

Bodyguard 8061

Chapter 8061

Si yaoqian was happy when he heard that Lin Yi didn't want to get involved in the Association's business, but he was pissed off when Lin Yi said he wanted to help!

So it was just an act just now? Are you still willing to accept it? Despicable!

However, si yaoqian wasn't in a position to say anything. He gritted his teeth and cursed Lin Yi while listening to the language of the living things.

"Brother Sima, there's so much you can do!"

The artifact language smiled.

Getting Lin Yi into the combat Association would deepen their friendship, no matter what."For example, the training of battle formations. Before the assessment, we asked brother Sima to choose the right people to train in battle formations. This will be an important force in the future!"

They'd seen with their own eyes how skilled Lin Yi was in battle formations!

Getting Lin Yi's help to train an excellent battle formation team under the premise of deepening their friendship was indeed a huge improvement to the combat Association's combat strength!

"That's not a problem!"

Lin Yi didn't even have to think about it before agreeing-it was just teaching formations, after all, not a big deal.

In fact, if the monster language really wanted to improve the combat Association's combat ability, it would be worth it to go to the red Shang Empire and invite a few blood spirit members to be their combat formation instructors.

After all, Lin Yi didn't have that much time. He could just teach them some battle formations, and it was far more appropriate to teach blood spirit, who was considered half a disciple.

"That's good! Vice President si, bring Vice President Sima to the combat Association to select people. This matter will definitely be settled! If Vice President Sima has any requests, please do your best to fulfill them. "

Hua Yu's plan was pretty good-she wanted Lin Yi and Si yaoqian to spend some time alone and do some small things to improve their chemistry so that the previous unhappiness could be completely resolved.

This was for Lin Yi's sake, he didn't even consider what Si yaoqian would think.

Upon hearing the beast language's order, si yaoqian agreed verbally, but his heart was filled with hatred!

I'm the Vice President with real power, and I still have to fully cooperate with this kid? Why?

Training in battle formations? What's the big deal? I can do it too!

That's right, si yaoqian knew some simple battle formations as well. The combat Association often formed battle formations when they went out to fight, so he didn't think much of Lin Yi's training.

It was mainly because the transformation language didn't make it clear that Lin Yi's battle formation was completely different from the ones the combat Association and Si yaoqian had!

In front of Lin Yi, the so-called battle formations of the combat Association were just child's play!

"Alright then. Vice Hall Master Hua, please go ahead. Vice President si and I will go to the combat Association to take a look."

Lin Yi stood up and left. The assistant had stuck his head in a few times already. He probably had something to deal with and it wasn't appropriate to disturb him.

The transformation language saw it too, so it didn't try to keep him. It sent Lin Yi out with a smile and reminded si yaoqian,""I'll leave Vice President Sima to you. You have to take good care of him. Do you hear me? if there's any neglect, I'll come to you for revenge."

"Yes, yes, yes. Don't worry, President. I'll definitely entertain Vice President Sima well!"

Si Yaoqian's face was full of smiles, but his heart was filled with dissatisfaction.

He'd never received so much attention before, and the more the language of monsters acted like this, the more he hated Lin Yi!

When he was out of the sight of the language of the living beings, Siyao put away his smile and said, ""Vice President Sima is really young and promising. Not only is he strong, but he also knows battle formations. To be able to get the president to personally invite him, I think his attainments in battle formations must be very shocking, right?"

"I don't dare, I only know a little! It's all because vice Hall Master Hua gave me face. "

Lin Yi replied with a smile. Since the language of monsters had come out to make peace, he didn't suffer any losses, so he decided to put up with it.

Si Yaoqian snorted coldly. He didn't continue on this topic. Instead, he made small talk and maintained a basic level of communication. If others saw this, they would probably think that the two of them had a good relationship.

Soon, they arrived at the combat Association's area. Si Yaoqian grabbed a combat general who was passing by and ordered, ""Go, beat the general gathering drum and gather all the battle generals that have not gone out!"

"Yes! This subordinate will do it now!"

The battle general did not ask for the reason and charged out. Very quickly, a rapid drum beat sounded.

"The general gathering drum is the internal signal of the combat Association. One round of the general gathering drum is to gather the combat generals who have not gone out on the drill ground. Two rounds of the general gathering drum will spread the sound of the drum throughout the entire city. All the combat generals in the imperial capital, as long as they are not on official business, will immediately rush back to the combat Association branch of the martial Alliance to gather."

Si yaoqian explained to Lin Yi what the General Assembly drum was before changing the topic. "Vice President Sima, if you hear this drum sound in the future, remember to come and gather as well!"

The last sentence was the main point.

What Si yaoqian meant was that Lin Yi, the honorary Vice President, was no different from any other general in the Association.

"Oh, there's no problem now! However, once I become a teacher at the Alliance Academy, I probably won't have time to come!"

Lin Yi understood, but he pretended not to hear the hidden meaning behind Si yaoqian's words. He explained casually and continued to tour the combat Association.

Si yaoqian gritted his teeth and thought to himself, 'I'll let you know your position in the combat Association later!'

Did he really think that he was so great just because he was an honorary vice guild leader?

Did he really think that he could do whatever he wanted in the combat Association just because he had the artifact language's support?

Wrong!

As long as I'm here, you're just a show-off!

He was not even as good as a normal battle general!

However, he couldn't refute Lin Yi's words. After all, the teachers in the school had a lot of freedom, and they could only be summoned when the martial order was issued.

However, si yaoqian didn't have the authority to issue a martial Alliance order.

Even the monster language would only issue a martial Alliance order when human ancient martial art practitioners were in a life-and-death situation.

After all, the Academy's teachers were usually of the same rank as them, and their status was even slightly higher!

After a round of drums and gongs, si yaoqian had already brought Lin Yi to the drill ground, and the two of them went up the stage.

There were a few hundred generals gathered there, around seven to eight hundred people, about the same size as Lin Yi's personal guard unit.

In terms of strength, these generals were stronger than the guards unit individually, but Lin Yi believed that if they were to go against the guards unit now, the guards unit would most likely win.

The name blood ghost was not just for show.

Lin Yi had personally trained his troops for so long, and his battle formation skills were far from what they used to be.

"Let me introduce you all. This is Sima Yi, the honorary Vice President of the combat Association who was personally appointed by the president. Today, we are here to select a few people to learn battle formations from Vice President Sima and receive his battle formation training."

Si yaoqian went straight to the point, pointing out Lin Yi's identity and purpose, ""Whoever is willing to follow Vice President Sima, you can step out and express your position now!"

Chapter 8062 The Power Of The Devil

On the surface, there was nothing wrong with si yaoqian's words, but the battle generals below already understood!

Vice President si yaoqian was asking them to pick a side!

The honorary Vice President appointed by the president naturally belonged to the president!

The problem was that the president had never been involved in the daily affairs of the combat Association. He would only appear when there were combat missions.

Hence, there were not many presidents in the entire combat Association. Most of them were from the faction of the Vice Presidents.

And among them, the accommodating medicine was the strongest.

Among the battle generals who didn't leave the drill ground, at least forty percent were si yaoqian's men, fifty percent were the Vice Presidents 'men, and only ten percent were neutral battle generals.

Si yaoqian's few words had vaguely pointed out the crux of the matter. President Gong wanted to plant a trusted aide in the Guild!

Those of you who want to ride on the Guild leader's coattails, you can step out now and declare your position!

Without a doubt, if he were to come out now, he would have completely offended si yaoqian.

Not to mention the battle generals who already had their own factions, even if the neutral ones stood out now, they would be hated by si yaoqian. He would have plenty of ways to make things difficult for them.

"What's wrong? Don't you understand? This is the honorary Vice President, Sima Yi, who was personally appointed by the president. He is here to train you in battle formations! Why aren't you coming out?"

