

Bodyguard 8191

Chapter 8191 The End

The generals from the medical Hall were still there, and no one said they were leaving. Lin Yi didn't ask them if they wanted to stay.

He would leave everything to fate. Those who were willing to follow him would not be mistreated, and those who were not willing to follow him did not matter.

Also, Lin Yi didn't want to force the doctors and alchemists in the clinic to stay or leave.

"Sima Yi, is there anything I can help with?"

Luo caidie looked worried. She felt that she was powerless, so she didn't have much confidence in her words.

Even the language of living things was suspended, and Lin Yi was even more intimidated by both sides. She was just a small instructor at the Alliance College, what could she do?

"It's fine, I'm fine. When I need your help, I won't be polite!"

Lin Yi smiled and waved his hand, "you should go back to the Academy first. Staying with me right now will make the Dean angry!"

"I'm not afraid. At most, I'll be expelled!"

Luo caidie straightened her neck and said very firmly, ""The current Alliance Academy really makes me feel very unfamiliar. If you want to expel me just because I'm with you, I'll accept it!"

"Alright, alright! I know your intentions, but you really can't help us here. Your students still need you to lead them, so hurry back!"

Lin Yi reached out his hand to rub caidie Luo's head, but she smacked it away unhappily, "In fact, you're helping me by returning to the Academy. Pay attention to the things in the Academy. If there's anything unusual, let me know. Maybe you can help me clear this injustice!"

"Is that so? Do you think this incident is related to the Alliance Academy?"

Luo caidie immediately became serious. She pinched her chin and pondered, "That makes sense! Otherwise, the Dean wouldn't have expelled you so quickly. It's indeed abnormal! I understand now! I'll go back and help you keep an eye on it!"

With a goal in mind, Luo caidie, who felt like she could shine, was suddenly in high spirits. She said goodbye to the language of living things and the others and hurried back to the Alliance Academy.

Just as Luo caidie left, another familiar face came over and mocked the Dean of the Fuyao apothecary school, Hua Yao!

"Principal Hua, did you come here personally to inform me that the Fuyao apothecary school has nothing to do with me, Sima Yi, from now on?"

Lin Yi saw the serious look on Hua Yao's face, and a self-deprecating smile appeared on his face. "It's okay, I understand! I'm already very grateful that principal Hua personally came to inform me!"

"Wrong! Who do you think I am? Since I've invited you to be the honorary Dean of the fu Yao apothecary school, I won't go back on my word!"

Hua Yao glared at Lin Yi. "Aside from checking on your condition, I've also come to tell you that Ouyang Changhong came to me just now to ask for your honorary Dean title to be removed, but I rejected him without any hesitation!"

Lin Yi blinked-he didn't expect this to happen!

He had originally thought that everyone would push a man who was down, but Hua Yao had come to help him in his hour of need!

"Dean Sima, this old man has come personally to say something to you. The doors of the Fuyao apothecary school will always be open to you. As long as you are willing to come, this old man will definitely welcome you!"

Hua Yao patted Lin Yi's shoulder in all seriousness before bringing up Ouyang Changhong. "In addition, you have to pay attention to the two brothers, Ouyang Changqing and Ouyang Changhong! This old man feels that there's something wrong with them!"

"In order to get this old man to remove your honorary Dean title, Ouyang Changhong even threatened to reduce the quota of pills for our Fuyao apothecary school! Hehe, of course I'm not afraid! The apothecary school is not afraid of not having enough pills?"

"Then he threatened to cut off our Academy's supply of medicinal herbs, but this old man ignored him! At worst, I'll send people to other martial League branches to buy them. I still have this bit of face!"

"In the end, he threatened to strip me of my title as the alchemy Association's honorary Vice President. Hehe, do you think I care about that? He had smashed the gold badge of the martial Alliance's branch on his face on the spot! In the end, the kid had no choice but to leave!"

"I'm not telling you this to show off my achievements. I'm just telling you that Ouyang Changhong has gone to all lengths to target you. On the way here, I've heard about how the martial Alliance branch and the league establishment Academy have treated you. There's no need to ask. Brother Ouyang must have been involved!"

"Even the incident with the poisonous pills this time could be caused by the two of them. You must be careful against them. You can't be careless!"

Hua Yao told him everything that he had guessed without reservation.

Lin Yi was truly touched-he didn't think that this old man, whom he'd only met once, would trust him so much!

In comparison, the old Dean of the Alliance Academy was simply dog sh * t!

"Many thanks principal Hua for your advice, Sima Yi is extremely grateful! It was my fault for misunderstanding the director just now. I apologize to you again!"

Lin Yi cupped his fists and bowed, sincerely thanking and apologizing to Hua Yao!

"No need to be so polite. This old man treats you as a friend despite the difference in age. As long as I can help you, this old man is willing to do anything for you."

Hua Yao smiled as she held Lin Yi's arm. "The martial Alliance's branch and the Alliance Academy have eyes but are blind. They will regret what they have done today sooner or later. You just have to remember that you have the support of the Fuyao apothecary school behind you. The fu Yao apothecary school will be your home!"

"Many thanks, principal Hua!"

Lin Yi thanked her again, but he wasn't going to go to the Fuyao apothecary school!

At least, not now.

In the current situation, Hua Yao had already offended the Ouyang brothers, but they would still have some reservations and would not immediately make a move against the Fuyao apothecary school.

If Lin Yi really did go to the school, not only the Ouyang brothers, but even the first hall Master, the Dean, and the others could be hostile to the school!

Lin Yi wouldn't cause trouble for people who helped him!

As for Ouyang Changqing and the others, he had long expected them to play tricks behind the scenes, but he didn't expect them to play so many tricks!

"I already said don't be polite! It was just a small matter, not worth mentioning! This old man just can't stand Ouyang Changhong's smug look!"

Hua Yao's old face flashed with anger. After a slight pause, he said, "There's more to this than meets the eye. Don't worry, I'll investigate in secret and perhaps find some clues. When the time comes, I'll teach them a lesson!"

The two of them exchanged a few more words before Hua Yao took his leave.

Lin Yi told Fei daqiang to bring Qin mengzhen and the generals back to the medical center to pack up. Since they couldn't stay here anymore, they had to take their things.

"Master, aren't you coming with us?"

MA pijing felt that he could only be safe by Lin Yi's side, so he didn't want to be separated from him.

Lin Yi waved his hand. "I'm going to see the first hall Master with brother Hua. You guys go back first. I'll be there soon."

Chapter 8192

Not everyone could see the first hall Master, so Fei daqiang and the others didn't object and went back to the medical center to pack their things.

However, Qin mengzhun suddenly hesitated and said, ""Master, how about I go with you?"

"Hmm?"

Lin Yi blinked and looked at Qin mengzhen strangely.

"Perhaps I can convince him."

This time, Qin mengzhen didn't whine. Instead, she looked serious.

However, the more she acted like this, the more Lin Yi felt that what Qin mengzhen said was true.

"No need. You can go back. I want to clear my name, not force the first hall Master to do anything."

Shaking his head, Lin Yi waved his hand for Qin mengzhen to follow Fei daqiang.

Qin mengzhen sighed and did not say anything more.

After that, Lin Yi and the monster language entered the martial union branch.

"Brother Sima, why are we still going to see the first hall Master?" the artifact language was still confused. He can't change his mind!"

Because changing his decision was likely to cause a large number of people to cause trouble again, the first hall Master was not willing to bear such a risk.

"He doesn't need to change his decision, but some things still need to be explained in person, in case he thinks that we have really committed these crimes, so he doesn't even dare to argue and accept the punishment with a guilty conscience!"

Lin Yi's face was cold, and he was very displeased with the first hall Master.

He arrived at the place and requested to see the hall Master.

However, the guy didn't want to see Lin Yi and the language of living things, so he stopped them at the door!

"I'm sorry, first hall Master is busy with official business and has no time to see you. Please go back!"

The guard was the head master's right-hand man, but he was still polite to Lin Yi and the language of monsters. Even if one of them was expelled and the other suspended, they weren't people he could mess around with.

"What kind of official business can first hall Master have? Hehe, why didn't I know first hall Master was so diligent before?"

