

Bodyguard 8031

Chapter 8031

Liu Ziyu and his wife were in a good mood, but the other person was on the verge of a mental breakdown.

As the Father of the deposed Empress and a Prince of a conferred Kingdom, Prince long bang was naturally implicated as well. He was also confined in a small courtyard.

His treatment was even worse. He only had a manservant to order him around, and the daily supplies he had were even less than Liu Ziyu and his wife 's!

The Prince of a conferred Kingdom, the father-in-law of the Emperor, the Father of the Empress, and the newly appointed father-in-law of the country had actually been reduced to a prisoner!

The contrast was too great, and the Prince of the long bang could not accept it!

His heart was filled with regret. If he had known that this would be the result, he would not have come to the imperial capital to seek refuge with Liu Ziyu. Wouldn't it have been better if he had continued to collude with the fire Empire as planned and thrown himself into the arms of the fire Empire?

Really, why bother!

Unfortunately, the Prince of the long bang had now become an unremarkable prisoner.

Not to mention the fire Empire, even the current upper echelons of the Hong Shang Empire had quickly forgotten about him.

For example, after successfully snatching the throne, Sima Zhengxin, who was so full of himself, had already forgotten about the Prince of the Long Bang!

At this moment, Sima Zhengxin was extremely comfortable in the palace. To be able to become the Emperor at this age, he could die in peace!

"Sima Zhengxin, I've already done everything I promised you. Shouldn't you fulfill your promise as well?"

Ling Lingfa suddenly appeared in Sima Zhengxin's Imperial study and sat on a chair at the side naturally. "You're busy, did you forget?"

A look of fear flashed across Sima Zhengxin's eyes before he smiled, "How could I! If not for teacher's help, how could I have ascended the throne? I will remember Sir's kindness in my heart! Naturally, I wouldn't dare to forget about teacher's matters. I've already made arrangements. "

Ling Lingfa smiled and nodded. "Thank you. Where are the people you've arranged?"

"There are already 300 people who meet the requirements locked up in the Imperial prison. If you need them, you can take them away at any time."

Sima zhengxin didn't hesitate, taking out a gold medal and presenting it to Ling lingfa with both hands,""With this token, no one will question you, and you can directly pick someone up!"

"Only 300 people? Is there only 300 people who meet the requirements for an Empire?"

Ling lingfa's face darkened. He was obviously not satisfied with the number."Before the Shanlian Empire was destroyed, only a few hundred thousand people died. Now that the Hong Shang Empire has inherited the entire Shanlian Empire, there are millions of soldiers who surrendered. You're telling me there are only three hundred people?"

"Hehe!" Your Majesty, are you trying to brush me off? Or do you think that you can easily send me away with just 300 people?"

These words were a little heavy. Sima zhengxin wiped the cold sweat from his forehead and quickly smiled apologetically,"You're too kind, Sir, you've misunderstood! I just took over the Hong Shang Empire and haven't completely controlled it yet!"

"The number of soldiers left by the Shanlian Empire is indeed not small, but there is no reason to transfer the elite soldiers on a large scale, right? Even if he could, he would need time! Besides, it's not easy to meet Sir's requirements ..."

Facing Sima zhengxin's careful explanation, Ling lingfa felt a little impatient and waved his hand to interrupt,"Alright, let's not talk about these useless things! Just tell me, how much time do I need to gather the first batch of materials I need?"

Ling lingfa and Sima zhengxin's agreement was to provide 1000 qualified test subjects in the first batch. If it wasn't for the higher requirements of quantity and quality, Ling lingfa wouldn't have helped Sima zhengxin to control an Empire.

It would be too troublesome to do this with just his own people, so it was more convenient to raise a puppet.

That was why Sima zhengxin was chosen to be the Emperor. Of course, Lin Yi was also one of the reasons, or Ling lingfa wouldn't have taken a liking to the Sima family.

"Three days ... No, please give me five more days, Sir. I'll definitely be able to gather the amount you requested."

Sima zhengxin gritted his teeth and gave a time limit that he thought was appropriate. Then, he carefully waited for Ling lingfa's reaction.

"Alright, I'll give you five more days!" Ling lingfa snorted. I'll go and take away those three hundred people first. I hope that you'll be able to fulfill your promise after five days!"

As for whether Sima zhengxin would directly transfer manpower from the imperial capital's Garrison or send people to search for suitable candidates, Ling lingfa did not care.

As long as he achieved his goal, Ling lingfa did not even care if the Hong Shang Empire would be destroyed!

Central usually hid behind the scenes to support their forces and would not personally come out.

In any case, there were too many forces that could be supported. If one couldn't do it, they could just change to another. In the end, central wouldn't suffer any losses.

"Of course, of course. Don't worry, Sir. I'll definitely fulfill my promise!"

Sima zhengxin nodded his head repeatedly. Seeing that Ling lingfa was about to leave, he quickly stood up to send him off, "Take care, Sir. I'll send you off!"

Ling lingfa acknowledged it as a form of greeting. With Sima zhengxin, the Emperor, personally sending him off, he left the Imperial study.

After he left, Sima zhengxin kept the smile on his face and his expression started to turn dark.

He had already become the Emperor of the Hong Shang Empire, so he was starting to get impatient with Ling lingfa's attitude and requests.

If it wasn't for the fact that he didn't have the ability to deal with Ling lingfa for now, Sima zhengxin would have already turned hostile.

Who the hell would want to have such a bossy retired emperor above their heads after becoming the Emperor?

Although Ling lingfa did not have the title of the retired emperor, he considered himself to be the retired emperor!

Sima zhengxin's eyes darkened. As long as he had the chance, he would kill Ling lingfa!

If he didn't have the chance ... He could only continue hiding!

After Ling lingfa left the palace, he didn't go to the Imperial prison personally. Instead, after dark, he sent two people from central to carry out the task with the token.

Three hundred prisoners, in the Army, were the most elite soldiers. Sima zhengxin had indeed spent some effort to gather this small number of people.

But then again, it wasn't too hard to do something like this in the name of purging Lin Yi and Liu Ziyu's factions.

It was just that the quality requirements were higher, so Sima zhengxin couldn't get too many.

If Ling lingfa didn't ask for it, not to mention a thousand, even ten thousand ordinary soldiers, Sima zhengxin could give it to Ling lingfa without a frown.

This group of people was sent to the secret research room that central had built outside the Imperial City. Ling lingfa was satisfied after checking.

They were all very suitable test subjects. Needless to say, all of them had entered the experimental stage and were injected with the drug developed by the center. The amount and composition of the drug used by each person had slight differences. It could be said that they were all different.

It was really hard to say how many of these three hundred people would survive in the end ...

Five days later, Sima zhengxin's side gathered the remaining seven hundred people. The first batch of test subjects that both sides had agreed on was finally delivered.

Chapter 8032 The End

By the time these 700 people entered the research base, more than 200 of the original 300 people had died. Now, there were only about 60 people left.

The failed potion was then adjusted and injected into the body of the new test subject.

With the consumption of human lives, the central Research Center's medicine could gradually be perfected.

Central couldn't do anything when Lin Yi destroyed the bio-humans 'data and most of the crucial data.

The grey-robed man probably wanted to kill Lin Yi because of Lin boliang, the teaching assistant.

Maybe he was just venting his anger, or maybe he really wanted to get rid of Lin Yi.

The important thing was that Lin Yi was still alive, and the thousand test subjects were only the first batch. It was just the beginning.

On Sima zhengxin's side, they had already started the preparations for the second batch of test subjects.

He felt very aggrieved about this matter. He wasn't Ling lingfa's match, so he didn't dare to refute.

In the past, in order to ascend to the throne, he would agree to any conditions. But now, as the Emperor, he couldn't do anything that would harm his own country!

However, Sima zhengxin had no other choice and could only give the order.

At this time, Lin Yi was already on his way to the Imperial City of the Hong Shang Empire!

In order to get on Lin Yi's good side, the language of manifestations gave Lin Yi the fastest flying spirit beast.

Lin Yi rode on his spirit beast and rushed back to Hong Shang Empire!

Lin Yi let out a breath of relief after returning to the Imperial City and looking at the peaceful city.

What he was most afraid of was that Sima zhengxin would be in a good position and mess around Under Ling lingfa's instigation.

