

Bodyguard 8161

Chapter 8161

The awkwardness of Lin Yi's rejection was dissolved in a jest. Lin Yi nodded to Hua Yu and cupped his fists, saying goodbye.

Ouyang Changqing hadn't been out for long when Lin Yi left, but when Lin Yi walked out of the branch, the crowd around the branch had completely dispersed, leaving only a few normal passersby.

As expected, if Ouyang Changqing really wanted to disperse these people, he only needed to say a single word.

That nonchalant attitude just now was really too obvious. He didn't even know how to act, what a waste!

This kind of person was not worthy of being his opponent.

Used to fighting with central, these little pieces of trash really didn't pose a challenge.

He went back to the clinic and comforted the nervous doctors, telling them that everything was fine. He then started to organize the medical books in his head.

Lin Yi planned to combine the common world's medical skills with the Sky Class island's and sub-island's medical skills, then extract the essence and get rid of the trash to write a new medical book.

Since he didn't have any medicinal pills for the time being, he could only improve his medical skills.

At the very least, he had to train these young and inexperienced doctors under him so that they could have some superb skills to treat and save people even without the support of medicinal pills.

Perhaps the development of the Sky Class Island and sub-Island was mainly about cultivation and alchemy, so normal medical skills were simple and crude.

It was even far worse than the ones in the secular world.

For a miracle doctor like Lin Yi, it wasn't hard to organize a new medical book.

In the past two days, Lin Yi had been busy writing medical books and teaching doctors, as well as guiding his three disciples in their cultivation.

Under Lin Yi's guidance, the doctors' medical skills did improve by leaps and bounds, and they were comparable to the experienced doctors who were taken away.

As for the cowards from the alchemy Association, Lin Yi didn't bother with them. He'd wait for Ling lingfa's automatic alchemy furnace to be completed before arranging for them to start refining.

Calculating the time, Fei daqiang should be coming out of the nine-story glazed Pagoda soon.

Lin Yi made some arrangements for the medical center before making his way to the combat Association.

Lin Yi walked through the formation he'd set up in the arena and waited in front of the nine-story Pagoda.

After Lin Yi gained control of the nine-story Pagoda, he could adjust the time inside as he pleased.

A few days in the past was half a year outside.

He had been in there for half a year, while he had been outside for a few days.

Lin Yi received a message from the nine-story Pagoda when these people came out and waited at the door.

As expected, the door opened not long after.

In the dense light, Fei daqiang led the group of battle generals out of the nine-story glazed Pagoda with a smile on his face and a fierce aura.

"Boss, we're back! The mission has been successfully completed!"

As soon as he came out, Fei daqiang saw Lin Yi and immediately dropped his arrogant aura. He immediately rushed over like a Lackey and reported with a smile, "Everyone did well. Everyone's improved a lot!"

"Greetings, Vice President Sima!"

The generals behind Fei daqiang all cupped their fists and bowed to Lin Yi, greeting him respectfully.

After the nine story Pagoda, their respect and admiration for Lin Yi had increased a lot.

Those who had never entered would never know how magical the nine-story glazed Pagoda was.

Yet, a divine weapon like this was in Lin Yi's hands, and he was using it to train them so easily. It would be weird if they didn't feel anything!

Even the battle generals who were sent in as spies were ready to follow Lin Yi with all their heart.

Although the true Qi cultivated inside could not be used after coming out, there was no mistake in having a strong primordial spirit!

The combat generals in martial League were not like the martial artists from the countryside like the sword spring sect. Other than physical cultivation, they also attached great importance to primordial spirit.

Unfortunately, they didn't have any good cultivation methods in the past.

He didn't expect that after going to the nine-story glazed Pagoda, his primordial spirit would have an earth-shaking change and become more than ten times stronger!

"Very good. Everyone has lived up to our expectations. You've all improved greatly in all aspects. You'll all be the main pillars of the combat Association in the future. I hope that everyone will continue to maintain this and serve the martial alliance with all your heart!"

Lin Yi tried to change the topic after a few empty words of encouragement. He wanted to ask Fei daqiang if he made any elixirs in the nine story glazed Pagoda.

As expected of experienced leg hair, Lin Yi didn't even need to say anything to get to the point.

"Boss, I have something to report to you. This time, when we were learning alchemy inside, everyone was very enthusiastic and used too much strength, so we refined too many low-level pills at once!"

Fei daqiang rubbed his hands and laughed, a little unconfident. He was afraid that Lin Yi would say that he was wasting resources. He quickly explained, "It's mainly because the brothers inside have basically all awakened fire and wood spiritual roots. Boss, don't you think it's a coincidence? Adding on the consciousness pill fire, they all have the aptitude to become pill Masters!"

"After that, the nine-story glazed Pagoda no longer had any enemies secretly targeting them. The sea serpent King and the others also disappeared and hid obediently, not daring to show themselves. The cultivation environment was simply too good. All kinds of low and mid-grade spiritual herbs were also scattered all over the mountains and plains, and there was an endless supply. Therefore, everyone practiced for a longer period of time ..."

Lin Yi didn't blame Fei daqiang-he was overjoyed!

These were all combat generals of the combat Association. He did not expect them to have the aptitude to become alchemists.

They were really a group of alchemists who had been delayed by the battle!

Fortunately, he met Fei daqiang, so he could be corrected in time!

However, it was understandable. Among the combat Association's combat generals, martial artists with fire attribute Qi were the most common. This was because the fire attribute Qi was swift and violent, making it very suitable for combat.

Even though they would not specifically choose such a person to become a battle general, it was undeniable that martial artists with fire attribute Qi were more likely to become battle generals!

Therefore, after these battle generals entered the nine-story glazed Pagoda, it was very easy for them to awaken fire spiritual roots!

After all, the nine-story glazed Pagoda's original link was to cultivate and reconstruct these people's true Qi and spiritual roots.

"Fei daqiang, you did well! How many pills were left after refining? Leave them to me!"

Lin Yi didn't have time to listen to him and quickly asked for the pill.

Fei daqiang didn't let Lin Yi down as he took out a large batch of low to mid grade pills.

The quantity was enough to support the normal operation of the medical Hall, and he could even sell a small portion of it!

If it weren't for the Dean falling out with Lin Yi, even if they couldn't make up for the entire quota, they'd be able to make up for quite a bit of the deficit.

"Very good! Fei daqiang, you have done a good job this time! You take your brothers to have a good rest first. I'll go deal with some things and come back to find you later!"

Lin Yi suppressed his excitement and put away the pill and the nine-story Pagoda.

Chapter 8162

Fei daqiang's group could already be regarded as true alchemists, but unfortunately, they could only use true Qi to refine pills in the nine-story glazed Pagoda. Outside the nine-story glazed Pagoda, there was no way to do so.

He needed elixirs now, but Lin Yi couldn't squeeze too much of their labor. After all, these people's main task was to be battle generals, not alchemists.

So Lin Yi wanted them to rest first and talk about the pills later.

Now that he thought about it, with the nine-story glazed Pagoda in his hands and these alchemists, it didn't matter if Ling lingfa didn't succeed!

Throwing people inside every two days and letting them concentrate on refining pills in the nine-story glazed Pagoda ... The scene was too beautiful!

"Alright! Boss, do you need my help? As long as it's boss's order, I'll definitely do it properly!"

Fei daqiang had been in the nine-story Pagoda for a long time. It'd only been a few days in the outside world, but he hadn't seen Lin Yi for a long time psychologically. He wanted to help Lin Yi with something, so he could show the use of his leg hair.

Lin Yi smiled and waved his hand, "you rest first. I need to discuss something with vice Hall Master Hua. You won't be able to help. I'll find you when you're done resting!"

"I understand! Boss, you're busy. I'll take the brothers to rest!"

Fei daqiang was very satisfied. He felt that he was still the very experienced leg hair that his legs relied on, so he happily led the battle generals to rest.

Lin Yi left the Association and went straight to the artifact language. He started off with some small talk before getting to the point.

