

## Bodyguard 8151

### Chapter 8151

The Golden class level Seven recover pill wasn't of much use to Lin Yi himself, but he was severely lacking in pills right now. He'd save as many as he could.

The doctor Who went to report to Lin Yi couldn't take it anymore. He hmped coldly and pointed at the servant, "You little brat, you really have no eyes! Why don't you know how to be grateful?"

"Our Medical Hall really doesn't have any pills that can save your young master. Just now, it was our President Sima's own pill! This kind of life-saving medicinal pill, who would easily take it out and give it to others? Now that I've taken it out to save your young master, not only do you not thank me, you even have the face to criticize our President Sima. You're simply repaying kindness with ingratitude!"

"This ..."

The manservant's face reddened. Thinking back to the situation just now, he realized that he had been a little impetuous.

However, he could not bring himself to apologize and thank him. For a moment, he could only pretend to help the young man on the stretcher up, as if he could not hear anything to avoid the awkwardness.

After the young man on the stretcher took the pill, his injuries recovered quickly. He had already regained his consciousness and some strength. With the help of the servant, he could barely stand up.

"You're in the wrong in this matter. Hurry up and apologize to President Sima!"

The young man stood up and scolded his servant before forcing himself to raise his fist and bow to Lin Yi. "Many thanks for President Sima's life-saving grace. My family's servant didn't know any manners and offended President Sima. Please forgive me!"

Although he couldn't speak and was a little confused, as a martial artist, he was still clear about what was happening in the outside world.

So knowing that Lin Yi had saved his life, the young man was very grateful.

"President Sima, I'm sorry! I was rude just now and offended President Sima. Please punish me, President Sima!"

The servant obediently lowered his head and admitted his mistake.

The servant didn't dare to disobey his young master's orders and carried them out perfectly.

"Forget it, it's just a small matter. There's nothing to thank me for! I can understand your feelings. Since you've saved her, there's nothing else. You can go!"

Lin Yi waved his hand nonchalantly. He didn't really mean to save her, and he didn't need her gratitude or apology.

"President Sima is truly a modest gentleman, repaying evil with good and not seeking repayment for kindness. However, how can saving a life be a child's play?"

The young man's face turned serious, full of admiration for Lin Yi's calmness. He quickly bowed and said seriously, "I can't thank you enough. I'll remember this in my heart and will definitely repay you in the future!"

As he spoke, the young man pulled off a red string around his neck and pulled out a Jade token from his chest. He presented it to Lin Yi with both hands.

"President Sima, please accept this Jade medallion. If you have the opportunity to visit the AO Qian conferred Empire in the future, you can use this Jade medallion to find me! If there's anything I need, I'll do my best to help!"

"This one still has some face in the AO Qian conferred Empire. This time, I've used up all my pills for this trial. Fortunately, I've received President Sima's help. This one will repay this favor with a fountain."

With that, the man raised his hands up high and lowered his body in front of Lin Yi.

It was as if he'd keep holding it up if Lin Yi didn't accept it.

Lin Yi didn't want to take it, but the young man was determined. He had no choice but to take it.

In any case, it was just a Jade token. If he didn't go to the AO Qian conferred Empire, it wouldn't have much value!

There was a round character on the Jade, the strokes curved. Lin Yi studied it closely and realized it was a "Ling" character.

He didn't know if it was the young man's family name, his name, or the code name of some organization.

But Lin Yi didn't mind. He put it away and didn't ask, "It's our duty to treat and save people in our clinic, so you don't have to take it to heart! Although my injuries are recovering, I still need to rest for a while. Take care of your body. "

"Many thanks, President Sima! President Sima is truly benevolent, this one admires you!"

The young man cupped his fist again and bid Lin Yi farewell, "This one still has matters to attend to, so I'll take my leave first. See you again!"

Lin Yi cupped his hands and said goodbye before seeing them out of the clinic.

"President Sima, it's a good thing you're here today. Otherwise, we wouldn't be able to deal with these people. If someone really died, they'd definitely cause a ruckus!"

The doctor from earlier had a look of lingering fear and relief on his face as he complimented his new boss.

In fact, it was very normal for people to die in the clinic. As the saying goes, medicine can not cure an illness. If a person was going to die, you could not save him no matter what.

It wasn't unusual for some conflicts to happen.

However, because they did not have any pills, they could only watch helplessly as the people they could save died. That was a completely different situation.

For example, if the young man really died in the medical Hall and the other party made a scene, the matter would definitely blow up.

That was Ouyang Changqing's goal, but he didn't think that Lin Yi still had a lot of stock left. It wasn't a big problem for him to use up a golden class level Seven recover pill.

"Today is an exception. I can't stay in the clinic all the time, and I won't always have pills to save people in time!"

Lin Yi shook his head and rubbed his eyebrows. "I'll think of a way to deal with this matter. You guys can continue with your own matters!"

"Yes!"

The few doctors agreed in unison and left to do their own jobs.

Lin Yi was still frowning after everyone left. He couldn't let this go on!

There was still a shortage in the quota for the Alliance Institute, and if the medical Hall opened it again, it would be a little hard to make ends meet.

There were too few kinds of elixirs that could be refined with pure consciousness elixir fire. The main method was to rely on true Qi elixir fire, but the sub-Island could not use true Qi elixir fire.

The sub island's elixir making skills, on the other hand, were too low-leveled for Lin Yi to solve.

Even if he could make some, Lin Yi wouldn't be able to make much if he didn't do anything all day. After all, he couldn't mass produce them.

As for the cowards that the alchemy Association had transferred over, he could not count on them at all.

Lin Yi had to think of a way himself to solve the problem.

"You all stay here and find something to do. Set up the shelf of the clinic. I'm going out for a while. We'll talk about the previous topic when I come back."

Lin Yi turned around and ordered the cowards, leaving the clinic without a care for what they thought.

The medical skills of the doctors in the medical Hall were not enough, so they could only rely on medicinal pills to make up for it.

After that, he would think of ways to slowly improve these people's medical skills.

If he wanted to get the pills quickly, Lin Yi had to find someone who could help him.

Nado central Chamber of Commerce!

He'd noticed a naduo central Chamber of Commerce not too far away when they were eating at the restaurant.

This was also why Lin Yi was so sure that the black card would allow him to spend at naduo Central's restaurant.

## Chapter 8152

No one dared to call Central's name in a territory with Central's influence, even if they had a powerful background.

Central wasn't an organization that was used to people. Whoever dared to impersonate them would be razed to the ground.

"Welcome to nado central Chamber of Commerce, Sir. What would you like to buy?"

At the entrance of the Chamber of Commerce, the employee greeted Lin Yi warmly.

After all, Lin Yi's clothes and the martial Alliance badge on his chest all made him look noble.

Lin Yi waved his hand, getting straight to the point before the waiter could ask more questions. "Call Ling lingfa out and tell him that Sima Yi is looking for him!"

"What?"

The smiling shop assistant was slightly stunned, but he kept his smile and bowed slightly. "Sir, are you at the wrong place? We don't have someone by the name of Ling lingfa!"

"Then who's in charge of your side? Call him out!"

Lin Yi thought that Ling lingfa's identity was special, and he probably didn't have a position in the naduo central Chamber of Commerce. However, the people in charge here should know who Ling lingfa was.

"Our manager's surname is mo, not Ling lingfa. Also, he's not here. I'm really sorry. Why don't you come back another day?"

Although the shop assistant was still polite, his expression was already not very good.

After all, he wasn't too happy with Lin Yi's attitude the moment he came in.

Other shops would have the most customers, but the central Chamber of Commerce was different!

They were the ones who bullied their customers.

If it wasn't for Lin Yi's extraordinary aura, the guy would've flipped already.

"What about now? Can we talk to Ling lingfa or your manager nie now?"

Lin Yi didn't waste any time and directly took out Ling Ling's Black card and smacked it in the waiter's eyes.

The shop assistant was about to call for help after being patted for no reason, but when he took a closer look, he instantly bent down!

