

## Bodyguard 8251

### Chapter 8251

"Master, is Little Junior brother's pill fire? How could it be purple? I've never seen a pill fire of this color before!"

MA pijing was not someone who had not seen the world. There were so many alchemists in the previous two alchemy sections, and everyone's alchemy fire was similar, but there was no such bewitching purple fire!

Tu Gelao also looked at the purple fire in Tang Yungui's hand and then at Lin Yi, who was waiting for an answer. He clicked his tongue in wonder but didn't say anything meaningful.

Lin Yi shook his head and smiled faintly, "I've already said that your Junior brother's flame isn't an alchemy flame, but a strange spiritual flame of heaven and earth! However, if it was used to refine pills, it would only be more powerful than the pill fire! Of course, just keep this matter to yourself. Don't ever spread it around. "

On the Sky Class Island, the birth of a spiritual fire would cause everyone to fight for it.

Lin Yi didn't even dare to let anyone know that he had the fire before he controlled it.

Even so, if he only used the derivative of the ice flame serene lotus fire, the icy blaze fire, he would still be coveted by others!

The sub-Island would not be any different. With Tang Yungui's strength, if people knew that he had the spiritual fire of heaven and earth, God knew how many people would try to kill him!

"Yes! This disciple will obey master's orders!"

The three little ones bowed solemnly. They weren't insensible people-Lin Yi didn't say it out loud, but they knew what was going on!

Tang Yungui was grateful, but he couldn't say a word. Lin Yi smiled and shook his head, continuing to teach him how to control the fire.

With great difficulty, the purple flame in his palm stabilized and then slowly withdrew back into his body.

"Master, I'm slow-witted, and it might take some time for me to get familiar with the controls ..."

Tang Yungui seemed a little ashamed. He had finally met his destined teacher, but why was he so disappointing? he couldn't even do a small thing well?

Lin Yi patted Tang Yungui's shoulder and smiled."You call this stupid? It was already very good! Don't undervalue yourself, and don't be modest on purpose. "

"In the future, when there's no one around, you can use the spirit fire of heaven and earth to refine pills. However, it's safer to use the spirit Fire in front of people. It's the same in battle. Unless you're strong enough to be unafraid of other people's coveting!"

"Now that your heaven and earth Spirit Fire has awakened, your own alchemy fire will not be suppressed by the heaven and earth Spirit Fire. Now, you can try to condense your own alchemy fire!"

"Of course, there's a trick to refining elixir fire. Those who don't understand it will only get half the result with twice the effort. Listen to me ..."

With Lin Yi's vast knowledge, his skills were naturally at the top of the class.

Although Tang Yungui had given up on cultivating fire-elemental Qi, he had practiced it for a long time when he was young.

Therefore, low-level alchemic fire could still be condensed.

Low-level refinement fires were easier. Lin Yi only explained it once and Tang Yungui was enlightened. He instantly completed the refinement of his own refinement fire!

"Too amazing! Master, you're really amazing! This method of refining elixir fire is not only simple and practical, but its efficiency is also more than a hundred times better than what this disciple has learned before!"

Tang Yungui was really excited! As expected of his destined master, he was too strong!

"Tsk, don't be so surprised! How much have you seen of master's abilities? It's just a drop in the ocean. In the future, when you have a chance to broaden your horizons, learn well from master and you'll naturally have your own benefits!"

Qin mengzhen showed off her sense of superiority, showing that her judgment in choosing a master was unparalleled. She also took the opportunity to knock Tang Yungui down a peg. "Little Junior Brother, in the future, you should learn and cultivate from master. Don't have any thoughts that you shouldn't have! You also have to listen to the words of us senior sisters and senior brothers!"

"That's natural! Junior Brother will definitely listen to master's teachings and follow the instructions of senior sisters and senior brothers!"

Tang Yungui quickly bowed and agreed. He was his Junior Brother and this was his duty!

Qin mengzhen smiled in satisfaction, "you're worthy of being taught!" But these two senior brothers, you don't have to take them too seriously. In the future, just listen to your Senior sister's words, and you won't be wrong, right?"

MA pijing and tu Gesha both pouted. Senior Sister Qin ... It's already perfect if you didn't say the second sentence ...

"Alright, stop talking nonsense!"

Lin Yi smiled and waved his hand to stop the disciples from chatting. He took out an ordinary alchemy furnace and gave it to Tang Yungui. "Now you can try to refine pills! First, use the alchemy fire, then the spiritual fire of heaven and earth, and finally, use your own alchemy fire to envelop the spiritual fire of heaven and earth. Let's see if I can secretly use the spiritual fire of heaven and earth to refine pills without anyone's recognition. "

"In this case, your chances of success in alchemy will be higher in the future. However, if it's not necessary, it's better not to do this. Just use the alchemy fire!"

Tang Yungui took the alchemy furnace respectfully and said, ""Yes, this disciple will remember!"

Tang Yungui had already memorized the theoretical knowledge of alchemy. In the past, he couldn't put it into practice without an alchemy fire. Now, everything was ready, but he was short of one thing!

Lin Yi immediately prepared the east wind and took out a pile of herbs.

These were the ingredients for the lowest level of elixirs-they weren't worth much, and if it weren't for the fact that the Jade space wasn't that big, Lin Yi would've just thrown them away like garbage!

Tang Yungui picked out the suitable herbs and started the refining work. Lin Yi didn't say anything.

These were all things Tang Yungui had been learning, and Lin Yi decided to see how it went.

It could be seen that although Tang Yungui had never had the opportunity to practice, his theoretical foundation was quite solid, and his technique was not rusty. He should have done simulation exercises on a daily basis.

It was just that the simulation practice was not an official alchemy, so his first attempt failed!

"Master! I've already gained some insight, so please give me another chance!"

Tang Yungui was stunned for a moment when he failed. Then he seemed to understand something and immediately asked to start a second attempt.

"It's your first time refining pills, but you've already done well! Failure is the mother of success. There's no need to ask me, you can do as you see fit!"

Lin Yi waved his hand. He roughly understood what Tang Yungui's problem was. At the same time, he was relieved. At least Tang Yungui had a good attitude and didn't have any negative emotions from his first failure.

Tang Yungui agreed happily and immediately began to clean the pill furnace. After finishing the preparations, he immediately began the second round of refining.

Ten minutes later, Tang Yungui, who thought he had learned his lesson and gained experience, failed again!

This time, he didn't stop. He immediately cleaned the furnace and began the third round of refining!

Chapter 8252

"Before you put in the herbs, the temperature of the fire is very important. With the strength of your alchemy fire, five seconds should be enough. If you use the heaven and earth Spirit Fire, one second will be enough!"

"If the furnace isn't warm enough, melting the medicinal herbs and refining the medicinal liquid will be twice the effort with half the result. If the furnace is too warm, the medicinal herbs will easily be damaged when entering the pill furnace, affecting the final color of the pill!"

"You need to accumulate experience and explore for a long time before you can fully grasp it! After the first step is completed, it's the order of adding the medicinal materials. You should know that the melting speed of each medicinal material is different, the storage time of the essence is different, the reaction speed with other medicinal materials is different, and so on. You must know all of these in your heart, so that there will be no mistakes!"

"When you were refining the pill just now, you added the medicinal herbs according to the order of the pill formula. There were some mistakes during the process, and that was one of the reasons why you failed in the end!"

Lin Yi finally started to guide Tang Yungui.

If he let the other party explore on his own, he would be able to recognize his mistakes and deepen the impression, but there was no doubt that he would take many detours.

The role of a master was to guide the disciple on the right path and avoid the meaningless detours!

With Lin Yi's guidance, Tang Yungui followed the instructions meticulously. The process became as smooth as flowing water without any pause. Soon, he successfully refined the batch of elixirs, and they were all high-level elixirs!

Although it was only the lowest grade of medicinal pill, it was not bad to have such a result at the beginning of learning!