"Brother Hua, I came to find you today because I have something to discuss with you. Recently, brother Ouyang Changqing and Si yaoqian have been targeting me. Brother Hua, you've seen all of this, right?"

"A!"

The monster language was a little embarrassed by Lin Yi's question, "Brother Sima, it's all my fault. I couldn't give you more support ..."

"Brother Hua, I'm not here to blame you. I just want to discuss with you. Instead of being held back by them, can we directly fall out with them?"

Lin Yi paused and looked at transformation language's face. It didn't seem to have changed at all. "First hall master's Affairs, how should I put it, are a little sloppy and sloppy. He only wants to balance all parties, but he didn't think about whether this can really be balanced?"

"Now, the alchemy Association is controlled by Ouyang Changqing, while si yaoqian controls half of the combat Association's power. Brother Hua, you don't really care about the combat Association's Affairs, which led to si yaoqian's power alone. He has joined forces with Ouyang Changqing, and they're each other's support."

"Let's stop for a moment ..."

The artifact language scratched his head and waved his hand, interrupting Lin Yi, "Wait a moment, brother Sima, what do you mean? Did he just say that he had fallen out with Ouyang Changqing and the others? Why don't you just tell me how you're going to fall out with me! These reasons are not important. How do you do it, this elder brother will definitely support you!"

"That's great!"

Lin Yi didn't expect the beast to be so straightforward. He nodded and said seriously, "Then I'll be direct. I hope brother Hua can help me talk to the first hall Master and tell him to separate the combat Association and the alchemy Association! Or to put it more bluntly, we'll split the two associations and form a new one!"

"Split? To stand up to them?"

The artifact language blinked, understanding what Lin Yi was trying to say.

"Brother Hua, it seems that you have understood. That's right, I hope to establish a second combat Association and a second alchemy Association! On the surface, doing so will damage brother Hua's authority as the combat Association's President, but in reality, it won't have any impact. "

Lin Yi wasn't afraid of misunderstandings, but he needed an explanation,""Brother Hua has no interest in managing the combat Association. Most of the people in the combat Association now only know how to follow si yaoqian's orders. They might not even listen to brother Hua's orders."

"If that's the case, why don't we split up and set up a second combat Association? our manpower will be pure! After that, brother Hua would continue to hold the title of the president of the first combat Association and suppress si yaoqian. "

"Oh ... I understand!"

Hua Yu nodded and said,"that's a good idea!" "I don't care about the combat Association anyway. I'll go to the first hall Master and bring up this proposal that seems to be damaging my authority. I don't think the first hall Master will reject it!"

If the combat Association could do this, then the alchemy Association could do the same!

After setting a precedent, he just had to follow the rules and it was over.

The artifact language was in full support of this.

He'd wanted Lin Yi to stay in the martial union branch from the very beginning, and he didn't mind even if he had to give Lin Yi the position of the combat Association's President.

However, Lin Yi wanted to go to the Alliance College to teach, so there was nothing they could do about it.

Who would've thought that the Dean of the Alliance Academy would be blind and send Lin Yi back to the martial union branch?

The thought of the artifact language made him so happy that he would wake up laughing in his dreams.

"This matter is feasible, old brother will do it! However, brother Sima, it doesn't matter if it's the combat Association, but it doesn't seem to be easy for the alchemy Association, right?"

The artifact language didn't mean that The Alchemist Association couldn't be separated, but that Lin Yi didn't have anyone from The Alchemist Association!

The combat Association was different. No matter how much the monster language didn't care, it knew that Lin Yi had quite a few people in the combat Association, and they were probably as strong as si yaoqian.

However, the alchemy Association was different.

He knew very well what kind of people Ouyang Changqing sent to Lin Yi.

He'd heard that Lin Yi didn't even bother with those people in the clinic, letting them do their own menial work.

It wasn't like back in the combat Association, where Lin Yi had trained Zhang Butong and the others personally.

After all, the monster language also knew that battle generals could be trained, but alchemists couldn't.

These cowards were not made for pill refining, so how were they going to train?

Therefore, it was not impossible to establish a second alchemy Association, but without an Alchemist, what kind of alchemy Association would it be?

"Don't worry, brother Hua, this little brother has his own way of refining pills! In terms of quantity and quality, they will not be inferior to the alchemy Association!"

Lin Yi was being humble.

If he really went all out and waited for Ling Ling's automatic alchemy furnace to arrive, Ouyang Changqing's side wouldn't be able to compete at all!

Mass-producing pills? Was the fool-like way of refining pills okay?

"Good! Since younger brother Sima has this confidence, then this older brother will naturally support you to the end! Leave this matter to me, elder brother will go to the first hall Master and propose this!"

The beast language didn't ask any more questions, showing its trust in Lin Yi, "Brother Sima, you can sit here for a moment. I'll be back soon!"

He was thinking that if Lin Yi came along, there would be some things he couldn't say. The first hall Master was a suspicious person, and it would add a lot of unnecessary trouble.

So he told Lin Yi to stay here, and he'd go alone.

Lin Yi nodded and walked the monster out of the door. He sat back in his chair quietly, waiting for the good news.

Chapter 8163

When the artifact language saw the first hall Master, it didn't say anything directly. Instead, it criticized Ouyang Changqing and the others.

"Hall Master, have you noticed that Ouyang Changqing and the others are getting more and more outrageous recently? they're also looking down on you more and more! When we came back with serious injuries, Ouyang Changqing not only refined the poison pill and almost killed you, Hall Master, but he also wanted to use this matter to drive a wedge between us!"

"This matter has just passed, and they've come up with the idea of commoners surrounding the martial union branch in an attempt to force Sima Yi out. They thought that it was a flawless plan, but they didn't know that it couldn't escape the hall master's eyes and ears!"

"Other than that, they're still constantly targeting Sima Yi, using all sorts of methods. I feel that if we continue to let them do as they please, not only Sima Yi, even you, first hall Master, will fall for their schemes."

Although the artifact language was usually straightforward, it was also an expert when it came to killing hearts.

Therefore, it wasn't that the monster language didn't have any schemes, it just didn't want to do such things.

But this time, for Lin Yi's sake, he couldn't take it anymore.

The first hall Master nodded slightly, and his eyes were a little more hazy.

Even if the artifact language didn't mention it, a suspicious person like him would still be wary of Ouyang Changqing.

Therefore, with a little guidance from the language of assimilation, it was self-evident what he would think.

"Ouyang Changqing and the others have indeed gone too far! How was Sima Yi doing? Any reaction?"

In order to complete the mission, they had to get the life-saving pill from Lin Yi. The first hall Master finally thought about how to care for Lin Yi.

To put it bluntly, the first hall Master would care a little about Lin Yi's thoughts now that he had a use for him.

"Sima Yi is a person who can see the big picture, so he's been patient and considerate of the big picture. But no matter who it was, there would be a limit to tolerance! In my opinion, he's most likely on the verge of an explosion!"

The artifact language didn't even blink when it spoke nonsense, ""First hall Master, Sima Yi is not a simple person. Don't think that he is weak. If he wants to deal with Ouyang Changqing and the others, I dare say that it is not difficult!"

"Now that our nado martial Alliance branch is in trouble, it's really not good for an internal strife that will hurt our bones! "Even if Sima Yi really holds it in and retires in defeat, resigns, and Ouyang Changqing gets what he wants, it would still be a huge loss for us!"

"Don't forget about the pills that we use to save our lives ... I have an idea that I would like to discuss with you, Hall Master!"

The first hall master's breathing quickened when he heard the words "elixir" in the language of assimilation.

"That's right. There's no need for formalities between us. If you have any countermeasures, quickly tell me!"

The first hall Master waved his hand, showing that he was very close to the monster language, as if they were really close. ""If you can solve the problem, I'll give you credit!"

"It's all part of my duty, what credit is there to talk about!"

