

## Bodyguard 8201

### Chapter 8201

"And those who survived the poison and were rescued were also those who took the health pill that day! If it's just an example, it doesn't mean anything, but everyone is like this. I won't believe it even if you beat me to death if there's no ghost!"

Lin Yi was shocked-he didn't know about this at all ... The pill was ignored, so this common point wouldn't have been discovered.

But this was the most crucial point!

"Not only that, boss, guess what else I found?"

Zhang Yiming's serious face instantly changed into a wise one,""For all the people who died, the time when the poison took effect and the time when they took the health pill did not exceed eight hours!"

"As for those who didn't die on the spot and could still be saved, and those who were saved in the end, the gap between the two times was more than eight hours, without exception. Basically, it was between ten to eight hours! As for those that have been missing for more than twenty hours ... We haven't found a single one!"

With such an obvious similarity, even a fool would not believe that there was nothing wrong with the fitness pill!

But Lin Yi had checked it himself, and there was nothing wrong with the pill! It's a ghost!

Lin Yi was definitely a Grandmaster in the field of medicine now-there were so many books in his head, it'd be hard to find anyone with more knowledge than him!

So Lin Yi was sure that the health pill and the other elixirs sold in the second volume wouldn't conflict with each other! It couldn't even make people feel uncomfortable, let alone kill them with poison!

"Continue to investigate! There must be something we missed!"

Lin Yi patted Zhang Yiming's shoulder and encouraged him, "You've done a great job, and it's beyond my expectations. You've found such detailed clues so quickly, and you've basically locked onto the target! We're only missing the last piece, I believe you can do it!"

"I promise to complete the mission! Boss, don't worry!"

Zhang Yiming raised his head and puffed out his chest. He was very happy!

Zhang Yiming was very happy that he could use his talent to help Lin Yi. He made up his mind that he had to get this done as soon as possible!

"Let's go and eat first! You've just arrived, and I didn't even have time to welcome you back before making you busy. It's my fault!"

Lin Yi dragged Zhang Yiming to dinner. Even an Emperor wouldn't starve his soldiers, not to mention that Zhang Yiming had made a huge breakthrough as soon as he came. He had to be rewarded!

At the same time, Ouyang Changqing and Ouyang Changhong were also eating and drinking. The two brothers were laughing very happily.

"Big brother, we've recruited quite a number of people these few days, and we've finally recovered some scale. The sales of the pills have also completely returned to the right track. Without Sima Yi's interference, our pills are simply in short supply, we don't have enough Alchemist!"

Ouyang Changhong sounded like he was complaining, but in reality, his smile was extremely bright.

"It's okay. We don't have enough alchemists. We can arrange our own people and take complete control of the alchemy Association. You may not know this, but the clan has already agreed to send some alchemists from the clan to help us. They will be the backbone and elites of the alchemy Association in the future. With their help in control, the situation of Sima Yi taking so many people away will never happen again!"

Ouyang Changqing downed a cup of wine and was in an extremely good mood!

Ouyang Changhong quickly poured him some wine and said with a smile, "I really didn't know about this. In that case, the alchemy Association will become the private property of our Ouyang family in the future?"

"Hahahaha, don't be so straightforward! "The alchemy Association is still a branch of the martial Union. We're just strengthening our management!"

Ouyang Changqing laughed out loud. The first step was to take complete control of the alchemy Association. After si yaoqian recruited new combat generals, he would be able to build a combat Association of his own. This was the second step!

The next step was to flip that useless first hall Master to the ground!

"Yes, yes, yes! Big brother is right, we have no choice but to strengthen the management to prevent Sima Yi from taking us away again ... Let's not talk about this!"

When Ouyang Changhong talked about this, his heart felt stifled. In the past, he had taken over the territory, and in the end, he had really taken over the territory. He didn't get a single person back. Thinking about it made him feel embarrassed.

And he even F \* cking brought it up to make things difficult for himself ... No one else could do it!

"Big brother, it's a pity that we didn't succeed in one fell swoop this time. Although Sima Yi was chased away, he's not a stray dog with an ashen face!"

Ouyang Changhong quickly changed the topic.

After hearing this, Ouyang Changqing nodded and sighed. "Yup! I didn't expect that Sima Yi would have such prestige in the hearts of those people. They actually left the martial union branch and followed him to be a stray dog!"

"But it doesn't matter anymore. In the end, we've chased Sima Yi out of the martial Alliance branch. Even the Alliance Academy has expelled him. As long as he doesn't have any backing, he'll be finished sooner or later!"

"The current results are indeed not perfect, but it will only get better and better. We still have plenty of opportunities to take care of Sima Yi!"

Ouyang Changqing's words made Ouyang Changhong's blood boil. He raised his cup and smiled. "Big brother, help us take care of Sima Yi! F \* ck!"

"Let's do it!"

The two wine glasses clinked in the air, giving off a crisp sound, and then the two laughed!

Lin Yi finished his meal, and Zhang Yiming went out to look for more clues. Lin Yi, on the other hand, was walking around the garden alone.

Lin Yi ignored the scenery around him, subconsciously walking in circles. His eyebrows were furrowed, indicating that he was deep in thought.

There was an 80 - 90% connection between the health pill and the person who was poisoned after taking it.

But what was missing?

Based on the current situation, it was at most a coincidence. However, if so many people were coincidences, it would not make sense.

Once, twice, and thrice could be said to be a coincidence, but ten times, twenty times, and thirty times were inevitable!

Lin Yi was thinking about what part of this inevitability was missing.

After walking around the garden for a bit, Lin Yi suddenly stopped. He finally thought of a problem!

Did the current health Pills have to be the original Health Pills?

Even the automatic pill refining devices had versions 1.0, 1.1, 2.0, and so on. It was just a low-level pill. It was not difficult to make some changes to it!

With that in mind, Lin Yi immediately sent people to look for Zhang Yiming. Fortunately, he hadn't been gone too far.

"Boss, what's the matter?"

Zhang Yiming heard Lin Yi's call and came back as fast as he could.

He understood that Lin Yi wouldn't look for him if it wasn't something important.

"Yiming, I just thought of something. The health pill that you brought back might not be the same as the original one. The appearance and effects might be similar, but there's probably something fishy about it. Try to find a way to see if you can still find the original one!"

Lin Yi asked Zhang Yiming to look for it, but he didn't think the chances of finding it were high.

Chapter 8202

At first, Ouyang Changqing limited everyone to one pill a day and said that one pill could last for a day. Therefore, those who received the health pill for the first time would try it immediately.

If he came to collect it the next day, he would probably continue to take it to maintain his peak state from the previous day.

Anyway, it was free, so he wouldn't feel bad about it. If he spent money to buy it, he might keep it and use it when he needed it.

It was like a person spending their hard-earned money carefully, while they would squander the money they picked up for free.

Money was the same money, but because of the different ways of obtaining it, there would be different ways of using it.

The same logic applied to elixirs!

Moreover, even if there were still some unused ones, they had probably been forcefully used by the Ouyang brothers.

After such a long time, it was enough to destroy the corpse several times.

"I understand! Boss!"

"Yes." Zhang Yiming nodded seriously. "It's my fault. I didn't think of this possibility."

"You don't have a deep understanding of alchemy, so it's normal that you didn't think of this. This matter must be done as soon as possible. So many days have passed. Although the chance is slim, you still have to try!"

Lin Yi was frustrated-if only he'd noticed the health pill earlier, it wouldn't have been delayed for so many days.

What a mistake!

"Yes," Zhang Yiming replied and left in a hurry.

It had indeed been a long time, and he wasn't sure if he could get the initial fitness pill.

Sure enough, after searching for more than a day, Zhang Yiming came back with a tired and dejected face at night the next day.

"Boss, I'm sorry. I couldn't find the first batch of Health Pills after searching for so long!"

Zhang Yiming lowered his head in frustration. "I don't think we'll be able to find the first batch of Health Pills again. I just found out today that when the health Pills were given out in limited quantities, there was a small note in the package of each health pill. It stated that the health Pills were valid for only two days. After two days, the efficacy of the pills would decline rapidly."