"Master! Disciple has succeeded! Disciple can really concoct pills and become a true Alchemist!"

Tang Yungui was so excited that he almost jumped up and cheered!

"A true Alchemist? You're still far from that! Hurry up and clean the pill furnace, and continue to refine pills!"

Lin Yi said with a smile, not a hint of praise in his tone. "This time, you will use the spiritual fire of heaven and earth to refine the elixir. You have to carefully experience the changes in the various heat levels. You can't copy the process just now!"

It was impossible for an Alchemist to keep refining pills, even if it was a low-level pill. The alchemy fire simply couldn't supply it.

But Tang Yungui was not an exception. He had the spiritual fire of heaven and earth in his body. There would be no problem if he used it.

"Yes, master! I understand!"

Tang Yungui said that, but controlling a heaven and earth Spirit Fire was not as good as using an alchemy fire. The first time he used a heaven and earth Spirit Fire to refine an elixir, he wasted the herbs.

He didn't even have the chance to form a pill ...

"Stop for a moment. First, practice controlling the heaven and earth spiritual fire. After you stabilize it a little, you can start refining pills!"

Tang Yungui's problem was that his control of the heaven and earth Spirit Fire was not as good as his own. Alchemy was a delicate task that required high heat control. Such rough control would be useless no matter how many times he tried.

So Lin Yi cut him off.

Tang Yungui did as he was told and gave up on refining elixirs. He focused on controlling the spiritual fire of heaven and earth.

This kid was indeed a talent. He had actually stabilized the heaven and earth Spirit Fire in just a few minutes!

When he started to refine the pill again, his control of the fire had clearly increased. He succeeded on the first try!

"Very good! Your master didn't misjudge you, you are indeed very talented! Next, I'll practice by myself. First, I'll make the basics more solid, and then I'll go in a more profound direction!"

Lin Yi smiled in satisfaction and explained some basic alchemy techniques and knowledge. Naturally, it was the essence of the process.

Tang Yungui was quick to understand. After awakening the heaven and earth Spirit Fire, his talent seemed to have changed dramatically. He was no longer the useless person he used to be!

Of course, Tang Yungui was talented. His solid theoretical foundation also helped him get twice the result with half the effort.

But the most important thing was still the great teacher Lin Yi-a great teacher produced a great student!

Lin Yi told him to practice on his own, and took some time off to teach the other three students-he couldn't be biased, after all!

Time passed without him knowing. Tang Yungui kept refining pills and took turns with the pill fire and the spiritual fire of heaven and earth.

Because of the heaven and earth Spirit Fire, his own recovery ability seemed to be quite outstanding, so he could completely support the long period of alchemy.

However, being able to hold on did not mean that he was not tired. After another success, Tang Yungui cleaned the alchemy furnace and wanted to rest for a while.

However, he didn't want to waste time. He had just become an Alchemist, so he couldn't bear to waste any time. Therefore, he randomly thought about how to let his body rest and relax without affecting his alchemy method.

After pondering for a while, Tang Yungui really thought of a way to refine pills with farts!

In any case, he had already broken his bottom line by farting in front of everyone. This time, it was not so unbearable!

Seeing that Lin Yi was giving instructions to the three little ones and wasn't paying attention to them, Tang Yungui sneaked in and got ready to do it!

While he was preparing for refining the elixir, Tang Yungui was secretly preparing for a big move. Because his control of the heaven and earth spiritual fire had improved, he would not burn his pants again after farting.

In addition, the sound had to be controlled. It couldn't be so loud that it would shake the world and attract everyone's attention for no reason.

Tang Yungui knew that this time, it had to be a boring fart!

Lin Yi had just finished giving tu Gesha some pointers on cultivation. He turned to look at Tang Yungui, only to see the kid sticking his butt up to the furnace, his face winking and his mouth shut as if he was preparing for something ...

"Tang Yungui, what are you doing?"

Lin Yi had some guesses in his heart, but he couldn't believe it.

As a result, Tang Yungui was shocked. The stock that had been brewing for a long time suddenly exploded. A hot flame wrapped around the alchemy furnace!

There was no need to care about warming or cooling the furnace at this time. The frightened Tang Yungui threw in all the medicinal herbs he had prepared.

He was thinking about how to explain his embarrassing behavior to his master, and his hands were moving on instinct.

The three little ones, who were focused on their cultivation, were also alarmed. Tang Yungui had wanted to let out a long and quiet fart, but in his shock, it became a melodious chain of farts. It was hard not to catch the attention of the three little ones!

Feeling the surprised gazes of his senior sisters and brothers, it was impossible to say that he wasn't surprised to see a person spurting fire from the back of his butt and twisting his waist to refine pills with his own eyes!

Tang Yungui's forehead was covered in cold sweat. He wished he could jump into the alchemy furnace and refine the pill himself!

It was too F \* cking embarrassing!

As his thoughts ran wild, Tang Yungui's movements gradually became orderly.

## Chapter 8253 Colleagues Visit

Tang Yungui's body had developed an instinct after refining the elixir several times. He could smoothly complete the elixir refinement without the command of his slimy head.

Lin Yi's eyes widened in shock. Tang Yungui's unfocused eyes clearly showed what kind of mental state he was in!

However, under such circumstances, he could still control his fart fire precisely to refine pills. What the f \* ck was this?!

The three little ones were also dumbfounded. They stopped their cultivation as if they were watching a miracle ...

To say that it was a miracle, he felt that it was a little weird ... It was clearly a ghostly performance!

Very quickly, the pill was refined, and it was of high quality!

Tang Yungui was not in the mood to care about the elixir. His face was as red as blood. He lowered his head and looked for a crack in the ground, wishing he could hide in it.

"Master ... Disciple ... Disciple was a little tired just now, so I wanted to rest for a while. I had the thought of causing trouble ... I'm sorry, master! This disciple knows his mistake!"

Lin Yi only came back to his senses after hearing the apology.

This kid was definitely a genius!

He could even refine pills by farting, so it shouldn't be a problem to say that he was unprecedented, right?

She wondered if her master Zhang Liju, the man known as the pill God, had this kind of ability ...

"You don't have to apologize. Tang Yungui, you are indeed a genius in alchemy. I didn't misjudge you. I am relieved!"

Lin Yi laughed dryly and looked at the pill Tang Yungui had just finished. "That ... The quality of the pills is not bad ... In the future, when you refine pills like this, remember to mark them or eat them yourself ..."

Just don't bring it out to harm us!

Otherwise, just thinking about it would make him feel smug!

Tang Yungui replied blankly. He was so happy that his master didn't blame him for messing around that he didn't think about what Lin Yi meant.

Qin mengzhen and the others covered their mouths and laughed. They were bystanders and naturally understood what Lin Yi meant. It was interesting just thinking about it!

In fact, there was no taste at all!

Although Tang Yungui was farting to refine pills, what he spat out was pure heaven Earth spiritual fire. Any impurities in it would have been burned away. How could there be any smell left?

If he were to take this pill out and sell it, the buyers would definitely rush like a flock of ducks without any suspicion.

Only those who had witnessed the process of refining pills with their own eyes would have some psychological barriers. They could even imagine the smell by pinching their nose!

Anyway, this wasn't the point. The point was that under Lin Yi's guidance, Tang Yungui had shed his ordinary appearance and displayed amazing alchemy talent!

Qin mengzhen and the other two little ones all approved of Tang Yungui. If they had approved of Tang Yungui at the beginning because of their respect for Lin Yi, now it was their true approval of him!

This Little Junior Brother would indeed shine in the future!

Lin Yi spent the next two days teaching his students in peace, and it might have continued for a while if no one came to disturb him.

However, Lin Yi still had the identity of martial Union's central contact manager. It was impossible for him to be so free all the time.

On this day, someone came to the door.

