian Empire's invasion. They could eat and drink free of charge every day.

As for Liu Ziyu and the third Princess, their relationship had also rapidly warmed up in the past few days.

Lin Yi, on the other hand, was all alone in the yard, looking at the clouds.

Three days later, a Messenger Eagle from the Shanlian Empire sent back a message.

The messenger they sent to negotiate was killed by the enraged Emperor-he wasn't even able to finish Lin Yi's conditions before he was beheaded.

After receiving the news, Prince long bang quickly summoned Lin Yi and Liu Ziyu and gave the letter to Lin Yi.

"Young master Zhong da, take a look for yourself. This is the reply from the Shanlian Empire! The messenger I sent has already been killed!"

The Prince of the long bang had a helpless expression on his face, as if he had already done his best and that he could not ask for more.

Lin Yi ignored him and read the reply. There weren't many words, so he read it out loud. "Have that brat Sima Zhong da break his own arms and bring his subordinates down the mountain to the imperial capital to beg for death! Otherwise, we'll definitely send earth-splitting stage experts to slaughter all the high-level officials of the Dragon state's conferred kingdoms and Hongshang Commandery!"

No, that's all.

However, the meaning of the threat was obvious, and he didn't mention anything about the war reparations. It was obvious that he completely ignored it.

"Ha ... What a big tone!"

Lin Yi threw the reply on the ground and smiled in disdain. "Do they think I can't reach their capital?"

Under Lin Yi's leadership, there was really no place that the guards unit couldn't take down!

"What does young master Zhong da plan to do? Are you going to lead troops to conquer the mountain and the Empire? This King can send thirty to fifty thousand elites to assist young master Zhong da!"

The Prince of the long bang was quite supportive.

As long as Lin Yi was willing to go, he could continue to cause trouble for the Shanlian Empire and delay their attack on the Dragon state conferred Kingdom.

This way, the Prince of the long bang would have more time to plan his plan to join forces with the fire Empire to attack huyue conferred Kingdom.

"Young master Zhong DA's 800 blood spirits are enough to kill hundreds of thousands of Shanlian Empire soldiers. I should be able to send out 30000 to 50000 elites, right? If it's not enough, young master Zhong da, please feel free to mention it. This King will do his best to satisfy your request. "

The Prince of the long bang was sincere. In order to stall the Shanlian Empire, he felt that there was nothing wrong with sending hundreds of thousands of troops.

Thirty to fifty thousand was just a starting price-it could be increased depending on Lin Yi's demand.

"There's no rush for the expedition. Originally, they should have brought their troops and directly attacked us. But didn't they say that they would send Masters of the land creation stage over? then I'll give them a chance. First, I'll deal with the so-called Masters of the land creation stage, and then I'll talk to them about ceding land and paying reparations!"

The Prince was dumbfounded at Lin Yi's nonchalant tone as he spoke about the earth formation Masters.

Do you really not understand the power of an earth-splitting stage expert, or are you pretending to be unafraid, but you're actually scared to death?

That was an earth splitting stage expert who could suppress an entire country!

It's not some random cat or dog on the side of the road. Do you even understand the situation?

The Prince of the long bang felt his head ache again.

That was because the Shanlian Empire had said that they would send experts to kill not only Sima Zhongda, but also all the higher-ups of the conferred kingdoms and Hongshang Commandery!

He, the Prince of the long bang, was naturally among them!

Initially, he had been prepared for Sima Zhong da to lead the blood spirit to attack the Shanlian Empire in a fit of rage after seeing the reply!

In the end, Sima Zhong da suddenly refused to go!

If you're not going, why were you so confident before? If they don't pay compensation, they'll send troops!

Go ahead!

Can't you be more honest? you must abide by your words!

"Are you alright now? If there's nothing else, we'll leave first and talk when they come!"

Lin Yi waved his hand casually, completely ignoring the Prince as he left the palace with Liu Ziyu.

The Prince of the long bang was dumbfounded!

Wait for them to come? An earth-splitting expert!

If he really came, would you still have a chance to speak?

The people of the Shanlian Empire were also holding a meeting.

Of course, they wouldn't expect Lin Yi to come to them on his own. Even if they killed Lin Yi, it wouldn't be enough to relieve their hatred.

An Army of hundreds of thousands!

3,000 mountain ghost soldiers!

And a Prince!

They all hung up.

"Imperial father, your son requests to personally lead an Army and trample on the Dragon state's conferred kingdoms!"

In the Imperial court, the first Prince of the Shanlian Empire, Shan Pao, cupped his fists and stepped out with a face full of righteous indignation. ""These damn things, not only did they kill second Royal brother, but they also killed Royal uncle at the border! If we don't exterminate them, what face will the Shanlian Empire have?"

In fact, the mountain robe was very happy at this moment!

The dead second Prince, Shan bi, was his biggest competitor for the throne!

Uncle Shan Bie, who led an Army of 500000 but was killed by 800 blood spirits, was also a supporter of the second Prince, which meant that he was an enemy!

With the sudden death of two heavyweight opponents, Shan Pao felt that his position as Crown Prince was stable!

By taking the initiative to lead a team to take revenge this time, not only could the mountain robe gain a wave of achievements and reputation, but he could also take the opportunity to build a good relationship with the Empire's earth-splitting stage experts!

It was simply killing two birds with one stone!

"Father, we, the Shanlian Empire, are being threatened by an ignorant Commandery general. This is outrageous! We will be laughed at by the world!"

"That's why we can't take it anymore. We must use the wrath of Thunder to kill those damn bastards!"

In order to seize this opportunity, the first Prince's robe was naturally filled with righteous indignation and began to pour out his grief and indignation.

"Approved!"

Sante, the Emperor of the Shanlian Empire, was also furious, but he maintained a calm expression. "Shan Pao, I'll send three experts from the National Guard Hall to accompany you to the Dragon state's conferred Kingdom and kill all the related people!"

"That small country called Hongshang Commandery should be razed to the ground! I don't want to hear about any living thing in the world that has anything to do with Hongshang Commandery!"

The National Guard Hall was the symbol of the highest martial force in the Shanlian Empire. All the people worshiped inside were Masters of the earth opening stage. The total number was unknown, but the outside world guessed that there should not be too many.

This time, Sante had sent three guardians of the National Guardian Hall at once. It was definitely a big deal!

The mountain robe was overjoyed when he heard this. He quickly bowed and cupped his fists, ""Many thanks, father! Your son will definitely not fail this mission and annihilate all those who dare to offend our Shanlian Empire!"

Chapter 7924

With three earth-splitting stage experts accompanying him, in addition to the mountain robe's own recruitment of some mountain-opening and xuansheng stage experts, he felt that he could already run amuck in the world!

