

Bodyguard 8131

Chapter 8131

"And your earth attribute is actually not your true attribute. It's a fake Earth attribute created by that person after he sealed the wind attribute!"

Tu Gelao's mouth was wide open, his face full of shock and disbelief. Lin Yi's words were like a story from a fairy tale, and he was the main character of that story!

Then, tu Gelao fell into deep thought ... Why didn't he know about these things? Strange!

"You don't believe me?"

Lin Yi asked casually, and tu gexia nodded subconsciously before shaking his head again. "No, no, no. What teacher said is definitely true. I believe it!"

Lin Yi was a teacher he respected and respected-why would he lie to him for no reason? It can't be!

Therefore, this matter must be true. It was just that he didn't know about it. Just because he didn't know didn't mean that it didn't happen!

"Tu Gelao, tell me everything about your past, I mean everything that happened since you were a child, as long as it's something special!"

Lin Yi thought about it and decided that if he wanted to solve the tower massacre problem, he had to trace the source and find out where the cause was. Only then could he do this!

"Other than special things, you can also tell me what you've been through. Maybe the clues are in some unremarkable events."

Tu gexia nodded and immediately fell into deep thought. After a long while, he smiled bitterly and said, ""Teacher, I don't think anything special happened to me ..."

"I don't know if I've had a simple experience. I've been an orphan since I was young. I've been wandering since I can remember. I really don't have any special stories."

"When I was wandering, I remember that I was taken in by an old beggar and acknowledged him as my foster father. I learned some basic martial arts from him, but because I didn't have many resources, I couldn't train my body and build a good foundation."

"Later, my foster father ate poisoned food while he was begging and died. Fortunately, I managed to get food and was just full. I didn't eat the food that my foster father asked for and thus escaped the disaster!"

"I was still young at that time. After burying my foster father, I had no goal or direction. I lived in a daze all day. I ate one mouthful after another, and I ate from hunger to satiety. But I somehow managed to survive in a daze."

"After I became a Street Child again, driven by my survival instinct, I still didn't give up on the simple skills that my foster father taught me. One day, I happened to meet my former teacher."

"He saw that a little beggar like me was able to focus on martial arts and felt that it was not easy. So, he gave me a place and a goal to live on. He taught me with all his heart and encouraged me to enter the Alliance Academy!"

Lin Yi's expression changed slightly. The Alliance School wasn't a place that just anyone could get into. Tu Giexia's previous identity, to put it bluntly, didn't even have the right to take the exam!

He originally thought that his relationship with his former mentor was ordinary, but he did not expect it to be such a strong bond. In this case, how could tu Gelao bear to abandon his mentor and turn to his own sect?

Although tu Gelao's arrival had helped him a lot, Lin Yi wasn't very happy to hear his story!

"Teacher, do you think I shouldn't abandon you and join you?"

Tu Gelao wasn't stupid. Lin Yi didn't show it, but he could tell something was wrong. He explained with a bitter smile, "In fact, my teacher has long wanted me to go to another teacher. He felt that he did not have the ability to teach me well."

"So if there's a suitable teacher, he doesn't mind if I switch to another one. He even hopes that I can study under another teacher! It's just that you're a new teacher, so he's a little worried and delayed you."

Lin Yi's mouth twitched-this was the truth. From what he'd seen with his spirit, tu Gelao's mentor did doubt his ability.

If it wasn't for the fact that tu Gelao kept talking about what happened during the test, emphasizing that Lin Yi's abilities suited him well, the mentor might not have been willing to let tu Gelao come.

It wasn't that he couldn't bear to let a student go, but he was responsible for the future of the tower.

Now that he thought about it, he was indeed a teacher worthy of respect. Even though he was ranked at the bottom of the Alliance Academy, he was still worthy of his position as a teacher!

"No need to talk about this, you can continue with your business!"

Lin Yi understood what was going on and didn't pursue the matter further."What happened after that? Did anything strange happen?"

"No, I didn't. After that, I entered the Alliance Academy and learned from a teacher. Then, I met you, teacher!"

Tu gexia shrugged his shoulders. Just as he said, there was nothing special about it.

Lin Yi pinched his chin and frowned. It didn't sound like anything strange, but something was still off!

"Teacher, is there a problem?"

Tu gexia was a little nervous at Lin Yi's silence.

"Hmm ... I can't say for sure ... I can't make a conclusion now. I have to start from your body. First, I have to adjust your physique!"

Lin Yi had thought about it before, but it wasn't mature enough yet. He couldn't be sure if it would work, "Continue to practice the martial technique you just used. Don't be afraid of difficulty in activating it. Every bit of improvement is your gain!"

As he spoke, he took out a thin book. "This is the mental cultivation method corresponding to the wind attribute. It might be of some use. Try to cultivate it!"

He didn't know what the problem was back in the library, and he'd only prepared a few possible solutions-this was one of them.

It might not be useful to kill gatedor to cultivate it, but there would be no harm. It was a relatively safe thing.

"Many thanks, teacher!"

Tu Gelao, on the other hand, thanked Lin Yi and took the book, starting to read it.

On the surface, Lin Yi closed his eyes in deep thought, but in reality, he was searching through his memories for the books he scanned last night.

Before this, he had not been able to determine the problem with the massacre of the tower, so he had no way to find it clearly. Now that he had a target, it was much easier.

Lin Yi's search speed was extremely fast, and he had a clear goal. He filtered out all the useless information and only found a random book.

There was a similar situation regarding the massacre of the tower.

It was said that in ancient times, there were great cultivators who could seal other people's true attributes and fake them so that no one could detect them.

This was because false attributes could also be cultivated, but the talent would be worse. There was a bottleneck and an upper limit to cultivation. If one could not break through this ceiling, they could only be mediocre for the rest of their life!

According to rumors, in order to solve this problem, one must first turn the false attribute into reality and open a gap in the seal. Only then could one reactivate the true attribute.

At that time, he would have a compound attribute Constitution with at least two attributes!

Chapter 8132

As for how to make the false attributes real, how to open a gap, and how to reactivate the true attributes ... There were no records, because the final conclusion was that the method was unknown!

The book only had a very general explanation.

Lin Yi's lips twitched. If you don't know, then don't record it. What's with the "unknown" at the end?

The person who wrote this wild essay seemed a little mischievous!

Unfortunately, in the entire Alliance Academy's library, other than this random book, there was no record of this situation in any other book, let alone mention any solution!

Lin Yi opened his eyes and looked at tu Gelao, who was focused on training.

Originally, it was fine if he didn't solve this little fellow's problem. At most, his potential would be limited, and it wouldn't threaten his life.

But since he'd become his student, Lin Yi couldn't just let him live the rest of his life in mediocrity.

After all, being able to enter the Alliance Academy despite the restrictions of his false attributes proved that tu Gelao was a very hardworking person.

If one day, his true attributes were unsealed, he would definitely be a genius!

The false attribute seemed to be somewhat similar to the void Spirit root from before.

Lin Yi had a lot of experience in turning hollow spirit roots into solid spirit roots. After all, he had a few Void Spirit roots before, and they turned into solid spirit roots later.

Unfortunately, this was a spirit root attribute built on the premise of true Qi, which was completely different from the Constitution attribute of the sub-Island without true Qi, so there was no reference.

If he wanted to help tu Gelao complete the attribute transformation, he definitely couldn't use the transformation method of the virtual and real spiritual roots. He had to find a unique method of the sub Island!

"Tu Gelao, go back to your place and cultivate first. If you have any questions ... You can ask them in the next class!"

Lin Yi was about to tell him to come to him if he had any problems, but decided to leave it for the next class after realizing that he might not be able to find him.

"Yes, teacher! I will take my leave!"

Tu Gelao put away his book, bowed, and left the classroom.

The skills and Arts Lin Yi gave him were simple, but they didn't match his attributes. It wouldn't be easy to make any progress, and he needed to study them.

After tu Gelao left, Lin Yi left the classroom as well.

As he strolled around the school, Lin Yi's mind was on how to solve the tower massacre problem.

"Hey, Sima Yi, what are you thinking? He's so entranced!"