After waiting for a while, si yaoqian was secretly pleased when there was no reaction. This was the effect he wanted!

This is a slap in the face, right?

Do you think that just because you're an honorary Vice President sent by manifestation of language, people will definitely buy it?

Hehe, young man, you're still too young!

"Honorary Vice President Sima Yi has a deep understanding of battle formations. It's your good fortune to be able to train you! What you've learned is your harvest, and if you miss it, it'll be your loss!"

Si yaoqian was very pleased with himself. He was making it sound like he was promoting Lin Yi, but the main point was Lin Yi's honorary Vice President title.

You all understand, right?

The honorary Vice President would not stay in the combat Association for a long time. If anyone wanted to take things too hard, they could just follow him!

Lin Yi stood aside with a smile on his face, as if he didn't know what Si yaoqian was thinking.

In fact, Lin Yi just didn't care. He agreed to come over to train the generals because he was giving both sides face!

If there was someone learning, he would teach them well. If no one was learning, it didn't matter.

Lin Yi knew what Si yaoqian was doing, but he didn't do anything. He just treated it as a clown's performance.

"Vice President Sima, it seems like no one is willing to learn your battle formation! Do you want to say something?"

Si yaoqian turned around and looked at the calm Lin Yi, a mocking smile on his face, ""Perhaps Vice President Sima's charm is so shocking that they might be willing to follow him!"

"Alright, then I'll say a few words!"

Lin Yi shrugged and took a step forward, his eyes scanning the crowd. "It's actually nothing. You don't want to receive my training, so I'm happy to be free. In any case, I won't be the one to die in battle because of my lack of strength!"

"Well ... That's enough ... Alright, that's all I have to say. I'm very happy that you've saved me from worry and effort!"

Lin Yi nodded slightly and turned to leave the stage.

Go back and tell the monster language that it's not that I don't want to train the combat Association's people, but they don't want to learn battle formations.

"Vice President Sima ... I ... I want to learn battle formations from Vice President Sima! Vice President Sima, please enlighten me!"

Lin Yi was just about to talk to the beast transformation language when someone stood up and bowed. "My aptitude isn't that great, and I'm not that strong either, but I don't want to die because of this. I hope Vice President Sima can grant me my wish."

Si yaoqian furrowed his brows and looked at the man with displeasure. He recognized that the man was one of the members of the neutral faction, Zhang Butong.

If it was someone else, si yaoqian might bear a grudge, but since it was Zhang Butong, he was relieved.

The situation of the neutral faction members was also slightly different. For example, some of them really did not want to participate in the faction struggle and did not want to rely on any side, so they remained neutral.

Some people were expelled by a certain faction and then informed to the other factions not to accept them, helplessly becoming neutral factions.

There was another type that was somewhat similar to the second type, but they were not expelled. Instead, no faction was willing to accept them. This was because they were too useless and had a weak personality. They were complete cowards and were ostracized and bullied everywhere.

Zhang Butong was the representative of this last category.

He didn't want to remain neutral, but no one wanted him. They felt that it would be embarrassing to accept him as a companion.

Lin Yi's short sentence had somehow touched his heart. His desire to find an organization had affected his thoughts, and he was willing to risk offending Si Yaoqian to be the first general to respond to Lin Yi.

Si Yaoqian didn't care. If he gave someone like Zhang Butong to Sima Yi, it would only show that Sima Yi wasn't cool. It was a good thing!

As for the language of the living things, it was finally acceptable. At least there were people who were willing to follow Sima Yi. At least there was Zhang Butong!

Lin Yi frowned.

He had wanted to be more gentle, but he didn't expect someone to stand up for him. He had no choice but to waste some time to give him some pointers.

"Vice President Sima, I would also like to learn battle formations from you. I hope that Vice President Sima will be generous in teaching me!"

The other one probably saw someone take the lead, so he gritted his teeth and followed.

He was also a coward who had no choice but to become a neutral party, and just like Zhang Butong, he was not doing very well.

Now that an opportunity had appeared, regardless of whether it was good or not, he had to grab it first!

Even if he failed, it wouldn't be much worse. It couldn't be worse than now, right?

Si yaoqian glanced at the second person who came out, but he still didn't care.

This guy was Zhang Butong's brother, Wang sanbing, and they were both useless trash. If he went with Sima Yi to set up a battle formation, he would be able to make the best use of his resources!

With someone taking the lead, seven more neutral faction members came out one after another. They were all cowards who had not been doing well, the same kind as Zhang Butong and Wang sanbing.

"Anyone else? Don't miss this great opportunity! The next time I want to learn about battle formations from Vice President Sima, I may not have the chance to do so again!"

Si yaoqian felt that it was about time and asked again.

There were still a few who were hesitating, but now they all extinguished the thought and didn't dare to come out again.

"Vice President Sima, it seems like there's no one else. I'll leave these nine people to you! I hope that under Vice President Sima's guidance, they'll be able to perform a complete transformation!"

"As there aren't many people, we won't let Vice President Sima use the drill ground. I'll allocate another courtyard for you to train in. What does Vice President Sima think?"

"No problem," Lin Yi nodded nonchalantly, "I'll leave it to Vice President Si!" If it doesn't work, I'll find you to exchange!"

Chapter 8063

Si Yaoqian choked.

He wanted to give Lin Yi a small yard, big enough for nine people to stand in, but he couldn't use it. He didn't expect Lin Yi to come back.

"Alright! If Vice President Sima is not satisfied with anything, feel free to look for me!"

Since he couldn't mess with Lin Yi, Si Yaoqian gave up on these little tricks and gave him a decent yard with enough space for nine people to practice battle formations.

He was just waiting for Lin Yi to come out with no results, so he could talk things out in front of the beast language.

Lin Yi wasn't picky, and he led the nine of them to the training grounds.

Other than training in formations, Lin Yi would also pass on his experience and knowledge to Zhang Butong and the others, allowing them to experience significant growth in their strength in a short period of time.

It'd only been a few days, and the nine people who'd found the organization were already dead set on Lin Yi.

It was precisely because of their past misfortunes that they would cherish the hard-won present!

Whether it was individual training or teamwork, she put in 120% of her effort, wanting to achieve something as soon as possible and make Lin Yi proud.

Si yaoqian didn't come over to check on Lin Yi's situation. As far as he was concerned, Lin Yi was basically a cripple with nine useless men.

Moreover, it had only been a few days, so there was no need to waste time here. However, he didn't know that in just a few days, the nine trash in his eyes had already undergone earth-shaking changes.

A few days later, the beast's whisper came to Lin Yi.

"Brother Sima, have you gotten used to this place these past few days? I'm a bit busy and couldn't find time to see you. Thanks for your hard work!"

The artifact language greeted Lin Yi with a smile as soon as it saw him.

"It's not hard at all. Vice Hall Master Hua, you're the one who's really hard at work. It's not easy to manage such a huge stall!"

Lin Yi sighed and asked, "Vice Hall Master Hua, are you here today to inspect the battle formation or for something else?"

Of course, the language of monsters was interested in Lin Yi's team, but he knew from the reports that Lin Yi only had nine useless people under him, so he didn't expect to see any changes so quickly.

"The battle formation is under brother Sima's command, what am I worried about? Therefore, I'm sure that you're not here for this matter, but rather for brother Sima's test to be a teacher. "

"The martial Alliance of the continent said that this year's examination for new teachers has already ended. If brother Sima wants to enter the Alliance Institute, under normal circumstances, you'll have to wait for next year's examination."

"However, under my best efforts, I finally managed to get an extra quota for the assessment! Brother Sima, I came to find you to talk about this!"

"Thank you, vice Hall Master Hua. I'd like to hear more details!"

Lin Yi cupped his hands in thanks and made a gesture of listening.

