

Bodyguard 8211

Chapter 8211

The first hall Master didn't have a suitable candidate on hand, so he had to ask Lin Yi to come back as soon as possible.

Since the poison pill incident was Ouyang Changqing's plan, then Lin Yi's skill ... The first hall Master was starting to regret it-he was thinking about those life-saving high-class pills again!

"First hall Master, let's forget about my restoration. I'd like to take a break for a while. We'll talk about this in the future!"

Lin Yi rejected with a wave of his hand-he'd been disappointed in the first hall Master for a while now."As long as the truth is made public, I can clear my name and restore my reputation!"

"This ... Announce it!"

Hearing this, the first hall Master suddenly showed a difficult expression and said hesitantly,""Sima Yi, I know that you've been wronged, but this matter ... The truth is really not suitable to be announced!"

"If we speak the truth, the reputation of the martial Alliance's branch will be completely destroyed. After all, we could still say that it was a mistake previously. If we say that it was intentional now, it will definitely cause a lot of public resentment!"

"Of course, an explanation is necessary. I only hope that the truth of this matter can be concealed and a reasonable explanation can be given to the people. It will be enough to clear your name. What do you think?"

The first hall Master said that, but Lin Yi knew that this guy probably didn't want to offend the Ouyang family!

Once the truth was made public, the Ouyang brothers' reputation would be tarnished, and their reputation would be destroyed, but the Ouyang family behind them would also suffer.

At that time, not only would the people come to cause trouble, but the Ouyang family would also not let the first hall Master off. That would be real trouble!

"Then, first hall Master, what kind of excuse are you going to use to clear my name?"

A trace of disdain flashed across his lips as he looked at the first hall Master expressionlessly, "If we don't reveal the truth to the public, how can we convince the world?"

"President Sima, you can rest assured about this. This Lord has already thought about it!"

The first hall Master hurriedly responded with a smile and directly called out to President Sima, ""As the Great Hall Master of the martial Alliance branch, I would like to make a statement. I would like to clarify that there was no problem with the pills sold by the second volume of alchemy. The incident of the poisonous pill was not the fault of the second volume of alchemy!"

"It's mainly because there was a problem with the health Pills in the pill refining section, which led to the poison pill incident! Of course, the pill itself isn't poisonous, so it has nothing to do with vice Hall Master Ouyang and the others. The accident only happened because of the conflicting medicinal properties. "

"As for the reason ... We can say that the supplier of this batch of medicinal materials mixed some similar medicinal materials in, which caused the medicinal properties of the health pill to conflict ... Do you think that's a good idea?"

With that, the first hall Master looked at Lin Yi with a questioning gaze.

He'd put himself at a very low position-he needed Lin Yi's permission to keep the truth a secret.

If Lin Yi didn't want to cooperate, the first hall Master had no choice but to kill him!

Once the truth was made public, the reputation of the martial Alliance branch would collapse, and the Ouyang family would come looking for trouble ...

Thinking of this consequence, the first hall Master really had the thought of killing him to silence him!

Unfortunately, he was not confident that he could do it with the artifact language.

If they failed to silence him, it would be an even more destructive disaster!

Under the first hall master's expectant gaze, Lin Yi thought for a while before nodding, "Since first hall Master has said so, then let's do it! As long as we can restore our reputation, I don't want to be entangled anymore!"

The result wasn't perfect for Lin Yi, but it wasn't unacceptable.

The first hall Master had already made it clear that he would not punish brother Ouyang severely, so this was already the limit.

Announcing the truth might cause the Ouyang brothers to lose their reputation, but that was all.

Lin Yi felt that he'd be able to deal with them better in the future if he kept them by his side.

In any case, he didn't intend to completely fall out with the martial Alliance's branch in the short term, so he could only accept this outcome!

"Good! That's great! Sima Yi, you're really a righteous person! He was reasonable and knew when to advance and retreat! Not bad, not bad!"

The first hall Master was overjoyed-Lin Yi's promise had lifted a huge weight off his mind. If things got out of hand, it would be bad for both him and the martial Alliance branch. It would be great if the big issue could be resolved!

"Then this matter is settled! I'll make the arrangements immediately. After dawn, I'll make a statement to clear your names! Right, about returning to the martial Union's branch ... President Sima, do you want to reconsider?"

The first hall Master wanted to make it up to Lin Yi, or maybe he wanted to get on Lin Yi's good side, so he brought up the matter again."As long as you're willing to come back, the alchemy Association and the combat Association can be rebuilt. I can promise you that you'll be in charge of all of them and will increase the allocation of resources!"

"When there's an opportunity in the future, the second division and the first Division will merge, and you will be the only President. What do you think?"

At the end, the first hall Master remembered that Lin Yi still had a lot of generals and alchemists with him-they were all elites from the martial union branch!

It was a pity to be stranded outside, so he slowly became more urgent."Vice Hall Master Hua, you should also persuade Sima Yi to bring his men back. Let's forget about what happened before and not continue to haggle over it!"

"Hmm ... Okay, I'll try."

Hua Yu smiled bitterly to herself. What were they doing earlier? Only now did he know that he had to redeem himself!

If only he had been a little more lenient back then and had not been so ruthless, he would not have been so passive now!

However, Lin Yi didn't wait for the transformation language to say anything. He smiled and shook his head, "Thank you for your kindness, Hall Master. Unfortunately, I'm used to a carefree life and don't want to be restrained anymore!"

"I didn't want to join the martial Alliance's branch at first, and it was just a title in name. I don't know what happened, but I've become the actual President of the second division! This was not my intention."

"Now that I'm back on the right track, don't mention returning to the martial Alliance branch anymore. This is good!"

After the first hall Master heard this, the corner of his mouth twitched. He thought, it's fine if you don't want to come back, but can you return those battle generals, alchemists, and doctors?

But he really couldn't say it-he didn't want to piss Lin Yi off and make him announce the truth or something, that'd be so troublesome.

"Haha ... That's such a pity. Although everyone has their own ambitions, it's my regret to miss out on a talent like you ... Speaking of which, you've brought so many people with you. There must be a place to stay, right?"

The first hall Master laughed dryly and gave the monster language a look, meaning that he wanted the monster language to help persuade them to at least get those people back.

The topic had already started, so he just had to continue!

Chapter 8212

However, the monster language just looked up at the ceiling and didn't want to say anything!

The first hall Master gritted his teeth in hatred, but he could do nothing to the other party!

"I'm planning to open my own Medical Center. There will be an alchemy room inside, and the others will be my guards. In essence, it's the same as before. I still need to purchase many medicinal ingredients from the martial Alliance branch. Hall Master, please make things convenient for me when the time comes!"

Lin Yi did have that plan in mind-there had to be a self-sufficient business for so many people.

Now, the medical Hall in the martial Alliance branch was empty, and the alchemy Association was in name only because the Ouyang brothers had grounded them.

Lin Yi could use this time to set up his own business and take over The Alchemist Association's market share.

He already had a Foundation, and now that the rumors had been refuted, it would probably not be a problem to take over the market again.

The corner of first hall master's mouth began to Twitch again. This brat brought this Lord's people, robbed this Lord's financial resources, and even wanted this Lord to supply raw materials. This was simply bullying people too far!

"Hahaha, it's a small matter. No problem. We'll strengthen our cooperation in the future!"

He wanted to bite Lin Yi to death in his heart, but he had to smile and agree on the surface. The first hall Master was very bitter inside!

However, this was also good. At least he had found the life-saving medicinal pill.

The head Hall Master felt somewhat comforted at the thought of this.

After some small talk, Lin Yi left and returned to the house to inform everyone that the matter had been resolved.

The crowd naturally cheered.

The gloomy mood that had been suppressed for a long time was finally relaxed, and these people immediately spontaneously began to drink and celebrate.

The next day, the martial Alliance's branch released an announcement, as expected.

The first hall master's personal signature overturned the case, washing away the injustice Lin Yi and the others had suffered and restoring their reputation.

Other than that, the first hall Master also gave Lin Yi the area where the medical center used to be as a gift-Lin Yi could start his own Medical Center there.

The buildings that had been renovated to serve as the combat Department and the alchemy Department were also useful.

Lin Yi didn't reject the favor, knowing that it was compensation from the head.

Anyway, there were benefits, so he would take them first. If he didn't take advantage of them, he would be a bastard. It would save him the time to find a place.

The generals, alchemists, and doctors who followed Lin Yi were happy as well. They were familiar with this place, and everything was easy for them.

As a result, the new Medical Hall was successfully opened, and it was quite popular!

The effects of the poison pill incident quickly faded, and the number of people who came to buy pills was no less than before!

After all, on the sub-Island, martial league's credibility was still very strong.