"Dean Sima, the martial Alliance's patrol has come to our Academy and would like to pay a visit to Dean Sima. I wonder if it's convenient for you to do so?"

Hua Yao's assistant was giving Lin Yi face by coming over to question him. Lin Yi wouldn't be able to say anything if the assistant came over directly.

"Martial league's patrol? Why does he want to see me?"

Lin Yi, of course, knew who this martial Union inspector was.

In terms of rank, he was the same as Lin Yi, only equivalent to a vice head, but in terms of status, he was even more respected than a first hall head.

He represented the martial Alliance and inspected all the academies under the naduo martial Alliance's jurisdiction. He had considerable power and was directly under the martial Alliance of the continent. He had the authority to control the academies of various regions and issue orders on behalf of the martial Alliance of the continent!

If he was right, this was the guy who took away Lin Yi's mentor status and stripped him of all his duties at the school, right?

For such a person to take the initiative to lower himself and visit, was he trying to mend the cracks in their relationship?

Otherwise, with his status, he would've summoned Lin Yi instead of coming here himself.

"This ... I don't know either. Maybe he heard about Dean Sima's magic, so he wanted to make friends with him? I wonder if Dean Sima would like to see her?"

Hua Yao's assistant thought he was going crazy-how could Lin Yi ask something like that?

He was the martial league's patrol in charge of the academies, and his main responsibility was to manage all the academies!

Otherwise, she wouldn't have been able to reveal Lin Yi's identity so easily!

Whoever the patrol envoy wanted to see, did he even need to ask if the other party wanted to see him?

It should be that he had to see her no matter whether he wanted to or not, right?

However, he didn't dare to say that to Lin Yi. After all, Lin Yi was also the manager of the martial Union's central communications Department.

In theory, Lin Yi and the inspector were at the same rank.

"Alright, then let's meet!"

Lin Yi thought about it and decided that he could just reject the offer, but it'd make the inspector hate Hua Yao.

Hua Yao, this old man, was already very kind to him. It was better not to cause him any trouble!

The assistant immediately heaved a sigh of relief. He bowed respectfully and left quickly to report.

A while later, the martial Union inspector arrived at Lin Yi's classroom, accompanied by Hua Yao.

The four little ones were sent back to their own places to cultivate. The classroom was empty, so it was easy to talk.

"Dean Sima, let this old man introduce you. This is martial Union's patrol envoy, Lord Li Zefa! Lord Li, this is our Fuyao apothecary school's honorary Dean, Sima Yi, Dean Sima ... Of course, he's also the manager of the martial Alliance and Central's Liaison Department, so he's your colleague!"

Hua Yao introduced the two of them with a smile.

However, the old man put Lin Yi's honorary Dean status first and martial league's status second, as a way to express his dissatisfaction with what happened.

Li Zefa didn't react and pretended not to hear anything. He smiled and walked forward, taking the initiative to cup his fists and say, ""I've long heard that steward Sima is a promising young man. Now that I've seen him, he really lives up to his reputation! He's even better than the rumors say. He's indeed a young genius with a heroic bearing!"

"Lord Li is too kind. Sima Yi does not deserve such praise!"

Lin Yi replied indifferently, "Please sit down and talk. The classroom is simple and there's nothing to entertain Lord Li with."

"You're too polite. I took the liberty to come here today to see steward Sima. We'll all be colleagues in the future, so I hope steward Sima can work with us hand in hand and work together!"

Lin Yi didn't find any meaning in Li Zefa's empty words. If it weren't for Hua Yao, he would've wanted to see him out.

Chapter 8254

This young master is very busy, where would I find the time to listen to your nonsense?

"By the way, steward Sima should have a mission to carry out, right? About the cooperation with central, steward Sima can show your skills!"

Li Zefa seemed to have noticed Lin Yi's impatience and changed the topic, "Manager Sima, you'll have to put in a lot of effort to discuss the cooperation with the central Chamber of Commerce this time!"

Lin Yi blinked-work with central? What the hell? I've never heard of it!

This contact manager of martial League and central ... Was it a fake position?

Otherwise, why would others know the news before he did?

"Steward Sima, you don't seem to be clear? Maybe the news hasn't reached here yet? Steward Sima is usually quite busy, so he didn't pay attention to such things. "

Li Zefa was very understanding and immediately explained the situation to Lin Yi, "It's like this. Martial League will start a series of collaborations with the central Chamber of Commerce. Then, the nado martial League branch would like to purchase a large number of equipment to arm martial league's people."

"As the patrol envoy, I'm mainly in charge of the Academy's matters. I can't interfere with the matters of the martial Alliance's branch."

"That's why I only know that the nado martial Alliance branch will be carrying out a big operation, and they will need a large amount of excellent equipment! As we all know, in terms of quality, the equipment produced by the central Chamber of Commerce is the best in the entire sub-Island!"

"Steward Sima, as the contact steward for martial League and central, must definitely come out to negotiate this deal! Only steward Sima can get a bigger discount!"

Lin Yi finally understood.

The martial Alliance's branch wanted to go to the central Chamber of Commerce to purchase a batch of equipment. However, the central Chamber of Commerce's asking price was rather high, so the martial Alliance's branch felt a heartache. Thus, Li Zefa had come to tell him that it was time to contact the manager to stand up for him!

"Lord Li, the central Chamber of Commerce is open for business. If the martial union branch wants equipment, they can just go and buy it. I don't think I need to show up, do I?"

Lin Yi didn't really want to go to the central Chamber of Commerce to bargain.

'What does spending the martial Alliance's money have to do with me? It wasn't like he was spending Lin Yi's money!

If he went to the central Chamber of Commerce to haggle, he would owe Ling Ling another personal favor!

Lin Yi wouldn't have anything to say if it were the language of manifestations, but the first hall master's face made him lose all interest in helping him.

"Yes, that's what happened, and that's the situation! If it were a normal trade, there's nothing much to say. The point is that the central Chamber of Commerce doesn't seem to want to sell this batch of equipment to the naduo martial Alliance branch!"

"Although martial League and central have already reached an agreement to cooperate fully, our nado martial league's central Chamber of Commerce branch is a little special. I heard that the gray-robed man's position in central isn't quite the same. Although he's only a Chamber of Commerce Chairman in a branch, he also holds positions in other important departments in central. Therefore, even the chairman of the sub-Island of the central Chamber of Commerce gives him face. He still has a lot of autonomy!"

Li Zefa let out a long sigh and squeezed out a worried expression. ""The central Chamber of Commerce doesn't want to sell it, so they came up with all kinds of excuses to decline it. They even offered a Price 50% higher than the usual retail price. It's still fine if it's one or two pieces of equipment, but to purchase in such a large quantity, a 50% increase ... Even the martial League branch can't afford it!"

Lin Yi's lips twitched. If he couldn't afford it, he could just ask for funding from the higher-ups!

How could such a large organization like martial League lack this little bit of money?

"Lord Li, you don't seem to have much to do with this matter, right? Why are you so enthusiastic?"

Lin Yi guessed that the first hall Master couldn't take it anymore, so he came to the inspector to talk to him.

The whole situation was clear now, but Lin Yi was even more unwilling to help.

A first hall Master and a patrol were not good people. If he had the time to help them, he might as well sleep a little longer in bed!

It didn't matter if he could do it or not-it was a thankless job, and Lin Yi wasn't interested in getting involved.

"It's true that it doesn't have much to do with me, but I'm doing this for the sake of the public. Although martial League isn't under my jurisdiction, the Academy is still within martial league's jurisdiction. So, helping others is also helping myself!"

Li Zefa patted his chest as if he was a man of justice. He rolled his eyes and smiled at Lin Yi, "Steward Sima, actually, this matter isn't a bad thing for you! Originally, if you didn't cooperate with central, you would be a dispensable manager!"

"It's different now. He's become an important figure! I'm so proud to call you younger brother Sima. Actually, we're about the same. Today, I'll say something from the bottom of my heart!"