The artifact language laughed and went back to the main topic. "It's like this. I want to split the combat Association into two! Sima Yi is the honorary Vice President of the combat Association. Through his hands, he has trained an elite battle team, and his strength has improved by leaps and bounds. "

"I think it's a good choice to have Sima Yi as the president of the second combat Association! Hall Master, an all-rounded talent like Sima Yi, just being an Honorary President and honorary Vice President, there's no way to keep talents! It's not wrong to give him an official guild leader position!"

"Not bad!"

The first hall Master agreed.

Now that he wanted to get Lin Yi on his side, he naturally thought that the transformation language made sense.

"Vice Hall leader Hua is absolutely right! Since you don't care, then what's there to say? just do it!"

After quickly making the decision, the first hall Master was a little puzzled. ""But will this be able to resolve the conflict between Sima Yi and Ouyang Changqing? I don't think so?"

"It's true, this can only alleviate the conflict between him and Si yaoqian! "That's because I'm not done yet. In addition to the combat Association, I think the alchemy Association can also do the same!"

The manifestation's language diagram was revealed, and he smiled confidently. ""First hall Master, Sima Yi is a very strong alchemy master. He can refine that kind of life-saving elixir. It shouldn't be a problem for him to be the president of the second alchemy Association, right?"

"By doing this, not only will we be able to divide Ouyang Changqing's power in the alchemy Association, but we can also prevent a situation where one of the alchemy associations is dominant. Furthermore, Sima Yi has the ability to mass-produce pills! To us, there are only benefits and no harm!"

The first hall Master had wanted to object. He felt that it was too big of a move to split the alchemy Association. He was afraid that it would cause some adverse reactions.

However, he was soon convinced by the monster language.

He also felt that if he put Lin Yi with Ouyang Changqing and the others, there would be no way to avoid conflict.

In that case, letting Lin Yi establish his own Association wasn't a bad idea.

Everyone, mind your own business and don't get in the way of each other!

"Good! Let's do this! I'll write a document immediately to set up the combat Association's second division and the alchemy Association's second division. Sima Yi will be the president!"

The first hall Master was very decisive this time, giving Lin Yi the status of two presidents at once.

Other than trying to get on Lin Yi's good side, he was also trying to get on Hua Yu's good side, who suggested this.

No one had mentioned anything about the fight for the pills, but that didn't mean that they didn't have a thorn in their hearts.

The first hall Master was still counting on the monster language to complete the mission together, so he didn't mind giving more of this favor.

Of course, Ouyang Changqing and Lin Yi's conflict did raise the head master's concerns.

If he didn't show his attitude, the transformation language would join the war with Ouyang Changqing to support Lin Yi. The situation would be even more chaotic.

After much consideration, it was best to cut the Gordian knot and set up two second divisions.

This was also a balance. It was equivalent to the language of the living beings and Ouyang Changqing each controlling two similar departments.

Although it seemed that the language of monsters was at a disadvantage, it was suggested by the language of monsters, so it could not object.

"Hall Master is wise! This way, we'll definitely be able to retain the heart of a great talent like Sima Yi, and it'll be of great help to our martial union branch in the future!"

The artifact language was overjoyed. It was rare for it to say a series of flattering words, which made the first hall Master smile.

He seemed to really think that he was wise and divine.

After they discussed some more details, the first hall master's appointment document was finally in the artifact language's hands.

The first hall Master was also afraid that a long delay would bring more trouble, so he did not discuss it with Ouyang Changqing.

The dissatisfaction in his heart was to teach Ouyang Changqing a lesson.

The artifact language took the document and left.

Chapter 8164

Lin Yi didn't have to wait long before Hua Yu came back to the office, all smiles.

Lin Yi relaxed a little-he knew that the problem was basically solved.

As expected, the transformation language laughed and handed the document to Lin Yi."Younger brother Sima, this older brother was fortunate enough not to fail you. This matter has been settled!"

"This is the document for the establishment of the combat Association's Department 2 and the alchemy Association's Department 2. You'll be the president of both associations at the same time. You'll be able to choose where you'll be stationed. As long as it's an empty position within the martial union branch, you're free to choose."

"Thank you for your hard work, brother Hua. Once this matter is over, we don't have to worry about Ouyang Changqing and the others obstructing us!"

Lin Yi was quite happy as well-it'd be much easier to do things with his own territory.

The most important thing was that if he left this place, he didn't have to worry about Ouyang Changqing and the others settling scores with the people following him.

They belonged to different associations. No matter how awesome Ouyang Changqing and the others were, it was impossible for them to extend their hands that far. After all, this was the first hall master's move to divide power when he was suspicious.

This could be considered as leaving a way out for those who followed him.

"I know there's an empty courtyard around the clinic. It's big enough, so we'll set up our base there. It's just nice that it's connected to the clinic."

Lin Yi'd already observed the area-there was indeed some empty space around the clinic, but it was a branch of the martial Union, too. It was just that it was a little remote, and the clinic didn't need that much space, so it'd always been empty.

Now, it was the most suitable place for the combat Association's Division 2 and the alchemy Association's Division 2 to stay. It just so happened that the medical center could be integrated as well.

"That place is not bad. It's big enough. Although it's a little remote ... It's quiet!"

Hua Yu thought for a moment and understood Lin Yi's plan, "The houses are all ready-made. I'll find someone to repair them. After all, it's been a long time since anyone used them,"

"Since it's the combat Association and the alchemy Association, there must be a martial arts field and an alchemy room. These will also need to be rebuilt. It's a very simple project that can be completed in two or three days. Brother Sima, you should first gather all the people and wait for them to settle in. "

He didn't need to worry about the small things, and what he needed to do now was gather his men and bring them to the clinic.

As for whether he should recruit soldiers and expand the scale ... He would put that aside for the time being and decide when the time came.

"Many thanks, brother Hua!"

"Hahaha, we're brothers. Why are you being so polite? Do you still want to treat me as an outsider?"

The two chatted and laughed for a bit before Lin Yi stood up and left, the two of them going their own ways.

On the combat Association's side, Fei daqiang did not bring his men to rest at all. Instead, he brought his men everywhere to show off.

"Did you see that? did you see that? following our brother da Qiang has made everyone improve so much in just a few days. Are you jealous?"

"Brother, in the past, your strength was almost the same as mine. Now, I'm not bragging, but I can fight ten of you with one hand. Do you believe it?"

"What? Battle formation? Is there a need for a battle formation to deal with small fry like you? Who are you looking down on? Come, come, come, let's have a fight. I'll put you down with one finger!"

.....

Fei daqiang didn't even need to speak. He only needed to put on an enigmatic expression and leave the rest to the battle general beside him. The effect was extremely good!

He hadn't even told her that he had become an Alchemist. Otherwise, the effect of acting tough would be even more heaven-defying!

Just the increase in strength that could be seen with the naked eye caused the battle generals who had not joined to feel envy, jealousy, and hate. Their emotions were so excited that they could not control themselves.

There were some who didn't believe it and wanted to give it a try. The result was just as mentioned before, he easily defeated an opponent of the same level with one finger, and it was easy and pleasant to deal with more than ten people with one hand.

What was the most important thing for a combat Association's combat general?

Of course, it was his own strength!

Only with great strength could they ensure their survival in the battle against the darkness demon beast. So, when they saw that Fei daqiang and the others 'strength had increased by several times after disappearing for a few days, their eyes turned red!

"Brother da Qiang, did you guys eat some kind of elixir or have you obtained some kind of amazing opportunity? how did you all improve so much?"

Finally, someone who couldn't hold back his curiosity stepped forward and asked with a smile.

If they ate some medicinal pill or obtained some kind of opportunity, it would be considered a method that could not be replicated, and there was no point in being envious.

But if there was a method that could be replicated ... The battle general who had asked the question was already thinking about how to join without losing face.

Bah! So what if he lost face? as long as he could improve by such a huge amount, what was the point of losing face?

Fei da Qiang snorted lightly and faced the battle general with his nose up, showing his disdain for this question.

