

Bodyguard 8071

Chapter 8071 The Power Of The Devil

"There's one more thing. You have to pay attention to those candidates who don't have any competitive pressure. Don't be careless just because you don't have any pressure. If you don't pass the assessment, you won't be admitted even if you're the only one who applies!"

To put it bluntly, it was better to lack than to have bad!

The Academy needed a teacher, but it would not need someone who was just there to make up the numbers.

No one had any objections to this and nodded to show that they understood.

"Alright, that's all for the small talk. Next, it's time for the official assessment!"

The middle-aged man patted the documents in his hand and coughed lightly. "I forgot to introduce myself. My surname is Qian, you can call me manager Qian! The first round of assessment is about the knowledge of cultivation principles. "

"I'll come up with the questions, and everyone will rush to answer. If you get it right, you get one point, and if you get it wrong, one point will be deducted. So, for those who aren't confident, don't rush to answer. Sometimes, not speaking isn't necessarily a bad thing!"

Steward Qian revealed an inexplicable smile, which made the participants' hearts skip a beat. They felt that something bad was going to happen.

"Are you ready? "The first question, the effect of bone-honing on body-forging ..."

Lin Yi raised his hand before she could finish, leaving the others dumbfounded.

Did he have to be in such a hurry? Didn't you hear that you would lose points if you answered wrong?

"This kid loves to show off so much. It seems like he's not a threat ... He'll play himself to death!"

One of the four people who applied for the Alliance Academy couldn't help but reveal a mocking smile as he muttered in a low voice.

The people around him who heard this all agreed with him. They also smiled and nodded, agreeing with this statement.

"Uh ... Sima Yi, I haven't finished my question. Are you sure you want to answer first?"

Steward Qian was also a little dumbfounded. Then, he felt that it would be good to take the opportunity to teach this kid a lesson. He wanted to let him know that the deduction of points was not something to be casually said!

"I'm sure! Steward Qian, is your question ..."

Lin Yi didn't hesitate at all-he could easily tell with his spirit sense if something went wrong.

Well, it wasn't that easy, actually. Steward Qian had a way to prevent divine sense from prying, but it didn't work at all against Lin Yi.

There wasn't an answer to the question, but it wasn't a problem for Lin Yi.

With so many books swept into the Wu Linghai, it would be extremely easy and pleasant to find the answers to the questions.

"Uh ... That's the problem ..."

Manager Qian was getting more and more confused-he wanted to teach Lin Yi a lesson, but he found out that he'd only listened to half of the story, and he'd already answered all the questions. Would the answers be difficult?

Lin Yi didn't even need to look for an answer-this level of training wasn't hard at all, and he could easily solve the problem.

"Correct answer. Sima Yi has one point."

Manager Qian couldn't find anything wrong with Lin Yi's answer, so he announced Lin Yi's points."The second question ..."

Before he could finish his question, the same thing happened again.

Manager Chen said that the four competitors all had some early-game advantages, so Lin Yi wanted to take advantage of the fact that it was easier now to get more points and close the gap.

Hence, this first round of the test became an interactive question-and-answer session between Lin Yi and steward Qian. One of them asked half of the questions, and the other fought for the points.

The 15 candidates who had been reduced to mere spectators were about to go crazy!

What the f * ck was this? You should at least give us a chance to answer!

How could he snatch it if he couldn't even hear all the questions?

It didn't matter if they didn't lose points if they answered incorrectly. It was fine if steward Qian didn't say anything. But if they answered incorrectly, they would lose points ... No one dared to say anything.

After all, it didn't matter how high Lin Yi's score was. At most, he'd only get a spot in the Alliance School, it didn't affect the other schools.

As long as the others maintained zero and did not break through, everyone would be the same!

Whoever made a move recklessly and got their points deducted would be looking for trouble and deliberately falling behind.

Steward Qian came up with the questions mechanically. He felt that this assessment was really boring!

After Lin Yi answered twelve questions correctly in a row, manager Qian announced the end of the test!

There were still a lot of questions left, but there was no point in going on like this-what was the point of letting Lin Yi score a few dozen points? He directly left them in the dust, alright!

"Hehe ... In the first round, Sima Yi's performance was very outstanding, and the others' performance was also very stable ..."

Steward Qian felt a little awkward about ending the first round early, so he tried to find a topic to talk about. As a result, he saw the 15 people looking at him with dead fish eyes.

He didn't need to say anything to express his thoughts clearly. Youyou's performance was very stable!

We don't even have a chance to answer, so we can't be unstable!

If you call those who get zeros stable performances, that's fine too, as long as everyone is stable!

"Then it's time for the second round of the assessment ... Everyone, get ready!"

Steward Qian was still a little embarrassed. He had been an examiner for so many times, but this was the first time he felt so helpless.

Other than Lin Yi, the other fifteen were still looking at him with dead fish eyes.

If preparations were useful, why would there be a need for an assessment?

If you F * cking come up with another snatching answer, do you believe that we will all kill you together?

Steward Qian moved his shoulders uncomfortably, feeling a chill on his back. ""The second round of the assessment is to find the mistakes in the martial skill."

"As we all know, every battle technique has its own flaws and weaknesses. Only by constantly finding these flaws and weaknesses and improving them can the power of the battle technique be increased!"

"Next, I will show you some martial arts techniques. Everyone ..."

Steward Qian stopped talking subconsciously.

He'd wanted to tell everyone to answer first, but it wasn't just the fifteen participants who'd been traumatized by Lin Yi's answer-he was just as scared.

What if he was robbed of his answer again?

Hence, after much consideration, steward Qian changed the topic,""Everyone, write down what you think is lacking. I will judge the score based on your answers."

Answering speed was supposed to be a part of the score, but Lin Yi's performance was too overpowered, so steward Qian ignored it.

Other than Lin Yi, the other fifteen sighed in relief-it was good that he wasn't the one who answered first!

At least everyone had a chance to answer. As for whether they could get points in the end, it would depend on their own strength!

Lin Yi, on the other hand, didn't seem to mind at all-he didn't really care how they were going to proceed with the second test.

He already had a good start anyway, and he didn't know if he had closed the gap between him and the other four people. He estimated that it should be about right?

Perhaps there was still a possibility of surpassing them.

Therefore, he had to keep a low profile from now on. He couldn't be too high-profile and steal all the limelight!

Chapter 8072

After explaining the rules, manager Qian ordered for some paper, brush, and writing tables to be placed separately, and Lin Yi and the others took their seats.

Next, steward Qian used a martial technique.

This martial skill wasn't considered a rare thing. On the contrary, it was a common thing that was widely spread.

As long as a martial artist trained their body, at least eight out of ten of them would have trained it before. It could be said to be the foundation of the foundation.

Therefore, the people present only needed a glance to roughly know the flaws and flaws in it.

These people were all busy writing with their heads down, not noticing that steward Qian was still urging the martial technique.

Lin Yi was the only one who'd seen everything from start to finish.

Because it was too low level, Lin Yi had never learned this skill before. After some careful observation, he was quite sure of it.

The others were almost halfway done when Lin Yi picked up his pen and started writing quickly.

Lin Yi wasn't the first to turn in, he was the second to last. This surprised manager Qian, but at the same time, he felt that it was a pity.

Yingying should have answered first!

After gathering the answers, he started to read them one by one.

Because it was a very common and basic martial technique, most people knew its flaws.

There were 13 flaws in the normal version. However, steward Qian had deliberately made five mistakes when he used it. Therefore, the standard answer in his mind was 18!

Unfortunately, most people started writing the answers before reading it, so the 13th place was the mainstream answer.

Lin Yi's terrifying answering speed made them run as fast as they could. They didn't expect steward Qian to set up a trap here.