Just as Sante was about to bring the experts to show off, Sima Zhongxiao, Feng Zhipeng, and the others had just returned to Hongshang Commandery.

The two didn't do anything else but spread the news that Lin Yi killed the second Prince of the Shanlian Empire, and brought the guards to go against the Shanlian Empire's Army.

"Grandpa Wang, these things are absolutely true. Our Hongshang Commandery must make plans early. Otherwise, when the Shanlian Empire's Army comes to our border, our Hongshang Commandery will be annihilated!"

When Sima Zhongxiao finished explaining what had happened in the Dragon state's conferred Kingdom, he immediately began to earnestly persuade Sima Zhengxin, "Even the conferred kingdoms of the Dragon state are no match for the Shanlian Empire, let alone our small Hongshang Commandery. If they come, we can't stop them at all!"

"I can prove that all of this is true! Therefore, Hongshang Commandery must make plans in advance, or everyone will be buried with them!"

Feng Zhipeng, who was beside him, immediately stood up and supported him with a serious face. "This matter was caused by Sima Zhongda. I feel that we should first summon Sima Zhongda and Liu Ziyu, the two main culprits, back and execute them."

"Besides, Sima Zhongda's parents were also at fault for not teaching them. They should be punished as well. This is an apology to the Shanlian Empire. Perhaps it can appease the Empire's anger!"

Feng Zhipeng wanted to take this opportunity to get rid of Sima Yun's entire family.

In fact, from his point of view, it would be best if he could get rid of the entire Sima clan!

However, the Sima family was now the king and had deep roots in Hongshang Commandery. They were even more powerful, especially after they won the two great battles in Seitong Commandery and Black Charm Commandery.

Therefore, the Feng clan's attitude was very clear. They would first get rid of Sima Yun Qi, the most outstanding branch of the Sima clan, and then deal with Sima Zheng Xin and Sima Yun Fei. It would be much easier.

"Sima Yunqi, you've raised both good sons and good nephews! This is forcing our Hongshang Commandery to its death!"

The godly assist Sima Yun Fei also jumped out at this time and pointed at Sima Yun Qi while cursing!

At this moment, he was panicking. The Shanlian Empire was too far away from them. The Dragon state and conferred kingdoms were already existences that they had to look up to, not to mention an Empire.

He was now scolding Sima Yun Qi in a hurry, not only because he wanted Sima Yun Qi to take the responsibility, but also because he was in a panic, and he would not let go of a target.

It was the same for the others. For a moment, the Imperial court of Hongshang Commandery was filled with voices of criticism against Sima Yunqi, Sima Zhongda, and Liu Ziyu!

Sima Zhengxin's elbow was on the armrest, his palm supporting his chin. His brows were slightly furrowed as he looked at the people quarreling below.

After a long while, he shouted in a deep voice, ""Enough!"

The prestige of a regional King was still present. When everyone heard Sima zhengxin's low shout, they quickly stopped talking and the noisy Hall quickly quieted down.

Sima zhengxin glanced at the people in the hall and sighed, ""There's nothing much to say about this matter! If the Shanlian Empire really wants to punish us, our Hongshang Commandery will definitely not be able to resist. "

"Even if what you said is true, do you think the Shanlian Empire will let us go?"

Everyone present fell into silence after hearing this.

This was like a mosquito that had bitten you, and after it had sucked enough blood, it apologized to you. It was all because of its mouth, so would you only hit the mosquito's mouth?

No, you only know how to slap a mosquito to death, then pinch the corpse and rub your fingers hard, crushing the mosquito into fine powder!

Hongshang Commandery was the mosquito, and the Shanlian Empire was the one who had their blood sucked!

In fact, no one present believed that the Shanlian Empire would really let go of Hongshang Commandery.

They were just hoping for a fluke!

"Don't quarrel, let's wait and see!"

Sima zhengxin rubbed his forehead and suddenly straightened his body, his face revealing a confident expression,""It's not like we don't have a chance. Zhong da is a once-in-a-thousand-years famous general, and Ziyu is also a famous general. Since they took the initiative to fight the Shanlian Empire, we might have a chance!"

"Anyway, we have no place to escape or hide in Hongshang Commandery. Why don't we just wait for the news? Let's see if it's the destruction of Hongshang Commandery or a chance to rise again!"

Although Sima zhengxin was comforting the people, he had such a thought in his heart.

He felt that with Lin Yi's sudden involvement, Hongshang Commandery might really have a chance to rise from the crisis!

Everyone was speechless. Sima zhengxin was right about one thing. There was nowhere to run or hide in Hongshang Commandery!

A conferred Kingdom of the Dragon state was still qualified to defect to the enemy for self-protection, but what about Hongshang Commandery?

The cooperation at that level was not something that Hongshang Commandery could touch, so they could only wait!

Wait for death, or wait for rise.

Lin Yi was also waiting for the Masters from the Shanlian Empire to come.

Hongshang Commandery was a springboard for Lin Yi to find Wang Xinyan, but because of Sima Yunqi and the others, Lin Yi had to help them as a way to return the favor.

He had thought that the stage of a conferred Kingdom would be big enough, and it would be much easier to find Wang Xinyan, but he didn't expect to see the Shanlian Empire, and only then did he realize how huge the sub Island was.

Since that was the case, he would take the opportunity to help Hongshang Commandery expand its territory. In this way, the power he could borrow would naturally be much greater!

The soldiers of the guards unit said that it was a holiday and had scattered around the capital of the Dragon state's conferred Kingdom to have fun, but in reality, they were taking the opportunity to monitor the movements of the entire capital.

Lin Yi's spirit sense also covered the entire capital, secretly watching all the guards unit soldiers to prevent anyone from secretly attacking them.

A few days passed in this kind of atmosphere that was relaxed on the outside but tense on the inside. A flying spirit beast carrying Shan Pao and the others arrived in the sky above the capital of the Dragon state's conferred Kings!

"Your Highness the first Prince, this is the capital of a conferred Kingdom of the Dragon state. Do you need me to raze it to the ground immediately?"

On top of the flying spirit beast, a burly man wearing black leather armor grinned as he looked down. "I can handle such a small matter by myself. His Majesty is also very cautious. He actually sent two more consecrators."

The brawny man was one of the three earth-splitting Masters of the National Guardian Hall!

One of the other two was a thin old man, and the other was a beautiful middle-aged woman with a cold expression.

In addition, there were also about ten mountain opening stage experts and about thirty xuansheng stage experts.

These people stood on the backs of large flying spirit beasts, but it did not seem crowded. Instead, they stood in their own areas, and the division of ranks was quite clear.

"No, no, no. If we attack now, how can we show the dignity of our Shanlian Empire? How can we make them feel fear and despair?"