"That's why those who received the pills will consume them within two days even if they have them. It's already too late for us to collect the first batch of pills!"

Lin Yi was enlightened and confirmed his suspicions. The original health pill was the problem!

However, the current health pill was really just a health pill!

"Boss, I'm sorry, I really don't have any other way ..."

"It's fine. I can't blame you for this. You've already done very well. I can only say that Ouyang Changqing and the others have done things flawlessly and have already taken precautions! I was too slow to react!"

Lin Yi patted Zhang Yiming's shoulder, consoling him, "Let's put the matter of the fitness pill aside for now. I'll think of another way. You should rest for the night and think of another way tomorrow. Maybe we can find new clues!"

"Yes, boss ... I'll try my best to find new clues. I won't let this matter rest!"

Zhang Yiming pulled himself together and swore to work harder tomorrow!

Unlike Zhang Yiming, Ouyang Changqing and Ouyang Changhong were very proud.

Although Zhang Yiming's information was relatively hidden, the large-scale search for the first fitness pill could not be hidden from their eyes and ears!

"Hahaha, that brat Sima Yi is quite smart. He actually found the right direction. What a pity, he realized it too late!"

When Ouyang Changhong received the news, he clapped his hands and laughed. "Everything is within eldest brother's control. No matter how smart Sima Yi is, it's useless. He can only obediently admit defeat!"

"You can't say that. That brat Sima Yi is indeed a strong opponent. If he didn't have a backup plan from the start, he might have found his weakness!"

Ouyang Changqing smiled proudly as well, but he still praised Lin Yi in a reserved manner, making it seem like he was a level higher, "We were inspired by his method of limiting the amount of spiritual energy! This method is indeed very good. We can also be considered to have given him a taste of his own medicine, right? Haha, he should be feeling honored!"

"Big brother, the matter of the health pill has already been settled. It's impossible for Sima Yi to turn the tables, but we can't let him continue to torment us. We have to get rid of him as soon as possible, so that he won't jump out and cause trouble for us again!"

Ouyang Changhong wanted nothing more than to kill Lin Yi.

And now, Lin Yi was biting on to them, and it made him uncomfortable!

"Don't worry, there will be a chance!"

Ouyang Changqing's thoughts were clear. He waved his hand and said, ""For now, Sima Yi is not a threat to us, and the power in his hands is not weak. Let's ignore him for now and stabilize the situation on our side. When the people on his side can't hold on any longer and disperse, that will be the best time for us to make a move!"

"Eldest brother is right, we can only let him have it easy ..."

Lin Yi, who was deemed harmless for the time being, left his house and disappeared into the night.

The naduo conferred Empire's capital was bustling even at night. Lin Yi walked through the streets, looking for an empty spot before finally finding an open space.

"Boss ding, business is here. Come out and do business!"

Lin Yi raised his head to look at the starry sky. He seemed to be talking to himself, but he was actually summoning dingyi!

Of course, Lin Yi wasn't sure if he could summon Ding Yi.

In the past, it had worked every time. After all, it was night time, and it was hard to say if boss ding was nearby.

However, Lin Yi's worry was unnecessary. Ding Yi appeared in front of him like a ghost not long after he activated the great summoning.

"Hello, young master Lin, thank you for your patronage! What kind of business is it this time?"

Ding Yi rubbed his hands with a smile, looking like a small boss of a grocery store.

Looking at his appearance as a waiter, no one would think that this was a person with eyes and hands in the sky.

But it was true-every time Lin Yi successfully summoned dingyi, he was shocked.

Lin Yi was sure that there wasn't any spirit sense mark on him.

Even if he couldn't be sure, there were still that damn thing and Starlight great wizard, two powerful spiritual awareness experts.

If they didn't notice it, it basically meant that the possibility of it being marked was very low.

So, how did Ding Yi manage to be at his beck and call?

"Boss ding is well-informed, so you must know what has happened recently. I won't beat around the bush with you. Let's get straight to the point!"

Lin Yi was looking for Ding Yi because he wanted to buy the first batch of pills Ouyang Changqing gave him.

Even if Zhang Yiming couldn't be found, it didn't mean that there was no hope. Ding Yi, this mysterious businessman, might have the last hope.

"I need the first batch of Health Pills that Ouyang Changqing gave me when the alchemy Association of the naduo martial union branch was first established, not the current ones! Boss ding, do you have any stock?"

"Hehe, young master Lin has found the right person. It's really not easy to buy that batch of Health Pills other than from my store! I do have that batch of Health Pills with me, but they're more expensive. At least, they're more than ten thousand times more expensive than the ones they're buying now!"

Ding Yi nodded, and Lin Yi relaxed. Ding Yi was right-the guy's eyes were sharp, and he'd been preparing from that moment?

Chapter 8203

It was hard for a businessman to not be successful when he caught a business opportunity and held it in his hands!

"The price is negotiable. I'll take the fitness pill in your hands!"

Lin Yi didn't ask for the exact amount-money was just a number, after all.

As long as he could get what he wanted, it would be worth it no matter how much he paid!

"Young master Lin is a straightforward person. You know that I love doing business with people like you!"

Chuckling, Ding Yi took out a porcelain bottle and opened it, revealing two Health Pills inside."I only have two in my hands, not much. The price of this deal is for young master Lin to promise to refine a pill for me when I need it!"

"Just refining a pill?"

Lin Yi blinked.

On Sky Class Island, making elixirs from him was indeed very valuable, but that was for the people outside. To Lin Yi himself, making a single elixir was nothing!

Isn't it too easy?

"That's right. It's just a promise to refine one pill. If young master Lin agrees, these two Health Pills are yours!"

Dingyi nodded, confirming the price. He waved the bottle in front of Lin Yi's eyes, and the two pills made a soft clatter as if asking Lin Yi to take them away.

Lin Yi thought for a bit and nodded, "Yes! However, this promise is only valid if it's within my ability. If it's beyond my ability, don't blame me for not keeping my promise. "

"Of course. Young master Lin, please help me. I will definitely not exceed your capabilities! Then this deal is settled!"

Dingyi flicked his hand, and the bottle flew into Lin Yi's hand. "When I find young master Lin to refine pills, young master Lin, you can't go back on your word!"

"That's natural! Since I've made a promise, I'll keep my word! Don't worry about me going back on my word!"

Lin Yi felt that it was a bit too easy, but he still nodded.

"Haha, then I'll take my leave first. I look forward to our next meeting!"

Ding Yi waved his hand with a smile and disappeared again like a ghost.

After Ding Yi left, Lin Yi didn't rush back.

Instead, he impatiently poured out a fitness pill from the porcelain bottle, then picked out a small piece with his little fingernail, put it to his nose to smell, and stuck out his tongue to lick it, carefully distinguishing it.

As expected!

The composition of the pill was similar to the current healthy body pill, but there was an extra ingredient!

Lin Yi's eyes flashed as he smiled coldly. "So that's how it is! It's the withered orchid! What a good plan!"

The Kuai Xi orchid was an uncommon herb. Its main effect was to remove the pill poison in the body!

Just by looking at the medicinal effects, it was definitely a kind of spirit medicine that was beneficial to the body and mind. However, if used in the wrong way, it would also have a bad effect.

Under normal circumstances, the withered orchid was used to make medicinal soups. When people with pill poison deposited in their bodies soaked in this medicinal soup, it could relieve and expel pill poison!

To put it bluntly, this thing was an external medicine. No one would drink the medicinal soup that was soaked in a bath.

If someone really ate the kuxi orchid, it would trigger the elixir poison hidden in their body to erupt, and it would easily cause them to faint!

Ouyang Changqing's recipe was unique. Not only did it amplify the characteristics of the withered orchid, but it also made it even more ferocious!

As long as there was pill poison in the body of the person who consumed it, the pill would instantly backfire and cause the person to die from the poison!

