

Bodyguard 8041

Chapter 8041

For a moment, he was hypnotizing himself. He was full of joy and unrealistic thoughts. He subconsciously raised his head and puffed out his chest, thinking that he was really an artifact language person.

Although he was the manager of the nado illusion martial League branch, there was a huge gap between him and the language of the living things. If he had the opportunity to climb up the tree of the language of the living things, it would be like a pie falling from the sky.

Unfortunately, Chu kenghuo's happiness did not last long. After the language of assimilation announced the right to establish the Hong Shang Empire, it took out a second document.

"...Hong Shang Empire's Grand Marshal, Sima Yi, is chivalrous, knowledgeable, strategic, brave, and good at battle. He has made great contributions to the martial Alliance in the Forest of Illusions. After the higher-ups of the martial Alliance have studied and decided to bestow him to Sima Yi ..."

The second document was Lin Yi's personal reward. First, there were some actual treasures and resources, which were already given to Lin Yi back in the nado Empire. This time, it was the official reward.

In addition to these, there were other new rewards. The language of the living things maintained a stable speed: "Feng, Sima Yi, is the honorary Vice President of the naduo illusion martial Alliance branch combat Association! I hope that Vice President Sima will continue to work hard and make more contributions to the naduo illusion martial Alliance branch!"

The so-called combat Association was one of the most important departments in the naduo illusion martial Alliance branch. It was specifically responsible for fighting against the darkness demon beasts. The position of the president was equivalent to the Vice Hall Master of the branch. Or rather, the president of the Association was the Vice Hall Master of the branch.

That's right, the Vice Hall Master, monster language, was the combat Association's President. Getting Lin Yi to be the honorary Vice President was something he could do with a word!

The honorary Vice President of the combat Association was only second to the president of the Association, which was also the Vice Hall Master of the branch. Therefore, after the monster language's announcement, it took out a golden sword badge!

Xi kenghuo was dumbfounded as he watched the scene unfold. His mind was buzzing, and he couldn't understand how a passerby he had looked down on before suddenly got the gold badge that he had been coveting for a long time but might never get in his life!

Wasn't vice Hall Master Hua here to support him? What the hell was with the sudden appointment of an honorary Vice President of the combat Association?

Did he open the file the wrong way? Should I remind vice Hall Master Hua to open it again?

Lin Yi took the gold badge and thanked Hua Yu. The Vice-leader position of the combat Association was quite useful to Lin Yi-it'd be much easier for him to get information on Wang Xinyan in the future.

"By the way, vice Hall Master Hua, now that the Hong Shang Empire has the right to establish a nation, who is the Emperor of the Empire? Do you have a letter of appointment?"

Lin Yi remembered from their conversation that the artifact language mentioned that when an Empire was established, the Emperor would be decided by the Empire, but the martial Alliance had to send a letter of appointment.

Under normal circumstances, the martial Alliance would not reject the candidate of the Empire. However, there were special circumstances where the martial Alliance felt that the candidate of the Empire's Emperor had a major flaw and would forcefully interfere in the appointment of the candidate.

"I do, but I haven't filled in my name! I'm just here to ask if I need to fill in your name. "

The artifact language took out the third document, which was the appointment letter he had mentioned." "I remember you saying that you don't want to be the Emperor, so I left a message to ask for your opinion. To be honest, becoming an Emperor is a waste of your talent, brother Sima. It's a kind of restriction on you, so it's more suitable for you to take up a position in martial Union. "

This guy was trying to get Lin Yi on his side all the time-what if his sincerity could change anything?

"Heh ... Vice Hall leader Hua, you're too kind! I don't have any special talents!"

Lin Yi waved his hand with a smile before taking a look at the appointment letter."I really don't want to be the Emperor. The Emperor of the Hong Shang Empire shall be Liu Ziyu!"

Sima zhengxin's face turned pale. Even the stupidest person could understand what had happened!

The throne of the Hong Shang Empire had already been decided by someone, and it had nothing to do with their Sima clan!

"No problem, let's go with Liu Ziyu!"

"Sure!" Artifact language didn't even know who Liu Ziyu was, so he just nodded. It didn't matter who it was, as long as Lin Yi acknowledged it.

Xi kenghuo's brain twitched. He didn't know what to think, but he actually stopped her. "Vice Hall Master Hua, isn't this inappropriate? The Emperor of the Hong Shang Empire is Sima zhengxin. He is already the Emperor. It is not appropriate to change the Emperor of the Empire at will!"

The corner of Lin Yi's mouth curled up. Was this guy so desperate to leave an impression on the boss that he didn't care anymore? Even if it was a bad impression, he still wanted to make the big boss remember him?

If the big boss had spoken, wouldn't it have been over if you had obediently agreed? jumping out was courting death.

As expected, the artifact language's face darkened when it heard Tong kenghuo's words. It kicked him without saying anything. "Get lost! I'm talking to the honorary Vice President of the combat Association. What does it have to do with you? Who Do You Think You Are? How dare you question the decision of Vice President Sima and me?"

Silver badges were impressive on the outside, but they were nothing in front of the language of the living and Lin Yi's gold badge.

The artifact was trying its best to improve Lin Yi's favorability, so how could it let a wastrel mess things up? The fact that he didn't slap him to death on the spot was already giving him face as a member of the martial Alliance.

Even without Lin Yi's favorability, it was still against the rules for Jin kenghuo to interrupt. It was like a company boss and a department manager discussing company matters, and as soon as they made a decision, a cleaner jumped out and said that they were doing the wrong thing! Are you guys stupid?

Only a fool would know!

Yi kenghuo was indeed a scammer. When he was ruthless, he even scammed himself. He only realized what he had done after being kicked away by the language of the living things. He lay on the ground, trembling and crying. He regretted his actions!

Seeing that the two weren't going to go on a rampage, Qing kenghuo didn't dare to say anything else. He wriggled on the ground and sneaked away.

At this time, he began to sincerely pray that the big shots did not know his name and would not remember him the next time they met ...

"Vice President Sima, don't pay attention to the nonsense of those minor characters. The appointment letter is here, keep it well! You have the final say in Hong Shang Empire! Since you don't want to be the Emperor, come back to the martial Alliance's branch and take up a real position!"

The beast continued to chuckle as it tried its best to win Lin Yi over. It didn't matter if it didn't succeed, but it had to make its attitude clear. What if it did?

Chapter 8042

"The honorary Vice President is just a title in name. Although it's an honorable title, it doesn't have much real power. Don't look down on the combat Association. It's a Department with a very high status in the martial union branch. It's one of the three major associations, alongside The Alchemist Association and the array formation Association."

"Of course, with brother Sima's ability, it's not a problem for you to go to the array Association. As long as you're willing, I'll help you settle it!"

Beast transformation language thought of Lin Yi's abilities in arrays and felt that Lin Yi could be the president of the Association. However, the position was already taken. Even if Lin Yi's abilities were higher, it wouldn't be easy to operate. As for the Vice President, it was definitely not a problem!

"Thank you, vice Hall Master Hua! We'll talk about this later!"

Lin Yi said with a smile. He didn't need to promise the beast language to restrict himself. He just needed to be a part of the martial Union, and he'd have time to take up a real position later.

"Sima zhengxin, do you have anything to say now? Martial league's orders have already been passed down. The Sima clan has no relationship with the Hong Shang Empire ..."

"I understand ... I will return the throne to Ziyu. I hope that you, Zhong da, will let our Sima clan off!"

Sima zhengxin seemed to have aged a dozen years in an instant, his entire body exuding a defeated aura. ""Our Sima clan is no longer a threat ..."

"There's no need to say anything more. Your Sima clan has never been a threat to me!"

Lin Yi waved his hand and interrupted Sima zhengxin, "Since we're acquaintances, and for the sake of my parents, I won't argue with you this time! Leave the capital and go back to Hongshang Commandery!"

"That's right, Hongshang Commandery and the Empire share the same name. In the future, don't call it Hongshang Commandery anymore. Just change it to Sima Commandery. The Sima clan should manage the Commandery well and don't have any other thoughts!"

