

Bodyguard 8021

Chapter 8021

"We're teachers from the Alliance Academy, I'm GUI sun! This is teacher Wang Ba and teacher Gao Zi, and this is teacher Luo caidie. "

GUI Shan was the only male among the three from the Alliance Academy. Naturally, he was in charge of communicating with the language of the living things. "That's teacher Luo's friend. He's not a member of our naduo illusion martial League, but he's very hot-blooded and came to help when he encountered this situation."

To Lin Yi's surprise, GUI sun didn't say anything bad about him at all, and even complimented him.

As expected, the teachers of the Alliance Academy were of decent quality and kept their work and private life separate.

"So that's how it is. That's really rare!"

The artifact language was a little surprised. It turned to Lin Yi and smiled warmly, "May I know the name of this young hero and where you come from? I'm the Deputy Hall Master of the naduo illusion martial League branch. I'd like to thank you for your help. "

"I don't dare! I'm the Grand Marshal of the Hong Shang Empire, Sima Yi. I should be under the jurisdiction of the naduo illusion martial Alliance, so I'm not an outsider!"

Lin Yi smiled and said the name of the Empire.

"Hong Shang Empire?"

The words made the artifact language's face change as it looked at Lin Yi. "You're the Sima Yi who destroyed the Shanlian Empire? The Sima Yi who immediately abdicated after the establishment of the Hong Shang Empire?"

"That's right! Vice Hall Master Hua has heard of me? What an honor!"

Lin Yi smiled calmly, thinking that it probably wasn't anything good.

However, it didn't matter. The strength of the language of the living things was at most at the consummate level of the sea-splitting realm. It wasn't like he couldn't defeat it. There was no need to hide it.

If they really fell out, it was hard to say who was afraid of who!

"So you're Sima Yi. It's true that meeting you in person is better than hearing about you! You're a young hero!"

Monster language's face looked a lot calmer now-it sounded like a compliment, but it definitely wasn't Lin Yi."The matter of the Shanlian Empire is not over yet. I will settle the score with you after this matter is over."

"For now, let's join hands to fight the enemy and deal with the darkness magical beasts! If you can make some contributions in this battle, I'll reduce some of your crimes. "

"No problem!"

Lin Yi smiled faintly and cupped his fists."Vice Hall Master Hua, there's something I'd like to ask! I've heard that if an Empire under the martial Alliance wants to establish its own empire, it must be recognized by the martial Alliance, and if it wants to be recognized by the martial Alliance, it must make some contributions. Is that right?"

"You're right, but your heart is really big! He hadn't even eliminated his crime of usurping the throne, and he already wanted to obtain merit points! Are you planning to make martial Union acknowledge your Hong Shang Empire?"

A playful smile appeared on the artifact language's face, and a hint of mockery flashed in his eyes.""It's good for young people to have ambition and goals, but don't be too ambitious! It's not that easy to gain enough merits to establish a country!"

"Vice Hall Master Hua is right! However, I just want to ask, if my performance is outstanding in this battle against the darkness demon beasts, do I have the right to ask the martial Alliance to acknowledge the Hongshang Empire?"

With a faint smile, Lin Yi didn't lose his patience at all. He maintained his manners. "Or perhaps, the merits we've earned this time aren't enough for martial League to recognize us, so we need more?"

He was not afraid of the artifact language's conditions, but he was afraid that if he did not mention this, there would be no negotiation.

So Lin Yi wanted to use this chance to get this done as soon as possible.

"Hehehe, so young hero Sima wants to make a name for himself, that's why he's here to participate in this battle against the darkness demon beasts?"

Hua Yu glared at Lin Yi coldly, the mockery on her face becoming even more obvious.

"Fine, since you've said so, I'll give you a chance! As long as you perform outstandingly in this battle, there's nothing to discuss about the establishment of the Hong Shang Empire. "

"Of course, your performance is not up to you, nor is it up to me. There are so many people here, and everyone's eyes are clear. Everything will be judged by the public. You don't have to worry that I will not admit to it after this."

"As long as you can prove your worth and let me see that you are indeed stronger than the cultivators that the Shanlian Empire had contributed, I will naturally acknowledge your Hong Shang Empire! If you can't even do this, then what qualifications do you have to discuss this matter with me?"

"You have to know that darkness magical beasts are not darkness spirit beasts. This mission to annihilate them is not as easy as you think!"

With that, the artifact language looked at Lin Yi coldly.

However, Lin Yi didn't show any signs of fear or worry on his face after listening to the story quietly. This surprised the beast language a little. The newborn calf was not afraid of the Tiger!

This kind of warrior who had come from a small place probably didn't know how terrifying the darkness demon beast was.

It was easy to protect themselves in front of the darkness magical beast, but it would be difficult to surround and annihilate it!

Lin Yi, on the other hand, wanted to perform better than the others in this siege. It was an impossible task in the eyes of the language of monsters.

Young man, you're still too young. Let this darkness demon beast give you a good lesson!

Of course, if Lin Yi's performance wasn't so eye-catching and he didn't die in battle, the language of manifestations would still acknowledge the existence of the Hong Shang Empire.

He would treat it as compensation for the Warriors who had contributed to martial League.

However, whether the Hong Shang Empire would be destroyed by the other empires after the incident was not something that could be guaranteed by the language of the living things.

Dangerous or not, Lin Yi didn't care.

Before he recovered, he'd had to eat the dark beasts like roasted snacks. Now that they'd recovered, what was there to be afraid of?

The language didn't sound too friendly, but Lin Yi didn't think it was too harsh. In fact, it was fair.

And Lin Yi was confident that he could do it.

"Thank you, vice Hall leader Hua, for giving me this opportunity! I won't disappoint vice Hall Master Hua."
"

On the surface, Lin Yi didn't Pat his chest to guarantee anything.

Although he was confident, if he really boasted, he would give the monsters the impression that he was arrogant.

Lin Yi wasn't like Fei daqiang-the first thing he thought about was acting tough!

It was useless to say those harsh words, and it was better to do it than to say it. It was better to keep a low profile. "There's one more thing I need to explain to vice Hall leader Hua! I'm here because humans and darkness demonic beasts are at odds with each other, not for the Hong Shang Empire!"

"Vice Hall Master Hua just mentioned my identity, so I just asked! If vice Hall Master Hua says that the encirclement and elimination of the darkness demonic beasts is not a condition for the establishment of the Hong Shang Empire, then I can accept it! I'll do it when vice Hall Master Hua gives me a new test next time. "

Chapter 8022

The reason why he explained this was not to leave a good impression in the language of the living things, but to prevent Luo caidie from being disappointed.

Now that he'd accepted caidie as a friend, Lin Yi didn't want her to misunderstand that he had some other purpose.

And that was the truth-Lin Yi really didn't think about solving the problem of establishing the Hongshang Empire before coming.

Lin Yi's true goal was to use martial Alliance to find Wang Xinyan. Establishing the Hongshang Empire was a small matter.

After hearing the explanation, the artifact language's expression softened.

Although Lin Yi's words weren't enough to change his impression of Lin Yi, it was at least a little better, "Let's see your performance this time before we talk about anything else!"

The topic of the Hong Shang Empire ended here. The language of the living things was not in the mood to continue the conversation, so it moved to the side.

Lin Yi, on the other hand, stood quietly with his hands behind his back like everyone else, waiting for the attack.

After waiting for a few more minutes, the two newcomers arrived. The language of assimilation looked up at the sun and said, ""There's no time. Let's go! If we wait any longer, the situation will be irreversible!"

"Everyone, this battle is extremely dangerous, and it's possible that you won't be able to come back alive if you go. If you want to back out now, there's still time! When we enter the battlefield, we won't be able to retreat even if we want to!"

The artifact language glanced at Lin Yi as it spoke.

The meaning was obvious-it was for Lin Yi to hear.