"It's like this. Not everyone can obtain the assessment quota. Otherwise, if everyone went to register, the martial Alliance would be too busy! Thus, the person who signs up will have to pay a price. "

The artifact language didn't beat around the bush and said, ""If you want to take part in this assessment, you need to pay a certain amount of martial league points!"

"Martial league points? What's that?"

Lin Yi scratched his head. He'd been here for a few days, but he'd never heard of this thing!

"Martial league points, also known as contribution points, are the amount of contribution you've made to the martial League. They're converted into points and can be used to exchange for some resources or opportunities like this assessment quota!"

The artifact language explained casually and pointed at the gold badge on Lin Yi. "Each badge is not only a symbol of status, but also a medium for storing martial league points! The points you obtain will go in, and when you need to use them, you can just use the badge. "

"I see. How many martial league points do I have in this badge?"

Lin Yi took the gold badge off his shirt and looked at it-he thought it was just for decoration, but it turned out to have this function.

The points system was easy to understand. The ones he had encountered before were mostly the same. For example, the academic points system in the Academy had almost the same function.

"Brother Sima, there's not a single point in your badge ..."

The artifact language spoke faster, afraid that Lin Yi would misunderstand."Brother Sima, you contributed a lot to the Forest of Illusions last time. You originally had a lot of points, but the matter with the Hong Shang Empire was also a special case, so the martial league's reward for you was changed to this matter and did not give you any extra points."

If it weren't for the fact that the language of the monsters went through the process personally, Lin Yi's contribution last time wouldn't be enough for this. Of course, the language of the monsters wouldn't say this out loud, in case Lin Yi thought that he was trying to blackmail him.

"Actually, the assessment quota doesn't require too many martial league points. However, the points required for the quota can't be paid for by others, nor can it be given to others as a gift. It can't even be obtained by selling items. It must be obtained by personally completing the mission and contributing."

"Martial Alliance is very strict in the control of points," Hua Yu said helplessly."Everyone's origin and whereabouts of points are clearly recorded. If you want to transfer your points, you must have a clear reason and be notarized by martial Alliance."

"If there isn't a sufficient reason, the transfer of points between private rooms will definitely not be allowed. However, there is no restriction on the consumption of points in martial League. Martial league points can be used in any branch of martial League. "Therefore, brother Sima, you have to think of a way to obtain martial league points on your own for this assessment quota."

Lin Yi understood now-the monster language wanted to give him points, but the martial Union wouldn't approve of its reason.

Even if they acknowledged it, the points that were transferred over could not be used to obtain the quota.

In short, other than making contributions, don't even think about getting an extra assessment quota!

"No problem. Vice Hall Master Hua, you just have to tell me how to obtain martial league points. I'll take care of the rest!"

Lin Yi didn't mind-it was probably a mission to earn contribution points, it wasn't a big deal.

As expected, the monster language told Lin Yi that the most direct way to get points was to do missions, and it also explained the types of missions in the branch.

One was a group mission organized by the martial Alliance, and those who received the order could not refuse and had to participate.

There weren't many such missions, and points would be given out according to the performance of the mission.

The second type was a mission that could be triggered at the last minute, such as the martial Alliance order that had been issued in the Forest of Illusions during an unexpected situation.

After completing this kind of Sudden Mission, depending on the situation, the reward would be slightly more generous than normal missions.

Lin Yi's performance in the previous mission was outstanding, and he'd gotten more points than Luo caidie and the others, but it was all in the pit of the Hongshang Empire.

Chapter 8064

The third type of mission was the daily mission issued by the mission Hall of the martial Alliance's branch. There were all kinds of missions.

Anyone from the martial Alliance's branch could accept the mission. The reward would be different depending on the difficulty of the mission.

"Okay, I understand. I'll go to the mission Hall to accept the mission in a while."

"Oh, by the way, how many points do I need to get that spot?" Lin Yi nodded.

"It's not a lot. Fifty martial league points is enough! With brother Sima's strength, it should be as easy as turning your hand if you want to obtain it!"

Monster language waved his hand with a smile. "I'll go now. The hall of missions will take you there. When you get enough points, we'll go to exchange for the assessment quota."

Lin Yi smiled back and cupped his hands in farewell. After sending the demon away, he brought the nine of them to the hall of missions to accept their missions.

If there was a chance, he would bring these people to do missions, and they could better train their battle formation skills. It was impossible to keep working behind closed doors without practice.

A while later, the group arrived at the mission Hall. Lin Yi was speechless as he looked at the mission.

What the hell is this!

One exploration mission, three points!

A mission to hunt some kind of darkness magical beast, four points!

A mission to search for medicinal herbs in the Forest of Illusions, two points ...

He would have to do more than ten missions like this in a row to barely get 50 points, right?

The artifact language said that it was easy ... It was indeed easy, but the number of times he had done it was a little too many!

"Vice President Sima, there's a new team mission over there. The rewards are pretty good!"

Zhang Butong knew that Lin Yi needed points to get a place in the test, and so he was looking for suitable missions as well. His eyes lit up when he saw the new mission. "Suppress the riot in the Devil's Den. Upon success, the basic reward will be 50 points. There will be additional rewards depending on the number of dark demonic beasts killed during the mission!"

Lin Yi started off looking at individual missions, but Zhang Butong started looking for team missions.

They'd been training with Lin Yi for a few days, and they felt like they'd gotten stronger.

Especially with the support of the battle formation, she was full of confidence and wanted to find a chance to go on a mission with Lin Yi and test her strength.

"Hmm, it's indeed a good team mission, and the points are not bad ..."

Lin Yi saw the mission after the notification.

However, he might not be able to obtain enough points by doing this mission.

The basic reward was fifty points, but the points from the team missions were split among each member. Lin Yi took nine people to do the mission, so they only got five points each.

"Vice President Sima, you're the one who's leading the team to train us in actual combat, so we'll only need the lowest reward for the mission!"

Zhang Butong was the first one to follow Lin Yi, and so he was the leader of the group. He stood out on behalf of the others,

"The minimum reward for the team mission is one point per person, and killing a darkness demon beast is another. When we complete the mission, the basic reward, minus the minimum reward for us, and the additional rewards should be enough. "

Lin Yi blinked-that did make sense.

The minimum reward for nine people was nine points, and he could get a basic reward of 41 points. He could casually kill two darkness magical beasts and pay for the quota.

"Vice President, let's accept this mission! It was normal for a Devil's Den to have a few darkness magical beasts killed. The mission this time won't be too difficult, and it should be easy to complete. "

Wang sanbing also said,"if it was a difficult Devil's Den riot mission, the basic reward would be at least 200 points. Now, it's only 50 points. This means that the dark Demon beasts in this Devil's Den riot mission are not strong."

Lin Yi had already made up his mind to accept the mission. It didn't matter if the dark Demon beasts were strong or not-the key was that the points for this mission were enough to complete the goal as soon as possible.

The other small missions only had single-digit points. Who knew how long it would take to get full points!

What if he missed the assessment time?

"Alright, we'll accept this mission. It'll be a good opportunity for you to practice! If we can kill more darkness magical beasts, we'll split the basic reward equally. I just need 50 points. "

Lin Yi made up his mind and went to accept the mission immediately, but he ran into si yaoqian at the window.

"Hahaha, Sima Yi, Vice President Sima, what a coincidence! Why are you here to take on a task?"

Si yaoqian laughed as he greeted Lin Yi, a proud expression on his face. "Are you planning to do a team mission with these inferior soldiers of yours? It's a pity that there aren't any team missions today! I just took the only one!"

As he spoke, si yaoqian waved the badge in his hand. The mission information had already entered his badge.

Lin Yi raised his eyebrows, feeling like si yaoqian was here to steal the mission.

Could it be that he knew that I needed points to exchange for an extra assessment quota, so he came here to make trouble?

