

Bodyguard 8171

Chapter 8171 The End

Moreover, most of their friends and brothers were at this level.

As for mid-grade and above medicinal pills, even if they had them, they would use them as life-saving trump cards.

What he usually consumed the most were still low-grade medicinal pills!

"The price of your elixirs ... Is it the same as the alchemy Association?" he asked.

One of the Warriors held back his excitement and quickly asked the most important question for them.

This time, it was not the battle general who answered. It was the doctor Who was in charge of selling the pills."Our President said that today is our first day of listing. Therefore, today's elixirs will be sold at a 20% discount according to the original price of the alchemy Association!"

Lin Yi didn't feel any heartache at all when he made this decision!

The alchemy Association's sale of elixirs was already a huge profit. It was normal for them to earn a few times or even ten times more. A 20% discount was still a huge profit!

What's more, in the original alchemy Association, an Alchemist could only refine one pill at a time and might not necessarily succeed every time. How many pills could he refine in a day?

On his side, an Alchemist could produce ten pills at a time, and it was like playing around. There was almost no loss of materials, and the cost was ten to twenty times lower than that side. This was a huge profit!

A 20% discount, that's a true profiteer!

But when the two martial artists heard the 20% discount, their eyes lit up!

"We're taking all of these pills!"

Originally, cultivators like them, who were not strong, had to be very careful when buying medicinal pills, but this time, they did not hesitate to act rich.

What a joke, a pill of such good quality, and a 20% discount, he would be a fool not to buy it!

The original alchemy Association sold elixirs of the same grade, but the quality was much different!

For example, the previous alchemy Association could only be regarded as the bottom of the high-grade elixirs. It was not impossible to say that they were at the peak of the middle-grade.

As for the high-grade ones here, they were the real high-grade ones, the kind that was close to the best quality!

To put it bluntly, it could be said that the elixir was one grade higher than the original elixir Association's elixir!

With such a comparison of quality, this place was 20% cheaper than the other side. Was there a need to hesitate?

One word, snatch!

They were all consumables, and there was no such thing as an endless supply. Even if they were, they could sell them and make a fortune!

"I'm sorry, the Association has just been established and we don't have a lot of reserves. We also have discounts, so each customer has to buy a limited amount. Otherwise, we can't supply to the customers behind us!"

The doctor in charge of sales poured cold water on them with a smile, shattering their dreams of taking them away. "Each person is limited to three low-grade pills, and one middle-grade pill ... Of course, there are no middle-grade pills yet, but our President said that there will definitely be middle-grade pills today. If you are willing to wait, you can take a number and wait at the side. When there are pills, we will give them to you first!"

Lin Yi was the one who gave the general direction, and Fei daqiang was the one who perfected the details. As Lin Yi's confidant, of course, he knew what Lin Yi was doing, so it wasn't strange at all for him to give him advice.

"We'll wait. Give us the low-grade pill and number first!"

The two of them were disappointed, but they chose to wait without any hesitation. Each of them bought three low-grade medicinal pills they needed, registered, and took a number before walking to the side.

One of them said in a low voice, "hurry up and find someone. Call everyone you can find here. Today, we must let everyone buy the pills. Who knows if we miss today? in the future, the second volume of the alchemy Association will not be able to operate!" I'll keep an eye on them, in case our accounts expire and become invalid!"

"It's settled! I'll go now!"

The other one felt that it was reasonable and immediately ran out to gather people.

When he left, he saw the second batch of people sent over from Ouyang Changqing's side. They also had skeptical expressions and conversed, but it made the sense of urgency in his heart increase by several times.

The more people there were, the higher the possibility that the pills would be sold out. He had to quickly call them over!

Not long after the warrior left, one of the second group of people who went into the medical Hall was left behind. The rest rushed out and hurriedly went to find their friends.

If there was Good news, everyone would have the same thoughts.

As the saying goes, "a bastard who doesn't take advantage of others when there's an advantage," not to mention this big advantage that could save his life!

As a result, as everyone ran around telling each other and word of mouth spread, the medical Hall was completely popular!

After Ouyang Changqing made the plan, he focused on his alchemy and didn't pay much attention to Lin Yi's side.

As far as he was concerned, Lin Yi was basically dead for sure, and he didn't need to add fuel to the fire or participate in the rest.

The last time he added fuel to the fire, it had the opposite effect on the first hall Master. He had learned his lesson this time.

Two days later, Ouyang Changqing finished refining the pill and remembered to ask about Lin Yi's situation, "how's Sima Yi?" Did they come to us for help?"

"No, I didn't! This brat is so prideful, he definitely won't give in so easily!"

Ouyang Changhong chuckled as he walked in. He didn't mind and arrogantly said, "But it doesn't matter. He'll come and beg us sooner or later. When the time comes, we'll make him kneel and kowtow to admit his mistakes ..."

"Hahaha! By the way, we've closed the shop and stopped selling pills. Are those people who can't buy pills going crazy? Did anyone gather to cause trouble or something?"

After all, Ouyang Changqing was the president of the alchemy Association. He was afraid that someone would cause trouble and affect his reputation if he kept closing the door.

As a result, Ouyang Changhong's expression froze. He then said with some suspicion, "I didn't pay much attention, but it seems like no one is causing trouble. Everyone is very calm ... It seems like no one came to buy pills yesterday and today."

It would have been better if he hadn't mentioned it. Once it was mentioned, Ouyang Changhong also felt a little puzzled!

Why did this matter seem a little abnormal?

This guy was also quite carefree, and didn't care about this matter at all. He was only waiting to see Sima Yi's good show.

When he heard Ouyang Changqing mention it, he felt that something was wrong.

"No one is buying? That shouldn't be ... In the past, people have never stopped coming to buy pills ... There must be something wrong if things are abnormal, we must take this matter seriously!"

Ouyang Changqing frowned and immediately sent Ouyang Changhong to get some news from Lin Yi.

After all, even if they put up a 'closed' sign, there should be some regular customers asking when they would open again.

The current situation was strange.

Soon after, Ouyang Changhong received the report with a gloomy expression. He quickly returned to Ouyang Changqing's alchemy room and said in a deep voice, ""Not good, that brat Sima Yi also sells pills ..."

Then, Ouyang Changhong explained the situation of the medical Hall selling medicinal pills and causing a huge scramble for them!

That included the promotional measures that Sima Yi had come up with.

However, after Ouyang Changhong finished speaking, he saw that Ouyang Changqing did not seem to have any special expression, and he could not help but be puzzled. "Big brother, why aren't you worried?"

Chapter 8172

Ouyang Changqing waved his hand and carefully asked, "You mean, other than the 20% discount on the first day, there won't be any discounts starting from the second day? But it's still limited to three per person?"

"Yes, limited purchase and no discounts can't stop these people's enthusiasm! These people are just in need of users. Since we don't open our doors here, they can only choose the alchemy Association's Department 2! Furthermore ... It had to be said that the quality of Sima Yi's pills was indeed better! Especially with the limited purchase policy, this kind of marketing strategy made people feel that it was a loss if they didn't buy it! You have to come here every day to use up your quota!"

Ouyang Changhong explained.

"So that's how it is! I understand!"

Ouyang Changqing slapped his thigh and laughed as if he wasn't worried at all that Lin Yi's party would affect him, "From the looks of it, that brat Sima Yi's family background is indeed very rich. He really has a large reserve of pills in his hands!"

"What do you mean?"

Ouyang Changhong was slightly stunned.

"In order to fight for face, he's taking out all the good medicinal pills he's stored up to sell! It's a classic case of puffing one's face up to look good!"

Ouyang Changqing thought he had seen through everything, and his face was extremely relaxed. "It's a good thing he thought of a limited purchase method to control the speed of the pills flowing out and delay it for a while."

"I see! Eldest brother is truly insightful and has hit the nail on the head! That brat Sima Yi is definitely trying to hold on for a few more days. Once we start selling the pills here, the customers over there will return to our side and help him resolve this pressure!"

Ouyang Changhong understood as well and laughed, thinking that he'd seen through Lin Yi, "Big brother, it looks like that brat Sima Yi won't be able to hold on much longer! He doesn't know that we can decide when we want to re-sell the pills. It's not something he can afford to wait for!"

