

Bodyguard 7951

Chapter 7951

"Then let's go! I've already told the regional King that he can use the capital's aerial spirit beast to fly directly to the imperial capital!"

Wu yucao's preparation work was more detailed and she had considered all aspects. "Junwang, second Wangye, and wangfei have all received the invitation, but they are not going with us. We'll go first!"

Wu yucao felt that it was more appropriate for them to protect Sima zhengxin and the others to go to the capital, but Lin Yi's message told them to fly to the capital as soon as possible.

She wanted to see Lin Yi as soon as possible, and she didn't want to wait another second. She told si MA and the others to meet up when they reached the capital.

A few of Lin Yi's trusted aides quickly agreed and flew towards the imperial capital.

Along the way, their flying spirit beasts encountered many checkpoints in the air. Wu yucao followed Lin Yi's instructions and took out the token of the Vice Commander-in-Chief of Hongshang Commandery, but they were immediately let through.

Furthermore, the Empire's soldiers who intercepted them were very respectful to them and did not dare to show any neglect.

It was clear how high Lin Yi's status was in the new Hong Shang Empire!

Even if he passed the position to Liu Ziyu, Lin Yi's influence could still reach every corner of the Empire.

The last interception was at a place extremely close to the imperial capital.

This time, the one who stopped the flying spirit beast was the general of the new Hong Shang Empire. From the armor he wore, it could be seen that he must be of high status.

However, when he saw the Deputy commander token of Wu yucao's Hongshang Commandery, he immediately saluted everyone on the flying spirit beast!

"Welcome, everyone. Please forgive me for my offense! I really didn't know that you were the honored guests of the retired emperor! I'm really sorry! This general will lead the way for everyone. Retired emperor should be very happy to see everyone's arrival!"

Wu yucao was instantly shocked.

If the general was so respectful to Lin Yi, she could understand it, but it was too much to lower his attitude to people from Hongshang Commandery!

One could only say that Lin Yi's position in the new empire was far beyond everyone's expectations!

In fact, Wu yucao had overlooked one point-what was Lin Yi's identity before this?

Lin Yi used to be the commander of the guards in Hongshang Commandery, and Wu yucao was the Deputy commander, so she was Lin Yi's assistant!

So, even though Wu yucao's token was still the Deputy commander's token of a Commander-in-Chief, once she reached the capital, she might become the commander of the blood ghost!

Blood Phantom was now the Hong Shang Empire's divine Guardian Army. What did the general of the city guard do to disrespect Wu yucao?

"Why do you think the great commander is unwilling to take the throne? How many people in the world would fight to the death for that chair, and how many conspiracies and schemes would emerge? However, the great commander abandoned it like a pair of worn shoes and directly passed the position to general Liu. What is the reason for this?"

Wu yucao really didn't understand. The capital was right in front of her, and she was about to see Lin Yi, but she still didn't know the answer to this question.

The others were silent. They couldn't understand this either.

If they put themselves in his shoes, they would definitely choose to be the Emperor.

As for the retired emperor, it only sounded nice, what use was it?

Fei daqiang squinted his eyes and smiled imperceptibly. Every one of the people on the flying spirit beast was the big brother's confidant, but he was the only one who knew what the Big Brother was thinking.

For a time, Fei daqiang's heart had a lot more sense of superiority, and he felt that he was about to set foot on the peak of his life!

He wouldn't tell Wu yucao and the others that the reason why Boss Lin Yi gave up the throne wasn't complicated at all-it was just that he didn't like it!

It's just a small sub-Island, what's the use? Are thighs that rare?

The Big Brother was a figure who stood at the peak of the universe. His journey would only be the sea of stars. The small empires here were not even qualified to be tools!

Fei daqiang glanced around with a slight sense of superiority in his eyes. He coughed and said,"Alright, everyone, stop guessing. We're reaching the imperial capital soon. Be careful not to embarrass the commander!"

"How could this be? We've never embarrassed the Marshal, okay?"

Jin Yuan Bao did not agree with Fei daqiang's words."If the commander takes us on this expedition, the guards unit probably won't be able to do anything! The few of us can handle it!"

"You can keep bragging! There's no need to pay taxes for bragging anyway, so we'll just take it as you're telling the truth!"

Zhang Yiming laughed and joked with Jin Yuan Bao, and then they arrived at the imperial capital!

Flying spirit beasts were forbidden in the sky above the imperial capital, so the group landed at the city gate. But before they could enter the city, they saw Lin Yi on his Black Spirit Ferghana horse, running up to them.

It wasn't a long time apart, but Lin Yi still gave everyone a simple and warm hug!

The people didn't need the soldiers to maintain discipline-they all opened up a path for Lin Yi and saluted him with their eyes, showing their respect!

"Zhong da, should I call you general ... Or should I call you the Grand Emperor of the Hong Shang Empire?"

With a smile, Wu yucao rode over to Lin Yi's side, a light breeze blowing her hair up. With the handsome outfit she was wearing, she looked quite heroic.

However, her eyes were curved as she teased Lin Yi. The way she teased him made her look more like a miss-next-door.

"Big sister Wu, I'm so happy to see you! Can you stop teasing me? You just called me Zhong da, so you can continue to call me Zhong da!"

Lin Yi was a little fascinated by the view of a woman riding a horse.

Before this, Lin Yi treated Wu yucao as if he owed her sister Wu Yuhua, and changed it to taking care of her instead. He didn't respond to her emotional hints.

However, Lin Yi realized that he felt so warm and happy to see Wu yucao again after such a long journey.

What kind of feeling was this?

Hongyan? Confidant? Family?

Lin Yi didn't know.

His feelings for Wu yucao were very complicated, and there were too many things mixed in.

It was Wu yucao's consciousness and soul, but it was Wu Yuhua's body. Lin Yi couldn't help but feel that it was an illusion.

The thought of Wu Yuhua reminded Lin Yi of the abandoned land.

He didn't know what happened to the abandoned land. Had it been successfully sealed? did the darkness magical beasts charge towards the sky Class Island?

Lin Yi's mind was in a mess, but he was still looking at Wu yucao in a daze.

Wu yucao was a little embarrassed by his gaze. The Iron Lady who had been galloping on her horse earlier coughed shyly at this moment. "We haven't seen each other for such a long time and you're already staring at sister like this. Are you trying to see if sister has become fat or thin?"

Chapter 7952

"Haha, what do you mean by" just a while? Big sister Wu, don't you know that one day apart is like three years? I haven't seen you for a long time!"

Lin Yi didn't reply, but Ling Hanxue giggled and ran over to tease Wu yucao.

Wu yucao was already a little shy, and now her face was even redder. She couldn't help but steal a few glances at Lin Yi as she scolded Ling Hanxue for talking nonsense.

After teasing Wu yucao, Ling Hanxue turned around to face Lin Yi. She jumped off the horse and cupped her fists, ""This general pays his respects to younger brother Grand Imperial sire Sima!"

After Ling Hanxue's joke, Lin Yi's thoughts returned to reality. He smiled bitterly in his heart, but he maintained a smile on his face and explained, "Big sister Wu, big sister Xue, don't be so distant. I'm still the Zhong da of the past, nothing has changed! What retired emperor, that was just a title that Liu Ziyu forced on! I will still be one of you!"

When Wu yucao and Ling Hanxue heard this, they could not help but feel their hearts ache.

In the past? In the past, they were a team of four, but now ... They could no longer return to the past!

Not to mention Lin Yi's identity, even Chen Zhisheng wouldn't be coming back.

Although Ling Hanxue was annoyed at Chen Zhisheng's pursuit at times, after thinking about it, Chen Zhisheng was not a bad person, other than being a little petty.

Moreover, in the ruins of the great witch of ghost Yin, Chen Zhisheng had risked his life to save everyone. This was something that Ling Hanxue was very impressed with!

If Ling Hanxue's mind was not on the matters between men and women, Chen Zhisheng could be said to be a good companion.

No matter what, Wu yucao and Ling Hanxue would definitely be very happy that Lin Yi said that and didn't treat them as outsiders!

Throwing away the sadness in her heart, Ling Hanxue casually waved her hand. ""Then I'll just call you young master Zhong da. Don't be angry, because even if I were angry, I wouldn't dare to call you that! After all, your status is different now. If I still call you little brother Zhong da, you can see if these people will come and beat me to death!"

Ling Hanxue was talking about the citizens of the Imperial City on both sides of the road.

They had no intention of hating Lin Yi at all.

