

Bodyguard 8051

Chapter 8051

For ordinary people, this bucket could be used for a year. To be able to complete the promotion from the early Yuanying stage to the great circle of Yuanying stage in a year was already very outstanding.

Lin Yi didn't think he needed that much time. Six hours later, the liquid turned back into clear water.

Lin Yi climbed out of the bucket with a weird expression on his face, feeling the strong power in his body.

The estimation of the medicinal effect was correct, it was indeed done in one step, directly reaching the great circle of Yuanying stage.

But wasn't this time a little too fast? It had only been six hours!

The preparation time was much longer than the cultivation time!

If the people outside knew that he used six hours to raise his body refining level from the early Yuanying stage to the peak Yuanying stage, they would probably go crazy.

"Fei daqiang ..."

Lin Yi confirmed that his body was fine and immediately summoned Fei daqiang.

Fei daqiang had actually been waiting all this time. He felt that since the first stage only took less than an hour, the second stage should be enough in two hours.

So after an hour, Fei daqiang started to raise his spirit and wait for Lin Yi to call, but he didn't!

Therefore, Fei daqiang extended the time to an hour and a half, but he still didn't hear the call of his thigh.

It's okay, let's just wait. Four hours ... Four and a half hours ...

When Fei daqiang felt that his thigh had really started his normal closed-door cultivation this time, he relaxed his mind a little and was ready to sit down and rest for a while ...

"Fei daqiang, Qianqian"

The call for his thigh was here!

Fei daqiang instinctively jumped up and quickly pushed the door open. "Boss, what are your orders? Have you finished the second stage of your closed-door cultivation?"

"Uh ... Yes, go and prepare the medicinal liquid for the third stage ..."

Lin Yi had finished his words, so he could only nod in confirmation.

Fei daqiang suddenly madly sent another wave of 666, expressing his admiration for the thigh like a torrential River ...

After repeating this a few times, Lin Yi's body was at the peak of the mountain-opening realm the next morning. It was a huge upgrade.

Although he was not a top expert yet, he could already be called a giant.

Lin Yi finally understood what was going on.

This was probably because of the purple mist evil Lotus, and with the nature of plants, this body naturally had a strong affinity with herbs. It would be good enough for others to absorb 10 - 20% of the medicine, but Lin Yi could use it 100%.

This difference could not be compared at all.

Not only was the efficacy of the medicine effective, but the absorption speed was also dozens of times stronger than that of ordinary people.

One could say that as long as he had enough medicinal resources, Lin Yi's body refinement's speed would be able to break through without any bottlenecks!

The reason why it had stopped now was because there were no more medicinal ingredients for a breakthrough ...

Lin Yi was sure that the palace's Treasury didn't have any more resources for him to break through to the groundbreaking stage. He could only try his luck with Liu Ziyu and see if he could get any information from him.

"Cousin Zhong da, you still haven't started your closed-door training?"

Liu Ziyu had the same reaction when he saw Lin Yi.

He thought that Lin Yi hadn't started his practicing!

After all, he had just said that he was going into closed-door cultivation yesterday, and now he was out for a walk today. Who would think that he had already come out?

He was still curious. Cousin Zhong da had always been a Swift and decisive person, so why was he dilly-dallying this time?

"Oh, no, I've already come out of seclusion!"

Lin Yi's casual words almost made Liu Ziyu choke on his own saliva!

What the hell? He came out of seclusion just like that?

I did sleep the whole night, right? Could it be that he had actually slept for a month? Or two months?

Liu Ziyu was almost doubting his life. Cousin Zhongda, why is your closed-door cultivation like a game? can't you be more serious?

"We don't have any more resources. Ziyu, do you have any news?"

Lin Yi had ordered him to collect resources for breaking through to the earth-opening stage, as well as resources after that, but it'd only been a night. Lin Yi didn't expect Liu Ziyu to be able to collect any resources, and only wanted to ask if there was any news.

Liu Ziyu swallowed the saliva that he almost choked on, coughed twice, and laughed awkwardly, ""Cousin Zhong da is really unexpected. He completed his goal of seclusion so quickly ..."

Speaking of which, one night couldn't even be considered closed-door cultivation, right? That was just normal cultivation, right?

Liu Ziyu shook his head and got rid of the strange thoughts in his mind. ""The imperial capital doesn't have the resources that cousin Zhong da needs for the time being. In the past, resources of this level were all collected in the National Guard Hall. Now that the National Guard Hall is gone, the resources inside have also disappeared."

"I'm afraid it will take some time to collect them again. The other empires might have some, but if you want to trade them, you will have to wait. If cousin Zhong da is not in a hurry, you can wait a little longer."

With normal training speed, it would take Lin Yi at least one to two months to go from peak golden core to Peak Mountain-opening realm.

This period of time would be enough for him to collect the resources needed to break through to the earth-opening stage.

But who would've thought that Lin Yi would be this fast ...

He didn't have time to cook it before, but now he simply didn't have time to collect resources!

Lin Yi shook his head after some thought, "In that case, forget it! I'll head straight to martial League to take a look. The resources there should be more abundant, and it'll be easier to collect them. "

Previously, he had been too weak when he had gone to the martial League with the consummate level of the Golden core realm. Now, although the consummate level of the mountain-splitting realm was still a little weak, he could still be used.

He had to go to martial League anyway, so it would be good to go and take a look earlier.

..."Cousin Zhong da is going to leave? I wonder how long it'll take for him to come back?"

Liu Ziyu's expression was a little sad.

Lin Yi had always been his pillar of support, and he couldn't help but feel sad that he'd be leaving for martial Union all of a sudden-he might not have many chances to come back to the Empire in the future.

"Ziyu, what are you thinking about? I'm only going to the martial Union to test my qualifications as a teacher. Once I successfully enter the academy and become a teacher, I'll have a very high degree of freedom!"

Lin Yi smiled and patted Liu Ziyu's shoulder, trying to comfort him. "Without the martial Alliance token, my actions are completely free to be arranged, and I can come back at any time! If you have any problems, you can come and find me! Well, I can come if I have nothing to do. "

Liu Ziyu instantly felt much more relaxed and smiled again. ""That's good! "I'll go look for cousin Zhong da whenever I'm free. Who knows, I might even be able to study at the Academy. That's the martial Union's Academy, not everyone has the right to study there, right?"

"Haha, I'll only know when I enter the academy and become a teacher!"

Lin Yi pretended to be at ease, trying to lighten the mood of parting.

The decision to leave was rather sudden. It could be said that it was a spur of the moment decision. However, Liu Ziyu was already mentally prepared, so he quickly accepted reality.

Chapter 8052

They chatted for a while, planning out the future of the Hong Shang Empire, and Lin Yi bid farewell to Liu Ziyu and Fei daqiang.

As for Jin Yuanbao and the others, Lin Yi didn't plan to take them away. He didn't even want to say goodbye to them personally. He only sent a message to them, telling them to stay here and protect the Hong Shang Empire.

By the time Jin Yuan Bao and the others received the news of Lin Yi's departure and came to see him off, Lin Yi had already brought Fei da Qiang far away from the imperial capital!

Jin Yuanbao, Zhang Yiming, and Li Yingjian were all depressed-perhaps their fate with Lin Yi had come to an end.

Lin Yi still had a long way to go, and they were destined to never catch up to him.

However, they were now much stronger than before. They would cherish what was in front of them, protect the Hong Shang Empire, and set up the National Guardian Hall with peace of mind.

"Fei daqiang!"

After the two were a hundred miles away from the imperial capital, Lin Yi stopped in the wilderness and turned to Fei daqiang, "I'm a little hungry. Why don't you go hunt something to fill your stomach?"

"Alright! No problem!"

Fei daqiang had wanted to show off for a long time. It was not easy for his boss to get a mission. Although it was simple and boring, it was better to have a mission than not having one. At least he could show his presence in front of his boss.

Now that he was already an expert at the consummate level of earth-splitting, wasn't hunting some prey a piece of cake?