"I'm the patrol, in charge of the Academy, and you're the supervisor, in charge of the contact with the center. Both of these positions are quite powerful! If nothing happened, they might respect him, but if something happened, they had to beg him! It's time for you to make them beg for you!"

"Brother Sima, do you understand what I mean? Through this matter, your status will immediately rise. If you can handle this matter beautifully, you will be even more awesome! In the future, you'll be able to do whatever you want in the martial Alliance branch!"

Lin Yi wanted to say that he could do whatever he wanted in the martial Union's branch right now, and who could do anything to him?

But then again, what this guy said did make some sense!

Having the right to speak in the martial Alliance's branch would make their future operations easier and more convenient!

Hua Yao, who was at the side, couldn't interject and was somewhat embarrassed.

Li Zefa had said that in front of him. He couldn't refute him even if he wanted to. Because sometimes, he really had to beg this Bird Man ...

It was not like Hua Yao had never done such things before. Although Li Zefa did not say it clearly, he still felt embarrassed!

"Brother Sima, I'm not telling you this today to persuade you on what to do. I'm really thinking for you and want to give you some suggestions. Of course, you know what to do, so I won't say anything more!"

Li Zefa retreated in order to advance and put on a nonchalant tone, "I'll say one last thing. As long as you succeed this time, younger brother Sima, in the future, whether it's the martial Alliance or the Academy, they'll probably rush to curry favor with you. The benefits you'll get are self-evident, so you'd better consider it carefully!"

"Thank you for your advice, Lord li. I will consider it carefully!"

Lin Yi nodded indifferently. Li Zefa couldn't tell what he was thinking at all!

Li Zefa chatted for a bit more, and when he saw that Lin Yi wasn't in the mood to continue, he got up and left with Hua Yao.

## Chapter 8255

After sending the two off, Lin Yi made his decision and left the school for the martial union branch.

Lin Yi said that he wanted to catch up with the first hall Master after they arrived at the martial union branch, but the first hall Master came rushing over before he could even reach the first hall Master.

"Steward Sima, long time no see! "Why didn't you tell me that you were coming back to the martial union branch? I could've made some preparations. I told you that I would treat you to a good meal, and today is a rare opportunity. You must have a good drink or two. I'll send someone to prepare it right away!"

The first hall master's attitude was different from before-he was so passionate that Lin Yi couldn't stand it.

"First hall Master, long time no see! I'm here to find brother Hua today, so I won't hold up the first hall master's business. We'll talk about the meal next time!"

Lin Yi's expression was cold, not giving the first hall Master any face at all.

The smile on the first hall master's face froze, and he was somewhat embarrassed.

However, he quickly adjusted his expression and continued to smile. "It's Understandable, understandable that steward Sima is busy! However, I just happen to have something to discuss with steward Sima today. As the saying goes, it's better to meet by chance than to invite someone. How about having a cup of tea first?"

Seeing that they were about to reach the language of the living things, the first hall Master clapped his hands and said, "We don't have to go anywhere else. Let's talk about the language of the living things together today! This guy seems to have some good tea in his possession. It's just nice for him to contribute it for us to taste!"

Lin Yi didn't say anything. He entered the language first. He was here to buy equipment from central, and the language was just an excuse.

Even if it was to help the first hall Master, Lin Yi wouldn't go to the first hall Master himself. It would only make the first hall Master think that he was an idiot.

Lin Yi's appearance at the martial union branch, saying that he was looking for the language of the living things, was actually a chance for the first hall Master.

If the first hall Master didn't want to ask for Lin Yi's help out of respect, then he'd just drop the equipment. Lin Yi didn't really care, and he wouldn't lose anything.

As expected, the first hall Master immediately appeared beside Lin Yi after receiving the news, following him into the language of monsters.

"First hall Master, younger brother Sima, what wind is it today that actually blew you two over together!"

The artifact language came out with a surprised look.

Lin Yi and the first hall Master weren't on good terms before, so it was a little weird that they were together.

"I just happened to meet him at the entrance!"

Lin Yi said casually before exchanging a few more words with the language.

The first hall Master also shamelessly interjected and said a few words before they took their seats.

The artifact language knew that the first hall Master wouldn't come to the temple without a reason. He definitely had something to do today. As for what it was, he more or less knew in his heart.

"You guys take a seat first. I'll go prepare some tea and snacks. I'll be there in a moment!"

The artifact language found an excuse to leave, leaving the living room to Lin Yi and the first hall Master.

When it was only the two of them left, the first hall Master didn't beat around the bush anymore and went straight to the point, "Steward Sima, there's indeed something very important I want to discuss with you today!"

"Our martial Alliance has already decided to cooperate with the central Chamber of Commerce. The other branches have their own cooperation projects. Our naduo martial Alliance branch is in urgent need of a batch of excellent equipment, and this equipment is currently only available at the central Chamber of Commerce!"

"Steward Sima is the liaison between martial League and central. We still need steward Sima to step in for this matter! After all, when dealing with the central Chamber of Commerce, no one can do it more readily than steward Sima!"

Lin Yi's fingers tapped lightly on the table, a faint smile on his face. "First hall Master, if it's just buying equipment, anyone can do it, right? After all, the central Chamber of Commerce is open for business, so they can't push their business away. Do you want me to go and get a discount?"

After hearing this, the first hall master's face darkened, and the corner of his mouth twitched. He laughed dryly and said, ""It's good to have a discount, but it doesn't matter if you don't! In fact, the central Chamber of Commerce really doesn't want to do business with us. They even temporarily increased the price of the equipment by 50%!"

"Steward Sima, our martial union branch really needs this batch of equipment urgently. You should go to the central Chamber of Commerce and have a good talk with gray robe! As for the price ... It's fine if it's expensive, but the equipment must be delivered as soon as possible, and the quality must be guaranteed!"

Lin Yi raised an eyebrow, surprised.

He had thought that the first hall Master had come to him because Central's asking price was too high and ruthless.

Now, it seemed that the price was not much!

"Steward Sima, we had some misunderstandings before. It's all my fault. The equipment this time is really important! If steward Sima is angry, you can hit or scold me as you wish. I only hope that steward Sima can complete this matter!"

The first hall master's attitude became more and more humble as he spoke, and there was even a hint of pleading in his tone!

This time, Lin Yi was really shocked!

He had never thought that the first hall Master would actually recognize the wrong person. And his attitude was quite sincere!

"First hall Master, why is the martial Alliance's branch in such a hurry to purchase equipment? What happened?"

Lin Yi didn't say he'd help or not-he needed to figure out the reason first.

The first hall Master heaved a long sigh."It's indeed not good. A few nodes in the abandoned forest that our naduo martial Alliance branch is in charge of are unstable!" It's estimated that there's a possibility of continuous damage, so we have to make preparations to suppress the nodes on a large scale!"

"The situation this time is more serious, and it can't be easily dealt with. If we want to improve our combat power and success rate, we can only rely on the best equipment! This matter concerns the darkness magical beasts in the abandoned forest, so we can't be careless!"

Lin Yi blinked-the first hall master's worried face was really rare!

"Since it's related to the sealing node of the abandoned forest, I'll definitely do my best to help. I'll go to the central business meeting in a while and see if we can settle this matter!"

This was a serious matter, and he couldn't play dumb.

The first hall master's face lit up with a smile as he took out the list he'd prepared and handed it to Lin Yi with both hands.

"Steward Sima, please take a look. The equipment we need this time is all on this list! It didn't matter if the price was a little higher as it was negotiable. However, he had to complete the transaction as soon as possible! The situation is urgent and time waits for no one!"

Lin Yi took a look at the list-it was a huge amount indeed. Even if they were to trade at normal prices, the central Chamber of Commerce would still be able to profit greatly.

Now that the price had increased by 50%, it was even more of a huge profit!

