

Bodyguard 8231

Chapter 8231 Coming, Brother

"Why don't you come and explain to this Lord what kind of misunderstanding this is? If they didn't know, it could be said to be a misunderstanding, but after they found out that it was a Medical Center and pill shop under the central Chamber of Commerce, they went from bad to worse. They're really bold!"

"You even dare to touch the business of our central Chamber of Commerce. Is your martial League branch trying to test the bottom line of our central Chamber of Commerce? Do you want to see how much our central will be suppressed before you rise up to resist?"

Ling lingfa's voice grew louder and louder, and more and more impassioned. This caused more and more cold sweat to form on the first hall master's forehead. He could only laugh dryly and apologize.

After Ling lingfa's emotions had finally stabilized, the first hall Master finally asked the question in his heart, ""Sir gray-robed, what's going on? How did Sima Yi's Medical Center and pill shop get involved with your central Chamber of Commerce? There must be some misunderstanding!"

"Hehe, you still call it a misunderstanding?"

Ling lingfa threw a letter of appointment in front of the first hall Master. ""Look carefully, Sima Yi is now the Honorary President of our central Chamber of Commerce nado branch! "Your martial League doesn't want such a talent, but our central is thirsty for talents. Therefore, the medical center and pill shop he opened were opened by our central Chamber of Commerce!"

"If you dare to destroy our central business, you should be prepared to bear the consequences! That's all I have to say. You should know what to do. If I don't see the sincerity of your martial Alliance by tomorrow, then you don't have to say anything!"

Without waiting for the first hall Master to speak, Ling lingfa snorted and left!

The first hall Master looked at the appointment letter left behind by Ling lingfa and was dumbfounded!

He didn't think that Lin Yi would become the Honorary President of the central Chamber of Commerce in one move!

With this identity, even he wouldn't be able to go against Lin Yi easily!

However, Ouyang Changqing and Ouyang Changhong had brought people to cause trouble.

Thinking that he had acquiesced and connived in this matter, the first hall master's forehead broke out in a cold sweat!

Not long after, Ouyang Changqing and Ouyang Changhong returned to the martial Alliance's branch and came to see the first hall Master in high spirits.

As soon as they entered, Ouyang Changqing was still a little reserved, but Ouyang Changhong could not help but smile and boast to the first hall Master, "Hall Master, you didn't see it. That brat Sima Yi's

newly opened Medical Hall and pill shop were completely destroyed by this subordinate and his men. I don't think he will dare to have such thoughts again in the future!"

"At that time, there would be a lot of onlookers. Sima Yi had lost so much face, let alone opening a Medical Hall and a pill shop, I'm afraid he wouldn't even be able to stay in the capital, right? Hahaha ..."

While he was laughing, Ouyang Changhong suddenly noticed a fist flying toward him at lightning speed. In an instant, it had become countless times bigger!

Then, he felt a pain in his cheek and was sent flying by a huge force.

The first hall Master couldn't bear it anymore. He didn't even say anything and directly started beating people up."Bastard! Who told you to go and cause trouble? Don't you know that you've caused big trouble?!"

Just scolding was not enough to vent his anger. The first hall Master used both his hands and feet to grab Ouyang Changhong and beat him up, beating him until he wailed like a ghost and howled like a Wolf. However, he did not dare to resist, nor did he have the strength to resist!

Ouyang Changqing was dumbfounded. He didn't know what was wrong with this stupid first hall Master!

He quickly went up to dissuade him,"first hall Master, what's wrong with you?" Why did he hit Chang Hong? Going to Sima Yi's place to cause trouble was approved by you, Hall Master. Didn't you also let us act according to the situation?"

"Play it by ear, your mother!"

The first hall Master was about to explode with anger, and Ouyang Changqing even used his words to shut him up. He immediately pulled Ouyang Changqing into the circle of beating up and beat up the two brothers together!

After a good beating, the first hall Master finally calmed down a little. He turned back and sat back in his chair, glaring at the two people, ""You guys know that Sima Yi's Medical Hall and pill shop is a business under the central Chamber of Commerce, and you still dare to smash it? Tell me, are you trying to harm this Lord on purpose?"

"Speaking of this, I'm so angry! Just now, the grey-robed man from the central Chamber of Commerce personally came to question me. What do you think I should do? You're going to start an all-out war with central over this trivial matter? Can you bear the consequences? Can your Ouyang family afford this?"

Ouyang Changqing's sweat also came down in an instant. ""First hall Master, you said that Sima Yi is really from the central Chamber of Commerce? I thought he was a fake ... Because if you want to open a pill shop, you have to report to the alchemy Association. Only then will it be effective!"

"But our alchemy Association has not received any alchemy reports for a long time, so this subordinate is certain that Sima Yi is a fake ..."

Before he could finish his words, the first hall Master grabbed a teacup and threw it at him. If he had not reacted quickly, he would have hit him in the face!

"Are you stupid? How did he become a vice Hall Master? How did he become the president of the alchemy Association? "Reporting this kind of thing is only for martial league's vassals and some mediocre people. Do they need to report to you what the central Chamber of Commerce wants to do? Even I don't have the right to ask them to report, Who Do You Think You Are?"

Ouyang Changqing was speechless. The news that Lin Yi had become the Honorary President of the central Chamber of Commerce made him question his life ... Why was it that the more he targeted Sima Yi, the better he was doing?

Moreover, the first hall Master was right. Central and martial League were basically on the same level of power. He had never heard of a power of the same level having to report to the other party about what they were doing ...

"Forget it, there's no point in telling you all this. Listen up, now, immediately, immediately, go and restore everything you've destroyed to its original state. If you can't restore it, then repair it and build it again. It must be better than the original, do you understand?"

Ling lingfa wanted to see sincerity, but the first hall Master couldn't think of any other sincerity.

He could not kill the Ouyang brothers as an apology, or he would really offend the Ouyang family ...

Both sides were hard to deal with. Just thinking about it made him feel that it was troublesome. The first hall Master couldn't help but secretly sigh. It was really too difficult!

Ouyang Changqing and Ouyang Changhong looked at each other, recalling what Lin Yi said just now- they'd go back and practice!

He didn't expect his words to become a prophecy!

"The repair fees will be paid from the alchemy Association's account! If you're not willing, you can go and talk to the central Chamber of Commerce's chief gray robe! Do you all understand?"

The first hall master's last sentence was shouted out directly, which made the Ouyang brothers' heads buzz. They hurriedly nodded in agreement and then ran out in fear.

Lin Yi and the others stayed in front of the destroyed clinic, not going anywhere. They didn't care about the people around them pointing at them and waiting with a smile.

Ling lingfa had already sent a message to inform Lin Yi that he'd done what he needed to do and given the pressure he needed to give. Lin Yi knew that Ouyang Changqing and Ouyang Changhong's return was just around the corner!

Chapter 8232 Luo Caidie's Worry

The Ouyang brothers didn't want to bother with Lin Yi, so they ordered their men to get to work.

They could only leave this damn place as soon as possible after the interior was repaired.

Otherwise, Lin Yi wouldn't even have to do it-the crowd would've been pointing fingers at them, and that would've been enough to deal critical damage!

"Alright, everyone is here. Although there's a small problem with the venue, it won't delay our opening today. The auspicious time has arrived, let's continue!"

Lin Yi didn't bother with the progress and had daqiang hang the spare sign on the lintel, still covered with red silk.

That's right, when he made it, he made two sets. It wasn't because he expected it to be destroyed, but because he was prepared. Now, it was really useful.

As for the auspicious time ... When Lin Yi said it was, it was, he didn't pick the time!

Because of the commotion caused by Ouyang Changqing and the others 'return to carry out construction, a portion of the people who had originally dispersed returned, and they brought even more people.

As far as the eye could see, it was a sea of human heads. People with trypophobia would probably vomit at the sight!

"Today is the opening day of our Medical Center and pill shop. Although there was a small incident, it didn't affect us too much ..."