At this point, the two brothers looked at each other and laughed. They felt that this was a sure win.

After that, they happily decided to continue closing the door and wait for Lin Yi's medicine to run out!

At that time, the show they were looking forward to would officially begin!

Another day had passed, and the clinic was still as crowded as ever!

Another two days passed, and Lin Yi's pill didn't show any signs of exhaustion.

Day after day, the 10-day closing time set by Ouyang Changqing and the others arrived.

Not only did Lin Yi's Department 2 not collapse from the demand, but he even lifted the purchase restrictions.

Because there were people coming to buy it every day, the market saturation was actually very high in a short period of time.

Therefore, even after the purchase restriction was lifted, the number of transactions per day did not increase much.

But this way, the faces of Ouyang Changqing and his brother turned black!

No matter how stupid they were, they could tell that Lin Yi didn't use up all the pills!

It was obviously impossible to drag Lin Yi down with this method!

"How could this be? Why did Sima Yi have so many pills in his hands? Even if he has some reserves, he shouldn't have stored so many low-level pills!"

Ouyang Changqing felt that things were out of his control. He scratched his head with his right hand and said with a distressed expression, "If he has an endless supply of medicinal pills in his hands, wouldn't we be giving up the market by closing the door? No, hurry up and open the door. We'll start selling the pills immediately!"

At this moment, he finally came to his senses.

But now that they'd given the market to Lin Yi, it was too late for them to react!

The alchemy Association's Department reopened. After the news was released, not many people paid attention to it.

Ouyang Changqing had thought that he could deal a blow to Lin Yi's side, but ...

At the end of the day, the door was completely deserted. It was not easy for a customer to come. After taking a few glances, he shook his head in disdain and left, heading straight for the medical Hall.

"Hey, hey! Wait a minute! I have a question to ask you!"

Ouyang Changhong was unhappy and stopped the person. "You want to buy medicinal pills, right? Why aren't you buying? It was fine if he didn't want to buy it, but what did that disdainful expression on his face mean? Do you think that the knife of the alchemy Association is not sharp enough?"

"No, no, it's a misunderstanding, a misunderstanding!"

That fellow did not dare to be mischievous in front of Ouyang Changhong, the alchemy Association's Vice President. He answered honestly, ""The reason why I didn't buy it is because the second division's pills are better in color, but the price is the same. Since that's the case, of course I'll go to the second division!"

Thinking that he might offend her by saying that, he nervously added, ""I'm not saying that your pills are bad! It's just that the medicinal pills there are better and more suitable for me!"

Ouyang Changhong was so angry that he almost laughed. 'What the hell is the difference between saying that and saying that our medicinal pills are bad?

It's not F * cking bad, it's someone else's that's better ...

Since you're so good at talking, do you want me to introduce you to a storyteller?

It wasn't over here yet, and another guest finally arrived.

In the end, this honest boy directly asked a question after seeing the pill, ""Eh, why is the quality of your pills so different from the second division 's? There seems to be a big difference ... And you're still selling it at the same price, aren't you guys a little greedy?"

He didn't know if the price of the elixir was black or not, but Ouyang Changhong's face was very black!

One of them even tactfully said that it wasn't that she wasn't good, but that she was better, but this one directly said that she was much worse than her!

So, are you guys here to group up and taunt me?

Could it be that the alchemy Association was a place where people could mock them?

Or do you think that I, Ouyang Changhong, can't even lift my saber?

"Don't talk nonsense. The elixirs sold by the alchemy Association have always been of high quality. If you dare to speak nonsense and slander us, you will bear the consequences!"

The alchemy Association's elixir seller's face was unhappy as he coldly retorted.

In the end, that person was also too honest. He didn't care where they were and retorted, ""Fine quality? it's far worse than the second volume. If it wasn't for the fact that there were so many people waiting in line, who would come to your side!"

"Get lost! If you don't want to buy it, then forget it and get lost! Do you think that our alchemy Association's elixirs can't be sold? There's plenty of people who want to buy it, do you think they're short of one?"

Ouyang Changhong was furious. If it wasn't for the fact that hitting a customer would blow things up, he would have given this guy a good beating right now!

"Tsk! Poor quality is poor quality, and you don't even let people talk about it ... If you can't provoke me, can't I hide? I'll walk, I'll walk, I'll go to the second division!"

The hothead was also afraid of the fiendish Ouyang Changhong. He hummed softly and dodged Ouyang Changhong. He sneaked out of the room by the corner of the wall and then ran away.

Ouyang Changhong gritted his teeth, but he could only suppress his anger.

He had thought that these two were just an isolated phenomenon, and that their situation would definitely improve in the future ... But it turned out that they didn't!

After a few people who bought pills in succession looked at the pills on Ouyang Changhong's side ...

She didn't question him as directly as the two before her, but she was clearly disappointed. She turned around and went to Lin Yi's side to line up.

Chapter 8173

This time, Ouyang Changhong was truly panicking.

He felt that he didn't value Lin Yi's information too much, causing everything that was happening to be beyond his imagination!

He didn't dare to tell Ouyang Changqing about this, and so Ouyang Changhong sent people to Lin Yi's side in disguises to line up for pills.

Soon, the pills were bought back.

In the beginning, Ouyang Changhong didn't pay much attention to it. After all, the elixirs they sold here were all refined by their subordinate alchemists.

He believed that if he or his eldest brother Ouyang Changqing were to personally make it, the quality of the pill would definitely rise to a higher level.

Therefore, no matter how good the quality of the second department's pills was, it was probably just that. As long as he and his eldest brother worked a little harder, they could rush out a batch.

However, when Ouyang Changhong took the medicinal pills he had bought and compared them ...

In fact, there was no need to compare at all. It could be seen when it was held in hand.

The pills in the second volume were actually almost a grade higher than his!

However, the selling price was the same, so it was no wonder that those who bought the pills would use their feet to vote.

If the quality was good and the quantity was not enough, it would be difficult to pose a threat.

However, the people that Ouyang Changhong had sent over discovered that the second division of the alchemy Association had an endless supply of pills, and the results were almost the same!

After the purchase restriction was lifted, there was no sign of a shortage of stock.

When Ouyang Changhong heard the news, he was completely dumbfounded.

Even he and Ouyang Changqing were not confident that they could refine pills of this standard every time!

Even if these were low-grade elixirs, not even the Ouyang family's ancestor could make them high-grade, let alone the two brothers.

Therefore, now that things had developed to this point, he could no longer make a decision. He could only report to Ouyang Changqing in a hurry.

"How could this be? Where did that brat Sima Yi get such a large amount of high-quality pills from?"

After hearing the report, Ouyang Changqing's face sank.

This was completely different from what he had expected!

However, he didn't think that Ouyang Changhong would lie. This must be the final result of the investigation.

If this continued, it wouldn't just be Lin Yi's "Alchemy 2" that was done for, but Ouyang Changqing's "Alchemy 1" that would be crushed to death!

"No, I have to find out the reason! If we can't figure out the source of Sima Yi's pills, we'll definitely lose this battle!"

After thinking for a moment, Ouyang Changqing slammed the table and gritted his teeth. "Send someone to the clinic as a spy. We must find out everything! When necessary, he would not hesitate to sacrifice himself! Chang Hong, we'll have to send our elites this time!"

"Yes, big brother! I understand!"

Ouyang Changhong immediately accepted the order, cupped his fists, and nodded solemnly.

The so-called elites were not the alchemists in the alchemy Association, but the men of sacrifice trained by the Ouyang family!

The Ouyang family had sent such a small team to their side, which was never used normally.

It was all for the sake of winning by surprise at the critical moment.

Now that they'd taken it out, it was clear how much importance they placed on Lin Yi.

Even if they had to sacrifice a few of these elite soldiers, they had to figure out everything.

These men of sacrifice were not hidden in the dark. Each of them had a normal identity and had no relationship with the Ouyang brothers on the surface.

He would only approach the Ouyang brothers secretly when he was on shift duty. After the shift, he would return to his normal life.