And the people around him would naturally immediately follow up, in case Fei daqiang acted too pretentiously and forced everyone to leave. Then who would he show off for?

"How ignorant! Following brother da Qiang, any pill or opportunity was not a problem. Our brother da Qiang was an opportunity! As long as your aptitude is good enough, your speed of improvement will definitely not be slower than mine!"

It sounded like he was bragging, but he was speaking the truth.

The battle generals also believed it without a doubt. There were so many living examples in front of them, anyone who did not believe it was a stupid bird!

"Brother da Qiang, you're so heroic and extraordinary, you definitely need more brothers to show off your wisdom and martial spirit. What do you think of me? Can you follow brother da Qiang?"

"Brother da Qiang, I ..."

"Me too, brother da Qiang ..."

.....

All of a sudden, these battle generals seemed to have made an agreement and were fighting to follow Fei da Qiang.

They had missed Sima Yi's battle formation in the beginning, and then they had missed the wave of Fei da Qiang's team to the nine story glazed Pagoda. This time, they didn't want to miss it no matter what!

With someone taking the lead, the rest would be a hundred people rushing to be the first to respond. Fei daqiang originally just wanted to show off, but in the end, he showed off with a large group of people ...

And so, when Lin Yi came to the Association, all the battle generals who stayed there, other than a few of si yaoqian's die-hard fans, had become Fei daqiang's lackeys!

Including the battle generals who were not here because of their mission, almost 80% of the combat Association's manpower had joined Fei daqiang.

Si yaoqian had just received the document saying that Lin Yi was going to set up the second division of the combat Association and take away a group of combat generals. He didn't think much of it at first, thinking that it wasn't a bad thing for Lin Yi to take away those people. If he kept them around, they would just keep eating away at his manpower.

He didn't expect that ... Before he could finish his thought, he received an emergency report from his confidants and everyone went to seek refuge with Fei daqiang!

Si yaoqian was extremely shocked. He did not send someone to be a spy of his own accord, but this person had betrayed him!

Chapter 8165

"F * ck! What had happened? Why did they go to Fei daqiang?"

Si yaoqian was so angry that he was about to explode. 'Did I mistreat you all, or am I so old that I can't even lift my blade? that's why you think you can just go to Fei daqiang?'

F * cking hell, it's still acceptable for you to rely on Sima Yi, but what's FEI da Qiang?

One of Sima Yi's lackeys is better than me?

Most importantly, he'd just received Lin Yi's notice that he'd be setting up Division 2 on his own, and now he'd pulled someone over-was there a need for Division 1 to exist?

If there was no one, what was the use of si yaoqian as the Vice President? Do you want to play the light beam commander?

"Go! I want to see who the F * ck dares to play mind games with me!"

Si yaoqian was so angry that he didn't care about his image at all. He cursed Fei daqiang's 18 generations of ancestors!

Si yaoqian cursed as he rushed to the place where Fei daqiang and the others were gathered. When he saw Fei daqiang, who was surrounded by the crowd, si yaoqian really wanted to pull out his knife and chop him into pieces!

"Fei daqiang! How dare you stir things up in my place ..."

"Incite my ass! You idiot, what are you doing?"

Fei daqiang didn't care about si yaoqian at all. As soon as the other party opened his mouth, he was interrupted by Fei daqiang, ""Do you think that you're the only one who can take in underlings, and no one else?"

"You have to be clear, now it's not me, Fei daqiang, who wants to be my little brother. It's these brothers who look up to me, Fei daqiang, and insist on following me. From this, it can be seen how much of a failure you are in their eyes!"

"People's hearts are biased against their backs! You're such an unpopular guy, how can you be the Vice President? i think you'd better quickly abdicate and let me be the Vice President, I'll definitely do a much better job than you!"

Fei daqiang hadn't heard Lin Yi talk about the second division of the combat Association yet, and he was just toying with si yaoqian by saying that.

However, si yaoqian didn't know what was going on. He thought that Fei daqiang was mocking him on purpose, and the anger in his heart grew.

"Brothers, look at how angry Vice President si is! His expression is indescribable! No matter what, he's still the Vice President of the combat Association. He's already putting in a lot of effort to make sure that you guys weren't seduced by me through improper means!"

Fei daqiang's mouth had a smirk as he raised his right arm and waved it, ""Then tell him loudly who you want to follow!"

"Follow brother da Qiang, follow brother da Qiang! We all want to follow brother da Qiang, not si yaoqian!"

Those people who had just joined Fei daqiang were determined to become stronger with Fei daqiang, so they didn't care about si yaoqian's face anymore. They shouted as loudly as they could, and GE yaoqian's face turned red with anger.

Lin Yi was a little speechless at this scene. He didn't think that Fei daqiang's unintentional move would have such an effect. He didn't just set up a second division of the combat Association, but he had directly divided it into two.

"Sima Yi, what a good thing you've done! "You're not setting up the second division of the combat Association. You're clearly trying to pull the people of the combat Association away. You're simply evil!"

Si yaoqian couldn't win Fei daqiang's argument, so he grabbed onto Lin Yi tightly, "You have to give me an explanation. Doesn't your conscience hurt from doing this?"

"I wouldn 't!" Lin Yi shrugged casually.

I didn't poach her, so why should I feel guilty? Even if I did, I don't need to be embarrassed to deal with you, si yaoqian!

"This is simply preposterous! All of you, come back here! You're all my men, and if I don't agree, don't even think about going anywhere!"

Si yaoqian was flustered and exasperated-Lin Yi's short words left him speechless. He could only use his authority as the Vice President to try and get some people back.

"Si yaoqian, who told you that they can't leave you if you don't agree?"

Lin Yi wasn't happy. Fei daqiang had just done something beautiful, how could he let you ruin it?

"You should have seen the document personally approved by the first hall Master, right? "The combat Association's Division 2 has been established. I'll be the president. The basic framework will be

transferred from the combat Association's personnel. Anyone who is willing to follow me to The Division 2 can go!"

With that, Lin Yi took out the hall master's letter-it had the hall master's signature and seal on it, proving that Lin Yi was telling the truth.

Si yaoqian was exasperated. "Bullsh * t! They've already left. Why are you still talking about the combat Association Department 1 and Department 2? you might as well change the sign here and add two more words!"

Lin Yi put on a thoughtful look and nodded, "Your suggestion is not bad. I can consider it!"

Si yaoqian almost vomited blood. 'Did I ask you to consider?' Why can't you even understand the sarcasm in my words!

"Sima Yi! I don't care what you're thinking, but since first hall Master said to split it into two, I certainly won't oppose first hall master's order. But since it's one division, you have to leave at least half of your men!"

Si yaoqian forced himself to calm down and racked his brain for an explanation. He really didn't want to be the leader of the Army. No matter what, he had to keep half of the people!

"First hall Master didn't say that. He only said that anyone who is willing to go to the second Department with me can go!"

Lin Yi shrugged, his attitude firm. "Don't waste your breath on this. From now on, the combat Association's Department 1 and Department 2 will be two separate departments. Even if you want to interfere, you don't seem to have the right!"

Si yaoqian was a little confused and didn't understand what Lin Yi meant by "not qualified" until he saw Lin Yi pull up his shirt, making the Golden double swords badge more obvious!

F * ck! Sima Yi, you B * stard, you've gone too far! Now you're talking about status?

Even though he understood, si yaoqian couldn't say that he was wrong ... Because that was the truth!

"Heh ... Vice President si seems to have understood! From now on, I'm the president of the second division of the combat Association, and you're only the Vice President of the First Division of the combat Association! You are of a lower rank than me. Even if you want to negotiate with me, it should be the president of the combat Association, not you, the Vice President!"

Lin Yi smiled as he turned his words into sharp blades, stabbing into si yaoqian's heart.

Especially when he mentioned the Vice President, he emphasized the word "vice" every time, which made the medicine director so angry that his chest hurt!

Who was the president of the combat Association? The language of assimilation!