The artifact language sneered and mocked the first hall Master without any hesitation.

The Guard's expression was very awkward. He didn't know how to respond to that.

Their master knew everything about the artifact language. Nonsense could only be used on other people, but it was not effective on the artifact language!

"Brother Hua, there's no need to make things difficult for this brother guard. We'll just directly look for the first hall Master!"

Lin Yi looked at the door calmly. There was a formation that blocked divine sense, normal people couldn't see through it, but Lin Yi was no ordinary person!

Since the first hall Master wanted to avoid meeting him, there was no need to be polite!

Lin Yi's spirit sense entered the formation and easily tore it apart after finding the formation door. As soon as he finished speaking, the spirit sense-blocking formation collapsed completely!

A spirit sense was sent into the yard with Lin Yi's words, and the first hall Master had to listen, "First hall Master! Sima Yi and the language of the living things would like to see you, Hall Master. Please find time to meet!"

In the room, the first hall master's expression was very ugly.

He didn't think that Lin Yi's spirit sense would be this strong, nor did he think that the spirit sense-shielding formation was as fragile as paper. It was shocking!

"Come in!"

helplessly, he could only let the two of them enter. it was already like this, and if they didn't meet, everyone would really shed all pretenses of cordiality!

lin yi and the artifact language walked in calmly under the guard's shocked gaze.

lin yi greeted the first hall master with a simple fist salute.

"first hall master, there's something fishy about this incident. why did the hall master make such a hasty judgment without giving any time to investigate?"

lin yi's face was serious as he looked at the first hall master. "i don't care about my position in the martial alliance's branch, but hall master, you should at least give me some time to prove my innocence, right? they said that my pills had poisoned people, but they wouldn't let me see the dead or the living. how would i know how they died? could it be that i have to swallow my anger and endure it just because someone else has framed me?"

Faced with Lin Yi's interrogation, the first hall master's eyes wandered around as if he was sitting on pins and needles. He forced himself to calm down and hmped, "Sima Yi, what kind of attitude is this? Do you think i'm someone you can casually interrogate?"

"Who said that we made a conclusion without investigating? Vice Hall Master Ouyang has successfully saved more than 20 people. There is enough evidence to prove that this matter is your fault! Now, you're not repenting, but roaring in front of me?"

"You should know that I've already been extremely lenient to you! Originally, with such a serious matter, you should be severely punished. It wouldn't even be wrong to arrest you and execute you on the spot!"

"Since you saved my life before, I'll be lenient with you. I'll only remove you from your position and chase you out of the martial Alliance branch. You won't even have to pay a single cent for the compensation for the dead and injured. What else are you dissatisfied with?"

The first hall Master was getting more and more excited-he'd hypnotized himself into thinking that Lin Yi should be grateful to him for his loyalty!

Lin Yi closed his eyes and let out a long sigh. He was completely disappointed in this first hall Master of the martial union branch!

How did this kind of person become a Duke? Even if there was a pig in that position, he probably wouldn't do worse than him, right?

"Good! Very good! The clan leader is truly loyal, Sima Yi isn't dissatisfied at all!"

Lin Yi smiled mockingly as he opened his eyes and looked at the first hall Master. "Let's not talk about this for now. Sima Yi would like to ask Hall Master, what mistakes has brother Hua made? He was only speaking up for me and he was going to be suspended? What kind of logic was this? Does the martial Alliance's branch have such a rule?"

The first hall Master avoided eye contact.

He felt a little guilty about the monster language's punishment. After all, they were partners who had gone through life and death together, but what they did was too much.

But now, he would never admit it. He could only continue to be tough. "A few more words? Just these two sentences could stir up a mass rebellion! "At that time, although our martial union branch will be able to suppress them, we'll be left with a handle on the moral high ground, causing the entire martial Union to be spurned by others! Who can bear the consequences?"

After all was said and done, he was the one in the wrong. Any decision was the best and most reasonable choice after careful consideration!

You can't blame Lin Yi and the Beast transformation language for their bad luck, you can only blame yourselves for what you did!

What else could they say to such a person?

Lin Yi and Lin Yi looked at each other, almost laughing out loud. The language of living things wanted to kill this soul dan!

"Artifact language, I just wanted to give you a warning, but I'll still use you after this! I didn't think that you would be so rash, and even gang up with Sima Yi to question this Lord. Do you still have this Lord in your eyes?"

The first hall Master made a false accusation and even asked about the language of the living things.

Without waiting for the language of artifacts to speak, he said, ""Since that's the case, I'll punish you by making you reflect on your mistakes in seclusion for a period of time! You don't have to interfere with the combat Association's Affairs anymore. Just be the Honorary President and I will promote si yaoqian to the new president!"

Chapter 8193

"but don't worry, you're still the vice hall master of the martial union branch. once you've thought things through, i'll still forget our past grudges and give you a chance to work for the martial union branch. i hope you'll reflect on your mistakes!"

the artifact language was completely speechless. what kind of f * cking bastards were these?

however, it didn't matter anymore. extreme disappointment was despair. the artifact language had completely given up on the martial league branch and the first hall master.

it didn't matter what he did!

"sima yi, hurry up and clear out all the space. someone will take over very soon. you can't take anything that belongs to the martial league with you. you can only take some personal items!"

the first hall master felt a little guilty towards the language of monsters, so he turned to lin yi without looking at it again, ""don't try to fish in troubled waters, do you hear me?"

Lin Yi turned around and left, not wanting to talk to this idiot anymore!

Beast transformation language looked at the first hall Master with a complicated look. He wanted to say something, but he stopped himself. In the end, he sighed and followed Lin Yi away.

The first hall Master felt that his dignity had been challenged, so he angrily cursed a few words.

Unfortunately, Lin Yi and Hua Yu didn't even turn their heads, and no one paid him any attention!

"Brother Hua, what's your next plan? Why don't you stay with us first? At least we can take care of each other!"

After leaving the hall, Lin Yi turned to the language of living things. "Martial league's branch ... There's no point in staying here!"

Not only had the monster language been suspended, but he had also been stripped of his position as the president of the combat Association. He would only be humiliated if he stayed in the martial Alliance branch!

However, the language of manifestations didn't agree with Lin Yi's suggestion. "No! Brother, you should stay here! As the saying goes, where you fall, you get up! I won't admit defeat so easily!"

Artifact language's previous gloominess was swept away, and he laughed heartily. "You don't have to worry about me. No matter what, I'm still a senior vice Hall Master. Not everyone can bully me! If we leave, it'll be easier for others to sweep through us!"

It wasn't very clear, but Lin Yi understood what it meant.

The artifact language wanted to stay in the martial Alliance branch and use its previous influence to investigate the truth of this incident!

If they left, it would be equivalent to giving up this opportunity, and it would not be easy to investigate again in the future!

"Brother Hua ... I really have to thank you this time!"

Lin Yi wasn't just grateful for the monster language's protection earlier, he was also grateful for its help.

There was no need to say it out loud. Everyone understood in their hearts!

"Alright, we're brothers, what's there to thank! This older brother's life was given by younger brother Sima, do I have to thank you so much?"

The artifact language smiled and patted Lin Yi's shoulder before waving, "You should hurry back! That brat si yaoqian is going to take over the territory, and without you, there might be trouble! Don't worry, I'll be watching over the martial Alliance branch!"

"Good! Then this little brother will take his leave first!"

Lin Yi wasn't too worried about Fei daqiang, so he nodded and cupped his fists.

After leaving the martial union branch, Lin Yi rushed to the medical Hall.

Surprisingly, si yaoqian hadn't arrived yet, while Fei daqiang and the others had almost finished packing.

Everyone stood up and saluted when they saw Lin Yi. Some of them were confused, not sure what they should do in the future.

"Everyone, I'm sure you all know what happened today, so I won't say anything more! "The martial Alliance branch has already given the order for us, combat Department 2, and alchemy Department 2, to officially disband. The medical center will also be returned to the alchemy Association!"