The others were all members of the nado illusionary martial League, so who would dare to escape?

Even if the monster language didn't kill the people who ran away, they wouldn't be able to survive in the martial league's territory after they got out.

"Fight to the death!"

Someone raised his hand and clenched his fist, shouting loudly. The others around him immediately followed suit and quickly spread out.

For a time, they were in high spirits.

Lin Yi, who was in the middle of it, could only follow the crowd.

With just a dozen or so people, they had a strong aura.

Hua Yu nodded and glanced at Lin Yi. She turned around and waved, "Fight!"

The monster took out something from its pocket and waved it in front of Angele.

Lin Yi raised his head and raised an eyebrow.

This was actually a barrier-type formation. Could it be that the sub-Island also had something similar to a formation talisman or a formation disk?

However, there was no time to think about it at the moment. The monster language had already entered the cave, and the others followed closely behind.

Lin Yi quickly followed them in.

As they passed, Lin Yi's vision blurred, and when he looked up again, he saw dozens of different types of dark beasts staring at the group who just entered the barrier.

Around these darkness magical beasts was a barrier of light that was covered in cracks. Many of the darkness magical beasts were attacking the barrier, causing the cracks to spread even more quickly.

The starting point of the broken pattern was a round hole about five meters in diameter. It was unknown whether it was broken or naturally aged.

The dark beasts in front of Lin Yi came out from this hole.

Lin Yi glanced around and understood that the broken light shield was the node that sealed the abandoned forest.

Once the node was completely destroyed, the darkness demon beasts of the abandoned forest would be able to come out and enter the Forest of Illusions. They might even invade the human territory of the entire sub-Island.

If these darkness magical beasts had wanted to leave, they could have entered the Forest of Illusions long ago. However, they didn't do so because they wanted to completely break the seal on the node!

It was clear that these darkness magical beasts were organized and disciplined, and not a motley crew.

It was precisely because of this that the difficulty of dealing with them was even more difficult.

The artifact language's face was gloomy. There were some broken human clothes, accessories, and even bones and flesh around the dark magic beasts.

It was obvious that the guards who had been left here to guard the node had already been killed by the darkness magical beasts.

"The situation is worse than expected. The darkness magical beasts that have come out are more powerful and numerous than expected, and the seal can't hold on for long. We have to attack immediately and stop the darkness magical beasts from continuing to destroy the seal!"

The monster's tone was deep and firm, and then there was a hint of sadness.

He was afraid that he would not have a good ending today.

However, the monster language had never thought of retreating. Even if he knew that he might lose his life, he would still take his men and fight!

"The good news for us is that the reinforcements of the darkness magical beasts haven't arrived yet. There are probably only so many darkness magical beasts around this node!"

"Our martial Alliance order has already been issued, and reinforcements will definitely arrive soon. Our mission is to stop the darkness demonic beasts from continuing to destroy the spatial node's seal and stall for time. Don't let these darkness demonic beasts escape from this place. Do you all understand?"

"Understood!"

Everyone responded in unison and began to activate their own martial skills.

No one showed any signs of retreating, and no one wanted to retreat at this moment!

At this moment, Lin Yi couldn't help but respect him.

In the abandoned land of the East continent, there were also a large number of darkness magical beasts. But what about the humans there?

Selfish, self-serving, sects and Academies did things their own way. They were not like the martial artists here, who would stand on the same front and fight against the enemy together in the face of danger.

Even Wang Ba, Gao Zi, and GUI Shen looked as if they were not afraid of death.

However, no matter how much these people wanted to fight to the death, the darkness magical beasts didn't care. They even had a very human-like mocking smile on their faces.

Obviously, they thought that the people brought by the monster language were nothing and could not threaten them.

In view of this, Lin Yi didn't want to let these respectable humans die for nothing.

"Wait a minute, vice Hall leader Hua. You're not thinking of leading everyone to fight like this, are you?"

Lin Yi quickly stopped him. "The darkness demonic beasts are obviously much stronger than us. If we charge in like this, we'll just be throwing our lives away!"

"Sima Yi, if you're afraid, you can scam to the side by yourself. Don't get in our way!"

Hearing this, Hua Yu was furious!

Lin Yi jumped out to stop them at this critical moment?

If it wasn't for the fact that he was facing a great enemy, he would have killed this kid.

Lin Yi shook his head. Was the Vice head of the illusionary martial Alliance so crude in commanding?

Not to mention a battle formation, they didn't even have the most basic tactics!

Just like that, a large group of people rushed forward to stop the darkness magical beasts from breaking the seal, but they did not mention how to stop them or how to delay them.

Chapter 8023

Are we going to rely on these people to command freely?

If martial league's side had the advantage in terms of strength, and it was the kind of overwhelming advantage, then it didn't matter. They would win no matter what they played.

But the problem was that in terms of strength, the darkness magical beasts clearly had a huge advantage!

If he continued to play freely like this, was he looking forward to the moment when he would witness a miracle?

"Vice Hall Master Hua! I'm not trying to stop you ..."

Lin Yi wanted to say that they should at least discuss their strategy, but the beast language didn't give him a chance to finish as it pushed him away.

It didn't have any killing intent, so it didn't want to hurt Lin Yi.

Lin Yi wasn't prepared for it, and the Beast language really did push him away.

Feeling Lin Yi's body level, Hua Yu almost puked blood!

What the hell was this?

Super weak chicken?

At this level, he wanted to make a name for himself in a battle of this level? was he crazy?

Coming from such a small place, he shouldn't be this weak, right?

The Shanlian Empire was destroyed by this thing?

Lin Yi didn't know what to say after being interrupted.

If one's physical strength was too weak, it was easy to unintentionally show the gap.

If Hua Yu wanted to kill him, the space in the jade pendant would naturally warn him in advance. Without the need for his body, his spiritual awareness attack could instantly defeat Hua Yu.

Now ... He could only be underestimated. He couldn't show the power of his divine sense attack to the language of the living things, could he?

Lin Yi stopped, but the others were still moving at a very fast speed, and they were in contact with the dark Beast in an instant.

After a round of beating and warnings, martial league's side had fallen into a disadvantageous position.

Although there weren't many casualties at the moment, it seemed that they wouldn't be able to hold on for much longer. When the time came, it wasn't impossible for the entire Army to be annihilated.

This was especially so as the darkness demonic beasts weren't going all out. They had only sent out an equal number of darkness demonic beasts to delay the enemy.

Even so, the darkness magical beasts were still able to completely suppress the human team led by the monster language.

The darkness magical beasts in the forest of forsaken were extremely powerful!

Lin Yi sighed. It wasn't that he couldn't use his spirit sense to suppress the beasts, but that would be too high-profile. He'd be revealing all his cards.

He was such a low-key person, how could he be in the limelight like this?

Definitely not. He had to use a more suitable method to do this!

Looking at the dense vegetation around him, Lin Yi activated his plant element and controlled the nearby vines, weeds, branches, and so on to block a wave of dark demonic beasts' attacks. He then pulled the language of transformation and the others back.

It was a spectacular scene to see more than a dozen earth-splitting and sea-splitting experts being pulled back by the vines!

Originally, the vines that were driven by the plant attribute could not pull these experts' bodies. However, they did not have an advantage against the darkness demon beasts, so it was not unacceptable for them to make a strategic retreat!

After being blocked by the plants for a moment, the darkness magical beasts easily tore through them, but they didn't pursue them, most likely because they felt that the people from the manifestation of language belt were too weak and not worth their time.

In comparison, it was more important to continue destroying the seal!

If the human weaklings attacked again, they wouldn't mind continuing to play with them!

"Vice Hall Master Hua, please listen to me!"

Lin Yi let go of the vines and spoke before the language could, "I can change the current situation between the strong and the weak between the martial Alliance and the darkness demon beast. However, the premise is that you all must strictly follow my instructions! Vice Hall Master Hua, do you dare to take a gamble?"

