Chapter 8241

"No need, no need. Principal Hua, you can go and do what you need to do. I know the location of the library Pavilion. I can go there by myself and take a look at the scenery of the Academy while I'm there."

"Fine, then this old master won't bother you anymore. If you need anything, you can come to this old master at any time!"

Hua Yao nodded with a smile and bid Lin Yi farewell.

He did want to chat more with Lin Yi to improve their relationship, but since Lin Yi didn't want to, he didn't insist.

Lin Yi made his way to the library slowly after parting ways with Hua Yao, and all the teachers and students he met on the way would move to the side and bow to him.

It was obvious that Lin Yi's last lesson had left a deep impression on everyone in the school, and at the same time, it had brought Lin Yi a huge reputation.

Alchemists were a proud race, but when they met a more brilliant Alchemist, they would be sincerely convinced and admired.

Lin Yi's display of skill in the field of alchemy was enough to make the entire Fuyao apothecary school submit to him!

"Greetings, Dean Sima. Welcome to the Library Pavilion, Dean!"

As soon as they entered the library Pavilion, the manager inside quickly stepped forward and bowed. "Dean Sima, what book do you want to read today? This subordinate is extremely familiar with the entire library Pavilion. As long as there's a title, this subordinate will be able to find the book for principal. "

"Hello! No need to trouble yourself, I'm just here to take a look, you don't need to worry about me. "

Lin Yi shook his head with a smile as he looked around.

The entire library Pavilion was divided into several floors. At this moment, there were a few students on the first floor at the bottom. They were all very quiet, very similar to the libraries in the secular world.

Although they saw Lin Yi, the students were only a little excited and greeted him from a distance, not running over to make friends.

"Yes! Then please feel free to do as you please, Dean Sima. If you need anything, just call for me at any time!"

The administrator smiled and bowed, maintaining a low voice, "The entire library Pavilion has a total of four floors. The first floor is open to all students, the second floor requires an application, and only after the application is approved can students go up. As for the third floor, only teachers can go up. The fourth and final floor is a secret. In the entire Academy, only the principal and a few Vice Principals are allowed to enter. "

"Headmaster Sima's status is different, so he can naturally go to any level he wants. This subordinate suggests that headmaster Sima go directly to the fourth level, where the most valuable and valuable books of our Fuyao apothecary school are located!"

"Thank you for your guidance. I'll go to the fourth level to take a look!"

Lin Yi nodded.

"No problem. Dean Sima, this way please. This is the exclusive staircase that leads directly to the fourth floor. If you can't find the book you want to read on the fourth floor, you can go down to the third floor or the second floor from another staircase!"

The administrator led Lin Yi to the private stairs and invited him up respectfully.

Wasn't this equivalent to the library Pavilion's VIP passage?

Lin Yi chuckled to himself. He didn't think that the Fuyao apothecary school would do something like this.

However, after thinking about it, he understood. If Hua Yao wanted to go to the fourth floor to find some information, he could take the ordinary passageway. Whether it was students or teachers, they would definitely come up to greet him when they saw him, affecting the environment of the library Pavilion. It was more convenient to go up quietly like this.

No matter what, Lin Yi felt that it was quite convenient to have this special privilege.

After reaching the fourth floor, Lin Yi spread out his spirit sense and quickly scanned through the books.

As expected of the top apothecary school in the NA duo conferred Empire, the variety and value of the books in the school's collection was also second to none!

Lin Yi scanned the books as he flipped through them-they were all useful books, far more than all the books he'd gotten before combined.

It was just that the books on the fourth floor were all rare and unique, and the ones that were stored here were all carefully selected books. There weren't too many of them, and Lin Yi finished scanning them very quickly.

He went down the ordinary stairs to the third floor, still scanning and reading books at the same time. Occasionally, he would smile and nod at the teachers he met on the third floor.

After finishing the third floor, he continued down to the second floor, and the number of books increased exponentially as he went down. Lin Yi scanned through the books like he was drunk, and felt that it was a huge gain!

The books on the first floor, on the other hand, were more basic. Lin Yi had scanned through them when he was talking to the administrator, and at least 90% of them were old books.

It wasn't very useful to Lin Yi, so he wasn't very interested in the first floor.

After scanning the second floor, Lin Yi walked down the stairs, ready to leave.

Unexpectedly, there was a small conflict at the stairs.

"Teacher, I've already applied many times. Please allow me to go up to the second floor to look for some information!"

A thin young man had a pleading look on his face as he begged the administrator to let him go to the second floor.

To Lin Yi, the books on the second floor were only for him to fill in the gaps, but to this student, it was a chance for his life.

"You've applied for it so many times and been rejected so many times. Why don't you understand?"

The administrator was very helpless and shook his head, "You know that you're not qualified enough, so don't make things difficult for teacher, okay?"

"Teacher, I only need to go up to the second floor once. Please grant my wish!"

"Enough, enough. You're a piece of trash who doesn't even have a pill fire. It's already not easy for you to stay in the Fuyao apothecary school and study. To put it bluntly, what can you do if I let you go up? Trash without a pill fire, even if I let you read those books, they won't be of any use!"

Another student at the side was a little unhappy and directly sneered and ridiculed, immediately drawing the agreement of the other students.

"That's right, if it wasn't for your dead old man's contributions to the Academy, do you think the Academy would accept a person like you as a student? An Alchemist without a pill fire ... Wouldn't people laugh at him if they knew about this?"

"That little bit of battle credit is enough for most of it to pass! Could it be that this brat still wants to lie on the credit book for his entire life and not let go?"

"If you don't even have a pill fire, what qualifications do you have to stay in the Academy? He had wasted a spot for no reason! He was really a dog in the manger! I hate this kind of people the most!"

The surrounding students chimed in one after another, surrounding the male student who wanted to go upstairs and began to jabber on and on about the male student.

Lin Yi didn't want to get involved at first-he'd let the students handle their own internal disputes.

At the very least, there was still the library Pavilion's administrator at the side, he couldn't just watch her die and not do anything, right?

Unfortunately, the administrator had no intention of standing up for him. He only advised him with a few words and then retreated to the side to watch the show.

It couldn't be helped, these students who were watching were the elites of the Academy!

Chapter 8242

As for the one being mocked, he didn't even have a pill fire. Was there even a need to ask how he would fare in the fu Yao apothecary school?

Lin Yi frowned, a little displeased.

This was the Academy's library Pavilion, and these people's noise was very damaging to the atmosphere!

The quiet atmosphere of a student Lin Yi had seen when he first came in was all gone!

That administrator was really somewhat incompetent. Shouldn't his duty be to maintain the order of the library Pavilion?

However, this person was clearly trying to smooth things over and not offend either party.

Just as Lin Yi was considering whether he should speak up to quiet the crowd down, a student suddenly jumped out!

This person rushed up at the speed of a ball and kicked the head of the elite student who was the first to find trouble with him. The student was immediately stunned.

Lin Yi was surprised. The person who kicked him was someone he knew. It was Diao mang Tian, the one who said that he would protect Lin Yi when he first came!

I didn't expect this kid to be so tough. He didn't say a word and directly started ... Using his feet!

"Diao mang Tian, are you crazy? Just attacked me? Do you think that you can do whatever you want just because you have an uncle in charge? Don't you know that you can't just offend anyone?"

The elite student who had been kicked in a daze regained his senses. There was a big Foot mark on his forehead, and he jumped up in exasperation, wanting to fight Diao Mantian to the death. However, he was pulled back by the people at the side!

"Calm down! Calm down! Ouyang, calm down! This is the library Pavilion, you can't make a move. Wait until we leave the library Pavilion before dealing with him!"