Originally, after Lin Yi took down the Hong Shang Empire and let Liu Ziyu inherit the throne, he was prepared to give the Sima family a conferred Kingdom.

In the end, the Sima clan developed greed that they shouldn't have and actually colluded with central to plot against the Hong Shang Empire, and they even succeeded once.

So after Lin Yi took back the Hong Shang Empire, he could forget about the Sima clan's conferred Kingdom. He was already very magnanimous to be able to take over the Sima Commandery that was completely controlled by the Sima clan.

"R-really?"

Sima zhengxin's eyes were wide open, his face full of disbelief. Lin Yi just said he was going to wash the Sima family with blood, and now he was letting them go so easily?

In Sima Zheng Xin's opinion, even if Lin Yi did not kill the entire Sima family out of respect for Sima Yun Qi and his wife, he would still put the entire Sima family under house arrest.

Just like what they did to Liu Ziyu and the Prince of the long bang.

Who would've thought, who would've thought that not only would Lin Yi not do that, but he'd even given them the Sima County!

In the past, the Sima clan could only be said to have a part of the control of Hongshang Commandery, and they needed to take turns with the other families of the country's military generals.

Now that it had become the Sima Commandery, the Sima clan was the only legitimate royal family. It seemed that the result was not bad!

Sima zhengxin was dejected after losing the throne, but when he came back to his senses, he realized that he had profited!

In the future, he would not have to share the throne with the other families. This was a good thing!

Would the Feng family dare to be unconvinced?

If you're not convinced, go to the Emperor and reason with him!

"Of course it's true. I don't have time to joke with you!"

Lin Yi said, curling his lips.

Sima zhengxin was just a useless old man now, so it was no big deal to let him go.

Of course, it was all because of Ling lingfa.

Since Ling lingfa was a spy, then Sima zhengxin, who was used by him, was also just a tool. Lin Yi didn't have to be so calculative.

However, Speaking of which, Sima Yun Fei and Sima Zhong Xiao, this father and son, were quite annoying!

Even now, they looked submissive on the surface, but their eyes were still filled with deep unwillingness and dissatisfaction!

Although they wouldn't be able to cause any waves in the future, it would be very troublesome if there were flies buzzing around them!

Since Wu Linghai had been newly built, he hadn't tried pure sorcerer Tribe Skills yet. He would use the two of them as an experiment!

Lin Yi wouldn't use any other methods, and he wouldn't use any other methods.

Ghost Yin curse technique!

Wu Linghai moved slightly and the ghostly Yin curse was activated smoothly. This time, the range was unexpectedly large!

Not only did it hit the target, Sima Zhong Xiao, but even Sima Yun Fei and Sima Zheng Xin who were beside him were hit.

This was a proper group attack skill!

Even Lin Yi didn't expect that Wu Linghai's martial arts technique would be so powerful!

Not only did the speed of its activation have an earth-shaking change, but the power also seemed to have a great difference.

Previously, when he used his spiritual sea, it was also activated in this way, but the result was that it was barely activated.

But now, it was still at the same level of power, and it was a group attack.

It seemed that he had to control his strength in the future. Otherwise, he might accidentally implicate others.

Lin Yi was speechless-this was pure accident!

The three people from the Sima clan all shivered and felt their bodies turn cold. For a moment, they felt strange and did not know what had happened.

The three people who were cursed by the ghost Yin curse felt a connection in Lin Yi's Wu spirit sea. It was as if Lin Yi could control their life and death!

If he wanted them to die, he only needed a single thought to activate the ghost Yin curse technique.

And if he didn't want them to die, the ghost Yin curse would continue to lurk in their bodies.

With this new ability, the level of the ghost Yin curse technique had increased by a level.

Lin Yi was quite satisfied after trying out the ghost Yin curse technique. He thought about getting some more witch race techniques from Starlight Magus.

Compared to the great wizard of ghost Yin, na duo was the ancestor of the wizard tribe, and their methods were definitely not the same.

"You guys get lost first! Pack up and go back to your Sima Commandery!"

Lin Yi casually dismissed the Sima family.

Whether they lived or died, it was all up to him. He was not in a hurry to kill them. "Vice Hall Master Hua, it's rare for you to make a special trip to the Hong Shang Empire. Let me do my part as the host and entertain you well!"

"That's great, I can't ask for more! Brother Sima, I'll have to trouble you!"

The artifact language was thinking of an excuse to stay and deepen her relationship with Lin Yi.

And then, Lin Yi sent out an invitation, what was there to disagree with?

Lin Yi ordered Liu Ziyu to come back and take care of Sima zhengxin's stall. Then, he brought the beast transformation language to a Pavilion in the Imperial garden and sat down. He ordered the Imperial Kitchen to send some food and wine.

Even though the Hong Shang Empire had been under Sima zhengxin's control for a while, in this Palace, Lin Yi's prestige still far exceeded Sima zhengxin 's!

Chapter 8043

So after chasing the Sima family away, everyone in the palace was happy to follow Lin Yi's orders.

"Vice Hall Master Hua, do you have anything else to say?"

The two chatted for a while, and Lin Yi saw that Hua Yu was hesitating. He put down his glass and smiled, "Thank you for helping Hong Shang Empire this time, vice Hall Master Hua. If there's anything you need, please speak your mind!"

"Alright! Brother Sima, I'll just be direct!"

Artifact language also put down his glass and said seriously, ""Let's not talk about the rewards from before. However, there's one thing that brother Sima still needs to know! Every newly-established Empire must send an expert at the sea splitting stage to the martial Alliance. "

"In the previous Shanlian Empire, there was such an expert. However, he died later and there were no new experts in the sea splitting stage, so they did not continue to recruit him. If they still had experts in the sea splitting stage, it would not be so easy for the Hongshang Empire to establish a country."

"This is the rule of martial League, and we can't change it. So, I'm here today to confirm who your Hong Shang Empire will send to bear this responsibility?"

"Who will you send?"

Lin Yi smiled bitterly and shook his head. "Vice Hall Master Hua, who else do you think could it be? The Hong Shang Empire has just been established and doesn't have much Foundation. My strength in body cultivation is far from the sea splitting stage. If you think it's possible, then I can only go!"

"Although brother Sima's body-tempering is not good enough, his real combat power is far beyond that of an ordinary expert at the sea splitting stage! There won't be any problems with you stepping in. It might even be a bit of a waste!"

The artifact language laughed and continued, ""Generally, the Empire's sea Rift stage doesn't have much of a choice. They are basically sent to the front line of the battle, unless they have some special ability."

"For example, for a talent like brother Sima, martial League will definitely give you more choices. You can listen first, and then make a decision after careful consideration."

"Alright, vice Hall Master Hua, please speak!"

Lin Yi's face turned serious as he made a gesture of listening.

The artifact's expression also became serious. After a pause, it extended a finger and said, "The first is to stay in martial League and work for them! Of course, it wasn't just an empty title like the previous honorary Vice President, but an actual title! He would have more power in martial League, but he wouldn't have much freedom. Since you are an expert contributed by the Empire, you will have to put in more effort than I did before. There is no room for discussion in this aspect. "

"Brother Sima, if you're willing, I can let you become the Vice President of the combat Association. Or if you want to become the Vice President of the array Association, that's not a problem! With your abilities, this shouldn't be a problem. "

Lin Yi nodded, understanding what the language meant.

If the Hong Shang Empire had another sea Rift Warrior, Lin Yi could accept the invitation from the language of monsters and join the martial Alliance. Not only would he have more power, but he'd also have more freedom.

After all, Lin Yi may be working in the martial Alliance, but he had the right to choose what he wanted to do.

But if Lin Yi chose the first option now, he wouldn't be accepting the invitation, he'd be sent by the Hongshang Empire, and he'd have to sacrifice some of his freedom.