The quality of the pills refined by the automatic alchemy furnace was high, but because the effectiveness of the medicinal ingredients was locked to the maximum, there was almost no unnecessary loss. Therefore, the pill poison contained in it was much more than the same grade of pills refined normally!

However, if there were no special circumstances, most of the pill poison would slowly be expelled by itself. Even if a little remained in the human body, it would not immediately cause any bad effects!

As time passed, it would also slowly dissipate.

However, when it came to the health pill that contained the withered orchid, things were completely different.

The excessive elixir poison in these elixirs had become the fuse to detonate the bomb!

Those who had taken the health pill for eight hours or less would still be at the peak of the kuxi orchid's effect. If they took a pill that contained more elixir poison, it would directly detonate the kuxi orchid, causing their bodies to be destroyed in an instant.

After eight hours, the withered orchid's medicinal effect would rapidly decline. Only then would the person who took the pill have a chance of survival!

Lin Yi couldn't help but exclaim at how thorough Ouyang Changqing's plan was after understanding the whole thing.

If not for Ding Yi, the truth of this matter would have been buried in the sea!

Unfortunately, even though they had figured out the ins and outs of the matter, the two Health Pills in their hands were still not enough to prove that Ouyang Changqing was guilty.

This was because it was easy to make this kind of fitness pill. As long as one knew the ratio, it could be made easily. There was no need for a real Alchemist.

So, he could say that Lin Yi was the one who framed Ouyang Changqing.

However, this was still a breakthrough in progress. He had caught Ouyang Changqing and the others by the tail, and the truth would be revealed sooner or later!

Back at the house, Lin Yi called Zhang Yiming and Fei daqiang, "I've already found the original fitness pill! He was indeed the culprit who had triggered the poison pill incident! Yiming, you don't have to waste your time looking for Health Pills!"

"Boss, you're amazing! I've thought of all kinds of ways to find one, but I couldn't find one. Boss, you actually found one after going out! How did you do it?"

Zhang Yiming couldn't help but exclaim.

Fei daqiang didn't have much of an idea. He had always felt that his thigh was omnipotent, so he felt good.

However, Zhang Yiming was different. The feeling of being unable to do anything despite using all his means made him quite depressed.

"Rarely seen, often strange! You'll never understand boss's abilities. This is just a normal operation! I've been following boss for a long time, I'm already used to seeing things!"

Fei daqiang pouted and habitually flattered Zhang Yiming to show off his presence.

"It's not as incredible as da Qiang made it out to be. I just happened to have a friend who had two pills in his possession. I asked him about it and he gave it to me!"

Lin Yi said, "The problem now is that I can confirm that there was something wrong with the initial Health Pills and that they were the main culprits of the poisoning incident. However, we can't prove that it was Ouyang Changqing and the others who did it just by relying on these two Health Pills!"

"Why not? Isn't this a very strong piece of evidence?"

Fei daqiang was a little stunned. The evidence that he had worked so hard to find was useless?

"It's strong evidence, but it's not enough!"

Zhang Yiming understood and shook his head. He said, ""We're the ones who took out the health Pills. They'll definitely question the authenticity, especially since the health Pills they're selling now have no problems. It's even more difficult for us to explain ourselves. It'll be easy for them to bite back!"

Chapter 8204 The End

"Therefore, we can't use this as evidence to make a final decision. Unless we can make them admit that these Health Pills were made by them ... Or we can find these Health Pills from them!"

Fei daqiang sighed. "Doesn't that mean that there's no evidence? Ouyang Changqing and the others are idiots, yes, but they shouldn't be stupid enough to admit that they made the fitness pill to harm people! And now, the health Pills have no problems. This means that after they achieved their goal, they no longer have the initial Health Pills in their hands!"

Lin Yi's mind flashed as he grabbed his chin and nodded. "Perhaps ... There's still a chance! The main ingredient in their problematic Health Pills was the addition of a medicinal herb called the withered orchid! This herb is rare, and the usage rate is very low ..."

"If I'm not wrong, the withered orchid that Ouyang Changqing and the others used to make the first fitness pill was definitely not from their own stock! It's the warehouse of the alchemy Association!"

"We just need to check if the alchemy Association's warehouse has used a large amount of withered orchid recently. Although a few days have passed, it shouldn't be that easy for them to replenish the amount of kuxi orchids in their storage. After all, this kind of kuxi orchid is rare!"

Fei daqiang and Zhang Yiming's eyes lit up. If that was the case, it could indirectly prove that the original fitness pill was made by Ouyang Changqing and the others!

"Boss is indeed boss. He found a solution to such a difficult problem so easily! Let's not delay any further. We'll immediately check the alchemy Association's warehouse!"

As usual, Fei daqiang first praised the wisdom and power of his thigh, then rubbed his fists and wiped his palms, ready to go to Ouyang Changqing and the others!

Lin Yi waved his hand, stopping the man's impulsive actions. "Don't mess around! That's the alchemy Association of the martial Alliance branch. Unless we want to completely fall out with the martial Alliance branch, we can't forcefully investigate the matter. Even if we do, the results won't be acknowledged!"

"Then what do we do?"

Fei daqiang was dumbfounded. He couldn't possibly negotiate with Ouyang Changqing and the others and ask them to open the alchemy Association's warehouse for them to check!

Although they were indeed idiots, they shouldn't be that stupid ...

"It must be justified, and the head Hall Master must know this result! For now, I can only go to brother Hua for help! You two stay at home and wait for my news!"

Lin Yi didn't waste any time and left the room immediately, heading to the martial union branch to find the language of the living things.

Many days had passed. Although the withered orchid was relatively rare, it was not difficult for Ouyang Changqing to purchase it in the name of the alchemy Association.

Time was of the essence, and that was why Lin Yi was in a hurry to find the language of living things.

He was suspended, but he still had enough authority in the martial union branch. The first hall Master had to give him some face if Lin Yi asked him for help.

Lin Yi didn't waste any time and got straight to the point, ""Brother Hua, I've already found out the truth behind the poison pill incident! It was all Ouyang Changqing and Ouyang Changhong's doing!"

"Look at these Health Pills. They were the first batch of limited edition ones. They added a herb called the withered orchid, which can cause pill poison and kill people! The quality of the pills in our alchemy Department 2 is high, but they contain a lot of pill poison. Without this kind of health pill, most of the pill poison will be automatically expelled from the body after taking it. "

"And after taking this pill, if you take our pill for eight hours, you will definitely die! Those who were saved by Ouyang Changqing after eight hours still have a chance of survival. Those who were saved by Ouyang Changhong at that time were those who consumed the pills later on!"

Zhang Yiming's data was very detailed, and Lin Yi showed it to the language of manifestations, which made it clear instantly!

"Preposterous! Ouyang Changqing and Ouyang Changhong, these two vicious and unscrupulous people, were shameless villains! In order to deal with brother Sima and seize power, you actually did such an outrageous thing!"

The artifact language was furious and smashed a coffee table. ""The meaning of the martial Alliance's existence is to protect humanity and uphold justice! The alchemy Association's objective was to treat illnesses and save lives. How would they dare to do so? How dare you do such an evil thing!"

In the entire martial union branch, the person who cared the most about the meaning of the martial Union's existence was probably the beast language. Otherwise, he wouldn't have tried so hard to get Lin Yi on his side and keep him in the branch.

This wasn't to form a small group, but because he really valued Lin Yi. He knew that with Lin Yi here, the entire martial union branch's combat strength would undergo a qualitative change!

What Ouyang Changqing and the others had done had completely touched the bottom line of the language of the living things!

"Brother Sima, we can't just let this matter go! Let's go, we'll go find the hall Master now. Even if I have to be crushed to pieces today, I'll expose the true colors of Ouyang Changqing and the others!"

The beast couldn't sit still any longer. He dragged Lin Yi out of the room to find the first hall Master and ask for a thorough investigation!

Lin Yi, naturally, wouldn't refuse. He'd come to the artifact to ask for help, or else he wouldn't even be able to see the hall Master after being expelled.

"Stop!"

The guards stopped them at the entrance, ""The hall Master is already resting. Please come again tomorrow if you have any matters to attend to!"