Therefore, sending such a person as a spy would definitely not raise any suspicion.

Even if they investigated his background, they would not be able to find anything.

In the end, it was meaningless to send out spies who were ready to die.

This death warrior went to the medical Hall and casually inquired about it before getting the news ...

Ninety-nine percent of the people on Lin Yi's side had seen the delivery from the central Chamber of Commerce!

Although there were only twenty or so cowards left when they took out their automatic alchemy furnaces, the rest of the people were not stupid!

The central Chamber of Commerce had just finished delivering the goods, and the alchemy room for the second Department of alchemy was already set up!

Then, a large number of medicinal herbs entered the alchemy room and were quickly transformed into a large number of pills and sent out.

Even an idiot could understand the connection.

Of course, this was also because Lin Yi didn't go out of his way to keep it a secret. He only sent generals to guard the refinement room to prevent people from causing trouble.

As far as Lin Yi was concerned, the central Chamber of Commerce didn't have any obligation to keep it a secret. It was only a matter of time before it became a secret.

Perhaps Ling lingfa would be interested and make another batch to sell in the market.

Ling lingfa did say that he was a spy, but on the surface, he had to ensure the central interests.

It wouldn't affect Lin Yi much even if they sold automatic alchemy furnaces on the market.

To put it bluntly, Ling lingfa's identity as a spy only required him to make some small movements at the crucial moment and change the general direction of targeting Lin Yi.

Therefore, the people Ouyang Changqing had sent to get to the bottom of the matter once again and understood.

He immediately got the information that the key to mass-producing elixirs in the second volume of alchemy was the automatic elixir furnaces sent by the central Chamber of Commerce!

"So that's how it is! So that's how it is! Hahahahaha!"

Ouyang Changqing laughed out loud after receiving the report. "The new Alchemy furnace produced by the central Chamber of Commerce? If Sima Yi can buy it, we can buy it too!"

"Eldest brother is right! In terms of money and manpower, we are far superior to Sima Yi's side. As long as we buy a New Alchemy furnace and invest enough manpower, Alchemy 2 can not be compared to us!"

Ouyang Changhong was also extremely excited.

He didn't expect the reason to be so simple, and that it could be replicated so easily.

Now that he'd found the reason, it'd be a piece of cake for him to get rid of Lin Yi!

This was the so-called 'know yourself and know your enemy, and you will win every battle', right?

"Let's go. We'll go to the central Chamber of Commerce now and buy the new pill furnace! We must suppress Sima Yi's side as quickly as possible!"

Ouyang Changqing spoke and acted, afraid that a long night would bring more trouble.

He picked up the gold certificates and immediately rushed to the central Chamber of Commerce with Ouyang Changhong and a few guards at the sea split stage.

"What would you like to buy, my guests?"

When the shop assistant of the central Chamber of Commerce saw Ouyang Changqing and his group's extraordinary appearance, he immediately greeted them with a smile.

"We'll buy all the remaining alchemy furnaces you have in the medical Hall!"

As soon as they arrived at the central Chamber of Commerce, Ouyang Changhong put on an arrogant look as if he was a rich man and didn't lack money. He patted the counter and ordered the staff of the central Chamber of Commerce, ""Hurry up and take out everything. Then, state a price. We definitely won't haggle!"

This Lord is rich and willful! No bargaining! Are you afraid?

The shop assistant expressed that he was not afraid!

He had no idea what Ouyang Changqing was talking about.

Chapter 8174

"I'm sorry, we don't have the thing you're talking about!"

He refused without being humble or overbearing, ""Our Chamber of Commerce has never made any transactions with the medical Hall about alchemy furnaces, and we don't sell alchemy furnaces either. This is not within our business scope!"

The automatic alchemy furnace was something that Ling lingfa and Lin Yi exchanged in private, and it wasn't in the central Chamber of Commerce's account.

There was nothing wrong with what the shop assistant said.

However, Ouyang Changqing and the others didn't know that. They thought that the shop assistant was looking down on them!

"Impudent! Do you even know who you are facing? You dare to brush us off like this?"

Ouyang Changhong had been very aggrieved recently. Now, even a shop assistant dared to lie to him. He exploded on the spot. "This is outrageous! You're just a small shop assistant. Where did you get the courage to lie to us? Call your boss out! Let's see if this young master will kill you today!"

The shop assistant's face darkened, and his warm smile disappeared. ""I don't care who you are, but do you know where this place is? Central Chamber of Commerce! Is this a place where you can do whatever you want?"

The current central had a layout across the entire sub-Island. After a long period of development, it could be considered a deep-rooted hero.

Although he didn't participate in the fights between those forces, he wasn't afraid of anyone coming to find trouble.

"Hehe, hehe! Not bad! He was quite tough! Was the central Chamber of Commerce that great? More impressive than our martial Alliance's branch? You're just a small shop assistant, yet you're more impressive than the martial Union's branch vice Hall Master and the alchemy Association's President and Vice President?"

Ouyang Changhong was so angry that he laughed. He raised his hand and waved it forward. "Take down this little minion and give him ten big slaps. Wait for their boss to come out and get him!"

"What big words! How dare you attack in the territory of our central Chamber of Commerce?"

The shop assistant was not afraid at all. He also raised his hand, and several guards immediately rushed out from the door behind him, confronting Ouyang Changqing's men. "What is a mere martial Alliance branch? If you know what's good for you, then get out of here. We're doing business here, and we're friendly to make money. We don't want to stoop to your level! Don't force us to chase you away!"

Ouyang Changqing's face darkened when he heard this.

With this attitude of yours, what's the point of amicability!

Those who didn't know better would think that they had entered a black shop that was selling human meat barbecued buns!

"Hehe ... I didn't think that someone would dare to ignore our martial Alliance branch! It seems like there's a problem here!"

Ouyang Changqing squinted his eyes and sneered. His eyes coldly swept over the people from the central Chamber of Commerce. "Very good! I only came here today to buy some alchemy furnaces, but I didn't expect to meet you bandits who are up to no good! As the Vice Hall Master of the martial Alliance's branch, this Lord has no other responsibilities. I must properly strike down evil forces like you!"

He was using his power to take revenge on his private matters.

However, Ouyang Changqing didn't care. After being accused of such a crime, he had enough confidence to make a move!

"Do it, close down this black shop, and then investigate whether there are any evil conspiracies inside!"

"Yes, sir!"

The few sea split stage experts who came with the Ouyang brothers replied in unison. They rushed forward and instantly knocked out the guards of the central Chamber of Commerce!

The people from the central Chamber of Commerce were only ordinary martial artists and were the obvious Defense Force.

As a result, their fighting strength was far inferior to the people Ouyang Changqing had brought. They all knelt down the moment they saw each other.

Ouyang Changhong laughed out loud and was extremely proud. "This kind of trash dares to shout in front of this young master, he really doesn't know how the word "death" is written! Seized!"

However, before he could finish laughing, an abrupt electronic voice sounded ...

"Who's here to say that they're sealing our central Chamber of Commerce?"

Ling lingfa, who was wearing a close-fitting battle armor, descended from the upper floor. He looked coldly at the experts of the sea splitting stage who were holding the guards of the central Chamber of Commerce. "Release my men, or don't blame me for not warning you!"

"You're the representative of the central Chamber of Commerce? You don't seem to understand the situation! They're all captives, so it's impossible to release them. Now ..."

Ouyang Changhong felt that victory was already in his hands. He shook his head and wanted to show off.

In the end, before he could finish his words, Ling lingfa raised his arm and aimed it at the sea Rift realm experts.

The black muzzle of the gun on his arm instantly charged up, and then the light flashed again and again!

Several laser beams were shot out in succession, each of which accurately hit an expert of the sea Rift stage.

The laser that was supposed to cause a penetrating injury didn't penetrate their bodies. Instead, it instantly spread to every inch of their meridians.

Before they could react, everyone who was hit started to turn into dust.

He was killed in one blow!

This ...

Ouyang Changhong's eyes were wide open.

The rest of the words were stuck in his throat.

They were all experts at the sea splitting stage!

There weren't many experts like him in the entire alchemy Association, and they were all dead?