Luo caidie came to a sudden stop in front of Lin Yi, her eyebrows raised, ""You almost hit me, I'll kick you to death!"

Lin Yi blinked, realizing that he'd been distracted. He apologized with a bitter smile, "I didn't see him!"

"You didn't see it? Hmph, am I, a beautiful mentor, that transparent?"

Luo caidie was suddenly a little angry.

She'd had a good meal at naduo Central Restaurant yesterday, and was in a good mood today. She'd subconsciously walked over to Lin Yi's classroom, wanting to see what he was doing.

She was about to greet Lin Yi when she almost bumped into him.

Lin Yi's words almost made her explode.

"How can I? I'm thinking about something!"

Lin Yi replied honestly.

"What are you thinking about?"

Luo caidie's brows relaxed after hearing the explanation. She looked at Lin Yi's dazed face and thought that he really did have something to say, "You're in trouble?"

"It's not really troublesome. I just feel that the Alliance Academy's library Pavilion is a little small. There aren't enough books inside!"

Lin Yi wasn't trying to act cool-he really did finish it in one night.

Moreover, even after he finished reading, he still couldn't find a way to solve the problem of the tower of massacre, so it didn't seem wrong to say that the library was small and had few books!

But caidie pouted, thinking that Lin Yi was just bragging.

How could she not know how big the library Pavilion of the Alliance Institute was and how many books were stored inside?

"Hehe ... If you think that the Alliance Academy's library isn't enough, you can go to the martial Alliance branch. The library there is bigger and more complete. It's much better than our Academy 's!"

It was just a casual comment-she remembered that Lin Yi didn't take her to the martial union branch yesterday, and that was why she suddenly thought of the branch's library.

"Oh, really? It turned out that the library of the martial Alliance branch was larger and more complete than the one in the Alliance establishment Academy? Then I'll have to go and experience it!"

Lin Yi's eyes lit up-he didn't think of that!

The main thing was that the martial union branch had formations that restricted divine senses everywhere. Although Lin Yi's spirit was strong enough to forcefully break through the restrictions and investigate, he didn't have to do something so annoying since they had a good relationship.

So Lin Yi didn't really use his divine sense to scan the area when he was at the martial union branch.

If no one had mentioned it, Lin Yi wouldn't have known that the martial union branch had a bigger and more comprehensive library than the Alliance Academy!

"The library of the martial Alliance branch is the largest and most complete library in the naduo conferred Empire. Even the Royal Library of the Empire doesn't have such a complete collection!"

Luo caidie shrugged her shoulders."The teachers of the college can go there to borrow books. Usually, many of our teachers like to go to the martial Alliance branch's library. If you want, you can go and take a look!"

However, instructors had some restrictions, such as the number of books they could borrow and the time they could spend. They were not as forgiving as martial league's own people.

It might be inconvenient for others, but it didn't matter to Lin Yi since he was the honorary Vice Chairman of the combat Association.

However, caidie didn't mention it because she wanted Lin Yi to act as a teacher in the Alliance Academy. That way, they would feel like companions.

She'd feel uncomfortable if Lin Yi kept using the vice president's position in the martial Union's combat Association.

"That's great! I'll go take a look at the martial union branch now!"

Lin Yi was thinking about the massacre tower, and he heard that he could find more information in martial Union's library. Naturally, he couldn't wait to go.

Luo caidie couldn't help but purse her lips. After getting the information she wanted, she would turn around and leave? Hmph! Scumbag!

Lin Yi didn't know what caidie Luo was thinking. After greeting her, he rushed to the martial union branch.

When they arrived, they easily found the location of the library Pavilion.

Lin Yi was about to step in when he was stopped.

"Unauthorized personnel are not allowed to enter the library of the martial union branch!"

The one who stopped Lin Yi was the librarian-he'd never seen Lin Yi before, so he didn't know who he was.

He was a young man who came here for the first time. He thought that he was just a little guy who had barged in by mistake, so he was not too polite.

"I'm a teacher at the Alliance Academy. This is my teacher's certificate. I'm here today to read some ancient books and records."

Lin Yi didn't mind the cold attitude, smiling as he took out his mentor's badge. "I heard that the library of the martial Union's branch is open to our Academy's instructors, so I thought of coming over to take a look and look up some information."

Chapter 8133

The manager didn't take the ID, only glancing at it coldly before his attitude softened. "I'm sorry, our library Pavilion is not open to the public today. You can come another day!"

Not open?

Lin Yi blinked-was there a time when the martial Union's library was closed?

Lin Yi looked around and didn't see any signs of it being closed. There were some icons that were open to the public.

"Why not? Didn't it say that you can enter the library today?"

Lin Yi pointed at the icon not far away, but the librarian wasn't even looking at it-he was the one who'd set up everything here, so of course he knew what was there.

"Why do you talk so much? If I tell you it's not open today, it's not open! Do you have the final say or do I have the final say? Your Alliance Academy also has a library, so go back and make do with it first. If you really can't do it, come back another day!"

The administrator waved his hand impatiently and chased Lin Yi away. "Hurry up and leave, don't be a hindrance here!"

"Ha ... You think you can shut it down just because you say so? Who gave you the authority to do so?"

Lin Yi didn't look too happy-he'd rushed over to read, but they wouldn't even let him in.

The most important thing was that there was no legitimate reason.

No matter who it was, they would not be happy!

"This is the martial union branch's territory, and I have the final say in the library Pavilion. If I say I won't open it, then I won't! What nonsense are you spouting! Do you really think you're so great just because you're a teacher from an Alliance Academy?"

The librarian laughed coldly, her impatience turning into displeasure. She was so close to kicking Lin Yi out.

"Are you looking down on our Alliance Academy? Are you representing the martial Alliance to look down on the Alliance Academy? If you don't have a reasonable explanation, the Alliance Academy might directly seek an explanation from your branch Hall Master!"

Lin Yi didn't back down.

Now that he was representing the teachers of the Alliance Academy, he had to fight for the benefits he deserved.

If a mere library Pavilion's administrator could act so arrogantly, it was likely that in the future, any Tom, Dick, or Harry would look down on the teachers of their academy.

The librarian was a little scared at Lin Yi's stubbornness.

He was indeed in the wrong. If this had escalated to a conflict between the martial Alliance's branch and the Alliance Academy, he would have been able to pack up and scam back to his hometown!

"You're so troublesome! Alright, alright, I'll tell you the truth!"

The administrator didn't dare to blow up the matter, so he could only tell the truth, ""It's not that I want to make things difficult for you, and it's not that I don't want to let your Academy's instructors in. It's just that there are high-ranking members of our martial Alliance's branch inside who are looking through important information, and they can't be disturbed! If you want to go in, you'll have to wait for that Lord to come out!"

"Ha ... What kind of person is so noble that he can occupy the entire library Pavilion alone, and even others can't enter? Isn't this too overbearing?"

Lin Yi couldn't help but laugh coldly, "such a big scene, could it be your branch head?" Even your Hall Master wouldn't do such a thing as to occupy an entire library Pavilion by himself, right?"

The administrator was at a loss for words. After a while, he flew into a rage out of humiliation and shouted, ""It's not our Hall Master, it's the newly appointed alchemy Association's Vice-President, Ouyang Changhong! How was it? Do you dare to offend him? Let me tell you, anyone who offends vice guild leader Ouyang will never have a good ending!"

"His elder brother is the Vice Hall Master of the martial Alliance's branch. At the same time, he's also the president of the alchemy Association. He's not someone a small teacher like you can afford to offend!"

"Hehe ... Just the Vice President of the alchemy Association can occupy the library Pavilion by himself? Does he really think he can do whatever he wants in the martial union branch?"

Lin Yi couldn't help but laugh when he heard the name.

He thought it was some Big Shot, but it turned out to be Ouyang Changhong, that idiot!

To occupy the entire library Pavilion just to read a book, calling him an idiot was an insult to idiots!

Who the F * ck is going to be forbidden from entering the library just because they're reading? Can you read all those books by yourself?

"Wow, you're quite arrogant. What Vice President? if you were the Vice President, you'd be able to enjoy the same treatment!"

