

## Bodyguard 8081

### Chapter 8081 The Power Of The Devil

This was because among the people who came to take part in the instructor assessment, there were several sea splitting stage Warriors.

These people didn't even need a battle general to follow them. They could do this alone. That was why steward Qian had such a rule and sent someone to supervise them.

Of course, other than supervision, it was also a protective measure in case the small team that entered was no match for the darkness magical beasts.

It would be a joke if they were hunted instead of hunting!

After all, the combat Association's battle generals were non-renewable resources. The death of one would mean one less.

Even if these candidates were all at the sea Rift stage, many of them had not really experienced a life-and-death battle, after all. It was still uncertain whether they could command the troops properly.

If he made a wrong command, he would end up scamming the battle generals.

"Three battle generals, don't worry. If you follow me to complete the mission, there will be no mistakes!"

Before entering, the guy who was temporarily ranked first said to the three battle generals of the team with a victorious attitude, ""If you follow that honorary vice guild leader of yours, not only will you not be able to complete the mission, but you will also have a high chance of getting injured!"

"Although you won't die, he won't be able to protect you if you encounter danger. Following me is different! As the team leader, I will definitely protect you all! I guarantee that you will be able to complete the mission safely!"

The three people he had chosen all seemed to be a little dispirited. One of them waved his hand indifferently. "I know, I know! My Lord, you are very powerful. Please start the mission quickly!"

The meaning was very clear. Stop talking here and go in to finish your work. Everyone is busy, so don't waste time!

If it weren't for the fact that they were experts of the sea splitting stage, these three battle generals probably wouldn't even be willing to give a perfunctory attitude.

With the martial league's combat Association as their backing, these combat generals really didn't take ordinary unaffiliated sea split stage martial artists seriously.

Even though the status of the Academy's teachers is very high, but aren't you still not one now!

Sigh, it wasn't easy to get a chance to follow Sima Yi, but he F \* cking missed it again!

The three battle generals felt depressed. Their attitude also made the expert at the sea splitting stage depressed.

"Let's begin! Time waits for no man!"

Steward Qian couldn't stand it anymore and urged him, which was also a way out for the stuffy assistant.

Without saying anything else, the group of four silently entered the assessment array. After about twenty minutes, the array barrier fluctuated and the four of them walked out together.

The one at the sea Rift realm looked fine, but his expression was a little ugly. The three generals, on the other hand, were in a very sorry state. They were more or less injured.

Although it wasn't serious, the assessment rating would obviously be reduced.

"Hey, is it because that guy is petty and wants to take revenge on you guys, so he didn't help you during the battle?"

A battle general he was familiar with directly asked such a heart-wrenching question, which made the sea splitting stage warrior who was taking the assessment so angry that his face turned ashen!

Revenge, my ass!

It was the last round of assessment, who would lower their evaluation for such a small matter?

Let's not talk about the possibility of losing the chance to enter the academy if he did this on purpose. Even if he lost the first place in the assessment, it would be very embarrassing, okay?

One had to know that if they could maintain their first place, it would also increase their confidence when they entered the Academy!

Even if he really wanted to kill these battle generals to vent his anger, he wouldn't choose the test. That would be completely setting him up!

"Manager Qian, we have successfully captured the darkness demon beast. This is the evaluation token given by the Lord inside!"

The sea split realm warrior who was ranked first for the time being had an ugly expression. He barely suppressed the anger in his heart and handed a token to steward Qian.

As for the three battle generals that had formed a team with him, he didn't want to have any more dealings with them.

But the three battle generals that he did not want to deal with started to discuss him without restraint. "Don't mention it. I'm not sure if he'll help us, but he doesn't know anything about battle formation command. He's just using us as meat shields and bait to attract the attention of that sea Rift stage Dark Demon beast!"

"If it wasn't for the tacit cooperation between us three brothers and the supervision of the secret protection, we would have been dead long ago! This level of command is not even one-tenth of instructor Zhang Butong's, much less the person who trained them!"

"That's right. With this kind of standard, even if he became an instructor, he would only be leading the students astray. If he led a team to do a mission, he would probably only put the students in danger. How can he be compared to the Lord who trained instructor Zhang and the others? I heard that the Lord always took the lead in every battle, always charging at the forefront of the formation!"

Their words attracted a wave of agreement, but everyone was smart enough not to say who the master was. They knew that Lin Yi would understand if he heard it.

If he said it too bluntly, the effect might not be good. This kind of subtle flattery could make people happy physically and mentally.

Lin Yi only smiled and didn't say anything. He was being very low-key, so he'd just pretend he didn't understand ...

If it was Fei daqiang, he would probably jump out and admit it directly!

At this time, the second group had already entered the array and began the assessment. With the previous example, the participant didn't say any more words to boost morale. It was completely meaningless!

Just go in and do it directly!

At the same time, in the same state, the score they got after coming out was not much different from the first place. It seemed that the strength of these two people was indeed quite close.

The following tests were all within half an hour. There were some who were proud and some who were disappointed.

But the battle generals that followed were all in a sorry state.

Everyone's clothes were torn and tattered, and their bodies were covered in wounds of varying severity.

Although they had succeeded in their mission, none of them came out unscathed.

When Lin Yi was about to go in, the last of the five couldn't help but mock him, ""Are the three of you ready to accept the threat of death?"

"The combat generals who followed the experts of the sea splitting stage and the earth splitting stage all came out with injuries. If you follow this trash of the mountain opening stage, don't get killed before the martial Alliance's supervisor can come to your rescue!"

"Bah! Who are you calling a sect-opening trash?"

Before the battle generals on Lin Yi's side could get angry, the battle generals on the side all rioted!

Don't look at how they were all filled with righteous indignation and anger. In fact, they were all secretly happy in their hearts. They were worried that they wouldn't have a chance to express their goodwill, and this group of fools had given them an opportunity!

Regardless of whether he could make Vice President Sima happy or not, it was always good to come out and get familiar with him!

So these battle generals had a tacit understanding and gathered around to ask for an explanation!

The face of the sea split realm cultivator at the bottom of the list turned green.

In other places, a cultivator at the bottom of the sea splitting stage wouldn't care at all when facing these mountain opening stage battle generals.

Chapter 8082

But what was this place? This was martial league's territory!

If they dared to fight a battle general from martial League, they would probably be disqualified from the assessment!

Moreover, it was also because of his cheap mouth that he had instantly angered the masses. He had said that mountain opening stage cultivators were trash in front of a group of mountain opening stage battle generals. He had already given them face by not using a knife on the spot.

Even now, he still thought that this was the only reason these battle generals were angry.

"Alright, alright, stop fooling around. The assessment will continue!"

Pressing down with both hands, steward Qian came forward to strangle this matter in its budding stage.

If they really did ... Well, it didn't seem to be a big deal ...

Lin Yi didn't care about the loser's challenge and walked into the formation with the three generals.

Then, in less than ten seconds, he brought them out again.

"Hahahaha, so that's how it is. You went in to put on an act, and when you realized something was wrong, you immediately gave up, right?"

The bottom-ranked lie hai, who had just escaped from the crisis of being besieged by battle generals, could not help but start to test the waters on the edge of courting death. "That's right. For a trash like you, giving up is the wisest choice ..."

Before he could finish his sentence, he felt dozens of unfriendly gazes around him ... So familiar ...

He was so scared that he quickly shut up.

"There's no mistake! This kid was also considered smart and knew when to give up. At least, he wouldn't lose too badly! Although I won't die, it'll be too embarrassing to be thrown out like a dead dog by the Lord inside!"

"I've already seen it. What else can this kind of person do other than give up? Fighting head-on with a sea Rift stage darkness demon beast? Don't joke around!"

"Aha! I understand now! No wonder those battle generals were fighting to form a team with him. They had seen through everything and knew that this kid was a coward who would immediately surrender once he entered! There's no danger at all if we follow him!"