"I've already warned you. If you don't listen to my warning, you'll end up like this!"

Ling lingfa retracted his arm. Killing a few experts at the sea Rift stage was as if it was an insignificant matter. "Do you still want to seal up our central Chamber of Commerce?"

Ouyang Changqing was also shocked.

Although the strength of these experts at the sea splitting stage was not as good as his, they were all top-notch combat forces. Yet, they didn't even have the chance to resist in the hands of this man?

What kind of martial technique was that light? it was too shocking and overbearing!

For a moment, Ouyang Changqing didn't pay attention to Ling Ling's message, so he naturally didn't have the time to reply.

However, Ling lingfa's next words were even more overbearing, ""Even the Alliance master of the martial Alliance doesn't dare to say that we're going to seal the business. Who Do You Think You Are? No matter what you want, our central Chamber of Commerce doesn't have it!"

I won't sell it to you even if I have it, so what can you do?

"For the sake of martial League, I'll let you off today. Don't let me see you in the central Chamber of Commerce again! You're not welcome here!"

Of course, Ling lingfa still had some concerns. He did not kill the Ouyang brothers as well. He just turned around and left.

After Ling Ling gave the order to leave, someone naturally 'invited' brother Ouyang to leave the central Chamber of Commerce.

The Ouyang brothers, who had lost a lot of face and were a little scared, did not dare to resist. They took advantage of the situation and left the central Chamber of Commerce.

After she left, the unwillingness in her heart surged, but she did not dare to look back.

"You dare to look down on martial League? Just wait and see! "Does a mere Chamber of Commerce really think that it can go against our martial League just because it has some strength? What a joke!"

Ouyang Changqing felt that he didn't dare to offend the central Chamber of Commerce, but someone else did!

He turned around and went to complain to the first hall Master. He was prepared to trick the first hall Master to come out and deal with the central Chamber of Commerce.

Chapter 8175

The two brothers hurriedly returned to the martial Alliance branch and immediately went to seek an audience with the Great Hall Master.

The first hall Master had just broken up the alchemy Association. Although he was not very happy with Ouyang Changqing, he was still the Deputy Hall Master, so he had to greet him with a smile. "Vice Hall Master Ouyang, what's the matter?"

"First hall Master, time is tight, so I'll make it short. It's like this ..." He said.

With that, Ouyang Changqing then described what had happened with exaggerated details.

"First hall Master, you've heard it too. This central Chamber of Commerce is simply too much! Not only did he ignore our martial Alliance's branch, but he also brazenly killed quite a few of our martial Alliance's sea shattering stage experts!"

Ouyang Changqing's voice was fierce and filled with righteous indignation. "Such a force has been hiding around us all this time, but we've never been alerted. This shows how deep their plan is! We must take this seriously and immediately gather our forces to encircle and annihilate the central Chamber of Commerce ..."

Ouyang Changqing almost said that central was in cahoots with the dark Demon beasts!

In short, he needed the first hall Master to order all members of the martial league's branch to assemble and immediately destroy the central Chamber of Commerce!

The first hall Master had been holding it in for a long time. When he heard the words 'encircle and annihilate the central Chamber of Commerce', he immediately slammed the table and stood up, shouting angrily, ""Bullshit! Ouyang Changqing, are you still considered a vice Hall Master of the martial Alliance's branch? You don't even know about the central Chamber of Commerce?"

"The continental martial Union has long ordered us to deal with Central's Affairs as carefully as we deal with the super-powerful families. Central's background is quite powerful, and the central Chamber of Commerce is one of the most important departments in central. Why the hell did you provoke the central Chamber of Commerce when you had nothing better to do?"

"Do you think that our martial union branch doesn't have enough business? Or are you tired of living and want to die? The power of central was unfathomable. Everyone knew this, yet you still dared to seize them? Why didn't I kill you? You're really lucky, you know that?"

The first hall Master was also furious. He grabbed Ouyang Changqing and scolded him.

After scolding Ouyang Changqing, it was Ouyang Changhong's turn to scold him. It took a long time for him to be satisfied.

Only then did Ouyang Changqing remember that the martial Alliance of the great continents had indeed given instructions about central.

It was just that a long time had passed, and there had been no friction, so no one took it seriously!

Moreover, he was in charge of the alchemy Association, which had nothing to do with the central Chamber of Commerce.

As a result, he, the Vice Hall Master of the martial Alliance's branch, had stepped on a mine ...

"Ouyang Changqing, Ouyang Changhong, will you two die if you stop? Would he? All of you, go back and reflect on your mistakes! If central wants to pursue this matter, you two can just wait for your bad luck!"

The first hall Master also took the opportunity to vent the anger in his heart.

When he thought of the poisonous pills that these two bastards had refined when he was seriously injured, the first hall master's heart felt extremely stifled.

Previously, in order to show his magnanimity, he did not pursue the matter. This time, he could take the opportunity to scold them and vent his anger.

The Ouyang brothers lowered their heads with furrowed brows. They didn't dare to refute after being scolded like grandchildren.

It was indeed their fault in this matter. Since central was an existence similar to a super-powerful family, the two of them could not afford to offend them.

If things got out of hand, martial League might not be afraid of central, but they would not go to war with central just because of the two of them.

Perhaps they would be thrown out to calm the situation, and the two brothers would be powerless to resist!

As for the Ouyang family, it was hard to say whether they would stand up for them.

So be it, it's better than being killed by central!

The two brothers went back dejectedly and closed their doors to reflect on their mistakes.

In the end, this matter somehow spread.

In fact, they couldn't hide it. Several sea Rift stage experts had died, and the alchemy Association had also suffered a great loss!

After hearing about this, the alchemists of the alchemy Association suddenly felt uneasy. They all felt that this alchemy Department was going to be finished!

He couldn't sell his medicinal pills to others, and his network wasn't as deep as others.

At such a critical moment, the two bosses were even punished to reflect on their mistakes.

Without a leader, the alchemy Department was on the verge of collapse.

Just a day later, the alchemy Department was filled with people whispering to each other.

"It seems like we're done for. The President and Vice President have offended a Big Shot, and even the first hall Master can't protect them. They might even cancel our establishment ..."

"It's better if they really cancel it. I'm afraid they'll just ignore us and let us die on our own ... The second division has an endless supply of high-quality pills. I don't think we have a chance to survive, but we'll definitely be destroyed ..."

"I heard that Sima Yi ... The president is extremely talented. Not only did he promote mysterious battle formations in the combat Association's second division to increase the battle strength of battle generals, but the pills in the second division of alchemy were also his handiwork. He even opened classes to impart all kinds of medical and alchemy knowledge!"

"Yes, yes, yes, I've also heard that President Sima's alchemy skills are also very high. It's said that he's a Grandmaster level figure who can refine high-grade high-grade pills. The first hall Master and vice Hall Master were seriously injured and dying last time because of President Sima's high-grade pills!"

"... That ... Seeing is believing, hearing is false. I don't believe such rumors! That's why I'm going to see for myself if this is true and verify if these rumors are true! You guys wait for my news!"

One of the alchemists said with a strong sense of righteousness and quickly turned around to escape.

The others were stunned for a moment before they immediately reacted!

If you want to attend the class, just say so. Why the hell do you need to verify it?

Does President Sima need you to verify it? What a joke!

While they looked down on the person who left first, they nodded solemnly. "That's very reasonable. Seeing is believing, hearing is false. I also want to see it with my own eyes and hear it with my own ears. I won't believe it no matter what you say!"

"Great minds think alike. Let's go together. We must verify it!"

The brothers looked at each other in disdain as they ran to the clinic righteously.

They said they were going to listen to Lin Yi's class to verify his strength, but in reality, they were going to join the second volume directly!

As for the alchemy book ... It was going to be over anyway. The Ouyang brothers couldn't even protect themselves, so why should they leave it to be buried with them?

If he left earlier, he could gain more experience in the second volume of alchemy!

When Ouyang Changqing and his brother came out of their closed-door meditation, the entire alchemy division was about the same as the combat division. There were only a few kittens left, and everywhere was a miserable and miserable appearance ...

Lin Yi didn't mind-he wouldn't reject any Alchemist who was willing to join his department.