"The second method is to guard the Devil's Den or the various nodes of the Forest of Illusions! Have you heard of the Devil's Den? No? Then, brother, explain it briefly! The so-called Devil's Den is actually a node under some cities, or more accurately, an exit. Compared to the Forest of Illusions, the nodes of the Devil's Den can't be sealed or destroyed, so they can only be defended by human power. "

"That's why there are many martial League experts stationed in the underground Devil's dens in many cities. It's because the dark magical beasts break out of the nodes more frequently. Just as I said, most of the experts at the sea Rift stage who contributed to the Empire had no choice but to guard the Devil's Den. The previous expert at the sea Rift stage from the Shanlian Empire died in the Devil's Den. "

"With brother Sima's strength, it's possible for you to guard the Devil's Den, and you'll be of great use. However, if you guard the Devil's Den, you'll have less freedom. This old brother doesn't recommend you to choose this."

With Lin Yi's ability to command the battle formations, the language of monsters felt that Lin Yi was more suitable for the front line. He could achieve the greatest victory with the least losses.

However, it was a waste of Lin Yi's talent.

Lin Yi curled his lips. He had no problem dealing with the dark Demon beasts, but he didn't have the time to guard the devil's Cave.

This definitely wouldn't work. It was too unreliable!

In comparison, Lin Yi would rather choose the first option, even if it didn't give him much freedom. At least he could use martial Union's power to find Xinyan.

"I understand. What about the third? Please tell me everything, vice Hall Master!"

"Of course, there's a third option, which is to take the examination to become a teacher in an Academy within the martial Alliance's jurisdiction! Enter the academy to educate people and cultivate more experts!"

Then, the language of manifestations said seriously, ""Most of the time, battles don't happen between high-level combat forces. Most of the time, it's low-level battles. Therefore, the students trained by the Academy will become the main force in these battles, and the teachers of the Academy are very important."

"Out of the three choices, this is the one with the most freedom. After becoming a teacher, you don't have to care too much about other things. You only have to take action when martial League issues martial league orders. You can make your own arrangements at other times."

"However, it's not that easy to obtain the qualification to be an Academy teacher. There are many things that need to be tested, and all kinds of data are very complicated. It's not easy to pass."

Lin Yi remembered Luo caidie, Wang Ba, Gao Zi, GUI Shen, and the other teachers.

If they could do it, there was no reason why he couldn 't, right?

"Vice Hall Master Hua, I'll choose the third option! By the way, can I enter the Alliance Academy?"

Lin Yi thought of caidie Luo and asked.

After all, the Alliance Academy had Luo caidie and those two strange teachers. He could be considered to have some acquaintances here, so it was better than the academies he had never heard of.

Other than the Alliance School, Lin Yi didn't know what other schools there were, so this was his only choice.

"The Alliance Academy is indeed not bad! Unfortunately, I can't help much in this regard!"

The artifact language sighed and shrugged. ""If you want to become a teacher of the Academy, you have to pass all kinds of assessments. The person in charge of the assessments is sent from the martial Alliance of our higher continent! The test is fair and just, and all participants have an equal opportunity. Our naduo illusion martial Alliance branch can't interfere. "

"It's alright. I believe that I can pass the examination. If I want to teach and educate people, I'm confident that I can do so!"

It was just like what Lin Yi had thought-if those two weirdos could get in, what was he lacking? Vice Hall Master Hua, how should I test myself to become a teacher of the Alliance Academy?"

Chapter 8044

"Don't worry, I'll help you inquire about this! I'll go back and help you sign up first, then you can wait for the martial Alliance to send someone over to take the test. Since it's a unified test, there's a fixed time, so you won't be the only one being tested. "

Transformation language was happy for Lin Yi's decision.

Although he couldn't get Lin Yi into the branch of the illusionary martial Alliance, it was the same if Lin Yi was willing to enter the Alliance Academy. After all, the Alliance Academy and the branch of the illusionary martial Alliance were part of the martial Alliance of the continent, and it would be easier for him to find Lin Yi.

With Lin Yi's talent and attainments in formations, the branch should've recommended him to the martial Union of the continent. The language of the living things was more or less selfish-it wanted Lin Yi to stay at the branch.

"Alright, then I'll have to trouble vice Hall Master Hua! I'll also take this time to settle the matters in the Hong Shang Empire!"

Lin Yi thanked him with cupped fists and clinked his glass with beast language's before finishing it in one go.

After they finished talking about business, the two of them began to chat about all sorts of things, and for a moment, both the host and the guest were happy.

After finishing his meal, the artifact language took his leave and rode his flying spirit beast back to the nado illusion martial Alliance branch.

He didn't want to waste any more time-he had to get Lin Yi's thing done as soon as possible, so he could sleep in peace.

Liu Ziyu brought the third Princess to see Lin Yi after sending away the language of artifacts.

When the two of them were released from the house arrest in the small courtyard, they still couldn't believe it.

Liu Ziyu had been telling him that his cousin would be back, but he didn't expect Lin Yi to be back so soon!

How long has it been?

Liu Ziyu and the third Princess had just gotten used to the life of house arrest, and now they were going to ascend the throne again?

"Cousin Zhong da! It's great that you're fine! I knew that nothing would happen to you, cousin Zhong da!"

Liu Ziyu saw Lin Yi and immediately quickened his pace, rushing up to give Lin Yi a hug.

"Greetings, cousin Zhong da!"

The third Princess followed him with a happy smile and bowed.

Although she was used to living alone in that small courtyard with Liu Ziyu, she would definitely be overjoyed to be able to regain her freedom and become the Empress of the Hong Shang Empire again. She would be the mother of the world!

"You've suffered! It's all my fault!"

Lin Yi patted Liu Ziyu's shoulder, feeling a little guilty. He was the one who got them into this mess!

"Cousin Zhong da, what are you saying! We have food and water, how have we suffered! How can it be compared to the danger you face, cousin Zhong da?"

Liu Ziyu waved his hand and said seriously, ""Besides, if you want to wear a crown, you must bear the weight! Since I've chosen to become the Emperor of the Hong Shang Empire, I'll definitely have to bear the pressure and tribulations of the crown. This has nothing to do with cousin Zhong da!"

"Hahaha! Well said! Ziyu, you've really matured!"

Lin Yi smiled and patted Liu Ziyu's shoulder. With this kind of awareness, the kid would definitely become a good Emperor in the future. He could be at ease teaching at the Alliance College.

"Ziyu, you can be the Emperor of the Hong Shang Empire in peace this time. The naduo illusion martial Alliance branch has already sent the document, agreeing to the establishment of the Hong Shang Empire and acknowledging your legitimacy as the Emperor."

"From now on, no one is allowed to touch your throne, unless they dare to offend the naduo illusion martial Alliance branch! I think we should re-arrange the coronation ceremony and invite the people from the surrounding empires to let them understand that the Hong Shang Empire is not an existence that can be easily bullied!"

Sima zhengxin had already been sent away by Lin Yi, so this time, Liu Ziyu's restoration didn't need Sima zhengxin to pass on the position again.

However, it was necessary to hold another coronation ceremony.

This was to show all the empires in the nado illusion martial Alliance Area that the Hong Shang Empire had recovered its strength and had enough strength to stand tall!

"We will listen to cousin Zhong DA's arrangements!"

Liu Ziyu naturally didn't have any objections-he was more than happy to have Lin Yi's support."By the way, cousin Zhong da, I heard that your personal guard unit, the blood spirit, is currently stationed in the camp outside the city. Have you seen it?"

"Not yet, there's no hurry!"

Lin Yi knew that the guards unit had come out of the nine story Pagoda, but he didn't know how much they had improved.

Wu yucao and Ling Hanxue were taken away by the great witch of ghost Yin. Lin Yi wasn't here, and Liu Ziyu was under house arrest. The blood Phantom had become a team that no one could command.

If it was a normal team, Sima zhengxin and the others would have used more troops to crush them, hoping to completely annihilate them. After all, it was too dangerous to keep such a famous team around!

However, blood ghost was not only famous, but he was also extremely powerful. Especially after he came out of the nine-story glazed Pagoda, no one could defeat him!

What could Sima zhengxin do? He was also in despair!

Helplessly, he could only put the blood ghost aside and ignore it for the time being, which led to such an outcome.

Now that Lin Yi was back, all he had to do was give the order, and the world-shaking blood ghost would come out again!

The presence of the blood spirit was enough to intimidate the surrounding empires!