The person beside him advised.

"Calm down my ass! Diao Mantian, you little bastard, how dare you kick me! Are you tired of living? Your uncle is just a small manager, do you really think he can protect you?"

The elite student named Ouyang had completely lost control of his emotions. He couldn't do anything as he was being held back by someone. He could only point at Diao Mantian and curse, "I'm an elite student of the Academy, and a disciple of the Ouyang clan, an Alchemist family. Who Do You Think You Are to hit me? If you don't kneel down and apologize, I'll kill you. Do you believe me?"

Lin Yi's eyes flickered. Was it the Ouyang family?

In that case, this kid's backing in the imperial capital must be Ouyang Changqing and Ouyang Changhong from the martial Alliance's branch.

Interesting!

"So what if I hit you? I'm already letting you off easy! What has it got to do with you, Ouyang Fantong, that she wants to improve? Is there a need for you to be here and blabber? To tell you the truth, I can't stand the rotten things you rotten people do. What elite student? bah!"

Diao mang Tian was really a little overbearing. Facing an opponent who had an advantage in status, background, strength, and numbers, he was not afraid at all. He did not back down an inch and cursed back!

It wasn't just Ouyang Fantong alone, but all of them!

"Diao mang Tian, what's wrong with you? Had he gone crazy? What does this have to do with you? What right do you have to stand up for justice? Who didn't know who? Why didn't you have this sense of justice when you bullied others in the past?"

The student next to Ouyang Fantong didn't want to be outdone and retorted, "You're not a good person, so why are you acting all high and mighty now? What's up, is this kid your lover? I didn't know you had this kind of taste!"

"Bah! You trash, your brains are indeed filled with dirty and filthy thoughts. I really find it dirty to even talk to you!"

Diao Mantian pursed his lips in disdain. "I, Diao Mantian, have always been a good student with a strong sense of justice. I never bully students. Don't you guys talk nonsense and make slanderous accusations. I'm telling you, it's useless!"

"If there's injustice, someone will step on it. If there's injustice, someone will care! I, Diao mang Tian, am that promising youth who had shouted at the injustice on the road. If you want to bully me, you have to ask me first if I agree!"

Diao Mantian's aura was full of vigor, and he even put on a stance of a life and death struggle. He really did look a little mighty.

Ouyang fan's anger exploded. He was about to make a move. This time, the other elite students didn't stop him. They even surrounded him.

Who asked Diao mang Tian to scold them all with a single sentence? if they didn't beat him up, it would be hard to dispel the hatred in their hearts!

This time, the administrator was somewhat numb. If they really fought in the library Pavilion, the student who caused trouble would definitely not be able to escape punishment. He, the administrator, would similarly be unable to absolve himself of the blame!

The problem was that there were too many of them, and he really didn't have the confidence to stop them!

If he were to break some books or the like, his job as the administrator would be over!

Diao mang Tian pretended to be calm in front of the menacing students, but he was panicking inside.

He wasn't afraid of a one-on-one fight, but a one-on-one fight with a group of them ... He really couldn't hold on!

He had no choice but to use his trump card!

"How audacious! In front of our respected honorary Dean, Dean Sima, not only did you bully your classmates, but you also besieged the righteous young man? Do you really think you can do whatever you want with your background? Do you believe that you will all be fired?"

Lin Yi couldn't help but smile. So Diao mang Tian had already noticed him?

When he came down from the second floor, there was a corner that blocked most people's view, but it didn't affect Lin Yi's view of the situation.

Lin Yi had stopped at this corner and watched the situation unfold. Neither the caretaker nor Ouyang Fantong noticed Lin Yi's presence.

Could it be that Diao mang Tian had seen it, and that was why he had suddenly exploded, jumping out with a sense of justice to fight for justice?

Was it because she knew Lin Yi was here and wanted to show off?

Heh...What a clever little boy!

Ouyang Fantong and the others all stopped in their tracks. They all knew who principal Sima was. They were also part of the audience in the hall of rites.

So they knew that even though Lin Yi was an honorary Dean, he had the same amount of authority as a Vice Dean. He could easily deal with them if he wanted to.

The librarian was even more shocked-he knew that Lin Yi was in the library, so he believed Diao Mantian's words even though he didn't see him!

The administrator hurriedly came forward to reprimand them, "you guys, stop it!" This was the library Pavilion, where were the rules? Spread out!"

Lin Yi walked down the stairs slowly. Since he'd been seen by Diao mang Tian, it wouldn't be appropriate for him to just stand around the corner.

"Student greets Dean Sima!"

Diao mang Tian had been paying attention to Lin Yi's movements the whole time, so he was the first to come over and bow. His eyes were indeed extraordinary!

The protagonist who was bullied and the student who had become invisible also quickly bowed.

Then, it was the wardens "turn. Ouyang Fantong and the others were all panicking as they saluted Lin Yi guiltily.

"Ouyang Fantong, keep jumping! Continue to be arrogant! Why aren't you talking? Wasn't the Ouyang family very powerful? Don't be scared! Come, come, come, this young master will stand here today without moving or retaliating. If you dare to hit this young master, this young master will be convinced by you. Come, come and hit me!"

Diao Mantian was taunting Ouyang Fantong, and Lin Yi's mouth twitched. He really wanted to beat this kid up!

Chapter 8243

He had asked for someone to beat him, and beating him was just to satisfy his wish!

If Lin Yi was in Ouyang Fantong's position, he would've started beating her up without a second word.

After that, he still had to say that he had never seen such a cheap person. He actually asked others to beat him up. Did he have masochistic tendencies?

Unfortunately, Ouyang Fantong was a good-for-nothing, not Lin Yi. She didn't have the guts to do something like this in front of Lin Yi, so she could only swallow her anger and not say anything.

"Diao mang Tian, you should also stop talking. What kind of mess has the library Pavilion become because of you? Everyone, disperse, everyone, keep quiet!"

The librarian stepped out to smooth things over, trying to save her image in Lin Yi's heart and maintain the atmosphere of the library.

Ouyang Fantong took the opportunity and led the other students to bid Lin Yi farewell before leaving.

This kid might have felt a little embarrassed, so when he left, he whispered to the people beside him, "An honorary Dean is amazing, but it has nothing to do with us. We're just studying here. What can an honorary Dean do?"

"We're only giving you face out of respect for Dean Sima. Otherwise, we wouldn't have let this matter go so easily!"

Ouyang Fantong's words caused a wave of whispers to echo. They didn't dare to speak too loudly, afraid that Lin Yi would hear them. They were only trying to save face by saying that.

Lin Yi, of course, could hear them. No matter how quiet they were, as long as they made a sound, it couldn't escape Lin Yi's ears. However, Lin Yi just smiled and didn't bother with them.

If he was in a bad mood, he would definitely give them a good beating. However, he was in a good mood today, so he decided to forget about it.

The good-for-nothing was right, too-the school's power structure was complicated, and while Lin Yi was new and Noble, he couldn't punish them severely if they didn't do anything wrong!

It was even more impossible for Diao mang Tian to expel him.

"Diao mang Tian, your performance today has made me look at you in a new light! Not bad, very righteous. Keep your style in the future and don't change it!"

Lin Yi smiled teasingly at him."If you don't do this in the future, I'll be very disappointed!"

Lin Yi was clearly teasing Diao Mantian, hinting that the kid was acting today, but if he kept acting like this in the future, it would become real!

This was a good thing!