The mountain robe smiled and waved his hand. He turned to look at the brawny man, "Honorary Master Yu, why don't we scare them first?"

Chapter 7925

"No problem! Your Highness, just tell us how to scare them!"

The brawny man laughed heartily, as if he was quite interested in this method.

"Then ... We'll first destroy one of the city gates, then inform the entire city that we're here! Let them wash their necks and wait for their deaths!"

Shan Pao laughed out loud and pointed at a city gate, "This is the place! After destroying the city gate, I will begin hunting the entire city!"

"As you wish!"

With a ferocious smile, consecrated Yu took out a nine-ringed broadsword and jumped down from the flying spirit beast. In the air, the metal Qi quickly gathered.

The nine-ringed broadsword glowed with a dazzling golden light as it was held high above consecrated Yu's head.

"Slash!"

A huge golden blade light descended like a Thunderbolt, easily cutting open the city gate that the mountain robe had pointed at.

Even the city wall and the guards on both sides of the city gate were turned into pieces!

Exalt Yu somersaulted in the air and landed on the broken city wall.

"People of the conferred kingdoms of the Dragon state, listen up! The first Prince of the Shanlian Empire, along with three revered elders of the National Defence Hall, is here to punish the rebellious officials! Everyone in the capital is a target of conquest!"

"Those who want to live ... Better pray that they won't be found! Hahahahaha!"

Consecrator Yu laughed wildly and jumped back onto the back of the flying spirit beast. "Your Highness, do you think this is okay? Do you want to start hunting now?"

"No, no, no, how boring would it be to hunt now? We'll first kill the escapees outside the city and give them a little hope of escape, then ruthlessly cut them off. How interesting would that be?"

A trace of fanaticism and excitement flashed in the mountain robe's eyes, as if he had already seen the scene of the entire capital becoming prey.

He clearly had the ability to quickly sweep through the capital, but he insisted on playing slowly. It could be seen how vicious his mind was!

Exalt Yu thought that the first Prince really knew how to play. But it didn't matter, it was indeed interesting!

The group happily decided on the hunting plan and began to wander outside the capital, waiting for someone to escape from the city before killing them.

In the city, Lin Yi let out a cold smile.

Was this the expert of the Shanlian Empire? It didn't seem like much!

He looked a little like a retard.

Before Lin Yi could react, the Prince's order was sent to him through a special method.

The Prince of the long bang was a little flustered as he did not know how to deal with the attack of the Masters from the Shanlian Empire.

After receiving the summons, Lin Yi entered the palace unhurriedly to meet the prince.

When he arrived, the Prince was pacing around the hall anxiously.

"Young master Zhong da, you came just in time. You should have heard the words of the Shanlian Empire, right? What should we do now?"

The Prince put on a calm face as he returned to his seat, ""The capital's defense is nothing but an empty shell against earth splitting stage experts! They've already spread the word that they're going to lay their hands on the entire capital, and they're all innocent citizens!"

"Then, have they made their move now?"

Lin Yi asked faintly.

In fact, no one in the capital knew better than Lin Yi whether or not they'd made a move, because the movements of the Shanlian Empire people were all under his spirit sense.

"No... We only destroyed a city gate and a small section of the city wall. We killed some of the guards there and didn't take any further action."

Prince long bang thought to himself,"they didn't enter the city right away, but it's not like they're not going to enter the city. You're so calm, are you for real or just pretending?"

"Your Majesty, please issue a Royal Order. The entire city is under martial law, and all the people are to hide in their homes and are not allowed to go out!"

This was to prevent the people from escaping out of the city and losing their lives for nothing.

He'd just do his best and leave it up to fate-if someone really wanted to die, Lin Yi wouldn't go out of his way to save them!

"Good! This King will immediately give the order!"

The Prince agreed without even asking why!

If it wasn't for the fact that their plans with the fire Empire had yet to be completed, the Prince of the long bang might have been the first one to escape with his men. Who the hell would want to stay here and wait for death?

But now, his only hope was Lin Yi. Even if he was lucky, he still hoped that Lin Yi could recreate the miracle.

With that, Lin Yi turned and left, leaving the Prince dumbfounded.

What's going on? It's over?

No countermeasures? No matter what, they should at least discuss how to deal with those experts, right?

It wasn't that Lin Yi looked down on the Prince, it was that he looked down on everyone from the long bang conferred Kingdom.

They were just a few earth-splitting stage experts, not sea splitting stage experts!

Moreover, what could a sea shattering realm cultivator do?

And so, even if they couldn't come up with anything useful, Lin Yi decided to just ignore it.

After returning to his place, Lin Yi waited for the sky to turn dark before floating out in his spirit form to look for the people from the Shanlian Empire.

The mountain-robed Prince was quite bold. He immediately ordered the three earth-opening sinecures to stand on one side each and guard the North, South, and West walls.

As for himself, he led the remaining mountain split stage and xuansheng stage experts to occupy the eastern city wall.

If someone left the city, they would not stop them. They would only chase after the person after they had left the city.

Although not many people left the city, they still had a lot of fun.

After dark, they took out their tents and lived on the city wall.

Lin Yi went to the southern wall first, where the earth formation master guarding the area was still awake.

But this wasn't a problem-the practitioner didn't even notice Lin Yi's approach, and before he could understand what was going on, his soul was already taken away by the hand.

How weak!

Lin Yi shook his head, speechless.

No matter what, the other party was an expert of the earth-splitting stage. Although he was only at the initial stage of the earth-splitting stage, his primordial spirit was not even at the Golden core stage.

He was really a coward!

Not to mention the soul snatching hand, a random collision of spiritual sense would probably be able to make this so-called earth stage coward's soul fly away and scatter!

Lin Yi curled his lips-he didn't feel like he had won fair and square against this kind of trash!

However, they had no choice. If they didn't bully them, they would bully Liu Ziyu and the others!

Next was the west wall, which Lin Yi flew over in spirit form. It was a bit troublesome.

Wouldn't it be better for this group of Sharkmen to stay together and wait for death? Separate, my ass!

He could have a companion when he died, and his corpse could also be huddled together for warmth!

Did they really think that they could suppress an entire region just because they had to fight one in the South and one in the North?

Soon, the other two earth stage cowards who were trying to suppress Lin Yi were both killed without a sound.

On the outside, there were no scars, as if he had fallen asleep.

For a short period of time, a body without a primordial spirit would not immediately become a corpse. Instead, it would live for a period of time like a vegetable.

The people on the eastern wall were all trash in Lin Yi's eyes, but he had nothing to do anyway, so he might as well go and take care of these mountain opening and stronger xuansheng stages.

Chapter 7926

After dividing the trash, except for the most cowardly ones who were still alive, the rest of the cowardly, slightly cowardly, and not-so-cowardly cowards were all dead.