"Let's send out the invitations first and follow the list from last time! If we're fast, they should be here in a few days. "

Lin Yi's random decision would naturally be taken care of by someone else, and those who were invited would probably be dumbfounded as well.

He had just come to attend two coronation ceremonies and had finally returned, and now he was here again?

It's not over yet, is it?

However, with Lin Yi and blood ghost around, they wouldn't dare to not come!

After all, the branch of naduo's illusionary martial Alliance had already spread Lin Yi's story. It wouldn't be long before everyone in the branch's territory would know what Sima Yi's name represented.

With such a popular person in martial League, no matter what they thought, they would definitely come and befriend him on the surface.

As expected, once the invitation from the Hong Shang Empire was sent out, everyone who received it rushed to the imperial capital of the Hong Shang Empire at the fastest speed possible.

Some of them hadn't even received the invitation yet. They had only received the news and rushed over on their own.

The opportunity to curry favor with martial league's upstarts wasn't something that came often. If he came, he might not be able to curry favor with them, but if he didn't, he would definitely offend them!

Then why were they waiting for an invitation? they had to come even if they didn't have one!

Especially the fire Empire, the time when Lin Yi went missing and Sima Zhengxin took over, the fire Empire gathered their Army and started to attack the Hong Shang Empire's territory.

They had only been fighting for a few days, and they had not gained anything at all. However, they had already received a series of news such as Liu Ziyu's restoration, Sima Yi's return, the blood Spirit's appearance, martial Alliance's acknowledgment of the Hong Shang Empire, and so on.

Chapter 8045

The fire Empire's Emperor was truly dumbfounded at that time!

Are you F * cking kidding me? Usurp the throne and restore it ... Did he have to be so busy?

I don't care if you guys are busy with your own things, but can you not play with us?

Only then did they set up a stance and attack a few times to test the waters. You tell me that Sima Yi is back, that blood spirit is back ... In fact, you're just digging a hole for us to jump in, right?

He didn't come back earlier or later, but chose this time. It was definitely a trap, right?

The fire Empire's Emperor's eyes were filled with tears as he hurriedly ordered the troops to retreat.

After that, he sent out important officials to rush to the imperial capital of the Hong Shang Empire at top speed. Firstly, it was to attend Liu Ziyu's second coronation ceremony. Secondly, it was to discuss the peace negotiations.

The first to arrive was indeed the fire Empire's emissary. Upon arriving at the imperial capital, he did not even bother to settle down and immediately brought a gift and requested to see Liu Ziyu.

Of course, it would be more effective if he went to Lin Yi directly, but he didn't dare to!

The Emperor, Liu Ziyu, seemed to be easier to talk to than the blood Spirit's commander, Sima Yi.

However, when the fire Empire Messenger saw Liu Ziyu, he also saw Lin Yi beside him.

"Greetings, naduo illusion martial Alliance, Vice President Sima of the combat Association, Your Majesty, the Emperor of the Hong Shang Empire!"

The emissary from the fire Empire greeted Lin Yi and Liu Ziyu with respect.

Although this was the Hong Shang Empire, and Liu Ziyu was the Emperor, Lin Yi was a member of the martial Alliance, and the Vice President of the combat Association!

To the empires, this position was like the heavens!

Even if their fire Emperor were to come, they would still need to pay their respects.

Although these empires had also contributed their sea shattering realm experts to the martial Union, they were all fighting on the front lines. Lin Yi was the boss of these people, the Vice President of the combat Association!

"First of all, I would like to thank Vice President Sima for protecting the peace for our illusion martial Alliance. Then, I would like to congratulate Your Majesty for bringing order back to the world, for re-ascending the throne, and for returning the Hong Shang Empire to its former glory! Originally, when our Emperor heard that His Majesty was trapped, he was prepared to send troops to rescue him. I didn't expect Deputy President Sima to drive away the fake emperor by himself!"

"Vice President Sima is indeed the Vice President of the martial Union's combat Association. There's no doubt about his combat strength!"

This fellow was quite eloquent, to think that the fire Empire's invasion was to rescue Liu Ziyu as a Righteous Army!

Of course, no one took his words seriously, including the messenger.

"In that case, I have to thank the Emperor of the fire Empire for sending his troops to invade the territory of our Hong Shang Empire?"

Liu Ziyu smiled indifferently and said coldly, ""Your country's Emperor is really a Messenger of justice. He's so concerned about the internal disputes of my country!"

"The nation of brothers, the nation of brothers! It's only right for everyone to look after each other!"

The fire Empire's emissary was extremely thick-skinned and could even say such embarrassing words as though it was a matter of course. "Of course, our fire Empire is also elated that Your Majesty has been able to regain the throne. In order to avoid any misunderstandings, we have sent a foreign official to communicate this matter."

"The reason we sent out our troops was to help His Majesty deal with the rebels. Now that the dust has settled, our Army naturally has to return. In order to congratulate Your Majesty, we have prepared a congratulatory gift. Please accept it, Vice President Sima and your Majesty!"

The fire Empire's emissary took out a roll of silk that he always carried with him and held it with both hands, waiting for the eunuch beside Liu Ziyu to come down and take it.

Liu Ziyu opened it and gave it to Lin Yi, "Cousin, what do you think of the fire Empire's offer to cede five cities along the border of the two empires as a congratulatory gift?"

Lin Yi glanced at it, a cold smile on his face.

What else could he think? The fire Empire had fallen!

Hence, the other party wanted to give up land and compensate them to please the Hong Shang Empire, trying to calm Lin Yi and Liu Ziyu's anger.

The five cities were just a preliminary test. If Lin Yi showed any dissatisfaction, the fire Empire would probably increase their bargaining chips immediately.

Compared to Lin Yi's hatred, what was a city? It wouldn't even be a problem to cede a conferred Kingdom to them.

"I appreciate your kind intentions, but you can keep the city for yourself!"

Lin Yi hmphed coldly as he waved his hand, tossing the scroll to the fire Empire Messenger.

The emissary's heart immediately sank. He thought to himself that this little price was not enough to satisfy Sima Yi's appetite!

It didn't matter, this was all within his expectations.

"Vice President Sima, Your Majesty, if you feel that the gift is too light, we can still discuss ..."

How did the Shanlian Empire get destroyed? Just 800 blood spirits were enough to wipe out the entire Shanlian Empire!

In the past, when the fire Empire and the Shanlian Empire fought, the chances of victory were only 50 - 50.

That's why I can't let Sima Yi have an excuse to go out!

Moreover, Sima Yi was now the Vice President of the martial Union's combat Association. Even if he were to destroy the fire Empire, the martial Union would probably not blame him.

After all, the combat Association's daily job was to protect the safety of the humans in nado's illusionary area. They would rush to any danger they encountered.

It was normal for the Vice President of the combat Association, who was dedicated to the human race, to come back and put out the person who had started the fire.

To put it bluntly, if Lin Yi destroyed the fire Empire, he'd probably be fine in the end. Who told them to get themselves killed?

"No need!"

Lin Yi rejected immediately.

The fire Empire's emissary was so nervous that he almost exploded. They did not even give him the chance to finish his bargaining chip. Could it be that he really wanted to use this opportunity to go on an expedition to the fire Empire?

"Vice President Sima, why don't you let this foreign official finish? I'm sure the Vice President and his Majesty will be satisfied!"

The emissary from the fire Empire was sweating profusely. He was afraid that the Hong Shang Empire had already made up their mind to fight.

"I said, no need!"

Lin Yi's face was cold as he looked at the emissary. "If there's a need, I'll go and get it myself. I don't need you to send me off!"

As soon as he said this, the fire Empire's emissary knelt down on the spot.

This was the worst situation. What could he do to turn it around?

Was the fire Empire finished?

The fire Empire's emissary, who was sweating profusely, was even considering whether he should surrender the entire fire Empire to the Hong Shang Empire now. Would that give him a better future?

Lin Yi continued, "I understand the intentions of the fire Empire's Emperor! In the future, the two countries should be brothers! "After all, peace is the absolute principle. I, the Vice President, am now representing the martial Alliance, so I like peace and don't like to fight wars!"