Lin Yi clapped his hands to get everyone's attention."I won't say anything unnecessary. From now on, everyone will go their separate ways! Those who are willing to stay and wait for news or return to the combat division or the alchemy division can stay and wait for them to come and take over. Those who are not willing to stay can leave!"

"Of course, it's fate that brought us together. For those who want to leave, I'll prepare a sum of severance payment, including some cultivation resources as a little money for you ... There will definitely be pills in it. If you're not afraid of poison, please take them!"

These words made everyone's hearts feel stifled.

They knew very well whether the pill was poisonous or not. Other than at the start, Lin Yi didn't interfere at all, but now he had to take all the blame!

"President! I'm not going back! I want to follow you! If you want to stay, I'll stay. If you leave, I'll leave! I'll follow you wherever you go!"

"Right! Why did he have to go back to that stupid place to suffer? I want to follow President Sima. Only by following President Sima can I feel like a human being!"

"That's right! I want to follow the president and never return to that dog shit alchemy Association!"

.....

The first to express their stance was the group of cowards assigned by the alchemy Association.

They were the ones who refined the pills, so who would know if they were poisonous or not?

Lin Yi was the scapegoat, but he didn't blame or doubt them at all-they'd have to think about it!

Moreover, even if they returned to the alchemy Association, they would only be low-level trash. No one would pay attention to them. Why would they ask for a snub?

"Guild leader Ouyang, we've all chosen to follow you! These days are the peak of our lives! I've lived for dozens of years, but I've never been as glorious as I am now!"

"it is! we're content to have these few days of glory! from now on, it didn't matter if they had to climb a mountain of daggers, dive into a sea of fire, or jump into a pot of oil! in any case, we should just follow president sima!"

"president sima, there's no need to say anything else. we're following you! no matter what other people say, we will believe you and only you!"

the group of cowards all had the same opinion-none of them said they wanted to leave or return to the alchemy association, which surprised lin yi.

"Boss, we've already communicated. All of us will stay behind and follow you and brother da Qiang!"

Zhang Butong represented the other battle generals and stood out to express his stance. Compared to the pill refining cowards who were feeling uneasy, the battle generals of the battle Association were much calmer!

Even the battle generals who joined later had been brought by Fei da Qiang to the nine story Pagoda. Everyone had a huge harvest and understood that they could be self-sufficient inside!

With such a magical treasure and endless resources, only a fool would leave!

Besides, they respected Lin Yi from the bottom of their hearts and were willing to follow him. The resources in the nine-story Pagoda wasn't the most important reason!

Lin Yi smiled and nodded, pleased. The martial union branch and the Alliance College put on a show of being pushed when a wall is down, but Hua Yao and these people in front of him showed Lin Yi what it meant to stay by each other's side!

Chapter 8194 No One To Take In

"Guild leader, we also want to follow you! If they're willing to take back the clinic, then so be it. We can open our own clinic, it's no big deal!"

The doctors in the clinic also expressed their opinions. They were only low-ranking doctors in the clinic, and their medical skills were extremely poor. It was Lin Yi who gave them the secret medical skills and taught them how to become a good doctor!

One could say that they already saw Lin Yi as their master-they'd rather start a new one than go back with someone like Ouyang Changqing.

Their thoughts were simple-with Lin Yi's medical skills, starting from scratch would definitely be better!

"Alright! Since everyone believes in me so much, I won't reject it anymore. From now on, we're all one family. As long as I'm here, I won't let you guys down!"

Lin Yi's chest was filled with pride-with so many loyal companions, he wouldn't have to worry about failure in anything he did in the future!

"Hahahaha! What a ridiculous farce! What are you guys doing?"

It was si yaoqian, the guy who had finally made it here, ready to take over Lin Yi's business,"Sima Yi, you're no longer the president, yet you're still being addressed as President. Are you reluctant to do so?"

"It's okay if you're unwilling. I can appoint you as the president of the toilet Association, and you'll be in charge of all the toilets in the Imperial City. This power is very great, and it can even reach the heavens. What do you think?"

Fei daqiang couldn't help but jump out and shout,"F * cking farting! What's there to be proud of? Are you looking for death? You only have a few subordinates left, and you still have the nerve to come here and show off. Who gave you the courage?"

Si yaoqian's face twitched. He hated it the most when people mentioned this. Fei daqiang had dragged almost all the people of the combat Association away. To him, this was a great humiliation!

In the end, Fei daqiang even used this matter to ridicule him. This was intolerable!

"Fei daqiang, don't be so arrogant! Do you even know what the situation is right now?"

Si yaoqian flew into a rage out of embarrassment. He shouted with a red face, ""The second combat division is gone! All of you must return to the combat Association! I'm the new president of the combat Association! All of you must obediently listen to my orders! Do you understand?"

"Where did this idiot come from? why does he feel so good about himself?"

Fei daqiang curled his lips and sneered, "you said you're the president of the combat Association, so we have to listen to your orders?" Is it because your face is bigger than your butt that I have to give you face?"

"Fei daqiang!"

Si yaoqian exploded in anger. He turned to Zhang Butong and the other battle generals and shouted, "If you don't listen to orders, you're disobeying them! You should know how serious a crime it is to disobey orders in the combat Association. Do you really want me to punish you?"

"I'm sorry! You're not our superior, we only listen to President Sima and big brother da Qiang's orders, you ... Who Do You Think You Are?"

Zhang Butong didn't give si yaoqian any face.

In the past, Zhang Butong had already looked down on si yaoqian before he was so powerful, and now, he was even more so. He was not afraid of a direct confrontation at all!

Si yaoqian's face turned green. If he could not take these combat generals back, what kind of combat power would the combat Association have? He was directly left with an empty shell!

"Zhang Butong, speak properly! If you bring your men back to the combat Association, I'll promote you to the Vice President!"

Si yaoqian forced himself to remain calm. If intimidation didn't work, he would use bribery. However, the moment he said this, he was ridiculed by all the battle generals!

It was obvious that it wasn't just Zhang Butong who looked down on the Vice guild leader, but all of the battle generals present.

Even if many of them were si yaoqian's former subordinates, they only had Lin Yi and Fei daqiang in their eyes now. There was no place for si yaoqian!

Si yaoqian's heart was filled with despair. There were so many combat generals, but none of them were willing to return. This was no longer a question of whether the combat Association was an empty shell!

Instead, it was because he, the newly appointed President of the combat Association, had no ability or prestige at all. From now on, who would be willing to submit to him?

Even a newly recruited battle general would be looked down upon!

That damned Sima Yi! That damn Fei daqiang! That damned Zhang Butong! 'Damn ...'

Si yaoqian gritted his teeth and cursed in his heart. He wished he could pull out his knife and kill all these people who deserved to die, but he didn't dare to!

In terms of numbers, they could drown him with just a mouthful of saliva from each person ...

On the other hand, si yaoqian was in an awkward situation. Ouyang Changhong barged in with his men, which eased his embarrassment.

"Wow, it's quite lively. You know that I'm coming to receive you, so you're all ready, right? Cousin yao qian, you're done with the combat Association, right?"

Ouyang Changhong was so proud of himself that he didn't even notice the strange atmosphere. The moment he spoke, si yaoqian's face twitched!

This devilish brat, how could he not have any eyesight at all? he even touched on a sore spot, thinking that he was here to give them a way out, but in the end, he was here to add salt to the wound!

What a pig-like teammate!

Si yaoqian cursed in his heart and turned his head to the other side instinctively. He pretended not to hear Ouyang Changhong's words and focused on observing a small spider web under the beam of the medical Hall.

It was as if the spider web was some kind of amazing work of art that was worth studying for a lifetime!

Ouyang Changhong didn't get a response, but he didn't take it to heart. This was the time for the victor to show off, so he didn't have time to pay attention to si yaoqian.

"All of you who were originally from the alchemy Association, report back to the alchemy Association and await further instructions ... All the doctors in the medical Hall, except for those who have been suspended from their duties, will continue to perform their duties and will not be changed for the time being. When I am free, I will examine all of you!"

Ouyang Changhong gestured and made his own arrangements. "The alchemy Association will send someone to take over the management of the medical Hall. You just have to cooperate well!"

To sum it up, Lin Yi would beat up everyone who followed him, and it was impossible for them to be put in an important position in this life.