They were still in the construction period, and it was allowed by the rules to recruit people. The first hall Master would not say anything.

Moreover, the people who came were all proper alchemists, so they didn't need an automatic alchemy furnace to open it and refine pills on their own.

The speed, quantity, and quality of their alchemy might not be as good as automatic alchemy furnaces, but there was one advantage—they had room for improvement!

Chapter 8176 No Problem

Ling lingfa had already made it clear that there was no room for upgrading these automatic alchemy furnaces, and they could only refine mid to low-grade pills.

Hence, Lin Yi had to solve the problem of making higher level elixirs himself.

He already had enough low-grade elixirs on hand. Next, he would cultivate some high-grade alchemists and refine high-grade elixirs. The entire system would be complete!

In order to train high-level refinement Masters, Lin Yi started to increase the amount of alchemy lessons he taught.

The classrooms in the clinic had been enlarged, but they were still full.

Lin Yi was in the middle of a class when an old man asked to see him.

The servant didn't even get to say the old man's name before Lin Yi interrupted him, "It's class time. Whoever comes has to wait. If you don't have the patience, please leave. Don't delay my class."

The doctors and alchemists in the classroom were listening with rapt attention, and they were very unhappy to be disturbed.

They heard Lin Yi's words and immediately echoed.

"That's right. The president's Lecture is extremely rare. Unrelated people, please do not disturb him!"

"The Guild leader was just talking about the fine details. How could there be such an annoying person ...
Hurry up and wait at the side!"

.....

Being accused by so many people, the old man was a little annoyed.

Previously, there was still some arrogance on his face, but now, only anger was left!

However, he couldn't do anything about it, because he had indeed affected the lesson ...

He was someone who respected his master, and no matter how pissed he was, he had to suppress his anger and wait for Lin Yi outside.

He also started listening to Lin Yi's explanation.

Hmm ... The old man's bearing is not bad!

However, the manservant beside him did not have such good self-restraint. He muttered to the old man with an indignant expression, ""Director, why do you have to put up with him? He's just a new member of the younger generation. Even if he's the president of the second alchemy Department, he's still a junior. He doesn't know how to respect his seniors at all!"

"Shh! Silence! It's true that we can't disturb someone else's lesson!"

The old man put a finger to his mouth and stopped talking, focusing on Lin Yi's class.

The servant was still indignant, but he didn't dare to say anything more.

The old man was the principal of the Fuyao apothecary school, Hua Yao. He was a Saint who was most particular about preaching and answering questions.

And so, even if he looked down on Lin Yi, he was willing to wait!

She'd been provoked into causing trouble for Lin Yi, but she'd started listening to Lin Yi's pill Dao class before she could even say anything!

"In alchemy, the alchemy fire is the most important. The alchemy fire that we transform from elemental Qi is actually the lowest grade, so many alchemists can't refine high-grade elixirs in their entire lives!"

Lin Yi wanted to talk about the spiritual fire of heaven and earth, but the people here were too low-leveled to understand. It was better to talk about something they could understand.

"If you want to transform elemental Qi into a pill fire and make full use of it, divine sense is an indispensable auxiliary method! When refining pills, most alchemists can't clearly observe the situation inside the pill furnace, resulting in them only being able to estimate based on experience. Naturally, the mistakes will increase greatly, so how can the quality of the pill be improved?"

"With a powerful divine sense, one can control every detail in the pill furnace at any time, and change the temperature of the pill fire according to the needs. This way, the success rate of refining pills and producing good quality pills will be greatly increased!"

"In addition, divine sense has an even greater use! It could be transformed into a new pill fire after cultivation! It was used to refine some medicinal pills that could not be refined by elemental Qi and pill fire. Therefore, for us alchemists, besides refining our body and Qi, we also need to refine our spiritual sense!"

"The so-called consciousness pill fire ..."

.....

Hua Yao's eyes flickered.

He'd just wanted to listen to it to pass the time, so he'd be able to cause Lin Yi trouble after class.

But after listening for a while, he was completely shocked by Lin Yi's pill Dao theory!

There were many novel points of view and evidence that could be confirmed to be feasible!

In particular, the idea of using one's consciousness to complement the pill fire and transforming one's consciousness into the pill fire was something that neither he nor his Alchemist friends had ever thought of!

This was simply an epoch-making pioneering work!

Hua Yao didn't want to cause Lin Yi any trouble at all-he admired Lin Yi from the bottom of his heart.

He felt that the former Honorary President of the alchemy Association and the current president of the alchemy Association's second Department were indeed well-deserved!

Compared to Ouyang Changqing ... He was much stronger!

In addition to his admiration, Hua Yao, like the others in the class, was also deeply entranced by the lecture.

Time flew by, and when Lin Yi announced that the lecture was over, Hua Yao was still feeling a little unsatisfied!

After most of the people in the classroom had left, Hua Yao quickly entered the classroom and walked up to Lin Yi. He cupped his hands and bowed politely. "Hello, President Sima! This old man is the principal of the fu Yao apothecary school, Hua Yao. Today, I've specially come to listen to President Sima's lecture. As expected, listening to a single word from a sovereign is better than reading ten years of books!"

"President's many novel ideas and methods have given this old man a refreshing feeling! There were some things I didn't understand before, but I've been enlightened because of this. I've really benefited a lot, thank you!"

The old man was very polite. He would not say that he was here to find trouble ...

In any case, no one knew about it except for the manservant beside him. If he said that he had come because of his reputation, he would not be exposed.

Lin Yi blinked. He didn't think that this old man was the Dean of the Fuyao apothecary school!

Was his reputation so great now? Even the headmaster of the Fuyao apothecary school was here?

"So it's principal Hua, I'm sorry! I've neglected you in the previous lesson!"

Lin Yi didn't want to put on airs when he was greeted with a polite smile. He returned the greeting and asked, "Principal Hua, it is my honor to take the time out of your busy schedule to come over. I wonder if there is anything else I can teach you?"

"I don't dare! President Sima's attainments in the Dao of alchemy are profound, so what qualifications does this old man have to lecture you? It's more like I'm asking President Sima for guidance instead!"

Hua Yao continued to smile and flatter Lin Yi until he was getting impatient.

Did this old man have nothing better to do than come here to flatter and accept flattery?

I'm such a busy person, how would I have the time to chat with him?

He didn't want to hit a smiling person, but he'd have to get rid of them if this continued.

Hua Yao's original purpose was to find trouble, but after changing his mind at the last minute, he was a little dumbfounded for a while. He couldn't think of what to say to make it seem more serious, so he could only boast and flatter her.

Seeing the impatience in Lin Yi's eyes, the old and experienced Dean Hua had an idea, "Hahaha, this old man and President Sima really hit it off at first sight, and I admire President Sima's alchemy skills even more. To be honest, I've come here today to ask for a favor!"

Lin Yi's spirits lifted-they were finally getting to the point? He was going to feel disgusted if he continued to flatter her ...

Chapter 8177

"Principal Hua is too polite. If there's anything you need, please speak your mind. If it's within my means, I won't refuse!"

He couldn't just agree to everything. He had to leave some leeway to avoid embarrassment.

"To President Sima, it's definitely not a difficult task. It's just that it'll take up some time!"

Hua Yao laughed, his expression extremely happy, as if he was very satisfied with his own inspiration, "It's like this. This old man has come this time to specially invite President Sima to come to our Fuyao Alchemy School to be the honorary Dean. After that, I'll find some time to teach the students of our school."

"Not only is President Sima's alchemy skills unfathomable, but when this old man watched President's Lecture just now, he also used simple and profound knowledge to draw on indirect references, and the effect was amazing! President Sima, you're definitely a natural-born teacher, so please fulfill this old man's wish!"

"Er ... The honorary principal of the fu Yao apothecary school? Principal Hua is too kind!"

Lin Yi blinked-he'd been getting more and more honor points lately, to the point where he couldn't even remember how many he had.

But Lin Yi didn't want to reject Hua Yao's invitation.

In any case, there was no pressure with more honor. It was the same logic as lice don't bite when there were too many, and there was no need to worry about people when there were too many debts.