"Yes, yes, yes! You've hit the nail on the head! I was wondering how a kid at the beginning of his mountain could make those battle generals rush to follow him. So that was the reason! "I didn't expect the battle Association's battle general to also ..."

Sensing the unfriendly gazes directed at him, the person who spoke decisively followed the voice in his heart and quickly shut his mouth, putting on an expression of nonchalance.

The others didn't say anything else. After all, it wasn't a good thing to offend the martial Union combat Association. However, this didn't stop them from mocking Lin Yi. They also looked down on the generals.

Lin Yi didn't seem to hear the discussions around him as he walked over to the Qian and handed him a pass. "You've passed the test. This is the token. Steward Qian, please check it!"

Manager Qian was shocked-he thought that Lin Yi had given up!

However, as far as he was concerned, a genius like Lin Yi had endless potential. It was no big deal to give up this time!

As long as Lin Yi broke through to the earth-opening stage next time, it would be a piece of cake for him to take the exam and become a teacher.

If he reported Lin Yi's ability to modify martial arts and guide students, the Alliance Institute might even make an exception and accept him.

Giving up on the final test didn't mean that manager Qian would look down on Lin Yi, but he didn't expect Lin Yi to say that he passed the test.

What had happened?

It's only been ten seconds, right? He had captured a sea Rift stage darkness magical beast just like that?

Could it be that the experts of the sea splitting stage inside had helped him? Or could it be that the darkness magical beast had fallen asleep and had been captured?

"Hehe, a bunch of ignorant rats! How could you possibly understand Vice President Sima's ability to command a battle formation? When we followed the Vice President, we didn't even need to go all out. We easily dealt with that sea Rift stage darkness demon beast!"

The three generals that followed Lin Yi couldn't help but praise him.

They didn't really understand what happened either. After entering the formation, Lin Yi only directed them to attack according to the instructions, and in the blink of an eye, they took down the dark Demon beasts who didn't understand what happened either.

At that time, the three generals and the darkness magical beast were equally dumbfounded ... Both sides felt like they had been F \* cked ...

A dignified sea splitting stage Dark Demon beast was killed by three mountain split stage humans?

The three humans and one beast stared at each other. The fruit on the tree of confusion, you and I under the tree of confusion ...

However, this didn't stop them from flattering Lin Yi after they came out. At the same time, they were once again sure that Vice President Sima was a shining golden leg!

No matter what, he had to seize the opportunity to hug her thigh tightly!

Steward Qian confirmed that the token was real, but he still couldn't believe it.

A perfect capture! The highest level of assessment points!

In fact, Lin Yi's strength was only in the mountain opening stage, so there were extra points for this test!

What a genius!

Next, it was the waiter at the bottom. Because he had just offended the battle generals, the three he had chosen all said they had stomachs pain and wanted to go to the toilet. Then, they left and never returned ...

The others had already gone in, and no one was willing to go in again. In the end, he could not find the team's leader. It was useless to go in alone to test leadership skills ...

As a result, the Alliance Academy's five students were at the bottom, but it became a total of 16 students at the bottom!

The seventh round ended, and Lin Yi once again surpassed everyone with an astonishing result, becoming first in the total score and successfully getting a place in the Alliance College!

"Congratulations, teacher Sima, for successfully entering the Alliance Academy!"

Manager Qian congratulated Lin Yi politely.

Although he had entered the Academy, he was still the honorary Vice President of the martial Union's combat Association branch. He might even enter the continental martial Union in the future and take up some powerful positions.

Therefore, steward Qian was very willing to come in advance to make a good relationship. Anyway, it didn't cost money!

"I have to thank steward Qian for your care!"

Lin Yi maintained his smile and exchanged a few words with manager Qian before taking the documents. "This is ... The admission document?"

"That's right. Teacher Sima's personal information has already been filled in. Take this and report to the Alliance Academy three days later."

Steward Qian nodded and pointed to the other two people who were going to the Alliance Academy. ""The two over there are your classmates, teacher Sima. You can go to the academy together to report."

He wanted Lin Yi to have more contact with the other two.

After all, teachers from the same batch would naturally feel closer to each other in the Academy, and everyone could help each other.

Of course, he would go back and remind the two of them.

Lin Yi said a few more words of small talk to the manager before leaving for the branch.

Before he entered, he saw Fei daqiang wandering around the branch entrance.

"Argh! Mr. Sima, you're back! I heard that today is the day of the Alliance Academy's examination? How is it, when are you going to report?"

Fei daqiang saw Lin Yi and ran over. He didn't even ask if it went smoothly, he just asked when he was going.

## Chapter 8083

With such a powerful person taking action, how could he be stumped by a mere assessment? If he couldn't even take down someone's thigh, who else on this sub-Island had the qualifications to enter the academy to be a teacher?

"Ha ... I just came back from the assessment. I'll report in three days."

"How's it going on your end?" Lin Yi smiled.

"I've found a house. It's right next to the Alliance Institute. The place isn't bad, and it's being renovated. It'll be done in a few days."

"Mr. Sima, you'll definitely like that place. Why don't we go and take a look now?" Fei daqiang said as if he was presenting a treasure.

"Now? Hmm ... Let's wait for a while. I'm going to meet vice Hall Master Hua and inform him of the news of me entering the Alliance Academy. "

Lin Yi was here to look for the language of monsters, but he remembered something after seeing Fei daqiang, ""I'm going to be a teacher at the Alliance Academy. You probably won't be able to get in. In a while, I'll get vice Hall Master Hua to arrange an identity in the martial Alliance for you."

"When I'm free, I'll do some missions to train myself and earn some resources. The resources on the sub Island are different from what we used to have. You have to work harder. "

Fei daqiang immediately nodded,"understood!" Don't worry, Mr. Sima, I'll definitely do my job well ... Actually, if I can be with Mr. Sima, that would be the best choice!"

As a veteran leg hair, he had to hug onto someone's thigh tightly at all times. It was a pity that he didn't have the ability to enter the Alliance Academy as a teacher. As for being a student, he didn't seem to have the qualifications either.

Following Lin Yi's arrangements and doing some odd jobs in the martial League, doing some small missions and training for a bit, and then taking care of the house next to the school-that was the best arrangement.

"We'll see how things go in the future. If there's a way to get you into the Academy, I'll definitely help you get in. For now, you can train in the martial Alliance branch. "

Lin Yi's decision was followed by daqiang. The two walked into the martial Union's branch as they talked, heading straight to the language of monsters 'office.

"Brother Sima, congratulations on successfully entering the Alliance Academy!"

The transformation language had received the news already, so it stood up and congratulated Lin Yi as soon as it saw him. "I'm not surprised that you can get in. What's surprising is that your results are too good. You're first in the total score and first in several sub-assessments. Amazing!"

"Hehe ... I was just lucky! It's no big deal, vice Hall Master Hua, you've overpraised me!"

Lin Yi waved his hand humbly. Since they already knew that he passed the test, he didn't have much to say. He just told them about Fei daqiang's arrangements.

Of course, the monster language would not refuse such a small request.

"No problem! It's just a small matter!"

The artifact language patted its chest and promised. It looked at Fei daqiang and suddenly asked, ""This brother Fei daqiang, have you studied the Dao of battle formations?"

"I can't say that I've studied it, but I've learned it from my master for a while! It's my fortune to be by Mister's side!"

Fei daqiang's speech was now genteel, but his ability to flatter his thigh had not decreased in the slightest. "Anyone who is influenced by teacher can learn a little, not to mention I am someone who has received teacher's personal guidance!"

"I can't say that I'm proficient, but I'm still a bit stronger than the average person! Did vice Hall leader Hua also study battle formations? Can you give me some pointers another day?"

He was humble at the start, but he became extremely proud towards the end, but this pride was built on Lin Yi's guidance. He was completely emphasizing Lin Yi's brilliance, so the artifact language nodded in agreement!