If Lin Yi didn't show his plant attribute, Hua Yu would've just grabbed a pile of mud from the ground and stuffed it into Lin Yi's mouth instead of listening to Lin Yi's nonsense.

But now ... It subconsciously felt like it should give Lin Yi a chance to speak.

"Sima Yi, are you trying to say that you're using the plant attribute to assist in battle? If that's all, I won't take the risk!"

What a joke, a plant attribute of this level of strength was not even qualified to assist in combat, okay?

It was only because they had caught the darkness demonic beast and the people from martial League off guard that they had not been able to react in time.

Now that the darkness magical beasts had seen the power of the plant attribute, he probably wouldn't even have the chance to affect them.

"No! Vice Hall leader Hua, based on the current situation, there's no point in us continuing to attack in such a state of disunity, except to throw away our lives!"

Lin Yi said quickly, creating a tense atmosphere. "We don't have much time! The seal of the node will be broken soon. Vice Hall Master Hua, do you want to rush over like this and be doomed to failure, or do you want to give me a chance to fight for a chance of survival?"

Hua Yu fell silent-he wouldn't have the time to listen to Lin Yi if there was still a glimmer of hope.

But the current situation was just as Lin Yi said-if they didn't take the risk, they would lose for sure!

"Give me a reason to believe you!"

Taking a deep breath, Hua Yu frowned and asked, ""Or rather, why should I believe you?"

"With my 800 men, I annihilated the 300000,500000, and even a million troops of the Shanlian Empire without any losses!"

"I destroyed the number one master of the Shanlian Empire's National Guard Hall, Yuwen fried chicken, with my own strength!"

"Because I killed Emperor Sante and broke the Shanlian Empire's Shanlian Mountain Formation!"

"Just because I destroyed patriarch Shan Lian, who had successfully stepped into the shattered Sea ... Have you forgotten what you're talking about?!"

At first, Lin Yi's words were still very hot-blooded, making everyone's blood boil.

But the last sentence ... Everyone could not help but laugh out loud!

"I believe in him!"

Just as everyone was laughing and Hua Yu was frowning and thinking, a clear voice rang out. It was Luo caidie.

Other people might not believe it, but caidie Luo, who had been with Lin Yi through life and death, believed in his abilities.

Just as Lin Yi thought, when Luo caidie thought that Lin Yi was injured, she could kill the dark Demon beasts as if they were vegetables, let alone now that he had fully recovered.

"Alright!"

Since he was going to lose anyway, he decided to make a last resort and take a gamble!

The demon was a decisive person, and after making up his mind, he waved his fist and said to Lin Yi, "I'll give you this chance! Listen up, everyone, listen to Sima Yi's commands!"

In fact, the more important thing was that the beast language had really taken Lin Yi's advice.

From the information gathered by the martial League, Sima Yi was a natural-born famous general. He led eight hundred cavalymen to sweep across the world, massacred hundreds of thousands of the Shanlian Empire's Army, and took down countless cities and passes along the way, destroying the Shanlian Empire!

Such a person who was famous for being able to defeat a stronger opponent was indeed worthy of An Hua Yu Bo!

Lin Yi got to work immediately after getting the confirmation from the language.

Chapter 8024

The plant attribute was activated again, and some of the wild grass on the ground began to dance gently!

"Everyone, stand at the positions I have marked out, and attack and defend according to my command!"

After getting the command, Lin Yi started giving out orders without holding back.

The artifact language looked at Lin Yi with a strange expression-was this a battle formation?

The combat Association of the martial Alliance had their own combat formations as well.

Not to mention the power of martial league's battle formation, to form a battle formation, one must go through a long period of training and have a good rapport.

The people gathered here were all from different forces, and they might not have known each other before. If they wanted to form a battle formation in a hurry, they might as well fight on their own!

This was also the reason why the artifact language had brought people to fight directly.

However, Lin Yi's use of the plant element to control the plants to form coordinates at any time gave the language of transformation a new feeling. So the plant element could be used this way!

As for Lin Yi knowing how to set up and use battle formations, it wasn't a surprise at all.

Who would believe that a person who could lead eight hundred cavalymen to destroy the entire Shanlian Empire would not have outstanding abilities?

With the permission of the language, the others, including Wang Ba, Gao Zi, and GUI sun, who had conflicts with Lin Yi before, all stood at their designated spots.

In the end, before anything happened, these people felt that the momentum on their side had soared a lot!

Amazing!

The artifact language was a person who knew what was good, or rather, everyone present knew what was good.

At this moment, everyone could feel that this battle formation Lin Yi had set up was not a normal one, but a real high-level one!

The darkness magical beasts on the other side also felt that something was different, and most of the darkness magical beasts changed from their lazy attitude to a vigilant one.

Among them, there were five different darkness magical beasts that directly launched probing attacks.

"Follow your respective marks and move your defenses. Don't panic!"

Lin Yi calmly used his plant attribute to control the grass on the ground to quickly change directions.

In front of each person, there was a special one. They moved around without any chaos.

This kind of precise control of position already not only required the assistance of the plant attribute, but also tested the ability of the user's spiritual sense to control the overall situation!

Fortunately, Lin Yi had the new Wu Linghai, and his spirit sense could handle any situation.

Boom! Boom! Boom! Boom! Boom! Amidst the continuous explosions, the five darkness magical beasts that were testing the waters were pushed back without exception.

The people who participated in the defense were surprised to find that they were not under too much pressure!

This was also because the attack power of the darkness magical beasts had been split up by the battle formation, and they were only able to take on a very small portion of the attack pressure. This was simply easy and pleasant for them.

"Well done! Everyone, don't relax, keep up the good work! We will definitely win!"

Lin Yi said, trying to boost their morale.

Those who were still feeling uncertain were immediately filled with confidence.

A battle formation was indeed a great killing weapon that could turn the tide of the battle and defeat the strong!

Lin Yi didn't launch a counterattack, but continued to let everyone stabilize their defense.

It wasn't that he didn't want to attack, but there were many types of darkness magical beasts, and he couldn't make a targeted attack for a while.

To put it bluntly, Lin Yi didn't know most of the dark beasts there, and didn't know what their innate skills were. He needed to observe further!

"What's there to observe! Don't be scared, just go up and fight!"

The demonic thing suddenly appeared. "For example, that Black Rock devilish ox. Its defense is extremely tough. Even an attack at the half-step heaven breaking stage might not be able to break through its defense!" However, its four hooves are its weakness. If you trip it with the wild grass on the ground, the moment it falls, its body's defense will temporarily be greatly reduced due to the loss of control of its muscles. "

Lin Yi almost slapped his own forehead.

That's right!

He was able to communicate with the Jade space now, and he was no longer in the dark.

With this ghostly thing here, who was extremely familiar with darkness magical beasts, how could he not recognize them?

Out of his unconditional trust in the demonic thing, Lin Yi didn't even think about it and used the plant element to direct the battle formation to attack the Black Rock demonic bull that the demonic thing pointed out.

The wild grass on the ground also secretly worked together to trip him.

The Black Rock devilish ox was one of the darkness magical beasts that had been testing the waters, and it just so happened to be charging over.

Then, it tripped over a wild grass that it usually ignored.

The difference in strength was too great. The effect of the wild grass was only a light touch. It did not trip the Black Rock devilish ox, but it caused it to stagger a little and lose its balance.

Although it didn't fall, the Black Rock devilish ox still lost control of its muscle defense.

The reason why a weakness was a weakness was because it was very difficult to overcome!

The attacks of martial league's experts, supported by the battle formation, accurately seized this opportunity and landed on the Black Rock devilish ox's body.