From everyone's point of view, if it wasn't for the fact that there were twists and turns in the story, martial Alliance wouldn't have to bring up the past and help Lin Yi and the others.

After settling the medical Hall, Lin Yi called Qin mengzhen and the other two disciples over. "The matters from before have come to an end. It's time for you all to have a new start. I don't intend to return to the Alliance establishment Academy. I called you all here today to ask if you all want to enroll in the Fuyao pill refining Academy?"

Under normal circumstances, it wasn't very realistic to change schools halfway through, but Lin Yi's status in the school wasn't ordinary. The Dean of the School was trying to get Lin Yi to join them, so he wouldn't mind such a small thing.

"I'll follow master wherever he goes. There's no need to ask!"

As the eldest Senior Sister, Qin mengzhen took the lead to express her opinion. "It doesn't matter if it's the Fuyao apothecary school or any other school. As long as master is going, I'll go too!"

With her status, she could choose any school she wanted without Lin Yi's help!

MA pijing and tu Gesha also expressed that as long as Lin Yi went to the Fuyao Alchemy School, they would follow!

Although they didn't have any talent for pill refining, it didn't matter. After all, not all of the students in the fu Yao apothecary school were apothecaries!

"Alright, since you all have no objections, then you can head to the fu Yao apothecary school to report! I've already spoken to them! There will naturally be people to receive you when you go over!"

Lin Yi nodded, pleased, his eyes sweeping over the three. "I'll also report to school later. Before that, I'll go to the Alliance Academy to say hello to Luo caidie. I'll meet up with you guys later."

"Master, we'll go with you! It's a good opportunity to see the faces of those people from the Alliance Academy!"

"It is! Now that the poison pill incident has been proven to have nothing to do with us, let's see if they still have the face to appear before us!"

.....

The three of them were extremely dissatisfied with the Alliance Academy's previous actions, so it was normal for them to want to take the opportunity to go back and seek revenge.

But Lin Yi didn't want to do something so childish. He glared at them and scolded, "I told you to report, so just obediently go over. Why are you talking so much nonsense? Those who don't want to report, don't follow me anymore!"

Qin mengzhen lowered her head and stuck out her tongue. This was the rhythm of being expelled from the sect!

I can't afford to offend you!

Master and Luo caidie must have had something going on. Was this a private meeting? That's why you don't want to bring the three of us, afraid that it'll affect the atmosphere?

You still want to cover it up, huh, man!

What's so good about that old woman?

lin yi didn't know what qin mengzhen was thinking, or he'd knock her head full of bruises!

after sending the three to the fuyao apothecary school, lin yi went to the alliance school.

other than telling caidie where he was going, lin yi also wanted to ask her if she was willing to transfer to the fuyao alchemy school.

it wasn't that lin yi had any thoughts about caidie just because she was like tianjie, but it was because they were on good terms before.

after the poison pill incident, lu caidie was ostracized in the alliance institute. this was the general trend, and it wouldn't be different just because she was a beautiful woman.

now that the truth was out ... even if it wasn't out in the open, it was still out in the open. would the situation improve?

but lin yi knew that caidie was very disappointed in the alliance academy.

originally, lin yi chose to come to the alliance school because he had an acquaintance like lu caidie. if she wanted to transfer to the fuyao alchemy school, lin yi didn't mind bringing her along for a change of environment.

however, after entering the school, lin yi saw the old dean walking towards him from afar before he could find caidie.

The old man seemed to have noticed Lin Yi as well, too ashamed to face him as he lowered his head and walked away.

Lin Yi shook his head, understanding the Dean's awkwardness.

However, if this old-fashioned man was willing to come over to say hello and apologize to him, it was not as if he could not let go of the past.

Even though he couldn't return to the Alliance Academy, it would still improve their relationship.

Unfortunately, the old man didn't have that thought in mind, and Lin Yi naturally wouldn't try to ease the tension.

Chapter 8213

After a while, Wang Ba, Gao Zi, and GUI Shen came over, not avoiding Lin Yi at all.

Wang Ba Gaozi even quickened her pace.

"Oh, isn't this Deputy Dean Sima? you're back again ..."

Wang Ba wanted to sneer at her, but before she could finish, GUI sun caught up and pulled her behind her, stopping her from continuing.

She didn't care about the shock on her face, she smiled and cupped her fists at Lin Yi, bowing slightly to show her respect. "Instructor Sima, we meet again! We've heard the martial Alliance's statement. As expected, instructor Sima is innocent! Now that the truth has been revealed, I should congratulate you!"

"You're too polite! The clear will be clear, the turbid will be turbid, and justice is in the hearts of the people!"

Lin Yi didn't hit a smiling person, and since GUI sun was being polite, he smiled back, "Instructor GUI is so thoughtful!"

"I also have to congratulate teacher Sima. I heard that you're going to take on an important position in the fu Yao Alchemy School, right? This was truly worthy of celebration! There might have been some misunderstandings between us before, but that was because of the different views between colleagues. We don't have any malicious intentions. I hope that instructor Sima can be magnanimous and not hold it against us!"

GUI Shan's attitude was very low, and one could even say that she was very respectful. "No matter what, we're colleagues. There might have been some friction before, so I'd like to apologize to instructor Sima here. I hope you can understand!"

"Teacher GUI, you're being too serious. Just like you said, it's just a small conflict. There's no need to apologize, and there's no understanding!"

Lin Yi didn't really care about these people!

They were all nobodies. If they continued to seek death, it was possible that they would be killed in passing. Since they had apologized sincerely, it was not impossible to let it go.

Wang Ba Gaozi was even more shocked, not understanding why GUI Shan would be so submissive.

However, there was a tacit understanding between the two of them. In addition, GUI sun was secretly stopping her from going forward, so she did not continue to say anything.

"Instructor Sima is indeed magnanimous. We can rest assured then! Since we've already made things clear, even if we can't be considered friends in the future, we'll at least be acquaintances. If there's anything we can help with, please feel free to ask, mentor Sima. "

GUI sun immediately pulled up the relationship, ""Of course, most of the time, we will need instructor Sima's help. Please take care of us when the time comes!"

"Well said! We're all acquaintances, so if it's within our abilities, we should help each other!"

Lin Yi smiled and didn't mind. After some small talk, he said that he was going to see caidie Luo and left.

After Lin Yi left, Wang Ba and Gao Zi pushed GUI sun angrily. "What do you mean by that? Why did he have to be so submissive to Sima Yi? It's simply embarrassing!"

"How is it embarrassing? Before Sima Yi left the Alliance Academy, he was our Vice-Principal!"

GUI Shan smiled and shook her head before explaining in a low voice, "Now that he's going to the fu Yao apothecary school, I'm not sure about his exact position. However, he was originally an honorary Dean, so if he were to take up an actual position, he would at least be a Vice Dean, right? Is there a problem with me being polite to such a person?"

"Also, regarding the poison pill incident this time, if it wasn't for Sima Yi settling it himself, do you think the martial union branch's first hall Master would take the initiative to make a statement? That's impossible!"

"He was able to resolve such a huge crisis without a trace, establish his own sect, and take away so many elites from the martial Alliance branch. Not only did the martial Alliance branch not pursue the matter, but they even gave him a base. Do you understand the inside story?"

"Just this alone is enough to prove that Sima Yi is not an ordinary person. Moreover, you and I both know that he is an array Grandmaster. There is no news of this outside, so it is obvious that it has not been spread. Perhaps he has treated it as a trump card?"

"Why should we offend such a powerful genius? Now that he's left the Alliance Academy, there's no longer any conflict between us. If we don't make use of this opportunity to ease our relationship, what good will it do you if you continue to offend him?"

Wang Ba Gaozi was stunned by his words. It did make sense!

Offending Sima Yi would only bring him more harm than good!

Warming up their relationship might bring some benefits in the future. Even if there were no benefits, at least it wouldn't be harmful!

"You're right! I didn't consider it properly this time. I'll listen to you!"

Wang Ba was silent for a while, but she admitted her mistake.

"Miss you?" after Lin Yi separated from the two, he quickly found Caidie Luo and greeted her, "long time no see, did you miss her?"

"I'm going to kick you to death!"

Caidie Luo had just finished her class and was walking when Lin Yi jumped out of nowhere!

She subconsciously pouted and then said in surprise, "I heard today that the truth of the poison pill incident has been revealed, and that your reputation has been restored. I was worried!"

"Haha, nothing will happen to him. You don't have to worry at all!"

Lin Yi smiled and cut to the chase, "By the way, I'm going to the Fuyao apothecary school. You haven't developed much in the Alliance Academy, so why don't you come with me to the Fuyao apothecary school?"

"Why do you suddenly want me to follow you to the fu Yao apothecary school?"