Especially that group of cowards from the alchemy Association. When they returned to the alchemy Association, they would not be able to be cowards anymore. They would definitely be targeted by Ouyang Changhong!

These people had already decided to follow Lin Yi, and even those who didn't have this thought before would follow Lin Yi after hearing Ouyang Changhong's words!

Si yaoqian stared at the spider web and curled his lips. He thought to himself, "this cousin of mine is going to cry soon ...""I couldn't even pull anyone back with threats and promises, and you'll be lucky if you don't get beaten to death for talking like this. If you want to pull someone back, you'd better go back, wash up, and go to bed!"

Due to Ouyang Changhong's bad behavior of stabbing si yaoqian the moment he entered the room, si yaoqian didn't intend to remind him that it was difficult for one person to be in pain and embarrassment. It would be more fun if everyone was in pain and embarrassment together!

Chapter 8195 Leaving The Alchemy Furnace

As expected, while si yaoqian was still secretly anticipating what would happen next, the situation had really developed as he had expected!

"I'm sorry! I quit! What alchemy Association? whoever wants to go can go!"

"What the hell are you doing? you still want to wait for my judgment? I'll punish your sister!"

"Stupid thing, I'm not going to serve you!"

The group of cowards started to curse, leaving Ouyang Changhong stunned. When did these cowards become so bold? There was no reason for that!

Could it be that you think my blade is not sharp enough? Or do you think that I can't lift my saber?

"Impudent! Are you guys trying to rebel? You, and all of you, take down these Heartless Bastards. When we return to the alchemy Association, I will let bygones be bygones!"

Ouyang Changhong looked down on these cowards and wanted to order the alchemists who joined Lin Yi's side to take them, but all of them quit without hesitation, no longer playing with him!

This time, Ouyang Changhong was truly a little flustered. His mental journey was the same as si yaoqian's!

If threats didn't work, then bribery failed, and bribery failed, then they panicked.

Si yaoqian stepped forward and patted Ouyang Changhong's shoulder as if he had been there before. ""Cousin Chang Hong, you don't have to try anymore. I don't know what medicine these people took, but they're already possessed and want to follow Sima Yi to the end!"

"You ... Are you all crazy? Sima Yi was nothing! What future do you have if you follow him? It's impossible for him to provide you with any cultivation resources, and it's also impossible for him to pay you for your daily cultivation! Only the martial Alliance's branch can give you these!"

Ouyang Changhong didn't want to believe it, but the truth was there. No one cared about him at all, and they were all looking at him like they were looking at an idiot. It was simply enough to drive him crazy!

"Good! You're all very good! Then let's wait and see! Don't come begging me in the future!"

Ouyang Changhong's eyes were red. He gritted his teeth and shouted, ""Seal up all the materials and equipment. I want to take over all the property of the martial Alliance branch."

The people who came with him finally obeyed his orders and immediately started to take action. They quickly counted all the supplies, including the things that everyone present was carrying.

If they had a storage bag, they had to open it and check it. Otherwise, they would not be able to leave.

Lin Yi didn't care about those things at all, so he asked everyone to cooperate and only take his things. However, those automatic alchemy furnaces caused a small dispute.

"Isn't this something distributed by the martial Alliance branch? why can't we take it away?"

To that group of cowards, everything else was fine, but this automatic alchemy furnace was like their life. Ouyang Changhong's people did not let them take it away, and they all began to explode.

"Everything here belongs to the martial Union's branch. If these alchemy furnaces don't belong to the branch, then do they belong to you? I'm warning you, be sensible and don't anger us. We'll charge you with the crime of betraying martial League!"

"Bullshit! This is what's ours. Do you want to cover the sky with one hand and snatch our treasures? I'm telling you, even if I die, I won't give it to you!"

The cowards exploded with a rarely seen bloodlust and opposed Ouyang Changhong's people head on, not giving in an inch.

The automatic alchemy furnace was too important to them. Without this divine weapon, they would go back to being trash again!

There were some things that were worth protecting with their lives. For them, the automatic alchemy furnace was an extremely important thing! As for the alchemists who joined later, they had never used an automatic alchemy furnace before, so they didn't feel much.

Lin Yi frowned and walked over, waving his hand, "Forget it, just leave it to them, it's no big deal! I'll give you even better ones in the future. It doesn't matter if it's these second-hand goods. "

Only then did the cowards let go. They were still unwilling, but they chose to follow Lin Yi's words unconditionally.

It didn't matter if there would be more in the future. What was important was that they would let go if Lin Yi told them to!

"We've given you everything, so can we go now?"

Lin Yi turned to face Ouyang Changhong, his face cold. "We've been very cooperative with you, so don't go too far!"

Ouyang Changhong was a little scared when he faced Lin Yi-this trip wasn't in vain after all, and Lin Yi had the numbers on his side-he didn't dare to go too far.

"Let's go! Don't let me see you again!"

Ouyang Changhong waved his hand and threatened, but it was for someone other than Lin Yi. He didn't know why, but he didn't dare look Lin Yi in the eye.

"Then you can only hide in the house and not come out. Otherwise, I'm afraid it'll be difficult for you to not see us!"

Lin Yi walked past Ouyang Changhong, a mocking smile on his face as he led the group away.

Ouyang Changhong wanted to say a few more harsh words, but he didn't have time. He could only wait for the people to leave and then smash a few tables and chairs to vent his anger.

Ouyang Changhong had rushed over excitedly to receive it, but in the end, he had only received an empty shell. He felt quite aggrieved, so he called out to si yaoqian and brought the automatic alchemy furnace back to the martial Alliance branch to look for Ouyang Changqing.

"Big brother, that brat Sima Yi is really strange. There are so many people, but not a single one of them is willing to come back with us. It's simply unbelievable!"

As soon as Ouyang Changhong saw Ouyang Changqing, he began to pour out his grievances, indicating that this matter was really not his fault. ""Cousin yao qian and I have already tried our best, but we really have no choice! It seems that we can only increase the intensity of our recruitment in the future. "

"Forget it! If he didn't want to come back, then so be it! In any case, even if they return, we won't feel at ease using them, and we still have to guard against them day and night for any ill intentions. It's not a bad thing to just send them off like this and add to Sima Yi's burden!"

Although Ouyang Changqing had some regrets, he was very open-minded. He waved his hand and smiled. ""When they can't survive in the future, they will naturally regret it. By then, it won't be so easy for them to come back!"

"That's right! When the time comes, they will kneel if they're asked to, and they will eat sh * t if they're asked to eat it!"

Si yaoqian laughed out loud. However, his description made the Ouyang brothers feel disgusted and they subconsciously avoided him!

"Well, let's not talk about these traitors first. I asked you to take their things. The most important thing is their alchemy furnace. Did you leave it behind?"

Ouyang Changqing stiffly changed the topic.

The medical Hall's space wasn't that big of a deal-the most important thing was the automatic alchemy furnace in Lin Yi's hands. He'd been eyeing it for a long time!

"Of course I'm staying. I'm handling this matter. Big brother, don't you feel at ease?"

Ouyang Changhong smiled and took out the batch of divine tools that could automatically refine pills. He did not forget to show off his achievement."Fortunately, I arrived in time. Those cowards wanted to take this batch of alchemy furnaces and leave, but I stopped them all. With these things, we'll have an endless supply of pills in the future, and money will come rolling in!"

Chapter 8196 Defecting To The Enemy

"Good! Chang Hong, you've done a good job in this matter. I'll give you credit! Let me take a look first ..."

Ouyang Changqing was overjoyed. He took an automatic alchemy furnace and turned it over and over."It is indeed different. What is this thing? What's the use of it?"

The external device of the automatic alchemy furnace was extremely easy to operate for people who understood it, but for people who didn't understand it, they had no idea how to use it. No matter how Ouyang Changqing looked at it, he couldn't figure out how to use it.

"Chang Hong, do you know how to use this pill furnace?"

"Ah? This ... Should be the same as a normal alchemy furnace, right? Why don't we try it?"