If it was in its normal state, the Black Rock devilish ox would still be able to resist these attacks. However, this time, it did not have the capital to resist them. It was directly killed by the continuous attacks!

At this moment, the darkness demon beast's side suddenly fell into a strange silence.

This was the first companion they killed after breaking out of the seal.

Although they didn't usually have a good relationship, now that they were facing a great enemy like the human race, after losing one of their companions, the remaining darkness magical beasts all felt a sense of sympathy.

"Success! Senior ghost, what's the weakness of the remaining darkness magical beasts?"

Lin Yi was secretly excited. The biggest problem was solved. With a clear direction to attack, and the battle formation, it was much easier to deal with these dark beasts!

"Na duo, it's time for you to show off. Hurry up and point out the weakness of the darkness demon beasts to your boss. You should be more familiar with them, right?"

The damn thing didn't respond to Lin Yi, but sent Starlight Magus out instead, "Do it well. If you don't do it well, the nine neonate will be waiting to beat you up!"

"Starlight Magus wants to cry, but no tears come out. I'm a great Starlight Magus of the Sorcerer tribe!"
What do you take me for?

This time, this old man must be unyielding. I won't agree even if you beat me to death!

"Little brother na duo, what are you thinking? Why aren't you helping? do you want to be beaten up?"

The nine neonate was really ready to beat up the Starlight sorcerer at any time, and in its heart, it even hoped that na duo would be more unyielding!

If he really helped in this war, he might even become a full-time temporary worker!

If na duo's position rose and she was no longer a target, who would be the new sandbag?

"No, no, I'm just thinking about it. I can't give you wrong information in a hurry, can I?"

Starlight great wizard was instantly terrified and immediately gave a smile to deceive him. As for what he was thinking about just now ... Forget it, the more unyielding he was, the more he would be beaten up!

Chapter 8025

Although he wouldn't agree even if he was beaten to death, as long as he didn't die, he still had to agree!

The nine neonate really wanted to seize the opportunity to beat the Starlight Magus up, but Lin Yi was still waiting. It didn't dare to delay the important matter, or it would send the Starlight Magus to beat it up.

Fortunately, the Starlight sorcerer was already scared of the jiuqing, who had an unpredictable mood, and did not dare to delay.

After organizing his thoughts, he started explaining to Lin Yi about the dark beasts "origins, talents, strength, and most importantly, their weaknesses!

With the Starlight Magus, who used to be a high-level member of the dark Demon beast Alliance, Lin Yi's command of the battle formation was getting more and more successful.

Coupled with the use of the plant attribute to mobilize the plants to guide the operation of the battle formation, the entire battle process instantly became extremely smooth.

The previously unrivaled darkness demon beasts were being continuously killed by the martial league's people at an astonishing speed.

Although he wasn't completely defenseless, there really wasn't much resistance.

Very quickly, the high-level darkness magical beasts that came out of the hole were all captured by the people of martial League!

Although there were still some darkness magical beasts attacking the seal, their overall strength was much weaker than the ones that had been killed.

These darkness demon beasts saw that martial league's combat power was astonishing, and none of them dared to come out of the hole. They all hid behind the broken seal and continued to attack with all their might.

It was true that they were afraid of death, but in order to break the seal, even if they had to die, they had to fix the seal before they died!

This scene shocked the humans who were previously at a disadvantage, and they also felt a little proud!

Every time they were faced with the darkness demon beasts, the human warriors were always the weaker side.

After all, the darkness magical beast's race, strength, and abilities were all unpredictable, and it was very difficult to deal with them.

However, this time, they had annihilated the enemy with zero casualties.

At this moment, the monster language believed the previous intelligence. This was really a peerless general who could lead his men to crush all the enemies with zero casualties!

Previously, he would never have thought that they would be able to annihilate so many high-level darkness magical beasts. He was even mentally prepared to sacrifice himself here today!

"Young hero Sima, you are the hero of humanity, the hero of our naduo illusion martial League! It's all thanks to you this time! On behalf of everyone in the nado illusion martial League, I express my deepest gratitude to you! After we return, I will personally ask for your merits!"

After getting rid of the biggest threat, the beast transformation language was extremely excited and praised Lin Yi with the most sincere words!

At this moment, the beast language truly believed Lin Yi. "As for the rest of the darkness magical beasts, I'll have to ask young hero Sima to lead and kill them! The situation is urgent, and the seal will be broken soon ..."

Once the seal was completely broken, a large number of high-level darkness magical beasts would leave the abandoned forest and enter the Forest of Illusions. At that time, the situation would go out of control.

And even if they rebuilt the sealing spell formation afterwards, those high-level darkness magical beasts that escaped would be able to break through the barrier spell formation of the Forest of Illusions and enter the human city.

It would be a huge disaster for ordinary humans.

However, before Hua Yu could finish his sentence, the cracked seal suddenly made a crisp crackling sound. Then, it completely collapsed in front of everyone's eyes, turning into spots of light and then disappearing.

The seal had been completely destroyed!

The artifact language was dumbfounded. It didn't expect that it wouldn't be able to stop him!

"Attack!"

Lin Yi didn't think too much about it-it made things easier.

The seal had shattered, and the darkness magical beasts inside had no cover. Previously, there had only been one entrance, so it had been inconvenient for both sides to use it. Now, they could just go up and kill them!

The others, including the language of monsters, were already used to Lin Yi's commanding methods. They followed the signs and started a new round of attack.

The number of magical beasts of darkness that were destroying the seal was much higher than before, but their strength was slightly inferior. With the guidance of the Starlight wizard, the speed of their killing was even faster than before.

It was a one-sided massacre under Lin Yi's command.

Many darkness magical beasts were unable to react in time before their weaknesses were grasped and they were killed.

They were even thinking, even as darkness magical beasts, it was rare for people of different races to know each other's weaknesses, so how did these humans know?

Could it be that there was a Royal darkness demon beast among the humans as a spy?

Of course, they would never know the answer to this question, because they were already dead.

After a round of messing around, everyone had gotten used to Lin Yi's fast pace. They weren't surprised or proud anymore-they were all waiting for Lin Yi's next instruction.

Even though there were no more enemies on the other side, they were still on high alert.

The artifact language nodded deeply, expressing its appreciation and gratitude to Lin Yi from the bottom of its heart, "Young hero Sima, it's all thanks to you this time. Don't worry, the matter with Hong Shang Empire is just a small matter. I'll help you settle it later."

"However, the situation here has not been settled yet. We still need young hero Sima to stay and help us. I wonder if young hero Sima would agree?"

First, he used the incident in Hong Shang Empire as a small reward, and then he made a legitimate request for Lin Yi to stay and command the battle!

That's right, it was to command the battle!

In the battle just now, Lin Yi didn't actually do anything. He relied on the strength of the other people in the formation to kill all the darkness demon beasts.

From the beast transformation language's perspective, Lin Yi's body refining skills were indeed weak-it didn't matter if he had it or not, but his ability to command a battle formation was unparalleled!

Not only this time, but if he could get Lin Yi into the illusionary branch of the martial Alliance ... Just thinking about it would be wonderful!

"Many thanks vice Hall Master, but there are no more darkness magical beasts here, do we still need to stay?"

Lin Yi cupped his hands slightly, his expression unchanged as if it didn't matter if the matter with Hong Shang Empire was resolved or not.

"Young hero Sima is right. These darkness magical beasts should be all the forces that can be gathered in the vicinity. There won't be any more darkness magical beasts coming over in a short time."

First, it nodded, and then its expression turned serious. ""But the seal here has been destroyed. Even if the darkness magical beasts didn't inform the other darkness magical beasts, the commotion caused by the battle is enough to attract other darkness magical beasts to come over."

"In other words, after a short period of peace, this node of the seal will have to face the attack of even more powerful darkness magical beasts! If we have young hero Sima's help, we will have a chance to stop the incoming wave of dark magical beasts!"