Caidie Luo froze for a second before glaring at Lin Yi, "I'm actually fine here! By the way, have you taken a fancy to me?"

"Uh, no! I just felt that because of me, it would affect your chances at the Alliance Academy! So, let's talk about the matter of the Fuyao apothecary school. Are you willing to resign and go over to the Fuyao apothecary school? As you know, not all the teachers there are alchemists, there are also teachers who teach martial arts. "

Lin Yi really wanted to take caidie with him and continued to persuade her, "With your strength and experience, it's easy for you to be put in an important position. There's no need for you to stay at the Alliance Academy."

"Un ... The Fuyao apothecary school is a good place, but I think it's best if I don't go. You should know that I still have many students under me, and I can't just give up on them like this!"

To be honest, Luo caidie was a little moved, but after thinking about it, she still rejected Lin Yi's suggestion.

It felt good to be with Lin Yi, but it couldn't last long.

This was because, in the end, this did not belong to her. Her life did not belong to her.

Lin Yi felt a little regretful, but he didn't force the issue.

Luo caidie had quite a number of students under her, and it wasn't impossible for all of them to transfer to the Fuyao pill refining school, but they might not be willing to leave the Alliance Academy.

Since caidie had made her decision, Lin Yi could only follow her, "Alright, if you wish to stay, then so be it. In the future, if you wish to change your environment, you can head to the Fuyao apothecary school at any time!"

"Alright!"

Luo caidie squinted her eyes and smiled. Her big eyes curved into two crescent moons, ""You should work harder and strive to become the principal of the Fuyao apothecary school as soon as possible. When the time comes for me to seek refuge with you, you should at least give me the position of Vice Principal or something!"

Chapter 8214

"The task is quite heavy! I can only say that I'll try my best to help you reserve the vice-director position!"

Lin Yi chatted and laughed for a bit before walking around the Alliance College with caidie.

Thinking about how he hadn't been in the Alliance Academy for long and had spent most of his time traveling, he didn't expect that he would have to transfer to the Fuyao pill refining Academy.

Looking at the familiar yet strange scenery, Lin Yi couldn't help but sigh.

After strolling around for a while, Lin Yi bid farewell to Caidie Luo and headed to the Fuyao Alchemy School alone.

Lin Yi stood at the entrance of the school, looking at the huge signboard and the beautiful building inside. He was reminded of the time when he first arrived at the Alliance College.

It seemed that every Academy was similar, Grand and beautiful.

But Lin Yi wasn't as shocked as before.

"Ah! Are you new here? You're standing at the entrance and looking around, Do you not know how to get there?"

A few young people came up behind Lin Yi, all of them wearing the uniform of the Fuyao apothecary school. The leader stopped and looked at Lin Yi, "Newcomer, don't you have a good talent for alchemy? Otherwise, he wouldn't have only entered the Academy at this time!"

The admission rate of the Fuyao apothecary school was slightly different from the other schools. Every year, there was a fixed number of new students entering the semester, but it was not absolute.

Any young man with outstanding talent in alchemy could be recruited at any time.

Lin Yi looked very young, no different from the students of the Fuyao apothecary school. That was why he was treated as a new student.

"I'm new here, and I really don't know how to get there!"

Lin Yi didn't say that he was a new mentor, not a new student. It was a beautiful misunderstanding, and he didn't have to explain it clearly.

"It's fine, just follow us! I guarantee you won't get lost! Does this Junior Brother feel a sense of belonging to our Fuyao apothecary school? I'm telling you, I have a lot of connections here. If you need anything in the future, feel free to ask me for help!"

This student from the Fuyao apothecary school seemed to be very forthright, but the boastful tone in his voice was too obvious. If one really wanted to count on him to help out, they would most likely be disappointed!

"Thank you for your trouble! Thank you! I'm not actually a student ..."

"Not a student? So you're a new audit student!"

At the side, someone immediately showed a disdainful expression.

From time to time, there would be audit students in the Fuyao apothecary school. These people had some Foundation in alchemy, but their talent and aptitude were average. They had no chance of becoming official students, so they would just sit in and learn.

In the eyes of the official students of the fu Yao apothecary school, audit students had no status at all.

So when Lin Yi said that he wasn't a student, they instinctively thought that he was an audit student, and they didn't really like to talk to him.

Lin Yi blinked, shaking his head and chuckling. If they didn't mind, then there was no need to finish what they wanted to say.

The leader patted Lin Yi's shoulder with a cocky attitude, "It's fine even if you're an audit student. You'll have the chance to become an official student! This is nothing to me. You're just lucky!"

"In the future, if you have any problems, you can look for me for help. Even if you want to become an official student, it's not impossible. I'm not afraid to tell you that my uncle is the manager of the teaching and research Department of the Fuyao apothecary school, and he is in charge of this area!"

Lin Yi only smiled-the guy was obviously just showing off.

If she really wanted to ask him for help, she didn't know how he would reject her!

If he were to ask his uncle for help when he met someone he was not related to, wouldn't his uncle be busy to death?

"What are you laughing at? You don't believe me?"

The student leader wasn't happy at Lin Yi's silent smile.

Why was this audit student so insensible? I already said that I can help you. Let's not talk about whether I can really help you or not. You should at least come up and flatter me a little to make everyone happy, right?

What's the meaning of just smiling like that? Who are you looking down on?

"I didn't say I didn't believe you! I'm only smiling because I think my future is bright!"

Lin Yi's smile widened as he teased the student, who took it seriously.

"That's more like it. If you follow me in the future, you'll benefit! Remember that my name is Diao mang Tian. If you have any problems, just say my name and it'll definitely work!"

Diao mang Tian smiled in satisfaction and patted Lin Yi's shoulder.

He probably thought that he'd taken in this follower already, so he turned around and talked to the other students, ignoring Lin Yi.

Lin Yi smiled and shook his head. He didn't bother with them and just followed them slowly, taking the chance to look around the school.

The few students were currently discussing a problem regarding alchemy. Diao mang Tian joined in and said in an overbearing tone, ""It's such a simple matter, what's there to discuss? listen to me ..."

Lin Yi didn't really mind, and just followed behind to take a look at the standards of the students.

In the end, Diao mang Tian was truly unworthy of his awesome name, and the theoretical errors he spoke of were too many.

It wasn't that he couldn't refine pills with his theory, but doing so was basically the same as using 10% of his strength to do one part of the work.

With the right method, one could do one part of the work with 10% of their strength. If the skill was high enough, one could even do two parts with 10% of their strength.

The difference between them was huge!

"Actually, in this place, I think it's better to lower the temperature of the alchemy fire and keep it stable. If we keep increasing the temperature of the alchemy fire with explosive force, it won't do us any good. Instead, it'll be a waste of effort ..."

Lin Yi thought that these students were at least serious about refining since they could talk about it while walking, so he decided to give them some advice, hoping that they'd understand something.

In the end, Diao mang Tian suddenly exploded, ""What nonsense are you talking about? You're just an audit student, why are you interrupting if you don't know anything? And he even shamelessly boasted about how it was a waste of effort! Don't you know who was the one who came up with these theories? It's my uncle! How could it be wrong! If you don't understand, just ask. Don't pretend to understand!"

His uncle was the manager that he had mentioned before, and he could be considered as his backer in the fu Yao apothecary school. Naturally, he would have to follow his uncle's lead.

He was his absolute idol! There was no room for Lin Yi to say anything!

"If you want to believe it, then believe it. It doesn't matter if you don't want to believe it. I'm not targeting anyone!"

Lin Yi shrugged.

This kind of thing wasn't worth wasting time arguing about.

He was just giving them pointers on a whim and giving them some benefits.

Chapter 8215

Since he didn't want to believe it, then he would just drop it.

"Hehe, you're just an audit student, and you're so arrogant! You speak as if you're the most awesome, and it doesn't matter if you believe it or not ... Why? You don't want to admit your mistake?"

Diao mang Tian was extremely displeased.

However, this was an academic discussion, so he couldn't really hit her.

After all, they were in the Academy, so they still had to be careful.

If this was outside, he would've punched Lin Yi already!

Of course, it was also fortunate that he didn't really make a move. Otherwise, he would be the one in trouble!

"That's right, if you're so awesome, why don't you go up to the sky and stand side by side with the sun? What kind of audit student are you?"

Diao mang Tian's companion also sneered at him.

"If I want to, I can too."

Lin Yi nodded seriously.

If his primordial spirit left his body, wouldn't he be able to fly as high as he wanted?

however, in the eyes of others, this sentence was just posturing!

moreover, he was truly acting tough!

"aiya, why are you so good at acting tough?"

"that's right, this person is simply the head of the posturing!"

"you don't need to listen in to learn alchemy. you can just go out and show off!"