It was just that these cowardly cowards were too cowardly. They didn't even notice that their companions had already died!

The next day, the sun was high in the sky!

The refreshed mountain robe walked out of the tent and stretched.

Although the living conditions here were a little shabby, the sleeping conditions were quite good!

"Men!"

"Your Highness, please give us your orders!"

One of the early stage mysterious Ascension realm cultivators who was still alive ran over and bowed respectfully.

"Yesterday's hunt was too boring. It seems like the Dragon state's conferred Kingdom has already given the order to stop people from leaving the city. How boring!"

The mountain robe used the little finger of his right hand to pick at his ear and said in a bored manner, "I wanted to let them live for a few more days, but since they won't let me have fun, I'll kill them first!"

"Your Highness is wise!"

The cowardly xuansheng stage cultivator immediately flattered him. "These lowly commoners should be properly dealt with! Your Highness, please give the order for your subordinates to deal with the leading lowlifes!"

"Al! You can't put it that way. The Prince of a conferred Kingdom in the Dragon state is still a noble, and you can't mix him up with a lowly commoner!"

He waved his hand reservedly and laughed arrogantly, "However, they will soon be stripped of their noble status by me and reduced to complete pariahs ... No, no, no, I will make them even worse than pariahs, and directly turn them into the lowest slaves!"

"Hahahaha! He had heard that the princess of the Prince of the long bang was a country-toppling beauty. That idiot on the mountain wall had lost his life because he wanted to marry this beautiful princess! I'll take her as my slave and bring her to the grave on the mountain wall to make out with her. I'll let him know that I've fulfilled his last wish, hahahaha ..."

The xuansheng stage cultivator's mouth twitched as he thought to himself, "the Shan family's princes are all perverts!"

"This Prince can't wait! How about this, you go and issue a challenge to the Prince of the long bang and that stupid ma da, and this Prince will give them a proper defeat ceremony!"

"In an hour, I will give them a chance to fight fairly in the square of this city!"

In fact, in the mountain robe's heart, there was no such thing as a fair fight.

With the appearance of an earth-splitting stage expert, it would be a complete crushing!

Issuing a letter of challenge or whatever was just something he thought was fun and could be used to humiliate the Prince of the Dragon bang, Sima Zhong da, and the others.

"Yes, this subordinate will do it!"

As a coward by Shan Pao's side, he naturally knew Shan Pao's temperament.

The mountain robes often played games like issuing a letter of challenge, so they always carried a ready-made template with them. They only needed to fill in their names, time, and place.

One of the cowardly subordinates quickly settled the matter and went to deliver the letter of challenge, while the other two cowardly subordinates were arranged to invite back the three earth-splitting sinecures.

Then, the cowards finally noticed something unusual. "Your Highness, there are many people on our side who can't be woken up. It seems that they are sleeping too deeply!"

"Are you all pigs? Is it that tiring to ride an aerial spirit beast here?"

After hearing this, the mountain robe was so angry that he cursed.

Then, he suddenly remembered that he had also been sleeping quite deeply before, so he waved his hand in frustration. ""Don't worry about these idiots for now. You guys follow me to the square. As long as the three consecrators come over, it'll be fine. The others are just decorations. "

"Yes!"

The remaining four xuansheng stage cowards bowed in unison and followed the mountain robe, who was still angry, down the city wall.

The letter of challenge was already in Prince Longbang's hands before they even reached the square, and it was now in Lin Yi's hands.

"A letter of challenge? You're pretty good at playing!"

Lin Yi glanced at it casually and tossed it to Liu Ziyu, a playful look on his face. He wondered what kind of expression the Prince would have when he found out that all the Masters he relied on were dead.

"Cousin Zhong da, what is the meaning of this mountain-robed Prince? A battle?"

After reading the letter of challenge, Liu Ziyu did not quite understand.

Based on his current train of thought, the first Prince's actions were a little unnecessary.

If it was Liu Ziyu who had brought a few earth-opening stage experts, he would definitely not have said too much nonsense. He would not have surrendered and would have directly executed the beheading strategy!

"Maybe he thought it was fun to enter the city like a mountain cannon!"

Lin Yi wasn't in the mood to think about mountain cannon and coward's brain circuits. He shrugged nonchalantly, "I just don't think it's interesting!"

The slightly more powerful ones had all been killed, leaving only a few kittens. It would be strange if it was interesting.

"Cousin Zhong da, then should we go?"

Scratching the back of his head, Liu Ziyu was also a little uncertain. ""He's specifically looking for us. If we don't go, it'll seem like we're guilty!"

"You want to take a look? Then go!"

He didn't have much to do anyway, and he thought it'd be interesting to watch that Prince's performance.

And so, Lin Yi and Liu Ziyu went to the square together.

The guards unit soldiers that had scattered out gathered around the two of them like rivers flowing into the sea. As they walked to the square, many of the citizens of the capital followed behind them.

The name of blood ghost shook the world, and the people followed behind him, ignoring the orders of the Prince.

It was clear that Lin Yi and the guards unit's reputation was above the Prince 's.

The Prince was already there when Lin Yi and his group reached the square.

However, he only had a few xuansheng stage guards. It was a completely different story compared to Lin Yi's grandiose presence.

"Hehe, ignorant child, you think you have an advantage just because you have more people?"

The mountain robe was very unhappy that not all the experts on his side had arrived, but he still showed a disdainful sneer. "In front of a true expert, no matter how many people there are, they're just sending themselves to their deaths!"

"You're the mountain cannon who issued the challenge?"

Lin Yi stood about ten steps away from the mountain robe, a mocking smile on his face. "It must be hard on you to fly all the way here from a small place like the Shanlian Empire just to be killed. I'm so embarrassed to F * ck you."

"I'm called Shan Pao, not Shan Pao!"

The mountain robe was instantly enraged!

Although he had never heard of the term "mountain cannon," he could tell that it was not something good. "You're the commander of the blood spirit, Sima Zhongda? I didn't expect that you would really dare to come here to die. Your courage is commendable! I'll turn you into a dead MA Zhongda!"

"Oh, it's not certain who will die."

Lin Yi said mockingly, trying to hold back his laughter.

The soldiers of the personal guard unit worked well together and laughed together, mocking the Prince in front of them.

"Hehehe, you only know how to talk? Wait a moment, this Prince will make you all unable to cry even if you want to!"

Suppressing his anger, the mountain robe forced a few cold laughs, ""I'll give you one last chance. If you're willing to take down or kill Sima Zhong da, I'll let you Live! The person with the greatest merit can be given the title of Junwang. After we destroy Hongshang Commandery, that place will be your new Commandery!"