The guy's attitude was stiff, as if he looked down on the language of living things and Lin Yi, who had lost their power. There was even a trace of disdain in his eyes.

Perhaps he thought that the two of them were here to get back-door or something like that.

It was rare for him to show off his superiority in front of the Vice Hall Master of the language of existences and Sima Yi, who was previously the leader of the alchemy Department and the combat Department!

Of course, in his opinion, so what if the language of the living things used to be a Deputy Hall Master?

Aren't they still begging to do things now?

He just wanted to show off.

To his surprise, the monster didn't buy it. It pushed him to the wall and said, ""What time is it now? why are you still resting? He's able to sleep!"

The enraged beast glared at the other guard, scaring him away. He then pulled Lin Yi's arm and barged in.

"Hey, hey! This is the first hall master's residence, you can't barge in!"

The guard who was pushed away was not injured, so he was brave enough to catch up with them and try to pull the language of the living things away. ""The language of the living things, are you trying to rebel ..."

Chapter 8205

Before he could finish his words, Hua Yu kicked him back without even looking back. The guard who had no eyesight was sent flying. While he was still in the air, he spat out a large mouthful of blood.

Apparently, the artifact language had used some strength this time to teach him a lesson and hurt him so that he wouldn't make any more noise!

"First hall Master! The language of manifestations, Sima Yi requests an audience!"

The other guards didn't dare to stop them as they followed Lin Yi and the woman to the hall master's room.

At this point, the artifact language finally stopped.

What happened next still required the first hall master's approval. If they really barged in, it would be difficult to deal with them if they completely fell out with each other.

The door opened, and the first hall Master walked out with a coat on his back and a gloomy face. ""What are you doing, artifact language? Do you really think I won't punish you?"

"Hall Master, please forgive me. This is an urgent matter. After this matter, I am willing to accept my punishment!"

Artifact language bowed slightly and cupped his fists. He looked up at the first hall Master and said, ""This matter is of great importance. Hall Master, please disperse the unrelated personnel and allow this subordinate to report in detail!"

The first hall Master frowned, not very happy, especially when he saw Lin Yi. He felt guilty and waved his hand in order not to blow things up, "All of you can leave! Vice Hall leader Hua is not an outsider, but I don't want to see what happened tonight again!"

If anyone could break into his bedroom at night, what dignity would he, the first hall Master, have?

The guards all bowed and left, leaving Lin Yi and the language of living things behind.

"What's the matter? hurry up and say it!"

The first hall master's face was cold, and he didn't invite them in. He just stood on the steps and looked down at them.

"Hall Master, younger brother Sima has already found out that the poison pill incident was planned by Ouyang Changqing. In order to attack younger brother Sima's alchemy Department and expel him from the martial union branch, he didn't hesitate to refine harmful Health Pills and poison so many innocent people! His methods are extremely cruel ..."

Without any nonsense, the artifact language told Ouyang Changqing everything he knew. The more he said, the angrier he became. He wanted to kill Ouyang Changqing right now.

Unfortunately, the language of monsters attached great importance to the rules of the martial League branch. No matter how much it hated Ouyang Changqing, it would not attack him on its own. That was why it came to see the first hall Master. "All of the above shows how ruthless Ouyang Changqing is. Now, as long as we can prove that he used the withered orchid of the alchemy Association, we can be sure that the health Pills he refined are problematic and harmful to people!"

"Hall Master, please give the order for this subordinate and Sima Yi to investigate this matter thoroughly. We must give the victims justice!"

The first hall Master frowned as he listened to the impassioned speech in the artifact language.

He hated trouble the most, especially trouble related to the people.

He'd already pushed the blame for the poison pill incident to Lin Yi, and it'd been a while since it'd settled down. Now, the language of the living things was stirring things up again, and it even wanted to pull Ouyang Changqing down-this made him very unhappy ...

"This matter ... Is not easy to handle. Even if you find out that the alchemy Association's inventory is missing some withered orchid, what can it mean? Could it be that Ouyang Changqing, as the president of the alchemy Association, can't even use some withered orchids?"

The first hall Master was obviously trying to shirk the responsibility and was trying to find an excuse. ""If he says he used it, what can you do? As you said, the withered orchid is a medicinal herb used for medicinal baths to dissolve pill poison. As the president of the alchemy Association, it's normal for him to have a lot of pill poison in his body!"

"In short, this matter has come to an end. Don't look for trouble! Go back! I'm going to rest!"

After saying that, the first hall Master turned around and left.

Lin Yi was pissed off-what did she mean by "looking for trouble"? You F \* cking poured such a Big Basin of dirty water on me, and you call that fine? He didn't care about his position in the martial Alliance's branch, but he would rather die than take the blame!

"First hall Master, this matter is not just about me. It is also related to the safety of the martial Alliance branch and you, first hall Master. I hope that you can take this matter seriously!"

Lin Yi looked at the first hall Master expressionlessly. "Ouyang Changqing can add the withered orchid grass into ordinary Health Pills and secretly trigger the outbreak of pill poison to take people's lives. If one day he uses other poison pills to deal with the enemy he wants to get rid of, I'm afraid the consequences will be more serious than now, right?"

The first hall Master was about to go back to sleep, but he was shocked by Lin Yi's words!

He didn't care if it was someone else, but Lin Yi's words reminded him of the pill Ouyang Changqing made when he was injured, and it almost killed him.

That pill ... Was it really an accident?

Or was it a product of Ouyang Changqing's premeditated plan?

The first hall Master was a suspicious person by nature, and he had never really let go of this matter!

Lin Yi didn't mention it directly, and nothing he said touched on him, but it was natural for him to connect the dots to himself!

The moment he was in danger, the first hall master's attitude would change immediately!

At this time, the language of monsters also gave an assist, ""Hall Master, are we still going to carry out the original mission? "Let's not talk about the medicinal pills we need to prepare when the time comes. Just the power vacuum in the martial Alliance branch after we leave will allow a despicable person like Ouyang Changqing to take advantage of this ..."

What would happen?

The artifact language didn't explain it clearly. Most of the time, it was better to stop at the point and let the listener imagine freely.

Especially a suspicious person like the first hall Master, he would naturally come up with countless conspiracy theories!

The hole in his brain was so big that it was many times better than saying it in the language of artifacts!

At this time, the first hall master's face was already very ugly, and his expression was constantly changing. He quickly nodded and said, ""That makes sense. That mission is of great importance. If you and I leave, we must stabilize the rear!"

He wouldn't say that he was worried that Ouyang Changqing would harm him, but he just followed the language of the living things's way out. ""Since that's the case, it's necessary to clarify your doubts! You can go to the alchemy Association's warehouse and check it out!"

"However, this Lord will say this first, if there is no abnormality, this matter will end here, and you are not to continue to pester me in the future! And don't come and mess around in front of this Lord again! Do you understand?"

The first hall Master had some doubts about Ouyang Changqing, but it didn't mean that he was willing to completely overturn the poison pill case that had already been settled.

If Lin Yi and the Beast language could find evidence, he'd give Ouyang Changqing a beating.

If he couldn't find any evidence, he would be on guard against Ouyang Changqing, but he wouldn't provoke the dissatisfaction of the people.

"I understand! Don't worry, Hall Master, if we can't find any evidence, we'll just drop the matter!"

Lin Yi nodded. He didn't really give up, but if he couldn't do it the proper way, he'd think of a way to get back at them in private. He'd make sure Ouyang Changqing and the others were ruined, and he'd get rid of this first hall Master as well.

Chapter 8206

The first hall Master didn't know what Lin Yi was planning, and after getting the promise, he sent a warrant to transformation language and Lin Yi, telling them to investigate on their own.

After getting the order, Lin Yi and the monster language turned to The Alchemist Association immediately.

With the first hall master's token, no one dared to stop him without the artifact language.

"Assimilation language, Sima Yi, what are you doing here at the alchemy Association instead of sleeping?"

Ouyang Changqing and Ouyang Changhong rushed out when they heard the news, stopping Lin Yi and the Beast's path as they glared at each other.