"So it's Your Excellency ... I didn't know about it earlier, so I apologize for my offense!"

The waiter's attitude immediately became extremely respectful, but his face had a bit of bitterness,"I beg Your Excellency to be wise. I really don't know who Ling lingfa is here. Our manager nie really has some matters to attend to and has gone out ... Why don't you go to the back hall and serve some tea first? after a while, I'll make arrangements to find manager nie?"

How troublesome!

Lin Yi and the shop assistant had the same thought. The shop assistant thought that trouble was because he was afraid that Lin Yi would cause him trouble, but Lin Yi thought that trouble still needed to wait.

"Ling lingfa! Ling Ling fa! Hurry up and come out, I need to talk to you!"

Lin Yi shouted, his voice reverberating through the entire Chamber of Commerce.

If it weren't for the sound insulation of the buildings here, the entire Street would have heard it.

"My Lord, my Lord! Please don't shout anymore ... It's very difficult for a young one like you!"

The shop assistant begged Lin Yi with a sad face, but he didn't dare stop him.

Lin Yi's yelling might affect the customers, but he had a black card-the guy couldn't be offended.

"sir, i rely on this job to support my family. i have 80 halls in my family, and ..."

"alright, alright! nowadays, bandits who get killed in a robbery don't use such lame excuses anymore. you should go to the side and rest!"

Lin Yi impatiently interrupted the worker.

Ling lingfa was the only one who could solve the shortage of elixirs, and if he couldn't find Ling lingfa today, he wouldn't even be able to return to the Alliance Academy. Lin Yi didn't have the time to care about this guy's nonsense.

Lin Yi was shouting because he was sure that the central Chamber of Commerce had some sort of surveillance system.

This guy would probably know that he had been yelling for Ling lingfa.

Sure enough, while they were fighting, an iron can suddenly flew out from inside.

In an instant, it stopped in front of Lin Yi, and Ling lingfa's voice came out, ""Stop shouting, come in with me!"

"Sir, this Lord wants to find Ling lingfa, and I really can't stop him!"

The shop assistant cupped his fists and bowed to the iron can. He took himself out first. "This Lord is holding our ..."

"There's no need to say anything, this Lord knows! Ling lingfa is this Lord, you go do your own thing, don't care about him!"

"Yes, this subordinate will do as you command!"

The shop assistant rolled his eyes secretly. So the gray-robed man's name was Ling lingfa, you should have told us earlier!

He cursed in his heart, but he still apologized to Lin Yi on the surface, showing that he didn't stop him on purpose. He really didn't know that the grey-robed man was Ling lingfa.

Lin Yi didn't have time for these small things-he waved him away and followed the can into the inner hall.

They came to a quiet room, and Ling lingfa sat down at the main seat. She invited Lin Yi to sit down before asking expressionlessly, ""What exactly do you want to do by coming to me with such a big flag?"

"I don't come to you without a reason. It's an emergency, otherwise who would be willing to come here!"

Lin Yi curled his lips, not beating around the bush,"let's get straight to the point!" I want you to help me design a batch of automatic alchemy furnaces suitable for the sub-Island environment. They can transform the attribute Qi that people input into the alchemy fire for automatic alchemy. "

"It's too complicated! I refuse!"

Ling lingfa's poker face remained unchanged as he rejected Lin Yi without even thinking, ""The automatic alchemy furnace is something you made. Why don't you make it yourself? why do you look for me?"

"Nonsense, if I could do it myself, would I still look for you?"

Lin Yi didn't hold back at all as he rapped his fingers on the table, "Don't be in such a hurry to reject me. My requirements aren't high. I don't need any intelligent program, and I don't need to refine any high-grade medicinal pills."

"What I want is an automatic alchemy furnace that can mass-produce low to mid-grade elixirs, and it doesn't have high requirements for the operator. Do you understand what I mean?"

"I understand, but why should I help you?" Ling lingfa replied. I already said that this is a troublesome matter! Low-and mid-tier pills aren't of much help to you, so what do you want them for?"

"Ha ... Look at what you're saying! Didn't you lie low? We're on the same side, aren't you going to help us with this small matter?"

With that, Lin Yi narrowed his eyes and smiled.

Ling lingfa said that he was a spy, and since he was, of course, he had to help Lin Yi. "It's not like your Center hasn't made an automatic alchemy furnace before. With this Foundation, it'll be done with a little improvement. It's definitely not difficult!"

"You say it so easily! You know that I'm a spy. If I help you like this and the higher-ups investigate me later, will you be responsible for the consequences if I'm exposed? Can you take responsibility?"

Ling lingfa rolled his eyes and refused.

Lin Yi thought about it for a while, and felt that Ling lingfa's words made sense. "Then tell the higher-ups that I'm here to discuss cooperation. This is a deal! If you help me get an automatic alchemy furnace, I can promise to return to the secular world and help you get a batch of materials!"

The materials he'd gotten last time had given the sub island's central force a qualitative leap. Normally, Lin Yi wouldn't have offered such a condition.

Chapter 8153

However, since Ling lingfa was a spy, no matter how the power of the sub-Island changed, it was still within the scope of control.

So Lin Yi wasn't too worried.

In fact, when Lin Yi went back to the secular world to get the materials, he could go to Sky Class Island through the wormhole and ask Han Jing Jing for help.

It was just that distant water could not quench present thirst. If the matter of medicinal pills here could not be resolved, he would probably be expelled by the Academy.

Ling lingfa rubbed his chin with his right hand. "If that's the case, it's not impossible ... But we still have enough materials on our side, so we don't have a shortage for now! I'll put it on your account first, just don't go back on your word!"

"Of course I won't! When did you hear that I would go back on my word? Don't worry, just look for me when you need it!"

Lin Yi patted his chest, indicating that he was a man of his word.

"I'll believe you this time! I'll help you design an automatic pill furnace, how much do you want?"

Since Ling lingfa had agreed, they immediately got to the main topic.

Sure enough, in his eyes, it was not that this kind of alchemy furnace could not be made, it was just whether he was willing to make it.

"I'll start with a 30 or 40-year-old one. Get it out as soon as possible. If I need it later, I'll continue to ask you for more."

Lin Yi calculated that this was enough.

Because it had the function of mass-producing pills, 20 or so pills were enough. Keeping some as backup was foolproof!

Ling lingfa couldn't help but roll his eyes. Why did it feel like this automatic alchemy furnace was like a cabbage that could be casually pulled out?

"I know, I know. I'll think of a way to get it done. You should go back first! I'll send it over to you if I have it!"

The tone of his voice was as if he was delivering a God of plague.

Lin Yi's lips twitched-he didn't want to argue with Ling lingfa. As long as this guy could get things done, it was fine!

After confirming the matter, Lin Yi could finally put down a huge stone in his heart.

Although they didn't have an automatic alchemy furnace immediately, the quota for the Alliance establishment Academy's elixirs wasn't going to be filled immediately.

At least there was still half of it left, so he could hold on for now and make up for it later.

Lin Yi and Ling lingfa didn't have much time to chit-chat, so he left after this was done.

The clinic didn't have an automatic alchemy furnace, and there wasn't much he could do for now. He decided to go back to the school first and talk to the Dean.

Then, he would use this free time to sort out the medical books collected by Wu Linghai. Perhaps he could help the doctors in the medical center improve their medical skills.

"instructor sima, the dean has instructed that you should immediately go and find him after you return!"

the guards at the entrance saw lin yi and immediately went to inform the dean.

the old man couldn't rest easy knowing that lin yi was busy with the quota.

so as soon as lin yi left, he ordered the guards to wait for him. even if they had to change shifts, they had to make sure everything was settled.

"good! i'm also going to look for the dean!"

lin yi nodded and went straight to the dean's office.

The Dean didn't even step out of the office. At first, he was waiting for Lin Yi's news, but later, he was purely waiting for Lin Yi.

He had already received the news!

"Dean, you don't have to worry about the quota of pills. Although there will be some delays ..."