To be honest, Lin Yi was afraid that he'd see hell on earth before he landed, with a city full of bio-humans and dark beasts ...

That would be irreversible.

Since the city was fine, Lin Yi didn't waste any more time and sneaked into the palace.

He'd been to the palace before, and he was familiar with the layout. He went straight to the emperor's study without alerting any guards.

Of course, with Lin Yi's current strength, no one could stop him even if he tried to force his way in.

Sima zhengxin had just arranged for people to look for the experimentals, and was about to close his eyes and rest for a while when an abrupt voice sounded from behind him.

"Sima zhengxin, how does it feel to be an Emperor? Aren't you happy?"

"Who is it? Who's that?"

With a bang, Sima zhengxin's heart almost fell out. It turned out that Sima was biased!

"Who's talking? Who is it?"

Sima zhengxin was scared out of his wits. He raised his head and saw Lin Yi who was smiling in front of him!

"Sima zhengxin, you've already forgotten your 'grandson' s 'voice? My good Grandpa, why haven't you passed away yet?"

Lin Yi looked down at Sima zhengxin, not sure if he was angry or smiling.

Seeing Lin Yi suddenly appear in front of him, Sima zhengxin's face was full of shock, and he was a little panicked,""Sima Yi, you ... Why are you ... Here! Men! There's an assassin!"

To be honest, during this period of time, Sima Zheng was mostly thinking about how to deal with Ling lingfa.

As for Lin Yi, who had already escaped, he didn't even consider him at all. He had already thrown him to the back of his mind.

Because, Sima zhengxin didn't think that Lin Yi could come back alive.

He had been the Emperor for a long time, and Sima zhengxin had already found some information about the founding of the Empire and the Forest of Illusions in the empire's records and library.

According to Ling lingfa, Lin Yi had escaped into the forest of Illusions, which was full of dark magical beasts. Even a sea Rift realm master would have a slim chance of survival, let alone Lin Yi, who was injured and on the verge of death.

As such, in Sima zhengxin's eyes, Lin Yi was already the dark Demon beast's snack.

However, the only thing that made Sima zhengxin feel at ease was that Lin Yi didn't seem to be hiding his strength. It looked like he was only at the peak of the Golden core stage, not very high.

It seemed that his injuries had recovered, but his strength had not increased!

As long as that was the case, Ling lingfa would still be able to take down Lin Yi.

At this moment, Sima zhengxin didn't want to get rid of Ling lingfa anymore. It was good to have an Iron Man who could restrain Lin Yi.

"There's no need to wake them up. The people outside are already asleep. Everyone is working so hard. It's not too much to take a short rest, right?"

Shrugging innocently, Lin Yi put on a teasing smile and walked to the chair beside Sima zhengxin. ""There's nothing important for me to come here today. It's just that you're old and don't have enough energy. In any case, you've already had your fun as the Emperor and sat on the Dragon Throne, so isn't it time to give up the throne?"

"Haha, it's rare for you to be so concerned about grandpa's health!"

Sima zhengxin was indeed a cunning old fox. After the initial panic, he quickly calmed down and quietly pressed a button on his wrist.

This was the signal device to call for Ling lingfa and Sima Zhongxiao to come to the rescue in an emergency.

Not to mention Ling Ling, Sima Zhongxiao should be able to rush over soon with his new armor.

Delay for a while!

"Sima Yi, it's true that you established the Hong Shang Empire, but it's my world now. No matter what, you once called me grandfather, so we're all one family. Why are you in such a hurry to kill each other?"

After Sima Zhengxin calmed down, he started to move his tongue to stall for time and try to persuade Lin Yi, ""My son, Sima Yunqi, has always treated you as his own. Since you are willing to acknowledge him as your father, it doesn't matter if you are his biological son or not. Everyone's surname is Sima, so I will treat you as my biological grandson. How about it?"

Lin Yi's lips twitched. This old thief, it was fine if he wanted to act, but now he wanted to take advantage of him. Who the hell wanted to be his grandson?

I don't even care if you want to be my grandson!

"Not much! My relationship with my father has nothing to do with you, Sima Zhengxin! I'm here today to inform you to quickly return the throne to Ziyu, or else you'll have to bear the consequences!"

He tapped his fingers on the arm of the chair and looked at Sima Zhengxin indifferently, ""Or you can try to fight back if you're not satisfied. We can see the real deal with our own hands!"

"Sima Yi, listen to me. The Hong Shang Empire has just been established, and it's not suitable for such frequent changes to the throne. It's like child's play ... This will destroy the Hong Shang Empire!"

Sima zhengxin continued to stall for time and said in a serious tone, ""All of you are still too young. When it comes to governing a country, I'm definitely more suitable. I'm old, and I can only sit on the throne for a few more years. When that time comes, won't the Empire still be yours?"

"Yunqi is a good boy. He's good at both civil and military affairs. I'm already considering making him the Crown Prince. Once Yunqi ascends the throne and becomes the Emperor, you'll naturally be the best candidate for the Crown Prince position. By then, if you're willing, you can be the Crown Prince. If you're not, it's no problem to give it to Ziyu!"

Chapter 8033

"Isn't this a happy ending? Why did he have to make everyone unhappy? I don't ask for much. I just want to be the Emperor for a few years, and then lie in the coffin as the Emperor! Sima Yi, can't you fulfill an old man's wish?"

In order to delay time, Sima zhengxin could really say anything.

But Lin Yi knew that the old man was just talking nonsense!

Just the position of the Crown Prince, Sima Zheng Xin would definitely not give it to Sima Yun Qi, because Sima Yun Qi did not have a biological son!

No matter if it was Lin Yi or Liu Ziyu, they were not from the Sima family. If the Crown Prince was given to Sima Yunqi, the Hong Shang Empire would definitely break away from the control of the Sima family!

As such, Sima Zheng Xin only had one candidate for the Crown Prince, Sima Yun Fei. After Sima Yun Fei, it was Sima Zhong Xiao!

This was the complete inheritance of the Sima clan!

"Are you done? After I'm done, you should still remember what you said that day, right? I'm not a member of your Sima clan!"

Lin Yi's face was full of mockery as he looked at Sima zhengxin coldly, ""Now you're telling me this again, what's the point?"

Whether it was meaningful or not, everyone knew that Sima zhengxin was stalling for time. Lin Yi knew that too, but he was happy to see it.

Ling lingfa was a slippery guy, and it'd take Lin Yi some time to find him if he went straight to him.

However, if he were to use the matter of forcing Sima zhengxin to abdicate, Ling lingfa would definitely jump out on his own.

The two of them had their own plans, so they tacitly played Tai Chi and talked meaningless words to each other.

Very quickly, the reinforcements that Sima zhengxin had been waiting for arrived.

However, it was only Sima Zhongxiao, not the Ling lingfa that Lin Yi was expecting.

Sima Zhongxiao, who was wearing a new battle armor, rushed in and saw Lin Yi. He was shocked!

"Sima Yi! You ... Why aren't you dead yet?"

Sima Zhongxiao was still traumatized by Lin Yi's existence, so he was a little scared when he saw Lin Yi, ""You, you, you, if you didn't die, you should have hidden properly. You actually dared to come here to court death! Who gave you the courage?"

Lin Yi glanced at Sima Zhongxiao indifferently. This brat's appearance was tough on the outside but weak on the inside, it was really funny!

If he really had the confidence, he wouldn't talk nonsense at all and would just do it!

The fact that he refused to come over showed that he was guilty and short of breath.

"Ha ... Sima Zhongxiao, you're not dead yet, why should I die? It seems that you're doing well. Are you still waiting for your old man to be made the Crown Prince, and then you'll become the Imperial grandson?"

Lin Yi didn't even bother to deal with Sima Zhongxiao before Ling Ling sent the message. He continued to stall for time, ""It's a pity that the Hong Shang Empire is about to be restored to order. Your Sima clan has nothing to do with the Hong Shang Empire anymore. You can forget about the Crown Prince and the Imperial grandson!"

"Hahaha, Sima Yi, you think you can change the situation by yourself? Open your eyes and take a good look! The Hong Shang Empire already belongs to our Sima clan. No matter how unwilling you are, you can't change this fact!"