Chapter 7927

For the Shanlian Empire, the territory of Hongshang Commandery was not even a pellet of land. It was insignificant.

Therefore, Shan Pao could make the decision in his capacity as the first Prince!

Using it as a reward now wasn't necessarily useful, but it was worth it as long as it could disgust Lin Yi.

"Ha ... You still want to destroy our Hongshang Commandery? What a whimsical idea!"

Lin Yi turned to Liu Ziyu and shook his head at the man in the robe. "Ziyu, go and take down this arrogant Mountain Gun. Don't kill him for now!"

Liu Ziyu blinked and looked at Lin Yi for confirmation. Me?

Lin Yi nodded. There was no doubt, it was you!

To be honest, Liu Ziyu really didn't have much confidence. There was an expert of the earth opening stage on the other side. Cousin Zhong da, are you sure I can catch him?

But there was nothing he could do about it-Lin Yi's words were military orders.

Liu Ziyu waved his hand and prepared to lead the guards unit to attack.

But Lin Yi stopped him,"Ziyu, you can go alone! I don't need anyone else. "

The corner of Liu Ziyu's mouth twitched, and he thought to himself, cousin Zhong da, you really think highly of me!

Alright, you're the all-powerful and all-knowing cousin Zhong da. If you say I can do it, I'll believe you!

On the other side, the mountain robe was instantly enraged when he heard the conversation between the two people. He had an expression as if he had been greatly insulted,"Sima Zhong da, what do you mean? This Prince has brought three of the National Guardian Hall's earth-formation cultivators! You sent such a weak chicken over, are you trying to humiliate this Prince?"

Liu Ziyu's strength was not too strong. At least, any of the xuansheng stage guards beside Shan Pao were much stronger than Liu Ziyu.

Lin Yi was being a little insulting by letting Liu Ziyu go out alone, so he nodded and admitted it. "That's right, I want to humiliate you, so what? Ziyu can take care of all of you by himself. He doesn't need the help of the other brothers. "

The mountain robe was instantly extremely embarrassed and angry, but he felt a little uncertain in his heart.

Because his own strength was really not strong. He was only at the Yuanying stage, and this strength was accumulated by resources.

In terms of combat strength, Shan Pao was no match for Liu Ziyu, who had been following Lin Yi around!

This was also the reason why he, as the first Prince, had to compete with the second Prince for the position of Crown Prince.

Shan Pao's own strength was too weak, far from the second Prince's. Otherwise, he would have become the Crown Prince long ago.

"Damn it, why aren't the three priests here yet?"

The mountain robe maintained a calm posture on the surface, but he could not help but stomp his feet in secret. "Are those two guys dead? You're taking so long to invite people!"

Just as he was complaining, the two people who were sent by the mountain robe to find the earth-opening worshipper rushed over from two directions.

"Your Highness, the consecrator is in a deep sleep. No matter how this subordinate calls out, he won't wake up!"

"Your Highness, this subordinate is the same! The two priests are still in a deep sleep. I don't know what happened!"

When he heard this, the mountain robe suddenly trembled!

He suddenly remembered that his other subordinates were also like this!

If he still couldn't figure out that something had gone wrong, he would really be a mountain cannon!

"Shan Pao, you've sent a letter of challenge. Quickly come out now!"

Liu Ziyu didn't know what had happened, but seeing the mountain robe's expression as if his father had died, it was obvious that something bad had happened.

The enemy's bad things were good things for him!

Therefore, Liu Ziyu stepped forward in high spirits, stretched out his right index finger, and beckoned at his mountain robe a few times, urging his opponent to come out and fight!

Shan Pao's face was ashen and he was panicking.

There was a problem with the three earth-splitting cultivators. What should he do? what should he do?

The people of the capital that he had originally viewed as weeds now caused him to feel fear in his heart. Damn it, he had even run into the inner area of the capital by himself. Now, it would not be so easy to escape even if he wanted to!

"Kill him!"

Mountain robe felt his legs trembling, but in the face of Liu Ziyu's provocation, he could only grit his teeth and put on a tough stance to avoid being discovered as a coward. That would only lead to a faster death!

One of the xuansheng stage experts cupped his fists and turned around to rush towards Liu Ziyu. Without saying a word, he activated his martial arts technique and charged forward!

Instantly, Liu Ziyu felt a wave of pressure.

After all, the other party was a xuansheng stage expert. There was a huge gap between them. If they were to fight head-on ... He would not be able to win!

Lin Yi's face was expressionless as he sent a small spirit sense over.

As the xuansheng stage expert charged forward, his head suddenly jerked up, and his martial arts technique completely lost its power.

The pressure on Liu Ziyu's body was relieved. He didn't have time to study what was going on. He immediately drew his saber, dodged, and slashed. The whole process was done in one go.

Then, the head of the xuansheng stage expert flew high into the air and fell heavily!

The guards unit soldiers burst out in cheers.

They had become extremely familiar with this scene recently, and they were really used to it!

The mountain robe was shocked, and his face turned pale!

He's dead?

A xuansheng stage expert died just like that?

Mountain robe had thought that even if the remaining experts could not defeat the entire city, they were more than enough to kill Liu Ziyu!

As long as he showed off a little bit of his might, he could take advantage of the situation to act tough.

Who would have thought ... That this xuansheng stage expert would actually be such a piece of trash? he was actually cut down by someone with a single strike!

What to do, what to do?

The mountain robe was completely flustered and panicked.

This guy wasn't a complete waste, but he really didn't have much talent. Otherwise, his brother Shan bi wouldn't have taken away more than half of the support!

After Liu Ziyu killed the man, he was actually a little dumbfounded.

How could that xuansheng stage expert be killed by me so inexplicably?

The other party's martial technique had clearly given him a lot of pressure.

Could it be that cousin Zhong da was secretly helping?

Yes, yes, it must be!

Although Liu Ziyu didn't know, he didn't dare to ask. However, he was certain that this was the truth!

"Mountain-robed Prince, do you still want to send your subordinates to their deaths? I think you'd better obediently surrender without putting up a fight, in case we accidentally hurt you. Our commander specifically asked you to live!"

Now, Liu Ziyu was full of confidence!

"Kill him! Kill him!"

The mountain-robed man finally could not hold it in any longer. His mental state collapsed in an instant, and he pointed at Liu Ziyu as he screamed hysterically.

The rest of the xuansheng stage powerhouses shouted in unison and charged towards Liu Ziyu from all directions.

The third Princess, who had just received the news and rushed over, saw this scene from a distance. She was so shocked that her face turned pale.

The third Princess wanted to warn Liu Ziyu to be careful, but she was afraid of distracting him. So, she could only cover her mouth with both hands and stare at the man she liked with wide eyes!