"So it's someone that brother Sima personally taught! Then his attainments in battle formations must be very high!"

Transformation language was overjoyed. If they couldn't keep Lin Yi, then keeping Fei daqiang wasn't a bad idea!

Just look at Zhang Butong and the others-they'd only been with Lin Yi for a couple of days, and they'd already improved so much that they weren't weak in the field of formations anymore.

Now that Fei daqiang was here, he would definitely be much stronger than Zhang Butong and the others!

"How about this? brother Fei daqiang, you'll first deign to be a managing instructor in the martial union branch's combat Association and be in charge of training a team of combat generals."

The artifact language simply threw out an olive branch, ready to make an exception and promote Fei daqiang. ""For now, you can wear the badge of two silver swords. I'll continue to upgrade you when your merit points increase."

Two silver swords badges were already considered middle-level cadres in the martial Alliance branch. Fei daqiang was promoted without any Foundation. If he didn't have some real ability, even the language of monsters might not be able to suppress the discussions below.

He also believed that Lin Yi's men would have some real stuff. If Fei daqiang was half as good as Lin Yi, he would even give him three silver rank sword badges.

"Thank you, vice Hall leader Hua. I'll definitely do my best. I won't let you down!"

Fei daqiang expressed his gratitude, but in his heart, he thought that it was his boss who had done it. It had nothing to do with the language of the living things.

"Vice Hall Master Hua, I won't disturb you any longer. I'll bring Fei da Qiang to the combat Association to get his bearings. After that, we'll return to our residence near the Alliance Academy to tidy up. When the time comes, we'll report to the Academy!"

Lin Yi stood up and said goodbye, and the transformation language didn't force him to stay.

Lin Yi brought Fei daqiang around the combat Association and introduced him to Zhang Butong and the others. These nine people all had a certain status now, and Lin Yi felt a sense of closeness when he heard that Fei daqiang was one of Lin Yi's people.

In addition to Fei daqiang's familiar nature, they soon became brothers.

Lin Yi and Fei daqiang only left the martial union branch when it was dark, and they rushed back to the yard that Fei daqiang had bought.

The yard wasn't a luxurious one, but it took up a lot of space. The original decoration wasn't bad, but Fei daqiang had a lot of money on him. In order to highlight Lin Yi's noble status, he had to find someone to renovate it.

"How did you get such a big house?"

Lin Yi blinked.

It was even bigger than Chu Mengyao's Villa in the secular world!

This was almost the same as a garden with a front yard and a back yard. There was no need for two people to live in such a big space.

Was this Fei daqiang planning to settle down here?

And then Lin Yi would bring all his female friends back and live here?

"The houses here are cheap. They don't cost much, so I got a big one!"

Fei daqiang rubbed his hands and said carefully, ""Sir, you don't like big houses?"

"I like it ... But it's a little too big!"

Lin Yi sighed and accepted it, "It's a little troublesome to clean this place!"

"We have money, let's hire someone to clean it!"

Fei daqiang didn't think much of it. "Besides, Sir is now a teacher at the Alliance Academy. When the time comes, let the students clean up!"

"Alright, hurry up and stop!"

Speechless, Lin Yi waved his hand and warned, "I'm telling you, you better keep a low profile! In the future, you'll be like my Butler to the outside world. If you're so good at putting on airs, people who don't know you might think that I'm the one who can put on airs!"

Chapter 8084

"Don't worry, don't worry!"

When Fei daqiang heard that he had become a butler, he was extremely excited. This was the rhythm of not abandoning him in the future!

"In addition, the consciousness of these battle generals is not good enough. Pay attention to nurturing them!"

"No matter where we are, the dark Demon beasts are our common enemy!" Lin Yi said. The more skills these war generals have, the more darkness magical beasts they can kill!"

Fei daqiang nodded and noted them down.

After a long day, Lin Yi found a room to rest.

This wasn't the secular world, and the decoration materials were all natural. There were no chemicals or formaldehyde, so they could live here directly.

After two days, Lin Yi told Fei daqiang to keep it low-key and stop the useless ones.

In a blink of an eye, it was the day to report to the Union College. Lin Yi decided to go alone and let Fei daqiang report to the martial union branch's combat Association.

This guy was full of energy. He didn't have time to care about him these few days, so letting him go to martial League would save him some trouble.

The Alliance Academy!

It was located on the west side of the imperial capital and covered an area of ten million square meters, comparable to the Super universities in the secular world.

As the name suggested, the so-called establishment of the Alliance was a Martial Arts Academy funded and managed by the martial Alliance.

The full name of this Academy was naduo illusion Alliance Academy. Just like the naduo illusion martial Alliance branch, it was directly managed by the continental martial Alliance.

In other branches, there were also Alliance Academies, but they had different names.

However, no matter where it was, the Alliance Academy was one of the strongest Academies.

Lin Yi couldn't help but sigh as he stood in front of the school's entrance, touched by the majestic building.

In comparison, the previous sword spring sect was like the scale of a canteen for an Alliance Academy.

"Eh?"

"Naduo Academy?" Lin Yi blinked at the ancient words.

That was because the person who had written the inscription was na duo!

This was the name of a Starlight wizard.

Other people might not understand what he meant, but Lin Yi knew it perfectly well.

"How is it? these are the words I wrote back then. I didn't expect that they would still be here!"

The Starlight Magus 'smug voice came from the Jade space.

"F \* ck you, what are you trying to show off for? are you looking for death?"

The nine neonate gave a flying kick and kicked the Starlight shaman's head." "What's the big deal? In the ancient times, when I lived in peace with the darkness demon beasts, I even wrote for the palace of the darkness demon beasts!"

"Ahem, little Jiu, don't you think you're talking too much?"

A faint voice was heard. It was the ghostly thing.

"Uh ... I'm fine now."

The nine neonate quickly shut up.

Lin Yi raised a brow. Did the spirit beast clan and the dark Demon beast clan co-exist in peace in ancient times?

Then, what was the reason that caused the two to break up?

It was no wonder that these things understood the darkness magical beasts so well. It turned out that they had such a history!

Now that he thought about it, as an elder of the spirit beast clan, that damned thing would definitely have access to the core historical records of the spirit beast clan. It wouldn't be surprising if there were records of the darkness demon beast in it.

However, the ghost didn't seem to be willing to mention it.

He was very secretive about the darkness demon beast, and he interrupted the jiuqing when it mentioned it.

Since the thing didn't want to talk, Lin Yi didn't ask.

After all, Lin Yi believed that the thing wouldn't harm him. There must be a reason why it didn't tell him.

There were no spirit beasts on the sub-Island, only dark spirit beasts ...

Could it be that this darkness spirit beast was evolved from the spirit beast clan?

All of this was an unsolved mystery.

Suddenly, Lin Yi felt that his enemy wasn't just the center, but the dark Demon beasts as well!

If their defense wasn't good enough, the darkness demon beast would definitely be a great disaster for human cultivators and Warriors!

Once the darkness demon beasts completely erupted, the heaven rank islands, sub islands, the ancient martial world, and even the mortal world would not be able to escape.

"Na duo, does this mean that this Academy has a long history?"

Lin Yi asked, pulling back his thoughts.

"That's right. This Academy was built by the Sorcerer tribe and human warriors when they were on good terms. They asked me to write an inscription, so they named it after me!"

The Starlight shaman didn't dare to act cool anymore and said truthfully.

Lin Yi nodded. There were a lot of universities in the common world with a long history.

"Hello, I'm the new teacher. May I know where I should report?"

After entering the school, Lin Yi cupped his fists to one of the guards. "There are two others in the same batch as me. I wonder if they've arrived?"

"Those two are already here, you're the only one left! Please take out your admission document and check it!"

The guard at the door said in a business-like manner.

