

Bodyguard 8181

Chapter 8181 The End

She didn't care if she went back to the Alliance Academy or not, but she always felt that it was unfair for Lin Yi.

Now, not only was Lin Yi able to return to the Alliance Academy, but he was also the Vice Dean. The little girl was finally at peace.

"Master, if we just go back like this, wouldn't it be too easy on the old director? This disciple feels that we should give them a taste of suffering!"

"Senior Sister Qin, you can't say that. Master will be the Vice President when he goes back! The principal's sincerity is already very sufficient. We should be content with what we have. After all, master didn't suffer any losses, and the compensation now is enough!"

MA pijing, on the other hand, really wanted to go back.

The Alliance Academy was one of his dreams!

He'd give up his dream for Lin Yi, but now that he could go back, he naturally wanted to be safe!

"I think master is more than enough to be the Dean, so a Vice Dean is really nothing! It mainly depends on master's mood. If you're happy, you can go and play for a few days, but if you're not, you can just ignore them. "

Tu gexia had just received Lin Yi's help and had become a die-hard fan of his, following Lin Yi's orders.

The three of them began to chat. Although they had different opinions, they were all very excited and felt proud.

"Alright, isn't it just returning to the Alliance Academy? you guys sure talk a lot. Let's go!"

Lin Yi smiled and shook his head before walking out the door. The three quickly followed, sticking to Lin Yi like three little tails.

When they returned to the entrance of the Alliance Academy, Qin mengzhen and the other two couldn't help but sigh.

They knew that with Lin Yi's capabilities, he would be able to get back to his post without a problem.

However, if it was just a normal case of returning to the office, people would definitely point fingers at him. He might as well not return.

However, things were completely different now.

Who knew how many people's eyes would pop out of their sockets when he returned as the Vice President!

He was really looking forward to it!

This kind of anticipation quickly became reality. Really, what you want will come!

Lin Yi didn't walk too far into the school with his three disciples when they bumped into Wang Ba, Gao Zi, GUI sun, and Gu Fengji.

Gu Fengji and Wang Ba and Gao Zi were friends after Lin Yi's suspension, and their relationship got better after that. They'd been hanging out together a lot recently.

The three of them were surprised to see Lin Yi with his disciples.

Then, Wang Ba Gaozi couldn't help but ask, "Yo, yo, yo! Look who's here! Sima Yi! It's been a long time since we last met. You're suspended and you're still wandering around the academy with three expelled students. Are you here to say your final farewell?"

The mockery in his words was undisguisable, and he similarly didn't give Qin mengzhen and the other two any good looks.

Or rather, other than Qin mengzhen, this was the princess, after all. Wang Ba Gaozi more or less knew in her heart, so when her eyes swept over, she only showed a smile to Qin mengzhen, then immediately changed to a cold face to MA bijing.

The speed and skill of this face-changing was also amazing!

Qin mengzhen and the other two were trying to hold back their laughter, not mentioning Lin Yi's position as the Vice Dean on purpose and even acting as if they didn't want to talk.

He didn't need to put on an act, he just had to hold back his laughter.

Gu Fengji taunted as well, but it didn't have much power. Lin Yi and the others didn't care at all, and only GUI sun didn't say anything, even greeting Lin Yi with a fist salute.

Wufu was a Grandmaster of arrays, and it was said that he was the president of the martial Alliance's combat division 2 and alchemy Division 2!

GUI Shan knew what to do.

He wasn't in the Alliance Academy, so he would only be doing better. There was no benefit in offending such a person, so it would be best if they could ease their relationship.

Lin Yi ignored Wang Ba, Gao Zi, and Gu Fengji's provocation and walked past them as if he didn't see them, but he did nod at Gu Sun as a greeting.

If others were polite, then he couldn't be too impolite. This was the meaning of reciprocity!

"Oh, we haven't seen each other for a while, but teacher Sima, you really have your eyes on the top of your head! You didn't even say hello, who are you looking down on?"

Wangba Gaozi was deeply embarrassed by Lin Yi's disregard. She blocked the way and emphasized the word "mentor" on purpose, trying to provoke Lin Yi.

Feng Shan and the others came from a distance away, all of whom didn't really get along with Lin Yi.

She didn't know what was going on with them today. They were so free that they liked to stroll around the academy's entrance. They actually ran into each other.

Wang Ba was even more pleased with herself when she saw the Allies again. She pointed at Lin Yi arrogantly, "Sima Yi, you're just a stray dog. When you're in the Academy, you should obediently lower your attitude and flatter us seniors! Look at your attitude now!"

"That's right! A despicable person like you who disrespects your seniors should be taught a good lesson!"

Gu Fengji cursed loudly as he reached out to grab Lin Yi's arm.

He really wanted to teach Lin Yi a lesson!

But it wasn't surprising-he'd been pissed off for being ignored by Lin Yi, and now that he'd taken advantage of the situation, he felt like he'd be able to get it!

Lin Yi glared at Gu Fengji coldly and activated his spirit sense collision.

Gu Fengji's palm was about to grab Lin Yi's arm, but Lin Yi didn't Dodge at all, as if he couldn't react in time.

Right at this moment, Gu Fengji's head suddenly jerked back, as if he had hit his head while running at high speed, and his head buzzed!

"Qin mengzhen, did you see that? this is the application of the collision of divine senses! No skill is static, and you need to adjust it according to the situation. You need to understand the profoundness of it yourself. "

There was a target, and Lin Yi even taught his disciple how to use it on the spot, making good use of the waste!

"Master, I didn't pay attention ... Can I demonstrate it again?"

Qin mengzhen revealed an embarrassed and shy expression. She stammered, ""This time, I will definitely observe carefully. If it still doesn't work ... Then I will ask master to demonstrate a few more times!"

Lin Yi couldn't help but smile, while MA pijing and tu Gelao almost laughed like pigs.

Since when did Qin mengzhen have such an embarrassed expression?

They were clearly digging mines and burying people, trying to take the opportunity to mess with those bad guys!

And he even asked Lin Yi to demonstrate it a few more times!

"Sima Yi, you're really bold. You actually dare to attack your comrades!"

Feng Shan, who had just arrived, understood what was going on. He roared in anger and prepared to call for reinforcements.

Lin Yi ignored him and smiled. "Alright, I'll demonstrate it a few more times. You have to observe carefully!"

The spiritual awareness collision turned into a spiritual awareness shock. Feng Shan and the others who had rushed over were already on guard, but they still could not resist.

They only felt that their minds were muddled, and some even thought of the three tests of life: Who am I? Where am I? What am I doing?

Chapter 8182

"Wonderful! Master's move was really too wonderful! However, our spiritual awareness is not as good as Senior Sister Qin 's, so we still want to see the application of martial skills in actual combat!"

Tu Gesha had followed Qin mengzhen for a long time and had also started to become bad.

After the spiritual sense attack, he even asked for a demonstration of a martial technique!

Lin Yi smiled faintly-since it was a request from his disciples, he'd at least fulfill it!

As a result, Wang Ba Gaozi and Gu Fengji's sealed mountain group were unlucky.

Before his mind could clear up, he was hit by a storm of punches and kicks. Almost in an instant, he fell to the ground!

"Do you all understand? If spiritual awareness skills and martial skills are used together, they can display an even better attack effect. You Must Remember This! Cultivate properly!"

"Understood!"

The three of them raised their heads and puffed out their chests as they agreed in unison. They couldn't help but feel proud.

This was their master! He was so strong that he had no friends!

He thought that Lin Yi was the weakest teacher in the school, but who would've thought that all these seemingly strong teachers combined couldn't even take on his master!

How awesome was this!

"It's good that you understand! Thank the instructors for taking the time out of their busy schedules to cooperate with the demonstration. In the future, when you see these instructors, you have to show them some respect, understand? Just his enthusiasm for cooperating with the demonstration without a word is worthy of your respect!"