Diao mang Tian, however, took it as a genuine compliment. He immediately laughed and patted his chest,""No problem, Dean Sima, don't worry. I, Diao Long Tian, have always been a good young man with a sense of justice! I'll definitely do it consistently. In the future, I'll have to ask Dean Sima to supervise me more!"

The kid was a person who would do anything he wanted to build a good relationship with Lin Yi!

Lin Yi laughed as he looked at invisible,"This student, what happened before? Why did they bully you?"

Before The Invisible Man could say anything, Diao mang Tian answered first,""Dean Sima, I'm clear about this. It's more appropriate for me to say it than him, so as not to bring up his sad past."

Lin Yi couldn't help but roll his eyes-he didn't need that kind of advice. Don't tell me that he won't be reminded of his sad past if you say so? You think you're listening to someone else's story?

Invisible didn't object, so Lin Yi let him go and let Diao Mantian continue.

"His name is Tang Yungui. His father was an apothecary in our Fuyao apothecary school, and he could be considered an Alchemist probationary. Once, when he was out gathering medicinal herbs, he sacrificed his life to protect his colleagues and a spiritual herb that was very important to the school at that time!"

"Tang Yungui's mother was heartbroken over this matter and passed away not long after. He became an orphan. The Academy was grateful for his father's contribution to the Academy and accepted him into the Academy to raise him."

"If he had the talent for alchemy, he might have become one of the key students. Unfortunately, he doesn't even have an alchemy fire, so he can't become an Alchemist at all. Unable to become an Alchemist, and not having much talent in martial arts, he took up one of the Academy's student slots and was looked down upon by many. "

"Because the students don't acknowledge Tang Yungui's father's contributions. They will only think of him as a waste and bully him from time to time. It's just a form of entertainment."

Tang Yungui's expression was lonely. He lowered his head and didn't say anything. He was afraid that he would see pity in Lin Yi's eyes. He grew up under the pitying eyes of others and was very sensitive to it.

"So that's what happened. Alright, you can go back to your work!"

Lin Yi nodded and waved his hand.

The guy wanted to keep trying to get closer to Lin Yi, but he didn't dare to disobey Lin Yi. He could only leave with regret.

"Tang Yungui, you can't form a pill fire? Then why do you still want to become an Alchemist? Instead of wasting time on things that you can't succeed in, why don't you find something that will allow you to display your talents and learn?"

Lin Yi did have some sympathy for The Invisible Man, and decided to spend some time counseling him. "As the saying goes," all talents are useful. "You must have your own unique talents, right?"

"Dean Sima ... I, I don't know what talent I have. Being able to eat ... Is that considered a talent?"

Tang Yungui's head was still lowered. He stammered, "I can eat a lot, but I don't get fat. This is special, right? But it's not of much use ... I remember that when I was young, my father's greatest wish was to become an Alchemist. Since my father is no longer around, I have no other goals, so I just want to work hard to fulfill my father's last wish!"

"Dean Sima, it's not like I don't have any alchemy skills. There should be a secret manual on how to guide me in condensing the alchemic fire on the second floor. Dean Sima, can you give me a chance and let me go up to the second floor to take a look through my application?"

Tang Yungui suddenly realized what Lin Yi's status was. As long as Lin Yi agreed, the administrator would also agree to his application.

So he raised his head and looked at Lin Yi with hope, not afraid to see Lin Yi's pitiful eyes.

He even hoped to see such a rare look of pity, so that he would have a better chance of getting approval.

Lin Yi smiled and agreed to Tang Yungui's request. It wasn't a big deal to let him read on the second floor. The problem was that Lin Yi knew that there were no books that could help him.

People who were unable to condense an alchemy fire were generally unable to condense an alchemy fire. They could still use an automatic alchemy furnace, but it was basically impossible for them to become an Alchemist.

"Tang Yungui, you can't even condense a pill fire. How can you be an Alchemist? You can go up to the second floor, but there's no way for you to condense the pill fire there. Don't you think you're wasting time?"

Lin Yi sighed. He didn't have the heart to hurt her, but he had to tell her the truth.

Chapter 8244

Otherwise, he would only be more disappointed if he went upstairs.

"Dean Sima, actually, it's not like I'm completely unable to condense an alchemy flame ... When I was very young, my father was still alive. At that time, there was an expert who gave me an order, saying that my Constitution was special and that I could become an outstanding Alchemist!"

"It's just that my alchemy talent is hidden, as if it's been sealed. Only when I'm eighteen will this seal be released! Or rather, my talent will be activated when the time is up. At that time, I will naturally receive the help of a noble person who will take me in as a disciple and teach me the ability to refine pills!"

Lin Yi frowned, speechless. What the hell was this? Why did he bring a fortune-teller?

Tang Yungui, this silly child. Had he been fooled by a psychic for more than ten years?

"Tang Yungui, do you believe all these? Have you ever thought that the so-called master was just spouting nonsense? If you can't condense a pill fire, then you can't condense a pill fire. It's impossible for you to suddenly awaken at the age of 18 ... Speaking of which, how old are you now?"

Lin Yi asked, speechless.

"I'm ... Eighteen this year!"

Tang Yungui wasn't confident either because he was already 18 years old. "However, my birthday is still a few days away, so I can't be considered to be eighteen ... And I actually have a pill fire on me!"

"What do you mean? You can refine pill fire?"

Lin Yi frowned. Was this guy messing with him?

One moment you have an alchemy fire, and the next moment you don't. Do you believe that I won't get angry and refine you into a pill?

"Um ... That ... I don't know ... Maybe it counts, maybe not ..."

Tang Yungui lowered his head again, looking a little uneasy. "I can't congeal the pill fire normally, but ... But ... When I fart, I will occasionally burst out a pill fire ..."

Tang Yungui's voice became softer and softer as he walked further back. In the end, he could barely be heard.

If it wasn't for Lin Yi's sharp senses, no one would've heard him!

Because he heard it clearly, Lin Yi was dumbfounded ...

What the hell? Farting and causing pill fire? You're pretty capable!

It took Lin Yi a lot of effort to stop himself from going to Tang Yungui's back to see if there was an exhaust hole in his butt ...

Farting like this should be very costly, right?

Lin Yi couldn't help but laugh at the thought ...

Other people's main account was to pull rice fields, but this kid was pulling fire!

Awesome!

"Dean Sima, do you think this can be considered as being able to condense pill fire? Do you have the talent to become an Alchemist?"

Tang Yungui looked at Lin Yi with hope, but his question stumped Lin Yi ... How should he reply to this?

If he could really use farts to stabilize and control the pill fire, it was not impossible for him to become an Alchemist, but the problem was ...

Would anyone want a pill that was refined like this?

Farts pill ... If he were to eat it himself, he would probably feel a little nauseated, right?

Lin Yi's mouth twitched as he quickly threw the disgusting thought away. "It's hard to judge if I haven't seen it before. Why don't you demonstrate it for me to see?"

Tang Yungui's face turned red. He looked around and saw that Qianqian was in the library!

Farting in public, this kind of thing, it's very embarrassing, okay?

It was fine if he released it secretly, but he would not allow it in public!

But Lin Yi was an honorary Dean, and he had to help him-he had to do it no matter how awkward it was!

Fortunately, after the incident with Ouyang Fantong, most of the students on the first floor of the library Pavilion had left. Tang Yungui was at ease.

"That ... Dean Sima, do I need to take off my pants?"

Tang Yungui's sense of shame was about to explode. Who the hell farted and took off their pants?

Especially when he took off his pants in front of others. If there was a crack on the ground, he would want to crawl in!

One of the administrators was trying to hold back his laughter, not wanting to be rude in front of Lin Yi.