This wasn't like any other Conqueror-they'd face all sorts of resistance when establishing a new dynasty, both in the open and in the dark. Lin Yi, however, was different.

He was the hero who saved the entire imperial capital, and anyone who lived in the capital would be grateful to him.

The respect and admiration in his eyes that came from the bottom of his heart was not fake!

If it wasn't for Lin Yi killing Sante and stopping the mountain to mountain Formation, the imperial capital would've been leveled!

And the people of the imperial capital would become the sacrifice of the mountain chain formation.

This was something even scarier than an earthquake. It was impossible for an earthquake to kill everyone, but this formation was using the blood and flesh of these people as a blood sacrifice. It was completely different in nature.

It didn't matter if Sante was forced to activate the mountain chain formation. In the eyes of the people of the Imperial City, this was all caused by Sante himself.

Can't you just be the Emperor of the Shanlian Empire? He even allowed his own Prince to cause trouble in his conferred Kingdom!

The Prince did not understand what he was trying to do and ended up dead. Sante was not happy and went to attack his subordinate conferred Kingdom.

Great, now Sante's own conferred Kingdom had fallen instead of being conquered!

Following this kind of Emperor who often sought death, the people of the Imperial City did not have the slightest sense of security.

"Ahem, you guys don't understand. It doesn't matter what I'm called. Boss will always be boss. I'll carry out any order from boss unconditionally!"

Fei daqiang, who was a veteran leg hair, took the opportunity to show his presence after the two beauties spoke. ""Boss, did you call us here in such a hurry for a mission?"

"Boss, if there's any work, just tell me. As long as it's boss's order, I, Fei daqiang, will never frown!"

Lin Yi couldn't help but smile-the standard Fernandes-style flattery sounded quite friendly!

Lin Yi didn't even blink as he went along with the flow, "Alright, da Qiang, then show everyone how to climb a mountain of daggers, dive into a pot of oil, and walk through a sea of fire! It was also good to broaden everyone's horizons! If you perform well, I'll arrange for you to perform at Liu Ziyu's Ascension ceremony. "

"Ah?"

After Fei daqiang heard this, he was suddenly dumbfounded. His mouth was wide open and his eyes were wide open. For a moment, he didn't know how to respond.

Thigh, are you joking? How could you make things difficult for your loyal leg hair, Fernandes?

"Hahaha, Fei daqiang, you can't handle it? You didn't expect this day to come when you were boasting just now, did you?"

Jin Yuan Bao and Zhang Yiming, the two chubby boys, were the most familiar with Fei da Qiang. At this time, they naturally stepped on him without mercy, "Boss has an order. Quickly execute it!"

"Tsk, you country bumpkins who have never seen the world. Today, uncle Fei will let you open your eyes!"

Fei daqiang's eyes turned and he had a plan.

He looked at the two in disdain before smiling at Lin Yi, "Boss, it's not that we can't climb mountains of knives and go through boiling oil. We just don't have the conditions. Today, I'm going to go through a sea of fire first!"

"En, then please start your performance!"

Lin Yi held back his laughter, knowing that Fei daqiang was using his ability to scare people, but he didn't expose him and put on a serious face.

After all, the people of the capital were all watching. As Lin Yi's general, Fei daqiang would make the people support Liu Ziyu even more if he had the ability.

After receiving the order, Fei daqiang immediately became excited. He raised his head and puffed out his chest as he glanced at Zhang Yiming, Jin Yuan Bao, and the others. He said very arrogantly, "Look carefully, don't blink!"

Before he finished speaking, a flame appeared out of thin air and landed on the empty path ahead!

Then, Fei daqiang jumped off his horse and landed in the sea of fire. He learned from Lin Yi's acting tough boss, putting his hands behind his back and sticking out his chest, walking back and forth in the fire as if he was taking a stroll.

However, Fei daqiang also sighed in his heart. His acting skills were still not good enough. His performance was a little pretentious, but his boss did it in one go!

"Really? Old Phil is actually that awesome?"

Jin Yuan Bao's eyes widened, 'conjuring flames out of thin air? With this ability, you can go to my gold shop to perform alchemy!"

"That's right, you can also help my family's ores refine!"

Zhang xiaopang clapped his hands in agreement. ""How much fire can we save this time!"

F * ck you two little fatties!

Fernandes was furious. What the hell? Your grandpa's ability is actually for you to refine gold and ores?

Chapter 7953

Do you have any vision!

However, Fei daqiang couldn't be bothered with them and continued his performance. Anyway, there were so many people in the imperial capital who knew what was good and were amazed. Fei daqiang felt a great sense of accomplishment!

"Look, this general is completely fine!"

"He can still Walk in the Fire. That's amazing! His clothes aren't even burned!"

"You've all seen the surface. Think about it, if this general can conjure flames out of thin air on the battlefield, he can burn the entire camp and the enemy to death!"

Listening to these praises, Fei daqiang was very proud. This was his own ability, so of course it couldn't hurt him, but in the eyes of others, it looked very powerful!

And so, the commoners "respect for Lin Yi grew even more!

He had thought that the blood ghost was his strongest trump card, but he did not expect that the other party had not used such a capable person!

In other words, they didn't even use their full strength to destroy the Shanlian Empire, and they destroyed it as if it was a joke!

Otherwise, they would have directly sent Fei daqiang over and burned the mountain and even the imperial capital of the Empire!

But he didn't do that. Why? Because of mercy!

They could have easily taken down Shanlian Imperial City, but they had to take the risk of going to Sante's Palace!

In comparison, Sante's character was too bad. He actually had to sacrifice the lives of all the people in the imperial capital to open the mountain chain formation!

Fortunately, Lin Yi was brave enough to stop Sante's evil actions in time, and the innocent people were saved.

"Marshal Sima is a good person. He's too kind!"

"That's right. His subordinates are all capable people. They could easily burn down the Shanlian Empire, but he didn't do so!"

"The Emperor appointed by such a person who cares about the people must be a good Emperor. We will all be loyal to Emperor Liu in the future!"

At first, Fei daqiang was very pleased with himself, thinking that he did a good job in acting cool, but the praises the people were giving him changed to Lin Yi!

He quickly turned around and saw that the crowd was looking at Lin Yi with respect.

What was going on?

Fei daqiang was dumbfounded. It was true that his thigh was very powerful, but was it easy for your Grandpa Fei to act tough? How could the effect be off-track?

Lin Yi couldn't help but smile. Fernández's presence always made him happy. It seemed that bringing this guy here was the right decision!

"Let's go! I still have important things to do!"

Lin Yi waved his hand and told Fei daqiang to get on the horse. He then sped up.

The passers-by consciously moved to the side, not affecting Lin Yi's speed at all.

Very quickly, Lin Yi brought Wu yucao and the others to a luxurious mansion that occupied a large area.

This mansion was located in the Imperial City. Although it could not be said to be in the center, it was not remote either.

This was because the Imperial Palace was located in the center of the city, and this residence was not far from the Imperial Palace.

It was surrounded by mountains and rivers, and there were two large stone lions at the entrance!

According to the rules of the empires on the sub-islands, Lions could only be placed at the entrance of the government offices!

And the owner of this house had actually placed it in front of his own house. Thinking about it, the person who could have hundreds of acres of land to build a house in this position must have a prominent identity!

It was said that this used to be the mansion of a Royal Prince of the Shanlian Empire. When the Shanlian Empire was destroyed, the former members of the royal family naturally did not have a good ending.

Lin Yi didn't go out of his way to target the royal family, but the fallen officials wouldn't let the original members off the hook!

The process didn't matter-the end result was that this mansion, which was said to be second only to the palace in terms of luxury, became Lin Yi's mansion.

Liu Ziyu wanted Lin Yi to continue living in the palace, but Lin Yi felt that it was more convenient outside the palace, so he moved into this mansion.

However, from Liu Ziyu's point of view, this residence was still inferior to the Imperial Palace. How could it highlight the identity of the retired emperor's cousin?

One had to know that Lin Yi was already a war god in the Hong Shang Empire-he should be living in a better place than Liu Ziyu.

However, she couldn't just build Lin Yi a house that was even more luxurious than the palace, could she? Firstly, time didn't allow for it, and secondly, there wasn't much space nearby.

If it was built outside the city, it would be a loss of the original intention of being noble.

"Waa! This place is so beautiful. Even the palace of Hongshang Commandery can't compare to this place!"