The administrator chuckled in disdain.

However, the moment the words left his mouth, his eyes widened and his mouth opened wide. He was completely dumbfounded!

Lin Yi took out a golden one sword badge and put it on his chest.

Just now, he was a teacher of the Alliance Academy, so he couldn't enter the library!

Since that was the case, he would just use his identity as a branch of the martial Alliance!

"The combat Association's honorary Vice President, Sima Yi, can I now enjoy the treatment you speak of?"

Lin Yi looked at the administrator with a half-smile, "Or perhaps, you think that I'm not qualified enough as the honorary Vice President, so you're still trying to stop me?"

"Gah! How could that be! This lowly one had eyes but failed to recognize Mount Tai. I didn't know that Vice President Sima had graced us with your presence. I've been disrespectful, please forgive me, Vice President Sima!"

The administrator was instantly stunned and immediately changed his expression. He nodded and bowed with a smile on his face. "Vice President Sima, you should have said so earlier. We're all on the same side. Please forgive us for this misunderstanding. Vice President Sima, please come in!"

"Wait, you should drive the people inside! The treatment you're talking about isn't just me entering the library, but me enjoying the entire library Pavilion alone!"

Of course, Lin Yi wasn't being serious-he was just teasing her.

"Uh ..."

But the administrator took it seriously, and a layer of fine sweat instantly appeared on his forehead. He continued to smile apologetically, ""Haha, haha, Vice President Sima must be joking ... Actually, the

library Pavilion is so big. The two of you might not even meet each other inside, so there's no need to ...
Haha, haha ..."

He really didn't know what to do other than to smile awkwardly.

One of them was the alchemy Association's Vice President, while the other was the combat Association's honorary Vice President. Both sides were big shots, and he could not afford to offend either one!

Don't say silly things like seeking refuge with one party. A mere library Pavilion administrator, no matter which party he sought refuge with, he would not be able to stop the other party!

A little brat like him was not qualified to participate in a fight between Immortals. A little bit of the aftermath was enough to kill him!

Lin Yi didn't say anything, just looking at him quietly.

The administrator wiped his cold sweat and lowered his head to admit his mistake. "Vice President Sima, this lowly one was wrong. This lowly one has sinned. Please punish me, Vice President!"

He didn't have the guts to chase Ouyang Changhong away-he could only apologize sincerely and hope that Lin Yi would forgive him.

In fact, Lin Yi only needed to knock some sense into a small fry like him-it'd be beneath his status if he were to get serious.

"Let's forget about today. Can I go in now?"

"Yes, yes! Thank you, Vice President Sima! I'll bring the Vice President in!"

The caretaker was overjoyed-he quickly bowed and led Lin Yi in, but he grumbled to himself after a few steps. Why did he have to ask Lin Yi to lead the way?

Chapter 8134

The big boss inside had said that no one was allowed to enter, and after he brought Sima Yi in, Ouyang Chang Hong could not do anything to Sima Yi. Wouldn't he vent his anger on him, the administrator?

Wasn't it better to let Sima Yi go in by himself? why did he have to lead the way? This was really bad mouth!

He wanted to go back on his words ... But he didn't dare to!

He had already said what he wanted to say. If he suddenly went back on his words, he would not be giving Sima Yi any face. Similarly, he would not have a good ending ...

The librarian wanted to cry, but no tears came out-he brought Lin Yi into the library, his heart completely despondent.

This was exactly what he was afraid of. As soon as he entered, he alerted Ouyang Changhong, who was looking for information inside.

"Who's there? Didn't I say that no one is allowed to enter?"

Ouyang Changhong didn't see the person, but he shouted angrily when he heard the voice, ""Are my orders not working? Or are you all looking down on me?"

"Vice guild leader Ouyang, let me explain!"

The administrator had a long face. He was done for, he knew this would be the result!

Now, he could only try his best to save it and see if there was any hope. ""It's like this ..."

"Shut up! Did I ask you to come and explain? An order is an order. Do you think that I can't control your library?"

Ouyang Changhong was as arrogant as ever. ""Do you know that you've already interrupted my research on alchemy? can you bear the responsibility for delaying my important matters?"

The librarian's mouth was wide open, but he didn't know what to say. He turned to Lin Yi for help.

Lin Yi smiled faintly and raised his hand, signaling for the librarian to leave. He spoke calmly, "What great prestige! "Ouyang Changhong, those who don't know better might think that you've already become the first hall Master of the martial Alliance branch! Speaking of which, I don't think even the first hall Master has as much power as you, right?"

"Hmm?"

Ouyang Changhong was stunned at first, then he fell into silence.

Very quickly, he walked out from the corner of a bookshelf. The expression on his face was very calm, not as angry as when he had scolded the administrator.

The administrator hurriedly bowed and left. These two big shots were fighting, and a small fry like him had better leave quickly.

Not to mention being affected, if they looked at it for too long, they might be taken care of later!

"Sima Yi, why are you here?"

Ouyang Changhong ignored the administrator and looked at Lin Yi coldly, "I don't care why you're here, but I advise you to be tactful and leave this place quickly so you don't hurt yourself!"

"Ha ... You can come, but I can 't? What kind of logic was this? Even if you really become the first hall Master, you don't have the power to forbid me from reading in the library Pavilion, right?"

He glanced at Ouyang Changhong and shook his head, speechless. "Today, I'm going to stay here and read. I'd like to see how you're going to make me make a mistake."

Ouyang Changhong's mouth twitched and he snorted. "I'm not the first hall Master, but I'm working for him! I'm not afraid to tell you that the first hall Master is seriously injured and is waiting for me to refine pills to save him. If you delay my time, you're plotting against the first hall Master! You better think about the consequences yourself!"

"The first hall Master is seriously injured? So You Think you're the first hall Master?"

Lin Yi's face was full of mockery-no wonder this idiot was so cocky! The first hall Master was injured, so the Vice Hall Master was the one in charge!

Since the language of assimilation was not around, Ouyang Changqing could most likely make the decision. Therefore, when Ouyang Changhong came to the library Pavilion to act arrogantly, no one could stop him.

"If there are rules, then say the rules. If there are no rules, don't talk nonsense. Do you think you can scare people by using a Tiger's skin to raise a flag?"

Lin Yi shrugged, indicating that he didn't believe a single word Ouyang Changhong said.

Ouyang Changhong couldn't help but feel depressed-he realized that he really didn't have any way to deal with Lin Yi.

After all, there weren't any rules that could kick Lin Yi out.

"Believe it or not, this young master doesn't have time to waste on you! Do whatever you want, don't interfere with this young master's pill refining research!"

He couldn't argue with Lin Yi, and it wasn't a wise move to fight here either, so he could only give up.

Since he couldn't do anything about it, he could only listen and let it be. Out of sight, out of mind!

Lin Yi was happy to be free. He came here to find a way to solve the massacre in the tower, not to fight with Ouyang Changhong.

So after the man left, Lin Yi immediately started copying the books with his spirit sense.

Ouyang Changhong didn't go far, observing Lin Yi in the dark.

He saw that Lin Yi was just standing there, his eyes scanning the area, and he was quite disdainful.

Was he here to show off in the library Pavilion to raise his level of awesomeness? Otherwise, why didn't he look for books to read?

But Ouyang Changhong really did have things to do-he lost interest after observing Lin Yi for a while and started doing his own things.

Lin Yi's spirit sense quickly collected all the books in the library, filtering through the contents at the same time. After a targeted search, he quickly made a big discovery.

It wasn't too difficult to transform a fake attribute physique into a real attribute physique, as long as he could refine the corresponding elixir.

This was something Lin Yi found in a book about elixir making, and it even had the recipe.

In other words, as long as he could gather the corresponding medicinal herbs and forge it, there shouldn't be any problems.

After solving the problem of his fake attribute physique, he had taken the first crucial step.

The second step was to break the seal, which was not that easy.

Lin Yi found the answer in another book.

In order to activate tu Geda's wind attribute physique, one must perfectly complete the first step of attribute transformation before going to the wind forest.

This could only be done in the wind forest.

The problem was, even if they didn't know where the wind forest was, they didn't know if they could get there!