The first hall Master didn't dare to bargain anymore. He just wanted to quickly buy the things and do the mission!

"Alright, I'll go to the central Chamber of Commerce now and try to negotiate with them. Whether it works or not, I can only try my best!"

Lin Yi kept the list and said goodbye to the beast before heading to the central Chamber of Commerce.

Chapter 8256

Lin Yi wouldn't be so concerned if it was just the head's own business, but he couldn't afford to delay it since it was related to the abandoned forest's sealing node.

They were racing against time!

They arrived at the central Chamber of Commerce and reported the grey-robed manager's name, and the worker brought Lin Yi into the secret room.

"Lin Yi, are you here for the equipment procurement plan for the martial union branch?"

Ling lingfa didn't stand on ceremony with Lin Yi and sat down casually. "You're the kind of person who doesn't come without a reason. If it's not this, then it must be something else. Anyway, you're not here to chat with me!"

"hehe ... you're quite clear about this! "since you know what i'm here for, i won't beat around the bush. let's get straight to the point. why didn't you make a proper deal with the equipment purchased by martial league?"

"hey, you're too heartless. i'm doing this to help you vent your anger! have you forgotten how that stupid hall master of the martial alliance's branch treated you?"

"no!" ling ling cried out in grievance,"if it weren't for your connections, why would i give up such a good business and purposely make things difficult for the martial alliance branch? is there any meaning to it?"

Lin Yi's lips twitched-this guy was still talking about him. "Don't talk nonsense, just say it! How can we complete the equipment purchase?"

"Oh, you're not even grateful. I've been so good to you. Do you remember how well I've treated you?"

Ling lingfa glanced at Lin Yi in disdain before knocking on the table with his knuckles. "Since you've come forward, everything's fine. I'm standing up for you. If you don't appreciate it, then forget it!"

"Alright, alright, alright. You're standing up for me. I appreciate it. Let's get down to business!"

lin yi waved his hand speechlessly. they'd met each other more than once or twice-they were all old acquaintances, after all.

if you have the ability, don't mention any additional conditions in this deal and just make a clean deal!

"look at how unwilling you are, it would be strange if you really appreciate it! forget it, for your sake, i'll give you a 10% discount on the normal price for this deal. is that good enough?"

ling ling sent a 'you've taken advantage' emoji. ""when you go to martial league later, you'll have a lot of face. you'll be able to suppress a group of people, and they'll have to beg you in the future!"

"Alright, then it's a deal! Goodbye!"

Lin Yi didn't waste any time and stood up to leave, making Ling lingfa anxious.

"Hey, hey, hey, I haven't finished talking, why are you leaving! Sit down!"

Ling lingfa's face changed into a smile. "Look, I've given you so much face. Shouldn't you return the favor? at least give me some face?"

"Ha ... I knew you weren't that kind. Just tell me what you want to do. Stop beating around the bush!"

Lin Yi's lips twitched-he'd already expected it, so why was he acting all high and mighty?

"Actually, it's not a big deal. The equipment that martial League is purchasing this time is to suppress the sealing node in the abandoned forest, right?"

Although this matter was classified, it was not at the level of top secret.

With Central's abilities, it wasn't hard for him to get to the bottom of this. Lin Yi only nodded, signaling for Ling lingfa to continue.

"As long as there's such a thing! "Our central Chamber of Commerce is willing to complete this equipment purchase transaction, but there's an additional condition. When martial League goes on a mission, the central Chamber of Commerce must send a few people to follow along the entire time!"

"We don't have any other intentions. We just want to follow you. We won't participate in the battle, and we won't cause any trouble for you. The people from martial League can treat the people we send as air. We won't hinder them in the slightest."

"It's just a small request. As long as the martial Alliance's branch agrees, the equipment purchase transaction can be carried out immediately. All the required equipment has already been prepared!"

Lin Yi raised an eyebrow-what was the purpose of the central Chamber of Commerce following them without helping or causing trouble?

There was an 80% chance that they were there to collect data and samples of the darkness magical beasts!

Central had done this a lot in the abandoned land, and Lin Yi was well aware of that.

Even if they didn't agree, it was useless. Central naturally had other ways to achieve their goals.

Since he could not stop them, then there was no need to. After all, this batch of equipment was rather important to the martial Alliance branch!

"I have no objections. However, the final decision will still depend on the martial Alliance's branch. I don't have the final say!"

Lin Yi shrugged and stood up."I'll go back and tell them right away. If the martial union branch agrees, then you can go on with your business. I won't be involved!"

"No problem! Then I'll leave it to you! Happy cooperation!"

Ling Ling sent Lin Yi out with a smile. Not only did she complete a big business deal this time, but she also did Lin Yi a favor. At the same time, she also completed her strategic goal of cooperating with the martial union branch, and planted someone in the branch's mission team.

It was perfect!

The first hall Master felt that this was a perfect plan after getting Lin Yi's reply!

"As expected of steward Sima. As soon as he stepped out, he settled the matter, and it was so beautifully discussed! You've really worked hard!"

The first hall Master laughed out loud, and the stone in his heart finally fell to the ground. "With this batch of equipment, our people can immediately rush to the abandoned forest and start suppressing the strange seal nodes!"

"First hall Master, don't forget that there's an additional condition for the central Chamber of Commerce. They'll have someone to follow you the entire time and observe your actions and battles ..."

Lin Yi reminded him out of kindness-if the first hall Master rejected this condition, then it'd have nothing to do with him anymore!

"What's the problem? As long as they don't cause any trouble, they can follow us however they want!"

The first hall Master didn't care at all. In his opinion, how could such a trivial matter be considered an additional condition? Funny!

Compared to this large amount of equipment, following a few people to watch the show was really nothing!

Lin Yi didn't know what to say. He nodded. "Alright, since you have no more questions, then you can complete the deal on your own. I won't get involved anymore!"

Since the first hall Master had agreed to Ling lingfa's additional conditions, there were no more obstacles in this transaction. As long as they handed over the money and the goods, it would be over!

"Steward Sima, you've been of great help this time! You've done a great service for the martial Alliance. As long as we can successfully suppress the threat of the sealed node, you'll definitely be given the greatest merit!"

The first hall Master was very happy, and naturally didn't hold back on his praise, "It's our martial league's fortune to have a talent like steward Sima, and it's also this Lord's fortune! In the future, steward Sima, if you need anything, just ask. As long as this Lord can do it, there will be no second words!"

"Thank you for the praise, first hall Master, I'm ashamed!"

Lin Yi's face was calm-he'd just listen to the guy's words on the spot and forget about it after-if he'd kept his word, he wouldn't have been kicked out again and again!

Lin Yi would be an idiot if he still believed him!

Chapter 8257

"For the next transaction, first hall Master, you can follow up on it. I'm going to talk to brother Hua. I was in a hurry just now and didn't have time to chat with him!" He said.

Lin Yi found an excuse to leave, and the first hall Master didn't ask him to stay. Instead, he sent Lin Yi off personally, only stopping when he was out of the yard door. It was already giving Lin Yi a lot of face!

He went to the artifact language and told them about the equipment purchase. The artifact language bowed to Lin Yi and thanked him after hearing the result.

"Brother Hua, what are you doing?"

Lin Yi quickly avoided it and looked at the monster language, ""You're suddenly doing this out of the blue, trying to scare me?"

Hua Yu immediately smiled and said,"brother Sima, how am I scaring you?" I'm really grateful to you! You should know how serious the consequences will be if the seal node is destroyed!"

"Without this batch of equipment, this mission would have been extremely dangerous. With your help, our success rate will increase a lot!"

"The sealing node in the abandoned forest is in danger. We have to go to help as soon as possible. Without the equipment, we can only brace ourselves. If it weren't for your help, we would have set off in a day or two!"

"I've already been preparing the things, and I'm waiting to assemble and set off for the abandoned forest! If we can return safely this time, it's all thanks to you, younger brother Sima! This is why I want to thank you, and on behalf of all the people who participated in this operation!"