.....

The crowd was in a heated discussion.

Lin Yi smiled and shook his head helplessly.

These people knew quite a lot, and they even knew that he had a nickname, the pretentious leader!

"You guys can think however you like!"

Lin Yi couldn't be bothered with a bunch of students.

After all, he was an honorary Dean. How could he be calculative with a group of students?

But Lin Yi's attitude completely infuriated Diao Mantian!

He even began to consider putting aside the academic discussion and directly teaching this arrogant student a lesson.

However, after thinking about it again and again, and considering the influence it would have on the Academy, he finally gritted his teeth and said, "Alright! Today, I'll open your eyes and let you see what a true alchemy Grandmaster is like!"

"To prove your stupidity, I'll take you to see my uncle! I'll let my uncle teach you a lesson. Do you dare to come with me to see my uncle?"

"If it's on the way, there's no harm in meeting!"

Lin Yi said as if he didn't care.

However, the words that came out of his mouth had once again infuriated Diao mang Tian. He was about to explode!

On the way ... I want to send you to heaven, do you want to go?

How did he encounter such a hothead!

Those who didn't know better could really be intimidated by the aura of a pretentious leader like him!

Diao Mantian thought that Lin Yi should be the one called Diao Mantian.

"It's on the way, so just follow me!"

Diao mang Tian gritted his teeth and turned to leave.

You're just an audit student. Even if it's not on the way, I have to show you the way. What the hell do you know!

The other students laughed and walked over. They didn't care much and were just watching the show ...
Watching the show!

A while later, Lin Yi followed Diao Wangtian's group to the uncle.

It was a thin middle-aged man with a goatee on his chin and no beard on his upper lip. He looked like a scholar.

"Uncle, this kid said some crooked things and refuted the alchemy theory you taught me before ..."

Diao mang Tian saw his uncle and immediately stepped forward to greet him.

He couldn't wait to tell his uncle what Lin Yi said.

His uncle's name was Diao sanzuo. After listening to the whole story, he stroked his beard and pondered for a while.

"What you said makes sense, but it's a pity that it's all twisted logic. It's impossible to achieve this in actual practice! I heard from Xiaotian that you're an audit student? It's not easy for an audit student to say these words. "

Diao sanzuo was lecturing Lin Yi as a high and mighty teacher. "It's a good thing that you're willing to think, but you have to pay attention to the scale and propriety. You're going to go astray by talking nonsense like this, pretending to know something. Don't even think about running before you learn how to walk!"

"Learn from the experiences of your predecessors and lay a good foundation. Only then can you innovate and seek change. Otherwise, everything is just empty talk and meaningless. Just like the theories you've mentioned before, they're all empty castles in the air and have no foundation!"

Lin Yi didn't know what to say-did this manager really think he was a Grandmaster?

He actually lectured me like an elder. I wonder what kind of expression he'll have when he finds out my identity?

"Did you hear that? Learn well! Don't think of yourself as an alchemy expert just because you heard some superficial knowledge, and even dare to refute the theories of a true expert!"

Diao mang Tian snorted coldly at Lin Yi, pleased that he'd gotten his revenge.

Lin Yi didn't have time to say anything when a voice suddenly resounded through the entire school!

It was Hua Yao's voice!

Hua Yao gave the order to gather all the teachers and students in the hall of rites.

With that, Diao sanzuo and Diao mang Tian ignored Lin Yi and rushed to the hall after saying that they would teach him a lesson later.

The hall of propriety of the fu Yao apothecary school was only used when something major happened.

For example, school opening ceremonies, graduation ceremonies, award ceremonies, festivals, and so on.

There didn't seem to be anything going on today, but why did he suddenly gather all the teachers and students to the hall of rites?

Lin Yi smiled as he watched the group of people leave. Hua Yao probably gathered everyone here for him, right?

Qin mengzhen and the other two had arrived at the school ahead of time, so Hua Yao knew that Lin Yi would be there immediately without Lin Yi's notice.

So, was he preparing to give them a Grand welcome?

However, this didn't match Lin Yi's low profile personality.

So before going to the hall, Lin Yi decided to have a chat with Hua Yao!

He spread out his divine sense and easily covered the entire school. Hua Yao just happened to be out of the shielded buildings, which saved Lin Yi a lot of trouble.

After confirming the location, Lin Yi quickly went to the door and saw Hua Yao trimming the flowers in a small garden.

"Principal Hua, you're in such a good mood!"

"You've gathered all the teachers and students of the school in the hall," Lin Yi greeted with a smile. "Don't you think it's a little inappropriate for you to be playing with the flowers here?"

"Hahaha, the main character isn't here, so it's useless for me to go over! Now that the main character has arrived, let's go together!"

Hua Yao threw away the scissors and washed his hands in a basin of clear water. "That's not right. Almost everyone's here. You should go first. I need to pack up a little and settle some procedures. I'll be there soon!"

"You're not coming with me? What am I supposed to do alone?"

Lin Yi blinked.

This Fuyao apothecary school is unfamiliar with this place, so isn't it appropriate for you, the principal, to accompany them?

"What are you doing? Of course, he was going to give a speech! Why else would I have gathered all the teachers and students here?"

Hua Yao chuckled, "what about you? no matter what, you're still the honorary Dean of our Fuyao apothecary school. Your status is incomparably noble, and you're even more respected than those Vice Deans. Today is your first time here, so you should at least say a few words to everyone. Just treat it as your induction speech!"

Lin Yi curled his lips.

What induction speech? he clearly wanted him to give a public lecture to everyone first and shut their mouths!

Chapter 8216

After all, Lin Yi was indeed a little young, and Diao Mantian treated him as a guest student.

If he didn't show some strength, who would be convinced?

What Hua Yao wanted was for Lin Yi to bring out something real while everyone was here today, to calm down the people who were unhappy.

As for whether he could do it or not, Hua Yao was not worried at all!

Lin Yi knew what Hua Yao was trying to do, and he didn't need the man to say it.

"I understand. Let's just say a few words. Tell me how long it will take to say these two words. Or how long do you want me to tell you before you reach the hall of rites?"

"Hehe, I'll come back after I'm done with my business. It's about the time of one class!"

Hua Yao's face was full of wrinkles from smiling so much that he could not see his eyes!

This was basically asking Lin Yi to teach a class!

"Alright, I know! Then I'll go to the hall of rites first. Principal, you should hurry over as well!"

Lin Yi waved his hand and left without another word.

Hua Yao pretended to send him off, then went back to pick up the flower shears and trim the leaves. When he was done with this and changed his clothes, it would be almost time.

Lin Yi's divine sense covered the entire school, and he didn't need to know where the hall of propriety was. He just needed to see where there were more people, so there was no way he would go wrong!

By the time Lin Yi arrived at the hall, almost all of the students and teachers of the school were already there. Since no one was in charge, they were all gathered together, talking amongst themselves.

The entire Hall was filled with a low buzzing sound.

Fortunately, everyone paid more attention to their volume. If they were to speak in a loud voice, the roof of the hall of rites would probably be lifted!

Lin Yi didn't attract much attention when he walked in.

The people who saw it didn't take it to heart. They thought that it was normal for a new student to not recognize them.

Qin mengzhen and the other two were also in the hall, but they were at the front of the line.

He didn't know if it was for Lin Yi's sake or for Qin mengzhen herself, but that area was only reserved for the mentors.

Qin mengzhen and the other two didn't notice Lin Yi coming in from the main door, but Diao mang Tian and Diao sanzuo did.

They had just arrived not long ago, and they were chatting with people at the gate.

"Hey, what are you doing here? Only official students can enter the hall of propriety. If you audit students want to hear something, you can only stay far away outside the hall. If you're lucky, you might be able to hear a few sounds. "

Diao mang Tian's attitude towards Lin Yi had become extremely bad, and his high and mighty attitude was on full display.

However, he suddenly changed the topic, "I was supposed to kick you out, but my uncle is here today, so I can make an exception for you! As long as you admit that you were spouting nonsense, apologize properly, and kowtow three times, I will forgive you!"

Lin Yi's mouth twitched.

Should he treat this guy with the same magnanimity later?

"I don't think I'm wrong. You can't understand it because your own standards are too low! It's just an academic discussion, there's no need to go online, right?"

He'd been a guide before, after all, so Lin Yi decided to give him a chance.

Unfortunately, the guy didn't understand at all. Instead, he was triggered by Lin Yi's words!

"What do you mean by our level is low? You're just an audit student. Who gave you the courage to say such big words? I'll have to make you convinced today!"

Diao mang Tian almost cursed out loud, but he managed to react in time to the fact that they were in the hall of rites, and that there were people from the Academy around them. He managed to suppress his voice, "You're in luck, kid. An impressive honorary Dean will be coming to our Academy today. He'll be giving a public lecture here in a while. When he's done, we'll ask him some questions and see what the knowledgeable Grandmaster says!"