"I'm sorry, anyone who answers the 13 flaws will be wrong. However, there's no rush to answer this time, so you won't lose points even if you answer wrong!"

Steward Qian threw the answer sheets on the ground as he read, feeling a little disappointed.

They were all people who took things for granted. If it wasn't for the fact that Sima Yi was already leading by twelve points, they really wanted to deduct a wave of points from those who answered wrongly.

"Steward Qian, why is the 13th Division the wrong answer? This martial skill is widely circulated and is a basic martial skill that has been tempered thousands of times. Everyone is very clear about it, so why isn't it thirteen?"

Some people were unconvinced and raised their necks to question.

Steward Qian didn't even lift his eyelids and answered indifferently, "Because I deliberately made five mistakes, and you guys habitually thought it was thirteen. You guys should be snickering if I didn't deduct your points based on experience, and you still have the face to ask why?"

"you're going to be the academy's instructors in the future. with such standards, how can you possibly teach outstanding students? don't you guys feel ashamed?"

the person who doubted him blushed. he didn't expect steward qian to deliberately make a mistake. as expected, experience could kill people!

"there are 18 mistakes here, which means he carefully observed before answering. you should learn from his spirit!"

manager qian saw the answer, and it wasn't lin yi's answer. there were eighteen places written on it, and they were pointed out one by one. he was a lot happier.

someone finally saw through it, and didn't let that sima yi outshine everyone else. it wasn't easy, not easy.

just as he was about to compliment her, he saw that there were 23 answers written on the second set. he immediately sneered.

"There's still someone here who wrote 23 mistakes. This is really eye-opening!"

Steward Qian put down the standard answer in his heart and picked up the answer with twenty-three mistakes. He looked at the name "Si Ma Yi" and his heart suddenly skipped a beat.

After all, he'd already demonstrated his profound understanding of practicing in the first round!

If it was anyone else, steward Qian would definitely not care. However, this was Sima Yi's answer, so he subconsciously looked at it seriously.

He didn't even realize that his forehead was covered in cold sweat after he finished reading.

"Who is it? he actually wrote twenty-three places. He really doesn't know the immensity of heaven and earth. Is he randomly writing to attract attention?"

Those who were unaware of the situation were criticizing him without paying attention to steward Qian's abnormality, "I already said that I made five mistakes on purpose. Adding on the original thirteen, there are indeed eighteen mistakes, right?"

"Steward Qian, which fool would be so dramatic?"

"Shut up! What do you guys know!"

Steward Qian's loud scolding silenced those guys instantly. They all looked at steward Qian inexplicably, not understanding what had happened.

"the martial skill this time ... there were indeed twenty-three mistakes. the only one who answered correctly was wufu sima yi!"

no matter how unwilling he was, he couldn't deny the truth!

steward qian felt as if he had eaten a fly, but he still had to announce the result. ""sima yi has obtained one point. the others have not changed!"

"why is it like this? steward qian, please explain!"

some people weren't convinced-in fact, steward qian wasn't convinced either, but after lin yi's analysis, he was convinced!

"As I said just now, I deliberately made five mistakes, so you guys think it's thirteen plus five, right?"

Steward Qian's words caused those people to nod in unison. ""Actually, it's not like that. Because I made a mistake on purpose, it caused new mistakes and flaws to appear in this martial technique."

"It wasn't obvious. It disappeared in a flash, so everyone probably didn't notice it."

"But Sima Yi is different. Not only did he notice it, he even wrote down in detail how to make up for it and things to take note of during the battle."

To be honest, even manager Qian was starting to admire Lin Yi!

To be able to get rid of the original information in such a short period of time and rely entirely on his own observation to make a judgment, and even F * cking succeed, he was indeed a genius!

Steward Qian felt that even if he were the one doing it, he would definitely not be able to do it!

"Ahem, let's start the second challenge!"

Steward Qian began to activate new martial skills. This time, the martial skills were rarer and more profound, so not everyone could understand them.

Just by looking at the skills, it was not easy to find the mistakes after one try!

However, the truth made him feel helpless again. Not only did Lin Yi answer correctly, but he was also the fastest to hand in his answer.

'Fortunately, I didn't return to my answering mode ...' This was the only thought in steward Qian's mind!

In the next few rounds, manager Qian gave up on the idea of making Lin Yi lose points. He chose more basic skills and activated them in a regular way. He didn't cause trouble on purpose anymore.

With that, Lin Yi's accuracy rate was still high, but at least there were other people who could answer correctly!

Steward Qian could finally announce that the others had also obtained their points.

But at this time, the difference between Lin Yi and the others was huge!

"Cough cough ... The second round of the examination has ended!"

Steward Qian coughed a few times and ended the assessment early again.

Chapter 8073

There was no point in continuing-Lin Yi was the only one, and the others couldn't catch up to him. It was better to continue with the test before they were too far apart.

"Everyone's performance ... Is still very stable ... Well, I won't say much. "

Steward Qian wanted to summarize his performance after the assessment as usual, but his thoughts were a little incoherent. There was really nothing to say!

Other than Lin Yi, the other fifteen were all staring at Lin Yi with dead fish eyes ... What the hell was this stable!

That kid is very stable and outshining everyone else, and we are very stable and idle?

Steward Qian, it's easy for you to be put on a gunny sack and get beaten up if you talk like this, don't you think?

"Next is the third round of the assessment. Everyone, follow me to the martial arts practice field!"

Steward Qian felt a chill on his back. The air suddenly became quiet and the atmosphere was a little awkward. It was better to move to another venue and bathe in the sun. Perhaps everyone's mood would be better.

Lin Yi scratched his chin, telling himself that he needed to keep a low profile. He didn't really care about the hostility of these salted fish, but he'd be in too much of the limelight if this continued ...

He had wanted to keep a low profile earlier, but he didn't expect that they would be unable to answer such a simple test. He had already gone easy on them!

For example, the first mistake he made in his martial arts technique-it was a mistake that manager Qian made on purpose, which led to more mistakes later on, far more than what Lin Yi had written down.

If he were to write all of them, he could write at least eighteen more!

Unfortunately, no one could see it!

I've already been keeping such a low profile, and yet, you guys still can't win ... What can I do? I'm also in despair!

Lin Yi scratched his head again. It seemed like he'd placed too much importance on these candidates. From their performance, no matter how much points they'd get from the premission, it wasn't enough for them to squander!

Manager Qian led the group to the training field with mixed feelings. The people behind him were silent, and Lin Yi couldn't be bothered with them.

He didn't know if this bunch of salted fish knew what it meant to be brave after knowing shame. If this continued, it wouldn't matter even if Lin Yi kept a low profile.

"The third round of the assessment is to modify the battle technique and hand it over to suitable students to cultivate. Those who are able to exert a greater might than the original will be awarded points based on the extent of the improvement. The time limit is two hours."

Manager Qian explained the rules briefly, his eyes sweeping across everyone, including Lin Yi. "This is one of the most basic abilities to become a mentor. I hope everyone will take it seriously and not disappoint me!"

After saying that, steward Qian motioned for everyone to pick their martial skills and students.

On the training field, there were 16 other young men and a table with 16 martial technique books on it.

These martial arts techniques and young people were the tools for the third round of the assessment.

The martial skills given in the assessment were all basic and had room for improvement. Moreover, they were easy to master.

As long as he could increase the power, he would be able to obtain points. However, there was a difficulty in this. The 16 martial arts techniques were all different, and their attributes were also different.

It was the same for the 16 young men, which was why steward Qian said he wanted to hand them over to suitable students for cultivation!

Even if you were to modify a martial skill with fire attribute Qi and give it to a water attribute student in the end, then it would be impossible to even unleash its original power.

Choosing suitable battle techniques and students was also a test of a teacher's judgment. It wasn't something that could be completed so easily!