Looking at the waterside pavilion, Ling Hanxue was dazzled. She had never seen such a luxurious residence before."Young master Zhong da, if you live in this kind of place, do you also need to ride a horse from the bedroom to the door? Otherwise, it'll take a long time to walk, right?"

"It's alright. It's actually very fast to walk. "

Lin Yi shook his head. None of them were weak, and if they ran at full speed, it wouldn't take long for them to go around the entire Imperial City, let alone a mansion.

However, this place was indeed much bigger than the palace in the small Hongshang Commandery. It was several times more luxurious and exquisite.

After all, this was once one of the most luxurious mansions in the imperial capital of Shanlian, second only to the palace. It was far from comparable to the small and remote places like Hongshang Commandery.

However, Lin Yi didn't have any concept of these things. He was used to wandering around, and no matter how good a mansion was, it was just a place to rest.

It was just like how Chu Mengyao lived in a villa back in the secular world, and it was the same when she went to college in Donghai city.

But Lin Yi didn't think it was much better than the one he had at the Sky Class Island.

Wu yucao and the others were very relaxed when there weren't any outsiders around-they'd been through life and death with Lin Yi after all, and there was no need to be so formal.

As they talked and laughed, Lin Yi brought everyone to a special training field. The eight hundred Guards unit had received the order long ago and were waiting here.

Other than the guards unit, there was also a nine-story glazed Pagoda that was shining with a bright light!

Wu yucao and the others only thought that this mansion already had facilities. Only Fei daqiang looked at the nine-story glazed Pagoda with a surprised expression!

Fei daqiang touched his head and looked at Lin Yi again. How did his leg get this thing out?

Did he think that this place was lacking a Pagoda, so he took out the remains of the sea serpent King as a decoration?

This posturing was simply too awesome!

Who would have such luxurious decorations in their house? even the palace didn't have them!

All of a sudden, it highlighted the difference in the retired emperor's nobility!

A thigh was a thigh, and he could imperceptibly show off and make people admire him.

But ...

Fei daqiang was obviously wrong!

"Big sister Wu, I've urgently called you here this time because I want you and the guards unit to enter this nine story lapis lazuli Pagoda to cultivate for a period of time,"

Lin Yi stood in front of the nine-story Pagoda and pointed forward, "Don't look at this Pagoda as if it's just a piece of furniture. It's actually a divine tool for cultivation and can greatly increase your strength! Now that the Hong Shang Empire has established a new dynasty, there will definitely be people who are not convinced and will come to find trouble. Although everyone's strength is not bad, it is not enough to deal with all the threats. "

Chapter 7954

"For example, in the Shanlian Empire, there were super experts in the sea splitting stage. Experts of this level can not be defeated by numbers! That's why I need all of you to grow up as quickly as possible, so that you can better protect the new empire!"

Protecting the Empire was one thing, but Lin Yi was more concerned about their ability to protect themselves. They wouldn't be killed instantly if they met a master.

It was impossible for him to stay in the Hong Shang Empire forever. These people would become the backbone of the Hong Shang Empire in the future. Without enough strength, the Hong Shang Empire would definitely be divided up!

Especially the Masters from the National Hall, they either died or ran away. Lin Yi had to build a new national Hall!

Lin Yi's plan was to make Wu yucao The Guardian of the new hall of holding, establishing her status. At the very least, she had to be on the same level as Liu Ziyu.

Only then could Lin Yi leave in peace.

As for the 800 Guards unit, although there were rumors of blood Spirit's invincibility, Lin Yi knew his own limits.

The blood spirit was strong because of Lin Yi!

In every battle, Lin Yi used his consciousness to interfere with his opponent in exchange for blood Phantom's invincibility.

However, if Lin Yi left, what would blood ghost rely on?

Indeed, they had killing intent, drive, and courage.

It wasn't an overstatement to say that after Lin Yi left, if they encountered the mountain Ghost Army again, even ten mountain ghost soldiers would be enough to wipe out eight hundred blood spirits.

The gap between the spiritual awareness was not something that could be made up for or crossed.

This time, Lin Yi was going to send them into the nine story Pagoda as well, helping them increase their spirit.

Even if they didn't gain as much as talu, just the spiritual awareness of the Golden core and nascent soul stages was enough for them to look down on all the empires nearby.

Lin Yi wasn't sure about martial Union, which was above the empires, but at least among the surrounding empires, the Hongshang Empire was the strongest one.

At that time, Wu yucao's blood spirit would be enough to guarantee the status of Lin Yi's people.

Lin Yi believed in Liu Ziyu, but what about his successor?

When Wu yucao and the others came out of the nine-story glazed Pagoda, they were all at least at the xuansheng stage. Some of them had even reached the mountain opening stage!

The lifespan of such powerful beings was thousands of years.

Liu Ziyu was not suited to walk the path of cultivation, so his lifespan was only about a thousand years, the same as that of an ordinary golden core cultivator.

A thousand years later, if the successor showed any disrespect to Wu yucao, Wu yucao could also take the person and leave.

At that time, Liu Ziyu would no longer be around, and their friendship would be over.

"Fei daqiang!"

"Here! Boss, do you have any orders?"

Fei daqiang's body tensed up and he was secretly excited. He felt that it was time for him to act tough again!

"This time, you and big sister Wu will be leading the team to enter the nine-story glazed Pagoda to cultivate. You are mainly responsible for looking after everyone. If anything happens, I'll come out and settle the score with you!"

Lin Yi didn't have the time to bring his team in, so he asked Fei daqiang for help!

With Fei daqiang's strength and the fact that he had already walked through the nine-story glazed Pagoda once, he was basically familiar with the way.

Plus, the nine-story Pagoda was under Lin Yi's control now, and there wasn't anything particularly dangerous inside. Fei daqiang was more like a tour guide than looking after everyone and protecting their safety.

For example, what was where, what could be eaten, what could be used to increase strength, and so on.

"Don't worry, boss. I'll definitely complete the mission!"

This made Fei daqiang very happy. It was indeed time to show off!

Little ones, it's time to see how Fernandes will lead you to show off and fly!

"Big sister Wu, please take care of them. Command them well. If anyone dares to disobey, you can teach them a lesson directly. You don't have to give me face!"

Lin Yi turned to Wu yucao and smiled faintly, "The guards unit is now known as the blood spirit and can be considered as a proud Army. However, you're my vice commander in chief. No matter how proud these brats are, they won't dare to make a scene in front of big sister Wu!"

Song shaopeng quickly smiled and said, ""That's for sure! Don't worry, Marshal. We're the blood spirits to the outside, but to the inside, we'll always be Marshal's personal guard! When the great commander is not here, the Vice commander is the same. If any brat dares to disrespect the Vice commander, this general will be the first to cut him down!"

Wu yucao's heart was filled with sweetness-it didn't matter if she was vice commander or not, but she was happy to be Lin Yi's representative and lead his personal guard.

Fei daqiang laughed and didn't care.

In Fei daqiang's opinion, it didn't matter whether Wu yucao led the personal guards unit or not. This was the woman of his big brother, and his big brother would definitely want to establish her prestige. It didn't affect his acting.

This time, it was specially arranged by the Big Brother for the cultivation. He sent him out to be the Big Brother for these kids who had never seen the world!

Of course, if the big legs were sent out, he would at most be considered a small leg, but his small leg was still thicker than the big legs of these kids!

Little ones, just wait to hug Sir Fernandes 'little thigh!

"Zhongda ... Don't worry. I'll complete everyone's cultivation as soon as possible and then come out to help you ..."

Wu yucao lowered her head slightly and said in a low voice.

The few guys around them turned their heads to look at the sky in tacit understanding, pretending to study all kinds of things that they were interested in, such as the clouds in the sky, the birds in the sky, the architectural style of the martial arts practice field, and so on.

However, their ears were very honestly perked up, clearly eavesdropping on Wu yucao's words.

Wu yucao was thin-skinned and her face was slightly red, so she couldn't continue!

"Yes, with big sister Wu leading the team, I'll definitely be at ease. It's getting late, you guys can go in now!"

Lin Yi didn't know what to say, so he opened the entrance and signaled for them to line up."Fei daqiang, take good care of them. Don't cause any trouble!"

"Boss, don't you worry! I, Fei daqiang, have always been very reliable! With me taking action, there's nothing to worry about!"

Fei daqiang was shamelessly boasting. Lin Yi already felt that it wasn't very reliable!

"Vice Commander-in-Chief Wu, let's go! Brothers, follow me, I'll take you to the sky!"