Sima Zhongxiao felt guilty, but in front of Sima Zheng Xin, he had to raise his image. Otherwise, Sima Zheng Xin might not have made him the Imperial grandson!

After all, he was not the only son of his old man, Sima Yunfei ...

Lin Yi was about to mock Sima Zhongxiao again when his spirit sense detected another person in armor quickly approaching. He smiled.

Ling Ling fa!

You're finally here!

"Alright, enough of the nonsense! Sima Zheng Xin, obediently return the throne to Zi Yu. Otherwise, other than my father's line, I will completely wipe out the Sima clan!"

Lin Yi said as he stood up slowly, exuding a thick killing intent.

Sima zhengxin and Sima Zhongxiao's hearts trembled as they finally realized that Lin Yi wasn't joking!

After all, in the previous Shanlian Empire, from Emperor Sante to the elder, to a few princes, and even the Masters of the National Hall, Lin Yi had wiped them all out!

If they could not think of a way to suppress Sima Yi today, then the Sima clan would really be annihilated!

However, what was Ling lingfa doing? why wasn't he here yet?

When they wanted the experimentals, they came very quickly, but when they really ran into trouble, they would disappear without a trace.

Sima zhengxin cursed in his heart and was extremely anxious.

On the other side, Sima Zhongxiao wanted to launch a sneak attack, but he didn't dare to.

How could Lin Yi not have a trump card if he dared to come back and appear in the palace alone?

He wasn't Lin Yi's match before, and he still wasn't.

Even though he had a new set of armor, he still did not feel safe at all!

"Sima Zhongxiao, do you want to make a move? It's okay, you can try!"

It was as if Lin Yi had seen through Sima Zhongxiao's heart, and he said this in a calm tone that made Sima Zhongxiao's heart tremble!

With that, Sima Zhongxiao did not dare to act rashly!

"Sima Yi, don't be too arrogant. Do you really think I don't dare to deal with you?"

Sima Zhongxiao was as fierce as ever, and even pulled Sima zhengxin as a shield, "Imperial grandfather didn't say anything, so I'll let you have your way for now. Try being arrogant again ..."

"Zhongxiao, go and delay them for a while. Mr. Ling will come to help you immediately!"

Sima zhengxin said.

"Gah!"

Sima Zhongxiao was dumbfounded. This ... Imperial grandfather, are you sending your grandson to his death?

"Alright, I'll give my grandfather some face. Let's start! Pay attention, I'm going to make my move!"

With a loud shout, Lin Yi went up and gave Sima Zhongxiao a big slap on the face, sending him flying to the ground.

Although this guy was wearing armor, he didn't put on his helmet. As a result, a big bump grew on his head.

Lin Yi was speechless as well. He didn't even use spirit sense collision, and Sima Zhongxiao was knocked out with just a slap from a peak Jindan?

Sima zhengxin looked coldly at his grandson, who was on the ground and couldn't get up, and felt a wave of sorrow in his heart.

Was this kind of useless trash really going to be the Empire's successor?

It seemed that he had to quickly take in a concubine and have another one!

"You ... You dare to hit me? How can you be so arrogant?"

Sima Zhongxiao growled in a muffled voice, ""I wasn't even ready, and you attacked me!"

"Is that so? But I'm not as arrogant as you say, right? Since you're not ready, why don't you try again?"

Lin Yi bent down and grabbed Sima Zhongxiao's neck, lifting him up from the ground. "Excuse me, are you ready now? I'm going to make my move!"

"Uh uh uh ... Gah!"

Sima Zhongxiao's face turned red as he waved his hands around and whimpered. He wanted to say something but couldn't.

Chapter 8034

"Sima Yi, let Zhongxiao go. You were brothers for a period of time after all ..."

Sima Zheng Xin really wanted to give up on Sima Zhong Xiao, this disgraceful thing, but in his grandson's generation, only Sima Zhong Xiao could be considered to have some ability.

The most important thing was that Ling lingfa was contacted by Sima Zhongxiao, so he had the best relationship with central!

Without a new son, Sima zhengxin had no choice but to put down his pride and beg Lin Yi.

"I'm sorry, but I'm not fit to be Sima Zhongxiao's brother. Please don't say that, old man, or you'll make me feel bad! I really don't deserve it!"

With a wave of his hand, Lin Yi quickly cleared his name and threw Sima Zhongxiao to the side, ""However, I don't intend to kill him. I'll spare him for the time being. If you don't want to give up your position, then I'll use him as the start of the bloodbath in the Sima clan."

"Cough cough!"

Sima Zhongxiao clutched his throat and looked at Lin Yi in fear. He couldn't help but cough as he wriggled on the ground subconsciously, quickly distancing himself from Lin Yi.

"Ling lingfa, I've been waiting for you for a long time. You're finally here!"

Lin Yi threw Sima Zhongxiao aside, mainly because he already knew that Ling Ling had hit the jackpot. He had no interest in dealing with such an insignificant person, "What's wrong? Want to sneak attack? It's quite in line with your despicable character!"

"Hahaha, I don't need to sneak attack you. What can I do if I fight you head-on?"

Ling lingfa, who was wearing battle armor, walked in with a big laugh. This time, he was wearing a helmet.

It seemed like Ling lingfa was very careful with Lin Yi and didn't make the same mistake as Sima Zhongxiao.

Not only could this helmet defend against physical attacks, but it could also defend against most spiritual attacks.

But to be honest, Ling lingfa was shocked when he saw Lin Yi!

He was the same as Sima zhengxin. He didn't expect Lin Yi to come back alive after entering the forest of Illusions in a half-dead state!

Did Lin Yi enter a fake Forest of Illusions? Otherwise, how could he have come out unscathed?

Ling Ling asked herself. Even with the armor, she might not be able to pass through the forest of Illusions freely, right?

Not to mention, Lin Yi was in such a weak state before. Not only did he come out, but he even recovered! This was unbelievable!

This was also the reason why Ling lingfa was so focused on his research that he didn't bother with Lin Yi.

"If we fight face to face, then I'll kill you! What else can I do?"

In fact, Lin Yi wasn't confident that he could win for sure. He just wasn't as afraid of Ling Ling getting rich as last time, so he dared to say a few harsh words.

If it was only his consciousness that recovered, he wouldn't have dared to act cool.

At the very least, before he could contact Han Jingjing and find a solution, he would not dare to confront Ling lingfa directly.

But now, it was different. After Wu Linghai became the leader, even if he couldn't kill Ling lingfa, Ling lingfa wouldn't be able to kill himself.

With a cold laugh, Lin Yi charged at Ling lingfa!

Ling lingfa wasn't afraid at all. He raised his hand and launched a nano-consciousness particle attack.

"Hahahaha, you didn't expect this, did you? Do you think that I've used up my ultimate weapon?"

Last time, Ling lingfa did use up all his spiritual awareness particles, but now, Ling lingfa had a new one!

Of course, this wasn't for Lin Yi, it was for other Masters.

Similarly, through reading the history and information of the Shanlian Empire, Ling lingfa had also learned of the existence of the martial Alliance, which was above the Empire. The experts of the martial Alliance could also activate their divine sense!

In the martial Academies under the martial Alliance's jurisdiction, the divine sense was also a course.

In order to prevent any divine sense experts from martial League from seeking revenge, Ling lingfa painstakingly produced another round of nano divine sense particles as a backup.

After all, the Hong Shang Empire was obtained by usurping the throne, and Ling lingfa was afraid that martial Alliance would find trouble with them.

She didn't expect Lin Yi to come back before the people from martial League.

However, no matter how Lin Yi recovered, Ling Ling was confident that she could cripple him again.

"BOOM!"

The laser beam pierced through Lin Yi's body, and he didn't even try to Dodge it.

Ling Ling was stunned. What did this mean? fearless of death? Suicide Squad? Charge forward to die?

In the next second, Ling lingfa realized that the laser particles were useless against Lin Yi!

It seemed like the thing didn't affect Lin Yi at all-he was still charging over, not even pausing for a second.

Ling lingfa was shocked, but Lin Yi calmed down.

Just as Luo caidie had said, as long as Wu Linghai was successful, all the attacks on deified soul would be useless.

In other words, the Wu Linghai and the deified soul sea had similar functions, but the materials used were different.