The man on the ground almost spat blood!

You can't disgust people like this!

They had already beaten him up, so was it appropriate to humiliate him like this?

Who the F * ck has the time to cooperate with your demonstration!

I should kill you if I don't agree with you. How can I cooperate with the demonstration? F * ck cooperation!

Qin mengzhen and the other two stood in a row, holding back their laughter. They bowed to the people on the ground and said,""Thank you, instructors!"

Thank you my * SS! F * ck you, did you hear me?! F * ck you!

Wang Ba lay on the ground and pretended to be dead. She cursed endlessly in her heart as she tried to dig a crack in the ground with her fingers so that she could hide inside.

"Alright, let's go back to the classroom! I haven't been back for a long time, so the classroom is probably full of dust. You guys have to clean it up properly!"

Lin Yi waved his hand and led the three away.

After they were far away, Wang Ba, Gao Zi, and the others slowly got up from the ground.

Each of them looked very embarrassed. They deliberately turned their heads to look around and did not look at the others to avoid embarrassment!

"This is too much! Sima Yi was too much, he actually launched a sneak attack! Let's go to the principal and ask him to seek justice for us!"

Gu Fengji was the first to break the awkwardness, and he made a seemingly reasonable suggestion.

In an instant, the suggestion received everyone's approval, so the group of people ran over to the director.

When she found the old director, Wang Ba Gaozi immediately put on a weak and aggrieved look. Her eyes were still watery, and she looked very aggrieved!

"principal, sima yi has returned! he's really a problem. you said you'd come back, so you came back, but you actually used your divine sense to sneak attack your comrades and took advantage of the gap when we were affected by the divine sense skill to use martial skills to beat us up. this is simply preposterous!"

"this kind of black sheep who disregards the academy's rules must be severely punished! not to mention that he's currently suspended, yet he's not even thinking of repenting, provoking his colleagues and disdaining the academy like this. lord dean, you must do something about this!"

Gu Fengji waited for Wang Ba to finish speaking and quickly followed up,""That's right, principal! "We can not tolerate people like Sima Yi. Principal, please punish him severely!" It's best to directly kick him out of the Academy!"

Before the others could say anything, they saw the old Dean's face turn red with anger. He clenched his fist and slammed it on the table!

Instantly, they were overjoyed and felt that this was enough!

It seemed that the director was angry!

Sima Yi, let's see how you die this time!

They misunderstood the Dean completely, thinking that he was still the same old man who hated Lin Yi!

He did not expect that the old Dean could not wait to kill these people in front of him!

It wasn't easy for me to invite Sima Yi back, what are you guys doing, why did you provoke him for no reason?

If I were to chase them away or even send them to the fu Yao apothecary school, who would I ask for pills from?

I can't even refine a few pills out of you even if I chop you up one by one!

"Shut up! Who told you that Sima Yi is your colleague?"

The old man couldn't take it anymore, and with a low shout, everyone was stunned.

Wang Ba, Gao Zi, and the others blinked their eyes, unable to react for a moment.

they were all wondering if sima yi was not considered their comrade?

if they were suspended, they should still be colleagues!

unless they were fired, they really couldn't be considered colleagues!

so, the old man is trying to tell us that sima yi was actually expelled a long time ago?

that would be great!

In the end, the old director gritted his teeth and said word by word, ""It's a rule that we can't use our divine sense in a spar between people of the same level. We can offend our superiors, and our superiors can teach our subordinates a lesson. This was the rule! If this old man wants to beat you up, you'll have to endure! Sima Yi as well!"

"Sima Yi is the vice principal of the Alliance Academy that I personally invited back! You were the ones who offended the vice principal first, and after being taught a lesson, you still don't repent. You actually want this old man to go against Vice Principal Sima, this is simply ridiculous!"

Wang Ba, Gao Zi, and the others were all dumbfounded.

some even pinched their thighs to see if they were dreaming!

sima yi, vice principal?

old man, are you f * cking kidding me?

lin yi's return to the alliance academy was like a stone that stirred up a thousand waves, a turbulent wave that could turn the world upside down.

as for the alchemy association, it was now a pool of stagnant water. it was cold and quiet, no longer as busy as it used to be.

"big brother ... are we done for? is the association going to be closed down just like that?"

Ouyang Changhong looked at the falling leaves in the courtyard in a daze.

Now, even the cleaners were not willing to stay. The world was so cold, what else could it be other than desolation?

"Big brother, it seems that there has never been a history of the alchemy Association being destroyed before this, right? Are we going to be the ones who create history? He had to think of a way. He couldn't continue like this! I don't want to be a sinner of the alchemy Association. I don't want to be nailed on the pillar of shame in history!"

Ouyang Changhong said as tears began to well up in his eyes.

He felt that he had been wronged. How many days had he been the alchemy Association's Vice President?

he didn't enjoy much glory, but in the future, he would become the laughing stock of the entire sub-island?

ouyang changhong could imagine the discussions of others.

you guys know, right? "in the alchemy association of the naduo martial alliance branch, an idiot named ouyang changhong became the vice president. in the end, can you guess what happened after a few days? the alchemy association was closed down! hahahaha!

he grabbed a blade of grass! he couldn't f * cking live!

Chapter 8183

"don't worry, things haven't reached that stage yet!"

ouyang changqing waved his hand and said with a calm and composed look, ""how can the alchemy association be disbanded so easily? i won't just sit here and worry, i've already thought of a way these few days!"

"really?"

Ouyang Changhong's spirit was immediately roused after hearing this, and his eyes also lit up. "As expected of big brother! He already had a plan in mind? Quickly tell little brother, what is the method?"

"It's actually very simple. In the martial union branch, the first hall Master is biased towards the language of monsters and Sima Yi. We can't change that for the time being, so we can only avoid them! However, first hall Master is a soft-hearted person and is used to swaying left and right, so there's no need to worry!"

Ouyang Changqing smiled indifferently, as if everything was under his control. ""What we need now is a breakthrough, so I've already contacted my family and asked them to send over some ancient books left by our ancestors. We'll study them carefully and definitely find a breakthrough!"

Ouyang Changhong was slightly stunned and then asked suspiciously, ""Big brother, the clan's ancient books ... What kind of breakthrough can we find? And with our authority, even if we go to the clan's library, we might not be able to see any secret ancient books, let alone ask the clan to send them over!"

Their branch was not the direct line of descent in the Ouyang family. They were only one of the branch branches that were doing pretty well.

Therefore, Ouyang Changhong had a clear idea of their status in the clan.

The branch family didn't even have the right to enter the core area of the library Pavilion to read, let alone borrow books from there.

"It's not an ancient book from the core area. I don't need the original copy, just a rubbings will do! I don't know if you've seen it before, but there are some ancient books in the library Pavilion that aren't considered confidential. They record some tricky and strange things that aren't of the right path, so the clan doesn't pay much attention to them!"

A look of embarrassment flashed across Ouyang Changqing's face.

Ouyang Changqing was not very comfortable when Ouyang Changhong mentioned his status, so after explaining, he added, ""Don't look down on our status in the clan. The naduo martial Alliance branch's vice Hall Master and the alchemy Association's President are also considered to have a lot of weight in the clan. Such a small matter won't make me lose face!"

"Yes, yes, yes!" Ouyang Changhong quickly agreed. Big brother is a talent valued by the clan, this little brother can not be compared to big brother. In the future, this little brother will still need big brother's support!"

In the face of Ouyang Changqing's forceful attempt to save his dignity, Ouyang Changhong very cleverly flattered him, and this made Ouyang Changqing laugh heartily again.

In the next few days, everything was calm.

Lin Yi finally had some free time to give his three disciples some pointers.

After tu Geda's pseudo-earth attribute was converted into a real attribute, he had another opportunity to increase his strength explosively, so he advanced the fastest among the three.

