

Bodyguard 7931

Chapter 7931

Liu Ziyu was thin-skinned, so he blushed and stuttered, ""What ... What father-in-law ... Cousin Zhong da must be joking!"

His relationship with the third Princess was getting better and better, and he wanted to stick to her all day long. It was rare that the third Princess wasn't here today, and Lin Yi thought it was strange.

Lin Yi joked a little before continuing, "Ziyu, your guess might be right. The Prince of the long bang might have already established a connection with the fire Empire and used the huyue conferred Kingdom as the breakthrough point for the fire Empire to invade the Shanlian Empire."

"Then ... Are we going to make him our enemy ..."

Liu Ziyu was silent for a moment. He had to admit that Lin Yi's words made sense, and the possibility of it being true was very high.

"Enemies?"

Lin Yi was surprised-he had to admit that Liu Ziyu's imagination ran wild!

But it made sense after thinking about it-Lin Yi's way of thinking was never from a normal perspective!

From Lin Yi's point of view, the Shanlian Empire attacked the second Prince because he offended Liu Ziyu, which was why he killed him.

The current situation was also caused by the Shanlian Empire's refusal to apologize and compensate.

After that, Lin Yi decided to use the mountain as a springboard to a higher position.

However, what Liu Ziyu was thinking about was the problem of his position.

Lin Yi didn't know whether to laugh or cry. "Ziyu, the conferred Kingdom of the Dragon state belongs to your father-in-law! It's his right to join whoever he wants. Even if he disbands the Dragon state's conferred Kingdom, we can't say anything about it!"

"You have to understand that I didn't attack the Shanlian Empire for anything. My original intention was to let you be with the third Princess!"

"It seems like I've basically achieved my goal. As for the other items, they're just additional items and are dispensable!"

"So, don't you understand why I don't even care about the Emperor of the Empire and still maintain the necessary respect for the Prince of the long bang?"

"Ah!"

Liu Ziyu was suddenly enlightened!

It was really a wake-up call!

Before, Liu Ziyu really thought that Lin Yi was after the throne of the Shanlian Empire, and naturally treated the conferred kingdoms as part of the Shanlian Empire!

In that case, a conferred Kingdom betraying the Shanlian Empire was the same as betraying Lin Yi.

Now that Lin Yi's explanation made sense, he didn't feel so conflicted anymore.

"As you wish, let the Prince of the long bang shit and poop as he wishes, and we'll continue doing our own things! Shan Pao's body is still there. I said that I would personally send his body to the imperial capital of Shanlian Empire so that the father and son can reunite! So hurry up and prepare, then we can set off!"

"Go say goodbye to your third Princess first!" Lin Yi said with a wave of his hand.

"Uh, no need!"

Liu Ziyu rushed out with a whoosh and immediately began to call out to the soldiers of the guards unit to quickly assemble!

The knot in his heart had been untied, and Liu Ziyu was full of energy!

The Shanlian Empire had gathered an Army of tens of millions? So what? With cousin Zhong da around, numbers were never a problem!

The 800 personal guard units gathered quickly, and they did not need too much equipment. Each person only needed three horses, tents, rations, and the like.

In Lin Yi's words, if they needed supplies, they could just go to the enemy camp and get it!

Outside the city, Lin Yi was walking back and forth in front of the guards unit formation, looking at the guards who were in peak condition, he was very satisfied.

"Brothers, I'm sure everyone knows that the Shanlian Empire is gathering its Army to attack a conferred Kingdom. This time, I'll be taking everyone to the capital of the Shanlian Empire!"

With that, Lin Yi pulled on the reins, and the Black Spirit Ferghana horse stood up on its hind legs, its front hooves kicking in the air as it let out a high-pitched howl.

"Do you know how many people the enemy has?"

Lin Yi asked loudly.

"Ten million!"

The guards unit replied in unison.

"How many people do we have?" Lin Yi continued.

"Eight hundred!"

The guards unit continued to shout.

"Then what should we do?"

"Kill him!"

The 800 guards raised their weapons, and the killing intent they had been hiding exploded out.

For a moment, the weather changed, and the sun and moon lost their light.

The citizens and soldiers of the long bang who had followed them out of the city were all shocked, and their respect for Lin Yi and the guards unit returned.

Eight hundred against ten million, and he still dared to be so bold. If he hadn't seen it with his own eyes, he wouldn't have believed it!

"As expected of the blood ghost. It's too strong!"

"I really want to follow the blood spirit. With the invincible commander Sima leading us, we'll be invincible!"

"That's right. If I can become a member of the blood spirit in my lifetime, I'll be happy even if I die in battle!"

.....

Many people could not help but whisper to each other. Looking at the simple but shocking expedition ceremony of blood ghost, all of their blood was boiling, and they could not wait to follow.

Lin Yi was very satisfied with this. The crowd was burning, and the guards unit was even more so!

"Let's go. The target mountain is even the Xuanji imperial capital!"

The eight hundred Guards unit followed closely behind, their hooves thundering as they quickly left.

The news of blood ghost's expedition had been spread out by all parties. Through various means, they traveled thousands of miles in an instant, which was not much slower than the telephone in the secular world.

Sante soon received the news from the Shanlian Empire.

This time, he wasn't angry. Instead, he was a little stunned.

Coincidentally, his only son, Shanji, was also there, so he asked, ""My son, do you think that Sima Zhong da is up to something? Does he really dare to bring 800 blood spirits all the way to our imperial capital?"

Not to mention how far it was from the Dragon nation's conferred King's capital to the mountain and even the imperial capital, and not to mention how many people would be chasing and blocking him along the way, Sante himself could not even count the number of cities and checkpoints he had to pass through between the two places.

800 people overcame all obstacles?

Were the soldiers of the Empire really just for show, and all the experts were dead?

"Father, I don't know what the blood spirits are up to, but they've left the capital of the Dragon nation's conferred Kings. This is a great opportunity for us!"

Shanji's eyes flickered, and he smiled, ""The last time the three consecrators of the National Guard Hall went to the Dragon state's conferred King's capital, something happened to them. The reason has not been found yet."

"Your son boldly surmised that there is something strange about the capital of a conferred Kingdom of the Dragon state. Whether it's a super expert or some other self-preservation method similar to ours, it's probably useless once we leave the capital!"

Self-preservation means?

Sante immediately nodded in agreement.

This son that she didn't pay enough attention to in the past seemed to be quite good!

Because the Shanlian Empire was able to establish a country and prosper for a long time, it naturally had a life-saving trump card.

Chapter 7932

Although the conferred Kingdom of the Dragon state was a conferred vassal kingdom of the Shanlian Empire, it was only a subordinate Kingdom.

Whether the other party had any life-saving trump cards, it was difficult for others to know unless it was a moment of life and death.

When Shanji saw his father nodding, he became even more excited, ""This time, Sima Zhongda brought the blood spirit with him. On the surface, it was to send my brother's body back to the country. In reality, it was to slap the face of the Shanlian Empire."

"Let's not talk about whether the blood spirits will have a chance to come to the imperial capital. As long as they enter our Empire's city, it will be an insult to us!"

"That's why your son believes that we can't allow them to leave the borders of the conferred kingdoms of the Dragon state! For this, we still need to use the Masters of the National Hall to deal with them!"

The blood spirit could defeat an Army of 500000 in a head-on battle, so it was meaningless to send another few hundred thousand.

If they couldn't be killed or stopped, it would only be more embarrassing.

That was why Shanji said that he was going to send more Masters to deal with Lin Yi, not even mentioning the other two strong armies that were on par with the mountain Ghost Army.

After all, the other two squadrons were only on par with the mountain Ghost Army. If they were to go up against blood Phantom, who could annihilate the entire mountain Ghost Army, Shan Ji felt that the chances of them losing were higher.

"My son's words are very reasonable, but ..."

Sante was a little hesitant. After all, he had just lost three earth-splitting cultivators.

If there was another problem and a few more of their sinecures were to die, the Shanlian Empire would not be able to take it!

"Imperial father, in order to ensure that nothing goes wrong, this son suggests that the Grand Tutor personally make a trip! With him, a mere blood spirit can be destroyed with a flip of his hand. "

The Grand Tutor Shanji was talking about was Sante's master.