Lin Yi started his opening speech in front of the public, and everyone couldn't help but laugh.

The houses here were almost not demolished, and it was just a small situation? This Lord Sima Yi was really bold!

However, the crowd didn't mind Lin Yi's words, and they even cheered for him.

Lin Yi had promised to keep his promise on the flyer, and everyone present had received gifts.

As for the gifts, they were actually the lowest grade of elixirs. The materials were cheap and abundant, so they could be collected without much effort. Using an automatic alchemy furnace to refine them, a large batch could be easily produced.

However, no matter how low-grade it was, it was still a medicinal pill. In theory, it was much better than Ouyang Changqing's health pill. Moreover, the quality was very good. It was also a free gift, so it was naturally very popular!

When the red silk on the plaque was unveiled, the cheers reached a new climax because everyone saw the name of the central Chamber of Commerce on the plaque.

It had to be said that the central Chamber of Commerce was very successful in managing the brand. The impression that the central Chamber of Commerce gave to the general public was that it was a premium product!

All the products sold by the central Chamber of Commerce were high-end, advanced, and of superior quality!

Lin Yi's Medical Hall and pill shop had a certain reputation even before they opened for business!

"So this is the central Chamber of Commerce's Medical Hall and pill shop! That's definitely a good thing!"

"Yeah, you just got here, right? "No wonder I didn't know. I saw it from the beginning to the end. The first time someone from the martial league's branch smashed a signboard, I knew that things weren't as simple as they seemed. How could someone from the central Chamber of Commerce be bullied so easily? As expected, they've come back obediently ..."

"In the future, if you want to see a doctor or buy medicinal pills, come here! The items from the central Chamber of Commerce are definitely correct ..."

Lin Yi had heard all the discussions, and his feelings were complicated.

He didn't expect Central's reputation here to be so good. Although he was now basking in their light, in the end, he and central were still enemies!

It was still a long way to go if they wanted to fight against the center!

However, today's opening was a great success. Although the interior was still under renovation, the enthusiastic people couldn't wait to come and take care of the business.

Lin Yi had no choice but to add some tables and chairs on the street, some for the doctors and some for selling pills.

The previous poison pill incident had not yet passed, but there was still an endless stream of people buying the pills. It could be seen that the eyes of the public were really bright, and they were not confused by the rumors.

Or rather, they all knew who was behind the reversal of the poison pill incident.

Lin Yi sighed to himself. Who said the people were stupid and could be fooled as they pleased?

Sometimes, most people just couldn't fight back and could only cooperate with you, acting as if you didn't see it!

When Ouyang Changhong saw this scene from the inside, his heart felt like it was being scratched by a cat. He was extremely uncomfortable, so he secretly sent someone to lead the crowd.

"Hey, why do you guys trust them so much? Don't you guys know about that Sima Yi? "He was the one who caused the poison pill incident. He couldn't survive in the martial union branch and was expelled. In the end, he somehow managed to get in touch with the central Chamber of Commerce, and now he's trying to harm people without changing the medicine. Aren't you afraid of death?"

"This kind of unscrupulous merchant has killed so many people. How many lives do you have? Greedy for this?"

"Brother, I'm kindly advising you not to buy these poisonous pills. You'll die ..."

Very quickly, these discussions began to quietly spread among the crowd. Unfortunately, they were like Mantis trying to stop a chariot, and were not worth mentioning.

Most of the people had the mentality of following the crowd-if more than half of them said that Lin Yi's side wasn't doing well, then perhaps Lin Yi's new medical center and pill business would really be done for.

But now, as soon as those people who spread the rumors opened their mouths, they were besieged by several people on the side."Bullshit! If you don't want to buy it, then get lost. Don't stay here and delay grandpa's good things!"

"This is the central Chamber of Commerce's Medical Center and pill shop. The central Chamber of Commerce has a good reputation, so they will naturally take responsibility if there is a problem. Don't fan the flames here ..."

"If you dare to talk nonsense again, do you believe I'll cut you? Hurry up and get lost!"

Those with good tempers would argue with him, while those with bad tempers would get ready to beat him up.

Therefore, these people who spread the rumors couldn't even cause a wave and were directly eliminated by the public!

Lin Yi looked on coldly and didn't interfere. His feelings were getting more and more complicated.

Right now, the public believed in the central Chamber of Commerce's reputation. In the future, when they were successful, the central Chamber of Commerce would still be the one to benefit. He didn't know if this cooperation was worth it.

Ouyang Changhong's desire to cause trouble was extinguished after receiving the reply. He'd be happy to spread some rumors to hurt Lin Yi, but it involved central ... Forget it!

It didn't matter if they framed Lin Yi, but they'd be digging their own grave if they framed central-they wouldn't be working so hard here otherwise!

Caidie Luo was invited to the ceremony and naturally saw everything. She couldn't hold back her worry anymore and pulled Lin Yi to the side.

"Sima Yi, there's something I don't know if I should say, but as a friend, I really have to say it ... Central is an extremely mysterious force. Don't look at the reputation of Central's Chamber of Commerce, it's only the reputation of the sales of goods."

"In private, this Force's style of doing things is not very proper. Ordinary people don't know much about it, but some major forces basically know about it. It's just that when there is no conflict of interest, no one wants to fall out with central."

"The martial Alliance's branch has admitted defeat this time, and Ouyang Changqing and Ouyang Changhong have lost all their face and come to repair your Medical Hall and pill shop. This is enough to explain the problem. It's not that martial League is afraid of central, it's just that they don't want to cause a big conflict over a small matter. "

Chapter 8233 Blue-Robed Man's Cooperation

"In private, this Force's style of doing things is not very proper. Ordinary people don't know much about it, but some major forces basically know about it. It's just that when there is no conflict of interest, no one wants to fall out with central."

"The martial Alliance's branch has admitted defeat this time, and Ouyang Changqing and Ouyang Changhong have lost all their face and come to repair your Medical Hall and pill shop. This is enough to explain the problem. It's not that martial League is afraid of central, it's just that they don't want to cause a big conflict over a small matter. "

"It's very common for major forces to compromise with each other. If it's a very upright force, it's more likely to choose the side that compromises. Central obviously doesn't like to keep things peaceful. They're very domineering in their actions."

"I won't say more. In short, you chose to cooperate with central. It may be good for the time being, but it's hard to say what will happen in the long run. So as a friend, I would like to advise you to keep your distance from central. Don't get too close!"

Luo caidie said a lot in one breath.

He could tell that she was really worried about Lin Yi, or she wouldn't have said something like that.

Lin Yi smiled and nodded after hearing that. "I understand, don't worry! My understanding of central is far beyond your imagination. I'm the most familiar with their people, their styles, and so on!"

"Speaking of which, I have an unspeakable grudge with central, so you don't have to worry that I will collude with central. This cooperation is just a transaction. To put it bluntly, we both get what we need, and there won't be many complicated interests involved!"

Because caidie was worried, Lin Yi told her the truth in a low voice.

As for whether she believed it or not, that was up to her!

"Is that so? That's good ..."

Luo caidie seemed to be relieved and showed a relieved expression.

She didn't ask what grudges Lin Yi had with central. If he could tell her, he would, but since he didn't, she didn't ask anymore!

This was a quality that a smart woman should have. A woman who got to the bottom of things would not be liked.

Looking back at the lively scene, Luo caidie suddenly felt that it was quite good.

If it was just a transaction, he should maximize the use!

On the other hand, Luo caidie was worried that Lin Yi would be too deeply involved with central, and there would be unknown troubles in the future.

On the other hand, the Ouyang brothers were worried that Lin Yi would get too involved with central, and there would be unknown troubles in the future.

The words were the same, but the meaning was completely different!

"Big brother, what should we do now? Sima Yi has a relationship with central and has become the Honorary President of the naduo branch of central. He's a huge threat to us!"

Ouyang Changhong and Ouyang Changqing hid in a corner and whispered to each other. They were surrounded by a bustling construction site, so they were not afraid that anyone would hear them.