Lin Yi kept a low profile and didn't pick the skills and students right away. He let the others pick before picking up the rest.

The martial technique was a relatively obscure Gale slash. It used wind-element Qi as the foundation and attached it to the weapon, displaying twice the original attack speed.

This could be considered a more practical low-level martial skill.

The problem was that wind was a rare element-none of the sixteen students here were of the wind element, and the last one Lin Yi had was of the earth element ...

In general, people who cultivated the earth attribute Qi would pay more attention to their own defensive ability. In the team, they also played the role of meat shield in the front.

Such a person, even if they were to learn earth attribute attack skills, they would not pay attention to attack speed!

Powerful and heavy was the preferred attack method of the earth attribute. Gale slash? What was that thing?

"I'm of the earth attribute. I'm sorry, but I'm afraid I can't learn wind attribute martial arts!"

The remaining student shook his head as he saw Lin Yi walking over with the storm cut. "I'm afraid I'll have to disappoint you this time, but it's not that I don't want to cooperate!"

"Don't be in a hurry to deny yourself. Who said that people with the earth attribute can't learn wind attribute martial skills?"

Lin Yi smiled as he waved his hand.

Although he wanted to keep a low profile, it didn't mean that he would give up the assessment and admit defeat!

"Steward Qian, I'd like to ask, what are the scoring rules? I didn't explain in detail just now. "

Lin Yi turned to ask.

Steward Qian nodded and answered carefully,"

"After modifying the martial skill, the increase in power will be less than five percent. One point, ten percent, two points, twenty percent, four points, thirty percent, eight points, and so on. Every ten percent increase will double the previous base."

This method of adding points was very terrifying. If one could double the power, they could directly obtain more than 1000 points.

Lin Yi's lead seemed to be quite a bit earlier, but it was nothing compared to the points he'd gained in the third round.

However, what steward Qian didn't mention was that the power of the modification of the basic martial technique was basically within a fixed range!

Basically, there wouldn't be more than 30% modification, and this was because the basic martial techniques that were taken out had room for improvement.

A small number of outstanding students would reach 40%, but it was almost impossible for them to reach 50%.

This point wasn't a big deal-even if Lin Yi didn't get a single point, he'd only be closing the gap, he wouldn't be overtaken immediately.

Manager Qian knew that Lin Yi's skill didn't match the student's attributes, and he was a little happy about it.

He didn't have any personal grudges against Lin Yi-he just thought that Lin Yi's grades were too far away from the masses, and it wasn't a bad thing for him to suffer a little.

"I understand!"

Lin Yi nodded, getting serious. It seemed like he couldn't be too low profile!

If they were overtaken by a few hundred points, they might not even have the chance to catch up later!

En ... Wind attribute martial arts technique, earth attribute student ... That's the only way!

Lin Yi started to study his skills, using the earth element as the foundation and merging it with the wind element ... This wasn't even an improvement, it was a new skill!

However, the framework was still the same as the storm cut. It could be said that it was an improved storm cut.

"Alright, you can continue practicing!"

After all, it was just a test, and a simple one at that. Lin Yi didn't have to be too strict with the changes, and he tossed it to the student after a few changes.

Chapter 8074

"Ah?"

The student was slightly taken aback. He took the improved martial technique, but in his heart, he was still somewhat disapproving.

He didn't think he could learn it, but because of the order, he still looked at it.

In the end ...

At first, the students were still against it and only cooperated because of orders, but after seeing Lin Yi's new skill, they felt like their whole world was turned upside down!

How could such a thing happen!

It was clearly a wind attribute martial skill, but it was forcibly changed to be suitable for a person with an earth attribute body to perform!

It was simply an ability that could be described as the work of the gods!

And the power of this battle technique ... The student's face was covered in tears. Just thinking about it made him excited!

Unfortunately, his aptitude was limited, and it was impossible for him to learn this martial technique in a short time and unleash its full power!

But it didn't matter. As long as he could learn this martial technique, he wouldn't lose anything!

Lin Yi finished modifying the skill and explained it briefly before letting the guy practice on his own. He didn't give him any extra pointers.

With more guidance, the student's learning speed would increase by leaps and bounds, but Lin Yi didn't plan on spending too much time on him.

The guy didn't really care about Lin Yi before, and he was just doing it for the mission.

Since that was the case, everyone could just deal with it and keep a low profile!

Lin Yi had been worried that someone would be able to double the power of the skill, but after using his spirit sense to scan the area, he realized that he was overthinking things.

Therefore, after he had taught them the battle techniques, he didn't bother to care about them anymore ...

If it wasn't already done, he should have made it rougher. Now, he could only forget about it.

Anyway, looking at the kid, he probably wouldn't learn much. He could still keep a low profile.

"Time's Up! The first one to step forward for the test!"

Steward Qian had calculated the time. After two hours had passed, he immediately shouted "stop." He pointed to the first person to choose a martial technique and motioned for his students to step forward. "This time, the starting power of all the martial skills is 100, and every student's strength level is the same, so the assessment will be relatively fair."

"The first student, go to the crystal pillar used for the test and use all your strength to activate the improved martial technique!"

The student who was called out confidently stepped out and walked to the crystal pillar prepared on the training field. He took a posture and shouted, using all his strength to release his martial skill.

The dense fire Qi gathered on his fist and turned into a red meteor, hitting the testing crystal pillar.

Scarlet Flame meteor!

A martial artist with fire attribute Qi and a fire attribute martial skill that was compatible with him, the two complemented each other and had a strong effect on improving the martial skill.

And the person who modified the martial technique was also a fire attributed martial artist, so the improvement of the Scarlet Flame meteors was also quite good.

This punch had completely released the power he had improved.

One hundred and thirty-seven!

This was the final display of the power of the test crystal pillar. It had increased by 37 points from the initial 100!

"Not bad! You've increased your score by 37 points, close to 40%. Based on 40%, you'll get 16 points!"

Steward Qian nodded with satisfaction. It was already a stunning performance to be able to increase the power by 40% in two hours.

The person who participated in the assessment smiled reservedly. "Thank you, steward Qian. In fact, this student's aptitude is not bad, and he is very suitable for this martial skill, Scarlet Flame meteor. Unfortunately, he has not cultivated it for a long time, so he has not fully mastered it. Otherwise, he should be able to increase its power by at least ten to twenty percent."

In other words, he could have gotten thirty-two or even sixty-four points, but because of the student, he only got sixteen points!

Steward Qian chuckled and ignored him.

The students' aptitudes are all about the same, and the cultivation time is also the same. Have you asked for other people's opinions when you use this to talk about this?

But then again, this guy did have some talent. It was already very outstanding to be able to achieve such results in such a short time!

Although sixteen minutes was not enough to catch up to Sima Yi, he had already caught up to half of it.

He had a bright future!

"The second one, step forward for the test!"

Manager Qian glanced at Lin Yi's direction as he called for his men. He thought that it would be good enough if an earth element practitioner trained in a wind element skill and was able to hit the target with full force ...

So the others should be able to close the distance between them and Sima Yi, right?

The second place also successfully scored 132 points. However, after rounding it up, it only obtained a 30% increase in the assessment points.

Of course, this was also a student whose attributes matched his martial arts technique.

In fact, other than Lin Yi, the skills the students learned were all of the same element as their own.

For some reason, there was an additional set of students and martial techniques with different attributes in the end.

For the first few groups, the people who took part in the instructor assessment also had the attribute of the martial skill they chose, so their results were all very good. They had at least obtained a 30% increase in the assessment points.

It was only after ten sets that there were people who didn't get their own attribute martial skills. Although they had also completed the improvement of the martial skills, they were, after all, different from their own attributes, so it was slightly more difficult.

However, because the students' attributes were compatible with the martial technique, they all received a 20% increase in the assessment reward in the end.