No matter what, he was a strictly trained administrator. No matter how funny something was, he could hold back his laughter. Unless he really couldn't hold it in, then there was no other way!

Lin Yi didn't think too much about it-it was just a thought that flashed across his mind. Take off your pants and fart, that was unnecessary!

"There's no need for that, just demonstrate it!"

Tang Yungui breathed a sigh of relief. It was a good thing that he did not have to take off his pants in front of others. The next problem was what if his pants were burned by the fart.

He couldn't possibly run back to his dormitory from the library Pavilion naked, right?

He didn't have time to think too much because Lin Yi was still waiting for him to demonstrate. Tang Yungui gathered his energy and farted!

The air suddenly became quiet. Other than a strange smell, nothing special had happened.

As for the pill fire ... Lin Yi didn't see it!

"I'm sorry, Dean Sima ... I'm a little nervous. I haven't prepared enough. Give me another chance ..."

Tang Yungui was extremely embarrassed. He had finally mustered the courage to embarrass himself, but he had failed!

He had lost his face in vain, but he had to do it again to regain some face!

"Alright then, you should prepare well!"

"Don't be nervous, take it slow ..."Lin Yi smiled faintly.

As he said this, he felt that something wasn't quite right. There was no need to take it slow and fast when farting ...

"Just pretend that we're not here. You're the only one here," he said.

Tang Yungui's face was still red. He thought to himself, you are all standing in front of me. How can I treat you as if you don't exist?

He couldn't say this out loud, so he could only hold his breath and continue to concentrate.

When he was full of emotion, he let out a melodious fart sound, and then a flash of fire appeared behind him.

Although it was thin, it was hot enough to set his pants on fire.

Tang Yungui was anxious. He slapped his butt in a hurry to put out the fire. If he had known this would happen, he would have been more embarrassed and taken off his pants!

Lin Yi frowned-he didn't think that someone could really create fire from farts, but that flash of fire ...

"Tang Yungui, try putting another one in. It's best if it can last longer. I want to see it more carefully!"

Lin Yi made a new request, and Tang Yungui's face turned green.

What the hell? My pants have been burned off, and I can only run back naked. You still want to see my fart?

No, Dean Sima, can you be more serious? Did he think that I was performing? Should I bring a plate to ask for a reward?

Tang Yungui cursed in his heart, but he did not dare to refuse. He could only say "Oh" obediently and covered his butt with his hands to start a new round of brewing.

The administrator was dumbfounded. He had not paid much attention to Tang Yungui before, so he did not know that this kid could break fire with his fart ... He was not an ordinary person!

Chapter 8245 Who's The Alchemy God?

This time, Tang Yungui needed a lot more time to prepare. Lin Yi guessed that he had used it twice, so he didn't have enough stock and needed more time.

Since that was the case, it was naturally not good to urge him, so he just had to wait!

After a while, Tang Yungui's face turned red and he let out another melodious fart. The flame spurted further and lasted longer than before. It even burned a bookshelf not far away, setting it on fire.

The caretaker panicked and quickly went to put out the fire. Although Lin Yi was here, he would be responsible for the accident if it happened.

But he didn't dare to be careless. After all, Lin Yi might be fine, but he'd be dead!

As for Tang Yungui, the administrator couldn't say anything about him. He didn't dare to say anything about Lin Yi's identity.

"That's enough. Put on this robe first!"

Lin Yi took out a spare robe from his storage bag and gave it to Tang Yungui, indicating for him to put it on so that he wouldn't have to be naked.

Tang Yungui breathed a sigh of relief. He had been worried about how he could return to the dormitory with this image.

If anyone were to see this, he would no longer have the face to face anyone in the fu Yao apothecary school!

"Tang Yungui, this ... Is not a pill fire!"

Lin Yi could see the problem, but he couldn't quite figure it out. He tried to put it in words, "How should I put it? the flame you released isn't an alchemy flame condensed from your own attribute Qi, but a kind of external spiritual fire of heaven and earth ... The structure of the flame is quite special ..."

This type of fire was completely different from the Sky Class island's fire, or rather, it was completely different from the fire Lin Yi had seen before. It was also quite different from the pill fire on the sub Island.

Even with Lin Yi's current knowledge reserves, he couldn't properly describe and understand it. It really piqued Lin Yi's interest.

"Dean Sima, if this isn't a pill fire, can I still become an Alchemist?"

Tang Yungui was apprehensive. He was counting on the pill fire produced by his farts to maintain his hope and become an Alchemist in the future!

But Lin Yi said it wasn't the refinement fire, and he panicked!

"Although this is not an alchemy fire, it's the more precious spiritual fire of heaven and earth. I don't know why you have this kind of spiritual fire of heaven and earth in your body, but it's better for you to have this kind of fire than the alchemy fire you condensed yourself."

Lin Yi smiled and patted Tang Yungui's shoulder. "Don't worry, you can become an Alchemist, and you will become an outstanding one. As long as you continue to work hard and don't slack off, you will definitely succeed!"

"Thank you for your encouragement, Dean Sima! I'm so grateful!"

Tang Yungui was excited!

This was a compliment from the honorary Dean, Sima Yi. In the entire Fu Yao Alchemy School, who did not know that this honorary Dean, Sima Yi, was a true alchemy Grandmaster?

Even principal Hua Yao held him in high regard, so if he could get the approval of principal Sima, then there was no way he could be wrong!

"What are you thanking me for? it's all because of your own ability ... You're right, your Constitution is indeed very special. The expert who gave you the fate reading is indeed quite capable!"

Lin Yi was sure that there was something wrong with Tang Yungui's body, so he was curious about the master who had made the conclusion more than ten years ago. "Do you still remember who that expert was?"

Tang Yungui hesitated. After a moment of silence, he said, "I'm sorry, Dean Sima. It's not convenient to mention that expert's name. Even if I say it, I don't think anyone will believe me ..."

Lin Yi was getting more and more curious-was there someone who couldn't be mentioned? Who was it?

Tang Yungui didn't want to talk about it, but Lin Yi wanted to know more. He put on a serious face. "Tang Yungui, you know who I am, right? The Honorary President of the fu Yao apothecary school, tell me, what is going on? Or could it be that you don't trust me, the Honorary President of the fu Yao apothecary school?"

The administrator at the side tactfully walked away. At this time, it was not convenient for him to continue listening to the conversation. In order to not cause trouble, he controlled his curiosity that he should not have.

Tang Yungui quickly shook his head and waved his hand. He respected and was grateful to Lin Yi. How could he not trust Lin Yi?

So after hesitating for a while, he finally lowered his voice and said, "That expert is ... An alchemy God!"

Alchemy God?

Lin Yi blinked-the mention of a pill God naturally reminded him of his cheap master, the divine Doctor Zhang Liju!

Could it be that the expert was his master? Or was there another expert on the sub-Island who could be called an alchemy God?

Plus, it wasn't the first time Lin Yi had heard of this title-he'd heard of it from some of the puny refiners before.

"Tang Yungui, do you know who the alchemy God is?"

"...Dean Sima, who is the alchemy God, I don't dare to say ..."

Lin Yi was surprised-what was there to be afraid of? With just a touch of his lips, he had said it! It's not difficult, okay?

"Why not? There's only the two of us here, and no one else can hear us, so what could have happened? Don't worry, just tell me!"

"No, Dean Sima, don't you know? The name of the alchemy God could not be mentioned. This was a clear order from the martial Alliance! Anyone who mentions the name of an alchemy God without permission will be sentenced to a serious crime!"