However, Qin mengzhen's divine consciousness far surpassed the other two. It was also extremely shocking.

MA pijing was slightly inferior, but compared to the students under the other instructors, he was a genius!

Under Lin Yi's guidance, the three found something new every day!

Luo caidie would come over to Lin Yi's side when she had nothing to do, and she was also amazed at the improvement of the three.

"Sima Yi, your standards in guiding disciples are really high! I want to be your student!"

Luo caidie was eating a fruit while praising, ""It's been a few days, and I still haven't adapted to the fact that you're the Deputy Director! How did he become the Deputy Director after being suspended and going out for a while? Should I be suspended and go out for a walk?"

"That's enough! You come here every day to eat and drink, and you say this every time you come back. There should be a limit to your jealousy and hate, right?"

Lin Yi smiled and curled his lips. After getting to know caidie, the two talked more casually, "You're also an instructor, so why do you have time to hang around every day? how free are your students? I guess you won't be able to see the teacher, right?"

"Tsk, you have the nerve to criticize me? Didn't you only have the time to take care of your three disciples for a while these few days? didn't you disappear for a few days before? you think I don't know?"

Luo caidie raised her eyebrows and retorted. She waved the yellow Ribbon in her hand and said, ""I'm going to kick you to death!"

Lin Yi just pursed his lips and smiled at caidie.

Similar, they were simply too similar.

The more he looked, the more it looked like it.

It was fine if it was just a similar mantra, but Luo caidie's every frown and smile was very similar to Tianji.

In these past few days, looking at caidie Luo had become a habit for Lin Yi.

Although Luo caidie wasn't Tian Huan, she seemed so familiar.

In fact, Lin Yi was already used to her presence.

He would be happy to see her every day.

Lin Yi didn't know if he'd placed all his thoughts of Tian Huan on caidie Luo.

Or it could be said that Luo caidie's god-like appearance attracted him.

All in all, this was a girl who gave people a special feeling.

Lin Yi rarely took the initiative to fall for a girl.

Most of the time, Lin Yi was the passive one when it came to relationships.

But now, Lin Yi had an impulse to keep caidie by his side.

Suddenly, a Fei daqiang ran into the classroom and completely broke the leisurely atmosphere!

"Boss, something happened ... Gah! I didn't see anything!"

Fei daqiang was in a rush when he saw Luo caidie "slapping" Lin Yi with Huang Luan!

She even pouted and said, "I'll kick you to death!"

F * ck!

So boss likes this kind of style? Could boss be a masochist?

Only Fei daqiang, who had followed them from the secular world, could think of these messy things.

"If you have something to say, say it. What happened?"

Lin Yi frowned and asked.

"The clinic is in trouble!"

Fei daqiang's expression tightened as he quickly said.

Lin Yi thought that Fei daqiang came in to joke, but now he was surprised. What could have happened at the clinic?

Whether it was the medical skills of the doctors or the medicinal pills of the alchemy Department, they were already on the right track, and there shouldn't be any problems.

Besides, with the battle generals of the second combat division holding the line, it was impossible for someone to come and cause trouble!

"Don't worry, speak slowly. Why would there be trouble?"

Lin Yi stood up and patted daqiang's shoulder, telling him to calm down. "You're not someone who hasn't experienced things before. What are you nervous about?"

"No! Boss, we're really in trouble this time! There's a problem at the clinic, and someone died. The family members of the deceased are all gathered around the clinic, demanding an explanation ... There's no time to explain in detail. Boss, you should go back now, or it'll be more troublesome if this matter blows up!"

Fei daqiang couldn't calm down!

If someone came to cause trouble, he wouldn't be afraid at all!

However, it was not a fight, but a group of the deceased's family members blocking the door and crying.

He couldn't hit her or scold her, so he was helpless and could only ask her for help.

Chapter 8184

Lin Yi heard this and was surprised. He didn't understand why this happened. Was it the doctor's mistake or something else?

No matter what, he really needed to hurry back to take a look and deal with this matter.

"Master, shall we go with you?"

"That's right, master, maybe we can help ..."

Qin mengzhen and the other two all stopped their training, expressing their desire to go with Lin Yi, but he rejected them all!

"All of you, continue to train hard. It's time for you to improve, so don't waste time. You won't be of much help even if you go to the clinic. Don't make things worse!"

Lin Yi then turned to caidie Luo, "Help them to watch their cultivation. If they don't understand anything, you can give them some guidance!"

Caidie Luo wanted to go see what was going on as well, but Lin Yi threw this into her hands, so she couldn't say no.

Luo caidie could only agree to it so that she wouldn't waste time and Lin Yi's time.

After that, Lin Yi and Fei daqiang quickly left the school and returned to the medical Hall.

At this moment, the door of the medical Hall was surrounded by people. White banners fluttered in the air, and paper money flew everywhere.

Many people in mourning clothes knelt in front of the door, crying and crying.

In front of them was a coffin with an open lid, revealing a body covered with white cloth.

"everyone, what happened? why are you blocking the door of the medical center?"

lin yi made his way through the crowd and made his way into the inner circle. he cupped his hands at the mourning people. "i'm the person in charge of the medical hall, sima yi. if you have any problems, you can tell me."

"sima yi! you've finally appeared! we're looking for you!"

one of the young men jumped up and pointed at lin yi, "it was the pill you sold that poisoned my father to death! originally, my father was a martial artist with a strong body and was free from illness and disaster. i didn't expect that he would be poisoned to death by your medicinal pills! you have to give us an explanation!"

"our pill poisoned your father to death?"

lin yi asked, surprised.

could it be that he had not been here for the past few days, so there was an oversight in the pill he was refining?

but in theory, it shouldn't be!

The automatic pill furnace would not have any problems refining pills!

It was impossible to successfully refine it even if one more or one less medicinal material was used.

The program was set in this way, so there was no way it would go wrong!

Then what was the problem?

"May I have a look at your father's body?"

In fact, Lin Yi's spirit sense had already scanned the area, but he didn't find anything unusual.

At the moment, they could only confirm that the victim had died of poisoning, but the specific situation had to be tested.

After all, divine sense could cover the meridians of a living person, but it was not as effective on a dead person.

Especially when it came to things like poison, which couldn't be detected with divine sense.

"No! My father has already passed away, so how can I allow you to defile his remains?"

He didn't think that the young man would reject Lin Yi without even thinking about it, and burst into tears, "Father! This child is unfilial! The person who killed you is right in front of you, but you can't do anything to him!"

lin yi didn't know what to say-how did it become me killing your father? you haven't even seen this person before, okay?

the other survivors were also attracted by the crying and started to cry around lin yi.

instantly, the situation went out of control.

the people in the clinic quickly came out to help, surrounding lin yi and separating him from the crowd. they couldn't really do anything, so they could only grit their teeth and bear with the scratching.

lin yi's face didn't look too good-he was even thinking that these people might be ouyang changqing's backup. you found a corpse from anywhere and you came to the medical hall to cause trouble?

the possibility of that was not small. after all, it was not like ouyang changqing could not do such a thing!

"don't be so excited. i haven't asked for your names yet. who was the victim? you came to the clinic to solve your problem, right? it's meaningless to keep pestering me ..."

lin yi tried to use their identities to investigate the truth, but before he could finish his sentence, the family members became even more agitated!

"what do you mean? you investigated our identities, are you trying to get revenge? it's not enough that you killed one of us, you want to exterminate the entire clan?"

"What vicious thoughts! Come, come, come, there's no need to wait for the future. Just kill us today! There's nothing bad about letting our family reunite!"

.....

This group of people almost lost control of their emotions, and the people from the medical Hall almost couldn't stop them.

Lin Yi's arms and claws were dancing in front of him-he'd probably get a couple of scratches on his face if he just stood there.