"Let's not talk about the future. Just by looking at the public's reaction, our alchemy Association's alchemy business will definitely plummet. This time, we won't be able to use the fitness pill trick again! Big brother, do you have any way to deal with Sima Yi?"

He'd been crushed once before, and Lin Yi's Medical Center and pill shop had just opened, but Ouyang Changhong could already see the results!

"I have no choice ... With the central Chamber of Commerce as my backing, it won't be easy for me to make a move, be it in the open or in the dark. I can't use those underhanded tricks, especially. Once I'm caught, it won't be easy for me to get away!"

Ouyang Changqing's face was full of worry, and he was also at his wits 'end. Looking at the construction scene around him, he couldn't help but let out a long sigh.

The two brothers looked at each other speechlessly. For a moment, they didn't really want to speak.

After a long while, Ouyang Changqing finally spoke, ""The only thing we can do now is to ask the family for help! "The alchemy Association's reputation and influence will definitely continue to decline. We can't count on the martial Union to provide any help. Therefore, I plan to make a trip back to the clan!"

The Ouyang family had already made a move on Lin Yi before, stripping him of his mentor status and removing him from all his duties.

It was just a casual move by the Ouyang family, and they only used a little of their family's influence, but it was undeniable that there was a very deep enmity between Lin Yi and the Ouyang family!

House Ouyang couldn't guarantee that they wouldn't become Lin Yi's target if they let him grow.

So, before Lin Yi grew up, they would be very interested in dealing with him.

Ouyang Changqing was well aware of this, so he was very confident that he could ask for help from his clan.

After more than ten days, Ouyang Changqing returned to the Ouyang family alone.

Although he was only a disciple of a branch family, his status was not low. He could be considered one of the top figures in the branch family. Therefore, when he returned to the clan to request an audience, he was immediately approved!

"Clan leader, Chang Qing's return this time is mainly to ask for the clan's help to deal with that Sima Yi. This kid is mysterious and unpredictable. Now, he has already formed a relationship with the central Chamber of Commerce and has become the Honorary President of the central Chamber of Commerce there. If ..."

Ouyang Changqing was about to urge the Ouyang family head to target Lin Yi when he was interrupted by a disciple who came in to report.

"Reporting to the clan leader, an important guest has come to visit. This is the other party's invitation card!"

A black card with gold embellishments was quickly delivered to the clan leader. The clan leader picked it up and looked at it. His expression immediately became much more solemn.

"Pass down the order for the clan's Hall Masters and elders to come over for a meeting, and at the same time, welcome the distinguished guests!"

The O yang leader gave the order, and someone quickly went to relay the order.

Ouyang Changqing saw that the atmosphere wasn't right and quickly got up to leave, but he was stopped by the Ouyang clan leader. ""Chang Qing, you don't have to leave. You're not an outsider, so you can join this meeting!"

"Yes, thank you, patriarch! I, Chang Qing, will obey your orders!"

Ouyang Changqing bowed in thanks, feeling somewhat proud in his heart.

By right, as a disciple of a branch family, he was not qualified to participate in the meetings of the clan's Hall Masters.

However, his current status was not ordinary. He had become the Vice Hall Master of a martial union branch and the president of the alchemy Association. He already had the capital to be valued by the clan!

After a short while, all the higher-ups of the Ouyang clan gathered. Then, the distinguished guest who had delivered the card was also welcomed in.

The person was dressed in a blue robe and had a bronze mask on his head. His figure was slender and strong.

Ouyang Changqing carefully sized him up and felt that this person's temperament seemed somewhat familiar. However, after thinking about it, he felt that he had never seen him before.

"We welcome the blue-robed chief of the central Chamber of Commerce of the aoqian martial Alliance branch to our humble abode. It's truly an honor for our Ouyang family!"

The Ouyang clan leader welcomed the blue-robed man with a smile. When Ouyang Changqing heard the introduction, he couldn't help but be surprised.

It turned out that this guy was actually the blue-robed Chairman of the central Chamber of Commerce?

Chapter 8234 Sincere

No wonder Ouyang Changqing felt a sense of déjà vu. He was a little similar to that gray-robed man!

Although they were not the same person, their auras were indeed somewhat similar!

"You're too kind, O Yang clan leader. As the saying goes, one doesn't visit unless they have a reason. Of course, this is only limited to the central Chamber of Commerce under the jurisdiction of our aoqian martial Alliance branch!"

"I wonder what you think about this, O yang leader?" the blue-robed man chuckled.

The Ouyang family was located in the aoqian conferred Empire, and it was also within the aoqian martial Alliance's branch. It was one of the more powerful families, so it was normal for the blue-robed man to seek cooperation with them.

Although the Ouyang family was not a feudal lord family, it was still one of the feudal lord candidates. Therefore, its influence could spread to the continental martial Alliance and the naduo martial Alliance's branch!

"Hahaha, of course, no problem. This old man can't ask for more!"

The O yang tribe leader laughed happily. The power of the central Chamber of Commerce was huge. To be able to cooperate with such a force would definitely bring great benefits!

Although it was only limited to the aoqian martial Alliance branch, it was enough. After all, the aoqian martial Alliance branch was the root of the Ouyang family!

"I wonder how the blue robes would like to cooperate? Is there anything our Ouyang family can do to help?"

"It's simple. It's the most basic ability of the Ouyang family! I hope that the Ouyang family can help us refine pills and sell them!"

The blue-robed man slowed down his speech, seemingly choosing his words carefully. "We can provide the pill recipe and raw materials, but after the pill is made, it will be sold under the name of your Ouyang family! As for the division of profits, we can discuss it in detail later. "

These words were very certain, or rather unyielding, and did not give the Ouyang family any intention to object at all.

However, the Ouyang family did not object at all. They were an Alchemist family, and being able to refine pills for the central Chamber of Commerce was a good thing.

"Don't worry, Mr. Blue-robed, alchemy is a small matter. Our Ouyang clan will definitely have no problems with it!"

The O yang leader laughed, but then he was confused, ""However, I heard that the central Chamber of Commerce also has unique achievements in alchemy. Why do they want to cooperate with our Ouyang family?"

No matter how much he wanted to cooperate with central, it was impossible for clan leader Ouyang to sell out the clan and help Central count the money. Therefore, some necessary doubts still had to be clarified.

"A straightforward person does not resort to insinuations. I might as well tell you the truth!" The blue-robed man chuckled.

The people from the Ouyang family couldn't help but curl their lips. 'Why are you wearing a mask and saying that a straightforward person doesn't resort to insinuations?' If you have the guts, take off your mask first!

However, of course, no one would be so silly as to say this out loud. They only cursed in their hearts, but on the surface, they had to put on a look of listening!

"The pill recipe I'm giving you is an experimental pill developed by our Center. We can't find the flaws in it ourselves, so we came to you for cooperation."

"Since it's an experimental pill, there will naturally be some problems. The person who takes it may also have some minor side effects, but in our experiments, these side effects are within a controllable range!

"We're selling it under your family's name to make it easier for us to collect data in secret. Don't worry, it won't affect your family's reputation!"

"To show our sincerity in our cooperation, other than the share of the sale of the pills, central will also support your Ouyang family in secret. You should know what kind of resources central has. With our help, it will not be difficult for the Ouyang family to become a feudal lord family, and may even go one step further!"

The hearts of all the higher-ups of the Ouyang family immediately sped up, and their mouths went dry.

To become a feudal lord family had always been the dream of every son of the Ouyang family. With Central's support, this was no longer an unattainable dream!

After all, with Central's mass, no one would doubt whether central had the ability to do so!

Even a small, unknown family could grow into a feudal lord family with the central government's support, let alone a reserve feudal lord family like the Ouyang family!

More importantly, what the man in blue said at the end, to go one step further from the foundation of the feudal lord families, what was that?

That was a position that the Ouyang family did not even dare to think about!

"How is it? Leader O yang, Central's sincerity is already in front of you. What other questions do you have?"