Lin Yi cupped his hands in greeting after entering the room, but the Dean grabbed a copper paperweight and threw it at Lin Yi's head before he could finish his sentence.

Fortunately, Lin Yi reacted quickly and dodged the attack. He only felt a strong wind blow past his head, and then he heard a loud boom-the paperweight had made a hole in the wall.

"Sima Yi! You still dare to come back and lie to this old man? What did he mean by not having to worry about his pill quota! You don't have to worry because this year will be like this, right?"

The Dean's beard was shaking as he cursed at Lin Yi, looking for something to hit him with. "Do you think I'll still be kept in the dark by you and allow you to fabricate lies to deceive me?"

"No, director, please calm down. What's going on?"

Lin Yi was a little confused-he'd been working so hard all this while, all for the sake of getting more pills for her!

Even if he didn't have any credit, he had worked hard, right? Was there a need to smash him to death as soon as they met?

"What's going on? You know it clearly in your heart, so why are you asking me?"

The Dean had been drawing for a long time, but he didn't have anything handy. He only had one copper paperweight and a clear mud inkstone that was heavy enough. He had just picked it up, but he subconsciously put it down again.

This was an antique, and it didn't matter how much it was worth-as the saying went,"a thousand gold can't buy a good thing." The Dean liked this ink stone the most, and it was too much of a waste to use it on Lin Yi.

After putting down the clear mud inkstone, the old man searched around again. They were all things he liked, but they were easily broken.

It wasn't like the copper paperweight, which was really thick and wasn't afraid of being broken.

In the end, he slammed the table and pointed at Lin Yi."You think you can make up lies to deceive this old man? don't you know that Ouyang Changqing has already sent someone to inform me that although you, Sima Yi, are the honorary chairman, you have been assigned to manage the medical Hall!"

"From now on, the other Affairs of the alchemy Association will have nothing to do with you. You will have no right to interfere with the quota of pills! This year, our Alliance Academy's share will only be half of the previous years '. There's no room for discussion!"

Lin Yi suddenly realized that it was Ouyang Changqing behind all this.

It was likely that he had spies in the Alliance Academy who had obtained the agreement between the Dean and him regarding the quota of pills.

"director, listen to me ..."

lin yi wanted to tell the old man that even if the association didn't care about the quota, he'd find a way to make up for it.

unfortunately, the dean didn't want to hear lin yi's explanation.

"what else is there to say? you want to argue? in front of this old man, this method is not effective at all!"

The Dean's face was full of anger as he continued to point at Lin Yi's nose, "You were just saying that there would be no problem if you showed up, but what happened? What did you do? It only made the Alliance Academy a laughing stock of the alchemy Association once again!"

"Sima Yi, you really don't care about the Academy's interests at all. This old man has seen through you! Even if you don't work in the Academy anymore, you still have a way out of the martial Alliance's branch, so you don't care about the Academy at all, right?"

Lin Yi slapped his forehead and waved his hand. "Principal, you've misunderstood. I'm not ... There's indeed no way to distribute the pills, but I can make up for the Academy's lacking pills in the future!"

"Big words! How many pills do you think the Academy is lacking? One or two? Three or four? Or eight or ten? you think you can make up for it just because you say so?"

The Dean's face was full of ridicule. After losing half of his quota of medicinal pills, the old man was indeed burning with anxiety. He didn't even care about his usual demeanor, "As expected, Sima Yi, you're really invincible when it comes to bragging. You can even make a lie sound like it's real!"

Chapter 8154

at this moment, a few other instructors arrived at the door. they were all familiar faces.

people like wang ba, gao zi, and gu fengji, for example, didn't have a good relationship with lin yi.

as soon as she entered, wang ba started to clamor, ""dean, we've all heard about the issue with the quota of elixirs. it's said that it's because sima yi offended the alchemy association that this happened!"

"on what basis? why should we bear the burden of the trouble he caused?"

"Yes, yes, yes! He's the one who caused trouble, so he should bear the consequences himself and not implicate our Academy!"

All of a sudden, the instructors started criticizing Lin Yi.

This matter concerned the quota of medicinal pills, it was their vital interests, so they naturally would not be willing to let it go!

These people weren't happy with Lin Yi in the first place, and as soon as they received the news, they came to the dean's office to impeach Lin Yi.

"Dean, I think we should suspend Sima Yi first, then let him write a sincere apology letter and send it to the alchemy Association. Then, we can ask someone to mediate, and maybe we can restore our Academy's quota of elixirs!"

Wang Ba and Gao Zi waited for everyone's emotions to calm down before mentioning the main purpose of their visit-to suspend Lin Yi!

It didn't matter if this could calm Ouyang Changhong's anger or not-he'd achieved his goal of taking care of Lin Yi!

No matter how the situation developed, Lin Yi's career as a mentor at the Alliance Academy would be over once he was suspended.

This was naturally something to be happy about for Wang Ba, Gao Zi, and the others!

The Dean frowned. He wanted to kick Lin Yi out, but these people said it was just a suspension? Isn't this too light?

"Sima Yi, do you understand? Being suspended is already a lenient punishment for you. You have to apologize to vice guild leader Ouyang! Only by obtaining his forgiveness will we be able to restore our Alliance Academy's quota of pills!"

Wang Ba demanded arrogantly, as if she were standing on the side of justice.

The Dean understood that if he kicked Lin Yi out right away, he wouldn't be able to ask him to apologize, and there would be no turning back.

As expected, suspension was a more reliable method!

Lin Yi smiled coldly, "I'll never apologize. I'll never apologize!" Ouyang Changqing and Ouyang Changhong didn't even dare to talk to me like that, but you guys are really arrogant! Director, what do you say?"

Lin Yi didn't want to talk about the quota anymore, seeing as these people were all acting like this!

"This old man also thinks that you should be suspended! Moreover, they have to go to his house to apologize and ask for forgiveness ..."

The Dean completely ignored Lin Yi's words, even adding that he wanted Lin Yi to apologize.

Lin Yi smiled coldly.

"Director!"

Lin Yi interrupted indifferently, "Suspension is fine! It was impossible to apologize! Also, you've suspended me today, but it won't be so easy to get me back to my post in the future!"

"Hahaha, you're not going to apologize, and you're still thinking of getting reinstated? It was simply laughable! It's already very kind of the director to not fire you right away!"

Gu Fengji couldn't help but laugh mockingly, drawing the agreement of the others.

Wangba Gaozi, in particular, started mocking Lin Yi again.

"This matter is settled. As for Sima Yi's three disciples, they will be temporarily assigned to the other teachers!"

The Dean didn't even think about asking for Lin Yi's or the three students' opinion. He made his decision immediately, "Your Highness, you can first learn from teacher Feng Shan. MA bijing will return to teacher Gu Fengji's tutelage. And that ... You can follow teacher Wang Ba and Gao Zi!"

The poor tu gexia, even his name was not known by the Dean, and just like that, he was casually drawn under Wang Ba Gaozi.

"Ha ... The Dean is really thoughtful! Since I've been suspended, I'll take my leave!"

Lin Yi turned around with a cold smile, adding one more thing before he left, "I hope you won't regret this in the future!"

"Hahahaha, he actually said that we would regret it. Is he thinking too much?"

"He's simply ridiculous. I don't know where he got the confidence to say such things."

A burst of unscrupulous laughter came from behind Lin Yi.

Lin Yi didn't turn back after he left the room. He only sighed and continued walking.

Originally, there was already a solution to the quota of the Alliance College's pills. Whether it was Fei daqiang leading the team out of the nine-story glazed Pagoda or Ling lingfa completing the design and manufacturing of the automatic alchemy furnace, they could refine pills in batches.

Unfortunately, time was too tight, and the old headmaster did not even listen. Under the premise that he could not take out the medicinal pill, he could only hold back for a while.

"Sima Yi ... You ..."

Caidie Luo was waiting in the yard outside the dean's office. She didn't go in, but because the door wasn't closed, she could hear everything that was said inside. She knew what Lin Yi's situation was like.

"It's fine. It's just a suspension. It doesn't matter!"