The Alliance Academy was very strict. Without documents or identification, one couldn't enter at will.

Lin Yi handed the documents over and looked at them for a while before returning them.

"It's verified. Teacher Sima Yi, right? Please follow me, the other two are waiting for you. "

The Guard's attitude was much more polite now, and he led Lin Yi into the school.

Outside, Lin Yi already thought that the Alliance Academy was Grand enough, but after entering, he realized that it was nothing!

The previous Feiyang Academy and the morning Star Academy were not even one-tenth as good as the Alliance Academy!

The reason why he said that wasn't because of how luxurious the Alliance Academy was, but because there were several combination formations of various sizes here!

Trapping arrays, defensive arrays, killing arrays, and so on formed a large array, and then slowly operated on its own.

In the event of an emergency, the array would automatically activate and activate its functions according to the needs!

If he didn't have something to do, he would've stayed for three days and three nights!

This was much more advanced than the formations in the formation tower-Lin Yi could only see the functions but not the theory behind it!

One could say that this formation was similar to the layering formation that thing set up on Sky Class Island. Lin Yi couldn't set up something this profound yet.

"This formation was also set up by an Almighty of our sorcerer tribe. What do you think? do you think it's awesome? He's the most powerful array master I've ever seen!"

Starlight Magus "proud voice sounded again, interrupting Lin Yi's thoughts.

Lin Yi was a bit annoyed-he wanted to just block the space in the Jade!

Now that Wu Linghai was extremely powerful, she could block it if she wanted to.

However, Lin Yi didn't want to block the ghost as well, so he could only endure it for now.

"F \* ck your grandmother's butt!!"

The nine neonate launched another heaven's fork kick and kicked the Starlight shaman's head. ""Don't you know that the Deputy Lord is a great array master? You mean, he's not as strong as the guy you've seen?"

"No, no, no..."

Starlight great witch panicked and quickly explained, ""I've only seen so much of the world. That guy used to be very powerful, but now he's nothing compared to a Deputy Lord."

Chapter 8085

Lin Yi saw that the guard had left and quickly followed after them.

After a few turns, the guard brought Lin Yi to a place with the words "Dean's Office. "

He entered the side hall and saw the two people from the same batch as him already there, sitting in their best positions!

Lin Yi remembered that one of them was called ning Dali, and the other was called Zhang Xiaoyi.

Ning Dali's gaze turned unfriendly as he saw Lin Yi enter. He sneered, ""The first place likes to put on airs and make the two of us wait for you!"

This ning Dali was the previous champion. He was already the Big Brother, but now he was the underling. Naturally, he was full of hostility towards Lin Yi.

Zhang Xiaoyi didn't really care-it didn't matter if Lin Yi or ning Dali got first place, he wouldn't be the Big Brother.

However, because they had already formed an alliance with ning Dali, they added, ""A teacher who's late for class is not a good teacher!"

"Is it time?"

Ignoring the two, Lin Yi turned to the guard.

"No, there's still half an hour before the agreed reporting time."

The guard looked at the clock on the wall and said,"The three of you, please wait a moment, and then follow me to see the Dean! Please pay attention to your appearance and don't offend the director!"

"Heh ... As a teacher, it's only natural that you're punctual. You'll have to teach at the appointed time. Otherwise, what's the point of coming here even earlier when your students aren't here?"

Lin Yi muttered to himself as he curled his lips.

Ning Dali and Zhang Xiaoyi were furious, but they could not refute!

Lin Yi's words seemed to be twisted, but on second thought, it made a lot of sense!

They were actually speechless.

The three of them made some preparations, and it was time for the agreed upon meeting. The guard led everyone out of the side hall and headed to the director's office.

After walking for a short while, the three of them went up to a loft on the second floor and stopped in front of a very Grand door.

On the door, there were five big words: the director's office.

"Clang clang clang!"

The guard reached out his hand and gently knocked on the door. After receiving a response, he respectfully said, ""Principal, the three new teachers who have passed the examination are here. They are currently waiting at the entrance! Are you going to meet them one by one or all at once?"

"Mm, come in together! You've worked hard. "

The Dean's voice sounded quite gentle, and this made ning Dali and Zhang Xiaoyi secretly heave a sigh of relief!

Lin Yi didn't really mind-he'd seen too many big shots, and a Dean couldn't do anything to him!

Lin Yi and the two entered the dean's office.

He saw a huge desk with stacks of documents on it, taking up 80% of the space.

Behind the desk was an old man with a white beard and a green wooden crown. He exuded an ancient and simple aura.

"Welcome to the Alliance Academy! The fact that you've passed the test is enough to prove your excellence. As the president of the Alliance Academy, I'm very happy to have young people like you as the new blood of the Academy!"

The director stood up and showed a faint, formulaic smile. Then, he took out a document from the pile of documents and casually flipped it open. "Hmm ... Sima Yi, Ning Dali, Zhang Xiaoyi ..."

These were the three's names. It was obvious that the Dean hadn't looked through their information before they came in.

"The one with the highest total score this time is Sima Yi?"

The Dean's face darkened as he looked at Lin Yi's strength level and results.

The Alliance Academy was different from other Academies. When it recruited teachers, the minimum requirement was the early stage of the Shattered Sea realm. Since when could a cultivator at the consummate level of the Mountain Split realm pass the assessment?

Furthermore, this kid at the consummate level of Mountain Split was actually first in the assessment total score?

Hehe, do you really think that this old man's eyes are dim?

Nado was the honorary Vice President of the Illusionary Martial Alliance branch's combat Association. His status wasn't low, so he must have a strong background.

Relying on his status and background, he cheated in the assessment. Not only did he lower the strength level requirement, but he also did a lot of shady business of giving away points, pushing this guy to become the genius with the highest total score!

The hospital director immediately entered a state of reasoning.

It had to be said that it wasn't as if such vile behavior had never happened before. In the long life of the white-bearded principal, he had seen quite a few of them!

Although he hated this, he could not change it for various reasons. He could only silently agree to this unspoken rule.

He couldn't go against the general trend, he could only be disgusted!

After looking at Lin Yi's situation, the Dean immediately classified him as someone who got high marks by using underhanded means and cheating to get into the Alliance Academy.

And so, the Dean naturally started to hate Lin Yi as a person.

Secret manipulation, huh?

Alright! Then let's all do it together!

"Who is ning Dali? Oh, it's you. Very good! Zhang Xiaoyi ... Mm, it's you!"

The Dean was stubborn and stubborn, and it was obvious that he didn't like Lin Yi.

She didn't even want to get to know Lin Yi and just jumped right over.

"The two of you are quite strong. You entered the school last year, and there are two instructors missing among the second-year students this year. You two can go and guide the second-year students!"

"As for Sima Yi, who is ranked first in the assessment ... The new students are about to enter the academy. A 'talent' like you must display your abilities."

There was a hint of disgust and disdain in the hospital director's eyes. He deliberately emphasized the word "talent." "If you go and recruit new students yourself, I believe you will give this old man a surprise, right?"

The students of the Alliance Academy weren't divided into classes. Instead, they followed the model of learning directly from the teachers. Every teacher would recruit students to teach.

Among the second-year students, two instructors had fallen during a mission. The students they were in charge of were supposed to be scattered and assigned to other instructors, but now the Dean had directly transferred them to ning Dali and Zhang Xiaoyi.

"Thank you, director! I will work hard!"

Lin Yi nodded.

Although he felt that there was something wrong with the Dean's attitude, he did not take it to heart.

"The young man is very confident! This was a good thing! But there's one thing you need to take note of!"

The Dean reminded Lin Yi as if he'd just remembered something. "New teachers who have just entered the Academy are not famous, so it will be more difficult for them to recruit new students. Our Academy has a rule that if a teacher has less than three students, he will be disqualified."

The picture was revealed!

He'd arranged for Lin Yi to go recruit new students for this purpose.