"Are we just going to wait here like idiots?"

Lin Yi looked at the destroyed seal, confused. "Why do we have to wait for the darkness magical beasts to come? Wouldn't it be better to just rebuild the seal formation?"

Chapter 8026

"Young hero Sima, you might not know, but things are not that simple!"

Hua Yu sighed. People from small places were indeed from small places! No matter how good he was at commanding, he still lacked such high-level common sense!

"If the seal hadn't been completely shattered, then the array Masters of our naduo illusion martial Alliance branch could still repair the seal's array."

"But now that the seal has been completely destroyed, and the seal has been shattered into pieces, it's impossible for our branch's formation Masters to repair it! If you want to rebuild the seal's formation, you'll have to inform the martial Union of our higher continent, and they'll send a formation master. "

"However, the martial Alliance is a little far from us. It will take us more than ten days to travel from the outer area of the Forest of Illusions by riding the fastest flying spiritual beast!"

"If we're unlucky and those array Masters rush to other places to repair the array, then if we come back ... There are too many uncertainties, and it's hard to estimate the time ..."

In other words, before the people from the martial Alliance arrived, the people from the branch of the illusionary martial Alliance could only defend this destroyed node!

"The continental martial League, is it the higher-ups of the naduo illusion martial League?"

Lin Yi was especially interested in this-he didn't know which was bigger, the super-rich or the martial Alliance.

"Not bad! The continental martial league's headquarters have jurisdiction over the martial leagues of several continents, and the martial leagues of each continent have jurisdiction over the martial league's branches. "

The beast language knew that Lin Yi came from a small place, and it explained patiently.

"The continent we live in is made up of several continents. Each continent has a martial Alliance, and each martial Alliance has branches in different areas. For example, the naduo illusion martial Alliance!

If it had been before, it would have been impossible for him, a vice Hall Master of a martial League branch, to personally explain such trivial matters to others.

But now, since the beast language had acknowledged Lin Yi, it didn't hold back.

"The continental martial League seems to be a very powerful existence!"

Lin Yi sighed. It seemed like the martial Alliance was a huge force that covered the entire sub-Island.

Lin Yi thought that the Hong Shang Empire was big enough, but now he knew that it was just one of the kingdoms under the naduo illusionary martial Alliance!

In the entire nado illusion martial League, there were a few empires that were bigger than the Hong Shang Empire.

The nado illusion martial League was just one of the many factions under the entire continent's martial League.

Not to mention the martial Alliance that ruled the entire continent.

"Naturally!"

Hua Yu nodded and looked at Lin Yi, "So you understand now, we have to wait for the higher-ups to send someone to repair it!"

"I see. I wonder if vice Hall leader Hua has ever heard of the Super families?"

Lin Yi asked casually.

"A super-powerful family?"

The artifact language was stunned for a moment, and a flash of surprise appeared in its eyes. It then shook its head and said, ""I'm not too sure. Perhaps it's an existence of a higher level. This has nothing to do with you and me, so don't ask about it!"

Perhaps?

Lin Yi frowned. Did she know or not?

Could it be that this super powerful family was even more mysterious and powerful than the headquarters of the continent's martial Alliance, and they couldn't even find out about it?

Lin Yi didn't want to get into any trouble with the questions.

The information about super-rich families flashed through his mind, and he scratched his head. "Vice Hall Master Hua, if we're just waiting for the martial Alliance to send someone to rebuild the seal, I would say that we don't have to go through so much trouble!"

"If you don't mind, I think I can rebuild this seal formation!"

What?

If you don't mind?

I mind!

The artifact language was stunned. You want to rebuild the seal formation?

You're not bragging, right? Could anyone just rebuild the seal formation? Then what was the use of the array Masters of the martial Alliance?

"Sima Yi, don't mess around!"

Wang Ba Gaozi couldn't help but say, "I admit that your attainments in battle formations are indeed very high, so you're the hero of this battle, but that's all!" A sealing formation is completely different from a battle formation. It's not like you can rebuild a sealing formation just because you know a little about battle formations!"

"That's right, Sima Yi, you're already a hero in battle, there's no need to continue being a hero! Even though the seal formation has been destroyed, its Foundation still remains. "

GUI sun followed up.

The two were probably worried that they'd be dragged into Lin Yi's mess-they were mocking him in secret, rather than persuading him.

In the face of righteousness, the two of them were very moral, but after righteousness was over, these two people exposed their character shortcomings.

"Do you understand now? If the foundation is there, it will be easy for the great formation Masters of the martial Alliance to rebuild it. If you mess around and destroy the foundation, it will be even more difficult to rebuild it!"

GUI sun was still jabbering on, but Lin Yi ignored her and stepped into the formation.

After walking around, Lin Yi looked at GUI sun."Alright, now that your Foundation is gone, you can stop talking nonsense!"

"What?"

GUI sun was dumbfounded. What did he mean by losing his Foundation?

"You ... You, you, you, you ... You even destroyed the foundation of the array?"

It was obvious that Wang Ba had some knowledge of the formation's principles, but the foundation had been destroyed by Lin Yi, ""We're finished, we're finished this time!"

"It's really broken? Sima Yi, you've caused a great disaster! If you're crippled, you'll get us all killed!"

GUI sun's face was filled with despair as she sat down on the ground.

The other people around didn't react as dramatically, but they were all looking at Lin Yi with unfriendly expressions.

Even though Lin Yi had just led them to fight and annihilate all the dark Demon beasts, they could've all survived if they had just held on a little longer. Now, they probably wouldn't be able to survive!

With such a degree of destruction, even the martial Alliance of the continent would not be able to do anything, right?

"Vice Hall Master Hua, what do you think?"

Lin Yi didn't bother with the two as he looked at the language of manifestations.

"What am I still looking at? you've already ruined your Foundation!"

The artifact language came back to its senses and exploded, ""Sima Yi, what are you doing? if you don't know how to do it, then don't do it. If you do it, you'll ruin your Foundation. What difference does it make whether I agree or not?"

"Your actions are simply infuriating! I could've asked for a reward for you, but now, your merits can't make up for your faults. You ... You can just wait for martial league's judgment!"

The artifact language was in an explosive state.

"Vice clan leader Hua, since the foundation is already broken, none of us can escape. We still need Sima Yi to command us. What's the point of talking about trial now?"

Chapter 8027

Although caidie Luo was angry at Lin Yi's actions, she had to speak up for him.

"Mentor Luo, don't speak up for Sima Yi. We've all been killed by him!"

Wang Ba said angrily.

"You're right, but without Sima Yi's command, we would have been dead by now, right?"

Luo caidie didn't give in and asked.

"This ..."

Wang Ba Gaozi was speechless.

Lin Yi didn't bother being polite anymore after hearing the words.

He started to collect the storage bags of the cultivators who had been guarding this place but were later eaten by the darkness magical beasts.

Since these people had been sent here to guard, they must have more or less learned about formations, so they naturally had materials in their storage bags.

Of course, Lin Yi had a lot of formation materials in the Jade space as well, but if he could use other people's things, he'd just use them first. If he didn't have enough, he'd just use his own.

"What are you doing? Making a fortune from the dead?"

GUI sun didn't understand what Lin Yi was doing!

He had already caused such a huge disaster, yet he still had the mood to pick things up. Was there something wrong with him?

A person from a small place was indeed from a small place. He had not seen the world and was poor. He was about to die, but he still picked up things.

As for transformation language, he was completely disappointed in Lin Yi. He didn't care. He just wanted Lin Yi to step up and command again when the dark Demon beasts attacked.

After collecting the ownerless storage bags, Lin Yi started rummaging through them before throwing some of the materials on the ground.

This action made GUI Shan even more disgusted, ""Keep the good ones and throw away the bad ones? You really have the time!"