At least, Lin Yi didn't see this place on the map of the Nangong family.

Previously, the geographical location on the map was very detailed. However, ever since they arrived at the nado martial Alliance branch, there was no map.

Even with the Nangong family's ability, they could only get a map of the area below the naduo Empire.

Lin Yi shook his head. It seemed like he had to put the second step aside for now. The first problem was the transformation of the fake attribute!

Lin Yi didn't have any of the ingredients in the recipe, and he'd never even heard of some of them.

Therefore, if he wanted to concoct pills, he had to go to purchase and collect them first. The most convenient way was, of course, to buy from the alchemy Association. The medicinal materials there were very complete, and maybe he could get all the medicinal materials at once.

It was a pity ... Lin Yi didn't have many friends in the alchemy Association.

No matter if it was Ouyang Changqing or Ouyang Changhong, they were enemies and not friends!

He looked at Ouyang Changhong on the other side of the library, and scratched his head.

That guy definitely wouldn't be able to properly exchange for medicinal ingredients for me!

If the other party said they didn't have it, Lin Yi couldn't just take it!

If he wanted to successfully exchange for the medicinal herbs he needed, it seemed like he had to think of a way!

Chapter 8135

Just as he was thinking, there was a knock on the door of the library Pavilion.

After that, an unfamiliar young man walked in quickly. The previous administrator had learned his lesson and would not accompany him in again.

"Vice guild leader Ouyang! Vice Hall Master Ouyang has invited you over! He's already prepared to refine a healing elixir for the first hall Master, and he needs the vice president's help!"

After the messenger confirmed Ouyang Changhong's location, he quickly ran over, bowed, and reported, ""It's an urgent matter. The Vice Hall Master requests the Vice Hall Master to go over immediately. There can't be any delay!"

"I know! I'll go over now!"

Ouyang Changhong immediately put the book back on the shelf and quickly left the library Pavilion with the messenger.

As he left, Ouyang Changhong didn't forget to glare at Lin Yi, clearly holding a grudge.

Lin Yi saw them leave and followed.

He'd pretty much gotten all the books in the library, and he'd found the method he was looking for- there was no need for him to stay in the library any longer.

Lin Yi wasn't interested in what Ouyang Changhong wanted to do. He needed to think about how to get the herbs, and it seemed like he'd have to ask the language of transformation for help.

Presumably, since the language of the living things had spoken, no matter how unwilling Ouyang Changqing was, it was impossible for him not to give these medicinal herbs, right?

But he didn't know if the monster language had returned.

Lin Yi didn't think that the language would be back so soon, but he had nothing else to do now.

Lin Yi greeted one of his subordinates politely when he arrived at the office.

"Vice President Sima!"

The man recognized Lin Yi and immediately bowed.

"Has vice Hall Master Hua returned?"

Lin Yi asked with a smile.

"This ..."

The man hesitated at first, but decided that Lin Yi was one of his own, so he didn't hide it anymore, "Vice Hall Master Hua went out to carry out a mission with the first hall Master this time, but both of them were seriously injured and just came back this morning!"

"What? Big brother Hua is injured?"

Lin Yi was shocked and asked, "Is he okay? where is he now?"

"This ... I'm not too sure about the injuries. However, vice Hall Master Hua is currently at the eldest Hall master's residence, waiting to receive treatment from the alchemy Association. I'm afraid he won't be able to return to work in a short period of time!"

"Vice President Sima, please come again next time!" The subordinate sighed.

"Thank you, I understand!"

Lin Yi frowned. He didn't expect the monster language to be injured!

In that case, the Ouyang brothers had really treated the first hall master's injuries, and the language of the living things was also with them?

Lin Yi didn't pay attention to where Ouyang Changhong went, and he didn't have the time to ask. He quickly went out and used his spirit sense.

Luckily, Ouyang Changhong didn't enter the houses with the spirit sense shield yet, and Lin Yi was discovered immediately.

Lin Yi used his butterfly microsteps and caught up to Ouyang Changhong at full speed.

The guy's face darkened when he saw Lin Yi, but he didn't say anything.

After all, he was on a tight schedule and had no time to waste on bickering.

Soon, Ouyang Changhong entered a courtyard and went straight to the largest room.

Lin Yi didn't say anything, and the guard thought that he was with Ouyang Changhong, so he didn't stop him.

There were two beds in the room. On the left was a middle-aged man with a square face and a long beard, and on the right was the language of the living things.

Both of their faces were as pale as gold paper, and their breaths were weak. It was obvious that they were seriously injured.

"Ouyang Changhong greets first hall Master. First hall Master, how do you feel now?"

Ouyang Changhong quickly stepped forward and bowed on the bed of the square-faced, long-bearded middle-aged man. He carefully asked in a low voice.

His cousin, Ouyang Changqing, was standing next to him.

In addition, there were two doctors and maids, all of whom were surrounding the martial Alliance branch's first hall Master.

On the other hand, there was only one maid in the language of monsters. The difference in treatment between the two was like the difference between heaven and earth.

"I don't feel...Good! His injuries are worsening!"

The first hall master's breath was weak, but it did not hinder his speech. After saying two words, he became weaker and had to gasp for breath for a long time before he could continue.

"Chang Hong, how's the information I asked you to check? Have you found the pill refining method? Are you ready?"

Ouyang Changqing waved his hand, not allowing Ouyang Changhong to continue asking.

The head Hall master's situation was like this, it was useless to ask any more questions. The main thing now was to quickly refine the medicinal pill!

"Big brother, I've found the information and I've also learned it. After the medicinal herbs are sent over, I can help you open the furnace and refine the pills!"

Ouyang Changhong was indeed quite capable, and Ouyang Changqing could not help but nod in satisfaction after hearing this.

Lin Yi frowned and ignored the first hall Master. He walked to the bed and observed.

At this moment, the monster's eyes were closed, but its breath was in disorder. It was not in a state of deep sleep, but probably just resting.

Or rather, out of sight, out of mind!

No matter what, he was still a dignified vice Hall Master, yet he was being ignored like this. This was simply preposterous!

However, it was easy to understand.

The person in charge of the scene was Ouyang Changqing. He had never been on good terms with the language of the living things, so it was not wrong for the language of the living things to receive such treatment!

Lin Yi's brows furrowed as he used his spirit sense to scan the language.

Judging from the injury alone, the monster's whisper was even more serious than the first hall Master.

The monster's face was covered in a layer of black gas, and its lips were purple-black. It was obviously poisoned.

Fortunately, his body-tempering ability was strong and he could barely resist the suppression. If it was someone who was slightly weaker, they would have been dead long ago!

"Vice Hall Master Hua, what's going on with you? Why are you so heavily injured?"

Lin Yi saw that the language could still hold on for a while, and calmed down a little. "Do the doctors there have any treatment plans?"

Most of the monster's injuries were internal injuries. Some external injuries were not a big deal, and the doctors had already treated them.

As for his internal injuries, they didn't seem to have moved at all.

"Brother Sima, you've come!"

Hua Yu opened her eyes and smiled bitterly after seeing Lin Yi's face. "It's a long story ..."

"Forget it, you'd better not talk for now and recuperate. Don't worry, your injuries will definitely recover!"

Lin Yi raised a hand to stop him.

Seeing how weak the other party was, if he spoke a few more words, his injuries would probably worsen rapidly. It was better to wait until he recovered before telling the story!

The beast continued to smile bitterly. He thought that Lin Yi was comforting him, but he didn't know that Lin Yi was just stating a fact.

As long as Lin Yi helped, the beast's injuries were nothing.

The only reason he didn't do anything was because the monster wasn't dead yet ... Lin Yi decided to wait until he transferred the monster away and save him in private.

Chapter 8136 No Problem

It couldn't be helped-the difference in treatment in this room was too obvious. If Lin Yi could treat the two injured people the same way when he came in, he wouldn't have meddled in their business.

He had just said a few words when the things that Ouyang Changhong had prepared were delivered. The pill furnace and medicinal materials were all available.

Ouyang Changqing personally took action, and Ouyang Changhong acted as a support. The two of them prepared to start refining pills on the spot!