Don't you have a powerful background in martial League?

Didn't you obtain the qualifications to enter the Alliance Academy through underhanded means?

Alright! I'll use the rules of the Alliance Academy to expel you!

Chapter 8086

You can't blame anyone else if you don't have the ability!

At that time, it would be useless no matter how strong your background was. The Academy's rules were the rules!

You can use external forces to insert people in, but don't even think about using external forces to interfere with the operation of the Academy!

Lin Yi blinked. There was a rule like that?

"This old man is trying to scam people! Let me out and see how I'll deal with him!"

The Starlight Magus would always find an opportunity to show off, and he even said that he wanted to leave the Jade space to teach the Dean a lesson.

In the end, he only got a flying kick from the nine neonate to teach him a lesson!

"Do you have the right to speak? Don't you have any concept of hierarchy!"

The nine neonate scolded the Starlight shaman loudly, but its expression changed when it turned its head. "Boss, should we go out and deal with this old brat? he's really too much, he actually dared to frame us so brazenly ..."

"Shut up! Are you guys suspecting that Lin Yi can't even get three students?"

The ghostly thing stopped the two idiots from talking. It felt that it had been too relaxed with them recently, so it would jump out from time to time to have fun.

Well, it was time to collect their bones!

The nine neonate and great Starlight shaman felt an ominous chill and immediately obeyed the voice in their hearts. They immediately looked down and put on an expression that said they knew nothing.

Lin Yi smiled to himself-as expected, senior ghost had more confidence in him. It was just three students, no big deal!

"Yes, principal. I understand. I won't let you down!"

Lin Yi nodded indifferently, accepting the arrangement.

Of course, even if he didn't want to, he had to accept it.

Ning Dali and Zhang Xiaoyi looked at Lin Yi gloatingly. So what if he was first in total?

In the Academy, he was still being taught a lesson!

They were all smart people, and the Dean understood what was going on.

Before they entered the Academy, they had already asked around and knew that the Alliance Academy did have such a rule.

Therefore, new instructors would not usually recruit new students by themselves. Instead, they would take in students who had lost their instructors directly like them.

Only after they had established their Foundation and reputation would they go back and recruit new students.

This was because the new students had the right to choose. They would only choose teachers who were famous and strong.

Sima Yi, new mentor, strength level: mountain-splitting consummate level, hehe!

Ning Dali and Zhang Xiaoyi looked at each other in silence, and a smile appeared on their faces.

It was obvious that this genius who ranked first in the assessment would probably become the first genius to be expelled from his mentor's qualification because he did not have any students.

"Very good, then go! Tomorrow is the day for the new students to enter the school. You have to make good use of this time and prepare well. Don't let others take in all the students!"

The hospital director pretended to be kind and reminded him.

The new instructors and the new students only reported one day apart, completely because they had not prepared for the new instructors to recruit new students.

This was because the instructors who were able to recruit new students had already prepared publicity materials and posted them in advance. The new students who were going to enter the school the next day basically had their own goals.

Even if he had another eight to ten days, it wouldn't be enough for Lin Yi to prepare, let alone one day.

"Instructors ning Dali and Zhang Xiaoyi, please stay behind for a while. The information of the students you will be bringing is here. Let me tell you, if you are not recognized by the students after a period of time, they have the right to withdraw from the class and transfer to another instructor."

The Dean waved his hand, signaling for Lin Yi to leave before leaving the two behind. "That's why the two of you have to work hard as well. If too many students leave and you don't have more than three students under you, you'll also be disqualified as a teacher at the end of the semester!"

Lin Yi's lips twitched as he turned to leave.

This old man's targeting was too obvious, it was simply differential treatment!

If he couldn't recruit three students, he would be disqualified. As for the other two, even if they had less than three students left, they would still wait until the end of the semester before leaving.

Moreover, during the period before the end of the semester, there was simply too much room for manipulation, and he could totally take in more students to make up for the number.

It was obviously a double standard!

He didn't know what was wrong with this old man. He didn't seem to have eaten his family's food, nor did he seduce his daughter ... Granddaughter!

Was there a need to go so far as to target a newbie instructor?

Was this the distortion of human nature or the loss of morality?

Lin Yi grumbled in his heart and tossed the matter aside.

Just like what that damned thing had said, it was only three new students, so it shouldn't be a problem to recruit them!

Just as he walked out of the dean's office and was about to head to the place where the new students would be recruited tomorrow, a beautiful figure ran over quickly.

"Sima Yi, it's really you!"

Luo caidie rushed over, but she didn't give him a big hug. Instead, she slapped Lin Yi's shoulder.

Even with Lin Yi's physique, he still felt the burning pain ... What kind of grudge was this? Did he come here to cripple people?

"I heard that there's a guy called Sima Yi among the new teachers. I was still thinking that it wouldn't be such a coincidence that they have the same name? It's you!"

"Luo caidie, you're a teacher at the Alliance Academy. Shouldn't you be more mature and dignified? If the students see you like this, your image will be ruined!"

Lin Yi said as he twisted his shoulders.

If it was his body back in the Forest of Illusions, his bones would probably have been broken by this girl, right?

It was all thanks to the huge increase in his strength in the Hongshang Empire-he'd be crippled and unable to take in any students even if the Dean didn't chase him away!

This was a sub-Island, and without genuine Qi, the healing cheat in the Jade space would be useless.

So, did this girl come here to harm him?

Of course, that wasn't the case-caidie subconsciously treated Lin Yi as a master who was even stronger than her, so using a little more force wasn't a problem at all.

Even if he were to attack with all his might, he shouldn't be able to cause any harm to this fellow. With such an intimate greeting, he should be able to feel the passion of reunion after a long time, right?

"I'm going to kick you to death! What image! I've always been a lady, okay? whatever I do, I'm a lady! That's right, I'm a synonym for a lady!"

Luo caidie laughed and boasted, then she changed the topic, "It's rare for you to get into an Alliance Academy, so we'll be colleagues in the future! This is something worth celebrating, shouldn't you treat me to a meal to celebrate?"

"We should celebrate, but I've already treated you to so many meals. This is the first time you've come to the Alliance Academy. As the host, shouldn't you treat me to a meal?"

Lin Yi laughed as he joked with caidie. The two walked side by side, not even saying where they were going. They just walked casually, "Besides, I'm new here. I don't even know where I can eat. You should treat me to a meal and show me around."

Chapter 8087 -

"Stingy! Do you know how many people are lining up to treat me to a meal, but I ignored them? now that I'm giving you a chance to treat me, you actually want me to treat you instead? what's wrong with you!"

Luo caidie toot and smiled again. ""Actually, there's nothing good to eat here. Why don't we buy some ingredients and you cook?"

Thinking about Lin Yi's cooking skills, caidie couldn't help but swallow her saliva. This was a good idea!

"Ha ... Not only do you want me to treat you, but you also want me to cook for you. Your host's spirit is really not good!"

Lin Yi smiled and turned to Caidie, "You're really going all out just to not treat us!"

"Pei Pei Pei! Sima Yi, how could you be like this! What a miser! I'm a girl, isn't it normal for a guy to treat me?"

Luo Caidie wrinkled her nose and snorted, ""The line of people who want to treat me to a meal is enough to go one round around the academy, and you're actually still trying to reject me, how infuriating! Just tell me if you're going to invite me or not! If you don't, I'll kick you to death!"

Lin Yi smiled-the treat wasn't the point, and it was quite relaxing and fun to joke around with Caidie like this.

"If you're not treating, then I won't eat! I won't invite you anyway! I've already treated you to so many meals, it'd be a waste to treat you again!"

Caidie was speechless at Lin Yi's attitude-he said he'd kick him to death, but she couldn't do it!

"Forget it, I'll treat you to a meal! You're so stingy!"

Caidie's face was full of disgust, but she didn't really dislike Lin Yi. Instead, she happily brought Lin Yi to her favorite eatery!