The blue-robed man looked at the O yang leader calmly, not worried that he would refuse!

The O yang tribe leader was so excited that he wanted to nod and agree immediately. However, that would be too unreserved, so he forced himself to calm down and pretended to think for a while before slowly nodding.

"No problem, I've felt Boss Blue robe's sincerity, there's no problem with cooperating! It's normal for pills to have some side effects. As long as it doesn't kill, there won't be any major effects. "

"But regarding the sale of the pill, does it have to be in the name of our Ouyang family? Blue-robed chief, this old man would like to discuss with you. Can we hand over the matter of selling the pills to another Alchemist family and let our Ouyang family only be responsible for refining pills?"

"Of course, you don't have to worry about the sales of the blue robes. Our Ouyang family will bear the responsibility. It's just a change of name ..."

With the Ouyang family's status, it was natural that there were many small families under them. They would choose a small family from among them and sell the pills in their name. Even if there were any problems, the Ouyang family would not be implicated!

Although the O yang tribe leader said that he didn't mind and that it wouldn't affect him, he was still a little worried in his heart, so he wanted to shift the risk.

In theory, what he was doing was no different from what central was doing!

"Sure, you can arrange this on your own. Just do it well!"

The blue-robed man nodded in agreement. He wouldn't care about the small details at all!

The cooperation agreement between the two sides was thus reached. Ouyang Changqing saw that the overall situation had been settled, and the Ouyang family had also climbed up the big tree in the center. He was secretly happy and couldn't help but come out and cup his hands. "Chief blue-robed, I am Ouyang Changqing!"

The Ouyang clan leader and the others were stunned. They didn't understand why Ouyang Changqing had suddenly jumped out.

Allowing him to participate in this meeting to broaden his horizons was already a reward given to him by the family. He should have some self-awareness. This was not a place where he could speak as he pleased!

The blue-robed man didn't say anything. He only nodded to Ouyang Changqing and just looked at him.

Ouyang Changqing composed himself and respectfully lowered his head. "I'm the Vice Hall Master of the naduo martial Alliance branch, and I'm also the president of the alchemy Association of the naduo martial Alliance branch. I've just returned to my family, and I'm fortunate enough to get to know the blue-robed chief. It's truly a great honor!"

Chapter 8235 Support From Central

"So it's the Vice Hall Master of the martial Alliance's branch from nado. Nice to meet you!"

The blue-robed man's politeness carried a hint of estrangement. It was obvious that he didn't take Ouyang Changqing, the Vice Hall Master, seriously!

"Manager blue, it's like this. If I may be so bold ... There's an automatic alchemy furnace for sale in the central Chamber of Commerce where I come from. Unfortunately, there's a limited number of them, so I couldn't buy some."

"It wasn't easy to meet you, Boss Blue robe, so I'd like to ask if the central Chamber of Commerce of our aojian branch has any automatic pill-refining furnaces for sale? If you do, can you sell some to us?"

At first, the Ouyang clan leader was not very happy and wanted to scold Ouyang Changqing. However, when he heard that there was an automatic alchemy furnace, he immediately stopped talking!

He really didn't think about this just now. If Ouyang Changqing hadn't mentioned it, he would have missed it!

"An automatic pill furnace? No problem! I can give you a batch, but automatic pill furnaces are not suitable for refining the pills we're cooperating with. I hope you don't try it recklessly!"

The blue-robed man agreed without hesitation. After all, with this technology, it would not be difficult for the central government to produce automatic alchemy furnaces in batches.

Ouyang Changqing was overjoyed. He didn't really expect to get an automatic alchemy furnace and was just trying it out. He didn't expect it to really exist!

We're rich!

"Thank you so much, Boss Blue robe! The blue-robed man has done our Ouyang family a great favor! Thank you! Thank you!"

Ouyang Changqing kept bowing in thanks, extremely excited. Thinking about having an automatic alchemy furnace, he could at least stand up to Lin Yi!

"You're welcome. As long as your Ouyang family works well with our central, these little things are nothing. When I said that I would support your Ouyang family to the top, I was definitely not talking nonsense. This is only a small part of it!"

The blue-robed man waved his hand casually and chuckled, ""If you have any other requests, please state them all at once. As long as I can help you, I will help you at my own discretion!"

Before the Ouyang clan leader could think of what to say, Ouyang Changqing suddenly had an idea and quickly asked, ""Manager blue, are automatic pill furnaces also divided into different grades? If you do, can you give us a higher grade automatic pill furnace?"

It was not enough to just tie, he had to completely crush Sima Yi!

Otherwise, how could he dispel the hatred in his heart?

"That's not a problem. As long as you have it, I won't be stingy with it!"

The blue-robed man didn't finish his words, but left some leeway. He was probably not very familiar with the automatic alchemy furnace. He only knew about it but was not proficient in it. He needed to go back and confirm it.

Even so, Ouyang Changqing was already very satisfied. After thanking him repeatedly, he retreated to the side.

After that, they discussed the specific details, and Ouyang Changqing no longer had to step up. He obediently became the background board and witnessed the establishment of the cooperation between the two parties. Everyone was happy!

However, when the blue-robed man left, he seemed to have sneered slightly. The people of the Ouyang family were overjoyed and no one heard it ...

After obtaining the blue-robed man's promise, Ouyang Changqing no longer needed the clan's additional support. After bidding farewell, he quickly returned to the naduo martial Alliance branch.

Lin Yi's new medical center and shop had risen to fame during his absence, taking up most of the Imperial City's market share. Only a small number of people would choose to go to The Alchemist Association for treatment.

"Big brother, you're finally back! When would the family's help come? "If this continues, our alchemy Association will not be able to hold on any longer!"

When Ouyang Changhong saw Ouyang Changqing return, he immediately began to cry and complain, ""We've used up more than half of our funds on the poison pill incident and Sima Yi's side. In the end, our business is not doing well and we can't even recover our costs. Adding on our daily expenses, we really can't make it!"

The first hall Master had asked them to pay the compensation to the alchemy Association several times, but he refused to allocate more funds to them. After losing the profits of the alchemy business, the alchemy Association's finances were really stretched.

"No harm! We'll be able to make a comeback very soon! The central Chamber of Commerce in aojuan has already formed an alliance with our Ouyang family. Their blue-robed chief has already agreed to send over a batch of automatic pill furnaces!"

Ouyang Changqing was all smiles and was extremely happy when this matter was brought up. ""I'm telling you, the blue-robed CEO is really interesting. The automatic alchemy furnace he gave us, most of them are not inferior to the one in Sima Yi's hands, and some of them are even more advanced than the one in his hands!"

"With this batch of great killing weapons, what is Sima Yi? We have everything he has! We have what he doesn't have! I can definitely kill him!"

Ouyang Changhong was not so optimistic. He hesitated for a moment before saying, ""Big brother, this is indeed good news. However, the central Chamber of Commerce in aojin is far away, while the central Chamber of Commerce in nado is the real boss!"

"Even if we have the support of the central Chamber of Commerce on ao Qian's side, will we be able to win against Sima Yi? He's the central Chamber of Commerce now, so he's one of us. He's completely different from us!"

"Even if the blue-robed boss really supports us without holding back, Sima Yi also has a gray-robed boss. His support should not be any less than the blue-robed boss, right? Do we really have a chance of winning?"

Ouyang Changqing was stunned. He was too happy before and didn't expect this. Now that Ouyang Changhong said this, he felt a little uncertain!

"Don't think too much! Even if it doesn't work out, we won't lose to Sima Yi! The central Chamber of Commerce will definitely coordinate things well. Now, our Ouyang clan is a very important partner of the central Chamber of Commerce. Who is Sima Yi? At most, he's just a dog that has no other choice but to turn to!"

Ouyang Changqing tried to regain his dignity and found confidence for himself. "Chang Hong, tell me, would you offend your most important business partner for the sake of a servant who guards the house?"

Ouyang Changhong thought for a moment. Sigh, it really made sense!