"Oh, I almost forgot. Not only do you not have any team missions to accept, but you also don't have any individual missions to accept. All the missions for today have been accepted!"

Many of si yaoqian's battle generals laughed in concert.

It was obvious that si yaoqian, who had the advantage of numbers, had completed all the missions in one fell swoop.

They weren't giving Lin Yi a chance to complete missions at all!

"Vice President si, you're really good. Are you short of points recently?"

"Since you've accepted the mission, we'll just wait until tomorrow," Lin Yi said with a smile.

"Tomorrow? Vice President Sima's attitude is really good. It's a pity that the branch has been very peaceful recently and there aren't any missions. I guess you'll have waited for a whole day in vain tomorrow. "

Si Yaoqian laughed. "Vice President Sima, if you want to do the mission and you're in a hurry, why don't you beg me? who knows, I might be soft-hearted and let you have the mission!"

"Vice guild leader, team quests can be repeated. Not only one team can take on them."

Zhang Butong wasn't happy with that, and although he was still afraid of Si Yaoqian, he still explained to Lin Yi, ""Only, there are restrictions to team quests. Some quests can be completed by different teams, but some can only be completed by the first team. If the first team fails, the second team will be sent to challenge the quest,"

The first team to accept the team Quest would decide whether they were going to join or join as a substitute. Martial League would not interfere.

Therefore, under normal circumstances, after accepting a team mission, the next team that wanted to accept it would first discuss with the previous team.

Chapter 8065

If they were willing to cooperate, it would be a happy ending. If it was a substitute model, fewer people would be willing to accept it.

After all, other than Lin Yi's special situation, who else would wait for a substitute forever?

If he had the time, he might as well take on other missions.

"Yo, Zhang Butong, you've really changed! It's just a small task to suppress the Devil's Den. I don't care about it at all. "

Si yaoqian pursed his lips and smiled. "Sima Yi, just tell me the truth. If you beg me, I'll give you the mission. If not, you can accept the mission and see how we're going to eat meat and drink soup. You can also complete the mission."

Working together was out of the question-he'd never work with Lin Yi, but he didn't mind being a substitute-he'd be able to humiliate Lin Yi then.

Zhang Butong was secretly vexed and felt that he had said something inappropriate.

So what if he had accepted the mission? Should I go watch si yaoqian's team performance while I'm in reserve mode?

If it was a Devil's Den suppression mission that started at 200 points, there would still be a chance for a substitute to go on stage. But 50 points ... Was too easy!

"So team missions can be repeated. Then let's take them too. We have nothing to do anyway."

Lin Yi shrugged nonchalantly, accepting the mission on behalf of his small team.

Si yaoqian laughed coldly, thinking that Lin Yi's brain must be damaged!

But it didn't matter-Lin Yi came to his door asking for humiliation, so he had to be satisfied!

After that, the two teams set off together, heading to the underground Devil's Den.

The team limit for this mission was fifteen people, and Si yaoqian brought enough men while Lin Yi's side only had ten. It seemed like they were weaker at the start.

After going underground, the two teams arrived at the entrance to the Devil's Den. Two alloy doors blocked their way.

Lin Yi could tell that the alloy door was sealed with a profound formation-it was obviously the work of an array master.

"Vice President si, are you personally leading the team to complete the mission?"

The guard at the door was obviously very familiar with si yaoqian. When he saw si yaoqian, he smiled and greeted him, ""A 25-man party quest? Which region are you from?"

"Old Wei, don't misunderstand. We are two teams. The one behind us is the combat Association's new honorary Vice President, Sima Yi. He's only here to take a look. He's just a substitute and won't be fighting."

Si yaoqian seized the opportunity to mock ol 'Wei. Then, he took out his badge and showed it to ol 'Wei, ""The Devil's Den has been quite peaceful recently. You should know that. There aren't any major missions."

"It's like this ... The suppression mission of Zone D's 27 domains? There really aren't that many powerful darkness magical beasts there, so the riot won't be able to cause any big waves. "

Ol 'Wei confirmed the mission and returned the badge to si yaoqian. He commented, ""Originally, the people inside could be easily suppressed, but there seems to be some unusual movements in area a recently, and people have gone there, so the mission was issued. With Vice President SI's team, it would indeed be easy to suppress them. "

He opened the alloy door as he spoke and nodded to Lin Yi. "This must be Vice President Sima, right? The mission this time wasn't dangerous. Since it was to broaden his horizons with Vice President si, it was suitable. Is this your first time entering the Devil's Den? With Vice President si leading the way, it will be very smooth ..."

Si yaoqian was secretly pleased. In old Wei's eyes, Sima Yi could only be a Lackey, right?

Lin Yi didn't mind. He nodded politely at Wei and walked in with his men.

Behind the door was a tunnel made of the same alloy, and there were also sealing runes on it.

Lin Yi could even feel a slight change in space.

It seemed that the Devil's Den was not in the same space as the one above, but the crack connected the two.

After leaving the tunnel, the group entered the true Devil's Den.

This world was indeed a world of its own. It also had a sky, mountains, rivers, and trees, but there was no sun in the sky.

Even so, the sky was not completely dark. The visibility in the entire space was similar to that of the outside world when there was a storm.

It was dark, but not dark!

"Sima Yi, follow us closely. Don't get lost and get trapped in this Devil's Cave! The few good-for-nothings around you don't have much chance to go into the Devil's Den. You'll be finished if you rely on them. "

Si yaoqian never forgot to show off his superiority.

If he could kill Lin Yi in the devil's Cave, he would definitely do it, but he was afraid of Lin Yi's strength, so he didn't dare to act rashly.

Therefore, she often mocked him to get some comfort in her heart.

Lin Yi couldn't be bothered with this idiot. His powerful divine sense had already spread out, and the surrounding situation was completely absorbed into his wulinghai.

Even if it was pitch-dark, it didn't affect Lin Yi at all.

The area of this underground Devil's Den was very wide. In order to make it easy to distinguish, the martial Alliance branch divided it into ten large areas: a, B, C, D, E, G, n, C, N, e.

Then, each area was divided into small areas and named with numbers.

The mission this time was in the 27th domain of Area D.

Lin Yi's spirit sense had already found the road sign. It was pretty hard to get lost in the Devil's Den ...

However, they had to wait for si yaoqian to fail before they could take on the mission, so there was no point in going ahead. Lin Yi and his men followed si yaoqian's team from a distance.

The distance between the two increased, and Si yaoqian couldn't taunt Lin Yi even if he wanted to. He had no choice but to head to Zone D's twenty-seventh zone, ready to suppress the riot in front of Lin Yi and let him feel the disappointment of losing his mission.

Lin Yi had been observing the whole way-there were sealing formations at every area they passed, and so they could make sure they were safe.

To put it more vividly, the entire Devil's Den was like a huge prison, and every small area was a prison cell, holding the dark magical beasts.

Under normal circumstances, the passageway outside the cell would be safe, but if a darkness magical beast were to rush out of the cell, then things would become very serious.

This was because there was a possibility of a chain reaction, and all the prison cells would be opened!

Therefore, they had to suppress the areas where the riots had occurred as soon as possible and strengthen the seals.

The people guarding the Devil's Den were basically doing this.

Of course, things weren't that optimistic. The Devil's Den under the nado conferred Empire wasn't completely suppressed. The only real prisons were the first, second, third, and fourth districts.

The remaining six regions were still chaotic regions, the main battlefields where humans and darkness magical beasts fought.

The two sides had some tacit understanding and rarely attacked each other. The humans also focused on defense. After controlling four regions, they no longer had the strength to continue expanding.

These were all off topic. The group arrived at the 27th domain in Area D safely.

Chapter 8066

At the entrance, there was a formation master in charge of maintaining the seal. When he saw si yaoqian leading the team, he heaved a sigh of relief.