The fire Empire's emissary was dumbfounded. He was not prepared for this sudden turn of events. Happiness had come too quickly, and he was not used to it!

However, the emissary suddenly thought it through.

Chapter 8046

That's right, Sima Yi was now the honorary Vice President of the naduo illusion martial Alliance's combat Association. He represented the martial Alliance, so naturally, he wanted peace!

This realm was too high!

The fire Empire's emissary was extremely impressed. Although Sima Yi had destroyed the original Shanlian Empire in a violent and bloody manner, he had now risen to a higher position. His goal was the peace of the entire martial Alliance branch!

"Many thanks, Vice President Sima. Vice President is truly the role model for us human martial artists. For the peace of the naduo illusion martial Alliance branch, you're willing to sacrifice yourself for the greater good. I'm impressed, I'm really impressed!"

The fire Empire's emissary wasn't trying to suck up to him, but he was truly filled with respect for him.

He had also heard that those high-end cultivators might have conflicts with each other, but for the sake of humanity and the darkness demon beast, they would all work together!

"Yes. Since cousin is now the Vice President of the martial Union's combat Association branch, as the Emperor of the Hong Shang Empire, I naturally won't cause any trouble for cousin. Therefore, I plan to sign an Alliance agreement with the surrounding empires to not invade each other in the future. What does the fire Empire think about this?"

Liu Ziyu knew that Lin Yi was thinking about the long term development of the Hong Shang Empire, so he suggested a plan.

This made Lin Yi look at him in a new light.

"Many thanks, Your Majesty! Our fire Empire is willing to sign an Alliance treaty and treat the Hong Shang Empire as our elder brother. Our fire Emperor is also willing to treat His Majesty as his elder brother and pay tribute to him year after year!"

The fire Empire's emissary immediately took the opportunity and agreed.

He didn't dare to say that the fire Empire and Hong Shang Empire were on equal footing after signing the treaty of alliance. Instead, he lowered the status of the fire Empire's side.

Since they were brothers, they would definitely have an elder brother and a younger brother. Although the Emperor of the fire Empire was much older than Liu Ziyu, and could even be his father, he did not feel any pressure acknowledging Liu Ziyu as his brother.

If the blood spirit were to attack them, they could even call Liu Ziyu 'daddy'!

After all, within the martial Alliance's subdivision, there was already a conferred Empire that was the Alliance's leader. In order to avoid suspicion, the fire Empire had made up an elder brother Empire.

"Very well, you may leave now. Ziyu will send someone to discuss the details of the Treaty with you. Tell your Emperor that as long as he maintains a good relationship with the Hong Shang Empire, the fire Empire will continue to prosper!"

Lin Yi waved his hand, dismissing the emissary before turning to Liu Ziyu with a smile. "Ziyu, I've rejected the fire Empire's land on your behalf. You don't have any objections, do you?"

"Cousin Zhong da, why are you telling this to your little brother? from an internal perspective, you're my cousin, the former retired emperor. You can decide anything in this Empire with a single word!"

"From the outside, you are the Vice President of the nado illusion martial union branch combat Association. Even the empires under your jurisdiction don't dare to disobey your orders!"

Liu Ziyu quickly waved his hand and laughed, "to be honest, I feel much more at ease with cousin Zhongda making the decision!" That's right, cousin Zhong da, don't treat me like an outsider in the future. Are you trying to embarrass this little brother?"

Lin Yi's return this time made Sima Yun the Emperor, and naturally, he couldn't be the Emperor anymore. That was why Liu Ziyu said "the former emperor."

However, Lin Yi was quite pleased that Liu Ziyu didn't get cocky. He laughed and asked, Ziyu, I'm not asking for the fire Empire's compensation. Do you understand why?"

"I know a little. Cousin Zhong da feels that the Hong Shang Empire should focus on stabilizing itself. After a few consecutive upheavals, we need a period of time to develop steadily. Even if we swallow the fire Empire's territory, it will not be easy to digest it."

Liu Ziyu thought for a moment and continued, ""The other option is to take over the fire Empire's territory. They're definitely not happy about it, and might even try to do something behind our backs. Cousin Zhong da will definitely go to the martial Alliance and won't stay in the Hong Shang Empire forever. Instead of making enemies for some small benefits, why don't we try to ease our relationship with the fire Empire? stable development is the best plan!"

"Well said! Ziyu, if you can think this way, there won't be any problems for Hong Shang Empire! However, it's also because I've gone to martial League that they won't dare to make any small moves!"

Lin Yi smiled as he nodded. The main reason he was doing this was because Liu Ziyu was still too young and inexperienced. He didn't lack talent, but he still needed time to turn it into strength.

Before that, the Hong Shang Empire was already enough for Liu Ziyu to do whatever he wanted. There was no point in gaining more land, as it would only hinder Liu Ziyu's growth.

Taking over a part of the fire Empire's territory so easily might cause Liu Ziyu's ego to inflate, and he'd develop a domineering personality-Lin Yi didn't want to see a Liu Ziyu who only knew how to fight.

Since there was no benefit to taking it, then it was better not to take it!

Anyway, if he wanted it, he could take it down at any time!

Of course, the fire Empire would be more peaceful in the future, and Lin Yi wouldn't look for trouble with them for no reason. If they didn't know what was good for them, he could just bring blood ghost around and take over the fire Empire.

"After I'm done here, I'll take part in the martial Alliance's examination. After I pass, I'll be able to enter the Alliance Institute as a teacher. I won't have many chances to return to the Hongshang Empire in the future!"

Lin Yi paused for a moment before explaining his plans. "Every Empire must have experts contributing to the martial Alliance when it was established. We are no exception! Entering the Alliance Academy as a teacher is already the best possible outcome. "

"In the future, if anything happens in the Empire, you can come to the Alliance Academy to look for me at any time. I won't stand by and do nothing! If you find any good seedlings with talent and potential, you can also send them to the Academy to cultivate. Although I haven't entered, I think there won't be any problems with such small matters in the future. "

"Cousin Zhong da! You've worked hard!"

Liu Ziyu stood up and bowed to Lin Yi. "For the sake of the Hong Shang Empire, cousin Zhong da has sacrificed a lot!"

From Liu Ziyu's point of view, Lin Yi was going to be a teacher, but he was still sacrificing his freedom for the sake of the Hong Shang Empire.

If it wasn't for the fact that he knew he was too weak to go in Lin Yi's place, he might've given up the throne and gone to the martial Alliance.

"We're a family, so don't be so polite!"

Lin Yi waved his hand and turned to the outside of the hall. "Before I leave, I still have to do something to repair the great mountain array of the imperial capital!"

One of the Trump cards of the Shanlian Empire was this powerful Shanlian Mountain Formation!

Unfortunately, he was up against a Grandmaster like Lin Yi-he couldn't even unleash the full potential of the formation.

However, this didn't mean that the mountain array wasn't powerful-it was just that Lin Yi was too strong.

Chapter 8047

So Lin Yi decided to fix and improve the mountain array before he left, leaving Liu Ziyu with a trump card to protect the Empire.

"If cousin Zhong da needs anything, just say it. This little brother will be responsible for finding it!"

Liu Ziyu also understood the importance of this formation, so he nodded and asked very seriously.

"That's good. You can first collect all kinds of materials related to formations. The more, the better. I need to read some ancient books and redesign the improvement plan of the formation!"

Lin Yi ordered.

With Liu Ziyu as support, collecting materials would save Lin Yi a lot of time.

"Don't worry, cousin. I'll also hint to the emissaries who will come later to try to change the gifts to something related to formation materials!"

Liu Ziyu had just taken over the Hong Shang Empire, and he had not yet figured out how to collect materials, so he tried his best to make use of all his channels.

"You can go. While you're collecting them, I plan to go to the Royal Library to take a look and study this array!"

Lin Yi waved his hand. "No need to see me out. I'll go by myself!"

In fact, there was no need for Liu Ziyu to send him off-Lin Yi was more familiar with the palace than he was.

As long as he scanned it with his spiritual sense, the entire topographic map would be imprinted in his mind.