Lin Yi shook his head. He didn't kill these guys last night, but Ziyu did get to show off. They were worth something.

With a gentle touch of his supernatural awareness, the xuansheng stage guards fell into a trance one after another.

In the blink of an eye, all the xuansheng stage guards who were fighting with Liu Ziyu had died. Not a single one was left alive.

Chapter 7928

Liu Ziyu himself was a little dazed. So I'm that awesome? Killing a xuansheng stage expert was as easy as killing a chicken or a dog. It was really easy and enjoyable!

Deafening cheers instantly erupted from the surroundings. More and more citizens of the capital walked out of their homes and came to the square to watch the show.

The news of Liu Ziyu's victory spread like wildfire. Even those who had not witnessed it with their own eyes were cheering after hearing it.

"Blood spirit! Blood spirit! Blood spirit!"

The people of the capital began to cheer for the blood spirit.

Lin Yi rubbed his forehead helplessly. It seemed like the name blood spirit was confirmed, and he couldn't change it anymore!

As for the mountain robe, he was already scared silly!

When he saw Liu Ziyu's gaze sweeping over, his legs immediately gave way, and he sat on the ground, his clothes quickly oozing with water.

He actually peed his pants!

Liu Ziyu glanced at the mountain robe in disdain. Wasn't he too timid?

This kind of trash dared to boast shamelessly that he would destroy the capital of the Dragon state and destroy Hongshang Commandery?

After a while, the Prince of long bang also arrived with his carriage.

After knowing the result, the Prince of the long bang felt that he should be shocked, but his heart was not moved at all. He even wanted to laugh.

What was going on?

Could it be that he got used to being shocked after being shocked for so long? Or had he lost the ability to be shocked?

"Your Majesty, the invading enemy has been captured! Your Majesty, please give your judgment!"

Lin Yi brought Liu Ziyu and two other guards who had no choice but to put on their mountain robes in disgust and walked over to the Prince's carriage.

The two soldiers took the opportunity to throw their mountain robes, which were still dripping with urine, to the ground. They followed suit and cupped their fists in salute, then ran back.

"Haha, haha!"

The Prince of the long bang did not know what to say. He could only give a few dry laughs to buy himself some time. After thinking quickly, he said, "This matter will be at young master Zhong DA's disposal. This King will not interfere!"

He thought that the country would be destroyed by an earth-splitting expert, but he didn't expect that the promised thunder and rain would be gone after a single thunderclap!

The Prince of the long bang was in a very complicated mood!

Should he be happy or depressed about this?

Should their cooperation with the fire Empire continue or stop?

Oh my! His head hurt!

"Thank you for your trust, Your Majesty. In that case, I won't be polite!"

Lin Yi announced the decision after the impolite reply. "Ziyu, write another letter to the Emperor of the Shanlian Empire. The general meaning is that they did not handle this properly. Our Prince is very angry and the consequences will be very serious!"

Prince long bang was dumbfounded as he looked at Lin Yi's brother. He wasn't dead yet! I'm still here watching! Why didn't I know that I was angry?

However, Lin Yi didn't care what the Prince was thinking and continued, "Now that his eldest son is in our hands, if he wants to live, he'll have to double the conditions from last time! Otherwise, we'll kill the hostage!"

Liu Ziyu hesitated for a moment. The word 'kill' didn't seem very appropriate, right? You're making us look like kidnappers!

However, thinking that this was a small matter, as long as Zhong DA's cousin was happy, he accepted it.

The mountain robe was on the verge of tears. This matter concerned his life, so no matter how afraid he was, he had to show some concern."That, this Prince ... No, I mean, can I ask, what was your condition last time?"

The messenger sent by the conferred Kingdom of the Dragon nation last time was killed by the Furious Sante before he could finish his words.

Back then, the mountain robe had only treated those requests as a joke and naturally did not pay attention to them.

He didn't expect that he would have to rely on this joke to survive. The mountain robe was really regretful. If he had known, he wouldn't have come here to act tough!

He didn't get any merits, but he still had to leave his life here waiting for others to come and save him. This was too aggrieving!

"Uh...Ziyu, what was our condition last time?"

Lin Yi was stunned by the question.

It was mainly because he'd just made up his mind last time, and didn't really expect the Empire to agree to it.

The corner of Shan Pao's mouth twitched. 'Big brother, you don't even know what conditions you're offering. You want to double it now. Can you be more reliable?' This matter concerns my life!

Liu Ziyu didn't even think about it and replied, "Everything else is secondary. The most important condition is to have the Shanlian Empire cede half of its territory to our Hongshang Commandery. All the people and materials on the land can not be evacuated without permission!"

What?

The mountain robe really cried when he heard this condition. Are you guys kidding me?

Last time, they had given up half of the land. This time, it was doubled ... Wouldn't that mean that they would have to give up the entire land?

Why don't you just say that you'll give up the throne?

He's dead!

The mountain robe was crying his heart out!

Compared to the entire Shanlian Empire, he was nothing!

Emperor Sante had three legitimate sons, seven or eight illegitimate children in the imperial capital! And at least seventeen or eighteen illegitimate children outside the imperial capital!

The reason why the mountain robe and the mountain wall were fighting for the position of Crown Prince was because they were the legitimate sons!

As for the third Prince, his status was not as high as the two of them, but if they all died, the third Prince would naturally be the rightful heir!

If the third Prince was dead, Sante would probably be fine with it. He had many illegitimate children anyway, so it would not be a problem to find one, as long as it was his child.

Therefore, if Sante wanted to use the throne to exchange for the robe, the robe would have sentenced himself to death!

If it was just one or two cities, or even seven or eight cities, they might have a chance!

"Oh, right! I remember now, that was indeed what they said!"

Lin Yi smacked his forehead-he had a vague impression of it.

Shan Pao looked at Lin Yi, hoping that he'd say something like "this is already too harsh, let's relax a little."

Lin Yi patted Liu Ziyu's shoulder, "Then it's decided. Tell Sante to double the conditions from last time. Otherwise, he'll be waiting to collect his son's body!"

"No, no, no, we don't need him to collect the body. We will personally take his son's body and fight our way up the mountain to the imperial capital of the Empire so that the father and son can reunite!"

After hearing that, the mountain robe trembled!

Finally, he burst into tears. Damn Sima Zhongda, if you wanted to kill me, you could have just killed me. Why torture me like this?

Lin Yi frowned and kicked the man unconscious, calming the situation down.

"So noisy! You call yourself a Prince? you're just a piece of trash!"

Lin Yi turned to the Prince after a curse. "Your Majesty, when Ziyu is done with the documents, please send a Messenger to the Shanlian Empire to deliver the letter."

Chapter 7929

Still giving?