"Vice President si, I didn't expect you to personally lead the team here. It seems like the riot this time will be quelled very quickly!"

The array master also recognized si yaoqian and greeted him with a smile.

"That's hard to say," si yaoqian forced a smile. "We still have to see what's going on inside."

Although he said this, si yaoqian had already acknowledged the other party's words in his heart.

He would definitely be able to easily end this rebellion.

"I'm not sure what's going on inside. I have to take care of the seal and can't go in to check. Most of the people in Area D have been transferred to area a, so I don't know what's going on there."

The array master pouted. "It's hard enough for me to maintain the seal. I can't go in and check it out. Don't you think so, Vice President si?" So we can only send a signal and ask the higher-ups to send someone over to suppress it. "

His main responsibility was to maintain the stability of the seal's formation. It was impossible for him to go in. Under the circumstances of being alone, it was impossible for him to go in and court death.

Unless he wanted to die ...

"You did the right thing. An array master shouldn't go in there. If something were to happen and the entire seal's array was broken, that would be a big deal!"

Si yaoqian affirmed the other party's actions and waved his hand, ""Let's go in! Let's see what the darkness magical beasts are up to!"

The array master agreed and opened a hole in the seal array, allowing si yaoqian to lead the team in.

Si yaoqian was just about to enter when he turned to Lin Yi. "Vice President Sima, we don't know what's going on inside, so you guys should wait outside! I don't want to be distracted by taking care of you. "

"We don't need to be taken care of!"

Zhang Butong was indignant. Wasn't this not even allowing him to spectate? He had to wait outside? What was the point of that?

Furthermore, Zhang Butong and the others had all grown stronger, and they felt that they could handle any situation. There was no need for si yaoqian and the others to take care of them.

Unfortunately, si yaoqian didn't even pay attention to Zhang Butong.

Sima Yi was still considered an opponent of equal status, and you, a little B * stard, calculated the ball? What qualifications do you have to talk to me?

"Vice President Sima, do you have any objections?"

Si yaoqian was on the side of reason, and he was hoping that Lin Yi would have a problem with it so that they could argue and humiliate him.

No objections. Vice President si, please!"

Lin Yi only smiled and gestured for si yaoqian to lead the way.

Zhang Butong, Wang sanbing, and the others were a little disgruntled, but Lin Yi stopped them.

These two were quite cowardly before, and they were already doing a good job speaking up for Lin Yi. Lin Yi didn't ask for more from them.

As for the mission of suppressing the riot, Lin Yi just wanted to laugh!

Other people didn't know what was going on inside, but Lin Yi was different!

Putting aside the fact that his spirit sense was extremely powerful, the formation in front of him wasn't difficult at all for Lin Yi. It was a piece of cake for him to explore the inside.

So Lin Yi was looking forward to seeing Siyao's reaction after moving in ...

Yes, he was really looking forward to it!

Si yaoqian didn't know that it was a trap and thought that Lin Yi had given in. He was very pleased with himself as he led the team in.

About ten seconds later, si Yao and his fourteen Warriors crawled out of the gap in the seal, covered in dust and dirt.

"Vice President si, what's going on? Has the suppression been completed?"

The array master was shocked and instinctively closed the gap in the array. He then looked at si yaoqian in astonishment. "I don't think so? There are still signs of a riot inside, and they're still trying to break the seal formation!"

Si yaoqian heaved a sigh of relief when he saw the gap in the array closing. He pretended to be calm and shrugged his shoulders. He coughed dryly and said, "Yes, the suppression hasn't started yet."

Lin Yi chuckled to himself-the scare had ended before it even started, hadn't it?

"I just feel that this mission is too simple and not challenging at all. Vice President Sima is also in urgent need of martial league points, so I'm preparing to let Vice President Sima's team substitute in to complete this simple mission of suppressing the riot!"

Si yaoqian's mind raced as he signaled his men to keep their mouths shut. He lied to Lin Yi, "Vice President Sima, we're giving up on this team mission. You and your team can enter the arena as a substitute! Please!"

"Heh ... Vice President si is so polite! Since that's the case, I'll respectfully accept your invitation!"

Lin Yi pretended not to know anything and cupped his fists to the formation master after smiling. "I'll have to trouble you to open a gap in the formation!"

Zhang Butong looked at si yaoqian suspiciously and tugged on Lin Yi's sleeve. "Vice President Sima, something doesn't seem right! They shouldn't be so kind!"

Lin Yi turned around and gave him a comforting smile. "There's nothing wrong with it. This is Vice President SI's good intentions. We have to thank him for his generosity!"

"Ha ... Yeah!"

The panic in si yaoqian's heart dissipated, and he began to feel proud. Hehe!

It was impossible for him to be magnanimous. He would never be magnanimous in this life. The real thing was to set them up!

The formation master looked at si yaoqian, and after getting his approval, he opened the seal again without saying anything.

Lin Yi led his team into the building, and Si yaoqian immediately ordered, "Let's seal the gap in the array first. Once Vice President Sima has settled it, he will naturally send a signal. At that time, it will be the same to open it, in case the darkness magical beasts rush out!"

The array master was stunned for a moment, but it seemed to make sense, so he closed the gap in the array as he was told.

Si yaoqian's lips curled into a cold smile. 'You won't die this time?'

It wasn't unusual for someone who wanted to do a mission to die during the mission. It was very normal!

Even if the artifact language knew about it, it would not be able to say anything!

On the other side, Lin Yi and his nine-man team, whom si yaoqian thought were dead for sure, could finally see the scene in front of them after a short period of discomfort.

"Black wind Fire phoenixes ... Why are there so many of them ..."

Wang sanbing's forehead was instantly covered with cold sweat. He lowered his voice and said, ""Vice President Sima, let's hurry and leave this place ..."

The black wind and the fire Falcon were magical beasts of darkness that lived in groups. Their individual strength was not weak, and even the most ordinary of them were comparable to Zhang Butong and Wang sanbing!

Under normal circumstances, ten to twenty black wind Fire jackals would form a pack.

But now, in front of Lin Yi and the others, there were two to three hundred black wind Fire centipedes. It was estimated that ten to twenty tribes had gathered to form such a scale.

If these black wind and fiery phoenixes were to go berserk at the same time and attack the same sealing formation, the fluctuations outside would be several times stronger. The missions issued by the martial Alliance's branch would also be correspondingly more difficult.

But now, most of the black wind Fire centipedes were quietly lining up in an orderly formation. Only a dozen or so black wind Fire centipedes were attacking the sealing formation, creating the illusion of a small-scale riot.

Chapter 8067

"There is indeed a problem! That bastard si yaoqian must have fled after seeing so many black wind Fire centipedes, right? Then, he concealed the information and tricked us into coming here!"

Zhang Butong gritted his teeth in hatred, especially when he realized that his escape route had been cut off and he couldn't even leave this place, the thought of devouring Siyao alive grew in his mind.

"Vice President Sima, what should we do? The gap in the formation has been closed, we can't escape!"

"Why are you running? Aren't we here to do missions to earn points? I can't miss such a good opportunity!"

Lin Yi waved his hand nonchalantly and ordered, "Form a battle formation and listen to my command!"

The nine of them weren't confident, but after Lin Yi's training these past few days, they'd developed a very good sense of obedience!

Upon hearing the order, the nine of them subconsciously began to form a battle formation according to their training!

"I thought it was just a simple mission to suppress the riot and didn't have many points to earn. I didn't expect there to be so many black wind Fire centipedes here. No, there are so many points! What was everyone hesitating for? Follow me!"

Lin Yi took the lead, leading the nine-man battle formation and charging straight at the black Wind and Fire Phoenix formation!

Si yaoqian was waiting for Lin Yi to make a fool out of himself-it'd be great if he could just die inside, but if he didn't, he'd be happy to beg Lin Yi to open the seal.