Lin Yi shrugged, putting on a casual smile. "It just so happens that I've taken over the medical center under the alchemy Association of the martial union branch. I need some time to sort it out. Now that the heavens have granted my wish, I should be happy."

Luo caidie's expression was slightly gloomy. She lowered her head and whispered, "I'm sorry, I couldn't help at all ... It was the same in the restaurant ... It was the same in the Academy ..."

"What does it have to do with you? You can't interfere in this matter to begin with! Don't blame yourself, there's no need for that!"

Lin Yi adjusted his clothes and laughed, his expression relaxed. "Besides, I'm only temporarily suspended. I'll be back soon! If you don't believe me, we can make a bet. Soon, the director and the others will come to me and ask me to be reinstated. Do you believe me?"

"I do! You're a true genius, and it's a huge loss for the Alliance Academy to lose you! That's why I believe everything you say!"

Luo caidie raised her head with a determined look, "I'll wait for you to come back!"

Lin Yi was touched-at least he still had a true friend in the Alliance Academy, and things weren't that bad!

"No, it's good that you said that, but you can't make a bet!"

Lin Yi hid his emotions and joked,"It seems like you also know that I will win, so you deliberately didn't want to bet with me, right? "Forget it, forget it. You'll have to work hard while I'm at the clinic. Help me take care of my three students. They've been assigned to other instructors. If there's any problem, you can inform me in time."

"Alright ..."

Luo caidie nodded in agreement.

The two of them chatted as they walked. They were already far away from the dean's office. They skipped over these unpleasant topics and casually chatted for a while before leaving the Alliance Academy.

Lin Yi said goodbye to caidie Luo and went back to the clinic alone. On the way, he met the Ouyang brothers again.

Chapter 8155

"Yo, President Sima, we meet again! How many times have we met today? it's really fate!"

Ouyang Changhong had a gloating expression on his face-it was clear that he'd received the news and was here to block Lin Yi."I heard you were suspended by the Alliance Academy? Don't you think the people from the Alliance Academy have poor taste? How could they suspend a genius like President Sima? This is outrageous!"

"Vice guild leader Ouyang, you're really well-informed! I just left the Alliance Academy, and you already know so much?"

Lin Yi's face was expressionless.

It was normal for Ouyang Changhong to have a spy in the Alliance Institute. However, he didn't expect this spy to spread the news so quickly!

It seemed like Lin Yi had just left the school, and Ouyang Changhong had already received the detailed report of what happened in the dean's office.

"Hahaha, there's nothing we can do. Who asked President Sima to be such a world-shaking figure? You can't blame me for your fast spread of news!"

Ouyang Changhong's tone was still mocking-Lin Yi felt like he was drinking ice water in the middle of summer."However, President Sima, you don't have to mind. The Alliance Academy was blind to give up on you. It's their loss. President Sima, you can return and focus on running the medical Hall!"

"I heard that when Chairman Sima first arrived at the medical Hall, he treated a dying patient. As expected, you are the most suitable person for the medical Hall! This time, he could finally show off his strength! It's worth celebrating!"

"Ha ... It's indeed worth celebrating. When the medical center is on track, I'm sure the two of you will be even happier!"

Lin Yi's face turned cold, too lazy to argue with them. He waved his hand casually. "I still have something to do in the clinic. I'll take my leave first!"

He would let them be smug for now. When the medical center turned the tables and replaced the alchemy association with a large number of elixirs, he would see if they could still laugh.

At the same time, something big happened in the Alliance Academy. As soon as Lin Yi left, Feng Shan and the other two couldn't wait to pick up his three students.

The three of them were in Lin Yi's classroom, and they were waiting for Lin Yi, the teacher, when Feng Shan and the other two came.

"Your Highness, Sima Yi has been suspended by the Academy due to some personal reasons. The three of you will be assigned to the three of us, and your Highness will be my student!"

Feng Shan couldn't hide the smile on his face. Taking in Qin mengzhen as a student was something he had been looking for. He didn't expect to achieve it so easily today!

"MA pijing, you'll return to your master's side, and tu gexia will be under Wang Ba and Gao Zi's guidance. You've only been with Sima Yi for a few days, and there's nothing much to pack, so just come with us!"

Gu Fengji was also very happy. The student he had sent out had returned so quickly.

Although he was not as lucky as Feng Shan, who could still teach the princess, MA pijing had already grown up. In short, he did not lose out.

Wang Ba also wanted to say something to make her presence known, but Qin mengzhen directly said with a cold face, ""Why was the teacher suspended? Where is he now?"

Lin Yi was Qin mengzhen's real master, not just a simple teacher. Hearing that she couldn't learn from Lin Yi, the Prince's face turned cold and almost flipped out on the spot.

"Sima Yi refused to accept the decision to suspend him. He has already left the Academy and is now the head of his Medical Hall at the martial Alliance branch! Even if you're the ones he abandoned, don't think about him!"

Wangba Gaozi took the chance to make up a story, a gloating smile on her face.

"I've said before that I will only learn from teacher Sima. Since teacher is no longer in the Alliance Academy, there's no need for me to continue staying here!"

Qin mengzhen had gotten the information she wanted to know. She ignored the seal and walked out of the classroom with a cold face. "From now on, I'm no longer a student of the Alliance Academy. No matter who you are, go and settle the withdrawal procedures for me."

Lin Yi wasn't around, but Qin mengzhen was showing off her strong aura as a Princess!

He dropped out of school just like that. He didn't even bring himself to do it, and just assigned three instructors to do it.

After leaving the classroom, Qin mengzhen paused for a moment. She didn't turn around and said indifferently, "MA pijing, tu Gelao, you two are still my junior brothers, so I'm asking you. I'm dropping out of school to find my master. Are you two staying at the Alliance Academy, or are you going with me?"

She definitely wouldn't stay, but she still needed to ask her two fellow sect members for their opinion.

If they wanted to stay, they would be strangers from now on!

MA pijing and tu Gelao looked at each other, both of them a little confused by the series of changes.

But after being reminded by Qin mengzhen and remembering Lin Yi's miraculous guidance, the two quickly made up their minds.

"Senior Qin, I, MA pijing, will go with you to find the teacher! Alliance Academy ... I'll also drop out!"

MA pijing gritted his teeth and took the lead. He then bowed slightly to Gu Feng. "I'm sorry, teacher Gu. Teacher Sima has given me a new life. He is the most suitable teacher for me, so I must go and find him!"

Gu Fengji's face was extremely unsightly.

Before he came, he thought that MA pijing would be grateful if he was willing to take him back. Who would have thought that this kid would actually slap him in the face!

As a result, Gu Fengji had no way of responding. He didn't know what to say, and could only snort and remain silent.

"Senior Sister Qin, I'll go with you to find teacher Sima. There's no point in staying at the Alliance Academy!"

Tu Gelao was also determined to drop out of school.

Before coming to Lin Yi, he was at the bottom of the Alliance School, but after only a few days with Lin Yi, his strength had grown so much.

More importantly, Lin Yi could tell that something was wrong with him. No one else but Lin Yi could break the seal, so he had more reason to kill Gelao than MA pijing!

"Very good, then let's go!"

Qin mengzhen still did not turn her head, but a smile appeared on the corner of her mouth. ""You two can also settle their withdrawal procedures. Don't bother us if there's nothing important!"

After she finished speaking, Qin mengzhen led her two junior brothers and left the place, leaving the three teachers dumbfounded.

They had never thought that things would actually take such a strange turn.

It was obvious that Sima Yi had only taught them for less than two days, and he often caused trouble outside and let the three of them go like sheep. Why were they so loyal to Sima Yi?

Without Qin mengzhen, Feng Shan and the others would have taken down these disobedient students and 'forcefully' changed their perception.

However, Qin mengzhen's identity was too special. Feng Shan and the others did not dare to act rashly.

In a situation where he was unable to use force, he could only watch the three of them leave!

When Lin Yi met the Ouyang brothers, Qin mengzhen and the other two girls 'withdrawal from the school had already caused a huge commotion!