He was also the hall Master of the National Defence Hall of the Shanlian Empire, and the only super expert who had reached the great circle of earth splitting realm among the Empire's sinecures!

This was the true strategic force of the Shanlian Empire!

Even if it was a war between empires, they would not easily make a move. Instead, they existed as a deterrent force.

"This matter doesn't seem to be worth the Grand Tutor's time ... He's the Empire's martial God. Asking him to deal with blood Phantom is making a mountain out of a molehill."

Sante was actually a little tempted, but he was not willing to use his last trump card.

This kind of ultimate weapon that did not attack easily but was extremely powerful was good to scare people with.

"Imperial father, the situation is already so bad, what's there to be worth or not? Our mountain is losing all face for the Empire! In his own vassal state, two princes and an Imperial uncle died, hundreds of thousands of soldiers were lost, and he was defeated by a mere 800 people ..."

"If we don't use some thunderous methods, how can we intimidate the nations? This son begs Imperial father to come out and ask the honored tutor for help. This son is willing to be a pawn and follow the honored tutor to kill the rebels!"

At the end, Shanji finally revealed his true purpose, which was to follow the Grand Tutor to get some achievements!

Although he was already the only official Prince and it seemed like there was no need to worry about the crown prince's position, the matter was not that simple!

Sante had so many illegitimate children. They did not have the identity of a real Prince, but identity was something that the Emperor could decide with a single word.

Shanji had a sense of crisis, knowing that this was a rare opportunity to gain some merits.

In order not to repeat Shan Pao's mistake, he didn't want to bring out a few consecrators of the initial stage of earth splitting realm. If he had to bring them, he would bring the strongest one!

This way, it would be foolproof!

If the Grand Tutor still could not defeat the blood spirit, Shan Ji felt that it did not matter where he died, since he would not be able to survive in the end!

"Good! Since his son had such ambition, of course his father would support him! I'll ask the Grand Tutor to take action and kill Sima Zhongda and the blood spirit in one fell swoop!"

Since it was the emperor's order, the Grand Tutor had no objections. He immediately brought third Prince Shanji to the sky on his flying spirit beast and flew in the direction of Lin Yi and the others.

On the flying spirit beast, Shanji looked at the Grand Tutor with a reverent expression, trying to find a topic to talk about, "Grand Tutor, just the two of us? Why don't you bring more people to boost your momentum?"

The Grand Tutor placed his hands behind his back and stood on the back of the aerial spirit beast with his chest out. With the air of a Sage-like Grandmaster, he smiled proudly. "Do I still need some random people to boost my reputation? This old man is momentum! Even an Army of ten million can't compare to this old man!"

"Yes, yes, yes! The Grand Tutor was absolutely right! I misspoke! Not even the entire Army of the Shanlian Empire can compare to the Grand Tutor's prestige!"

Shanji quickly flattered.

He knew very well that as long as he could gain the favor of the Grand Tutor, the position of Crown Prince would truly be in his pocket.

The Grand Tutor snorted and didn't really want to talk to Shanji, but Shanji kept flattering him shamelessly.

If it was someone else, the Grand Tutor would have thrown away his flying spirit beast long ago. But Shanji was a Prince after all, and the only suitable candidate for the position of Crown Prince.

He had no choice but to endure it! He had to endure it, and he got used to it ...

After getting used to it, the Grand Tutor began to enjoy the flattery of the mountain.

After all, this was the future Crown Prince. Not everyone could be flattered by the future Crown Prince, right?

After flying for two to three days, the two finally found Lin Yi and the eight hundred guards.

The aerial spirit beast immediately swooped down, flapped its wings, and hovered about six meters in the air, blocking the front of the cavalry.

Lin Yi raised his hand, and the cavalry stopped in their tracks-they were all elite soldiers.

"A good dog doesn't block the way, but a good dog that blocks the way is not a good dog! The two who are blocking the way, could it be that you want to Rob me?"

Lin Yi looked up at the two in the air and teased,"This Marshal likes to block and Rob people the most, because usually these kinds of people come to give their heads away, so I can't not accept them!"

"You're Sima Zhong da? It has sharp fangs and a sharp mouth, and it's good at biting people!"

Shanji laughed coldly. He didn't want to answer Lin Yi's question, so he changed the topic,"I am Shan Ji, the third Prince of the Shanlian Empire. This is the famous Grand Tutor of the Shanlian Empire, the head of the National Defence Hall, and a super expert, Yuwen Wuji!"

"Quickly get down from your horse and kneel! Asking for Grand Tutor Yuwen's forgiveness?"

"Ha ... You think you can scare people with just a name? Believe it or not, if I tell you my name, you'll be scared to death!"

Lin Yi curled his lips in disdain, thinking of his own name ...

The secular world, the East, West, South, East, and West of the heaven rank Island, as well as the AO Tianba fleet, and then the ancient martial world, sub-islands, and so on ...

Lin Yi realized that he couldn't even remember how many names he had-it was best not to mention this topic!

"Ignorant brat! How dare you be so arrogant in front of me!"

Yuwen Wuji looked down at Lin Yi, his eyes filled with a sense of superiority and a trace of pity, ""It's a pity. You are indeed all good seedlings, but you just have to go against the Empire. In front of a super expert like this old man, you still don't know how to repent. This old man can only kill you!"

"Fried chicken expert? You're the expert in cooking, the Yuwen Black Chicken, right? Your best dish should be fried black-bone chicken, right? How could you bear to kill a cute black-bone chicken?"

This was probably the last Big BOSS of the Shanlian Empire, and Lin Yi didn't want to just kill him.

Chapter 7933

There would be nothing to play after he was killed, so he casually teased her to buy some time.

Yuwen Black Chicken was dumbfounded by Lin Yi's words. He had to go through it a few times before he could understand what Lin Yi was saying.

Super expert Yuwen Wuji = fried chicken expert Yuwen Black Chicken?

Stir-fry your grandmother's chicken legs!

Yuwen Wuji was furious!

How many years had it been since someone had dared to tease him like this?

He had already forgotten!

As the Grand Tutor of the Shanlian Empire and the hall Master of the National Defence Hall, he not only enjoyed a high status in the Shanlian Empire, but also had a superior status in other empires!

No matter if it was an expert of the same level, or the emperors and princes of the various countries, who didn't politely address him as senior?

Today, she was actually humiliated by a yellow-haired kid. This was simply intolerable!

"Very good, you're courting death, junior! It's been more than a thousand years, and there have been two thousand eight hundred and eighty-eight people who have spoken to this old man in this way. They are all dead! You have two thousand eight hundred and eighty-nine!"

Yuwen Wuji wanted to show off and show off his skills as a master, but he couldn't care about that anymore. He jumped off his flying spirit beast and was ready to kill Lin Yi.

As far as he was concerned, Lin Yi wasn't worth using a weapon-he'd just kill him with one slap!

As for the eight hundred blood spirits behind Lin Yi, they were nothing!

After taking care of the despicable leader, he could kill the rest of the people!

Perhaps, when the blood spirits saw that their commander was dead, they would directly surrender.

A huge gust of wind blew, causing Lin Yi and the guards unit's Black Spirit Ferghana horses to lose their balance.

And this was only the small aftershock of Yuwen Wuji's martial technique.

It could be seen how shocking the power would be when he really attacked!

"Don't say that this old man is bullying a junior, you are the one courting death. This old man will fulfill your wish and give you a quick death!"

Yuwen Wuji probably felt that as a senior expert, it was beneath him to take the initiative to attack first. Hence, he did not forget to find a way out of this situation when he pounced.

As soon as he finished speaking, his palm had already fallen.

The guards beside Lin Yi weren't Yuwen Wuji's main target, but they could still feel that the ordinary-looking palm with wrinkled skin had an aura that could cover the sky.

It really made people want to sigh and say that Yingluo was still stronger than Marshal Sima!

As expected ...

The aura disappeared in an instant in front of Lin Yi.

That plain and even slightly wrinkled palm was still so plain and ordinary.