If Lin Yi was really lucky and didn't die in this situation, he'd have a chance to beg for mercy and make fun of him. It was a good idea!

Just as he was happily fantasizing about how he could find joy from Lin Yi, the seal opened again, and Lin Yi and his nine teammates came out covered in blood.

The array master was a little dumbfounded. He hadn't even activated the array yet, so how did this gap open?

Was the seal already broken?

But after seeing the blood on Lin Yi and the others, he didn't care about the formation anymore and asked, "How is it? Are they all injured? Are the dark beasts in there very troublesome?"

"No, it's quite easy to suppress. Although there are a lot of them and we have to spend more time, it doesn't affect us much."

Zhang Butong's reply left the formation master dumbfounded once more!

Easy to suppress?

You've only been in there for 20 to 30 seconds, and you're saying that the suppression has been completed?

Well, it was indeed quite easy!

"Hahaha, Vice President Sima, your subordinate is still trying to hide it? If you can't win, then you can't win. There's nothing to be embarrassed about! To be able to hold on for so long without anyone dying, you've already done a good job. There's no need to slap your faces until they're swollen to act fat, right?"

Si Yaoqian didn't believe that Lin Yi had completed the mission.

He led his own team in, but when he saw so many black wind Fire centipedes, he simply couldn't bring himself to have the mentality of a strong opponent. He directly turned around and ran!

No matter how fast they reacted, the time they used was almost the same as Lin Yi's team!

From this, it could be inferred that Sima Yi was talking nonsense! What a bluffing liar!

"What do you mean by pretending to be fat? Vice President Si, are you misunderstanding something?"

Lin Yi curled his lips, "there were only so many black Wind and Fire centipedes in there-no wonder the points were so little. I wanted them to practice, but they were all wiped out in one move." There's really no difficulty at all!"

Si yaoqian sneered. 'Keep bragging!'

In such a short period of time, you're saying that you're going to annihilate such a large race of black wind Fire phoenixes?

Only a ghost would believe you!

Zhang Butong popped out from behind Lin Yi, his face full of excitement. "Vice President Sima is right. That bit of black Wind and Fire Phoenix is really not difficult! We're so disappointed! I thought it would be more powerful!"

He didn't think that they would be able to display such shocking combat strength after forming a battle formation under Lin Yi's leadership!

There were two to three hundred black wind Fire centipedes!

It was a very powerful tribe. Under normal circumstances, the combat Association would need to send at least 100 combat generals to have a chance of suppressing it.

And the result?

In front of the battle formation they formed, it was like cutting melons and vegetables, completely unstoppable!

Even now, Zhang Butong still felt like he was in a dream. This was simply too unreal!

He wouldn't have been so surprised if he'd seen Lin Yi leading the blood spirits in a charge.

It was common for the 800 blood spirits to annihilate an Army of tens of thousands in one charge. 200 to 300 darkness creatures was just a small scene!

Of course, si yaoqian didn't believe him. He sneered in disdain, ""Hehe, there's still a support! Your arrangements are quite thorough in such a short time! Unfortunately, the truth is the truth. No matter how much you brag, you can't cover up the fact that you failed the mission!"

"Vice President si, what right do you have to say that our mission has failed?"

Wang sanbing wasn't too happy. Although he didn't dare to criticize si yaoqian directly, this level of rebuttal had already been very naturally said!

Si yaoqian opened his mouth, but he couldn't say anything.

You can't say that I've seen so many black Wind and Fire centipedes in there, and I was so scared that I turned around and ran away. How can you complete the mission in such a short time?

Zhang Butong and Wang sanbing looked at each other, then took out their own storage bags at the same time and poured them on the ground.

Things began to fall out of the opened storage bag, and soon, two piles of black wind Fire Phoenix's inner cores were formed!

These inner cores still had a warm blood aura on them, and it was obvious that they had just been dug out.

Originally, the complete corpse of the black wind Fire hou could also be sold for money, such as its complete fur.

However, Lin Yi's attack was too violent with the nine people, leaving almost no intact corpses behind.

Therefore, after the battle was over, they only put away the inner core and didn't care about anything else. Otherwise, it would have taken more time.

Si yaoqian's eyes were wide open like a dog 's, and half of his tongue stuck out of his mouth. He couldn't say a word.

These ... Were really the inner cores of the black wind Fire Phoenix!

What had happened?

Were the black Wind and Fire centipedes inside actually lining up to be killed?

So you're actually this kind of black Wind and Fire Phoenix!

Why didn't you just send him to our hands and die?

Si yaoqian was heartbroken. He suspected that he had retreated too quickly just now, so the black wind and fiery Falcon didn't have time to come over and deliver their heads ... Jackal heads ...

If he had known earlier, he would have gone up to test the waters, and the one who would be returning with a full load would be si yaoqian!

"Congratulations Vice President Sima and all the generals for your great success in suppressing the 27 territories!"

The little array master was quite happy. It was fine as long as someone could deal with the darkness magical beasts inside. Did it matter who did it?

"Oh right, Vice President Sima, how did you guys get out? For safety's sake, Vice President si asked me to temporarily close the gap in the formation. "

The formation master didn't want to be the scapegoat and offend someone as powerful as Lin Yi, so he sold si yaoqian out naturally.

Chapter 8068

Lin Yi looked at si yaoqian with a half-smile, but he didn't comment on his actions,""This sealing formation was originally a little loose. That's why it was attacked by those black wind Fire phoenixes. Now, the signs of loosening are becoming more and more obvious. It's actually not difficult to open a gap."

"So Vice President Sima also knows about arrays. This is really shocking!"

The little array master was greatly surprised. The Vice President of the combat Association had such a deep understanding of array Dao?

It had only been 20 seconds!

He had to kill so many darkness magical beasts, collect their inner elixirs, and find the flaws in the sealing formation so that he could open a gap and leave!

Amazing!

With this level of skill, he might be able to become the Vice President of the array Association?

Even if it was not possible, it was more than enough to get a silver badge with three swords!

Of course, he had the golden one sword badge now. He couldn't go to the array Association to get a lower level badge.

The so-called three silver swords were the highest level of silver badges.

There were three levels to each badge, and Lin Yi's badge was the lowest level of gold.

"I know a thing or two, sorry for embarrassing myself!"

Lin Yi said humbly as he fixed the formation. After stabilizing it, he left with his team.

After completing the mission, not only would he receive basic martial league points as a reward, but he would also receive additional rewards for killing darkness demonic beasts. It was enough to exchange for a quota.

As for si yaoqian and the others, Lin Yi didn't pay them any more attention and let them continue to doubt their lives.

This Devil's Cave mission didn't take long, and Lin Yi's main goal was to earn some points to exchange for extra slots.

In fact, there were a lot of people gathered in area a. There should be some changes.

Lin Yi was interested at first, but he suppressed his curiosity before he received the draft notice.

After returning to the surface, Lin Yi and the group went straight to the mission Hall to reply to their mission.

With the black wind Fire Phoenix's inner core as proof of his kill count, he naturally received an additional reward of points. Compared to the basic reward of fifty martial league points, this was twenty to thirty times more.

Not only that, the mission Hall also had the function of collecting spoils of war. These inner cores could also be exchanged for a generous amount of martial league points!

Of course, on the surface, it was to contribute the inner core to the martial League, and then the contribution would be converted into contribution points, which were also martial league points.

In fact, it was just a trade to recover the spoils of war.

However, this transaction was officially approved by the martial League, and the points were also official contribution points, not trading points.

No matter what, Lin Yi and his nine members all received a generous reward in the end.

"Vice President Sima, we don't agree with the distribution plan!"

Zhang Butong was extremely excited, and his face was flushed red.

Those who didn't know better would think that Lin Yi wanted to take all the points for himself, causing them to rebel.

"Yes, we definitely won't agree to this plan!"