The Alliance Academy had never encountered such a situation before. It had always been the students who racked their brains to get into the Alliance Academy. When had anyone ever dropped out of school of their own accord?

It was simply a disgrace!

Chapter 8156

The Dean, who received the news, immediately went out to stop Qin mengzhen and the other two at the entrance of the college.

"Director, what do you want to do?"

In front of outsiders, Qin mengzhen had always acted like an ice-cold Princess.

It was just a plain question, but it naturally carried an oppressive aura.

"Your Highness, dropping out of school isn't child's play. Please think twice!"

The Dean was about to explode from anger but he could only pretend to be calm in front of Qin mengzhen. ""Sima Yi is only suspended. Although it's not certain when he'll be reinstated, you're making a scene and it won't help him at all!"

"And the two of you, Her Highness the princess can be willful, but you can't follow suit! This old man might as well make things clear. If you step out of the Alliance Academy's gates today, no other Academy will accept you in the future! So, you'd better think twice before you act!"

The Dean couldn't speak harshly to Qin mengzhen.

However, he had no scruples about MA pijing and tu Gesha.

He was using such threatening words to knock them down. At the same time, he was also pointing at the Mulberry and scolding the locust. He wanted to let Qin mengzhen know the consequences of his actions.

In the end, Qin mengzhen didn't take it seriously at all. She only snorted coldly, ""This Princess has her own plans for this matter, there's no need for the director to worry!"

after she finished speaking, qin mengzhen led the two of them and walked past the old dean, completely ignoring him!

ma pijing and tu gelao had already gone all out when they decided to drop out, so the old dean's threat was meaningless to them.

the two of them followed closely behind qin mengzhen and quickly left the alliance academy.

the dean was so angry that his beard was trembling.

he had been angered many times today. if he was like this every day, it wouldn't be long before he had to travel to the west!

it was too late when caidie luogot the news-lin yi even asked her to look after the three students before he left.

in the end, they had just turned around, and they had all dropped out of school ... what the hell was this!

luo caidie stomped her feet and sighed.

although she knew that the three of them went to find lin yi, luocaidie couldn't help but feel a little regretful.

With this status, the students of the Alliance Academy would be superior to others when they went out to participate in the trials.

However, if they dropped out of school, they would become unaffiliated cultivators. At that time, they would be marginalized in the group trial.

It was a good thing that they were following an outstanding mentor like Sima Yi. He hoped that they would be able to learn well!

Caidie knew that even if Lin Yi solved the problem and returned to his post, these students couldn't.

The Dean could let it go and give some face to a teacher, but he would definitely not give any face to these students.

He hoped that they would be able to do better in the future!

Luo Caidie didn't bother to inform Lin Yi as they would be able to see him soon!

Lin Yi had just finished some daily chores when a servant came in to report, "President Sima, there are three people at the door, two men and one woman. They say they are your students and want to join you! What do you think?"

"A student?"

Lin Yi didn't know whether to laugh or cry—he'd just been expelled, and these three were already here. "Let them in!"

The servant acknowledged the order. In a short while, he brought Qin mengzhen and her two junior brothers in.

"Teacher! We're here to seek refuge with you! You can't just leave us alone!"

Once Qin mengzhen saw Lin Yi, she threw away her cold Princess-like demeanor,""The Alliance Academy actually suspended you, teacher. They don't have any respect for me, a Princess! I'll drop out of school with my two junior brothers! Teacher, don't you think we're very loyal?"

Lin Yi's mouth twitched. You're not here to be loyal, you're here to piss me off, right?

I've just left, and you've all dropped out of school ...

People who don't know better might think that I'm kidnapping young children!

"Actually, there's no need for you to drop out of school. Although I've been suspended, I can still guide you. You can just find time to come here. Why do you have to fall out with the Academy?"

Lin Yi was speechless-the words were meant for Qin mengzhen.

If Qin mengzhen didn't lead the other two, they probably wouldn't have dared to do such a thing!

Even if he wanted to do it, he would discuss it with him in advance and would not act first.

The truth was as he had guessed-Lin Yi was right!

"Why go through so much trouble? It's just quitting school, what's the big deal?"

Qin mengzhen waved her hand indifferently, ""Besides, teacher, you're the one I acknowledge as my master. Those things like sealing off the mountains, water, and land are not qualified to be my teacher at all! Instead of asking me to learn from him, I might as well come and seek refuge with master!"

"Senior Sister Qin is right, I just want to learn from my teacher!"

Tu Gelao quickly kneeled in front of Lin Yi, "Teacher Sima, we are no longer students of the Alliance Academy. Please officially accept me as your disciple, just like Senior Sister Qin!"

A master and a teacher were two completely different concepts.

The former was an inheritance, while the latter was a teaching.

After tu Gelao knelt down, MA pijing followed suit. "Not bad. Teacher, please accept me as well. I don't want to return to Gu Fengji's sect!"

Qin mengzhen giggled as she sat at the side to watch the show. She had already acknowledged her master and was a proper Senior Sister. Therefore, she could leisurely be a bystander this time.

"You guys!"

Lin Yi couldn't reject it now that things had come to this.

In any case, if he released one sheep, he would be chasing two sheep, so he decided to take the two of them as his disciples.

"Can I say no? You've all dropped out of school. If I don't accept you, where are you going?"

Lin Yi waved his hand, speechless.

He didn't expect that after being a teacher at the Alliance Academy for so long, he would accidentally take in three disciples!

"Master, please accept this disciple's bow!"

Tu Gelao and MA pijing were overjoyed. They quickly and solemnly bowed three times and nine times, completing the ceremony of acknowledging a master.

As soon as he got up, the doctor outside came looking for him, evidently having been waiting for a long time. "President Sima, there's not a single pill left in the medical Hall. Just ordinary medicine can't satisfy the daily treatment. What should we do now?"

"Where did these pills come from before? Did the alchemy Association transfer them over?"

Lin Yi wasn't in a hurry. He didn't have that many pills yet, but he had a solution. He just needed to wait a little longer.

"Only a small number of pills were allocated. Most of the low-level pills were refined by the original steward and his men!"

The doctor didn't hide anything and replied respectfully, "However, when the manager left and returned to the alchemy Association, he took all the pills in the warehouse with him. He also took the doctors who could refine pills with him! That's why we're in such a predicament right now. I hope President Sima can resolve this as soon as possible!"

Chapter 8157

"In addition, we also went to the alchemy Association and tried to negotiate with them to transfer some low-grade elixirs over, but we were rejected by Ouyang Changhong. He found some plausible reasons, so we couldn't communicate with him normally."

Lin Yi smiled bitterly. It's fine as long as they can't communicate normally!

It would be abnormal if they could communicate normally!

These were all the tricks that the Ouyang brothers had set up against him in order to make things difficult for him.

Although the medical center was a tool that they had thrown at him to prevent him from fighting for the power of the alchemy Association, they had never thought of letting him take over the medical center easily and happily.

The two brothers must have planned many more such disgusting little tricks, and this was only the beginning.

"I understand. I'll find a way to solve the problem of the elixir. It may take a few days. You should do what you have to do for the time being. After a few days, the medical center will be back on track!"

Lin Yi consoled the doctor before sending him off to work.

"Master, it seems like you're not doing very well in this clinic either?"

Now that they had left the Academy, Qin mengzhen began to change the way she addressed him.

Seeing the medical center's predicament, she still laughed heartlessly. "Actually, there's nothing good about this place. As long as master asks, it's not difficult for you to take a position in the martial Alliance of the continent or at an Academy that's more advanced than the Alliance-established Academy!"

"Senior Sister Qin, you're so arrogant. Speaking of which, we still don't know what kind of Princess you are, Senior Sister Qin? The nado conferred Empire's royal family does not have the surname Qin ..."

MA pijing had always been curious about Qin mengzhen's identity, so he took the opportunity to ask, "I also think that master is talented and it's a waste to stay here. Senior Sister Qin, can you recommend master to a more powerful college?"