The Prince of the long bang felt the corners of his eyes and the tips of his brows twitching.

Do you think anyone would dare to send a letter to the Shanlian Empire? That wasn't sending a letter, it was sending him to his death!

"Cousin Zhong da, the messenger will definitely die if he goes there. Why don't we find a captive from the Shanlian Empire and let him go back to deliver the letter?"

Liu Ziyu was kind and said something fair.

Lin Yi thought about it and agreed, "alright, let's do that!" My King, what do you think? Is there anything else you want to add?"

The Prince of the long bang gritted his teeth.

You already want the entire Shan Lian Empire, and by then, even the conferred kingdoms of the Dragon state will be within your scope!

I'm about to become your F * cking subject, do you think I dare to add?

If you do it again, I will die!

"There's nothing else. Young master Zhong da, please think about it. Everything will be decided by you!"

The Prince of long bang gritted his teeth and gloomily finished speaking. He immediately waved his hand. "Back to the palace!"

Can't you just hide from me if you can't afford to offend me?

I'd better hurry up and contact the fire Empire and merge the Dragon state conferred kingdoms into the fire Empire!

From his point of view, this mountain and even the Empire would probably have internal strife in the future.

Liu Ziyu waited for the Prince of the long bang to leave and immediately arranged for his men to find a captive from the Shanlian Empire. He gave him an aerial spirit beast and asked him to fly straight to the imperial capital of the Shanlian Empire with the letter that Liu Ziyu had written.

A few days later, the Emperor of the Shanlian Empire, Sante, received the letter that Lin Yi had requested Liu Ziyu to write and modify.

Then, the released captive who delivered the letter was also killed ...

"Damn bastard! I must kill him! Kill them all! Someone, pass on my decree! Gather all the forces of the conferred kingdoms and all the available forces to surround the Dragon nation's conferred kingdoms!"

Sante exploded on the spot and tore Lin Yi's letter into pieces. He then roared in the hall, "We want to exterminate all the conferred kingdoms of the Dragon state! We're going to kill all the people of the Dragon state's conferred kingdoms!"

These country barbarians really had not seen the world, thinking that they could do whatever they wanted just because they were lucky!

He actually dared to ask for the entire Shanlian Empire, what a big appetite!

Wasn't he afraid of being stuffed to death?

Sante's anger could not be quelled. He smashed a few cups, ornaments and other small trinkets beside him.

"Your Majesty, please calm down. It's not that easy to gather an Army! I'll need some time. "

The first to speak was the eunuch beside Sante.

This person, who had been by the king's side for decades, was the most trusted confidant. He could comfort his master when he was furious."Most importantly, ordinary soldiers are ..."

He didn't finish his words, but his meaning was clear.

Hundreds of thousands of soldiers would be of no use at all. It would take a long time to gather so many people.

Sante took a few deep breaths and managed to suppress his anger.

He also knew that it would not be an easy task to mobilize the troops he had just mentioned.

In addition to the military strength of a few conferred kingdoms, the Shanlian Empire's soldiers, auxiliary soldiers, and logistics, the number of people they needed to mobilize was in the tens of millions. It was impossible to complete this in a short time.

"Imperial father, the Army can slowly gather, but there's one thing that your son feels must be investigated first!"

Shanji, the third Prince of the Shanlian Empire, stepped forward and said, ""This son is talking about the situation of the three guardians of the National Guardian Hall! When first Imperial brother brought three consecrators to a conferred Kingdom of the Dragon state, he should have been able to crush them completely. There's no reason for anything to happen to him!"

"Now that first Imperial brother is said to have been captured, what about the three consecrated? What happened to them? Could they have been killed by the people from the Dragon state's conferred Kingdom?"

If his guess was correct, it meant that there was a powerful expert overseeing the conferred kingdoms of the Dragon state, and he was an existence that could deal with at least three earth splitting stage experts!

"Shanji is right, we must first investigate this matter!"

"That's right." Sante could not help but nod. "If a conferred Kingdom of the Dragon state has such a Super Master, then things will become troublesome!"

"Your Majesty, this subject will immediately investigate the ins and outs of this matter. I will definitely find out the truth!"

The Shanlian Empire's minister in charge of intelligence immediately cupped his fists and stepped forward. ""In the meantime, Your Majesty can continue to gather troops. We can crush them with our absolute advantage in numbers. No matter how powerful the blood spirit of the conferred kingdoms of the Dragon state is, it won't be able to stop them!"

"After all, I can't deny that the blood ghost is indeed very powerful. However, what can a mere 800 people do when an Army of 10 million soldiers besieges a conferred Kingdom of the Dragon state?"

"To put it more bluntly, the blood spirits can win in a local battle, but this is a Super Battle involving tens of millions of people. The front line can be spread thousands of miles. Even if the blood spirits have wings on their backs, they can still tire themselves to death by flying around!"

"Not bad!"

Sante nodded and looked a little better. "That's right. I'd like to see how capable that arrogant kid is!"

The Imperial court of the Shanlian Empire quickly came to an agreement and agreed to this plan.

While he sent spies to investigate what was happening in the Dragon state's conferred King's capital, he continued to gather his men and spread them out to various key points at the borders of the Dragon state's conferred King's Kingdom, waiting for the opportunity to launch a general attack.

In fact, the deaths of the Shan Lian Masters in the capital of a conferred Kingdom were very clear on the surface, and Lin Yi didn't want to hide it at all.

As for what was going on inside, no one knew except Lin Yi, so there was no need to hide it.

Therefore, the spies of the Shanlian Empire quickly obtained the information and sent it back to the imperial capital.

After Sante read the information, he became angry again.

"What's this? He didn't wake up after falling asleep? They were suspected to have been infected by some special infectious disease, and all of them died suddenly!"

Sante's roar resounded throughout the palace.

In order to vent his anger, he even tore down a Palace with his bare hands!

Three masters of the earth-splitting stage, the sinecures of the National Guardian Hall!

This was the military force that the dynasty used as a strategic deterrent. They had all fallen ill and died suddenly, and they had fallen asleep without waking up?

Are you playing with me?

Everyone knew that cultivators wouldn't fall sick after reaching the Sky Class-these were all magnate realm experts who had surpassed the heavenly Dao realm, so how could they die just like that?

Was he trying to gather information, or was he just making it up after finding nothing?

Seven or eight of the spies in charge of gathering information were killed by Sante in a fit of anger. The sound of crunching was extremely satisfying, but Sante's anger did not dissipate much.

"Pass on my decree! Gather the Army quickly and send them to various places. I want to completely raze the conferred kingdoms of the Dragon state!"

The Emperor was enraged, and the armies of the Shanlian Empire and the various conferred kingdoms began to gather at a faster pace.