Now, the only way to destroy it was to attack Wu Linghai. Ling lingfa's method could only destroy the sea of consciousness.

Of course, Lin Yi gritted his teeth and took the risk. If he didn't confirm it with naduo, he wouldn't have dared to take the hit.

If it really didn't work ... Anyway, he still had his little temporary worker na duo. At most, he would just let him repair it again!

With the ghostly thing and the nine neonate, this hatchet man, watching from the side, he would not dare to play any tricks.

Fortunately, Wu Linghai was indeed powerful and completely blocked Ling lingfa's divine sense attack!

In that case, what was there to be afraid of?

"Hahahaha, Ling lingfa, the same trick is useless against cultivators! Do you still have any new tricks? If not, then it's my turn to fight back!"

With a laugh, Lin Yi charged at Ling lingfa. With the newly born Wu Linghai as his Foundation, he started to activate all sorts of divine sense skills.

The collision of divine senses, the whirlpool of divine sense alchemy fire ... Surrounded Ling lingfa's head and attacked continuously.

Although Ling lingfa's armor could defend against divine sense attacks, there was still a limit.

Lin Yi's spirit sense attacks had already surpassed the sea-shattering realm and were almost at the heaven-breaking realm.

However, he was only at the heaven breaking stage.

It seemed like Ling lingfa's armor was even more durable than Lin Yi had expected. Central's technology really couldn't be measured with common sense.

In the face of such a violent divine sense attack, Ling lingfa only trembled for a moment before he directly withstood it!

"Divine sense attack and defense are fully activated, able to defend against a complete heaven crushing expert, beep, beep!"

Ling lingfa pressed some sort of button, and the sound of the armor being deformed came from it. After that, there was another sound. "Physical defense has been reduced to the early stage of the sea Rift realm."

What a trap!

Lin Yi was speechless.

This armor actually had the ability to adjust attributes. One could lower one of the defense attributes and then increase the other attributes.

Chapter 8035

After all, Lin Yi's physical attack was at the peak of the Golden core realm, and even if he could fight on par with a nascent soul cultivator, Ling lingfa could still fight against a sea Rift cultivator even if he lowered his power!

However, the defensive ability of spiritual sense attacks had been raised to the great circle of heaven crushing!

This way, even if Lin Yi was exhausted to death, he wouldn't be able to cause any harm to Ling lingfa.

"Hahaha, Lin Yi, what do you think? Are you exhausted?"

Ling lingfa put his hands behind his back and waited for Lin Yi's attack,""I'll just stand here and let you hit me, but you can't beat me!"

That's right, Lin Yi really didn't have any tricks up his sleeve.

Sima Zhongxiao was dumbfounded-he was acting like that the other day too, why was he frozen and killed by Lin Yi?

In the end, he still didn't know much about the control of Warframes, and he wasn't as familiar as Ling lingfa.

If Lin Yi switched to a physical attack and used his cold Qi to freeze Ling lingfa's armor, Ling lingfa would probably react immediately.

"I'm not tired, but you're really making things difficult for me!"

After understanding the theory behind the armor, Lin Yi knew that there was no point in trying.

Humans and technology were different-humans could make mistakes, but technology couldn't. Lin Yi couldn't find any flaws in his opponent yet.

"Hahahaha, Sima Yi, are you done? I'm telling you, once my master makes a move, you'll only be able to get beaten up!"

Seeing that Lin Yi was at his wit's end, Sima Zhongxiao perked up and stood up, ""Why didn't you say so earlier? Just do it!"

Sima zhengxin heaved a sigh of relief as well. It seemed like even if he had to lower himself in front of Ling lingfa, he would still have to keep him by his side.

But Lin Yi didn't pay them any mind-he was frowning, thinking of a plan.

"Are you stupid? you used Wu Linghai to activate your deified soul skill. Isn't that overkill?"

Just as Lin Yi was at his wit's end, a voice suddenly rang out in his consciousness.

It was the Starlight wizard, na duo!

"I'll kick your grandmother's butt! Do you know how to speak? Why are you talking to big brother?"

The nine neonate had been staring at the Starlight sorcerer for the past few days and wanted to find an opportunity to beat him up.

Previously, when jiuying was his underling, he would be beaten up for no reason.

Now, without the order of the ghostly thing, the nine neonate did not dare to hit naduo for no reason. It could only wait for an opportunity.

When the opportunity came, the Starlight Magus was beaten up like rotten wood!

"I was wrong, I was wrong. I didn't warn big brother before. It's all my fault!"

"Stop!" Na duo explained hurriedly, "stop! Stop!"

"It's fine if you don't fight. Tell me, how can you get rid of that metal shell?"

The nine neonate snorted coldly, patted the Starlight shaman's head, and questioned him.

When Lin Yi was fighting, he used all his spirit sense, so he didn't seal the connection between him and the Jade space. So the ghostly thing, the nine neonate, and the Starlight Magus could all feel the situation outside.

If Lin Yi didn't want them to see it, he'd just shut it off.

Otherwise, it would be too awkward sometimes.

"Of course I'm going to use the skills of a senior Magus!"

Speaking of this, the Starlight wizard was very proud. "A senior Magus" skill is similar to a soul consciousness attack, but it is also different! You can think of the skills of a senior Magus as the upgrade of a spirit sea skill!"

"Get to the point. If I listen to your nonsense, big brother will lose in a while!"

The nine neonate gave another flying kick, kicking the Starlight sorcerer until he had no temper.

"Tell me, I'll tell you. Big brother, you just need to practice some witch race skills and kill that iron can directly!"

Afraid of being beaten up, the Starlight Magus hurriedly said, ""I'll teach you the most awesome skill I know!"

"How long do I need to learn?"

Lin Yi, who had been watching from the side, interjected. This was the question he was most concerned about.

"Like me, I've learned it for a few years and have some small success. For someone as awesome as big brother, he'll probably be faster than me, about a year!"

Starlight great witch thought for a while and said fawningly.

"F * ck your grandmother's butt!"

The nine neonate was so angry that it began to kick him repeatedly. "A year later, the grass on big brother's grave will be a foot tall!"

"What are you saying?"

The ghastly thing frowned.

"Argh, wait, one year later. Don't you have to wait for one year to take revenge?"

The nine neonate subconsciously covered its head, afraid that it would be hit by the ghostly thing, so it quickly changed the topic. "Na duo, say something useful or I'll cut you to death!"

"I ... I ..."

The Starlight sorcerer stammered, unable to think of a good idea for a while.

However, the conversation reminded Lin Yi.

It was too late to start training now, but don't forget that Lin Yi had learned the ghost Yin curse technique, a witch race skill!

However, this skill was more of a curse and could not be used as a direct attack.

It wasn't impossible to turn it into an offensive skill-Lin Yi was an expert in combination and imitation.

Back then, he had not learned the original version of the soul snatching hand and so on. He had researched and figured it out by himself.

Lin Yi tried to use the ghost Yin curse technique to activate the collision of consciousness.

To Lin Yi, this sort of method was a piece of cake.

He had easily and happily activated a Yin ghost collision!

Ling lingfa, who had been standing proudly without hands, suddenly staggered and his expression changed!

Lin Yi didn't hesitate after the first hit!

Ghost Yin collision, ghost Yin collision, collision, collision, collision, collision, collision, collision, collision, collision,
collision, collision, collision, collision!

"BOOM!"

After a loud bang, Ling lingfa's body began to emit crackling sparks.

Obviously, the armor couldn't withstand the continuous, unknown, and irresistible attacks, and it was on the verge of collapse.

"Bang!"

With another loud noise, the protective shield on Ling lingfa's head exploded, turning into a pile of broken glass shards and drizzling rain.

Even if the armor couldn't withstand Lin Yi's continuous ramming, Ling lingfa could still come up with some countermeasures.

However, even though the collision of ghost Yin and consciousness was triggered in different ways, the effect was very similar.

So, before Ling lingfa could react, he was knocked unconscious by the [Phantom charge] that had penetrated his armor!

Ling lingfa couldn't even withstand the collision of divine sense, let alone the collision of ghostly Yin!

It was Lin Yi's solo performance next.