If Lin Yi could go teach at a school higher than the Alliance, these disciples would definitely go with him.

Qin mengzhen didn't care, but to MA pijing and tu Geda, it was a huge difference.

"What does it have to do with you? Eldest Senior Sister is talking to master, you just have to listen at the side!"

Qin mengzhen chuckled and did not answer MA pijing's question. She just gave a perfunctory answer.

MA pijing didn't mind. Qin mengzhen was obviously joking and didn't have any ill intentions. He smiled and agreed to go over.

Lin Yi's face was calm, not interested in Qin mengzhen's suggestion, ""There's no need for that. As the saying goes, how can you sweep the world if you don't sweep a room? if I can't even handle the small matters here, how can I be called talented? How can we go to a better place?"

"Tsk, tsk, master, what you said is really ... Great!"

Qin mengzhen praised and then changed the topic."Since master doesn't want to leave, is there anything you need this disciple's help with? If you want people, money, or resources, I can do anything for you. Master, you don't have to be polite!"

With her status as a Princess, it was not difficult for her to mobilize some manpower and resources to support a batch of medicinal pills and supplies.

But no matter how big-faced Lin Yi was, he couldn't just ask for help from his disciple!

He hadn't even given his disciple much, and he was already asking for something from his disciple. Didn't he want his face as a master?

"It's just a small matter, there's no need for you to do anything!"

Lin Yi smiled and waved his hand,"since you're all here, just treat this place like a school. Train well and don't let your homework get delayed, understand?"

"Yes, master!"

The three agreed in unison. They were willing to leave school and follow Lin Yi because they wanted to train and improve themselves.

On the sub-Island, strength was respected and naturally, it was impossible to waste time.

"The backyard of the medical center is very large, and there are many vacant small courtyards. You can choose one as your residence and cultivate in peace!"

Lin Yi made the arrangements.

The backyard of the medical center was originally a place for the Chinese medicine doctors and handymen to stay. Many small courtyards had been built, but not everyone would live there.

After all, the environment here wasn't very good. No matter how cowardly these doctors were, they were still public officials of the naduo martial Alliance branch. Their income could still afford to buy a big house.

Although these people were not very good internally, they were still high and mighty in the eyes of the common people outside.

However, the three didn't mind. Being able to consult Lin Yi was the best thing they could do-it didn't matter where they lived.

The three of them went to pick their lodgings happily, and before Lin Yi could catch his breath, the doctor from before rushed in again.

"President Sima, something has happened again!"

"What's wrong?"

Lin Yi raised his eyes and asked.

This small clinic was not big, but there were a lot of things to do.

Things kept happening all day long.

"There are many people outside the medical center's Gate. They're all making a ruckus ..."

The doctor gasped for breath as he clutched his chest.

"cause trouble?" lin yi frowned. why did they cause trouble? did something happen in the clinic?"

"this ..."

the doctor hesitated and stammered,""actually ... there wasn't any incident. they caused trouble because ... it's actually not a big deal ... but i'd still like to ask president sima to personally handle it!"

lin yi extended his spirit sense out and saw that there was indeed a group of people outside the clinic.

however, most of them were weak martial artists, and there were a few commoners. the target of their argument was lin yi!

"what bullsh \* t honorary chairman, he just took over the medical hall and turned it into a mess. those great doctors with excellent medical skills are gone, and we don't even have the normal pills we can use! are you trying to force us to our deaths?"

"it is! "the lives of us itinerant cultivators and commoners are already hard. when we venture out and get injured, we rely on the medical hall to extend our lives and treat our injuries. what is the meaning of this? if the clinic doesn't even have this little protection, are we just waiting for death?"

"Sima Yi, get off the stage! Get out of the clinic! Please send someone from the alchemy Association to take over the medical Hall and restore it to its previous scale!"

"Right! Sima Yi got off the stage! The bullsh \* t honorary Association is useless! We want the old clinic, not the current one!"

"Sima Yi, come out and give us an explanation! Why don't we go to the martial Alliance's branch to submit a petition and ask them to dismiss you from your position as the Honorary President!"

.....

They were all basically targeting Lin Yi.

He would never believe that no one was instigating and planning behind the scenes!

Lin Yi continued to extend his spirit sense and found Ouyang Changhong and Si yaoqian sitting by the window on the third floor of a teahouse.

From that position, he could clearly see everything that was happening outside the door of the medical center.

The two of them had a smug and gloating smile on their faces. It was clear that they were the masterminds behind the scenes!

Chapter 8158

Ouyang Changqing wasn't there, but Lin Yi believed that he had a part to play in this!

"Cousin Chang Hong, did you see that the stupid people are actually very easy to make use of. Although they are all as small and insignificant as ants, as long as they are gathered together and create a reputation, their power is not to be underestimated!"

Si yaoqian laughed complacently and explained to Ouyang Changqing as if he was an experienced person,""If we use this method to deal with unreasonable hoodlums in the marketplace, it's definitely useless. However, our martial Alliance branch is different!"

"The martial Alliance values their reputation and the People's Organization. If a large number of people denounce Sima Yi, we can use them to our advantage and easily achieve our goal!"

"You and Chang Qing's cousin's plan was not bad. You could send Sima Yi to the medical Hall to take up an idle position and use this to trap him, preventing him from descending his authority in the alchemy Association. But if we have the chance, why don't we just kill him with a stick?"

"We'll use this stupid citizen as an opportunity to create a bigger commotion. Then, we'll go and put some pressure on the first hall Master. Who knows, we might be able to kick Sima Yi out of the martial Alliance branch for good!"

The Ouyang brothers weren't the only reason why si yaoqian wanted to deal with Lin Yi.

He didn't have a good time in the combat Association because of Lin Yi's arrival, so chasing Lin Yi away was the best outcome for him.

"That makes sense! "Big brother has just returned to the branch. Since the fire here has already been lit, we should hurry back and inform big brother to make preparations. We'll continue to add fuel to the fire in secret. When the impact of this matter spreads, we'll impeach Sima Yi and kick him out of the martial union branch in one fell swoop!"

Ouyang Changhong laughed evilly, as if he could already see Lin Yi being kicked out of the martial union branch,"This kid is very arrogant. He's just been suspended by the Alliance Academy, and now he's been expelled by the martial Alliance branch. Let's see if he still has the face to stay in the imperial capital!"

"Hahaha, that's right! Let's go, we'll go find cousin Chang Qing first to discuss the follow-up matters. I'll send people to continue to keep an eye on this place, and we must make the fire burn bigger!"

The two walked down the teahouse with smiles on their faces, arm around each other as they made their way to the martial union branch. They didn't know that Lin Yi was watching their every move.

lin yi's lips curled up into a cold smile. these clowns were really scheming against him, even using public opinion manipulation. it was hard on them!

"relax! go tell everyone to ignore the farce outside and do what they need to do!"

lin yi didn't want to bother with those stupid people anymore after he understood the whole situation. he ordered the nervous doctor,"continue to receive the patients who came to seek treatment, and if anyone dares to come in and make trouble, get beaten up and throw them out! it won't be long before they disperse!"

after all, the medical center was a department under martial league, so it was natural that there would be enough guards.

if someone really dared to attack the medical center, it would be equivalent to declaring war on martial league. they deserved to be beaten to death, let alone being thrown out of the medical center.

"President Sima ... Is this really good?"

The doctor was a little dumbfounded. He was really just an insignificant doctor, so he had never considered using such a forceful method.

However, the people who were making trouble at the door were obviously more clear-headed than him. They were only clamoring outside and didn't dare to rush into the medical center to court death.

"There's nothing bad about it. It's just the barking of some invincible dogs. Let them be, they can't hurt us anyway!"

Lin Yi waved his hand, not minding at all.

The doctor shook his head and left, suspicious of Lin Yi's attitude. He even thought that Lin Yi had given up on himself.

Who could remain unmoved after being targeted like this? Those who didn't know would think that he was guilty!

But things went as Lin Yi expected-no one paid any attention to them, and they didn't really dare attack the clinic.