"The first hall Master has ordered us to conduct a thorough investigation of the alchemy Association's warehouse. Guild leader Ouyang, please take out the warehouse's account book!"

The artifact language directly showed the Great Hall master's token.

Ouyang Changqing took a look and confirmed that there was no mistake. He suddenly felt a little strange. He didn't understand why the first hall Master, that idiot, would suddenly help the language of monsters and Sima Yi?

Was it because they felt that the alchemy Association of the two brothers was developing too quickly and wanted Sima Yi to come back and control it? It can't be, right?

He still didn't realize that Lin Yi's goal was to check the amount of kuxi orchids!

They thought that Lin Yi would never find out about the secret of the pill!

"Is it necessary to come in the middle of the night to check the inventory and accounts? Can't I do it after dawn tomorrow? Besides, what can you two find out?"

"There's no need for vice Hall Master Ouyang to worry about this. You just have to cooperate!"

The artifact language sneered and shook the first hall Master token in its hand.

"Big brother, why do I feel that something is not right? they are coming for us!"

Ouyang Changhong leaned close to Ouyang Changqing's ear and nervously whispered, ""What should we do? Do you want to gather everyone?"

"No need, let them investigate. As I said, what can they find out?"

Ouyang Changqing shook his head slightly and rejected his brother's suggestion. He then laughed and said, ""Since that's the case, then please go to the medicinal herb warehouse! Chang Hong, prepare the warehouse's account book!"

"vice hall master hua, do you think that the alchemy association has hidden poison? and then use this as an opportunity to reverse sima yi's verdict? hahahaha, if that's really your plan, then i'm really sorry! we don't have any poison in the alchemy association. we won't be like some people who refine poisonous pills!"

"that's right! so what if i let you guys investigate? if we can find even half a poisonous pill, it's our loss!"

ouyang changhong laughed as well. he thought that lin yi's goal was the same as ouyang changqing said- to find the poison.

they were sure that lin yi couldn't have known that the herb was the real cause of the poison, so they weren't worried at all!

lin yi and the monster language smiled at each other. they didn't come to the alchemist association's warehouse to check everything-their goal this time was to find the kuxi orchid!

he just needed to compare the physical items with the account books, and he didn't need any manpower at all!

too many for two people!

when ouyang changhong took out the account book, lin yi flipped through it casually and scanned it with his spirit sense. he found the kuxi orchid item.

the ouyang brothers looked at each other and smiled-they saw that lin yi didn't even stop at the page with the withered orchid, so they felt that this was a sure win!

but before their smiles could fade, lin yi brought hua yu straight to the warehouse where the withered orchids were stored!

"Vice Hall Master Ouyang, can you explain why all the kuxi orchids here have been used up?"

Lin Yi flipped through the pages and found the records of the kuxi orchids."The account book shows that the original kuxi orchids were distributed after the establishment of the second volume of alchemy. It hasn't been too long, so can you explain where these kuxi orchids went?"

"Or rather, what kind of pills have you made with the kuxi orchids that you've taken?"

Lin Yi's words made Ouyang Changqing's face turn dark.

Ouyang Changhong was even worse off, and his face turned pale.

The two were confused by Lin Yi's sudden attack-they didn't understand how he'd found the withered orchid!

"Hahahaha, what nonsense are you spouting? how can the withered orchid be made into pills? They're all made into medicinal soup and soaked in it!"

Ouyang Changqing laughed dryly and tried to cover it up. ""Why are you asking about the dried orchid? Is there a problem?"

"Of course there's a problem! And the problem isn't small!"

lin yi smiled faintly and took out the health pill he got from dingyi."these are two of the health pills that you gave me at the beginning. coincidentally, you added the withered orchid into it!"

"the two guilds ouyang are both experts. i don't need to tell you what will happen if you fuse the withered orchid into your health pill and consume other pills at the same time within a short period of time. this will trigger the pill poison contained in the pill and cause a chain reaction, causing the other

pill poison that has accumulated in the human body to explode at the same time. what will happen then?"

ouyang changhong's face went pale. he didn't think that lin yi would have the first batch of health pills with him, and that he'd even found the xi withered orchid in them. he'd even found it in the alchemist association's warehouse!

although he had also anticipated this situation, when it really happened, he was still a little confused and did not know what to say for a moment.

lin yi's lips curled into a cold smile."actually, i don't need to say it. everyone already knows the consequences. those who took this pill in a short period of time all died without exception. only those who took it more than eight hours later survived."

"It's very exciting. As expected of the former president of the alchemy Association's second Department. You are quite knowledgeable, but your imagination is a little rich!"

Suddenly, Ouyang Changqing laughed and clapped his hands. ""Sima Yi, are you trying to push your crimes onto us? It's a pity that we've never used any kuxi orchid in our Health Pills. If you don't believe me, you can go to the cabinet outside or the warehouse to take a look. If there's even One Health pill that contains kuxi orchid, then it'll be my loss!"

As long as he kept his teeth on this point, Ouyang Changqing felt that he would be able to stand on an undefeatable position. ""As for the health pill in your hands, I'm sorry, but if there's any withered orchid in it, it's definitely not a product of our shop. You, Sima Yi, are also an Alchemist. I believe it should be effortless for you to concoct one or two pills similar to our health pill, right?"

"Not bad! That's it, are you trying to frame me? What a joke! You're just trying to frame us and clear your name, Sima Yi, aren't you being too naive? You're really naive!"

Ouyang Changhong reacted and quickly went along with his brother, trying to push the blame onto Lin Yi's head!

Chapter 8207

"How can it be so easy? At the very least, I can't get my hands on any. I'm not like the two guild leaders Ouyang, who can easily and happily get so many of them!"

Lin Yi patted the account book and sneered, "coincidentally, according to the date record here, the health pill will be sold on the second day after you've received the withered orchid!" What was more coincidental was that after the health pill went on sale, the poison pill incident began to break out! There are so many coincidences. Vice Hall Master Ouyang, can you tell me if a single coincidence is enough?"

Facing Lin Yi's continuous soul interrogation, Ouyang Changhong felt like he couldn't handle it anymore. His face changed again and again, but Ouyang Changqing returned to his smile.

"Why not? So what if it's a coincidence?"

Ouyang Changqing had already completely calmed down. He spoke nonsense without changing his expression, ""What do you want to express by grabbing onto these coincidences? Could it be that you think that you can push the blame for the poison pill incident to us? Don't be too naive, you'd better think of how to get some real evidence first!"

"I used the kuxi orchid. I don't know where you found out about this, but you've been thinking of making some strange poisonous health pill to slander me?"

"Previously, there was a problem when I was refining the elixir for the first hall Master. It was because there was too much elixir poison in my body, which affected the elixir refinement. That's why I took the kuxi orchid and used it to soak my body to remove the elixir poison. Is there a problem?"

Ouyang Changqing had a glib tongue. He had actually thought about these words long ago, so there was no hesitation when he said them now.

Lin Yi, on the other hand, wasn't worried at all. He only laughed, "Is that so? It seems like I've misunderstood vice Hall Master Ouyang?"

"Naturally! Unless you can produce new evidence to prove that this Lord is related to this matter, otherwise, this is a false accusation. Sima Yi, do you know what crime it is to falsely accuse this Lord?"

Ouyang Changqing thought that Lin Yi was forcing a smile-he laughed coldly as he prepared for his counterattack.

"Whether it's a false accusation or not, let's ask the first hall Master to come over and make a judgment!"

Lin Yi cupped his hands at Hua Yu. "Brother Hua, please get the first hall Master here. There are some things that need to be explained clearly in front of the hall Master, in case vice Hall Master Ouyang and vice Hall Master Ouyang deny it!"

"OK, elder brother will go and invite first hall Master here!"

Beast whisper didn't know what other cards Lin Yi had up his sleeve, but he nodded and walked out.

"brother sima, you should be careful as well. if these despicable people want to attack you, you can retreat as much as you want!"