Tang Yungui looked a little lonely."Because of this, people who know the name of the alchemy God won't talk about it. In addition, there are not many people who know the name of the alchemy God. After a long time, it is estimated that the name of the alchemy God will be completely forgotten. I also happened to know it because of another chance ..."

"Tell me the details! Don't worry, I've already placed a restriction on this place. No matter how loudly you speak, the people outside the restriction won't be able to hear you. You don't have to worry about leaking it!"

Lin Yi really wanted to know if this alchemy God was his cheap master, so he had to get to the bottom of it.

Tang Yungui looked around suspiciously. He didn't know when Lin Yi had set up a restriction, but he thought that it was normal for him to not be able to see through Dean Sima's methods with his low strength.

Since he had already said so much, if he were to continue ... It didn't seem like he couldn't accept it. As long as he could keep it a secret, he would say it!

Tang Yungui looked around carefully. Although he believed that Lin Yi had set up a restriction, he still said in a low voice, "Then I'll tell you everything, Dean Sima. I hope you can keep it a secret for me."

"Naturally! Don't worry, the words that come out of your mouth and enter my ears will never spread!"

Lin Yi made a solemn promise to Tang Yungui.

Tang Yungui nodded and began to tell the story ...

Chapter 8246 Unfathomable

"When I was very young, my father would take me out to gather herbs. At that time, my favorite thing was to sit in the basket on my father's back. I still remember that the big basket was filled with a soft mattress. It was very comfortable to sit on it. When my father moved up and down, it was as if I was sitting on the clouds!"

"When I was picking herbs, father would give me some delicious but worthless fruits and wild herbs to eat. Those days were the happiness that I would never forget in my life!"

Tang Yungui was lost in his memories. Lin Yi listened quietly and didn't urge him.

He didn't talk too much about his memories and quickly got to the point. "One day, I was sitting in my basket again, eating wild fruits, and following my father across the mountains to pick herbs. On the way, we met an old herb-picking man. He looked like a celestial being, and he had a very otherworldly charm. This was what my father often lamented to me in private."

"At that time, I didn't know anything about this. I only remember father and that old man talking for a while. I don't know what they said, but father knelt down in surprise and saluted the old man."

"If only I was more sensible back then, I would have known more details. It's a pity that I was too busy eating and couldn't understand what they were talking about."

Lin Yi couldn't help but roll his eyes. The kid said that your unique trait was that you can eat a lot and not get fat-so it was a root left behind since you were young?

He was already a foodie when he was so young!

"The old man was very kind. He personally helped my father up and even spoke to him. Then, he saw me in the basket and was very surprised ... This was what my father told me later ..."

"Back then, my father asked him to teach me the art of alchemy, but he refused. He said that although we were fated, we weren't master and disciple ... My master would appear when I turn eighteen!"

"Then, he told my father what I said just now. He told my father not to worry and to just wait patiently."

"When I awaken my special physique and find my destined master, I will be able to soar into the sky in alchemy!"

Lin Yi's lips twitched. Listening to it one more time, he still felt that it was all fraud Tian's lies ...

However, it turned out that Tang Yungui's body was indeed special. He actually had a rare spirit fire of heaven and earth.

If someone could accurately predict all of this more than a decade ago, then he couldn't be a fraud, but a real God!

"Later, I found out that the old man who read my fate was the legendary pill God of the sub Island! However, it's said that the alchemy God's personality is as cold as ice, and he doesn't get close to strangers. He has a high and mighty attitude towards people and things, but the alchemy God we met is usually amiable and amiable, completely different from the rumors. It can be said that he's a completely different person!"

"It's clear that you can only listen to rumors and not believe everything!"

After listening.

"That's true," Lin Yi nodded, "so you only realized later that you met a pill God ... And it was your father who told you that, right?" You've naturally heard your father mention the name of the pill God, right?"

Tang Yungui started to stammer again when the name of the alchemy God was mentioned.

She'd decided to tell Lin Yi, but she decided to back out after half a day.

Lin Yi couldn't take it anymore, so he decided to test the waters. "Just say it, is the alchemy God surnamed Zhang?"

Tang Yungui suddenly looked surprised. He pouted and said, "Dean Sima, since you already know, why are you still asking me? Actually, the Dean already knew that the name of the pill God was Zhang Liju. Did he ask me on purpose to verify the truth of the matter? As expected of Dean Sima, you're extremely thoughtful!"

Lin Yi wanted to tell her that she was thinking too much-he just closed his eyes and got it right!

However, was that mysterious alchemy God really his cheap master?

To be honest, Lin Yi's feelings were a little complicated right now-he was a little excited, but also a little confused.

It was as if he was following the route laid out by his cheap master. Starting from the ancient tombs in the secular world, every place had traces left by his cheap master, leading him forward!

Could it be that his cheap master was really that amazing? Could he have predicted everything that was happening so many years ago and set up the plan so early?

If it was true, then his cheap master was really worthy of the profound evaluation!

Furthermore, it was extremely terrifying!

Lin Yi pinched his chin and sighed. Then he thought that if the alchemy God was really his cheap master, then he would be the one Tang Yungui had a master-disciple relationship with in the order he gave Tang Yungui.

Thinking about it, there was really such a possibility!

"Alright, I roughly understand your situation. That's all for today. I have something to discuss with principal Hua. If you want to go up and read, then go up!"

Lin Yi had his suspicions, but he still sent Tang Yungui away.

Tang Yungui's application to read the books on the second floor, which he had tried so hard to solve, was approved after he had spoken to the administrator.

It didn't matter if the books on the second floor were useful or not. Since Tang Yungui wanted to go up and take a look, he would let him go. He would have less to worry about!

After leaving the library, Lin Yi went straight to Hua Yao's office.

The guard saw Lin Yi and immediately saluted him. He told Lin Yi that Dean Hua had already told him that if Dean Sima came, he could enter the room directly without any notice!

"Dean Sima, you've come? The library Pavilion has a rich collection of books. I wonder if you've found the book you're looking for?"

Hua Yao saw Lin Yi and immediately stood up from behind the desk, walking around it to welcome him personally.

Lin Yi quickened his steps and cupped his hands in thanks, "I have to thank principal Hua for giving me this opportunity. The library is indeed rich in resources and I've already found the book I wanted!"

What a joke, the entire library Pavilion had basically been copied over, so how could they not find the books they wanted?

"You don't have to be so polite. We're all family. These small things are not worth mentioning!"

Hua Yao replied humbly and happily before inviting Lin Yi to take a seat and serve him tea. He then sat down as well. "Dean Sima, you've finished reading the book and came to find this old man. Is there anything else?"

"It's indeed a small matter. I'm here to ask principal Hua about a person ... Tang Yungui! I wonder if principal Hua has any impression of this?"

Lin Yi didn't beat around the bush.

Hua Yao was slightly stunned, "Tang Yungui?" This old man knows! This child is a good person, but his life is a little hard. When he was young, his parents passed away, but under the care of our Fuyao apothecary school, he managed to survive. "

Chapter 8247

"It's a pity that this child doesn't have much talent. Whether it's his talent in alchemy or martial arts, he's extremely lacking. I reckon that he'll only be able to muddle through his days under the protection of the Fuyao apothecary school!"

"Dean Sima, you're busy. This old man won't be here to disturb you!"

With a sigh, Hua Yao stood up and took his leave.

He didn't have much hope for Tang Yungui. After all, he had shamelessly asked The Alchemist Guild of the martial Alliance for help when he was still the Deputy Dean.

One must know that The Alchemist Guild was different from The Alchemist Association!

In the continental martial Union, The Alchemist Guild not only managed all The Alchemist associations of the entire continent, but they were also responsible for The Alchemist grade certification assessment.