Only Lin Yi's student and martial arts were two completely different attributes.

"Sima Yi, it's your turn!"

Steward Qian was already very satisfied with the current situation. Without Sima Yi, the standards of this batch of mentors and assessees were not bad,""You're the last one. I hope you'll have a good performance!"

To be honest, manager Qian was just being polite. He didn't think that Lin Yi's improved technique would do anything.

Let's not talk about whether Lin Yi's own element could improve the wind element martial skill, just the fact that the person using the martial skill was an earth element practitioner, it was already a 99% chance!

"I don't expect any good performance, it'll be good enough if I can be on par with everyone!"

Lin Yi kept a low profile and smiled at the student. "Don't be nervous. Relax. Just activate it a little!"

On the other side, one of Lin Yi's competitors sneered,"How arrogant is this kid? Similar to us, you don't expect any good performance? Then, do you even have us in your eyes?"

This fellow was currently the one with the lowest assessment score among the five people who had applied for the Alliance Academy. The chances of him being eliminated were not 100%, but at least 99%.

So he was very hostile to Lin Yi.

But he didn't think that with his results, even if Lin Yi wasn't there, he'd still be the one eliminated. There wasn't much of a difference in the results.

The person Lin Yi was affecting was actually the second-to-last person.

This guy could've gotten into the Alliance School, but Lin Yi pushed him out of the list. What an unlucky guy.

Chapter 8075

"Sima Yi is indeed powerful and capable. It's normal that he doesn't care about you!"

Lin Yi's second competitor, the one with the second highest score after Lin Yi, spoke up.

Because he had a high chance of getting into an Alliance School, he didn't like Lin Yi, but he looked down on losers who were about to be eliminated.

Lin Yi didn't have the time to pay attention to their whispers. He signaled for the student to activate the skill while he looked up at the sky lazily.

The sun was warm and the clouds were white. What a great weather!

Manager Qian couldn't help but curl his lips when he saw Lin Yi's nonchalant face. Was he giving up completely?

That's right, there's no harm in giving up knowing that there's no hope.

In any case, he had already obtained quite a number of points in the first two rounds and had pulled apart quite a bit of the points gap with the people behind him. Even if he did not get a single point in the third round, it would not have much of an impact. This kid was still the one ranked first among the sixteen people.

As he thought about that, the student used his hand as a blade and shouted, activating the wind Slash that Lin Yi had modified.

To be exact, it could no longer be called the storm cut, but the "howling storm rock-breaking cut"!

The surface of the student's hand-blade was covered with a layer of Yellow Earth-attribute Qi, and then there was a lot of wind-attribute Qi surrounding it. This wind-attribute Qi was actually not his own, but gathered from the world!

In the blink of an eye, the student had slashed more than ten times, leaving afterimages in the air.

The crystal pillar glowed and soon revealed its power value of 153!

Its power had increased by more than 50%!

It was currently the highest among everyone!

Steward Qian was dumbfounded. His mouth was wide open, and he forgot how to close it!

What was going on?

Was he not expecting a good performance?

In fact, even if a 50% increase was rare, it was not non-existent!

Therefore, there was nothing to make a fuss about. What made steward Qian lose his composure was the martial technique that the student had used!

A martial technique with complex attributes!

With the earth attribute as the foundation, it had gathered all the wind elements in the world!

Although that student was a single attribute martial artist, it did not hinder the use of this kind of complex attribute martial technique!

Amazing!

That was the only word left in steward Qian's mind!

Even if it was a basic martial technique, with the support of compound attributes, it would no longer be a simple basic martial technique!

He didn't expect that someone could actually improve a martial technique with complex attributes in such a short time!

He was a true genius!

Lin Yi didn't know what was going on in manager Qian's mind. He was speechless when he saw the power of the crystal pillar.

What happened to keeping a low profile? How did he get first place again?

He had only taught her once!

Could it be that the kid's talent was actually not bad?

Lin Yi rubbed his chin and dismissed the thought.

Whether he was talented or not, he could tell at a glance ... In his hands, the power of the rock-breaking storm slash was not even half of its full power. He had only grasped a little bit of it.

"Sima Yi ... Obtained a 50% increase in power ..."

Manager Qian came back to his senses and looked at Lin Yi with a strange expression.

To be able to casually improve a martial technique of this level, this kid was absolutely a genius!

He felt that putting Lin Yi in the Alliance College was a waste of talent ...

"Teacher Sima! Can I still come and ask for advice in the future?"

The test was over, and the student ran over, bowing to Lin Yi with respect. "This student still hasn't grasped the key points of the [storm rock-crushing slash] well enough. When teacher Sima is free, can you give me some pointers?"

"Hmm ... I guess so ..."

Lin Yi nodded half-heartedly-he was going to be a teacher, after all, so he'd just take it as a way to experience what it felt like to be a teacher.

The student got Lin Yi's promise and bowed in thanks before retreating to the side.

The third round ended, and the point difference between Lin Yi and the others didn't decrease at all. Instead, it widened even further. Manager Qian didn't have any more hopes for Lin Yi-he could do whatever he wanted, it had nothing to do with him anyway.

"The fourth round of the examination is a test of spiritual sense. As long as a score of 100 points is displayed on the test crystal, you pass and will get one point. For every five points added, the examination score will be increased by one point!"

It was obvious that it was very difficult to improve one's spiritual sense.

After reaching the passing line, even a small increase would not be easy to achieve, which was why it was set so thin.

Lin Yi, of course, wasn't worried that his spirit wasn't up to standard. The only thing he needed to consider was how much strength he should use to keep a low profile.

"Sima Yi, you go first!"

Manager Qian didn't give Lin Yi the chance to think too much as he called out his name, "Use your divine sense to touch the testing crystal and keep it stable. Only then will you be able to give an accurate number. If it's not stable, the number won't stop and your score can't be calculated."

"Understood!"

Lin Yi nodded, not really understanding ... So how much strength should he use?

He had wanted to observe the others' performance and use it as a reference for the assessment. He didn't expect that this scamming steward Qian would actually point out that he would be the first to go up!

He had no choice but to take it one step at a time!

Lin Yi decided as he stood in front of the testing crystal. He was going to test it with his mountain opening spirit sense.

In any case, the final value needed to be stable before it could be counted, so the initial experiment should not be affected.

His mountain-opening divine sense gently extended out and touched the testing crystal.

Lin Yi was prepared to increase his spirit sense output if it was too little!

However, as soon as his divine sense touched the testing crystal, a strong light burst out from it, and the value soared instantly, breaking through the 200 mark.

Lin Yi jumped and quickly pulled it back, calming down the crazy numbers.

Finally, under Lin Yi's control, it stopped at 195 points.

What a F * cking scam!

It's just the divine sense of the mountain opening stage, and it's even at the level of the initial stage of the mountain opening stage, does it have to be so exciting?

Passing with 100 points, was this a joke?

Everyone here could easily complete it with their eyes closed, right?

The surrounding audience were all dumbfounded, their faces full of shock. Lin Yi was helpless ...

I want to keep a low profile, but my strength doesn't allow me to!

"Cough cough ... Sima Yi's divine sense is at one hundred and ninety-five ..."

Manager Qian came back to his senses and looked at Lin Yi with a strange expression as he announced. "Sima Yi, your divine sense's explosive power is really strong. If you have a suitable explosive divine sense attack skill, you will be able to display an extremely powerful might."

"It's a pity that the divine sense attack skill can only be encountered but not sought. You should pay more attention in the future. If you can find it, it will greatly improve your combat power. "

A score of 195 was indeed very high, but it wasn't rare.

Chapter 8076

What shocked steward Qian and the others was the speed at which Lin Yi reached this point. It was a true explosion!

It arrived in an instant!