"I'll be ashamed if I don't accept it, so I can only thank principal Hua! As for the lecture ... I've been busy recently and don't have the time to go. I'm afraid principal Hua will have to wait a little longer!"

"It's fine, it's fine. Whenever President Sima is free, you can come over. Our Fu Yao apothecary school will always welcome you! Furthermore, we'll be considered a family in the future. Even if you're not here to teach, President Sima can still come to our Academy to take a look!"

Hua Yao smiled in satisfaction.

Since Lin Yi had accepted the title of Honorary President, he had established a connection with Fuyao college.

To be able to form a good relationship with such a talented Alchemist was enough.

"Then I won't disturb President Sima today. The two departments have just been established, so there are indeed many things to be busy with. This old man won't disturb President any longer. I hope President Sima can send someone to inform me when the next lesson will be held. This old man will definitely come early and listen to president's profound theory again!"

Hua Yao was a smart person, and he knew what Lin Yi was trying to say-he said goodbye immediately.

Anyway, he had achieved his goal, and there would be plenty of opportunities to deepen their relationship next time.

"No problem. It's my honor to have principal Hua here to give me some pointers. Sorry for the delay today. Let me see Principal Hua off!"

Lin Yi was a straightforward man-he didn't even try to make her stay. He raised his hand and gestured for Hua Yao to leave.

Hua Yao's mouth twitched, and he swallowed the words he was about to say. He forced a smile and cupped his hands to bid Lin Yi farewell, even asking him to stay.

At that moment, another old man came from the other end of the corridor.

Lin Yi and Hua Yao looked up. Oh my, old acquaintances!

The president of the Alliance Academy!

Thus, the two of them stopped in their tracks.

No matter what their relationship was, Lin Yi still had to greet each other on the surface.

However, Lin Yi only cupped his fist casually.

This old man had been targeting him and even suspended his job without a care. He was already giving him face by not kicking him out of his territory.

Hua Yao didn't seem to have a good relationship with him either, so he just greeted him normally and left.

"Headmaster, what brings you here today?"

Lin Yi looked at him coldly, his tone harsh.

The Dean's old face was slightly embarrassed.

He didn't have a choice. Ouyang Changqing's alchemy Department had closed down, and he heard that the two people in charge had closed their doors to think about it.

If he wanted the quota for the pills, he would have to find someone else.

He just happened to hear that Lin Yi was starting a second elixir refining Department here, and that there were even elixirs for sale. For the sake of the Alliance College's quota, he had no choice but to come here personally.

"Haha ... Instructor Sima is still angry with this old man, right? Today, this old man has come in person to clear up the misunderstanding between us. "

The Dean was too embarrassed to mention the distribution of pills in front of Hua Yao, so he could only laugh and say, ""Why don't we find a place to sit down and talk? Principal Hua, please leave!"

If he didn't get rid of this eyesore, the old Dean really wouldn't have the face to mention the medicinal pill.

"There's no need for you to sit. There's no misunderstanding between us, and I'm not angry. You can rest assured, director. If there's nothing else, please go back!"

Lin Yi didn't give him any face at all, signaling that he could leave with Hua Yao!

The Dean felt even more embarrassed, but for the sake of the quota of medicinal pills, he had to endure it no matter how embarrassed he was!

The quota of elixirs was simply too important to the Alliance Academy. If it was reduced by half, the Alliance Academy's vitality would be greatly damaged!

The second alchemy Department did indeed have pills for sale, but it was impossible for the Alliance Institute to purchase the remaining amount at market price.

That way, the expenses would be too high!

It would be much cheaper if they used the quota!

To be honest, the Dean was really regretting it now.

If he'd known that Lin Yi had the ability to make his own batch of pills, he wouldn't have suspended Lin Yi's job!

The old man was still angry at Lin Yi-why didn't he tell him that he had the ability earlier?

He didn't think that Lin Yi didn't even have the chance to say it!

"Hehehe, since instructor Sima isn't angry and there's no misunderstanding, that's great!"

The old Dean laughed dryly and was ready to throw away his pride.

In any case, he could not just leave like this no matter what. "Teacher Sima, there's another matter that I've come to find you for today. It's about the difference in our Alliance establishment Academy's pill quota. This old man hopes that you can help make up for it!"

"This is something you promised to do. Since you have the ability to do it, please do it! After that, you can return to the Alliance Academy to continue teaching. Including those three students of yours who dropped out, they can all return to the Academy!"

The Dean felt that he'd given Lin Yi a lot of face-Lin Yi should've taken the opportunity to back down.

He hadn't even pursued the matter of Qin mengzhen and the other two dropping out of school.

However, the old headmaster did not realize that his tone was full of orders and charity from a superior.

With Lin Yi's current status, it could be said that he was above him. To take a step back, they were on the same level.

He was asking for it by speaking in such a tone.

Lin Yi hmphed coldly and waved his hand, his face expressionless. "I'm sorry, I've been busy with the setting up of the combat Association Division 2 and the alchemy Association Division 2. I'll pretend I didn't hear the director's words. Please go back!"

In an instant, the Dean's face turned gloomy.

He didn't think there was anything wrong with his words, but he felt that Lin Yi had no respect at all!

Chapter 8178

"Sima Yi, don't go too far! I'm already giving you face by coming here to talk to you. What else do you want? And you're trying to take advantage of me?"

The resentment in the Dean's heart was very heavy. He ran over, but he was chased out without even being able to sit down or drink a sip of tea.

Even Aborigines had a temper, not to mention he also had the earth attribute!

The moment the words left his mouth, Hua Yao exploded before Lin Yi could even react!

"Who are you calling a snob? You're the one who's taking advantage of me, you shameless old man! Who Do You Think You Are to dare to talk big here? You still dare to offend President Sima?"

Hua Yao saw that Lin Yi had gotten the better of him-speaking up for Lin Yi now would definitely earn him some sense of presence and a good impression, and it'd also be a blow to his old enemy."Is your Alliance Academy very expensive? It seems like President Sima is the one begging you to be a teacher? You're thinking too much, what the hell is this!"

You guys even dared to push away such a genius, you're really blind!

To be honest, Hua Yao was very happy right now. He even wanted to thank the Alliance School for being blind and kicking Lin Yi out!

Otherwise, who would be able to stop the rise of the Alliance Academy?

He wouldn't have the chance to invite Lin Yi to become the Honorary President of the Fuyao apothecary school!

"Do you know that our Fu Yao apothecary school has already invited President Sima to be the Honorary President? You even need to make an appointment in advance to invite President Sima to give a lecture? Who Do You Think You Are? You want President Sima to return to be your teacher with just a few words? What are you thinking?"

Hua Yao observed Lin Yi's expression as he spoke, and was relieved to see that he didn't object."Just based on your words and actions that offended President Sima, do you believe that the alchemy Association won't give a single pill to your Alliance Academy in the future?"

He was the honorary Vice President of the alchemy Association, so he had the right to make suggestions. As long as it was not a big deal, Ouyang Changqing would give him face.

However, today's matter was a little serious, and it was not up to Hua Yao to decide whether it would succeed or not.

After all, the Alliance Academy had its own network of connections.

It was still fine if he was short of half the quota, but if he didn't give even one, it would probably rebound directly!

However, don't forget that Hua Yao was not alone!

With the addition of Lin Yi, the president of the second refining Department, the Alliance College might really end up with nothing!

The Alliance School had offended Lin Yi, so it was perfectly reasonable for Lin Yi to refuse to give them the pills ...

There was no one to find, and it was useless to rebound to death.

The old Dean was a little dumbfounded.

He didn't think that Lin Yi would become the honorary Dean of the Fuyao apothecary school, and that he'd have to make an appointment to go to class.

The Dean knew very well what kind of person Hua Yao was. It was a little too much to say that he wouldn't do anything without benefits, but he was definitely an extremely shrewd old fox. How could he speak without thinking?

There had to be a reason why the other party liked Lin Yi so much!

Could there be something wrong with this?

The old director was not stupid. He immediately thought of the key to the matter and began to reflect on himself ...

Did he really misunderstand Lin Yi?