"Alright, Sima Yi! Stop your nonsense! From now on, command the battle to go all out. Don't add to your crimes!"

He waved his hand, trying to stop Lin Yi.

As a result, he saw the materials that were originally thrown on the ground begin to move quickly by the weeds on the ground.

In the blink of an eye, the materials that had scattered in all directions had been sent out.

Then, all kinds of vines, branches, and leaves were whipped, fixing the materials in various positions.

The artifact language opened its mouth and said, ""Sima Yi, what are you doing?"

"You'll know when you see it!"

Lin Yi said faintly with his hands behind his back.

"He can really act tough. He's simply the head of the act tough guys!"

"You know that you don't have long to live, so you even dare to deal with vice Hall Master Hua, right?"

GUI Shan and Wang Ba didn't know what Lin Yi was doing either. Was he building blocks?

"Alright, I'm done!"

Lin Yi shrugged his shoulders and took all the storage bags he'd collected.

"What's done?"

"Are you crazy?" GUI sun didn't understand.

"The formation has been fixed!"

He looked at GUI sun with disdain and turned to the language of transformation, "Vice Hall Master Hua, since you're not going to interfere, I've already fixed the formation!"

What?

Fixed?

Are you sure you're not bullshitting?

He'd just been troubled by Lin Yi's actions, and then he'd started throwing materials and building blocks, only to have Lin Yi tell him that the formation was fixed?

This was a child's puzzle, and he fixed it just like that?

"It seems like I've really recovered! Are my eyes blind?"

The first one to react was Wangba Gaozi, who had been attacking Lin Yi!

Dumbfounded, she pointed at the seal that was rising up again and emitting a dazzling light not far away, as well as the node array that had been completely renewed. Her mind was blank. It was completed just like that?

Yes, it was completed!

"I'm not blind, it's fixed!"

GUI sun nodded in agreement, "pretentious boss, we were wrong. I apologize to you on behalf of Wang Ba and Gao Zi!" You have the capital to act tough, but we're wrong!"

“ ? ? ? ”

Lin Yi was speechless-you guys were the real boss!

However, Lin Yi couldn't even be bothered to think about retorting after seeing GUI sun's attitude. She was going to win in a second!

Wang Ba Gaozi also sighed, her heart filled with grief and indignation. So Sima Yi really wasn't bragging, this acting tough boss was definitely the leader of the acting tough world!

If you can cultivate, then just say that you can cultivate. Why do you have to destroy your Foundation first? Isn't this misleading us?

You broke it and then repaired it. You've been acting so tough that you've broken through the sky!

Will you die if you don't act tough? Would they?

"The foundation of the previous formation is broken. Will the new formation be durable?"

Some people didn't understand formations, so it was normal to have doubts at this time.

After all, as far as they knew, the array Masters of the martial Alliance could only repair the foundation without it being damaged!

If the foundation was destroyed, then a higher level and more powerful array master would be needed.

But Lin Yi used less than the time it took to make a cup of tea to rebuild the foundation and fix the formation and nodes. How could they be solid?

"It's even better than before!"

Wang Ba and Gao Zi, on the other hand, acted as the commentator. "Although the foundation was good before, after so many years of wear and tear, it's actually not far from collapse! Even if it was repaired this time, it would probably only last for a few decades! But now, this is a new formation with a new foundation. Conservatively speaking, it should be able to resist for a thousand years!"

"Hiss ..."

Everyone sucked in a breath of cold air.

Even Luo caidie looked at Lin Yi with a different expression.

He was surprised and in disbelief.

Yes, caidie had long suspected that Lin Yi knew formations, but she wasn't too sure.

Looking at him now, how was this a 'know how'? he was a Grandmaster!

Furthermore, he was at least a level 3 formation master!

"Young hero Sima ... No, no, no, Grandmaster Sima! No, no, no, Grandmaster Sima! I really didn't expect to meet a formation master here, it's my honor!"

The artifact language came back to its senses and immediately put on a smile, lowering its posture to the extreme!

Not only did he change the way he addressed himself, he even changed the way he addressed Lin Yi twice.

Even the great formation Masters of the martial Alliance couldn't easily and happily rebuild the formation of the sealing nodes!

The language of assimilation had seen the formation Masters of the martial Alliance fix the sealing nodes. They had only fixed them, not rebuilt them, but they had taken half a day!

And Lin Yi? It was completely easy, and he finished it in the time it took to make a cup of tea.

The difference in strength between the two sides could be seen at a glance!

The artifact language was very excited. In the future, the nado illusion martial League would be awesome!

So many darkness magical beasts had spent so much time and effort to break the seal, and they were able to rebuild it so quickly?

In the future, why would he need to be afraid of the darkness magical beasts?

Chapter 8028

Just let them do it and fix it in a minute. Wouldn't they be able to anger the darkness magical beasts to death without even fighting?

"Grandmaster Sima wants to establish a country, but it's not that troublesome. Just say it casually, what's a mere Empire?"

The language of monsters wasn't trying to get on Lin Yi's good side anymore.

Even the martial Alliance of the continent would have to give the greatest respect to a formation Grandmaster.

He was only the Vice Hall Master of the martial Alliance's branch. Strictly speaking, his status was even lower than that of a formation Grandmaster.

"I was just lucky. Vice Hall Master Hua, you're too polite. I can't be called a Grandmaster!"

Lin Yi smiled humbly and waved his right hand. "It's just a coincidence that I know how to rebuild this seal's array. It doesn't mean that my array Dao is very high. "

Lin Yi was telling the truth, not a lie.

The sub island's formation was very different from the sky Island 's!

If it weren't for the fact that he'd studied the tower's formation during the princelings "gathering in a conferred Kingdom, he wouldn't have been able to fix the seal.

Most importantly, Lin Yi saw the formation collapse with his own eyes and understood some of the principles behind it.

He didn't destroy the foundation to piss off GUI Shen and Wang Ba, but he wanted to figure out the theory behind it.

This was equivalent to not building without destruction.

"Hahahaha, Grandmaster Sima is too humble! You really have the demeanor of an expert, unlike those half-baked people who only know a little and show off everywhere!"

Hua Yu had a respectful smile on her face, but in her heart, she was saying, "I don't believe you!" Do you really think I'm a country bumpkin who has never seen the world?

"Even if you really know this formation by chance, if you don't have the skills of a Grandmaster to set up a plant-type formation in one or two minutes, I'll twist my head off and let you kick it like a ball!"

After complimenting Lin Yi, the artifact language asked, ""Grandmaster Sima is so powerful in array Dao. I wonder what level of array master he is now?"

In fact, the monster language was also a little strange. Generally, the martial League would have information records of high-level array Masters, whether they were array Masters or grandmasters.

All the martial leagues on the continent shared information regarding this, so it was rare for a master or Grandmaster to suddenly appear.

Of course, this was only a normal situation. There would always be some hidden experts who weren't in the records of martial League.

The beast's instinct told him that Lin Yi was one of those people.

"I don't know! What level of array master do you think I am?"

Lin Yi shrugged and asked.

The artifact language was dumbfounded. What do I think?

"No, Grandmaster Sima, have you never taken the array master level assessment?"

"...Is there a rank assessment for array Masters?"

Lin Yi's question stunned the beast!

However, on second thought, for a formation master who didn't even know the grade of a formation master to not have heard of the formation master examination, it didn't seem like there was anything wrong with that ... It was reasonable!

"So that's how it is! Grandmaster Sima, you probably haven't paid attention to this kind of information. If you have time later, you can pay attention to it and then take the test to obtain the qualification to become an array master. "

The language of assimilation felt that he had found the reason. Sima Yi was born in a remote place, so it was normal that he had not heard of many things. "As for the Hong Shang Empire, don't worry, Grandmaster Sima, it's a small matter! I'll do it for you when I get back. "

"Thank you, vice Hall Master Hua. Is everything alright now? If there's nothing else, can we all leave?"