Normally speaking, the tester's spiritual sense would push the points up bit by bit. The early stage would be a stable process that could be seen with the naked eye!

This was why steward Qian thought that Lin Yi's divine sense was explosive, but it might not be sustainable.

What he didn't know was that the explosion in his eyes was just Lin Yi's first step, the kind where one step felt too big and then he'd take half a step back ...

"Yes, steward Qian. Thank you for your guidance!"

Lin Yi bowed slightly, using a humble attitude to maintain his principle of low profile that had long since collapsed.

Steward Qian nodded and didn't say anything. He signaled the next person to continue the test.

Lin Yi only realized what was wrong when he saw the others "results ...

Most people would accumulate a passing score of 100 points and steadily increase the value by five points.

In the end, when he really couldn't hold it in anymore, he naturally stabilized the final points.

What about me? Good Lord, a single strike of the hammer had produced a value of over 200, and then it had suddenly retracted!

In other people's eyes, he was an anomaly!

It was no wonder that they were so shocked that they all had constipated expressions ...

In terms of points, everyone's starting price wasn't lower than Lin Yi 's-they were all around two hundred points!

It meant that the strength of these people's spiritual sense had all reached the standard mountain opening stage!

A total of 195 points was mixed in and was not eye-catching at all. It could be considered that he had achieved his goal of keeping a low profile. Unfortunately, this way of displaying his points was not low profile at all ...

Lin Yi looked up at the sky speechlessly. Next time, he couldn't agree to go first no matter what-he had to let them show off first!

In the end, other than Lin Yi's explosive strength, there wasn't much of a difference in the results.

Everyone's scores were about the same, some even getting a few points more than Lin Yi, closing the gap.

Manager Qian had been prepared to see Lin Yi soar into the sky, but he didn't expect this to happen. He didn't know how to feel when Lin Yi's momentum was interrupted.

"The fifth round of the assessment is to test your ability to guide students!"

After sorting out his complicated feelings, steward Qian didn't think too much about it and started to explain the assessment, ""The students who improved the battle technique just now are still your targets of guidance."

"Each of them is stuck at the gate of a small realm and can't break through. The next two hours will be the time for you to guide them to break through."

"To become a teacher of the Academy, it is necessary to have the ability to guide students. Within two hours, the teacher who guides the student to break through first will obtain sixteen points, while the rest will get less and less. The last teacher to break through will only obtain one point."

"Within two hours, those who can't break through will not get any points. Although their points won't be deducted, their evaluation will be lowered, and the priority of admission will be lowered. In the end, if they apply for the same college under the same conditions and score, they will be the last-place admission."

If there were more people competing for the admission quota, such as the situation at the Alliance Academy, then the so-called last place admission was actually elimination!

"The time starts now. You can go and research how to break through with your students!"

Manager Qian waved his hand, but couldn't help but glance at Lin Yi again, wondering if the kid would bring out another surprise this time.

The 16 students were all carefully selected. They were on the verge of breaking through but were still short of one breath. As long as they had enough guidance, it would not be a problem for them to break through within two hours.

The others dispersed with their students and started teaching nervously. Lin Yi, on the other hand, led the student to the side unhurriedly.

Guiding someone to breakthrough wasn't a big deal for Lin Yi, and so he wasn't in a rush. He planned to do what he'd thought earlier-let the others test out what a normal breakthrough was like, so they wouldn't be too different from the others.

However, the student waited until no one was around before whispering excitedly to Lin Yi, ""Teacher Sima, just now when I was practicing the storm rock-crushing slash, I already felt the opportunity to break through! However, I suppressed it for a while, and it's only for now ..."

Before he could finish speaking, the aura on his body had already changed. It actually reached the point where it really couldn't be suppressed, and he began to break through a small level.

Lin Yi blinked! What did that mean? Do you want me to win by cheating? I don't need it!

Can't you bear with it a little longer? I didn't expect you to break through so quickly!

I haven't even given you any guidance and you're already breaking through. Do you know that I don't feel a sense of accomplishment at all?

Unfortunately, once the breakthrough started, the student's strength couldn't be stopped. Lin Yi could only curse in his heart and watch as he broke through.

On the other end, when steward Qian saw the commotion over here, he could not help but secretly sigh. As expected, this Sima Yi was extraordinary!

The assessment had just begun, and the students were already starting to break through. He didn't know what kind of trick he pointed out, but he was really amazing!

Lin Yi could feel the admiration in manager Qian's eyes, and his lips curled up. If I say that I didn't do anything and that his breakthrough had nothing to do with me, I wonder if steward Qian would believe me?

He said he would keep a low profile ... To hell with that low profile!

"Sima Yi, you're really impressive. To have the ability to teach students like this, you're indeed a natural-born mentor! It would be a waste if I don't go to the academy!"

Manager Qian thought about it and decided to talk to Lin Yi, trying to get closer to him.

It was better to befriend such a genius.

"Steward Qian, you're too kind. It's all because of his talent and hard work. He laid a good foundation and made a breakthrough all by himself. I didn't help much."

Lin Yi said humbly that it wasn't his credit.

Although this brat's breakthrough was due to the improved martial skill storm rock-crushing slash, that was before. Right now, he really hadn't received any guidance.

"You're strong, humble, and low-key. You're a good young man. I have high hopes for you!"

Manager Qian smiled and nodded, pleased with Lin Yi.

As long as he had time, it didn't matter how much he said about such a kind of praise that was beneficial and didn't cost him anything.

The guy who was at the bottom of the five applicants happened to be near Lin Yi, and he panicked when he saw Lin Yi take the lead again!

However, he didn't have much knowledge in guiding others to break through at the last minute, so he immediately felt like he had nothing to lose.

He left his students behind and ran over to steward Qian, ""Steward Qian, Sima Yi is right. The breakthrough of the students this time is entirely a reflection of the students' individual abilities. It has nothing to do with Sima Yi! I saw it very clearly from the side just now. Sima Yi didn't guide the students at all. It was the students who had reached the critical point and broke through on their own!"

Chapter 8077

"If this kind of opportunistic person were to obtain the first place's assessment points, it would be too unfair to the rest of us!"

If I'm not well, don't even think about being smug!

The guy hated Lin Yi so much that he didn't care if he harmed others or not!

He didn't even notice if Lin Yi was teaching the students-he didn't have the time to observe his opponents when he was busy with his own stuff.

However, he was just spouting nonsense now. It didn't matter if it was the truth or not. He didn't know that the nonsense he spouted was actually true!

Lin Yi blinked. If he wasn't mistaken, this idiot was ranked fifth out of the five from the Alliance College, right?

It would be understandable if the fourth-ranked student targeted him. After all, he had a chance to enter the top three.

What was the meaning of this last-place fellow jumping out and jumping around?

No matter what, he couldn't skip the fourth place and enter the top three. Was it just to make his presence known?

He couldn't understand!

"You'd better go and take care of your own students! He was still in the middle of the assessment! Do you have a lot of time to waste?"

Steward Qian's face darkened. 'I'm here to build a good relationship with Sima Yi, and you're here to ruin it on purpose. Are you deliberately looking for trouble?'

"Whether Sima Yi is guiding the students or not, I know it in my heart. I don't need you to remind me! One more thing, even if what you say is the truth, you have to take note that luck is also a part of one's strength! This doesn't affect the fairness of the assessment!"

Although they tried their best to select students with similar levels, talents, and aptitudes, there would always be differences between each person. It was impossible for them to be exactly the same.

Therefore, during the selection process, those with good luck would have an easier time getting students who could break through. No one could say anything about this.

"Sima Yi, you don't have to worry about him. As long as the student successfully breaks through, your fifth round's assessment points will not be a problem!"

Manager Qian turned to Lin Yi after scolding the guy with a serious face, "The others haven't started breaking through yet. Looks like the top place of the fifth round will definitely be you!"