After bidding Lin Yi farewell, Fei daqiang happily took the lead and stood at the entrance to greet everyone.

The feeling of being someone else's little thigh was great!

Upgrading senior leg hair to a small thigh was a big step forward!

However, when he came out later, he still had to continue to hug her thigh tightly and not relax. Otherwise, how would he have the opportunity to be a little thigh in the future?

The guards unit took the lead and walked into the nine-story glazed Pagoda in a neat formation.

Chapter 7955

Then Jin Yuan Bao, Zhang Yiming, and the others.

Ling Hanxue smiled meaningfully at Wu yucao, who had deliberately fallen behind. She secretly made a hand gesture of encouragement to her, then bounced up and down to catch up with the team.

"Zhong da, then ... Then I'll go too!"

Wu yucao hated herself for being so disappointing. She had so many things she wanted to say, but she couldn't say a single word.

She wanted to spend more time with Lin Yi after not seeing him for so long, but she didn't dare tell him her thoughts.

If it was possible, she didn't want to lead the guards unit, nor did she want to become stronger. As long as she could be by Lin Yi's side, everything would be fine!

"En, big sister Wu, you can go in this time and cultivate properly. The environment in the nine-story glazed Pagoda is very different from the sub-Island."

Lin Yi muttered to himself, thinking that he could explain things to Wu yucao more clearly. "Other than Fei daqiang, others may need some time to adapt, but big sister Wu's body may skip this process ... The nine-story glazed Pagoda should bring you an unimaginable improvement!"

Wu yucao didn't quite understand what Lin Yi meant, but she nodded as if she understood. She walked into the nine-story Pagoda with a heart full of reluctance.

Lin Yi said, reminiscing as he watched the entrance close.

Big sister Wu didn't just refer to Wu yucao, but also Wu Yuhua!

The two of them had merged into one, but in the sub-island's environment, Wu Yuhua's body had not been able to display her potential.

The increase in Wu yucao's talent was just a by-product of the fusion of the two. Wu Yuhua wasn't a body-refining martial artist in the past and had never been able to display her true strength in the sub-Island environment.

However, after entering the nine-story glazed Pagoda, without the sub-island's restriction on true energy, Wu Yuhua's body should have awakened!

Ling Hanxue, Zhang Yiming, and the others did not have true Qi or divine sense, so it would definitely take some time for them to adapt to the nine-story glazed Pagoda.

Wu yucao, on the other hand, was different. Lin Yi felt that her Qi would recover after she entered the nine-story Pagoda.

In that way, he would be more adept at the cultivation of his spiritual awareness.

Although Wu yucao's true energy would still be unable to be used due to the sub-island's restrictions after they all came out, the improvement in her divine sense would definitely not disappear!

At that time, Wu yucao would be completely transformed. She would be more than enough to take charge of the National Hall!

This group of people would become the main pillars of the new Hong Shang Empire in the future, and they would be the strongest existences among all the empires on the sub-Island!

In front of them, the mountain Ghost Army was really just a child!

Even if Lin Yi left, they could at least protect this new empire for a thousand years, helping Liu Ziyu protect his country for a thousand years.

At least he didn't call Lin Yi his cousin in vain.

As for what would happen a thousand years later, who would care?

At the same time, another group of people arrived at the city gate. They alighted from the flying spirit beasts and changed into the special transportation carriage used by the city gate.

This group of people was the long bang's Prince, Hu Yue's Prince, the third Princess, and the others who had rushed over from the long bang's conferred King's capital.

"Father, do you think Ziyu won't want me anymore?"

In the carriage, the third Princess of the Dragon Kingdom, whose face was still covered by a veil, appeared a little worried. "Once Ziyu becomes the Emperor of the Hong Shang Empire, he'll have 72

concubines in his three palaces and six courtyards. He'll be able to choose any beauty in the world. I ... I'm definitely not the only one he likes!"

"Haha, silly child, how could His Majesty not want you? Not only were you engaged before, but it's also rare for you to be in love with each other. How can those flirtatious cheap goods be compared?"

The Prince of the long bang laughed happily, not thinking that his daughter would lose favor.

At the same time, he was also secretly glad that he did not agree to the mountain wall's marriage proposal that day!

At that time, Shan bi wasn't the Crown Prince yet. Even if he became the Crown Prince, he might not be the Emperor!

Even if she became the Emperor, the third Princess would definitely not be the Empress!

Because the mountain wall already had a Princess and many cefei. If the third Princess married over, she would at most be a cefei. How could it be compared to now?

Now, she had reached the heavens in a single bound and directly became the Empress!

"But ... Father, Ziyu hasn't sent anyone to pick me up yet. Doesn't that explain the problem?"

The third Princess did not feel relieved by the Prince's words.

A woman in love was prone to worry about personal gains and losses. In addition, Liu Ziyu's identity had undergone a tremendous change, so she really could not feel at ease.

In their relationship, the third Princess had the absolute initiative.

Although Liu Ziyu was said to be the Prince Consort, he was actually a live-in son-in-law who married into the family.

But now?

He was the Emperor of the Hong Shang Empire, who would dare to marry him into their family?

Are you tired of living?

"Silly child, if we ride our aerial spirit beasts here, we might miss the people His Majesty sent. Moreover, the new dynasty has just been established, and the retired emperor no longer has any business after passing the throne to Your Majesty. The entire Empire's Affairs, big and small, are complicated, and your Majesty might not be able to take care of them. "

The Prince of the long bang tried to absolve Liu Ziyu, but he did not forget to teach his daughter, ""In the future, you will be the motherly figure of the world, the person who will enter the harem and become the Empress. You can't think about these matters of the heart all day long. You must know how to share His Majesty's worries!"

"Also, before and after people, you can't call His Majesty by his name. You must be respectful! Even if you really become the Empress, you still have to take note of this!"

In the royal family, rules were very important. Although the third Princess seemed to be more intimate with Ziyu, it would be a crime if she angered the Emperor one day!

"Yes, I understand ..."

The third Princess felt a little wronged. She clearly wanted to be comforted. How did it become a lesson?

After entering the imperial capital, she should be able to see Liu Ziyu very soon. What would the final outcome be?

The group of people arrived in front of the palace gate with apprehension in their hearts.

Liu Ziyu hadn't held his Ascension ceremony yet, but Lin Yi's decree had already been announced. Liu Ziyu was the new emperor, and there was nothing wrong with him staying in the palace.

The Prince politely requested the guard to report to him. When the guard heard that he was from a conferred Kingdom, he did not dare to neglect him.

Everyone in the world knew that the new emperor had only destroyed the Shanlian Empire because of the Dragon state.

Now that the Prince of the long bang had arrived in person, accompanied by the third Princess, they were all heavyweight guests!

As for Prince Hu Yue who came with him ... Let him know while he's at it!

As expected, when Liu Ziyu heard that the Prince of the long bang and the third Princess had arrived, he immediately issued a decree to the Imperial study to summon them. This was not an honor that anyone could have!

When Prince long bang heard that they were going to the Imperial study, his heart calmed down a little. On the way, he whispered to the third Princess, "It seems that His Majesty still values us a lot. Otherwise, he would not have chosen to meet us in the Royal study."

Chapter 7956

"When you see his Majesty, be smart. With the relationship between the two of you, I think there won't be any problems ..."

As they walked, the Prince of long bang wanted to say a few more words, but he could not think of what to say.

He was only a Prince, so he didn't know much about the rules in the Imperial Palace.

Looking up at the young eunuch leading the way, Prince Long Bang simply shut his mouth and followed silently.

In the Imperial study, Liu Ziyu had already stopped what he was doing and was pacing back and forth excitedly, waiting for the third princess's arrival.

It had been a while since they last met, and Liu Ziyu did miss her.

"Your Majesty, the Prince of the Long Bang, along with the third Princess of the Long Bang conferred Kingdom, and the Prince of the Hu Yue conferred Kingdom, requests an audience."

A eunuch at the door bowed and announced the news. Liu Ziyu immediately sat back at his Imperial desk, straightened his posture, put on a dignified expression, and said in a low voice, "Spread!"

The eunuch bowed and accepted the order. He immediately turned around and invited the Prince of Long Bang and the other two inside.

"A conferred Kingdom of the vassal Dragon state ..."

"Your subject is a conferred Kingdom of Hu Yue ..."

As soon as the two princes entered, they immediately bowed.

On the other hand, the third Princess was a little stunned as she looked at Liu Ziyu, who was sitting behind the Imperial table. That majestic Emperor's appearance was really unfamiliar to her.