"What do you want? Is he deliberately causing trouble? Can't you speak properly?"

Lin Yi was getting a little angry as well-he was sure that these people were sent by Ouyang Changqing!

If he wasn't deliberately causing trouble, how could he not even be allowed to speak properly?

At this time, Lin Yi was ready to make a move. Since they couldn't communicate properly, he would take them all down first and talk later!

At this moment, someone in the audience said,""Honest sun's death was quite unjust! I've been honest all my life, relying on hunting for a living, and I've never done anything bad. In the end, I was poisoned to death by a pill, what a sin!"

"Exactly! Their wife and son are usually kind and honest people, but in the end, they were forced to this state. The medical Hall is too unrighteous, how can they harm people like this?"

"Now that honest sun is dead, his mother and son are still being bullied by the clinic. In this world, good people can't live anymore ..."

There were all sorts of discussions. Although no one came forward to help, the pointing and discussion also indirectly confirmed the identity of the deceased and his family!

Lin Yi looked at Fei daqiang. Although he didn't say anything, Fei daqiang immediately understood what Lin Yi meant. He immediately went up and whispered, "Boss, there's no problem with the identities of those onlookers. They're all civilians nearby. We've already checked them out."

"The victim, honest sun ... I've never seen him before, but I don't think he's a fake. It's something that can be found out with a little investigation, so no one would fake it. However, I don't think he was poisoned to death by our pills. There must be a trap!"

Lin Yi nodded. These people's identities were fine, so he had to adjust the direction of the investigation.

"Everyone, please calm down. Don't get too excited. Let's figure this out together ..." He said.

Lin Yi calmed himself down and tried to communicate with the will again.

In the end, the young man cursed, "bullshit!" If your father was poisoned to death, would you be able to stay calm? How could you not be excited? Don't just stand there and talk! My father was poisoned to death by you. It's such a clear fact, how do you want to find out?"

"Alright, alright, alright! I don't care if you're excited or not! However, since you said that your father was poisoned to death by our pills, can you please show us the evidence? for example, do we still have any of the pills we sold?"

Lin Yi didn't want to waste his time arguing, so he tried his best to get the guy into his rhythm.

As expected, after Lin Yi's reminder, the man really did take out a pill.

Chapter 8185

"of course, there is evidence. these are the pills you sell here. my father was injured while hunting, so he bought your healing pills. after eating one, he quickly passed out! other than your pills, i have not eaten anything else!"

the young man held a pill bottle in his hand and his face was covered in tears. ""if i had known earlier, i wouldn't have asked father to buy your healing pills even if i died! it wasn't a fatal injury, but it was killed by your medicinal pills! what else do you have to say?"

"i've never wanted to quibble. since you said that it's a problem with the pill, can you let me take a look at the pill?"

Lin Yi reached out for the pill.

But the young man refused to give it to him. He quickly put the bottle away in his arms, protecting it from Lin Yi.

"Do you want to destroy the evidence? I'm telling you, unless I die, don't even think about destroying the evidence!"

Lin Yi was speechless-the guy's brain was really full of holes! But if he didn't cooperate no matter what he said, what could he do?

Although his spirit sense could also scan the pill, it could not analyze the composition of the pill.

For a pill that had already been formed, one could only tell if there was anything abnormal with it through one's eyes, touch, and nose!

"how could i destroy the evidence in front of so many people? you're hiding it from me like this, so how can i be sure that it's a pill sold by my family? what if you bought it from the outside to frame us?"

in order to be reasonable, lin yi had to worry a lot,"how about this? you pour out the pill and place it in your palm. i won't touch it. you just need to bring it to my eyes and let me take a good look at it. is that okay?"

the young man hesitated. perhaps he felt that lin yi's words made sense, and there was no point in pestering him. in the end, he nodded and poured the pill out, placing it in his palm and presenting it to lin yi.

of course, he still maintained his vigilance and stared at lin yi.

as soon as lin yi made a move, he'd immediately take back the pill ...

however, he didn't think that if lin yi wanted to make a move, he wouldn't be able to react.

lin yi took a closer look and sniffed at the smell. he was sure that this was a healing pill made by an automatic alchemy furnace, and the ingredients were correct!

"this is indeed our pill, but there is no poison in it! it's impossible for them to kill people. if you don't believe me, i can eat them on the spot!"

lin yi was trying to emphasize that the pill wasn't poisonous, but the young man quickly pulled back his fist and stared at lin yi warily. "you really want to destroy the evidence! i won't let you have your way!"

Fei daqiang couldn't stand it anymore and couldn't help but curse, "Are you stupid? I already said that there was no problem with this pill! Destroy what evidence! If you don't believe it's not poisonous, we can verify it for you on the spot. What else do you want?"

"No matter what you say, this is evidence. I can't let you eat it! You were the ones who refined the pill, so even if it's poisonous, you must have the antidote!"

There was nothing wrong with what he said!

Fei daqiang was so angry that he laughed. He thought to himself, "this little brat's brain is quite good, but why doesn't he open his mind and keep biting us?"

Lin Yi frowned and didn't say anything. This was a little weird-according to the guy, honest sun had only been taking healing pills the moment he came back from his injuries, and he hadn't eaten anything else.

So if he was poisoned, it was indeed most likely to be a pill.

Honest sun's corpse showed that he had died from poisoning, and it had only happened a short time ago.

Therefore, there was no such thing as a slow-acting poison taking effect in advance. It was clear that the person died quickly after taking the poison.

If they weren't lying ... It was really confusing!

The pill did indeed belong to the medical Hall, and it was definitely not poisonous ... Could it be that someone had mixed a poisonous pill in and deliberately framed him?

It did not seem impossible!

Lin Yi was deep in thought, while Fei daqiang was arguing with the young man. Before he could understand what was going on, another wave of people came!

They were also wearing mourning clothes, but they didn't carry a coffin. Instead, they carried a stretcher with a corpse on it!

Before he could speak, another wave of people similar to him came from another street, and then a few more came in succession!

The onlookers automatically made way for them. In the midst of crying and shouting, five stretchers were placed side by side in front of the medical Hall ...

"Medical Center, return my family's lives!"

"Medical Hall, give me justice!"

"The clinic ..."

These people, without exception, brought the corpses of their relatives to demand an explanation. The situation was the same. They all died quickly from poison after taking the medicinal pills from the clinic!

one of them was even a relative of a doctor in the clinic, so there was no problem with his identity.

after a simple investigation, it was confirmed that these people were not related to each other!

if lin yi was still thinking that honest sun died from an enemy's trap and then push the blame to the clinic, that thought was completely gone now!

it was impossible for honest sun's enemies to hate all these unrelated people at the same time, right? even if there was such a chance, he wouldn't poison them all at the same time!

one was a matter of time, and the other was that it would be easy to be exposed.

after all, if he had a grudge against these people at the same time, it would be easy to find out. there was no way to hide it!

"President Sima! President, please give us a reasonable explanation for today's matter!"

The doctor stood in front of Lin Yi, his face full of sorrow. "If it's a single case, it might be explained by other reasons, but six people were killed in a row after taking the medicinal pill. Then this matter is really related to the medical center!"

"You're Yu Longwu, right? You're also a doctor in the medical center, so you should know if there's a problem with these pills, right?"

Lin Yi looked at the doctor and called out his name.

at this moment, yu longwu felt an untimely excitement in his heart. lin yi was his idol, and it was not easy for his idol to remember his name!

"yes, president. i'm yu longwu! pills ... the remaining pills are indeed fine, but the person did indeed die from the poison after taking the pill, so this subordinate can't be sure what exactly happened ..."

yu longwu was conflicted.

as the doctor of the medical center, he believed that it was not the medical center's responsibility.

however, as the relatives of the deceased, they could not help but suspect whether there was a problem with the medicinal pills in the medical hall.