In other words, in many cases, you say you are an Alchemist, but if you don't have The Alchemist Guild's certification, then you are not enough to convince the public.

Of course, the minimum requirement for the apothecary examination was Grandmaster.

Grandmaster apothecaries were also divided into ranks. The lowest rank was a one-star Grandmaster. After passing the certification assessment, they could wear the badge of a one-star pill furnace.

Ouyang Changqing was a one-star alchemy Grandmaster.

Although Ouyang Changhong also felt that he had reached the Grandmaster certification standard, he had not passed the assessment Certification.

Of course, in a place like the martial Alliance's branch, the majority of the people were not martial artists, so they were not that picky.

However, at the level of a continent, it was not something a conferred Empire could compare to. There were many martial artists here.

It was quite acknowledged for the certification of an alchemy Grandmaster.

The quality of the pills refined by a Grandmaster Alchemist was guaranteed. Not only could they be sold at a higher price, but they were also in greater demand.

Hua Yao was also a 1-star alchemy Grandmaster, while the one he had invited was a 2-star alchemy Grandmaster.

If even a two-star alchemy Grandmaster said that Tang Yungui couldn't make it, then he really couldn't.

And so, Hua Yao couldn't refute Lin Yi's words, but he wasn't too interested either. He'd been disappointed enough for the past ten years, and he didn't want to stay here and continue being disappointed.

The reason why he didn't object was because he wanted to save Lin Yi's face, and also because he felt that he might be able to create a miracle.

"Alright, please go ahead, principal Hua. I won't be seeing you out!"

Lin Yi didn't think much of it and didn't stop Hua Yao from leaving. He stood up and cupped his hands. "Don't worry. Tang Yungui's matter will be fine. I won't let you down, principal Hua!"

Hua Yao laughed bitterly and sighed in his heart. It would be a wonder if he could be at ease!

After all, Tang Yungui had been useless for more than ten years. It was unrealistic for him to have no problems all of a sudden!

However, he definitely couldn't say that, as it would be too demoralizing. Thus, Hua Yao could only force a smile and say, "Of course, Dean Sima has never disappointed me ... It's just that Tang Yungui is too few. Dean Sima, you might as well consider accepting a few more students. At the same time, you can also help our Fuyao apothecary school nurture more talents!"

Lin Yi understood that Hua Yao still didn't believe that Tang Yungui could refine pills.

But he didn't really let Tang Yungui refine the elixir yet, so Lin Yi couldn't prove it. He just smiled and said, "Sima Yi understands principal Hua's painstaking efforts. I will consider it!"

"Alright then!"

Seeing Lin Yi's perfunctory attitude, Hua Yao didn't say anything more. He shook his head and left.

Lin Yi only continued to guide Tang Yungui after they left.

In fact, Zhang Liju, the God of alchemy, was right. Tang Yungui's body was special. It was possible for him to awaken by himself when he was eighteen.

Although she hadn't turned eighteen yet, she was only a few days away.

So Lin Yi decided to give it a try.

Zhang Liju came from the common world, so according to the rules of the common world, it was usually calculated by the number of years.

In terms of nominal age, Tang Yungui was already eighteen years old.

"Tang Yungui, if I'm not wrong, you have too much fire in your body!"

Lin Yi said slowly.

"Yup ..."

Tang Yungui nodded. He was a little confused.

This was no secret, and even principal Hua Yao knew about it.

The reason why he often released fire farts was because he had too much fire-attributed Qi in his body.

But the second half of Lin Yi's sentence shocked Tang Yungui. "This fire attribute Qi was not brought about by your cultivation, it was originally in your body! In other words, even if you don't practice fire-type cultivation techniques, you still have an excess of fire-type Qi!"

Tang Yungui nodded subconsciously.

However, he had never told anyone about this.

When he was young, Hua Yao had noticed that his body had the fire attribute, so he had asked him to cultivate fire-attribute cultivation techniques.

However, as Tang Yungui's ability to fart with fire was highlighted, he did not dare to continue practicing fire-element cultivation techniques.

Because he was afraid!

He farted in the middle of the night and his blanket caught on fire.

He farted while he was sitting, and the chair caught fire.

Even if he was standing, his pants would be on fire!

If this continued, how would he have the face to continue cultivating?

Therefore, he had stopped cultivating long ago.

However, the situation didn't improve because he stopped. On the contrary, it became more and more serious.

Previously, his farts had only caused sparks to fly and burned holes in his pants. It didn't really affect his life.

But now, it had seriously affected Tang Yungui's daily life.

He had no choice but to take off his pants and fart, and whenever he felt like farting, he would go straight to the toilet.

This was also the reason why Tang Yungui could not wait to become an Alchemist.

He wanted to use the normal method to condense the fire element in his body into a pill fire and release it.

In this way, when he wanted to fart, he would first condense a pill fire to relieve himself, so that the flame wouldn't burst out and burn his pants.

These were all his secrets, secrets that he couldn't talk about. Not even Hua Yao knew about it, and Lin Yi hit the nail on the head.

This was too godly!

Now, Tang Yungui believed that Lin Yi was his destined master, the master chosen by heaven!

"But you don't have to worry. Even if you continue to practice fire attribute techniques, it won't affect the fire in your body. The fire you farted on wasn't the fire element you practice, but the spiritual fire of the world that I mentioned before."

Lin Yi continued, "I've never seen a body like yours before, and from what I know, you probably didn't tame the fire-you didn't have the ability to do that when you were young!"

"Not to mention you, even if I wanted to subdue a heaven and earth spiritual fire, it wouldn't be that easy!"

At this point, Lin Yi thought of the heaven and earth Spirit Fire in the Jade space, still standing there all alone.

"So, according to my guess, this heaven and earth Spirit Fire of yours should be something that you consumed when you were young, which caused a change in your physique, which stimulated it! This is the special Constitution that the alchemy God was talking about!"

"However, all of this is not important. Others may not know how to use this spiritual fire of heaven and earth, but I know. You just need to do as I say!"

Chapter 8248

"You have a special Constitution. Do you still remember what you said? When your Constitution is activated, you will meet your destined master. I'm not afraid to tell you the truth, I am your destined master!"

"On this sub-Island, you will be the most direct inheritor of my alchemy Dao! Tang Yungui, did you hear that?"

Tang Yungui was shocked. He actually believed Lin Yi when he mentioned his master!

Because in general, only this honorary Dean who had suddenly risen up met all the conditions for the pill God's hit.

In the entire Fu Yao apothecary school, or even the entire na duo conferred Empire, there might not be anyone who could surpass this headmaster Sima in the Dao of alchemy!

If it wasn't him, who else would have the qualifications?

Qin mengzhen and the other two little ones were equally shocked. They did not expect that their master would suddenly decide to take in a new disciple. There was no prior warning!

What had happened?

There was nothing special about Tang Yungui, especially his reputation ...

In fact, Qin mengzhen and the other two had heard of it before. After all, this wasn't the first time they had come to the fu Yao pill refining Academy.

In the Academy, there would naturally be those people who liked to gossip and curry favor with them, and would use all kinds of people or things in the Academy as topics of discussion, to curry favor with them.

They knew what kind of person Tang Yungui was, at least more clearly than Lin Yi before today!

He was a punching bag who was bullied by others and had no ability to fight back. At the same time, he had no talent and was an orphan with weak strength ... What did master see in him that made him want to take him as a disciple?

Tang Yungui could not even condense an alchemy fire. He was a complete alchemy wastrel!

"Dean Sima ... You ... Why do you want to take a student as your disciple? Just because of that prophecy?"