He seemed to be very different from the person she liked in her impression ...

The third princess's heart palpitated. This sudden unfamiliarity made her lose all her confidence!

"The two princes may dispense with the formalities!"

Liu Ziyu walked through the process in a serious manner, but his eyes could not help but fall on the third Princess. His eyes were filled with undisguisable gentleness and affection.

The third Princess, who had been panicking because of the unfamiliarity, suddenly calmed down after seeing this affectionate and gentle gaze.

Liu Ziyu was still the same Liu Ziyu. Even if the other party was already an Emperor, he still loved her deeply!

After understanding this, the third Princess immediately revealed a bright smile.

What unfamiliarity, what change in status, all of that could go to hell!

Ziyu was still her Ziyu and had never changed!

"Grant me a seat!"

After Liu Ziyu exchanged glances with the third Princess, a faint sense of satisfaction emerged in his heart. However, he still continued to go through the formalities with the two princes.

After the three of them sat down, Liu Ziyu temporarily retracted his gaze and smiled. ""The two princes have come at the right time. Did the messenger I sent out meet the two princes?"

"Did His Majesty send an envoy? We should have missed it!"

The Prince of long bang was stunned for a moment before he rushed to answer Liu Ziyu with a smile on his face.

Lin Yi had sent out a wave of messengers to gather the Kings of the various conferred kingdoms and other empires, and the Kings of long bang and huyue had seen them before.

It was precisely because of this that Prince Hu Yue had personally gone to a conferred Kingdom of the Dragon state and said that he wanted to surrender.

However, they had not encountered the messengers that Liu Ziyu had sent out!

The Prince of the long bang looked at his daughter with a smug look, indicating that he had guessed correctly. His Majesty had indeed sent people to look for them, but they had not found them!

Unfortunately, the third princess's eyes were filled with Liu Ziyu. Her bright and beautiful eyes were as gentle as water, but she only looked at Liu Ziyu. He couldn't see it at all!

"It doesn't matter. It's a good thing that the two princes have arrived a few days earlier than I had expected!"

Liu Ziyu waved his hand casually and continued with a kind smile, ""I'm looking for the two princes because I have something to say. Let's talk about Prince huyue first. "

"This Minister is here! Your Majesty, please give your orders!"

Prince Hu Yue didn't dare to disobey. He quickly stood up and bowed, listening to Liu Ziyu's instructions.

"Prince Hu Yue, please sit. There is no need to be nervous!"

After a few days of adapting, Liu Ziyu was already somewhat used to his identity as the Emperor. His every move had a bearing, and Prince Hu Yue was quite convinced of this.

After thanking him, he sat down again, but his body was ready to stand up at any time.

After all, Liu Ziyu was the new emperor, and Prince Hu Yue didn't know the new emperor's temper very well, so he had to maintain enough respect to avoid getting into trouble!

"The HU Yue conferred Kingdom is currently being attacked by the fire Empire. This Emperor has already learned of this matter and has sent an envoy to negotiate!"

When Liu Ziyu was talking about serious matters, his expression was serious, and he did not steal a glance at the third Princess. His serious look had a unique charm, which made the third Princess admire him even more.

"Many thanks, Your Majesty!"

Prince Hu Yue once again expressed his thanks. For Liu Ziyu to immediately pay attention to the war situation of Hu Yue conferred Kingdom right after he ascended the throne, he could already be considered to have placed great importance on it, and he had to express his gratitude.

"This is my duty, Prince Hu Yue doesn't need to thank me! During this one's inauguration ceremony, the fire Empire should send an emissary over. Before we completely fall out with each other, their attacks on the HU Yue conferred Kingdom should be temporarily halted, so there is no need for Hu Yue Prince to worry too much about the safety of your Kingdom!"

When he heard that Liu Ziyu had given him a calming pill, Prince Hu Yue's expression instantly relaxed a lot, and he repeatedly thanked him.

"In addition, we've already sent reinforcements to the fire Empire's borders to deter them from taking action and ensure greater safety,"

Liu Ziyu said.

"Your subject thanks Your Majesty!"

What else could Prince Hu Yue say? He could only continue to express his gratitude!

After Liu Ziyu finished explaining the huyue conferred Kingdom in a domineering manner, he turned to face the Prince of long bang.

After all, this was his future father-in-law. Liu Ziyu's body subconsciously straightened a little. He sat upright and still, his expression solemn.

"Cough ..."

After clearing his throat, Liu Ziyu's hands unconsciously clenched a little, looking a little nervous.

Although he was now the Emperor of the Hong Shang Empire, Prince long bang was his elder. He definitely could not treat him the way he treated Prince Hu Yue.

In truth, what Liu Ziyu did not know was that while he was nervous, Prince long bang was even more nervous!

The Prince of long bang did not know what the new emperor would say to him, and did not dare to ask. He was even more worried about Liu Ziyu's attitude toward him.

"Prince of long bang, I've called you here for a private matter. I've had an engagement with the third Princess before this, and I plan to immediately get married after this coronation and make the third Princess the Empress. What does the Prince think?"

After a moment of silence, Liu Ziyu slowly spoke.

In fact, in Liu Ziyu's opinion, regardless of his current status, if he wanted to take advantage of a cabbage that others had raised for ten to twenty years and did not want to snatch it by force, he had to ask for the other party's opinion.

However, Liu Ziyu's attitude immediately made Prince Long Bang overjoyed!

He almost blurted out, "I think it's best to get married immediately, lest a long night brings trouble!"

It was a good thing he still remembered his own identity. He knew that it was a little embarrassing to say this, so he quickly bit his tongue to control himself from laughing out loud!

Chapter 7957

"I think it's good that Your Majesty is thinking about Zhou Xiang!"

The Prince of the Long Bang calmed down and accepted the marriage seriously.

At the same time, he was laughing wildly in his heart. I've finally become the father-in-law of the country!

My daughter is the new queen of Hong Shang Empire, so I can do whatever I want in Hong Shang Empire!

Hahahahaha!

The third Princess was also overjoyed. She lowered her head shyly and suddenly felt that her previous worries were too ridiculous!

Ziyu really loved her. How could she give up on her so easily?

It was really good!

The person he liked also liked him. There was no better happiness in the world than this, right?

The third Princess felt her body become light and warm, and her heart was filled with sweetness.

When she heard that Liu Ziyu had begun to discuss the wedding with Prince Long Bang, she wondered in a daze if she should pretend to be shy and run out.

But he really wanted to hear it ... Then he'd better play dumb!

"Congratulations, Your Majesty, Your Majesty, and your Majesty!"

Prince Hu Yue was very good at handling matters. After a round of congratulations, he laughed and said, "I'm so lucky to be able to witness the marriage between Your Majesty and the Empress. Please give me a chance to be a master of ceremonies at the wedding ceremony!"

The job of a master of ceremonies was not considered honorable. It was usually done by the Civil officials of the Ministry of Rites.

At this time, Prince Hu Yue took the initiative to volunteer, naturally to stroke Liu Ziyu's beard.

"Then I'll have to trouble Prince huyue!"

Liu Ziyu had no reason not to agree, so he went with the flow and agreed. Then, the Prince of the long bang also expressed his gratitude. The atmosphere in the Imperial study was extremely harmonious.

"Your Majesty, the fire Empire has always been coveting our country's land. Even if they have sent an envoy this time, I'm afraid that they have some ulterior motives. This subject believes that we must be on guard!"

Prince Hu Yue took the opportunity to bring up the fire Empire after the wedding.

The Prince of long bang chimed in. The fire Empire had always been a thorn in his heart, and it would be best if he could resolve it.

It was rare for Prince huyue to take the initiative to bring it up, so it saved Prince long bang the trouble of finding another topic.

"It's fine. With the retired emperor and the blood spirit around, the fire Empire won't be able to do much. "

Liu Ziyu did not care about the fire Empire. How could the fire Empire have done anything to the Shanlian Empire in the past? What about the current Shanlian Empire?

"That's right, that's right, Your Majesty. With the blood spirit around, what's a mere fire Empire worth mentioning? It's fine if they know what's good for them, but if they don't, the blood Phantom will be able to wipe out the fire Empire!"

The Prince of the long bang smiled flatteringly and flattered him with all his might. ""With Your Majesty's reputation, I don't think the fire Empire will dare to make any moves. It's unlikely that the blood ghost will have the chance to make a move!"