Wang sanbing also spoke righteously, not willing to back down.

The remaining seven people also agreed.

The truth was, Lin Yi wasn't planning on taking all the rewards for himself-he was planning on splitting them equally.

Each of them would get about three hundred or so martial league points.

Don't think that 300 points are a small number. One must know that the purchasing power of martial league points is very strong!

After all, the reward for killing a black wind Fire hou was only five martial league points.

The basic reward for suppressing the riot was only 50 points!

For Zhang Butong, Wang sanbing, and the other cowards in the past, having ten points in their pockets was already a very promising future!

Who would've thought that he'd get 300 points from just one mission with Lin Yi!

It was a huge sum of money!

Previously, he said that the lowest reward was only one point per person ... The lowest my ass!

"Do I have the final say or do you all have the final say?"

Lin Yi didn't beat around the bush, stopping them with one sentence. "Very good, since I have the final say, then let's do it!"

Martial league points were a useful resource, but Lin Yi didn't really care-he could go on missions whenever he wanted.

Zhang Butong and the others were willing to take the lowest reward in exchange for an extra spot in the test, so how could Lin Yi not be moved?

If you throw a peach at me, I'll return the favor!

The reward distribution was completed under Lin Yi's forceful decision, and the group went straight to the language of monsters.

For one, Lin Yi was going to talk about the test quota, and for two, he wanted Zhang Butong and the others to take a look at the language of living things.

Although the training time was still very short, it could already be seen that they had grown.

"Vice Hall Master Hua, I've already earned points!"

Lin Yi's first sentence made the monster stumble a little, and it almost died!

What the hell?

He had earned 50 martial league points just like that?

I seem to have just come back to approve two official documents and had a cup of tea. I didn't even have time to take a nap, and you've already made a profit?

Since when did it become so easy to earn points from martial League?!

Could it be that unknowingly, martial league points had become like cabbages on the side of the road, and he could casually pick them up when he wanted them?

"Hahaha, brother Sima is indeed talented! He had earned enough points so quickly? I'm still thinking if there's any way I can help you! It seems that elder brother is overthinking!"

The beast's reaction was quick-it composed itself and laughed as it patted Lin Yi's shoulder."You brought them along to complete the team mission, right? It's true that the speed of earning points through group missions is faster. "

Seeing Zhang Butong and the others following behind Lin Yi, the monster language had a rough idea of what their mission was.

After all, if it was a solo mission, regardless of the difficulty, the time required was obvious. It was impossible to return so quickly.

"They went to do a team mission to suppress the riot in the Devil's Den. In the 27th area of District D, the black wind Fire Phoenix race is rioting."

Lin Yi nodded and turned his body a little, making the nine people behind him clear. "They are all very hardworking. After these days of hard training, not only have their individual strength improved, but they have also reached a small success in the use of battle formations that I have taught them."

"Vice Hall Master Hua, I brought them here to say that they are quite capable and can be entrusted with some important tasks. You are the president of the combat Association. If there are good talents, I should definitely recommend them to you."

Lin Yi was being so direct, so of course he understood the language. He was happy to give Lin Yi face.

"Hahaha, that's a surprise! This elder brother had been looking forward to brother Sima training some capable fighters for this elder brother. I didn't think that I would have such a harvest in just a few days!"

The artifact language laughed happily again, and the way it looked at Zhang Butong and the others was a little different. "The nine of you are all very good! With brother Sima's recommendation, I believe that your abilities are not bad, but ..."

Chapter 8069

In fact, the language of the living beings wanted to say that they were too inexperienced ...

"Vice Hall leader Hua, I forgot to tell you just now. The nine of them formed a battle formation, and in the mission of suppressing the riot in the Devil's Den, they slaughtered a race of black wind Fire phoenixes that numbered nearly three hundred! It's completely undamaged!"

Lin Yi interjected, but didn't mention his role as the leader. "I'm not just saying that. They really do have a real battle record."

Gah!

Beast language was surprised for a second, but then he understood. With Lin Yi around, this was normal!

They'd seen Lin Yi's terrifying tactics in the Forest of Illusions, and they were immune to it now.

Zhang Butong and the others had indeed slaughtered a large race of black Wind and Fire centipedes, but having Lin Yi and not having him were two completely different things!

He knew that there would be more similar missions in the future, and he couldn't count on Zhang Butong and the others to do what they did without Lin Yi.

"What an amazing record! It seems like brother Sima, you have gained a lot this time!"

The artifact language smiled and exchanged a look with Lin Yi, both understanding. "Since that's the case, you guys can indeed be put in an important position! Today, I'll make an exception and promote the nine of you to become the managing instructors of the combat Association! With a silver badge!"

"Thank you, President Hua. Thank you, Vice President Sima!"

Zhang Butong and the others were overjoyed.

They were originally the lowest ranked combat generals in the combat Association. They had only obtained the two bronze swords 'emblems after accumulating merit points over a long period of time. However, they did not have any power in their hands.

A normal two-handed bronze sword could have been the leader of a small team, but Zhang Butong and the others were already satisfied that they weren't being bullied. Who would accept their command?

He never thought that after following Vice President Sima for only a few days, he would first receive a martial Alliance point reward that he would never have dared to dream of before. Then, he would be promoted to Silver Single sword's managing instructor. He was definitely a middle-level member of the combat Association!

"Alright, you guys can go back first! Update your status, this Lord still has some matters to discuss with Vice President Sima!"

The artifact language sent them away immediately after giving them the benefits.

Zhang Butong and the others had received Lin Yi's teachings, and it was only natural for them to be promoted to important positions. Now that they'd done him a favor at no cost, the artifact language felt that it was a good idea!

Zhang Butong and the others bowed in thanks before excitedly bidding their farewells.

After they returned to the combat Association and equipped their new silver badges, they naturally attracted enough attention.

They were just cowards a few days ago. How did they become the middle-management instructors of the combat Association in just a few days?

If someone asked, Zhang Butong and the others naturally wouldn't hide it. They praised Lin Yi, saying that they were only able to get their current strength because of Vice President Sima!

Whether it was in terms of strength or status, they would all soar to the heavens!

"I didn't expect ... Vice President Sima to be so powerful. If I had known earlier, I would have followed along!"

"That's right! He had missed such a good opportunity! Zhang Butong and the others can already wear silver badges, and we're much stronger than them in all aspects. If we had followed Vice President Sima back then, we might have already entered the higher ranks of the combat Association ..."

There were many people who were envious, jealous, and hateful. It was a pity that the opportunity was gone once they missed it. They could only blame themselves for being so timid at that time and not taking a gamble.

After all, he was the honorary Vice President appointed by the president himself. It was indeed worth the risk and investment!

Lin Yi and the monster language chatted for a bit before they left for the martial Alliance's teacher examination venue.

The date of the assessment had been set long ago, and the candidates were almost in place.

Lin Yi hadn't gotten his extra spot yet, and it'd be a joke if he went too late and the test ended.

If he was busy for half a day and couldn't make it in time for the assessment, where could he go to reason?

"Manager Chen, this is Sima Yi, who is going to participate in the mentor's test. I'll have to trouble you! Please help him register!"

The artifact language brought Lin Yi to manager Chen, who was in charge of registration, and introduced him to him.

Manager Chen nodded at the two with a smile, ""Vice Hall leader Hua, you're too polite. Today is the day of the assessment. It's your strength and luck to be able to make it in time for the assessment. Although the extra assessment slots are a little troublesome, it's still within the rules."

Although manager Chen was wearing the three silver swords badge, he was the manager of the martial Alliance, so his status wasn't much lower than the higher-ups of the branch.

The artifact language was not respectful, but it was indeed very polite.

After all, it was manager Chen who helped Lin Yi get the extra test spot.