After its owner said those words, it fell to the ground.

It had to be said that earth-splitting stage experts were indeed powerful. Even their foreheads were hard enough!

With just a casual bump, he created a hole in the ground and plunged into the ground like a green onion. The body that was left on top of it was still twitching.

Especially those two legs, as they stomped towards the sky, it inexplicably gave off a comical feeling.

The guards unit soldiers were all dumbfounded, not understanding what was happening. Could it be that this was some kind of amazing fried chicken martial arts technique that required one to stick their head into the soil?

I don't know, but it's amazing!

In their opinion, no matter how powerful commander Sima was, the other party was at least a complete earth splitting realm expert. It was impossible for such a legendary expert to be defeated in one go.

"You're right. For so many years, there's only one ending for those who act tough in front of me! But I can't remember how many people there are. "

Lin Yi sighed. Yuwen Wuji was still too weak.

Without true Qi, without spiritual sense, an expert of the earth splitting stage who only relied on body tempering was really weak.

Plus, Lin Yi felt that Yuwen Wuji's IQ was a little worrying.

The mountain Ghost Army was a powerful force with mutated spiritual power, but Lin Yi had wiped them out in one battle. A smart person would've guessed that there must be someone stronger than the mountain Ghost Army in the blood spirits.

Yuwen Wuji was the Grand Tutor of the Shanlian Empire and one of the higher-ups. Even a ghost would not believe that he did not know the secret of the mountain Ghost Army!

For an earth formation stage cultivator who didn't have much spiritual sense to dare to annihilate the mountain Ghost Army like this, he was indeed very stubborn!

Yuwen Wuji had indeed thought of this, but he had only thought of it after his head was stuck in the ground.

He was attacked by Lin Yi's spirit sense!

To be honest, Yuwen Wuji was afraid!

Grand completion earth splitting realm was already one of the few experts in the various empires. He could roam the world freely, but what he was most afraid of was encountering experts with the ability to attack with divine sense!

The mutation of the mountain Ghost Army's spiritual power was not enough to affect an expert at the consummate level of earth creation realm like him. However, once someone who could affect him appeared, he could only wait for death!

Thinking about how Sima Zhong da was the kind of person who could take his life, Yuwen Wuji stomped his feet with all his might, trying to pull his head out of the ground.

Unfortunately, his mind was still in a daze, causing his body to be extremely weak. For a while, he actually couldn't come out.

Lin Yi shook his head. A weakling like him didn't have the chance to play anymore, so he didn't give Yuwen Wuji any more chances. He urged his horse and charged forward, his zhanmadao flashing by.

Yuwen Wuji was dead!

Shan Ji, who was still on his aerial spirit beast, was dumbstruck. He had never expected such an outcome!

Just now, Yuwen Wuji had pounced down with an unparalleled aura, wanting to kill Sima Zhongda.

How did it become Sima Zhongda killing Yuwen Wuji in the blink of an eye?

He was supposed to be a super expert, the ultimate weapon, and the most powerful force of the Shanlian Empire ... Was this what he was supposed to be?

After killing Yuwen Wuji, Lin Yi raised his head and looked at Shanji, who was on the flying spirit beast. Shanji shivered.

He was a little angry with himself. Why was he still in a daze at this time? he should have quickly escaped!

After regaining his senses, Shan Ji frantically urged his aerial spirit beast to fly higher in an attempt to escape.

He finally understood that the National Guardian Hall's experts who had followed Shan Pao to the Dragon state's conferred Kingdom had not been killed by any experts or traps in the capital of the Dragon state's conferred Kingdom.

The murderer was right in front of him!

Shanji almost cried, he did not want to end up like Shan Pao.

But now, it seemed that the two brothers were very similar. They were both trying to gain some achievements, but in the end, they lost their lives!

Lin Yi didn't chase after the flying spirit beast, he just casually waved his arm, and the guards drew their bows in unison. Eight hundred arrows flew through the air like a swarm of locusts, catching up to the flying spirit beast in an instant.

In the next second, a Hedgehog-like flying spirit beast fell from the sky, together with the Hedgehog-like mountain ridge, and fell to the ground without any signs of life!

"Ziyu, who did they say they were?"

Lin Yi forgot the names of the two.

Lin Yi couldn't recall the title of the fried chicken master, Yuwen Black Chicken, from a nobody like that.

Chapter 7934

"Cousin Zhong da, the old man who died was the master of the National Defence Hall of the Shanlian Empire, the Imperial tutor, and an expert at the consummate level of earth splitting, Yuwen Wuji. The one who turned into a Hedgehog was the third Prince of the Shanlian Empire, Shanji."

Liu Ziyu swallowed his saliva. He knew that cousin Zhong da was powerful, but he didn't expect him to be this powerful!

An expert at the great circle of earth creation realm was killed without even blinking!

It was so awesome!

As expected, he was the omnipotent cousin Zhong da!

Worship!

"Oh right, it's Mountain gun's little brother! Since that's the case, I'll take them with me and send them back to the imperial capital as well!"

Lin Yi nodded seriously-this was what a good person should do, sending the enemy's body back to its roots!

Anyway, it was just a matter of two more coffins.

Liu Ziyu immediately arranged for people to collect the bodies, and then the team continued to move forward.

No one paid attention to what had just happened. It was as if the one who had died was not an expert of the consummate level of earth creation, nor was it the third Prince of the Shanlian Empire.

They were just two vicious dogs blocking the way. If they died, so be it. It was no big deal!

Yuwen Wuji and his partner had stopped Lin Yi's group at the border of a conferred Kingdom, and were dragged along as corpses.

The next day, Lin Yi brought the group to the first city under the direct jurisdiction of the Shanlian Empire.

"Call your general out to speak!"

Lin Yi brought the guards unit to the city wall, not afraid of the arrows at all, "Tell him that Sima Zhongda of Hongshang Commandery is here with his blood ghost!"

The general was at the top of the city wall, and his legs almost gave out when he heard Lin Yi's name!

Blood spirit!

These three words had become the nightmare of all the soldiers of the Shanlian Empire. It represented endless death and terror!

"I ... I'm the general in charge of this city! I wonder what advice general Sima has for me?"

The general didn't want to stick his head out, but his men were all looking at him. He had no choice but to stick his head out and talk to Lin Yi.

"There's no need to. I just want to tell you that we're here to deliver the corpses of your first Prince Shan Pao, third Prince Shan Ji, and Grand Tutor Yuwen Wuji to the capital. We'll hand them over to your Emperor in person. Don't you think it's time to open the gates to welcome them?"

Lin Yi waved his hand casually, and the three coffins were pushed out. He opened the lids, revealing the faces of three bodies.

The general's expression changed, and his eyes widened in disbelief.

He didn't know that Yuwen Wuji and Shan Ji were looking for trouble with Lin Yi, and the news from the imperial capital didn't reach him that quickly.

Hence, when he suddenly saw the most powerful warrior in the Empire, Yuwen Wuji, become a corpse, he felt as if the entire sky was starting to collapse!

As for Shan Pao and Shan Ji ... If they were dead, then so be it. The guard general really didn't care about them. They were just two useless princes, so it didn't matter if two more died.

"Y-y-you ... You killed the Grand Tutor?!"

The morale of the guards and soldiers on the city wall plummeted. If they still had the courage and will to pick up their weapons and resist, they had already given up!

"If you don't believe me, you can come and do the autopsy yourself!"

The tip of Lin Yi's zhanmadao tapped on the coffin lightly, the blade reflecting the sunlight and making people feel dizzy.

After a moment of silence, the general's expression suddenly became firm. "I surrender!"

The soldiers around him heaved a sigh of relief when he said that. Some of them even laughed.

Lin Yi didn't know what was going on. Surrendering?

Liu Ziyu and the soldiers of the personal guard unit had strange expressions on their faces. It was obvious that they had not expected such an ending.

They had thought that they would have to talk more and then fight another battle before they would consider the issue of surrendering.

He only said a few words and he surrendered?

Lin Yi didn't tell them to surrender, did he?

Could it be because of these corpses?