"Many thanks, steward Qian! In fact, I can understand why this friend is unconvinced. Most of the time, he doesn't have the ability to guide the students to break through, so he thinks that others don't have the ability to do so. Generally, narrow-minded people are like this. I understand. "

Lin Yi's expression was calm as he added another blow, causing the guy's face to instantly turn green.

He was so angry, but he couldn't refute it!

Because he really did not have the ability to guide this student in breaking through. He had no clue at all!

"What are you looking at? Didn't you doubt me? How about this, since you don't have the ability to guide a student to break through anyway, why don't you let your student come over and follow me, I'll guide him to break through, and then I'll give you one point for the assessment, so that you won't get a single point for failing in your guidance. How about it?"

"Don't even think about it! Who says I don't have the ability to guide students to break through? I just can't stand you cheating! I don't have time to waste on you! You're wasting my time!"

The guy was so embarrassed that he became angry. He straightened his neck and finished speaking, then ran back. It would only be more embarrassing if he continued to stay here!

Since steward Qian refused to help, he had no other choice. If he continued to hold on, he would only make steward Qian hate him, and he would really be finished!

"Steward Qian, I'll talk to you later. The student is at a critical moment in his breakthrough. I need to give him a hand!"

Lin Yi didn't think much of these clowns, but it was true that he didn't put in any effort in this student's breakthrough, and it was a little uncomfortable to get points. Since that was the case, he might as well add some more fuel to the fire!

"Primordial spirit, defend yourself. Relax your body and listen to my command!"

Lin Yi ordered in a low voice, and with the help of his spirit, he began to guide the elemental Qi in the student's body. The student's breakthrough was almost complete, but with Lin Yi's help, it started a new change.

The elemental Qi started to refine the parts that it didn't reach before-meridians, bones, muscles, organs, etc. -They were all re-refined, and the parts that the student missed out on during the process were all refined to the extreme under Lin Yi's guidance.

Steward Qian looked at everything that had happened in front of him in horror. He couldn't believe his eyes!

The student had already broken through a small level, but under Lin Yi's guidance, his body moved slowly and mysteriously, stabilizing his level and breaking through again!

It was actually a continuous breakthrough!

It wasn't that there were no consecutive breakthroughs in body tempering, but they all required a huge amount of resources and a long period of continuous body tempering to be possible.

What the hell was going on now?

Without any resources, without any preparation, and with only a little time, there were actually consecutive breakthroughs?

Steward Qian pinched his thigh subconsciously. It hurt!

It was not a dream!

If Lin Yi wasn't so focused on guiding the students to break through, manager Qian would've pounced on him and asked him all sorts of questions!

Under Lin Yi's guidance, the student's elemental Qi didn't run out, but instead grew stronger!

With Lin Yi's physique training, it wasn't surprising that he could do this with just a few of his techniques.

Very quickly, this lucky student completed his second breakthrough!

Lin Yi stopped as well, pretending to be exhausted.

"Sima Yi, how did you manage to make him break through continuously? I've never heard of such a method before, it's too shocking!"

Manager Qian didn't have the time to ask Lin Yi, and threw out the question he'd been holding back for a long time before quickly adding, "Did you consume a lot of energy? Are you alright?"

"I'm fine! The consumption is indeed a Little Big!"

Lin Yi continued to pretend to be weak as he smiled and waved his hand, "This time is also special. The little guy has accumulated enough energy. His previous breakthrough was natural, and he still has enough Foundation that hasn't been exhausted."

"Without guidance, the foundation he had accumulated would slowly dissipate. At most, only 10 - 20% of it would be converted into his current strength. It's a pity, so I helped him."

"If it wasn't for his situation of accumulation, I actually wouldn't have been able to let him break through continuously. After all, under the premise of no resources to support it, he had to rely on his own Foundation to temper his body."

"As for my consumption, it's entirely because I'm guiding him to hone the parts he usually misses to increase the success rate of the breakthrough. The honing of these missing parts can make the breakthrough twice as effective with half the effort. Otherwise, he wouldn't be able to make a second breakthrough even if he followed the same routine."

Lin Yi was telling the truth for the most part, so even if he added a sentence or two of nonsense, manager Qian wouldn't suspect Lin Yi at all.

"So that's how it is! No matter what, brother Sima's ability was truly quite amazing! As long as you can become a teacher, you will definitely be the elite of the elite. Your future students will be blessed!"

Steward Qian sighed sincerely. The Alliance Institute's students were really lucky to have a teacher who could improve martial arts techniques and guide them in breaking through!

Chapter 8078

"Steward Qian, you're too kind. I was just lucky this time. It's not normal and doesn't have the function of copying, so it's not that great."

Lin Yi continued to keep a low profile-he couldn't let anyone know that he had the ability to help lower-level practitioners break through.

Otherwise, in the future, he would be overwhelmed with people who came to him to seek a breakthrough.

Manager Qian didn't care if this could be replicated or not-he'd seen Lin Yi's abilities with his own eyes. It did seem like he'd used a lot of energy, but breaking through two levels in a row was a real achievement!

So he was even more determined to get on Lin Yi's good side.

If there were any juniors in the future, it would be much better to send them to Lin Yi for guidance than to find spiritual herbs to strengthen their bodies.

Because of this, the way manager Qian addressed Lin Yi had changed.

"Brother Sima, you're too modest! "Let's not talk about other things. After two consecutive breakthroughs, he's still the first person to complete it. This is enough to explain the problem!"

Manager Qian laughed out loud and patted Lin Yi's shoulder. "I didn't finish explaining some of the rules just now. In the case of continuous breakthroughs, the assessment will double. Just now, I thought that such a situation would not happen. I didn't think that brother Sima would really do it!"

"Your student was the first to complete the breakthrough, so the first level is 16 points. The second breakthrough will double the base points of the first test, so it's 32 points. If I can break through one more time, I'll get an additional sixty-four points!"

She was just saying that the people at the back were closing the distance between them and Lin Yi, and now the gap was this big again.

Manager Qian's eyes swept across the other fifteen participants, and he couldn't help but shake his head. Compared to Lin Yi, these people were all salted fish!

Look at Sima Yi, he was clearly amazing all the way, but he always maintained a humble and low profile!

Unlike those salted fish, they didn't have much ability, but each of them was arrogant like they were worth 20000 Yuan!

"Steward Qian, how many more rounds are there in this assessment? With the points I've obtained, I should be able to enter the Alliance Academy, right?"

Lin Yi calculated that he had quite a lot of points on hand, about the same as the other four combined, maybe even more. If there weren't any more tests, he should be able to secure a spot for the Alliance School.

"With brother Sima's performance, it's definitely not a problem for you to enter the Alliance Academy. You're already leading by a lot. There are still two more rounds. As long as there are no accidents and things go smoothly, the first place in this assessment will definitely be yours."

Manager Qian smiled as he started chatting with Lin Yi before taking out the participants "information." "The sixth round is very simple. You don't need to do anything. Just look at your levels on the information ..."

At this point, steward Qian's voice came to an abrupt end. He looked at the information in his hand with wide eyes and a face full of disbelief, ""Brother Sima ... You ... You're only at the great circle of mountain-splitting?"

Manager Qian never paid attention to Lin Yi's physique level, or rather, he didn't pay attention to everyone's physique level, including Lin Yi.

Under normal circumstances, the minimum requirement to participate in the Academy's teacher assessment was the earth-splitting stage.

There were also cultivators at the sea splitting stage, but not as many as those at the earth splitting stage. As for those at the mountain opening stage ... It wasn't that there were none, but they were really rare!

And without exception, all those who participated in the assessment with the strength of the mountain-opening stage had failed!