Lin Yi looked at the scene with interest. The Ouyang brothers "skills were quite good, and they were worth a few glances. Fortunately, the language of manifestations was still holding on, so it didn't matter if they wasted some time.

Besides, if they could make the elixir successfully, Lin Yi wouldn't need to help the language of the living things anymore after saving the first hall Master.

After all, Lin Yi felt that no matter how bad things were between Ouyang Changqing and the Beast, he couldn't possibly refuse to give the beast the pill, right?

Since Ouyang Changqing dared to refine pills in public, he naturally had full confidence.

"Chang Hong, I'm mainly in charge of condensing the pill fire, and you're in charge of adding the medicinal ingredients! You'll add whatever I say and support me. Are you ready?"

Ouyang Changqing ordered after taking a look at the materials and briefly checking them.

"No problem. Don't worry, vice Hall Master, I'm ready!"

Ouyang Changhong said solemnly.

Nodding his head, Ouyang Changqing placed the alchemy furnace in the correct position and began to condense the alchemy fire.

A wave of heat formed in Ouyang Changqing's palm and quickly wrapped around the alchemy furnace. It was constantly being released and was very stable.

Lin Yi couldn't help but nod to himself. As expected, Ouyang Changqing was the president of the alchemy Association. He had his own skills, not just acting cool.

The stability and ability of his control were much stronger than elder Qin 's.

It seemed that the reason why elder Qin could become master's junior Brother was probably because master was also near Hongshang Commandery when he first came. Otherwise, it was not that master looked down on elder Qin, but his level was really not enough to catch Zhang Liju's eyes.

Of course, this was also because of Ouyang Changqing's strength. With the strength of the sea splitting stage, even if his alchemy ability was not good, with the addition of his strength, he could still condense a higher level alchemy fire.

"Add in the star compound grass ..."

Ouyang Changqing issued his orders in an orderly manner, while Ouyang Changhong executed them meticulously.

"Add the long plum, the blood of the dark Demon Scorpion, the licorice flower ..."

Hmm?

Lin Yi blinked-the recipe was similar to the recover pill, but there seemed to be a problem!

Lin Yi wouldn't be so sure before entering the martial Union Library, but after scanning so many books, even focusing on a few of Ouyang Changhong's books, Lin Yi could be said to be very familiar with the elixir they made.

However, Lin Yi didn't say anything. He just watched quietly as they were about to do something.

With the cooperation of the Ouyang brothers, the speed of their pill refinement was also quite fast. In just over two hours, they had successfully refined a pill.

However, this pill ...

Lin Yi raised an eyebrow, sighing to himself. It seemed like he had to do something now-the language of manifestations was probably going to die if he counted on Ouyang Changqing's pills.

"Hahaha! The pill refinement went very smoothly, and the process and results could be said to be perfect! First hall Master, you don't need to worry about your injuries!"

Ouyang Changhong laughed as he took out a pill. A dense pill fragrance spread out, causing everyone's spirits to rise.

He looked at Lin Yi proudly as he flattered his cousin.

As he spoke, he prepared to present the pill to the first hall Master. Although he was only an assistant in pill refining, it was not impossible for him to present the pill on behalf of Ouyang Changqing.

"Vice Hall Master Hua, I'm really sorry! "There's only one elixir. The first hall Master is the main pillar of our martial Alliance branch. We must prioritize the first hall master's treatment! I don't have the herbs to concoct pills in a short time, so I'll have to trouble you to wait a little longer. "

Ouyang Changqing apologized to the language of the living things with a fake smile, but he did not seem to be sorry at all.

It would definitely be a lie to say that there weren't enough medicinal ingredients. No matter how powerful he, Ouyang Changqing, was, he couldn't guarantee that he would succeed in one furnace, so he would definitely have spare medicinal ingredients.

But now that he said there was no, there was no!

"Hall Master Jiushi, please be careful. I'm fine!"

The artifact language spoke with great difficulty, and its face became paler and paler. No one knew if it was because of what it said or because it was angered by Ouyang Changqing.

The first hall Master was silent, but a trace of shame flashed in his eyes.

Under normal circumstances, the elixir should have been used to treat the monster's injuries first, as the monster's injuries were more serious. It would not be able to delay the battle for long.

If he didn't have any pills, he would die by tomorrow morning at most.

The Great Hall Master was in a slightly better condition. He could at least last one or two more days than the language of the living things.

However, there might really be no more medicinal ingredients now. With the strength of the martial Alliance's branch, it would take some time to collect them. The first hall Master was really afraid that he would not be able to hold on.

Most people were selfish, and the first hall Master was no exception. Therefore, after a moment of silence, he silently agreed that the only elixir should be taken by him.

There was only a trace of guilt in his eyes, and then there was nothing else.

Lin Yi saw the head's expression-he'd probably just watch if she didn't feel guilty, but since the guy knew how to feel guilty, he'd just give her a reminder.

At the very least, this person was selfish but not bad.

And whether they listened or not, that was their own business!

"Wait! Ouyang Changhong, you can't let the first hall Master consume the pill!"

Lin Yi said calmly, stopping Ouyang Changhong's actions. "There's a problem with Ouyang Changqing's elixir. During the elixir refinement process, he reversed the order of the two medicinal herbs!"

"It's true that there's the effect of increasing the speed and success rate of pill refining, but at the same time, there are hidden safety risks! If you put it in the right order, there would be no problem with the pill. However, the wrong order caused the pill to contain a trace of poison!"

"The first hall Master has already been poisoned. Although it's not as serious as vice Hall Master Hua 's, it can't be said that he's completely unaffected. If it were to fuse with the poison in the pill, it would cause fatal damage!"

Lin Yi was telling the truth-he'd already scanned all the books in the library, and he knew everything Ouyang Changhong knew and everything he didn 't!

Other than that, Lin Yi's own skills in alchemy were also far beyond Ouyang Changqing and Ouyang Changhong 's.

Putting everything else aside, just in terms of insight, the Ouyang brothers were not on the same level!

"Hehe ... What do you mean, Sima Yi? You want us to waste the only elixir pill that you have? Or do you want us to give the pill to the monster language first to make sure it's okay?"

Ouyang Changhong sneered again and again. He had an expression that said, "I've already seen through your intentions, so don't try to lie to me."

The guy's counterattack made it clear that Lin Yi really did have ulterior motives.

Chapter 8137

"I've already said it. It's up to you to believe it or not. I'm just reminding you!"

Lin Yi shrugged. The hall master's guilt was only worth this much!

"A reminder? There's no need for that, let's not talk about whether you know alchemy or not, even if you do, you don't know as much as I do!"

Ouyang Changhong took the chance to mock Lin Yi again, but Lin Yi didn't even bother with him.

The first hall Master was definitely biased towards the Ouyang brothers. When he saw that the elixir was in his mouth but he could not eat it, he was instantly displeased.

"Who are you? What did it do? Why do you want to affect my healing?"

While questioning Lin Yi, the first hall Master also signaled for Ouyang Changhong to feed him the pill, in case anything happened and he couldn't recover!

Ouyang Changhong glanced at Lin Yi smugly and quickly put the pill to the first hall master's mouth, "Clan leader, this brat is called Sima Yi. He's someone that the Vice clan leader of the language of existences inserted. He doesn't have much strength or ability, but he's the honorary Vice President of the combat Association!"

"Is that so? Since when did our martial Alliance's branch become a shelter for trash like this?"

The first hall Master snorted and gasped for breath. After a while, he continued, ""Get him out of here ..."

Ouyang Changqing and Ouyang Changhong were overjoyed and quickly summoned the guards to chase Lin Yi out.

"First hall Master, I'll give you one last piece of advice. Don't consume this poisonous pill. Otherwise, I'm afraid you won't live past tonight!"

Lin Yi looked at the first hall Master indifferently. Since you don't know what's good for you, then so be it!

Of course, this was Lin Yi's last attempt at persuasion. If the first hall Master wanted to die, then just go and die!

"First hall Master, please calm down. Vice President Sima was only worried about you. Perhaps there were some offensive words, but he had no ill intentions. Please don't be angry, first hall Master!"