"You're called Sima Yi right? At such a young age, you're already the honorary Vice President of the nado illusion martial Alliance branch's combat Association. You're amazing, your future is boundless!"

Manager Chen smiled as he praised Lin Yi before taking out a few pieces of paper, "Fill in these registration materials yourself, then give me the badge and pay the points for the quota."

"Yes! Many thanks manager Chen!"

Lin Yi replied and handed the badge over with one hand. He took the information with the other and scanned through it.

It was basically all personal information, such as name, age, and where he came from.

Lin Yi picked up a pen and quickly filled it out-he'd filled in the form of an Alliance School, and he'd filled in mountain-opening peak for strength.

Lin Yi wanted to get some herbs to break through, but he didn't have the time to do so. He was dragged here by the language of manifestations.

He had no choice. The examination was about to begin. If he didn't come over now, it would be useless even if his strength broke through the horizon!

"Perfect mountain-splitting? He has completed a mission to suppress the Devil's Den in the nado conferred Empire, and led a team to kill 289 black wind Fire phoenixes ... This is truly surprising!"

Manager Chen looked at Lin Yi's source of points, mission information, and the information Lin Yi filled in. He was surprised.

Normally speaking, a ten-man team of battle generals at the consummate level of the mountain splitting realm would at most be able to face off against a group of black wind Fire centipedes that were in their early twenties. Wanting to exterminate close to three hundred black wind Fire centipedes without any casualties was simply an impossible mission.

Yet, this young man in front of him had done it!

At first, manager Chen thought that Lin Yi's strength level was wrong when he saw it, but now he understood.

He reckoned that this person had some kind of trump card that allowed him to display the combat power of a sea splitting stage cultivator at the level of the consummate level of the mountain splitting realm!

If not for this, he would not have the right to represent the Hongshang Empire and serve the martial Alliance.

Chapter 8070

A martial artist at the consummate level of the mountain splitting realm could display the combat power of a sea splitting realm expert. He was truly a peerless genius!

Manager Chen looked at Lin Yi, deep in thought, the smile on his face getting wider. Being on good terms with a genius like this, there was no harm in the future.

"Vice President Sima, don't worry. Martial League will keep the registration information in a file and won't reveal your personal information. Come with me for now. The assessment is about to begin."

Manager Chen turned around and cupped his hands towards Hua Yu, "Vice Hall Master Hua, you can leave Vice President Sima to me. Are you going to return now or wait for the results of the assessment to be out before returning with Vice President Sima?"

"I'll wait for brother Sima to return together. Manager Chen, you can go and do your things. You don't have to worry about me."

The language of monsters valued Lin Yi a lot, and even if it had a lot of things to do, it was willing to spend more time on Lin Yi.

"That's good. Vice Hall Master Hua, please go to the lounge and rest. I'll inform you if there's any result!"

Manager Chen nodded, his confidence in Lin Yi's potential growing.

If not for that, why would the Vice Hall Master of the nado illusion martial League, the language of the living things, pay so much attention to it?

The two said their goodbyes and walked back to the test area. Manager Chen smiled and explained the situation to Lin Yi on the way.

"There are a total of fifteen people who have signed up for this year's instructor assessment. Including Vice President Sima, that's sixteen people. Before Vice President Sima arrived, there were four people who had registered for the Alliance Academy. Including you, that makes five. "

Manager Chen paused for a moment, then said in a heart-to-heart tone, ""Vice President Sima, do you really have to go to the Alliance Academy? In fact, other Academies can also consider it. "

"Manager Chen, do you think it's difficult for me to pass the Alliance Academy's assessment?"

Lin Yi understood the hidden meaning behind manager Chen's words and shook his head with a smile, "My strength level is a bit low, but I think I should have no problem passing the test. I still have that bit of confidence. "

"Vice President Sima, you've misunderstood. It's not that I doubt your strength, but the Alliance Academy is only accepting three teachers this time. With five of you applying, it's destined that two of you will not pass the assessment."

Manager Chen waved his hand. "If you want to change the target school now, I can still handle it. But once you fail the exam, you won't be able to change it to another school."

"Everyone only has one chance to take the exam. You can only take the college you choose. Once you start the exam, you can't change it. If you fail, you can only wait until next year."

"It's not that I doubt Vice President Sima's strength, but I don't think there's a need for you to fight for a spot with those four people! To be honest, they've been preparing for a long time and already have a certain advantage in the Alliance Academy's assessment!"

Lin Yi scratched his head, not quite understanding. "Manager Chen, does being prepared for a long time give you an advantage? What kind of logic is this?"

Could it be that he was preparing for the assessment in advance, just like how he knew the questions and prepared the answers before the assessment?

"Don't misunderstand. It's not a problem of cheating. "

Manager Chen saw Lin Yi's confusion and explained with a smile, ""The so-called preparation is that they've been in contact with the Alliance Academy for a long time and have done some missions related to the Academy. They've made a certain amount of contribution."

"These contributions can't make the Alliance Institute make an exception to recruit them, but they can add a little extra points in the assessment. Under the premise that the assessment data is the same, they will also get the opportunity to be admitted first."

Lin Yi understood the situation.

After all, there were bonus points for the college entrance examination in the secular world. This was all based on one's own ability, and there was nothing to say.

Manager Chen didn't need to tell Lin Yi this-he only did it to get to know him.

Lin Yi thanked him with cupped fists, but the exam target was still the Alliance School. He couldn't change it just because of those reasons.

"Vice President Sima, you have a strong will and are indeed a talent. I wish you a smooth examination and hope you can successfully enter the Alliance Academy."

Manager Chen had already expressed his goodwill, so it didn't matter if Lin Yi accepted it or not. He wouldn't think too much about it, so after he sent it to the place, he sincerely wished Lin Yi well and said goodbye.

The other fifteen candidates had all arrived, and Lin Yi was the last one to enter the room.

The fifteen men's gazes were unfriendly when they saw Lin Yi.

They'd already decided on these people, and now there was another one. They didn't know which school Lin Yi was choosing, so it was normal for them to be hostile towards him.

There were too many monks and too little gruel!

There were only a few slots for admission. One more person competing for it might increase the chances of failure!

After Lin Yi, a middle-aged man came in. He had a small mustache on his chin and a stack of documents in his hand.

The middle-aged man nodded, seeing that Lin Yi was obviously not in the same circle. "You must be the new Sima Yi, right? "They applied for ... The Alliance Academy ... Hmm, that means there are five people from the Alliance Academy taking the assessment this time."

Most of the people in the group were obviously much more relaxed. Only four of them had gloomy expressions. They were obviously the other people who had applied for the Alliance Academy.

The other people who weren't Lin Yi's competitors didn't have to smile at him, but their hostility had disappeared. They looked at Lin Yi as if he were a passerby.

"I'm Sima Yi!"

Lin Yi said with a nod.

On the other party's lapels were three silver swords emblems. Just like manager Chen, he should be the manager in charge of this examination.

"Yes, since everyone is here, let's not waste any more time and start the assessment!"

the middle-aged man didn't give lin yi any special reaction. he looked at the information in his hand and continued,"before we officially begin, i'll repeat one more time. the academies you've applied for are limited in number, so not everyone can enter."

"for example, there are five people from the alliance institute, but only three are admitted. so, even if all five of you pass the assessment, two will be eliminated, and the three with the best results will be shortlisted."

"attention to the two who have been eliminated. because you only have one chance to choose an academy, you have chosen an alliance academy. if you fail, you will not be able to transfer to another academy. you can only come back next year."

"as for those who choose other academies, even if their results are outstanding and better than those from the alliance academies, it's impossible for them to change schools at the last minute!"

"There is no such thing as fairness or unfairness here. Everyone's choice is to be responsible for themselves. In the future, you will be teachers who teach and educate people. If you don't even know what your own standard is, what qualifications do you have to teach others?"