However, he didn't expect that there wasn't any prey nearby for him to hunt.

Lin Yi had already used his spirit sense to check this out-if he wanted to find prey, he needed to go further ...

After Fei daqiang left, Lin Yi stood in the open space and looked up at the blue sky and white clouds. He muttered, "Dingyi, are you there?"

With that, Ding Yi's figure appeared not far from Lin Yi. Even Lin Yi's divine sense couldn't detect how this guy came over.

"Yo! Young master Lin, long time no see! Do you have any business to take care of?"

Ding Yi greeted him with a smile, still looking like a businessman who made money in a friendly way. "I will be waiting for you to call. You can ask for anything. Young master Lin is an old customer, so you can enjoy the special discount!"

"That's enough. It's not the first time we've met, Ding Yi. We know each other well."

Lin Yi waved his hand and quickly said, "let's get straight to the point!" Do you have any news of Wang Xinyan?"

"There is! But I don't recommend you go to her!"

Dingyi, on the other hand, accepted the advice readily, putting away his little merchant's behavior and smiling freely. "Even if I tell you the news, you won't be able to find her. Why don't you change your business?"

Lin Yi didn't say anything-it seemed like he still had a long way to go before he could find Xinyan!

"I'll change my question then. Will I be closer to Wang Xinyan if I become a teacher at the martial Alliance Academy?"

If the direction is wrong, then quickly change it, in case you go in the opposite direction and get further and further away!

"Since we're old customers, I'll give you this information for free. Being a teacher at the Alliance Academy should be closer to finding Wang Xinyan."

Dingyi nodded after some thought."Any other questions?"

"Where is the great witch of ghost Yin now?"

Since he couldn't find Wang Xinyan, Lin Yi decided to look for the witch first. Wu yucao and Ling Hanxue were also important partners,"I can find him, right?"

"If it's the great witch of ghost Yin, you can indeed find him. However, I still don't recommend you to find him now!"

Dingyi scratched his head, feeling that today's business was not very good. "I know you care about Wu yucao and Ling Hanxue. Don't worry, the great witch of ghost Yin won't do anything to them. He's just bringing them back to his old residence."

"Of course you can go and look for him, but the distance is very far. You'll need to cross the martial union branch, which is very troublesome. It's not easy to get there without a complete customs document."

"Then how did the great witch of ghost Yin return to her old residence?" Lin Yi asked.

It can't be that this old bastard can get the customs clearance document, right?

"The great witch of ghost Yin flew over. Of course, you can do it too. Put away your body and fly over with your primordial spirit. Then you can avoid the customs document."

He knew Lin Yi well enough. "A friendly reminder, although you can do this, it's best not to do it! "Once this sort of abnormal method is discovered, you'll become a wanted criminal in the entire martial Union, and you'll be pursued by all the members of the martial Union."

"Don't think that you can do whatever you want just because your primordial spirit is in the great circle of the sea-splitting realm. If you're really wanted by the martial Union, don't ever show up again. Once you do, you'll definitely be hunted down to death. Even an expert in the great circle of the sea-splitting realm can't withstand it!"

Lin Yi didn't know what to say-what else could he do?

"Ding Yi, Who are you?"

"We've already used up our share this time! However, I can give you an additional answer. Right now, I am a merchant, and currently, I have no ill intentions towards you!"

"I don't have enough information today," ding one said with a smile."I'll give a discount to my old customers. I'll give you credit this time. We'll settle the bill together next time!" I'll be leaving first!"

He left without giving her a chance to stay!

Lin Yi opened his mouth, but Ding Yi had already disappeared into the distance.

Currently ... No malicious intent?

Would he have any ill intentions in the future?

He's a businessman now?

Would they still be in the future?

This mysterious guy was not something that could be set at ease!

At this time, Fei daqiang also ran back with a prey. Lin Yi shook his head lightly and threw Ding Yi to the back of his mind for the time being. He made a barbecue with Fei daqiang.

Fei daqiang gave another wave of praise for the thigh roasting technique, and then he ate until his mouth was full of oil!

Lin Yi only ate a little. After getting Wu Linghai, the days of eating and drinking in the Forest of Illusions and hunting dark beasts to fill his stomach were gone. Now, he was back to the old days where he wouldn't feel hungry even if he didn't eat or drink.

Lin Yi had planned to ask Ding Yi for information when he left the imperial capital, so he didn't bring his flying spirit beast.

After finishing the meat, Lin Yi and Fei daqiang walked to the next city and bought an aerial spirit beast before flying to the martial union branch.

The journey was calm and peaceful, and nothing happened. When they reached the naduo titled Empire's capital, Lin Yi brought Fei daqiang through the city gates, and the bustling scene in front of them made Fei daqiang exclaim in admiration.

"Wow! I didn't expect this city to be so prosperous. It's really unexpected!"

Fei daqiang was someone from the secular world and had seen the world, but he was still shocked by the imperial capital. "Boss, it seems that the sub-Island is not simple!"

Chapter 8053

When he first came, he felt that the sub-Island was weak and Fei daqiang had a sense of superiority. Now, it was completely gone.

"It's not that simple, so you have to keep a low profile. Don't be too ostentatious, understand?"

"Keep a low profile like me and never get into trouble. You know, there are a lot of Masters on this Island!" Lin Yi said casually.

Fei daqiang's mouth twitched. As a senior leg hair, he should agree with thigh's words, but low-key's temperament really didn't match thigh 's!

Thigh, are you keeping a low profile? you should know in your heart, right?

"I know, I know. Keep a low profile!"

It couldn't be helped. Whatever the thigh said was true. Fei daqiang nodded repeatedly to show that he understood. "Boss, are we going directly to the martial Alliance's branch now? If you're not in a hurry, why don't we go shopping?"

Lin Yi saw that it was still early and didn't object to bringing Fei daqiang around the naduo titled Empire's capital. "That's fine. It's very lively on the way to the branch. Let's just stroll there and not delay anything!"

Fei daqiang didn't have any objections, so the two of them strolled around leisurely. When they saw a snack that they had never seen before on the side of the road, they would try it.

When it was almost noon, they entered another restaurant for lunch.

That's right, although they weren't hungry, they still chose to eat, just to satisfy their appetite and try some dishes that they had never eaten before.

"Go away ... Go away ... Ah! I ... Was born ... And died! I'll keep you ... Keep you safe ... Have some wine ... What's wrong with wine? And you're f * cking ... Asking ... Asking me for money?"

Originally, they were having a good time eating, but they didn't expect to meet a drunk crazy guy. Not only did he refuse to pay, but he also kept pestering the waiter.

His two companions were also in a similar situation. They were a little tipsy and were staggering. They didn't go up to help probably because they couldn't stand steadily.

"These battle generals have come to eat and drink for free while causing trouble again! The martial Alliance's branch won't do anything!"

Someone at Lin Yi's table mumbled. "Although they did make some contributions, they can't keep doing this, right?"

"Shh! Keep it down, you'll be in trouble if they hear you!"

His companion quickly stopped him. "It's fine if you offend the other members of the martial League. However, these battle generals of the combat Association won't reason with you. If you pretend to be crazy while you're drunk, you won't be able to reason with them even if they beat you to death ..."

This person's voice grew softer and softer. It was probably because he felt that if he slandered the battle general like this, the chances of him being killed by the battle general would be higher, right?

The two of them looked at each other and tacitly stopped talking. They lowered their heads and only focused on eating their food.

Lin Yi frowned-he'd thought that it was some normal drunkard, not a general from the combat Association.

As the honorary Vice President of the martial union branch combat Association, Lin Yi had some understanding of the Association.

The ordinary members of the combat Association were collectively known as combat generals!

In the martial Alliance's combat Association, there were also differences in combat generals.

The few people who were drunk and causing trouble were clearly battle generals of the lowest level. The badges they were wearing were all made of bronze.

However, even a minor character like him was enough to intimidate most ordinary people.

For example, the owner of this restaurant.