However, it was very tiring to have no one respond to their clamoring. Therefore, under the guidance of some people with ulterior motives, they quickly changed their target and retreated from the medical center. They directly went to the martial Alliance branch to complain!

"That whatever Honorary President Sima Yi is really a coward. After being scolded by us for half a day, he doesn't even have the guts to come out and explain himself. He's really a useless piece of trash!"

"It seems like he's afraid of us! "Since he's too guilty to meet us, we'll go to the martial Alliance branch and cause a scene. We'll directly ask the martial Alliance branch's first hall Master to step in and strip this trash of an Honorary President!"

"Not bad! But we want to talk to the first hall Master, and the momentum isn't big enough yet. Why don't we go and find more people to join us first and make it big so that we can attract the first hall master's attention?"

Someone in the team had suggested this, intentionally or otherwise. After one person agreed, everyone else agreed.

Then, after arranging to gather at the entrance of the martial Alliance's branch an hour later, this group of people immediately dispersed, excitedly calling for their friends and recruiting more foolish commoners to join them.

By the time the agreed time arrived, a sea of people had already gathered at the entrance of the martial union branch. The number was 20 to 30 times more than the number at the medical center, or even more!

In fact, more than half of them were here to watch the show. No matter where they were, the majority of them were people who liked to watch and follow the crowd blindly.

At this time, they didn't have their own thoughts at all. They were all fools who followed the crowd's words!

"Hall Master, a large number of people have gathered outside and are causing trouble!"

The first hall Master had narrowly escaped death and was currently recuperating when a subordinate suddenly came to report.

"Cause trouble? Someone dares to cause trouble at our martial Alliance's branch? Don't you want to live?"

"What are they doing?" the first hall Master slammed the table and said angrily.

"I think they're all here to complain about the alchemy Association's Honorary President, Sima Yi! I don't know the details, there are too many people. "

"I didn't have the time to investigate before I came to report!" The subordinate replied respectfully.

"The alchemy Association? Sima Yi?"

The first hall Master frowned and ordered, ""Go and call Ouyang Changqing over and ask him what's going on!"

"Yes!"

The subordinate bowed and left.

A while later, Ouyang Changqing came panting. He reported what happened at the door with a nervous expression, not forgetting to hurt Lin Yi, "I don't know what's wrong with President Sima Yi. He's just taken over the medical Hall, and he's already angered the heavens and caused such a huge public outrage!"

"Although Sima Yi is a talented young man and has some skills, his methods of dealing with the ordinary people are too clumsy!"

"From what I know, it's because these people were treated unfairly in the clinic, which led to a conflict between doctors and patients!"

"Now that the People's resentment is boiling, so many people are requesting Hall Master to remove Sima Yi from all his duties and drive him out of the martial union branch. How should this matter be dealt with? please give us your instructions, Hall Master!"

The first hall Master frowned. He was a weak and suspicious person, and he valued his reputation among the people very much. He was suspicious of Lin Yi after hearing Ouyang Changqing's words.

Chapter 8159

"This matter is indeed a little inappropriate. First, send someone to bring Sima Yi back. I want to ask him personally, what exactly happened?"

The first hall Master pondered for a while and called one of his henchmen over, ordering him to get Lin Yi over before turning to Ouyang Changqing, "Before Sima Yi returns, vice clan master Ouyang, please go and calm the people outside."

"There are too many people here, so we have to be careful not to cause any trampling or death. After I figure out the ins and outs of the matter, I'll go out and settle the People's demands."

He didn't want to go out at a time like this-Lin Yi wasn't here, and he couldn't solve the problem. It'd make him look useless.

Therefore, he sent Ouyang Changqing out. No matter how things turned out, he would be able to come forward at the end to cover up.

Ouyang Changqing secretly curled his lips and felt a little disdainful of this first hall Master in his heart. However, on the surface, he respectfully bowed and agreed,""Yes! Hall Master, this subordinate will make the arrangements!"

In fact, this matter was caused by Ouyang Changqing's group. Among the troublemakers outside, there were many shill arranged by si yaoqian.

It was not difficult for him to control the direction of public opinion.

However, it was impossible for Ouyang Changqing to put out the fire at this time. He had promised the first hall Master, but in the end, he went out to appease the people on the surface. In reality, he was fanning the flames, hoping that the world would not be in chaos!

When Lin Yi received the order and rushed over, the crowd outside the martial union branch was in a frenzy, and the situation was on the verge of going out of control. It was only after si yaoqian mobilized a team of combat generals from the combat Association to pretend to maintain order that the foolish civilians finally calmed down.

Naturally, si yaoqian wasn't doing this out of kindness-he was doing this so that Lin Yi could meet the first hall Master as soon as possible, and get fired!

"Sima Yi! He's Sima Yi!"

Some people in the crowd saw Lin Yi and started shouting!

"Sima Yi! You piece of trash! "Useless people, hurry up and get out of the martial union branch ..."

"It looks like a human, but in reality, it's just a pile of rice fields ..."

There would always be people who didn't mind watching the show, and with the commotion, it quickly developed into a huge crusade, making Lin Yi look like he'd done something unforgivable and the people would be angry if he wasn't killed!

Si yaoqian smiled and crossed his arms in front of his chest. He was happy to see this happen.

The generals he'd called over only needed to ensure that Lin Yi could get into the martial union branch. As for insulting Lin Yi, they wouldn't care-they'd even add fuel to the fire.

Lin Yi walked up the stairs to the front door and stopped before entering.

Originally, he was too lazy to pay attention to the barking of these ignorant Mad Dogs, but it was indeed a little difficult to pretend that he didn't hear anything and just spit on his own face after being insulted by so many people!

"Shut up!"

Lin Yi shouted in a low voice. It wasn't loud, but his powerful spirit sense spread out. Everyone present, no matter how far away they were, felt as if a thunderclap had exploded in their ears.

In the blink of an eye, the noisy environment was so quiet that even a pin drop could be heard. It was as if the entire world had been muted!

Lin Yi turned around slowly, and his aura enveloped the entire area with the help of his extremely light spirit sense. Everyone felt as if they had fallen into an ice cave!

"Ignorance is not a sin, but it is a sin to use ignorance as an excuse to hurt and humiliate others!"

Lin Yi's eyes swept across the room, and everyone who met his gaze chose to lower their heads.

"All of you, stay quiet! I'll give you the results you want. If you dare to talk nonsense again, you'll be blacklisted by the clinic. No matter what kind of injury you have in the future, you won't be treated by the clinic!"

"Those who were fanning the flames just now, I'll take a look at your names first. You've already been blacklisted by the clinic, so you'd better pray that you'll be free of illness and disaster from now on!"

Lin Yi focused on the five people who were jumping around the most before and increased the power of his spirit sense vibration a little bit, and the five people instantly fell to the ground and lost consciousness!

The people around them were suddenly in an uproar, and fear grew in their hearts.

The unknown always the scariest thing. Lin Yi didn't even move a finger and he took down five people. Of course they were scared!

"As you can see, not only did he not plead guilty, but he also threatened, attacked, and killed people!"

A few of si yaoqian's men wanted to use this chance to shout that Lin Yi had killed someone to anger the people.

Unfortunately, the people were all afraid and lowered their heads.

He slapped everyone to death, not wanting them to be the next ones to be attacked.

Lin Yi's cold eyes scanned the person who spoke, and the person quickly hid and remained silent.

Lin Yi hmphed. It was a waste of time to say anything to a mob like this. He'd at least get some peace of mind after knocking them out as a warning!

after entering the martial union branch, someone brought lin yi to the first hall master.

all the higher-ups of the martial alliance's branch had arrived.

in addition to the first hall master, there was also the executive vice hall master, gu shiyi, the language of the living things, ouyang changqing, and others.

the big shots all sat down, their gazes focused on lin yi as he walked in. it felt like there was going to be a joint hearing.

"first hall master!"

lin yi cupped his fist in a serious manner and greeted the other bosses.