He took out the demonic devouring sword from the space in the jade pendant and launched a series of attacks at Ling lingfa, sending him into the air!

Along the way, they knocked out the door from Sima zhengxin's Imperial study. In the end, the tinkling Bell fell to the ground and even flicked a few times.

If it wasn't for the fact that his essence spirit was strong, Lin Yi's series of Wu Linghai attacks would've been enough to destroy his essence spirit!

At the same time, if it weren't for the armor on his body being strong enough, the series of attacks from the demonic devouring sword would have turned him into a meat paste long ago!

Chapter 8036

"Ling lingfa, you've lost!"

Lin Yi landed in front of Ling lingfa and stepped on his chest, the demonic devour sword in his hand pointed at his throat. "Do you have any last words? Since we're acquaintances, I can consider helping you complete one or two tasks. "

Ling lingfa had been knocked unconscious by the ghost Yin's charge, but he was jolted awake by the fall and the bounce.

However, Ling lingfa's brain was still in a mess, and he was extremely dizzy. The cold and sharp sword tip on his throat, as well as the killing intent from Lin Yi's body, made him regain some consciousness.

"Wait, you can't kill me!"

Ling lingfa's body went cold. He was sure that Lin Yi really wanted to kill him this time!

However, after thinking about it carefully, although the two of them had occasional conflicts before, they had lived together in peace more than anything else.

But this operation had caused Lin Yi extreme harm, and now that Lin Yi had recovered, even he felt that it would be too fake if Lin Yi didn't want to kill him!

"Are these your last words? Then I'm sorry, you can go die!"

Lin Yi hmphed coldly and was about to make his move.

It was just as Ling lingfa had predicted-Lin Yi really did have the intention to kill this time!

What Alliance, what balance, go to hell!

Since Ling lingfa had wanted to kill him, what else did he have to worry about? Everyone just went their separate ways!

"Wait, wait, wait! You listen to me!"

Ling lingfa was panicking as he felt the tip of the demonic devour sword piercing into his skin. He broke out in cold sweat!

He didn't dare to grab the demonic blade directly, afraid of Lin Yi's violent attack. He could only raise his hands in surrender, ""Give me one minute, let me finish!"

"Alright! If that's your last words!"

Lin Yi stared at Ling lingfa coldly and said, ""Since you're going to die soon, I'll give you one minute. Speak!"

Right now, Ling lingfa was completely suppressed and controlled by Lin Yi. Lin Yi only needed to think about it and he could use his divine sense to take care of him. He didn't have to worry about Ling lingfa playing any tricks.

"Wait a minute ... Let me confirm it. Alright, it's indeed broken!"

Ling lingfa ignored the danger and slowly checked the communication and surveillance devices on the armor. He only let out a breath of relief after making sure that Lin Yi's storm-like attacks had destroyed them.

"Thirty seconds left!"

Lin Yi didn't care what Ling lingfa was doing, and counted coldly.

"Alright, alright, I'll tell you the truth ... Listen well!"

At this point, Ling lingfa lowered his voice even though there were no outsiders around. "Actually, I'm an undercover!"

"What's this?"

Lin Yi blinked as he looked at Ling lingfa in surprise, finding it funny. "Undercover? You've seen too much Infernal Affairs, right? Do you think I'll believe you? There's still 20 seconds left!"

Ling lingfa smiled bitterly and continued in a low voice, ""Believe me, I'm really a spy!"

"Ten seconds!" Lin Yi laughed coldly.

"No, wait! I'm telling the truth! Think about it, have I always been merciful to you? I didn't even think of killing you this time!"

Ling lingfa spoke faster-Lin Yi might really kill him in ten seconds."If I wanted to kill you, do you think I wouldn't have a chance with our previous strength? I only need one sneak attack and you'll be dead!"

"Isn't it? Isn't it? Did I say it wrong? With my strength, isn't it a simple matter to sneak attack you? Why do I have to fight you head on?"

Lin Yi furrowed his brows at Ling lingfa's explanation. He was really confused!

He had to admit that Ling lingfa's words made sense.

Even though Ling lingfa had no chance to launch a sneak attack with the space in the jade pendant, Ling lingfa did not know about the space in the jade pendant. Therefore, this theory was true!

"You were stronger than me in the past, so you didn't bother to sneak attack. Fighting head-on would show your might, so you didn't choose to sneak attack. This is also very reasonable!"

Lin Yi came up with a random excuse, not mentioning that time was up.

Ling lingfa, on the other hand, noticed that Lin Yi seemed to have really stopped his actions. He sighed in relief and pouted, ""I'm not a pretentious leader like you, who likes to act tough head-on! I've always been low-key, and if I can launch a sneak attack, I won't face it head-on. If you weren't a spy, to be honest, you would've died many times!"

"Get lost! If you don't know how to speak, then don't! You can die now!"

Lin Yi said, a breath in his throat. What did she mean by "I'm the head of the pack"? Why do I have to go and fight for no reason?

"Don't! Don't! I'm really a spy. I'll tell you everything now, I'm actually the disciple of Central's higher-up, master Pao!"

Feeling that his neck was already bleeding, Ling lingfa didn't dare to spout any more nonsense. He quickly said with a straight face, ""Master Pao said that you can't die! So, not only will I not kill you, but I'll even save you when you're in danger! If it was a fight between us, we would have gone easy at the crucial moment!"

Lin Yi was a little confused-it did sound a little real!

It seemed to be the case in the abandoned land!

In the end, he had to rely on Ling lingfa to escape.

Besides, this wasn't the first time he had heard of master Pao!

He'd heard about it a long time ago back in the North Island, and that pinliang's rise to power was all because of this master Pao!

Who the hell was this master Pao? Could it be the Zhang naipao that we've never heard from since we went to Sky Class Island together?

If it really was naipao, then a lot of things would make sense!

For example, taking care of Zhong pinliang, and then taking care of him, Zhong pinliang's boss, because of Zhong pinliang.

Lin Yi knew how loyal naipao was-he was the type of person who would repay a drop of water with a spring.

Pinliang had helped his family before, and naipao had even castrated himself to return the favor.

But Lin Yi didn't think so.

Lin Yi knew how strong naipao was-he trained quickly, but no matter how fast he trained, he couldn't reach the top level.

Wasn't this jump a little too big?!

But if this master Pao wasn't Zhang naipao, then who was he? Why did he ask Ling lingfa not to kill him? why did he go easy on him at such a crucial moment?

"Ling lingfa, is what you're saying true?"

Lin Yi asked, deep in thought.

"It must be true! I swear! If there's any lie, let me be struck by lightning, and die a terrible death with ten thousand arrows piercing through my heart!"

Ling lingfa was relieved when he heard Lin Yi's tone change. He quickly made a promise to make Lin Yi believe him.

Chapter 8037

Lin Yi nodded and tested the waters."Who the hell is master Pao? What was his real name? What does he look like?"

"This ... I really don't know! Master Pao is master Pao, everyone calls him that. No one knows his real name, and no one has seen his face ..."

Ling lingfa shook his head with a bitter smile, "I'm not trying to hide it. It's the truth!" All I know is that he's the junior Brother of the mysterious black-clothed man in central. His words carry enormous weight in central!"

"It's like this ..."

Lin Yi, on the other hand, believed him a little-central had always been mysterious, after all, never showing their real names and faces to people.

Ling lingfa was the same. He always wore a bamboo hat and a veil when he appeared. He never revealed his true appearance and even gave himself the name Ling lingfa.

"Let's not talk about the past, let's just talk about this time! Your weapon is enough to destroy my primordial spirit. Isn't that killing me?"

It would be understandable if Ling lingfa didn't have the intention to kill him before, but Lin Yi didn't believe that Ling lingfa didn't have the intention to kill him!

If Ling lingfa didn't go too far that time, Lin Yi wouldn't even have the intention to kill him!

"Your primordial spirit is so powerful, how could it be destroyed so easily?"

Ling lingfa's expression was as if he didn't know who was who. "It's a fact that my attack can severely injure your primordial spirit. There's nothing I can do about it. The center has monitoring means to keep an eye on you. I can't even go easy on you."

"But you definitely won't die! Master Pao's orders were to keep at least a bit of your primordial spirit, and then your body, so you won't die. "

"With master Pao's power, even if you only have a trace of your primordial spirit left, I can definitely restore your sea of consciousness! In addition to keeping your body intact, you only feel like you've taken a nap!"