"don't worry, brother hua, they won't dare to do anything to me. this isn't a place where they can do whatever they want!"

lin yi's nonchalant attitude pissed the ouyang brothers off-they really wanted to kill him right now.

but as lin yi said, they couldn't do it here.

once they made a move, it would prove that they were related to the poison pill incident, which was why they killed them with a guilty conscience!

the artifact language laughed and left. soon, it brought the first hall master back.

the first hall master really didn't want to get involved in this kind of troublesome thing, but he was the one who gave lin yi the permission to come and investigate.

Besides, the artifact language had come in person. No matter how unwilling he was, he still had to make a trip.

"First hall Master, this is the alchemy Association's account book. The withered orchid was indeed used. Then, the alchemy Association began to give away the health Pills. After that, the poison pill incident broke out!"

Lin Yi explained everything clearly to the first hall Master, "In addition to the two Health Pills that The Alchemist Association gave me, the result is obvious. They were the ones who orchestrated the poison pill incident!"

"Haha, this is just your subjective inference. It's not valid at all! Two fitness pills that you don't even know where you got them from, and you're saying that we made them ... This is simply ridiculous!"

With a wave of his hand, Ouyang Changqing pretended to be disdainful and explained to the first hall Master with a smile, "First hall Master, Sima Yi is unwilling and wants to turn the tables! It's a pity that he doesn't have any strong evidence, and he's just making empty promises to the Vice Hall Master of the martial Alliance's branch. This is a heinous crime, Hall Master, please punish him severely!"

"Sima Yi, just these things alone can't be considered evidence. It's indeed too forced. Let's just end this matter here!"

The first hall Master was wavering in his heart, but in the end, the idea of not wanting to cause any more trouble prevailed, and he opened his mouth to help Ouyang Changqing.

"Haha, Sima Yi, did you hear that? First hall Master is wise!"

"Hahahaha ..." Ouyang Changhong laughed out loud. He felt as if a huge rock had been lifted from his heart.

Ouyang Changqing was also looking at Lin Yi with a smile, his mouth full of mockery.

Little guy, you want to fight with us?

You're still too young!

Don't think that you can turn the tables just because you found the problem with the withered orchid. You can't find any evidence!

However, before the Ouyang brothers could be happy for long, at this moment ...

"Hall Master, your subordinate, Yu Longwu, wants to report Ouyang Changqing and Ouyang Changhong. They are the ones behind the poisonous pill incident. Everything was planned by them!"

Yu Longwu!

He was the doctor Who had requested to resign!

At that time, Lin Yi even asked Fei daqiang to give him a large sum of dismissal money.

After that, he turned around and sought refuge with the two brothers, Ouyang Changqing and Ouyang Changhong.

"Kid, what are you talking about? Are you crazy?"

Ouyang Changhong was shocked and glared at Yu Longwu.

In the end, Yu Longwu didn't even look at Ouyang Changhong and directly started a fight with the Ouyang brothers without a care. "This subordinate is the witness to prove that everything President Sima Yi said is the truth! The fitness pill that Ouyang Changqing and the others gave us at the beginning did contain the ingredients of the kuxi orchid!"

Ouyang Changqing was also a little anxious. He didn't expect that Yu Longwu would suddenly jump out and make trouble. He angrily rebuked, "What nonsense are you talking about? When did this Lord do such a thing? You're actually one of Sima Yi's men, right? That's right, you're a member of the medical Hall. You pretended to leave Sima Yi so that you could cooperate with him to deal with us, right? It's indeed a deliberate scheme!"

Yu Longwu snorted coldly and ignored Ouyang Changqing's interrogation. Instead, he cupped his fists and bowed to the first hall Master in a serious manner, ""Hall Master, this subordinate was indeed a doctor in the medical center, but because one of my relatives died in the poison pill incident, this subordinate left the medical center in grief and indignation."

"But it's not that I'm disappointed in the clinic. Before I left, I've already investigated the pills sold in the clinic. There are no lethal toxins at all, so I'm sure the problem doesn't lie in the pills."

"In order to find out the truth, I had no choice but to continue searching for clues. That's why I resigned and came to work at the alchemy Association. It was only recently that I discovered the secret of the health pill! I've come out to be a witness tonight, so I naturally have sufficient evidence!"

No one knew what Yu Longwu and Lin Yi talked about in private, so Fei daqiang misunderstood him.

However, all of this didn't matter. Yu Longwu believed that Fei daqiang would look at him in a different light.

Chapter 8208

"After the investigation in the alchemy Association these past few days, I can confirm that Ouyang Changqing and Ouyang Changhong had indeed added the withered orchid when they refined the first batch of Health Pills, causing the toxic pill incident to have a negative impact!"

"You're f \* cking farting! You're completely talking nonsense, you really want to pin a crime on someone, but you can't find any excuse! In the end, your words have no proof. Just because you say you're a witness, you're a witness? You have to show me some real evidence!"

Ouyang Changqing sneered as he pointed at Yu Longwu and scolded him.

Traitors, traitors, traitors, and so on were all pinned on Yu Longwu's head.

"Ouyang Changqing, do you really think I can't find any evidence? Hehe, then you've really underestimated me, Yu Longwu!"

Yu Longwu didn't care about the curses of Ouyang Changqing and the others. Instead, he smiled and said, ""You should know that when I left the medical hall, I received a considerable sum of severance payment from Sima Yi! Aren't you curious how I'm going to use this money?"

"What?"

Ouyang Changqing was slightly taken aback. He was a little puzzled by this sudden question that was not on the same line.

He really didn't notice how Yu Longwu used his money. To him, money was no longer the most important thing.

"Forget it, it doesn't matter if you're curious or not. I'll just tell you directly! I've used this money to buy people's hearts! That's right, I'm buying the hearts of your subordinates!"

Yu Longwu directly revealed the answer to the mystery. He had a happy smile on his face, "I got this information from your confidant. There's also a fatal secret!"

"The first batch of Health Pills that you refined were the ones with the kuxi orchid. You didn't give all of them away, so there's still a lot left."

"The reason why you left these scourges behind is because you don't have the confidence to get rid of Sima Yi in one go, so you want to keep them as a trump card to be used next time! Just because you're afraid that the first hall Master will side with Sima Yi and cause Sima Yi to rise again even if he doesn't die, you've used this as your trump card to punish Sima Yi!"

"And the things you have left are now hidden in dan Hua Hall ..."

Dan Hua Hall!

This was the place where Ouyang Changqing hid his pills that Yu Longwu had mentioned!

In the alchemy Association, the magnificent Dan Hall was originally used to store elixirs, but it was only a place to store some ordinary low-level elixirs.

the truly high-grade and important pills were stored in another place.

therefore, not everyone could enter the dan hua hall, but at the same time, it was a place that many people could enter.

there wouldn't be too many restrictions here, and there would be many people entering and leaving every day. this kind of place, how should i put it ... was a little unexpected!

lin yi thought that even if ouyang changqing had extra withered orchid body strengthening pills, he'd at least hide them a little. he didn't expect them to be in the danhua hall!

however, when ouyang changqing heard yu longwu's words, his expression changed slightly before he laughed out loud. ""hahaha, you traitor, you speak as if it's true. unfortunately, your words have no credibility at all!"

"let's not talk about whether there are those health pills with the kuxi orchid you mentioned. even if there are, why would i put them in danhua hall? that's where low-level pills are stored. pills come and go frequently every day, so it's impossible to hide anything there!"

"Is that so?"

Lin Yi smiled faintly.

The more Ouyang Changqing said this, the more likely it was!

This guy was obviously trying to use the 'under the light' principle to fool people, but he didn't expect Yu Longwu to find out.

"Whether it's true or not, won't it be clear after a search? Why are you arguing here?"

Lin Yi turned to the first hall Master and cupped his fists. "Hall Master, I believe that Yu Longwu wouldn't tell such an easily exposed lie without any evidence. Please give the order for us to search the Dan Hua Hall."

"Hehe, you think we can search just because you say so? If you can't find anything, what do you have to say?"