At this time, someone in the crowd suddenly shouted, ""Could it be that there's only one poison pill in each bottle of pills sold by the clinic? The rest were all normal pills? These people who died were unlucky. They ate the poisonous Pills first, and the rest were normal pills, so they couldn't find the problem?"

"That makes sense! Didn't that mean that there were still many people who had poisonous pills in their hands that they had yet to consume? When they eat it, more people will be poisoned?"

The audience was in an uproar. They instantly chose to believe this statement!

Chapter 8186

even yu longwu, the doctor of the medical center, thought the same, and his face turned quite ugly!

lin yi frowned-the rhythmic voice was unfamiliar, but the words were extremely harsh. it was clearly directed at the clinic!

as long as these words spread, who would dare to casually take medicinal pills from those who had bought medicinal pills in the medical hall?

if you tell others that there are no problems with the medicinal pill, would they believe you? what if there really was a poison pill mixed in?

it was better to believe it than not. lin yi could already foresee how chaotic the situation would be after this!

"The black-hearted clinic! It was really harmful! What face do you have to continue existing? quickly close the door!"

Someone began to take the lead again. The hot-blooded audience and the wills of the deceased who had lost control of their emotions suddenly became impassioned and began to attack the medical Hall.

Lin Yi and the others could only try their best to protect themselves. They couldn't really fight back, and could only retreat step by step, allowing the crowd to destroy the clinic.

"Boss, should I get someone to suppress it?"

Fei daqiang really couldn't stand it anymore and wanted to pull the battle generals out to suppress the rebellion. "They're already in a daze and won't listen to any explanation. We have to calm them down first!"

"Forget it, let them be. There's something fishy about this matter. If we make a move and someone kills a few people in secret, then they'll frame us. It'll be even more inexplicable!"

Lin Yi sighed and shook his head, "they're just smashing things anyway. It's no big deal. Just guard the inner hall and don't let them in!"

Now that things had come to this, they didn't need to use powerful force to suppress it. They could only let them vent their anger.

Perhaps there would be a chance to turn things around after his anger had dissipated.

Yu Longwu's identity was a little awkward, but he was the only family member who could get close to Lin Yi.

Lin Yi thought for a while and asked Yu Longwu to talk with him in the inner hall.

Not long after, the two came out again, and Lin Yi waved for Fei daqiang to come over. "Doctor Yu Longwu can't trust the medical center anymore because of his family, and he can't continue to work here, so he submitted his resignation, and I've approved it."

"We can't blame him for this, it's our fault. Da Qiang, make the arrangements to give doctor Yu a sum of severance payment ... Give him more! We can't mistreat doctor Yu, we have to do what we have to do!"

"Yes, boss!"

Fei daqiang replied, but his eyes were looking at Yu Longwu with hostility.

To resign at this time, he was clearly a traitor! He actually didn't believe in his thigh!

This guy was clearly the doctor of the medical center. How could he not know that the medical center had never done such a thing?

Bah! Traitor!

Although he despised him, Fei daqiang would complete the task assigned by his big brother without any discount.

Thus, Yu Longwu received a considerable sum of severance payment. After thanking them, he turned around and left without any reluctance.

As for the fact that his relatives were still causing trouble ... He didn't stop them, nor did he participate in them. He floated away as if he had nothing to do with them.

This made Fei daqiang despise him again. He felt that this person was too boring, not even helping his relatives!

Disloyal and unjust!

The battle generals of the second combat Department heard the commotion. Fei daqiang didn't need to call for people. They had already arrived. When they saw the scene of the medical center being borrowed, they immediately exploded.

"Who dares to act so atrociously here? do you think we're all just for show? Brothers, let's go and get them!"

Zhang Butong was the first to rush out, roaring as he prepared to suppress Lin Yi, but was pulled back by Lin Yi!

"Stop! If I Needed You to do something, I would have called you over long ago. Since I didn't call you, why are you all blindly joining in the fun?"

Lin Yi said calmly as he stopped the generals.

The originally excited generals instantly fell silent. They respected Fei daqiang and Lin Yi even more. Lin Yi's words could affect all of them!

"I'm sorry, President! I was too impulsive!"

Zhang Butong lowered his head and admitted his mistake, but he was still unwilling to accept it. "But are we just going to watch as they continue to destroy the world?"

The destruction couldn't continue, and the people who were smashing things suddenly saw a large group of Warriors coming out. They were stopped by Lin Yi, but they were all staring at them with fierce eyes.

They were also a little scared!

Most of these people were spectators who had gathered to watch the show. It was fine if they followed the jeers and took advantage of the situation, but once they were targeted by a battle general, their hearts jumped!

And so, while Lin Yi and Zhang Butong were talking, most of the people left quietly.

It had nothing to do with them in the first place. If they were remembered and the battle generals took revenge, they would have no place to cry

There were many smart people who had this kind of petty trick, so the momentum of the smashing instantly weakened.

Soon, the family members of the deceased also felt that the atmosphere was not right. Under the gaze of a large number of battle generals, their courage quickly melted, like ice and snow in boiling water, silently disappearing!

"Go! If the medical Hall can't give us a satisfactory answer, we'll go to the martial Alliance branch and ask the first hall Master for an explanation! I don't believe that the martial Alliance's branch would still shelter these criminals!"

someone shouted outside the clinic again, and the people inside responded one after another and quickly left.

the coffins and stretchers outside the door were being moved to the martial alliance branch.

lin yi laughed coldly. this move ... there really wasn't any change at all!

"da qiang, take a few quick-witted brothers to keep an eye on the person in the crowd. although i can roughly guess who it is, we still need to confirm it."

"yes, boss! don't worry! we'll definitely find the rat behind this!"

Fei daqiang murderously called out the names of a few battle generals, flashed out of the medical Hall, and stealthily chased after them.

When the crowd arrived at the martial league's branch, their cries and yells became louder and louder, and the clamor grew louder.

The first hall Master received the news very quickly. He immediately covered his head and twisted the axis of his spine, as if he had something to worry about. "Why is it here again! Are you done? Nothing like this has ever happened before. It's only been a few days of peace, and here they come again?"

Gu Shi and the monster language had also received the news and came over.

As soon as they entered the house, Gu Shi sneered and said, ""First hall Master, don't you realize that it's always Sima Yi who caused this? He's a troublemaker!"

"This kind of person is useless except for causing trouble. The trouble he causes is getting bigger and bigger! In my opinion, it's better to remove him from the list! At least we can give the people an explanation!"

The artifact language frowned and shook its head. ""Vice Hall Master Gu, isn't that a little inappropriate? She had not even clarified anything and she was already saying that she wanted to fire Sima Yi. This was too much of a joke! As for the cause of this incident, there is no conclusion yet. Even if we want to punish them, there must be reason and evidence. We can't fire our branch's important senior executives just because people cause trouble!"

"If we do this this time, what about the next time? If there's one more trouble and you're impeached, will vice Hall Master Gu have no choice but to leave?"

"Impudent! I've been working hard for so many years and have never made a mistake. How could someone impeach me?"

gu shi's face changed and he rebuked unhappily, "how can sima yi be compared to this seat? just look at how long it has been, and there have already been two large-scale complaints and impeachments from the public! there's no need for evidence, and there's no mistake in punishing him!"

"deputy hall master gu is really an authoritative figure. is our martial alliance branch going to be charged with groundless crimes?!"

the artifact language sneered back, protecting lin yi.

the first hall master looked like he was having a headache. he waved his hand impatiently and said, "stop fighting! hurry up and tell me how to deal with the matters outside!"

"first hall master, i've already made it very clear. fire sima yi and admit that this incident was all sima yi's fault. then, the branch will come forward to compensate the families of the deceased. naturally, this incident will be settled!"

gu shi stubbornly brought the topic back, which naturally triggered a rebuttal from the language of monsters.