The beast struggled to get up, begging for Lin Yi's mercy.

He couldn't even protect himself, and yet he still stood up for Lin Yi like this. Whether it was useful or not, Lin Yi would remember this favor.

"Hehe, vice Hall Master, you call this worried? What did he mean by a verbal conflict? It's simply ridiculous!"

Ouyang Changhong sneered and cupped his hands at the first hall Master, "Hall Master, Sima Yi is clearly looking down on the hall Master and cursing him. This kind of person has no right to be the honorary Vice President of the combat Association, let alone wear the gold badge!"

"I suggest that Hall Master remove Sima Yi from his position as the honorary Vice President of the combat Association, take back his gold badge, and expel him from the martial Alliance branch!"

Lin Yi didn't really care-honorary vice guild leader or gold badge didn't really matter, but beast language was excited.

It wasn't easy for him to get Lin Yi on his side, and he saw Lin Yi train a powerful team with just a few tricks. How could he just kick them out so easily?

"Hall Master ... Cough, cough, cough, cough ... Hall Master, you can 't! Vice President Sima ... Cough, cough, cough, cough ..."

In a fit of anger, Hua Yu could not even complete his sentence, and his originally pale face turned red, showing an abnormal color.

"Vice Hall leader Hua, don't be so agitated! The combat Association is under your jurisdiction. I will not interfere!"

The first hall Master was also a little weak. He slowly said word by word, ""In the future, you'll have to reorganize properly. Don't just recruit anyone into the martial Alliance and give them a noble status out of thin air!"

She didn't say that she was going to kick Lin Yi out, but it was obvious that she was trying to hit the language of the living things.

Ouyang Changhong felt that it was a pity-he'd be able to vent his anger if he could get rid of Lin Yi in one go.

As long as he could take back Lin Yi's gold badge, they would no longer be on the same level. He could do whatever he wanted to Lin Yi.

"Hall Master ... Cough cough cough ... Let me explain ... Cough cough cough ..."

The language of beast transformation wanted to tell the first hall Master that Lin Yi was most likely an array Grandmaster. Not to mention the honorary Vice President of the martial union branch combat

Association, even if he went to the martial Union of the continent, he would be able to take on a higher position!

Unfortunately, the more anxious he was, the more he couldn't speak. His injuries, which could have lasted for one or two days, rapidly deteriorated. Before he could finish speaking, he spat out a few mouthfuls of black blood.

If he didn't have any treatment methods, he most likely wouldn't be able to survive today!

"Vice Hall Master Hua, you'd better take care of yourself. Don't worry about other trifles!"

Ouyang Changqing chuckled and shook his head. He was secretly satisfied with his old rival's state. "Without any special pills to heal you, I'm afraid you're the one who won't live through the night! Forget it, you can say whatever you want. I don't have much time left, and I don't want to argue with a dead person like you. "

While they were talking, Ouyang Changhong had already given the pill to the first hall Master.

The first hall Master didn't care about Lin Yi's warning and swallowed the pill immediately.

The elixir melted as soon as it entered his mouth, and the first hall Master was shocked by the cool feeling.

The pill quickly took effect. Soon, the first hall master's face turned red at a speed visible to the naked eye. His aura also recovered rapidly, as if all his injuries had been healed in an instant.

"Hahaha, this is truly a miraculous elixir. I feel that my injuries have fully recovered. Although I haven't returned to my peak state, I will be back to normal with a little rest!"

The first hall Master looked at his hands and felt the power in his body. He couldn't help but laugh out loud,""Vice Hall Master Ouyang and vice Hall Master Ouyang are indeed alchemy experts. It's my good fortune to be able to refine pills with such miraculous effects!"

"First hall Master, you're too kind. It's all because of your good fortune. You just happened to have the right prescription for the spirit pill. We didn't play much of a role in it. We only refined it!"

Ouyang Changqing was humble and polite, but his expression was very proud.

After saving the first hall Master and killing the artifact language, his status in the martial League branch would be high.

Apart from the first hall Master, only the executive Vice Hall Master could suppress him. Or rather, he already had the capital to compete with the executive Vice Hall Master!

"Sima Yi, did you see that? you've been slapped in the face, right? The first hall master's injuries have fully recovered, your curse is meaningless, it will only make you look like a Dancing Clown!"

Ouyang Changhong was extremely pleased with himself, mocking Lin Yi as much as he wanted, his mouth never stopping.

Lin Yi didn't say anything, but looked at the first hall Master with pity. This guy didn't listen to advice and wanted to die. He couldn't be pulled back!

Beast whisper was so angry that he was shaking, and his injuries were getting worse. He didn't want to stay here any longer, so he struggled to get up and called Lin Yi, ""Brother Sima, let's go!"

If they left this place, they could still live a little longer. If they stayed here and were mocked, they might vomit blood and die immediately!

Chapter 8138

Lin Yi nodded slightly and walked out of the room with the beast's help. He didn't even greet the first hall Master and the others. What was the point of greeting them?

Anyway, he would die soon, so it didn't matter if he said hello or not.

The first hall master's expression was a little complicated. This time, he and the monster had gone out to carry out a mission together. They had both escaped with injuries. No matter what, they were life-and-death friends. However, he only had one elixir. For his own sake, he really could not save the monster.

If he couldn't calm down, the guilt would probably turn into killing intent. In order to not face this guilt again, he just wanted the monster to die!

And so, the first hall Master had been letting Ouyang Changqing and Ouyang Changhong do whatever they wanted with the language of living things, and Lin Yi was deeply disappointed.

It was a tragedy for the martial Alliance branch that such a person could become the first hall Master!

The first hall Master looked at the monster language's back and his expression changed. In the end, he sighed. Only he knew what he was feeling.

In fact, he did not have any resentment towards the language of the living. Instead, they had been through life and death together, so they had some friendship.

However, he felt that the monster language was too straightforward and brainless. Even if he didn't die this time, he wouldn't be able to put it in an important position.

In comparison, Ouyang Changqing was more tactful and was more suitable to handle more important matters.

The first hall master's mind was a mess, and his thoughts kept changing. When the first hall Master returned to his room with Lin Yi's help, his face was as pale as a sheet of paper.

His aura was also extremely weak. It was obvious that the confrontation just now had a huge impact on him, causing his injuries to deteriorate rapidly. If he did not get treated soon, he would not be able to survive the night.

"Brother Sima ... It's been hard on you ..."

The artifact language didn't have time to rest. Half lying on the bed, it said with a bitter smile, ""I can't hold on much longer ... You don't have to stay in this martial Alliance branch!"

He seemed to have entered the stage of last radiance before death. Although he was short of breath, his words were clear. "When I'm gone, brother Sima, don't come to the martial Alliance branch. Focus on teaching and educating people at the Alliance establishment Academy, so that you won't be targeted by Ouyang Changqing and the others!"

He knew that if he was finished, Lin Yi would be the target.

Lin Yi was a Grandmaster, but he wasn't strong enough to defend against Ouyang Changqing and the others.

Rather than that, it would be better for him to leave the martial Alliance branch and stay in the Alliance establishment Academy. Only then would he be able to ensure his own safety!

"After a while, when the limelight has passed and Ouyang Changqing and the others have forgotten about you, you can come out and move around ..."

Then, the monster coughed violently again, and its breath became weak. ""...Let's go! Brother Sima, you should leave quickly ... Ouyang Changqing and the others might come to deal with you in a while!"

"Vice Hall Master Hua, you worry too much. If I leave, who will heal you? If you don't heal your injuries, you'll really die!"

Lin Yi was touched-he was about to die, and yet the monster language was still worried about him. It didn't matter if he was dying or not, he'd remember this!

Lin Yi didn't want to waste any more time, seeing that the monster was getting worse. He took out a Mystic first level great recovery pill and an antidote.

These were all from the last time he made them, and luckily he still had a lot in the Jade space. Otherwise, he wouldn't be able to use his pure energy on the sub Island, and could only make some low-level pills.

"Vice Hall Master Hua, don't worry. Your injuries are fine! I don't even need to leave, they will come and beg me!"