"If the fire Empire continues to attack the huyue conferred Kingdom, it might not be a bad thing. His Majesty has just ascended the throne, and it is not suitable for him to use weapons. However, if the fire Empire insists on giving us an excuse, it would be best to destroy them! Your Majesty, this is the achievement of expanding our territory. This subject first congratulates Your Majesty on your victory!"

Prince Hu Yue immediately disdained in his heart!

He felt that the Prince of the long bang had gone a little too far with his flattery. No matter what, he was going to be the father-in-law of the country, was there a need to go this far?

After he was done with his disdain, Prince Hu Yue stood up and followed after him. He bowed and said loudly, "This subject congratulates Your Majesty! Our Hong Shang Empire will rise to power under the wise leadership of Your Majesty and unify the sub-Island!"

The Prince of long bang couldn't help but glance at Prince huyue. This damn old thing, actually trying to steal his flattery? This was simply preposterous!

Was there a need for a Prince of a conferred Kingdom to go to such an extent?

Prince long bang quickly sent out another wave of flattering words, vowing to suppress Prince Hu Yue's arrogance!

Prince Hu Yue naturally didn't back down. He didn't have a beautiful daughter who was about to become the Empress, so he definitely had to put in more effort to please the Emperor. There was nothing wrong with this, right? It was so logical!

So in his opinion, there was no point in snatching the Prince of the long bang. He must be sick. When the time came, couldn't he just ask his daughter to say a few good words?

For a moment, Liu Ziyu was a little dumbfounded. He was still not quite used to the scene of being continuously flattered by the two princes. In the end, he couldn't help but ask them to leave first!

He had wanted to spend some time alone with the third Princess, but the eunuch told him that it was against the rules to meet in private before the wedding, so he had to let the beauty leave with him.

As expected, Liu Ziyu was still too naive!

If it was Lin Yi, he'd ask what the rules were. In this Empire, were there any rules that were greater than the Emperor's?

The Emperor was the rule!

Liu Ziyu had obviously not realized this.

Two more days passed, and the day of the Ascension ceremony arrived.

The princes of the various conferred kingdoms in the Hong Shang Empire had all gathered. Not a single one was absent. It could be said that they had all acknowledged the new Empire's rule over them.

The other two empires had also sent their messengers, perhaps with the intention of prying into the situation. But that wasn't important, and Lin Yi and Liu Ziyu didn't care.

The coronation ceremony began before sunrise, and the entire set of solemn procedures went on step by step. Just the part of offering sacrifices to the heaven and earth took four hours.

Liu Ziyu, who was dressed in a Grand uniform, was drenched in sweat. He felt even more tired than when he was fighting with the guards.

It wasn't until three or four o'clock in the afternoon that all the procedures were finally completed. Liu Ziyu couldn't help but sigh. His cousin was really far-sighted!

As the founding Emperor, his cousin's Ascension ceremony was basically a matter of a few words.

I've established the Hongshang Empire! I'm the Emperor!

Then, he said, "I'm passing the position to you ..."

The entire process was not even one-thirtieth as long as the meaningless funeral oration at the beginning of the ceremony!

"Long live the great emperor!"

As Liu Ziyu thought about this, he solemnly sat on the Dragon Throne. All the civil and military officials in the hall saluted him in unison, shouting 'long live!'!

"All ministers, rise!"

Liu Ziyu calmly flicked his sleeves. Although he was quite tired, the bearing of an Emperor had already begun to take shape.

Lin Yi sat on a godly beast chair behind Liu Ziyu, bored, and watched the officials count heads.

Today was Liu Ziyu's Ascension ceremony, and Lin Yi had to be there for him!

Of course, he did not participate in the entire process. He only showed his face at the key points.

Liu Ziyu was insistent on Lin Yi sitting with him in the main seat, but Lin Yi didn't agree at all!

What kind of joke was this, sitting there and being stared at?

Lin Yi wasn't an ornamental animal-he'd always kept a low profile and didn't show off if he could. Only Fernandes would like to do something like that.

In the end, Liu Ziyu could only take a step back and put a chair with a beast carving behind the big seat for Lin Yi.

Chapter 7958

"Your Majesty, the fire Empire's special envoy requests an audience!"

An official in charge of diplomacy stepped forward and reported, ""They said that they must be summoned by Your Majesty today."

"Impudent! Whether or not His Majesty summoned them, and when he would summon them, was it their place to dictate? Even the Emperor of the fire Empire wouldn't receive such treatment!"

Instantly, the Prince of the long bang jumped out and berated!

Firstly, he was now the future Emperor's father-in-law, so he naturally had to protect Liu Ziyu's authority. Secondly ... This matter concerned the fire Empire, so he was somewhat guilty.

The Civil official in charge of Foreign Affairs blinked innocently. He was just passing on a message. Why did it seem like he had committed a great sin?

Liu Ziyu had originally wanted to announce the news of his wedding in public, but he was slightly displeased that he had been interrupted.

He glanced at Lin Yi, who was still looking bored. Seeing that his cousin didn't say anything, Liu Ziyu waved his hand. "Announce!"

"The emissaries from the fire Empire of Xuanji are here to see you!"

"The emissaries from the fire Empire of Xuanji are here to see you!"

"The emissaries from the fire Empire of Xuanji are here to see you!"

The emissaries of other countries were waiting a little far away, and the shouts were transmitted from the layers.

After a long while, the fire Empire's emissary strode up to the palace Hall with a dignified expression.

"Fire Empire's envoy, Tuoba tuo, pays his respects to the Emperor of the Hong Shang Empire!"

The messenger named Tuoba tuo only bowed slightly and greeted Liu Ziyu with a very ordinary etiquette.

Not to mention kneeling, it was completely the attitude of ordinary people greeting each other when they met.

However, Liu Ziyu did not think much of it, but those ministers could not take it anymore!

Immediately, someone jumped out and scolded, ""How dare you, Tuoba tuan! You should pay your respects when you see his Majesty! Could it be that the fire Empire's emissaries are all vulgar and unrefined?"

"Hehe, our fire Empire is naturally a state of etiquette. However, etiquette should only be shown to people with etiquette. What etiquette does your Hong Shang Empire have to speak of?"

Tuoba tuo stood up and said with a disdainful smile, ""Let's not talk about what kind of means you used to steal the territory of the Shanlian Empire. Just the fact that you let an untrustworthy person occupy a high position shows how ridiculous your Empire is!"

Hearing the words "untrustworthy," Prince long bang's entire body trembled. Although he was standing, he still felt as if he was sitting on pins and needles!

It was obvious that Tuoba Chou was talking about him!

"Impudent!"

The Prince of the long bang was not the only one in a high position. There were also a large number of ministers of fallen countries who had surrendered and were still in important positions. They automatically began to take their own positions, feeling that Tuoba tuo was scolding them for being treacherous. How could they tolerate it?

These people all rushed out to berate Tuoba tuo, instantly causing the hall to be filled with a foul atmosphere and extremely noisy!

"Silence!"

The Golden Palace guard in charge of maintaining order shouted and cracked the clean whip again. The clear and loud sound covered all the curses and attracted everyone's attention.

After all the noise had died down, Liu Ziyu looked at Tuoba tuo indifferently and said slowly, ""You are representing the fire Empire, so watch your attitude! If you want to start a war, I'm not afraid of you at all!"

Liu Ziyu said the last six words in one breath. Although his voice was not loud, it was deafening.

Even the old officials of the Empire could not help but feel their blood boil!

In the past, the Shanlian Empire and the fire Empire had been at war with each other, but it was difficult to suppress the other. Thus, they had never shown much of a strong side in diplomacy.

Most of the time, they would send emissaries to each other, and then push things around with some useless arguments. When had they ever seen Liu Ziyu's unyielding attitude?

The bored Lin Yi revealed a satisfied smile. This was how an Emperor should be!

When it was time to be domineering, he would definitely not be afraid!

Lin Yi would be disappointed if Liu Ziyu became the Emperor and had to swallow his anger when someone stepped on his door.

Even if such an Emperor had the stronger blood ghost in his hands, he would not be able to do much!

It was a good thing that Liu Ziyu's performance didn't disappoint Lin Yi. At the very least, this was a good start for him to become a qualified Emperor!

"Your Majesty, you're so bold, but it's a pity that you can't scare me!"

Tuoba tuo laughed and looked around indifferently. "The fire Empire wasn't afraid of the Shanlian Empire in the past, and now they're not afraid of your Hong Shang Empire either!"