"first hall master, i know sima yi's character the best. he can't possibly refine poison pills, much less intentionally sell poison pills. there must be something fishy about this matter. we can't make a hasty conclusion. we must investigate it thoroughly!"

The language of living things did not want to continue arguing with Gu Shi, so he cupped his fists at the first hall Master and said, ""I can guarantee that this matter has nothing to do with Sima Yi! Hall Master, please investigate!"

The first hall Master didn't know whether to laugh or cry. This topic couldn't be changed, could it?

Gu Shi wanted to say something, but the first hall Master spoke first, ""Vice Hall Master Hua, you can't be so absolute! Refining pills this sort of thing was very hard to say! Sima Yi might not intentionally refine poison pills, but if there's a slight mistake, no one will know, right?"

"For example, the last time Ouyang Changqing wanted to save me, the elixir he refined also contained poison and almost took my life. He didn't do it on purpose. He didn't even know it would turn out like this, so it's really hard to say!"

The artifact language's face turned black!

The first hall Master was implying that he believed that Lin Yi could make poison pills, so this could also be Lin Yi's doing!

In other words, he had the intention to push the blame to Lin Yi!

"As the saying goes, people make mistakes and horses make mistakes. It's inevitable for Sima Yi to make some mistakes. After all, no one is perfect! I think vice Hall Master Gu's words are very reasonable!"

As expected, the first hall Master already had a preference.

This person was most afraid of trouble, especially trouble brought by the people.

At this time, there was a simple solution. After some weighing, he immediately had an idea.

"You see, we're not trying to punish Sima Yi right now, we're just expelling him on the surface, and the compensation will be borne by our branch. He doesn't need to pay anything. As long as this matter is settled, it'll be the same to let him come back in the future!"

The first hall Master added when he saw the strange expression on the language of the living things.

The artifact language's eyes turned cold and it sneered. What a good plan!

"First hall Master, Sima Yi would never do such a thing. If we let him take the blame this time, do you think he will come back in the future? Are you sure he won't hate our nado martial Alliance branch with such a bad name?"

The language of monsters knew Lin Yi's abilities very well-he was an array master, an alchemy master, a Medical Master, and even a rare all-rounded mentor who could improve many people's strength in a short time!

If this kind of person became an enemy, he would definitely be the most terrifying kind!

Splashing dirty water on him?

Do you really think that I'm a clay figurine that you can manipulate as you please?

"Hehe, a mere Sima Yi, what can he do? According to you, vice Hall Master Hua, shouldn't we not let him off so easily, and should instead eliminate him completely and finish him off?"

The corner of Gu Shi's mouth curled into a mocking smile,""As expected, a man can't be without poison. However, what you've said makes sense. Secretly get rid of Sima Yi and end all troubles!"

The language of the living things glared at Gu Shi with its fists clenched tightly. It almost could not hold back its anger and wanted to kill this guy!

The first hall Master didn't say anything, but he revealed a thoughtful expression.

Beast transformation's heart skipped a beat when he saw this-he was afraid that this irresponsible first hall Master would really do something to Lin Yi!

"First hall Master, we really can't do this. As long as we investigate it clearly, we can calm down the situation. What if it's just a simple case? Was there a need to target a branch higher-up now? Aren't you afraid of disgracing the hearts of others by doing this?"

Beast language quickly tried to persuade the first hall Master not to really go against Lin Yi, "Also, Hall Master, have you forgotten that the pill that Sima Yi refined can save your life!"

Wasn't this a reminder to the first hall Master that Lin Yi had saved his life before? this guy was cold by nature, and saving his life before was nothing.

It was a subtle reminder to the first hall Master that he'd need Lin Yi's pills to have a higher chance of completing the next mission.

The first hall Master hesitated for a moment and then snorted, ""Sima Yi's skill level is not very stable. It might have been a coincidence that he cured my injury last time. Next time, I may not be so lucky. Wouldn't you die without even knowing how you died?"

Thinking back to the mission, in a life and death situation, he took a life-saving pill in preparation for the last fight, but the poison acted up in the end. How aggrieved would that be?

And so the first hall Master was determined, acting as if he didn't care about Lin Yi's skills anymore!

"Hall Master!"

The artifact language was really angry!

How could there be such an ungrateful and irresponsible person?

It was simply unreasonable for such a person to become the first hall Master of the martial Alliance's branch!

It was no wonder that Gu Shi's faction wanted to compete for the position of Hall Master, both openly and secretly. Even the language of the living things had the idea of overthrowing the hall Master and replacing him!

This was too infuriating!

"There's no need to say anything more. This matter has been decided. We'll do it according to vice Hall Master Gu's suggestion. Vice Hall Master Gu, you'll draw up the notice and then release it as soon as possible to appease the people!"

The first hall Master had made up his mind-he pushed Lin Yi out without hesitation to calm the situation down.

He didn't need to care about the truth-in his heart, Lin Yi was just a newly promoted middle to high level, he didn't have much of a Foundation.

What's the big deal if he slipped away?

If it was a Deputy Hall Master like the language of monsters, he would not have made such a brainless decision!

"Yes, Hall Master! I'll get it ready!"

Gu Shi smiled proudly. As he bowed and accepted the order, he said,"As for the matter of appeasing the people, vice Hall Master Ouyang is already doing it!"

Chapter 8188

"ouyang changqing is already doing it? what's going on?"

the first hall master was surprised. he had thought that ouyang changqing was hiding because he was too dejected, but he was already working on something?

"oh, when i came here just now, i happened to meet vice hall master ouyang. he said that he received news that other than those who had already died, there were also some who had taken the pill and survived the poison, so he was going to save them."

gu shi pretended not to care and said with a smile, "this kind of small matter, if he wants to do it, then let him do it. that's why i didn't report to first hall master just now."

"So that's how it is. Ouyang Changqing is a warm-hearted person!"

The first hall Master praised and then asked, ""I heard that ... Those who take the pill will die on the spot. How can someone still hold on for so long and wait for help?"

"Uh ... I'm not too sure about that. I think everyone has a different resistance to poison, or when they feel that something is wrong, they still have some antidote pills in their hands to hold on for a while. As for what the truth is, we'll have to wait for vice Hall Master Ouyang to return first."

Gu Shi furrowed his brows. After making some guesses, he immediately said, ""Great Hall Master, I will first decide on the punishment for Sima Yi. Vice Hall Master Ouyang's actions can only be considered to prevent the situation from getting worse. If we really want to appease the people, we have to deal with Sima Yi immediately!"

"reasonable! hurry up and get it done!"

the first hall master immediately waved his hand with a firm attitude, but his tone was not light!

they didn't even know what was going on yet, and yet they were so anxious about lin yi-what dignity would the martial union branch have left?

very soon, gu shi had made the decision to deal with this matter.

they'd do as they'd said before-expel lin yi from the martial union branch, and cancel the alchemy and combat divisions.

as for the compensation for the injured and the dead, it would all be borne by the martial alliance branch.

in fact, he wanted to take this chance to kill lin yi as well, but with the transformation language watching from the side, it would be difficult to do so. the first hall master might not agree to it so easily.

Instead of wasting time here, it was better to take a step back and get rid of Lin Yi from the martial union branch's power.

After losing these identities, wouldn't it be easy to mess with Lin Yi?

Why the rush!

"Very good, let's do this! Vice clan master Gu, go outside and announce this decision immediately! We must placate the public's emotions. If they have any other requests or conditions, as long as they are not too excessive, we can consider fulfilling them. "

"Yes, sir!"

Gu Shi accepted the order and left. The first hall Master finally heaved a sigh of relief and leaned back in his chair in satisfaction!

The monster language was filled with grief and indignation, and it felt a chill in its heart. It felt that there was no hope for the martial Alliance's branch!

Worried that Lin Yi would be at a disadvantage, monster transformation language didn't even say a word before turning around and leaving to check on Lin Yi.