Lin Yi was speechless-he really wanted to say that he was the "F * cking awesome" you were talking about!

"When the time comes, you'll know who's right and who's wrong! And you'll know how wrong you were as an audit student!"

Diao mang Tian was still going on and on, and Lin Yi couldn't help but roll his eyes."No need to ask, you're wrong and I'm right! And you're so wrong!"

Diao sanzuo seemed to feel that arguing with Lin Yi was beneath him, and so he only laughed coldly without saying anything. He pinched his beard and acted reserved, letting Diao Mantian talk to Lin Yi.

Lin Yi didn't want to pay them any more attention after that and walked to the podium.

There was a path in the middle of the hall, and as Lin Yi walked down it, the hall quieted down.

Everyone's eyes turned to Lin Yi, who was walking slowly in the tunnel.

"Hey, is this kid crazy? An audit student actually dares to be impudent here!"

Diao mang Tian wasn't really a Big Shot in the school, and when everyone's eyes fell on Lin Yi, he only dared to whisper in a voice he could hear, ""When he's down on his luck, he better not drag us down with him!"

Diao mang Tian panicked at the thought of that possibility, and he couldn't help but raise his voice, "Hey, audit student, even if you want to ask questions, you have to wait for others to finish! It would be impolite to go over now. Besides, the Honorary President isn't here yet, so you should hurry back ..."

Although he shouted, Diao Mantian's volume only increased from what he could hear to what the people around him could hear ...

In other words, Lin Yi wouldn't be able to hear what he was shouting under normal circumstances.

It was an insult to the word "shout" to describe it!

Diao sanzuo's heart skipped a beat. He felt that something wasn't right, but he didn't have time to figure it out as he chided Lin Yi along with Diao Mantian.

He was still thinking that if Lin Yi got into trouble and got caught, the two of them would be held responsible as well.

After all, it was Diao mang Tian who had suggested asking the honorary Dean a question. They had to bear some responsibility.

Otherwise, an audit student would not have the right to ask questions.

Diao sanzuo felt even more uneasy when he thought about the term audit student, but his thoughts were at a dead end. He couldn't figure out if Lin Yi was an audit student or not.

"Uncle, should we go over and drag this kid down? I don't think it's appropriate to let him do whatever he wants, right?"

Diao mang Tian felt an inexplicable sense of panic, and he could only discuss it with third assistant Diao.

However, Diao sanzuo was also at a loss.

Lin Yi was already on the stage when he was hesitating.

Qin mengzhen and the other two all bowed respectfully when they saw Lin Yi, but they didn't say anything.

After all, this was Lin Yi's speech-as disciples, they'd be gossiped if they came out and stole the spotlight.

Lin Yi gave them a slight nod before walking up to the stage.

Chapter 8217

He adjusted his posture and faced the crowd with a faint smile, "Hello everyone, nice to meet you. I'm Sima Yi!"

The audience was silent for a moment before it exploded.

Most people were very surprised!

Recently, Lin Yi's name had been very famous. Other than being the honorary Dean of the Fuyao apothecary school, it was more because of the negative impact of the poison pill incident.

Before the poison pill incident, there were also the establishment of the martial Alliance's combat division 2, the cancellation of the pill refining Division 2, and the expulsion of the Alliance Institute's Deputy Dean.

It could be said that Sima Yi would be the topic of conversation for the entire year. There were not many people who had not heard of this name!

However, very few people had actually seen Lin Yi in person.

And so, the audience couldn't help but be surprised to see Lin Yi so young, even younger than the rumors said.

Although, when a practitioner broke through to Sky Class, they would keep their face forever.

However, most of that was only for female cultivators who loved beauty.

On the contrary, in order to make themselves look majestic, many cultivators would not limit the changes in their appearance.

Only by making her appearance match her age and identity could she intimidate others.

Therefore, be it the old man Hua Yao or the old Dean of the Alliance, they could always look like a young man.

However, how could he be the director like that?

They felt that if they couldn't look the same as the students, they had to have some differences.

But Lin Yi was different-even if he didn't limit his growth, he wouldn't become an old man.

Lin Yi's real age was only in his twenties.

At this moment, the only person who was not shocked in the entire Fu Yao apothecary school was the new teacher, Kong Ling Long!

He was now curled up in a corner, smiling bitterly.

She was a new mentor in the same batch as Lin Yi, and she should have a good relationship with him ...

In fact, Lin Yi was quite happy that time, but Kong Linglong was really unhappy.

Speaking of which, they were all new instructors. How long had it been?

He, Kong Linglong, was still a new teacher, but Sima Yi had already become an honorary Dean ...

Kong Linglong didn't even know how to describe her feelings. They were too F * cking complicated!

The other person who had mixed feelings and even an exploding mentality was assistant Diao San.

When Lin Yi said he was Sima Yi, Diao sanzuo felt as if his entire world had collapsed!

only then did he understand why he had felt so uneasy just now!

what a f * cking scam!

why was an honorary dean pretending to be an audit student?

is it fun to tease people?

wait a minute, could this kid be a fake?

everyone knew that sima yi was the honorary dean, but not many had seen his true face!

"uncle ... he, he, he ... he's the honorary president, sima yi?"

Diao mang Tian's eyes were about to pop out of their sockets. He simply couldn't believe this. "Could he be an imposter? Just to disgust us? No matter how I look at it, he's just an audit student. How could he be the honorary Dean, Sima Yi?"

Diao sanzuo heard this and realized that it was exactly what he had expected!

"Little Tian, how about this, you go and hold him back, don't let him continue. If he's really an imposter, then he's the one you brought in. If something goes wrong, you'll be in trouble! I'm going to look for the director and report this to him. "

Diao sanzuo definitely couldn't do it himself.

He was afraid that Lin Yi wasn't an imposter, and that would put him in a difficult position.

However, reporting to the Dean was a clever thing to do, and it would make him look responsible.

In fact, the Dean's absence was one of the reasons why Diao sanzuo suspected Lin Yi.

No matter what, he was the Honorary President invited by the president. It was impossible for the president to not appear when the Honorary President was here.

"Good! Uncle, don't worry. I won't let this kid mess around!"

Diao mang Tian agreed without a second word and rushed up to the podium, pulling Lin Yi's arm down. "Are you crazy? He even dared to impersonate an Honorary President? Even if your theory is wrong, you don't have to be so upset, right?"

Lin Yi was speechless-this Diao Mantian was seriously F * cking cocky!

He had already revealed his identity, yet he still dared to come up and drag him away?

Was he lacking in mind or brains?

Diao sanzuo covered his face with one hand and was also speechless.

When he said he'd stall Lin Yi, he wasn't really using his hands, but his words ... This F * cking bastard!

If you wanted to drag him on stage, then you could do it. If you could drag him away, then you could be a little embarrassed. But you dragged him for half a day, and he didn't move at all ... This is so embarrassing!

Diao mang Tian was really embarrassed.

He didn't expect Lin Yi to be so strong!

Diao mang Tian tried his best, but Lin Yi didn't budge at all.

If that was the case, then it would be fine. But Diao mang Tian had used too much force, causing a loud fart to come out from the stage ...

The entire place was silent, and in the blink of an eye, the entire Hall burst into laughter.

However, they did not forget to cover their noses and mouths as they laughed, afraid that they would smell something strange!

Diao sanzuo was too embarrassed to continue watching. He covered his face and quickly ran out of the hall of rites to find the principal, Hua Yao, leaving Diao mang Tian, who was on the stage, with a face as red as a pig's head!

Soon, Diao sanzuo found the flower carriage.

The old man was planning on coming later, but he heard that someone was impersonating Lin Yi. He knew that Lin Yi wasn't an impersonator, but no one else knew.

As such, Hua Yao was worried that there would be a misunderstanding and had to rush over in advance.

Lin Yi was already giving his speech on stage when they entered.

The disgraced Diao mang Tian had already left the stage and was squatting in the corner of the door, drawing circles.

"Principal Hua, look at that brat! Not only did he impersonate principal Sima, he even dared to give a speech on stage. He's simply looking down on our Fuyao pill refining school!"

Diao sanzuo glared at Diao Mantian's cowardly face and began to slander Lin Yi, "Let's get that imposter down before things get out of hand. So as to avoid Dean Sima being unhappy when he comes!"

in fact, at this point, diao sanzuo was starting to believe that lin yi was the real sima yi.

however, admitting it now would do him no good at all. he could only walk this path to the end and continue to hold on.

only by holding on until the end could he explain it with the word 'misunderstanding'.