A great battle was about to start!

In the capital of the Dragon state's conferred King.

Lin Yi received the news from the Shanlian Empire as well.

Chapter 7930

After all, such a large-scale mobilization of the Army could not be hidden even if they wanted to.

As long as one paid a little attention, they would know that this was not a difficult task for the intelligence personnel of the Dragon state conferred kingdoms.

"Shan Pao, it seems like your old man doesn't care about your life at all! There's no other way. In order to show that we're true to our words, we can only tear your worthless receipt!"

Lin Yi shook his head with a face full of regret before snapping his fingers at one of the guards. "You, drag him out and find a suitable place to behead him. Let the people in the capital know that there is nothing to be afraid of from the Shanlian Empire!"

"Yes! This lowly one will definitely do it well!"

The soldier quickly bowed, his eyes filled with Lin Yi's unconcealable respect.

Now, in the long bang conferred Kingdom, Lin Yi, Liu Ziyu, and the eight hundred Guards unit's Wushuang, also known as blood ghost, were all extremely respected heroes.

The soldier felt that he was really lucky to be able to get so close to Lin Yi and receive his orders. This was enough for him to brag about for the next few years!

"Sima Zhong da, big brother Sima, Lord Sima! Spare me! Please spare me!"

The mountain robe was so scared that he peed his pants again, and his face was covered in tears.

Although he had long been prepared to be killed, at this moment, he still couldn't accept it!

"I'm still useful! Believe me, I'm useful! I know the distribution of the Shanlian Empire's military forces and the defense of their fortresses. I can be your guide ..."

The mountain robe didn't care anymore. As long as he could keep his life, he would sell anything else!

In Sante's heart, Shan Pao could not be compared to the Shanlian Empire. However, in Shan Pao's heart, his life was the most important thing in the world!

In order to save his life, he was willing to betray the entire Mountain Empire!

"Ha ... I'm sorry. I can get what I want by myself. I don't need your help!"

Lin Yi glanced at the man in disdain and waved for the soldiers to continue dragging him away, so that the smell of urine wouldn't pollute the environment.

The mountain robe cried and shouted along the way, but it was useless. In the end, his cry attracted even more onlookers.

When they heard that the first Prince of the Shanlian Empire was going to be beheaded, the people of the capital were all in an uproar!

One by one, they called their friends over to watch the show, turning Shan Pao's tragic ending into a Golden Age in the capital.

When the Prince of the long bang received the news, his robe had already been torn.

After that, the nominal supreme ruler of the Dragon state's conferred Kingdom could only look up at the sky speechlessly, unable to say anything.

In the capital, Lin Yi's words carried enormous weight. Killing the Crown Prince of the Shanlian Empire was such a huge matter, and he was the last person to know about it.

"My King ..."

The old eunuch could tell that the Prince was in a bad mood, but he did not know how to persuade him.

Sighing, Prince long bang waved his hand helplessly. ""Forget it, this King is already used to it and numb! That Sima Zhong da has created too many miracles, and his prestige is above this King 's. There's no problem with that. "

"The capital ... In the future, I'll just give it to him! What this King needs to do now is to work with the fire Empire and take down the HU Yue conferred Kingdom!"

After such a long period of communication and deployment, the matter of the Dragon state conferred Kingdom and the fire Empire joining forces to pincer the huyue conferred Kingdom was basically set in stone.

At this moment, the Prince of the long bang had already made up his mind to personally lead his troops to attack huyue conferred Kingdom.

This way, he would be able to pull himself out of the quagmire of the Shanlian Empire and Sima Zhongda!

Although the huyue conferred Kingdom was also gathering its forces, Prince long bang believed that his side was more prepared.

If one was prepared, the HU Yue conferred Kingdom might not be able to resist.

Coupled with the pressure of the fire Empire, the HU Yue conferred Kingdom might be annihilated very soon!

"Great companion, pass on this King's decree to Sima Zhong da. Tell him that the war with the Shanlian Empire will be given to him. This King will personally lead the Army to deal with the HU Yue conferred Kingdom's attack on our Kingdom!"

The Prince couldn't wait to leave the capital, and so he found an excuse to give Lin Yi an explanation.

The old eunuch accepted the order and left. He had high hopes for Lin Yi and Liu Ziyu, but he didn't expect the two to grow so fast!

Looking at his master's somewhat bleak appearance, the old eunuch couldn't help but feel a little sad, but he couldn't do anything.

"Your Majesty wants to personally conquer a Hu Yue conferred Kingdom?"

Lin Yi was surprised to receive the order.

Lin Yi didn't know that the Prince of long bang was in contact with the fire Empire.

Of course, Lin Yi wouldn't mind even if he knew.

To put it bluntly, what did it have to do with him whether they contacted each other or not?

The reason why they were chasing after the Shanlian Empire was because that stupid second Prince offended Lin Yi's brother, Liu Ziyu!

And then, just as Lin Yi was worrying about not having a chance to develop to a higher platform, the Shanlian Empire came knocking on his door.

Lin Yi didn't know how strong a super-rich family was, but it seemed that his friends at his level hadn't even heard of it before. It was obvious that it was an ancient family in the common world.

As far as Lin Yi was concerned, he didn't know what was wrong with the Prince, but he was going to the huyue Empire himself.

Wouldn't it be better to stay at home and wait for a generous reward?

The mountaintop Empire had been destroyed, and Lin Yi couldn't manage this much territory himself- he'd have to go to the higher levels after throwing it to Liu Ziyu.

Although the Prince of the long bang was not very capable, as Liu Ziyu's father-in-law, how could he mistreat this fellow?

Lin Yi didn't understand what the old man was doing-he wanted to fight himself, wasn't he afraid of dying on the battlefield?

"I understand. Please report to the king that Zhong da will protect the borders of the kingdom and not let the Shanlian Empire advance an inch!"

Lin Yi waved his hand casually, not bothering to say anything more.

"I'll leave everything to young master Zhong da. This old servant will take his leave!"

The old eunuch left respectfully.

When he first met Lin Yi, he was still high and mighty, but now Lin Yi was someone he had to look up to.

"Cousin Zhong da, it doesn't seem right for the Prince of the long bang to personally go to huyue conferred Kingdom!"

Liu Ziyu muttered to Lin Yi as he watched the old eunuch leave, ""I've heard that the fire Empire has also been gathering their troops recently. It seems that they want to take advantage of the internal war in the Shanlian Empire to loot this place. "

"If the Prince of the long bang is secretly in contact with the fire Empire, then the expedition to huyue conferred Kingdom is worth pondering over!"

Lin Yi glanced at Liu Ziyu with a half-smile on his face and couldn't help but tease, Ziyu, he's your future father-in-law. What do you think he'll choose?"