The Alliance Academy occupied a vast area. Other than the various buildings and facilities of the Academy, there were also some shops opened inside.

For example, the eatery that Luo caidie liked, as well as other equipment stores, material stores, elixir stores, and so on, were scattered all over the Academy.

Some of them were even established by student clubs, as the main channel to earn club funds.

Lin Yi and Luo caidie joked and joked with each other all the way to the eatery, and only then did they return to normal.

Luo caidie quickly ordered a table of dishes, all of which were her favorite.

As for whether Lin Yi liked it or not, she didn't care.

The miser didn't even want to treat him, so how could he order?

Of course, she would eat whatever she ordered. It was up to her whether she wanted to eat or not!

Lin Yi ate a little when the dishes arrived-they were indeed special, and the taste was great. He wasn't a picky eater, so he could eat everything.

Luo caidie smiled and was in a good mood, ""Sima Yi, which students are you going to bring? have you already assigned them?"

"Not yet. I'll be recruiting new students tomorrow."

Lin Yi said casually as he took a bite. "Do you know how many new students are coming in this time?"

Luo caidie froze for a second and didn't answer Lin Yi's question. Instead, she asked back suspiciously, ""You said you're going to recruit new students? You didn't get any old students?"

"Yup! Is there a problem?"

Lin Yi didn't seem to mind as he continued eating and drinking. "My strength level is low, so the Dean probably thinks that I'm not qualified to guide the senior students, so he wants me to guide the new students. There's nothing wrong with that!"

"What's wrong with that! New teachers never have the habit of recruiting new students, not to mention that we don't have any preparations at all. The new students will be reporting in tomorrow!"

Luo caidie slammed her chopsticks on the table and said angrily, ""Is the principal old and muddled? How can you do such a thing?"

"Sima Yi, you don't know this, but most of the teachers who recruit new students are teachers who return from the year they graduate. Whether it's fame or qualifications, they have already accumulated to a certain level!"

"Especially this time, five of the top ten teachers in the Academy will participate in the recruitment. Although each of them won't give out too many places, usually around ten to fifteen, if they encounter new students with outstanding talent or noble status and strong background, they will also take in more."

"Other than these five, there are seven or eight other senior instructors who are not in the top ten. Each of them will usually recruit around twenty to thirty people. Although I didn't pay special attention, I roughly know that the number of new students this time is over two hundred."

"Do you understand? If I'm not wrong, the spots that the instructors put out might not even be filled up. How can you, a new teacher with no reputation or qualifications, compete with them?"

Luo caidie slammed the table again,"No, I have to go to the Dean and have a good talk with him. You're a new instructor, no new students will choose you! "If you can't recruit three students, you'll be disqualified as a teacher. This is the Academy's rule ..."

Wait a minute!

Caidie Luo seemed to have understood something as she looked at Lin Yi suspiciously,"Sima Yi, did you offend the Dean? Although he was a stubborn old man, he would not target anyone for no reason! Tell me, what bad things have you done?"

Did he steal their rice?

"No, I didn't! This is the first time I've seen the Dean and my first time at the Alliance Academy. I still don't know his name!"

Lin Yi curled his lips, "if we're talking about people who offended the Alliance Institute, then it's Wang Ba, Gao Zi, and GUI sun. Do they have some unspeakable story with the Dean?" Or is there some inextricable relationship?"

"....."

Luo caidie was speechless for a moment. It was really difficult for her to digest this description, ""Don't talk nonsense. Wang Ba, Gao Zi, and GUI Shan have nothing to do with the old headmaster. They wouldn't come to find trouble with you because of them!"

"You must have offended him, and you didn't even know it yourself. You're a typical case of dying without even knowing how you died!"

Luo caidie snorted. "The stubborn old man has already decided on something. I don't think he will change his mind. I will go to him and talk to him. It will probably be useless."

"Forget it. There's not much time left, so there's no point in wasting it. Right now, we should think about how we can help you recruit three students! "Actually, there's an advantage to recruiting new students. You can train them from the beginning as you wish, unlike taking them in halfway. If you want to change their cultivation philosophy and habits, you'll need to spend a lot of energy, and you might not even succeed."

It was comforting, but Lin Yi didn't care.

Why did he have to change the students 'cultivation concepts and habits?

If there was anything wrong or imperfect in their cultivation, they could just improve it directly!

However, only Lin Yi had the confidence to change anything.

"You're right, but the premise is that we must first recruit students! Why don't you tell me how I can recruit new students first?"

Lin Yi didn't want to argue with caidie and just asked.

"...This ... First, you need to have your own classroom, and then let people know that you are a teacher!"

Luo caidie didn't have any good ideas, so she could only say the most basic things.

Chapter 8088

It was a good thing Lin Yi didn't know anything, and the basic stuff was helpful.

"Hurry up and eat. After you're done, we'll get you a classroom!"

Luo caidie was also very concerned and kept urging Lin Yi to finish eating. After they finished eating, she quickly pulled him out of the door.

Of course, the last meal was on her, and Lin Yi was paying.

With Lin Yi's qualifications and the Dean's desire to suppress him, there was no way he'd be able to get into the classroom without his knowledge.

Without a classroom, there wouldn't be any new students coming to Lin Yi's side.

But with caidie's help, they were familiar with the place and got Lin Yi an empty classroom.

Although the classroom was a little run-down, it was obvious that it had been left empty for a long time.

"Teacher Sima, from now on, this will be your personal classroom. All the students who follow you will be attending lessons here! As for some public classes, they will be held in public classrooms. "

The managing teacher that Luo caidie found for help was polite to Lin Yi and explained a little more for the sake of Luo caidie.

However, the classroom was a little small.

Taking everything into account, it could at most accommodate fourteen to fifteen students in class.

The Alliance Academy was huge and had many buildings. Naturally, there were many good classrooms.

However, there was no other way. For a new teacher to recruit new students, even if the Dean didn't specifically instruct them, the people under him could understand that the teacher was being targeted.

Being willing to give such a small classroom was already Luo caidie's honor!

The manager didn't care if Lin Yi was satisfied or not and left after saying goodbye to caidie Luo.

It was obvious that he didn't want to get too involved with Lin Yi, in case the Dean found out about it.

"Sima Yi, don't mind it. This classroom is a little small, but it should be enough for now! As long as the new students you're teaching produce results, there will be more people willing to come under your tutelage. By then, the classroom will definitely not be a problem!"

Caidie patted Lin Yi's shoulder as she tried to comfort him, "Besides, this classroom is small, but it's warm! With this stronghold, we can start preparing publicity materials and let the new students know that there is a mentor to choose from here!"

"Clean up this classroom first. I'll help you get the materials and quickly put them up. No matter what, when the new students arrive tomorrow, you must let them see your classroom!"

Caidie Luo left immediately after she said that. Luckily, she was here, or Lin Yi would've been blind!

Time was so tight-Lin Yi might not even know that he needed a classroom by the time the new students arrived tomorrow, and it'd be a proper two day trip to the Alliance College!

After that, he would be immediately kicked out by the old-fashioned Dean.

Lin Yi and Luo caidie were busy, and the next morning came quickly.

The sun had just risen, and there were already new students arriving at the Alliance Academy.

"Hey, you're a new student too, right?"

"Right! You too?"

"Yeah, I thought I was too early. I didn't expect someone to be like me. The two over there should be ..."

At the entrance of the Alliance Academy, a few new students bumped into each other and greeted each other warmly.

Everyone was carrying their luggage and looking around at the entrance of the college. One look and one could tell that they were new players.

After introducing themselves to each other, the newbies started to talk about the teachers of the Alliance Academy. "Have you heard? this time, five of the top ten teachers in the Academy will be recruiting new students. We're in luck!"

"I've heard about it. I'm going there for them! Usually, it's good enough if two or three of the top ten instructors recruit new students every year, but there are five this year. How lucky!"