Tang Yungui couldn't believe that there was such a good thing, so he stammered, "If that's all, I'm afraid I'll disappoint Dean Sima ... Moreover, I have my own teacher. I'm afraid it won't be that easy to acknowledge a teacher. The students' teachers might not agree ..."

"Why are you so slow? Master personally said that he wanted to take you in, but you actually kept rejecting him. You really don't know what's good for you!"

Qin mengzhen was already unhappy.

Lin Yi opened his mouth, and instead of thanking him on his knees, what was the guy doing?

He really deserved a beating!

Tang Yungui shrank his neck and did not dare to refute Qin mengzhen. He could only lower his head and remain silent.

Lin Yi waved his hand and smiled, "it's fine. It's normal for you to have concerns, but don't forget, I'm the honorary Dean. With me around, there won't be any problems with your mentor. As long as you're willing, then it's done. If you're not willing ... I won't force you!"

"This disciple is willing! Of course I'm willing! Greetings, master!"

Tang Yungui finally let go of his worries and was overjoyed. He knelt down and kowtowed to Lin Yi!

This was his destined master, the master he had waited for more than ten years. Under the circumstances where there were no concerns, what was there to hesitate about?

Lin Yi smiled in satisfaction-at least he didn't get rejected!

"Rise and greet your three senior sisters and brothers!"

"Tang Yungui greets Senior Sister Qin, senior brother MA, and senior brother tu!"

Tang Yungui didn't dare to be slow. He saluted the three little ones respectfully.

In fact, in terms of age, he might be a little older, but according to the order of entry, not to mention eighteen years old, he would have to be an obedient little brother at eighty years old!

"Little Junior Brother, you're free! In the future, learn well from master. Us senior sisters and senior brothers are still counting on you to continuously supply us with medicinal pills!"

MA pijing laughed and patted Tang Yungui's shoulder. Lin Yi said that this person was an alchemy inheritor, so he must have extraordinary talent in alchemy.

A powerful Alchemist was someone all Warriors were willing to make friends with, not to mention that Tang Yungui was his Junior Brother. MA bijing didn't mind building a good relationship with Tang Yungui now.

Qin mengzhen and tu Gesha also showed a friendly attitude to Tang Yungui.

They would be in the same sect in the future, and their relationship was definitely strong enough. Qin mengzhen even said that she would help to teach those who dared to bully Tang Yungui a lesson!

The four of them quickly got along and their relationship became harmonious. Tang Yungui also successfully integrated into this small group.

At the same time, Hua Yao intentionally spread the news.

On Lin Yi's side, the three little ones became four little ones. While they were having fun, the entire Fuyao Alchemy School knew that the good-for-nothing Tang Yungui had become the honorary Dean Sima Yi's disciple!

The first reaction of those who heard the news was that it was impossible!

Dean Sima accepted Tang Yungui as a disciple? How could that be possible? It's a hundred times better to take me than that trash!

This was what everyone thought, and they were convinced by his words!

Shocking! The entire school was shocked!

No one could understand how many piles of dog sh * t tang Yungui had stepped on to have such heaven-defying luck!

This included Tang Yungui's original teacher!

To be honest, Tang Yungui's previous teacher had only reluctantly accepted him.

A student without any talent like him would only drag his mentor down. If it wasn't for his father's sake, no one would accept him.

Tang Yungui was worried that his mentor would be unhappy if he became Lin Yi's disciple ... He was overthinking!

His teacher had been looking forward to someone taking over Tang Yungui, who was a burden!

But now that Lin Yi was taking over, the mentor sighed. She felt relieved, but worried that she'd missed out on a genius student.

Otherwise, why would Dean Sima accept Tang Yungui? He must have failed to discover the student's ability!

"On what basis? Hehe, of course it's because he's pitiful enough!"

Everyone was guessing what Tang Yungui had that made Lin Yi favor him, but only Ouyang Fantong said it out loud.

Moreover, his face was full of ridicule. "Tang Yungui, that good-for-nothing and pitiful wretch, was bullied by us in the library Pavilion. It just so happened that principal Sima saw it and helped him out."

"There's no need to ask. This good-for-nothing must have acted pitiful in front of Dean Sima and made him feel sympathy, which was why he accepted him. In any case, a good-for-nothing isn't of much use. He can serve tea and pour water, but Dean Sima also lacks such a person."

"So don't take Tang Yungui too seriously. He's not that great. He's said to be a personal disciple, but in fact, he's only a handyman disciple at most!"

Chapter 8249

Such slander and ridicule were quite popular. Many people agreed with it. The popularity of Tang Yungui joining Lin Yi's sect spread quickly, and many people didn't take Tang Yungui seriously anymore!

No matter what, Tang Yungui had already caused a heated discussion in the entire Fuyao apothecary school. It was just that he himself did not know about this!

Hua Yao went to Lin Yi's classroom himself after spreading the news.

Lin Yi had just finished his disciple recruitment, and he'd been teaching his four disciples a bit, too, so he had some free time.

"Principal Hua, why have you come?"

Lin Yi was surprised to see Hua Yao-they'd just parted, after all. Shouldn't they have told each other before?

"There's something that I want to discuss with you, Dean Sima!"

Hua Yao smiled and nodded. He didn't avoid the four little ones and said directly, "Tang Yungui has already become Dean Sima's disciple. I would like to ask if Dean Sima is interested in taking in a few more students?"

"Take in a few more?"

Lin Yi was a little surprised.

"There is a reason for this. Dean Sima, let me finish first ... At the end of every year, our Fuyao Alchemy School will conduct an assessment for the teachers who have students. Dean Sima, since you have already accepted Tang Yungui, even if you are an honorary Dean, you are still considered a teacher, so you must also take the assessment!"

"The teacher assessment is not only to test the teachers, but also to test the students to verify the teacher's teaching methods. So this old man would like to ask Dean Sima, do you want to take in a few more disciples who can refine pills? At the very least, I can pass the year-end assessment!"

"After all, Dean Sima, if you don't even have a disciple who can refine pills, it would really be beneath your status!"

If Lin Yi didn't take Tang Yungui in, he would only be an honorary Dean and wouldn't take part in the exam.

But after accepting Tang Yungui, the honorary Dean would become a teacher. Naturally, he would have to take the assessment!

"There's no need to take in students. As for the examination, I'll take in these little fellows. They'll be enough to represent me in handling it!"

Lin Yi didn't mind at all. He waved his hand and smiled, "Principal Hua, don't worry. Actually, I already have some ideas about Tang Yungui's physical condition."

"It's not that he can't concoct pills, it's just that there are some problems that haven't been solved yet. Just you wait, he'll definitely give you a surprise later!"

Lin Yi was very confident that Tang Yungui could make elixirs.

So what if he couldn't condense the pill fire?

The other party's body had its own Spirit fire of heaven and earth. As long as he could guide it out, what was the matter with the alchemy fire?

Having said that, Tang Yungui could not condense the elixir fire. A large part of the reason was actually due to the spiritual fire of heaven and earth.

He had the spirit fire of heaven and earth in his body, so the alchemy fire had no room to survive.

As long as there was a little bit of it, it would be swallowed by the heaven and earth Spirit Fire and used as nutrients to supplement itself!

Under such circumstances, if one was able to condense a pill fire, they would no longer be a genius, but a one-of-a-kind monster!

"Is that so? Then what exactly are you going to do, Dean Sima? Tang Yungui won't be in any danger, right?"

Hua Yao didn't seem to care, but he was actually worried. He was worried about Tang Yungui and Lin Yi.