Moreover, this was only for ordinary Academies. If it was an Alliance Academy, they would have to start at the sea splitting stage!

"So what if you're at the consummate level of mountain-splitting? I can't participate in the teacher's assessment?"

Lin Yi didn't know the rules of the sixth round.

"It's not that we can't participate, but we'll be at a disadvantage ..."

Manager Qian felt that it was a pity. If Lin Yi was a little stronger, even if he was only in the early stage of earth creation, it would be much better,

"The sixth round will be converted into assessment points based on the level of the body refinement. For the mountain opening stage, the starting point is 30 points, and every small level will increase the points by five. You are at the consummate level of the mountain opening stage, so you will get 60 points."

"As for the earth-splitting stage, it starts from 100 points. Each small level increases 10 points. The early stage of earth-splitting is 100 points, the peak of the early stage is 110 points, and so on!"

"I've taken a look. The weakest of your four competitors is at the late stage of earth creation, which is at least 140 points. They haven't finished the fifth round yet, so their assessment points haven't been calculated yet. However, the difference in points in the sixth round is enough to wipe out your advantage in points!"

"If you could be a little stronger and enter the initial stage of the earth splitting realm from the consummate level of the mountain splitting realm, you should be able to enter the top three among the five even if they complete the fifth round. But now ... I'm afraid you'll be at the bottom of the five!"

After a slight pause, he looked at the person who had come to find trouble earlier and was currently at the bottom of the five. "Maybe you'll be ranked fourth. That guy's guidance will most likely fail. If you can't get this round's points, you should be higher than him."

However, that was not the case. The fourth and fifth place were just the pot calling the kettle black. They were all people who would be eliminated, and no one was stronger than the other.

Manager Qian explained to Lin Yi the rules of the sixth round, feeling very sorry for him.

With Lin Yi's talent, it would be a waste if he didn't become a mentor, but rules were rules-he couldn't do anything!

After all, not just anyone could become a teacher. Strength was a very important factor in evaluation. There were many prodigies in the Academy who had reached the mountain opening stage at a young age. It was not rare for super geniuses to enter the Earth opening stage!

If a teacher's strength was inferior to a student's, it would be a little unreasonable!

"So that's how it is. The sixth round directly uses the body refinement level to convert assessment points?"

Lin Yi rubbed his chin, speechless. He should've asked the language of manifestations to help him gather the resources he needed when he arrived at the branch.

Because he didn't want to owe anyone a favor, and also felt that the body of a consummate level mountain split was enough, he had delayed it for a while. In the end, retribution had come!

In this world, not everyone could fight above their level. People's judgment standards still maintained the recognition of who was higher in level and who was more powerful.

No matter how strong Lin Yi was, he couldn't say anything now. He could only hope for a comeback in the last round.

"Steward Qian, what's the test for the seventh round? Do I still have a chance to turn the tables?"

"If it's the seventh round ... Theoretically, there's a chance to turn the situation around. But if your strength is really only at this level, the seventh round might not be suitable for you to perform!"

Steward Qian tried to speak in a tactful tone, ""Finally, it's a real combat test. There's no fancy tricks, so ..."

Chapter 8079

"I understand. Thank you, steward Qian!"

Lin Yi's heart calmed down-combat power was no problem!

There's still a chance to turn the tables, it's settled!

The time for the fifth round was up, and most of the students had successfully broken through. Only three of them had failed, and one of them was the fifth person from the Alliance Academy.

The next step was to convert one's physical strength into assessment points. It was very simple. After showing a little bit of the body refinement level and confirming that there was no mistake, the points were completed.

Lin Yi was just as manager Qian said-he was ranked fourth out of the five from the Alliance College, a little stronger than the last unlucky guy, but still a bit off from the third place.

If they wanted to successfully enter the Alliance Academy, the current situation was extremely dangerous. The top three didn't expect such a reversal!

"Hahaha, it seems like the three of us will be the only ones to enter the Alliance Academy. We should visit each other more often in the future. Since we entered the Academy at the same time, we should naturally be companions!"

The one who ranked first had already claimed to be the leader of the three-man Group. "In the Academy, if we're alone, we won't be able to get many resources. If the three of us work together, the situation will be completely different!"

"I originally thought that Sima Yi would be a formidable opponent, but in the end, he's just a weakling at the consummate level of the mountain-opening realm. What a joke! What a waste of my vigilance against him!"

If Lin Yi was first, he wouldn't be the leader of the three, and so he didn't want to form a group-he didn't want to be Lin Yi's follower.

Now that the situation had reversed, the fourth place that was supposed to be eliminated had entered the top three. He had successfully reached the top, and his mind was immediately active!

"Definitely, definitely! We're all in the same batch, so it's definitely good to move around more. We'll have a bigger momentum and won't be bullied!"

The guy in third place had been hit by a meat pie that fell from the sky. He was still inexplicably excited and didn't have any objections to the Alliance. Being able to enter the Alliance Academy was an unexpected joy!

"Alright, next is the final round of assessment!"

Steward Qian didn't want to let them continue chatting, so he interrupted them rudely and said, ""Finally, we'll be testing your actual combat strength as instructors. You must not let your guard down!"

"An instructor, in addition to teaching students, must also have the ability to lead the team to carry out missions! Commanding in battle, protecting the students, and so on were all very important assessment indicators! "No matter how strong a mentor is, if he's too weak in this aspect, he'll be sending his students to their deaths. It's better not to have a mentor like you!"

"In order to save time today, our assessment will be simple. We won't really go to dangerous places to lead the team to do missions. The assessment venue has already been set up here. You can go in later!"

Steward Qian said this in one breath and paused for a moment. ""In the assessment area, the captured darkness magical beasts will be released, and you will lead a team to go in and hunt them. The time used, the number of beasts hunted, the casualties of the personnel, and so on will all be counted into the assessment score."

"The team members you will be bringing will be mountain-opening battle generals that were temporarily transferred from the naduo illusion martial Alliance branch battle Association. Although they are very experienced, they will not provide you with any help or suggestions. They will only act as students and listen to your commands!"

"Each of you can choose three battle generals to form a small team. The battle generals are of similar levels, but their strength will definitely be higher and lower. Some are suitable for team battles and some are not. This will all depend on your own judgment!"

After saying that, steward Qian raised his arms and clapped his hands. A team of battle generals from the naduo illusion martial Union's combat Association ran over quickly from a distance.

After all, these people who were taking part in the assessment were not true instructors yet. Their individual ability to command the battle was still unknown. Martial League could not possibly let real students cooperate with them in battle.

It would be a pity if something happened to the students.

That was why they had sent the generals to disguise themselves as students to reduce the number of casualties.

Taking advantage of the fact that the battle generals had not arrived, some people had already begun to whisper.

Many people looked at Lin Yi with pity and gloating in their eyes.

"That Sima Yi is done for. His previous performance was amazing, but it's a pity that he's too weak. What's the use of all his other fancy abilities? A person at the consummate level of the mountain-opening realm actually wants to enter the Alliance Academy!"

"Isn't that so! No one had ever been accepted during the mountain-opening assessment. Didn't he have any idea of the situation? I really don't know what he's thinking!"

"I'm willful and don't care! So what if I'm just here to see the world?"

"Hahaha, that's right, that's right. See the world and broaden your horizons, and then you can go home! Actually, he doesn't even need to participate in the last round. He definitely doesn't have a chance ..."

"Do you think there will be a battle general willing to follow him? These are all battle generals at the beginning of their cultivation. They probably won't be willing to follow a teacher at the beginning of their cultivation, right?"

"That's right. Only a fool would follow him. Following him is equivalent to courting death!"

.....

Lin Yi heard all the discussions, but he didn't care at all.

A bunch of idiots, they had no idea who they were talking about!