"Is that so?"

Lin Yi wasn't sure if Ling lingfa was telling the truth, but the killing intent in his heart had lessened considerably.

Since he didn't want to kill anymore, he would let him go.

Putting away the demonic devour sword and his foot on Ling lingfa's chest, Lin Yi waved his hand, signaling for Ling lingfa to stand up.

"Alright, I'll let you go this time. You can go now! Go back and continue to be a spy, but you better not lie to me. If I find out that you're lying, you'll have to bear the consequences!"

"I'm definitely not lying, don't worry!"

Ling Ling stood up numbly. However, the armor on his body was already in tatters, so he decided to just take it off."Then I'll be leaving first, see you again! That's right, the two Sima clansmen inside, do you want me to help you kill them?"

Although Ling lingfa was beaten to the outside of the palace by Lin Yi, and they were conversing softly after that, there was no guarantee that the two who were hiding in the palace didn't hear anything life-threatening.

If Ling lingfa could kill the two of them directly and get rid of any future trouble, it would be considered a safer method for him.

"I'll handle it, you can go first!"

Lin Yi waved his hand, not wanting Ling lingfa to interfere."In the future, central should not get involved in the matters of the Hong Shang Empire. You think of a way to Transfer Central's power out of the Hong Shang Empire."

"I understand, I understand! Leave this to me!"

Ling lingfa agreed without hesitation.

He'd lost to Lin Yi this time anyway, so he had a reasonable excuse to shift the center of power.

With Lin Yi's return, Hong Shang Empire was sure to change hands. There wouldn't be any more test subjects for Central's research, and it was better to go to other empires.

Inside the palace, Sima zhengxin and Sima Zhongxiao were peeking from the door. The scene of Lin Yi suddenly exploding and beating Ling lingfa was too shocking, so they were too scared to come out and see what was going on.

After waiting for a while, he felt that there was no more movement outside, so he sneaked out to observe.

Then, they saw Ling lingfa's armor shattered on the ground, and Ling lingfa flew away without looking back.

For a moment, the two of them felt as if their hearts had died. Ling lingfa, who they had relied on as their backer, had been taken away. What were they going to do?

Lin Yi turned back to the two and beckoned them over with a finger.

Facing the strong Lin Yi, Sima zhengxin and his granddaughter looked at each other and didn't dare to resist. They lowered their heads and walked over.

"Sima zhengxin, Ling lingfa is already finished, they are no longer your backing, what confidence do you have this time? If you don't have any more, quickly return your positions to Ziyu. I'll let you go for father's sake. "

Lin Yi paused, his voice turning cold. "Don't force me to really massacre the Sima clan. I don't care if you do that, but father will definitely feel a little uncomfortable! If it wasn't for the old man's sake, the Sima clan would have already been annihilated!"

"Yes, yes!"

Sima zhengxin nodded with a bitter smile. He knew that he had lost!

Someone as powerful as Ling lingfa had been taken care of by Sima Yi. What did the Sima clan have to resist?

The entire Sima clan's Foundation was only the strength of a mere Commandery. Sima Yi had brought eight hundred blood spirits and destroyed the entire Shanlian Empire. Without the central support, what could the Sima clan use to fight against Sima Yi?

Forget it!

After all, he had sat on the emperor's Dragon Throne before. It could also be considered as fulfilling his dream. He should abdicate from the throne!

Sima zhengxin heaved a long sigh and had already made a decision in his heart!

Unexpectedly, Sima Zhongxiao, who was mumbling, suddenly objected, ""Sima Yi, you've returned too late. The Hong Shang Empire is already the official Empire of the Sima clan!"

Seeing Lin Yi's cold eyes, Sima Zhongxiao couldn't help but shrink back, but he still said, ""You should know that the establishment and change of an Empire requires the martial Alliance's approval and conferment. When you established the Hongshang Empire, you didn't have the martial Alliance's approval."

"While you were away, my father had already reported the Hong Shang Empire to the martial Alliance in the name of the Sima clan! It had also passed the martial league's recognition! An official document will be sent over soon. "

"Sima Yi, you've already destroyed an Empire, and the martial Alliance has yet to settle the score with you. If you touch our Sima clan and cause the Hong Shang Empire to change its Emperor again, the martial Alliance will really not let you off!"

"Listen to my advice, can't we be more harmonious? The Sima clan is in power in the Hong Shang Empire, so they definitely won't mistreat you and your line of people! The Dragon state's conferred kingdoms will continue to exist, and Liu Ziyu will be able to obtain a conferred Kingdom as his territory. Second uncle will also be able to become a King of a conferred Kingdom. "

"As for you, whether you're willing or not, you'll still be able to become a Prince of a conferred Kingdom. For you to have four conferred kingdoms in a single empire, I don't think you're being treated unfairly, right? It's not even a problem for the total territory of your four countries to be more than half of the entire Hong Shang Empire!"

"We only need a legitimate royal family. The Sima clan being the royal family of the Hong Shang Empire is not a bad thing for you, right?"

Chapter 8038

Sima Zhongxiao's little universe had exploded, and his intelligence was all online. He talked non-stop and actually managed to make some sense out of it.

Especially when he revealed that the Sima family had already made contact with martial League, it really surprised Lin Yi.

These guys were quite fast!

However, if it was before he went to the Forest of Illusions, Lin Yi would still have some fear and a headache.

But now, Lin Yi wasn't worried at all!

After all, the Vice Hall Master of nado's illusionary martial Alliance branch, the language of the living things, had personally said that he would take care of the matters of the Hongshang Empire.

Lin Yi was in a hurry to get back from the nado capital, and so he didn't go through all the procedures at the branch. He only collected some physical rewards before rushing back to Hong Shang.

He would leave everything else to the monster language.

He didn't expect that Sima Yun Fei's side would also have martial league's thoughts and set up a plan in advance.

"Martial Alliance's approval? I think you're overthinking it!"

With the manifestation of the language of existences stepping in, it was impossible for the naduo illusion martial League branch to side with the Sima clan.

After all, the Sima clan from before was only a clan of a County Prince in Hongshang Commandery. Compared to the entire naduo conferred Empire, it was really too small.

With the Sima clan's Foundation, it was basically impossible to complete martial league's nation-establishing mission.

"Sima zhengxin, that's all I have to say. Do you choose to obediently abdicate or continue to be stubborn and resist to the end?"

Lin Yi ignored Sima Zhongxiao and turned to Sima zhengxin, ""The future of the Sima clan is in your hands. Quickly make your decision!"

Sima zhengxin was extremely conflicted. He didn't want to give up the throne, but he didn't dare to disobey Lin Yi either. He smiled awkwardly after hesitating for a while, ""Can you ... Can you give us a few days to consider?"

Just now, Sima Zhong Xiao had also said that Sima Yun Fei was handling the matter of the martial Alliance's conferment. According to the news that Sima Zheng Xin had received, there was already a lot of progress in this matter.

So Sima zhengxin wanted to buy time. Once he got martial Union's approval, Lin Yi wouldn't be able to turn the tables.

Although the Shanlian Empire was destroyed by Lin Yi before, the martial Alliance couldn't just sit by and watch two empires get destroyed by the same person-they'd become the laughing stock of the world!

"Don't think about it anymore. Make a choice now. Do you want the Sima clan to be exterminated or obediently return the throne to Ziyu?"

Lin Yi's face was cold, unmoved. "I don't have much patience. I'll give you the time to count to ten! Ten!"

"Nine!"

"Eight!"

Following Lin Yi's quick and powerful counting, Sima Zhengxin's forehead was covered in cold sweat as he looked at Sima Zhongxiao helplessly.

He hoped that his grandson, who was the only capable one, could come up with a way to break the situation.

It was a pity that Sima Zhongxiao was only strong on the outside but weak on the inside. If he could beat Lin Yi, he might try to suppress him, but it was obvious that he wasn't his opponent, so Sima Zhongxiao decided to admit defeat.

"Three!"

Seeing that the time Lin Yi gave was about to end, Sima Zhengxin was under a lot of pressure and was about to grit his teeth and admit defeat.