"shush~be quiet and listen!"

hua yao didn't pay any attention to diao sanzuo's words. after making a shushing gesture, she stood quietly at the door and listened to lin yi's speech.

diao sanzuo wanted to say something, but he hesitated. in the end, he didn't dare to disobey the dean's order. he stood at the side and listened obediently.

on stage, lin yi didn't talk too much about advanced theories. after all, most of the people here were students, so he only talked about the basics.

it was because of this that diao sanzuo was greatly shocked when he heard this.

it was just the basics, but under lin yi's deep and simple analysis, even diao sanzuo felt that he'd learned a lot!

Chapter 8218

although the foundations were simple, the great dao was the simplest. the true foundation was often in these foundations.

just like martial skills, no matter how powerful a martial skill was, it would be activated through the combination of those few basic movements.

at this point, diao sanzuo had no choice but to admit that sima yi was on stage!

even hua yao, the dean of the school, couldn't help but nod and smile as he listened to lin yi's explanation. the others, on the other hand, didn't even need to be mentioned. no matter how skilled they were, lin yi's explanation was able to inspire them!

diao sanzuo and his nephew went completely silent. if lin yi was really an honorary dean, then there was no point in arguing about it. it must be that their standards were too low to understand dean sima's profound theory!

the class passed quickly, but everyone in the hall of rites felt that time had passed too quickly. they had only just started listening, so why was it already over?

at this point, no one suspected that lin yi was a fake sima yi anymore. they all looked at lin yi on stage with respect.

"Steward Diao, what did you just say? The one on stage is a fake Sima Yi?"

Lin Yi finished his speech, and Hua Yao clapped and smacked her lips as if she wanted more. She turned to Diao sanzuo. "Do you still insist that he is impersonating Sima Yi?"

"Principal, You must be joking! It was this subordinate who had eyes but failed to see. Seeing that Dean Sima was young, I thought that he was an imposter. However, I didn't know that there was no order in learning. The one who achieved it was the teacher! This subordinate's years have all been wasted on dogs!"

Diao sanzuo smiled bitterly and quickly cupped his hands in apology. "This matter is indeed a misunderstanding. I hope that the Dean will forgive me and explain it to Dean Sima. I did not mean to go against Dean Sima, I was completely doing it for the sake of the public ..."

Hua Yao smiled and waved his hand. "Forget it, forget it. It's not a big deal. Sima Yi is a broad-minded person. He won't fuss over this with you."

Diao sanzuo secretly heaved a sigh of relief. With Hua Yao's words, he felt much more secure!

However, he still had to maintain a good relationship with Sima Yi. He hoped that he would be magnanimous and not take the previous argument to heart.

Lin Yi finished his class at this time, smiling in a relaxed manner. "That's all for today. It's our first time meeting, and we've wasted a lot of your time. If you have any questions in the future, you're welcome to come and discuss them at any time!"

Diao mang Tian suddenly had an idea. He rushed forward and raised his hand, shouting, ""Dean Sima, student Diao mang Tian has a question that I would like to Ask the Dean. I hope that Dean Sima will not be stingy with your guidance!"

The surrounding people laughed again, obviously recalling the earth-shaking fart on the stage just now.

Diao mang Tian's face was a little hot as well, but he couldn't be bothered with that right now. He thickened his skin and greeted Lin Yi with respect. "I wonder if this student can raise some questions in her heart and ask Dean Sima to point out the confusion?"

"No problem. It's the Fortune of the fu Yao apothecary school to have a student as eager to learn as you. Feel free to ask whatever you want to ask. However, time is limited, so I can't answer too many questions in case I waste everyone's time."

Lin Yi had a mocking smile on his face, but he didn't give Diao Mantian any attitude. He showed the magnanimity and magnanimity of a Dean.

Diao mang Tian secretly heaved a sigh of relief. He continued to ask the questions that he had accumulated in his daily life in a respectful manner.

Diao mang Tian had also asked third assistant Diao these questions before, but the latter had no way of explaining them clearly. Therefore, this kid was indeed in the mood to ask for guidance.

However, she wanted to use this opportunity to build a relationship with Lin Yi and make up for the project she lost.

"Yes, the questions you've asked are representative of alchemy. If you don't pay attention, it's not that you can't refine pills, but the effect will be dozens of times weaker."

Lin Yi nodded and scanned the crowd. "Everyone can take note of this. Many people encounter these problems. I'll explain them one by one."

The commentary time was very short, only two to three minutes, and the problem was clearly explained.

The crowd clapped again to express their respect for Lin Yi.

Diao mang Tian was even more excited, "Dean Sima is indeed an alchemy Grandmaster. With just a few words, he pointed out the great Dao. I've benefited a lot from this!" I'm deeply aware of this, I wonder if I can often go to Dean Sima for guidance in the future?"

Diao sanzuo, who was not far away, suddenly realized that his nephew's brain was really quick. As soon as he saw that the situation was not going well, he immediately went to hug Sima Yi's thigh!

This was preposterous!

He didn't even know how to drag his uncle along when he was trying to suck up to him. He had doted on him for nothing in the past!

Diao sanzuo snorted and quickly went forward to cup his fist and said with a smile, ""Dean Sima, you live up to your reputation! I've long heard that Dean Sima's attainments in the field of alchemy are profound, and I've always wanted to attend his class, but I've never had the chance. Today, I've fulfilled my wish!"

"In the past, people said that listening to the words of the king is better than reading ten years of books, but I never believed it. Today, I finally understand why this saying has been spread in the world! In the future, we'll have to consult Dean Sima often, and I hope that Dean Sima will not be stingy with his teachings!"

Diao sanzuo put down his pride, and his flattery was no less than Diao Mantian 's. His attitude was even more humble.

He wouldn't have been worried about Lin Yi's perception if the poison pill incident hadn't been resolved yet, but now it was wiser to lower his head!

"Steward Diao, you're too polite. We're all discussing how to improve together. There's no need to give any advice. We're all colleagues, so there's no need to be so distant!"

Lin Yi displayed the grace and humility that a Dean should have, not only calming the hearts of Diao sanzuo and his nephew, but also gaining another wave of respect from the other students!

As for the argument earlier, Lin Yi didn't really care.

If he had to be calculative over such a small matter, then he didn't have to do anything all day and just be angry.

Hua Yao walked onto the stage and waved off Diao sanzuo and his nephew. He smiled at the audience and said, "In order for everyone to be able to walk further and better on the path of alchemy, this old man has spent great effort to invite Dean Sima. You should all properly consult Dean Sima, he can give you more alchemy experience."

"After the class just now, everyone should understand that although Dean Sima is young, his alchemy level is far above all of you. Even this old man does not dare to say that I can defeat Dean Sima!"

"From today onwards, Dean Sima will be teaching in our Fuyao apothecary school. However, he will not be teaching any special classes, but will only be conducting a few large public classes. If everyone wishes to learn from Dean Sima, then you have to grab hold of this opportunity!"

"In addition, although Dean Sima is an honorary Dean, he has the power of the Deputy Dean in reality. He has a lot of power and decision-making power in the major Affairs of the Academy. Don't think that Dean Sima is just a nominal title and be disrespectful. If you do that, you will only be the ones who suffer!"

Hua Yao thought very highly of Lin Yi, giving him a lot of freedom and power. In addition, the martial union branch and the Union College had both abandoned Lin Yi during the poison pill incident, and he

was the only one who had always supported Lin Yi. He believed that Lin Yi would be bound to the Fuyao alchemy college in the future.

Chapter 8219

With such a powerful figure holding the fort, Hua Yao felt that it would be as easy as flipping his hand for the school to rise to the next level!

"Thank you principal Hua for your high regard. In the future, I will definitely nurture more elite students for the Fuyao apothecary school!"

Lin Yi said a few polite words, and the conversation between the two deans received another round of applause from the audience.

After that, Hua Yao dismissed everyone, and only continued to talk to Lin Yi after most of them had left.

"You've worked hard today! He's given everyone a big lesson the moment he arrived!"

Hua Yao said a few polite words with a smile before saying, "Your employment procedures have been completed. The transfer procedures for Qin mengzhen and the other two have also been completed. From today onwards, you are all students of the Fuyao apothecary school!"

At this point, Hua Yao chuckled like a weasel that had stolen a chicken.

A genius like Lin Yi was kicked out of the Alliance School, and he ended up picking up the loot. Just thinking about it made him so happy that he could even wake up laughing from his dreams!

"Thank you, principal Hua. I'll take the three of them to settle down first?"

Lin Yi wasn't even sure if he'd be staying in the school himself, but the three of them were definitely going to. He'd have to settle them down first.

"No need to be so polite, from now on we're all family, no need to be polite with this old master, if you need anything, just come to this old master at any time! "Of course, you're now an Honorary President, so your power is equivalent to a Deputy President. You can basically handle most things by yourself!"