"Which teacher do you want to be under? I want to become a disciple of teacher han Liqing. He has deep attainments in the Dao of the saber, and I use the saber, so this is the most suitable teacher for me!"

Han Liqing was ranked eighth among the teachers of the Union establishment Academy, but he wasn't the top.

But in the top ten, he was the only expert with a saber.

As long as a student used a saber, they would choose han Liqing. After all, the most suitable one was the best!

"If you use a saber, teacher han Liqing is indeed the best. I don't have a preference, and I haven't decided on my weapon yet, so I want to go under the second-ranked teacher sang Qingqing."

"Wow! I also want to study under instructor sang Qingqing. Not only is she ranked second among the top ten, but she's also one of the four most beautiful instructors of the Alliance Academy. She's a goddess!"

"Oh, really? Then I would also like to be under instructor sang ..."

They had only said a few words, but the conversation had already shifted from the top ten instructors to the four beautiful instructors.

Moreover, it was the kind that could never be crooked again!

After entering the Alliance Academy, there were obvious signs on the road to guide the new students.

At the same time, there were many portraits and brief introductions of the instructors posted on the road, with the location of the instructors' classrooms attached.

If one wanted to become a student of a teacher, one could go to the classroom in the picture and find the teacher.

Of course, it didn't mean that one would be able to become a disciple of any teacher.

The students could choose their instructors, and the instructors could also choose the students.

This was a two-way process of choosing.

The students would first choose the mentor they wanted, and the mentor would then test the student's talent, aptitude, and so on to determine if they wanted to take in the students.

Top instructors would not accept students easily. It did not mean that they would take in as many students as they had on hand.

The first few new students who had come to report were talking about the rumors of the four beautiful mentors along the way. They followed the guide and went directly to the classroom where sang Qingqing was.

Even the one who had originally wanted to learn saber techniques from han Liqing was no exception.

With the opportunity to learn from a beautiful teacher, han Liqing and the others should just stand to the side!

In any case, han Liqing was only ranked eighth, while sang Qingqing was ranked second!

Moreover, sang Qingqing's ability was more comprehensive, dabbling in all aspects. She might not be as good as the others in specialized areas, such as her knife skills, but it was enough to guide new students!

Unfortunately, when these guys excitedly ran over and wanted to become sang Qingqing's disciples, they were all rejected without exception.

The reason was very simple. It wasn't because they were not talented enough, had low qualifications, or had weak will. It was simply because they were all men!

That's right, sang Qingqing's first rule was to only accept female students!

A few newbies who thought that they would have a chance if they came earlier suddenly started wailing like ghosts and howling like wolves. They lamented that fate was unfair. How could instructor sang engage in gender discrimination?

Unfortunately, whatever they said was useless. Sang Qingqing herself did not come out, and just sent a random student out to send them away!

Having lost the opportunity to become sang Qingqing's disciple, these guys immediately went their separate ways. After saying their goodbyes, they went to find their respective mentors.

## Chapter 8089

At this time, Lin Yi was putting up his promotional materials with caidie Luo.

Luo caidie was full of energy, but Lin Yi was a little listless.

It couldn't be helped. Other people's publicity materials were all very high-end and looked just like the huge advertisements on the billboards in the secular world.

On the other hand, the Flyers that caidie Luo had spent the whole night making were like the psoriasis-style advertisements on the streets of the common world.

The difference was too great!

Lin Yi even wanted to put on a hood and cover his face-it was too embarrassing!

How could he recruit new students with this? No way!

It'd be a dark history if he told anyone about it, and Lin Yi even wondered if caidie was here to help him or to dark him ...

Could this chick be a spy sent by that weird director?

"Hey, hey, what's with your expression! This was something that I spent an entire night making. Time was too tight, and it wasn't easy to make it like this! You still dare to despise me?"

Luo caidie was very dissatisfied, "Sima Yi, I worked so hard to help you!" It's fine if you don't thank me, but why do you dislike me? this is too much! Are you not satisfied? If you're not satisfied, just say it!"

If you really dare to say it, this lady will kick you to death!

Lin Yi understood the threat in caidie Luo's eyes and immediately followed the voice in his heart. He smiled and patted caidie Luo's shoulder, "How could that be? do I, Sima Yi, look like someone who doesn't know what's good for me? Don't worry, I've seen you helping me! With your help, there won't be any problems!"

However, if he couldn't recruit new students, then so be it. No matter what, Luo caidie also wanted to help. Regardless of the effect, he still had to thank her.

Let her be happy!

"Caidie, what are you doing? Who is this person?"

Lin Yi hadn't even pulled his hand back when a handsome young man appeared not far away.

When he saw the two of them laughing and joking around, a hint of darkness flashed in his eyes.

When caidie turned around, he put on a warm smile and nodded at Lin Yi politely as a greeting.

"So it's teacher Gu. Is teacher Gu also one of the teachers in the recruitment this time?"

Luo caidie nodded slightly, polite but with a hint of alienation.

Obviously, she didn't want to have too much contact with this teacher Gu. "Sima Yi, let me introduce you. This is also a teacher from the Academy. His name is Gu Fengji, and he's a very powerful teacher!"

"So, you're the new teacher Sima Yi. I heard that you entered our Alliance Academy with the highest score in the assessment this time. You're really young and promising!"

Gu Fengji smiled reservedly, ""Don't listen to Cai die's nonsense. I'm not even strong enough. I'm not even in the top ten in the entire Alliance Academy. I'm only barely in the twelfth place. I can't compare to a talented teacher like you, teacher Sima!"

His tone was very humble, but no matter how you looked at it, he was showing off his ranking. ""I heard that teacher Sima is also one of the teachers for this recruitment. It looks like there will be a lot of competition!"

The latter part of the sentence was obviously mocking Lin Yi!

From what he knew about Lin Yi's background and identity, it was likely that he heard about the Dean's actions against Lin Yi.

Or perhaps the Dean had given him some sort of order-he couldn't be friends with Lin Yi anymore.

Especially when caidie Luo was beside Lin Yi, the intense jealousy and hatred in her eyes couldn't escape Lin Yi's perception no matter how well she hid it.

"Mr. Gu, please don't call me by my name. We're not that close. Please call me Mr. Luo, thank you!"

Luo caidie frowned slightly, and her pretty face was slightly displeased,""Sima Yi and I still have things to do. Teacher Gu, if you have something to do, please go ahead!"

"I'm fine! The new students won't be here so soon, so why don't we stay and help you?"

Gu Fengji pretended that he didn't understand Luo caidie's order and turned to Lin Yi with a warm smile,"Teacher Sima shouldn't reject my kind intentions, right? With my help, no matter what it is, I should be able to get twice the result with half the effort. "

Lin Yi glanced at Gu Fengji indifferently. He didn't want to talk to him at first, but he didn't expect him to be a sticky candy.

"Luo caidie, is this fan trying to pursue you? There's no standard at all! No wonder I couldn't catch you! His smile is so fake, he's obviously wearing a smiling mask. Does he really think that everyone is a fool and can't see his hypocrisy?"

Lin Yi didn't give Gu Fengji any face at all-the guy's face went stiff as soon as he opened his mouth, and the bright smile he'd been maintaining completely crumbled, making him extremely awkward.

Luo caidie laughed out loud, "Sima Yi, you're so bad! Why did he have to say it out loud when he knew it in his heart? Do you know that you're making me very embarrassed?"

The corner of Gu Fengji's mouth twitched, and he felt a dull pain in his heart.

Caidie! Don't you know that it'll be more embarrassing if you continue like this?

"That's right, if you see through it but don't say it, you're still good friends! Now that you've put it that way, I'm destined to never be friends with this teacher Gu!"

Lin Yi sighed in regret.

Gu Feng couldn't wait to kill Lin Yi right now-who the hell would want to be friends with him!