Si yaoqian wanted him to negotiate with Lin Yi, but for what? The second movie was made by the language of monsters!

Bah!

"Vice President si, do you understand what I'm saying? From now on, they are all members of the combat Association's second division! You don't have the right to tell them what to do, and you don't have the right to interfere with how the second Department operates. If you have any questions, you might as well ask your cousin Ouyang Changqing. He's more knowledgeable in this area!"

"However, I guess he's just doing research!"

With that, Lin Yi called for Fei daqiang and his men to follow him.

Chapter 8166

Fei daqiang smiled as he moved closer to Lin Yi, "Boss, are we going to be independent? Actually, that idiot si yaoqian is right. Since they're already here, why don't we just add two movies under the combat Association's sign? why do we have to leave?"

"Ha ... I don't like this place! I've already found our own station, and we'll be able to move in in two days. Now, you guys come with me to the medical center to make do. "

Lin Yi patted daqiang's shoulder and smiled. "You did well today. You'll be the Vice President of the combat Association's second division!"

In any case, these battle generals all respected Fei daqiang. If he became the Vice President, they could just leave all the matters to him.

Fei daqiang was overjoyed. "Hahaha, thank you, boss. Following you was the right choice indeed. I can be promoted and get rich easily!"

"What kind of fortune?"

Lin Yi's lips curled up as he teased him, "You're very rich now, aren't you?"

Thinking back to how Fei daqiang used to hold a pile of treasures from the secular world and garbage from the cultivation world, and even put them into his storage bag, he felt funny.

However, this guy did have a talent for business. He could make a lot of money as a Logistics Officer in Hongshang Commandery.

"No, no, it's just a small amount of savings! It's far from enough!"

It was rare for Fei daqiang to be humble, but this should be the truth. Money was not enough for him, "However, if boss needs it, you can tell me at any time. I, Fei daqiang, will do everything I can to get everything done for boss!"

He wasn't just being humble, he also wanted to show his loyalty. As expected of a veteran leg hair, he was already instinctively good at hugging onto someone's thigh.

"Haha, you're too kind. If I need you to pay, I won't be polite!"

Lin Yi smiled. As expected, it was hard not to be in a good mood when he was with Fei daqiang!

On the other side, Ouyang Changqing was in a bad mood-he'd received the notice that Lin Yi had set up two associations and was now the president, and Siyao came crying to him.

Ouyang Changqing's face was as black as the bottom of a pot when he heard that Lin Yi had almost wiped out all the generals from the combat Association.

Si yaoqian, on the other hand, didn't even know what Lin Yi was talking about. He kept saying that the two departments wouldn't interfere with each other's business ...

Ouyang Changqing's heart was stifled, and he wanted to flip the table!

These were all his excuses!

He'd used it to send Lin Yi to the clinic, and now he was using it on siyaoqian, returning it to himself!

In this regard, Ouyang Changqing expressed that he didn't have any tricks up his sleeve and could only watch helplessly. He couldn't just slap his own face, could he?

"Cousin, you must help me! My Foundation in the combat Association has been completely destroyed by Sima Yi and his Lackey, Fei da Qiang!"

Si yaoqian pulled a long face. There were only a few people left in the combat Association. As the Vice President, he was too ashamed to go out!

"Big brother, the combat Association is a good example! Other than the combat Association Division 2, Sima Yi also had the alchemy Association Division 2! It's obvious that they want to fight us as equals, we can't let our guard down!"

Ouyang Changhong was also a little flustered. He had just become the alchemy Association's Vice-President a few days ago. If he were to become like si yaoqian ... Just thinking about it was terrifying!

"Don't worry, our alchemy Association is not a combat Association. Sima Yi can't possibly copy the operations of the combat Association!"

Ouyang Changqing's thoughts were clear. He casually waved his hand and said, ""Sima Yi led a team in the combat Association and was able to pull away most of the people at the end. As for the alchemy Association, he had no chance to intervene at all!"

"When he first arrived, we sent Sima Yi to the medical Hall. The group of trash that we assigned to him was not put in an important position, so his so-called second division of the alchemy Association is not a threat at all. At most, he just changed the medical Hall's signboard."

Ouyang Changhong repeatedly nodded and raised his thumb in praise. "'It's still eldest brother who sees clearly and plans far ahead. He has already made arrangements for Sima Yi!"

"Cousin! Then what about me? Can't the people from the combat Association do anything about it?"

Si yaoqian felt even more upset. If the alchemy Association had also suffered, they would have been able to feel better. However, he was the only one who had suffered. He could not accept this!

Luckily, Ouyang Changqing didn't know what Si yaoqian was thinking. Otherwise, he would have kicked him away. 'It's bad enough that you're in trouble, but you want everyone to be in trouble with you?'

"Yao qian, don't be too sad. After a while, those people might come back on their own. When that time comes, you can take care of them and vent the anger in your chest!"

Ouyang Changqing was still thinking of words to comfort Si yaoqian, "'As you can see, Sima Yi's alchemy Association's second division is just an empty shelf. Without a proper Alchemist, where would he get so many pills for his subordinates to cultivate?"

"Since we're already independent and have The Alchemist Association's signboard, we can, of course, justifiably refuse to provide them with pills. It won't be long before those battle generals who don't have pills will definitely start a mutiny. So, you can just watch with peace of mind. Sima Yi won't be able to jump around for long!"

Si yaoqian felt that it made sense!

A smile immediately appeared on his face, making him look like an idiot.

If Lin Yi was here, he would say that this idiot was beyond saving!

"Wonderful! Big brother is indeed a wily old fox! We'll cut off Sima Yi's supply of pills, and he'll come and beg us! Hehe, we won't give him the pill even if he begs us!"

Ouyang Changhong clapped his hands and laughed, as if he could already see Lin Yi kneeling in front of them and wagging his tail ...

In fact, Lin Yi would never have a time like that. Even the cowards that Ouyang Changqing assigned to him would never have that kind of bad luck again, let alone Lin Yi.

These cowards had heard about Lin Yi's plans to create a combat Association and an alchemy Association, and that the two associations would merge with the medical center, building their bases around the medical center.

"Hahahaha, the heavens have eyes! I'm finally going to succeed!"

"Hahahahaha, it's a good thing I followed President Sima to the medical Hall. Otherwise, I wouldn't have had such an opportunity!"

"Hahahahahaha! In the past, we were just small figures who were not welcomed by others in the alchemy Association. From today onwards, we are the elders of the alchemy Association's second division!"

"

.....

This group of cowards was in an uproar. When they heard the news, they became excited and were in high spirits.

They'd all been abandoned before, but now that they'd started their own business with Lin Yi, they were all veterans!

Chapter 8167

They didn't know much about their own abilities, but they felt that if Lin Yi wanted to set up a second division of the alchemy Association, no one else could do it other than them!

If they did not use them, should they use the boorish people from the combat Association? Hehe, what a joke!

As a result, when Lin Yi returned to the clinic, these cowards showed unprecedented enthusiasm and surrounded him.

"President Sima, we really want to contribute our strength. Please grant us this wish!"

"Right! President Sima's medical skills are superb, and we all want to learn from him so that we can make more contributions in the future!"

"In order for the medical Hall to recover, a doctor with superb medical skills is indispensable. We hope to invite the Guild leader to guide us ..."

... These guys were smart, too-they didn't come up and say stupid things like they wanted to be veterans, but took a roundabout way to show Lin Yi that they were willing to do things.

Lin Yi was quite happy as expected-he smiled and nodded."Not bad! Since all of you have the desire to learn, then get ready. I'll be giving a public lecture later, and all of you will study medicine well!"

Lin Yi was planning to let these people use Ling lingfa's automatic furnace to make elixirs, and use it as a tool.

But since they wanted to learn medicine and strengthen the clinic, Lin Yi didn't have to reject them.

The medical books that had been arranged previously had already been printed out. By giving each of these guys a copy, it could be considered as a preparation before the lesson!