Lin Yi didn't say anything. He was loyal to the public, after all, and that was what Lin Yi admired about him.

"Brother Hua, how about I go with you this time? I should be able to help a lot!"

Lin Yi thought about it and finally suggested this. With his attainments in array Dao, it could be of great use.

of course, the language of beast transformation wanted a formation master like lin yi to go with them-it was more useful than ten or twenty masters, but considering lin yi's status, he shook his head and refused.

"brother sima, your status is different now. you're the link between martial alliance and central. furthermore, you're no longer under the naduo martial alliance branch, so you can't participate in the operation of the martial alliance branch this time!"

the artifact language's words were direct and reasonable."in theory, the martial alliance's branch should be able to handle this operation. you should stay out of it, or you'll be in danger!"

with lin yi's ability to guide, going to the front line himself would be of great help, but staying in a safe place and raising more talents was a more meaningful thing.

and so, he rejected lin yi's offer to travel with him, telling him to stay in the school and teach.

lin yi nodded, not insistant. if the martial union branch couldn't hold on any longer, he'd call on the mentors and elite students to help, and he'd still have time to go then.

"Brother Hua, here are some pills I personally refined for you in case you need them! At a critical moment, it might be able to save your life, and at the same time, it can also guarantee that the people around you have a higher chance of survival!"

Lin Yi took out a bunch of Jade bottles and gave them to the monster transformation language. They were all filled with healing pills. As Lin Yi said, a good pill was like an extra life in a critical moment.

The last time the monster language and the first hall Master did a mission together, if they had a healing pill of this level, they would not have been beaten back so badly!

"Old brother, you're welcome. This is a life-saving item and is very useful! We're brothers, so there's no need to thank you!"

The monster language took the pill and put it away with great joy.

the two chatted for! while more before lin yi left.

when he returned to the fuyao pill refining school, his four disciples were all in the classroom. however, the situation was a little off. tang yungui's face was swollen and he had clearly been beaten up.

qin mengzhen and the other two looked angry. lin yi thought that the three of them were bullying tang yungui!

"what's the matter? what are you guys doing here instead of cultivating? what's wrong with tang yungui?"

"master!"

"Master!"

.....

The few of them quickly bowed when they saw Lin Yi enter. Qin mengzhen quickly said,""Master, Junior Brother was beaten up in the Academy. We asked him who did it, but he refused to say! This is really infuriating!"

"It is! Junior Brother Tang, now that master is here, you can't hide anything from him, right? Hurry up and tell us, who dares to mess with the Grand Duke and even dare to bully our Junior Brother, don't you know master's prestige?"

MA pijing was also indignant and wanted to find someone to fight.

Tu Gelao didn't say anything. He just nodded in agreement with a serious expression. At the same time, he clenched his fists so hard that cracking sounds could be heard.

In their eyes, they could not care less about how Tang Yungui had been bullied in the past. It was all in the past. Unless Tang Yungui asked them to help him take revenge, they would not care.

But now, it was different. Tang Yungui had become Lin Yi's disciple and was their Junior Brother!

If someone dared to touch Tang Yungui, it meant that they were looking down on their senior sisters and brothers, and it was a slap to Lin Yi's face as their master!

To put it more seriously, this was an insult to their sect!

It was normal to fight to the death!

But Tang Yungui refused to say who hit him, even in front of Lin Yi.

Qin mengzhen and the other two were anxious. They wanted to pry open Tang Yungui's mouth and let him explain clearly.

Lin Yi looked at Tang Yungui thoughtfully and smiled. "You guys don't have to ask. Tang Yungui has his own reasons for not telling us."

"There are no cowards under my wing. Tang Yungui didn't say anything because he didn't want you to get involved. Some things are more meaningful if you solve them yourself!"

"Seeking help after being bullied and taking revenge this way is not what Tang Yungui wants. He would rather do it with his own abilities. Am I right, Tang Yungui?"

Tang Yungui didn't say anything but nodded slowly to show that Lin Yi was right.

"So it's like this! Little Junior Brother, you're very ambitious! Senior Sister supports you!"

Qin mengzhen came to a realization. She patted Tang Yungui's shoulder. "Then work hard! You won't have to wait too long if you cultivate with master. Soon, those who bullied you will all be kneeling at your feet and begging for your forgiveness!"

"Many thanks, Senior Sister!"

Tang Yungui finally spoke, but his voice was a little hoarse. He didn't know if it was because of his injury or because he was in low spirits.

"Alright, all of you can continue with your cultivation. Don't waste any more time here! Tang Yungui doesn't need your help, but you can't lose to him. Otherwise, you'll be the ones being bullied in the future!"

Chapter 8258

"tsk, master, you're too exaggerated. look at the entire fuyao apothecary school, who would dare to bully us? little junior brother has just entered the sect. if he doesn't bully others after a long time, they should be thanking their lucky stars!"

qin mengzhen's face was filled with disapproval. the three of them had never been worried about being bullied.

not to mention lin yi's status and prestige, just qin mengzhen's status as a princess was enough to stop anyone from messing with her.

other than that, under lin yi's guidance, the three of them had undergone earth-shaking changes in their strength. they weren't afraid of anyone in the same level.

or rather, at their age, the three of them were already heaven's favorites!

as qin mengzhen had said, tang yungui had only joined the sect for a short time. his strength had not improved greatly.

once he made a qualitative leap under lin yi's guidance, no one in the entire fuyao alchemy school would dare to provoke him!

After all, this was still the alchemy School. A group of alchemists couldn't be compared to Lin Yi's disciples!

"Tang Yungui, you should continue to practice alchemy. Once you have mastered it, I will teach you further alchemy knowledge!"

Lin Yi waved his hand.

"Yes, master!"

Tang Yungui bowed and accepted the order. He immediately threw himself into his New Alchemy work.

Lin Yi looked at his back and nodded. This guy's heart wasn't bad, he was steady and not impulsive-he was a talent for big things!

Tang Yungui's face was swollen as if he had been beaten up badly, but Lin Yi knew that he was not completely helpless.

Not to mention anything else, just the heaven and earth Spirit Fire that he could control freely, if it was suddenly activated, the people who bullied him would probably be turned into ashes!

In the end, Tang Yungui would rather be beaten up than take out the heaven and earth Spirit Fire to fight. He was clearly following Lin Yi's order.

Lin Yi was especially pleased with that-the kid had potential!

So Lin Yi didn't care about the people who bullied Tang Yungui. These guys would be Tang Yungui's whetstones in the future.

It would be a pity to get rid of them now. They could be used to sharpen knives in the future and display their remaining value!

The whole thing was settled just like that-no one was going to talk about it until it was dug out, and Lin Yi started to guide the four little ones in their training.

The transaction between martial League and central went smoothly, and the transaction was completed early the next morning.

By noon, the people of martial League had finished assembling. After distributing their equipment, they set off for the abandoned forest!

This time, it wasn't just martial league's internal fighting force. At the same time, they had also recruited a group of people outside of martial League to assist them.

for example, the teachers of the various great academies. however, the fuyao apothecary school was not on the list.

so lin yi didn't know that there would be instructors participating in this battle. he thought that the first hall master was very confident and had brought the martial league's internal members to the abandoned forest, so it shouldn't be too dangerous.

the reason for lin yi's misconception was that no one in the school had been recruited.

the operation of the entire academy was no different from usual. all the instructors were attending classes according to their schedule.

the reason why the first hall master did not recruit any teachers from the fu yao apothecary school was because most of them were apothecaries, and their combat strength was not strong. if they were to be injured, the humans would be the ones to suffer.

secondly, it was to give lin yi face, so that he wouldn't have to apply for the recruitment of the fuyao pill refining school.

a few days later, lin yi was still teaching his disciples when he heard the bad news that the xuanji martial alliance branch failed to seal the abandoned forest!

a few nodes had already been destroyed. the darkness magical beasts had entered the abandoned forest, and the people of the martial alliance's branch had to defend with their lives. they had fought a bloody battle, and only then had they temporarily stopped the darkness magical beasts from rushing out of the abandoned forest and attacking the cities outside!