Lin Yi didn't understand, but the general had already led his men to open the gate and ran to Lin Yi. He knelt down on one knee and raised his sword over his head with both hands.

"General Sima, we have surrendered. There are 30000 regular soldiers, 50000 auxiliary soldiers, and hundreds of thousands of civilians in the city. Please treat them well and don't make things difficult for them."

The general surrendered, but he was still nervous, afraid that Lin Yi would kill him.

After all, when the Shanlian Empire attacked the conferred kingdoms of the Dragon state, they did not accept surrender.

All the soldiers of the Dragon state's conferred kingdoms, whether they surrendered or not, were slaughtered. Only the commoners were left and forcibly taken as slave soldiers.

He was afraid that Lin Yi would do the same to them.

"Why did you surrender? There are 30000 soldiers, 50000 auxiliary soldiers, and at least 100000 young men to help defend the city. It won't be easy for us to break the city. "

Lin Yi didn't accept the sword, but decided to satisfy his curiosity first.

Just as he said, this city's defensive capabilities were outstanding, and there were enough people to guard the city, so why should they surrender?

The blood Spirit's reputation was built on its field battles. It was not good at sieging a city. Moreover, there were only 800 of them. It would not be easy to attack a city!

The Guard's heart tightened. Lin Yi not taking the sword made him even more uneasy. He was afraid that Lin Yi wouldn't accept his surrender, so he lowered his head even more and said respectfully, "General Sima's might has shaken the world. I've admired you for a long time and hoped to follow you. Now that I have the opportunity, I naturally can't let it go!"

Lin Yi only responded with an "Oh," not giving any opinion.

"Other than that, Emperor Sante sent his troops to attack his own vassal kingdom for his own selfish reasons. He ignored the soldiers and citizens of the world, causing hundreds of thousands of soldiers to lose their lives in a conferred Kingdom of the Dragon state ..."

At this point, the general's body trembled slightly. He remembered that the culprit who had directly caused the deaths of hundreds of thousands of soldiers was right in front of him, and he could not continue.

"Actually, Sante has already lost the hearts of the people in the world. Whether it's the people of the Empire or the people of the Dragon state conferred kingdoms, they're all family. That's why when general Sima came, we would rather surrender than continue fighting!"

It wasn't easy to change the topic, and the general wiped the cold sweat off his forehead as he continued to worry, not knowing what Lin Yi was going to do with him.

Lin Yi's lips twitched. He could feel that the general was sincere about surrendering, but he didn't know if he could trust his words.

However, it didn't matter. It was always a good thing to save some trouble!

"Get up. Keep holding your sword. This city still needs you to guard it. I'm just passing by today, and I don't have time to take over the city!"

Lin Yi used the blade of the zhanmadao to lightly lift the Guard's arm, turning him from a kneeling position to a standing position. He then urged the horse forward.

Chapter 7935 The Power Of The Devil

"Everything in the city will remain the same. The flag will be changed to that of Hongshang Commandery. When I take down the entire Shanlian Empire, I will reorganize it."

The general's mouth twitched a few times. He thought to himself, "this master is really arrogant. He wants to conquer the entire Shanlian Empire with just eight hundred people?"

"The mighty general Sima! Conquering the Shanlian Empire was only a matter of time! Do you need us to send some soldiers to accompany you?"

He didn't want to believe it, but the general didn't want to be Lin Yi's enemy, so he was very friendly. He wanted Lin Yi to take all his men away.

Unfortunately, Lin Yi didn't care about his men at all. He just waved his hand and didn't say anything else. He led his men and sped through the city, rushing out from the other side of the gate.

As Lin Yi said, he was just passing by and took down a city!

"General, is there anything wrong with what we're doing?"

The general climbed up the wall and watched as Lin Yi and the 800 guards left. His vice general beside him whispered, "The Empire is powerful. If they pursue this matter, we'll probably be executed!"

"Powerful? Hehehe!"

The general let out a sharp laugh, which was full of ridicule, "Even Grand Tutor Yuwen Wuji is finished, what other trump cards does the Emperor have?"

"Small countries compete with soldiers, horses, and provisions, while big countries compete with high-end martial strength! The most powerful Grand Tutor, Yuwen Wuji, had been killed. The Shanlian Empire had lost! Why should we, the low-level soldiers, try to block a chariot with our Mantis arms?"

"It's over ..."

The Deputy general listened to his commander's sigh and remained silent. After a long time, he let out a long sigh and looked up at the vast sky. The Empire was connected to the mountains. The sky was about to change!

After Lin Yi left the city with his men, the general ordered the entire city to change their flags and leave the Shanlian Empire, becoming the territory of Hongshang Commandery. At the same time, he also passed on the news of Yuwen Wuji, Shan Pao, and Shan Ji's death.

Of course, the most important thing was the news of Yuwen Wuji's death. The other two were not important at all and were just mentioned in passing.

Perhaps Sante had really lost the hearts of the people, or perhaps there were too many smart people in the Shanlian Empire, but Lin Yi's next trip was surprisingly smooth.

He had thought that he would have to slaughter his way through hundreds of obstacles and kill millions of soldiers before he could reach the imperial capital.

Wherever Lin Yi went, all the cities fell to him!

There was no need to say anything. Even before they got close to the city, the guards inside came out with their guards, asking to surrender.

He had no choice but to accept!

If Lin Yi didn't accept, they'd raise their weapons ... And put them to their necks!

They were from the Shanlian Empire, but they had to say that they were already from Hongshang Commandery. Lin Yi couldn't force them to die, could he?

What kind of people were these from Hongshang Commandery?!

There was an entire conferred Kingdom in the Dragon state between Hongshang Commandery and this place!

Lin Yi didn't know what to say. He didn't think too much about it when he first took over the first city. He thought that it was good to give Hongshang Commandery an entire land here, as it would be a bridgehead for him to take over the entire Shanlian Empire.

He didn't expect that the bridgehead would be directly connected to a large area and enter the fast lane of annexing the mountain and the Empire.

In comparison, the mainland of Hongshang Commandery, which was a tiny place, was now more like an insignificant flying land ...

No matter what, Lin Yi had a smooth journey with the guards unit, and they arrived near the capital easily and happily.

He didn't even have the chance to draw his saber, let alone fight.

The tall walls of the imperial capital were already in sight, and Liu Ziyu approached Lin Yi with a complicated expression. "Cousin Zhong da, do you think the people from the imperial capital would also open their cities and surrender?"

The 800 blood spirits went on an expedition to the Shanlian Empire and fought countless battles, killing countless enemies. This was the correct way to start the script. It felt a little strange to come all the way here without shedding any blood!

Even with Liu Ziyu's personality, he could not help but look forward to a real battle!

However, if they really fought, there might be casualties, so Liu Ziyu's mood was a little complicated.

"I don't think so. After all, the imperial capital is the core of the Shanlian Empire. The number of soldiers guarding the imperial capital is not comparable to those in other places, be it in terms of quantity or quality."

Lin Yi rubbed his chin, unsure. "With the city in his hands, the elite soldiers, and the countless experts, the Emperor of the Shanlian Empire should at least try to win, right?"

Furthermore, the people of the imperial capital, be it soldiers or citizens, should be more loyal to the Emperor than in other places and would not easily surrender.

As they spoke, the cavalymen were still advancing quickly, and they soon arrived at the city gate.

As expected, the gates of the imperial capital were tightly shut, and the walls were lined with weapons, cold arrows pointed at Lin Yi and the others.

"Haha, looks like they really don't plan on surrendering!"

Liu Ziyu grinned. It was hard to tell whether he was feeling regretful or happy, or both. "Cousin Zhong da, are we going to fight a siege battle?"

Lin Yi didn't say anything, because the imperial capital had already responded. A row of arrows flew through the air and landed neatly about twenty steps in front of the guards. This was the imperial capital's support.

As long as the guards unit entered the line of arrows, they would be hit by a storm of arrows.

After the arrows stopped the formation, the Imperial City's Gate opened wide, and a team of infantrymen in khaki-colored armor rushed out neatly and quickly. They formed a formation outside the gate, and the total number of people was about five thousand.