The buildings around the clinic had been in disrepair for many years, so they needed to be fixed and rebuilt.

Although he had already sent people to do it, it would take some time.

So Lin Yi told Fei daqiang to arrange for the generals to stay temporarily, and he took advantage of his free time to give a public medical class to the people in the clinic.

Qin mengzhen and the other two disciples heard the news and came over to listen.

"I'm having a lecture on medicine. What are you three kids doing here?"

"What?" Lin Yi was speechless, "are you guys done with the practice?"

"Master, how am I a little ao?"

Qin mengzhen snorted and straightened her body proudly, ""You don't even look as good as me!"

"Little girl, I was Sky Class full master when I was 20 years old, and my face was permanent!"

"So what you're seeing is my twenty-year-old face!" Lin Yi glared at her.

"Oh, that's impossible, right? I was already Sky Class peak at five, and you're only twenty?"

Qin mengzhen's eyes widened in disbelief. "We thought our teacher was a young talent, but he isn't? Teacher is now a few hundred years old?"

It was no wonder. From Qin mengzhen's point of view, a 20-year-old who was only at the completion of the heaven class, how weak was his talent?

On the sub Island, most people started building their foundations at the age of six or seven. Lin Yi was only twenty years old, and he was practically a piece of trash.

Even tu Gelao and MA pijing were shocked-Lin Yi's talent was worse than theirs?

"What are you thinking? I'm not even 30 years old this year, what old monster! Are you guys listening? If you don't listen, go back and cultivate!"

Lin Yi was a little angry at being looked down on by the three kids, but he had to maintain his dignity!

"F * ck."

This time, Qin mengzhen was stunned, "teacher, you went from the peak of the heaven class to the mountain opening stage in just a few years?" Wasn't this too fast? You're the protagonist of those legendary storytellers, right? A Cave Adventure, an old man with you, and a cheat?"

F * ck.

Lin Yi wanted to say that she guessed it all right.

That's right, that's it.

The only thing that's wrong is that I'm in the sea splitting stage, not the mountain splitting stage.

"Listen to the class, of course I listen to the class! Our teacher is an all-rounded teacher. We have to be all-rounded too!"

Qin mengzhen and her two junior brothers nodded in agreement.

After she finished speaking, Qin mengzhen went to find a place. She did not forget to show off to the group of cowards with the air of a Senior Sister, ""It's rare for my master to give a big class. You guys are quite lucky! Listen carefully, don't miss a single word!"

"That's right, that's right, we are just lucky! We'll definitely listen attentively to President Sima's class and not miss a single word!"

Someone immediately patted his chest and guaranteed.

Here, Qin mengzhen didn't need the identity of a Princess. She only needed to bring out the title of Lin Yi's first disciple and it was enough to make these cowards submit.

"You're smart to come in advance to reserve seats. Look at those battle generals outside. Because they came a bit late, they can only stand in the corridor!"

MA pijing said proudly, feeling extremely proud of his master.

The battle generals in the corridor that she mentioned also attracted the attention of the cowards. Immediately, all of them beamed with joy. They really felt that they were smart people!

After all, a Medical Center was not an Academy. A room that was temporarily vacated as a classroom would definitely not be able to accommodate too many people.

Lin Yi didn't think that there would be a general in class, but he didn't think that everyone would come to listen to him after settling down.

Those who couldn't get in could just climb onto the roof or stand on the trees in the courtyard. It was like Xu Shihan and Cheng Yiyi's concert in the secular world!

Lin Yi sighed deeply at the thought of the two. He wondered when they would meet again.

Lin Yi put his thoughts aside and walked up to the stage, clapping his hands.

"I didn't expect that so many people like medicine. Since that's the case, I'll give you a good explanation today!"

To be honest, Lin Yi was quite happy today.

No matter how many people were truly studying, or how many people were just here to join in the fun, at least the atmosphere of learning had been ignited!

Lin Yi didn't hide anything, and started explaining everything he knew about medicine with simple explanations and references.

Everyone present was fascinated and benefited a lot from listening.

Even if they were not people who aspired to be doctors, they would still feel that they would be of use in the future.

Everyone's face was filled with excitement. Regardless of whether they were here to listen to the class or not, they were taking notes seriously.

Time quickly passed. Even though it was past mealtime, these people did not feel hungry.

"Today's class will end here. In the remaining time, if you have any questions, you can ask. I will try my best to answer them!"

Lin Yi lectured for nearly four hours before ending his first medical class.

Lin Yi decided to give the doctors some time to ask questions when he saw the disgruntled looks on their faces.

However, before the doctors could say anything, the battle general from the combat Association spoke first, ""President Sima, there's no problem with merging our two newly established associations. The problem is that there doesn't seem to be anyone who can refine pills right now. In the future, should we continue to find an alchemy Association Department for our pills?"

Chapter 8168

It was obvious that he was a battle general who had never entered the nine level glazed Pagoda.

Otherwise, they would know that Lin Yi's side didn't lack pills at all. However, he was a very representative figure, and the other battle generals who had just joined would have this kind of doubt.

After all, the so-called Second Department of the alchemy Association only had a few people, and they were all famous for being cowards ...

Rather than relying on them to refine pills, it would be more reliable to rely on them to study medicine and become outstanding doctors!

"You don't have to worry about the problem of pills. Since we've hung up the signboard of the alchemy Association's second division, we'll naturally be self-sufficient in the future. Don't ask Ouyang Changqing for anything anymore ... I don't think we'll be able to get anything even if we go!"

Lin Yi smiled faintly as he looked at the group of cowards. "There will be pills, and there will be alchemists! Everyone, just wait patiently!"

The generals who had entered the nine-story Pagoda could go back in and make elixirs, but Lin Yi didn't plan on doing that.

After all, they were all battle generals of the combat Association, and their main profession was to fight against dark magical beasts.

As for alchemy, it would ultimately depend on these people from the alchemy Association.

Therefore, he had to look forward to Ling lingfa's automatic alchemy furnace!

Ling lingfa didn't let Lin Yi down just as he finished his sentence-he sent someone to bring over the automatic furnace.

Most of the people in the clinic were here for classes, so the guards brought people and goods to Lin Yi.

"President Sima, this person claims to be a delivery man from the central Chamber of Commerce's grey-robed chief. He says that President has ordered a batch of goods from their Chamber of Commerce and is now delivering the goods to your door!"

The guard led the workers from the central Chamber of Commerce through the crowd to the door, cupping his fists and bowing to Lin Yi."He said that it's confidential and the goods must be signed by the president personally, so I had to bring him in."

"Greetings, President Sima! I'm here to deliver the goods, please accept ... Do you want it here?"

The shop assistant didn't dare to be slow-he greeted Lin Yi first before scanning the room with uncertainty.

There were so many people around, and this batch of goods was confidential. It didn't seem appropriate to take it out in public, right?

This guy was the one Lin Yi met when he went to the central Chamber of Commerce to look for Ling lingfa. He knew that Lin Yi and Ling lingfa had a special relationship, so he naturally had to be careful when facing Lin Yi.

"You've worked hard, you can go ahead!"

Lin Yi smiled and nodded at the guard. After sending him away, he ordered the battle generals outside, "People of the combat Association, go back to your own places to cultivate. If you're really free, go next door and help us repair our future residence!"

The battle generals knew that Lin Yi had something to say to the people of the alchemy Association alone, so they didn't ask much. They all said their goodbyes to Lin Yi and left.

He didn't know if they were going back to idle or to help move bricks at the construction site next door.

"All the doctors, please return to the front hall to give medical services. The alchemy Association's people will stay behind. Qin mengzhen and the rest of you can also leave. Go back and cultivate."

After sending away the battle generals, he continued to send away the doctors and his own disciples. In the end, only the group of cowards from the alchemy Association and the workers from the central Chamber of Commerce were left.

The guys from the alchemy Association were secretly excited. They were all thinking that their father was right. They were going to become the elders of the alchemy Association!