In the eyes of people like them, servants weren't even human. It didn't matter whether they lived or died. How could they offend an important business partner for a servant?

Ouyang Changqing was comparing Lin Yi to a guard at the central Chamber of Commerce, and the Ouyang family to a business partner.

"Eldest brother's words are reasonable! This little brother is impressed!"

Ouyang Changhong laughed and cupped his hands to show his respect. He then said, "In that case, what should we do next? Why don't we just use the central Chamber of Commerce to deal with Sima Yi?"

"The central Chamber of Commerce is cooperating with the Ouyang family after all. We can't command them, so don't even think about it! Next, we have to make a big scene before the automatic pill refining furnace arrives!"

Ouyang Changqing knew that he couldn't get the central Chamber of Commerce to do anything to Lin Yi, so he focused on what he could control.

Chapter 8236 Envoy From Martial League

"First, we have to expand our business! No matter how much money the alchemy Association still has, we'll invest it all in. After that, we'll advertise it on a large scale. Once the automatic alchemy furnace arrives, we'll immediately start to distribute the goods. We'll definitely be able to snatch the market back from Sima Yi!"

"When the time comes, we'll see how Sima Yi cries! Hahahaha!"

"Big brother ... Are we really running out of funds this year? All of them?"

Ouyang Changhong felt a little guilty. Although he was confident, he still felt guilty. What if he was done with it? would the alchemy Association still exist?

"What are you afraid of? The alchemy Association belongs to the martial Alliance's branch. Do you really think that the martial Alliance's branch will just watch as the alchemy Association goes bankrupt? Forget it! Don't worry, just do it!"

Ouyang Changqing was now full of confidence and was not afraid at all. He thought that since he had established a connection with the central Chamber of Commerce, the first hall Master would definitely have some scruples, just like how he had scruples about the gray-robed manager!

Ouyang Changhong thought for a moment, and it seemed to make sense. Thus, he became very confident and patted his chest. "Don't worry, big brother. Leave it to me. I guarantee that everything will be done properly without any problems!"

And so, The Alchemist Association's expansion was put on the agenda, and it was very vigorous, very quickly reaching Lin Yi's ears.

"Ah? Ouyang Changqing and the others were expanding their scale? What was this? In a situation where business is cold and deserted, what's the point of expanding the shop and scale? Is it burning hands with money?"

Lin Yi was surprised to hear Zhang Yiming's report. He waved his hand, "But it doesn't matter, let them be! The alchemy Association has a strong foundation, so they can create anything they want without fear!"

"Boss, I think they're probably up to something again! We have to be on guard!"

Zhang Yiming didn't think much of it, but as the head of intelligence, he had to be careful. ""Previously, Ouyang Changqing disappeared for a period of time. According to our investigations, he seemed to have returned to the Ouyang family of the AO Qian conferred Empire! Maybe they have the support of the Ouyang family this time!"

"Hmm, that makes sense. Yiming, continue to keep an eye on him. If there's any movement, inform me! As for now ... We just need to maintain our own pace. We don't need to follow them!"

Lin Yi said after some thought.

"Yes, boss, I understand!"

Zhang Yiming bowed and left to find Fei daqiang.

Lin Yi didn't meddle too much with the medical center and pill shop after they were set up, leaving it to Fei daqiang to manage.

This guy was talented in business, after all. He might be more suitable for the job than Lin Yi.

Lin Yi didn't just sit around and do nothing-he'd been training his three disciples.

The three of them had their own training directions now, and with Lin Yi's targeted guidance, their training speed naturally couldn't be compared to their own!

Other than that, Lin Yi even used Central's name to publicly purchase the materials needed for making weapons.

However, a few of them were indeed rare and irreplaceable, so they had not been able to collect all of them.

After sending Zhang Yiming off, Lin Yi thought about whether he should continue teaching his disciple or go out for a walk and find some materials.

However, before he could make a decision, a disciple came in from outside and said that an envoy from the martial Alliance of the continent wanted to see him.

"The emissary of the martial Alliance? Why did he come here? I'm not a member of martial League anymore!"

Lin Yi frowned. The martial Alliance had crossed the line before, stripping him of his mentor's position for no reason and removing him from all his positions in the school.

Could it be that he thought he could remove all the positions in the center as well?

Hmm ... It seems possible. Perhaps this is the reason for Ouyang Changqing's unusual expansion?

The Ouyang family had previously influenced the martial Alliance, so it was not strange that they would do it again!

"Let the emissary of the martial Alliance in!"

Lin Yi waved his hand, a little displeased. He could've just ignored it, but he wanted to see if the Ouyang family was up to something again!

If it was really as he had guessed, it meant that the martial Alliance of this continent had been corrupted to the core!

Whether it was true or not, they would know when they came!

Soon, the messenger from the martial Union was brought in. After seeing Lin Yi, he cupped his hands politely and didn't put on a high and mighty attitude!

"You're President Sima, right? He was really young and promising! He's indeed a young genius like the rumors say ..."

The messenger complimented Lin Yi at first, but Lin Yi was a little confused. The messenger didn't look like he was here to remove him from his position!

Come to think of it, central and martial League were on the same level of power. It seemed that the martial League of the continent didn't care about Central's internal affairs ... He was too caught up in a dead end just now and didn't think about it!

"Let's cut the chit chat. I wonder what business the emissary has with you this time?"

Lin Yi didn't have the patience to listen to strangers complimenting him anymore and interrupted, "If it's just idle chit-chat, then I'm sorry I can't accompany you!"

"Hahaha, President Sima is really a straightforward person! Since that's the case, let's get down to business!"

The corners of the emissary's mouth twitched, but he immediately laughed heartily and said, ""We've come here this time to deliver a letter of appointment to President Sima. It should have been a little more Grand, but President Sima is not an outsider, so we've simplified everything!"

The messenger presented a scroll in front of Lin Yi with both hands-it was indeed simple enough!

Lin Yi blinked. A letter of appointment from the martial Alliance? This time, they changed their tactics. They didn't fire him, but appointed him?

"I'm sorry, but I'm no longer related to the martial Alliance. I'm not interested in accepting this appointment!"

Lin Yi didn't even raise his hand, letting the messenger carry the silk. "Emissary, you must be tired from traveling so far. Why don't you have a meal, rest a little, and go back early?"

The corners of the emissary's mouth twitched again, thinking that this Sima Yi was really ruthless, directly starting to send the guest away!

And a meal? If you don't accept the letter of appointment, you won't be eating a simple meal, but a meal that will end your life!

"No... President Sima, why don't you take a look first? Maybe you'll be interested after you see it, right?"

The emissary didn't even realize that his voice was almost pleading!

Lin Yi was going to refuse, but the Messenger's pitiful eyes reminded him that it must've been hard for the guy to come all the way here-he'd even been sucking up all day.

Although Lin Yi didn't like the flattery ... The guy had already shown his sincerity, so he had to at least give him some face and comfort him!

"Alright, alright, but I don't have the patience to read it. Just read it out loud, and then go back to where you came from!"

When the messenger heard this, he thought to himself, I'm really F * cking stupid! When the appointment letter came down, it had to be read out, so what was going on with stuffing people into their hands?

He had really lost his mind!

Chapter 8237

"Then I'll read it out, President Sima. Listen carefully!"

The emissary smacked himself on the head, then quickly opened the silk scroll and began to read.

In the beginning, it was just a bunch of fancy words piled up with fancy words. It sounded nice, but it was actually meaningless. It was all just empty talk.

After all this was over, they finally entered the main topic. In the end, the main content was not even one-fifth of the superficial content from before.

To sum it up, the martial Alliance's central Chamber of Commerce recommended Lin Yi to be the manager of the central communications Department of the martial Alliance branch in naduo.

The title was quite long, and Lin Yi didn't pay much attention to it. He was in a daze for a moment, and he couldn't remember what it was!

He didn't understand what kind of position the martial Alliance was giving him, but he guessed that it was probably similar to the Liaison Office of the different countries in the secular world.