"My Lords! Calm down, calm down! He's new here and doesn't know the rules, so don't lower yourself to his level! It's our honor to be able to treat you to a meal, how can we ask you to pay for it? Isn't this a slap to the face of a villain?"

The shopkeeper hurriedly ran over, bowed, and apologized with a smile on his face,"

"It's this lowly one's fault for not being strict with his discipline, please forgive me! Please have a private seat upstairs, our small shop will be serving some newly developed dishes, please do us the honor of having a taste. "

Under normal circumstances, if the shopkeeper didn't have a deep grudge and deliberately looked for trouble, he would be satisfied and let the matter pass.

To be able to eat for free until such a realm, what else was there to be dissatisfied about?

Unfortunately, the battle generals today were clearly not in the scope of normal circumstances.

They had already eaten and drunk to their fill and had no interest in any newly developed dishes. Instead, they liked to use the alcohol to cause trouble!

"Get lost! What the f * ck do you mean? Do you think we are beggars? You're going to send us off with some food?"

The battle general who had started the fight slapped the shopkeeper's face.

This person was stammering before, but now he was actually much more fluent. It really made people wonder if he was really drunk?

The shopkeeper was a little dumbfounded.

It was not the first time that a general from the combat Association had been freeloader. However, this was the first time he had been beaten up!

"My Lord! Please conduct yourself with dignity! Although this small shop is small, it's not a place that just anyone can bully!"

The shopkeeper covered his face, his eyes cold.

It was indeed impossible to open a shop in the Imperial City near the martial Alliance's branch without a strong background.

He had tolerated these battle generals because he did not want to fall out with them.

If he really wanted to flip the table and fight, it would not be too difficult for the people behind him to come out and target a few battle generals of the lowest level.

"Threaten ... Threaten ... Threaten me?"

The battle general was furious and slapped the shopkeeper again, sending him to the ground. "You ... You F * cking ... Ate ... Ate a bear's heart and a leopard's gall. You dare ... Dare to threaten me!"

As he cursed, he went up and kicked the shopkeeper twice. "Your master ... Master doesn't even ... Don't even dare to talk to me like this! Who ... Who ... Who the hell are you?"

It was clear that this battle general knew who was behind this restaurant but did not care!

After beating up the shopkeeper, he was still not satisfied and continued to call out to his two companions, ""Brothers ... Smash ... This damn shop! How dare you ... Look down ... On us brothers!"

As he spoke, the general grabbed a table and smashed it in Lin Yi's direction ...

He was probably going to throw it at the wall or window, but he missed it and it went straight for Lin Yi.

The ordinary diners around them exclaimed and got up to escape.

Originally, it didn't matter if they were just watching the fun. They just ate and drank as they should and treated it as a show.

However, he didn't expect that someone would actually flip a table and smash a stool for no reason this time. For the sake of his little life, he quickly slipped away.

Lin Yi frowned-he didn't want to get involved in this shit.

After all, the honorary Vice President of the combat Association was only a title in name. There was no need to be a busybody.

However, he did not expect that these guys would actually embarrass the table!

Lin Yi didn't even try to Dodge the table as it flew towards him. He raised his hand and turned it around, sending the table back to where it came from.

However, when he returned, his speed and strength had already doubled!

Chapter 8054

The battle general was still a bit confused. Before he could figure out how the table he had thrown out had flown back, he was smashed on the head.

The hard wooden table instantly shattered into pieces. The battle general, who was caught off guard, also had blood all over his head as he fell straight down.

It looked quite serious, but it was actually just a small cut. It didn't have much of an impact.

Therefore, after he calmed down and figured out what had happened, he immediately jumped up and screamed.

"Who is it? Who the hell ambushed me? I ..."

Before he could finish his sentence, he saw the sole of a foot rapidly enlarging in his blurry eyes!

Then, his face, which had just suffered a heavy blow, was kicked hard again. His whole body turned 180 degrees on the spot, completing a very difficult spin in the air, head-to-feet, and finally landed perfectly in a dog-gnawing mud posture.

"Whose father are you talking to?"

Lin Yi's face was cold as he stomped on the back of the general's head, "If you want to die, you can go to the underground devil cave or the Forest of Illusions. Why do you want to die Here? Isn't it good to be alive?"

"Who are you? Hurry ... Let him go!"

The other battle General's body trembled, and he sobered up.

In the nado conferred Empire, not many people would dare to lay a hand on a combat general of the martial Union combat Association!

Unless he was a big Shot with a real background!

If they really met someone they couldn't afford to offend, they wouldn't dare to provoke him even if they were drunk.

It also depended on the location when one was drunk!

This place was perfect for battle generals like them to drink and show off, but they didn't think they'd run into a thorn like Lin Yi!

However, Lin Yi didn't look familiar-he wasn't on the "no-go" list.

So the two battle generals who were still standing felt that there would not be any major problems!

"Isn't it good that you're alive? How dare you attack us brothers! Don't you know that you can't afford to offend the people from the combat Association?"

The third general shouted and charged at Lin Yi, activating his martial skill.

This guy didn't care about the fact that they were in a restaurant and there were many ordinary people present. He didn't care if he would hurt the innocent after using his martial arts.

The diners who had already fled in panic now hated their parents for not having a few more legs and ran out desperately.

This kind of liveliness was already not something they could watch. If they stayed any longer, they would lose their little lives!

The shopkeeper wanted to cry but had no tears. There were so many people ... And they still hadn't paid the bill!

Well, let's not talk about the money for the food and wine. The problem was that if they fought, this shop really couldn't bear it!

Are you here to eat or to fight? Can't we just talk nicely?

Oh, right, those three damned battle generals had already finished eating ... So they had nothing better to do and would tear down the shop for fun?

"Despicable!!!!"

The shopkeeper's mind was full of drama. The moment the battle general attacked, he had already thought of many things.

Then, he saw that the general who attacked him didn't even use his martial arts. He was only one step away from Lin Yi when he knelt down!

What the hell?

Did he see his father?

That's why he didn't dare to make a move and knelt on the spot?

But Lin Yi didn't look like he had a son that old!

As expected, he drank too much? He couldn't even stand properly!

The kneeling battle general also thought that he had drunk too much. His head was a little dizzy and his legs were not very nimble.

Lin Yi was the only one who knew what happened.

It was just a light vibration of his spirit sense. To Lin Yi, it was the level of blowing at the general.

"You're quite polite. You knelt down and kowtowed immediately! Alright, you can go ahead and kneel. I won't argue with you about your previous disrespect!"

Lin Yi waved his hand, half joking and half serious. "It's only temporary! Even if you kneel down and call me daddy, you still have to accept the lesson!"

"Go to hell!"

The last general who hadn't died yet shouted and pulled out his weapon. He jumped into the air and slashed at Lin Yi with all his might.

Lin Yi didn't even try to Dodge or move, he didn't even lift his eyes.

The aggressive battle general was like a bird that had its wings broken. He fell to the ground and knelt in a row with his companions.

"Not bad, you're all quite sensible! If you know you're in the wrong and have to kneel down to admit it, then why did you make a mistake before?"

Lin Yi's taunting was even more embarrassing than beating them up.

"Look at you guys. You still have the nerve to call yourselves battle generals of the combat Association. The reputation of the combat Association is going to be ruined by you scums!"

"Do you know why the martial League set up a combat Association? It was to protect the home of mankind! You are battle generals, yet you are doing such a shameless thing. Tell me, do you still have the right to call yourself battle generals?"

Lin Yi didn't care if it made sense or not-he'd just have to enjoy himself first.

"Who are you? how dare you speak to the people of the combat Association like that!"

A feminine yet arrogant voice suddenly sounded from outside the restaurant.

Then, a middle-aged man with a dark expression and arrogant eyes walked into the hall with his hands behind his back, staring at Lin Yi coldly.

"How can the matters of the martial Union's combat Association be decided by those unknown people? Do you think that the combat Association is easy to bully? Hehehe, kid, I'm afraid you don't understand what the martial Union combat Association represents, do you?"