"sima yi, you don't have to care about these formalities. this lord called you over to ask you, what exactly did you do to anger the heavens and the people? it actually caused such a large scale protest?"

the first hall master had been waiting anxiously, so he went straight to the point and asked, ""i'm now very suspicious of whether you have the ability to manage the medical center. how long have you been in charge? and someone came to martial league to impeach and ask for a dismissal?"

"First hall Master, what do you mean by the wrath of the heavens and the resentment of men? Those ruffians and scoundrels gathered to cause trouble, and now they want to put a hat on my head?"

Lin Yi laughed coldly, not wanting to explain further. "I've only just taken over the clinic, and I've already treated a patient who was almost dead! Other than that, there are also some ordinary patients who have been properly treated. "

"this is the first reason! the second was the problem of medicinal pills. most of the civilians outside said that the clinic had no supply of medicinal pills. how did they know? who told them that our medical hall doesn't have any more medicinal pills?"

"could it be that they came to buy pills, and then someone told them clearly that the clinic had no more pills?"

even lin yi himself felt a little guilty.

after all, the doctor had been yelling in front of him that there were no more medicinal pills in stock. he might tell this to those who came to treat him or simply to buy medicinal pills!

but the first hall master and the others didn't know about this-lin yi's confident look made them subconsciously think that he was right!

Then, the first hall Master began to think. It seemed to make sense, but why did so many people come to cause trouble all of a sudden?

Chapter 8160

A suspicious person would feel that they were in an environment of conspiracy theories at any time, so the first hall Master began to think about it again.

Ouyang Changqing, who was familiar with the first hall master's personality, knew that something was wrong and immediately said, ""I heard that there were indeed people who went to buy medicinal pills, but they couldn't even buy a single pill! This is not a lie!"

"Heh ... Vice Hall Master Ouyang, don't you know why we can't buy any pills?"

Lin Yi smiled coldly and cupped his hands at the first hall Master. "Hall Master, let's not talk about whether the clinic has pills or not. Is there a problem with us saying that the clinic doesn't sell pills? The purpose of setting up a Medical Center to serve ordinary itinerant cultivators and civilians was to reduce the consumption of medicinal pills. Why would someone want to buy medicinal pills from a Medical Center? What is he thinking?"

"If you want pills, isn't it more reasonable to buy them from the alchemy Association? If our Medical Hall were to lift the restrictions on the purchase of elixirs, what would the alchemy Association be for? Or should we let the alchemy Association become the medical center's subsidiary, specializing in the production of pills for the medical center and be a simple supplier?"

Ouyang Changqing's face turned green. If what Lin Yi said was true, then what was the point of being the president of the alchemy Association?

If that really happened, the status of the medical center and the alchemy Association would be completely reversed. It was simply terrifying just thinking about it!

"There's nothing wrong with that! There weren't many medicinal pills in the medical Hall, and ordinary injured patients were not qualified to use them! It's a life-saving item, so how can it be bought by anyone?"

The artifact language spoke up at the right time, but it was actually on Lin Yi's side.

Even if he ignored him, he would still stir up some reason. Now that he had the reason, he was even more confident. "If the medical Hall has a surplus of medicinal pills, it's naturally not a problem to take some out to sell! But now that they didn't have any surplus, why should they take out medicinal pills to sell? Ouyang Changqing, tell me, what's the use of the alchemy Association if it's really like this?"

Ouyang Changqing's face began to turn dark again, as gloomy as water.

The first hall master's suspicious eyes also turned over. Ouyang Changqing saw that he couldn't avoid it, so he could only force himself to laugh dryly.

"First hall Master, I'm not very clear about this matter. I only heard from my subordinates that there was a time constraint during the investigation, so there was indeed an oversight!"

He knew that it was impossible to take Lin Yi down with this!

He could only stop his losses in time and get himself out of this matter.

"Vice head Ouyang, what do you think we should do about the situation outside?"

The first hall master's face was cold, and he asked in a neutral tone, ""It seems that you didn't do a good job in appeasing the public's emotions before, vice Hall Master Ouyang! They're being unreasonable, yet they still dare to cause such a ruckus. Do they really think that our martial Alliance branch won't dare to deal with them?"

"The good people are naturally the people that our martial Alliance protects. We need to listen to their demands and solve their problems! But if they're just looking for trouble and disrupting order, are we supposed to bear the humiliation and cooperate with them?"

When the first hall Master finished speaking, Ouyang Changqing's forehead was covered in cold sweat. He hurriedly lowered his head and bowed. "It's your subordinate's fault! This subordinate thought that they were making a normal request, so he took a gentler approach! Since they were thugs, he would deal with them with thunderous means! Don't worry Hall Master, this subordinate will immediately disperse them!"

At this time, Ouyang Changqing's mind was very clear. He knew that if he continued to resist, he would only fall into an even more disadvantageous situation.

Didn't he see that even his ally, the Deputy Hall Master of the Kongtong Sect, Gu Shiyi, was displeased?

He had to be decisive and quickly settle the whole matter, so that he could completely cut himself out!

The previous incident of the poisonous medicinal pill had already caused great dissatisfaction to the first hall Master. If it happened again, Ouyang Changqing could not guarantee that he would still be able to hold on to his position as the Deputy Hall Master!

The first hall master's expression softened, but he suddenly changed his tone, ""It's good that you can think this way, but there are so many people out there, and the vast majority of them have been deceived. You can't just destroy them all. "

"How about this? let's disperse them. If they dare to resist, we'll target them. As for the others ... We'll have to avoid harming the innocent!"

"Yes!" Ouyang Changqing quickly agreed, feeling more or less relieved.

After all, he knew who had caused this. Those who had incited the fire were his own people, and they didn't need to use thunderous means to solve it.

Lin Yi didn't say anything, a little disappointed.

This first hall Master really lacked some courage!

This was the kind of person who was indecisive.

To be able to sit in the position of first hall Master for so long, he really didn't know if his luck was heaven-defying!

If it were someone else, they would probably have been swallowed until not even dregs were left, right?

"President Sima, this is a misunderstanding. Everything will be fine once everyone is clear! Is the clinic alright? If you're free, why don't you stay and have a drink with me?"

The head turned to Lin Yi with a whole new face, a smile as big as a chrysanthemum flower. He even pulled the language of living things along, ""Vice Hall Master Hua, let's go together. Both of us were saved by you, President Sima. Let us properly thank you for saving our lives!"

He remembered that he still needed to get the pills from Lin Yi to complete his mission, so he wanted to build a good relationship with Lin Yi.

But he didn't say anything about helping Lin Yi when he was being framed.

In addition to being weak and suspicious, he was also a cold person by nature, completely different from the language of the living things.

Lin Yi didn't understand why the monster language would trust its life to a teammate like this. Wasn't it afraid of being sold?

"Thank you for your kind intentions, Hall Master. However, I've just taken over the medical center, and there are many complicated matters that I need to deal with one by one. I won't disturb you any longer!"

Lin Yi rejected directly.

Lin Yi wasn't interested in drinking or eating with this first hall Master, even with the help of the language of the living things.

Some people were destined to only be general acquaintances. When they met, it was enough to just say hello. There was no need to waste time on social interactions.

The first hall master's face froze, evidently not expecting Lin Yi to reject him so directly after he'd personally invited him. He couldn't get out of this situation.

The artifact language quickly stepped forward and said, ""Younger brother Sima is dedicated to the public and is indeed a role model for our generation. The medical Hall has just experienced such a setback, and we indeed need younger brother Sima to go back and take charge! Since that's the case, let's have a good drink together after things have stabilized!"

"If there's something in your heart, you won't be able to drink in a good mood, right, first hall Master? Today, let me, this thick-skinned man, disturb the hall Master for a good drink! Don't hide the good wine that you've been keeping for yourself. I'll drink a few more mouthfuls if there's one less person to share, hahaha!"

The first hall master's face finally returned to normal after being teased by the language of the living things. He nodded with a smile, ""That's right. President Sima's hard work is truly rare. Since that's the case, I'll let your wine barrel benefit from it today!"