If anything happened to Lin Yi because of this, Hua Yao wouldn't be able to redeem himself!

"Don't worry! There won't be any danger and the process is very simple. If you're fine, just watch from the side!"

Lin Yi shrugged casually and started explaining to Tang Yungui.

Lin Yi had the spirit fire of heaven and earth. The sub-Island, or the spirit fire of heaven and earth in Tang Yungui's body, had a different structure, but the way to control it was similar. He could also use his previous experience!

"Dean Sima, you're busy. This old man won't be here to disturb you!"

With a sigh, Hua Yao stood up and took his leave.

He didn't have much hope for Tang Yungui. After all, he had shamelessly asked The Alchemist Guild of the martial Alliance for help when he was still the Deputy Dean.

One must know that The Alchemist Guild was different from The Alchemist Association!

Lin Yi understood that Hua Yao still didn't believe that Tang Yungui could refine pills.

But he didn't really let Tang Yungui refine the elixir yet, so Lin Yi couldn't prove it. He just smiled and said, "Sima Yi understands principal Hua's painstaking efforts. I will consider it!"

Chapter 8250

"Alright then!"

Seeing Lin Yi's perfunctory attitude, Hua Yao didn't say anything more. He shook his head and left.

Lin Yi only continued to guide Tang Yungui after they left.

In fact, Zhang Liju, the God of alchemy, was right. Tang Yungui's body was special. It was possible for him to awaken by himself when he was eighteen.

Although she hadn't turned eighteen yet, she was only a few days away.

So Lin Yi decided to give it a try.

Zhang Liju came from the common world, so according to the rules of the common world, it was usually calculated by the number of years.

In terms of nominal age, Tang Yungui was already eighteen years old.

"Tang Yungui, if I'm not wrong, you have too much fire in your body!"

Lin Yi said slowly.

"Yup ..."

Tang Yungui nodded. He was a little confused.

This was no secret, and even principal Hua Yao knew about it.

The reason why he often released fire farts was because he had too much fire-attributed Qi in his body.

But the second half of Lin Yi's sentence shocked Tang Yungui. "This fire attribute Qi was not brought about by your cultivation, it was originally in your body! In other words, even if you don't practice fire-type cultivation techniques, you still have an excess of fire-type Qi!"

Tang Yungui nodded subconsciously.

However, he had never told anyone about this.

When he was young, Hua Yao had noticed that his body had the fire attribute, so he had asked him to cultivate fire-attribute cultivation techniques.

However, as Tang Yungui's ability to fart with fire was highlighted, he did not dare to continue practicing fire-element cultivation techniques.

Because he was afraid!

He farted in the middle of the night and his blanket caught on fire.

He farted while he was sitting, and the chair caught fire.

Even if he was standing, his pants would be on fire!

If this continued, how would he have the face to continue cultivating?

Therefore, he had stopped cultivating long ago.

However, the situation didn't improve because he stopped. On the contrary, it became more and more serious.

Previously, his farts had only caused sparks to fly and burned holes in his pants. It didn't really affect his life.

But now, it had seriously affected Tang Yungui's daily life.

He had no choice but to take off his pants and fart, and whenever he felt like farting, he would go straight to the toilet.

This was also the reason why Tang Yungui could not wait to become an Alchemist.

He wanted to use the normal method to condense the fire element in his body into a pill fire and release it.

In this way, when he wanted to fart, he would first condense a pill fire to relieve himself, so that the flame wouldn't burst out and burn his pants.

These were all his secrets, secrets that he couldn't talk about. Not even Hua Yao knew about it, and Lin Yi hit the nail on the head.

This was too godly!

Now, Tang Yungui believed that Lin Yi was his destined master, the master chosen by heaven!

"But you don't have to worry. Even if you continue to practice fire attribute techniques, it won't affect the fire in your body. The fire you farted on wasn't the fire element you practice, but the spiritual fire of the world that I mentioned before."

Lin Yi continued, "I've never seen a body like yours before, and from what I know, you probably didn't tame the fire—you didn't have the ability to do that when you were young!"

"Not to mention you, even if I wanted to subdue a heaven and earth spiritual fire, it wouldn't be that easy!"

At this point, Lin Yi thought of the heaven and earth Spirit Fire in the Jade space, still standing there all alone.

"So, according to my guess, this heaven and earth Spirit Fire of yours should be something that you consumed when you were young, which caused a change in your physique, which stimulated it! This is the special Constitution that the alchemy God was talking about!"

"However, all of this is not important. Others may not know how to use this spiritual fire of heaven and earth, but I know. You just need to do as I say!"

Lin Yi's words made sense, and Tang Yungui couldn't help but nod. It was as if a new door had been opened, and he was hearing things that he had never heard before.

He knew about the heaven and earth Spirit Fire, but it was a legendary existence to ordinary alchemists.

An ordinary person wouldn't even be able to see it, let alone possess it.

Not to mention knowing how to use it.

"Master, do I need to make any preparations?"

Tang Yungui was excited, "can I really become an Alchemist?" How long do you need?"

Tang Yungui's father's lifelong dream was to become an Alchemist.

Later, father Tang's dream became Tang Yungui's dream, so Tang Yungui had been working hard for this dream.

"It might take the time it takes for an incense stick to burn. We can't go too fast."

Lin Yi said after some thought.

"An incense stick's worth of time?"

Tang Yungui thought he had heard wrong. How could this be?

In his opinion, with his cowardly aptitude, even if he didn't learn it for ten or twenty years, it would be impossible for him to master it in one or two years.

After all, the students who came here to study all had some Foundation in alchemy.

This was because the Fuyao apothecary school didn't accept students who didn't know anything or could even condense a pill fire.

Even if you knew how to condense the pill fire, without any other Foundation, you could only start as an audit student.

However, the three little ones beside him looked at Tang Yungui, who was doubting his life, as if they had never seen the world.

The three of them were the ones who'd benefited from the drastic change in an incense's time, so they didn't think that Lin Yi was exaggerating at all.

"Alright, do as I say!"

Ignoring the shocked Tang Yungui, Lin Yi started to point out, "The first choice is to get rid of the real fire element in your body, and also forget the method of condensing pill fire that you know and come with me!"

"Start guiding the fire element in your body, which is the spiritual fire of heaven and earth. Guide them into your body's circulation and stimulate them from your hands!"

"If you understand, then think about your previous fart! If you really can't do it, you can just fart. Then, starting from your fart, you can guide your fart to realize the cycle of the heaven and earth Spirit Fire ..."

Lin Yi started explaining how to use the fire.

Lin Yi hadn't seen the spirit Fire in Tang Yungui's body before, but it didn't stop him from teaching others!

Even if the heaven and earth Spirit Fire was different, the usage was the same.

Under Lin Yi's guidance, Tang Yungui quickly grasped the trick and actually guided the heaven and earth Spirit Fire out of his body!

"Waa! What a beautiful flame!"

Qin mengzhen looked at the light purple flame dancing in Tang Yungui's palm and could not help but exclaim, "Little Junior Brother has some quality! Not bad, not bad!"

Tang Yungui forced a smile. He wanted to say something but couldn't. This was the first time he had guided the heaven and earth spiritual fire out of his body. It was difficult to control it. He really didn't have the energy to chat with Qin mengzhen.

However, he was extremely excited at the moment!

Was this the time it takes for an incense stick to burn? It didn't seem to have taken him a joss stick's time at all!

It was just the blink of an eye!

Of course, if the time taken for master's lecture was added, it was indeed the time for an incense stick to burn!

As expected, the alchemy God did not lie to me. This is my destiny to be the master chosen by heaven!