The two of them, who were a little dizzy from the shock of the divine sense, saw the middle-aged man who came in and instantly sobered up. They quickly got up from the ground and bowed in unison. "Greetings, Vice President!"

Lin Yi raised an eyebrow. So this guy was the Vice President of the combat Association?

It should be right. He had a golden sword badge on his chest, so there was no doubt about his identity.

"Get lost! What a disgraceful thing! To be humiliated in their own territory was a disgrace to the combat Association! I'll deal with you guys later!"

The middle-aged man chided before turning to Lin Yi with a cold smile. "The people of the combat Association can only be managed by the combat Association. I don't care if they have done anything wrong or what they have done wrong. It's not something you can interfere with! Since you have offended the combat Association, I will punish you on behalf of the combat Association!"

He didn't even give Lin Yi a chance to speak as he raised his hand, ready to attack Lin Yi with his martial skill.

"Wait a moment! You're the Vice President of the combat Association? Is the combat Association allowed to be unreasonable?"

Lin Yi's face went cold-the Apple doesn't fall far!

With a Vice President like this, it was no wonder that there would be such an arrogant and despotic battle general!

Was the martial Union's combat Association such a corrupt place?

Chapter 8055

That would be too disappointing!

According to the artifact language, he was also the president of the combat Association. He wondered how he managed the combat Association!

"Hahahaha! Reasonable? What right do you have to reason with me? In this place, martial League was the law! The combat Association was the law! Who are you? You actually have the nerve to reason with this Lord?"

The middle-aged Vice President laughed out loud.

However, the sinister aura on his body was too strong, and his laughter gave people a very sinister feeling. "Kid, it's too late to regret it now. You should have known that you would be punished if you dared to touch the people of the martial Union's combat Association!"

"I'll give you a chance. Kneel down and kowtow to admit your mistakes. Kowtow a hundred times, and I'll be lenient in your punishment! If you want to resist, then don't blame this Lord for not warning you, you will die!"

The manager of the restaurant was hiding in a corner, shivering.

With the appearance of the Vice President of the combat Association, the people behind him did not dare to make a fuss.

Without a doubt, his restaurant might be finished today.

And that young man, he would definitely be finished with the restaurant.

The manager really wanted to tell Lin Yi to run, but he didn't dare to show his face.

If he was killed by the Vice President of the combat Association, he would have no place to cry to!

Lin Yi narrowed his eyes.

The combat Association was really domineering!

"Ha ... Kowtow? Can you afford it? What's so great about being the Vice President of a combat Association?"

Lin Yi smiled coldly as he took out the gold badge he got from the artifact language. He tossed it in his hand and put it on his shirt, "It's as if someone doesn't have a gold badge! Did you see clearly? Your position as the Vice President is not higher than mine!"

"Gah!"

The Vice President was stunned, and his face turned gloomier!

He didn't expect Lin Yi to pull out a golden one-stroke badge! Same level as him?

How was that possible?

How many people in the martial Alliance's branch had gold badges? Was there anyone he didn't know?

Or could it be that this kid was actually someone from another branch?

The Vice President continued to sneer, ""You're just trying to add to your crime! Just by randomly getting a fake martial League gold badge, he dared to come out and swindle people? Why don't you take a look at who you're facing! Do you think you can fool this Lord?"

"You're the Vice President of the martial Alliance's combat Association, aren't you? how dare you say that the gold badge given by the Vice Hall Master of the martial Alliance's branch, who is also the president of your combat Association, monster language, is a fake? Come, come, come, tell me, which part of this badge is fake?"

Lin Yi curled his finger at the Vice President, a mocking smile on his face.

Are you trying to rebel?

To claim that the badge given out by one's immediate superior was fake, this person's courage was beyond imagination!

The middle-aged vice president's face immediately turned dark and gloomy.

He really did remember now that Lin Yi mentioned it!

He had just received a notice that the combat Association had an honorary Vice President, who had been personally invited by the monster language. He had not paid much attention to such a person who was just in name.

He didn't expect it to be this young man in front of him.

This was a little tricky!

An honorary Vice President did not hold any real power, but his status was distinguished, and there was no difference between him and a Vice President with real power.

Especially since this kid was invited by the language of the monsters ... That would be troublesome!

"How audacious! How dare you speak to our Vice President like this! You must be tired of living!"

One of the generals who knelt down wanted to show off in front of the boss, so he jumped out and pointed at Lin Yi, "So what if your badge is real? There's no one like you in our martial Alliance branch! Who knows where you picked up the badge from? maybe you stole it! You want to deceive us? no way!"

The vice president's eyes brightened slightly.

None of his subordinates knew about the honorary vice-leader position that manifestation language had given him. When he came out just now, he had not heard that the kid had reported to the martial Alliance branch!

Even if this kid's identity wasn't fake, there was room for manipulation now. It would be over if they treated him as a fake!

"Hahahaha! Well said! Your badge might be real, but so what? Countless martial League experts have fallen over the years, and you're just lucky enough to pick up a badge, so you're taking it for yourself?"

The Vice President laughed loudly and pointed at Lin Yi, "And you still say that vice Hall Master Hua gave you the badge. With your wet behind the ears appearance, I don't know where you heard vice Hall Master Hua's reputation, but you're pulling a Tiger's skin and making a big flag, right?"

"Are you going to say that vice Hall Master Hua has asked you to be the Vice President of the combat Association, so you have the status and qualifications to interfere in the combat Association's Affairs?"

Lin Yi didn't know what to say-this guy's shamelessness really was asking for a beating!

It was obvious that the other party already knew his identity and had deliberately said it in such a joking tone to shut his mouth.

Lin Yi didn't reveal his identity, only taking out the gold badge.

If he were to claim that he was the combat Association's honorary Vice President, it would seem as if the shameless man had predicted this.

"So you know my identity! That's right, I'm the Vice President of the combat Association invited by vice Hall Master Hua. However, I'm just an honorary Vice President! Since you know my identity, you still allow these lowest level battle generals to attack me. Are you looking down on me or vice Hall leader Hua?"

Lin Yi saw through the vice president's thoughts and decided to counter-attack, "I see. You think that vice Hall Master Hua being the president of the combat Association is blocking your way, right? So, you're deliberately targeting me just to embarrass vice Hall Master Hua, right? So, you planned all of this in advance, right?"

Right, right, right?

The Vice President felt like his head was about to explode! Are you F * cking me?!

If this were to reach the ears of the artifact language, he would not be able to live a good life.

Epecially ... Some of these words were right!

He just felt that since the language of assimilation had taken up the position of the president, it did not care much about it. It was just a dog in the manger and should have abdicated long ago!

And he was the sage!

"Cut the crap, it's very easy to prove your identity! Let's see if you have the guts to do so!"

The Vice President felt that he wouldn't be able to gain any benefits if he continued to talk nonsense, so he decided to be more direct!

"What do you mean? Although I don't care if you acknowledge my identity or not, there's nothing bad about it if I want you to be convinced!"

Lin Yi looked at the other side of the room, understanding what the man was trying to do.

If he couldn't win verbally, he would just change hands!

"You said that vice Hall Master Hua invited you to be our combat Association's honorary Vice President. I believe your combat power is also very amazing, right? Since that's the case, then let's see who's the real deal!"

Chapter 8056

"Don't say that you don't dare to. The Vice President of the combat Association isn't a coward. If you don't dare to, it means that you don't have the strength and your identity is fake!"

The Vice President said confidently.

He had always been unconvinced of the language of the living things, but he had never challenged it. He had only fantasized in his heart that he could kill the language of the living things in an instant.

In the long run, it made him feel that his combat power was really amazing!

Lin Yi's age was there, and his body looked weak. According to the rumors, Lin Yi got to his position because of his commanding ability, not because of his own strength.

So the Vice President was full of confidence, thinking that he could easily and happily teach Lin Yi a lesson!

"As you wish. I also want to see how strong the combat Association's Vice President is!"

The corner of Lin Yi's mouth curled up slightly, revealing a mysterious smile. The vice president's heart skipped a beat, and he had a bad feeling!