At this moment, a loud voice suddenly came from outside the palace!

"The messenger from the Nado Illusion Martial Alliance branch has arrived!"

"Send, the messenger from the Nado Illusionary Martial Alliance branch has arrived!"

"Report! The messenger from the nado illusion martial Alliance branch has arrived!"

.....

The sound of communication from far to near, to Sima zhengxin and his granddaughter, was as melodious as a celestial tune!

Who would have thought that at this final juncture, there would actually be such a reversal!

"Hmm ... Since it's an envoy from martial League, let's go and welcome them first!"

While Sima zhengxin heaved a sigh of relief, he was also secretly happy!

Fortunately, I had a strong mind and didn't agree to that little bastard's threat. Otherwise, it wouldn't have ended well!

"Hahahaha, Sima Yi, the martial Alliance's Messenger is here. You'll have to come with us to welcome him, or you'll offend the martial Alliance! This is a giant on the sub-Island, not someone our Hong Shang Empire can afford to offend!"

Sima Zhongxiao also heaved a sigh of relief.

He knew that his old man had brought people back, but this timing was really good. It was a critical moment!

Lin Yi frowned-he'd just returned to Hong Shang Empire, and he was on the fastest flying spirit beast. The language of manifestations wouldn't be able to catch up so quickly, would it?

Of course, if the transformation language had shortened the process to the limit, it wasn't impossible for her to follow Lin Yi here.

But Lin Yi didn't think it was possible.

Therefore, could it be that the people from martial League this time were from Sima zhengxin's side?

If the Sima clan were to take over Hong Shang Empire, things would become a little troublesome!

He didn't know about the existence of the martial Alliance before, and he didn't think much of it when they destroyed the Shanlian Empire, but he didn't want to go against this organization after seeing how they did things.

After all, it was a righteous organization that protected humans from the dark beasts. Even if Lin Yi didn't think of himself as a good person, it didn't stop him from admiring good people.

Even if the language of transformation said that he would help Lin Yi settle this, what if someone else did it first?

Lin Yi didn't think that the language of manifestations could use its status as a vice Hall Master to suppress all opposition and change itself.

"Since he's an emissary from martial League, let's go and meet him together!"

Lin Yi shrugged after weighing the pros and cons.

There was no point in insisting on forcing Sima zhengxin. The other party had the excuse that martial League had come. No matter what, this old thing would not yield so easily. It was better to see the situation first.

As a result, the three of them, who were originally at daggers drawn, temporarily became harmonious and went out to welcome the people from martial League.

Soon, Lin Yi saw the messenger from the martial Alliance.

Lin Yi didn't know who this person was. Of course, other than the beast transformation language, Lin Yi didn't know anyone else in the martial League.

However, this person was accompanied by Sima Yun Fei, so there was no need to ask to know that he was definitely someone he had found to support the Sima clan.

Sima Yunfei saw Lin Yi, Sima Zhengxin, and Sima Zhongxiao coming out together, and his eyes flashed with shock and confusion!

However, in front of the martial Alliance's emissaries, Sima Yunfei did not ask too much. He only smiled and introduced them to everyone.

"Father, this is the emissary of the martial Alliance. He's the manager of the branch of the illusionary naduo martial Alliance, Sir Chu Kenghuo! I'm here today to solve the problem of our Hong Shang Empire's status. "

After Sima Yun Fei introduced the emissaries from martial League, he pointed at Sima Zheng Xin and Sima Zhong Xiao and said, ""This is my father, the current Emperor of the Hong Shang Empire! And this is my young master!"

He chose to ignore Lin Yi, and The Thin Man with the goatee and arrogant face didn't ask anything either.

Chapter 8039

He probably thought Lin Yi was a guard or follower.

Sima Zheng Xin and Sima Zhong Xiao hurriedly cupped their fists and saluted, ""Greetings, great Messenger!"

He didn't introduce Lin Yi, and Lin Yi didn't want to talk to this ... What the hell was this? A big scam?

Those who dared to name themselves like this were definitely not ordinary people! She could compete with Wang Ba, Gao Zi, and GUI Shan!

Speaking of which, this scammer had such a unique name, and Sima Yunfei still dared to come to him and ask for his help?

This was true love, not afraid of being scammed!

Sima zhengxin felt that something was wrong as well, but he didn't think as thoroughly as Lin Yi.

After all, the sub-Island didn't use the word "scammer".

Gong Jie Huo didn't even lower his head as he replied with an "mm". He nodded his chin slightly and looked up at the sky at a 45-degree angle. He didn't even look at Sima zhengxin and the others.

"You're the Emperor of the Hong Shang Empire? He's called Sima zhengxin?"

In fact, Xi kenghuo didn't think much of this kind of nouveau riche family. He was originally in charge of the security Affairs of the various empires in the naduo illusion martial Alliance branch.

The change of the Empire and the confirmation of titles were actually not within his jurisdiction.

However, he happened to know that the master of the sea-splitting stage of the Shanlian Empire, who was also the old ancestor who gave the Shanlian Empire the right to establish a country, had died a long time ago.

The only reason why the Shanlian Empire had been able to survive for so long was because of the protection of the old ancestor.

If a new empire were to rise, it would be easy to replace it as long as the conditions were met.

Lin Yi led the Army to destroy the Shanlian Empire and almost uprooted the entire Shan family, but the martial Alliance didn't really punish him.

To put it bluntly, martial League had no interest in this matter. After all, the Shan family had no spokesperson in martial League, and all the descendants of the Shan family had died. There were no victims to come forward and complain.

There were many things that martial League needed to be busy with, so where would they find the time to care about these other matters?

In the future, if he really needed it, he could come back to deal with it.

Xi kenghuo was in charge of the security Affairs of the various empires, so he was well aware of these things.

Sima Yun Fei had spent a lot of money to find someone to introduce him to Xi kenghuo. After that, he had spent a lot of benefits and finally convinced Xi kenghuo to help.

After receiving benefits from others, although Xi kenghuo looked down on the Sima clan, he still had his reputation and agreed to help the Sima clan.

However, even Zhuo kenghuo couldn't really get the Hongshang Empire's official title.

However, he knew the situation of the nado illusionary martial Alliance branch. He knew that the higher-ups didn't care about the change of an Empire. As long as this area remained stable, it would be fine.

As such, Xi kenghuo moved around the division and first reported that the Shan clan of the Shan Lian Empire had been wiped out. The Shan Lian Empire only existed in name, and the Sima clan temporarily took over the position of the Shan clan to manage the Empire.

This could more or less be considered a status. Although it was not formal enough, the martial Alliance was currently unable to take care of the affairs of these empires. As time passed, this not-so-formal status would become a reality. As long as there were no other troublesome matters, the martial Alliance would most likely acknowledge it.

Only people from martial League could figure out the details.

Sima Yunfei and Sima Zhongxiao had always thought that they had really settled the status of Hong Shang Empire. However, they did not know that this was actually a fake status.

To put it simply, Hong Shang Empire was a house, and the Sima clan was now the tenants of this house. You could tell outsiders that this was the Sima clan's house, but if you really wanted to be serious, you were the tenants!

The house is not your house, and when the landlord wants to take it back, the Sima clan will have nothing to do with it!

"...Martial Alliance has made Sima zhengxin the Emperor of the Hong Shang Empire!"

Xi kenghuo was not interested in small talk, so after a simple introduction, he gave a simple speech and finally announced that Sima zhengxin was the Emperor of the Hong Shang Empire.

It's done!

Now that the benefits were all in his pocket, he could still make a fortune when he returned!

It was perfect!

Lin Yi had been watching coldly from the side, but he found it funny at the end. What a farce!

He had been to the illusionary branch of the martial Alliance in nado and met the Deputy Hall Master, the language of the living things. There were many procedures to be done to confer the title of Emperor and confirm the status of the Empire. How could it be a child's play without any evidence?

"Wait!"

Lin Yi couldn't help but interrupt them, "You, you're a big cheater, right? Do you have any proof that you're an emissary of the martial League?"

"You said that you represented the martial Alliance to confirm the Hongshang Empire's status and confer it the title of Emperor. Where's the document from the martial Alliance? Could it be that the martial Alliance's conferment of an Empire has become so trifling that they don't even go through the proper procedures or issue any documents, and just send someone to make a verbal announcement?"