Lin Yi said as he put the pill in Hua Yu's mouth.

Monster language was a little taken aback. He wanted to say that Lin Yi's pill wouldn't work if it wasn't for the right medicine and that it would be a waste to give it to him, but Lin Yi stuffed it in before he could say anything.

It was as if he was taking the medicine.

The antidote pill melted in his mouth, and the assimilation language didn't even have time to spit it out. He sighed and was about to say something like "I shouldn't waste the pill" when he felt his body relax a lot!

The poison ... Was removed?

The artifact language was really shocked. Most of his injuries were internal injuries, and a small part was poison.

However, the poison had affected his internal injuries, causing them to worsen. If he could not detoxify it, it would be useless to just heal his injuries.

The doctors from the martial union branch were helpless against this poison, but Lin Yi just took out a random pill and cured it instantly?

What kind of godly pill was this?

Or was it because the poison was too deep that she was hallucinating?

The monster was dumbfounded as it felt the poison in its body dissipating. It opened its mouth but did not know what to say.

Lin Yi stuffed the pill into the story of evolution's mouth without a second word.

It just so happened that his mouth was wide enough to stuff it in!

It melted in his mouth and had the same magical effect. In the blink of an eye, monster language felt that his internal injuries were healing at an amazing speed.

Without the poison's interference, coupled with his own strong physique, this recovery speed was simply heaven-defying.

In a breath's time, he had already recovered by more than half!

"F * ck! Brother Sima, what kind of immortal pill did you give me? It's simply unimaginable!"

The artifact language jumped up from the bed and couldn't help but curse. He couldn't vent his shock if he didn't say it!

"It's not an immortal pill or a wondrous medicine, it's just an antidote pill and a healing great recovery pill, nothing special! You don't need to take it to heart!"

Lin Yi waved his hand casually. He couldn't even be bothered to sell a pill of this level-it really wasn't much.

But he didn't believe in the language of the living things! Although he had never seen these two pills before, he could tell that they were of the highest quality. After taking them, he was even more certain that they were not only of the highest quality, but of the celestial quality!

It looked like he was about to die, but he was fine after eating it. It was too magical!

"Brother Sima, don't lie to this old brother. These are such good pills, and you say there's nothing special about them. Then you can give this old brother a dozen each!"

Hua Yu was in a great mood after escaping death. She suppressed her shock and joked with Lin Yi.

Lin Yi laughed. He wasn't going to give them a dozen or so pills.

They were all in storage, and one pill was one pill less after one use. Although there were still a lot of them, they had to be kept in case of an emergency.

In fact, Lin Yi himself didn't think that the effects of these two pills would be so amazing. He thought about it carefully and realized that there was no pure energy on the sub-Island, and the body was the foundation. The healing pills would be more effective.

If it was an injury related to true Qi, the speed of the great cyclic pellet would definitely not be so fast.

"Hahaha, don't mind me, younger brother Sima. I was just joking, I didn't really want your spirit pill!"

He explained immediately, afraid that Lin Yi would be unhappy.

After all, in his opinion, the pills Lin Yi took out were his trump cards. How could he have a lot of them?

Chapter 8139

It was already a great favor for him to take it out to save his life. If he wanted more, he really didn't know what was good for him.

"No matter what, this time you saved me, brother Sima. I can't thank you enough. In the future, if there's anything I can do for you, as long as you ask, I'll definitely not say anything!"

"Brother Hua is too polite, no need to be so polite!"

Lin Yi changed the way he addressed him, and vice-leader Hua sounded a little distant. The language of transformation was overjoyed to hear that-calling Lin Yi his brother was something he couldn't ask for more. He'd only called him brother before, and Lin Yi never responded.

This time, he had finally gotten what he wanted. It should be a blessing after surviving a great disaster, right?

"I don't have a dozen, but I still have a great recovery pill here. Brother Hua, you should keep it with you in case you need it!"

Lin Yi smiled as he took out another Jade bottle.

"Ah?"

Hua Yu was shocked and said subconsciously, "Isn't this too precious? I can't take it ..."

The artifact language quickly waved its hand and declined.

Although he didn't know the value of this pill, he could tell from the healing effect that it was not an ordinary item. It must be priceless.

"Brother Hua, since you treat me as your brother, then take it!"

"I'll let go if you don't want it, but I don't care if it's broken!" Lin Yi pushed it out.

"This ... Alright!"

Since Lin Yi said so, the language of monsters could only accept it. "However, younger brother Sima, you really surprised this old brother! If I didn't know your background, I would have thought that you were a disciple from one of those super powerful families ..."

The artifact-whisper put away the Jade bottle and said with a smile. Then, he noticed something was wrong and changed the topic. "That's right, where did you get these pills, brother Sima? I've never seen this before!"

"Brother Hua, you mentioned the Super-families just now. Can you tell me more about them?"

Lin Yi's face changed as he asked seriously, ""I've never heard of it before, but I'm very interested to hear it. "

"Haha ... Haha ... Actually, it's nothing much ... I just heard that super-powerful families are super rich ... Younger brother Sima, let's talk about something else?"

Hua Yu laughed a few times, obviously not willing to say more.

"Brother Hua, what kind of secret is this? do you need to hide it from me?"

Lin Yi sighed and looked at the transformation language, not saying anything. So this was what it meant when it said it'd say no.

The artifact language was embarrassed. It could only smile bitterly and wave its hand."Brother Sima, it's not that I want to hide anything from you. It's just that the martial Union has a ban. Those who talk about feudal lord families without permission will be sentenced to death! Not to mention the super-powerful families! Only the Kings of the feudal lord families are qualified to be called super families!"

Although there was a ban, the artifact language still revealed some information.

Lin Yi couldn't help but sigh-the more he knew, the more ignorant he felt!

He had thought that the sub-Island was a small place, with Luling city, jianchun sect, and other strong forces. He did not expect that it was just a corner of a Commandery!

Moreover, Commandery was on the border of the kingdom, not to mention that there were also empires and conferred empires!

He had just thought that martial League was the giant of the sub-Island, and now a feudal lord family or super-family had appeared. Even martial League had to issue a ban to not talk about it without permission, so how powerful was it?

As expected, it was still his own strength that was not enough! Only when one's strength increased could one's level be raised!

"Since it's difficult for brother Hua, then I won't say anymore!"

Lin Yi didn't force the issue-he'd have a chance to know more in the future, after all."Brother Hua, this little brother wants some alchemy materials. I wonder if brother Hua can help me collect them?"

The materials were prepared for tu getao, and if Lin Yi wanted to collect all of them himself, he'd have to spend a lot of time and energy, and it might not even work.

But if he handed it to the language of the monsters, it should be fine!

"No problem! If you want some herbs, I have them here. Can you see if they're enough?"

The monster language immediately found a pile of spiritual herbs. Although he didn't make elixirs himself, he could collect herbs and ask people to make elixirs for him. Therefore, he had a lot of spiritual herbs in stock.

Lin Yi rummaged for a while and only found a few commonly used ones. "Brother Hua, this is far from enough. I have a list of things I need, you can take a look first."

The artifact language took the paper from Lin Yi and opened it up, looking troubled. "Brother Sima, among the spirit herbs on this, there are a few that are very rare and not easy to obtain!"

"It was easier in the past, but it's hard to say now ..."

Lin Yi understood what he meant-the elixirs were basically all controlled by The Alchemist Association, and it would be very difficult to get the elixirs they needed from them with the relationship between Lin Yi, the language of monsters, and the Ouyang brothers!

"But don't worry, no matter how difficult it is, this old brother will find a way to help you prepare these spirit herbs! It's just that it might take a longer time!"

The artifact language intended to buy spiritual herbs from other areas. With his reputation, he was not at his wit's end. "Speaking of which, even if you have all these spirit herbs, brother Sima, it's going to be hard for you to find an Alchemist to refine pills for you, right?"

There would be no way The Alchemist Association would help Lin Yi after he offended Ouyang Changqing and Ouyang Changhong!

"This little brother is very grateful that brother Hua can help this little brother prepare all of them. As for The Alchemist matter, brother Hua doesn't need to worry about it, this little brother has his own way!"