Now that the arrow was on the string and had no choice but to fire, he couldn't refute, so he shook his head to drive away the bad feeling.

"You're quite good at acting tough, aren't you?"

The Vice President thought that Lin Yi was bluffing. He laughed and got into a fighting stance. "Alright, I'll show you what it means to be the Vice President of the combat Association! Even if you really are an honorary Vice President, you can't be compared to me!"

As soon as he finished speaking, he stepped out!

With lightning speed and a thunderous momentum, the fist flew towards Lin Yi's face!

Peak of the late sea-splitting stage!

Moreover, it was infinitely close to the level of the Great Perfection of the sea-splitting realm.

He was indeed on par with the language of the living things. If they really fought, the language of the living things might not be able to suppress this man in a short time!

As expected of the Vice President of the combat Association, his combat power was indeed impressive!

Unfortunately, in front of Lin Yi, physical strength was useless.

As long as the other party's primordial spirit had not reached the heaven breaking stage, and they did not have any tools, cultivation techniques, or methods to defend against spiritual sense attacks, no matter how strong their physical combat power was, it was all trash!

A simple collision of divine consciousness easily broke through the vice president's primordial spirit, causing the afterimages to dissipate instantly.

The vice president's body, which had been frozen in place, leaned back at an exaggerated rate. It was as if his head had hit a beam when he was sprinting.

Lin Yi's body flashed, and he used his butterfly steps to appear in front of the Vice President. He grabbed the vice president's wrist and threw it!

The Vice President who was leaning back was picked up by Lin Yi and thrown to the ground in the opposite direction.

However, the vice president's consciousness was still affected by the collision of the consciousness. In a state of confusion, he had no idea what he had experienced.

Lin Yi's lips twitched, a mocking smile on his face. His hand didn't stop, and he flipped it again!

The three combat Association's combat generals had already sobered up. Even the restaurant's manager and waiters were dumbfounded by the unbelievable scene before them.

They didn't know how to describe their current feelings.

He was the Vice President of the combat Association!

He wasn't the Vice President of the alchemy Association or the array Association!

Those were all big shots who specialized in their respective fields, so it was understandable that their combat power was not high!

However, this was the Vice President of the combat Association. The combat Association!

To be thrown on the ground like a rag, like a mop ... The combat Association would probably be renamed the mop Association in the future.

Lin Yi let the Vice President lie down on the ground after a while, kicking him around and making him rub against the ground.

The three generals were crying. Was this to solidify the name of the mop Association?

It didn't matter if the Vice President was doing well or not, the three of them were not.

Not to mention whether the kid who trampled the Vice President would let the three of them off, even if the Vice President came back to his senses, he would not let them off!

He had caused such a big trouble and even the Vice President was involved. What good could he do?

He's dead, he's dead!

At this time, the Vice President had already recovered some of his consciousness, but he was still confused about what had happened!

Wasn't he about to F * ck someone just now? why did it seem like he was F * cked instead?

Was there a mistake somewhere? In fact, she was the real Lin Yi?

Lin Yi didn't care what these people were thinking. After a round of beating, he felt refreshed. He kicked the Vice President to the corner and sat down at his table. He took a sip of his wine.

"As expected of the Vice President of the combat Association! His defense is amazing, and his skin is far thicker than I imagined. He actually didn't die after fighting for so long. Amazing, amazing, I admire him!"

Lin Yi laughed without holding back, "It's really eye-opening to be able to witness the amazing combat power of the Vice President of the combat Association! If the Vice President goes to the Devil's Den or the Forest of Illusions, I'm afraid that those darkness magical beasts will be helpless, right?"

The Vice President lay in the corner of the wall, tears streaming down his face. His desire to die rose higher and higher. This was too embarrassing!

He was beaten up in front of so many people and did not even have the strength to fight back. The dignified Vice President of the combat Association ... What was he waiting for?

It was definitely impossible for him to get up now, so he would just lie down and play dead ...

The three battle generals didn't even dare to take a deep breath. They just wished that there was a crack in the ground so that they could sneak in and never come out again!

Who would have thought that he would encounter such a terrifying person when he was drunk?

"You guys, why don't you get out of here and wait for me to treat you to a meal?"

Lin Yi glanced at the three generals indifferently.

The cowards all quivered and quickly bowed to thank him as if they had been granted Amnesty. They turned around and wanted to run.

"Wait!"

Lin Yi's words froze the coward's body, and he remained frozen in his original position.

They were afraid that Lin Yi would go back on his word and not let them go!

"Bring your Vice President back. He doesn't seem to want to get up and walk ..."

Before Lin Yi could finish, the Vice President jumped up from the ground and walked out of the restaurant with his head lowered.

He was already embarrassed enough, but not many people had seen it. If he was carried out of the restaurant by his men, this matter would be over!

In less than half a day, the entire Imperial City would know that he had been beaten to the point that he could not take care of himself and had to be carried out of the restaurant.

The coward heaved a sigh of relief.

They were also afraid. They had already offended the Vice President. If they carried the leader out, they would definitely have endless trouble later!

Although it was bad now, it was not the worst. There should still be a way to save it ...

The Vice President left the restaurant without even looking back, not even saying a word. The coward wanted to follow him quietly, but Lin Yi stopped him.

They wanted to cry again.

Big brother, master, ancestor! We were wrong, alright? Can you not scare me like this!

Chapter 8057

His heart couldn't take it anymore!

"You'll pay for all the food and drinks you've eaten, the things you've destroyed, and the customers you've scared away!"

Lin Yi didn't want to waste his time with these small fries, but since he'd already extended his hand, he had to finish what he started and finish what he started.

When the coward heard that it was such a small matter, he quickly took out all the money he had and carefully placed it on the counter.

"No need, no need. This time, this little store is treating several Lords to a meal, so you don't need to pay ..."

The shopkeeper quickly refused.

He was afraid that if he took the money, he would be retaliated against in the future. Although it seemed possible for him to be retaliated against even if he didn't take the money, the probability would be slightly lower, right?

"Nonsense! We brothers don't need you to treat us to a meal. Take it and stop talking nonsense. Take a look at the rest of the compensation, is it enough?"

The battle general who had caused trouble at the start had long sobered up from the shock. He was now sweating profusely as he pushed the money to the shopkeeper.

But the innkeeper did not dare to accept it. The two pushed back and forth, and the battle general did not dare to use any strength, afraid of injuring the innkeeper.

If Lin Yi wasn't watching, the general would've slapped the manager to death already. "Just take it, you're trying to get me into trouble, aren't you?"

It's a matter of paying and leaving, but you don't want to take the money. Are you trying to kill me?

Didn't he just eat a few Overlord's meals? did he have to kill people without leaving a trace?

"Shopkeeper, quickly take it, don't stand on ceremony!"

The other battle general was also anxious. They just wanted to leave this place as soon as possible. If they stayed here any longer, they would feel like they were suffocating.

So even though he spoke politely, his eyes were extremely fierce when he looked at the manager behind Lin Yi's back. He threatened that if Lin Yi didn't take it, he'd kill the manager later.

However, the usually shrewd and thoughtful shopkeeper seemed to be scared silly now. He interpreted the other party's gaze as 'if you dare to take it, I'll kill you later'!

He still dared to accept this? He would definitely try his best to express that he didn't need compensation and that it was a small matter.

Mang Zhan was about to go crazy. He turned around and looked at Lin Yi, who seemed to be getting impatient and about to explode. Mang Zhan threw the money down and ran out of the restaurant, not caring if the manager would take it or not.

The shopkeeper was so scared that he peed his pants. Are you guys trying to find an excuse to kill me? I can't accept this money! I won't take it even if I'm killed!

However, by the time he took the money and chased after her, the coward had already disappeared ...

Lin Yi didn't think much of it. After eating, he left the restaurant under the manager's respectful eyes and took Fei daqiang for a walk to the martial union branch.

"Leader, what kind of trash is this combat Association? they actually made you the honorary Vice President, which is the same rank as that idiot just now. This is really too low of a status!"