"Ha ... It seems like the Emperor of the Shanlian Empire is not satisfied with defending the city. He wants to have a direct battle with us first!"

Lin Yi shook his head with a smile, not too concerned about the five thousand men. "Ziyu, what do you think of the strength of these people?"

"The enemy is advancing and retreating in an orderly manner. Their movements are Swift and orderly, and their formation is tight. They are a strong Army!"

Liu Ziyu's expression turned serious as he commented, ""I can't judge their combat strength for now, but they should be a very powerful team!"

There was something Liu Ziyu didn't say-in his heart, the strongest army was the personal guard unit behind them, or rather, the personal guard unit led by Lin Yi!

His vision was no longer the same as before, so he could easily see that the yellow-armored team was very strong!

If Lin Yi wasn't here, and he was the only one leading the guards unit to attack, victory aside, there would be losses!

"It's indeed a strong Army. Look at the flag they're waving!"

He lifted his chin slightly, signaling for Liu Ziyu to look at the flag that wasn't fully opened yet.

It was a breezy day, so the war flags drooped. Only when the flag bearers ran would they slightly stretch.

Liu Ziyu had also noticed it, but he had not seen it clearly before.

Chapter 7936

Just as Lin Yi was speaking, the flag bearer waved the flag, spreading it open.

Chongshan!

It was only two words, but Liu Ziyu's eyes narrowed.

Along the way, they had studied the strength of the Shanlian Empire.

The Grand mountain Camp was a topic that could not be avoided.

It was one of the strongest armies in the Shanlian Empire. Along with the mountain Ghost Army and the broken peak camp, they were known as the three most mysterious trump cards of the Shanlian Empire.

That's right, the mountain Ghost Army was the Army that was completely defenseless under the charge of the personal guards unit!

Therefore, although Liu Ziyu paid a little attention to it, after thinking about it carefully, it didn't seem to be a big deal.

"So it's the Grand mountain Battalion. The Emperor of the Shanlian Empire probably wanted to use the Grand mountain Battalion to test our combat power. Without seeing it with his own eyes, he would never believe in our strength!"

Heaving a sigh of relief, Liu Ziyu's expression relaxed, and the corners of his mouth curled up into a faint smile. "It is said that the defense of the Grand mountain Camp is amazing and they are known for being unmoving. It is indeed the right way to deal with our cavalry."

When ordinary infantrymen faced the charge of cavalry, it was like a flock of sheep facing a pack of wolves.

However, the true heavy-armored infantrymen could rely on their strong defense to resist the initial charge of the cavalrymen. After that, they had the chance to counterattack.

If the cavalrymen, who had lost their mobility, were to fight with the heavy-armored infantrymen in their original positions, the chances of them dying were several times higher than the heavy-armored infantrymen.

"The Chong Shan camp has amazing defense and is not comparable to an ordinary troop. But are we an ordinary troop?"

Lin Yi watched as the Chongshan camp's formation was gradually completed before he shouted, "After today, the Shanlian Empire will lose its second trump card team! The Grand mountain Battalion can go and find the mountain Ghost Army to accompany us!"

As they were talking, the shield formation at the front row of the Grand mountain Camp started to move forward slowly and steadily. Long spear tips poked out from the gaps between the shields.

From a distance, it looked like a forest of yellow steel was moving forward with a strange rhythm.

"Interesting. As expected of one of the three trump cards of the Shanlian Empire!"

Lin Yi smiled with interest as he rubbed his chin with his left hand. "Ziyu, can you tell? The defensive formation of the Chong Shan camp is also a type of battle formation that connects the five thousand soldiers as one!"

"Although the level of this battle formation is a bit low, it's not easy to do this! The defensive power of five thousand people combined is not just one, two, or three, four times stronger!"

No wonder the Grand mountain Battalion was famous for their defensive power. They were indeed capable!

The mountain Ghost Army, which Lin Yi had treated as trash, was actually quite strong.

If it weren't for Lin Yi's suppression, they would've been able to dominate the world.

To be able to stand on equal footing with the mountain Ghost Army, how could the Chong Mountain Camp live up to their name?

"Cousin Zhong da, the five thousand people of the Chong Shan camp all have earth attribute energy! As they advanced, the earth attribute Qi that was stimulated from their bodies also became one. This defensive ability is even more amazing!"

Liu Ziyu's eyes widened in disbelief. "With this kind of defensive ability, I'm afraid that even a Super Master of the earth opening stage would find it difficult to break through?"

Normally speaking, when one's strength reached the groundbreaking stage, the general tactic of using numbers would lose its meaning.

But against a strong Army like the Chong Shan camp, they had the chance to be trapped to death in the beginning stage.

Liu Ziyu had confidence in Lin Yi and the guards unit, but he was still worried.

They had no choice. The current formation of the Grand mountain Camp could counter the assault tactics of the guards unit.

Under such circumstances, even if they could win, it would probably be very difficult!

"Indeed, even a normal earth-splitting stage master would find it hard to break through the defense of the Chong Shan camp!"

Lin Yi didn't deny it, "but that's all!" With the speed of the Chong Shan camp, the masters of the earth stage can not break their turtle shell, and they can not catch up with the masters of the earth stage. "

To put it bluntly, the Grand mountain Battalion was purely a meat shield team. They did not have enough offensive power to decide the outcome of the battle.

However, it would be a different story if they were to work with the mountain Ghost Army.

However, the mountain Ghost Army had already gone to hell.

"Cousin Zhong da, what should we do? We'll be at a slight disadvantage if we face each other head-on ..."

"What loss? The shield may be strong, but if the spear is sharp enough, it can still pierce through the shield!"

Shrugging, Lin Yi smiled and raised his blade. "I have said, from today on, the Grand mountain Camp will disappear! They're only suitable to accompany the mountain Ghost Army!"

"All troops! Assault!"

Lin Yi pointed his blade forward and kicked the horse's belly. The Black Spirit Ferghana horse neighed and charged towards the enemy.

"Yes!"

Liu Ziyu did not have time to say anything else and rushed out as well.

The 800 Guards unit soldiers shouted in unison, ""Kill!"

The murderous aura exploded and everyone's spirit rose to its peak. They formed a black arrow formation and shot towards the strong turtle shell that the Chong Shan camp had set up!

It was the same battle formation, but five thousand against eight hundred seemed to have a huge advantage.

However, the 800 men of the guards unit were Lin Yi's disciples and were extremely powerful.

Compared to the battle formation of the Chong Shan camp, it was many times more powerful!

If it was just this, it was still not enough to break the defensive formation of the Chong Shan camp!

But it was different now that Lin Yi was in the lead!

His divine sense trembled!

The earth Qi of the soldiers of the Grand mountain Battalion was very dense. Not only did they have amazing physical defense, but they could also block attacks from the deified soul.

Well, only one or two, not three!

Lin Yi's spirit sense pierced through the defense of the Chongshan camp like a piece of paper and instantly affected the five thousand people's brains.

If the mountain Ghost Army was the one dealing with the Grand mountain Battalion, they probably would not be able to affect the Grand mountain Battalion's consciousness so quickly. They would need some time to wear it down before they could break through.

Lin Yi's spirit sense, on the other hand, was on a completely different level.

The moment the 5000 people were in a daze, a hole appeared in the tight defense.

Lin Yi took the lead and easily broke into the formation.

When the tip of the blade pierced into the flesh, the cutting of the blade became much easier. The guards unit soldiers were already used to this way of fighting, and they perfectly displayed the sharpness of the blade.

The Great Wall of the Shanlian Empire, the Chongshan camp, didn't last much longer than the mountain Ghost Army. Under the sudden attack of Lin Yi's personal guards, they were annihilated like a hot knife through butter!

As the time was too short, the defenders on the city wall could not react in time. They did not know if they should shoot a few waves of arrows to support the enemy. When they reacted, the Grand mountain Camp was already finished!

Lin Yi led the eight hundred guards who were covered in blood and charged at the city gate. In order to let the Chongshan camp out of the city ... They didn't even have time to close the open gate.

Chapter 7937

The Black Spirit Ferghana horse was as fast as lightning. After the black torrent swept through the yellow wall, it arrived in front of the city gate in the blink of an eye.