Xi kenghuo's expression changed. He had thought that he had come to a nouveau riche family to show off, so he had not prepared the document at all. Of course, he could not get the real document either ...

"Who are you? You dare to question this Lord!"

Xi kenghuo quickly calmed himself down and told himself that he could not show his fear. This time, he had come to support the Sima clan completely for his own personal gain. He had also taken all the benefits for himself. If this matter was exposed, it would definitely be a little troublesome.

Lord Messenger, you don't have to pay attention to him. He's not a member of our Sima clan ..."

Sima Yunfei quickly smiled apologetically. He was feeling depressed as well. He didn't know why his father and son didn't get rid of this pestilence earlier. He didn't even think about it. If they could get rid of him, would Lin Yi still be here?

"Establishing an Empire is an extremely important matter. Sima Yunfei, you just randomly picked a passerby on the road and said that he was an emissary of the martial Union. You just said that you were here to establish an Empire, How dare you! Do you think I won't Sue you for impersonating a member of the martial League?"

Lin Yi was certain that there was something fishy going on here, and naturally, he didn't hold back, "You're really daring to resort to fraud and accuse martial League of it. It looks like I don't have to do anything to the Sima clan, and they'll soon be exterminated!"

Chu kengyao was a little embarrassed and immediately put on an angry face as he took out a silver badge for Lin Yi. "Who's lying? Who impersonated a member of the martial Alliance? Have you ever seen this kind of emblem? Have you seen it before?"

The silver badge had the symbol of a longsword on it-Lin Yi had seen this before, and it was a symbol of status in the martial Alliance.

In the nado illusion martial League branch, the highest rank was the gold badge, followed by the silver badge and the bronze badge. With a bronze badge, one would be an ordinary member of the martial League.

The two swords on the badge represented elite members, and the three swords represented the identity of a squad leader.

The silver badges above bronze were considered middle management in the martial Alliance's branch. They were also divided into one to three swords. This "clang clang Huo" only had one sword, which was actually the lowest level of silver badges. It was nothing impressive.

Chapter 8040

Of course, in the large area managed by the nado illusion martial Alliance branch, a silver badge was already a very impressive and honorable status.

Unfortunately, Lin Yi didn't care about him at all. After all, he was someone who had fought with a gold badge boss before. Why would he care about a silver one sword?

The artifact language was an important figure of the two golden swords. There was only one branch master of the three golden swords above him!

"Heh ... So you're really from martial League. Then, can you explain where the conferment document is? Since you're a silver badge holder, don't tell me you don't understand this?"

Lin Yi glanced at the guy indifferently and continued to hit him on the legal and reasonable points.

Xi kenghuo's expression was a little unsightly, and he was getting more and more flustered. This kid recognized the silver badge, which meant that he indeed knew the martial league's identification and grading methods.

However, this kid had no respect for the silver badge at all. Even after knowing what the silver badge represented, he still dared to ignore it. What was the meaning of this?

It was terrifying!

The more Xi kenghuo thought about it, the more he felt that something was wrong. He had thought that it was just a small task to show off and earn some money at the same time. He didn't expect that he seemed to have kicked an iron plate!

What to do, what to do? If he couldn't think of a countermeasure now, he would be defeated!

"The messenger from the nado illusion martial Alliance branch has arrived!"

"The messenger from the nado illusion martial Alliance branch has arrived!"

"The messenger from the nado illusion martial Alliance branch has arrived!"

.....

At this moment, the continuous announcement was once again transmitted from far to near. For a moment, everyone was a little dumbfounded.

What the hell? Why is there another emissary from martial League here?

Bi kenghuo frowned slightly and glanced at Sima Yunfei with a slightly displeased look. He thought that this guy was worried about him, so he went to find other people from martial League to come to the platform.

This kind of thing was a taboo, no matter where it was, it was the same. If Qian kenghuo didn't agree, Sima Yun Fei could go and find someone else to help, but if Qian kenghuo agreed, it would be very bad!

Sima Yunfei was dumbfounded. He could see the dissatisfaction in Yi kenghuo's eyes, but the problem was that he didn't find anyone else! He even wondered if it was a companion that Xi kenghuo had found to boost his reputation ... It didn't look like it!

Putting aside their suspicions and guesses, the new martial League members were quickly led here, and Lin Yi was surprised to see them.

It was Hua Yu!

The Vice head of nado's illusionary martial Alliance came here as a Messenger-it went without saying that he was here for Lin Yi!

Lin Yi's heart calmed down-this was it!

"Subordinate Jing kenghuo greets vice Hall Master Hua! Vice Hall Master Hua, why have you come personally?"

When bi kenghuo saw that it was the language of the living things, his face changed. At first, it was as if his father had died, but then he put on a flattering smile and ran over to meet the language of the living things.

The beast was taken aback. He was here for Lin Yi in the first place, so he was about to greet him with a smile when a giant beast appeared and blocked his way. The smile disappeared.

"Charming? Oh, I remember you. You're the manager in charge of the security Affairs of the various empires. Is there any security issue with your visit today?"

It wasn't appropriate for the artifact language to act all high and mighty in front of his subordinates, so he gave Lin Yi an apologetic look, indicating that he'd been delayed for a while.

Lin Yi smiled in response, telling him that he didn't need to greet them.

Yi kenghuo lowered his head, and his face was covered in cold sweat. He was a few levels lower than the monster language, so he should be honored to be recognized by the monster language.

The problem was that this was not the right occasion! He'd accepted a private job to support someone else, and to put it more seriously, he'd betrayed martial league's interests. Now that he'd been caught red-handed by the boss of the boss of the boss of the boss ... He was going to die!

Why did he run out just now? He should have sneaked away! He must be out of his mind to come out and try to build a relationship with Hua Yu!

"Haha ... Haha ... In reply to vice Hall Master, this subordinate has some personal relations with Sima Yun Fei from the Sima clan. This time, I was invited to come and witness Sima Yun Fei's father, Sima Zheng Xin, ascend to the throne ..."

Xi kenghuo thought that he was done for, so he could only make up some lies to get himself out of it. However, the language of assimilation did not care about what he said at all. It waved him away.

After all, the main target of the language of monsters was Lin Yi. Why would she waste her time on a subordinate? This time, the monster language wanted to finish the whole process and leave a good impression on him.

Under normal circumstances, it would take at least two days for the entire process to be completed. If it wasn't for him, the Vice Hall Master, personally overseeing every step of the process, how could it have been completed so easily?

"I'm the Deputy Hall Master of the nado illusion martial Alliance branch, artifact language. I've come to announce that the martial Alliance has acknowledged the Hongshang Empire's status as a nation!"

He thought that after announcing the good news he'd brought, he'd be able to get along better with Lin Yi without him noticing.

Therefore, after saying that, the artifact language took out the official document signed by the naduo illusion martial Alliance branch and read it out solemnly.

"... From the day this document is signed, the Hong Shang Empire has the right to officially establish a nation under the jurisdiction of the naduo illusion martial Alliance branch!..."

Sima zhengxin and the others were overjoyed. Just now, Sima Yi said that he didn't have any official documents, and now he was here!

That's right, they all thought that the beast language was a companion that Chu kenghuo had found. Sima Yunfei was still thinking that the money he had spent was worth it! The nado illusion martial Alliance branch's vice Hall Master had actually come personally!

Xi kenghuo didn't reveal any information at all, and he even pretended to be dissatisfied just now. Was he actually trying to give a big surprise?

He was kind!

He had to give a big gift later to thank this overseer. Of course, he couldn't leave the Deputy Hall Master of the language of living things behind either. He had to prepare a bigger gift!

It was done like this! Make arrangements!

Xi kenghuo was also overjoyed. Previously, he had only been making empty promises and had completely relied on small tricks to deceive them. He did not expect that the Hong Shang Empire would really obtain the legal and reasonable qualifications to establish a country!

I didn't expect this. Did vice Hall Master Hua know about my little trick and come to support me this time? Since when did he attract the Vice Hall master's attention? He didn't even know such an important thing, damn it!

There's no need to ask. It must be because of my talent that attracted vice Hall Master Hua's attention and he's preparing to recruit me as his confidant, right?