Fei daqiang was very proud. His thigh was awesome. He didn't care if you were the Vice President or not. He would directly beat you down!

"Why are you always thinking about such things? if you follow me, you have to see the essence of the battle!"

With a wave of his hand, Lin Yi cut off Fei daqiang's nonsense, "My opponent is at the peak of the late stage of the sea-splitting realm, a body-refining expert who is infinitely close to the consummate level. Why do you think I could defeat him so easily?"

"Because you're the team leader. You're awesome!"

Fei daqiang was stunned and said.

"Because I used a divine sense attack!"

Lin Yi kicked him, "If you use your spiritual awareness skills well, you can also take him by surprise and defeat him!"

"Oh, oh, oh, I know!"

Fei daqiang nodded again and again. After thinking about it carefully, he felt that it was indeed the right decision to follow this powerful man. He had learned more than others.

"This time, we might have to stay in the nado conferred Empire's capital for a very long time. So, you should go and find a house. There's a place for you to stay."

Lin Yi added, "Don't cause trouble for me. Don't try to act cool. This is the main camp of the martial Alliance branch, not some rural area!"

"Yes, I understand, Captain!"

Fei daqiang nodded, but he didn't think so.

With the support of a divine sense skill, who was there to fear?

Besides, didn't he still have the backing of the captain?

"Yeah, I'm going to be a teacher in the future, so don't always call me Captain!"

"You can Call Me Mister from now on, be more refined," Lin Yi said after some thought.

After sending Fei daqiang away, Lin Yi walked into the branch of the illusionary nado martial Alliance.

The last time they came out of the forest of Illusions, the language of monsters had accompanied Lin Yi to the martial union branch. He had a rough understanding of the layout, so Lin Yi went to report to the language of monsters this time.

With the gold badge on his shirt, Lin Yi's path was clear, and everyone who saw him greeted him respectfully.

At the same time, the Vice President of the combat Association was looking for another vice Hall Master of the martial Union's branch and crying. ""Cousin, you must help me! The artifact language is too much. He just randomly appointed someone as an honorary Vice President. Does he really think that he has the final say in the combat Association?"

"It's not a big deal. Although the honorary vice president's status is honorable, he doesn't have any real power and won't have much influence on the combat Association. Arrogant and despotic, you don't know how to respect your seniors and colleagues at all!"

"He attacked a member of the combat Association for no reason. I couldn't stand it and said a few words of Justice. I don't know what tricks he used in secret. He took the opportunity to beat me up when I was unprepared!"

"Cousin, what do you think this is? I've asked around, that kid is called Sima Yi, he's someone sent by the newly established Hong Shang Empire. That Hong Shang Empire used to be the Shan Lian Empire, but he used some underhanded methods and quietly replaced them!"

"The assimilation language has brought this kid to the combat Association. On the surface, he's an honorary Vice President, but he's trying to intimidate me, a Vice President with real power, even before he's registered. What is he trying to do? What was the artifact language trying to do? Are we going to privatize the combat Association?"

That vice president's brain hole was quite big. In order to increase the persuasiveness, he had come up with such a conspiracy theory.

His cousin, Ouyang Changqing, was also one of the Vice Hall Masters of the naduo illusion martial League branch and also the president of the alchemy Association. When he heard his cousin's tearful complaint, he frowned slightly and seemed to be in deep thought.

"Yao qian, don't get too excited. Let's talk slowly!"

Ouyang Changqing consoled,

His cousin, si yaoqian, was not weak, but he was a little impetuous. He was already an adult, but he still did things a little inappropriately sometimes.

This time, si yaoqian had said a lot, but Ouyang Changqing didn't believe him completely. "I've heard a little about this Sima Yi you're talking about. It's true that he's the honorary Vice President of the martial Alliance's combat Association branch that was personally recruited by the language of the living things. However, in terms of combat power ... I didn't expect him to be so strong that he could defeat you in an instant."

Chapter 8058

Ouyang Changqing didn't pay much attention to Lin Yi at first-he was just the combat Association's honorary Vice President, after all, and it didn't have anything to do with the pill Association anyway. He'd just let the artifact language do it.

He did not expect her to be so powerful. It would not be a problem for her to become the Vice President of the combat Association!

"Cousin, that brat called Sima Yi is definitely not strong on his own, but he used some underhanded methods. If it was an open and aboveboard battle, I would not be afraid of him!"

Si yaoqian tried to defend himself and continued, ""No matter what, this kid must have an ulterior motive for joining the combat Association!"

"Seeing that most of the combat Association's people are almost under my control, the language of the living things can't sit still anymore. They want to use Sima Yi to disrupt the situation! Cousin, you have to stand up for me. Otherwise, I'm afraid I won't be able to withstand Sima Yi's pressure with the language of the living things!"

These were si yaoqian's heartfelt words. However, he hoped that Ouyang Changqing would stand up for him and fight the language of living things head-on. At the same time, he wanted to kill that brat Sima Yi!

In terms of combat power, Ouyang Changqing was far inferior to the monster language. Even he, the Vice President of the combat Association, was inferior.

However, the president of the alchemy Association must be a powerful Alchemist, which was much more powerful than the language of the living things.

If they were to face each other directly, the hall Master of the nado illusionary martial Alliance branch would probably side with Ouyang Changqing more!

"Let's wait for the artifact language to deal with this matter! After all, he's the one who brought them in. I'm not a member of the combat Association, so it's hard to say if I'm meddling too much. "

Ouyang Changqing hesitated for a moment and felt that it was not a good time to fall out with the language of the living things. "Furthermore, that Sima Yi you mentioned hasn't even reported to martial League yet. We don't know if he's really as you said."

"Especially when I heard that Sima Yi is a member of the martial Alliance sent by the Hongshang Empire, and that he might take the test to become a teacher in the Academy. If that's the case, there shouldn't be any conflict between you and him."

It wasn't a secret that the beast language had applied for Lin Yi's Teacher Exam, and the martial Alliance had already given them a reply.

Although Ouyang Changqing did not really care about Sima Yi, he had heard some rumors.

He wasn't collecting information on purpose. It was normal for him to eavesdrop on them occasionally because the people around him would talk about all sorts of information about the martial Alliance's branch.

"Cousin Chang Qing, what can be done by the artifact language? Could it be that I, the Vice President of the combat Association, can't even react after being beaten up? On what basis?"

Si yaoqian was very excited, as if he was ready to go to the language of living things and fight Lin Yi, "He, Sima Yi, is only an honorary Vice President, but I, Si yaoqian, am a true Vice President! Although the monster language is the president of the combat Association, Chang Qing, you are also the president of the alchemy Association! Are you afraid of them?"

"It's not a matter of being afraid! "After all, this is an internal matter of the combat Association. Although we're all from the martial Alliance's branch, we're still from different associations. It's not my place to interfere!"

Ouyang Changqing rubbed his brows and was also a little helpless. ""Alright, alright, don't get too worked up. I will talk to Huayu about this matter personally. I will make sure that he will conduct a fair investigation and give you an explanation."

Si yaoqian was very dissatisfied. What was the use of just asking the language of living things to conduct a fair investigation? The result would definitely be disadvantageous to him!

This matter had to be done without getting to the bottom of things, and everyone's butts had to be on his side!

"No, cousin, listen to me ..." He said.

Si yaoqian wanted to try again but was interrupted by Ouyang Changqing.

"That's enough. It's decided. I'll send someone to get the language of assimilation!"

Ouyang Changqing made the final decision and did not allow si yaoqian to refute. In front of si yaoqian, he sent an invitation to the language of the living beings.

Although he said that he was going to find the language of the living beings, he actually had to invite them politely. After all, they were of the same status and were not some small fries who could be summoned at any time.

The language of assimilation had received Ouyang Changqing's invitation and came to the appointment immediately.

They were both the Vice Hall Masters of the branch. One was the president of the combat Association, while the other was the president of the alchemy Association. Since they had a lot of interactions, they would definitely give him face.

So when Lin Yi arrived at the language of the living's office, he missed it.