In his opinion, the Shanlian Empire was destroyed in a very strange way. It was destroyed without using more than half of its military forces. There must be something fishy about this.

Now that the Hong Shang Empire was newly established, there would definitely be a period of turbulent transition. The fire Empire wanted to take this opportunity to take a piece of the pie. They would take it as a share of the pie when the Shanlian Empire was destroyed!

"So you're going to fight? Are you here to declare war on the fire Empire?"

In the hall, a high-ranking general from the Imperial Ministry of War looked at Tuoba tuo with ill intentions, as if he was looking at a delicious prey.

To the high-ranking military officers of the Ministry of War, there was no merit without war!

They had surrendered to the new dynasty and had not made any contributions. They were also worried that they would be purged after the situation stabilized, so they were eager for a big war to give them a chance to make contributions.

Tuoba tuo's arrogant attitude made the generals of the Ministry of War extremely happy!

Each of them was already thinking about how to fight, and at the same time, they were vigilantly watching each other, afraid that this opportunity would be snatched away by the other.

"Whether or not we declare war will depend on the sincerity of His Majesty the Emperor!"

Tuoba tuo was not afraid at all. He raised his head and looked at Liu Ziyu fearlessly. "Your Majesty, during the era of the Shanlian Empire, someone promised to give the huyue conferred Kingdom to our fire Empire. For this, our fire Empire used a large amount of resources and military strength. Now that the Shanlian Empire has fallen, the huyue conferred Kingdom still exists. Is the agreement still valid?"

Gah!

This time, the Prince of the long bang was not sitting on pins and needles, but was directly roasted on the fire!

At this moment, he was drenched in sweat, but he didn't dare to open his mouth to explain. The more he said about this kind of thing, the more mistakes he would make!

Tuoba tuo did not mention the Prince of the long bang, nor did he mention that the long bang conferred Kingdom was originally going to merge with the fire Empire. His purpose was to bite off a big piece of fat meat, not to really start a war with the Hong Shang Empire.

The HU Yue conferred Kingdom was that piece of fat meat!

Of course, this was also a test to see where the bottom line of the new Hong Shang Empire was!

If they could really take down the HU Yue conferred Kingdom, that would mean that the Hong Shang Empire was strong on the outside but weak on the inside, and would not dare to make a move against the fire Empire!

At that time, the new probing could continue!

Whether it was a conferred Kingdom of the Dragon state or another conferred Kingdom, it would not be a problem for them to slowly nibble away at the other conferred kingdoms or directly launch an all-out war.

"Nonsense! You already know that the Shanlian Empire has fallen, so why are you still bringing up the past? If you want to fight, then fight, why are you talking so much nonsense?"

The people from the Ministry of War could not wait to go to war. No matter what, they would definitely go to war. This had helped the Prince of the long bang out of his predicament.

Chapter 7959

In fact, which one of the people in the hall wasn't smart?

Even without concrete evidence, one could roughly guess the story between the fire Empire, huyue conferred Kingdom, and the long bang conferred Kingdom.

But so what?

Just as what was said just now, even the Empire had fallen. With a new dynasty and a new atmosphere, who had the time to dig up old debts?

They, the ministers of a fallen nation, were even more afraid of old scores being brought up!

Moreover, the Prince of the long bang was about to become the father-in-law of the kingdom, and it was no secret that the third Princess of a conferred Kingdom of the long bang was about to be conferred the title of Empress. Who would have nothing better to do than to make trouble for the Prince of the long bang?

Therefore, even if the Prince of the long bang was guilty, it would not be a big deal if he made things clear!

"The war between the two empires involves hundreds of millions of citizens. In truth, our fire Empire does not have any intention of declaring war."

Tuoba tuo slowed down his tone and suddenly changed the topic."Prince long bang, I heard that your family's third Princess is about to marry His Majesty the Emperor. He's going to be the nation's father-in-law!"

"Like Prince huyue, he's obviously not as lucky as you, Prince Longbang. Although he also has a daughter, he didn't have the chance to get close to the Emperor, so even though he was sold, he still had to count the money!"

"Shut up!"

Liu Ziyu shouted angrily again.

No matter what, the Prince of the long bang was still the Father of the third Princess. At this time, Liu Ziyu had to defend him."Tuoba tuo, where do you think this place is? Is this my main hall a place where you can act so presumptuously? If you dare to speak nonsense again, don't blame me for ignoring the rules and killing the envoy!"

Killing envoy!

This could be said to be the most serious diplomatic incident.

As the saying goes, when two countries engage in war, they will not kill the envoys. Once the envoys are killed, it means that the two countries have completely fallen out and entered a situation where they will not rest until one of them is dead!

Lin Yi smiled and closed his eyes to rest.

Let alone the killing emissaries, if Tuoba tuo continued to be so arrogant, it would not be a big deal for him to directly destroy the fire Empire.

Tuoba Tong was silent for a moment. He was also shocked by Liu Ziyu's tough stance.

However, this was all within his expectations. It was also within the scope of his probing.

The reason the fire Empire had sent him here was to take down the entire Hu Yue conferred Kingdom. However, if that was not possible, he could only settle for the second-best option, which was to protect the HU Yue conferred Kingdom that he had already conquered.

"Hahaha, His Majesty the Emperor is indeed domineering! As expected of an Emperor who is about to conquer the country!"

Tuoba tuo laughed to ease the tense atmosphere and then changed the topic. "I heard that His Majesty the Emperor has an invincible army, nicknamed the blood spirit! Even though they only have 800 men, they killed hundreds of thousands of enemies and even wiped out the two strongest armies of the Shanlian Empire, the mountain Ghost Army and the Chong Mountain Camp!"

"I've been looking forward to seeing the blood spirit for a long time. I wonder if your Majesty can broaden my horizons and let me see how powerful the blood spirit is?"

Liu Ziyu subconsciously looked at Lin Yi.

Blood ghost was Lin Yi's personal guard, not under his jurisdiction. He hadn't seen blood ghost in the past few days, either. According to his cousin, did he go into isolated training?

Lin Yi opened his eyes and glared at Tuoba tuo with a cold smile, "Do you think you can see the blood ghost just because you want to? You're still not qualified!"

"If you want to see the blood ghost, I'll take you to the fire Empire's capital. I'll let your Emperor witness for himself how powerful the blood ghost is!"

Tuoba tuo only felt a chill rise from the bottom of his heart and instantly freeze his body.

He wanted to laugh and retort, saying that Lin Yi was being delusional, but he didn't know why he felt that Lin Yi wasn't bluffing, he was just stating a fact!

Domineering!

Everyone in Hong Shang Empire, including Liu Ziyu, could not help but exclaim in admiration.

In terms of domineering aura, the retired emperor was indeed more fierce!

"Who are you?"

Tuoba tuo barely suppressed the fear in his heart and asked the obvious to change the topic.

Who else could sit behind Liu Ziyu, other than the founding Emperor of the Hong Shang Empire, the legendary general Sima Zhongda, who had passed his throne to him on the first day of his reign?

Liu Ziyu laughed loudly at the question and introduced Lin Yi with a proud tone, "Tuoba tuo, you really have eyes but can't recognize Mount Tai. This is the founding Emperor of our Hong Shang Empire, my elder cousin, and the Grand Marshal of the Empire, Sima Gong! Quickly come and pay your respects!"

"Lord" was a title, and Liu Ziyu couldn't find a better word to use, so he just gave Lin Yi that.

"So it's retired emperor Sima Gong! I've long heard that you're the blood Spirit's commander, and that I'm the hero of the three armies. It's a pleasure to meet you!"

Tuoba tuo tried his best to recover his state of mind and state of mind as he spoke these boring words. "Just now, Sima Gong said that I am not qualified to see the power of the blood spirit. This is something that I can not accept."

"If you're not convinced, then hold it in, don't say it out loud!"

Lin Yi retorted immediately, not giving Tuoba any face at all. "If you keep talking nonsense, you will really die!"

Tuoba tuzhen held it in and his face turned red.

He boasted of his courage, but he couldn't help but feel scared when he was with Lin Yi.

"Tuoba tuo, the blood spirit is a sharp blade that can cut one's throat. Once it's unsheathed, blood will be seen. It's not a guard of honor for you to admire. If you don't want to die, you should quickly give up on this thought!"

The generals in the palace saw that Tuoba Tong was about to admit defeat and couldn't help but provoke him. In addition to benefits, war also had the function of resolving conflicts. So if there were no conflicts, they had to find ways to create conflicts!