That's basically what it means. I wonder what use it has?

"What's the main role of this something-something Communications Department manager?"

Lin Yi asked, confused. He really wasn't planning on getting it.

"This ... Is responsible for the communication between central and martial League, right? There was some unpleasantness before, so how about we let it go?"

The messenger was obviously an insider and knew how the martial Alliance dealt with Lin Yi before. They sent him here to use this opportunity to bury the hatchet!

"You specialize in this? Your martial Alliance is really concerned about central, to set up such a Department to connect with central ... I have an idea!"

Lin Yi smiled politely yet awkwardly, "I want to know, was the order from the martial Alliance the same person as today 's?"

"I'm not too sure about this. After all, I'm just an emissary in charge of running errands. It's fine to just chat. I don't know anything else!"

The messenger also smiled awkwardly and left.

Lin Yi nodded and didn't go see the messenger off. He was thinking about central!

From the change in the martial Union's attitude towards Lin Yi, it was clear that the martial Union's emphasis on central was far beyond their imagination.

From this, it could be seen that the development of the sub-Island had exceeded his previous expectations!

It was terrifying!

Lin Yi was wrong this time. The martial Alliance would take central seriously, but they wouldn't be this scared.

An Honorary President of a central Chamber of Commerce's branch wasn't enough for the martial Alliance to curry favor with him.

To put it bluntly, it was the guy who targeted Lin Yi last time who felt guilty.

Lin Yi's punishment was already against the rules, and the higher-ups of the martial Alliance didn't even know that they were only punishing him because of the Ouyang family.

He had thought that he was just dealing with a young teacher who had no foundation. So what if he had some talent?

The martial Alliance had never lacked geniuses, but these geniuses also had the highest death rate!

Before they grew up, geniuses without any background would only sound better than ordinary people!

Now that Lin Yi had become a member of the central Chamber of Commerce, the martial Union headquarters might not care, but the people who had dealt with Lin Yi before were afraid!

The center was indeed powerful. The martial Alliance wasn't afraid of it, but as an individual, he was scared to death.

Lin Yi was working with central now, using Central's name to do things. How would he know what Lin Yi's relationship with central was?

In order to get rid of the potential threat, the person who was targeting Lin Yi changed his mind and submitted a proposal to set up a central Communication Department for the martial union branch in naduo, with Lin Yi in charge.

In terms of rank, it was equivalent to the martial Alliance branch's vice Hall Master, and it could wear the badge of the two golden swords.

Lin Yi was at this level when he was the president of combat and alchemy, too.

This suggestion was quickly approved because one of the higher-ups in the martial Alliance who turned a blind eye to Lin Yi's punishment was starting to regret it.

In order to not leave behind any future problems, they put in a little effort and passed this proposal.

Lin Yi, of course, didn't know the details. He thought that central was strong enough to shock the entire martial Union, and was a little worried!

Lin Yi looked at the silk in his hand and threw it on the coffee table.

To be honest, he didn't even know what the manager of the contact office was supposed to do. It was more like a nice-looking title.

The only benefit was that he was free from the control of the naduo martial Alliance branch.

Because this position didn't say who he was responsible for, it was a rather strange and special existence.

On top of that, Lin Yi's mentor status was also restored.

As long as Lin Yi wanted to, he could find a student to continue teaching.

Lin Yi only curled his lips at that, thinking to himself that he had nothing better to do than to change his mind.

Lin Yi himself didn't mind, but someone else did.

Not long after Lin Yi received the appointment letter, Hua Yao rushed over.

"President Sima, I heard that the martial Alliance has sent a letter of appointment to you. It mentioned that you've been reinstated as a teacher?"

Hua Yao looked at Lin Yi anxiously, hoping for a positive answer.

Lin Yi didn't let her down-he smiled and nodded, "That's true. Principal Hua, you're really well-informed. I just received the appointment letter and you've already received the news! Amazing!"

Regardless of how Hua Yao had obtained the information, his intelligence gathering skills were simply amazing!

"hahaha, that's because this old man has been paying attention to president sima! that's why he was the first to receive the news, but he didn't dare to confirm the truth! now that it's been confirmed, i can finally rest assured!"

hua yao laughed heartily, his expression one of extreme joy. "president sima, this old man knew long ago that what happened before wouldn't have any effect on a great talent like you! it was indeed the case now! i heard that you've also been appointed as the manager of a newly established organization in martial league, and your rank is equivalent to a vice hall master, right?"

"I heard that principal Hua is well-informed. She really knows everything!"

Lin Yi nodded with a smile-there was no point in denying something so trivial. "Looks like I'll have to rely on principal Hua's intelligence network in the future. That way, I won't be tricked by others without knowing."

"This matter is easy to deal with. In the future, this old master will specially arrange for people to inquire about information. If anyone wants to harm you, I will definitely inform you in advance!"

Hua Yao immediately agreed and then said, "President Sima's status is different now. He's the direct superior envoy sent by the martial Alliance of the continent! Why don't you take the time to come back to our Fu Yao apothecary school for an inspection?"

Chapter 8238

"Principal Hua, you and I are no longer considered outsiders. If you have something to say, just say it. Why beat around the bush?"

Lin Yi looked at Hua Yao with a half-smile. "If you think that there's still a place for me, Sima Yi, in Fuyao Alchemy School, then I'll go back and help you teach your students. Don't give me those empty words! What envoy? these words don't sound good!"

"Hahahaha, you're still the straightforward one. I'm a little petty! Fine, since that's the case, it's settled then. You'll remain the same as you were in the fu Yao apothecary school!"

Hua Yao clapped his hands and laughed.

In the past, Lin Yi's talent was enough to move him, and now that Lin Yi had even more halos on him, Hua Yao naturally wanted Lin Yi to return to the school.

That's why he rushed over as soon as he heard the news. He was afraid that the longer he waited, the more likely it would be for someone else to get there first!

"Okay, it's a deal then. When I'm free, I'll go over and start the class. I'll let you know in advance then!"

Lin Yi had only agreed to continue his position in the school because of Hua Yao, but he definitely wouldn't be permanently stationed there.

As for Qin mengzhen and the other two ... They were also children with many misfortunes.

They came and went from the Alliance School, and even the Fuyao Alchemy School. Lin Yi considered not letting them in.

He didn't want to be expelled again. Anyway, it was more convenient for him to teach them, and he didn't care about the Academy's courses.

"Alright, alright, it's a deal! I'll go back and wait for your notice!"

Hua Yao's smile was so wide that his eyes couldn't be seen. "I won't bother you today. When you're free, let's have a few drinks to celebrate. How about it?"

"Of course I can't ask for more, I'll find you when I have time!"

Lin Yi smiled as he sent Hua Yao off. On the other side of the Imperial City, in a martial Alliance branch, the first hall master's face was extremely dark.

Since even Hua Yao had received the news, it was only natural that he, the first hall Master of the martial Alliance's branch, had received the news as well.

The notice was sent directly to him by the martial Alliance, and the content was pretty much the same as Lin Yi's appointment letter, except for the less fancy words.

The first hall master's expression was extremely ugly. He was actually more afraid in his heart!

He was someone who didn't like trouble, and that was why he kept picking on Lin Yi to avoid trouble. He didn't think that the more he was afraid of trouble, the more trouble he got!

Not only was Lin Yi the Honorary President of the central Chamber of Commerce, but he was also connected to the martial Union of the continent!

He didn't know how the process was, but Lin Yi's connection with the martial Alliance was a fact.

Why else would the martial Alliance set up a new position for Lin Yi?

His rank was the same as the Vice Hall Master, but he was not under the martial Alliance's jurisdiction. This status was not much different from his, the first hall Master!

The first hall Master felt like he was sitting on a bed of needles as he recalled all the betrayals, betrayals, and attacks he'd done to Lin Yi.

He really couldn't sit still, so he could only get up and walk around the room, thinking hard about countermeasures!

after thinking about it, there seemed to be only one way to reconcile with lin yi!