"Vice Hall Master Hua, welcome, welcome. It's truly an honor to be able to take time out of your busy schedule to come and attend the meeting! Hahaha!"

When Ouyang Changqing received the news, he came out with si yaoqian to welcome the language of monsters. They even greeted each other warmly, as if they were really inviting the language of monsters to chat about the old days.

"Vice Hall Master Ouyang, you're too polite. You invited me here when you're so busy, so I'll definitely come! You have to know that I've always been thinking about the good wine in your cellar! Hahaha!"

The artifact language also smiled and made small talk.

"Your subordinate pays his respects to the president!" Si yaoqian obediently stepped forward and bowed.

"Vice President si is here too! The relationship between you brothers is really good. You meet up from time to time. I'm really envious!"

The artifact language nodded with a smile and also exchanged a few words with si yaoqian.

Ouyang Changqing led the monster into the living room and sat down. The servants had already served them food and wine.

The three of them sat down at their respective seats and toasted each other.

"As expected, vice Hall Master Ouyang's wine is the best! In the future, if you have nothing to do, you must invite me over as a guest. Such a good wine, wouldn't it be a waste if I don't drink it!"

The artifact language drank another glass of wine and put it down. He smiled and said, ""Vice Hall Master Ouyang, don't tell me that I finished a good party!"

"Of course I won 't! I'm more than happy that vice Hall Master Hua is willing to grace me with your presence! In the future, if there's nothing, you can come and visit more often. Don't worry, I'll have enough good wine!"

Ouyang Changqing replied with a smile and then changed the topic. "However, I invited vice Hall Master Hua here today to talk about something other than drinking."

"Vice Hall Master Ouyang, please feel free to speak. There's no need to be polite between us."

The artifact language had expected this.

Usually, Ouyang Changqing wouldn't invite him if he had nothing to do. Even though they seemed to be chatting affectionately, the two of them were really just acquaintances.

"Here's the thing. Si yaoqian was beaten up in the restaurant today. The opponent's combat strength was not strong, and he could barely break si yaoqian's defense. However, he had a way to make si yaoqian lose his mind, so he could only take the beating passively!"

Ouyang Changqing had already discussed with si yaoqian and prepared a script, so he spoke without any hesitation, "I'm not too sure about the cause of the incident. According to si yaoqian, the other party was arrogant and despotic. They bullied the combat generals of the combat Association indiscriminately. As the Vice President of the combat Association, si yaoqian tried to stop the fight, but he was humiliated instead."

"Since it involves the combat Association, it's not appropriate for me to show my face. That's why I asked vice Hall Master Hua to come over and discuss how to deal with this matter."

The language of assimilation looked at si yaoqian meaningfully and said with a faint smile, ""Since it's a matter of the combat Association, why didn't Deputy President si report it to me? Instead, you're here to find vice Hall Master Ouyang?"

Chapter 8059

It was a taboo to talk about internal affairs with someone else without a direct superior. Si yaoqian broke out in a cold sweat after hearing the language of the living things 'words.

"Hahaha, because I'm his cousin! Originally, he didn't want to expose this matter and only came to me to complain. I felt that something was wrong, so I decided to ask vice Hall Master Hua to come. "

Ouyang Changqing had also expected this, and he immediately took the blame without saying anything. ""Vice Hall Master Hua, you still don't know who hit si yaoqian, right? After that, you'll understand why si yaoqian didn't want to make a big deal out of it. "

"Oh? Or did he have a special identity? That's right, if he doesn't have some background, who would dare to provoke the Vice President of the combat Association in the nado conferred Empire?"

Hua Yu nodded and asked, "Who is that person? Vice Hall Master Ouyang, hurry up and reveal the answer!"

"Hahaha, it's not really a mystery. The humanoid vice Hall Master should be very familiar with him. He's the honorary Vice President of the combat Association that you recently appointed, Sima Yi from the Hong Shang Empire!"

Ouyang Changqing laughed as he dragged Lin Yi out with a nonchalant tone, "You see, we were originally one family, but the flood washed over the temple of the Dragon King. There might be some

misunderstanding. As the president of the alchemy Association, I'm not suitable to deal with it. I can only ask vice Hall Master Hua to make a decision!"

"That's right. President, please make the decision. If you want witnesses, there are three battle generals in our Association who were at the scene. They should know best. Do you want me to call them over for you to question them?"

Si yaoqian had already given a verbal confession to the three combat generals, so he would be the one to decide what to say if they were here.

"Vice Hall Master Hua, one of the people involved is your combat Association's Vice President, and the other is your combat Association's honorary Vice President. Both the palm and the back of your hands are made of flesh. After you've clarified the situation, I hope that vice Hall Master Hua can deal with this fairly!"

Ouyang Changqing was subtly putting some pressure on the language of the living things.

What he meant was that after talking to the three generals, they had to deal with Lin Yi properly. They couldn't let him off lightly.

The language of living things frowned. He was happy to hear that Lin Yi was here, but he couldn't hold back his anger when he thought about how Lin Yi was being pestered by si yaoqian right after he arrived.

As for what Ouyang Changqing and Si yaoqian had said, the language of the living things did not believe a single punctuation mark!

He knew Lin Yi's character very well-he was arrogant and aggressive, and he didn't like to pick a fight.

Si yaoqian, on the other hand, was good at doing things like this. The language of the living things already had a rough idea of what was going on.

"Don't worry, vice Hall Master Ouyang. I know about this, and I'll definitely deal with it fairly! The three battle generals involved don't be in a hurry. I will go to the site of the incident to investigate and understand the entire sequence of events. "

With a plan in mind, the artifact language said,""Vice President si, where did you say Sima Yi had a conflict with you?"

"...Restaurant ..."

Si yaoqian was a little confused. 'An on-site investigation? The rhythm of this matter doesn't seem right!

He didn't want to go to such an embarrassing place a second time!

Of course, this was not the main point. The main point was that the people at the restaurant knew what was going on, and he had not had the time to kill them!

If Hua Yu were to investigate, wouldn't she be exposed?

What to do, what to do?

He didn't know if it was too late to kill them now. Would the language of the living things suspect anything? Would it work if she pushed it onto Sima Yi?

"If it's a restaurant, there should be quite a number of people who witnessed what happened. How about this, you come with me and ask those witnesses. We'll also get Sima Yi to come along, and you two can talk face to face!"

The artifact language acted decisively and slammed the table in front of it. ""There's no time to waste, let's go now!"

Si yaoqian was panicking. He didn't even have the chance to silence her!

Once the language of the living things found out the truth, he would be dead for sure!

He allowed his subordinates to bully the people, arrogantly beat up the civilians, and when they were no match for him, he, as the Vice President, personally came out to support them. In the end, he was beaten up and still wanted to bite back ...

With all these facts laid out, the language of the living things would have no problem depreciating him from the Vice President to a battle general!

"Guild leader, there's no need to rush. It's rare for you to come to my cousin's place, and you haven't even had a few cups of good wine ... Come, come, come, let me toast you again!"

Si yaoqian wiped his cold sweat and forcefully changed the topic. He raised his wine glass and wanted to get away with it.

"No," the artifact language said seriously. "I have business to attend to. How can I drink?" Let's settle this matter first, there'll be plenty of time for us to drink later!"

Si yaoqian wanted to cry but had no tears. He had dug a hole for himself and jumped into it!

He looked at his cousin, Ouyang Changqing, with pleading eyes, hoping that his cousin would say something.

Ouyang Changqing immediately understood the trick.

In fact, Ouyang Changqing had already expected this. He knew what kind of person si yaoqian was.

He had thought that he could put pressure on the language of the monsters and let it ask the Warriors. He did not expect that the language of the monsters would take it seriously and go to the scene directly!

Hehe, it seems that Sima Yi is very important to the language of the monsters!

Ouyang Changqing's eyes flashed as he laughed and said, "Vice Hall Master Hua, this is actually not a big deal. We're all on the same side. It's just a small misunderstanding. It'll be fine once we talk it out!"