Unfortunately, Luo caidie was beside him, so he couldn't do it directly!

"Sima Yi, you're not bad! I'll remember you!"

Gu Fengji forced himself to put on a bright smile, but his eyes were still cold. He nodded at Lin Yi. "If there's a chance in the future, we can get closer!"

"I'm sorry, I'm not interested in men. If you want to get close to me, go find someone else!"

Lin Yi continued-he could've stopped there, but his spirit sense told him that there was a new student coming his way. The air blower was a twelfth-ranked mentor, after all, and it should've been enough to use as a stepping stone.

"Hehe, hehe ... Caidie, as you can see, your friend really doesn't want face! Don't blame me for bullying the weak!"

Gu Feng couldn't bear it anymore and didn't want to bear it anymore. He first greeted Luo caidie and then prepared to attack, ""Today, I'll teach you how to respect your seniors!"

Lin Yi was overjoyed-this was the effect he wanted!

If you don't make a move, I'll be in a very difficult position!

Luo caidie didn't have a clear idea of Lin Yi's true strength, but she had some points.

Especially after this reunion, she felt that Lin Yi was a lot stronger than before, and so when Gu Fengji was about to make a move, she didn't stop him, but took a few steps back as if she was happy to see it happen.

Gu Fengji was also overjoyed, thinking that Luo caidie wanted to see him fight Lin Yi!

It seemed that Lin Yi's position in caidie's heart wasn't as important as she thought!

As expected, women only liked the feeling of men being jealous over her!

Chapter 8090

"Hehe ... Gu Fengji, no matter what, you're still the twelfth-ranked teacher. If I deal with you too easily, you'll lose face. How about this, I'll let you attack first, so that people won't say that I'm bullying you!"

Lin Yi said loudly as the new student approached, trying to get his attention.

As expected, when the new student heard that Gu Fengji was ranked 12th, he immediately became excited.

In this recruitment, other than the five teachers in the top ten, the strongest teacher was Gu Fengji.

In other words, among the teachers who were recruiting, Gu Fengji could be ranked sixth!

The first five were said to be difficult to take in, so Gu Fengji was the best choice!

But the new student's attention quickly shifted from Gu Fengji to Lin Yi.

This was because this person had said that he would let Gu Fengji attack first, or else he would be bullying Gu Fengji!

From his tone, he was at least one of the top ten teachers, right?

Unfortunately, the information did not seem to match the image. Who was it?

Gu Fengji's attention was all on Lin Yi, and he didn't even notice the new student behind him. He laughed in anger after hearing what Lin Yi said.

"Hahaha! How arrogant! You actually dare to let me make the first move! Then don't blame me for not giving you a chance!"

Gu Fengji's heart was burning with rage, and he didn't care about his face at all as he activated his martial skill and charged at Lin Yi!

That ferocious aura, just the pressure alone was enough to suppress an ordinary person at the consummate level of the mountain splitting realm, making them unable to move and only able to wait for death.

However, Lin Yi wasn't a normal peak-stage mountain-opening cultivator.

Wu Linghai's power had already exceeded Gu Fengji's imagination. When he rushed over, a weak primordial spirit easily hit Gu Fengji's primordial spirit.

Gu Fengji, who was charging forward, raised his head, and his mind fell into a short period of chaos.

The lack of control of the martial arts technique caused its power to instantly disappear, leaving only an empty frame.

At the same time, Lin Yi's body flashed, and with pure speed, he appeared above Gu Fengji.

Then, it was a super cool roundhouse kick. Alright, it looked a little cool, but it was just the most basic roundhouse kick.

Gu Fengji didn't even have time to react before Lin Yi's foot landed on his face. He was sent flying ten steps away before landing on the ground and rolling a few times.

F \* ck. So fierce!

The new students were shocked!

As expected, he was one of the big shots in the top ten?

He had actually taken down Gu Fengji, who was ranked 12th, with a single move. Furthermore, he had given Gu Fengji the priority to attack first, while the other party had attacked later and arrived first!

He was too F \* cking strong!

"Gu Fengji, you're still a teacher ranked 12th. With this kind of strength and magnanimity, how can you properly teach the students? Go back and reflect on your mistakes behind closed doors, and put all your thoughts on teaching the students, that's the right way!"

Lin Yi put his hands behind his back and lectured the confused Gu Fengji like a master, "If you're not convinced, you can come to me at any time. However, we're both recruiting new teachers this time. I think you can compete with me in this aspect and see whose disciples are stronger!"

All the foreshadowing was for this last sentence!

Young man, I'm recruiting new people. Aren't you going to hurry up and come under my wing?

Lin Yi's nonchalant attitude really did move the new student's heart!

He didn't know who Lin Yi was, but he knew that Lin Yi was strong enough to defeat Gu Fengji, who was ranked 12th.

The student couldn't help but be deeply impressed by Lin Yi's master-like demeanor, exuding the aura of a pretentious leader!

If he were to learn from such a teacher, he would probably become the head of posturing in the future!

He just didn't know if the threshold for accepting students was high ... But whether it was high or not, he had to try to find out!

As the saying went, "action is better than action." The new student was already in a charging posture, ready to run over and join Lin Yi's sect.

But Gu Fengji came back to his senses and jumped in front of Lin Yi, "Sima Yi! You cheated! As a teacher, you actually cheated, don't you have any shame?"

"What? I said, blower, you can eat whatever you want, but you can't say whatever you want! If you lose, you lose. Why can't you afford to lose? And you're accusing me of cheating!"

Instantly, Lin Yi frowned, a little unhappy!

The new student over there was about to come and join his sect, but after being interrupted by Gu Fengji, he immediately made an emergency brake and looked over suspiciously.

Lin Yi was pissed-this was probably over!

After all, among the Academy's top ranked teachers, there was no one named Sima Yi. This was something that could be found out with a little inquiry.

Most importantly, the topic of cheating could easily raise the students 'vigilance.

"Hehe, you dare to do it but don't dare to admit it? The Academy had a rule that sparring between teachers was a pure battle of martial arts techniques, and the use of divine sense attacks was forbidden! But you first used a spiritual sense attack skill to sneak attack, and you still say it's not cheating?"

Gu Fengji laughed coldly.

In fact, he wasn't sure if he was hit by a spirit sense attack, because Lin Yi's moves were too exquisite.

However, his mind went blank for no reason when he made his move, so he was most likely attacked by his spiritual sense!

Therefore, regardless of whether it was true or not, it would not be wrong to take a bite first!

"Divine sense attacks are usually only used in a life-and-death battle. You and I are both teachers from the same Academy, so at most, we will spar because we have different opinions. You actually used a divine sense attack to sneak attack me like you did in a life-and-death battle. You are simply shameless!"

Gu Fengji kept on scolding Lin Yi, which made Lin Yi pause.

There's such a saying?

Since everyone had made a move, they must have used whatever means they had. Why couldn't they use spiritual awareness attacks?

Moreover, I didn't say that it was a battle of life and death. Even if I used my divine sense skill, I still wouldn't kill you!

Or should I just kill you?

Lin Yi looked at caidie Luo, confused.

However, Luo caidie nodded awkwardly.

She'd forgotten that Lin Yi was just a new teacher at the Alliance Academy, and he didn't know the rules at all.

"He's right, the use of divine sense is forbidden in a spar between teachers! This is because it's difficult to control one's consciousness, and the primordial spirit is easily injured. If you're not careful, you can destroy your opponent. "

Luo caidie quickly explained to Lin Yi in a low voice,"Something similar happened before. Two teachers were sparring and used their divine sense to attack. In the end, they didn't control it well and destroyed one of the teachers" divine sense! From now on, the Academy has a rule that forbids the use of spiritual sense attacks in spars. "

Lin Yi was speechless-his control over his spirit was so strong that he had no friends, but no one would believe him if he told them about this!