"Greetings, Vice President Sima!"

The guard in charge of the Royal Library had already received the message from the palace chief, and he was addressing Lin Yi as Vice President.

Lin Yi nodded and said, "When I'm reading, if there's nothing important, don't let anyone disturb me!"

"Yes!"

The guard quickly cupped his fists and acknowledged.

Lin Yi didn't want anyone to disturb him-not because he didn't want anyone to disturb him, but because the way he was reading was too shocking.

Because Lin Yi was using his sea of consciousness, or rather, Wu Linghai, to read the book. He just had to sit there and he finished it.

The Empire's Royal Library had at least a hundred times more books than a small sect like the sword spring sect, and it really did increase Lin Yi's knowledge reserve by a lot.

Not only the array path, Lin Yi went through all the books here!

After all, the cultivation system of the sub-Island was very different from the normal sky-class Island. It focused on body cultivation, consciousness as a supplement, and no true Qi.

This knowledge would be of great use to Lin Yi as a mentor in the future.

It was already the evening of the second day when Lin Yi came out of the library.

It wasn't that Lin Yi was slow at reading, but that he needed time to understand and master the book.

To Lin Yi's surprise, Wu Linghai's reading speed was heaven-defying!

Not only could it attack in a group, but it could also read in a group!

Previously, when he used his spiritual sea, even if he was fast, he still needed to read books one by one.

And now? Wu Linghai immediately scanned through several books.

Otherwise, he wouldn't have been able to finish so many books in such a short time with the speed of his spiritual sea.

Not to mention mastering it, it was hard to say if he could even finish scanning it.

"Cousin Zhong da, you've come out!"

When he came out, he saw Liu Ziyu waiting outside the door.

Only Lin Yi could make an Emperor wait like this.

"Ziyu, what's the matter?"

Lin Yi had something to talk to Liu Ziyu about as well.

"Cousin, most of the envoys from nearby have already arrived. When do you think we should hold the coronation ceremony?"

Liu Ziyu asked respectfully.

"Do as you see fit. You're the Emperor of the Hong Shang Empire. You can decide for yourself. You don't have to ask me for instructions in the future!"

"I won't be joining the ceremony," Lin Yi said with a wave of his hand. "I'm going to a conferred Kingdom to study that tower from the young masters "Guild!"

The tower had a mysterious formation, and it was very helpful for Lin Yi's study.

After all, the books in the Royal Library were theories, and Lin Yi needed to put them into practice.

The Prince was staying for the coronation, and so the old eunuch was the one who received Lin Yi.

The old eunuch's attitude was completely different from before. He was extremely respectful.

At the same time, he sighed in his heart. He thought that Lin Yi was extraordinary, but who would have thought that he was this extraordinary?

How long had it been? he had come out of a remote place and directly defeated the honorary Vice President of the naduo illusion martial Alliance branch combat Association!

Since the Prince of the Dragon state had become the father-in-law of the kingdom, the affairs of the conferred kingdoms of the Dragon state were basically handed over to the second Prince.

He was the brother of the third Princess, so the first Prince had lost his ability to compete and did not dare to compete.

The Prince and the eunuch helped Lin Yi into the formation tower, and Lin Yi dismissed them.

Lin Yi wasn't used to having so many people following him around-he'd always kept a low profile.

Entering the formation tower again, Lin Yi clearly felt different.

Previously, he could only forcibly stop the operation of the formation tower by destroying it. However, he could now stop it as he pleased according to the principles within.

Lin Yi could even modify and improve it now.

Not long after, Lin Yi felt that he had a good understanding of the sub island's formations. He had completely integrated all the knowledge he got from the library!

During this period of time, Liu Ziyu had already completed his second ascension to the throne and became the true Emperor of the Hong Shang Empire once again, ruling over the Four Lands.

By the time Lin Yi returned to the capital, the materials that the entire Hong Shang Empire had gathered were ready.

At the same time, there were many low-level formation Masters on standby as Lin Yi's assistants.

The imperial capital's Mountain chain formation covered a huge area. It wasn't that Lin Yi couldn't set it up by himself, but it would be a waste of time.

Now that he had a large group of assistants for simple operations, it could save Lin Yi a lot of time.

"Cousin Zhong da, the early preparations have already been completed. Is there anything else you need?"

Liu Ziyu was very excited. Although he was already the Emperor of the Hong Shang Empire, he was still very happy to be able to participate in the setting up of such a huge formation, even if he was just a bystander.

"Um ... Ziyu, help me collect another batch of grass seeds and prepare a large amount of water."

Lin Yi thought about it-in order to speed up the formation, he had to use some extreme methods.

"Alright, I'll go and prepare now!"

Liu Ziyu didn't ask what Lin Yi wanted the seeds and water for, turning around to make the arrangements.

Water was a common resource, so there was no need to prepare it. It could be found everywhere in the imperial capital.

As for the grass seeds, they were not easy to collect.

However, under the Supreme will of the Empire, things that were difficult would become easy. Half a day later, the reports were all prepared.

"Then let's start!"

With a wave of his hand, Lin Yi mounted an aerial spirit beast and flew low in the sky.

A large number of formation assistants were placed all over the imperial capital, each with a bag of seeds and a bucket of water. Lin Yi flew to a spot and had them spread the seeds around them, then pour some water on them.

Chapter 8048

Under the urging of the plant attribute, the grass seeds quickly grew into tender grass, but they did not take root. The tender roots were controlled to move the tender grass leaves quickly like countless short legs.

"According to the hint I'm going to give you, place the formation base according to the position, construct the formation patterns, and form the formation circuit!"

Lin Yi raised his voice on the flying spirit beast, and the hundreds of formation assistants immediately got into action, placing the materials according to the marks made by the young grass.

The level of these assistants was quite low, and it was difficult for them to even set up a simple array on their own. However, they had no problem doing the basic work after splitting it up.

After all, these people had a solid foundation.

However, due to the limitations of the area, no one guided them and they had to rely on reading books to learn.

With so many assistants, Lin Yi didn't have to do much himself. He only needed to use his divine sense to monitor them and make sure nothing happened to them.

Soon, the formation was set up, and Lin Yi patted the flying spirit beast. The spirit beast flapped its wings and brought Lin Yi to another area, repeating the scene just now.

The formation assistants who had finished setting up the formation quickly turned to other areas with admiration and respect for Lin Yi, waiting for Lin Yi to guide them in setting up formations.

It took Lin Yi almost a day to fly around the entire Imperial City.

By the time the formation was completed, it was already night.

As for the array assistants, they didn't feel tired at all after a day of running around. Instead, they were extremely excited, wishing that this array would never be completed.

Although their attainments were not high and what they did was only the basic section of the array, as they continued to explore, they would eventually have a vague impression of the entire array.

It was unfathomable!

That was the only impression they had.

They felt that this array was enough for them to learn for a lifetime. The person who was able to set up this array, the Vice President of the combat Association, Sima Yi, was truly in awe!

An idol of a lifetime!

Wait, the combat Association? Are you sure it's not the array Association?

These array Masters were a little dumbfounded. Although they had not passed the assessment of the array Association to become members, they still knew a thing or two about it.

Lin Yi was such a powerful array master, why did he join the combat Association?

Could it be that the battle was even more powerful and the array was just a support?

No wonder the Hong Shang Empire was so powerful. They had just established their empire, but they had already come from all directions.

When the formation was completed, Lin Yi stood on the back of the flying spirit beast and looked down at the Imperial city in the night. He couldn't help but feel proud.

From the beginning to the end, he had designed and improved this formation by himself and instructed others to set it up.

In terms of power, it was several times stronger than the mountain array of the past. It was simply like a little heifer taking flight and becoming extremely awesome!

Most importantly, the mountain Formation from before used the blood and flesh of the entire city as a sacrifice-Lin Yi had to improve on this evil formation.

Now, this formation was activated by absorbing the attributes of all the plants in the city as energy.

"Lin brat, you're really amazing! Even I can't set up such a great formation!"