At this moment, thousands of people had gathered at the entrance of the martial League branch. The number was increasing, and the situation was not looking good.

However, after Gu Shi announced the punishment, the public's anger was finally appeased.

Ouyang Changqing and Gu Shi were standing together when Lin Yi came out of the language of living things.

The people wanted to attack Lin Yi, but Fei daqiang and his generals were protecting him. No one could touch Lin Yi.

However, Lin Yi's face didn't look too good as he walked over to the language of the living things.

"President Sima ... Oh, that's not right. You're no longer the president. You've just been stripped of all your duties in the martial union branch, and you've even been completely expelled from the branch!"

Ouyang Changqing walked over with an evil smile, not letting go of any chance to mock Lin Yi. "Sima Yi, you're really amazing. You've only woken up for a few days and you've already caused such a huge mess. Do you know how many people you've killed?"

"I didn't kill anyone! So, shut up!"

Lin Yi wasn't in a good mood and didn't want to bother with Ouyang Changqing.

However, Ouyang Changqing didn't care at all. With the face of a winner, he laughed and said, ""There's a public opinion on whether you've harmed anyone or not. It's not like you said you didn't kill anyone, so you really didn't kill anyone!"

"I don't mind telling you this. So far, eighteen people have died because of your poison pills, and more than twenty people have fallen into a coma. After my emergency treatment, their lives have been saved, but they are not out of the critical period yet, and they may not make it!"

Ouyang Changqing turned around and pointed at the stretcher formation not far away. He sneered, ""Did you see clearly? those are the people you killed! I helped you clean up the mess and saved so many people's lives. Shouldn't you be thanking me?"

"Hehe ... Vice head Ouyang is so kind! We'll have to see if we've really saved their lives!"

Lin Yi's words were sharp.

Ouyang Changqing's enthusiasm made it feel like things weren't as simple as they seemed. It was as if this guy had something to do with it, but Lin Yi didn't have any evidence yet!

"Brother Sima, don't mind them! I'm really sorry for not being able to help you this time!"

The language of the living things pushed Ouyang Changqing away and pulled Lin Yi to the side, his face a little sad. "First hall Master throwing you out to take the blame is really ... Very inappropriate! But I couldn't stop it from happening, I'm really sorry!"

"Brother Hua, don't take it to heart. This little brother knows what kind of person first hall Master is. This matter has nothing to do with you, so don't take it to heart!"

Lin Yi consoled the beast before turning to the stretcher area. "I'm going to check it out. There's something strange about this. I won't be at ease if I don't get a clear understanding!"

If it was a living person, Lin Yi's spirit could penetrate into the body to observe the blood flow and the condition of the meridians and organs, but he couldn't do anything to a dead person. All the functions had stopped moving, and the spirit couldn't be as accurate as the eyes, nose, and body touch.

Lin Yi could use his spirit sense to observe those who didn't die.

However, they didn't know what method Ouyang Changqing had used, but they had all returned to normal. However, their breathing was weak, and their internal organs were failing. It was hard to say if they could hold on and not die. It was already impossible to find the cause from this.

"Go! I'll accompany you to take a look. I'd like to see what's behind this!"

Without another word, the artifact language followed Lin Yi.

Ouyang Changqing sneered and retreated to the side without saying a word, looking like he was watching a good show.

Gu Shishu stood further away and did not try to stop him.

But just because they didn't show up, it didn't mean that others wouldn't!

The families of the victims couldn't attack Lin Yi, but they were united and blocked Lin Yi's way. Even the language of the living beings couldn't do anything!

Chapter 8189

"Everyone, I understand how you feel, but I still have no idea what happened. Don't you want to find out the real cause of your family's death?"

Lin Yi frowned and tried to convince them with reason, only to receive a round of scolding!

"Bah! You're the one who caused their deaths, and now you're putting on a false front. Who would believe you?"

"Vice Hall Master Ouyang has already confirmed the cause of death. He was poisoned to death by your pills! Are you here to destroy the evidence?"

"Don't think that just because a battle general is protecting you, you will be safe! You're doomed to destruction if you're unjust, and even the heavens won't be able to stand you and take you in, you evil person!"

.....

These were the more cultured people, the rest were mostly just dirty words with no real meaning. They were just venting their anger, and Lin Yi just ignored them.

The problem was that in the current situation, it was impossible to check the body unless all the family members were subdued by force ...

However, it was unrealistic!

"a harmful medical center, a poisonous pill! we want to return the goods! return the goods!"

"right! who would still dare to eat this kind of medicinal pill that could kill people? return the goods!"

"I thought it was something good, but it turned out to be something with evil intentions. No wonder it was sold so cheaply, it was all a lie! Return the goods!"

Among the audience, someone suddenly shouted for a refund, which immediately attracted a large number of approval.

For a time, there was an earth-shaking uproar about the refund!

These were the people who had been lining up for Lin Yi's pills to take advantage of him, and now they wanted to step on Lin Yi without hesitation!

Fei daqiang and the other generals were furious, but without Lin Yi's order, they didn't dare to act rashly. They could only try their best to protect Lin Yi from being attacked!

"Hahahaha, Sima Yi, the People's eyes are sharp. There's something wrong with your pills, so it's normal for them to ask for a refund. You should quickly settle this matter, or our martial union branch will make a move!"

ouyang changqing was very proud.

he'd been jealous of lin yi's huge profits from selling the pills, but now he had to give up everything he'd eaten!

"we spent so much time and energy to buy this kind of poisonous pill. we can't just return it. we have to pay double the amount!"

"right! well said! you must pay double the compensation!"

the person who was in charge of the tempo easily sent the tempo flying.

When the audience heard that they could get back double the money, why not? Of course, it was to wave flags and shout with all their might!

It was Lin Yi who was at a disadvantage, so it was fine as long as they got the benefits!

Hua Yu's face turned red and he shouted to the crowd,"All of you shut up! The matter hasn't even been investigated clearly, is there anyone who forces people like you? Double the refund and compensation? Did anyone beg you to buy the pills? You're blaming others for what you've done, do you have any shame?"

Lin Yi was touched-it'd be too easy to piss people off if he said something like that out loud!

And so, Lin Yi didn't agree with what the monster language was doing, but he was grateful for it.

The crowd was stunned by the monster language's shout. In a short time, the entire area was silent, as if everyone had become mute!

However, after just a moment, the noise exploded again, several times more intense than before!

The situation seemed to have gone out of control. After all, the law could not punish the masses. Those people had seen through that the martial League branch would not suppress them, so they became more and more unscrupulous and began to include the language of monsters in the scope of their insults.

Hua Yu's hands were shaking, not because she was afraid, but because she was angry!

To be honest, he really had the intention to suppress it!

A group of ignorant rioters were acting wantonly without distinguishing between right and wrong. Some of them even took the opportunity to break, smash, and Rob outside!

What was worse was that they were no longer smashing the martial Alliance's branch, but the shops of the nearby commoners!

Many ordinary people's properties were destroyed for no reason!

These people weren't making normal demands at all, but had become pure rioters!

Under such circumstances, the martial Alliance's branch should have decisively suppressed them. Blindly being soft and giving in would only fuel their arrogance!

Unfortunately, the artifact language was not in charge of the martial League branch, and he did not have the authority to make such decisions.

Not only that, but the head Hall master's orders came very quickly.

"Vice Hall Master Hua, the first hall Master wants you to see him immediately!"

The messenger quickly finished speaking and left the monster language's side, as if he was afraid of being implicated.

Hua Yu looked dejected and shook her head with a wry smile, "Our first hall Master ... Really can't say!"

Summoning the monster language at this time was obviously not a good thing, and the monster was well aware of this.

Lin Yi didn't say anything-it wasn't appropriate for him to say anything now.