"Close the door! Close the city gate!"

The soldier guarding the gate shouted so shrilly that his voice cracked.

But it was too late-Lin Yi only managed to catch a glimpse of him when he passed by.

Lin Yi didn't kill him, but the guards behind him wouldn't let him go. Before the battle was settled, any enemy soldier who didn't surrender was a threat and had to be eliminated.

So the sound-breaking soldier shouted the last sound of his life. In the next second, his head was already flying high into the air, becoming another contribution of the guards unit!

It was chaotic!

After Lin Yi broke in, the entire imperial capital quickly fell into chaos.

The city gate was the source, and then at an unbelievable speed, it radiated out in all directions.

The imperial capital instantly showed signs of fleeing.

"The Shanlian Empire ... Is finished!"

Lin Yi led the guards unit to the palace and didn't encounter any resistance!

In fact, the guards of the imperial capital had already fled before they even heard the sound of the Black Spirit Ferghana horse's hooves.

The majestic imperial capital of the dynasty was actually not willing to fight to the death when the city was invaded by enemies.

Forget about the commoners, but even the guards were terrified.

There were still large areas of the Empire that hadn't fallen, and Lin Yi hadn't even been to those places yet, but it was foreseeable that once the capital was done for, these territories would be finished as well.

"Cousin Zhong da, although I've never doubted that we would be able to attack the imperial capital, isn't the process a little too simple?"

Liu Ziyu could not help but sigh.

In the past, if someone were to tell him that eight hundred people could take down the capital of Shanlian Empire and destroy this huge Empire, he would never believe it!

But now?

It was no longer a question of whether he believed it or not, but that he himself had participated in this operation that could be called a miracle.

After today, this would become a legend of the sub Island.

"It can't be said to be simple, it's the emperor's own fault! It's a good Empire, but it has to start a civil war, and there are strong enemies outside. Even without us, it will be destroyed sooner or later!"

Lin Yi commented.

Of course, there was one more thing he didn't say.

That was, if they had not offended him, the Shanlian Empire might have been able to hold on for a few more decades or centuries before it was finished.

After all, the mountain Ghost Army and the Chong Shan camp were not to be trifled with. No one other than Lin Yi could break through their defenses so easily.

With that, Lin Yi urged the Black Spirit Ferghana horse to speed up, ""The city gate is broken, and the imperial capital is in chaos. That death-seeking Emperor might be trying to escape. We have to hurry and stop him!"

"Intercept! Intercept! Intercept!"

The guards unit soldiers shouted in unison, their morale high, in response to their commander.

The black torrent continued to sweep past, and Lin Yi's spirit sense had already locked onto Emperor Sante's position. He took a shortcut and rushed to stop it.

After passing through the seemingly chaotic streets and alleys, Lin Yi led the group to a side door on the other side of the palace.

There was already a group of thousands of people gathered here. Behind them were the messy groups that came out of the palace, carrying many bags.

Sante, who was wearing a black robe with a Golden Dragon background, was panicking as he rode his Black Spirit Ferghana horse in the middle of the group. He didn't expect Lin Yi to break through the city so quickly, and it took him a lot of time to pack up his valuables.

If it wasn't for that, Lin Yi wouldn't have been able to stop him here at all-he'd have to chase him at least a few dozen miles out of the city.

"Blood ghost!"

Sante's face turned pale when he saw the black cavalry suddenly charging out from the distance.

It was only at this moment that he felt a deep sense of regret.

Sante regretted his decision to attack a conferred Kingdom of the Dragon state.

It was just the death of his second son. If he died, so be it. He still had his eldest and youngest sons, and many illegitimate children!

As the Emperor of the Shanlian Empire, he didn't lack sons.

But now, not only did he fail to conquer a conferred Kingdom, but he had also lost two of his sons and lost a large portion of the territory of the Shanlian Empire. It seemed like he was going to be doomed as well ...

"Emperor of the Shanlian Empire, where are you in such a hurry to go?"

Lin Yi rushed forward and pulled the reins to stop the Black Spirit Ferghana horse. His face was cold as he shouted, ""This Marshal has traveled a great distance to bring back the bodies of the two princes and the Grand Tutor to His Majesty. Do you think you should prepare some sort of ceremony to welcome the return of the bodies?"

What?

They had to welcome the corpses?

Sante almost choked on his own breath. "Are you here to deliver or create corpses?" he thought.

In order to send three corpses, you directly created thousands of new corpses outside the city. Is there anyone who does such a thing?

As Lin Yi spoke, the thousands of soldiers from the Shanlian Empire started to move quickly and stood in front of Sante and his family in an orderly formation, ready to attack at any time.

"Broken peak camp? It's a pretty good Army!"

Lin Yi glanced at the flag and smiled disdainfully, "It's a pity that your comrades, the mountain Ghost Army and the Chong Shan Battalion, are now completely finished! Do you think you can be stronger than them?"

To be honest, whether it was the destroyed mountain Ghost Army and the Chong Mountain Camp, or the broken peak camp in front of him, in terms of individual quality, they were all tens or even hundreds of times stronger than Lin Yi's personal guards.

In other words, before Lin Yi's appearance, the Imperial Army of Hongshang Commandery could send out eight hundred of their most elite soldiers to fight against any of these three teams. The other party only needed to send out a ten-man team to kill these eight hundred soldiers.

But after Lin Yi appeared, the situation completely reversed!

Eight hundred Guards unit, they had already taken out two of the three armies without any losses!

Next, it should be time to get rid of the third!

Facing Lin Yi's contempt, the broken peak camp didn't respond. They just stared at the Black Knights in silence.

Sante calmed himself down a little and urged the Black Spirit Ferghana horse to slowly walk out.

No matter what, he was still the Emperor of the Shanlian Empire. Even if he knew he couldn't win, he still had the courage to face Lin Yi!

"You're Sima Zhong da? As expected, heroes come from youngsters! I ..."

"Your Majesty, let's not waste any more time. Do you want to receive these three coffins first?"

With a wave of his hand, Lin Yi interrupted Sante's speech and ordered the people behind to pull the coffins of Yuwen Wuji and the others to the front.

Chapter 7938

Along the way, they were not left behind even when they were charging. It was really hard for the soldiers of the guards unit to be able to take care of these three big burdens in the battle.

Sante's mouth twitched. He did not even bother to look at it.

Those two useless sons deserved to die!

Sante was not very smart when he was alive, so he did not feel much sadness when he died.

Sante was more concerned about his own safety.

As for Yuwen Wuji, it was the same logic. When he was alive, such a super expert was of course extremely important. But after he died ... He was just a corpse!

"Sima Zhongda, we're honest people, so just tell us what you want! As long as I can promise you, I will satisfy your request!"

Sante skipped over the coffin and turned to Lin Yi. "You said you wanted the Shanlian Empire last time, right? No problem, I can give it to you! I'll even give you the entire Mountain Empire! As long as you let me go and promise that you won't find trouble with me in the future, you'll be the new emperor!"

This price could be said to be the highest!

Sante didn't even want the throne or the Empire. He only wanted to keep himself safe.

However, whether it was true or not, no one knew.

That was because Sante was not at his wit's end yet. He still had the most powerful force in the Empire, the broken peak camp, and the remaining Masters of the earth creation stage in the National Guardian Hall. They still had a fighting chance.

Therefore, no matter how one looked at it, Sante seemed to be retreating in order to advance. He wanted to live as long as he could.

"So generous? He directly handed over his trump card?"

Frowning, Lin Yi was starting to suspect Sante's true intentions as well, but he wasn't going to buy it no matter what. "It's a pity that I don't think you have any more trump cards! You've already missed the opportunity to negotiate, and you've lost the right to negotiate!"

"If I want the Shanlian Empire, I can get it easily. Do I need you to give it to me? If you're really sincere, surrender now and I might consider sparing your life. "

Lin Yi felt a little weird-wasn't that supposed to be the villainous line?

When did he become a supervillain?

Thinking about it, after killing so many soldiers of the Shanlian Empire, he was now trying to take control of the entire Shanlian Empire. In the eyes of Sante and the others, he was definitely a big villain!