Lin Yi made it sound easy, but he didn't know what to do.

The difficulty of making this pill wasn't low, and Lin Yi might not be able to make it himself. Of course, it would be a different story if he had pure Qi.

Hua Yu nodded. He wanted to test Lin Yi. If Lin Yi could take out such a high-quality pill, he must have at least a master alchemist behind him, if not a super-rich family!

If Lin Yi said he had a way, it was probably this mysterious alchemy master!

Since Lin Yi didn't say much, the beast language didn't ask.

It wasn't a good topic to talk about, so they changed it to something else. Time flew by as they chatted.

Lin Yi could've gone back to the Alliance School, but he'd stayed to see the results, thinking that the first hall Master would be in trouble.

In the evening, the first hall Master really had a problem. His injury, which seemed to have recovered, suddenly broke out and worsened rapidly. Before the people next to him could react, he vomited a few large mouthfuls of blood.

The entire martial Alliance branch instantly became chaotic. Someone immediately found Ouyang Changqing and Ouyang Changhong!

Lin Yi's divine sense had been monitoring the movements in the martial union branch, and he saw the chaotic scene outside the first hall master's house, as well as the Ouyang brothers who were rushing over.

Chapter 8140

"Brother Hua, first hall Master seems to be dying, let's go and see what's going on!"

He'd been talking to Hua Yu for a long time, and just as he was running out of topics to talk about, this happened. Lin Yi invited him to watch the show with him.

"Hasn't first hall Master already recovered? Why is he suddenly dying?"

The monster language was slightly stunned. He didn't hate the first hall Master for eating the only elixir and ignoring him. After all, everyone had their own selfish motives. Very few people would sacrifice themselves to save others!

Besides, the two of them were severely injured by the monster language, so it might not be effective to take the pills. However, the first hall Master was different. He had a higher chance of recovery!

"I told them that there was a problem with the order Ouyang Changqing and the others refined the pills in, causing the pills to be poisonous, but they didn't believe me! I even advised the first hall Master not to eat it, as he wouldn't be able to survive the night if he ate it, but he didn't believe it either!"

Lin Yi shrugged and spread his hands helplessly. "I can only help them up to this point, what else can I do?"

"Let's go and take a look at the situation!"

The artifact language didn't dare to delay and dragged Lin Yi to the first hall Master.

At this time, in the first hall master's room, Ouyang Changqing and his brother were looking at each other in confusion.

"How could this be? It didn't make sense! Why is it like this?"

Ouyang Changqing mumbled to himself as his head buzzed. He couldn't understand why a person who had clearly recovered would suddenly deteriorate like this.

"You've been taking care of the hall Master. What happened? Hurry up and give us an explanation!"

Ouyang Changhong grabbed the two physicians and berated them sternly. He was already thinking of throwing the blame on the two physicians!

"We don't know! He didn't do anything and the hall Master was already like this! It's really none of our business!"

One of the doctors was shocked and shook his head, not knowing how to explain.

The other one was a little more observant and quickly helped to push the blame away. "The first hall master's injuries were too severe. Even though vice Hall Master Ouyang and vice Hall Master Ouyang had given him pills to treat him, he was still unable to fully recover. Now that his injuries have reappeared, it's no longer something that can be salvaged by manpower!"

"Yes, yes, yes. Now that the hall master's injuries are beyond cure, let's inform everyone to come and see the hall Master for the last time!"

The doctor from before quickly agreed and even judged that the first hall Master was dead.

At this moment, the Vice Hall Master, Gu Lishi, who was out on a mission, returned. When he heard the doctor's words, he was furious, ""What's going on? Why can't the hall Master be cured?"

"What are you guys doing? Did martial League feed you for nothing? Before I came back, I received news that the hall master's life was not in danger. How did he end up like this?"

"Speak! Did you guys do something to it? Who was it? Who's trying to kill the hall Master?"

Looking at his indignant and loyal appearance, people who didn't know would really think that he was a hardcore supporter of the first hall Master, but in fact, he and the first hall Master were only United on the surface but divided on the inside.

The first and second-in-command of the martial Alliance's branch weren't that harmonious. Most of the time, everyone had to fight for their own power. Even if they had a good relationship, conflicts would still arise due to their standpoint.

Ouyang Changhong's eyes turned and he suddenly cupped his hands. "Vice clan leader Gu, clan leader's injuries had already recovered, but someone placed a curse on him, causing his injuries to worsen rapidly! This matter must have been caused by the curse!"

"A curse? Who was it? Who would dare to use such an evil method!"

Gu Shi squinted his eyes slightly, and a murderous look flashed in his eyes.

On the sub-Island, there were indeed curses and similar methods. For example, the great witch of ghost Yin's ghost Yin curse technique was passed down by the Sorcerer tribe. With Gu Shi's level, he naturally knew about it.

"Sima Yi! This man was recruited into the martial union branch by the artifact language and was appointed as the honorary Vice President of the combat Association. Before the hall leader took the pill, he said that the hall leader would not live past tonight!"

Ouyang Changhong didn't feel any guilt at all when he tried to frame Lin Yi-he was starting to believe that it was true!

To make him admit that there was a problem with the pill refinement, that was impossible even if he was beaten to death!

"Then, take a good look and see if the first hall Master has been cursed by the Sorcerer tribe!"

Gu Shishu frowned and asked.

"Vice clan leader Gu ... Clan leader's injuries are deteriorating rapidly. There are no signs of a curse ..."

One of the doctors said in a low voice.

He didn't mind throwing the blame on others, but there had to be evidence for curses!

If he spoke nonsense without evidence and then blamed it on them later, he couldn't afford to take the responsibility!

Ouyang Changhong's face turned black, but he could not refute in front of Gu Shi. He could only yawn and say, "There's no trace. It's probably because your level isn't high enough. It could also be that Sima Yi's curse Arts are of a higher level!"

"Even if he isn't, what Sima Yi said has a huge impact! You have to know that treatment has a lot to do with one's mood. It's not impossible for one's injury to worsen due to psychological cues, right?"

"As the saying goes, medicine can not cure an illness. No matter how good the pill is, people have to believe that the pill can cure it. The hall master's recovery earlier was due to the pill's effect, but his confidence was hit by Sima Yi's psychological suggestion, which resulted in this situation."

Gu Shi expressionlessly listened to everything, but he did not comment. Ouyang Changhong's nonsense seemed to make sense, so he was thinking about how to deal with it.

"Vice clan master Gu, let's capture Sima Yi first! To prevent him from escaping, this brat will most likely run away!"

Ouyang Changqing coldly suggested.

He had a very good relationship with Gu Shi. In fact, Gu Shi was a powerful ally behind Ouyang Changqing. Since Gu Shi's position was half a rank higher, he was the leader.

Both the managing vice Hall Master and the Vice Hall Master wanted to gain more power, so it was normal for them to work together to fight against the first hall Master.

However, Ouyang Changqing also had the idea of arm-wrestling with Gu Shi, but he had been hiding it very well!

Ouyang Changqing suggested that Gu Shi capture Lin Yi because he wanted Gu Shi to deal with Lin Yi, and also because he felt that the language of living things was going to die soon, so he wanted to take this opportunity to get rid of Lin Yi!

"Bullshit! It's your own mistake, yet you want me to take the blame. It's ridiculous!"

Lin Yi was just outside the door when he heard Ouyang Changqing's words. He sneered and retorted, "The hall Master seemed to have recovered after taking your pills, but that was only the last radiance of his life, and he was overdrawing his last life force! Are you all blind? You only know how to lie through your teeth!"

"Hehe, I didn't expect you to still dare to come! His courage was really commendable! However, no matter how you explain, it's useless. Facts speak louder than words. After the hall Master took the pill, he was normal for a long time. It's not your so-called terminal lucidity!"

Ouyang Changqing blinked, evidently not expecting Lin Yi to come, but that didn't stop him from retaliating. "Did you come back to exonerate yourself? It's a pity that vice clan master Gu is very observant. No matter how you quibble, you can't hide from his eyes! Vice Hall Master Gu, please make the decision!"