"Brother Sima, are you sure that there's no problem with the pills you're selling? It's not that I don't believe you, but this is really important!"

"Brother Hua, this little brother swears on his life that there is no problem with the pills being sold! This incident was definitely not our doing! I can lie to anyone but you, brother Hua!"

"Moreover, why would I do that? What reason did he have to do this? What good does that do for me?"

Lin Yi said, patting his chest.

Although the true cause of death of those people was still unknown, the pills refined by the automatic alchemy furnace would definitely not have any problems!

Plus, Lin Yi said that there was no benefit to doing this!

"It's enough with your words, younger brother Sima. When this old brother goes to see the first hall Master, I will definitely argue with reason. I definitely can't let you take the blame like this!"

His words were impassioned, but unfortunately, when the artifact demon met the hall Master, it didn't have the chance to argue.

That was because the first hall Master had directly reprimanded and punished him.

"You've really disappointed me, artifact language! It's fine if you don't want to help, but you're trying to incite conflict with the people. What are you thinking?"

"From now on, you'll be suspended from all duties in the martial Alliance's branch. Take a good rest for a period of time, and also take it as a reflection on your poor judgment!"

Hua Yu was stunned. She had never thought that she would be suspended just like that.

He wanted to retort, but when the words reached his mouth, he felt a wave of disheartened.

There was no point in staying in a martial League branch like this ...

So be it if you're suspended, it's no big deal!

After thinking it through, the monster closed its eyes, waved its hand, and left.

This was good too-at least she didn't have to feel embarrassed for not doing her best in front of Lin Yi.

We're brothers in the same boat, so we'll face the difficulties together!

Chapter 8190

Lin Yi only found out about this news a while later. Gu Shi and Ouyang Changqing had already achieved half of their strategic goals, so they started to comfort and disperse the crowd.

Lin Yi agreed to let Fei daqiang be in charge of the recovery of the pills at double the price.

Fortunately, money wasn't a problem-it was more than enough, but Lin Yi wasn't prepared to let it go.

Lin Yi had Fei da Qiang record down the names of the people who wanted a refund at double the price. When the storm died down, would the people on this list still want to buy pills? Hehe ...

Do you want to know more about true poison pills?

The situation here was temporarily settled, but the undercurrent was getting more and more turbulent.

Lin Yi couldn't just admit defeat like that-he had to make it up to her.

As for Gu Shi, Ouyang Changqing, and the others, they wouldn't be satisfied with just kicking Lin Yi out of the martial union branch!

They had a clear understanding of Lin Yi's abilities, and since they'd already made enemies, they'd have to kill him to be at ease.

For example, at this time, Ouyang Changhong had already found the president of the Alliance Institute, and the two of them were having a private conversation in a room.

"Lord principal, at this point, do you still expect Sima Yi to help your Alliance Academy? The Great Hall Master of our martial union branch has already expelled Sima Yi. The newly established second alchemy division and second combat division have already been disbanded!"

Ouyang Changhong's expression was very respectful, but his tone and attitude were not as respectful. Instead, there was a faint threat in his voice. "It's impossible for Sima Yi to continue providing elixirs for the Alliance Academy. Furthermore, the incident with the poisonous elixir has already blown up. Even if he were to give you the elixir, would you dare to eat it?"

"Even if we take ten thousand steps back, you're not afraid of poisonous pills and dare to eat the pills that Sima Yi gave you. However, have you ever thought that without the support of The Alchemist Association, how many pills can Sima Yi Refine by himself? Do we have to rely on him to refine the pills one by one for the quota of the Alliance Academy?"

"Also, if Sima Yi becomes the vice-principal of your Alliance Academy, it will greatly affect your prestige! There were also many instructors who were unconvinced, right? If that's the case, why not correct this mistake?"

"Expelling Sima Yi and kicking him and his disciples out of the Alliance Academy will not only restore the Dean's prestige, but it will also appease the anger of your Academy's teachers. You can also obtain my elder brother's friendship, so why not?"

"As long as the Dean agrees, we will be allies in the future! You don't have to worry about the quota for the Alliance Academy. We'll definitely give them in full. Not only that, but if the headmaster needs it, we can increase the quota by ten to twenty percent. What do you think, headmaster?"

The old Dean had not said anything. As he listened to Ouyang Changhong's long speech, the expression on his old face changed unpredictably.

He'd been planning on raising Lin Yi properly after accepting him, after all.

He even thought of Lin Yi as the next Dean.

However, things always changed out of his expectations. After losing his refining 2, Lin Yi lost his channel to supply elixirs. The Dean had to consider how much value Lin Yi still had!

They'd offend the Ouyang brothers if they kept Lin Yi, and their quota would be gone forever ...

It had to be said that Ouyang Changhong's words were of a very high standard. It could be said that he would use all kinds of threats and promises!

For the quota, the Dean could invite Lin Yi back to be the Vice Dean, and he could also abandon the new Vice Dean!

Therefore, he did not hesitate for long. Ouyang Changhong asked him what he thought, and he only thought for a moment before he nodded and made the decision. "In that case, I'll have to trouble vice guild leader Ouyang and vice Hall Master Ouyang to take care of me in the future!"

"Sima Yi really doesn't have much ability! It was only a matter of time before something happened! He doesn't deserve to be the vice principal of our Alliance Institute. I'll immediately announce his expulsion ... But his three students ..."

MA pijing and tu Gesha were not a big deal. The old director had never taken them seriously.

However, the problem was Qin mengzhen. Her status was extraordinary. If he fired her directly, there would definitely be trouble.

"vice president ouyang, you might not know this, but princess qin mengzhen is someone who has been personally looked after by the emperor. the alliance academy has no right to expel her! it's fine if she dropped out of school last time ... but even if she did, she still caused some trouble. if she were to be expelled ..."

the old dean looked very troubled.

ouyang changhong pondered for a moment and felt that there was no need to offend the nado conferred empire's emperor, so he immediately changed his tone.

"since that's the case, the headmaster will keep the princess and expel the other two disciples of sima yi. since the princess has been expelled once, she will definitely be expelled a second time. sima yi and her two junior brothers have been expelled, so she most likely won't stay!"

"if that's the case, then she can't blame the dean for dropping out of school! especially since she did it once and did it the second time. i can only say that she's too headstrong and has nothing to do with the academy!"

the old dean was stunned for a moment. he felt that what ouyang changhong said really made sense!

"alright, i'll do that then ... that brat sima yi, he's really an incompetent person who got to his position through connections. i've misjudged him ..."

the alliance academy quickly issued an announcement to expel vice principal sima yi and his disciples, ma pijing and tu gelao.

he did not mention a word about qin mengzhen.

this little girl's bad temper was just as ouyang changhong had expected. she immediately made a fuss about dropping out, so she was naturally passed!

lin yi found out about it very quickly because the three little ones came to find him as soon as they left the school, with caidie lu.

"Master, we're never going to this damn Academy again! What the hell is this! Are you kidding? Do you really think you can expel us just because you want to? do you really think you're the best in the world just because you want to?"

Qin mengzhen's face was flushed red, and her cheeks were puffed up like a hamster!

She was about to go crazy. As a Princess, she had never suffered such grievances!

This was simply preposterous!

If it wasn't for her master's opinion, Qin mengzhen would have brought her personal guards to raze the Alliance Academy!

Lin Yi didn't feel too good about it, too-he felt a chill in his heart at the way the first hall Master and the Dean were doing things!

But one rice can feed a hundred different people-Lin Yi knew that he couldn't have everyone supporting him, but he'd be happy as long as he didn't treat his followers badly!

"Forget it, I won't go to the Alliance Academy. It's no big deal! I don't care about a mere Vice Principal!"

Lin Yi's expression remained calm, "The most important thing right now is to settle everyone down. We can't go to the medical center's station anymore. They've all been taken back by the martial Alliance branch."