Ouyang Changhong was naturally also confused and could only give this seemingly reasonable suggestion. The two of them really treated the automatic alchemy furnace as an ordinary alchemy furnace and refined a low-grade elixir on the spot.

The effect ... Was not even as good as an ordinary alchemy furnace!

After all, this was a modified alchemy furnace. With ordinary alchemy techniques, it was impossible to achieve the expected effect. It was indeed not as useful as an ordinary alchemy furnace.

Ouyang Changqing's face turned black. The treasure that he had spent so much effort to get was just this? What happened to the endless supply of medicinal pills and rolling wealth?

F * ck off!

"I was too careless! It seemed that if he wanted to use these things, he had to know the key points! Chang Hong, think of a way to kidnap one of their people. You must know how to use it!"

In fact, the simplest method was to ask the central Chamber of Commerce. After all, asking the manufacturer how to use it was the most reasonable choice.

However, Ouyang Changqing had offended the central Chamber of Commerce last time and had a shadow in his heart. He didn't dare to provoke them easily anymore and would definitely stay as far away as possible, so he didn't even consider this matter.

"Yes! Big brother!"

"Yes," Ouyang Changhong agreed without hesitation. He then hesitated. "But big brother, this might be a little difficult! That group of people is with Sima Yi now. They have a lot of people, so they rarely get the chance to be alone. It's probably not easy to deal with them!"

There was one more thing he didn't dare to say—Lin Yi now had at least 80% of the combat Association's battle generals under his control. If they were found out kidnapping Lin Yi and he came to punish them, they probably wouldn't be able to handle it!

At that time, the nominal combat Association and alchemy Association would be wiped out by a group of battle generals who had resigned. That would be a big deal!

"What you said makes sense ... That's right, didn't there used to be a doctor in the medical Hall who left the medical Hall because his relatives died in this incident, and parted ways with Sima Yi and the others? Go find him! Maybe we'll know something!"

Ouyang Changqing was talking about Yu Longwu. Originally, he had only taken a look when he received the information and knew that there was such a person. He didn't take it to heart, but now it was different!

Other than Yu Longwu, no one from Lin Yi's side left! Even if he told others, it would be unbelievable. That was why Yu Longwu's importance had increased!

"Right! There was such a person! Understood! I'll get it done immediately!"

Ouyang Changhong quickly went to look for him. Yu Longwu wasn't hard to find, and he was brought over very quickly.

"Greetings, vice Hall Master!"

Yu Longwu's attitude was calm and steady. After a normal bow, he asked, "I wonder what instructions vice Hall Master has for me?"

"You're Yu Longwu, right? Not bad, not bad! He's a young man with a bright future!"

Ouyang Changqing smiled and nodded, looking very satisfied with Yu Longwu. "I'm very pleased that you've turned over a new leaf and returned to the alchemy Association. Now, our alchemy Association has a lot of things to do and we need talents like you. Work hard in the future. I'll appoint you as the manager of the alchemy association and you'll wear the two silver swords badge!"

"Thank you for your promotion, vice Hall Master. I will do my best to serve our Association even if I die!"

Yu Longwu was overjoyed and cupped his fists in gratitude.

He had not left the imperial capital. He had been waiting for this opportunity.

Ouyang Changqing was even more satisfied.

"By the way, why did you leave the clinic? From what I know, your colleagues are all following Sima Yi! Oh, this is just a casual chat, you don't have to be nervous!"

"In reply to vice Hall Master, I left on my own accord because I was disappointed in Sima Yi. Vice Hall Master should know the cause of the incident. It was because my family member died from poisoning from the pills ..."

Yu Longwu's expression changed to one of sadness and disappointment at the mention of Lin Yi.

Ouyang Changqing secretly nodded and felt that this was enough. "I see. I'm sorry to mention your sad story! Let's stop here!"

"I called you here to ask you if you know how to use these pill furnaces. They're all the property of the martial Alliance's branch. It'd be a waste to just abandon them!"

Ouyang Changqing was just hoping for a little bit of luck. He didn't really expect Yu Longwu to know how to operate it. After all, these alchemy furnaces were used by alchemists, and Yu Longwu was only a doctor. Normally, he wouldn't be able to come into contact with an automatic alchemy furnace.

He didn't expect Yu Longwu to know about it!

"Vice Hall Master, I know how to use these automatic pill furnaces! If vice Hall Master needs it, this subordinate can inform vice Hall Master in detail!"

Yu Longwu's words were a pleasant surprise. Ouyang Changqing quickly urged, ""Good! Then please hurry up and tell me! If you can demonstrate it on the spot, that would be even better. As long as it's successful, this Lord will remember you for your great merit!"

Now that he knew how to use the automatic alchemy furnace, Yu Longwu's value was finally realized!

A mere position of a manager in exchange for such important information, it was a huge profit!

"Vice Hall Master, I only know the method, but I've never used it personally. As such, I'm not entirely confident in demonstrating it!"

Yu Longwu bowed and said, "previously at the medical Hall, the automatic alchemy furnace was used by a special person in the alchemy room. However, Sima Yi explained how to use it during an alchemy class. It was not complicated, so I have remembered it."

"It doesn't matter, as long as you know the method! Chang Hong, you'll go and take control, Yu Longwu will be the commander!"

Ouyang Changqing waved his hand and sent Ouyang Changhong over. Ouyang Changhong was also quite interested and immediately agreed. He began to work with Yu Longwu to try using the automatic alchemy furnace.

After trying, it was indeed very simple. It could really automatically refine pills!

This method of making elixirs was like an idiot's way of making elixirs. Ouyang Changqing and the others finally understood why Lin Yi had so many elixirs before!

With such a divine tool, it was impossible not to have a lot of medicinal pills!

"That's great! This thing was indeed a divine artifact! With these automatic alchemy furnaces, would he still need to worry about no one relying on him? Chang Hong, quickly organize your men and refine the pill for 24 hours!"

Ouyang Changqing was overjoyed. Although there weren't many people in the alchemy Association, the requirements to control an automatic alchemy furnace were too low. It wouldn't be a problem to organize dozens of people to take turns to refine pills.

Chapter 8197 You Dare To Renege On Your Debt?

"Yes! Eldest brother, this matter will definitely be handled properly. If there are any problems, I will bring my head to see you!"

Ouyang Changhong was also full of pride. He patted his chest and prepared to go all out.

Yu Longwu also complimented him at the right time. As a result, the atmosphere was very lively, and someone came in from outside.

"Vice Hall Master, they are from the central Chamber of Commerce. I can't stop them ..."

The guard was forced in by the people who came in. As soon as he saw Ouyang Changqing, he knelt down and threw the pot.

Ouyang Changqing's mouth twitched. The last thing he wanted to hear right now was the central Chamber of Commerce.

"May I know why you've come to our martial Alliance's branch? It doesn't seem to be in line with the rules to barge in like this, right?"

Thinking that this was the martial Alliance's branch, his own territory, Ouyang Changqing had some confidence and dared to show some face.

"Vice Hall Master Ouyang, of course we know that this is the martial Alliance branch. However, we're here to retrieve the precious assets that belong to us. In order to prevent you from damaging them, we've been a little rushed. Please forgive us, vice Hall Master!"

Three people from the central Chamber of Commerce came. The one in the lead spoke politely, but he didn't keep a low profile at all. When he saw the automatic alchemy furnace on the ground, he immediately took it and put it away. "These are the properties of our central Chamber of Commerce. We'll be fine after we retrieve them today!"

Ouyang Changqing suddenly became anxious. It was not easy to get this treasure, and he was so lucky to get the method to use it. How could he let it be taken away?

"Stop! What are you guys doing? These are all things that belong to our martial Alliance branch! Your central Chamber of Commerce actually dared to break into the martial union branch and Rob us? do you really think that our martial union branch is afraid of you?"

His words were loud and clear, but Ouyang Changqing didn't dare to fight for it. He could only shout loudly from the side, trying to shake the confidence of the three people in the center.

"I'm sorry, vice Hall Master Ouyang, you might have misunderstood! "These automatic alchemy furnaces are all items from our central Chamber of Commerce. We're only renting them out to your martial union branch. The ownership of them still belongs to our central Chamber of Commerce!"