"Sima Yi ... This old man has a question for you, and I hope you can answer truthfully! When you first entered the Alliance Academy, did you go through the back door and make a deal behind the scenes?"

Everything started from the first day Lin Yi entered the school, and the Dean saw that Lin Yi was weak and assumed that he got in through connections!

And so, they'd embarked on a path of no return for Lin Yi!

So, looking back, the old director felt that it was necessary to clarify this point.

Lin Yi couldn't just get in through the back door and become the president of both associations, could he?

No matter how he pulled strings, he couldn't possibly get Hua Yao to hire him as the honorary principal of Fuyao Academy, right?

How big was this door!

"I can answer that. I climbed to the top of the list with my own strength! If there was a conspiracy, how could the new instructors not have any reaction? Do you think I can do whatever I want in martial League?"

Lin Yi replied honestly since it was about his reputation.

However, if the old man couldn't even understand this, he was really unworthy of being the Dean of the Alliance Academy!

Hua Yao sneered disdainfully. "You're really getting more and more muddleheaded as you get older. Look at President Sima's ability and talent, does he still need to go through the back door? You've abandoned a talent that martial League has been grooming with all its might like an old shoe. This is simply the world's biggest joke!"

This ...

The Dean's head was covered in cold sweat. For a moment, he felt as if he had been enlightened.

It was only now that he realized that he had indeed been blinded by a leaf and had gone into a dead end!

It turned out that he had misunderstood all along!

But why couldn't he understand it back then?

If Lin Yi really was a fake that got in through the back door, why would a proud Princess like Qin mengzhen lower herself to be his master?

Would MA bijing and tu gexia be willing to switch to his sect?

How could they drop out of school just because of Lin Yi?

It was something that even those kids could understand, but he, the president of the Alliance Academy, couldn't. How laughable!

It was indeed laughable!

"This old man was wrong! I've been wrong all along! I'm the one who has eyes but failed to see!"

After a long sigh, the old Dean's face was filled with loneliness.

However, although he was old-fashioned, he was brave enough to admit his mistakes. "President Sima, this old man apologizes to you. I've misunderstood you all along! I'm really sorry!"

"This is a sincere apology, not a perfunctory act for the sake of the pill quota! Of course, this old man still has to ask President Sima to help us with the distribution of the pills!"

The old Dean completely lowered his posture and really put on a humble look as if he was asking for help. "In addition, this old man would like to invite President Sima to return to the Alliance Academy and take on the position of Vice President. It's not just a title!"

"Our Alliance Academy needs an outstanding talent like you to revitalize. These are my sincere words. I hope that President Sima can consider it carefully and believe in my sincerity!"

"What kind of sincerity is this? You're just a mere Vice-Principal, and you're even doing hard labor for the Alliance establishment college. How can you compare to the honor of our Fuyao pill refining school's honorary principal?"

Hua Yao was immediately very displeased.

He felt that with Lin Yi's talent, the Fuyao Alchemy School was the most suitable place for him. What was the point of going to the Alliance School?

Could it be that the Alliance Academy also wanted to change classes and learn alchemy?

"With just the position of Vice-Principal, you want to bring President Sima to your Alliance Academy and then get a quota of medicinal pills? you shameless old man, your martial arts are getting more and more profound!"

"You shut up! Don't interrupt me here!"

The old hospital director was furious. Why did he have to deal with this matter?"Sima Yi, you're originally a teacher of our Alliance Academy. You're only temporarily suspended because of a misunderstanding."

Chapter 8179

"Now that you've returned to the Academy, it's the same as being reinstated as usual. Therefore, there's no such thing as honorary Dean or Vice Dean, only an actual position! And in the Academy, the vice principal is the highest position this old man can offer. You can't ask this old man to step down and give you the position of principal, right?"

It made sense, and in order to move Lin Yi, the Dean didn't call him President. He called him by his name, which made it more intimate and showed that he treated Lin Yi as family!

"What's wrong with that? An old man like you who has eyes but fail to see, what's wrong with abdicating your position earlier and giving it to President Sima? It should be!"

Hua Yao interjected again, but he was met with two knife-like sharp eyes!

The old Dean was really furious. Hua Yao, this old fellow, was really a piece of trash. He was bent on destroying this place!

Just as the atmosphere was getting tense, Lin Yi, who hadn't said anything the whole time, waved his hand, diverting their attention, ""The Dean doesn't need to abdicate! "To me, a Deputy Dean is more than enough. Even if you become the Dean, I don't have that much time to deal with trivial matters. On the other hand, a Deputy Dean can be more free."

"That's great! This old man can guarantee that although Sima Yi is the vice principal, you will enjoy all the privileges of a principal. You don't need to worry about anything, and this old man won't give you any orders. When there's a problem, we can discuss it together, okay?"

The old Dean was afraid that Lin Yi would go back on his word, so he quickly went to the details to make it more convincing.

Lin Yi thought that this was good and naturally didn't have any objections, nodding in agreement!

Now that he'd agreed, the Alliance School was one of his own, and Lin Yi didn't put on airs anymore.

He found a combat general and asked him to take out a batch of pills. He handed them to the Dean."I will make up for the missing portion of the Academy's medicinal pills quota. This has always been what I wanted to do."

If it wasn't for the old principal causing trouble, how could there be such an outcome?

"Principal, you can take a batch back today. The remainder will be slowly made up! I'll go back after this busy period!"

"That's good! Both of them are just starting, so it's really busy. Don't worry, come back when you're done!"

The old Dean was overjoyed.

The most important thing was that the quota was back, so it didn't matter when Lin Yi would come back!

Of course, he had to come back. He would be a fool to give up on such a powerful genius!

"Thank you for your understanding, principal!"

Lin Yi said a few polite words before sending the two deans off.

In reality, there was not much to worry about when the two divisions were established. Fei da Qiang was in charge of the second combat division, and all the battle generals were obedient and did not say anything.

After taking in a large number of people from Ouyang Changqing's side, there was a stable framework for the second division of alchemy now, and Lin Yi didn't need to worry about it.

Moreover, the low-end and middle-end pills refined by the automatic alchemy furnace and the high-end and middle-end pills refined by The Alchemist complemented each other, and the product line was completely perfected.

Before returning to the Alliance Academy, Lin Yi needed to solve the issue of his body's attributes.

After taking over the two alchemy books, the problem of medicinal herbs that he had been worried about before was no longer a problem.

Lin Yi didn't need the transformation language to help him collect them-he could do it himself.

As for making elixirs, Lin Yi had so many refiners under him, and there were a few who could make elixirs similar to golden class level five.

However, the key problem was that these people had never refined such a pill before.

Whether he could succeed or not, and what the quality would be after he succeeded, these were all unknown.

In order to guarantee the efficacy and success rate, Lin Yi didn't let anyone else do it for him. He told Fei daqiang and entered the nine-story Pagoda.

Lin Yi could only use his pure Qi to refine pills in the nine level Pagoda.

He entered the pill formula into Han Jing Jing's automatic pill refining divine weapon and waited for the instrument to simulate and analyze the curve.

This was a recipe for the sub Island, not the Sky Class Island recipe, so Lin Yi wanted to see if this automatic refining device could analyze it.

[Beep, pill recipe analysis successful. Creating an automatic pill refining curve ...]

A smile appeared on Lin Yi's face as the notification jingled.

It was indeed Han Jingjing. As long as she had the pill formula, she could analyze it no matter where it was from.

The only regret was that this alchemy furnace could not use the elemental Qi in the body to refine pills.

"Beep! As the pill recipe contains unknown refining process, it has been automatically optimized to be matched with spiritual sense and true Qi. Please press the confirm button to start ..."

Lin Yi pressed the confirm button and started inserting Qi according to the instructions.

When he needed divine sense, he would inject it in.

About half an hour later, a clear prompt sounded again, ""Beep, pill refinement failed. Refining curve modification in progress ..."

Lin Yi wasn't surprised that it failed.

Han Jingjing's automatic pill refining divine weapon did have a chance of failure when refining unknown pills, but it was not high.

Especially after han Jingjing's optimization, it could be said that the compatibility rate of the unknown pill formula had reached more than 90%.