Ouyang Changqing laughed coldly, but Lin Yi could feel that he was trying to hide his guilt!

Yu Longwu's source of information was correct!

"If you can't find anything, I, Sima Yi, will apologize to you. From now on, I will no longer be involved in the poison pill incident. I will take the blame for this matter until the end!"

"if we find the enhanced pill, then i don't have to say anything, right?" lin yi said firmly.

"good! since that's the case, then go to the dan hua hall and search!"

the first hall master immediately made a decision, "however, i'll be in charge of the search!" no matter which side you are on, there will be some criticism. it should be the fairest for me to send someone, right?"

he had long been suspicious of ouyang changqing. since the matter had already developed to this stage, he might as well not be afraid of trouble and directly ask ouyang changqing to come out and verify it!

Perhaps ... He could also verify if Ouyang Changqing had intentionally harmed him when he was poisoned by the pill!

"It's naturally for the best if the hall Master comes forward, I have no objections!"

Lin Yi smiled and raised his hands, agreeing with her.

"I don't have any either!"

Ouyang Changqing had no reason to object, so he could only pinch his nose and accept it.

So, the first hall Master found a group of confidants and went directly to the Dan Hua Hall to start a search.

There were quite a few low-grade medicinal pills here, and it took a lot of time to distinguish them one by one.

There were a lot of Health Pills in stock, but they were all the normal version of the health Pills that had been concocted recently. There were no health Pills that had been added with the withered orchid.

Ouyang Changqing had a smile on his face and a calm expression. He didn't seem to care about these people's search.

As he searched deeper, Lin Yi's face started to turn pale, and there were beads of sweat on his forehead.

"Sima Yi, are you starting to get a little nervous? Are you afraid that you'll be disappointed if you can't find what you're looking for?"

Ouyang Changqing had been paying attention to Lin Yi's face the whole time, and he chuckled. "Now you're afraid? Now you know you're going to lose, right? Perhaps you and Yu Longwu, the traitor, originally planned to use the things in your hands to frame someone, but the hall Master was wise and didn't let you get involved, causing you to lose this opportunity, right?"

"Oh!"

Lin Yi curled his lips and ignored Ouyang Changqing, but his face was still pale.

Very quickly, the places where things were normally stored in the Danhua Hall had been searched, and there was indeed no sign of the health Pills that had been added.

However, the first hall Master was not surprised. If Yu Longwu's information was correct, then Ouyang Changqing must have hidden it in a secret compartment.

This was in line with the routine. After all, although not everyone could enter the Dan Hua Hall, there were actually many people who could enter. It was easy to ruin things if they were not kept closely!

If he wanted to find those Health Pills with added ingredients, he had to find the secret compartment of Danhua Hall.

Chapter 8209

"Sima Yi, it's useless even if you don't say anything. The facts have already proven that you're just trying to suck up to us brothers! Hall Master, we're almost done searching. Did you find the strengthened pill they were talking about?"

"Hahahaha!" Ouyang Changqing laughed proudly, "if there isn't, then it can prove that Sima Yi and Yu Longwu are deliberately framing us brothers!"

The first hall Master didn't say anything, but he was a little unhappy.

Now that things had come to this, he was hoping to find something.

Therefore, he had asked his men to look for hidden compartments, but unfortunately, there was nothing.

"Impossible! It's definitely in the Dan Hua Hall! It's impossible!"

Yu Longwu, on the other hand, was getting anxious. He had jumped out because he was absolutely confident. If he were to fail, then he would really be in deep trouble!

"These superficial things are just a cover. There must be other hidden places to hide things, there must be! First hall Master, please continue to investigate dan Hua Hall!"

Yu Longwu shouted.

"Impudent! You're just a little traitor, what right do you have to speak to the first hall Master like that?"

Ouyang Changhong also trembled. He pointed at Yu Longwu and scolded, ""You ungrateful thing, how dare you still have the face to clamor here! Hall Master, you must severely punish such a despicable person. Otherwise, if the people under you follow suit, our martial Alliance branch will be in chaos!"

The first hall Master frowned slightly. Why didn't he investigate it thoroughly? He had always been investigating!

If he could find evidence, he wouldn't mind giving Ouyang Changqing and the others a good beating, but if he couldn't find anything ... A small character like Yu Longwu would have to take the blame, and Lin Yi wouldn't be able to get away with it!

However, he was still a little hesitant for a moment, whether he really wanted to stop here.

Or, should he hold on a little longer and see if there was a chance to find new clues?

"Wait! Everyone, please calm down! Yu Longwu's words make sense, so there's no need to rush to conclusions!"

The pale Lin Yi raised his hand, giving the first hall Master a way out before continuing, "First hall Master, I think there's something wrong with the ground of dan Hua Hall, especially this side ... Please ask first hall Master to send someone to dig the ground, maybe we will find something!"

Ouyang Changqing's expression changed drastically when he heard that. He subconsciously jumped out to stop him. ""No! Under the magnificent Dan Hall was a volcano that the alchemy Association had spent a lot of manpower and resources to attract. It could continuously provide fire to nourish the pills in the magnificent Dan Hall! If you refine pills in dan Hua Hall, you'll get twice the result with half the effort!"

"Once the ground is dug up, it's very easy to damage the volcanic mountains. If it causes a riot in the volcanic mountains, who can bear the responsibility? Therefore, first hall Master, you must not do this!"

After Ouyang Changqing finished speaking, Ouyang Changhong, who was standing beside him, quickly nodded and echoed, ""That's right, we can't do this! First hall Master, Sima Yi was clearly up to no good.

Seeing that his evil plan could not succeed, he wanted to use such despicable means to destroy our alchemy Association's magnificent Dan Hall! You must not fall for it!"

"A volcano?"

Lin Yi, on the other hand, was calm and composed as he smiled, "It's just a small mountain range, and it's only a very small branch. Let alone the fact that it doesn't have any explosive power, even if it does, it's a small matter that can be easily suppressed!"

"First hall Master, digging the ground won't have any effect on this volcanic branch! Therefore, I'm willing to use my life as a guarantee that there won't be any accidents!"

Lin Yi had his reasons for saying that.

Lin Yi's pale face wasn't because he was scared anymore.

Instead, he was fully urging his divine sense to explore the internal structure of the entire dan Hua Hall!

Whether it was the wall or the ground, he didn't miss a single corner!

It was just that the building materials of the Dan Hua Hall were all good things that could block out spirit sense, and with the spirit sense blocking formation carved on it, even with Lin Yi's powerful spirit sense, it was very difficult to penetrate!

Especially under the ground, where there were layers of shielding, so Lin Yi's spirit sense consumption was unexpectedly high, which made his face pale.

The first hall master's eyes flashed and he laughed, ""You're being too serious! However, since you dare to say this, you must have some confidence. I'll listen to you this time!"

He didn't say that he didn't need Lin Yi's life as a guarantee, and just let it go like that. It was obvious that he'd make Lin Yi the scapegoat if something happened!

However, Ouyang Changqing's face instantly turned pale!

Ouyang Changhong even subconsciously moved two steps toward the door, as if he was about to run away at any moment.

Unfortunately, in this dan Hua Hall, the Great Hall Master's Men made up the majority, and there were also people guarding the door, so it was not easy to run out!

Ouyang Changhong realized this as well, and could only stand there helplessly as he watched the people start digging according to Lin Yi's instructions.

Although the materials on the ground that could shield the divine sense were precious, in terms of hardness, they could only be said to be average. Soon, a hole was dug.

After digging for about two meters, the ground was suddenly empty, and a dark staircase appeared.

As they walked down the stairs, they found themselves in a secret room that was neither too big nor too small!

In the secret room, there were a few shelves with many different items on them.

And a large portion of it was the withered orchid body strengthening pill with added ingredients!

It was obvious that there was a hidden door here, but Lin Yi didn't use the normal mechanism to open it. He used brute force to dig the passage.

Lin Yi didn't want to waste his energy looking for the mechanism-it wasn't his house he was destroying anyway!