The leader's hands didn't stop moving. He continued with a smile on his face, ""Now that the lease is up and there is no renewal, isn't it normal for us to recycle the items? Could it be that your martial Alliance branch wants to rely on your martial strength to forcefully occupy it?"

Ouyang Changqing was instantly stunned. What was going on? Rented?

[Sima Yi, you little bastard, you've earned so much money, why don't you just buy it? can you rent it for long?]

Looking at the automatic alchemy furnace that had been taken away, Ouyang Changqing's heart ached so much that he couldn't help it!

"You guys, wait! Wait a minute! Let go, you hear me!"

Ouyang Changhong couldn't take it anymore and rushed up to stop him. ""Do you think it's rented just because you say so? I said I'd buy all of these! Who doesn't know how to say empty words! Where's the evidence?"

Buzzzzzz!

An agreement immediately appeared in front of Ouyang Changhong, which made him choke. "You guys even brought a rental agreement?" F * cking professional!

"It's written clearly in black and white! Vice guild leader Ouyang, what else do you have to say? If you don't have it, then please step aside and don't get in our way!"

Ouyang Changhong's eyes were wide open as he looked at the agreement. There were indeed various terms and conditions for the lease, including the rent, term, ownership, and so on!

But the problem was that the term of the lease agreement was too short. How many days had it been? Why did it just happen to be rented until today? Ouyang Changhong was very suspicious. This agreement had just been written!

"Impossible! I don't believe it! These ..."

Ouyang Changhong still didn't want to admit it, but he was pulled to the side by Ouyang Changqing, who kept shaking his head at him.

It couldn't be helped. The central Chamber of Commerce was in the right, and now they had to fight head-on. The central Chamber of Commerce would definitely not be the one suffering a loss!

"Big brother, are we just going to watch them take away the automatic pill refining furnace?"

Ouyang Changqing sighed and said in a low voice, ""Don't say anything. It's their stuff. We can't stop them!"

If it was any other ordinary power, Ouyang Changqing would still dare to say that he would force them to stay, but the central Chamber of Commerce ... The area of the psychological trauma from last time had not been revealed yet. Did he have to increase it a little?

"This ... Sir, our alchemy Association would like to continue to rent your automatic alchemy furnace. Is this possible? We're willing to renew the agreement we made last time!"

Ouyang Changqing changed his way of thinking. He felt that if Lin Yi could rent it, they could as well. As long as they could stay and mass produce the pills, what was a little rent?

"I'm not renting!"

The people from the central Chamber of Commerce were not polite at all. They directly rejected Ouyang Changqing, making his face extremely gloomy!

'F * ck!' Sima Yi's money is money, but isn't this Lord's money also money? Why did he rent it to him and not me?

"Alright, the quantity is correct. We have indeed taken back the goods!"

The people from the central Chamber of Commerce put the automatic elixir furnaces into their storage bags, and the leader of the group handed the agreement to Ouyang Changqing. ""Please pay the rent! When we rented, we agreed to pay when the term was up. Thank you for your patronage, please pay the bill!"

"Why? We don't have any use for these things! What right do you have to ask us for rent?"

Ouyang Changhong immediately exploded. This was too F * cking bullying. In the past, he was the only one who could do this kind of thing. He didn't expect that someone would do it to him today. "Take the things. If you want the rent, go find Sima Yi. The things he rents have nothing to do with us!"

"You can't say that. The agreement was signed by the alchemy Association of the martial union branch. At that time, it was part two of the alchemy Association. However, there are no more parts now. I can only look for your alchemy Association! Besides, the thing is in your hands. If I don't ask you for money, who should I ask? It's not like Sima Yi is a member of your martial union branch!"

The person in the center spoke clearly, leaving the Ouyang brothers speechless!

However, just because they didn't refute it didn't mean that they would pay for it. They didn't pay attention to the rental price on the agreement just now, but when they looked closely, it was an astronomical price!

Ouyang Changqing couldn't come up with such a huge sum of money in such a short time, and even if he could, he wouldn't give it to central Wanwan for no reason, especially when it was Lin Yi's bill!

"Are you clear enough? The alchemy Association is the party involved. One of them is the president, while the other is the Vice President. Hurry up and pay up!"

The person from central shook the agreement in his hand, looking as if he had them all in the bag!

"Don't even think about it!" Ouyang Changhong angrily said. What can you do if this young master doesn't give it to you?"

"Vice guild leader Ouyang, are you trying to renege on your promise?"

The leader's expression suddenly changed as he coldly snorted and questioned.

"So what if I renege on my debt? What can you do to this young master?"

Ouyang Changhong stiffened his neck and rebutted. 'This is the martial Alliance's territory anyway. If I don't want to give it to you, then so be it. Let's see what you can do to me!'

"Vice Hall Master Ouyang, do you have the same idea?"

Ouyang Changqing raised his head and looked at the ceiling. His silence meant that he had silently agreed.

The leader in the center chuckled. ""Very good! As the President and Vice President, it's not bad for you to publicly renege on your debt! No one dares to go back on their word on our Central's accounts. You're the first one!"

Chapter 8198 As Expected Of First Hall Master

The agreement was put away, and the people from the three centers suddenly took out powerful laser hand cannons, each of them aiming at Ouyang Changqing and Ouyang Changhong.

Ouyang Changqing broke out in a cold sweat!

He had seen this thing before. Although it looked a little different, its power was still fresh in his memory. It was a weapon that could kill several sea split stage Warriors at once. It was impossible for him not to have a deep impression of it!

"The two of you, come with us! How should we settle this debt, we still have to make it clear!"

"Don't mess around. This is the martial Alliance's branch. Aren't you afraid that you won't be able to leave this place alive if you dare to make a move?"

Ouyang Changqing was terrified, and he could only use the martial Alliance's branch to pressure them.

"We're here to collect things and rent normally. If the martial union branch wants to renege on their debt, would they dare to touch the people from our Center? If you really dare to move, then there's no harm in trying and see what the consequences are!"

The leader pointed the laser cannon at Ouyang Changqing's heart.

The ice-cold muzzle exuded a cold air that seemed to be able to freeze one's heart, causing Ouyang Changqing to feel a chill in his heart.

As the saying goes, a wise man does not fight when the odds are against him, and there are also people who say that people have to bow their heads under the eaves. Ouyang Changqing frantically hinted to himself in his heart before he could maintain his calm and nod.

"Alright, we don't mind going with you, but this isn't over yet! "He's holding two of our branch's higher-ups hostage in the martial Alliance's branch. The martial Alliance will definitely not sit by and do nothing! You guys are in big trouble, do you know that?"

Ouyang Changqing had already started to walk out, but he still pretended to be tough. "You dare to capture us? you're really looking down on the martial Alliance branch! No matter how powerful central is, they can't protect you guys!"

What answered him was the muzzle of the cannon that had shifted to the back of his heart. It pushed forward forcefully, signaling him to hurry up and move forward. Stop talking!

Before he could leave the martial League branch, the Great Hall Master and Gu Shi, who had received the news, rushed over and stopped the people from the center and the Ouyang brothers.

"Hall Master, they've gone too far. How dare they hold us brothers hostage in broad daylight in our martial League branch? this is simply intolerable!"

Ouyang Changqing thought that they were here to back him up, so he put on a smile and pretended to be indignant. He wanted to complain first.

In the end, the first hall Master didn't say anything at all. He came up and gave him a big slap on the face. The slap was smooth, and Ouyang Changhong's face was also slapped.

The two of them were dumbfounded. What was going on? Was the first hall Master crazy? The enemy was behind them!

"First hall Master, you've hit the wrong person ..."

Ouyang Changhong was still foolishly trying to correct the first hall master's mistake, but the first hall Master slapped him on the other side of his face again!

"You can't do anything, but you're a failure! You guys have done a good job!"

The first hall Master cursed angrily and kicked the Ouyang brothers to the side. Then, he put on a smile and cupped his hands politely to the three people in the center. ""I'm sorry. It's my fault for not being strict with them, causing them to be so bold. Sorry to trouble you!"