If not, why would the others leave and only them stay?

The secret goods sent by the central Chamber of Commerce must be good stuff!

To be able to participate in this, did one's status need to be mentioned?

What a proper right-hand man treatment!

Lin Yi didn't think that these craftsmen would have so many thoughts. That's right, they were craftsmen in Lin Yi's eyes!

An automatic alchemy furnace was equivalent to an assembly line operating the alchemy process. The person controlling it could not be called an Alchemist at all, but an alchemy craftsman.

Speaking of which, Lin Yi used to be an Alchemist himself, but people didn't know about it and thought that he was a super great Alchemist.

"Sorry to trouble you, you can take out the item now!"

Lin Yi waited for everyone to leave before signaling for the worker to bring out the automatic furnace.

"Yes, sir!"

After the shop assistant cupped his fists, he took out a storage bag and took out the automatic elixir-making furnaces one by one. There were a total of 25 elixir-making furnaces."Gray robe has always said that this is all we have for the time being. Due to the losses caused by experiments and forging during the manufacturing process, the main materials are not enough. We need time to purchase and smelt them."

"If President Sima needs more, then we'll have to wait a few more days. Grey robe also said that if President has enough, then he won't make these things for the time being!"

Even though Ling lingfa didn't come personally, he made it clear that he was a busy man. 'Don't bother me if you have nothing to do!'

"Alright, I got it! Go back and tell your gray-robed chief that whether it's enough or not depends on the effect this time. If there's a need, I'll still go to him and buy it!"

Lin Yi replied with a smile. The shop assistant obviously didn't know what he gave him, thinking that it was just a normal furnace.

At this moment, he was still thinking that it was just a normal alchemy furnace. Was there a need to be so mysterious?

After agreeing, the shop assistant bade Lin Yi farewell and returned to the central Chamber of Commerce with slight confusion.

Lin Yi, on the other hand, picked up an automatic alchemy furnace and fiddled with it.

The operating principle of this thing was similar, and it was the same as the one on Sky Class Island, so Lin Yi got it right away without difficulty.

However, this automatic alchemy furnace could only make mid to low level elixirs. If he wanted high level elixirs, Lin Yi had to go into the nine level glazed Pagoda.

"Come, all of you, come here. From today onwards, all of you will be in charge of the alchemy Association's elixir refinement. Each of you will have one of these custom-made divine alchemy weapons!"

Lin Yi called the soon-to-be alchemists over and gave each of them an automatic alchemy furnace. He then took out some ingredients and demonstrated.

"Do you see that? like this, like this, like this, you can choose the pill formula. After choosing the pill formula, put in the corresponding herbs according to the ratio on the list. You can put in more, as long as the ratio is doubled."

"If you exceed the upper limit, there will be a prompt. Alright, now that the furnace is at full load, turn off the furnace and insert your elemental Qi according to the instructions."

"No matter what attribute the Qi is, once it enters the pill furnace, it will be transformed into a pill fire. What you need to do is to maintain a stable supply and not stop it!"

"Of course, it's not a big problem to pause for a while sometimes. This alchemy furnace has a good tolerance for mistakes because it can store a small amount of elemental Qi to adjust the intensity of the alchemy fire. A short pause will not affect the process of alchemy, but you must not take it lightly because of this!"

Lin Yi said as he continued his demonstration. This time, he chose a low-level healing pill.

Chapter 8169

Although its level was relatively low, its healing effect was very good.

It was a kind of elixir that was commonly used in the medical center on the sub-Island.

Although it was a mass production, with the optimization of the automatic alchemy divine tool, the refining time could be faster than ordinary alchemists refining the same medicinal pill.

"On this, it shows the time it took to refine the batch of pills and the approximate number of pills formed ... Oh, there are 15 pills written on it!"

Lin Yi was very familiar with the way to use it. "Mass production can save a lot of materials. You all saw it just now, I only put in about ten portions of medicinal materials!"

"President Sima, you're not joking with us, right? What kind of pill furnace is this?"

These cowards were a little confused.

Even if he was a coward and did not know how to refine pills, he had heard and seen about it in the alchemy Association and knew the complicated process of refining pills.

Such a complicated process, how did it become so simple with this automatic pill refining divine tool?

They felt that they must have heard wrongly, or that President Sima was joking.

How could there be such a powerful thing in the world?

If there really was such a thing, then what was the point of having alchemists!

"That's right! We've never heard of a pill furnace that can automatically refine pills!"

"President Sima, don't joke around. Even if our second division can't refine pills, based on the medical skills you've taught us before, we can still stand on our own!"

Everyone was talking at once, but no one believed it.

It was no wonder that they didn't believe it. They just couldn't imagine things that they had never seen before.

Lin Yi didn't say anything else and started inserting his attribute Qi, "Everyone, take a look. I'll input ... En, earth attribute Qi!"

The cowards were even more speechless. Earth-attributed Qi could be used to refine pills?

Why didn't they say that earth-attributed Qi could even fly?

They didn't know about the massacre of gatesha. If they knew, they would definitely be amazed. The earth attribute could really ascend to the heavens!

"Alright, I'm done!"

As Lin Yi spoke, the weapon beeped as well.

He casually opened the lid of the pill furnace, and instantly, a fragrance filled the air!

"This ... Could it really be possible to concoct pills like this? Otherwise, where would the pill fragrance come from!"

"That's not necessarily the case. I've put in so many medicinal herbs before. Even if they weren't refined into pills, they should still have a fragrant smell after being boiled together!"

Lin Yi couldn't be bothered to explain-he just took the furnace and poured it on the table!

15 healing pills fell out of the furnace!

The entire room was filled with fragrance. They were all round, full, and of high-grade quality, with a faint pill Halo hanging on them.

It really made everyone's eyes pop out!

"Can this really be used to concoct pills?"

"This is a divine weapon ... A divine weapon! It really is a divine artifact!"

"President Sima is too amazing! He actually got his hands on such a powerful pill furnace!"

After the initial shock, these people who had never seen an automatic pill furnace before almost went crazy!

With such a divine weapon, what was the point of having an Alchemist?

Everyone could be an Alchemist!

Initially, they were a little worried that their alchemy standards were too low. They had barely managed to become the elders of the new association based on their experience, and it seemed that it was not stable enough.

But now, they were worried that some random nobody could take their place!

The foundation and knowledge of elixir refinement were worthless in front of an automatic elixir refinement furnace.

As long as it was a martial artist who could stimulate attribute Qi, they could successfully refine pills!

"That's right, you're right, this is a divine alchemy tool! "In the future, the middle and low grade elixirs of the alchemy Association's second division will all depend on you to refine! Everyone, do your best and let Ouyang Changqing and those people who looked down on you all have a whole new level of respect for you!"

Lin Yi gave a few words of encouragement at the right time, "maybe you guys were all just some low-class B * stars before, but from now on, you'll be existences that Situ Changqing and Situ Changhong can't even catch up to!" Your pill refining speed is number one in the Naduo Illusion Martial Alliance branch! It might even be the first place on the sub Island!"

"First, first!"

"I have a whole new level of respect for you!"

These cowardly alchemists' blood was boiling as they shouted their slogans.

At this moment, Lin Yi's words calmed them down. Each of them would be the main force in using these furnaces!

That would be a true elder!

Nodding in satisfaction, Lin Yi started directing them to try the refinement, "I'll refine low-level Pills first to practice. There's no need to operate at full capacity at the beginning. Everyone's total elemental Qi is different, so I'll try to see how long I can maintain it."

Everyone immediately became impatient and began to try using the automatic alchemy furnace to refine pills for the first time.

Lin Yi, on the other hand, was observing the entire scene, correcting and solving any problems that occurred.

These were all people who were using the automatic alchemy furnace for the first time. Naturally, they didn't have Lin Yi's smooth and natural operation, so they all had some problems.

But with Lin Yi's guidance, they didn't experience any interruption or failure.

When the time was up, the alchemy furnace gave a "di di di" sound of success. All of their faces were red with excitement.