As expected, Tuoba tuo seemed to have been provoked. He immediately puffed out his chest and said loudly, ""Your Majesty, Lord Sima, I've brought fifty soldiers from the Wind and Fire Army with me!"

As soon as the words "Wind and Fire Army" came out, a wave of low exclamations immediately rang out in the hall.

Clearly, many people knew what these three words meant.

Tuoba tu had a proud look on his face as he raised his head and saw no reaction from Lin Yi and Liu Ziyu. He explained, "Perhaps Your Majesty and Lord Sima have never heard of the Wind and Fire Army? In our fire Empire, there are three powerful armies, similar to the three powerful armies of the Yuanshan Lian Empire. If both sides were to fight, the chances of victory and defeat are 50 - 50. "

"The Wind and Fire Army is a super Army that surpasses the three great armies! It was a team that could crush any of the three great teams! The total number of people is about the same as the blood spirits, basically maintained between eight hundred to one thousand!"

"The 50 people who came this time are the best in the Wind and Fire Army. It shouldn't be an insult to the blood spirit if they spar with the same number of blood Spirit Warriors, right?"

"Ha ... I'm sorry, I've never heard of the Wind and Fire Army!"

Lin Yi was speaking the truth-he'd never heard of it before!

However, the surprised smile on Lin Yi's face made people feel that he was mocking them on purpose. His words were even more infuriating, "A nobody like him is not worthy of the blood Spirit's battle."

Chapter 7960

Lin Yi was telling the truth, but Tuoba tuo was furious!

The Name of the Wind and Fire Army was well-known in the territory of the illusion martial Alliance (the suzerain Alliance of the Hongshang Empire and the fire Empire), and someone actually said that he had never heard of it?

Who would believe that?

He was clearly belittling her on purpose!

"Your Majesty, are you afraid of losing to the Wind and Fire Army, so you don't dare to fight? It seems like the blood spirit is just an undeserved reputation, and it's just an exaggerated so-called strong Army!"

Tuoba tuo was furious, but he still didn't dare to get angry at Lin Yi. He turned his attention to Liu Ziyu.

At least Liu Ziyu didn't seem as scary as Lin Yi.

However, before Liu Ziyu could speak, a general in the palace Hall strode up to Tuoba Chou and said with a cold face, ""The Wind and Fire Army has a great reputation, but it's a pity that they're still not qualified to fight the blood spirit! If you have the guts, then come and meet this General's broken peak camp!"

The broken peak camp was one of the three strongest armies of the Shanlian Empire!

However, Tuoba tuo had placed the Wind and Fire Army above the three great armies. Of course, he couldn't tolerate this.

The general admitted that the broken peak Battalion could not defeat the blood spirit, but what Wind and Fire Army? they had not even fought yet, so who was afraid of who?

The attack power of the broken peak camp was extremely strong, and they did not believe that they could not kill the wind Fire Army!

Tuoba tuo snorted and turned his face away, showing his disdain for the broken peak camp.

The commander of the broken peak Battalion was so angry that he almost wanted to kill him on the spot.

Lin Yi waved his hand and smiled faintly, "This commander has never mentioned the Wind and Fire Army, so I don't think it's a powerful team! Tuoba tuo, how about this, there's no need to fight fifty against fifty. You can just randomly pick someone from this Hall to deal with your fifty Wind and Fire Army soldiers. "

"Sima Gong, who are you looking down on?"

This time, it was Tuoba TOU's turn to almost burst out in anger!

What kind of people were in this Great Hall? There were indeed experts, but there were still half of the Civil officials!

Although civil servants also trained their bodies, they were basically the kind that strengthened their bodies. Their purpose was only to extend their lives, not to fight.

So, find a civil official to fight with the Wind and Fire Army?

Not to mention one against 50 Wind and Fire Army soldiers, even 50 civil officials against one Wind and Fire Army soldier would be killed in seconds!

"Well ... I'm looking down on you!"

Lin Yi thought about it seriously before answering the question.

Tuoba tuo also controlled his anger very seriously, in case he exploded with anger before killing the other person.

"Hehehe, you're really straightforward, Duke Sima. I know of your bravery, so I'll choose you as the opponent of the fifty Wind and Fire troops!"

Tuoba tuo laughed out loud, feeling that he was really a clever little ghost to have come up with such a brilliant move!

He didn't believe that Lin Yi could take on fifty Wind and Fire Army soldiers alone. It would be a light punishment if he taught them a lesson.

If there was a chance, Tuoba TUI wouldn't mind letting the Wind and Fire Army kill Lin Yi!

After all, he was the legendary commander of the blood Phantom, the founding Emperor of the Hong Shang Empire, and an absolute famous general!

Even if he had to sacrifice the lives of Tuoba tuo and fifty Wind Fire Army soldiers, it would be worth it to kill Sima Zhongda!

"Sima Gong, you were the one who said that you could choose anyone you wanted, don't tell me you're going back on your word now that it's your turn? I'm looking forward to seeing the invincible Sima Gong display his might and display an exciting battle against the wind and Fire Army!"

Tuoba tuo continued to provoke Lin Yi with his words, trying to seal the battle and find a chance to kill Lin Yi!

"Ha ... It's not that I can't do it, but if you want to see an exciting battle, it's wrong to pick me. I can kill a nobody in a second. What can you see?"

Lin Yi smiled noncommittally.

From Lin Yi's point of view, dying without even seeing anything had nothing to do with excitement. "No matter what, you're our guests from afar. I can't not give you face. How about this, I'll pick someone to compete with."

"You!"

Lin Yi didn't look for too long-he looked around and pointed at the eunuch beside Liu Ziyu, the one who'd been appointed as the head of the palace. "You're the Minister of the Imperial Household after all. Your status is high enough. You shouldn't be too disgraceful to the Wind and Fire Army, right?"

"Ah? Retired emperor, this lowly person can't do it!"

The little eunuch was shocked. He didn't expect that he would suddenly be the one to become the melon ...

"Your Majesty, this lowly one is only a golden core stage practitioner. My strength is weak, and I'm afraid that I'll embarrass the retired emperor and your Majesty. Why don't you ask the retired emperor to retract his order?"

The young eunuch panicked and quickly looked for Liu Ziyu for help.

He only hoped that he wouldn't have to risk his life against the wind and Fire Army. Well, that wasn't even considered risking his life. It would be more appropriate to say that he was giving up his life.

"The retired emperor asked you to go, so you went! Don't tell me that retired emperor would harm you?"

Liu Ziyu glared at the young eunuch in displeasure. This disgraceful fellow, if it wasn't for the candidate that Zhong DA's cousin had previously appointed, the head of the inner palace would have been replaced long ago.

The young eunuch looked at Liu Ziyu bitterly, then looked at Lin Yi again, thinking about the saying "if the Emperor wants the subject to die, the subject must die."

Then he thought, he didn't seem to be a Minister at all, just a servant of the Emperor, so if he wanted to die, he had no choice but to die!

Since he was going to die anyway, he might as well be more intense!

The young eunuch encouraged himself and tried his best to hold his head high and puff out his chest. In reality, he still had a somewhat timid appearance and trembled as he walked towards Tuoba tuo.

At this time, the little eunuch really hated this mop-head to death. Why did he have to compete?

And why did he have to pick the retired emperor of all people?

Didn't he see the commander of the broken peak Battalion looking like he was seeking death? Isn't it good that you chose him?

"Hahahaha, Your Majesty, just how much do you all look down on our fire Empire's Wind and Fire Army? You actually sent such a useless eunuch. Did he offend you, so you deliberately sent him to his death?"

Tuoba tuo was so angry that he laughed. He swore in his heart that he would kill this little eunuch in an extremely cruel way and make him die without an intact corpse!

... Wait, no matter how the eunuchs died, they would die without an intact corpse, right?

Wait, why was he thinking about this?

Tuoba tuo felt that he was a little angry. He tried hard to sort out his emotions and said loudly, ""Since that's the case, then I'll do you a favor and get rid of this little eunuch!"

"Everyone knows how to talk big. When the time comes, we'll know who's going to solve who!"

Lin Yi waved his hand lazily and ordered, "Have the fifty soldiers from the fire Empire enter the palace. Let's have the competition outside the main hall."

"Right, tell the others to prepare more clean water and mops. When the 50 soldiers die later, wash them quickly. There will be a lot of blood."

The young eunuch scowled miserably, thinking to himself, if I was the only one who died, would there not be so much blood? Would it be clean after a casual wash? And then there was no trace of it?