"First hall Master, are you here to solve the problem? Or are you trying to cover for them by hurting yourself?"

The leader of the central Chamber of Commerce asked indifferently.

"Of course, we have to solve the problem. I've already heard about the matter. However much money we owe your Chamber of Commerce, our martial union branch will return it double. We will definitely not let your Chamber of Commerce suffer a loss!"

Ouyang Changqing, who was listening at the side, grinned. Giving it normally already made his heart ache, and now he wanted double? First hall Master, you're actually a spy from the central Chamber of Commerce, right? Was it really good to be such a traitor?

"As expected of the martial Alliance branch's great Hall Master. He's so magnanimous when he does things. He's so much stronger than some of the Vice Hall Masters!"

The person in the center was very satisfied. He smiled and nodded,""Since that's the case, first hall Master, please pay the bill. We won't disturb you any further!"

"No problem ... No... Problem ..." He said.

The first hall Master was originally unconcerned, but when he saw the rental amount on the agreement, he suddenly felt as if someone was strangling his neck, and the veins on his forehead popped out!

In the end, he gritted his teeth and paid double the rent. Then, he sent the man out and turned around to give the Ouyang brothers a good beating!

Ouyang Changqing and Ouyang Changhong wanted to resist, but their strength was inferior, and they didn't dare to openly rebel. They could only endure being beaten up until their faces were swollen!

"I already warned you last time! Don't provoke central, don't provoke central! Can't you guys hear it once? Did you all turn a deaf ear to this Lord's words?"

After the first hall Master beat them up, the anger in his heart dissipated a lot. Thinking that he still needed them and couldn't really kill them, he could only solemnly warn them,"

"Listen well! If there's a next time, I won't interfere and protect you no matter how the people in central will treat you! Do you believe that I'll personally kill you if you implicate the martial Alliance's branch?"

Ouyang Changqing and the other man rolled their eyes secretly. 'You've almost killed me this time. Do you still need a next time?' As if he didn't believe it!

However, this matter was finally over. In the future, it would be over as long as he did not provoke central ...

Just as Ouyang Changqing was thinking about this, the first hall Master, who had turned around and left, threw a sentence over.

"The funds paid to the central Chamber of Commerce today will be deducted from the alchemy Association's allocation in batches ..."

Ouyang Changqing immediately pulled a long face and almost burst into tears. "They only want the normal rent, but you insist on paying twice the amount. You should at least bear half of it, right?" What's with the deduction from the alchemy Association's funds?

Lin Yi had already brought his men back to the house that Fei daqiang had bought. The house was big enough. It wasn't as big as the medical center, but it was enough for these people.

Fei daqiang was also very attentive when he renovated it. He even arranged a martial arts practice field, and an alchemy room was a must.

Lin Yi suspected that he was doing this according to the standards of the eight hundred Guards unit from the Hong Shang Empire. If not, there was no way they could fit so many people.

Fei daqiang was in charge of the arrangements for the generals, alchemists, and doctors, and Lin Yi didn't need to get involved. When the arrangements were almost done, the three-man Group from the central Chamber of Commerce directly came to Lin Yi's side from the martial union branch.

"Mr. Sima, this is your alchemy furnace. We've already taken it back, so it's returned to its original owner!"

The people in central were very polite to Lin Yi-not to mention Ling lingfa, but the black card in Lin Yi's hand was enough for them to treat him with respect.

"Also, this is the compensation from the martial union branch. I'll hand it over to Mr. Sima as well!"

Lin Yi blinked at the huge sum of money, "Why are there so many? Isn't it twice as much as normal?"

"Yes! The extra is said to be an apology, but it's actually the cost of redeeming people ..."

The leader from central explained the situation, and Lin Yi smiled. As expected of the first hall Master!

It was indeed something he could do.

Chapter 8199 The Baby Is Back

When any troublesome matter fell into the hands of the first hall Master, the first thing he wanted to do was to keep the peace. Spending money to settle things was the most convenient operation, so it was not strange!

On the other hand, the Ouyang Changqing brothers were actually so silly as to fight head-on ... This was quite in line with their personalities. In that case, this sum of money was reasonable!

"I'll take half of the money, and the other half will be split between the three of you. Just take it as payment for your hard work this time! I can't let you guys work for free after helping!"

Lin Yi didn't really care about the money, so he gave half of the money to the three with a wave of his hand. This was a sum that even Ouyang Changqing would be heartbroken to the point of suffocation, and the three were very happy.

He didn't mind giving it all to them, but Lin Yi thought that if it was too much, they might just give it to the central Chamber of Commerce. He might as well keep it for himself so that he wouldn't feed the enemy!

"Thank you, Mr. Sima. It would be impolite for us to refuse!"

The three people in the center thanked him together and accepted the money happily. The three of them split it, and it was an extremely shocking amount of wealth!

"Does Mr. Sima have any other orders? If you have no further instructions, we will take our leave!"

"There's nothing else, you guys can go back! Please send my regards to your gray-robed boss!"

Lin Yi walked them a few steps out of courtesy before taking the automatic alchemy furnace with him to the group of punks.

They were still lost in their disappointment at losing their automatic alchemy furnaces, and they didn't expect Lin Yi to come over and place another pile of furnaces in front of them.

"Take a look for yourself, see which one you're using. If you like the original one, take it. If you want to change it, change it!"

"Argh! My precious! Lord Sima, you're really amazing. You've found our treasure so quickly!"

" My baby is back!"

.....

Lin Yi's mouth twitched as he heard the surprised screams. An automatic furnace? what treasure?!

The shrieks of a group of grown men sounded like they were from the eunuchs in the palace ...

"Take your treasures and start working! The medicinal herbs will be sent over to you!"

Lin Yi said as if he was a butcher.

It wasn't that they needed more pills, but they were too excited. If they didn't let them vent some energy, it would be very annoying. At least they could have some peace and quiet when they went to refine pills!

This group of cowards was exactly what they wanted. Without a word, they immediately ran to the alchemy room with their alchemy furnaces to start work!

Lin Yi shook his head after making the arrangements. He went back to the living room and sat down for some tea. He could finally relax a little.

Things happened one after another, and he had to come up with all sorts of countermeasures. It was hard work, and Lin Yi was starting to get frustrated.

On the other side, Fei daqiang, who had also arranged people and things, also ran in. He picked up the teapot and poured a cup of water. He gulped it down and exhaled in satisfaction before finding a chair to sit down.

"Boss, everything has been arranged. The space is barely enough. Thanks to the nine-story glazed Pagoda, a portion of people can go in to cultivate, so it won't take up too much space here."

"If we want to last longer, we'd better buy a bigger place to set up our base ..."

Lin Yi nodded and waved his hand, "let's not talk about this for now. Do as you see fit. You don't have to tell me. I just want to know if you've noticed these things happening recently. What's the connection?"

Fei daqiang suddenly showed a blank expression. He really didn't seem to know about this!

If Lin Yi were to ask him if there were any connections between the different industries in the naduo titled Empire, and how they could generate money, Fei daqiang might be able to give Lin Yi half a day's worth of explanation.

However, what exactly had happened in the past few days?

Fei daqiang expressed that he also wanted to know!

Now, he was just waiting for his omnipotent thigh to announce the answer. He would never find the truth!

Lin Yi rubbed his head, feeling like he'd lost his mind. Why was he asking Fei daqiang all this?

He should be sent to earn more money so that he could make the best use of his talents and resources!

Fei daqiang didn't know, but the others probably weren't any better than him. The generals were busy training in the nine story Pagoda, the alchemists were busy learning and putting Lin Yi's theories into practice, and the doctors were busy learning and putting Lin Yi's medical theories into practice ...

In short, everyone was focused on their own work, so they had no clue when they were tricked!

It would be great if Zhang Yiming, the little fatty, was here. He would definitely be able to find many things that were wrong!

It was indeed inconvenient without an intelligence chief following him!

"Fei daqiang!"

"Here! Boss, do you have any orders?"

"I miss Zhang xiaopang a little. Go and call him here!"

Lin Yi did as he thought. Zhang xiaopang might not be very strong, but in terms of gathering information, he had an outstanding talent that ordinary people could not compare to!