Hua Yao smiled as he led Lin Yi, Qin mengzhen, and the other two out of the hall, sending them to their accommodation.

With Lin Yi's face and perhaps because of Qin mengzhen's status, the three of them were staying in the best dormitories in the entire school. Even a normal teacher might not have better conditions than them.

Lin Yi wasn't sure if he'd be permanently staying at the school, but Hua Yao had prepared a small courtyard for him, just near the three.

Even if they came to stay occasionally, they would always have a place to stay.

After settling down, Hua Yao took his leave, giving Lin Yi some time to think about his three disciples.

Qin mengzhen had become Wu Linghai. She was now focusing on the cultivation of her deified soul and had no time to care about other things.

Tu Gelao's fake Earth attribute had turned into his real Earth attribute physique after taking the pill. Whether it was his strength or potential, there was a significant increase.

The other party's wind attribute was still sealed, so he could only continue to consolidate his strength and cultivate earth attribute martial arts.

Both of them could be used to temporarily herd sheep, and the only thing left to ponder was MA pijing.

He'd improved quite a bit after following Lin Yi, but compared to the other two disciples, it was still dwarfed.

Lin Yi was thinking about how he could increase MA pijing's strength.

Without Wu Linghai, this guy's talent in the divine consciousness was mediocre. It was impossible for him to improve as quickly as Qin mengzhen. He could only cultivate his divine consciousness step by step.

As for his physical attributes, they were not sealed like tu gexia 's, and he could only cultivate step by step to improve them.

Moreover, he had just made a breakthrough not long ago, so it would be difficult for him to make a new breakthrough in a short period of time.

Lin Yi thought about it and decided that he could only increase his strength through external means.

MA pijing had a metal attribute physique. In theory, he was very suitable for a martial artist to use weapons.

On this sub-Island, it was common for lower-level practitioners to use weapons. For example, when Lin Yi first met Wu yucao and Ling Hanxue, their teams were very focused on the quality of equipment.

Creating excellent equipment could instantly increase the combat power of a team by a level.

However, the more powerful a martial artist was, the more profound his body-tempering was, and the effects of weapons and equipment would begin to weaken rapidly.

At MA pijing's current level, there were very few people who specialized in using weapons to fight. At most, they would just play with them.

On the other hand, it was the various Dharma Treasures that could play a key role in a battle of this level.

Lin Yi wanted MA pijing to use weapons to fight.

Once a martial artist with a metal attribute physique integrated his Qi attribute into his weapon and used it in combination with martial arts techniques, the power would be incomparable!

Although there were many types of weapons on the market, weapons that could withstand the attribute aura of this level were rare.

This was also the reason why there were fewer and fewer high-level martial artists who used weapons. It was because a divine weapon like the demonic devouring sword was something that could only be encountered by luck!

Lin Yi felt that buying a weapon for MA pijing was like looking for a needle in a haystack. He might as well make a custom weapon for MA pijing himself.

Furthermore, it could be perfectly coordinated with the martial arts techniques that were taught, and the power would be even greater!

Fine, after saying all that, Lin Yi actually wanted to make weapons.

He had so many books in his head, and there was no lack of literature on smithing on the sub Island. After summarizing everything, Lin Yi had some experience in smithing, and it was a good time to practice and make a suitable weapon for MA bijing.

Of course, with Lin Yi's current skill level, there was no hope of him reaching the level of scrap King. Even if he combined the skills of the sub Island and Sky Class Island, he still wouldn't be able to do it.

However, it shouldn't be a big problem to forge a fine weapon that could withstand elemental Qi!

The key problem now was the materials!

Lin Yi had quite a few materials himself-he'd just randomly picked them up from the ground, or even from the loot he'd gotten. It wasn't easy to pick out the right ones, though, and he'd have to buy them from other sources.

If it was for pill refining materials, it would be appropriate to ask Hua Yao for help, but for weapon refining materials ... Would it cause him trouble?

After some thought, Lin Yi decided to look for the language of manifestations tomorrow.

It shouldn't be a big problem for the artifact language, who had been restored to his position!

The next morning, Lin Yi left the Fuyao apothecary school and went to the martial Alliance branch to find the language of the living things. He found the language of the living in a terrible state.

"Brother Hua, what's wrong? What's happening?"

Lin Yi waved at them as soon as he saw them, wondering if they'd run into trouble again after just one day.

Didn't the Ouyang brothers have any peace at all?

The artifact language looked up and relaxed a lot when it saw Lin Yi, but its brows were still furrowed,""Younger brother Sima, you've come at the right time. This older brother was just looking for you! It's really troublesome this time. The poison pill incident has been repeated again!"

Lin Yi blinked.

What the hell?

Wasn't the matter of the poison pill settled and concluded?

Although martial League didn't reveal the truth, they had already gotten the result they wanted. Why did they have to repeat it?

"Brother Hua, be clear, what happened?"

Lin Yi rubbed his forehead, feeling that this had something to do with the Ouyang brothers!

As expected, the artifact language shook its head and said with a bitter smile, ""Although I don't have any concrete evidence, I know that Ouyang Changqing and the others must be behind this! Everyone who died or was poisoned in the poison pill incident has changed their tune!"

"Every victim is now insisting that they were poisoned because they ate the medicine from the medical Hall and that it had nothing to do with the health Pills given by The Alchemist Association!"

"The two brothers Ouyang Changqing and Ouyang Changhong did not do anything wrong. Their alchemy Association has also been wronged! The root of the matter is the medicinal pills in the medical Hall, so they're all pleading on brother Ouyang's behalf, hoping that the first hall Master can restore their positions and severely punish the person in charge of the medical Hall and related personnel!"

The person in charge of the medical center was Lin Yi himself!

Lin Yi was dumbfounded. What was going on?

He had just cleared his name, and now he was being smeared again!

Is there such a thing? Are you kidding me?

If it wasn't for the fact that Lin Yi didn't want to become a wanted criminal, he would've razed the martial union branch to the ground already.

"right now, not only are the victims struggling on their own, but they've also gathered a large group of unrelated people. they're once again joining forces to make trouble at the martial alliance branch. they're not here yet, so you probably didn't see it. in the afternoon, the martial alliance branch will probably be blocked again ..."

the artifact language was full of helplessness when it talked about this!

lin yi's heart skipped a beat. the first hall master must have received the news as well.

lin yi knew everything about this head hall master-he'd be busy looking for scapegoats the moment the people blocked the door!

needless to say, lin yi was the best target after being pushed to the wall once.

lin yi suspected that the first hall master already had a complete plan in mind!

this incident was obviously planned by ouyang changqing and the others behind the scenes. even a blind man could see that.

to be able to grasp the first hall master's weakness so accurately, no one would believe that it wasn't the doing of the ouyang brothers.

"If the situation of the martial union branch blocking the door really happens again, the first hall Master will definitely make some difficult decisions under pressure. Before that, we have to think of a way to solve this problem!"

Lin Yi let out a long sigh. Was there nothing serious to do these days?

He had been messing around with these stupid things all day, and his mood had turned bad!

"I'll go to Zhang Yiming first and ask him about the situation. As long as I have enough clues and information, I might be able to find a way out of this situation!"

The first thing Lin Yi thought of was Zhang Yiming because it was already proven that information was the most important thing in everything!

But Zhang Yiming didn't need Lin Yi to look for him-he came over himself.

"Boss, something happened!"

Zhang Yiming rushed in without even knocking.

With his intelligence network and the fact that Lin Yi didn't try to hide his tracks, he knew that Lin Yi was here.

"Don't worry, I've already heard that the victims of the poison pill incident have collectively turned against us. They shamelessly waved flags and shouted for brother Ouyang, wanting to reverse the verdict for them and at the same time pour the dirty water on us."

Lin Yi gestured for Zhang Yiming to sit down as he continued, "I was just about to look for you. Do you know anything about this? Do we have any simple way to break out of this situation?"

"Boss, I know about this, but that's not what I want to talk about. It's about the clinic!"

Zhang Yiming's butt was on fire, and he couldn't sit down. "The martial Alliance branch's first hall Master has ordered for the medical center to be sealed up! The reason is that the situation of the poison pill incident is unclear and needs to be investigated again. Before the truth is made clear, the medical Hall is closed!"

Lin Yi almost laughed out loud!

This damn first hall Master really had no position at all. The medical Hall had just reopened, and he had closed it again!

The victims of the poison pill incident and the unrelated personnel they had gathered had yet to come to the martial Alliance branch to block the door, but the first hall Master had already impatiently sealed off the medical Hall. It was obvious that he wanted to please those despicable people!