"someone, go and invite vice hall master hua here. tell him that i have an urgent matter to discuss with him. ask him to come here as soon as possible. don't delay!"

naturally, the first hall master's plan was to find the language of transformation to ease the tension between them.

other than this, he couldn't think of any other way!

someone outside the door answered, and then there was the sound of rapid footsteps.

soon, the artifact language was found.

the notice from the continental martial alliance was not only sent to the first hall master, but also to the deputy hall master, the language of the living things.

so when the head's men found the language of living things, he was happy for lin yi!

Upon hearing the first hall master's summon, the monster language probably knew what was going on. To be honest, he was secretly feeling a little happy!

Who told you to be short-sighted!

Who told you to look down on us brothers!

Do you regret it? Are you anxious? He deserved it!

However, when they arrived at the hall master's place, artifact language's face remained expressionless. He greeted, ""First hall Master, why are you looking for me in such a hurry? is there an urgent mission? Please give me your orders, Hall Master. This subordinate will definitely do anything for you!"

"Elder, don't be so serious. We're old brothers. Why are you being so distant? Come and sit down, I don't have any urgent task here, I just want to have a chat with you!"

The first hall Master stood up and welcomed them warmly. He pulled Hua Yu to sit down and said, "Speaking of which, we haven't had a good chat for a long time. Just now, I thought of the time when we were doing missions together. We risked our lives and trusted each other's backs. We were so carefree and trusted each other so much!"

"I don't know when it started, but you've become distant from me. We're Good Brothers, good partners! If there's anything you're dissatisfied with, just say it in front of me. I'll definitely listen to your opinions with an open mind and change what I have to say!"

the artifact language sneered in his heart. "don't you know why we're so distant?" do you still need someone to reveal it for you in front of everyone?

"first hall master must be joking. this subordinate has no dissatisfaction. it's all within my duty. it's my duty to do it well. if i don't do it well, i will be punished. first hall master, don't think too much!"

of course, the artifact language wouldn't say what was in its heart out loud. otherwise, this petty first hall master might make things difficult for them later!

it wasn't like the monster language didn't try to defend lin yi before, and it ended up like this.

even though it was weak, the monster language did not want to be snubbed.

"Hehe, elder, you're being a little emotional when you say that! But it doesn't matter, I understand! There are some things that you should be clear about. I have no choice!"

The first hall Master heaved a long sigh and began to pour out his grievances. ""It's not that easy to lead a martial union branch. Sometimes, no matter how unwilling you are, you have to compromise. Otherwise, it's hard to predict what the consequences will be!"

"We're Good Brothers. I don't feel good when you're wronged, but I have no choice! All of these stances had to be shown to others! When the storm is over, how can we, these old brothers, treat them shabbily? Don't you think so?"

The artifact language sneered in his heart, but he nodded perfunctorily. "First hall Master is right. We are all brothers who have gone through life and death together. I understand, I understand!"

Understand my ass!

If I really believe your nonsense, I'll become a lonely ghost sooner or later!

the great hall master naturally saw the disapproval of the language of the living things, but he did not care. he continued to talk about the past and tried to build a relationship with the language of the living. then, he revealed his true intentions and began to get to the main topic!

Chapter 8239

"Aging, Speaking of which, it wasn't just you who suffered, Sima Yi also suffered a lot! I actually know that those things have nothing to do with him, but I still have no choice!"

"All this time, I've always felt guilty towards Sima Yi and you. I've been thinking about how I could make it up to you, but I never had the chance! "It's all good now. The clouds have finally parted, and the moon has finally come to light. Sima Yi has obtained the approval of the martial Alliance of the continent and has been appointed as the manager of the central Communication Department of the martial Alliance branch in naduo. I finally have the chance to open my eyes for him!"

The language of the living things wanted to laugh out loud when he heard this. Sima Yi had already become the manager of the central Communication Department of the martial Alliance branch in naduo. Why would he need you to take care of it?

It's already good enough that I didn't come to you to open your eyes!

"After all is said and done, we're all on the same side. We're brothers, and you're also brothers. "How about this, you go look for Sima Yi and invite him to the martial Alliance branch as a guest. The three of us will have a good drink or two and get to know each other better. In the future, we can go on missions together. With him joining us, our success rate will be much higher!"

The first hall Master didn't realize how thick-skinned he was. In any case, the monster language was disgusted by his words.

At this time, he thought of looking for someone to cooperate with, or to put it bluntly, he was looking for someone to help?

What were you doing earlier? Not only did he not help, he even hit him when he was down!

Monster language really wanted to spit on the first hall master's face to wake him up.

But then again, did the first hall Master still have any face?

He was completely shameless, alright?

"Elder, what do you think of this? Can you do it?"

The first hall Master looked at the monster language with hope. It was his only hope to ease the tension between him and Lin Yi.

If the artifact language didn't agree, it would be a big problem!

"Mm ... We can give it a try. It's just that I can't say for sure whether younger brother Sima is willing to come to the martial union branch. After all, our martial union branch did hurt younger brother Sima's heart previously!"

The artifact language said indifferently.

He didn't want to help the first hall Master, but Lin Yi's return was what he wanted to see, so he decided to give it a try.

It would be good if he succeeded, but it didn't matter if he didn't. At least he wouldn't have any regrets.

"Yes, yes, yes. As long as Sima Yi can come, we will definitely be able to bury the hatchet. We will all be colleagues in the future, and I think he will not be too obsessed with the small things of the past. Our cooperation will obviously have greater benefits!"

The first hall Master was all smiles. As far as he was concerned, it was basically a deal now that the beast transformation language had agreed to invite Lin Yi!

The artifact language was disdainful. It couldn't understand why it had partnered with such a person before. The only explanation was that it was blind!

It was a little funny, but since he'd agreed to it, transformation language didn't want to be perfunctory. He got up and left for Lin Yi's clinic.

Lin Yi greeted them personally when they arrived at the clinic. "Brother Hua, what brings you here today? I haven't seen you for many days, this little brother has missed you!"

"Hahaha, younger brother Sima, your words aren't completely true. If you really missed me, why didn't you come and see your older brother!"

Beast language walked up and greeted Lin Yi with a smile, ""Do you think that I should come to your place because I'm usually very free?"

"Brother Hua, you really know how to joke. No matter how free you are, you're still the Vice Hall Master of the martial Alliance's branch, and you're always busy with work! Actually, I really want to visit you, brother Hua, but it's really not convenient to go over after the mess with the martial union branch!"

Lin Yi smiled and waved his hand. He didn't want to go to the martial union branch anymore, considering his relationship with the first hall Master and the Ouyang brothers.

Although he didn't really care, he didn't want to go there for no reason.

"It's this old brother's slip of the tongue, but it doesn't matter. From today onwards, brother Sima, you're completely different! I'm sure the letter of appointment from the martial Alliance has already been delivered to you. I'm here today to congratulate you!"

The artifact language cupped his hands and said, ""Congratulations, younger brother Sima. You've managed to hold on until the clouds parted and the moon brightened. You can return to martial League openly again!"

"It's just a small matter, not worth mentioning. I've troubled brother Hua to personally make a trip! Just nice, we can have a chat!"

Lin Yi invited the language of manifestations into the living room and had some tea and snacks served. He continued, "Brother Hua, how have you been?"

"It's nothing much, I'm just living like that!"

"If you hadn't suddenly become the manager of the central Communication Department of the Dazhou martial Alliance's branch in naduo martial Alliance, I'm afraid I would have been bored to death." The artifact language shook his head with a bitter smile.

"To be honest, I came here this time not only to congratulate you, but also for another matter. The first hall Master wants to invite you back to martial Union as a guest, and at the same time, explain what happened before so that everyone can come to an end."

Lin Yi had expected this-he knew what kind of person the first hall Master was.

It had been some time since the appointment letter had been issued, but the monster language had only come now. In addition to congratulating him, it must have been the Great Hall master's intention. Otherwise, the monster language would have come earlier.