"How could this be? Shouldn't the first hall Master be very confident after obtaining the Central's equipment?"

Lin Yi received the news and was shocked. He pulled Zhang Yiming over and asked, "Yiming, did you find out what happened?"

"I'm not too sure about the exact situation. The news from the outside is also fragmented, and there's no complete information. The only thing I'm sure of is that the martial Alliance's branch has lost the battle this time!"

Zhang Yiming's expression was solemn, and his heart was heavy. "This time, not only did the martial Alliance branch lose many people, but the various great academies also lost many instructors. It can be said that they've suffered a serious blow ..."

"wait! you're saying that the teachers from the various academies are also participating in the battle?"

lin yi was shocked-he'd never heard of this before, and he'd always thought that only the martial union branch would be going!

"right ... boss, don't you know? "because more than half of the battle generals of the martial union branch's combat association have left, the martial union branch is severely lacking in combat power. that's why they've temporarily recruited instructors from the academy to participate in the battle. however, this isn't a rare occurrence. there have been many precedents, so no one found it strange!"

zhang yiming felt that something was wrong. more than half of the battle association's battle generals had left. where did they go? he went to lin yi's side!

Wouldn't that be accusing boss of poaching?

Lin Yi didn't have the time to care about Zhang Yiming's thoughts. He felt a chill down his spine.

Those battle generals were indeed important combat power. He had considered whether or not to hand them over to the martial Alliance branch so that they could be useful in this battle.

But the hall Master and the language of monsters didn't mention this, and Lin Yi subconsciously thought that they had enough combat power to deal with it.

These generals were training with Fei daqiang, and Lin Yi didn't want to interrupt their training unless it was absolutely necessary!

He didn't think that the first hall Master, this idiot, would rather recruit teachers than ask Lin Yi to lend him this group of shocking battle generals!

Idiot!

Lin Yi was both anxious and angry, he couldn't help but tighten his grip on Zhang Yiming's palm, causing Zhang xiaopang to grimace in pain, feeling like his bones were about to break!

"Boss, boss! It hurts, it hurts, it hurts!"

Zhang xiaopang couldn't take it anymore and cried out in pain, which woke Lin Yi up.

"I'm sorry, Yiming, I lost my composure!"

Lin Yi quickly let go and apologized, "Do you have the list of casualties? Is the language of the living things alright? And did Luo caidie participate in this battle? Is she alright?"

Transformation language and Luo caidie were the people Lin Yi cared about the most. He lost his composure because he was worried about them.

"Boss, the information is not very clear. I only know that in this battle, a vice Hall Master of the martial Alliance branch went missing. I don't know who exactly it is. Other than that, a few other instructors also went missing, and there are more dead than missing. Whether instructor Luo caidie was among them ... I'm not sure!"

"The Alliance Academy is one of the key colleges that was recruited. Many teachers went there, and teacher Luo caidie was one of them, so I can't be sure if she's safe and sound ..."

Lin Yi didn't know what was going on-it wasn't too certain ... The only thing he was sure of was that the two had gone to the abandoned forest!

Chapter 8259

A missing vice Hall Master of martial League ... Could it be an object language?

There were quite a few vice heads in the martial union branch, but Lin Yi didn't know how many were there this time!

Whether it was Gu Shi or Ouyang Changqing, they would be the best ones to go missing ...

"Boss, this recruitment doesn't include alchemists, so no one from our Fuyao apothecary school applied. Similarly, Ouyang Changqing didn't go to the abandoned forest, so the missing vice Hall Master is definitely not Ouyang Changqing!"

Zhang Yiming seemed to have read Lin Yi's mind and explained in a low voice. Lin Yi's heart went cold!

Ouyang Changqing did not go at all, so the possibility of the language of the living things going missing had greatly increased!

"Boss, the martial Alliance's branch has already issued an emergency summons. They're summoning all the martial artists who are willing to fight and suppress the darkness demonic beast to head to the abandoned forest to fight together!"

Zhang Yiming didn't finish his message. "This order is also a mobilization order. Mobilize all those who have combat ability to participate. No matter how strong they are, even if they have to pile up, they must pile up the dark Demon beast to death!"

Lin Yi didn't know what to say-what did he mean by "combat ability"? Those low-level Warriors could also fight, but could they fight against the darkness demon beast?

It was still okay to deal with the darkness spirit beasts, but against the darkness demon beast, it was simply courting death, okay? He even said that he wanted to pile up the darkness magical beasts, but he was clearly sending food to his door and wanted to stuff the darkness magical beasts to death.

He did not know which idiot came up with such a bad idea ... The Great Hall Master and the language of the living things had both gone to the abandoned forest, but he did not know if Gu Shi had gone or not.

Perhaps Ouyang Changqing was the one in charge of the martial Alliance branch now. It was very possible that this guy would do such a brainless thing!

"Yiming, find Fei daqiang and ask him to gather all the generals. We're going to the abandoned forest!"

Lin Yi made up his mind instantly. He had to go to the abandoned forest. Whether it was to confirm the safety of the language of manifestations and Luo caidie, to fight the dark Demon beasts, or to seal the node again, he had to go there himself.

And those battle generals would be the most important battle power!

After Fei daqiang's training these days, not only did their individual strength improve by leaps and bounds, but their battle formation cooperation had also reached the point of perfection!

An actual battle would be the best touchstone!

"Yes, boss! I'll go find Fei daqiang now!"

zhang yiming cupped his fists and quickly left the fu yao apothecary school to inform fei daqiang of the battle general's arrival!

when zhang yiming found fei daqiang, he had just finished a new round of special training with the battle generals. if he had come a little later, he might have dismissed them all!

"what? the alliance army of the martial alliance and the academy had suffered a crushing defeat in the abandoned forest? the artifact language might have gone missing? there's no news about Luo Caidie either?"

Fei Da Qiang was shocked when he heard this news. He had been busy with the special training of the battle generals and had not paid attention to the outside world. He really did not know that so many things had happened!

"That's right. That's why the boss ordered you to gather and wait for orders. We're about to set off to the abandoned forest to provide reinforcements!"

As soon as Zhang Yiming finished speaking, Lin Yi came in and nodded to himself when he saw the warrior-general team in peak condition.

"Everyone knows! Many of the sealing points in the Forsaken forest have been destroyed, and the situation is quite critical. Although the Alliance Army of the martial Alliance and the Academy has failed, they're still putting up a strong resistance, resisting the darkness magical beasts and not letting them out of the Forsaken forest!"

Lin Yi's face turned serious as he scanned the room. "Our combat power is no longer the same as before, and we will be an important bargaining chip against the darkness demon beast! Therefore, I'll immediately take you to the abandoned forest to join the battle. I won't force anyone who doesn't want to go. Now, step out and you can leave!"

"I promise I won't look into those who leave, and I won't let anyone do anything to you. So if you really want to leave, you don't have to feel any burden! Is there anyone who wants to step out?"

"Boss, we were originally battle generals, and fighting darkness magical beasts is our duty! Even if we leave the combat Association, this is still a responsibility that has been integrated into our blood! I believe that all my brothers have the same thought! We will never be deserters!"

zhang butong roared with a reddened face. even without the title of battle general, they still had the dignity of a battle general!

"fight!"

"fight!"

"fight!"

all the battle generals roared in unison, their battle intent soaring into the clouds!

not to mention deserting, every battle general wanted to tear apart a hundred darkness magical beasts to prove that their blood was hot!

Fei daqiang clapped and laughed, "good!" Well said! I told you, none of the brothers that I, Fei daqiang, have brought out are cowards! What were darkness magical beasts? In front of us, it's just a dish!"