Sante's expression turned ugly. He suddenly laughed and said, ""Sima Zhong da, don't be ungrateful. We've already agreed to give you the entire Shanlian Empire, what else do you want? Do you really want to kill me?"

"There's a good saying, leave a line in life, and we'll meet in the future! Could it be that you, Sima Zhongda, are certain that you can keep me here today?"

The broken peak camp raised their weapons, aiming at Lin Yi and the guards, ready to attack.

If they didn't agree with each other, they would probably launch an attack!

"There's no point in saying more. Let's fight first and see if I can defeat you!"

Lin Yi raised his blade and got into an attacking stance.

They all said that the villain dies because he talks too much, and Lin Yi didn't think that he could be the villain, so he didn't need to waste any more time and just do it!

"Wait!"

Suddenly, Sante waved his hand to stop them.

That was because he did not have the confidence to fight.

The attacks of the broken peak camp were powerful, but against the Grand mountain Camp, it was impossible to break through the defense of the Grand mountain Camp!

Similarly, it would be difficult to avoid the mental influence of the mountain Ghost Army.

However, the blood spirit could easily annihilate these two teams!

With such a comparison, Sante did not dare to place his hopes on the broken peak camp.

"Sima Zhong da, this Emperor will tell you the truth! If you want to kill me, you will cause great trouble! So I advise you to think carefully and not take the wrong step! Don't make a mistake!"

Sante took a deep breath and explained in a loud voice.

He was afraid that Lin Yi would lose his patience, and so he fired off the words like a machine gun.

If it was someone with poor hearing, they might not even be able to hear what he was saying.

"This Emperor was personally appointed by the martial Alliance. You dare to kill me? Do you believe that the martial Alliance can easily destroy the entire Shanlian Empire?"

This was Sante's trump card, Sante's backer!

The martial Alliance was an existence above the Empire. It was an awesome and dazzling existence!

Martial League? Lin Yi raised an eyebrow.

Was the martial Alliance the more powerful platform above the Empire?

This information was not bad, it would be useful for him to find Wang Xinyan.

He'd never even heard of the martial Alliance before-it seemed that he wasn't high enough to even hear of it.

But thinking about it, before he destroyed the Shanlian Empire, Lin Yi's level was only at the level of Hongshang Commandery.

Even the young masters Guild had only just come into contact with a conferred Kingdom that was one rank lower than an Empire.

Sante wanted to use the name of martial League to intimidate Lin Yi.

That's right, he didn't plan to mention this before, because all he wanted to do was to escape and seek revenge from martial League.

Sante believed that as long as he successfully reached the martial Alliance branch and told them about the trouble he had encountered, the martial Alliance would send people to help him recover his lost territory.

Unfortunately, Lin Yi didn't know what martial League was at all. He wanted to pretend to be shocked, but he couldn't get the emotions in.

"Oh, so what if they're from the martial Alliance? Are you trying to say that I don't dare to kill you because you have a backer?"

Lin Yi shrugged, not really understanding what martial League was all about. "Your Majesty Sante, you underestimate me! If I want to kill you, why would I be afraid of the people behind you? Do you think that when I killed the second Prince, I didn't know that he had the Shanlian Empire behind him?"

With that, Lin Yi waved his hand and urged the Black Spirit Ferghana horse to charge!

"Hahahaha! Sima Zhongda, you're still too young! Do you really think that I want to wag my tail at you? I've underestimated you? You're the one who's underestimating Zhen!"

Seeing Lin Yi charge, Sante didn't show any fear at all. On the contrary, he laughed wildly!

He suddenly raised a small bronze cauldron in his hand. ""I'm the Emperor personally appointed by the martial Alliance. How can I be killed by you so easily? How could he not have a life-saving trump card?"

"This is the imperial capital of the Shanlian Empire, which is also my imperial capital! I am the only master here! Do you think that the magnificent mountain, the capital of the Empire, would not have any means of self-protection?"

Sante laughed wildly. His face was flushed with excitement. He seemed to be in a frenzy.

Chapter 7939

The small bronze cauldron in his hand was emitting a deep and dim light. Layers of invisible waves spread out, and although it didn't directly affect Lin Yi and the others, the surrounding air seemed to become a lot heavier.

This is ... A magic treasure?

Lin Yi frowned.

Before he could say anything, the entire imperial capital began to shake. The palace in front of him rose from the ground as if a Hill had suddenly grown out of the ground.

Even further away, the same thing was happening to the buildings, which were all rising up from the shaking.

In the imperial capital, the commoners who saw this scene were all screaming madly. They did not understand what was going on with this apocalyptic scene!

Why were there so many mountains growing in the imperial capital?

"Hahahaha, see that? This is my imperial capital, this is my trump card!"

Sante had gone completely mad. He raised his arms and laughed at the sky.

The small bronze cauldron in his hand also glowed brighter as he laughed. "This is the mountain-to-Mountain Formation! It's our Shanlian Empire's National Defense formation! Originally, I didn't even want to use it, but Sima Zhongda, you forced me! You deserve to die!"

The violent shaking made the guards unit's Black Spirit Ferghana horses start to panic. The guards unit soldiers could only distract themselves and calm them down, unable to continue charging at Lin Yi's call.

"Mountain-to-Mountain Formation? So there really was such a great formation! This isn't a legend?"

After hearing Sante's explanation, Liu Ziyu's face turned pale and he was filled with shock!

Ziyu, have you heard of this mountain chain formation?"

Lin Yi, on the other hand, didn't have any particular expression on his face, nor was he flustered at all. His eyes were calm as he looked at the rising Palace.

"Cousin Zhong da, I've heard a little about this formation. It's the strange Records of the Shanlian Empire that the third Princess and I talked about before ..." He said.

Suppressing the panic in his heart, Liu Ziyu began to explain quickly, ""The third Princess has only heard the rumors. She was not sure at that time. She only heard that the Shanlian Empire has a powerful nation-protecting formation ..."

The conferred kingdoms of the long bang were one of the few conferred kingdoms under the jurisdiction of the Shanlian Empire, so they more or less knew some inside information. However, when it came to the third Princess, it was really just hearsay and regarded as wild history.

On the other side, Sante's ministers and family members were all pale.

"It's over, it's over, the imperial capital is really over!"

"His Majesty has actually activated the legendary mountain-linking mountain array. I've always thought that it was just a legend. I didn't expect it to actually exist!"

"Legend has it that the mountain-linking mountain array uses the entire imperial capital as its base. All the buildings are the array's patterns. Once the mountain-linking mountain array is activated, all the living beings within it will contribute their flesh and blood to become the energy source of the array ..."

"Damn, isn't this a story used to scare children? How did it become real?"

"Will we also be sacrificed to the mountain array and become the source of blood and flesh?"

.....

Sante's people were getting more and more anxious. They had only heard some legends about the formation, but they did not know the details of the mountain chain formation.

Therefore, when they were suddenly in the middle of the legendary formation and saw the world-destroying scene around them, it would be a lie to say that they were not afraid!

Even if Sante was the Emperor and the officials had to die, they were still afraid of death!

"Shut up! What are you guys talking about?"

Sante waved his hand and turned his head away. He could not help but shout, ""This one is standing right beside you, do you still need to worry about your own safety? I am the master of this Empire, the master of the imperial capital. If you are loyal to me, what danger will you face?"

He was so F * cking angry! A bunch of brainless teammates!

Sante was very unhappy. "I finally have a chance to show off. It's fine if you don't know how to flatter me, but you're trying to undermine me?"

If it wasn't for the fact that I have limited manpower, I really want to kill you all!

Sante turned back to Lin Yi and laughed maniacally. "Hahahaha, my mountain array has been activated. You're all finished!"

"Blood spirit, flesh spirit ... All of them will become nutrients for the great mountain array and become real spirits! Sima Zhongda, while you can still speak, do you want to say your last words?"

"Of course, I'm not interested in fulfilling your last wish. But if you tell me, at least you can provide me with some laughing stock. It can't be considered as dying in vain, right?"