After all, even Hua Yao had come and left. The news from the martial Alliance's branch's Deputy Hall Master, the language of the living things, should not be any slower than Hua Yao 's!

"Brother Hua, let's forget about being a guest at the martial union branch. I don't want to see the first hall Master for the time being. We'll talk about it in the future when we have the chance. After all, I've become the manager of that whatever-whatever Communications Department, so I'll definitely go to the martial union branch often."

Lin Yi didn't want to deal with people like the first hall Master, so he rejected the beast's offer. The beast couldn't do anything about it.

"Alright, brother Sima, whatever you say. There will be plenty of opportunities in the future anyway, so there's no need to rush!"

The monster language was a little disappointed, but it wouldn't force Lin Yi to go.

No matter how much he wanted Lin Yi to be tied to the martial union branch, he wouldn't force Lin Yi to do something he didn't want to!

Lin Yi said after some hesitation. "Brother Hua, there's something this little brother has to say, you'd better listen! The first hall Master is not a responsible person!"

"Or rather, the first hall master's personality is completely self-centered. As long as there are benefits and no trouble, he will do things by hook or by crook. Brother Hua, if you want to cooperate with the first hall Master to complete the mission ... It's best if you don't cooperate. If you really can't, you have to be more careful and be on guard against the first hall Master!"

Lin Yi wouldn't have said something like this to someone he wasn't on good terms with, but the language of the living things was different.

The two of them were comrades-in-arms, and the language of the living things was important to Lin Yi.

That was why they had this feeling of having a deep conversation!

"I understand. Don't worry, brother Sima! Actually, first hall Master isn't as bad as you think, he's just a little selfish!"

Lin Yi waved his hand, indicating that he didn't want to continue this topic.

Chapter 8240

At the same time, Ouyang Changqing and Ouyang Changhong gathered together with ashen faces. They were extremely indignant!

"Big brother, what's going on? "Sima Yi suddenly became that whatever martial Alliance central contact manager, and he can openly return to the martial Alliance branch ..."

Ouyang Changhong's expression was bitter and bitter, and he was extremely displeased. "Also, I heard that the person who mentioned this appointment ... Was that person! He's a member of our Ouyang family, how could he suddenly turn his back on us ..."

"shut up! is this something you can say? if the walls have ears and the news is leaked, the clan's previous efforts will all be in vain. can you bear this responsibility?"

ouyang changqing was also very annoyed, but he still had a clear head. he scolded ouyang changhong in a low voice, not letting him continue to talk about the ouyang family's mysterious support in martial league.

"why would the walls have ears? big brother, you're too careful. besides, i'm just telling the truth. there's no problem ..."

ouyang changhong was still not convinced and muttered in a low voice, "that person is too unreasonable, why ..."

"I told you to shut up! You're still talking!"

"Shut up!" Ouyang Changqing scolded in a low voice and even glared at him. Only then did Ouyang Changhong stop talking!

"No matter what, it has already happened. It might be because of Sima Yi's close relationship with central ... It's a pity that our Ouyang clan's cooperation with central can not be made public. Otherwise, we could also borrow some power!"

Ouyang Changqing felt that it was a great pity. Central wanted to borrow the Ouyang family clan to refine and sell the pills, but they couldn't expose the fact that central was behind it. Therefore, this cooperative relationship was strictly prohibited.

If it was leaked, not only would central not admit it, but they would also try to take revenge on the Ouyang family. This was what they had agreed on at the time.

If Ouyang Changqing dared to disobey, not to mention the blue-robed man in the center, the Ouyang family would come to clean up the house themselves!

"Brother, why don't we contact the blue-robed director and ask him to help us in secret? At the very least, we have to stop the gray robes from supporting Sima Yi!"

Ouyang Changhong wasn't willing to give up-he still wanted to use central to control Lin Yi."It doesn't matter if I try. What if I succeed? Even if the blue-robed man doesn't agree, I don't think he'll have too much of an opinion about us, right?"

As long as they didn't reveal the fact that they were working together, it was indeed safer to ask about the possibility of helping.

Ouyang Changqing was slightly moved. After some consideration, he really wrote a letter and asked Ouyang Changhong to arrange for it to be sent back to his family. His family members would then hand it over to the blue-robed director of the AO Qian central Chamber of Commerce.

As for the results, they could only wait!

As Ouyang Changhong arranged for someone to deliver the letter, the language of the living things said goodbye to Lin Yi and returned to the branch to report to the first hall Master.

"First hall Master, younger brother Sima is busy with many things and has no time to come over as a guest for the time being. He asked this subordinate to thank you and convey his apologies. After everything is settled, he will definitely come over to visit."

Beast language didn't want to say that Lin Yi rejected him directly, so he made it sound as beautiful and tactful as possible for the sake of the future. He hoped that Lin Yi wouldn't pick on him when he returned to the branch.

"That's true. Sima Yi has several jobs now, and many things have just started. It's normal to be busy. You're right. There will be plenty of opportunities when things are sorted out. There's no rush!"

Although the first hall Master was smiling, his smile was a little stiff, and there was a faint sense of loss in his eyes.

Clearly, he was disappointed that the language of manifestations didn't get Lin Yi to come.

The only good thing was that he didn't go to Lin Yi himself, or he'd lose face!

After the artifact language gave a reply, there was nothing else to say. He said a few perfunctory words and left.

Outside the door, the artifact language looked up at the sky and thought of the time when he had a good relationship with the first hall Master. They had a lot to talk about.

He didn't expect the world to be so fickle. After going out and going through life and death together, their relationship would actually take such a sharp turn. It really made him sigh!

In the imperial capital, the different forces had different reactions to Lin Yi's appointment as martial Union's central Liaison Manager.

As a man with storm eyes, Lin Yi didn't think too much about it and continued with his routine.

The next morning, Lin Yi left for the school. It wasn't to look for Hua Yao, but to look at the books in the school.

He hadn't had the chance to visit the library of the Fuyao apothecary school before, but now that he had met up with Hua Yao, he could take a look at the books there.

"Hahaha, this old man thought something good would happen this morning, but I didn't expect it to be because you're coming, Sima. This is great!"

Hua Yao received the news that Lin Yi had arrived and immediately came out to welcome him, showing how much he valued Lin Yi. "It just so happens that I'll take you to gather all the teachers and students to welcome you again and celebrate the return of our honorary Dean! This is great news!"

"Principal Hua, there's no need to go through so much trouble, right? It hasn't been long since the last time, stop tormenting everyone!"

"Dean Hua can just send a message that I'm coming back," Lin Yi quickly waved his hand with a smile, "everyone knows who I am, so there's no need for me to come back again!" I've also come today for some other matters. "

"it's a big deal that you're back. why don't you let everyone have a good time? at the same time, you can also give everyone another lesson. the lesson you gave last time was unforgettable and everyone benefited a lot!"

hua yao laughed heartily. he wanted to use this opportunity to get lin yi to give another big lecture, and it was worth it to gather all the teachers and students!

"forget about the lessons ... there will be more opportunities in the future!"

lin yi, of course, rejected the offer. he didn't mind giving a class, but gathering the whole class and doing it like that would waste a lot of time, and there was no need for all the formalities.

"alright, you're right. there will be plenty of opportunities in the future!"

Hua Yao didn't insist-Lin Yi's return was already a great deal."By the way, you said you had something else to do. What is it? Do you need my help?"

"En, it's nothing important. I just want to go to the academy's library Pavilion to take a look and read the books inside."

Lin Yi didn't need to be polite with Hua Yao and asked what he wanted to know,"Principal Hua, is the Academy's library completely open to me?"

"Of course! You're the honorary principal of our Fu Yao apothecary school. If even you have restrictions, who else can go to the library without restrictions?"

"Don't worry,"Hua Yao laughed heartily," just go and read whatever you want to! The library Pavilion has restrictions on both students and teachers, so you don't have to worry about that. How about I take you there?"