The ghostly thing that had been watching silently in the Jade space finally couldn't help but exclaim, ""The sub-island's array system is different. If you had asked this old master to arrange this big array, this old master would certainly have been at his wits" end, but I didn't expect you to complete it so smoothly. Truly amazing. "

Only when he praised her did the ghostly thing ease the shock in his heart.

Lin Yi's skills in formations were taught step by step by him, but he didn't expect Lin Yi to have surpassed him in this area!

The student had surpassed the master!

The ghost's heart was filled with pride and pride, because Lin Yi could be considered his inheritor. Seeing Lin Yi mature made the ghost feel as happy as seeing his own children succeed.

But at the same time, he was a little disappointed-Lin Yi's array skills surpassed his, and he wouldn't be able to help much in this area in the future ... Wouldn't his presence be even lower?

"It's all thanks to senior ghost's constant guidance that I've achieved my current results. Senior ghost is the main contributor!"

Lin Yi smiled and gave the credit to the ghost, which made the ghost very happy.

"You still have to rely on your own hard work. Moreover, your talent in array Dao is really strong! Now that you've finished your apprenticeship, this old man has nothing more to teach you in the future. "

The ghostly thing chuckled a few times and changed the topic."Lin Yi kid, this island's formations are very different from other places. I've studied it for a long time, but I can't figure it out. Why don't you tell me what this island's formations are all about?"

"Hahaha, senior ghost, you've been able to understand the Dao of array formations in other places with a single touch. Why do you want to acknowledge me as your master now that you're on this sub-Island?"

Lin Yi was in a good mood, and he couldn't help but crack a joke,"If you acknowledge me as your master, I'll definitely teach you everything I know, and I won't hide anything from you!"

"Little brat, you want to rebel now that your wings have hardened? I've taught you so much, and you still want me to take you as my master?"

The damn thing naturally knew that Lin Yi was joking, and immediately scolded him with a smile,""If this old man were to acknowledge you as his master, would you dare to accept?"

"What's there to be afraid of? Senior ghost, if you dare to call me master, I will dare to respond to you by calling me disciple!"

Lin Yi continued to joke, pushing the ghost into a dead corner.

The damn thing could be rude to Lin Yi normally, but he couldn't call Lin Yi master.

If he couldn't be killed, he couldn't do that!

I can't let go of this face!

But he was also obsessed with formations. Lin Yi had such a deep understanding of the sub island's formations, but he couldn't get it. It was unbearable!

He was scratching his ears, his cheeks, his heart, and his liver!

Or self-study?

If Lin Yi could do it, there was no reason he couldn't!

But thinking about it again, wasn't this period of time self-study? he really couldn't do it!

This old man is so angry!

Lin Yi couldn't help but laugh when he saw the ghostly thing's face.

He was just joking, and it was impossible for him to really ask senior ghost to take him as his master.

In the end, Lin Yi decided to give all the knowledge he had to the ghost.

The damn thing didn't feel embarrassed at all-he took it and left for a new round of practicing, in case Lin Yi changed his mind at the last minute and brought up something like taking him as his master.

After ending this small incident with the ghostly thing, Lin Yi returned to the palace and handed the formation flags to Liu Ziyu.

"Ziyu, you must take good care of this array flag. The control of the entire array is in this array flag!"

Lin Yi said seriously. "Don't use the formation unless you have no other choice. It's the last trump card of the imperial capital! Therefore, you can only keep it for yourself. You can't give anyone else a chance to get the formation flags. "

Chapter 8049

"Don't worry, cousin Zhong da, I understand!"

Liu Ziyu received the array flag with both hands, his face equally solemn.

He knew very well what the array flag in his hand represented!

Lin Yi wasn't in the Empire, and this formation was the last line of defense!

"Ziyu, you're still too weak. While the situation is still stable, you should make some arrangements. I'll take you to cultivate for a few days!"

Lin Yi had to make sure everything was in place before he left Hong Shang Empire.

When he was in martial League, nothing would happen to Hong Shang Empire. However, it was hard to say if he would leave the sub-Island in the future.

It was better to teach a man to fish than to Give a man a fish, so it was necessary to improve Liu Ziyu's strength.

"Alright, please wait a moment, cousin Zhong da!"

Liu Ziyu immediately revealed a happy expression. He had wanted to ask Lin Yi to help him level up a long time ago.

Last time, all of his friends had entered the nine-story glazed Pagoda. He was the only one who didn't enter because he wanted to ascend the throne.

As a result, after his little companions came out of the nine-story glazed Pagoda, each and every one of them had a huge increase in strength!

Not to mention Fei daqiang, even Jin Yuan Bao, Zhang Yiming, and the others had all advanced to the xuansheng stage, although they had not entered the mountain opening stage. They were still very close to the peak of the late stage of the xuansheng stage and the great Perfection of the xuansheng stage.

Even the ordinary soldiers of the blood spirits were at least at the early stage of the mysterious Ascension realm.

Such a team would be absolutely terrifying on the battlefield between empires!

Even if Lin Yi wasn't around the next time, this team would still have an overwhelming advantage.

Liu Ziyu heard Lin Yi's words and knew that he finally had the chance to enter the nine story Pagoda. The pagoda had always been in the palace, but no one had been able to enter.

After Fei daqiang and the others came out, they were unable to re-enter.

Liu Ziyu estimated that other than Zhong DA's cousin, no one else had a way to enter.

He quickly handed over the Empire's Affairs to his subordinates and slipped back to the nine-story Pagoda with Lin Yi.

Fei daqiang was already waiting with Jin Yuan Bao and the others. Lin Yi had already sent people to tell them that he would personally take them to the nine story Pagoda.

As for the ordinary Guards unit soldiers, they did not follow in this time.

Even the Emperor, Liu Ziyu, had to leave for a few days. The entire blood spirit Army had to guard the imperial capital just in case, in case any ignorant fellows wanted to take the opportunity to cause trouble.

However, the blood Spirit's commander, song shaopeng, also went in with Lin Yi this time, leaving only his Deputy to lead the team!

"Fei daqiang, the last time you led a team, the results weren't very good. There wasn't even a single one who reached the mountain opening stage! I'll have to personally take you there again. "

Lin Yi saw them and scolded Fei daqiang, "You really don't live up to expectations! Can't you just let me be a little less worried?"

"Hehe, of course I can't compete with boss. Besides, I've only just started my mountain, and I'm still hoping that boss can take me flying! They've benefited from me this time, so they should be thanking me. "

Fei daqiang didn't mind as he talked to Lin Yi with a cheeky smile.

Lin Yi had already met them before setting up the formation, and Fei daqiang knew some of Lin Yi's experiences during this period of time, grumbling that he had missed the chance to show off with the Big Brother again ... It was a good chance to take risks.

This time, no matter what, he couldn't leave his thigh, because if he left the leg hair on his thigh, it would no longer be leg hair, but a strand of stray hair on the ground. Therefore, he had to hold on to his thigh tightly and not let go!

Lin Yi didn't pay much attention to Fei daqiang. He greeted the others and led the team into the nine-story Pagoda.

This time, it was a small group operation. There were no large groups of people, and similarly, there were no Wu yucao and Ling Hanxue.

However, no one mentioned it in case Lin Yi was sad.

This time, Lin Yi personally led the group into the nine story Pagoda not only to help his most trusted people level up, but also to see if he could level up quickly himself.

The last time Jin Yuan Bao and the others were inside, they used their spiritual awareness to drive their Zhen Qi, so their body level also followed. Although their Zhen Qi was sealed again after returning to the sub-Island, their body level did not disappear, and it was many times faster than their simple body refining.

Lin Yi's weakness right now was that his body's level was too low. If he could also go through the nine-story Pagoda and use his spirit sense to level up his body, he would be able to make up for his weakness.

It was a pity that Lin Yi didn't make any progress at all after entering the nine-story Pagoda, while everyone else had made great progress.

For example, Fei daqiang was at the great completion of mountain opening when he came out of the lapis lazuli Pagoda last time. This time, under Lin Yi's leadership, he had directly reached the great completion of earth opening, just a step away from the half-step sea splitting realm.

Li Yingjian's improvement was even greater than Fei daqiang's. He was only at the peak of xuansheng before he came in with Lin Yi, but now he was at the peak of earth-splitting final stage. His improvement was even greater than Fei daqiang's.