Sante said arrogantly, as if victory was already in his grasp. He looked at Lin Yi and the guards unit like they were a pile of dead bodies.

"Cousin Zhong da, let's charge over and fight it out with him!"

Even though Liu Ziyu did not know much, he could tell that this formation was not simple.

He tried his best to stabilize his body and stared at Sante, who was heavily protected by the broken peak camp, with a determined look in his eyes. He clenched the long knife in his hand.

This was the final moment of life and death. He must not be afraid!

In his opinion, Sante's small bronze cauldron was undoubtedly the most important item.

Although the light was not dazzling, it spread over a large area. The weak light that was hard to be seen by the naked eye covered Sante and everyone in the broken peak camp.

Within the light barrier, everything was as stable as Mount Tai, without the slightest bit of turbulence!

If he could kill Sante and take the small bronze cauldron, the danger would be solved.

"We can 't!"

Lin Yi stopped Liu Ziyu with a wave of his hand.

And then, just as Sante's face was strange and everyone else was confused, Lin Yi's face was calm. He grabbed a crossbow from the side of the Black Spirit Ferghana horse and fired three shots in the direction of the broken peak camp.

The range of a handheld crossbow was very limited, and there was enough buffer distance between the two sides, so the soldiers of the broken peak camp did not take it seriously.

They didn't even blink when they saw the three arrows.

An arrow at the end of its flight would not be able to wear any armor, much less the armor of the broken peak Battalion soldiers.

However, these three arrows didn't even have the chance to touch their armor. They were directly shot down by the spikes that suddenly appeared from the ground between the two sides!

"Hahaha, Sima Zhong da, all your struggles and attacks are futile in my mountain chain formation!"

Seeing this, Sante laughed out loud, pleased with himself. He hooked his finger at Lin Yi, "How is it? I'm very kind and will give you a chance to leave your last words. Do you want to kneel down and tell me? Perhaps I can give you more time to organize your words. "

"Ha ... We'll definitely go over. As for who will kneel down and say his last words, that's hard to say!"

Suddenly, Lin Yi jumped down from his Black Spirit Horse and walked towards Sante with his hands behind his back, "Your Majesty, The Last Emperor of the Shanlian Empire, you can start to organize your words now. Then, kneel down and say your last words!"

Chapter 7940

As they were talking, the voice of the ghostly thing came from Lin Yi's sea of consciousness.

"Lin kid, this mountain array is interesting! With the city as the base of the array, the buildings as the array patterns, and the flesh and blood as the driving force, it was truly peculiar! It was indeed a little evil, but its power was really not weak! How about it, do you want this old man to help you study it?"

Lin Yi was taken aback as well-it'd been a long time since that thing last appeared. "I say, senior ghost, it's rare for you to take the initiative to speak! Furthermore, he even offered to help? Did the sun rise from the West?"

"Ahem, I say, Lin kid, can't I help you? How was it? Why don't you beg this old man and let this old man help?"

"Oh, I'm not begging you. I'll do some research on my own!"

"I say, Lin kid, you can't do this. You know, we share the same fate. I don't want to see you get killed by this formation!"

"I won't die! If you're interested, just say that you want to study it, and why do you have to find so many excuses! You're clearly itching for it, and you want me to beg you. "

Yingluo laughed. "Hahaha, it's enough that you know. Why say it out loud! You won't have any friends like this!"

"You're speaking as if you have friends! If you want to study it, then study it. Don't disturb me when I'm breaking the formation!"

What? You already have a way to break the formation?"

The demonic thing was shocked when it heard this. "You're lying to me, right?"

"Actually, it's not difficult to break this mountain array! The core of the formation was very clear. It was Sante's small bronze cauldron. As long as he could snatch it, he would be able to easily control the entire formation! I think that's where the problem lies, right?"

On the surface, Lin Yi was still smiling at Sante, but in his consciousness, he was explaining to the ghost.

Yes, the formation core was very clear, but the problem was that it wasn't easy to seize it! First of all, we have to break through the defense of this formation and resist the attacks of the formation. Ordinary people don't have that ability!"

"You've been learning formations from me for such a long time. If you can't even see such an obvious problem, don't call me your master!"The ghostly thing sneered.

"Hey, you're really thick-skinned! When did I say I'll recognize you as my master? And what I said was that you could see it, but what I saw was not only that!"

"Oh?" Yingluo asked.

The demonic thing was curious at Lin Yi's confidence,"I know, you want to use your primordial spirit to pass through and snatch it! I'm telling you, don't use your primordial spirit. That's too boring! It wasn't easy to find such an interesting formation, so you can't cheat! So please, I'll help you analyze it!"

He could naturally tell that the mountain array was still a formation that focused on physical attack and defense!

If Lin Yi used his essence spirit to break through, he would be able to ignore the attacks of this kind of formation-he was cheating!

Using his primordial spirit to get close to Sante and snatch the small bronze cauldron was indeed as easy as flipping his hand. There was no difficulty at all!

The meaning of 'ghostly things' was that he hoped to be able to break it from the perspective of a formation. Only then would he be able to experience the joy of it.

It was like playing with a Rubik's Cube. If you wanted to restore it after messing it up, you couldn't just smash the Rubik's Cube with a hammer and then put it back together just because it was not complete!

Using such a violent method, how could it be considered playing with the Rubik's Cube?

"Senior ghost, it's just as you said. I've been learning formations for such a long time, can't I break them with my own understanding? I can't guarantee the other schools of formation, but I dare say that I'm definitely not inferior to you in the sub island's formation! After exploring the nine-story tower, I have a deep understanding of the sub-island's array school. So, watch how I break this mountain chain array!"

After Lin Yi finished talking to the thing in his sea of consciousness, he suddenly raised his right leg and kicked at an empty space.

Yiyi. "Eh? You are ..."

The ghostly thing was a little confused at first, but then it was a little surprised and shocked!

It was only a guess before, but after seeing Lin Yi's kick, he was enlightened!

As expected, this brat's learning ability was really strong!

If it weren't for the fact that this damned thing had a lot of experience with Sky Class island's formations, it would be hard to say that he'd be learning faster than Lin Yi!

Because right now, in front of a whole new school of formations, Lin Yi's comprehension ability had clearly surpassed his own damn ability!

Lin Yi and the thing were conversing in the sea of consciousness, so they didn't really need to talk. The communication through the consciousness was as fast as lightning, so to the outside world, Sante only saw Lin Yi get off the horse, walk a few steps, and then casually kick him.

Lin Yi's foot, on the other hand, didn't actually touch the small protruding space. It was as if something in the air was blocking his foot, making a deep sound.

Sante was puzzled.

Suddenly, the entire imperial capital trembled.

In fact, the entire imperial capital was already shaking and changing shape. However, the shaking this time was different from all the other shaking.

After the tremor, the entire world seemed to have stopped for a moment, which was extremely strange.

In the air, Lin Yi dodged to another direction and sent out another kick.

The air still reverberated with the same muffled boom, and the imperial capital that had just come to a standstill trembled again.

Sante's face started to turn ugly. He felt as if the small bronze cauldron in his hand was on fire. It started to burn and he could barely hold it.

Although he could activate the mountain-linking Mountain Formation and control its attack and defense, Sante did not understand the principle of the mountain-linking Mountain Formation.

So he was very confused-what was Lin Yi doing? why did a few random stomps seem to affect the mountain Formation?

Then, the little bronze cauldron in his hand started to burn?

Not bad! Young Lin, your array skills have indeed grown a lot. This old master is very pleased!"

Of course, the thing couldn't tell Lin Yi that it only understood what was going on after he broke the formation. It didn't mention it again and started praising Lin Yi in his sea of consciousness,"Although the formation core is in the hands of that idiot Emperor, this formation isn't tight enough and left behind some rather unclear formation veins. Thus, you were able to find the formation's nodes from these veins! This time, I've passed the test!"

"Oh, alright. It can be considered that senior ghost has taught me well!"

Lin Yi didn't know if the thing saw it or not, but it was just a casual reply.

As he spoke, Lin Yi quickly destroyed a few more nodes, and the commotion in the imperial capital stopped completely. It started to recover slowly.