"What I meant was that I hope vice Hall Master Hua can treat both of them fairly when you deal with this matter. I hope that you won't be biased just because Si Yaoqian is my cousin and the Vice President of the combat Association."

Ouyang Changqing chuckled a few times. "After all, Vice President Sima Yi has just arrived. If he were to be punished because of a misunderstanding and something unpleasant happened, he might be disappointed in our martial union branch. That wouldn't be good!"

Hua Yu narrowed her eyes and looked at Ouyang Changqing with a profound look. "So that's what vice Hall Master Ouyang meant! I must have misunderstood you just now!"

"Hehe ... President Hua, my cousin has always been impartial and incorruptible. He wouldn't side with me just because he has a little relationship with a subordinate ..."

Si Yaoqian laughed dryly. He understood that Ouyang Changqing was already helping him by saying this, so he went along with the flow and said, "I think that the president is busy and it's not worth it to waste time on such a small matter. Why don't we call those battle generals over for questioning?"

"To be honest with you, President, I didn't really understand what was going on when I went there, and I had a conflict with Vice President Sima. It's necessary to ask those guys over to clarify the situation!"

"Is that so ... Then go and call the people over!"

"Yes!" The artifact language nodded. "Vice Hall Master Ouyang's people are not sure who to look for. I'll have to trouble vice Hall Master si to make a trip down personally!"

"It's my duty, it's my duty, this subordinate will be right back!"

Chapter 8060

Si yaoqian secretly wiped his cold sweat. He knew that the language of the living things was giving him a chance to go through the statements of those combat generals again.

Of course, the confession had to be true or close to the truth. At the very least, it had to satisfy the monster language. Otherwise, the monster language would investigate the matter thoroughly.

Si yaoqian had thought about taking the opportunity to silence them, but he thought about it again. Since the language of living things was already paying attention to this matter, wouldn't it be a huge crime if all the people involved were to die?

By then, they would not need any evidence to deal with si yaoqian!

When Siyao moved out of the door, he couldn't help but shiver. He thought to himself, "is the language of the living things giving me a chance to kill him on purpose?"

He grabbed a blade of grass! It was very possible!

'This cunning old man must be trying to trick me. Otherwise, he would have dragged me to the scene to ask for witnesses. Now, he's going to let me leave alone?'

There must be a conspiracy!

No, no, should I send someone to protect those damn witnesses?

If they die, they won't blame it on me, right?

Si yaoqian left with a heavy heart. Soon, he returned with the three battle generals who had gone crazy in the restaurant and told them what had happened.

It was basically the truth, but all the responsibility was shouldered by those three unlucky fellows.

Si yaoqian's conflict with Lin Yi was the result of being completely deceived by this coward.

However, he chose to give Ouyang Changqing and Si yaoqian some face and severely punished the three combat generals. After that, he also gave si yaoqian a punishment that was neither light nor heavy.

"This matter ends here! "I'll talk to Vice President Sima personally. We're all colleagues in the future. The combat Association needs to work together and help each other in the same boat. We can't have internal strife!"

In the end, the language of living things told si yaoqian earnestly, ""Vice President si, you're the first vice president of the combat Association, while Sima Yi is only an honorary Vice President. You should show some magnanimity and unite Vice President Sima, don't you think so?"

"Yes, yes, yes. President, you're right. I'll remember that!"

Si yaoqian nodded his head repeatedly. 'You're the leader, so whatever you say is right!'

"Vice clan leader Hua, there's a man named Sima Yi. He said that he's the honorary vice-leader of the combat Association. He's been waiting for quite some time. I'm here to inform him."

He was just talking about Lin Yi when one of his subordinates came to inform him that Lin Yi had arrived.

"Vice President Sima is here! I knew it, since he appeared, he should be looking for me!"

The artifact language smiled and stood up to greet si yaoqian, ""Vice President si, why don't you come with me? what happened before was a misunderstanding. You two can talk it out face to face and live in harmony in the future!"

"Yes! This subordinate will do as you command!"

Si yaoqian didn't want to see Lin Yi at all-he was humiliated so badly at the restaurant that he was traumatized by Lin Yi!

However, si yaoqian had no choice but to follow them since the beast language had spoken.

The two of them bade Ouyang Changqing farewell. Ouyang Changqing was not a member of the combat Association, so it would not be appropriate for him to follow them. Hence, he sent the two of them out and returned.

Lin Yi was drinking tea in his chair when he got back to the language of the living beings 'office. He stood up to greet the guest.

"Vice Hall Master Hua!"

"Hahaha, brother Sima, why didn't you tell me in advance that you were coming to the martial Union's branch? look at this mess. Not only did they not pick you up, but they even made you wait here for a long time!"

The artifact language's attitude was so enthusiastic that si yaoqian, who was following behind him, was both shocked and angry!

They were shocked by Sima Yi's background. He was from a small place, so why did the language of living things value him so much?

He was angry because he, the Vice President of the combat Association, had never received such enthusiasm!

This was simply preposterous!

"Vice Hall Master Hua, you're too polite. I just arrived and didn't wait long. It's indeed a little rude of me to come over so abruptly!"

Lin Yi greeted politely as he glanced at si yaoqian, wondering what he was up to.

The beast turned around and made way for si yaoqian. He pointed at si yaoqian and said, "Brother Sima, you should have met him before. This is the Vice President of the combat Association's medicine moving Department. No fight, no friendship. We will be colleagues in the future. Let's put aside the previous unhappiness, okay?"

At the restaurant, Lin Yi was the one who beat up si yaoqian, and he didn't suffer any losses at all, so the language of manifestations thought that Lin Yi should be able to accept his mediation.

He'd already hit someone, and it'd be rude of him to be so persistent. The language of living things didn't think Lin Yi was that kind of person.

"Of course it's good. Vice Hall Master Hua personally made the peace, I definitely have no objections! I wonder if Vice President si has a knot in his heart?"

Lin Yi looked at si yaoqian with a half-smile on his face. He thought to himself, "I'll beat you up again if you have a problem that you can't solve."

He believed that there was no problem that couldn't be solved with a beating. If there was, then he would beat him up twice!

Si yaoqian felt guilty under Lin Yi's gaze and laughed dryly, ""How could that be? we were in the wrong for what happened at the restaurant. Vice President Sima is magnanimous and doesn't hold it against us anymore. I'm more than happy. How could there be a knot?"

"Hahaha, that's great! Both of you are the backbone and pillars of the combat Association! As long as you can work together, the combat Association will have a bright future!"

Hua Yu laughed out loud, as if she was really happy. She reached out her hands and patted both Lin Yi and Si yaoqian's shoulders.

"Vice Hall Master Hua, I think it's better to leave the matters of the combat Association to Vice President si. I'm only an honorary Vice President. I can only be a nominal President, but I can't participate in the actual matters!"

Lin Yi said firmly, not wanting to join the association for real. "Also, I would like to ask, when can I take the exam to become a teacher at the Alliance Academy?"

"Brother Sima, you're really impatient! I've already reported the examination to the martial Alliance, and they'll make arrangements for it. However, it won't be so soon, so you can wait a few more days. "

The beast language said as it invited Lin Yi and Si yaoqian to sit down. "Since we have nothing to do anyway, brother Sima, you're the honorary Vice President of the combat Association. You should at least contribute a little to the combat Association. That shouldn't be a problem right?"

Lin Yi muttered to himself. It wasn't like he couldn't agree.

In particular, he needed the resources to break through to the earth-splitting stage, as well as the materials for body-tempering at the earth-splitting stage, breaking through to the sea-splitting stage, and cultivating at the sea-splitting stage.

Every time he improved, the value of the resources he needed would increase by several times!

Only God knew how long it would take to collect them by himself. Some of the precious medicinal herbs could not be bought even with money.

By helping the combat Association, he would be able to get the help of the transformation language. It would be much easier to collect the materials.

"Since vice Hall Master Hua has put it this way, I'll do my best to help. I wonder what I can do for the combat Association?"

Lin Yi nodded after some thought.