"Brothers, train your soldiers for a thousand days, use them for a moment, train for a thousand days, and draw your swords to subdue demons! It's time for us to show our true strength and let the entire sub-Island know how powerful we are! After this battle, everyone will know that we are ..."

Fei daqiang suddenly stopped and turned to Lin Yi, "Boss, Who are we? Shouldn't he give her a more resounding nickname? Or should I continue to use the name of blood ghost?"

Lin Yi's mouth twitched. You're still in the mood for nicknames?

However, Zhang Butong and the others were all looking at Lin Yi with eyes full of passion, as if they were looking forward to a name that would make the team stand out!

Needless to say, Fei daqiang must have bragged in front of them about how powerful the blood ghost was and how it was so famous that it made the enemies tremble in fear.

Originally, they were all battle generals of the combat Association and did not need another designation. However, it was different now. They were just stragglers and no one would remember their Valiance even if they showed off their brilliance in battle!

It seemed that he had to give them a status today!

It was not impossible to use the blood ghost, but the blood ghost was a troop of a low-level Empire. The combat generals were proud. If they used the blood ghost, they would not be satisfied even if they did not say it!

But Lin Yi couldn't think of a name that would make a name for himself right now, so he had to borrow one from the common world!

"Hmm ... From today onwards, our team shall be named the feather forest!"

The sub island's Empire and Kingdom didn't have the name, so Lin Yi didn't feel any pressure using it.  
"Wings for the people, like the prosperity of the forest, for the Imperial Guards!"

All of the battle generals froze for a moment, carefully savoring Lin Yi's words, and then their blood started to boil!

Chapter 8260

"wings for the people, like the prosperity of the forest! the feather forest! the feather forest!"

"wings for the people, like the prosperity of the forest! the feather forest! the feather forest!"

"Wings for the people, like the prosperity of the forest! The feather forest! The feather forest!"

A unified shout, arms raised high. In this instant, the morale of all the battle generals rose once more, surpassing their peak!

Fighting against the darkness magical beasts was to protect the people, so this name was very appropriate!

The Imperial Guards!

"Boss is wise! The Imperial Guards were the most suitable! From now on, boss, you are the commander of the Imperial Guards, and I, Fei daqiang, am the Deputy commander of the Imperial Guards!"

Fei daqiang laughed shamelessly, taking the Vice-commander position for himself first. Lin Yi couldn't help but smile and didn't bother to talk to him!

In fact, Fei daqiang was indeed the Vice commander of the Imperial Guards. Among all the battle generals present, other than Lin Yi, Fei daqiang was the only one they would respect!

"Alright! Everyone, get ready. We'll be leaving in five minutes! The situation in the Forsaken forest is critical, and we can't wait. We must go and provide reinforcements as soon as possible!"

Lin Yi clapped his hands and called out, "disband for now, everyone get ready! You only have five minutes!" The Imperial Guards will move out in five minutes!"

"Boss, we don't need to prepare anything. We can set off now!"

it was still zhang butong who spoke on behalf of the battle generals. they had all entered the nine story pagoda before, so they were used to carrying good things with them.

no matter if it was equipment, tools, or pills, they could only be used to their greatest effect if they were carried with them. therefore, this was a battle where they could leave whenever they wanted!

lin yi didn't think they'd be this efficient. they didn't need to prepare anymore-that was good!

"yiming, stay in the imperial capital and continue to collect information. pay attention to the martial alliance branch. we don't know if ouyang changqing and the others will go over to provide reinforcements this time. if they're still here, there might be some strange movements."

"you only need to collect information. don't fight them head-on. wait for me to come back! also, help me keep an eye on qin mengzhen and the others. don't let them cause any trouble ... usually, no one will bully them, so it's most important not to cause any trouble!"

"Also, take care of the medical center and the pill shop. Prepare a large stock of pills. We'll probably use up a lot of pills in this battle, and we'll ask you to send a batch over ... Even if we don't have to send them to the abandoned forest, the team will definitely need pills to treat their injuries when they return!"

Lin Yi wasn't doing this to earn money-he was purely saving lives. After the battle, more pills would save more lives!

Everyone who participated in the battle in the abandoned forest was a hero of mankind!

"Don't worry, boss. I'll remember it! I definitely won't let you down, boss!"

Zhang Yiming nodded seriously. He wanted to go to the abandoned forest with Lin Yi, but he knew that he wasn't strong enough to help. He could only use his full strength by staying in the capital!

After making some simple arrangements, Lin Yi brought the newly formed Imperial Guards to the abandoned forest as reinforcements.

At this time, Lin Yi was most worried about the beast and Luo caidie-he really wanted to fly over there!

He didn't have a pass token when they reached the outer seal, so he broke it without a second thought and closed it again with the team.

They hadn't walked very far into the abandoned forest before they encountered two cultivators being chased by five darkness magical beasts. It could be seen just how intense the battle in the abandoned forest was, and that the area had expanded by a lot.

Fei daqiang didn't need Lin Yi's order and brought two people with him. They easily took care of the five dark beasts and saved the two martial artists!

"Many thanks for saving my life ... This must be President Sima, right?"

The two martial artists were brought to Lin Yi, and they recognized him immediately, but they still called him President.

"I'm Sima Yi. Are you two from the martial Union's branch? I don't think I've seen him before ..."

Lin Yi wasn't too sure-there were many people in the martial union branch, after all, and it was normal to forget someone's face even if they'd met before.

"No, no, no. We're not from the martial union branch. We're instructors from the yellow jade Academy. We've met President Sima at the medical Hall before, but I don't think he knows us!"

The person who had spoken earlier quickly explained,"it looks like President Sima has brought people to support us, right?" Let's not delay any further, we'd better hurry over. The people from the martial union branch can't hold on any longer!"

"Where are the people from the martial Alliance branch? I'll immediately go over to support them!"

Lin Yi panicked and didn't continue talking to the two. After getting the direction, he led the team and rushed over.

It wasn't long before he saw the first hall Master and the people around him, struggling to hold on.

Rather than saying that they were encircling the darkness magical beasts that had come out of the node, it would be more accurate to say that the darkness magical beasts were encircling them.

If Lin Yi didn't come, the hall Master's Men would collapse in another two to four hours!

"Kill!"

Lin Yi didn't say a word and charged forward.

"wings for the people, like the prosperity of the forest! the feather forest!"

fei daqiang and the other generals shouted in unison and followed lin yi closely, forming a huge battle formation and entering the dark beasts formation.

seeing the sudden arrival of reinforcements, the hall master and the exhausted practitioners were invigorated as if they had been injected with chicken blood. they exploded with all their strength and started to counterattack with lin yi's team.

however, even though their morale had risen, their combat strength had already reached its limit. at the same time, they could not keep up with the rhythm of the imperial guards 'battle formation.

they could only stand on the outside as support, and the main damage output was still lin yi's imperial guards!

the complexity of a large-scale battle formation was far beyond that of a basic battle formation, and its corresponding power was also incomparably great.

adding on the fact that the strength of the battle generals in the battle formation had increased by leaps and bounds, the darkness magical beasts were like tofu when they encountered a sharp blade. they could not stop the battle formation at all.

The unstoppable offensive raised everyone's morale and fighting spirit, and the battle turned into a one-sided slaughter almost instantly.

These darkness magical beasts had developed their intelligence long ago, and when they realized that the situation was not good, they immediately started to escape.

However, they didn't have a high-level darkness magical beast to command them, so they couldn't retreat in an orderly manner. As such, their escape was only an escape, and it quickly became a rout!

Lin Yi wasn't going to let them go as he chased them back to the node and started repairing the seal and rebuilding the formation!

The first hall Master wanted to thank Lin Yi for saving his life, but after seeing Lin Yi's skilled formation and seal repair technique, he was dumbfounded and speechless for a long time.