With him by her side, she might be able to find some clues and get to the bottom of the whole matter!

"Alright! I'll inform Zhang xiaopang immediately and ask him to fly over!"

Fei daqiang did not say a word. He agreed and turned around to inform Zhang xiaopang.

Even the fastest aerial spirit beast would take several days to travel from the Hong Shang Empire to the naduo conferred Empire's capital.

During this time, Lin Yi didn't just sit around and do nothing. He went to investigate, but found nothing.

After all, Lin Yi was too big a target, and many people were hostile to him.

As for the disguise, Lin Yi didn't think it was necessary yet.

Lin Yi had a high probability of locking onto Ouyang Changqing and the others as the masterminds, but he lacked evidence!

It was easy to kill them without evidence, but it was not easy to clear their names.

And now, Zhang Yiming had finally arrived!

"Boss! I've finally met you again, I've missed you so much!"

When Zhang Yiming saw Lin Yi, he ran up to him and hugged ... Lin Yi's leg, crying, "It's too boring without boss! Little fatty Jin has become so busy that he doesn't want to play with me anymore. Luckily boss called me over, otherwise I would have been bored to death!"

Lin Yi's mouth twitched as he resisted the urge to kick Zhang xiaopang away.

However, he had to make this kid wash off the tears and snot on his clothes!

"Alright, alright! Just put on an act, don't go on and on!"

Fei daqiang couldn't stand it anymore. He grabbed Zhang Yiming by the neck and pulled him away!

Is this Zhang xiaopang here to snatch my job? As a veteran leg hair, how could he tolerate his thigh being snatched away by him? This was simply preposterous!

"Hey, hey, hey, Fei daqiang, let go! Who was pretending? My yearning and respect for boss came from the bottom of my heart! Let go, let go ... My neck is going to break!"

Zhang Yiming struggled for a while and finally let go of Lin Yi's shirt.

Chapter 8200 An Unusual Fitness Pill

"Alright, stop fooling around!"

Lin Yi smiled as he watched them bicker. He was in a good mood, but he didn't ask Zhang Yiming to play with Fei daqiang. Even if they wanted to play, they had to do business first!

"Don't mess around, you hear me! He didn't even look serious! The boss asked you to come because he has something for you to do. Look at you, you only know how to play. Can you live up to the boss's trust?"

Fei daqiang's face changed instantly after hearing Lin Yi's words. He said with a righteous tone, "What an unreliable little fatty!"

Zhang Yiming was stunned for a moment, and when he reacted, he wanted to open his mouth and bite this bastard to death!

You must be jealous that I, Zhang xiaopang, am more trusted than you, right?

"Zhang Yiming, I asked you to come here because I need your help!"

Lin Yi gestured for fatty to sit down before continuing, "It's like this ..."

After explaining the general situation, Lin Yi added his own guess, "Although there's no evidence, we can basically lock onto Ouyang Changqing and Ouyang Changhong as the masterminds behind the scenes. We just don't know how they did it."

"That's what I need you to investigate. Only by catching the flaws they left behind can we make an effective counterattack. Otherwise, we'll have to carry the blame forever!"

Zhang Yiming didn't answer immediately. He thought for a while before nodding, ""I understand! Boss, don't worry, I'll definitely get to the bottom of this!"

"But I need some people. I flew here from Hong Shang Empire alone. Boss, arrange for seven or eight smart people to help me. It's best if they are ordinary-looking and unnoticeable."

Fei daqiang immediately raised his hand. "That's not a problem. If you want people, I have them here. You can choose anyone you want. As long as you can complete the task given to you by the boss, I'm willing to be your assistant!"

As a veteran leg hair, of course, he had to be anxious about his thighs and absolutely could not fall behind others!

Zhang Yiming pouted and said with a look of disgust,""Forget it, you can't do anything but ruin things! If I really want you to help, you'll probably be of no use other than making things worse!"

This time, it was Fei daqiang's turn to want to bite Zhang xiaopang to death. Brother daqiang was now leading so many battle generals from the combat Association. Who would be dissatisfied?

A little fatty like you actually said that I would only be a hindrance? Do you believe that I'll turn you upside down and plant you in the soil so that you can be blind?

Lin Yi waved his hand, stopping the two from starting another round of fighting."Alright, I'll leave this to you two. Zhang Yiming will be the leader. Fei daqiang, you cooperate with him and do a good job in logistics to meet Zhang Yiming's requirements!"

"Yes! Boss!"

The two of them agreed in unison, and then they pushed and shoved each other as they walked out of the door with their arms around each other's shoulders.

He had thought that only Jin xiaopang and Zhang xiaopang would love to kill each other. It turned out that Fei daqiang was the same ...

Zhang Yiming came back half a day after he left, and he went straight to Lin Yi.

"Boss, I've discovered something unusual. Although I haven't completely figured it out, I feel that there's something fishy about it."

Zhang Yiming's efficiency was high, and he found something so quickly. Lin Yi was pleased-it was the right decision to ask him for help!

"Tell me quickly if there's anything unusual!"

Lin Yi asked with a smile.

"It's like this. When the alchemy Association was still in the alchemy Department 1, the alchemy business plummeted because of the impact of the alchemy Department 2. They couldn't sell at all. Boss, do you still remember?"

Lin Yi nodded, indicating that he knew.

Zhang Yiming continued."During that time, Ouyang Changqing organized a free pill event to gain popularity. He did it under the slogan of giving back to the public. Everyone who joined the alchemy Department would receive a free health pill every day. There were no conditions."

"It's said that the health pill is a secret pill made by the Ouyang family. After taking it, it can keep a person refreshed for 24 hours and increase their strength greatly."

"The only restriction of this event is that each person can only receive one pill a day. If you want to continue taking it, you can come back the next day. It's a good way to gather popularity, but it's of no help to the sales of the alchemy Department."

"Because at that time, the quality of the pills in the second volume of alchemy was not only higher, but the price was also cheaper. It was only the gimmick of free gifts that attracted some people to collect them!"

Lin Yi thought about it-he'd heard about this before when he went to investigate, but he didn't think much of it.

The secular world had already used this kind of free little trick to attract people's popularity so many times that it was not strange!

But now that Zhang Yiming mentioned it, he realized that something was wrong!

The purpose of attracting popularity was to increase sales. The ultimate marketing goal was to convert the popularity into sales. If it could not be converted, why would he waste so much effort?

Ouyang Changqing and Ouyang Changhong weren't stupid. They wouldn't do anything without any benefits!

"Do you still have this kind of fitness pill for free?"

Lin Yi didn't pay attention to this when he was investigating a few days ago. He felt a little guilty for being careless!

"There's more, but there's a limited number now. Every day, only the first five people who come to the alchemy Association can buy any pill they want. Only the first five people who come to the alchemy Association can have one free pill. If others want it, they can only buy it with money!"

Zhang Yiming's investigation was very detailed, and he didn't miss anything. "I bought one and brought it back. Boss, look, this is a fitness pill!"

Lin Yi took the pill from Zhang Yiming and frowned after one look.

On the outside, it looked like a medicinal pill, but in the eyes of an expert, they could see the difference. How was this a medicinal pill? it was simply a low-level medicinal pill, not qualified to be called a medicinal pill.

After crushing it and smelling it, Lin Yi could tell the composition of the herbs. They were just some refreshing herbs, nothing special, but the combination was unique, able to bring out the full potential of all the herbs.

Although it was a low-level pill, the person who took it would have an obvious feeling and would be able to maintain his peak state for a day. It was considered a good pill.

This kind of thing was very easy to make, and it was a very suitable method to gather human qi!

"There's nothing unusual. It's indeed a harmless fitness pill. It can't be called a medicinal pill, but the effect is good!"

Lin Yi shook his head. Did Ouyang Changqing really just use the pill as a marketing strategy?

"Apart from this pill, did you find anything else unusual?"

"Boss, the abnormality that I wanted to talk about is related to this pill. That's why I specifically mentioned this first!"

Zhang Yiming's chubby face looked serious. ""According to my investigation, all the people who died in the incident of the poisonous pills were those who took the health Pills that day!"