However, that was only for the pill recipe of the Sky Class Island, not the sub Island.

The sub island's alchemy method was different from the Sky Class Island, so it was normal to fail.

"Beep, the pill recipe has been successfully optimized. The success rate of refining the pill has increased. Please put in the medicinal herbs and press the confirm button to continue refining the pill."

Lin Yi followed the instructions and put in another set of ingredients. After confirming, he was ready to make the pill.

This time, the time needed to refine the pill was reduced to one-third of an hour. The "di" sound rang out again. This time, he had succeeded.

He opened the furnace and looked at the color of the pill, shaking his head.

It was a success, but the color was below average.

This didn't fit Lin Yi's usual style.

"Alchemy successful. Do you want to proceed with the second round of modification and optimization?"

Lin Yi followed the hint and confirmed again. After the optimization, he started refining again.

This time, he refined the pill even faster, using only a quarter of an hour.

And this time, the color of the pill had directly reached the highest grade.

He put the weapon away in the Jade space and left the nine story Pagoda with the Supreme-grade pill and the broken pill.

Lin Yi might have taken a long time to make it, but the nine-story Pagoda's time axis was completely up to him to adjust.

So, from an outsider's point of view, Lin Yi only went in for a short while.

"Sir, you've succeeded?"

When Lin Yi came out, Fei daqiang was already waiting at the door.

At the side, there were some alchemists.

Perhaps they were waiting to ask some questions, or perhaps they were expressing their respect.

But only they knew that they'd never seen Lin Yi refine pills before!

Although Lin Yi had taken out some top quality pills before, they were all made before.

No matter how amazing Lin Yi's theories were, they weren't convincing enough without testing them out.

It could only be said that the public was convinced now.

Chapter 8180 No Problem

All alchemists held a kind of reverence and admiration for those who were even more powerful.

In their hearts, they were even hoping that Lin Yi could perform once to open their eyes. Only then would he deserve the title.

So when Lin Yi went to the nine level glazed Pagoda to refine elixirs, these alchemists all gathered around and waited.

They didn't think much about Lin Yi refining in the nine story glazed Pagoda. After all, an Alchemist needed a safe and quiet environment to do it.

Lin Yi was probably refining in there because he didn't want to be disturbed.

What they wanted to see was the result of Lin Yi's refinement.

"En, I did succeed, but this is my first time refining this pill. I managed to refine one first, but it didn't look very good."

With that, Lin Yi threw the item to Fei daqiang.

Lin Yi wanted Fei daqiang to sell it in the second volume.

Even if it didn't look too good, this kind of pill could still be sold for a lot of money. After all, it was an extremely rare thing.

A few alchemists came over. When they saw the pill in Fei daqiang's hand, they were a little disappointed.

This ... It was a success, but the color didn't match Lin Yi's identity.

"Haha, Sir is truly a God. It's your first time refining such a pill, and you've already refined it!"

Fei daqiang didn't care about that and directly started to flatter.

However, after he said this, the other alchemists suddenly understood.

That's right, it's already not bad to be able to succeed on his first time refining such a pill!

If it were them, it would be very impressive if they could refine one in a few months.

"En, so I refined another one. This one is much better!"

With that, Lin Yi threw the second pill to Fei daqiang, "It's for my own students, so I naturally can't deal with it!"

This ...

Top-grade!

The few alchemists' eyes suddenly lit up, and they were almost blinded by the second pill!

This is more like it!

This was the true President Sima!

As expected, President Sima was a genius!

The first one was not that good, but after some adjustments, the second one became a Supreme-grade one!

"As expected, Sir is concerned about those little fellows! The color of this pill, tsk tsk, even I want to eat it!"

Fei daqiang was very proud and had a feeling of being bound to glory.

Lin Yi didn't care about the flattery and got someone to bring tu Gelao into a quiet room.

The pill was just made, and the effect was the best. Lin Yi didn't want to delay it, so he took it out and gave it to tu Gelao, "Tu Gelao, take this pill. It can help you turn your false attribute into your true attribute!"

"Many thanks, master!"

Tu gexia was secretly excited. He didn't ask any questions and took the pill with both hands. He bowed to Lin Yi respectfully and swallowed the pill without hesitation.

He believed that Lin Yi would never harm him.

The moment the pill entered his stomach, it immediately transformed into a wave of boundless energy, guiding the elemental Qi in tu gexia's entire body to wash back and forth in his meridians and muscles.

Tu Gelao was caught off guard and immediately felt an astonishing pain. His face was somewhat distorted.

His body also showed a reaction of half wind and half Earth, entangling and circling, as if it was about to tear his body apart!

His skin was sometimes dry and chapped, sometimes cut by invisible blades, and sometimes it looked like it had been weathered for thousands of years.

Just looking at it was painful, not to mention experiencing it personally!

Lin Yi frowned. The records didn't mention that it would be this painful. He miscalculated.

If he left it alone, tu Geda might not be able to survive.

His extremely powerful divine sense immediately covered tu Gelao, completely controlling the changes in his body.

At the crucial moment, Lin Yi acted decisively, using external interference to clear the blockage in tu gexia's body.

Anyone else would've just sped up the tower's destruction, but Lin Yi was different.

Other than his powerful spirit sense that allowed him to control everything, Lin Yi's medical skills were also top tier.

With the cooperation of the two, it was easy to deal with the situation of slaughtering the tower.

With Lin Yi's help, tu Gelao's face started to return to normal.

There was no longer that painful distortion, and the abnormalities in his body slowly subsided.

An hour later, Lin Yi stopped and sat down.

Tu Gelao's aura stabilized, and after a while, he suddenly opened his eyes. His pupils flashed, and his body suddenly exploded with an aura that was far stronger than before.

"Thank you, master, for your help!"

Tu gexia smiled happily and knelt down in front of Lin Yi, kowtowing three times with respect. "Not only has disciple's strength improved, but the earth attribute in my body has also felt completely different. I have also gained a new insight!"

"No need to thank me. Since you and I are master and disciple, I naturally can't sit by and do nothing! Now that your fake Earth attribute physique has been transformed into the real Earth attribute physique, it can be considered as opening a corner of the seal in your body!"

Lin Yi waved his hand, gesturing for tu Gelao to stand up. He spoke unhurriedly, "However, it won't be that easy to completely unseal the seal in your body and release your original wind attribute physique! We'll talk about this later, there's a lot of preparation work to do!"

"Yes! Master! Disciple will follow master's arrangements!"

"Yes!" Tu Gelao bowed and agreed.

In fact, he didn't really care if he could break the seal or not.

After the pseudo-earth attribute was solidified, he could clearly feel that his strength and talent had undergone a tremendous change!

His potential was completely different from before.

It was no longer important whether he had a wind attribute Constitution or not.

As long as he seriously studied the martial arts techniques of the earth attribute, he would definitely be able to achieve something in the future!

"Let's not talk about this for now. Go and call Qin mengzhen and MA pijing over. I have something to announce!"

Tu Gelao agreed and quickly went out to find the two.

The three of them stood in a line in front of Lin Yi.

Now, Lin Yi was like a god in their hearts.

Their respect for this master had reached a point of no return-they didn't even dare to slight Lin Yi.

"I called you here today to tell you something!"

Lin Yi didn't let them stay standing. He gestured for them to sit down and continued, "You all know about the principal's visit that day, right? However, I don't think you would have known what I said that day if you weren't there. "

Qin mengzhen and the other two nodded in agreement.

Only Lin Yi and the two deans were there that day, and they wouldn't tell anyone that the two old men were gone.

Lin Yi didn't reveal anything after the incident, so they didn't know that Lin Yi was already a Vice Dean.

"That's what I wanted to talk about. The Dean is here and has invited me to return to take on the position of Vice Dean. The few of you who dropped out of school previously are not counted, so your

good days are coming to an end. Today, you will all follow me back to the Alliance Academy!" In the future, study hard and cultivate, don't slack off!"

"I knew it! Her master was so talented, so how blind must the Alliance Academy be to give up on her? Now, as expected, the old Dean has come over eagerly to invite master back!"

Instantly, Qin mengzhen's face broke into a smile.