However, he didn't know that the more he acted this way, the more insatiable Ouyang Changqing, Ouyang Changhong, and the other people behind the scenes would be!

Lin Yi had nothing to say to a pig-like teammate like this!

Why should he be the martial Alliance branch's Hall Master when he was being controlled by the Ouyang brothers? he might as well go home and plant sweet potatoes!

As for the Ouyang brothers ... It seemed that they would not be satisfied until they crushed him to death!

Lin Yi started to think seriously-should he create an opportunity to get rid of them?

"Zhang Yiming, tell me about Ouyang Changqing and Ouyang Changhong. Although the time is short, you should have collected some information, right?"

Lin Yi asked.

"Boss, we did collect information about them, but there really wasn't much. We only know that they planned all this behind the scenes and bribed the victims' families. The people who did this were the confidants of their brothers!"

Zhang Yiming was indeed prepared. Although he didn't have much time, he already had some ideas. "On the surface, Ouyang Changqing and Ouyang Changhong are still suspended and have closed their doors to reflect on their mistakes, but their subordinates are buying people's hearts with a huge sum of money."

"In addition to cash, they also promised to give the victims a lot of discounts, such as permanent discounts on medicinal pills, permanent discounts on medical treatment, and so on!"

Lin Yi was speechless-the Ouyang brothers were really unscrupulous!

"Isn't there anyone who is not cooperative? Were the people of the nado conferred Empire so spineless? Their family members are in trouble, and they're willing to ignore them for some money?"

Lin Yi couldn't understand this at all.

In Lin Yi's mind, whoever dared to touch the people around him had to get back at them!

"Of course not!" Zhang Yiming shook his head with a bitter smile. However, Ouyang Changqing and the others had the Ouyang family behind them. If they could not tempt them with benefits, they would use

threats! Although there wasn't any news of killing, it's certain that anyone who didn't cooperate was given a severe warning!"

"The process is not clear, but this is the result. All the victims themselves or their families have been bribed by brother Ouyang. Whether they were sincere or not, they were all fighting for them!

It looked pathetic, but it was an unchangeable fact!

Lin Yi could only remain silent. Ouyang Changqing and the others could do things without a bottom line, but Lin Yi couldn't!

Otherwise, with Lin Yi's abilities, he wouldn't be able to handle Ouyang Changqing's methods, be it threats or promises!

"Brother Sima, this matter seems to be very troublesome ... I want to help, but I can't do it!"

The artifact language smiled bitterly.

Although he had been reinstated, he was only the Vice Hall Master of the martial Alliance's branch. The president of the combat Association had been removed.

Chapter 8220

A vice Hall Master had been sent away by the first hall Master to collect taxes from the conferred empires under the branch.

This seemed to be a very important Department, just like the tax bureau in the secular world. As the Head of the Department, the monster language's status seemed to be no lower than that of the combat Association's President.

But don't forget, this was the sub-Island, not the secular world!

In reality, this was an idle position in martial League, and it had no meaning at all!

High-level Warriors were not ordinary people. Ordinary wealth was not of much use to them. At the level of the monster language, they were only interested in all kinds of treasures. Ordinary wealth was almost like dung.

"Brother Hua, you don't have to worry. This little brother will find a way to solve this matter. Ouyang Changqing and the other two are just jumping clowns, it's no big deal! On the contrary, brother Hua was implicated for no reason!"

Lin Yi said from the bottom of his heart. The first hall Master wouldn't be picking on him like this if it weren't for the fact that the language was trying to help him.

However, the first hall master's actions were within the rules, and neither the language of manifestations nor Lin Yi could say anything!

"There's no such thing as implications. Even if there was no younger brother Sima, this old brother would still have to go through this!"

The artifact language smiled and regained some of its heroic temperament.

"Let's not talk about this anymore. Brother Hua, I came to find you today because I wanted to ask you for help to collect some materials. "

Lin Yi didn't bring up the Ouyang brothers anymore. He changed the topic and talked about the purpose of the day. "You see, I've already made a list of the things I need. Brother Hua, do you have these things here?"

He'd written down the list before he came, not just for the language of monsters, but also for himself!

Artifact language took the list and glanced at it. He wanted to say that he would take care of it, but after seeing the items on it, he was speechless.

"Younger brother Sima, this older brother would like to help you, but I really can't do anything!"

The artifact language returned the list to Lin Yi and shook his head with a bitter smile. "There aren't many of these materials in the martial Union's branch, and they're not under my jurisdiction. If you want to get a portion of these materials, you'll have to get the first hall master's approval."

"There's also those special materials that even the martial union branch doesn't have. There's no other way. Younger brother Sima, I'm ashamed, I really can't do anything!"

The language of manifestations couldn't do anything about Ouyang Changqing and Lin Yi's trouble, and it couldn't do anything about Lin Yi's materials either.

Lin Yi didn't say anything, but transformation language felt so ashamed that it couldn't be put into words.

"Brother Hua doesn't need to take it to heart, it's just a small matter!"

Lin Yi didn't mind.

MA pijing didn't even know that Lin Yi was planning to let him use a weapon to increase his combat power, let alone making one for him.

He wouldn't be disappointed if he didn't have high expectations, and Lin Yi didn't think it would be a problem for MA pijing to wait a little longer ...

Putting this aside, Lin Yi felt that if one wanted to do well in the sub-Island, they needed a strong background.

With a strong background, it would be much easier to get materials.

Of course, the materials were still a small matter. More importantly, if he had a background, the Ouyang brothers would not dare to keep jumping out and causing trouble!

Now, this was a day without rest.

With the current situation, Lin Yi did consider killing the two without anyone knowing, but it wouldn't solve the root of the problem.

The Ouyang family had lost two branch disciples, but they still had more branch and direct descendants to use. If they completely fell out with the Ouyang family, it would be very troublesome.

Lin Yi felt that it would be better to keep Ouyang Changqing and the others alive and defeat them face to face rather than face an enemy he didn't know about.

At least Lin Yi knew them inside out and could make a targeted plan.

"Brother Hua, don't get involved in the rest of the things for the time being. Stay out of it and jump out of the vortex. No matter how things develop, you will be my last resort and help!"

Lin Yi was trying to comfort him, but at the same time, he hoped that he'd be able to get out of this situation.

With a pig-like teammate like the first hall Master, the language of the living things really couldn't be of much use.

Instead of wasting his time, it was better to watch from the sidelines. Perhaps he could find a new opportunity!

The artifact language sighed, understanding what Lin Yi meant. It didn't want to reject Lin Yi's good intentions, so it nodded.

"That's all for today. This younger brother is going to the medical center to check the situation. Brother Hua, take care of yourself. I will come back for you later!"

Lin Yi cupped his hands and left the martial union branch with Zhang Yiming.

The beast walked Lin Yi to the yard door and stood on the steps to see him off, his heart empty and full of disappointment.

The first hall master's erratic behavior these days had completely broken the heart of the monster language.

He understood that if he was like this, what about Lin Yi, who had just joined the martial Alliance?

With Lin Yi's talent and strength, no matter if he was an array master or a pill master, he'd be a guest of honor wherever he went.

Yet the naduo martial Alliance branch didn't cherish their advantage and even wasted Lin Yi's good impression of them.

From now on, the nado martial Alliance branch and Lin Yi would never be able to get back on good terms!

It was a waste of the effort that the language of monsters had put in all this while!

With a pig-like teammate like the first hall Master, the monster language was also in despair!

Lin Yi didn't mention the dejection of the demon transformation language and quickly returned to the clinic with Zhang Yiming.

At this moment, the medical Hall had already been sealed. All the battle generals, alchemists, and doctors had been driven out!

It wasn't easy to clean up, but before she could even sit down and warm her butt, she was driven out to the streets.

These battle generals, alchemists, and doctors were all about to go crazy from anger.

If they weren't worried about causing trouble for Lin Yi, they would've started fighting already!

If Lin Yi gave the order to attack, they'd probably kill all of the head Master's Men even if it meant sacrificing their lives.

Seeing that Lin Yi had returned, everyone seemed to have found their pillar of support. They all gathered around and greeted him, asking what they should do. Should he snatch it back by force?

With Lin Yi here, they really had nothing to fear!

"Everyone, don't worry. There's a misunderstanding in this matter. Everything will be fine after a clear explanation! It's not a problem for the clinic to be closed for a while. Just take it as a break for a while!"

Lin Yi's main purpose here was to calm everyone down, in case they really started fighting with the martial union branch."We can't stay here any longer. Everyone, let's go back to where we originally lived. We'll talk about it after the matter is resolved!"

The crowd was still unwilling, but since Lin Yi had spoken, they wouldn't raise any objections no matter how indignant they were. They all glared at the people from the medical Hall before obediently leaving.