He didn't have time to waste here after he recovered his strength!

He couldn't wait to return to the Hong Shang Empire. Other than settling the score with Ling lingfa, he wanted to see if his friends were still safe.

In addition, Ling Hanxue and Wu yucaao, who had been taken away by the great witch of ghost Yin, must also be found.

The restoration of great witch ghost Yin's Wu Linghai should also be the work of great Starlight witch. Otherwise, how could this guy recover his strength after being disabled by his soul snatching hand?

However, great witch ghost Yin had his own Wu spirit ocean from the very beginning. He didn't know if he had repaired it or created a fake Wu spirit ocean like Luo caidie and the others.

If it was a fake one, and it was from a Starlight Magus, Lin Yi's Witcher spirit ocean would naturally have a suppressive effect on a ghost Yin Magus.

"It's alright, everyone has worked hard! I'll report everyone's achievements to martial League, and when I return to report on my work, I'll definitely get enough rewards for everyone. "

The language of transformation understood that Lin Yi had something to do and wanted to leave, so he said a few polite words and let everyone go.

"Grandmaster Sima, if we encounter any problems with the array in the future, please help us on account of the fact that we have fought side by side before!"

"That's right, Grandmaster Sima. I'm a teacher from Hongming Mountain Academy. We welcome you to our Academy!"

These people all came to bid Lin Yi farewell before leaving.

An array master was indeed worth befriending. Who knew, he might be of great use to them in the future.

Lin Yi greeted everyone with a smile, and it was only after most of them had left that the artifact language came up to talk to him.

"Grandmaster Sima, I'm going back to the naduo illusion martial Alliance now, do you guys want to go back? Or should we continue to explore the forest of Illusions?"

The beast's language wanted to deepen their relationship with Lin Yi on the way back, which was why he waited until the others were almost gone before asking.

Those who had left were basically those who wanted to continue their adventures in the forest of Illusions.

They were the same as Lin Yi and Luo caidie-they were all doing their own things in the Forest of Illusions, and only came here after receiving the martial Alliance order.

If Lin Yi and the others hadn't already completed their goal, they'd have to return to the tomb to continue exploring.

"I'm also leaving the Forest of Illusions. If vice Hall leader Hua doesn't mind, please take me with you!"

Lin Yi smiled and nodded, seeing that transformation language was trying to make friends with him.

The remaining three, Luo caidie, Wang Ba, Gao Zi, and GUI Shen, had also completed their goals and were ready to return to the Alliance Academy.

Since they were going the same way, they decided to go together.

Lin Yi couldn't remember where he came from, so he had to follow the language of the monsters out of the forest of Illusions and return to the Hong Shang Empire.

Nothing special happened along the way. With so many experts around, ordinary darkness magical beasts didn't dare to provoke them.

After apologizing to GUI sun, Wang Ba didn't say anything more about teaching Lin Yi a lesson. After all, they couldn't afford to mess with a formation master.

Chapter 8029

But while the two were convinced, they didn't get too close to Lin Yi.

Clearly, as teachers of the Alliance Academy, they had their pride.

"We're here, the exit is just ahead!"

The artifact language pointed to a node not far away and said, ""Now, take out your tokens and get ready to leave!"

As he spoke, the artifact language took out his token first, and the others followed.

A ripple-like fluctuation instantly appeared in front of them, and the token itself also emitted a faint light. It scattered in the air and wrapped around their bodies.

Wang Ba Gaozi and GUI Shen successfully passed through the barrier and left the Forest of Illusions.

Only Lin Yi didn't have a token, so he couldn't leave like the others.

"Grandmaster Sima, where's your token?"

The artifact language was getting ready to leave, but Lin Yi didn't move. It asked curiously, "Could it be that it was lost? Without the token, you can't pass through the barrier!"

"I don't have a token like yours!"

Lin Yi shrugged honestly, "I didn't come in from here!"

"Could it be that you came in from another entrance? If you don't have a token, it'll be more troublesome!"

Hua Yu furrowed her brows slightly, then immediately relaxed and said, "But it's not a big problem. After I get out, I'll send someone to send a blank token in. It won't delay me for a few days! Grandmaster Sima, you'll have to suffer for a while and wait here for a few days. "

This kind of pass token would be bound to everyone's aura when it was issued, so it could only be used by the person himself.

Otherwise, the problem could be solved if each of them came back with two tokens after they left.

The main reason for such a setting was to prevent accidents from happening to the people who came in. If the pass token was obtained by a Savage or a darkness magical beast, they would be able to sneak out of the forest of Illusions.

However, the artifact language had never encountered such a situation before. Anyone who could enter the Forest of Illusions must have a passage token.

To be honest, he was a little suspicious-could Lin Yi be a wild person from the Forest of Illusions?

That outfit really had the style of a Savage!

But even if he was a Savage, he still wanted to befriend Lin Yi-he was a formation master, after all.

"Vice Hall Master Hua, you don't have to worry. Since I can come in, I can naturally go out! Your tokens mean nothing to me!"

He turned to smile at the language of manifestations and walked into the ripples.

The language of living things and Luo caidie were both shocked!

Without the token to protect himself, he would be torn apart by the barrier's power if he entered the barrier's ripples!

Even a body-refining expert at the Great Perfection of the sea-splitting realm could not withstand such damage!

"Sima Yi, don't ..."

Luo caidie wanted to reach out to Lin Yi, but Lin Yi's movement was too fast. He was standing in front of the ripple and his foot went through it.

The artifact language didn't say anything and rushed in as well. Luo caidie was even faster than him, and the two entered the ripple almost at the same time as Lin Yi.

After that, their vision blurred and they appeared outside the barrier.

"You ... You're fine?"

Luo caidie looked at Lin Yi who was looking around calmly and her thoughts were a little incoherent.

Could it be that one could pass through the barrier without the token?

Wang Ba, Gao Zi, and GUI Shan, who were standing outside, had originally intended to mock him. After all, this barrier was different from the previous array nodes!

That one was broken and rebuilt, while this one was running. There was a big difference between the two.

If it was broken, then it would be rebuilt, and it would be under Lin Yi's control.

But this one was working normally, not Lin Yi's doing. How could he get out so easily?

Moreover, he couldn't break the formation by force, as that would destroy the barrier.

But they didn't know what to say to Lin Yi, who walked out unscathed.

It seemed that no matter what he said, they would look like idiots ...

"I'm fine! Should I have something to do?"

Lin Yi blinked and shrugged,"No matter how powerful this formation is, it still has its flaws."

"I see, I understand now!"

The artifact language laughed and said,"as expected of Grandmaster Sima!" A trifling barrier formation of the Forest of Illusions was a completely insignificant existence! I was actually worried about Grandmaster Sima just now, it's really laughable!"

As soon as he said that, the others suddenly understood!

That's right, the entry tokens in their hands were all made by martial Union's array Masters. If Sima Yi wanted to, he could probably make a large pile of them.

"Sima Yi, how could you be like this? you didn't even tell me that you were able to walk out of the spirit Barrier. You made me worry! You're too much. If you do this again, I'll kick you to death!"

Caidie waved her little fist at Lin Yi, threatening him with her teeth bared.

Lin Yi couldn't help but smile.

If you wanted to kick me to death, shouldn't you have used your legs? What did he mean by waving his fist?

The artifact language envied the way caidie talked to Lin Yi-it meant that the two were close.

He was the Vice head of the illusionary naduo branch, but he couldn't talk to Lin Yi like that.

"Grandmaster Sima, this is the area where our naduo illusion martial Alliance branch is located! If you walk a hundred miles in this direction, you'll reach the nado conferred Empire's capital, which is also where our martial Alliance's branch is located. "

The language of manifestations knew that Lin Yi had never been to this area before, so it took on the responsibility of explaining, ""Conferred empires are existences above ordinary empires. They are one level higher than ordinary empires! "However, in essence, they don't have any actual subordinate relationship with other ordinary empires. It's only because they have the martial Alliance's branch guarding them that their status is more respected."