Of course, if it was someone like the sealed mountain, it would be difficult to even find the problem underground, let alone find the mechanism!

It was only because Lin Yi's essence spirit was strong that he was able to find the secret room even after using up so much energy!

"Heh ... Vice head Ouyang, do you have anything else to say? You're not going to say you don't know about this secret chamber, are you? Also, you can't say that the things in this secret chamber are completely unrelated to you, right?"

Walking into the secret room first, Lin Yi turned to Ouyang Changqing with a faint smile and waved his hand,""Or you can say that. Show us your ability to deny and let us all see it!"

"Sima Yi! Don't you go too far! This young master will kill you today!"

Ouyang Changhong couldn't deny the fact that his plan had been exposed, and he attacked Lin Yi in his rage!

Unfortunately, he had no chance to get close to Lin Yi with the hall Master and the language of monsters around. He was subdued by the language of monsters!

Lin Yi sighed. If this idiot had dared to make a move, he would've been able to defend himself.

However, even if Ouyang Changhong didn't die, he would probably be finished. Such a desperate move also indirectly proved that he was related to this matter!

Chapter 8210

And this secret room and the things in it must be related to him!

Ouyang Changqing, who was standing at the side, did not act rashly. He only let out a long sigh, knowing that it was useless to say anything now!

Now that things had come to this, he had completely lost this round!

"Ouyang Changqing! You've really disappointed me! From now on, you're suspended and will be investigated by the martial Alliance branch!"

At this moment, the first hall Master was so angry that he was about to explode. His fingers trembled as he jabbed Ouyang Changqing's forehead. "What are you thinking? As the Vice Hall Master of the martial Alliance's branch and the president of the alchemy Association, he had actually come up with such a vicious plan to harm innocent people! You're the disgrace of martial League!"

"and ouyang changhong! not to mention the heinous crime, he actually wanted to hurt people after his crime was exposed. how preposterous! don't you have the awareness of the alchemy association's vice president? breaking the law while knowing the law was an additional crime! i will punish you today!"

the first hall master finally understood. the last time he was poisoned after consuming a pill might not have been an accident. it might have been ouyang changqing's doing on purpose!

is he trying to poison me and push the executive vice president gu shi to the position so that he can be the executive vice president himself?

Hehe! In your dreams!

However, Ouyang Changqing's status was similar to that of the monster language. He couldn't kill him at once, because it would cause too great of an impact.

Therefore, the first hall Master could only suspend Ouyang Changqing first, but he was unwilling to let them go just like that. Therefore, he planned to get rid of Ouyang Changhong first to collect some interest and cut off Ouyang Changqing's wings at the same time!

It was a good idea, but it was not easy to realize it. As soon as the words left his mouth, Ouyang Changqing began to sneer!

"First hall Master, do you really want to punish our Ouyang family? Don't you want to think about it? You should know that the martial Alliance's branch has many collaborations with our Ouyang clan. First hall Master, do you think it's appropriate to punish Chang Hong?"

"Although we brothers are not the direct descendants of the Ouyang family, we are still important figures in the branch. In the end, only a few insignificant civilians died in the poison pill incident. If we insist that you are the ones who framed us, what can you do to me?"

"We brothers don't know about the secret room here, we don't know what's inside. What can you say?"

Ouyang Changqing quickly asked a series of questions. His expression seemed a little crazy, but his tone was extremely calm. "First hall Master, leave a line in life and we'll meet in the future! You said that the evidence is enough to convict us, but if we don't admit it, can you spare our Ouyang family and kill us?"

The first hall Master was hit hard by Ouyang Changqing's continuous questioning, and his momentum was instantly reduced like a deflated ball. "Forget it, forget it. Ouyang Changhong is also suspended for investigation! The two of you are grounded and will reflect on your mistakes in seclusion. The date is uncertain, so reflect on yourselves first and wait for the investigation results!"

Lin Yi couldn't help but roll his eyes-this first hall Master was beyond saving!

After being frightened by Ouyang Changqing, he immediately backed off. What was the point of being the first hall Master? he directly abdicated his position and gave it to Ouyang Changqing!

However, seeing how the first hall Master was extremely afraid of the Ouyang family, could it be that the Ouyang family was very powerful?

Lin Yi turned to look at the artifact, and it happened to be looking at him as well.

The two looked at each other, and monster language nodded, telling Lin Yi to stop messing with the first hall Master.

Lin Yi nodded-he'd achieved his goal for now, and that was to clear his name for the pill incident!

It was obvious that the language of the living beings was also afraid of the Ouyang family!

As expected, this family was not ordinary!

It was as if Ouyang Changqing and the others were born with a death-exemption medallion. No wonder they had the courage to do whatever they wanted!

"Take the two of them away and watch them strictly! Without my orders, they are not allowed to leave their residence!"

The first hall Master gave instructions to his confidants and asked them to escort Ouyang Changqing and his brother out of this place.

Ouyang Changqing and Ouyang Changhong looked around, their eyes lingering on Lin Yi for a while.

Before he left, Ouyang Changqing coldly said, ""Sima Yi, don't be too pleased with yourself. We have yet to determine the victor between us! Just you wait!"

But Lin Yi only smiled faintly, "You are no longer qualified to exchange blows with me! It's more like you bring out your Ouyang family!"

"Hehehe, you're truly a newborn calf that's not afraid of the Tiger. You're so arrogant and ignorant! That's right, the day I bring my name out of the family will be the day you die! Just wait for your death!"

"Hahahaha!" Ouyang Changqing laughed out loud and left with Ouyang Changhong, as if he didn't care about being suspended and locked up.

On the other hand, beast language sighed and tugged on Lin Yi's sleeve. ""Brother Sima, don't be careless. You can't underestimate the Ouyang clan! These old aristocratic families have extremely deep foundations. Anyone who looks down on them will not have a good ending!"

"Thank you for your reminder, brother Hua. I understand!"

Lin Yi agreed, but he was already thinking about how to deal with the Ouyang family!

As the saying goes, 'a man without foresight will have immediate worries'. Ouyang Changqing and Ouyang Changhong had suffered a loss, and the Ouyang family's authority in the martial Alliance branch had dropped sharply. They would definitely not let this matter rest!

Instead of countering each and every move, it was better to prepare for a rainy day and think of a way to deal with or even counterattack!

Lin Yi was probably the only one who'd think that way-anyone else would've been scared witless by the name of the Ouyang family.

However, Lin Yi's target was CEng Xin, and the Ouyang family was only a stumbling block on his way forward.

If he couldn't even take care of the Ouyang family, how could he find Wang Xinyan?

How was he going to find Zhang Liju?

Although elder Qin said that master Zhang Liju didn't stay long on the sub-Island, it could also be because he didn't stay long in Hongshang Commandery!

Only when they walked out did they know how vast the sub-Island was.

In a corner, one would always be a frog at the bottom of a well.

Lin Yi was like that before, thinking that the sub Island was just a subsidiary of Sky Class Island.

Now, it seemed that the sub Island was just a name.

Wu yucao and even Prince long bang didn't know about the martial Alliance before, or they would've warned Lin Yi about it when he destroyed the Shanlian Empire.

So it wasn't that Zhang Liju had left, but that he'd gone to a higher level.

Lin Yi didn't think much of it when the refinement Masters mentioned the pill God.

After that, he was suspicious-could this pill God be related to Zhang Liju?

No matter what, Lin Yi had to keep moving forward, so he wasn't afraid of the Ouyang family at all.

In any case, it was just a wave of divine sense attacks and they would all die.

This old family of alchemists had been mysteriously wiped out.

"Artifact language, Sima Yi, you've been wronged this time. I was also deceived by Ouyang Changqing and Ouyang Changhong. I didn't expect the inside story to be so complicated!"

The first hall Master turned around, and his expression had already changed." "Fortunately, the truth is out now! "I hereby announce that you are immediately reinstated, and will return to the martial Alliance branch tomorrow!"

This result was not surprising. Ouyang Changqing and Ouyang Changhong were suspended, but the alchemy Association in the martial union branch still needed to continue operating.