Hunting Dark Demon beasts-Lin Yi wanted to laugh out loud when he heard the mission.

When it came to killing dark beasts, Lin Yi was sure that he had killed more dark beasts than all of them combined!

Don't be unconvinced!

Do you know about the sun-swallowing rat tide?

Understand the corpse demon bee swarm?

Have you seen a group of devil-eating flowers?

Don't even talk about killing, you guys have seen that scene, so consider it my loss!

"Eh, if it isn't Vice President Sima! So you're here to take part in the mentor's test too!"

At this time, the battle general was already in front of them. The leader saw Lin Yi and immediately smiled in surprise and ran over to greet him enthusiastically, "Vice President, we met at the combat Association last time. You're going to pick people to form a team, right? I'll be one!"

Lin Yi blinked. He didn't remember anything!

How could so many people from the combat Association remember the last meet-and-greet?

Lin Yi didn't even notice it!

Other than Zhang Butong, Wang sanbing, and a few others, the rest of them were all random people who looked the same to Lin Yi ...

"Oh ... I've seen him before, then ..."

Lin Yi didn't say that he didn't know them-they came all the way here to pick three, after all.

Therefore, he was ready to accept the other party as his first team member after giving a perfunctory reply.

He didn't expect a group of people to surround him from behind. "Vice President Sima, we've met before ..."

"At that time, I was only three meters away from you, Vice President Sima ... We're fated!"

Lin Yi's face darkened-what was this?

Chapter 8080

You want to say I'm your husband?

Get lost, alright? Look at my mouth and follow me to get lost!

Everyone, including steward Qian, was dumbfounded again. They didn't understand what was going on!

Were the nado illusion martial league's battle generals crazy?

All of them were actually crying and shouting that they wanted to form a team with Sima Yi, what the hell was this?

"What's going on? They're called Vice President Sima Yi. Is he a Vice President?"

Some people started to have doubts, and then some people asked steward Qian.

After asking around, they found out that Lin Yi was the honorary Vice President of the naduo illusion martial union branch combat Association!

After the news spread, everyone suddenly came to a realization. So this was what happened. This kid's status was not low!

However, he was only an honorary Vice President of the combat Association. He did not have any real power. Was there a need for those battle generals to be so polite?

Could it be that this Sima Yi was someone with a strong background? that's why he was able to obtain the title of honorary Vice President with his strength at the beginning stage of the mountain opening stage?

And then, it was because of their background that these people fawned over them?

After all, these exam candidates usually didn't pay much attention to martial league's major events, focusing on their closed-door training.

Most of them didn't hold any posts in the martial League, and before they became teachers in the Academy, they didn't need to listen to the martial League order's summons.

So, it was normal for her to not know Lin Yi.

"Steward Qian, we can't go on like this! Sima Yi's assessment results were not high, so why did he have the priority to choose the battle generals? We should be the first to choose, right?"

Some people were unconvinced and went to find steward Qian to reason with him.

Steward Qian glanced at the other party with his dead fish eyes, sending a message: Which eye of yours saw Sima Yi choose a battle general? It was clearly those battle generals who were recommending themselves, okay?

"That's right! Steward Qian, shouldn't you do something about it? What right did he have! We should be choosing our battle generals first!"

"Sure, you guys pick! We'll choose according to the order of the total score!"

It wasn't a big deal, so steward Qian didn't care. He waved his hand and asked them to pick people.

"It's you, and you, you!"

The current first didn't say anything and pulled out the three battle generals closest to Lin Yi.

To be able to squeeze through a large group of people, their strength was not ordinary. So he decisively chose these three battle generals.

He didn't expect the three battle generals to be so unhappy and directly refuse. "I'm sorry, but I want to team up with Vice President Sima. You can choose another one!"

"Me too, you pick another one!"

"Right, you should just pick three more! Don't count us in!"

The top scorer, who had thought that he was quite clever, was instantly petrified. This was a rejection?

No, did you guys get something wrong? You're here to cooperate with the instructor's assessment!

"Don't look at me, I'm not fated to be with you!"

Those who weren't selected already couldn't wait to express their rejection, almost angering the top Ranker to death!

I'm first place! First place!

Is it embarrassing to team up with me?

What was so good about following that Sima Yi? If a weakling at the consummate level of the mountain opening realm led a team into the actual combat test, he might just die inside!

Did water enter the brains of these foolish battle generals? Wasn't it good to be alive? why did he have to court death?

Even if Sima Yi was the honorary Vice President of the combat Association, there was no need to risk his life to please him, right? I asked you to form a team, so you should have gone down the stage!

Manager Qian didn't expect something like this to happen. He didn't understand why all the battle generals of the combat Association were fighting to form a team with Lin Yi!

However, he was very clear that if this continued, everyone would stop playing.

"Forget it, brother Sima, you can choose three first! After you're done, let the others choose!"

This was the real deal-Lin Yi didn't have a spot anymore, and they couldn't just stay here, could they?

As soon as he finished speaking, the battle generals spontaneously got into position. They were actually preparing to have internal discussions to decide who should get the three spots to follow Lin Yi!

Steward Qian looked at the sky speechlessly. He wondered if it would be too late to return these generals and Exchange them for a new batch.

Lin Yi's forehead was full of black lines!

Why was it so difficult to keep a low profile?

How can I keep a low profile when you guys are making such a big scene?

Lin Yi saw that the seventh test was going to turn into a mess if he didn't do anything about it, so he stepped forward. "You three, team up with me!"

He didn't know them anyway, so he just randomly picked three that were closer to him.

The chosen ones were overjoyed-they quickly surrounded Lin Yi, declaring their ownership, in case anyone else tried to steal it.

The battle generals that had not been chosen all felt as if they had lost their parents and were extremely dejected!

Steward Qian and the others really couldn't understand what was going on.

It's just a temporary team for the assessment. Do you have to put on such a dead face?

Other than the battle generals, only Lin Yi understood why they were like this.

After all was said and done, Zhang Butong and the others were the best role models!

At that time, no one in the combat Association was willing to learn battle formations from Lin Yi, and only Zhang Butong and the other nine were willing to take the risk.

In the end, it had only been a few days?

The nine cowards who could no longer survive had suddenly become the combat Association's combat formation instructors. They had even obtained a lot of martial league points.

With such a great benefit, the battle generals that did not grasp the opportunity were filled with regret!

Who would have thought that things would take a turn for the better? this time, he was here to cooperate with the assessment mentor's mission, and he actually met Vice President Sima Yi again. How could he miss this opportunity?

After Lin Yi decided on the team members, the rest was easy. The other battle generals were all disheartened and didn't care who they wanted.

In their eyes, other than Lin Yi, everyone else was just background.

This kind of attitude made the other 15 participants almost explode on the spot. It was too infuriating!

The most infuriating thing was that they had no choice. No matter how unhappy they were, they could only pinch their noses and choose the team members.

It couldn't be helped. The final assessment was to simulate instructors leading the students to complete missions. Without students, there was only an instructor. What was the point of simulating?

It's not like this is a test of your personal combat strength!

"Alright, everyone has formed their teams. Now, let's start the final assessment! Enter the formation according to your ranking!"

Steward Qian didn't want to waste his time talking nonsense. He directly let the team that was temporarily ranked first enter the arranged array space.

No one could see what was going on inside the array from the outside, so they could only listen carefully to steward Qian's introduction. "Inside the array, the experts of the martial League have captured the darkness magical beasts from the nodes in the Forest of Illusions and the Devil's Den. Moreover, they are all in the sea split stage!"

"As for the mission of the simulation assessment, we'll have to hunt a sea Rift stage dark magical beast in small teams! "However, don't even think about cheating. There are also experts from martial League supervising the process internally, so you'll have to work in a team to catch them."

Steward Qian's words made everyone's expression turn serious.