He wanted to open the furnace, but he was afraid of failure.

After all, this was the first time they were so close to success.

"Don't fail! Lord alchemy God, please bless us and don't fail!"

These people began to pray devoutly.

"Relax, don't be so nervous. You won't fail!"

Lin Yi couldn't help but laugh at their reaction. "This alchemy furnace has produced a clear success notification sound, which means that the alchemy has been successful. There is no possibility of failure!"

"Moreover, as long as you ensure that you continuously input elemental Qi, the quality of the refined pills will not be low. They will be at least of medium to high quality!"

Only after hearing Lin Yi's explanation did everyone have the courage to open their furnaces.

In an instant, the entire room was filled with a fragrance, like a paradise on earth.

"As expected, I've succeeded. An Alchemist like me who has no alchemy talent has actually succeeded!"

"I've also succeeded. President Sima is truly a divine man. He's simply an existence not inferior to an alchemy God!"

"Don't talk nonsense, the alchemy God is such a high and mighty existence, you can't rashly talk about it! Although President Sima is also very powerful, if the alchemy God finds out about what you said, he will be punished!"

"Ah, I misspoke. President Sima is an existence second only to the alchemy God!"

Everyone had successfully refined a furnace of high-quality low-grade pills, and their faces were red with excitement as they discussed loudly.

"Very good! Everyone was indeed very talented in alchemy! "In the future, our New Alchemy Association will depend on you to support the sky!"

Lin Yi pressed his hands down, telling everyone to calm down and encouraging them with a few nice words.

With just a few words, he had managed to raise their enthusiasm, and all of them were rubbing their fists and wiping their palms, ready to throw themselves into the vigorous pill refining business.

Chapter 8170

"From today onwards, I'll build an alchemy room in the medical center. All the alchemy furnaces will be placed in it, and special people will be assigned to protect them. Every day, all of you will take some time to refine some pills. At the same time, you must cultivate well and improve your strength. The stronger you are, the longer your ability to refine pills will be!"

"As for the type and quantity of pills, we will study and decide together before giving each of you a task. In the future, your contribution will be assessed by the number and quality of the tasks completed, and this will be the basis for your rewards."

"The new Alchemy Association has just been established, and all of you are its elders. However, not everyone can take on some of the more important positions. Therefore, I will assign you your respective positions based on your alchemy performance. I hope that everyone will perform well!"

Lin Yi's last sentence hit the bullseye's heart, and their enthusiasm exploded-they all wanted to start refining immediately!

We all Love Alchemy, so don't stop us from refining pills!

Lin Yi, of course, wouldn't stop them from making elixirs. They needed a lot of low and mid-tier elixirs to maintain the medical center and the combat Association!

Therefore, the alchemy room was quickly arranged, and those guys who were fighting for positions to perform well all began to make use of every minute and second to refine pills.

Lin Yi nodded in satisfaction, but he was a little confused. What was an alchemy God for?

Could it be a very powerful alchemy master on the sub Island?

But Lin Yi didn't ask too much-it had nothing to do with him. What he did in the martial Union was just to pave the way for him to get closer to the super-rich.

After all, this was a stop in his journey. Lin Yi couldn't be stuck here forever.

While a large number of mid and low-grade elixirs were about to be produced here, on the other side, Ouyang Changqing's alchemy Association was in a different situation.

"I'm sorry, there are no more pills today. If you're in a hurry, you can go to the medical Hall ... Yes, the medical Hall doesn't sell pills, but the newly established alchemy Association's second Department is there. They have pills for sale!"

"There are no more pills. Please go to the medical Hall and find the second Department of the alchemy Association ..."

According to Ouyang Changqing's instructions, the people from the alchemy Association recommended those who came to buy elixirs to the medical Hall.

After explaining, they simply hung a sign at the door, saying that they would be closed for ten days, completely closing the channel that sold medicinal pills.

"Big brother, this is a brilliant move! That brat Sima Yi is dead for sure this time!"

Ouyang Changhong smiled and gave Ouyang Changqing a thumbs up. "That kid can't maintain such a big stall anyway. Sooner or later, he will come to us to supply pills to his combat Association's second division! And now, we'll move all the people who want to buy the pills there and see how he deals with this!"

"Hahaha, of course, the alchemy Association has to provide elixirs. Otherwise, why would it be called the alchemy Association? I'll give them a chance to show off so that they won't say that we're suppressing the second film, hahaha!"

Ouyang Changhong laughed complacently. He was also satisfied with his own methods. As long as those people who wanted to buy elixirs couldn't buy any elixirs from the second Department of the alchemy Association, they would naturally make a big deal out of it. At that time, he would have a reason to look for the first hall Master and ask the first hall Master to withdraw the second Department of the alchemy Association that didn't live up to its name!

Then, he would strangle Sima Yi's neck in terms of the supply of pills. It would not take long for the second division of the combat Association to fall apart!

It was perfect!

He was counting his chickens before they hatched, but he didn't expect Ling lingfa to give him the automatic alchemy furnace today!

And so now, Lin Yi had the ability to sell pills to the outside world.

The high-grade elixirs in Xuanji were all distributed through a quota system, and it was very rare for them to be sold in bulk. Normally, the elixirs that the Association sold in bulk were all low-grade and mid-grade elixirs, which was exactly what Lin Yi could take out at the moment.

The two cultivators who had been sent here to buy pills first walked to the door of the medical Hall, full of complaints and suspicion.

"What the hell is the alchemy Association doing? No one in the imperial capital knew that the clinic didn't sell pills! Last time, we made such a big scene, but in the end, we still couldn't find anything. Can we really buy the pills if we come here?"

"I don't know either! However, the people from the alchemy Association said that this was the second Department of the newly established alchemy Association ... What the hell ... Anyway, it was an Alchemist who refined and sold pills, and it worked in the same place as the medical center! "Anyway, the alchemy Association doesn't sell elixirs anymore. We have no other choice but to come over and take a look. If we don't have any, we'll just take it as a stroll!"

The two of them mumbled to each other in disbelief, not really hoping to buy any pills. They were even mentally prepared to return empty-handed.

They were lucky, however, as Lin Yi had sent people to bring the first batch of the automatic pill furnace to the clinic.

At the same time, he also informed the handymen to display the signboard of the alchemy Association's second division so that they could start selling elixirs to the public.

"I heard that this place sells pills?"

One of the Warriors looked at the dojo that had not changed at all and asked hesitantly.

"Yes, what do you want to buy?"

The handyman, who was busy putting up the sign, casually agreed.

"You're not selling it ... What? The second Department of the alchemy Association ... Really has pills?"

The cultivator who had asked the question did not hold any hope at all. He had only casually asked around and then received a shocking answer. There were indeed medicinal pills for sale here!

"Isn't that useless? If the alchemy Association doesn't sell elixirs, then what are they selling?"

The errand boy looked at the two martial artists speechlessly.

These two must be crazy. When they came and asked if they had any pills, they told them they did and kept talking about this and that.

"This ... What kind of pills are there?"

The warrior quickly asked.

"Take a look for yourself, there's a sample over there!"

The errand boy pointed at a glass shelf not far away.

The two martial artists hurried over and were shocked when they saw what was inside.

Although the pills sold here were all low-grade pills, they were all of very good quality!

Basically, these medicinal pills were all high-grade, and their effects were not inferior to some medium-grade low-grade medicinal pills.

"What do you two want to buy? "The second Department of the alchemy Association has just been established. For the time being, we only have these pills. However, in the future, we will continue to provide new pills. Whether it is the variety or the grade, they will be more abundant!"

At this time, a battle general in charge of guarding and escorting the pills introduced.

He was also proud of his family's ability to refine elixirs, so he spared no effort in boasting about the alchemy Association's second Department.

The two martial artists who came to buy medicinal pills exchanged a glance, both seeing the pleasant surprise in each other's eyes!

Their strength level wasn't too high, so low-level pills were enough for them!