"The relationship between a conferred Empire and an ordinary Empire is similar to a loose Alliance. The ordinary Empire is a Member State, and the conferred Empire is the leader state. That's more or less what it means!"

"Grandmaster Sima, you are the Grand Emperor of Hong Shang Empire. Just based on your status as an Empire, you just have to be slightly polite when you see the Emperor of a conferred Empire."

"Of course, that's only in terms of the status of an Empire. If Grandmaster Sima were to take the formation master examination and display his formation Master badge, even the Emperor of a conferred Empire would have to treat him with respect."

"Since we're already here, Grandmaster Sima, why don't you take some time to come back to the martial union branch with me? In addition to letting me entertain Grandmaster Sima as a good host, I'll also receive the reward for this contribution!"

The language of assimilation gave a simple introduction to the titled empires and changed the topic, inviting Lin Yi to the branch in the capital.

On the surface, it was like that, but in fact, the language of monsters had some other thoughts.

He wanted to take advantage of Lin Yi's low-profile and ignorant background to steal a chicken.

What if they managed to rope in this formation master to the branch? that would be a great achievement!

Chapter 8030

Even if it didn't work out, it didn't matter. He could take a step back and recommend the person to the martial Alliance. The credit of recommending and discovering the talent wouldn't run away.

Lin Yi didn't think that the monster language was so complicated. It wasn't far from the naduo conferred Empire's capital anyway, and it'd be a good idea to check it out.

In fact, what surprised Lin Yi the most was the name Xuanji nado!

It was obvious that the Empire was named after Starlight wizard nado.

However, the human warriors had already broken off with the wizard tribe, so why did the conferred empires still use the name of the Starlight wizard, na duo?

The strangest thing was that the martial Alliance's branch was also called the nado illusion branch!

However, when he thought about it, perhaps this place was named after this man when he was a peak Starlight great wizard.

However, things had changed with the passage of time. Perhaps there were many people who knew about the history of the Great Starlight wizard, but not many people knew that the real name of the great Starlight wizard was nado.

Just like the emperors in the history of the secular world, there were many people who could call out their titles, but there were not many who knew the emperor's taboo name.

For example, what was the name of Han Xuan Emperor?

Therefore, even if the human warriors and the wizard tribe had fallen out, the people here probably didn't know that naduo was the name of a great wizard. They might just think that it was the name of a place.

"Then I'll have to trouble vice Hall Master Hua! I'll be able to witness the prosperity of a conferred Empire's capital!"

Lin Yi said with a smile before following the beast into the city.

At first, Lin Yi didn't think much of it-after all, he'd come from the secular world, and had seen a lot of special effects on TV. He wasn't too surprised by the capital's prosperity.

However, when Lin Yi entered the nado conferred Empire's capital, he was truly shocked!

The capital of a conferred Empire was truly not just any ordinary bustling city!

No matter from which aspect, it was far superior to the imperial capital of the Hong Shang Empire.

As expected of the capital of a conferred Empire!

The streets, the buildings, the shops, the culture, and the clothes ... It was simply like a demonic city of the secular world!

Compared to this place, the imperial capital of the Hong Shang Empire was just a second-tier city.

However, Lin Yi believed that if he stayed in the Hong Shang Empire, it wouldn't take long for the Empire to be on par with this place, or even surpass it!

However, Lin Yi couldn't stay here. He had more important things to do.

Just as Lin Yi entered the naduo Imperial City and was shocked by the prosperity, on the other side of the city, the transfer of power was going on in the Imperial City of Hong Shang.

The newly established Hong Shang Empire had already experienced its second change in the throne in such a short period of time!

Liu Ziyu had been under house arrest ever since Lin Yi and the others had retreated.

During this period of time, with Ling lingfa's support, Sima zhengxin had been preparing for the abdication, and today was the day he had chosen!

Liu Ziyu was "invited out" and expressionlessly participated in his second succession ceremony in a short time.

The first time was when he took the throne from Lin Yi, and the second time was when he gave the throne to his grandfather.

No one cared about Liu Ziyu's thoughts. When the ceremony was over, he, the deposed Emperor, was once again imprisoned in a small courtyard outside the palace.

Other than two eunuchs and maidservants, there was not a single servant!

On the contrary, the courtyard was surrounded by imperial soldiers. They were supposed to protect it, but in reality, they were like prison guards!

"Yu lang, are we going to die of old age in this small courtyard, unable to even take a single step out for the rest of our lives?"

Other than the two servants, the third Princess was the only one who accompanied Liu Ziyu.

From the Empress of the Empire, she had directly become a prisoner. At first, she had been crying all day long, but now she was much calmer.

He didn't know if it was because he was disheartened or if he had really gotten over it.

At this moment, the third Princess was snuggling up to Liu Ziyu, quietly looking at the blue sky and white clouds in the sky. She sighed softly and said, ""I'm really envious of the White clouds in the sky, being able to travel ten thousand miles with the wind ..."

"I've implicated you ..."

Liu Ziyu put his arm around the third princess's shoulder, a hint of pity flashing through his eyes.

She was a pampered daughter of the heavens, and even if she wasn't the Empress of an Empire, she was still an extremely noble person.

But now, he had been reduced to a prisoner, and his range of activity was only in such a small courtyard. This really made Liu Ziyu feel guilty!

"Yulang, don't say that. Husband and wife are one, what's there to be implicated or not? You're the Emperor, and I can share the glory with you, becoming the motherly Empress of the World. You're a commoner, and I can also worry about the daily necessities with you, and be an ordinary woman!"

The third Princess was still looking at the sky, but she smiled. ""Freedom is indeed something that one yearns for, but the most important thing is to be with you. In fact, it's quite good now that I can have you by my side at all times. There's nothing bad about dying of old age here!"

Liu Ziyu couldn't help but reveal a bitter smile.

How could the third Princess know what firewood, rice, oil, salt, sauce, vinegar, and tea were before? At most, he could only recognize these few words.

But now, he really needed to worry about this!

Because the resources after being imprisoned would not be too abundant, the third Princess was forced to learn to live a frugal life.

"It's so good ... To have you!"

Liu Ziyu hugged his wife tightly, his eyes suddenly becoming firm. ""But don't worry, I believe we won't stay here forever! Cousin Zhong da will definitely return! He'll definitely make a comeback and save us all!"

"Whatever the Sima clan took from us, cousin Zhong da will take it back! He would lead the 800 blood spirits that dominated the world and rule the imperial capital again! This day will definitely not be too far away!"

The third princess's eyes were dazed for a moment, but when she heard Liu Ziyu's affirmative tone, she didn't think so.

Lin Yi was running away with heavy injuries, and it was obvious that he wasn't a match for the man in the weird armor. Even if he was fully recovered, what was the use?

The eight hundred blood spirits were indeed famous, but even Sima Zhongda, the commander, could not withstand a single blow. What could the blood spirits do?

"Mm ... Yulang said that cousin Zhong da will return, so he will definitely return!"

The third Princess did not think much of it, but she still chose to support Liu Ziyu.

Perhaps it was not a bad thing to leave a memory for her husband. "Yu lang, let's wait together for cousin Zhong da to return! Even if he doesn't come back, it's fine. We still have each other! Isn't it?"

"Yes ... I still have you, and you still have me! The rest are indeed not important!"

The softness in Liu Ziyu's heart was touched, and his face became gentle.

The only two outsiders in the small courtyard, a little eunuch and a little maidservant, both tactfully avoided the two people.

If he had stayed by the side, he would have been able to save on today's food and would have been full just from being fed dog food!