In addition, Jin Yuan Bao, Zhang Yiming, Liu Ziyu, and Song Shaopeng were all about the same. They had all entered the earth opening stage, and their improvement was absolutely terrifying.

Unfortunately, they were only at the earth splitting stage and didn't have an expert at the sea splitting stage!

As for Lin Yi himself, Wu Linghai had become more condensed, and the power of his consciousness attacks had become stronger. His defense against consciousness attacks had also become stronger, but his level was still the same. He hadn't entered the heaven breaking stage.

There wasn't even a trace of true Qi in his body, let alone an increase in his strength.

Lin Yi didn't understand why his body didn't have Qi.

Could it be that this body was born on the sub-Island, so it couldn't cultivate true Qi?

But Jin Yuan Bao and the others were also born and raised on the sub Island. If they could do it, there was no reason why he couldn't, right?

The difference was that they were made of flesh and blood, while Lin Yi used the Lotus to reforge his body.

Could it be because of the purple mist sinful Lotus?

Or was it because of Wu Linghai?

His deific consciousness sea had become Wu Linghai, so he couldn't use his genuine Qi to improve his body's level?

Would the benefits he obtained on the sub-Island become shackles that restricted his growth in the end?

That would be awkward!

Lin Yi thought about it the whole way, but couldn't come up with an answer.

After leaving the nine-story glazed Pagoda, everyone, including Fei daqiang, was inexplicably excited.

Everyone couldn't be more satisfied with the increase in strength this time.

As for the sea-shattering realm that Lin Yi was hoping for ... They never thought about it at all. They were already overjoyed to be able to reach their current strength!

"Alright, you guys can leave first. I need to think about something on my own!"

Lin Yi said casually.

They'd been gone for a while, and they all had their own things to take care of, so they all left the place in high spirits after saying goodbye to Lin Yi.

Chapter 8050

In the end, only Fei daqiang was left.

He had already made up his mind to never leave the sight of her thighs, so of course, he would not leave no matter what.

"Boss, I have no place to go and nothing to do, so I can only follow you! You can ignore my existence and think about what you need to think about. I will definitely not disturb you!"

Fei daqiang smiled cheekily as he begged. Lin Yi smiled and shook his head, not forcing him to play.

Lin Yi put away the nine story Pagoda and found a place to sit down cross-legged, thinking about how to level up his body.

Wu Linghai's methods were powerful, but there might be people on the sub-Island or other places who could restrain her.

If Wu Linghai lost its effect, Lin Yi wouldn't be able to protect himself with his current strength.

Since he couldn't use his spirit sense to level up his body, Lin Yi could only think of ways to level up himself using the sub-Island.

The Royal Library had all kinds of books, and Lin Yi decided to look for a way to level up quickly.

So while Lin Yi was sitting there like he was in a daze, he was actually flipping through the books in the Royal Library.

As expected, the information was comprehensive. First, Lin Yi found a way to break through to the original level.

On the sub-Island, there was no way to use the baby ginseng to break through. Or rather, it was useless to have the baby ginseng as it didn't help the sub-island's breakthrough.

If he wanted to improve, he could only temper his body step by step and use the body-tempering cultivation technique to improve his body's level.

However, there were some shortcuts that required a large amount of resources.

For example, the most common method was to use medicine to temper the body.

In the common world and Sky Class Island, there were bound to be some shortcomings in the strength gained from the accumulation of medicine, so Lin Yi had to make sure there were no side effects from using resources like this.

And so Lin Yi continued to search along this line of thought, and realized that other than the fact that he needed more and more precious resources, there didn't seem to be any other shortcomings. He decided to use this method to train his body.

"Boss, where are you going?"

Fei daqiang quickly ran over when he saw Lin Yi stand up, "I'm following the boss, don't leave me behind!"

"I'm going to cultivate in seclusion ... Alright, alright, you can stand guard outside!"

Lin Yi was about to say that he should go into seclusion and consolidate his strength since he just broke through to half-step sea splitting realm, but he changed his mind when he saw Fei daqiang's pitiful eyes.

"Alright! Boss, don't worry, leave your safety to me, Fei daqiang, to protect you. There will definitely be no problem!"

Fei daqiang smiled. He wanted to stay by Lin Yi's side so he wouldn't be left behind again.

Lin Yi shook his head and went straight to the palace's warehouse to pick out the resources he needed. He then found an empty Palace and started his isolated cultivation.

The Hongshang Empire had taken over the Shanlian Empire's Treasury, and Sante had taken some of the precious resources with him when he escaped, but Lin Yi had intercepted them.

As a result, these resources were well preserved, and Lin Yi's selection went smoothly. He prepared everything from Yuanying to xuansheng and mountain opening.

However, the resources needed to break through from the mountain opening stage to the earth opening stage were much less, so it was not easy to break through at the same time.

Lin Yi told Fei daqiang to tell Liu Ziyu to gather the resources, and he went into seclusion.

Normally, even if it was a body refining genius, if they wanted to break through from the Golden core stage to the original infant stage, with the accumulation of such resources, it would not be effective in a short time.

After all, it would take a long time for the body to absorb the medicinal effects and then transform them into power to temper the body.

Lin Yi, however, was different.

His body was soaked in the medicinal soup made from the medicinal herbs. He only had to slightly circulate his body-tempering cultivation technique, and the originally black medicinal soup instantly became extremely clear, almost the same as fresh water.

All of the medicine was absorbed by Lin Yi's body in one go, and then used completely, refining Lin Yi's body in all aspects.

After a short half an hour, he had reached the original level!

Lin Yi's expression turned weird.

This speed was really unexpected.

According to the records in the ancient books, it was estimated that it would take at least three days.

And even if it was only three days, it was because he had accumulated enough experience in the perfected Jindan stage before he began to temper and break through.

Otherwise, he would need more time.

But what the hell was going on now? Half an hour?

He hadn't even prepared the medicinal soup for the follow-up body tempering!

He had originally wanted to get someone to slowly prepare it and wait two days before properly boiling it ...

"Fei daqiang!"

Lin Yi got up and put on his robe before calling out to the person outside.

"Hey, boss, what's the matter? Just give me any instructions!"

Fei daqiang replied and immediately pushed the door open. "Did you forget something? Do I need to make some last-minute preparations? Boss, just say it, we really need to be fully prepared for seclusion, we can't be careless! It's never wrong to be as cautious as you can be. Otherwise, it'll be more troublesome to make up for any mistakes during your closed-door training. "

The guy went on and on, telling Lin Yi all the things he needed to pay attention to in isolation.

It was as if this fellow had shut up.

Lin Yi couldn't help but smile as he coughed softly, "The first stage of closed-door cultivation has ended. Hurry and prepare the resources for the second stage that I have prepared. Once you're done, send them in."

"No problem, I'll go get it for boss ... Wait, second stage resources? Boss, you've already completed the first stage of your closed-door training?"

Fei daqiang's eyes widened in disbelief.

I thought it hadn't started, but you're telling me it's over?

How long has it been?

Big brother, you call this short period of cultivation closed-door cultivation?

Even the warm-up before the blood spirit training is longer than your seclusion, right?

"You didn't hear wrong. Hurry up and get ready!"

Lin Yi didn't even know what was going on, so he couldn't explain it to Fei daqiang. He waved his hand and sent him away.

“666! Boss, you're too strong. You're indeed worthy of being my idol! In such a short time, his strength had advanced by leaps and bounds! Compared to you, boss, all the other geniuses are trash!”

Fei daqiang didn't understand what was going on, but this didn't hinder his professional quality as a veteran leg hair. He immediately sent a wave of 666 to the thigh to show his respect for the thigh!

After finishing this wave, Fei daqiang left the room, satisfied. He went to prepare the resources for Lin Yi's second stage, the Yuanying stage.

The preparation time was about eight hours, and a large barrel of rich medicinal liquid was sent into the room.

This bucket of materials was a few times the amount he'd used-according to Lin Yi's calculations, he'd have to refine it all the way from beginner to peak nascent soul.
